Lincoln Letter.

Lincoln, Neb., August 9, (Special Correspondence)—The withdrawal of W. R. Patrick, who had filed for the democratic nomination for governor, simplifies the situation somewhat. Not that Patrick promised to cut much ice in the primaries so far as vote getting was concerned, but his mere presence as a candidate prevented a clarifying of the situation. The Patrick candidacy was inspired by his own egotism and overwhelming belief in his own importance as a political factor. He withdrew because he saw an opportunity for further self advertisement—a greater advertisement than he was calculated to get out of the size of his vote.

Governor Shallenberger spent a goodly portion of last week in Omaha getting evidence in the quo warranto proceedings he has instructed the attorney general to take against four republican members of the Omaha fire and police board and Chief of Police Donahue. The complaints against these officials were filed by Commissioner Karboch, himself a republican.

Victor Rosewater lost his injunction suit in the Lancaster county district court, and as a result Secretary of State Junkin has been compelled to certify to county clerks all democratic-populist filings on the payment of a single fee. This is in line with Junkin's first opinion and the opinion of the attorney general. Rosewater managed to change the Junkin mind, but the court happened to have the last whack at the mind changing business, hence the Junkin mind took another flop back to the original opinion.

In as much as Governor Shallenberger is the only candidate for governor who filed on the populist ticket, there is no contest on his nomination by that party. For this reason a great many populist friends of Governor Shallenberger will vote the democratic ticket at the primary in order to offset the extreme wet vote in the republican party which will go to Dahlman.

Mr. Aldrich, who seems so far in the lead as a candidate for the republican nomination, is making a great display of his enthusiasm for county option. But there are thousands of county optionists who remember that it was this same Aldrich, who, as a state senator in the session of 1907, was the man who led the anti-county option forces and had the most to do with defeating the county option bill. These people have very little faith in the sincerity of a man who will so suddenly change his mind for the purpose of getting a little more wind in his political sails.

The democratic filings for nominations on the state ticket are as follows:

For Governor—Ashton C. Shallenberger; James C. Dahlman.

For Lieutenant Governor—Ralph A. Clark; William H. Green.

For Secretary of State—Charles W. Pool; Dr. T. A. Gatewood.

For Auditor of Public Accounts—P. J. Hewitt; O. E. Bernecker.

For State Treasurer—Phelps D. Sturdevant; James H. McGinley; George E. Hall.

For State Superintendent—William E. Jackson; Charles Arnot.

For Attorney General—Menzo W. Terry; C. H. Whitney.

For Railway Commissioner—Ben H. Hayden; W. C. Brooks; W. F. Porter; Victor E. Wilson.

For Land Commissioner—W. B. Eastman; C. F. Bueshausen; E. W. Fleming Jr.

For United States Senator—Richard L. Metcalfe; Gilbert M. Hitchcock; Willis E. Reed.

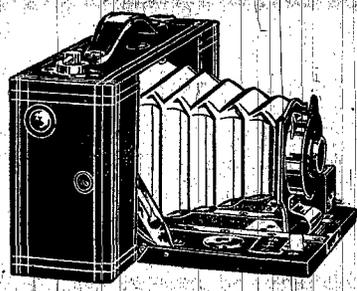

In his campaign literature Mr. Aldrich declares that he "favors compulsory arbitration of disputes between labor and capital." This will not be received favorably in Douglas and Lancaster counties where organized labor is a considerable factor. Organized labor, while favoring compulsory investigation upon application of either party to a dispute, is opposed to permanent arbitration boards and compulsory arbitration. That this is a well rounded opposition will be admitted when it is remembered that the same capitalistic that so often secure control of the courts can, also, secure control of arbitration boards and use them for their own selfish ends. Organized labor is willing to accept—in fact courts—compulsory investigation by a board in which it has some voice in selecting, being willing to have such an impartial board and make public findings. The weight of public opinion, after the public has fully digested the impartial and unbiased findings, will serve to settle the dispute rightly. But Mr. Aldrich will find his compulsory arbitration plank bitterly opposed by wage earners who have already had sad experience in resting their cases before packed tribunals.

Not Sometimes

The Great Western Cream Separator
Guarantees the Highest Type of Up-To-Date Construction

When you buy a cream separator you should demand an "up-to-date" machine. Don't buy a machine that was "in style" ten years ago—a high tank, exposed gears—plain bearings set in holes cut in cast iron frame are all evidences of a back number.

The Great Western is made throughout with the absolute accuracy of a high grade watch. Skims closest (hot, cold or stale milk) because it follows every law of nature. Equipped fully with imported ball bearings—guaranteeing the lightest running separator in the world. High crank, so the operator doesn't have to break his back. Self-flushing, self-draining bowl—gears enclosed, which work automatically in a bath of oil. Low down tank—low down and compact frame.

The Great Western carries the strongest guarantee ever issued—it protects you for five full years.

We furthermore guarantee satisfaction to you—any kind of a trial, without one cent of expense to you, or obligation either.

COYOTES BAITED
BY VIOLIN MUSIC
AND THEN KILLED

Thirty-One Carcasses Are Found Old Bars Where Work of the Slayer Is Completed.

Eliz., Neb., Aug. 6.—Having read of music being used to induce cows to give larger quantities of milk and the playing of a mouth organ charming birds, John Peterson, a rancher south of here, has tried the violin on coyotes and with great success.

John Peterson is an artist on the violin, playing for all of the country dances and filling an important niche in a local orchestra. Here he has the reputation of "making a violin talk."

Seating himself on a soap box in the door of the stable and grasping his violin, Peterson commenced to play. He ground out, "Howdy, Dream."

Peterson saw a wolf on his violin, but not a coyote. He was within range of Henry's rifle. Then Peterson concluded to try something more plaintive.

BRADSTREET AND DUN REPORT ON BUSINESS

Trade Still Quiet, but Advancement Is Shown in Some Lines.

THE WEEK IN GRAIN.

New York, Aug. 8.—Wheat, including export, rose 1/2 cent. United States for the week ending August 4 aggregated 1,375,730 bushels, against 1,348,745 last week and 1,537,533 this week last year. The five weeks ending August 4 exports are 6,322,743 bushels, against 6,526,235 in the corresponding period last year. The five weeks ending last week are 419,154 bushels, against 315,820 last week and 53,577 in 1904. For the five weeks ending August 4, corn exports are 1,177,625 bushels, against 822,145 last week.

New York, Aug. 8.—Bradstreet's Saturday said:

Trade reports are still quiet in fall demand, though the advance of the season and the force of crops toward demand at some of the leading centers, Chicago and St. Louis, report the first of the fall buying excursions helping to expand trade at those cities. Wheat harvest is making good progress. Reports from northwest winter wheat are still conservative. Cotton is still in good condition. Demand for goods at concessions. All the lines are slightly more active in some lines. Cotton goods feel the effect of the decline in the price of raw cotton. Prices are still active despite the rather heavy advance noted last week. Cottons are still showing little improvement and are at a low level.

In leading industries there are few new features. Building returns for July show a heavy decrease from a record of 1,000,000 in June. However, according to the census bureau, the demand for building materials is still quiet and the leading iron and steel mills are still working at full capacity. Demand for building materials is reported less active.

MILITIA CONTRIBUTING TO FUNDS OF STRIKERS

Columbus, Ohio, Aug. 8.—The second regiment, Ohio National Guard, will give the striking street car employees of Columbus, a money donation. ALASKA COAL LANDS SHOW GREAT VALUES

They Are Said to Be Worth More Than All Similar Lands in Eastern States.

Washington, Aug. 8.—Accessible coal of the best Alaskan fields—even at a half-bent a ton in the ground—is worth more than most of the coal lands in the eastern states, notwithstanding their location to lines of transportation and to market. This statement is contained in a bulletin issued by the geological survey today, under direction of George Otis Smith.

MILLIONAIRE SLAIN IN OHIO METROPOLIS

Murder of Prominent Cleveland Lawyer Promises to Develop a Sensation.

Cleveland, Ohio, Aug. 8.—The theory that William M. Rice, a wealthy attorney, found dead in his home in Euclid Heights village last night with two bullet wounds in his head, was killed by robbers was temporarily set aside this afternoon when Chief of Police Kohler, after examining Rice's chauffeur, John Grimes, announced that light had been thrown upon the case which might lead to startling developments.

DEW IS PREPARING FOR VOYAGE HOME

English Detective Vanishes From Sight and Adds Mystery to the Crippen Case.

Quebec, Aug. 8.—The continued absence from Quebec of Inspector Dew added another element of mystery to the Crippen case today. It is thought Dew's wish to escape unwelcome attention is not of itself sufficient to account for his trip to Montreal yesterday and his journey to Toronto and Niagara Falls begun last night. It is suspected that his mission is to arrange with the railway and steamship companies for the transportation of the country with less publicity than attended their arrival.

Miss Leneve is reluctant to receive any callers. A Church of England clergyman who visited the jail and heard the girl received from her the reply that she did not wish to see anyone.

Just one damn graft after another. What would we have left if all the rascals were turned out? Burkett?

It's wicked to die so durnd rich, Phil Sullivan. At least that's what Carnegie says.

There was four barrels and three cases of beer on one express wagon from the depot the other night, but the most interesting thing about this phase of prohibition would be to publish the names of the parties to whom the stuff is shipped.

Now the big dailies are busy telling what a shady record Jim Sherman had before the interests picked him for vice-president. Of course the big grafters wanted the best man they could get for their peculiar kind of business.

If Governor Shallenberger had about thirty days more time to write bluffing, boastful and borsome-if not absolutey untruthful-letters to Wayne democrats, he couldn't get the nomination for city scavenger-in Wayne-on the democratic ticket.

An exchange says that after all Col. Roosevelt didn't get so much for his African experience-only \$1 a word. Big Jim Jeffries sold his African experience for about \$200,000.

A whole lot of Wayne's married women never knew how rich they were in husbands until a price was put on Phil Sullivan's worth to a woman.

Some of the political literature received at this office the past week will make much more interesting reading after the primaries have been held.

A St. Louis preacher says he knows of fourteen different ways to hell. That makes it apparent that a man is a damnable to live in St. Louis.

Funny how a blind man can see to Gore the big grafters and all our brilliant Burkett can see is his wonderfully and fearfully made record as a progressive under the guidance of Joe Cannon.

A little girl recently asked her mother, who was wearing mourning for her father, recently deceased, why she did not wear black night gowns. The mother replied, "what an absurd question, child." The little one responded: "Oh, I thought you might beso sorry at night as you were in the day time."

The most interesting political debate of the week was between Will Jay of Lincoln and John T. Bressler. It was decidedly acrimonious and wound up by our townsman bitterly declaring that he would vote for even a democrat before he would vote for a progressive republican. "And, --, I'd vote for a democrat before I'd vote for a standpatter!" replied Jay. Say, it may be possible that we honest men may yet get our just dues-in politics.

A Carroll man, during his wife's absence, ate a lot of canary seed, mistaking it for breakfast food, and ever since he has been sleeping with his head under his arm.

An Iowa exchange complains that it is getting harder every day to tell "what is a republican?" No two state platforms in the entire country are just alike. There are "wet" and "dry" democrats, but "all colors" of republicans.

A Paris sailor has committed suicide by eating cotton wool and drinking water. The high cost of living kept him from being wild and wooly enough to eat dried apples; or maybe prohibition drove him to making his own cotton-gin.

Dr. Johnson declared the English language adequate to every purpose so far as thought is concerned, but he did not in his day know to what extremes the English language would be called upon in ours. There is nothing in the language adequate to express one's feelings when he has to dodge around a bunch of silly girls blocking the post-office entry way, or walking along arm-in-arm on walks where other people have a right to walk in the pursuit of business or pleasure. Sometimes a fellow is sorely tempted to use English as she isn't writ.

So many strangers are getting into the democratic party that it is no wonder the mule is kicking occasionally.

Winside wants a ball team and a band so that other towns will know that the place is good for something besides saloons, so demands the Tribune. The saloons are a plenty to draw the trade, sister. Keep your hat on.

Among other things claimed by Senator Burkett is that "he secured the free importation of breeding animals." Burkett was three years, seven months and fourteen days old when all animals for breeding purposes were placed on the free list, and there has been no change in the tariff affecting such importation since July 14, 1870.

Deck's Gun Was "Nixcumarous"

There was quite a "shooting scrape" in Judge Britton's court last Tuesday, several Hoskins parties, who appear to be "laying" for August Deck, getting badly stung. August was arrested by Sheriff Mears on complaint of the Hoskins marshal that the anti-saloonite was carrying concealed weapons. The only mistake the marshal appears to have made was in not finding out what kind of a gun Deck carried before taking him to task for it. When arraigned before his honor Tuesday Mr. Deck produced the weapon, a rusty old Sears & Roebuck with nothing but the hilt and barrel to make it look like a gun. Judge Britton promptly discharged the defendant and the county foots the costs. Witnesses appearing against Deck were Marshal Saase, Ben Ruhlo, Chas. Zlamer and Art Wilkinson. It would appear about time that Hoskins quit such foolishness, or else have somebody killed to make it worth while.

D. A. Jones Barn Burns to Ground

During the red-hot electrical display last night lightning struck the big barn on the D. A. Jones farm southwest of town, burning it up complete. All the stock but one horse was in the pasture and the hired man got the one out uninjured. 40 tons of hay, insured for \$50 went up in smoke. Mr. Jones says the building was worth \$1500 and he had \$1000 insurance on it in the Farmers Mutual of Omaha. Zeb Jones, who is farming the place, went to Page, Neb., yesterday evening with his family, leaving the man in charge. The barn was built a few years ago to take the place of one destroyed by fire.

About Animals coming with Gollmar Bros. Shows

Nearly all the great cities in the country possess public menageries which constantly buy wild animals; quixotic individuals frequently buy cubs of one kind or another ranging from tigers to bears; many wealthy Americans maintain private zoological parks of greater or less extent, and the score of large circus companies must be constantly supplied because of the high death rate among their animals. The record of imports of the Gollmar Bros. Shows for the past year is elephants, camels, tigers, lions, leopards, pumas, panthers and any number of small animals and birds. There are, enough wild animals now in the Gollmar Bros. winter quarters to stock a big show. All are never carried on the road, in case of accident, fire, etc.

Cubs-Tiger, lion, leopard and bear cubs, are in special demand by families. They are reared and petted like kittens, but they invariably come back to the dealers at a quarter of what sold for, or even as gifts. One eloquent letter which a dealer recently received from a woman who had purchased a lion cub a year ago, read, as follows: "Please come and take my lion away. She has eaten our Newfoundland dog."

"From appearances no one suspect the Siberian bear in the menagerie of comedy, yet it really laughs at the new sights it continually witnesses daily."

The Great Western Manure Spreader Proves It's Own Superiority

Ask the Man Who Owns One

Don't Let Anyone

Make you believe that a pine frame is as good as an OAK FRAME. You know oak is better-you know it will last longer

When Investigating Spreaders, take your knife and jab into the side and cross sills and pole and know for yourself whether they are pine or OAK.

The Original Endless-Apron Spreader

No spreader is the BEST unless it has the GREAT WESTERN construction; that means OAK FRAME (not pine); OAK BEATER BARS (not maple); OAK AXLE CAPS; Hickory Double trees and Single trees, OAK DOUBLE BOLSTERS, OAK BED STAKES, OAK CROSS PIECES, MALLEABLE 16-inch Fifth Wheel, Braces, Clips, and Parts (not cast iron).

Contains more Oak, Hickory and Malleable Iron and Steel than any other spreader in the world.

WE MEAN EVERY WORD OF THIS. Prove it yourself by trying a Great Western on your farm. The progressive farmer wants the BEST when you SHOW HIM. We want to SHOW every farmer who needs a manure spreader.

Don't Be Fooled---Do Your Own Investigating

When you buy a GREAT WESTERN, we guarantee to give you full value for every dollar you put into it---Not a dollar for talk or hot air. It's all in the machine. You can see for yourself. Ask any farmer that has a GREAT WESTERN spreader if he doesn't have LESS or any trouble or repairs than his neighbor has. We invite you to examine this spreader before you buy and are sure that you will see the SUPERIORITY of the GREAT WESTERN SPREADER over ALL OTHERS.

Man is Worth \$120,000

That's the Figure Mary A. Cauley Puts on Phil Sullivan, Because She Didn't Get Him.

BAD TO BE OLD AND WEALTHY

Man wants but little here, below—but here's a lady who wants Phil Sullivan or his equivalent—\$120,000.

Any one, to look at poor old Phil Sullivan, would hate to give 30 cents for him, from a woman's point of view, but Phil is worth his weight in gold from a financial standpoint, having a roll as high and enticing as the Alps in Switzerland. By a petition filed in the district court this day our friend Phillip is asked to split his fat fortune from center to circumference. Mary A. Cauley, who was a few years ago house-keeper for the local parish priest, is the appraiser in this instance. F. A. Berry of Wayne and Mike Harrington of the town of O'Neal are the attorneys who will endeavor to separate the big pot of coin from its present custodian, and the former tells the Democrat that they have the documents that will do the deed.

The petition recites:

- 1.—That in the month of Nov. 1906, both plaintiff and defendant being then unmarried, the plaintiff, at the request of the defendant, then promised the defendant to marry him, and the defendant then promised the plaintiff at the same time to marry her.

- 2.—The plaintiff, relying on said promise of the defendant, has remained sole and unmarried, and has been, and still is, willing to marry the defendant, of all which the defendant had due notice.

- 3.—That afterwards again on or about the 23rd day of Dec. 1906, the plaintiff and defendant agreed to be married in the middle of Feb., 1907, and plaintiff was ready to get married at that time, but defendant alleged that he could not then procure a suitable home and in February plaintiff and defendant again agreed to be married in April, 1907, and somewhere between the 15th and 25th of April, that when April came defendant again claimed that he had been unable to purchase a suitable home and asked to have the wedding postponed for a time, and plaintiff assented, and in the following month, May, the plaintiff and defendant again agreed that they would be married during the autumn of 1907; that plaintiff prepared for all of said marriages and has ever since the time she became engaged to defendant been ready to marry him.

- 4.—That again in October, 1907, defendant requested further postponement of said marriage; and plaintiff and defendant then agreed that they would be married in the spring of 1908; that since said time he has postponed the matter from time to time, and a reasonable time has elapsed since he agreed to marry plaintiff and since plaintiff requested him to marry her.

- 5.—That in October, 1907, she requested him to fix a definite time for said marriage, and that he postponed the same until the spring of 1908, and she afterwards requested him to marry her, but he now fails, refuses and neglects to marry her, and utterly refuses to consummate said marriage promise and agreement.

- 6.—That by mutual arrangement the promise of defendant to marry, defendant to marry plaintiff and of plaintiff to marry defendant was communicated to their relatives and friends, and by reason of the failure of the defendant to fulfill said contract of marriage to plaintiff, the plaintiff has endured great grief and great mental anguish and suffering and has endured great distress, mortification and disgrace, and the plaintiff has sustained damages in the premises, by reason of the failure of the defendant to marry her, in the sum of \$120,000.00; that sum is justly due from the defendant to the plaintiff, and no part thereof has been paid.

Subscription to the above is made by Mary A. Cauley in Antelope county. The plaintiff is a sister of Mrs. Wm. Shorten, who a few years ago moved with her husband from Wayne to Osmond.

Well, the farmer did go out but was cautious enough to take his shot gun in case he should see a gopher, he said. An article in the Sioux City Journal one day last week in regard to the death of Will Hiscox "little girl" was very misleading and not according to the information given the Journal by Mr. Hiscox. There is little foundation for the story that the child was made sick from eating poisoned candy. She had been ill previous to eating the sweets, and it was bad for her to have eaten any kind of confectionery. Mr. Hiscox did not and will not send some of the candy away for analysis as the Journal stated.

Dear Sir:—Please find enclosed \$2.00 for Wayne Democrat until July, 1911. Am sorry you neglected to renew when subscription expired, but have been very busy, but all still want Wayne news.

I saw by one of your papers that the report is that there will be no crop in the North West owing to no water for irrigating. It is a mistake for there will be one of the largest crops of fruits of all kinds in Washington ever raised. Also all other crops are good. And land is still soaring upward. From five hundred to three thousand dollars per acre. And lots being sold even at that price. Have had only a few days of real warm weather and always have cool nights. Wayne is all right but for a general good place to make money and for everything this is ahead of old Wayne county, Nebraska, we think. Trusting you are prosperous I remain Yours Truly

FARMING AS REAL BUSINESS

A. B. Clarke of Wayne Looks After Seven Large Farms.

USES ONLY MODERN METHODS

Has Tiled the Lowland, Changing Its Value from Twenty-Five to Two Hundred Dollars An Acre in a Few Years.

Much is written today on the life of the farmer. "Five acres and felicity" is explained to the city worker, by the forerunner of happiness, the honest real estate promoter. One reads of how simple it is to cease the toll and turmoil of the city and by a little study and use of common sense solve the problems of the soil, and with five to ten acres gain a far healthier and more remunerative livelihood than any ordinary man earns by working for another in the city. And all this is true; it is demonstrated in thousands of instances by both sexes. Few, however, hear of the close resemblance to every other commercial undertaking is the operation of a really large farm—or a number of large farms.

A. B. Clark of Wayne, Neb., operates not only one but seven large farms scattered about that section, each ranging in size from 320 to over 800 acres. No commercial undertaking is more highly systematized than is the business of A. B. Clarke's man about the properties; a rapid thinker, who gives his decisions in short crisp language that is devoid of all the odd sayings attributed to the farmer through the theatrical burlesquer.

Yet with all Mr. Clark, is a kindly man; finds time for reading, and he commands the respect and admiration of his employes, who regard him more as a friend and fellow workman than as employer.

Though burdened with a multiplicity of problems each day he finds time to go out and work awhile with his men—feed the thrasher, or even drive a load of oats to town. In this way he keeps in close touch with his business. The thriving little city of Wayne is Mr. Clark's home. Each of the seven farms is connected with the town home by private telephone, and by means of a large powerful automobile he may go to any of the farms on short notice. Some of the farms are more than twenty miles away, and at the speed he reaches them he would probably be put down as a reckless driver if he were in Omaha. It is putting it mild to say he sometimes "scorches." Still all this is necessary in the conduct of such a large business.

Lands are Planted

The property is practically all planted to corn, oats, wheat and hay. When each of these products matures it must be cared for in a short period. Here the labor problem enters; it is no small one either. With several gangs of loyal, humanely considered farm hands, whom he loads into his seven passenger car and hauls from one farm to another, the work is always accomplished on time.

That he may spend his winters in California and travel when the fancy strikes him, even closer attention must be given the grain market quotations than is given to the production. Foremen and assistants help out in the planting, growing and cultivating, but the disposition of it all must be worked out alone. The foreign production of foodstuffs must be studied; conditions in all sections of this country must be known so that the results of the year's labors will be placed on the market at a time when the most satisfactory price is obtainable—a fraction of a cent a bushel one way or another makes a decided difference in the amount of cash it brings. Such is the difference between farming as a business and farming for a living.

"In thirty-five years we have never had a crop failure in this section," remarked Mr. Clarke. "It has been excessively hot and dry for days and days. Rain always comes up here, just before it is too late." He had hardly spoken the words when the sky reflected a flash of lightning, and Tuesday night a heavy rain soaked the country from Sioux City to Kansas City for miles on each side of the Missouri.

On some farms further is meadow land in the valleys upon which water stands at certain periods, making the land good only for cuttings will hay. This is not so on any of the Clarke farms. This practical modern farmer through a system of tiling, has drained every acre. At an expense of \$25 or more an acre, he has transformed it from cheap land to the \$200 corn land. And it is the most fertile land to be found.

"In a few years every acre of Nebraska land will be drained. Nebraska soil is becoming too valuable to raise wild hay," remarked Mr. Clarke. He has gone ahead and demonstrated it. It is such men as A. B. Clarke, who make Nebraska the foremost corn producing state in the union; it is they who dig more gold from Nebraska's black loam than the gold mines of the country produce, and give to Nebraska such a high per capita wealth.—Omaha Bee.

Several couples enjoyed a social dance at the opera house last Thursday evening, Vogel's orchestra furnishing the music.

Mesdames Wightman and Jas. Ahern, at the home of the former, entertained a large number of young ladies on Monday afternoon, complimentary to Misses Clara and Martina Ahern. In honor of the event being on Monday a lively game of capturing clothepins was indulged in. Miss Zoe Mellor securing the greatest number, was rewarded with a pretty laundry bag, while Miss Kate Gamble received the consolation prize, a toy wringer. Miss Clara Ahern, who is a skilled musician, delighted the guests with several piano selections and the Misses Gamble and Neely responded to requests for vocal solos. The hostesses were assisted in entertaining by Mesdames Kohl, E. P. Ellis and Fisher.

The committee of ladies, Mesdames Jacobs, Phillips, Epier, Chace and D. Harrington, who were appointed last spring by Prof. Kemp, under authority of the school board, to oversee the purchase of pictures and other works of art for our new high school building, have just received a shipment of pictures from Whittemore, the art collector of Omaha.

Last spring the improvement club offered prizes to the different ones for improvement in writing, and the pictures which have been received for these prizes are as follows: 2d grade, "The Divine Shepherd," 5th grade, "The Windmill," 5th grade, "The Matinee," 7th grade, "Mt. Vernon."

The committee has also received a beautiful copy of the "Aurora," by Guido Reni, which was purchased with the receipts from the class play by the graduating class, and is the gift of the class of 1910 to the alma mater.

After the writing prizes were paid for and also the balance due on kindergarten talks, from the receipts of the "season's social," the committee decided to use the money remaining toward buying a handsome piece of statuary, "Diana of Versailles," which is to be placed in the main hall, in sight of all the pupils as they enter or leave the building. The funds on hand are not quite sufficient to pay for this piece and an exchange is to be held on Saturday of this week and next at Mr. Epier's store at 2:30 p. m. Everyone is asked to contribute to this: bakestuffs, homemade candy, butter, cream, etc. We feel sure that every one is interested in furnishing our school building and making it as beautiful on the inside as it already is on the exterior, and any money that may be raised or contributed will be carefully used by the committee, who feel that they have now made a very small beginning of what is hoped for.

Mrs. Dan Harrington, Secretary and Treasurer.

Divide the Games.

LeMars and Wayne made a divy on ball games Tuesday and Wednesday, but not the money. The visitors were defeated at Carroll on Monday by a score of 7 to 4, and came to Wayne with oodles of money to burn up on their first game with the locals, and they didn't burn any. It was neatly played, but that is what the LeMars team is on the road every day for. It was noticeable that there was no money up on the contest Wednesday, and Wayne won easily, with a much poorer team than the day before, 8 to 2. LeMars put in their best pitcher the first game, but he couldn't have landed the game, without a couple of fatal errors of the home aggregation, that allowed three scores in the third inning. At six to one in the 6th Wayne got desperate and would have tied the score in the 8th had Pitcher Sabs, who was on 3rd base, come home on a crucial chance in the contest, the score being 5 to 6 and leaving a nasty taste in the mouths of the local sports.

Vic Siman pitched a splendid game on Wednesday and the boys played an airtight field, better than a superior line up had done the day before. The sensation of the game was Lander's home run, a clean one, but there were no locals on bases when this happened. Our town has some better ball players than LeMars has, but they lack practice, the visitors going to the grounds forenoon for a warming up and always doing their best—unless there is some money in defeat.

Order of Hearing.

In the County Court of Wayne County, Nebraska.

To the heirs and to all persons interested in the estate of Gertrude N. Martin, deceased:

Sea Lion Actors with Gollmar Brothers Circus.

Captain Kent's original conception, the wonderful group of comedy-playing, music-making and deft-juggling seals, exhibited by the Gollmar Bros. and performed by their trainer, present with a doubt the most unique display of animal training ever attempted. A casual glance at a number of these curiously formed creatures as they lie basking in the sunshine on some rocky wave-washed cliff, which lifts its apex above the surrounding ocean, or perhaps in the distant arctic, as they lie in wait for food on the frigid shoreline of huge mountains of ice, would lead the onlooker to think them the least tractable of animals.

Nature has apparently not provided them with symmetrical limbs, with which to move upon land, nor has she endowed them with the advantage possessed by many sea-living creatures, yet this seemingly almost helpless beast is one of the most capable of the lower animals as is most surprisingly shown by the marvelously exact difficult feats of juggling, balancing and catching accomplished by the members of Captain Kent's troupe, while their conception of comedy is plainly shown by the many funny situations presented in their human-like exhibitions, in which they enact actual comedy plays. That they enjoy music is beyond question. Capt. Kent has among his troupe a number of seals who actually approach melody in their songs, while their performance on musical instruments, though not rivaling a Maestro in a musical sense, still show them to be interested in making sound. Capt. Kent is the originator of this special class of trained animal acts. While on a cruise in the seas of the far north, a number of years ago, Capt. Kent was ice-bound for a number of months off the north-east coast of Greenland, and here, far away from the civilized world, home and friends, during the long sunless days of Arctic winter, the first troupe of performing seals was perfected. With a score of these furry coated pets as his only companions, says his ships company of hardy sailors, he was given an opportunity to study their nature and possibilities, of which he has taken full advantage in perfecting them in their astonishing performances. While it is true that others have since attempted to imitate his accomplishments, though with less than indifferent success, he is the originator, and so far the only successful trainer of seals for exhibitional purposes, and his act stands alone today alone, the most unique trained animal show the world has ever seen. Throughout the old world, where Capt. Kent has heretofore exhibited his company of oceanic actors, they have met with the most emphatic success.

These sea lion actors and musicians come as a special feature with the Gollmar Bros. Circus.

Just one damn graft after another. What would we have left if all the rascals were turned out? Burkett?

It's wicked to die so damn rich, Phil Sullivan. At least that's what Carnegie says.

There was four barrels and three cases of beer on one express wagon from the depot the other night, but the most interesting thing about this phase of prohibition would be to publish the names of the parties to whom the stuff is shipped.

Now the big dailies are busy telling what a shady record Jim Sherman had before the interests picked him for vice-president. Of course the big grafters wanted the best man they could get for their peculiar kind of business.

If Governor Shallenberger had about thirty days more time to write bluffing, boastful and boresome—if not absolute untruthful—letters to Wayne democrats, he couldn't get the nomination for city scavenger—in Wayne—on the democratic ticket.

An exchange says that after all Col. Roosevelt didn't get so much for his African experience—only \$1 a word. Big Jim Jeffries sold his African experience for about \$200,000.

A whole lot of Wayne married women never knew how rich they were in husbands until a price was put on Phil Sullivan's worth to a woman.

Some of the political literature received at this office the last week will make much more interesting reading after the primaries have been held.

A St. Louis preacher says he knows of fourteen different ways to hell. That makes it apparent that a man is a damnable to live in St. Louis.

Funny how a blind man can see to Goro the big grafters and all our brilliant Burkett can see his wonderfully and fearfully made record as a progressive under the guidance of Joe Cannon.

A little girl recently asked her mother, who was wearily mourning for her father, recently deceased, why she did not wear black night gowns. The mother replied, "what an absurd question, child." The little one responded: "Oh, I thought you might be so sorry at night as you were in the day time."

The most interesting political debate of the week was between Will Jay of Lincoln and John T. Bressler. It was decidedly acrimonious and wound up by our townsmen bitterly declaring that he would vote for even a democrat before he would vote for a progressive republican. "And, I'd vote for a democrat before I'd vote for a standpatter," replied Jay. Say, it may be possible that we honest men may yet get our just dues—in politics.

A Carroll man, during his wife's absence, ate a lot of canary seed, mistaking it for breakfast food, and ever since he has been sleeping with his head under his arm.

An Iowa exchange complains that it is getting harder every day to tell "what is a republican?" No two state platforms in the entire country are just alike. There are "wet" and "dry" democrats, but "all colors" of republicans.

A Paris sailer has committed suicide by eating cotton wool and drinking water. The high cost of living kept him from being wild and wooly enough to eat dried apples; or maybe prohibition drove him to making his own cotton-gin.

Dr. Johnson declared the English language adequate to every purpose so far as thought is concerned, but he did not in his day know to what extremes the English language would be called upon in ours. There is nothing in the language adequate to express one's feelings when he has to dodge around a bunch of silly girls blocking the post-office entry way, or walking along arm-in-arm on walks where other people have a right to walk in the pursuit of business or pleasure. Sometimes a fellow is sorely tempted to use English as she isn't writ.

So many strangers are getting into the democratic party that it is no wonder the mule is kicking occasionally.

Winside wants a ball team and a band so that other towns will know that the place is good for something besides saloons, so demands the Tribune. The saloons are a plenty to draw the trade, sister. Keep your hat on.

Among other things claimed by Senator Burkett is that "he secured the free importation of breeding animals." Burkett was three years, seven months and fourteen days old when all animals for breeding purposes were placed on the free list, and there has been no change in the tariff affecting such importation since July 14, 1870.

Deck's Gun Was "Nixumaroush"

There was quite a "shooting scrape" in Judge Britton's court last Tuesday, several Hoskins parties, who appear to be "laying" for August Deck, getting badly stung. August was arrested by Sheriff Mears on complaint of the Hoskins marshal that the anti-saloonite was carrying concealed weapons. The only mistake the marshal appears to have made was in not finding out what kind of a gun Deck carried, before taking him to task for it. When arraigned before his honor Tuesday Mr. Deck produced the weapon, a rusty old Sears & Roebuck with nothing but the hilt and barrel to make it look like a gun. Judge Britton promptly discharged the defendant and the county foots the costs. Witnesses appearing against Deck were Marshal Saase, Ben Ruhlo, Chas. Ziemer and Art Wilkinson. It would appear about time that Hoskins quit such foolishness, or else have somebody killed to make it worth while.

D. A. Jones Barn Burns to Ground

During the red-hot electrical display last night lightning struck the big barn on the D. A. Jones farm southwest of town, burning it up complete. All the stock but one horse was in the pasture and the hired man got the one out uninjured. 40 tons of hay, insured for \$50 went up in smoke. Mr. Jones says the building was worth \$1500 and he had \$1000 insurance on it in the Farmers Mutual of Omaha. Zeb Jones, who is farming the place, went to Page, Neb., yesterday evening with his family, leaving the man in charge. The barn was built a few years ago to take the place of one destroyed by fire.

About Animals coming with Gollmar Bros. Shows

Nearly all the great cities in the country possess public menageries which constantly buy wild animals; quixotic individuals frequently buy cubs of one kind or another, ranging from tigers to bears; many wealthy Americans maintain private zoological parks of greater or less extent, and the score of large circus companies must be constantly supplied because of the high death rate among their animals. The record of imports of the Gollmar Bros. Shows for the past year is elephants, camels, tigers, lions, leopards, pumas, panthers and any number of small animals and birds. There are enough wild animals now in the Gollmar Bros. winter quarters to stock a big show. All are never carried on the road, in case of accident, fire, etc.

Cubs—Tiger, lion, leopard and bear cubs, are in special demand by families. They are reared and petted like kittens, but they invariably come back to the dealers at a quarter of what sold for, or even as gifts. One eloquent letter which a dealer recently received from a woman who had purchased a lion cub a year ago, read as follows: "Please come and take my lion away. She has eaten our Newfoundland dog."

"From appearances no one suspect the Siberian bear in the menagerie of comedy, yet it really laughs at the new sights it continually witnesses daily.

Gollmar Brothers Circus comes to Wayne Aug. 19th.

The Great Western Manure Spreader Proves It's Own Superiority

Ask the Man Who Owns One

Don't Let Anyone

Make you believe that a pine frame is as good as an OAK FRAME. You know oak is better—you know it will last longer.

When Investigating

Spreaders, take your knife and jab into the side and cross sills and pole and know for yourself whether they are pine or OAK.

The Original Endless-Apron Spreader

No spreader is the BEST unless it has the GREAT WESTERN construction; that means OAK FRAME (not pine); OAK BEATER BARS (not maple); OAK AXLE CAPS, Hickory Double trees and Single trees, OAK DOUBLE BOLSTERS, OAK BED STAKES, OAK CROSS PIECES, MALLEABLE 16-inch Fifth Wheel, Braces, Clips, and Parts (not cast iron).

Contains more Oak, Hickory and Malleable Iron and Steel than any other spreader in the world.

WE MEAN EVERY WORD OF THIS. Prove it yourself by trying a Great Western on your farm. The progressive farmer wants the BEST when you SHOW HIM. We want to SHOW every farmer who needs a manure spreader.

Don't Be Fooled---Do Your Own Investigating

When you buy a GREAT WESTERN, we guarantee to give you full value for every dollar you put into it---Not a dollar for talk or hot air. It's all in the machine. You can see for yourself. Ask any farmer that has a GREAT WESTERN spreader if he doesn't have LESS or any trouble or repairs than his neighbor has. We invite you in to examine this spreader before you buy and are sure that you will see the SUPERIORITY of the GREAT WESTERN SPREADER over ALL OTHERS.

ANOTHER "IOWA IDEA" IS WORKING WONDERS

Des Moines Newspaper Man Gets Credit for Organizing Dragged Road Scheme.

From Harper's Weekly

Again has come the time in the matter of good roads. If the building of a road across the state from Council Bluffs, on the east bank of the Missouri river, to Davenport, on the west bank of the Mississippi, 300 miles in length, is to be accomplished, it is to be accomplished in a few months; if perfecting similar dragged roads from Des Moines to Burlington, and thence to Okoboji, 400 miles distant; if another river-to-river road from Clinton to Council Bluffs, 400 miles away, not to mention the fact that Dubuque and Sioux City are discussing the advisability of being joined by a dragged road—if these things indicate a solution of the good roads problem, then it is a solution.

It is due primarily to the desire of J. W. Eichinger, news editor of the Des Moines Capital, to perform a newspaper feat. By the success of his undertaking, he will have done for Iowa what other states have done for themselves, and when other states grasp the simplicity, soundness, and low cost of maintenance of his idea, they will rise up in thankfulness and call him blessed. The first of his efforts was to get the human stethoscope into the hands of the human stethoscope, and to have it working on a public highway with a split-log drag the popular form of amusement.

The result of all this? The most successful road-building plan ever hatched by man, with the brilliant Eichinger presiding at the button, to the intense amazement of his employer, Lyle Young, even though his long political career has taught him never to be surprised.

What can he do to transform a 280-mile road to a nearly perfect highway, 280 miles long, at an estimated cost of building and maintenance for the first year of \$2 a mile, has grasped a new idea in the matter of road building. The road from Council Bluffs to Davenport is a success and is commanding the attention of the entire country and Canada. It is shown not only by its splendid condition, but by the enormous traffic which flows upon the secretary of the River-to-River Dragged Road, which is Mr. Eichinger's official designation—without pay, by the way.

Mr. Eichinger tried the correspondence method of attempting to interest persons along the proposed route of the River-to-River Dragged Road. The frost that tipped this crop of letters would have discouraged most men, but not this slender, stumpy little man with a head of hair which is a human dynamo, when it comes to radiating energy. Still some of the seed fell upon fertile soil, and Eichinger cultivated it.

The famous River-to-River Dragged Road runs through 12 counties—Pottawattamie on the west, then in order through Cass, Audubon, Guthrie, Dallas, Polk, Jasper, Poweshiek, Iowa, Johnson and Muscatine to the east. The road is dragged through six of the passes are Council Bluffs, Nodda, Avoca, Atlantic, Extra, Guthrie Center, Redfield, Adel, Des Moines, Colfax, Newton, Grinnell, Brookings, Victor, Davenport, and Keosauqua. Some 50 smaller places are also touched. The country is the richest in the state. The road passes through a territory decidedly hilly in the west, but of surpassing beauty and happiness on every side. If this road has done nothing else, it has demonstrated to the farmer and his family that their life is the ideal existence and made them content with their mode of living. They have made the trip to town and market a joy instead of the horror of other days. The average length of the haul for the husbandman from his farm to market is now but eight miles, and he is not required to travel like the round trip.

Once Eichinger hit upon the township unit, he promptly proceeded to interest the influential men of the county in the project—farmers, bankers, automobilists, country stores, dentists, merchants, school teachers, and scholars, all were pressed into service. Governor Carroll appointed commissioners for each county, every one of whom received a commission bearing the great seal of the state and a salary of \$100 a year, and altogether an imposing amount. And these then served without pay. Upon diplomatic hint the townships of a county through which the road passed were formed into an organization like a township, and the township unit was the River-to-River Dragged Road Commissioner as captain. He had his squads strung out along the road, and upon the word from Secretary Eichinger started to work dragging, and the road was laid. The laughter of the automobile, perfume, hitched a drag behind his car and got to work. It did not take long to establish the fact that a motorcar could drag after a rain from eight to 10 miles of the highway, and thus leaving the road in excellent condition.

When the feminine portion of the community discovered that the dragged road meant more frequent trips to town, more visitors, and a more comfortable mode of travel, they spurred the male laggards. Road-dragging parties became the vogue from the Missouri to the Mississippi. The old-time buggy ride, formerly a Sunday luxury, became a daily necessity. The farmer and his family started to buy automobiles and before they realized they bought one. More than 8,000 cars have been sold in the state this spring. Up to 3,000 automobiles have been licensed. The state is now a more cheerful and happy place, and the farmer is enabled to bring his crop to market in a hurry to take advantage of the prices. His acquaintance with farming machinery makes the care

A Habit Acquired in the Sick Room.

From the Green Bag.

The late Justice Brewer was presiding, years ago, over a civil case in which one of the important witnesses was a doctor named Bogert. The doctor was a small man with a weak little voice, and the counsel on both sides, as well as the court and jury, had great difficulty in hearing his testimony.

During cross-examination the counsel for the plaintiff became exasperated and began to prod and harry the little man.

"Dr. Bogert," he shouted, "if we are ever going to get anywhere with this case you must speak up so the court will hear you. Speak up loud and strong, and you will be heard."

The small-sized veterinary tried, but was evidently to no use. Whether from embarrassment or inability the sound would not come from his mouth.

"I am glad you are singing in answer to Mr. Blank's operas," said the counsel.

"Who is he?" asked the girl.

"Why, the man who wrote your opera. He composed the one you sang in the first part of the story."

"Did he?" said the girl. "Now that's funny. I said to the other girls just last night, 'I wonder who wrote this funny anyhow?' but none of them knew. His name's Blank, is it? I must remember that."

It is impossible to be happy; but it is no reason why we should go to the other side.

Compensations.

From the London Opinion.

"I am afraid, madam," said a gentleman who was looking for rooms, "that the house is too near the station to be pleasant."

"A little noisy," assented the landlady, "but from the front windows one has such a fine view of people who pass the house."

and running of a motorcar mere child's play to him.

The idea spread quickly.

"If Iowa can have a road east and west across the state, why can't we have one from Des Moines down to Burlington, in the southeast corner of the state, through Oskaloosa and Ottumwa?" asked Dr. Jay Roberts, of Des Moines. "They went to work, and they are still at it. Brightly, the road is in shape now, and the rest soon will be. Moyer, of Des Moines, thought this southern branch would be extended to Okoboji and Spirit Lake in the northwestern part of the state. He hiked out in his touring car and visited every town along the road to such good purpose that the road from Burlington to Okoboji, a distance of 400 miles, had to be dragged in the present month.

Towns along the Northwestern right-of-way grew jealous and wanted a river-to-river road from Clinton to Council Bluffs, a distance of 400 miles. May 15 motorists started from Clinton and Council Bluffs, 400 miles apart, working toward each other. Night stops were made at Marshalltown and Denison, and on the following day they were dragging up the hills from the city town, 20 cars met at Boone. A big convention was held. Eichinger was there to tell how the job had been done from Council Bluffs to Davenport. Through a second river-to-river road. This will be in excellent shape by August.

Not to be outdone, Dubuque and Sioux City are flirting with each other to build a road to the west. The road is being connected to these two river cities. The good-roads movement is in full swing in Iowa, with Eichinger pushing it as only he can. Unless all signs fail, Iowa is going to have a network of highways in the future, the waste of her road tax, which is approximately \$5,000,000 a year. The state has about 57,000 miles of highways, most of which is in terrible condition for the greater portion of the year. Twenty per cent of this mileage is fairly well graded and drained. All that is needed to make good roadways is dragging. The Eichinger crusade for good roads asks that the present plan of each township set up a law to have itself abolished, and that a county engineer receive authority to direct the road work of every township, with a reasonable portion of the road money to be expended by the engineer and not the township. Eichinger on the average township officer. "He throws up loose grades, piles up a nicely rounded pile of dirt in the center of the road, which is a better place to pile the dirt over, and calls it a grade. He goes away, the rain washes the grade to pieces; travel fills it with ruts and holes, which hold the water—and the result of his efforts is the highway which has made the Iowa notorious throughout the country.

"The principle of the dragged road is simply to smooth the top surface of the road, wipe out the ruts and holes, to prevent the water standing on the surface and soaking into the surface. The best time to use the drag is soon after a rain, when the ground is soft. It can be made so slushy and produce better results; for the mud when spread out and smoothed by the drag, is dried by the wind and baked by the sun. The drag throws but a small portion of the dirt to the center at each trip. This, kept up for a few seasons, produces a surface which is smooth and dry. It is so much more simple and healthy."

"Oh, Kate, Kate!" sighed her cousin, "would you insinuate that the masculine fancy is influenced by worldly advantages?"

She shrugged her shoulders.

"I have stated my case; you can make it what you choose."

The hostess, who had been listening idly, now put it a word.

"The trouble with you all is that you analyze too much," she said. "Why not take things as they come, without worrying over their possible causes? It is so much more simple and healthy."

Miss Danbury turned around.

"Isn't Madge charming?" she said amiably. "To hear her you would suppose that she had never got inside of a drawing room. She always gets

like that when she comes to the country; something in the air, probably."

"And you?" said Stewart, when the laughter following her speech had died away. "has it no effect on you?"

"The country? (Oh, yes, it makes me—) if that is the best possible index than usual," and she leaned her head against the pillar and looked not at him, but past him to the stretch of rocky sky.

"What an actress you are," she said. "You are not the least bit indifferent, really, but it has amused you to pose as such so long that now it has almost become second nature."

"To pose as anything involves a certain amount of personal exertion," she said. "I doubt whether I find it worth while if your audience is appreciative; and it usually is, I fancy."

"Have you noticed those two clouds?" she said, pointing to curious shapes which were floating first toward and then away from each other, like people who are playing at cross purposes."

"You were evidently not listening to a word I was saying."

"Oh, yes, you were scolding me, but you generally are, you know, and you said something about my posing. You have told me that often before."

"And so—apparently there was no need for listening to me. I had no idea I was such a bore."

She looked at him, saying:

"Now you're just as angry again! Don't you think, leaning toward him confidentially, 'you ought to do something for your temper. It may get you into trouble some day. Not everybody is as easy-going as you are.'"

"Still wrangling?" asked Carl Anslie, lounging down the steps. "My dear young friends, it grieves me to the heart to see you two fighting like this. Christian feeling! Let dogs delight to bark and bite."

"Blame Mr. Stewart and not me," said the girl; "you know, Carl, that I haven't the energy to quarrel with any one, especially with the weather."

"Of course not, Miss Danbury only says the things that make other people want to quarrel."

"A charming character you have given me. After that, I think I will abandon the field to you. Come, Carl, with a quick change of manner, 'let's go down to the lake for a row.'"

Stewart watched them with wrath in his heart—the girl was talking gaily, her soft laugh floating back to him.

"There goes a living denial of her theory," he thought. "She is kindness itself to Anslie, and he is devoted to her. Indifference, indeed! I'd like to see the woman who could attract me by that sort of conduct. I don't intend to fret myself about her," and he climbed the step and stalked gloomily off to the smoking room.

"Hello," said young Anslie, resting on his arm. "I'm your cousin and have a right to tell you when I think you are doing wrong; so I say—do leave poor old Stewart alone."

"Of course, now, you know very well that I am not saying anything for you to trample on Herbert and Reade and myself were used to being broken in on by you. I don't expect that Stewart's

to marry your cousin, perhaps there might be a chance for some one else."

"Perhaps."

"I know I'm a perfect fool to rush on my fate, but what's worth having is certainly worth asking for. Kate, will you marry me?"

"She smiled, but her eyes were very tender.

"I believe you do love me," she said. "Well, a little."

"And if I marry you, I know I shall be happy. You are so strong and true, and have my confidence so utterly, but I have been horrid to you; so rude and unkind. I will never do that again. You can stand me."

"Why, you are going back on your theory."

"The girls will certainly laugh, and Carl will never leave out of his behavior, but I don't care," lifting her face resolutely. "I love you, and there's no use pretending I don't."

"A little while she looked up.

"I always said I would never care for anybody," she remarked. "What will this prove?"

"That you are a woman," he said.

From the Chicago Chronicle.

During the yellow fever epidemic at New Orleans in 1878 a German medical student, who was taking a farewell leave, secured the advantage of his services. Doctors were few and his experience was gladly accepted. He had ideas, and many were his experiments. Treating a patient with a mixture of quinine and decided that his patient was about to die, so he prescribed as a last dose to the expiring man a huge plate of sauerkraut. He watched the sick man devouring the sauerkraut with his eyes. He had the patient eat it and live—so he said. Reaching for his notebook, Hans added to the prescription, "but will kill a Spaniard."

"I don't know," said the doctor, "but he had the patient eat it and live—so he said. Reaching for his notebook, Hans added to the prescription, 'but will kill a Spaniard.'"

"Never mind about that. I will not detain you long," and he pulled up a chair.

For a few moments there was silence, for now that he had gained the coveted interview Stewart did not seem to know what to say, and Miss Danbury, with the point of her parasol, sketched triangles and all sorts of impossible devices in the sandy path. While looking the picture of careless inattention, she was in reality curious to know how long her companion intended to continue sitting in front of him. When he finally did speak his remark was so different from what she expected that she almost started.

"I suppose you know you are very beautiful," he said. "Doubtless your mirror has told you that already, so I need not weary you with repetitions; but I feel sure that you do not realize how absolutely charming you are."

"She looked at him, wondering; it was a favorite method of hers, and usually worked well, but now it failed to produce the effect she intended.

"Don't look like that," he said, "or I shall think you are not sincere, and I don't want to think that. I want to carry away the kindest thoughts of you."

"You have changed," she said. "Ten days ago you told Mary Fair I was thoroughly heartless."

"Did I? Well, that only shows I was a fool. I know you better now, and what I don't understand you."

A slight pause.

"I don't know," said the doctor, "but he had the patient eat it and live—so he said. Reaching for his notebook, Hans added to the prescription, 'but will kill a Spaniard.'"

"Never mind about that. I will not detain you long," and he pulled up a chair.

For a few moments there was silence, for now that he had gained the coveted interview Stewart did not seem to know what to say, and Miss Danbury, with the point of her parasol, sketched triangles and all sorts of impossible devices in the sandy path. While looking the picture of careless inattention, she was in reality curious to know how long her companion intended to continue sitting in front of him. When he finally did speak his remark was so different from what she expected that she almost started.

"I suppose you know you are very beautiful," he said. "Doubtless your mirror has told you that already, so I need not weary you with repetitions; but I feel sure that you do not realize how absolutely charming you are."

"She looked at him, wondering; it was a favorite method of hers, and usually worked well, but now it failed to produce the effect she intended.

"Don't look like that," he said, "or I shall think you are not sincere, and I don't want to think that. I want to carry away the kindest thoughts of you."

"You have changed," she said. "Ten days ago you told Mary Fair I was thoroughly heartless."

"Did I? Well, that only shows I was a fool. I know you better now, and what I don't understand you."

A slight pause.

The house party at Westwood were dawdling over their coffee on the moonlight veranda.

It was a merry crowd; every body knew everybody else, and there was much laughter and talk, but suddenly a silence fell. Then it became evident to all that the couple seated on the steps leading to the lawn were engaged in a quiet but bitter altercation.

The girls listless all was in striking contrast to the man's eagerness.

"Your idea is an absurd one," he exclaimed.

"Oh, he!" she said, "to speak so rudely to me is not a compliment."

"It is not rudeness, but truth."

"Then they are apparently synonymous."

"I can't help it," it exasperates me to hear you say that," she said.

"Now, where, she broke in, 'did you pick that up? I am not the least bit intelligent! If I were I would know better than to argue with you; it is so perfectly useless—arguing—and you do get so excited.'"

"And you wouldn't? Listening to such impossible theories!"

"I never asked you to talk to me. I came out here to be by myself, and you deliberately followed me. Why didn't you stay with the others? They are all pleasant."

"Humility," he said, "is a cloak that fits badly on your shoulders."

"My sleeves are too large, perhaps."

"But really, you misunderstand—I have never asked you to talk to me. I can be quite agreeable, when I choose, but I am not in the mood tonight."

"Then, according to your theory, you ought to be most attractive."

"I guess it is your theory, Kate," called her cousin.

"One you have heard me express thousands of times before."

"Certainly!"

"She says that a man doesn't like to feel too confident of a woman's affection; that it is the element of uncertainty that makes a man's interest so interesting; that he enjoys being puzzled and played with, and that a clever woman has only to appear indifferent to first pique and then attract him."

"I guess," exclaimed a chorus of many voices.

"Mr. Stewart has omitted an important clause," said Miss Danbury. "I add that to do this the woman must necessarily be good to look at, and not lacking in this world's goods."

"Oh, Kate, Kate!" sighed her cousin, "would you insinuate that the masculine fancy is influenced by worldly advantages?"

She shrugged her shoulders.

"I have stated my case; you can make it what you choose."

The hostess, who had been listening idly, now put it a word.

"The trouble with you all is that you analyze too much," she said. "Why not take things as they come, without worrying over their possible causes? It is so much more simple and healthy."

Miss Danbury turned around.

"Isn't Madge charming?" she said amiably. "To hear her you would suppose that she had never got inside of a drawing room. She always gets

like that when she comes to the country; something in the air, probably."

"And you?" said Stewart, when the laughter following her speech had died away. "has it no effect on you?"

"The country? (Oh, yes, it makes me—) if that is the best possible index than usual," and she leaned her head against the pillar and looked not at him, but past him to the stretch of rocky sky.

"What an actress you are," she said. "You are not the least bit indifferent, really, but it has amused you to pose as such so long that now it has almost become second nature."

"To pose as anything involves a certain amount of personal exertion," she said. "I doubt whether I find it worth while if your audience is appreciative; and it usually is, I fancy."

"Have you noticed those two clouds?" she said, pointing to curious shapes which were floating first toward and then away from each other, like people who are playing at cross purposes."

"You were evidently not listening to a word I was saying."

"Oh, yes, you were scolding me, but you generally are, you know, and you said something about my posing. You have told me that often before."

"And so—apparently there was no need for listening to me. I had no idea I was such a bore."

She looked at him, saying:

"Now you're just as angry again! Don't you think, leaning toward him confidentially, 'you ought to do something for your temper. It may get you into trouble some day. Not everybody is as easy-going as you are.'"

"Still wrangling?" asked Carl Anslie, lounging down the steps. "My dear young friends, it grieves me to the heart to see you two fighting like this. Christian feeling! Let dogs delight to bark and bite."

"Blame Mr. Stewart and not me," said the girl; "you know, Carl, that I haven't the energy to quarrel with any one, especially with the weather."

"Of course not, Miss Danbury only says the things that make other people want to quarrel."

"A charming character you have given me. After that, I think I will abandon the field to you. Come, Carl, with a quick change of manner, 'let's go down to the lake for a row.'"

Stewart watched them with wrath in his heart—the girl was talking gaily, her soft laugh floating back to him.

"There goes a living denial of her theory," he thought. "She is kindness itself to Anslie, and he is devoted to her. Indifference, indeed! I'd like to see the woman who could attract me by that sort of conduct. I don't intend to fret myself about her," and he climbed the step and stalked gloomily off to the smoking room.

"Hello," said young Anslie, resting on his arm. "I'm your cousin and have a right to tell you when I think you are doing wrong; so I say—do leave poor old Stewart alone."

"Of course, now, you know very well that I am not saying anything for you to trample on Herbert and Reade and myself were used to being broken in on by you. I don't expect that Stewart's

to marry your cousin, perhaps there might be a chance for some one else."

"Perhaps."

"I know I'm a perfect fool to rush on my fate, but what's worth having is certainly worth asking for. Kate, will you marry me?"

"She smiled, but her eyes were very tender.

"I believe you do love me," she said. "Well, a little."

"And if I marry you, I know I shall be happy. You are so strong and true, and have my confidence so utterly, but I have been horrid to you; so rude and unkind. I will never do that again. You can stand me."

"Why, you are going back on your theory."

"The girls will certainly laugh, and Carl will never leave out of his behavior, but I don't care," lifting her face resolutely. "I love you, and there's no use pretending I don't."

"A little while she looked up.

"I always said I would never care for anybody," she remarked. "What will this prove?"

"That you are a woman," he said.

My Method of Doing Business

I BUY in very large quantities at lowest prices for spot cash direct from the Distillers and Producers.

I SELL BY MAIL at WHOLESALE PRICES to consumers.

MY SELLING EXPENSE is very small because I employ no traveling men to solicit business for me. I carry no book accounts, therefore have no losses by bad debts. I cut off all the expensive methods of the old style credit houses and give you the benefit of the saving. Mine is the most economical way of placing Wines and Liquors before the buying public—my price list gets the business for me at the lowest possible expense.

MY GOODS are first-class in every particular and guaranteed to conform with all Pure Food Laws.

MY PRICES are lower than any house in the trade. I understand them all.

MY TERMS are F. O. B. Sioux City—Cash with order.

MY GUARANTEE is back of everything I sell—if not satisfactory for any reason, goods may be returned at my expense of freight both ways and your money back.

MY FACILITIES are second to none—we are prompt and careful in the filling of all orders.

STORZ BREWING CO. OMAHA NEBRASKA

Announcement.
I hereby announce myself as a candidate for the nomination of State Representative for the Seventeenth Representative District, composed of Wayne and Stanton counties, subject to the approval of the republican voters at the primary election to be held Tuesday, August 16, 1910.
Respectfully submitted,
WILLIAM PRINCE
Winside, Nebraska.

ANNOUNCEMENT
I hereby announce myself as a candidate for the republican nomination for Commissioner of the Third District, subject to the decision of the coming primaries, and I solicit the vote and influence of the republican voters.
GEO. S. FARRAN.

Congressman Hitchcock for U. S. Senator.

To the voters at the primaries: August 16th is primary day and I ask for the democratic and populist nomination for United States senator.
I was born in Nebraska fifty years ago and have lived in the state all my life except two years spent at school as a boy in Germany.

Twenty-five years ago this month I established the Evening World. Four years later this became the Morning and Evening World Herald, which I have published and edited as a radical democratic paper, supporting also many populist candidates.

I am now serving my third term in Congress, representing Douglas, Sarpy and Washington counties. I have been elected in this republican district by increasing majorities because people of all parties have approved my course in Congress.

My record shows that I have fought the trusts, tariff robbery, ship subsidies and Cannonism.
I have supported the income tax, railroad regulation and publicity of campaign expenses. I assisted in the passage of the postal savings bank bill and I forced the investigation of Ballinger and the land frauds.

In these and other respects I have not only stood with my Democratic associates but have co-operated with such progressive republicans as Murdock in the house and LaFollette in the senate.
I trust that my service in the house has qualified me for a place in the senate and I ask your support at the primaries Aug. 16th.

Respectfully,
GILBERT M. HITCHCOCK.

Mr. Whedon's Platform.

The primary election for the nomination of candidates by the several parties will be held Tuesday, August 16, 1910.

I am a candidate for the office of United States senator on the republican ticket.
I am in favor of all the legislation declared for by the republican party in its platform this year.

I am in favor of the performance of every promise made by the republican party in its national platform of 1908, and for such a revision of the tariff downwards as can be discovered without the aid of a search warrant.

I am in favor of placing lumber and other material used in the construction of dwellings on the free list, and of doing it at the next session of congress.

I am in favor of placing on the free list at the next session of congress, agricultural implements, mechanics' tools of all kinds, sewing machines and everything which can be produced here, the importation of which yields the government practically no revenue, and which are manufactured here and sold for export at a less price than for home use.

I am in favor of placing sugar on the free list at the earliest day possible.
If the laws now in force are not sufficient for the effective prosecution of forbidden trusts and labor combinations, I am in favor of the enactment of such further laws as will drive that class of combinations out of existence.

I am in favor of such governmental control of transportation companies as will prevent unjust discrimination and extortion and the imposition of rates for service intended to yield an income on nothing invested.

Insofar as that object may be accomplished by legislation I am in favor of the enactment of laws that will tend to reduce the cost of living.
I am opposed to ship subsidy.

I am in favor of such legislation state and national, as will afford to every depositor in a bank the greatest possible security for his money.

I am in favor of restricting the franking privilege to the free transportation of the Congressional Record and parts thereof, the reports and public documents of the government or any department thereof, and of making it a criminal offense for the free transportation of anything else through the mails.

I am in favor of reducing the postage on first-class matter, fifty per cent, at the next session of congress.
I am opposed to all unnecessary appropriations of public funds all of which appropriations must come from the people either by direct or indirect taxation.

I am opposed to all legislation which tends to the creation of great interests and combinations by the few, to the ruin of individual effort and the destruction of industrious, independent action of the many and the deprivation of labor of its just compensation.

the sale of intoxicating liquors in territory where such sales are prohibited by local law, and making such sales in such territory crimes against the federal government.
CHAS. O. WHEEDON.

The state press, without exception, speak very highly of James C. Dahman, in the towns where he has spoken, even the papers that are bitterly opposed to Dahman because of his opposition to county option.

Ignorant people are prone to make mean remarks about Jim Dahman's candidacy for governor; it's so easy to dash a little dirt on a man who stands for just what he is, instead of being a wine-tipping hypocrite. The Democrat was mistaken in Dahman, and when you hear dirty remarks about Omaha's mayor just ask his traducer why it is that notorious Tom Dennison and his gang of blacklegs are fighting Dahman to the utmost and supporting the "good candidate." Aside from his opposition to prohibition Dahman is a man of clean character, has a most excellent family, and in Omaha has proven that his word is as good as a gold bond. The Democrat does not believe that Dahman will be in it next Tuesday, but it does make a fellow tired to hear some of these light-minds paint Dahman as a devil, when the worst thing they ever heard about Cowboy Jim was the report—republican report—that he drank a bit too much in Sioux City. If he had been a silk-stocking politician he could have spent the night in Sioux City's bagnios and you would never have heard about it.

The Winside Tribune, editorially as well as locally, is now an advocate of county option or prohibition. Editor Ecker has come to the conclusion—same as Bryan—that politicians who oppose the onward trend of prohibition are secretly in the employ of the breweries and corporations. Funny how men will lose their minds that way, especially when all parties are in favor of the initiative and referendum and that measure will give the whole state prohibition if a majority of the voters want such an alleged reformation of the liquor question. It is equally as foolish to say that all the anti-prohibitionists live in Omaha. Your real slippery, dishonest candidates for office are just as likely to take up the fight for county option as to be opposed to it, if that course seemingly offers them the best chance to hornswozzle the people. To make a sudden change of front on any such question gives rise to a suspicion of ulterior motives, and all such new converts should first earn the confidence of the voters before asking for votes.

The Democrat doesn't take much stock in a candidate for a state office who says he will vote for what he does not believe to be best for the country, because his party platform demands it. When you have to reshape and rebuild your man to bring him up to party expectations, or to conform to the party platform, you've got something with neither backbone nor principle; a chigger much worse than no man at all.

Proposed Constitutional Amendment.

The following proposed amendment to the constitution of the state of Nebraska, as hereinafter set forth in full, is submitted to the electors of the State of Nebraska, to be voted upon at the general election to be held Tuesday, November 8th, A. D. 1910.

"A JOINT RESOLUTION to amend Section one (1) of Article seven (7) of the State of Nebraska.
Be Enacted by the Legislature of the State of Nebraska:
Section 1. (Amendment constitution proposed.) That section one (1) of article seven (7) of the constitution of the State of Nebraska, the senate concurring, be so amended as to read as follows:
Section 1. (Who are electors.) Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this state six months next preceding the election and of the county, precinct or ward, for the term provided by law shall be an elector; provided, That persons of foreign birth who shall have declared their intention to become citizens conformably to the laws of the United States and are voting at the taking effect of this amendment, may continue to exercise the right of suffrage until such time as they may have resided in the United States five years after which they shall take out full citizenship papers to be entitled to vote at any succeeding election.

Section 2. (Ballots) That at the general election nineteen hundred and ten (1910) there shall be submitted to the electors of the state for their approval or rejection the foregoing proposed amendment to the constitution of the State of Nebraska, at such election, on the ballot of each elector voting for or against said proposed amendment, shall be written or printed the words: "For proposed amendment to the constitution relating to the right of suffrage." and "Against said proposed amendment to the constitution relating to the right of suffrage."
Section 3. (Adoption.) If such amendment shall be approved by a majority of all electors voting at such election, said amendment shall constitute section one (1) of article seven (7) of the constitution of the State of Nebraska.
Approved April 1, 1909."

Approved April 1, 1909. I, Geo. C. Junkin, Secretary of State, of the state of Nebraska do hereby certify that the foregoing proposed amendment to the Constitution of the State of Nebraska is a true and correct copy of the original enrolled and engrossed bill, as passed by the thirty first session of the legislature of the State of Nebraska, as appears from said original bill on file in this office, and that said proposed amendment is submitted to the qualified voters of the state of Nebraska for their adoption or rejection at the general election to be held on Tuesday, the 8th day of November, A. D. 1910.

In Testimony Whereof, I have hereunto set my hand and affixed the great seal of the State of Nebraska. Done at Lincoln, this 29th day of July, in the year of our Lord, One Thousand Nine Hundred and Ten, and of the Independence of the United States the Hundred and Thirty-fourth, and of this State the Forty-fourth.
