## THE DEATH OF JUDGE MOSES

Halsey H. Moses, Long a Citizen of Wayne, Died at His California Home in Pasadena, Many Friends Mourn His Death.

When the news of the death of Judge Halsey Moses reached Wayne Tuesday it was with deep regret rather than surprise that the word passed from one friend to another. A man of high standing and deep learning, who was loved by all who knew him, and his annual return to Wayne from his winter home where he was compelled to spend a part of each year was occasion of much joy among his many warm friends.

Those who knew him most intimately held him in deepest regard, and those less acquainted soon recognized in him a man with a keen insight into the conditions of affairs of both local and national matters.

For years a close study of men and literature he remained bright and active to the end of the long life journey he traveled—to his friends ever loyal, and without enemies the passed to the great beyond loved and mourned by all who knew him.

The following brief sketch of his life was penned by Dr. Alexander Corkey:

Halsey H. Moses was born in Ashtabula county, Ohio, on July 12, 1830, and departed this life on December 1, 1913, aged 83 years 4 months and 19 days, passing away at his winter home in Pasadena, California.

Mr. Moses grew to manhood in Ashtabula county, and early in life decided to enter the legal profession. After the customary preparation he was admitted to the bar in 1851, when only twenty-one years of age. He opened a law office in Ashtabula and remained there until 1862 when he removed to Warren in Trumbull county, Ohio. In 1872 he moved to Youngstown, Ohio, where for sixteen years he was regarded as one of the leading lawyers in that section of his native state. He was the author of a legal treatise on Madamus which became a well-known text book amongst the legal profession. During these active years Judge Moses was a factor in the political activities of the times and on one occasion ran for congress, his opponent being James A. Garfield, who afterwards became president of the United States.

In 1888 Judge Moses came west and settled in Wayne, which has been his home ever since, although for the past ten years he has been accustomed to spend his winters in California on account of his health.

He was married in Ashtabula, Ohio, in 1852 to Miss Jane Murdock, who preceded him to the other world seven years ago. To this union were born four children, of whom two survive, Franz Moses, of Pasadena, California, and Homer Moses, who still lives on the old homestead in Ashtabula county.

Although he had passed the age of four score some time ago Judge Moses was remarkably active until within a year. He returned to Wayne county last summer as was his custom, but the infirmities of age were upon him, and his friends could notice a marked change from the previous year. After returning to the west he felt more comfortable, but gradually declined in strength until the end came peacefully last Monday at the home of his son, Franz.

While in Wayne Judge Moses was an attendant and supporter of the Presbyterian church, and it was largely through his efforts that the beautiful pipe organ was installed in the church a few years ago. He was a man of wide and varied culture, and his mind was keen and vigorous until the end. His genial disposition soon won him a host of friends in Wayne county, and he was one of the best known of old settlers.

The body will arrive in Wayne on Saturday morning, and the funeral will be held at the Presbyterian church on Sunday afternoon at 2:30. Mr. and Mrs. Franz Moses will accompany the body homeward, but it is not yet known if Homer Moses, the other surviving son, will be able to be present.

## John Wesley Toombs

John Wesley Toombs was born near Louisville, Kentucky, April 2, 1833. When a small child, he removed with his parents to Scottsburg, Indiana, where he grew to manhood. At the age of twenty-two he came west with relatives, and settled at Bethany, Mo., where he was engaged in photography. There he also held different public offices, and was otherwise identified with the life of the community.

In 1864 he was married to Esther Ann Miller. To this union six children were born the eldest son, Charles Wesley, dying in early youth.

In 1875 he came to Nebraska, locating in Omaha, later on a farm near Fremont. In 1891 he engaged in the grocery business at North Bend, Nebr., retiring from active business in 1900 and coming to Wayne to make his home with his daughter, Mrs. M. A. Phillips.

In early manhood, he united with the Baptist church; but upon his marriage, transferred his membership to the M. E. church, of which his wife was a member. He was always an earnest, consistent Christian, and the memory of a life well spent, will remain a benediction to the sons and daughters left to mourn his loss.

He passed peacefully on to the home beyond, December 2, 1913.

He leaves to mourn his loss, two aged sisters and two brothers in Indiana; two sons, Frank L. at Los Angeles, California; Edgar M., of Seattle, Washington; and three daughters, Mrs. M. A. Phillips, of this city; Mrs. F. G. Worden, of Sioux City, Iowa; and Mrs. J. T. Brooke, of Theford, Nebr.

In the passing of Mr. Toombs Wayne loses a most excellent gentleman—a friend of all mankind. He always had a pleasant word for all. In politics as in religion he was of strong convictions, and long a believer in the principles of democracy; he often expressed great satisfaction in being permitted to live to see his government pass into the hands of those whom he believed would restore to the people a government of true democracy.

The funeral was held from the Methodist church at 10 o'clock this morning, the pastor preaching the sermon. The schools were dismissed to permit the teachers and pupils of the high school to attend.

## Wayne's Ornament

Few cities the size of Wayne can boast of a \$25,000 ornament—can't afford it, you know. But we have some class to us here. It is indeed a pleasure to visit our old railway station and stand in the water half-shoe deep on the platform and catch the drip from the roof down the back of your neck, or if it please you better to enter the smoke befogged room and look with longing eyes at the beautiful, modern structure on the opposite side of the track while the local employees and the public patiently endure the inadequate quarters they have been accustomed to these many years. If there is a valid excuse for the neglect of the company to now occupy the new building the people who helped to build it and have a right to occupy it would be glad to hear it. Lets have another grand opening such as was held three weeks ago and then lock the ornament up again, for it is building sentiment for public ownership.

## Librarian's Report

For November. Books loaned—Adults, 613. Children, 509. Total, 1122. General average, 56 1-10. New Readers cards, 39. 59 new books put in the library.

Library open daily except Sunday and Monday. 2:00 to 5:00 p. m. 7:00 to 9:00 p. m.

Two pieces of statuary have been presented to the library. A bust of Wagner and Shakespeare, by the Chapter A. Z. of P. E. O.

The little folks under 8 years of age will be entertained by stories at the library Saturday afternoon from 1 to 3 o'clock. A happy time for the children.

## Notice

Now that we have sold our business, we ask all those owing us to come at once and settle your accounts. Prompt attention to this matter is necessary. Respectfully, adv. MEISTER & BLUECHEL.

## Celebrated 68th Birthday

Last Sunday was the 68th birthday of that jovial fellow, R. H. Hansen, and a large number of his friends were invited to come to their home in honor of the event. A party of thirty or forty responded, and more would have been present had not the bad roads stopped some of his old farm neighbors from the neighborhood ten or twelve miles southeast of Wayne. Among the guests were Geo. Lehnkuhl and wife from Wisner, who came Friday from the home of their son south of Wayne where they had spent Thanksgiving, to visit the Hansen home a few days. Messrs. Hansen and Lehnkuhl were comrades in the Prussian army years ago, and fought together in the war of that country against France. So they feel that they are more than ordinary friends. Then they lived neighbors on their farms here for years, and every year they visit each other. The guests enjoyed a most excellent dinner and spent the afternoon and evening in games and conversation, living over again their earlier lives in the land across the sea. There were none present who did not wish their jovial host many years of health and happiness before they departed to their various homes.

## Wayne Composer Comes to Front

Marks-Goldsmith Co., the well known Washington, D. C., music publishers, have just issued a song by Mr. L. L. Alexander of this city, which will doubtless be heard in many drawing rooms and places of amusement. The title is, "I Know the Way of the Wild Blush Rose," and the melody is one of the catchiest that has come to our notice for a long time, while the words are exceedingly clever. Already the demand for the song is unusual, and the prospects for a large sale are of the best. Well worthy of note is the tasteful manner in which the music is published, the beautiful designed title is especially attractive. Mr. Alexander's friends are congratulating him on his success, and on the possession of real musical talent which is so evident in the work he has just brought out.

## Moses Brothers Buy More Acres

Last week Moses Brothers, who with their father and grandfather own about 800 acres of choice Wayne county land, think they cannot get too much of a good thing, and last week closed a deal with O. C. Lewis, of Carroll, for his place of 80 acres just east of Carroll at the price of \$160 per acre. When men who know this country and have lived here and farmed it all their lives will pay that price for the land, no one need worry about the land selling for more than it is worth. Such men know the value, and believe that it is worth the price or they would not invest, and it is very probable that the land will sell higher in the future than now, especially this good land around here, where neither drouth or rain cause crop failure.

## Steckelberg-Brummond

Herman Steckelberg and Miss Emma Brummond were married by Rev. Gehrke at the German Lutheran church northeast of Wayne Wednesday afternoon, November 26, 1913.

Mr. Steckelberg is a son of Fred Steckelberg of Lyons, and Miss Brummond the daughter of Wm. Brummond.

The out-of-town guests were Louis Koumeier and Herman Rewinkel of Lyons, Mr. Fisher of Bancroft, and Messrs. Fred Oberg and Henry Gilster and wives of Pender.

Following the ceremony many friends gathered for a reception at the home of the bride's parents.

Mr. and Mrs. Herman Steckelberg will move onto a farm near Osmond in the spring.

In connection with the meeting there will be an exhibit of school work from schools in the county that have work suitable for exhibit. Work in spelling, writing, manual training, sewing, cooking, composition, drawing—any work that will make an exhibit will be entered. While the men of the county are giving the entire program, the various topics are open for general discussion and it is the wish of the committee that all the teachers in the county be present with well prepared lessons.

## School Notes

Schools resumed work on Monday morning after two days Thanksgiving vacation.

A goodly number of patrons were present at the Thanksgiving exercises, on Wednesday of last week.

The football team lost to Stanton on Thanksgiving day.

At a recent meeting of the school board, it was ordered that the schools close on Dec. 19 for a two weeks' holiday vacation and resume work on Jan. 5, 1914.

LeRoy Owen, Julius Hurstad and Marion Grothe were elected delegates to the High School Leaders' Conference which will be held in the local High school on Dec. 13-14. At this conference delegates from fifty High schools are expected to be in attendance and a pleasant and profitable convention is assured. The high school girls and teachers will serve a six o'clock dinner for the delegates on Saturday evening, the 13th. This will be served in the high school gymnasium. The high school will furnish a good share of the musical entertainment on the program. There will be five sessions—two on Saturday and three on Sunday.

## Ted Perry Sells 40

The price of good dirt near Wayne is not slumping. Monday Joseph Beard, who recently sold an 80 acre tract northeast of Wayne and has been doing a bit of looking about since that time asked Mr. Perry to set a price on what is known as the Ramsey 40 acre piece just southeast of Wayne, and no sooner had Mr. Perry said \$225 per acre than the offer was accepted, and he was requested to set his milk pail down and make a contract. This is a good piece of land, with rather moderate improvements which shows that the value is conceded to be in the land and not the improvements. We are glad that Mr. Beard has decided to remain in this county, and Mr. Perry still has land enough to keep him here.

## To the Public

The third annual High School Leader's Conference will be held in Wayne on Saturday and Sunday, Dec. 13-14. It is customary for the people of the city in which the conference is held to entertain visiting delegates. Entertainment is wanted from Sunday night till Monday morning—two nights and four meals at the most. Will the people who can entertain one or more, kindly phone me or see me, J. H. KEMP.

## Social Notes

The members of the Acme Club with their husbands went to the home of Prof. and Mrs. I. H. Britell on Wednesday evening, Nov. 26th, to help them celebrate their wedding anniversary and also the birthday of Mrs. Britell. It was a complete surprise to them both. After an evening of sociability, light refreshments were served. At a late hour the guests departed, wishing their host and hostess many more such pleasant anniversaries.

Mrs. J. H. Wendte led the lesson at the Bible Study Circle Tuesday afternoon at the home of Mrs. E. Ferrell. Many beautiful thoughts were advanced and much interest taken in the lesson. The man of mystery who led the host to take the ancient city, has new and present warfare. Mrs. J. G. Mines will entertain the circle next Tuesday. Mrs. Lewis of Wayne State Normal will lead the lesson.

There was a pleasant little party at the home of L. L. Alexander and wife Thanksgiving evening, given in honor of Burnett Wright, Miss Bessie Crockett, Willis Fleetwood, Mr. Church and others. Music and games helped to pass a social evening.

There was a happy Thanksgiving dinner party at the home of Geo. Lamberson and wife last Thursday when they entertained Grant S. Mears and wife, their son Archie Mears and bride, Harold Mears and Miss Lamb.

Grant S. Mears and wife and their son Archie and wife were guests at the home of Herman Henney and wife Saturday evening.

J. M. Cherry and wife entertained the Mears family at a six o'clock dinner Friday evening in honor of Mr. and Mrs. Archie Mears.

The Acme Club met with Mrs. Crawford Dec. 1st. Lesson, "Current Events." Next meeting with Mrs. Britell.

Misses Edna Neely and Helen McNeal entertained the Whist Bridge Club at the Neely home Tuesday evening.

Mrs. Jacobs entertains a number of ladies at luncheon this afternoon in honor of her guest, Miss Flint.

## Holstein Cows Coming to Wayne

As noted elsewhere, S. E. Auker and V. Dayton went to Omaha to purchase cattle, and they did. They attended a sale of Holstein cows at that place and bought the start for two or more herds of that excellent dairy breed of cows. Mr. Auker purchased ten head. Mr. Dayton four. To the Democrat it has seemed that this is an ideal country for profitable dairying. We have a good climate and a soil which produces corn and alfalfa, two of the best known foods for growing stock or milch cows. With a Nebraska cow yielding more than a thousand dollars worth of milk and butter fat in one year, there is no reason why the dairy farm should not pay a man well for the faithful attention which is necessary to make the business successful.

## Wed a Quarter of a Century

There was a pleasant party of 18 or 20 families at the home of John Loebback and wife, south east of Winside on the 24th of November in honor of the 25th anniversary of the marriage of this worthy couple. They grow generous families in that neighborhood so that nearly one hundred people gathered to celebrate the anniversary of the marriage. It was a jolly crowd and they had the best of times in games and social chat and feasting, for the tables were spread with the best that the land affords, and it was not until a late hour that the party dispersed after leaving not only their good wishes, but numerous presents as a more substantial evidence of their good will.

To make the event seem real about nine o'clock a party of the young folks of the neighborhood came in the guise of a chivarle party, and met a warm welcome—got what was properly coming to them—a good time.

Mr. and Mrs. Loebback were united in marriage in Russia, their native land, and came to America three years later and to Wayne county sixteen years ago. They are now true Americans and good industrious citizens. The Democrat wishes to join their many friends in wishing them many happy returns of their wedding anniversary.

## The Saturday Crowds at Wayne

Last Saturday all of the good country people for many miles round appeared to be at Wayne. The streets and stores were thronged with people. There were vehicles and automobiles here of all kinds. They seemed so thick that he Democrat sent a man out to see how many. He counted more than 60 automobiles that had driven to town that day, and something like 200 teams. The road were crowded in all directions when it came time for them to start for home. Most of the merchants appeared to be very busy, and it was a good day for Wayne.

## That New Christmas Store

Is hereafter as now to be The Christmas store of Wayne. It is owned and stocked by C. J. Nus, who will move to that building after the holidays, and who now has the first floor to be used this year for his overflow holiday trade. The place will need no other introduction this week.—adv

## Remember the Bazaar at the old postoffice building on next Saturday, December 6th. There will be three departments. Food exchange in charge of Mrs. W. M. Orr; Aprons and Fancy Work department in charge of Mrs. H. S. Ringland; Candy department in charge of Mrs. Phil Kohl. The Bazaar will open at one o'clock. Just for one day, Saturday next. Come in and see the display.

As noted elsewhere, S. E. Auker and V. Dayton went to Omaha to purchase cattle, and they did. They attended a sale of Holstein cows at that place and bought the start for two or more herds of that excellent dairy breed of cows. Mr. Auker purchased ten head. Mr. Dayton four. To the Democrat it has seemed that this is an ideal country for profitable dairying. **L**ONGFELLOW once said, "show me a home wherein music dwells and I will show you a happy, contented, peaceful family.

The Poet knew the charm of music and its inspiring influence in the home. He realized the great part music has played in advancing civilization. He might have added:

Show me a musical community and I will show you a people worth knowing and worth having as your friends

James Yowell and wife, from Sidney, Iowa, came to Wayne last week on a business mission and remained to eat Thanksgiving dinner and visit a day or two at the home of their former neighbors, Fred Martin and family, just north of town. They departed for home Saturday.

G. A. Doll and wife, of Blair, were the guests of Attorney L. A. Kiplinger and his mother last week, returning home Sunday. Mr. Doll is an attorney at Blair, and the two men have a common interest, both professionally and politically, both being believers in Jeffersonian democracy as practiced by the administration at Washington.

Horace Gaffin returned Sunday from Chaik Butte, South Dakota, where he has been for the past two months with Mrs. Gaffin and son, Clyde, who are running their farm there. Mr. Gaffin reports that his place returned corn on sod at twenty-five bushels per acre, and that some of the better subduced land yielded as high as fifty bushels. But that condition did not prevail all through that part of the state, for they happened to be in a strip that had ample rain, while not far either north or south it was too dry. Because of this condition they are able to market their surplus corn at the farm at 75 cents per bushel. Potatoes yielded well—but the small grain crop was not as good as the year before. He left Mrs. Gaffin and the son well and contented. He will again begin work at the Pipenstock harness factory.

Miss Lola Britton returned to her teaching at Dayton, Iowa, Sunday afternoon after a visit here with her father and her grandmother. Her sister, Miss Hazel returned to their home at Sanborn, Iowa, in the morning.

Mrs. H. E. Mason, who spent Thanksgiving here at the home of J. W. Mason and wife, went to Emerson Friday morning to spend the day with relatives, returning to her home at Meadow Grove that evening. Her son remained here with his grandparents.

Parole Applications Unfavorably Reported by Board.

STATE BALANCE SLIGHTLY LESS

Packers May Have to Pay for Use of Holding Yards in South Omaha. Dickerson Taken to Penitentiary for Rustling Cattle.

Lincoln, Dec. 2.—Fourteen applicants for clemency and parole are doomed to disappointment, their applications having been unfavorably reported by the board.

All of these were second offenders, it being the policy of the board of pardons to deny all second offenders paroles until they have very nearly completed the maximum of their sentence, unless there are extenuating circumstances, such as sickness or other causes.

A report from the state normal school at Peru filed with the governor shows that there has been paid out from the maintenance fund, which includes salaries, etc., for the six months ending Nov. 30, \$59,891.73; from the cash fund, \$2,357.52, and the library fund, \$2,191.64. The cash fund has a balance on hand of \$4,594.46, and the library fund of \$2,380.28.

Experts to Leave.

The state is to lose the services of three of its experts in the physical valuation department of the railway commission. Chief Engineer E. C. Hurd, according to previous announcement, retires at once. Assistant Engineer C. H. Gerber, recently promoted to the place vacated by Mr. Hurd, and L. E. Wetling, expert accountant, have formed an engineering company and will have offices both in Lincoln and Chicago. The two latter will not enter into active participation with the new company for some time, leaving the running of the business to Mr. Hurd and E. H. Edgren, formerly with the physical valuation department of the commission.

Asks Tips on New School Laws.

The state school commission finds itself serving the public without pay and with no money to get before the people. They therefore ask that the newspapers give them an occasional chance to talk about their troubles and submit the following as a starter: "To all citizens of Nebraska interested in the public schools: We respectfully ask you as public spirited citizens to give us any suggestions you may have for the betterment of public schools, together with your reasons therefor. Please address all communications to Miss Edith A. Lathrop, secretary state school law commission, Lincoln, Neb."

Burlington Is Making More Money.

The Burlington railroad has filed its annual report with the state railway commission and shows that its receipts in Nebraska for the fiscal year ending June 30, 1913, were \$150,446 greater than the year previous, while its operating expenses were \$22,375 less than the year before. The road has a greater mileage in Nebraska than in any other state, 2,873 miles, being 21 1/2 per cent of the system. During the year thirteen employees and twenty other persons were killed by moving trains, while 201 employees and thirty-six other persons were injured.

State Balance Less Than Last Month.

The balance in the state treasury for the month ending Nov. 30, 1913, is shown to be \$649,403.04, as against \$649,323.04 in October, a falling off of \$8,922, according to the report of State Treasurer George. The receipts for the month were \$229,293.52, and the disbursements \$238,315.52. The cash on hand is shown as \$13,098.50 and on deposit \$627,392.44.

Two Arrested for Beaver Slaughter.

Fred Black, living near Thedford with Grant Adams and Charles Hill have been arrested by Game Warden S. A. Bowen for killing beaver in Thomas county. Eleven skins were found in their possession, one of them from a beaver weighing seventy pounds. The skins are worth from \$6.50 to \$13 each, according to size.

Smallpox Near Scottsbluff.

Dr. Wilson of the state health board received a message from Mayor McCaffree of Scottsbluff asking him to come to that city to look into several cases of smallpox and scarlet fever there. Dr. Wilson left at once. He has also received notice that there are several cases of smallpox at Minatare in the same county.

To Pen for Cattle Rustling.

Sheriff A. J. Salisbury of Lincoln county brought to the penitentiary William Dickerson, who will serve an indeterminate sentence of from one to ten years for cattle rustling. He stole twenty-three head from one man, eight from another and five more from an other.

Suit Against Silver Creek Woman.

Central City, Neb., Dec. 1.—Samuel M. Kaplan has brought suit in the district court against Lydia E. Pope, claiming damages for the sum of \$10,500. This is a Silver Creek case and grew out of the arrest and trial of the plaintiff on the charge of assaulting Edwin Hill some time last September.

Shellenberger Held Guilty by Jurors.

Anburn, Neb., Dec. 1.—A verdict of guilty was returned in the case of the state against Fuller Shellenberger, accused of the murder of Juttan Bauha, in 1899. The jury was out three hours and a half.

# MAY QUIT USING DEAR EGGS

Omaha Woman's Club to Launch Campaign Against Them.

Omaha, Dec. 2.—A boycott of all Omaha egg dealers will be in full swing by the end of the week if other women of the city become as militant against the long called, high priced hen fruit as is Mrs. F. J. Burnett. She is chairman of the household economics department of the Omaha Woman's club and will try to start an egg boycott.

"I haven't used an egg in my home for three weeks," said Mrs. Burnett, after the woman's club meeting. It had been expected that she would propose her plan for an egg boycott at this time, but a press of other club business led her to postpone the plan. "Storage eggs should not be used," continued Mrs. Burnett. "They are not fit for human consumption and the price asked for them is almost prohibitive, anyway. Real fresh eggs are almost unobtainable, so the boycott proposition is simply a necessity, if people are particular about what they eat."

# SEEK MEN WHO STOLE BOOKS

Reward May Be Offered for Arrest of Culprits.

Tecumseh, Neb., Dec. 2.—It is not altogether improbable that there will be some interesting developments in connection with the theft of the books of the defunct Chamberlain banking house of this city in the near future. The books, stolen from the office of the sheriff here on the night of Oct. 23, 1908, were found recently in the old channel of the Nemaha river at the edge of town.

At the office of the county attorney it is hinted that the officer is going to ask the consent of Judge J. B. Rayer of the district court to have a liberal reward offered for information leading to the identity of the thieves, and to promise the man who will give up the information immunity from prosecution. As the books and box weighed 275 pounds it is known that at least two and perhaps three men had a hand in their theft. The idea is to get one of the men to give up the secret.

# FARMERS' INSTITUTES

Meetings Will Be Held at Thirty-two Points in State.

Lincoln, Dec. 1.—The extension service of the college of agriculture announces that the December dates have been set. Meetings will be held at thirty-two points in the state, making a total of fifty-three days' work for the month. Thirty of these points are farmers' institutes and two of the points are short courses. Dates for December follow:

Farmers' Institutes—Garfield, 1; Gandy, 2; Arnold, 3; Caloway, 4; Miller, 5; Amherst, 6; Beatrice, 9-10; Arcadia, 3; Loup City, 4; Dannebrog, 5; Bethany Baptist church (Hampton), 6; Sargent, 1-2; Union hall (Liberty), 3; Virginia, 11; Lewiston, 12; Diller, 13; Atkinson, 9-10; Page, 9; Stanton, 10-11; Wisner, 11-12; West Point, 12-13; Weeping Water, 17; Union, 18; Havelock, 18-19; Springfield, 19-20; Hordville, 15-16; Polk, 16-17; Stromsburg, 17-18; Rising City, 18-19; Weston, 19-20.

Short Courses—Central City, 8-12; Exeter, 15-19.

# WANT COMMUTATION BOOKS

Plan to Put Them in Use on the Papillion Line.

Lincoln, Dec. 1.—Arthur English, formerly receiver of the Interurban Street Railway company between Omaha, Papillion and Ralston, bought some time ago by the McKinley interests of Illinois, called on the railway commission for the purpose of getting information as to the mode of procedure to be used in putting into effect commutation books on the lines between Omaha and South Omaha and Papillion and Ralston.

# Grand Island Woman Sues Physician.

Grand Island, Neb., Dec. 2.—Suit has been filed in the district court by Elsie V. McIntire against Dr. C. A. Flipplin, a colored physician, who came here from Stromsburg, for \$3,000 damages, alleged to have been sustained by the latter's unsanitary and unskillful work while attending her. The defendant's informal answer to the charge is that he was called after other physicians had refused to attend because the family was on the "dark list," meaning poor pay, and that his request for an assisting physician was not met.

# Former State Senator Dead.

David City, Neb., Dec. 1.—Arthur J. Evans, aged sixty-four, died at the David City hospital. He had been ill with intestinal trouble several weeks. He was one of the pioneers of this section, coming to Butler county in the early 70s. He was a member of the Nebraska senate from 1876 to 1880 and was county attorney from 1902 to 1903. In the latter year he became district judge, which office he held four years. A wife and four children survive him.

# Corn Receipts A Fe Heavy.

Omaha, Dec. 2.—In corn receipts Omaha dealt topped the markets of the world, there having been 293 car loads on change, as against 283 at Chicago, 86 at St. Louis and 189 at Kansas City. In total grain receipts Omaha leads any of the markets named.

# Lyons Will Elect Postmaster.

Lyons, Neb., Dec. 2.—A primary election has been called for Saturday, Dec. 13, to vote on postmaster for this place. There are four candidates, as follows: M. M. Warner, Carl McDowell, A. T. Hill and S. J. Hultberg.

Into the Price of Women's, Misses' and Children's COATS

The season is getting late and we find ourselves with a larger stock of coats than we would like to see on our racks at this time of year.

Carried over coats, as you must know, mean a considerable financial loss and, though there still remains lots of good coat weather, we do not want to take the chances of having any left-overs.

If you'll take into consideration the high quality of the garments that we offer and look through the prices at which they are offered you'll realize that this is a bargain opportunity that doesn't come your way every day.

# Rural Home Society Entertains

The beautiful country home of Mr. and Mrs. Eph Beckenhauer, three and one-half miles northeast of town was the scene of a very happy gathering on Thanksgiving day.

The members of the Rural Home Society, their families and a number of close friends and relatives, making in all a group of about sixty-five, began arriving about ten o'clock by auto and carriage and by the noon hour all were prepared to do ample justice to the bountiful dinner prepared by the hostesses.

Mrs. W. A. Kneely, Mrs. J. C. Forbes and Mrs. Chas. Weeces were the chief cooks, and with these ladies in the kitchen little need be said of the viands which issued therefrom. However, the real meaning of the day was not lost sight of and after each had found his or her place at one of the six tables prepared, every head was bowed while W. A. Neely returned reverent thanks to Him from whom all blessings flow, and to whom all felt grateful.

A pretty scene followed the dinner when old friends and neighbors exchanged items of interest and made use of one more opportunity to deepen loyal friendship which has existed so long. After the social hour all returned to the parlor where the president, Mrs. Wm. Cunningham, inaugurated a series of contests which proved generally interesting. Those standing highest in these contests were: Mrs. M. T. Munsinger, Miss Mabel Dayton, Mrs. Lessman and Mrs. Jas. McIntosh.

The Rural Home Society has been organized about eight years. Only two charter members still holding active membership. It meets once a month, when after a general social hour, a literary program is given, and refreshments served. The meetings make a very pleasant break in the somewhat monotonous routine in the life of the farmer's wives, and the occasional dinners given by the ladies are events long to be remembered by all who are so fortunate as to be a guest.

Mrs. Welch returned to her home at Fulton, South Dakota, Tuesday after a visit with her mother, Mrs. McRea, and sister, Mrs. Chas. Madden at the Madden home.

**Methodist Church**  
 Rev. C. L. Myers, Pastor  
 The revival has begun. Where were you the first night? Bring something, give something and take something away with you.  
 You are always needed more on a bad day than any other time. The more you sacrifice the more you get, like the man who found that the more he gave away the more he had.  
 The W. C. T. U. will meet with Mrs. Kiplinger Friday, at 2:30.  
 The success of the Sunday school is dependant upon the officers and the teachers, therefore, there should be a full board on Thursday evening after the special service.

The Ladies Aid have added 58 to their membership in the recent contest.

A four piece orchestra will furnish music next Sunday both morning and evening.

No book is as great as the Bible. It has been studied for 6000 years and still has undiscovered treasures. The pastor wants 200 persons to pledge themselves to read one chapter a day in the New Testament, beginning Jan. 1st, 1914.

Music has always been associated with worship and has always had a prominent place in Methodism. Come and sing at the special meetings.

America shuts the Bible out of her public schools while China places it in the course of study. The book should be known by all. Our Sunday school affords a splendid opportunity to study that particular book.

Col. Bain spoke in the Methodist Church Sunday evening to only a fair sized house. It was a great treat. The address was full of wit, sharp stings, facts which if acted on will make the world better. He should have had a crowded house.

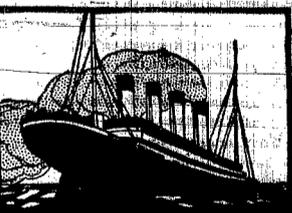

The Epworth League should be present every night during special service as the journey is before you. Equip yourselves for the journey.

A very interesting League lesson was studied Sunday evening by Leaguers in the basement. Bro. Marsteller was the leader.

**Presbyterian Church**  
 Rev. Alexander Covey, Pastor.  
 "What we Christian Churches Preach" will be the subject of the sermon at the Presbyterian church on Wayne's first church Sabbath. All non-church-going members of the country are especially invited to this service. There is a reason why so many of the leading citizens in every Christian community go to church on Sabbath, and this reason will be set forth in this sermon. In the evening the sermon will be "Christ's Estimate of a Really Great Man."

The special meetings held at the church this week are in the interest of the church membership, looking upon each member as a "possible soldier of Jesus Christ." The Christian's warfare, his armor, weapons, enemies, allies, pay, and ultimate victory are being pictured after the manner described in the Scriptures. The meetings are designed also to acquaint the church members with one another.

Sabbath, December 14th, will be observed as Communion Sabbath at the Presbyterian church, but a welcome to the service will be given to all as the communion

service is an open one. There will be a reception of new members into the fellowship of the church.

Last Sabbath, Rev. Dr. J. M. Caldwell, Moderator of the Synod of Nebraska, preached in the place of the pastor. Dr. Caldwell set forth the teachings of the Bible in regard to the tithing of incomes, and the giving of one-tenth of the annual income to God. The sermon was given close attention by the congregation. There are not many tithers in Nebraska, considering the number of Presbyterians in the state, but many of the liberal and wealthy members of the church give one-tenth and more every year to benevolences. The tithing is commended as Scriptural, systematic, and efficient, tending to the best interests both of the church and of the church member who tithes.

**St. Paul's Lutheran Church**  
 (Rev. Blessing, Pastor.)

Sunday school at 10 o'clock. We have been making some changes in our Sunday school, which are proving to be profitable. We are very much pleased to note the gradual increase in attendance and interest.

Morning service at 11 o'clock. The subject of the sermon will be, "The Value of the Great Salvation," Heb. 2:1-4. When thundrings and lightnings were heard on Mt. Sinai, and the Mountain seemed on fire, because God had descended upon it, it was then that Moses received the Law, with binding power. For we read that "every transgression and disobedience received a just recompense of reward." But after many centuries had passed, a greater message was given to man through the only begotten Son of Man. This was a direct revelation, the great salvation offered.

Evening services at 7:30. The subject will be, "The Lukewarm Church," Rev. 3:15. Although last Sunday was a little disagreeable, the Communion services were well attended. We were glad to receive into church fellowship six new members.

Remember the two special church going Sundays, Dec. 7th and 14th.  
 The Ladies Aid Society met at the home of Mrs. Lundberg Tuesday afternoon. A most pleasant and profitable afternoon was spent. The ladies have been working for some time for their Bazaar, which they decided several months ago, would be held on the sixth of December. They have many useful articles for sale. A good place to buy Christmas presents. A supper will be given in connection with the Bazaar. The Bazaar and supper will be given next Saturday after-

noon, at Mrs. Ball's Millinery store.--adv

The Teachers' Bible study class meets every Wednesday evening, at the parsonage. All are invited to attend.

Catechetical class at 2:30: Saturday afternoon.

**Baptist Church**  
 Rev. B. P. Richardson, Pastor

Our special home services are in progress. Our people are getting into the spirit of the meetings in a splendid way. In spite of the unfavorable weather, their faithfulness is being manifested in various ways.

In these series of meetings, the words ought to characterize the spirit of all our members: "Opportunity, Possibility and Obligation." When this three-fold spirit becomes a reality in all our lives, then gracious results will be seen.

Three things, on our part, are absolutely requisite for successful meetings, viz: Devout prayer, house to house visitation, and the contact of Christians with the lives of other people.

Meetings will continue each evening, except Saturday, on through next week. We expect each meeting to grow in interest and power over the preceding one. Have you invited anyone to attend a meeting?

If you live west of Main street, call up Mrs. M. Norton in regard to the afternoon prayer meeting. If you live east of Main street, phone to Mrs. C. M. Christensen and she will tell you where the ladies are to meet.

The next two Sundays are especially set aside by the various churches of Wayne, as Church Sundays. The united effort is to get every man and woman in Wayne to attend some church on those two days. Let everybody invite everybody else. The community surrounding Wayne is also included.

Greatest things are often accomplished by individuals who believe the thing is worth while. Try to be such an individual in regard to these meetings. The regular Communion service will be postponed until after the meetings. Let us make the Young Peoples' service especially helpful for the after the meeting Sunday.

 County Clerk.

## ARE YOU GOING TO BE A SANTA CLAUS?

Of course you will be. At the present moment it is probable that you have a list of persons in mind who should receive gifts from you. But the anxious question is What to Give.

Come to us and see our varied line of really desirable gifts and useful presents for people of all ages. Even if Santa Claus himself had helped us to buy the holiday goods we are showing, our store couldn't have been made to look more like a corner of his great Christmas gift shop.

There are gifts for boys and gifts for girls, and we haven't forgotten fathers and mothers are just boys and girls grown-up, and that they like things in their stockings too.

Our prices are right every one of them. In fact they are considering the general advance in all kinds of goods—lower than last year, owing to the fact that through the Variety merchants Association we are able to buy directly and cut out the jobber in a good many cases.

Story — Jennie Knew How to Make Stew.

**D**ADDY smiled sweetly as Jack and Evelyn leaned over the arm of his chair.

"And now, what may you two be wanting?" he asked in his most provoking manner.

"We want our story, of course," was the severe answer. "It's our bedtime, and you know you said that little boys and girls always go to bed on time."

"Did I say anything so mean as that?" exclaimed daddy guiltily. "Well, I'm likely to forget many things that I've said."

"But, of course, we'll have tonight's story right away. And let me see what I'll talk about. Oh, yes, I know; I'll tell you a little story about our friends Johnny and Jennie, the twins."

"You know, Johnny and Jennie are the same age. They look so much alike that if Jennie wore knickerbockers you would take her for Johnny, and if Johnny wore skirts you would think he was Jennie."

"They are both in the same room at school, and when Johnny misses a question Jennie is always tickled to be able to answer it."

"It has never been quite settled which is the cleverer. Johnny can spell better than Jennie, and Jennie is a little quicker than he in numbers."

"One day Miss Small, their teacher, gave Johnny a little sum in addition. He had often solved harder ones, but there was something about this question Johnny just couldn't work out."

"Miss Small believed in making the lessons interesting for the children, so she said:

"Now, Johnny, suppose your mother sent you to the store to buy two pounds and a half of beef, two pounds and a half of potatoes, a pound of carrots, a pound of turnips, a pound of tomatoes and half a pound of onions, what would you have?"

"Johnny sighed and shook his head. Really he could not tell."

"Jennie had been watching her brother eagerly, and when he gave up the problem her little hand went up in the air and was waved wildly until Miss Small saw it."

"Well, Jennie, can you answer?" she asked. And she smiled, for she knew how one twin liked to get ahead of the other.

"Mary smiled back. She was quite sure she knew the right answer. She had just begun to take cooking lessons, and she felt that here was a question which a little girl could answer better than a little boy."

"Yes," I know," Jennie replied breathlessly. "Beef stew is what he would have if he added these together. And be sure to put in the pepper and salt, Miss Small, or you'll spoil the stew."

## Neighborhood News

Cleaned From Democrat's Exchanges

Prof. E. W. Hunt, a man well known in this part of the state, was found dead in his bed at Omaha a short time ago.

Wynot is going to have a commercial club, as all of the business men are willing—if some one will make the next move toward organizing.

In Nebraska thus far in 1913, bank deposits have increased an average of one million dollars per month. What's the matter with Nebraska? She's all right.

Wynot again has electric lights. The dam that held the water to make the power failed to hold for a time, but it has again been put in shape and now the wheels go round.

Miss Lilly Brock in Hamilton county has made the champion record as a corn husker this year with 115 bushels to her credit for one day. She may truthfully be called a husky lass.

At Page recently they found a snake in a bunch of bananas and can find no one there who can tell the kind of a reptile it is. They should call to their aid one of those fellows who sees snakes often.

The citizens of Randolph have been calling for a new depot, and now they are asking Uncle Sam to rent a suitable place for their postoffice. Some people are hard to satisfy, but we do not blame them for hollering.

The Wisner football team must be some good players or else a very fortunate bunch in selecting opponents. Out of nine games the past season they won nine games, and there were but two scores made against them in the entire season.

Why couldn't we have one of those old time Northeastern Nebraska Press Association meetings at Emerson and get acquainted yes, and talk a little shop, too? Taylor will extend the glad hand. Pender Times.

That is what we say, too.

Elmer Rollins, a young man who has been working near Brunswick was arrested last week on charge of stealing two heifers nearly a month ago, which he sold for \$85. Arrangements were being made for the young man to settle the affair, when he escaped from the officer in charge.

C. A. Soderberg of Wakefield was happily surprised last week Wednesday by the arrival of two of his brothers from Adair, Iowa, J. M. and L. A. Soderberg, who came to celebrate with him his 50th birthday. They also gave him an easy chair in which to pass his declining years, for it used to be said that a man at 50 was at the top of the ladder and began to decline. But Mr. Soderberg looks hale and hearty, and evidently has no thought yet beginning to go backward. Aside from the birthday occasion it was a good thing for the brothers to be together for a few days. They left for their homes Saturday

Over in Iowa they are telling of a man who went into his corn field and husked a bushel of corn, shelled it, took the same to mill, had it ground, carried the meal home and was eating corn bread made from it within 55 minutes of the time he started. Such a story is possible, whether it ever happened or not.

The Wayne newspapers had twenty-eight columns of advertising last week, making fifty-six columns in all. Such stunts as that will put the mail order business on the bum.—Cuming County Democrat.

That is one of the reasons Wayne is the best town in Nebraska—we have just that kind of business men.

Chris Herrigfeldt and wife, of Ashton, Idaho, are here visiting at the home of their brother, Ernest Herrigfeldt. Herrigfeldt has a 500 acre ranch near Ashton and raised 20,000 bushels of wheat, oats and barley the past season. They are on their way for a visit in Germany and will sail from New York December 11.—Emerson Enterprise.

T. D. Rich, hale and hearty at seventy-five, was down from Wisner Tuesday, to visit Uncle Dan Crellin. Mr. Rich turned the first furrow in Grant township during the early summer of 1868, almost a half century ago, coming here from Wisconsin. He has earned the name of "Pioneer" and the respect of everybody by his sterling manhood and exemplary citizenship.—West Point Republican.

A farmer Institute was organized at Emerson last week and it is their purpose to hold a corn show at that place about the 20th of this month. They elected the following officers: H. H. Stolze, president; J. B. Sheehan, vice president; W. F. Kerwin, secretary; J. H. Banderson, treasurer. The board of directors elected were W. C. Ryan, Theo. Peters, Mike Walsh, Edward Demme and Dan Sheehan.

Stanton county farmers are to have a county institute at Stanton December 11 and 12, holding five sessions in the two days. On the program are such names as J. F. Coupe, demonstrator for the farmers of Thurston county, E. P. Brown of Davey, A. B. Shirley from Central City, G. L. Carlson of Norfolk and Miss Florence Secor of Melbourne, Iowa. Many subjects of interest to the farmers will be discussed, including co-operation and economics.

The Democrat at West Point is telling of one of their readers who caught a turtle, cut off its head, skinned it and cut it into strips, salted the strips, poured on the boiling water and made soup—when much to his surprise, when the soup was about to be served the turtle was found to be swimming about in his own broth as happy as though he had never been caught.—The one who caught the reptile forgot that they never die before sundown even with their heads cut off—and he had tried to complete the soup for dinner the day of the execution. Never spoil a good story by allowing a little thing like facts to hamper you.

A move to establish a fourth rural route out of Emerson was defeated by the postal authorities at Washington, much to the regret of a large number of families which live along the proposed route. Another presentation of the case will be made. It is thought that the request was not granted because part of the route is in the reservation. Then a number of the proposed patrons are already served from Pender. But their names did not appear on the petition as we understand.

Down at Madison the county attorney is hauling a man over the coals for false advertising. He came to town with the "Railroad Wreck Sale" and could not prove that there had been any wreck. He was released on \$200 bonds. The action was brought under the law which was passed last winter against deceptive and misleading advertising of goods for sale. "Honesty is the best policy" in advertising as well as everything else. There are, however, some people in every town trying to do business, who will never be guilty under that act, for they never advertise.

The editor of the Emerson Enterprise urges his readers to shop early and shop at home, thus bettering and building up home enterprises rather than those far away; and it is mighty good advice. You cannot have a fat Christmas turkey unless you feed it—no more can you have a good town when you give its merchants but the scattering crumbs of your trade and buy "unsight and unseen" of a catalogue house or hike to a near-by city to do the bulk of your shopping. Support your home town and it will support you; feed your turkey and it will feed you.

The poultry show which was to have been held at Sioux City last week and part of this was postponed until January 8 of next year. Several from this place and vicinity were preparing to make exhibits when the notice of postponement came to them. Speaking of poultry shows, it seems that there is enough good poultry grown in this vicinity to make a most creditable showing if the people interested, or who should be interested, will only get together and organize for an exhibition. We know of no one thing which will stimulate poultry improvement faster than an annual poultry show.

The auction method of selling land and town lots is growing in popularity. We read the other day of a sale at our old home town in Strawberry Point, Iowa, of a bunch of lots laid out in what was a slough in our boyhood days, and too wet to pasture ducks. But tile and cultivation has changed it—the town has grown until this tract of about four acres was the most available place for expansion. A speculator made a winning by buying, advertising and selling at auction. The price returned was more than \$1,000 per acre, and we can remember when one would have been considered foolish to have offered \$50 an acre for it. This shows that when Wayne is 20 years older the good land about here will bring much more money than one thinks possible to day. The tract above referred to did not have a bit of improvement on it.

"Good morning, Mr. Farmer," said the reporter to the driver of a fine 40-power, 5-passenger car, just as it was turning to leave the depot not more than two weeks ago; "folks or relatives going away?" "No," was the reply; "hired man going to leave." That shows a difference between now and a quarter of a century ago. Then the hired man would have "hoofed" in to the depot if he was bound to go. Then the hired man was called long before the light of day appeared in the east to roll out and help with the chores and be ready to get into the field before light at this season of the year. Now he husks corn by the bushel, and comes down to a hot breakfast just in time to eat and hook up and get out at light, and when the job is finished, he rides to the station in an automobile. The world do move.

## Be Jealous of the Beauty of Your Hair

In other words, be careful of it. The beauty of your hair depends upon its health. If it's beautiful, it's healthy. To make it glossy, bright, silky-soft—to make it fall more easily into graceful, wavy folds of the coiffure—to make it stay where you put it—use Harmony Hair Beautifier. This dainty liquid dressing is just what it is named—a beautifier. If your hair is beautiful now, use it to make it even more so, and preserve its loveliness. If it is not beautiful now, Harmony Hair beautifier will improve its appearance in a way to please you, or money back. Its rose fragrance will overcome the oily smell of your hair. Easy to apply—simply sprinkle a little on your hair each time before brushing it. Contains no oil; will not change color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the celebrated Harmony Perfumes and Toilet Preparations are made. To be sure the currency measure is having hard sledding—that was expected. No one thought that those who profit by the present condition to the extent that certain interests do will give up their hold without a fight. It makes no difference to them who makes the fight or what his apparent motives—so long as he can check legislation on this important question so long do they have hope that the matter will in some manner be side-tracked or ditched. If the people who have the good of all the people at heart were half as insistent and tenacious as those who are fattening on special privileges, there would soon be a radical change in the affairs of men.

and currency legislation headway has been made in direct opposition to the gang of legalized plunderers who have blocked all legislation that did not suit them for the past forty years. Much legislation that was on its face in opposition to their desire has been so amended that it served their interest before it became a law. So let us pat congress on the back and hope that they will continue their good work. When a few of the interests get halter-broke they will lead easier. No one wants to hurt these fat pigs, but they simply wish to fix it so that they cannot injure other people, nor do themselves harm by overfeeding.

A meeting of the Schoolmasters' Club has been called for December 6, at Lincoln. The principal address of the evening will be by Dean Hahn, who will present a paper on "A Psychological Problem in Connection with Promotion Systems in Elementary Schools."

Miss Jane Green, a member of the present senior class, has been elected to a position in the primary department of the Sioux City, Iowa, schools and began work on Monday morning. Miss Green will complete her course at Wayne during the summer session.

On Tuesday afternoon Professor Keckley called a mass meeting of the young ladies of the school and

organized a young woman's athletic association. Miss Eulalia Carroll was elected president and Miss Eugenia Madsen, vice-president. Miss Schemel, Miss Patten and Miss Conn were elected members of the executive committee, one part of their work being to organize girls' basket ball teams in the different classes and societies.

When school opened on Monday following the Thanksgiving recess there were fifty new registrations. Nearly all the new enrollments are young men who have finished the work in their home districts and enter for a short course at the Normal. To accommodate those who register at this time classes have been organized in book-keeping, commercial arithmetic, spelling, penmanship, and manual training.

The man who has been in congress for some time and does not know what is best on the currency question without too much delay should not have been sent to Washington, and the people will see that he is not sent back if they do their duty.

The dictator of Mexico is calling on the fellows with cash for help. Those who know the average man with a bunch of hard cash know that he is not going to put it up for a tottering ruler to spend. The Wilson brand of "dollar diplomacy" is now getting in its work. It differs from the other brand with the \$ mark on it, that it does not advance the dollar and then send warships to take all the poor people have to collect it, with the interest. Without money the Huerta reign cannot last, and money he cannot get.

Free wool became a fact Monday and it is reported that fully ten million pounds were entered duty free that day—the bunch which had been held in bond waiting for the law to become operative. That should enable the manufacturers of certain lines of all-wool goods to send out a product that won't smell so much like cotton when it gets scorched. The American sheep and the American men are now in direct competition with the pauper lambs and chubs of the

In Kansas there is a determined move toward a federation of churches. The idea is to have less half-starved preachers and more of business method in the conduct of the church. The day is fast coming when man will not stick out for a peculiar doctrine, some immaterial point in his belief if it taxes his pocket-book as a member or his stomach as a preacher. When it is all told, the one commandment is all there is to it and all will be better when it is lived more nearly and preached less. All are wanting in at the same place, to escape that other place, and we do not believe that sticking out for this or that minor point in creed is going to help much. Be sensible, be honest, do right.

The special session of congress called last April was drawn out until it welded with the regular session Monday. It is tough on the members who in years past have been playing to have to remain and attend to the business for which they were elected. It is to be hoped that they are kept steadily at their job until their term expires. Those who think the special session did not accomplish much are mistaken. It was no slight job to reduce a tariff that was entrenched behind the greed and graft which has controlled all tariff legislation for more than half a century. That the currency measure has approached the final stages in spite of all opposition speaks well of the administration, for in both tariff

and currency legislation headway has been made in direct opposition to the gang of legalized plunderers who have blocked all legislation that did not suit them for the past forty years. Much legislation that was on its face in opposition to their desire has been so amended that it served their interest before it became a law. So let us pat congress on the back and hope that they will continue their good work. When a few of the interests get halter-broke they will lead easier. No one wants to hurt these fat pigs, but they simply wish to fix it so that they cannot injure other people, nor do themselves harm by overfeeding.

Tuesday afternoon and evening the Knights of Pythias from this part of Nebraska met in district meeting at Norfolk and witnessed the work of the order put on by the Fremont team. In the afternoon this team gave the rank of Page in its best form, presenting it in the form of a drama. There are but two or three other teams in the United States that put this work on in this manner and it was indeed a rare treat for those who saw and heard. In the evening the other two ranks were conferred, and the Norfolk lodge is now about 20 members stronger than before. Those from Wayne were, W. H. McNeal, W. K. Heister, Gus Bohnart, L. A. Kiplinger, John Mulloy, Sam Davies, R. N. Donahey and others.

That Henry Evans was pleased with the lower Rio Grande country in Texas goes without saying, for the land firm of Mears, Fisher & Johnson inform the Democrat man that he invested in a tract of good land near Santa Rosa. They tell us that the land in this vicinity by the aid of irrigation which is easily accomplished grows the most varied crops of any place they have ever visited. Grape fruit, lemons and other tropical fruit trees grow along with such crops as corn, alfalfa and all manner of vegetables that are commonly grown in territory that will not grow the tropical fruits. As this country develops it will no doubt be given over much more generally to fruit than at present, and when that time comes the price of the land will be far higher than it now is, and Mr. Evans will have the satisfaction of knowing that he has made a wise investment.—adv.

### MOLASSES AS A FEED FOR BEEF CATTLE

Before the feeder can study the comparative value of feeds intelligently he must have a knowledge of the digestible nutrients which they contain, says the Kansas Farmer. Prime cottonseed meal as sold on the market at the present time contains 37.6 per cent digestible protein, 21.4 per cent digestible carbohydrates and 9.9 per cent digestible fat. The cold pressed cottonseed cakes contain approximately 25 per cent digestible protein, 23 per cent carbohydrates and 6 per cent fat. No cattle feed on the market supplies so much digestible protein per hundred weight as does cottonseed meal, and for that reason it is oftentimes the most economical feed that can be purchased to supplement the cheaper feeds of the farm, which are, as a rule, deficient in digestible protein.

Molasses such as is sold for feeding purposes contains 1.5 per cent digestible protein, 59.2 per cent digestible carbohydrates and no fat. In experimental work which has been conducted at various experiment stations it

It is claimed for the Shorthorn that as a whole they are heavier than any other breed. In some localities, however, herds of Herefords may outweigh Shorthorns on adjoining farms. Both these breeds average heavier than the Angus. All are excellent cattle and produce the highest grade of beef. Shorthorn cows are better milkers than those of any other beef breed, and for that reason it is claimed the young steers mature earlier. The Shorthorn bull shown was a prize winner last fall.

has been found that where used as a portion of the ration blackstrap molasses has a value fully equal to corn, pound for pound. At the Texas experiment station a very successful ration for full feeding steers was made up by using through a feeding test of 120 days an average ration consisting of 6.6 pounds of molasses, 8.6 pounds of corn, 3 pounds of cottonseed meal and 12.6 pounds of cottonseed hulls. The molasses replaced part of the corn of the ration and the necessary protein to properly balance the ration was supplied by the cottonseed meal.

#### DIPPING THE FLOCK.

Sheep Cannot Thrive When Infested With Parasites.

No stockmaster should attempt to raise sheep without planning to dip them at least annually and in most cases twice a year. When sheep are brought from other flocks, and especially when transported there by railroads, they should be thoroughly dipped before allowed to mingle with the rest of the flock.

Experience has taught sheepmen that sheep thrive much better when their skins are clean. A good dip increases the quantity and improves the quality of the wool. It is impossible for lambs infested with ticks or other parasites to thrive properly, owing to the constant irritation set up. In trying to get relief lambs often nibble at the fleeco and swallow small portions of wool with fatal results. A good and regular system of dipping the entire flock is money well expended. Hence most of the leading stockmasters dip twice in the year—once in the spring and again in the fall.

The object of dipping is to destroy the parasites in the fleece, such as scab mites and sheep ticks and lice, and to prevent subsequent attacks from the same. In England, where sheep raising has attained its highest state of perfection, dipping is required by law at least twice a year.

While dipping may not be done at any season, it should, if possible, be avoided in cold weather for obvious reasons. If the flock is badly infested it is important to repeat the operation in ten days in order to destroy the insects that have hatched during the interval.—Better Farming.

#### "La May"

The remarkable tests just concluded at the state farm on "La May," one of the best Holstein cows owned by the people of Nebraska, should carry home a forceful lesson to dairymen, says the World Herald. In a year's time this cow has produced upwards of 26,700 pounds of milk and 773 pounds of butter fat. At prevailing prices her products have brought in \$1,166.40. In the same time Mrs. Average Nebraska Cow has produced about 8,000 pounds of milk and about 150 pounds of butter fat—enough to enrich her owners, and there are many of them, in the sum of \$325. The difference of \$841.40 in the year's production would pay several times over for the extra feed consumed and would leave a profit sufficient to attract almost any farmer who stops to think about it.

The time is not far distant when the average cow will be supplanted by the high-return cow and when dairymen will elect to pocket the greater profit that is to be had through propagation of that kind. Nebraska is rich in resources for the dairymen who are looking ahead to better things, and dollars will flow into the pockets of those who will rise to the occasion. Such an advance has been made in the past year that it is expected by the hopeful ones that the coming year will witness even greater strides. In the past Nebraskans have not been dilatory in adopting new ways to wealth when they were shown that direct benefit resulted from long-sighted business policies. Hence they are not looked to delay in adjusting themselves to meet the new era in Nebraska dairying.

#### Raising Railroad Rates

Mr. Brandeis has been doing some rapid work preparing for the contest against raising railroad rates. As far as his plan is made public, it includes his old contention that the railroads waste a million dollars a day in inefficient management, then he will contend that the roads are managed by bankers instead of by railroad men for the interest of stockholders and the public. Bank management will be illustrated in the presentation of the case, by the financing of such railroad companies as the New Haven and the Frisco during the past ten years. He will endeavor to show that the railroads have been getting their new money at extortionate prices, and that this system of raising fresh capital and placing long and short-term loans should come to an end before extra charges are levied upon the public.

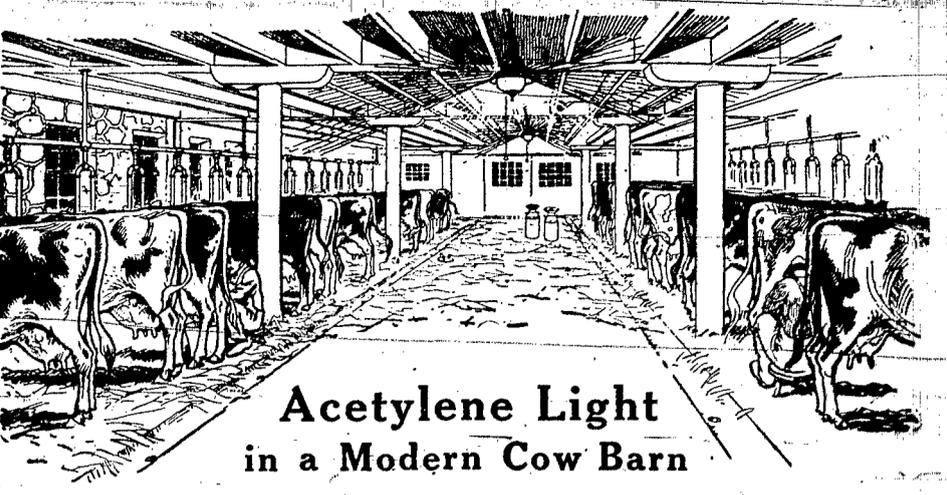

The evidence in the Frisco receivership taken at Kansas City proves that during the last ten years the directors of that road paid New York and St. Louis bankers the sum of \$32,000,000 in the form of interest and commissions, that the officers of the road and bankers sold property to it at enormous profits. B. F. Yoakum, executive head of the Frisco, profited \$328,413 on an investment of \$300,000.

Mr. Brandeis will show that interlocking directorates and banker control forces railroads to buy material and equipment from the steel trust instead of independent companies and pay higher prices than they should. He thinks that when these reforms are secured there will be no need of raising freight rates, but on the other hand they can be lowered and still pay a reasonable return on their investment.

That program contemplates a complete revolution in railroad management and is a pretty large undertaking.—World Herald.

### Acetylene Light in a Modern Cow Barn

WE sell a great many Pilot Acetylene lighting plants to dairy farmers. Because dairy farmers can get even more out of an Acetylene installation than anybody else.

Our dairy farmer patrons make these Acetylene plants do double work. They run an extra line of pipe to each barn—and sometimes to other outbuildings. In these buildings they fasten the great balls of Acetylene light to timbers and rafters.

They also equip these lights with ignition devices—to make them light with the pull of a chain without matches.

Two of these Acetylene barn lights will make a big dairy barn as light as day. They will give more light than a dozen lanterns—and unlike lanterns, they cannot be tipped over.

The same is true of Acetylene house lights. They burn in handsome stationary bronze or brass fixtures securely fastened to ceilings or walls.

You can tell one of these Acetylene lighted dairy barns from the road—a quarter of a mile away. The light is extremely brilliant. It is also soft and white in color—so nearly like sunlight that scientists have used it with success to grow plants on an extensive scale.

These qualities make it a cheerful light. Unquestionably it helps to keep the whole household happy and contented. Weak, dingy, yellow lights, on the other hand, just as surely tend to make people dull spirited and gloomy.

That is why we say Acetylene light is a mighty big help towards keeping the country boys and girls from drifting to the city.

Acetylene is too a boon to the women folks in another way. In addition to the beauty of the light it brings to the country home a great convenience in the gas cooking stove.

For acetylene can be and is used in gas cooking ranges in thousands of country homes, just as its cousin, city gas, is used in millions of city homes.

In every one of these homes the gas range has shortened cooking hours and has done entirely away with the drudgery of handling coal, wood and ashes.

You will be intensely interested in the simple mechanism of the Pilot which makes it different from all others in principle.

Its patent safety features have made it quite "trouble proof." They have given such perfect satisfaction that we have been able to sell no less than sixty thousand Pilot plants in fifteen years.

With these sixty thousand plants working incessantly in country homes, undergoing all kinds of misuse and abuse, we have only heard of two accidents. During the same period there has been over one hundred thousand accidents charged to other illuminants.

For this reason the Engineers of the National Board of Insurance underwriters called Acetylene safer than any illuminant it commonly displaces.

We would very much like to give you a free demonstration of the working of "the Pilot plant." For this purpose we have a portable plant which we can bring to your home. Or if you wish we will be pleased to mail you our advertising books containing the whole story of Acetylene. Just drop a card to—

**Celebrating the Day Anciently and Now**

On Christmas eve the bells were rung;  
On Christmas eve the mass was sung.  
That only night in all the year  
Saw the staid priest the chalice rear.  
The damsel donned her kirtle-sheen;  
The hall was dressed with holly green.  
Perth to the wood did merry men go  
To gather in the mistletoe.  
Then, opened wide the baron's hall  
To vassal, tenant, serf and all.  
Power laid his rod of rule aside,  
And Ceremony doffed his pride.  
The heir, with roses in his shoes,  
That night might village partner choose.

So sang Sir Walter Scott of the glories of Christmas eve and of Christmas itself. And the world yields to him the palm for the best practical description of the season's dear delights.

Christmas with us is a day of giving and receiving, of good cheer and good feeling, and essentially it is one of religious significance. Hence it will sound strange to many to be told that a number of our Christmas customs come down to us from pagan times. Yet such is the fact. Traces of some heathen rites are found in England as well as here, and the cause of their survival lies deeper than theology. When the mother country, so called, was converted to Christianity the priests found her people wedded to many old customs. Not all of these were what they would have had them, but they had a practical work to perform and went at it in a practical way. The more revolting of these customs they properly uprooted altogether; the better of them they preserved, only ingrafting the rites of the church upon them.

Thus it came about that festivities which had their origin in the old Roman Saturnalia and had come into use among the druids survived in the grim mythology of the Saxons and are a portion of our inheritance today. Conspicuous among these are the burning of the Yule log and the hanging of the mistletoe bough.

Among all peoples who celebrate the day at all it has always been a day for eating and drinking, for slugging and dancing and merriment of all kinds. Indeed, this has been the criticism of the church against the manner of observance—that its spiritual meaning was too often forgotten in the general tide of worldly cheer.

In England its observance is universal. The chroniclers tell us that in Cheshire no servants would work on this day, even though their failure to do so resulted in their discharge. The richest families were compelled either to do their own cooking on Christmas or eat what had been prepared beforehand, while dancing and merriment reigned.

And the games that were played number nearly legion, the most of them, though, on Christmas eve. Run-

THE STREETS IN MANY PLACES WERE FILLED WITH MUMMERS.

ning in sacks, ducking for apples, jumping at cakes suspended by a string and trying to catch them between the teeth, drinking hard cider mixed with egg and spices, and a score of others—these claimed and still claim in Devonshire the time of old and young, the children themselves being allowed on this one night to sit up until the midnight bell tolls.

Who has been aptly called "a beautiful phase in popular superstition," a very old belief, was that all the powers of evil lay dormant and harmless on Christmas day.

The cock crowed through the live-long night to drive all evil spirits away; the bees sang in their winter hives; the cattle, half human at all times, became wholly so at midnight and talked like human beings.

Bread that was baked the night before Christmas could not possibly become moldy. The streets in many places were filled with mummers in fantastic garb.

Indeed, there were mummers in the days when Saturnalia reigned over even the Roman emperors, but they were not necessarily of the Christmas time. The love for masquerade is almost as old as the human race itself.

But as to the day itself, it was then, as it is now, a very merry day, with good fellowship bubbling even from hearts where theological nonbeller dwelt—a day sacred to the family, to the eating of roast turkey and cranberry sauce or roast beef and plum pudding and walnuts and the drinking of beer, ale and wine.

It has changed to some extent since the old day, but it is still the happiest day of all the year—at least where the shadow of misfortune does not cloud the sky.

**Fine Furniture Makes Fine Homes**

FINE FURNITURE means attractive homes, and attractive homes add to the welcome; son and daughter take pride in inviting their friends to share your hospitality. This is a most wholesome influence for young people and an endeavor should be made to provide a home environment that will interest and please them. "Where Is My Wandering Boy (or Girl) To-Night" could be solved many times if a home atmosphere were created that the young people could be interested in. Besides, the luxurious utility of fine furniture adds much to the comfort of the entire family. Our furniture for Sitting-Room, Library, Dining Room and Bed-Room reflects the best in American workmanship and design. Add to the Christmas cheer with a few new pieces of furniture. Anyhow, come in and look over our stock for ideas while our stock is complete whether you are ready to buy now or not.

**Cedar Chests**

Every Cedar Chest made has some merit—in fact, a rough box made of the fragrant Tennessee Red Cedar, and made tight, will protect furs or clothing from moths. But the Cedar Chests have passed beyond that stage and to the discriminating buyer we now offer well finished, well constructed chests of an artistic design at moderate prices in place of an ordinary packing box. **LIVE STOCK PRICES AT SOUTH OMAHA**

Desirable Beeves About Ten Cents Higher Than Monday.

HOGS SLOW, 10 CENTS LOWER

Good Fat Lambs Fully Steady and Other Kinds Steady to Easier—Fat Ewes Fully Steady—No Change in Feeders.

Union Stock Yards, South Omaha, Dec. 2.—Cattle receipts were only moderate today, about 4,500 head. Desirable corn fed beef were pretty close to a dime higher than Monday, but with the short fed and warmed up grades it was the same dull and unsatisfactory trade that was experienced Monday, and prices showed little or no improvement. Range beef met with a much better demand than on Monday and sold strong to fully a dime higher. Cows and heifers were also in rather better demand and strong to a shade higher. Business in stockers and feeders was not overly active, but desirable grades were a little firmer and tone to the trade was perhaps a little better.

Cattle quotations: Choice to prime beeves, \$8.50@8.75; fair to choice yearlings, \$8.25@9.25; good to choice beeves, \$8.20@8.50; fair to good beeves, \$7.75@8.15; common to fair beeves, \$6.50@7.50; good to choice fed heifers, \$6.75@7.50; good to choice grass heifers, \$6.50@7.00; good to choice cows, \$6.25@6.75; fair to good cows, \$5.50@6.25; canners and cutters, \$4.25@5.25; veal calves, \$6.50@10.00 bulls, stags, etc., \$4.50@6.75; choice to prime feeders, \$7.40@7.80; good to choice feeders, \$6.85@7.35; fair to good feeders, \$6.25@6.75; common to fair feeders, \$5.75@6.25; stock cows

and heifers, \$4.50@6.50; choice to prime grass beeves, \$7.60@7.85; good to choice grass beeves, \$7.10@7.50; fair to good grass beeves, \$6.50@7.00; poor to fair grass beeves, \$5.75@6.50. About 12,000 hogs arrived today. The market was very slow today and prices were a big dime lower all around. The bulk of the butcher and heavy weight offerings moved at \$7.40@7.60, with a sprinkling at \$7.65, and some real choice stuff at \$7.70, the top Light sold largely at a range of \$7.00@7.35.

Sheep and lamb receipts amounted to about 18,000 head. The market opened slow, but later became fairly active and the bulk of the killers went at fully steady figures. Some fed western lambs brought \$7.45. A shipment of fed western ewes went at \$4.50. There was little or no change in feeders, practically everything selling at steady prices. A bunch of feeder yearlings sold at \$7.30.

Quotations on sheep and lambs: Lambs, good to choice, \$7.25@7.60; lambs, fair to good, \$6.75@7.55; lambs, culls, \$5.50@6.00; lambs, feeders, \$5.50@6.65; yearlings, light, \$5.75@6.00; yearlings, heavy, \$5.50@5.75; yearlings, feeders, \$4.50@5.40; wethers, good to choice, \$4.50@4.75; wethers, fair to good, \$4.00@4.50; wethers, feeders, \$4.00@4.50; ewes, good to choice, \$4.25@4.50; ewes, fair to good, \$3.85@4.25; ewes, feeders, \$3.25@3.75.

J. Rippon and wife received the sad news Monday of the sudden death of their son, J. J. Rippon, at LuVerne, Minnesota. Their son, Ernest, and daughter, Mrs. W. O. Hanssen, left Tuesday morning to attend the funeral. No word came as to the cause of his death.

Wm. Gotobed and wife returned to their home at Red Oak, Iowa, Tuesday morning after a visit of nearly a week at the home of his uncle, Sam'l. Barnes. This was their first visit here of sufficient time to view the city, and they expressed themselves as much pleased with the place.

Mrs. Stanley Huffman and son came down from Elgin last week to visit her parents R. E. K. Melton and wife. Mr. Huffman came and spent Sunday here, and Mrs. Huffman returned home Tuesday. It was the first visit of the little grandson to Wayne, and he received a hearty welcome. Many of Mrs. Huffman's Wayne friends were glad to greet her again.

P. A. Gossard went to Craig Sunday afternoon to see his son, Kelly, who went there last week to work, but had to stop for a time to give attention to the tooth trouble which had made it necessary for him to go to the hospital, and his father accompanied him there from Craig Monday. Mrs. Gossard and baby came to Wayne to remain until he is again able to go to work.

Vernon Dayton went to Omaha Monday to attend a sale of Holstein cows. The Democrat is glad to see the Wayne farmers interesting themselves in thoroughbred dairy stock. The Holsteins, the Guernseys and the Jerseys are good, and there is a strain of Red Polls that are profitable milk producers. In another column we give the record made by one cow—she as a queen in her class—and it would not be fair to use that as a standard, but there is room for far greater returns from the cows than the average Nebraska farmer gets.

**Favor Limiting Land Ownership**

At the meeting of the Central Literary Society, Friday evening at the McEachen school house an interesting debate on limiting ownership in land was held. There was a large attendance of the members of the society and of friends. Fred Winther presided over the meeting, and introduced the speakers in the debate. The subject debated was, "Resolved that Ownership in Land in Cornbelt Should be limited to 160 Acres." Lee Smith opened the debate for the affirmative, setting forth as reasons for this limitation in land ownership the benefits which would come both to present owners of large tracts of land, and also to the renters, and to the people at large. George A. McEachen led the debate on the negative side, showing the disadvantages of restraining or limiting ownership in any way. The larger the farm the more profitably it can be worked. Rev. Alexander Corkey and Clyde Oman, who were present, also joined in the debate. The audience decided by a rising vote in favor of the affirmative of the question.

At the close of the debate Rev. Alexander Corkey addressed the meeting on "Present-Day Standards," illustrating his remarks with several characteristic stories, and giving some good advice on the secret of success, and on the importance of forming a character which will meet the high demands of our time.

The society will meet again in two weeks when a musical program will be given, as an organ has recently been placed in the school house for use during the Sunday services and at the social meetings.

**Trouble Brewing for Boys**

It comes to the ears of the editor that there is trouble brewing for some of the lads and young men of Wayne, or their parents, unless they reform in the matter of hunting on some of the premises about town. This is not written in the spirit of a threat, but as a warning. According to reports, the wild game being scarce, the lads are shooting chickens and the like on some of the nearby farms.

Not is this all, some of them, who have been out with a rifle, have been very careless, and the bullets have come uncomfortably near both people and stock in the fields. The boys would feel badly if they had to answer to the charge of trespass to some of the people injured; and they would feel much worse should they accidentally shoot some person while out for sport. For that reason we urge the boys to regard the rights of others when out with a gun.

**Hitchcock's Bill Criticised**

Willis E. Reed, of Madison, has sent an open letter to the owner of the Omaha World Herald which points out some of the weakness of the currency bill introduced by our senator:

Editor World Herald, Omaha:— In a recent issue of your paper you published the currency bill submitted by Senator Hitchcock, and in your editorial, as a justification of the senator's attitude against the currency bill from the house you invite criticism or approval of the senator's bill. Hence this communication. A portion of Sec. 12 of senator Hitchcock's bill reads as follows: "Sec. 12. That the Federal Reserve Board herein before established shall be authorized and empowered:

- (a) To examine at its discretion, etc.
- (b) To permit or require in time of emergency, etc.
- (c) To supervise, etc.
- (d) To add to the number of cities classified as reserve and central reserve cities under existing law in which national banking associations are subject to the reserve requirements set forth in this act; or to re-classify existing reserve and central reserve cities or to terminate their designation as such."

In section two of the same bill the Senator provided for "four federal reserve cities and no more with a proviso that after two years the Federal Reserve Board might at its discretion designate not to exceed in all eight additional reserve cities" Under the provision of sec. 12 just noted the Federal Board on account of the last clause in subdivision (d) and which for convenience I capitalized empowers the Federal Reserve Board to reduce the number of reserve cities and it would if the board were so disposed or a majority thereof, dispense with three of the reserve cities and there would be left one Central Reserve Bank, and no board nor individual for that matter, should never be given or granted such autocratic power over the vital interest of the people. The democratic platform at Baltimore, among other things, declared that which is now and from time immemorial has been Democratic in fact, and was but a mere consensus of opinion of the democrats of the country, and which is the test of one's adherence to one party or another. It opposed and declared against a Central Bank no matter in what form it might appear nor how it might become created. This being true it can hardly be claimed that the democracy of the country would be keeping faith with the public with the power entrusted to it by the people, if we permitted or allowed such a bill to become crystallized into law under a democratic administration. It would be a betrayal of the rights of the people. That part of Sec. 2 which provided that we should have no more than four reserve cities to commence with, might have been worded, and at no time less than said number, and that part of subdivision (d) of Sec. 12 as follows, "or to terminate their designation as such" might and should have been entirely omitted from said section 12 and eliminate completely from the bill and the objection which I urge could not have been made. I hope that the objectionable features of the proposed bill which I have pointed out were due to an oversight in the draftman and not intentional; because the bill as it stands seems to have been anticipated and has been criticised by Democrats as the forerunner of a Central Bank scheme, and that has directed unfavorable comment against Senator Hitchcock and which would be groundless if this were a mistake in the draftman; if it is to remain therein the criticism would be just and proper. The public in general have much confidence in President Wilson that they would much prefer as I have gathered from repeated conversations and interviews with the people the house bill to any other and especially Senator Hitchcock's bill as published. No one could reasonably expect either bill to be perfect. There are many good features in each of the proposed bills and several of the new features of the Senator's bill should be placed in the House bill and it requires time and consideration to digest them. Having recently been in the states of Colorado, Washington and Idaho I found the currency legislation to be a subject of much consideration among the people, and they desire a speedy disposition of the bill believing as I do that it is best for the public, and that amendments from time to time can thereafter be made because the bill as first passed is not likely to be as good a measure as the most of us desire that it should be. As one of

Senator Hitchcock's constituents and on behalf of a number of friends throughout the state who have spoken to me respecting the currency measure I trust that Senator Hitchcock will recede from his present attitude against the House bill, at least in the particulars herein pointed out.  
WILLIS E. REED.  
Madison, Nebr., Nov. 29, 1913.

**Strength for Old People**  
Old people, to overcome the weakening, debilitating effects of increasing old age, often make a very sad mistake in using so-called "remedies" that contain alcohol and dangerous habit-forming drugs. Often this stuff, because it livens and brightens them up a little just after taking a dose, leads them to imagine that it is doing them good, when it isn't. Remedies that rely for their sale on such deceit, do harm, because the false excitement of the nerves and heart leaves them worse than they were before.  
Rexall Olive Oil Emulsion is a real medicine—a splendid body and strength-builder, especially good for old people, because it furnishes to the system ingredients necessary to rebuild wasted tissues, strengthen the nerves, give new energy and a younger and livelier feeling to the body. It doesn't contain a drop of alcohol nor any dangerous drug. It may not make you feel better after the first dose, nor perhaps for several days. But if you don't feel much better—and stronger before you have taken a quarter as much as you have of other medicines that didn't help you, we will gladly give you back your money. That's certainly a square deal.

The four Hypophosphites it contains are used by leading physicians everywhere in debility, weakness and liability to disease, to tone and strengthen the nerves. Purest Olive Oil, one of the most nutritious, most-easily-digested foods known, being taken with the hypophosphites, gives rich tissue nourishment to the entire system.  
You who are weak and rundown, and you who are apparently well now, but are liable to suffer from various cold weather ailments, use Rexall Olive Oil Emulsion to get—and keep—well and strong. For the tired-out, run-down, nervous, emaciated, or debilitated—the convalescing—growing children—aged people—it is a sensible pleasant-tasting aid to renewed strength, better spirits, glowing health. If it does not help you, your money will be given back to you without argument. Sold in this community only at our store—The Rexall Store—one of more than 7,000 leading drug stores in the United States and Great Britain.

the home of Miss Ella Shellington Monday evening. The class has completed the study of Shriveley's "Immigrant Forces". As a fitting climax the members came dressed as immigrants from southeastern Europe,—the Bohemians, Italians, Polish, etc., being represented. A bill of fare made up of the favorite dishes of the immigrant was served at the close of a social hour.

**Church Sabbaths in Wayne**

Next Sunday and the Sunday following have been set apart as the "Wayne Church Sabbaths," and the church people in all the Christian churches in Wayne are inviting the entire community to go to some one of the six Christian churches in our city. There is absolutely no bigotry whatever in the movement. Methodists are working for Baptists, and Presbyterians are working for Lutherans, and all are working together for each, as the churches are not inviting the community to attend any particular church but only some one of the six. The movement shows the unity of the religious life of our community and emphasizes the common work which every Christian church is doing, which is simply the building up of Christian faith and character.

This Church Sunday movement is one which the progressive communities in all parts of the country are observing, and it heralds a new day in church work. Churches are beginning to realize that they are all only different regiments in the vast army of God which is seeking to instill the faith of Christ into the hearts of men. Separated and fighting one another these regiments are a sad spectacle, but united, as they are in Wayne, they present an imposing sight showing the power of the truth and the influence of Jesus Christ. In the interest of the moral and religious life of our community every good citizen is asked to show his respect for religion next Sunday by attending divine worship in some one of the six Christian churches.

## Frederick Dale Wood

The one great orator who always satisfied the people when he was sent as a substitute for the greatest orator of modern times, William J. Bryan, as was frequently necessary when the great commoner could not fill dates owing to the demands of his official position. When a man of such recognized ability comes none can afford to miss hearing.

Whether he speaks of "The Expansion of Democracy," or of social conditions as told under the title, "Am I to Blame," or gives the "Story of the Perfect Life," the hearer will carry away thoughts that will be pleasing and profitable to remember.

As printer, editor, writer and in the service of his country he has gathered an inexhaustible fund of information, and he well knows how to impart it.
