HOME POSTOFFICE TROUBLES

The Deadly Microbe of a Prevalent Disease—Lust for Office—is Spreading in County. Democrats in Greatest Danger.

At the meeting of the Democratic Central Committee called for last Saturday afternoon to decide upon some plan for recommending who should be named as postmaster at Wayne and Winside, there was a full attendance, every one of the members being present. Chairman Massie called the meeting to order and stated the object as he understood it. At the suggestion of Committeeman Mitchell, a motion was made by Committeeman Fry that the committee fix a time when they would meet again and determine who should be appointed postmaster at Wayne and Winside. After short discussion this motion prevailed by a vote of 11 for and 6 against. It was then decided that candidates would have until the Saturday following—August 9, to file application with the clerk of the committee, and then the committee is to meet the following Saturday, August 16, and cut the melon. Now that was easy—for the majority of the committee had evidently made up their minds that that was the proper thing to do.

Evidently the Democrat spoke truthfully last week when it headed the item telling of this meeting with the statement that our postoffice troubles are to begin. There was not much debate or discussion in the committee meeting. L. A. Kiplinger objected to the proposed plan and gave his reasons. In fact some members of the committee did not realize where they were at until the meeting adjourned.

Beyond doubt a healthy protest will be filed with Congressman Stephens for the committee did not comply with the spirit of the rule he had suggested to county chairmen of the committees nor did it comply with the purpose of candidates who had asked that the committee be called to consider the best method of making a recommendation for democratic postmasters in this county. Not having seen a copy of the call sent out we do not know whether or not that made plain the purpose of the meeting as it was desired by those candidates who wished the matter taken up at this time.

In his letter to chairman of committees of the different counties Congressman Stephens after stating his wishes for a fair opportunity for the people to make their choice of democratic candidates known, made the following suggestion and it was supposed that it was in compliance with this suggestion that the committee was called:

"Therefore I suggest to you where there is more than one candidate for the office that you get these candidates together and get them to agree if possible upon a tribunal of Democrats composed of yourself and the local committee to the town affected and other leading Democrats who should be consulted to whose judgment they would agree to abide. Every effort should be made to get all of the candidates to agree beforehand that the tribunal elected is satis-

factory to them. This would make you less trouble in the end.

"If the above method for any reason is not satisfactory then you could submit the matter to a primary, rules for the conduct of which are inclosed herewith."

Then follow rules for the primary which are not here material. The objection to the action of the committee is on the ground that they were not asked to assume the unpleasant duty and great responsibility of naming a postmaster at Wayne and Winside, but to form an election plan which would be acceptable to all of the candidates and the patrons of the office, especially the democratic workers and patrons of the office. Instead, the committee meet and vote upon themselves this duty, without any conference or agreement with the candidates. The fact that six or seven of the committee and its officers were candidates for the office at Wayne or Winside and that no other candidates from either postoffice were given a say as to whether the plan would suit them or not is cause for objection. There are at least two candidates for the office at Winside who were not represented. One candidate is a member of the committee and another was present at the meeting but had no voice in the proceedings.

There is also objections among the democrats of Wayne over the fact that they would have no voice in the selection, while committeemen from Wakefield, Winside, Carroll and other outlying districts would determine the matter. At Winside the same is doubtless true. There is no doubt that they do not want the Wayne and Wakefield committeemen to name their postmaster, while they have nothing to say.

Of the democrats asked for an opinion, none have expressed approval of the action of the committee with one exception. Senator Kohl asked that he be quoted as opposed to the idea of the committee naming the postmasters without the aid of the patrons of the office. He had not favored the Stephens primary plan, but since it has been made the rule he wants it adhered to. L. A. Kiplinger does not favor the action taken by the committee and desired to be so quoted.

The editor of the Democrat has long held to the opinion that the people who patronize a postoffice should have a voice in the selection of their servant—not perhaps that they would select better, but that if "Nasby" must answer to the people as a whole rather than to a political boss and a political inspector the people would have better service—their convenience be consulted more fully, for a strict interpretation of the law or rules will easily permit a postmaster to be very exacting where it is not necessary.

Up to time of going to press but three candidates have filed: R. P. Williams of Wayne; E. W. Cullen and Clint Fry of Winside.

Among the candidates named for the Wayne office are noted C. W. Reynolds, J. H. Miassie, J. M. Cherry, C. A. Berry, J. E. Marsteller, Wm. Buetow, Charlotte White and possibly others. At Winside Chace Shaw and Mrs. B. M. McIntyre are said to be candidates.

Tennis Notes

A great deal of interest is being shown in the local Handicap Doubles Tournament now being played. The teams are all very evenly matched and some close and interesting matches have been played. On account of the absence of some of the players from town this week the Tournament will not be finished until some time next week. In the semi-finals of the Championship Singles, J. G. Miller defeated Paul Mines 6-3, 10-8. Mr. Miller plays Frank Morgan in the finals for the City Championship and no doubt some splendid tennis will be shown in this match. Mr. Morgan holds the cup at the present time and Mr. Miller was the winner in 1911. At the conclusion of the Doubles Handicap Tournament, it is the intention of the local Tennis Association to hold a Singles Handicap Tournament. The following matches have been played in the Doubles Tournament: First Round: Ringland-Miller defeated Kiplinger-Gamble 3-6, 6-0, 6-1. Second Round: J. G. Mines-H. Fisher defeated P. Mines-Morris 10-8, 6-3. Blair-Hickman defeated C. M. Craven-Francis Jones 7-5, 8-6. Fred Pile-W. Hahn defeated Alfred Lewis-H. Gildersleeve 7-5, 4-6, 6-1. Third Round: Fred Pile-W. Hahn defeated Blair-Hickman 6-2, 6-3.

Frank Morgan is in Lincoln this week where he is playing in the Nebraska State Tennis Tournament. Frank bears invitations from the Wayne Tennis Association and the Wayne Commercial Club to the State Tennis Association asking that Wayne be designated as the meeting place for the 1914 Tournament. Frank was accompanied by S. A. Eskine of Sholes with whom he will play in the Doubles.

Our Soldiers and Sailors Home

(By a Member of the Institute)

At this Home the commandant and all employees are competent to take the best of care of the old veterans. The tables and beds are as good as at any \$2 per day hotel and good enough for a king to live in. I have seen high officials of the state and visitors from abroad invited by the commandant to visit the Home and they partook of the same rations the inmates get every day, and they praised the Home very highly. The Home is not, as some have intimated, a paupers home, but a place of rest and for the care of Nebraska's national defenders. The very best of feeling prevails in the Home. The Commandant is a veteran of the old German 9th Ohio Infantry and is a very busy man. He is here and there, every where all the time to see that everything is kept in order. There is no red tape but a few rules that are required to be observed, tending to cleanliness and order. The home has been very much beautified this spring with flower beds, setting out shrubberies and trees and various other improvements. It is very much crowded, about 540 men and women, but more room will be added as soon as an appropriation can be obtained. Grand Island is two and one-half miles from the Home to the business part of the town and cement walks extend over one-half of the way.

To while away the time, those that feel inclined can go to the smoking room and indulge in games of cards or checkers. The library furnishes daily paper and all kind of periodicals and music. Church privileges for all beliefs and creeds.

Grand Island, Neb. Aug. 4, 1913.

Weather Reports

Wednesday morning it is reported that good rains fell in the district northwest of Norfolk, amounting to a downpour in the Rosebud country in South Dakota and in the Bassett vicinity of this state, with good showers at Oakdale and Atkinson.

In some places farmers think that the best they can get from their corn will be by cutting and binding it, and this work is going forward in some parts of Pierce county.

Popular Movement

The Post Office primary held in Osmond on a week ago last Saturday was a great victory for popular government. 359 voters who are patrons of the Osmond post office cast their ballots, and by that fact showed that they had a lively interest in the management of the post office. The election was decided by a new thing as heretofore the bosses of the party in power have selected the postmaster without regard to the will of the people. Sometimes he has been satisfactory to the people and sometimes he has not, but that mattered little for the slogan of the bosses is "the people be damned."

We heard one or two object to the primary on the ground that it was not "legal," and again because those of all parties were permitted to vote. By not being legal we suppose they meant not authorized by law. Well this is simply a case where a man is great enough to rise above the law. For years it has been the custom for a member of congress to recommend the appointment of a certain man for postmaster, regardless of his fitness for the job. The only question asked was "Can we depend on him to swear by the gods of his party?" Dan V. Stephens said the postmaster is a servant of the people. Let them choose whom shall serve them. The business men, the farmers, and the laboring men, these are the ones who have the right to say who shall fill the office. In doing this he ranked himself with those who are trying to place our government where it belongs, that is in the hands of the people.

When a member of Congress who is trying to serve the people, sees the need of a reform, he does not ask himself the question "How will this affect me personally, has it been done before?" but regardless of personal consequences and precedents he does the thing and leaves the results with the people confident that their ultimate judgment will vindicate his purpose. This has been Dan V. Stephens' attitude regarding the selection of the postmaster, and judging from the interest taken in the election here, and the many good words which we heard in regard to Mr. Stephens, it is a safe conclusion that the men of all parties will show their appreciation of his services when election again rolls around.

For looking at the matter in a sensible way how has a member of Congress any more right to say who shall care for your mail than he has to say who shall work on your farm or in your store? The people are coming to realize that all power in government comes from them.

Another good thing about the postmaster primary is the fact that it points to the doing away with blind party service. In the near future postmasters will undoubtedly be chosen without regard to politics, either by popular election or competitive examination. In all this it is easy to see that the power of the bosses will soon be a thing of the past. A few years ago a Republican would ask for office because his party had saved the Union and a Democrat would likewise claim the right to an election because Jefferson wrote the Declaration of Independence, but now-a-days when a man seeks an office the people ask him the question "Where do you stand? Are you on the side of the people, or are you lined up with the bosses?" Upon this answer depends his political life. If when weighed by the people he is found on their side his career is safe, but if found on the side of those opposed to popular government naught but the political grave yard awaits him.

If a man fights the battles of the people it is to their interests to stand by him. Such a man is Dan V. Stephens.—Osmond Republican.

The above will be of special interest here now.

The City Plant

The work of installing the new boiler for the city light and power plant is progressing. The boiler is set and the stack was raised Wednesday. The building which is to enclose part of the boilers now must be built and the steam pipes, connected before the new boiler can be fired. This will no doubt take the remainder of the month.

Walter Briggs spent Sunday with relatives at Randolph.

Among The Churches of Wayne

Methodist Church
Rev. P. R. Gloffely, Pastor

Meetings Sunday Aug. 10:—Class meetings 10:00. Preaching 10:30. Sunday school 12:00. Lawn service at Court house lawn 7:00 p. m. Epworth League, Friday, Aug. 8, at 8 p. m. Ladies' Missionary Society Friday, Aug. 8 at 2:30 p. m. with Miss Hannah Bresler.

The boys of the Sunday school scouts play the Carroll Sunday school boys a return game of baseball Friday afternoon at the Normal grounds at 3 o'clock.

4th quarterly conference comes Aug. 18 at 8 p. m. That shows nearness to the year's end. Let each plan his part in the closing of the year and do it early. This is good testing weather. Let us stand true to every call and be found faithful even in the least.

St. Paul's Lutheran Church
(Rev. Blessing, Pastor.)

Services at 11 o'clock. The subject will be "Sowing and Reaping". As the ages have passed we have learned that there is an analogy in the laws of the natural world and the spiritual world. If a man sows good seed in his natural garden, he will reap a good harvest. Likewise, if he sows good thoughts in his spiritual garden—the soul—he will reap a good harvest. Thus do the laws of the natural world and spiritual world reveal a similarity.

With deep regrets we learned of the death of the Rev. Josiah Kuhn, who so ably supplied the pulpit of St. Paul's last winter. Rev. Kuhn was taken very sick Sunday afternoon, July 27th, his condition became more serious on Monday, and he passed away Monday evening at 7:30 o'clock. He was 62 years of age, and is survived by his wife and three children. The funeral services were conducted in St. Mark's Lutheran church, Atchison, Kansas, Wednesday afternoon, by Rev. R. B. Peery, president of Midland College.

The Ladies' Aid society will meet on Thursday of this week at the home of Mrs. Lydia Skiles. The church and Sunday school picnic was held last Thursday in Bresler's grove. The day was ideal and a good time was reported by all.

There will be no more preaching service this month after Aug. 10, as the pastor will be away on his vacation.

Presbyterian Church
Rev. Alexander Corkey, Pastor.

"Showers of Blessing" will be the subject of the sermon at the Presbyterian church next Sabbath morning. In the evening the congregation will unite in the union meeting on the court house lawn at 7 o'clock.

The Sunday school meets at 12 o'clock, following the morning service. Everyone is welcome to

both church and Sunday school.

The young people of the church elected Miss Lyla Orr as the delegate from Wayne to the Storm Lake Conference, which meets at Storm Lake, Iowa, from August 7 to 14. Mrs. C. Clasen was elected as alternate. It is expected that several others will also attend some of the sessions. The Conference includes recreation of all kinds as well as Bible and mission study work.

The Sunday school is planning for a picnic to which the church and Sunday school and friends will be invited. An elaborate field day program is being prepared, including races, jumping, etc., and culminating in a baloon ascension. The full announcement will be made next Sunday at Sunday school.

One of the most interesting, profitable and beautiful presentations of pictures that was ever brought to Wayne will be exhibited at the Crystal on August 2nd under the auspices of the C. E. society. These pictures will show the life of Christ from the Cradle to the Cross, making the Gospel story real as life of today. An enormous cost the pictures were taken, and the scenes represented in Bible lands are reproduced exactly from life as the films were made in Palestine. There will be exhibition of the pictures both afternoon and evening. The tickets or admission will be 50c. It is suggested that either the Gospel of Mark or the Gospel of Luke be read through before seeing the pictures as a fresh reading of the wonderful life of the Man who is transforming human history will make the moving pictures intensely realistic. The sale of the tickets will be under the direction of Francis Jones.

Railroad Racket

There is an appearance of business in railway affairs at Wayne just now. It looks as though we had a real railroad. A force of men are busy on the foundation of the new depot. Material for the structure is arriving daily in car lots. Forms for the foundation, which is to be of concrete are nearly set. The mixer, the cement, the sand and the rock are here and the foundation will soon be completed. Another gang are finishing the grade for the new tracks north of the main line, and a new coal depot is also being built. A pile driver is on the track here part of the time and a long string of boarding cars house a force of track layers, who are replacing the rails of the main line with new 80-pound steel. It looks like railroad building. It looks good and when it is all over we hope something will be brought about to make business enough so that the line will have to be double tracked.

Superintendent J. H. Kemp and wife returned from a visit with her home folks at Pawnee City. Mrs. Kemp was away a month, he about two weeks.

Last week J. T. House moved to his new residence on College Roe, and W. E. Beaman and family have rented and taken possession of the place they vacated.

Rev. W. W. Tait, D. D., pastor of the Presbyterian church at Tecumseh, has resigned, and accepted a call to the pastorate of the church at Randolph.

Dr. Alexander Corkey and family returned Friday evening from a month or six weeks outing, spent at and in the vicinity of Kalamazoo, Michigan. Mr. Corkey reports an enjoyable vacation.

Mrs. Pryor left here Friday afternoon to be gone for some time visiting relatives and friends at Chicago, Milwaukee and other points in Illinois, Wisconsin and Iowa before returning home.

Having had my horse killed, I will give \$10.00 reward for the identification of the man and boy seen to enter the cemetery between the hours of 12 and 2 o'clock Monday night, July 28.

H. B. SHOOK, Supt.

Homer Wheaton returned Sunday evening from a visit of three weeks with an uncle who was stricken with paralysis recently at his home near Kalamazoo, Michigan. He reports that the drouth is unbroken for the 1,000 miles between here and that place.

Mrs. Wm. Harding of Smithwick, S. D., is here to visit at the home of H. B. Hutchings and family. They have lived in their Dakota home for the last four years, and like the climate very much, being in the southwest part of the state, but it is rather dry there any season, and this year is no exception.

Herman Stark was here between trains Monday on his way to his home at Emerson. He had been traveling by automobile and had the misfortune to break an axle at or near Bloomfield. The broken piece was ordered, and sent to Bloomfield, Iowa, by mistake, so the train took Mr. Stark home and he will return later for his car. He formerly lived neighbor to the Hansons, southeast of Wayne, and is known to many here.

Martin Muth and wife of Bloomfield stopped here last Thursday while returning from a visit with relatives at Adams, where they spent a week with relatives and friends. He says that the southern part of the state has suffered greatly in places from the drouth, but thought that his home community had had more rain than in the vicinity of Wayne, where they lived for so many years. While south he visited with R. Hefti, and reports that former Wayneite busy and prosperous.

S. E. Auker returned last week from a visit in the western part of the state, where he spent several weeks. He brought report from one democrat who has sheep there, and who claimed that his clip this year did not bring him as much as last year by nearly a dollar a sheep: But he had no sheep to give away just the same, and Mr. Auker may have to take his chances again with cholera and hogs. We have the same laws as to tariff this year as last, and the fact that the price of wool is down simply shows that the supply is greater or that under a protective tariff the wool combine can and does depress the price of wool, and we all know that they extort more than a fair price for the wool made into cloth. But we were telling about other conditions—or intended to. Mr. Auker said that feed was plentiful on the range there. Cattle were scarce. He showed a picture of a bunch of spring calves for which he offered \$30 a head, and was refused. Range stuff is held \$6.50 to \$7.00. Hay is plentiful. The potato crop is excellent, and buyers are already there trying to secure the crop. It was reported that one grower had been offered \$5,000 for his 150 acres of potatoes in the field.

CHAUTAQUA
A TICKET is what you want, if you are going to the Chautauqua. You will want one that will admit you to everything up to the last night. Suppose you were going off on a long journey on the train. Would you get off at every station and buy a ticket to the next stop? No. You would get one that would take you straight through. And it is the thing to do in going to the Chautauqua. It makes the cost less and it is less bother. Get your season ticket right today of one of the business men and then you will KNOW that you are going. A few years ago we thought it was wonderful that a newspaper could be sold for a penny; and a big, thick magazine for a paltry dime. But—that is nothing. At this CHAUTAUQUA, you can hear some of the finest musical companies and some of the greatest men of this age for less than twenty cents a number. That is all it costs—with a season ticket.

Miss Anna Phillips of Aitkin, Minnesota, who has been spending several weeks here at the home of her grandmother, Mrs. Margaret Wade, left for home Friday, accompanied by Mrs. Wade who will spend the month of August at the home of her daughter at Aitkin, Minnesota.

People who have visited here within the past week, coming from the southern part of the state report that conditions here in an agricultural way are far better than there. The Raweis family, the New Zealanders who were at Randolph Sunday, had been entertaining in northern Kansas and southern Nebraska said that it appeared like Paradise here by comparison with the land they had been in.

Elmer Rogers, who has been here attending college for some time, and who has many friends and acquaintances here, was suddenly taken ill last week with trouble which was diagnosed as appendicitis, and hurried to the Samaritan hospital at Sioux City Thursday, where he underwent an operation for the trouble, and all are glad that he is said to be doing nicely, and will soon be able to return.

When the list of those who will be required to change their light meter was completed and the names counted it was found that more than 80 will have to be moved to conform to the new ordinance. It will be a great convenience to the man who reads meters not to have to climb up the back stairs, and then on up into the garret, crawl over a bed and crowd into a closet and there light a candle to see how much light has been burned.

Geo. Grunnemeyer had the misfortune to break the large bone of his left forearm last Thursday. He was working at plumbing at the L. A. Fanske home and had just finished his job, and in stepping down from where he had been at work, a box he stepped down on turned, caught his leg so that he could not save himself, and when he gathered himself up after it was all over he had to go and have a doctor put splints and bandage on the arm. He has secured Peter Garrily of Sioux City to keep work going.

About Canning PEACHES

The Fruit canning season has been so unsatisfactory this year that we want to call your attention very strongly to the peach outlook. We have decided that there will be no cheap peaches with any quality this year and have placed our order for a few hundred cases to arrive in daily shipments. These peaches will be the California Elbertas raised in the Placer and Fresno counties, the THE RECOGNIZED PEACH GROWING DISTRICT OF QUALITY.

Call us up and place your order as we will be in position to quote you peaches at about the same price others have been asking for poor quality stock.

Place your order as we believe in getting fresh shipments every day instead of in large lots and have them start to spoil before sold.

We want your this season peach business, and if quality and price is any object to you, Beaman will be entitled to your order.

We have a very complete line of Fruit Jars, Jar Rubbers, Covers, Canning Compound and the

A BRILLIANT FINISH.

Amperre Brought His Quiet Evening to a Startling Climax.

Andre Marie Ampere, the French writer, physicist and mathematician, famous for his investigations in electro-dynamics, was remarkably absent-minded. Hundreds of stories of his absentmindedness are told, but quite the funniest is that of his dinner at the house of M. Fontanes, the grand master of the University of Paris.

For a joke somebody had told Ampere that he must go to the dinner in his academician's uniform of green and gold and girt with his sword. When he got to the house he was very much annoyed to find everybody else in ordinary evening dress. "I will get rid of the sword at all events," he said to himself and slipped it behind the cushions of a sofa.

After dinner Ampere forgot himself, as usual, and became lost in abstract calculation. He took a little piece of chalk out of his pocket and began working out problems on the black satin cover of the mantelpiece. He be-

came so absorbed in what he was doing that all the guests left without his noticing them, and when he wrote down Q. E. D. no one was left in the room except Mme. Fontanes, and she unfortunately sat fast asleep on the sofa where Ampere's sword lay hidden.

Ampere went down upon his knees and pulled gently at the sword, so as to get it away without waking the lady. He pulled and pulled, and presently the sword came out—without the scabbard. At this moment Mme. Fontanes awoke and alarmed the house with her screams of terror at seeing a man on his knees before her with a drawn sword in his hand.

Then the lady promptly fainted, and Ampere, still with his naked sword in his hand, rushed to the door to summon assistance. Here he was met by a crowd of servants in various stages of undress, who had been alarmed by the screams of their mistress. These good people thought the man had gone mad and raised their voices in piercing yells, which brought the master of the house. He, frightened and trembling, finally grasped the situation and quieted the excited servants and calmed the agitated Ampere, who explained matters to the now thoroughly aroused mistress of the house.

Don't Repine, Act.

It is ignoble to sit down and repine or even to endure passively limitation which courage, energy and faith would easily surmount.

A Startling Operation.

A startling real estate operation is noted in the following description in a deed on record in a certain county of North Carolina, copied unchanged from the book of deeds, with the exception only of the name of the unfortunate landowner: Beginning at Beck's south corner, running thence north fifty feet, thence west fifty feet, thence south fifty feet, thence east fifty feet to beginning, this being a plot of land fifty feet square out from the back end of the said Pomina Jones."

Cause and Effect.

A witty bishop of one of the southern dioceses of the Protestant Episcopal church was being shown through a small college to whose board of trustees he had been elected. It was a summer day, and as the episcopal party crossed the campus the bishop noticed scores of students who had flung themselves on the grass and lay there sleeping. The scene suggested a picture of a battlefield, entitled "After the Charge."

The dean, his companion, opened a classroom door. A particularly prosy professor was holding forth.

"This, bishop, is math," he said in the college lingo.

"Ah, yes," said the bishop. He pointed to the sleeping students. "And this, I suppose, is arithmetic." New York Post.

Thought Nine Enough.

The following amusing birth notice appeared in the Dresden Anzeiger: "To our seven healthy boys there came today, in God's early morning, our wished for little daughter, but in compensation, a pair of fine boys. We judge by this elementary event that these strenuous times demand more men than blossoms of the center act and console ourselves with thoughts of our fatherland, to which we are—"

"Herrnh! Herrnh! Now it is a nice firm stand and true the watch on the Rhine!"

"To all dear friends and acquaintances and to whom else the joyous tidings may be of interest we give this notice—the last of its kind—Edward Rest and wife."

The Double Header

Wayne's ball park was taxed to its full capacity last Sunday to take care of the large crowd gathered to witness the two ball games played on that day. The first game was a weird exhibition of the national pastime and the second contest was one of the worst played games ever staged on a Wayne diamond. A special train of six coaches was packed with enthusiastic "fans" from different towns on the branch line, the greater part of them being from Bloomfield and Randolph. The main line train from the west brought a delegation from Winside. Following is the summary of each game:

First Game

Two base hits: Hatten, Schultz. Three base hits: Pratt. Home runs: Clark, Courtney. Bases on balls: Off Brandt 3. Struck out: By Brandt 8, by Courtney 9. Hit by pitched ball: Cotton, Miller. Stolen bases: B. Brandt, Clarke, W. Brandt, Sacrifice hit: Pratt. Left on bases: Randolph 10, Bloomfield 4.

Loubet Surprised Constans.

In spite of his imperturbability M. Constans admitted that one man had succeeded in astonishing him. Emile Loubet, afterward president of the republic, did this.

"When I left the ministry of the interior," said M. Constans in telling the story, "I handed over to my successor the key of the safe containing the secret service money. It was then the beginning of March, and I had a nice little sum, more than a million, in bundles of 10,000 francs. M. Loubet did a thing which I should not have believed possible."

Here M. Constans stopped and asked: "Do you know what he did?"

Some one ventured a guess.

"Not at all," resumed M. Constans. "M. Loubet signed me a receipt for the sum without even opening the safe to see if it was there."—Philadelphia Press.

His Own Medicine.

A medical practitioner on board an American liner administered rather freely sea water among the patients who were ill. No matter what their ailments were, a dose of the briny fluid was quickly handed to them, and they were told to drink it up. One morning the physician fell overboard, which caused quite a consternation among the passengers. The captain came on the scene and inquired the cause. "Oh, it's nothing, sir," answered one of the sailors, "only the doctor has fallen into his own medicine chest!"—Exchange.

Cautious Hiram.

Two farmers met in a certain town a day or two after a cyclone had visited that particular neighborhood.

"She shook things up pretty bad out at my place," said one, stroking his whiskers meditatively. "By the way, Hiram," he added, "that new barn of yours get hurt any?"

"Waal," drawled the other, "I dunno. I hadn't found it yet."—Youth's Companion.

No Evidence.

"They tell me that fellow Whiggles is a man of letters," said Joram.

"I've heard so," said Snippe, the tailor, "but I can hardly believe it. I've written to him ten times about a little bill he owes me, and nary a letter can I get out of him."—Harper's Weekly.

Describing It.

"How do you like this chowder, Mr. Starboarder?" asked the landlady.

"It is cold, but not clammy," replied Mr. Starboarder.—Philadelphia Record.

General ideas and great conceits are always in a fair way to cause terrible mischief.—Goethe.

"A Short Corn Crop"

It matters not how much rain we have the balance of the summer, we will still have a short corn crop. This means that we must all economize on expense of high cost of living. Begin right now by storing enough wheat with

The Wayne Roller Mill

to provide flour for your needs for at least one year. 3 1/2 bu. of wheat will get you 100 lbs. Superlative flour and 35 lbs. of bran. 3 bushels of wheat will get you 100 lbs. of Snow Flake flour and 30 lbs. of bran. Don't wait but do it now while wheat is cheap. **OUR BRAN AND SHORTS ARE A NO. 1.**

WEBER BROS.

P. S. We are grinding old wheat. You can bring your new wheat and get your flour when you want it.

Life of Rev. Kuhn

The following obituary of Rev. Kuhn is taken from the Atchison Globe: After a short illness of a serious nature the Rev. Josiah Kuhn, a retired Lutheran minister, died last night at his home at 1302 South Tenth street. Being of an affable disposition, and at the same time an earnest man, his sudden demise was a shock in Midland college and English Lutheran circles. Although he had suffered from hernia for thirteen or more years, his condition did not become alarming until Sunday night. All day yesterday he suffered intensely, and death came about 7:30 o'clock last night. He was 56 years of age, and is survived by his wife and three grown children, Rozella, Esther and Loy, students at Midland college. The funeral services will be conducted in St. Mark's Lutheran church Wednesday afternoon, at 3:30 o'clock, by Dr. R. B. Peery, president of Midland college. Burial will occur in Mount Vernon cemetery. The pall bearers will be Professor W. A. Sadtler, Dr. Holmes Dysinger, Rev. George S. Murphy, of St. Joseph, Mo., Rev. Karl Krueger and Rev. J. F. Krueger. The Kuhn family moved to Atchison from Bunker Hill, Kansas, only a few years ago, the parents desiring to educate their children in Midland college. Born in Maryland in 1857, the Rev. Kuhn entered the Lutheran ministry in 1887, having graduated from Carthage college in 1881. He was married in 1890. His first pastorate was near Cedar Rapids, Iowa, and before coming to Atchison he was pastor at St. Elmo, Ill., and Bunker Hill. For several years he was engaged in other lines of work at Chicago and Dixon, Ill. As a pastor he was efficient in every way, and canceled several burdensome church debts. Although he called himself a retired minister, Rev. Kuhn frequently supplied pulpits after he came here. He was a sincere Christian worker, and while he was not talkative, his polite and agreeable ways made many friends. He is survived by a most estimable family.

Robert Sneath in Pennsylvania

A Blair county paper from the Keystone state tells of the manner in which an old soldier from this county was entertained when in his old home, where he went to visit after the Gettysburg reunion.

What proved to be a very enjoyable gathering took place on Saturday, July 19, at the home of Mary J. Miller, three miles north of Bellwood, on the occasion of a visit of her brother and his wife, Mr.

and Mrs. Robert Sneath, of Pender. Mr. and Mrs. Sneath were formerly residents of Blair county, leaving here about forty-four years ago and going to Nebraska where they have resided ever since. Mr. Sneath is one of the men that answered the call of President Lincoln away back in the 60's and served his country faithfully until the close of the war, returning home with an enviable record as a soldier and a man. The day was spent in roaming through the shady dells, pitching quoits and various other amusements. The climax was reached about noon when all were

called and made to sit down to a table that was set under the old oak tree. The table was laden from end to end with all manner of good things to eat.

After dinner the men proceeded to find out who was champion quoit pitcher, Mr. Sneath showing his science in this line to be far superior to all others that took part in the sport and walked away flying the colors of champion quoit pitcher.

All left in the evening hoping Uncle Bob will live to come back to Pennsylvania to to pay us many more visits.

WAYNE MARKET REPORT

Following are the market prices quoted us up to the time of going to press, Thursday:

Table with market prices for various commodities like Corn, Oats, Barley, Spring wheat, Wheat, Eggs, Butter, Hogs, Fat Cattle.

Unless the tariff is retained on pig iron, says the news items, Pennsylvania will have a dangerous competitor in Cuba, or some other port. That is just what we want is for Pennsylvania to have a competitor. She has been it long enough.

The postoffice situation here reminds one of the fable of the cheese, the cats and the monkey. In the name of settling the quarrel over the cheese the monkey ate it all, leaving nothing to quarrel about. So with the committee, no one else need apply.

In the eyes of the few big bankers of the country the worst thing about the new currency bill is the fact that it proposes to take from the power to control the money of the country and the country. If they run the country without salary they seem to think that should satisfy, no matter how they run it.

The idle car statement of the railroads showed an increase of 6,000 cars of that class for June. But with the demand to be created from now on to move grain and coal that number will last about as long as a snowball in July. And the next thing shippers will be told that cars cannot be obtained no matter how urgent the need.

The money trust and big banker of New York City begin to feel that they are up against the real square thing. The secretary of the treasury has been among them and their kind long enough to know their ways, and the people are to profit from this knowledge. They now have no Iowa farmer

who, while smart enough in his place, was not familiar with the tricks of the money sharks of the Wall street stripe. They do not like it very well to have a man in power who knows their weak points.

Senator Hitchcock—our senator is making a fight against the currency bill proposed. In a resolution he is quoted as saying that he "is opposed to taking up the revolutionary bill." So are the great money trust combine men opposed. To be sure our senator limits his opposition to the time—but does not say he would favor the "revolution" later. The senator may find revolution at home when he comes to ask the people he is supposed to represent to again hand him a senatorial toga—yet we would not have the senator go contrary to his convictions for office—but want him to make his convictions known.

Car of Cattle Burn

A stock car loaded with fat cattle burnt a mile and a quarter west of Hoskins Sunday night. They were enroute from Chadron to Sioux City and were owned by E. J. Fluckiger and Co. who had 55 head in the shipment. The loss of cattle amounts to about \$2,000. It is supposed that a spark from the engine caused the fire. John Larvine of Whitney who had 2 cars of cattle in the train had to unload and feed as his time was out. The Monday morning passenger was delayed a short time by the accident.

Frank Morgan was called from Lincoln Tuesday night by a message telling of the serious illness of his mother, Mrs. John Morgan. Mrs. Morgan passed the crisis safely and is reported better this morning.

A Texas Ranger

Everyone likes to see an exciting show and that is the kind A Texas Ranger will be which is to show in Wayne on Thursday, Aug. 14, in a big tent. It is described as a beautiful play with a story of strong interest and the dash of dare-devil bravery, the cunning of the redskin and the treacherous Mexicans, the many startling surprises by the Texas Rangers and the Cowboys and the big scenes in the camp of the Indians and the attack and defense of the fort. The story of this play is founded on historical fact and is recommended as being first class in other towns where they have showed recently.

Church at Bloomfield Started

Last Sunday at Bloomfield the laying of the cornerstone of a new Evangelical Lutheran church drew many people of that faith to witness the ceremony. Services were held in both German and English. Rev. E. Gehrke from the Lutheran church northeast of Wayne spoke in German, Rev. W. Becker of Waco gave the English address, and Rev. A. Ollenberg, who has been pastor there since 1895 laid the stone. The Concordia choir sang. This church when completed will cost nearly \$17,000, and with the contemplated furnishings the cost will be fully \$25,000. The dimensions are 55x83 ft. The old church building, which it is to take the place of, will be used for the school, and a young man will assist the pastor in teaching. This new building was made necessary to meet the growing church membership, which is now about 200, and this membership and the families who attend with the parents made an audience of fully twice the membership.

INSURANCE ADVERTISING

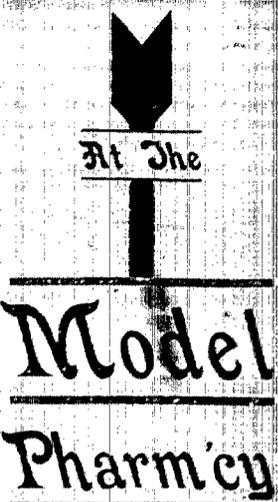

Geo. O. Van Camp, District Manager of the Prime of Life Insurance Association of Omaha, Neb., has been in Wayne the past week arranging for a local representative. Mr. F. H. Benschhof an experienced insurance man, has accepted the Agency.

"The policy written by the Prime of Life Association" said Mr. Van Camp, "is essentially different from the usual old line standard policy, in that it is straight insurance at the actual cost of protection, with a minimum amount for the expense of doing business. We write a contract policy with a stipulated premium that cannot be raised, with no membership fees, examination fees, lodge dues, or assessments, charged the policy holder who may be of either sex between the ages of sixteen and fifty."

"We believe that most people would prefer to leave property and a reputation for success behind them," he continued, "rather than a mere insurance policy, and with that in view, we do not demand that every policy holder invest from thirty to forty dollars per thousand each year for twenty years in our banking business in order to secure the right to carry insurance in our association."

"It would seem preposterous if a fire insurance company were to ask their prospective policy holders to loan them a yearly sum for their investment for twenty years for the privilege of the protection of the property," said Mr. Van Camp. "Is it not just as preposterous for a life company to make a similar demand?"

The Prime of Life Association writes but two policies, whole life and fiftieth year terminating insurance. "One can carry \$3000 whole life and \$2000 terminating insurance in the prime of life at about the rate it would cost for \$3000 Old Line insurance," Mr. Van Camp stated. F. H. Benschhof, Agent.

Miss Vera Gieseker of Lincoln came the first of the week to visit at the home of her uncle, Gus Bohnert of the Union hotel.

George Fortner and wife are home from a three weeks' visit in Pennsylvania and Ohio. They report a fine time while away.

Mrs. H. Schroer went to Norfolk Friday to visit her husband who is working there and also her brother, Wm. Thompson, who was recently accidentally hurt but who is now recovering.

W. I. Lowry, formerly of the Royd barber shop is here from Norfolk this week in charge of the Dewey shop while Mr. Dewey is visiting relatives and friends at Neligh, where he formerly lived.

Miss Hazel James spent Tuesday here at the home of her aunt, Mrs. D. W. Noakes. She came to meet at the station here, her aunt, Mrs. Carr of St. Louis, who came to visit her sister, Mrs. W. H. James at Carroll.

Misses Merie and Clys Bluechel returned Monday from West Point where they attended the annual race meet and visited friends a week. They report one of the most successful meets in the history of the organization.

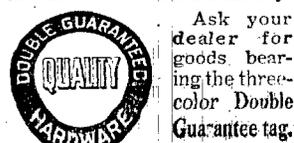

Burt county pioneers and old settlers will meet in their annual picnic at Tekamah this year on Friday, August 22nd. The invitation is to all old settler and pioneers of the state. Rev. H. L. Powers of Lincoln is the orator of the day.

Mail Order vs. Local Dealer

When you buy goods from a mail order house way off in Chicago or somewhere else, you have no recourse if the goods prove unsatisfactory.

Buy from your local dealer and get an article he is willing to guarantee and then you will have recourse.

The hardware your dealer is willing and anxious to guarantee is the Wright & Wilhelmy Co. Double Guaranteed Quality Hardware. Why? Because it is all high grade hardware bearing the factory name and because we guarantee it to him. Our three-color tag placed on each article of Double Guaranteed hardware authorizes the dealer to replace that article if for any reason you find it unsatisfactory. Remember, the mail order house rarely sells you goods bearing the name of a reliable factory.

Forrest L. Hughs and Walter Briggs were visitors at Crystal Lake last week.

Mrs. E. W. Johnson went to Oakland Tuesday to visit home folks a few days.

Miss Mae Schwenk of Norfolk visited her sister, Mrs. W. D. Beaman here Sunday.

Mrs. John Grimsley and Earl Kerson, who lives with them, when Logan, Iowa, Wednesday.

Chas. Corcoran from Mitchell, South Dakota, spent last Thursday night at Wayne, a guest at the home of W. E. Beaman and wife.

Andrew Quigley was called to Central City by the death of a sister a few days ago, and returned Wednesday, following the funeral.

Dr. Mable Cleveland went to Des Moines last week and spent several days attending the Iowa Osteopathic state association meetings.

Frank J. Sederstrom is this week moving from Hoskins to Wayne, having purchased the Carpenter place in the southwest part of town.

Paul Mildner, who was cut on the wrist last week was at work again in a few days, but laid off again this week with symptoms of blood poisoning.

Herman Mildner and wife went to Lincoln Tuesday to attend the state Saengerfest which is the great musical event at the capital Wednesday and Thursday.

Miss Elizabeth Bettcher went to Laurel last week for a short visit with relatives before going to the western part of the state where she will spend part of her vacation at home.

Geo. VanCamp of Sioux City has been spending a week at Wayne in interest of "Prime of Life Insurance Association," an organization with headquarters at Omaha, and organized under the laws of this state.

Mrs. Madden of Griswold, Iowa, is visiting here at the home of her son, Chas. Madden, and her daughter, Mrs. J. H. Foster. She was accompanied when she came by her daughters, Mrs. Hill of Omaha and Mrs. Davis of Council Bluffs, both of whom returned home Tuesday.

L. E. Bower came here last week to join his wife for a day or two in a visit at the home of her brother, W. A. K. Neely just north of Wayne. Mrs. Bower has been here several weeks while her husband was in Iowa. They left Monday for their home at Greeley, Colorado.

Rev. Wm. Leahy, S. J. of Chicago visited here Sunday and Monday with his brother, James, and was joined in the visit by their sisters, Misses Ella and Agnes, who came from Jackson to meet him here. He left Tuesday for Sioux City, and from there home.

Among those from here who took in the annual races at West Point last week were Dr. Adams, H. B. Jones, L. L. Way, F. A. Nance, Ed Ellis, Paul Mildner, Dr. Tobias and wife, B. F. Strahan, John McInerney, W. F. Reetz, Frank Pingrey, B. E. Dewey, Mr. Blakely and Henry Hachmeier.

R. A. McEachen has purchased the John Shannon house in the east part of Wayne, and will have possession about September 1st, when he will move to Wayne and become a permanent citizen. The price paid was \$5,500. Mr. Shannon is not planning to leave Wayne, but had more house room than he needed.

Miss Clara M. Whitney received a telegram Saturday from the board of education of Sioux City, Iowa, notifying her of her election to a position in the fourth grade of the public schools of that place. Miss Whitney is the fourth member of the class of 1913 of the Wayne State Normal who has been elected at Sioux City for the ensuing year. Those already under contract are Misses Banks, Peterson and Gantt.

Earl Rimel and his sister, Mrs. Nelson, had an experience that was not pleasant while driving to Wayne last Thursday evening. As they were coming into town the horse became frightened at a bicycle and started to run and ran into the A. A. Wollert yard striking the corner of the front porch, turning the buggy over and throwing the occupants against the porch. As the buggy turned the harness broke, letting the horse free from the buggy which no doubt saved a more serious accident as the top was up and the occupants would have had a poor chance of getting from under the buggy. A doctor was notified who discovered that no bones were broken, but the occupants were quite badly bruised. They were taken to the home of Mr. and Mrs. Chan, Norton where they spent the night, going home the next morning.

Misses Sophia Ebener and Mary Greener of Omaha are visiting at the Ash home.

Sam Berg of Pierce was looking after business here Wednesday and greeting friends.

E. B. Young and son, Ensign, of Wayne spent Sunday evening at the Chas. Soderberg home.

Ralph Bohnert, who has been visiting at Lincoln the past two weeks returned home this week.

The ladies of the M. E. church will enjoy a Tea and Talk after the regular business meeting next Thursday afternoon.

George Genung of Illinois, was here Tuesday, coming from the west and waiting to meet his wife who was to join him in a visit at Walsva.

Mrs. Jennie Hutchinson of Randolph, who formerly resided here, was at Wayne Wednesday forenoon on her way to visit a sister at Norfolk.

Miss Edith Beechel left Friday morning for Harrison, Nebr., at which place she will be employed as institute instructor in Sioux County.

Ole Hurstead and wife went to Sioux City today, where he will consult a specialist regarding his eyes—one of them giving him some trouble.

A regular meeting of the Eastern Star will be held next Monday evening. A large attendance is desired as important business is to be transacted.

Mrs. Mary Sullivan of Bloomfield visited Wayne friends Wednesday and while returning from a visit and business trip to her old home at Imogene, Iowa.

The fashion notes say that "invisible stockings" are barred in Chicago. How about a bathing suit of the same material? Don't understand what the authorities could see about such a suit.

Fred Henrich returned last evening from Sioux City where he has been staying for a time with his wife who is at a hospital there. She is improving slowly, and he hopes to see her home in a few weeks.

Rev. Rudolph Moehring was at Norfolk Sunday attending the sessions of the Lutheran mission fest. This made necessary a change in his services at Winiside, and therefore he will preach at that place Sunday afternoon at three o'clock.

At Walthill last week there was held an interesting county tennis meet in which many from over the county took part. There were cups and prizes of merchandise offered by the merchants to compete for. The event closed with a ball, which was an enjoyable occasion.

Automobile business continues good, and this has been a season of good roads for the car. One Wayne firm reports the sale of seven Studebaker cars in the past ten days. Two went to Coleridge, one each to Fisher & Johnson, Chas. Craven, Chan. Norton, F. Fisher and Mr. Simpson. Judge A. A. Welch has a new 1914 model Cadillac on the way here, we are told.

R. S. Ballentyne of Omaha, who purchased the Crystal theatre here two years ago and was owner and manager for some time was here Monday looking at the picture show. He notes many improvements since he purchased the place part of which he installed, but others which have been made since. He is yet in the business, but not running a show, and he says that Wayne now has one of the best size of the room being his only criticism.

John Liveringhouse and wife, accompanied by Dick Auker and wife went to Bridgewater, South Dakota, last week, driving through by automobile. Of crops, Mr. Liveringhouse says the small grain crop there was excellent and that the corn proposition is good if they get rain soon. He also stated that corn looked well near the river, but in the Hartington district it is badly hurt by drouth. Also that the Wayne vicinity is in better shape than most of the country.

John Mulloy returned the first of the week from a visit to his farm at Welch, Oklahoma. In reply to the question about condition of crops, he reported that the country is spotted. Northeastern Oklahoma looks well and has had some good rains recently. Other parts of the state and in Kansas from Parsons to Kansas City is very dry. Then comes a streak of fat and a streak of lean, so far as crops are concerned, with the lean streaks growing larger and leaner as the season advances unless in some favored locality they get a shower.

Johanna Hansen and wife, who came to America from Germany thirty years ago, and eight years later settled in this county, about eight miles northwest of this place, left Wednesday with their son to visit the land of their birth. They will sail for Hamburg in a few days, and plan to be absent about two months.

Albert, Ernest and Annie Echterkamp and George, Paul, George, Martha and Ella Kruger, Eddie and Alvena Meyer, Meta and Alice Lilje, Herbert and Lena Reuter spent Sunday evening at the Wm. Bartling home. The time was spent in music and games and a very good time was reported.

Harry Delahoyde, a former Wayne boy, was married at Madison, Tuesday, August 5, 1913, to Miss Myrtle Childers of Norfolk. Harry was born and raised in Wayne county, moving to Norfolk about a year ago, where he is now employed by the Standard Oil Co. They will be at home at 205 N. 7th street, Norfolk. The Democrat extends congratulations.

Wm. Gildersleeve, wife and daughter, Elizabeth, returned this morning from a week in the western part of the state, where they visited their daughter, who lives between Morrel and Mitchell. This is in the irrigated district, and crops look well. Alfalfa and beets are the crop mostly grown there. They report that the part of the state fifty to seventy-five miles west of here was being rained on as they came through. Cattle in that country are held too high to suit under present conditions, he thought.

LIVESTOCK PRICES AT SOUTH OMAHA

Slow Trade in Beef-Market Weak to 10 to 15c Off.

ANOTHER DECLINE IN HOGS.

Good Run of Sheep and Lambs—Trade Good Considering Heavy Receipts. Prices Fully Steady With Monday. Feeding Lambs a Dime Up.

Union Stock Yards, South Omaha, Aug. 5.—Cattle receipts amounted to 4,700 head today. The fat cattle market was slow and prices weak to 10@15c lower. Values in general for beef steers show a 20@30c decline for the two days. There was a better inquiry for desirable cows and heifers today and anything attractive in this line found a ready sale at steady to strong figures. Scarcely any corn-fed stock is coming and the best are still quoted at \$7.00@8.00. Veal calves were lower again today, showing a 50@75c drop as compared with last week. Grass, bulls, stags, etc., are going lower right along and few corn-feds coming. There was a quick reversal of form in the feeder trade today and desirable offerings, both heavy and light, sold to better advantage than on Monday.

Choice to fine beefs, \$8.40@8.80; good to choice beefs, \$8.00@8.40; fair to good beefs, \$7.60@8.25; fair to choice feeders, \$7.00@8.5; common to fair cows, \$7.25@7.90; good to choice heifers, \$6.50@7.50; fair to good cows, \$5.75@6.25; canners and cutters, \$4.00@5.00; veal calves, \$6.00@10.25; bulls, stags, etc., \$1.50@7.00; choice to prime feeders, \$7.20@7.90; good to choice feeders, \$6.00@7.15; fair to good feeders, \$5.25@6.00; common to fair feeders, \$4.75@5.50; good to choice grass beefs, \$7.00@8.00; fair to good grass beefs, \$7.00@7.40; poor to fair grass beefs, \$6.10@7.00.

At 12,000 hogs showed up today. Heavy receipts at this point and very bullish reports from other markets precipitated a fresh break today. The movement was rather slow and prices in general 20@25c lower. The bulk of the supply went at \$8.10@8.25, and some good lights reached \$8.65.

Sheep and lamb receipts were heavy again today, over 21,000 head being received. The market opened in fairly good season and most of the killing sheep and lambs sold in the same notches as the day before. The big end of the generous supply was made up of lambs and their general quality was very good. Some Utah lambs brought \$4.85. Fat ewes went at \$4.15. There was a broad inquiry for feeding sheep and lambs and prices were steady to a dime higher. Some feeding lambs brought \$4.50, and some ewes at \$3.00.

Quotations on sheep and lambs: Lambs, good to choice, \$7.75@7.90; lambs, fair to good, \$6.50@6.75; lambs, ewes, \$5.00@5.60; lambs, feeders, \$4.00@4.70; yearlings, good to choice, \$5.25@5.50; yearlings, fair to good, \$5.00@5.25; yearlings, feeders, \$4.70@5.10; wethers, good to choice, \$4.50@4.75; wethers, fair to good, \$4.25@4.50; wethers, feeders, \$3.50@4.25; ewes, good to choice, \$4.00@4.25; ewes, fair to good, \$3.75@4.00; ewes, feeders, \$3.00@3.25; culls, sheep, \$2.00@3.00.

SCHOOL DAYS WILL SOON BE HERE!

Summer sewing ended, Fall sewing begins. Attention will be directed toward getting the children ready for school and we want you to come here for your materials. This week we will go through our dress goods section and take out all the short lengths of worsted goods which we will put on a bargain table. BEGINNING SATURDAY these remnants will be sold at prices that will make them easy for you to buy. Many of these lengths will be suitable for little dresses, coats or little boys suits.

Outing Flannel Gowns and Petticoats

Most of our stock of Fall Outings came this week. Come and get your choice of the new patterns. You can begin work right away.

Fall House Dresses, Aprons and Children's Dresses

That means that percale of an extra quality will be demanded. Our percales came this week. They are the standard Manchesters, 36 inches wide, printed on fine cambric and are fast color.

Extra Value Yard Wide Muslin

Don't feel satisfied 'til you have seen this muslin that we are selling for 10c a yard. It is fine and absolutely without starch or other filling and is really worth more.

New White Petticoats

Fine muslin or white sateen petticoats. Made with double thickness front finished at bottom with embroidered scallops. - - - \$1.00

Big Aprons Ready Made

These are made of a good quality percale, well finished and fit well - - - 50c

The summer goods still left in stock are offered at prices that represent a big saving and if you are still in need of any of this class of materials it will be to your interest to come and see them.

Seeding Alfalfa

In eastern Nebraska probably
more alfalfa is sown in August
than in all other months combined.
Seeding at this time is economical
of both land and labor, as oppor-
tunity is given to harvest a crop of
small grain, and the field need
not be mown to keep down the
weeds as is necessary in spring
seeding.

The field where alfalfa is to be
sown should be disked if possible
immediately following the binder.
This pulverizes the top soil and
conserves moisture. The ground
should be plowed as early as the
crop can be removed, and worked
until the seed bed is fine, and well
primed. Shallow plowing usually
gives better results than deep as
the seed bed is more easily primed
and there is less danger of winter
killing. Many men have secured
excellent results by merely disking
the ground several times. It
should, however, have been plowed
deep before the preceding crop
was put in.

Where the seed bed is prepared
the farmer may wait until weather
conditions are favorable before
sowing his seed. It is best to sow
following a good rain. This
primes the soil and puts it in
condition not only to start the seed
but to keep the plants growing. The
field should be harrowed as soon
after the rain as the ground can be
worked and the seed may either be
sown broadcast and harrowed in, or
sown with a press drill. The seed
are small and therefore should not
be covered deeply, an inch being
a good depth for ordinary soils.

From fifteen to eighteen pounds
of seed per acre is sufficient where
the seed is of good quality and the
seed bed has been well prepared.
Under no circumstances should
a man put off the preparation of
his soil or sowing his seed until
late. The plants need to get a good
start in order to stand the winter,
and late September or October
sowing does not give them time to
become well rooted.

A Milk Cow Train

The University of Nebraska and
the State Dairymen's Association
in cooperation with the Chicago
and Northwestern, and Burlington
railroads, will run a milk cow
train, beginning September the
15th. The schedule in detail has
not yet been announced but will
be sent out within two or three weeks.
The train will carry some world's
record cows which are owned by
the Nebraska Experiment Station,
the famous Katy Gerben probably
being among the number. There
will also be exhibit cars containing
exhibits of various appliances es-
pecially used by dairymen and
stockmen.

Lecturers will be furnished by
the University and they will cover
such subjects as "Selecting the
Milk Cow," "Feeding and Caring
for the Milk Cow," "Caring for
and Marketing Milk and Cream,"
"The Use of the Silo," and "Use
of Alfalfa in the Daily Ration."

Even though the farmers of the
communities visited by the train
are not dairymen there will be a
great deal of profit to be derived
from attending the lectures, seeing
the live stock and visiting the ex-
hibits carried on the train. The
stop will probably be about an
hour and a half at each place. For
special information write to Mr.
S. C. Bassett, Gibbon, Nebraska,
Secretary of Nebraska Dairymen's
Association.

Twelve Bushels Oats for Five Cents

Through the Farm Demonstrator
in Seward county a number of
farmers decided to make a test of
the value of the formaldehyde
treatment for the prevention of
smut in oats. G. J. Eberspaecher
of Milford, sowed one half of a
uniform fifteen acre field with
treated seed and the other half
with untreated seed. Prior to
harvesting an examination showed
absolutely no smut in treated por-
tion of the field while a large per-
cent of smutted stalks were found
in the untreated oats. When
threshed, the treated half of the
field gave a yield of 12 and a frac-
tion bushels more per acre than
the untreated half. The cost of
treatment was about one cent per
bushel of seed for the formalde-
hyde and about the same for the
labor involved. It costs 5 cents
per acre in material and labor by
the formaldehyde method to abso-
lutely insure against smut in oats.
Did 12 bushels extra yield per acre
pay for cost of treatment?

Bed Springs for Sows

"That? Why that is the spring
for the bed this sow sleeps on,"
said John Hirschman. The con-
venience referred to is a frame of
hard wood about four or five feet
square, bolted together at the
corners and containing a square of
woven wire. He uses an electric
welded wire with heavy wires but
rather small spaces between them.
And it is in fact a sort of a bed
spring. Just now it hangs against
the wall of the hog barn, but at
farrowing time it is lain down on
the dirt floor of the barn—Mr.
Hirschman does not use concrete on
his floors—and a couple of inches
of clean dry straw is scattered
over it. The sow is turned on to
this floor and shut into a pen all
four sides of which are protected
with fenders that prevent the
young pigs from being squeezed
against the sides of the pen. She
starts to root the straw together to
form a nest, but the woven wire
prevents and she soon gives it up.
The even coat of straw remains on
the floor of the pen, and the little
fellows are not lain upon as they
are where the dam is able to dig
a hole in the ground or to pile up
straw around her. The result is
that there is a very small per cent
of loss. Another invention of Mr.
Hirschman's that is working well
is what he calls a "self-oiler."

For several years he has had a post
in his hog yard covered with burlap
and soaked down frequently with
crude oil or, what he likes better,
Kansas dip. But this was a great
deal of bother. So he built a small
concrete platform, perhaps two
feet square with a trough cut out
of its top. The trough is six or
eight inches wide, four to six
inches deep and maybe eighteen
inches wide, four to six inches
deep and maybe eighteen inches
long. Two hardwood uprights
stand in the cement, one on each
side of the trough. A hardwood
crosspiece joins them and serves as
the axle on which turns an old
mower wheel covered with burlap.
The trough is filled dip, and as
the hogs come along and rub
against the wheel it turns, soaks
up the dip and transfers it to the
hides of the hogs. No lice on
these hogs.—Cedar County News.

Probate Notice to Creditors

VAN VEACHTAN ROGERS,

HARPIST AT CHAUTAUQUA.
Van Veachtan Rogers is one of
the Rogers and Grilley company, a
feature of Chautauqua week. Mr.
Rogers is a former teacher in the
New England Conservatory of Mu-
sic at Boston and harpist to the
Boston Philharmonic orchestra. He
was later solo harpist to the Boston
Festival orchestra. He has ap-
peared at the principal music fes-
tivals in this country and Canada,
being associated with such artists
as Melba, Nordica, Schumann-
Heink, Calve, Victor Herbert and
scores of others.

PERCY FULLINWIDER,

CHAUTAUQUA VIOLINIST.
Percy Fullinwider, who will come
here this summer for a Chautauqua
engagement with the Symphony
Four company, is the head of the
violin department of the Lawrence
Conservatory of Music in Wiscon-
sin. Mr. Fullinwider has been over
the Chautauqua circuit in previous
years and will be remembered in a
number of places he visits this sum-
mer. He has made a big success
in concert work and is in great de-
mand among Chautauquas. The
other members of his company,
which is an instrumental quartette,
are Mr. Carl Waterman, baritone,
who plays the viola; Miss Louise
Smith, cellist, and Nettie Stein-
inger Fullinwider, pianist. The Sym-
phony Four will play here one day
Chautauqua week.

THEY WILL SING CHAUTAUQUA WEEK.

The city of Randolph will put in

Going to the Chautauqua

These dear old folks are on their way to the Chautauqua.
Perhaps they are saying they would like to have had such an op-
portunity when they were young.
But think what it must mean to them now that they are old.
They are realizing the ambition of a life-time. To have heard these
great men and women of the Chautauqua, they would have had to
travel from one end of the country to the other—and then not heard
all.
We will have a Chautauqua in our town this sum-

Cleaned From Democrat's Exchanges

Randolph chautauqua is on this week.

Last week the corner stone was laid for a new Lutheran church near Pierce.

Governor Morehead is announced to speak at the Woodman picnic at Homer the 12th.

Jim Davis, a Winnebago brave who was recently released from the penitentiary where he was serving for murder, stabbed and killed his son, a lad of 13 years. He is said to have been crazed by mesal bean soup, which makes man into a raving maniac.

More than twenty automobile owners became charter members of an automobile association organized at Pierce last week, the object being to improve the roads, especially the little annoyances to the man with a car such as a bump where there is a bridge or a crossing.

Thos. Rogers on Monday showed the editor a branch from an apple tree that contained 24 good sound apples in a space of 16 inches, hanging as thick as they could be crowded. The branch was cut from the orchard on Mr. Roger's farm, south of town, known as the Scott place and the tree on which it grew will produce 25 to 30 bushels. This orchard has more apples this year than before.—Randolph Times.

The change policy of the government with regard to the Indians is manifested in the new orders submitted for leasing Winnebago lands, a large number of the present leases expiring next March. A number of the Indians are given the right to make their own contracts, including the leases of their allotted lands. In the line of stimulating the Indians to personal effort it is provided that each able bodied male Indian must retain and farm forty acres of his allotment.

On August 11 entries for harness races for the Nebraska state fair close. The speed program at the State Fair at Lincoln, September 1-5, has roused much favorable comment. Live stock entries close August 16. It is imperative that all blanks be in at that time so that the exhibitors will receive the advertising and publicity resulting from the publication of the official catalogue which book is kept by all fanciers and live stock publications as a book of reference.

The plan of the Norfolk festival to be held in that city in September is not altogether to have a money making scheme but to give the people in this part of the country a good time. Correspondence is going on with over thirty of the largest manufacturing concerns in the west who manufacture the latest of farm machinery, and know they will have a display there that will be of much interest and benefit to the farmers. Many of the farmers are not taking advantage of the up-to-date machinery and the methods of farming, and it is the intention to try and educate them in this line. A free rest room for the ladies and also the Y. M. C. A. will open their doors to the public in general has been arranged for and the club has also rented a store room on the Main street where parcels will be checked free of charge.

A Few Events of Importance

Castro, the deposed president of Venezuela, who has been an exile from his country for several years, suddenly appeared in that country last week at the head of a revolutionary force and is making trouble there. His revolution, however, is not yet gaining much headway.

Secretary McAdoo of the treasury department has announced that there will be from \$25,000,000 to \$50,000,000 of government money deposited in western and southern banks, which may be secured by federal, state and municipal bonds, and the money be used to move the crops with. This certainly is a fine thing for the people, but what will Wall street do if they are thus deprived of the opportunity to collect a double tribute from the people? One for the use of the money and another in depreciation of prices because they have made the money hard to get hold of.

War has been going on between the Greeks, Bulgarians and Turks, and still continues. Sometimes the news reports favor one and sometimes another of the combatants; but no one knows at this distance who is really winning.

In China the new republic is having to fight a rebellion or two, but thus far the government has been able to suppress revolution—in the press at least, and probably in fact. But later reports indicate that there is trouble in the shape of mutiny that cannot be measured yet.

The Mexican family quarrel will probably have to wear out without aid from Uncle Sam. President Wilson and Secretary Bryan do not appear to think they have the right to butt in on a family quarrel. If they should, they would no doubt meet the fate of the man who undertook to act as assistant when a man and wife were settling their family affairs in a way of their own. The man who offered to aid had to fight the pair. The Huerta government is said to be short of funds and short on credit. The president who is trying to hold the job down there has issued a proclamation saying that he will not resign as had been suggested and that he would not tolerate any interference on the part of foreigners.

President Wilson has accepted the resignation of Amassador Wilson, to take effect October 1st. The policy of the two Wilsons did not agree and to avoid trouble the one quit.

The inter-state commerce commission has ordered a reduction of express rates, amounting to about 16 per cent. At the same time the parcels post has lowered rates substantially and almost doubled the weight of packages which may be sent by mail.

Secretary of the Treasury McAdoo has invited representative bankers from fifty-eight cities to meet and confer with him at Washington as to the needs of their communities in the matter of funds for the proper moving of crops. The move is one new to financiers, and the fact is that the treasury department is not looking to Wall street alone for advice as to the financial needs of the country. In the past this money center has had too much to say in government money matters.

Big Stock Shipments

Monday Ray Robinson loaded eight cars of well finished cattle here, mostly white faces, and started to Wakefield where his brother, Harry was loading seven more load, and the two brothers went to Chicago with 250 head of good stuff. Those who went from here with the cattle were Ray Robinson, Guy Auker, Paul Meyers and H. Linke. They started in a special train.

Kerwin brothers loaded three cars of fat stuff for the South Omaha market the same day.

Ted Perry sent out six loads of cattle from his ranch which were on the South Omaha market Monday, and on Tuesday he sent ten load more to the same market, making sixteen loads marketed from his places this week.

Band Notes

Did you hear them? At practice one evening last week. There were a dozen represented at the first practice meeting. A number who can play without practice and are now out of the city will swell the number to twenty who will participate in band concerts in a short time. Besides there are more than a dozen more practicing who will soon be able to make member on any and all occasions. This is good news.

Is it sugar that causes a Nebraska republican senator and two democratic senators from the south to unite for the same cause—or do they both belong to the same boss?

A Jewel With a Temper.

Experts in such matters assure us that among jewels the opal alone defies the ingenuity of the imitator. This stone owes its charm not so much to its own intrinsic merits as to the splendor of the rays of light it reflects. It has been called "the chameleon of stones," and it has always been a great favorite with lovers of gems. Nearly 2,000 years ago Pliny remarked that it "displays at once the piercing fire of carbuncles, the purple brilliancy of amethysts and the sea green of emeralds, the whole blended together and refulgent with a brightness that is quite incredible."

The opal is a stone "with a temper." The diamond rises superior to climate, as does the ruby, the emerald and the sapphire, but the opal is of such delicate organization that when exposed to severe cold it loses color, and under the influence of excessive moisture becomes dull. It is a curious fact, however, that the temperature of one's hand will cause it to resume its wonted fire and brilliancy, as will also be the case when it is exposed to the direct rays of the sun.—Harper's.

An Extraordinary Bombardment.

One of the most extraordinary hoaxes on record is said to have been played upon the Dewan Lalla Moolraj, a native potentate of the Punjab, during the second Sikh war, in the winter of 1848-49. The British army, commanded by Sir Hugh Gough, had shut up the Dewan and his forces in the fortified city of Mooltan. One day the besiegers were amazed by the thunderous sound of a most extraordinary cannonade, followed not by shot or shell, but by an assortment of miscellaneous provisions in a very fragmentary condition raining into the British lines. The Sikh chieftain, it was afterward discovered, had found in the city a large store of canned meats of the nature of which he was completely ignorant. A native spy in British pay gravely informed him that they were powerful explosives, and hence for some days the British camp was greeted with showers of Strassburg putes and other more or less mangled but perfectly eatable tinned food.

The Art of Economy.

All economy, whether of state, households or individuals, may be defined to be the art of managing labor. . . . Now, we have warped the word "economy" in our English language into a meaning which it has no business whatever to bear. In our use of it it constantly signifies merely sparing or saving—economy of money means saving money; economy of time, sparing time, and so on. But that is a wholly barbarous use of the word—barbarous in a double sense, for it is not English, and it is bad Greek; barbarous in a treble sense, for it is not English, it is bad Greek, and it is worse sense. Economy no more means saving money than it means spending money. It means the administration of a house, its stewardship, spending or saving—that is, whether money or time or anything else to the best possible advantage.—Ruskin.

Borrow Twice as Much as You Need.

A local financier is responsible for this story, which may at the same time serve as a hint. He tells us that a friend of his came to him a few days ago and told him about an acquaintance who wanted to borrow \$100.

"Why doesn't he borrow \$200, then?" asked the financier.

"Because he doesn't need \$200."

"I know. But listen: Let him borrow \$200 and pay a hundred of it back on time or a little before time. Then his creditor will think he's going to get the rest of it. That's a fine little system, and your friend ought to know it."

This is a grand scheme. Borrow twice as much as you need in order to establish your credit.—Cleveland Plain Dealer.

Where Fielding Is Buried.

The "father of the English novel," Henry Fielding, lies buried amid the cypress trees of the English cemetery of Lisbon. Not long after his death a tomb was erected to mark the spot—a memorial which an English visitor in 1772 found "nearly concealed by weeds and nettles." In 1830, through the exertions of the then British chaplain, a large sarcophagus was substituted, which about thirty years ago was repaired, and the inscription, a long one in Latin on the front, and the words on the back, "Luget Britannia gremio non dari foreve natum," carefully restored.—London Chronicle.

The Doctor's Aim.

Some frivolous person has remarked that illness was like a struggle between two people and that the doctor resembled the third man, who intervened to separate them with a club. Sometimes he hit the disease on the head and sometimes the patient.—Hospital.

Suspicious.

The General Manager—Are you aware the cashier has taken a half interest in a yacht? The Confidential Adviser—No. Perhaps we had better investigate and see he does not become a full fledged skipper.—London Telegraph.

Times Have Changed.

"Do you remember when the people demanded specie payment?"

"Yes. In those days people said they wanted hard money. Now everybody wants easy money"—Washington Star

Ideas must work through the brains and the arms of good and brave men or they are no better than dreams.—Emerson.

When Howard Cramer opened Louie Nuernberger's store after the Chautauqua program Thursday evening he saw the figures of two men disappear behind the counter. While he was lighting the gas they made their escape taking with them \$5 in cash and some neckties. Four suit cases partially filled with various articles of men's apparel were left on the counter. Upon investigation it was found that the burglars had entered the back room thru a broken window, and crawled through an open transome into the main room. Howard had put up a farmer's order at nine o'clock and returned at a quarter of ten to give the farmer his goods, only to find the burglars in the midst of their fun.

Harman Points Out Ways to Save on Eggs.

RECOMMENDS REFRIGERATION

Says That Only Means is at Hand and Can Be Utilized—Plans for State Fair—Governor to Address State Festival Meeting.

Refrigerator cars are necessary for Nebraska's gigantic egg crop, and must be employed during warm weather as one means to reduce the high cost of living. So thinks Food Commissioner Harman following tests made by his inspectors. Compared with the unfavorable tests made between here and Falls City on the Missouri Pacific road several days ago Commissioner Harman has just concluded a test made between here and Hastings on the Burlington's refrigerator service. Of the sixty dozen eggs tested before and after shipment, fifty-eight dozen and five were found to be in practically the same condition in which they left the Adams county town. One dozen and two eggs were classified as No. 2's after the trip and five eggs were broken. With proportionately the same records maintained on all shipments to Omaha and Lincoln, Mr. Harman believes that several thousand dollars a year would be saved to the people of the state.

Too Much County Money.

One county in the state exists which has too much money in the public treasury to deposit, under the present laws, with the banks contained in its boundaries. That is Thomas county, where a total of \$16,025.29 has been gathered together by the county treasurer. Inasmuch as the two banks of the county—one at Theftord and another at Seneca—have only a combined capitalization of \$25,000, there can be no more than \$13,500 of the public's money deposited with them. A state law prohibits a deposit of funds in excess of 50 per cent of the capitalization of the banks of a county. The excess at the present time is said to be deposited in a Broken Bow bank.

Experts Back From Inspection Trip.

C. H. Gerber, engineer in the physical valuation department of the railway commission, and E. W. Reed of the right of way department have returned from an inspection of the new tracks of the Union Pacific in the western portion of the state. They visited Cheyenne, Gerling and other points. At Gandy there is very little of the town left, and at the time they were there every business firm but one had moved to Stapleton, a rival town on the new line of the Union Pacific, and the lone business man left, it was said, had purchased a lot in Stapleton on which he expected to build a store building.

Plans for State Fair.

George Jackson of Nelson, superintendent of gates at the Nebraska state fair, arrived in Lincoln and visited the state fair grounds in company with Secretary Mellor and Superintendent Russell. Plans were made for the rapid handling of the state fair crowds. The Lincoln Traction company is preparing for a minute and a half car service by way of the Tenth street viaduct. At the grounds the coin turnstiles admit the visitors with great rapidity. A half dollar unlocks the gate to the visitor and there is no delay over the question of change and no taking up of tickets.

Look for County Aid.

Several letters of inquiry have been received at the office of the attorney general, whether the appropriation made for county fairs will be available this year. A man connected with the county fair of Thayer county, which is held at Deshler, also called and was informed that the new law makes the appropriation available this year. The law gives county fairs which draw a crowd of 75,000 or more the right to draw from the county treasury of the county 5 cents on every vote cast for congressman in that county at the last election.

Millers Object to Rate Raise.

Milling firms at Schuyler, Lexington and Grand Island have called upon the state railway commission to file complaints with the Interstate commerce commission against the proposed raise in rates of 33 1/2 per cent on Nebraska flour to points in Iowa, Illinois, Wisconsin and Missouri. The tariffs have already been prepared by the railway companies and will go into effect Sept. 1, unless the interested board stops it.

Grain Car Shortage.

The car proposition is the principal matter which is worrying the railway commission, the shortage of cars for the handling of grain being the greatest for years. The Missouri Pacific seemed to be the hardest hit of any of the railroads, but word was received by the commission that 300 cars would be shipped from Kansas City to relieve the situation.

Farmers Put Corn Into Silos.

Beatrice, Neb., Aug. 5.—The only hope of saving any portion of the corn crop this year is by cutting the fodder and piling it in the silos, is the opinion of A. H. Baller of De Witt, who addressed a number of farmers at the Commercial club rooms.

CORN CROP REPORT IS BAD

Railroads Find the Dry Weather Has Been Great Setback.

The evaporation from the soil during the last week has largely exceeded the rainfall and as a result the soil is not in satisfactory condition. According to the Burlington report a short corn crop in Nebraska and the greater part of Kansas is inevitable, while the Northwestern report states that corn south of the Platte has been damaged from 40 to 60 per cent. The corn north of the Platte is still in good condition, but if the present dry spell continues it will be sure to be damaged.

On the Burlington the corn has suffered least on the Omaha division. The corn along the Omaha division is but 9 per cent below average crop, while along the Wymore division corn is 49 per cent below average and along the McCook division 55 per cent below average.

With plenty of rain during the next sixty days and no frost until October, many parts of Nebraska would yield a fair corn crop, but without rain damaged crops are inevitable, and even with rain a perfect crop is impossible.

ALDRICH'S COMPANY IS OUT

Banking Board Refuses to Give Permit to Do Business.

Lincoln, Aug. 6.—The Western Savings Investment and Loan company, headed by ex-Governor Chester H. Aldrich, will not be allowed to do business in Nebraska, having been denied that privilege by the state banking board.

The application was denied because the company did not come up to the requirements of section 4, chapter 29, of the banking laws of the state, which state that the board shall deny an application where a provision is contained which is "unfair, unjust, inequitable or oppressive to any class of contributors."

The application has been before the board for several months and efforts have been made to patch the application up so it would come under the requirements of the law, but it was finally allowed to take the chance in its present condition, and lost. There is a rumor that the matter may be taken to the courts.

CLAWSON HELD AT LINCOLN

Pleads Not Guilty to Charge of Murdering Ross McKinsey.

Lincoln, Aug. 5.—Clarence Clawson, who killed Ross McKinsey at Wilber, was taken to that place for arraignment. He pleaded not guilty and was brought back and placed in the Lancaster county jail, where he will be held until his trial. Local attorneys were retained for his defense. Feeling is said to be pronounced against Clawson and for that reason it is not improbable that the trial will be put off for some time.

The trial is looked to disclose much about the deplorable conditions which were said to have existed at Wilber on the closing night of the carnival. The sale of liquor after hours and general conduct of the authorities in permitting many things to take place during the hilarity are said to have caused much criticism to have been made subsequent to the McKinsey murder.

EXPRESS RATE REDUCTION

American Files Application With State Railway Commission.

Lincoln, Aug. 6.—From 25 to 50 per cent reductions in express rates are asked for on stations between York and Hastings on the Northwestern and stations between Gibbon and the Colorado state line on the Union Pacific in an application filed with the state railway commission by the American Express company. The permission of the commission will be given to the request. The shortening of the line through the construction of the Hastings-Gibbon cutoff is given as the reason for the move.

The commission gave the Nebraska Telephone company permission to decrease its toll rate between McLean and Magnet from 25 to 15 cents.

SPEEDWAY CO. APPEALS

Supreme Court to Decide Who Is Entitled to Hold Trophy.

Lincoln, Aug. 5.—The Omaha Speedway company has filed an appeal in the case of the "three-handled cup" won by H. E. Frederickson in an automobile race held under the auspices of the Speedway company. The cup was won by Frederickson in 1910 and has been the cause of litigation in the Douglas county courts, the company claiming that the cup should have been returned to it for the 1911 contest. The jury in the district court decided that Frederickson was entitled to the cup or its equivalent in money. The Speedway company appeals.

Edgar Flour Mill Destroyed by Fire.

Edgar, Neb., Aug. 5.—The Edgar flour mill was burned to the ground and all the machinery ruined or greatly damaged. In the bins were stored 1,000 bushels of wheat and a carload of flour. The mill and its contents were valued at about \$12,000. The insurance will not cover half the loss. The origin of the fire is believed to be incendiary.

Tots Eadie Stung by Bees.

Stella, Neb., Aug. 6.—Walter Johnson and Dorothy Rollif, each three years old, were playing near a beehive and were badly stung. The bees settled and remained on them as they ran toward the house.
