## Wadsworth-Simonin

A very pretty home wedding occurred at the home of Mrs. F. G. Wadsworth at noon, Monday, when Mr. James Simonin and Miss Alice Wadsworth were joined in marriage in the presence of the immediate families.

The bride is the youngest daughter of Mrs. F. G. Wadsworth and has lived in Wayne since childhood. She is a graduate of the Wayne State Normal school and for a few years taught with good success. She is a young lady of many excellent qualities.

The bride was very beautifully dressed in white marquisette trimmed in shadow lace. The groom is the son of Mrs. J. H. Simonin, two miles south of Wayne. He also successfully taught school in Wayne county for about two years and is now on a run from St. Paul to Aberdeen. He is an excellent man and has a bright outlook ahead.

Both of these young people are connected with the Wayne Baptist church and are highly esteemed by all who know them. Guests from away were Cash Wadsworth of Winnebago and the Misses Lena and Ocea Lush of Page.

The beautiful ring ceremony was used and immediately after it was over an excellent dinner was served. Rev. R. P. Richardson, pastor of the Baptist church officiated.

Mr. and Mrs. Simonin left in the afternoon for their new home, 415 Holly ave., St. Paul, Minn., where they will be glad to greet their friends.

## Farewell Banquet to Metcalfe

A non-partisan farewell banquet will be given at Lincoln, Thursday, July 17, to Richard L. Metcalfe, on the evening of his departure to assume the duties of the office of governor of the Panama Canal Zone. No citizen of Nebraska in private life has more admirers than Mr. Metcalfe and none more deserving. The banquet is to be given under the auspices of the Metcalfe club, an organization formed when Mr. Metcalfe was a candidate for governor of Nebraska. A cordial invitation to attend is extended to all Nebraska friends of Mr. Metcalfe, regardless of political affiliation. A special invitation is extended to ladies. The dinner will be served at 6:30 o'clock. Ticket will be one dollar. Orders for the same should be sent to Dr. Arthur E. Carr, Lincoln, Nebr.

## Alexander-Marsteller

On Saturday afternoon at five o'clock at the home of Mr. and Mrs. J. E. Marsteller, there occurred the marriage of their daughter, Bessie J. to Prof. L. L. Alexander. The Rev. P. R. Grotfelty, pastor of the Methodist Episcopal church, pronounced the words which made them husband and wife. There were present also Mr. and Mrs. Wm. Beckenhauer and Mrs. Grotfelty. After a three course dinner the couple departed for a visit at the former home of the groom in Iowa. This excellent young couple will make their home in Wayne where Prof. Alexander is engaged in the instruction of music.

## Nearby Celebrations

Here is a list of places that will celebrate tomorrow. If you do not care to stay at home take your choice: Clearwater, Inman, Plainview, Spencer, Thurston, Meadow Grove, Newman's Grove, Winside, St. Edward's, West Point.

## Tapped Temple's Till

Monday evening between six and seven o'clock, while S. Temple was at supper, some one cut a hole in the glass of the rear door, reached in and drew the bolt, entered and opened the till and took therefrom most of the cash received that day. Mr. Temple estimates the sum at about \$12 to \$15, as he does not register his sales. Whoever took the money must have known something of his habits, and yet was not wise to all things about the place unless he was frightened away by some one passing the place, for near the till were two or three sacks of money which Mr. Temple keeps in order to have plenty of change, and these sacks contain perhaps three times as much as the till contained.

It was a bold piece of stealing to enter a business place in the broad light of day. Chief of Police Miner was at once called, but no trace of the thief was found except a track in the soft earth back of the shop. Several strangers who had been seen in town during the day were searched by the police at the depot before the evening train went west, but nothing was found to indicate that they had a part in the game.

## Remembered By Goldie

The following from the Wilmington (Cal.) Journal shows that the former editor of the Democrat still has the measure of our ex-senator: "Former United States Senator Burkett of Nebraska is now on the chautauqua lecture platform, a doubtful eminence that he reached through a political railroad accident that sent him to the senate. At Santa Monica, where this 'never was' recently lectured he was hailed as a 'millionaire from Lincoln, Nebr.," the statement being made that he was lecturing simply for love of it—another joke. The difference between listening to a set speech from Burkett and one from a phonograph is all in favor of the latter machine; it has not that nauseous affectation and conceit found in the railroad-made statesman.

## Union Sunday Evening Services

Beginning Sunday evening the union services will be held on the court house lawn. Many have enjoyed the vesper services in the past and we feel sure this season's gatherings will be full of help.

The service will open at 7 p. m. with a song service and followed by a sermon. The entire service will be but an hour long. On next Sunday evening Dr. Kearns, a strong speaker, who will supply the Presbyterian church in the morning will be the preacher. There will be plenty of seats for everybody. Begins at 7 o'clock.

## Carstens-Thielfoldt

Saturday, June 28, 1913, at the German Lutheran parsonage in this city the pastor, Rev. Rudolph Moehring, united in marriage Frank F. Carstens and Miss Dora Thielfoldt, both of Winside. The groom is son of Chris Carstens and wife, the bride a daughter of Mr. and Mrs. H. Thielfoldt. The young couple came by automobile, and were accompanied by Henry Rieck and Miss Minnie Carstens.

They will be at home near Winside, and enjoy the best wishes of all who know them.

## Notice of Service

Rev. B. P. Richardson of Wayne will preach at the Stamm school next Sunday afternoon at 3 o'clock.

## Home Crop Prospects

Corn is booming and in any number of fields it is hip high for the 4th of July, and the unwritten law says that if it be knee high by the 4th of July there need be no fear of a good corn crop. The report is general when a farmer is asked about corn: never better, good stand, good color and clean. Best season ever to kill weeds. One farmer near town with 200 acres in corn has it all over three times, and says he thinks it is making him money to keep the cultivators going right along.

The first cutting of alfalfa was a large yield, and plenty of good weather to cure same. The second crop is now ready for the mower, but will not return as much as the first cutting, for it could have stood more rain. Clover and timothy are good yields, pastures trifle short, but the stock doing fine, for the short grass of comparatively dry time is better than more grass that carries too much watered stock as the politician would say.

Small grain promises well, but the straw will be rather short on oats and spring wheat. A sample of winter wheat gathered on the Perry ranch showed evidence of a well headed crop.

There will be some apples this season. Cherries are quite plentiful, and are perhaps the best fruit crop that can be grown here. From the yields the past three years it seems as though they might be grown for shipment with profit.

Trade conditions in Wayne are good for the busy season and the time of the year. Farm machinery is now going out for the grain harvest.

Several residence properties are being built and if we had a building and loan organization others would build.

## Summer School Lecture Course

The lecture course committee announces two numbers on the summer school lecture course for the following week. The College Singing Girls and Walter Eccles, a company of six artists and one of the highest paid Lyceum attractions ever in the city, will appear in the Normal Chapel on July 7. The program will be a blending of selections from light operas, college songs and impersonations.

Dr. A. E. Winship of Boston has long been the editor of one of the leading educational papers of the United States. As a speaker he is fascinating, as many of the citizens of Wayne can testify. Dr. Winship will appear on the evening of Thursday, July 10.

To our home people the greatest attraction in the course will be the play given on the evening of July 15. Under the stage direction of Miss Olive M. McBeth, a strong cast will present "The Witching Hour."

The last number on the course is a lecture by Dr. P. P. Claxton, commissioner of education, Washington, D. C. Besides being a man of achievement and administrative ability Dr. Claxton is an orator of high rank.

Course tickets for these four numbers may be secured for \$1.00; single admission to each entertainment will be fifty cents.—adv.

## New School Building at Carroll

At the school meeting Monday the Carroll school patrons voted to erect a new school building to cost about \$18,000. It will be another monument to the enterprise of the thriving village. Two magnificent new churches and a school building shows that community to be progressive in the true sense of the word.

## A Narrow Escape

Sunday morning W. Y. Miles, wife and son were victims of what might easily have been a much more serious accident. While coming down between 2nd and 3rd street, three of them in a single-seat buggy a trace came unfastened and the end of the whiffle-tree was drawn back into the spokes of the wheel making sounding rattle as it played over the spokes which frightened the team. The horses quickly sprang forward, pulling the tongue from the neckyoke. This gave the young man, who was driving, no chance to hold the team, and allowed the buggy to run against them. As they started to run the tongue caught and threw all of the occupants out, the young man hang to the lines until he was clear of the wrecked vehicle. Fortunately they were thrown upon a bank which gave them a short fall. Mr. Miles received quite a scalp cut and a number of bruises; Mrs. Miles was thrown onto her shoulder and severely bruised and suffered much pain from the shock. The young man was also bruised about the shoulders, but not seriously. He followed the team to their home just west of town. A physician came in who found no serious wounds and W. H. Gildersleeve took Mr. and Mrs. Miles home in his automobile.

## A Building at the Fair

Nebraska ought not to be unrepresented at the San Francisco exposition. There is too valuable a chance to advertise the resources of this state, to pass it up. Millions of people will visit the exposition and an attractive display of Nebraska products, in a corn palace, for instance, would create an impression that would be of real value to the state.

Nebraska doesn't do enough advertising. Too many middle west states are losing population because their own people fail to realize the resources at home and go abroad, lured by the exaggerated claims of promoters. Nebraska ought to make an effort not only to retain her own population but to induce new citizens to come into the state and one economical means of getting the attention of millions would be at the worlds' fair. The legislature failed to make an appropriation for such a plan but a commission of citizens, to be named by the governor, might undertake to raise funds by private subscription.—Norfolk News.

## The Commercial Club Grows

At the meeting of the Commercial Club Executive committee last evening ten new names were added to the roster. There are twice that many more eligible for membership who should get in at once. The question of arranging for two or more ball games during chautauqua week was discussed. The idea is to make the games pay their own way. Base ball in past experience has proven an expensive thing for those who backed it. The officers were also instructed to see what can be done about a band as a permanent home institution, which is much needed here. The committee will continue to meet twice a month regularly and oftener at the call of president and secretary.

## The Hilo Oil Company

The preliminary work of preparing a place for reception of the first installment of goods for the Hilo Oil Co., is nearly completed. The first installment of five car loads have been shipped for some time and are expected to arrive any day—in fact are now overdue. The establishment of this company's headquarters here will mean employment for several persons and the bringing of new families and new business to Wayne.

## The New Depot

The building on the new depot site is vacated and will soon be moved. The final transfer papers to the property have gone forward and men and material are expected soon to begin the erection of the new depot.

## Special Trains to Winside

There will be a special train to Winside in the morning, leaving Wayne at 8:10 and again at 6:00 p. m. One special returning, leaves Winside at 6:30 p. m., connecting here with branch trains north.

## A Growing Business

Several years ago the X-Ray incubator factory moved from a small building on Main street near the laundry, and Ralph Clark entered the vacant building with the Logan Valley Motor Co. His business soon outgrew the room occupied, as the incubator business had done when it moved to the building on the corner of 1st and Main streets. About two years later the incubator people needing more room built a commodious factory one block south of the tracks, and moved in, and it was Clark with his garage, who, needing more room, followed in the room vacated by the factory. Now that Wayne shipping facilities are not adequate (or at least the railroad here will not make them adequate, preferring to lose the business rather than take care of it) the X-Ray will go to Des Moines Iowa, and again it is Clark who, needing more room, steps into the neat block factory building which they built, this time as the owner. In new quarters Mr. Clark will have ample storage room for cars summer or winter and plenty of room in which to conduct his repair business. He is now at work re-arranging the building to meet his needs, and when completed he will have one of the best and most convenient garages and repair shops in the state.

## A Double Wedding

Wednesday, July 2, 1913, Judge James Britton was called upon for a double wedding, when he united in marriage Mr. Alvin L. Shaw of Wisner and Miss Ethel Duncan and Mr. Emil Asch of Pilger and Miss Olive Duncan. The two brides are daughters of C. W. Duncan and wife who moved to Wayne last March from the county south of Wayne and the grooms are young men from the vicinity where the brides formerly lived, near Pilger. The Wayne friends of the young ladies join with their friends in their former home in wishing them well.

Mr. and Mrs. Asch will be at home on a farm near Pilger and Mr. and Mrs. Shaw plan to move to Omaha where he expects to find work in the printing business.

## Public Installation at Carroll

Tuesday evening at Carroll the Odd Fellows held a public installation of officers and an immense crowd was present, estimated by some at 300. J. K. McDonald of Bloomfield was the installing officer. Rev. J. L. Phillips of South Sioux City made an excellent address on the principles of the order.

After the installation and speaking ample refreshments were served to all, and it was a night that will long be remembered by those in attendance. Such meetings as this one was have a beneficial effect on the order.

## Smallpox Subsiding at Carroll

The vicinity of Carroll has been afflicted with several cases of smallpox, which are happily now all on the mend, and some are out of quarantine. Guy Francis, a young man who was working at the farm of H. Reese is reported to be the most severe of any, and he has just passed the crisis of the disease, and the others at the Reese place are about well. But Guy had the real thing.

R. C. Peterson's home has been under quarantine and so has W. Hurlbert's. The home of Grif Garwood is yet under quarantine. Their daughter Ethel was taken home from the Wayne Normal sick with fever, and got under the parental roof in time to contract the disease but is said to be getting along very nicely at present.

## A Business Change

Marcus Kroger, who has long been the local manager of the Saunders & Westrand elevator at this place, has purchased the property and is to take possession as soon as the business of the old firm can be closed up. Mr. Kroger has won many friends here among the patrons of the elevator, both in town and country, for they have handled coal as well as grain, and they will be glad that he is to remain a citizen of Wayne. If the business grew under his management as it has, it should continue to make good under his ownership. He will continue to conduct the business in the future much the same as in the past.

## A Fire Alarm

The fire alarm sounded Saturday afternoon, and it was not a pleasant sound with a high wind blowing, but fortunately the flames did not get beyond control. The fire was at the home of V. A. Senter and wife, and started from an oil stove which was perhaps turned too high, and then it so happened that a draft was blowing on the stove causing it to flare up. Some oil was released and caught fire before it was discovered. Mrs. Senter called for aid and they managed to get the stove out of the house and the fire out before the department reached the scene of the fire, and they made good time. Yes, it is reported that Vic arrived at home in time to help somewhat.

## Normal Wins From Stanton

There was a good ball game on the Normal campus Wednesday when the Normal boys defeated Stanton high school by a score of 1 to 2. The Stanton team had won ten straight games before the defeat of yesterday. Holstein and Glaser were batteries for Stanton and Williams and Lehr for the Normal. Williams pitched a "no-hit" game for the home team.

**A House at Auction**

The sale of the E. J. Raymond property at auction last Saturday caused quite a crowd of curiosity seekers and numerous people who would not have seen the place go at too great a sacrifice. But four bids were made, one of \$4,000, another of \$4,500, then \$4,550, and last of \$4,600 by E. W. Huse of the Herald, to whom it was sold. Most people appeared to have had the opinion that it would not sell for less than \$5,000, but they did not back up their opinion with the cash. It will make for Mr. Huse and family a very nice home, located convenient to business and school.

Thomas Sylvanus of Carroll returned from a trip to Canada. He was looking after land interests in the Saskatchewan district and reports that crop prospects there are good, especially for those who put their grain in as it should be sowed, which shows that good farming is a part of the game everywhere. He was in a new district, and says that for the past three years there the most of the land has been cropped each year, but that the better success comes of summer-fallowing, and growing a crop only every second year on the land. He nearly lost out on sleep when he first went there. He went to bed at 11 o'clock with it still light and when morning came it was but one o'clock and some minutes. The farmer there who works from "sun to sun" is going some at this season of the year.

Clyde Oman, wife and two daughters, Fern and Francis, left Sunday afternoon for an extended trip east. From Wayne to Sioux City, Minneapolis, St. Paul and Duluth made up the first stage of the journey. Thence by boat over the great lakes to Buffalo, New York. Then a short trip by rail around Niagara Falls. Then again by boat to the head of the St. Lawrence river, down this stream, past the 1,000 isles, across country to Boston, then to New York, Washington and other places of interest. They will visit relatives at various places in Vermont, New Hampshire, New York and Pennsylvania, returning home in about six weeks. It is an ideal trip which they have planned.

Horace Gaffin gave the Democrat a glimpse of the Meade County, (S. D.) Messenger, published at Chalk Butte, of which his son, Clyde, well known here, is in charge. It has been a prosperous paper when land notices were plentiful, but just now is hanging on after the big end of the final notices are published until the railroad gets there and gives the place a boom.

Three weeks ago E. W. Splittgerber advertised some young bulls for sale, and before the second copy of the Democrat was issued he had sold his lot, but did not speak in time to stop the second appearance of the ad and enquiries continued to come, proving the truth of Abe Martin's saying that the only time when it does not pay to advertise, is when we have not got the goods to sell.

**State Fines Brief in Flege Case**

Lincoln, June 27.—A brief has been filed by the attorney general's office in supreme court in support of its motion for a rehearing of the case of Wilhelm Flege for the killing of his sister, Louise, in which the high bench recently granted a second reversal and sent it back to be tried a third time. Flege was convicted of murder at his first trial in Dixon county and was sentenced for life. The second trial was in Thurston county on a change of venue and the jury found the defendant guilty of manslaughter, the penalty being one to ten years in the penitentiary. The brief says that the supreme court was misinformed as to the facts regarding the employment of A. R. Davis, a Wayne attorney, as assistant counsel for the state in conducting the prosecutions of Flege. It also declares the court erred in holding a juror incompetent to serve because he had read newspaper reports of the testimony at the first trial; in finding that it was improper to exhibit Louise Flege's bloodstained garments to the jury; and in holding the trial judge's instructions erroneous in regard to expert testimony.

A brief contains a statement from Attorney Davis regarding the facts of his employment by the prosecution and by the father of Albert Eichtenkamp, a farm hand who was at one time under suspicion of killing Miss Flege.

A dispatch to the Norfolk News sent out the 28th is as follows:

Attorneys for William Flege have intimated that they will apply to the supreme court for a rehearing of the murder charge against him. This will include a complete reargument of the case and they will include in their motion a request that the supreme court order the dismissal of the case.

Flege's legal representatives are convinced that the supreme court is of the opinion that Flege did not commit the crime and that it never will permit him to serve time because of that fact. County Attorney Kingsbury says that he will order a third trial of Flege if the court declines to permit a rehearing. At the attorney general's office it was suggested that maybe Flege's attorneys are bluffing when they say they will ask the court to reopen the case and enter up a dismissal of the entire prosecution.

Mrs. J. H. Wendte went to Rochester, Minnesota, Tuesday morning to be at the hospital there when her father-in-law undergoes an operation this morning.

**These Special Values Will Certainly Be of Great Interest To YOU!**

**THIS Will Be Your Opportunity** for a bargain harvest. You know the policy of the store in regard to carrying merchandise over from season to season. We are very often complimented upon the fact that our stock shows so little carried over merchandise. *There Is A Reason.* The reason is that in all our Clearance Sales we do not make an effort to sell undesirable merchandise only, but always we put into our sales all the seasonable goods that we have in stock. People in this vicinity have faith in our sales, they come to the sale because they know that all quantities, qualities and prices will be exactly as we represent them to be and they know that they will get mighty good bargains. You will find many things about the store priced special that we cannot take space to mention so if you do not find in this advertisement the item you want come to the store anyway.

WAYNE MARKET REPORT

Following are the market prices quoted us up to the time of going to press, Thursday:

Table with market prices for various goods: Oats, Corn, Barley, Spring wheat, Wheat, Eggs, Butter, Hogs, Fat Cattle.

One investigation seems to call for another—and may it keep on that way until the bottom is reached—then pour in a barrel of paroxides and watch it foam.

Now corruption showing up in the Indian dealings is said to be so pronounced that an investigation will follow. If justice is done in that department, we believe the prisons will not hold all who belong there.

With three dollars of water on which to collect a dividend for every dollar of investment in the sugar trust organization, as was testified, is it any wonder that the people ask for relief? Is it any wonder that the organization which is dishonest enough to try to thus rob the people and then to rob the government with doctored scales will try every dishonorable method to keep their graft.

Teddy bought off a manufactured panic by allowing the steel trust to capture its only competitor—steal it body and breeches—hence the name steal trust—but under the Wilson administration the attempt to create a panic was met by the government asserting its right to issue currency on the credit of the people without asking the big bankers' permission. And to money trusts that is a vital difference—and so it is to the people.

The most vital difference between the currency bill now before congress and the Aldrich measure is in the fact that the Aldrich bill left the issue of emergency fund which was to provide elasticity to our currency in the hands of the bankers—the big bankers at that; the law now proposed places that power with the representatives of the people as the constitution provides. And the big bankers are not slow to see the difference and how about it. We are indeed glad to see a power at Washington that stands for the people's rights against all forms of monopoly.

Judge H. E. Deemer of the Iowa Supreme court has got it too. We hardly thought Horace would puff up so because he was a member of that august body. He opposes the recall and the referendum. As to the recall he says that if the people made a mistake once they might get fooled again when they made a change. Sure, but they stand a chance to win some time, while under the present plan if they make one mistake, which perhaps they did when they named Horace, they are stuck until "death do us part." Besides, a judge may not want to have to recognize the people.

When President Wilson charged recently that there was a lobby at Washington he no doubt had seen enough to convince him that he would not have to retract the statement; and when Senator Cummins of Iowa thought to embarrass the administration by calling for an investigation he did not know what sort of rottenness he was stirring up—probably when they began to robe and stir the stink commenced to grow, and now the more they stir the more it stinks, and the more occasion there is to stir deeper. In view of the expose which has been made it is small wonder that it has taken sixteen years of faithful work and constant agitation to place honest men at the head of the government. The probe thus far has reached clear to the chair of the two ex-presidents, and the name of the dead vice-president has not escaped.

Methodist Church Rev. P. R. Glotfelty, Pastor Next Sunday the regular services in the morning consisting of class meeting at 10:00 followed by preaching services at 10:30. At 12 o'clock the regular Sunday school session. The lesson for the main school is Exodus I-II:10. The evening service will be held with the other congregations on the court house lawn at 7 o'clock. We trust that none shall feel that the evening service is of no interest to them and that all shall plan to attend.

The Epworth League service will be held Friday evening, July 11 at 8 o'clock. Let every member, who is on the Lord's side plan to make these mid-week meetings a part of their special effort during the warm days. A visit is promised the parsonage by a classmate, a native of Korea, the Rev. S. K. Dong, next week, Monday, Tuesday and Wednesday. On Monday night he will speak at Grace church, on Tuesday night at Winside and on Wednesday night at Wayne. He will bring a message of interest concerning his own land and people.

The children's missionary meetings will be held Sunday, July 6, at four o'clock at the church. Let all be present. Bring the mite boxes along. Parents, please cooperate. The calendar year is half gone and our conference year has only 24 months left. Let everyone round out the year the best they can.

St. Paul's Lutheran Church (Rev. Blessing, Pastor.)

Sunday school a 10 o'clock. We are having very good attendance at Sunday school but we are looking forward to greater things. Sunday we will hold our mid-summer Communion. The subject of the sermon for that time will be "The Benefits of the Lord's Supper," John 6: 53-56. Certainly the supper instituted by our Lord in the night in which He was betrayed, is an institution of the church, which is of great benefit to the Christian. As our Savior is so closely allied to us, we know that He loves us and for this reason given us of Holy Spirit and not of His Holy Spirit only, but of His own body and blood as well. For Christ, Himself the truth, speaks of the Eucharistic bread and wine: "This is my body" and "This is my blood." How can the Lord forget to bestow the benefits of His supper upon those whom He has redeemed, those whom He has nourished, with His own body and blood. He says: "He that eateth my flesh and drinketh my blood, dwelleth in me and I in him."

The envelopes for the Synodical apportionment have been sent out. This is the last opportunity to make up our apportionment, so may we respond well.

The Ladies Aid Society will meet on July 10th at the home of Mrs. Juhlin.

Baptist Church Rev. B. P. Richardson, Pastor

Sunday will be our communion service. It will be the last service before the pastor takes his vacation. We hope that all the members will make a special effort to be present Sunday morning. The pastor will give a brief communion service on the subject, "What They Found in Christ."

The regular service will be held on each Sunday morning during the pastor's absence. On July 13th there will be a praise service led by the choir under Prof. Davies. Dr. Wilson Mills of Omaha will fill the pulpit July 20th. Arrangements have also been made for the remaining Sunday mornings. We feel sure the people will enter heartily into these morning hours of worship.

The ladies union will meet with Mrs. Donner on July 17, for the next meeting. The pastor and family leave Tuesday morning for Delta, Colorado, where they will spend their vacation with Mrs. Richardson's parents.

German Lutheran Church Rev. Rudolph Moebring, Pastor.

There will be no preaching service at this church Sunday, it being the day the pastor preaches at Winside in the morning. The Sunday school will be held at the usual hour and the young people's meeting will be held at the church at 7:00 in the evening.

State Normal Notes

Superintendent Bowen will spend the week-end at his home in West Point.

Last Tuesday evening Miss McBeth's class in elocution gave a recital in the chapel.

Mr. Clifford J. Ireland, class of 1913, has been elected principal of the schools at Yutan, Nebraska. An ice cream social was held on the campus Saturday evening under the auspices of the Y. W. C. A. All departments of the school will be dismissed Friday that the students may spend the Fourth at home.

Last Friday was Holt county day at the Normal. A special program was given at chapel and a picnic held north of town in the evening.

The base ball game between the Normal and Winside, played at Winside last Saturday afternoon, resulted in a victory for the home team by a score of 9 to 3.

Friends in Wayne received a letter from Miss Killen written on June 25, a few hours after she had sailed from Baltimore on board the Norddeutscher Lloyd Bremen.

Mr. Monacle of Lincoln, representing D. C. Heath & Company, entertained some of the classes last Thursday afternoon with selections from J. Whitcomb Riley.

Students in the summer session from Knox county marched into the chapel in a body and had charge of the chapel exercises. Knox county has fifty-two teachers enrolled and in number stands second to Wayne.

Mr. Glen Hickman, who was elected high school principal at St. Edwards, has asked the board of education to relieve him in order that he may accept the principalship of the Thurston schools.

At a conference held last Friday between the normal school presidents and a committee from the board of education it was decided in the future to issue a general catalogue for the four normal schools. In addition to the part which is to be uniform, each school will include information along lines that pertain exclusively to its own work. Miss Frances E. Kelly, a student of the summer session, has decided to remain in school next year and complete the higher course of this institution. Miss Kelley is a graduate of a four-year high school and spent one year as student in a training school at Mitchell, South Dakota. She will be a member of the class of 1914.

The W. C. T. U. will take a summer vacation until September, so far as holding meetings are concerned.

John Larison and family left this morning for a summer outing at Atwater, Minnesota, where good fishing is plentiful.

J. H. Kate and wife returned from Des Moines Monday where they had been arranging for their new factory quarters.

Henry Kellogg returned last week from a visit to his farm in South Dakota. He reports prospects bright there this year.

C. H. Hendrickson and wife and Miss Pearl Sewell spent Sunday at the home of Frank Davis and wife, near Carroll, and report a splendid time.

The ladies of the Catholic church will give an ice cream social at the sewing parlors of Miss Dixon, Saturday, July 12, to which all are welcome.

J. H. Massie and son, Johnnie, went to Sioux City Wednesday, returning in the afternoon with E. W. Cullen, in a new automobile he went down to drive home.

Congress is taking a recess, a sort of 4th of July vacation. They have just simply agreed to stop for a fresh hold. Then they may be at work again for ten weeks perhaps.

Miss Edna Jinsen of Root, Minnesota, returned home Tuesday morning, following a visit of two weeks here at the home of her uncle and aunt, Chris Thompson and wife.

W. O. Hanssen and family returned last week from a visit of several weeks at Page, and they were accompanied by Mrs. Dean Hanssen and children who spent a few days here.

Master Blaine Ellis and a number of his young friends celebrated his third birthday Saturday afternoon in appropriate manner at the home of his grandparents, June Conger and wife.

John Davis left Carroll last week for Pittsburg, Pa., where he is this week attending the sessions of the Eisteddfod, a national gathering of the Welch musicians and music lovers of this country.

To arise in the cool of the morning and do your work while it is cool is good advice—perhaps; but that is also a very nice time to sleep especially if the fore part of the night was too hot for comfort.

Mrs. Littell, county superintendent of instruction will leave Saturday for Salt Lake City, Utah, to attend the National Teacher's Association. At these gatherings of teachers from all the states there is most excellent opportunity to learn the best that is to be known in the profession of instruction.

Mrs. Wilhelm Brammer of northeast of Wayne left Tuesday to visit at the home of Wm. Lessman and wife, that lady being her daughter. She was accompanied by Miss Anna Gehrke, daughter of Rev. and Mrs. E. Gehrke, who goes as her traveling companion and to visit the Lessman home. They expect to be absent several weeks.

Mrs. Henry Ley is visiting at Minneapolis.

John Gustafson went to Omaha the first of the month.

M. T. Munsinger and wife visited the home of E. A. Williams and wife Sunday.

Mrs. Pryor went to Winside Wednesday to visit her son there until after the celebration.

Mrs. W. H. Norman and two daughters Eva and Rachel McKim leave today for Clearwater to visit her father.

Miss Laura Conover went to Sioux City Monday for a few weeks' visit with her sister, Mrs. J. A. Farnsworth.

The I. O. O. F. and D. of H. will hold a joint installation of officers at their hall next Monday evening, and that means a good time.

LeRoy Owens left Wednesday to visit at the home of his uncle, Dr. Miner at Independence, Kansas. He is planning to be absent at least a month.

Mrs. E. T. Slaughter returned to her home at Burk, South Dakota, Wednesday, following a visit here at the home of her parents, Patrick Dixon and wife.

If you have a farm to sell or want to buy a farm come and see us, we have a large list of good farms in Wayne County. Fisher & Johnson.—adv. 28-4.

It is reported that Jake Roush is seriously ill at the soldier home at Burkett, where himself and wife are living. His many friends hope that he may soon be well again.

W. O. Hanssen has been spending a week among the cattle growers of South Dakota, with headquarters at Rapid City part of the time. He returns today or tomorrow.

Wisconsin is setting a good fashion. Last Sunday at Fondulac the preacher did not swelter in a coat and at his invitation many men in the audience did not wear a coat and the women left off their head wear.

C. A. Hedrick and family are visiting at their old home in the southern part of the state. The wife and son are planning to remain until time for school to begin. Ed Ellis is running his pool hall during his absence.

Messrs. Jerherd Clausen and Lawrence Albertson from over in the Pender country were callers at the Democrat headquarters Tuesday. They report that good crop prospects extend from this place to theirs and beyond.

Mrs. Grace Steadman went to visit her father at Stewartville, Minnesota, Wednesday, to be absent several weeks. Her father lives near Rochester, and she plans to consult the doctors at the hospital there regarding her health.

Dr. T. T. Jones was called to Norfolk or rather sent there by the friends of Nels Jensen to make an examination on his condition. Mr. Jensen is a patient in the state hospital, and his friends wished a special report on his condition.

The ice cream social given by the ladies' missionary society of the Baptist church on Monday evening was a success in spite of the coolness of the evening and the absence of the band. The ladies are planning for a lecturer to be here with a stereopticon the latter part of the month.

At the Congregational church at Wisner on Sunday, June 29, in the presence of the Sunday morning audience, Rev. Mrs. Mary A. Hessler, pastor of the Wisner Congregational church, and Rev. G. C. Mitchell, principal of Gates academy, Neligh, were married, Rev. D. Fifield of Kansas City officiating.

There was a christening at the home of Fred Haberman and wife about three miles northeast of Wayne Sunday, when a son recently born to them was christened in the presence of a number of the neighbors and relatives. Rev. E. Gehrke of the German Lutheran church northeast of Wayne officiated.

Word comes from the Weber boys at Dunning that they are so tickling the corn roots in that "sandhill" country that it is raising bouncing corn. Harold and Gilman report thirty acres which they are laying by with the fourth cultivation, and that it is now so large and rank that some of it breaks in cultivating.

Last week the Democrat published a clipping from the Sioux City Tribune which claimed to be a dispatch from Wayne, and commented on the untruthful qualities of the same. Now some one comes and says that the same story was sent out from Wymore, Nebraska, and that the Tribune force made a mistake in the date line either by accident or on purpose.

We have two Wayne county improved quarters at \$85.00 per acre each, and one at \$95.00, very easy terms. Fisher & Johnson.—adv. 26-4.

Forrest L. Hughes was at Carroll Tuesday night attending the I. O. O. F. public installation, and Wednesday morning he remained to visit the sick of the neighborhood, returning home on the afternoon train.

Miss Audrey Depew entertained a number of girls and boys informally at her home east of town last Friday evening. Games, music, laughter and song made the pleasant hours pass all too soon. Delicious refreshments were served and all departed voting Miss Audrey a charming hostess.

Why you should feed Columbia Stock Powder to your valuable hogs and other stock. First, because it is one of the cheapest compounds on the market, quality considered. Second, it is the only positive worm destroyer. Third, if you use it once you'll not be without it. Write or telephone 1708, Wisner line. Wm. Roggenback, local representative.—adv. 26tf.

Two automobile loads of the Wayne Knights of Pythias visited the Winside lodge Tuesday evening and helped confer the rank of Esquire upon an anxious candidate. The work put on by our neighbor lodge is excellent and it was a treat to witness it. The visiting brothers were royally entertained at the close of the proceedings. Among those who went from here were Chas. Craven, W. H. McNeal, W. D. Redmond, W. K. Heister, Sam Davies, G. A. Wade, John Mulloy and L. A. Kiplinger.

Miss Anna Gehrke and brother, Ervin, had a little mishap at their home northeast of Wayne the first of the week. They were starting from home with horses and buggy when the tongue became unfastened or was not fastened when hitching up, and dropped as the team started. This frightened the horses and the tongue soon caught and upset the vehicle. The horses broke free of the buggy and ran a short distance, and the young folks were thrown out but were not injured beyond some scratches and bruises.

Wm. R. Olmstead and family moved from Carroll to Gibson, Colorado, last spring, and now they are back again to the good old state of Nebraska. It is reported that the climate did not agree with the wife. They have a fine climate in Colorado, but the fact remains that the altitude is too high for some people—especially if they go from some place no higher than here, to some of those places more than a mile high in one short day. It is a very sudden change. In the days of ox teams crossing the plains to the mountains, the raise came so gradual that people got used to it each day as they toiled along.

Park Shipley from Eastern Iowa, and Elmer Shipley from Ohio, left Tuesday morning for their homes after a visit at the home of the formers daughter, Mrs. T. B. Heckert. It was the first visit to the west for the gentleman from Ohio and he was most agreeably surprised at the fertility of the broad acres about Wayne. Maintaining that they have spots in Ohio of as good soil as we have here he admitted that they do not have it in quantity that will near compare with this, and is of the opinion that when this country has been settled as long as has Ohio it will be one of the richest farm countries ever known.

George W. Kelley of the Cedar County News came over from Hartington Saturday evening to spend Sunday with his sister who is attending the Normal. Mr. Kelley came by automobile, and brings a story of good roads and bright crop prospects all along the line. We were pleased to hear him speak of the road improvement now so noticeable in the vicinity of Wayne. In fact we were proud of the enterprise shown in putting the roads in such excellent shape in this vicinity. The Democrat editor enjoyed a shop and political talk with the visitor, and a spin through the country.

W. E. Winterringer has moved here from Norfolk, coming this week and moving into the A. C. Dean residence. Mr. Winterringer has been here several weeks, as nearly all who come to Wayne are, before he could get a house to move into which suited his needs. There is no denying the fact that Wayne needs more residences. The new oil company will probably bring no less than half a dozen more families to Wayne in the near future. A traveling man who thinks of moving here is considering available quarters. Why not encourage the building of homes here. It is a good and profitable enterprise. Pays a dividend every month to all of the business men of the place.

George Farran of Winside left Sunday afternoon to visit his mother at Chelan, Washington. At Minneapolis he was joined by his brother, and together they will make the trip almost to the jumping off place. Chelan is a place of nearly 1,000 population, and a health resort.

Henry Evans of this place and E. R. Williams of Carroll returned Wednesday evening from a visit to their boyhood homes in New York state. Mr. Williams visited the place of his birth in Lewis county, and reports a well improved country with good crops, and many small towns.

C. J. Anderson of Wausa is adding to his Poland China herd by the purchase of a fine herd boar. He passed through Wayne with the animal Wednesday. He weighs 600 pounds, and will be two years old July 4th. Mr. Anderson says he expects to make a 1,100 pounder of him in the next 24 months. His present weight is not of excessive fat.

A. B. Clark, who has been spending the last five months in California returned to Wayne Wednesday looking well, and says that he feels well. He has spent most of the winter at Los Angeles; says that the loss of the fruit was a hard blow to many, but he thinks that one who is acquainted with that country can invest there so as to win out by advances in land prices, but if he could stand the Nebraska winter now as he once did, Nebraska would be good enough for him.

Andrew Brenner of Minneapolis, head of the Anchor Grain Company, who have an elevator here, was in Wayne Wednesday looking over the property, and who took a drive from here to the country to see how are the crop prospects. It is reported that the Anchor company as well as other line elevator companies are selling their properties as rapidly as possible. The apparent reason for this is that they do not wish to continue the grain business under certain restrictions of law, which is not as favorable for line elevators to have a monopoly as it was a few years ago.

## Senator Hitchcock Votes to Tax Sugar Consumers

In the caucus vote on the sugar schedule of the new tariff law the man elected from Nebraska as a democratic senator voted to continue the tax on the consumers of sugar—which as we see it is almost wholly in the interest of the sugar trust. To be sure Nebraska has some beet sugar industry; and so it has a few growing sheep, yet our senator voted to favor free wool and taxed sugar. Congressman Clyde H. Tappener of Illinois, in a letter dated the day before this vote was given puts the situation very clearly as to what such a vote stands for, as follows:

"If the sugar lobbyists should succeed in having the tariff restored to sugar, the sugar trust, and the men back of the sugar lobbies, would each year draw down dividends amounting to millions of dollars.

But where would this money come from? The answer to this question is the milk in the lobby controversy cocoanut. The millions that would go annually to the sugar magnates would not drop from the blue sky, but would come from the consumer—the men, women and children of the United States who use sugar.

The lobby issue is plain. If the lobbyists win out in their fight to persuade members of congress to forget their promises to the people and slap the tax back on sugar, the consumers must go on contributing to the coffers of the sugar trust by paying artificially high prices for sugar. And if the sugar lobbyists do not succeed, these millions will be saved to American consumers.

Thus it will be seen that the consumers have something at stake in the framing of a tariff bill, as well as the sugar barons.

If the sugar lobbyists should succeed, one of the principal beneficiaries would be the same old sugar trust which not so long ago stole some \$2,000,000 from the government in customs duties by deliberately placing steel springs in 14 pairs of scales, so that their importation of sugar would be under weighed, and the government cheated. Caught red handed, the trust was forced to disgorge most of the plunder, and a few underlings were sent to jail, and released after serving a small portion of their sentence.

But none of the millionaire sugar magnates into whose pockets the stolen millions would have gone had the crime been undiscovered, were even called to the bar of justice, let alone prosecuted.

Conducting a lobby in Washington by the sugar interests is a business proposition strictly. The multi-millionaire sugar magnates who are every year adding to their colossal fortunes by millions through the kindness of Uncle Sam in giving them a protective tariff which guarantees them a monopoly of American markets with power to charge consumers what they please, can well afford to spend a few hundreds of thousands in the form of \$1,000 a month salaries to slick tongue lobbyists, if by doing so they can prevent their monopolies and profits from being interfered with.

To hear the wail now going up from the \$1,000 a month men, one would imagine congress had not given the sugar people any opportunity whatever to be heard. The fact is a committee of 21 members of the house of representatives—the ways and means committee—sat in session for weeks listening to the arguments of those desiring protection. The sugar people were permitted to say any and everything they desired. The members of the ways and means committee sat somewhat as a court. They considered all the testimony, and then brought in their verdict in the form of the Underwood bill. After having had a fair deal in open court, the sugar trust is now trying to win as usual by the underhand method of approaching members of congress in private, and working in the dark.

The people are at a disadvantage in the fact of this kind of warfare because they have no knowledge of the pressure and kind of arguments brought to bear on congressmen by special privilege; nor lobbyists to present the viewpoint of the consumers or to disprove the false statements which may be poured into the congressmen's ears by the able and resourceful representatives of the sugar trust.

Is our senator listening to the voice of the trust's paid agents? Does he represent the people of this great state who named him for a position of trust? The answer will come at the close of his term of office. For he must go to the people then for their answer.

## Commissioners' Proceedings.

Wayne, Nebr. June 26, 1913.

Board of Equalization met as per adjournment. All members present.

Board on their own motion give a raise and reduction as follows:

All automobiles assessed in the city of Wayne are given a 10 per cent raise on the assessed valuation.

All automobiles assessed in Hunter precinct, are given a 10 per cent raise on the assessed valuation.

All automobiles assessed in Strahan precinct, are given a 10 per cent reduction on the assessed valuation.

All automobiles assessed in Deer Creek precinct, are given a 10 per cent reduction on the assessed valuation.

Hoskins precinct raised 25 per cent on the assessed valuation of each and every item of personal property assessed by the precinct assessor, and are listed on the personal property schedules.

Village of Hoskins raised 25 per cent on the assessed valuation of each and every item of personal property assessed by the precinct assessor, and as listed on the personal property schedules.

Reduces the assessed valuation on the automobiles belonging to Frank Mettlen and assessed in Winside, from \$80 to \$60.

Reduces the assessed valuation on the automobiles belonging to Henry Trautwein and assessed in Winside, from \$40 to \$20.

Reduces the assessed valuation, on fat cattle of Mark Swihart of Chapin precinct from \$574.00 to \$456.00.

The 1913 additional improvements placed on  $\frac{1}{2}$  n w  $\frac{1}{4}$ , s w  $\frac{1}{4}$  of 6-26-3 new barn, which was assessed at \$200 assessed valuation was stricken from the list for the reason that the same was assessed in the 1912 assessment.

Comes now Henry Vahlkamp and says that for the year 1913 he was assessed with a mortgage of \$6000 actual valuation or \$1200 assessed valuation, that by reason of holding such mortgage he bought other land in Wayne county, and gave a mortgage back for \$8000 or gave a mortgage for \$5000 and assessed a \$3000 making \$8000 in all, and he now asks that this mortgage be stricken from the list for the reason that it is an offset under the law. Board after due consideration strikes the assessment from taxation.

Thereupon Board adjourned to August 6, 1913.

CHAS. W. REYNOLDS, Clerk.

## Value of Farm Elevators

J. H. Adams is quoted as follows in an extract taken from an address by him on the above subject, and it is in line with some talk indulged in by this paper on other occasions: that the greater surplus an agricultural community can produce and profitably market the better it is for all who make up the community.

All railroads traversing the grain belt learned by comparing the business had from former owners of country elevators and the business now secured from the farmer elevator companies, that the farmers' elevator, usually materially increases the tonnage and often doubles it within one year's time. They are now heartily in favor of the farmer elevator companies and several of the heads of the traffic departments have informed me that whenever they have an opening for an elevator along their lines they now try to see that a farmers' elevator is organized in preference to the establishment of any other. A railroad depends upon the thrift of the country through which it traverses for its support, and not upon the accumulation of wealth at a few centers.

The farmers elevator leaves in its community the largest net earnings possible to the farmer. The increased net earnings incite the farmer to raise more grain; to go into the subject of better seed; to conserve his soil and therefore produce more bushels. Every additional bushel that is so produced is surplus and is handled through the elevator and hauled over the railroad. And right here for the benefit of any who may be in this audience who is interested in the mercantile or banking business in a community where there is a farmers' elevator company, I would like to say that every additional bushel and every additional cent per bushel which the farmers' elevator brings to its community means added business for the bank, additional money with which to purchase the necessities for the farm household, and field, for the barn, and for the many luxuries which the farmer desires as well as those in other walks of life.

## Discrimination

(By Stoughton Cooley in the Public)

Whether or not an income tax should be made a part of the Federal revenue system, may depend upon time and circumstances. When the people shall have arrived at that state of mind where they are ready to collect annually from the holders of certain kinds of property, the values that the public as a whole confer upon that property, an income tax will be wholly out of place. But so long as the people ignore this natural source of revenue, and insist upon taxing industry—taxing it, too, by such a clumsy method as a duty on imports—an income tax may be defended as a means of equalizing the burden of taxation.

It is remarkable what faults have been discovered in the income tax in the Underwood bill. It means discrimination, urges one critic. To tax only those incomes that are above four thousand dollars a year, lays a special burden upon the few. It is unjust, says another. For it makes no distinction between incomes that are earned and incomes that are not earned. It is impolitic, protests a third. It takes no account of the fact that one man may have a family to support, while another has not. One critic would reduce the minimum, and make the tax apply to incomes of one thousand dollars, or even less. Another would exempt incomes that are the result of labor. Still another would make an exemption for each child in the family.

Wonderful forethought! A remarkable sense of justice! Did it ever occur to any of these critics to consider who pays the present tariff tax? Of all the unjust and cruel features of protective tariff, none is worse than the discrimination against the poor, against those who earn their incomes, and against those who have children. Not only is the mass of revenue derived from the great staples of trade, but it comes mainly from the grades of goods used by the poor. The cheapest blankets, for instance, are taxed as high as 165 per cent, while the finest pay but 104 per cent. The cheapest flannels 141 per cent, dearest, 76 per cent; carpets, 126 per cent; 50 per cent; women's gloves, 49 per cent; 34 per cent; watch movements, 66 per cent; 34 per cent. And so one might go through the list from beginning to end, finding always that the cheaper grades of goods bear the heaviest rates of duty. So constant is it indeed, that if one would know the kinds of goods used by the poor, it is not necessary to read the names of the articles. A glance at the rate of duty is sufficient.

Did anyone ever hear a protectionist protest against the rates of duty in the present tariff because they were higher for the poor than for the rich? Is there any record of a tariff monger's effort to fit import duties to earned and unearned incomes? Can anyone name a special privilege apologist who ever proposed to exempt families from custom house dues, according to the number of children? Why, all the duties collected on wines, silks and jewelry combined, amounted to less than half the amount paid on sugar alone. More than half the total tariff collected last year came from cotton, fibres, wool, sugar and tobacco, articles of the widest consumption. Sugar, the most generally used, and bearing especially hard upon families with children, paid one sixth of all the import duties. Why this extreme solicitude for those citizens whose incomes exceed four thousand dollars a year? Is this the measure of their sense of consistency? Unless they protest less vehemently they may wake their stumbling victims.

## Neighborhood News

Cleaned From Democrat's Exchanges

Pender closed a successful cha-  
tauqua last week and voted for  
another one next year.

The Cedar county News of last  
week tells of some quick results  
from small advertisements in that  
paper.

There is said to be a move on  
foot among the farmers of Cedar  
county to raise funds by subscrip-  
tion to investigate the alleged  
bridge grafting in that county. In  
one community \$100 was sub-  
scribed in a short time.

The Republic editor is spending  
the week in Wyoming on his claim.  
During his absence Robert J.  
Racely is running the sheet.—Pen-  
der Republic. Better let him stay  
on the claim for the paper shows  
improvement. But perhaps it's  
just a case of "a new broom."

Thomas Lewis nearly froze to  
death at Norfolk last week with  
the mercury registering 100 in the  
shade. But he was so foolish as  
to go into the cold storage room  
of an ice plant without sufficient  
clothing and as a result became so  
cold that one side was almost par-  
alyzed.

In order to make the Richardson  
road dragging act effective county  
board must make a levy at the reg-  
ular meeting in August. The new  
act provides a system for scientific  
road work and lays the responsibil-  
ity for putting it into effect on the  
county board. The carrying out of  
the provisions of the act will not  
increase the road tax in the  
various counties.

Center, the county seat of Knox  
county is growing, if we may be-  
lieve reports. J. C. Engleman of  
Norfolk, an attorney, is to locate  
there, and it is said that he will  
be the first lawyer that ever located  
there. We had always supposed  
that a county seat town had to have  
a lawyer or two before there could  
be a county seat. If there is an-  
other county seat without its  
"Marks" we never heard of it.

Bulletin No. 137 has just been  
published under the title "Grow-  
ing Forest Trees in Western Ne-  
braska." This report gives the  
results of experiments in growing  
trees at the North Platte Exper-  
imental Substation, and brief notes  
on shrubs and ornamentals. This  
bulletin may be secured without  
cost by residents of Nebraska by  
writing Director E. A. Burnett,  
Experiment Station, Lincoln, Neb.

Madison county officials and  
some newspaper men visited the  
poor farm last week and found  
everything in good shape and a  
big dinner. Among the inmates  
is Wm. Pringle, who claims to be  
107 years of age. We do not see  
how anyone can dispute his claim,  
and who might have known differ-  
ently, are dead before this time.  
The farm house has been under-  
going improvement and made more  
sanitary.

The Saunders-Westrand elevator  
at Concord was bought last week  
by John Brennan, who has long  
been local manager of the business  
and Samuel Fous, a farmer living  
near that place. The considera-  
tion was \$8,000. This company  
has long owned and operated a  
string of elevators, but are now  
offering them for sale. Next to  
Bloomfield the elevator at Concord  
did the largest grain business of  
any of the line.

The fact that the railroads in  
times past have made overcharges  
on freight is becoming known and  
there are responsible persons who  
make it a business to go over old  
freight bills and figure them at  
the correct rate, collect the refund  
and pay it to the one from whom  
it was taken, less a small commis-  
sion for their trouble. Some peo-  
ple have had a drawback of several  
hundred dollars. The Omaha Com-  
mercial club has some one now  
whose business it is to collect  
these overcharges for the members.

A couple of able-bodied women  
who looked well fed but lazy, asked  
for financial assistance at the var-  
ious business houses Saturday.  
They both had husbands who failed  
to make their appearance. They  
claimed to be enroute to Pierce, S.  
D., from Coffeyville, Kansas, and  
they had been unable to find work.  
They admitted, however, that they  
had sought none here and when it  
was offered them in lieu of the  
money they asked for they conven-  
iently disappeared. If they were  
as smart as they were fat and bold  
they would organize a salvation  
army of their own and live happy  
and idle ever after.—Norfolk Press.

## The Currency Bill

The currency bill, prepared by  
Chairman Glass of the Congression-  
al Committee on Banking and Cur-  
rency, to be introduced shortly,  
provides for the devision of the  
country into no less than twelve  
districts, each one of which is to  
contain a Federal reserve city  
where a Federal reserve fund is to  
be organized. Every national bank  
in a reserve district must become  
a member of the reserve association  
and contribute 20 per cent of its  
capital to the reserve bank. No  
reserve bank may have less than  
\$5,000,000 capital. These regional  
reserve banks will be for use of  
banks only. They will rediscount  
all good paper held by any of their  
members, and perform regular  
clearing house functions. National  
supervision under this act will  
be with a Board consisting of the  
secretary of the treasury, Secre-  
tary of Agriculture, Comptroller of  
Currency and four others to be ap-  
pointed by the President. The  
regional reserve banks will be con-  
trolled by boards of nine members,  
three of whom are to be chosen by  
the stockholding banks, three  
"fairly representative of the com-  
mercial, agricultural or industrial  
interests of their districts," and  
three appointed by the Federal  
board. State banks are also per-  
mitted to join the regional associa-  
tions. The act further provides  
for the issue by the government of  
\$500,000,000 in currency.

On the 23d President Wilson  
read his currency message to Con-  
gress. He called attention to the  
prospective freeing of business  
from tariff restriction, and said it  
will be necessary to add to this by  
making opportunities for credit  
more available. In further ex-  
planation he said:

We must have a currency, not  
rigid as now, but readily, elasti-  
cally responsive to sound credit, the  
expanding and contracting of every  
day transactions, the normal ebb  
and flow of personal and corporate  
dealings. Our banking laws must  
mobilize reserves; must not permit  
the concentration anywhere in a  
few hands of the momentary re-  
sources of the country, or their use  
for speculative purposes in such  
volume as to hinder or impede or  
stand in the way of other more  
legitimate, more fruitful uses.  
And the control of the system of  
banking and of issue which our  
new laws are to set up, must be  
public, not private, must be vested  
in the government itself, so that  
the banks may be the instruments,  
not the masters, of business and of  
individual enterprise and initia-  
tive.

## The Prairie Chicken

The quail and prairie chicken  
should both be protected for at  
least five years from hunters the  
whole year through, for they are  
great insect destroyers, and are  
worth more than their cost for the  
good they do. When the writer  
was a boy and there was nothing  
more effective than a muzzle load-  
ing shot gun for the killing of  
chickens the prospect of their ex-  
termination appeared remote. In  
those days the pioneers had to trap  
them to save their small fields of  
grain until the threshing machine  
could be secured. Great flocks of  
them would feast from a grain  
stack and Grandfather used to  
have an atgerhole through the side  
of the house and poke the nose of  
the old shot gun out and shoot  
hickens from the stack top, as  
frequently to drive them away as  
to get chicken for dinner. But  
with increasing population and  
breach loading guns and the fields  
invaded by sportsmen from the  
cities, the chickens soon ceased to  
bother, but the cinch bugs and  
kindred pests did. Before war  
times when U. S. Grant was an  
almost unknown citizen of Galena,  
Illinois, he used to come every fall  
to shoot chickens on the great  
prairie, known as Garden Prairie,  
extending in almost unbroken  
stretches from the head waters of  
the Maquoketa river to the west-  
ern border of the great state of  
Iowa.

## Hawaii and the Sugar Tariff

The San Francisco Star, June  
14.—The Hawaiian sugar planta-  
tions are among the agricultural  
wonders of the world. Soil, cli-  
mate, irrigation system, and effec-  
tive business organization unite  
to bless financially the capitalists  
who now control the Hawaiian  
sugar industry. When a locally  
engineered cry comes up from Hon-  
olulu, "Give us a tariff on sugar,  
or we must plow up our cane  
fields," we understand the source  
of that appeal; we know that a  
square application of free trade is  
really needed. For free sugar will  
help to reduce those unduly inflat-  
ed dividends, and teach the sugar  
barons a long needed lesson.

If you need alfalfa seed you want  
good seed—the best that is to be  
had—and Geo. Fortner sells that  
kind. Phone black 289.—adv.

## Order of Hearing on Original Probate of Will

The State of Nebraska, Wayne  
county, ss.  
At a County Court, held at the  
County Court Room, in and for  
said county of Wayne, on the 17th  
day of June, 1913.

Present, James Britton, County  
Judge.

In the matter of the estate of  
Jacob M. Ross, deceased.  
On reading and filing the peti-  
tion of Mrs. Delilah Ross, praying  
that the instrument filed on the  
2nd day of June, 1913, and pur-  
porting to be the last Will and  
Testament of said deceased, may  
be proved approved, probated, al-  
lowed and recorded as the last Will  
and Testament of said Jacob M.  
Ross, deceased, and that the execu-  
tion of said Instrument may be  
committed and that the adminis-  
tration of said Estate may be  
granted to Delilah Ross and Wilber  
L. Ross as executors; Ordered,  
That July 9, A. D., 1913, at 10  
o'clock a. m., is assigned for hear-  
ing said petition, when all persons  
interested in said matter may ap-  
pear at a County Court to be held  
in and for said County, and show  
cause why the prayer of the peti-  
tioner should not be granted; and  
that notice of the pendency of said  
petition and the hearing thereof,  
be given to all persons interested  
in said matter by publishing a  
copy of this order in the Nebraska  
Democrat, a weekly newspaper  
printed in said County, for three  
successive weeks prior to said day  
of hearing.

**JAMES BRITTON,**  
(Seal) County Judge.

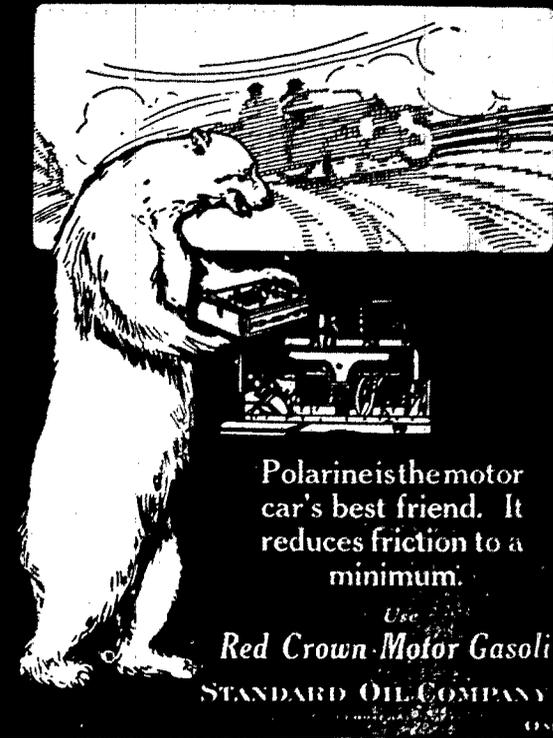

The Scientific American of the  
last issue devotes the first page to  
a picture which gives one who sees  
it an idea of the food consumption  
of New York City every twenty-  
four hours. Among the things  
shown which are produced on the  
farm are 22,410,958 lbs. of meat  
daily. This does not include poul-  
try, of which 273,972 pounds are  
daily used; meaning if it were re-  
duced to chickens of the usual size  
more than 54,000 chickens. Of  
fish the New Yorkers daily pick the  
bones out of 410,959 pounds. Add  
to this 4,974,996 eggs each day  
and 2,191,780 quarts of milk and  
380,822 pounds of butter with  
which to spread 2,465,753 loaves  
of bread, and 342,465 bushels of  
potatoes and one can see that it  
would require quite a farm to fur-  
nish in a year even a single day  
food supply for the millions who  
are penned up in the one city. The  
annual cost of the food supply of  
this city is figured at \$634,683,449.

Miss Faith Haskell returned Wednesday evening from Washington, D. C., where she graduated from Mrs. Somer's school this spring. Her friend, Miss Francis Pindle of Peoria, Ill., accompanied her home for a visit.

About thirty young people drove out to the home of Mr. and Mrs. Ben Lund Thursday evening and helped them celebrate their first wedding anniversary. A most enjoyable evening was spent and delicious refreshments were served by the guests.

Julius Swanson opened his new meat market to the public Monday morning. The building is a brick structure, 25x60 ft. It has a front of pressed brick with large plate glass windows. The floor is cement. The building is lighted by means of a private electric plant. August Paul, who is known to Wakefield people as a first class butcher, has been employed by Mr. Swanson.

The hospitable home of Mr. and Mrs. H. S. Collins was the scene of a pleasant gathering Saturday afternoon when about eighty of the relatives helped Mr. and Mrs. Collins celebrate their silver wedding. Two of the bridesmaids, Mrs. C. A. Henry and Mrs. Chas.

Lundberg and one of the groomsmen, Andrew Hyspe, were present and received congratulations with the bride and groom of twenty-five years ago. A number of beautiful pieces of silver were presented Mr. and Mrs. Collins. A delicious luncheon was served at the close of a most enjoyable afternoon.

Nels Herman autoed to Pender Sunday morning to visit friends, returning the same evening.

Willie and Otto Brummond and Fred Elfein spent Saturday and Sunday with Herman Steckleberg.

Mr. and Mrs. R. A. Clark of Wayne helped Mrs. Clark's father celebrate his birthday Thursday evening.

While local grocers in this and adjoining counties remain comparatively inactive in the rush for business, a quartette of agents from some of the outside concerns are visiting every home in the county taking grocery orders.

The Rural Home society met with Mrs. Wm. Cunningham south of town last Thursday. After the business meeting the hostess was assisted in serving a two course luncheon by the Misses Forbes and Gildersleeve. Arrangements were made for a picnic to be held July 4th, to which the other rural societies were invited.

A. G. Adams will continue the drug business which he purchased last week at the same place for some time at least. This week he has installed a new and more modern soda fountain than the one which came with the stock. He is reversing the usual order of placing the fountains in the front of the room, and has his new one placed at the back of the room making it more convenient for those who serve.

Mrs. M. P. Ahern, who has been here for the past two months assisting at the store of her son, J. J. Ahern, during his absence, left Tuesday morning for Leavenworth, Kansas, where she will visit a daughter for a short time, then return to her home at Kankakee, Illinois, and from there she is planning to leave in a short time for the land of her birth—the Emerald Isle. Her many friends at this place wish her a safe voyage.

Mrs. McConnell entertained the ladies Bible Study Circle Tuesday afternoon at their pleasant home west of Wayne. There was a large company present and the first lesson in the new quarter was thoroughly enjoyed by all. A picnic was planned for the fourth to be held at Rennick's grove and those wishing to attend will find a cordial welcome. The next meeting of the circle will be with Mrs. J. G. W. Lewis on College Hill and a splendid time is anticipated.

The P. E. O. met at the home of Mrs. C. A. Chace Tuesday evening with a very good attendance. Miss Reba Nangle gave a most excellent report on the state meeting of the P. E. O. held at Hebron last week. Among other things she reported it one of the largest and most successful meetings ever held in the state, the B. I. L. and the city in general doing their utmost to entertain the visiting delegates. At the close of the meeting Mrs. Chace served ice cream and cake.

Gus Peterson, who is postmaster at Concord and also local manager of the central telephone office, was a visitor here Wednesday evening, coming by car. The two news distributing concerns which he represents shows how natural it is for the telephone and postoffice to be under one management; and we believe they will be in the not distant future. Our Uncle Sam should take a hand in the game—for judging from the manner in which the telephone combine in this state is doubling an already high rate with the aid of our pliant board of railway commissioners this monopoly has gone beyond state control. There is no good reason why the people should be compelled to pay extortionate rates for inferior service, as it is claimed they are having to do in several counties in the southern part of the state. Unless this great corporation shall make their rates reasonable and service good there is no excuse for the people to long tolerate them.

## A Great Land Bargain

320 acre Homestead Relinquishment, good house 22x24 frame, with extra room 10x20, large bank stable, 70 acres in cultivation, 40 acres fine small grain crop, balance in corn, millet and other crops; all good, 200 acres fine farming land, balance pasture all well grassed, located 10 miles from Limon, 4 miles from P. O. If taken at once crop and all can be had for \$1500. Only reason for selling is that owner has just purchased large farm, crop and all, 20 miles from this one and will sacrifice if sold at once. This place is readily worth \$3000 of any man's money. No trades considered. Carl M. Cook, Limon, Colo.—adv.

## Preventive For Hog Cholera

Mr. Editor—Here is a recipe that I used in Iowa as a preventive of hog cholera: Wood charcoal 1 pound; Salt 2 pound; Sodium bicarbonate, 2 pound; Sodium hypophosphite 2 pounds; Sodium sulphate, 1 pound; Black antimony 1 pound; Sulphur 1 pound.

Have a druggist mix these, explaining that they should be well pulverized and thoroughly mixed. Give a dose of 1 tablespoonful once a day for every 200 pounds of hog. Mix with a soft food, bran, shorts or corn meal. I had it filled about once a year and fed about every month. I never raised less than 100 pigs a year and never lost one with cholera or any other disease. —Charles Hunter, Greer county, Oklahoma.

## An Auto Mixup

There was a clash between two automobiles last evening in the southwest part of town when the June Conger car, driven by Miss Frankie, clashed with the car of some stranger who was coming into town, but did not make his identity known. Miss Conger says that he claimed that she turned the wrong way, and she is of the opinion that had she turned the other way it would have been impossible to avoid a very serious collision. The Conger car was carrying the family for a pleasure ride and fortunately no one was hurt. The car was somewhat injured but was able to be towed home by a passing neighbor. The stranger was able to get away in his car and did so.

## College Hill Notes

Miss Marjorie Bush will visit here this week.

Miss Sadie Mahon has been reported ill the past few days.

The Y. W. C. A., met Tuesday with Miss Mahood as leader.
