Mr. and Mrs. Peter Coyle, Pioneers of Nebraska, Celebrate Completion of 50 Years of Married Life

Mr. and Mrs. Peter Coyle celebrated their golden wedding at their home on West Second street, last Sunday. This worthy couple were married at Madison, Wisconsin, July 23rd, 1865. Eleven children were born to them—eight sons and three daughters. A daughter Nellie, and son, Peter died in infancy, another son Mathew died at the age of 24 years. Three sons could not be here to take part in the celebration, John of Iowa, George of Salt Lake and Frank of Canada. The children attending were: Mrs. Whittaker of Tekamah, L. J. Coyle of Lincoln, Thomas Coyle of Omaha, R. C. Coyle of Wayne, Mrs. T. W. Moran of Wayne. They have sixteen grandchildren, seven of whom were in attendance and three great grandchildren, all of whom were there. The grand children in attendance were: Mr. and Mrs. A. C. Lantz and children, Ford and Claire of Winside; Mr. and Mrs. Huntner and daughter Marcella, Louis, Francis, William, Thomas and Bonnie Moran of Wayne, Miss Margaret O'Neil of Jackson, a niece of Mr. Moran and Miss Sadie Gates of Craig were also there.

The house was decorated profusely with garden flowers. An elaborate three-course dinner was served at 1 o'clock. Covers were laid for twenty-four. Mr. and Mrs. Coyle were recipients of many useful and beautiful presents, mostly in gold money and jewelry.

On Friday evening, the real anniversary of their marriage, neighbors and friends surprised them and light refreshments were served. The evening was spent socially. The guests departed leaving tokens of their respect and esteem and wishes for their continued health and happiness.

Mr. Coyle is indeed a pioneer of Nebraska, first coming here in 1856, and stopping in Burt county when he had few neighbors but the Indians, and they were so neighborly that they would take his dinner and eat it while he was breaking the virgin sod with a yoke or two of oxen. Soon after their marriage they came again to Burt county, settling at Tekamah, and later running a ferry across the "Big Muddy" at Decatur, where he met most of the people who came to Nebraska in those early days. He spent a number of years in that part of Nebraska, and in 1883 moved to the county, where they lived for 22 years, part of the time on a farm about seven miles northwest of Wayne and part of the time in Wayne, where he conducted a livery part of the time and worked at carpenter work, building many of the houses in this place. Later they moved to Ponca, New Castle, Florence and Craig, but at last gravitating back to the best place of all, Wayne, where they came a few months ago and purchased a neat home in which they are now comfortably settled.

To such pioneers as Mr. and Mrs. Coyle and their family of sturdy children Nebraska owes a debt which can never be overpaid could they have a "golden wedding" each year while they are permitted to remain with us.

Off to the War Again

Tuesday morning a party of Boy Scouts, under command of Scout Master W. R. Ellis, left for a week outing at Crystal Lake, where they will wage an offensive warfare on the fish and defensive against the mosquitoes. It was first planned to go by automobile Monday to Niobrara and camp by the river, but the rain caused change of plan and the party went by train to Crystal Lake instead. The organization here is under the auspices of the central organization, and is known as Eagle squad, No. 2. The following members were reported as participating in this trip: Marion Grothe, Milo Hood, Ralph Carhart, John Carhart, Gerald Roberts, Harry McIntosh, Edward McChesney, Glen Miner, Harold Hufford, Earl Fitch, Knox Jones. It is not necessary to add that the boys will have the time of their life, and all wish them a happy outing. Others plan to join them a little later.

The State Tennis Meet

The Nebraska Tennis association is holding its annual meet at Lincoln this week, and we venture to assert that no place of its size is as well represented on the courts in point of numbers as Wayne—how they shall prove as players the contests alone can determine. Those from Wayne who are in the games are Morgan, Kohl, Pete Lewis, Gildersleeve, John and James Ahern, Harrington and Craven, and perhaps one or two others whose names we failed to get.

From the Journal report of the drawings it is seen that a number of the most skillful players happen to be pitted against each other in the first rounds, hence it is certain that the consolations will be of much interest, for with Patterson vs. C. Powell and Calvert vs. R. Powell, and like men pitted against each other in the first round the consolations are bound to have some good men competing. In the drawings as given in the Journal we note that Gildersleeve will meet Boehler, John Ahern Lee, Morgan Mathew, Kohl Lines, Watkins Pasewalk. The others we fail to find on the list given. Rain has made the courts too wet to start the matches as early as hoped for, but they are now becoming interesting. The Wayne delegation is extending an invitation for the next state meet to come to this place.

Drowning by Criminal Negligence

It seems that should be the verdict of any jury trying the case of the people vs. those who owned and operated the steamship Eastland and perhaps the inspectors who permitted such a deathtrap to be used for human freight. This boat loaded with about 2,500 pleasure seeking passengers bound for a day outing, and mostly women and children is so faulty in construction that it turns over on its side in the Chicago river before it is untied from the wharf, breaking the hawser which should have held it to upright in a gale had it been properly built and ballasted.

The number who went to their death is yet unknown, but more than 1,000 bodies have been recovered from the wreck and the river and the end is not yet. It is estimated that there were 2,000 people or more on board when the ship turned turtle.

Give Flies Hell—ebore says Uncle Samuel

A safe and effective weapon against the typhoid or house fly has been found in powdered hellebore by scientists of the department of agriculture. Flies lay their eggs chiefly in stable manure. Powdered hellebore, mixed with water and sprinkled over the manure will destroy the larvae, which are hatched from the eggs. Since powdered hellebore is readily obtainable, this puts in the hands of everyone a remedy for one of the pests that has been found dangerous as well as troublesome. Powdered hellebore, however, will not kill adult flies, which must be swatted or trapped.

One-half pound of powdered hellebore, mixed with 10 gallons of water is sufficient to kill the larvae of 8 bushels or 10 cubic feet of manure. The mixture should be sprinkled carefully over the pile, especial attention being paid to the outer edges in most places. Hellebore is obtainable in 100-pound lots at a cost of 11 cents a pound. This makes the cost of the treatment less than seven-tenths of a cent a bushel of manure.

Along Came Ruth

"Ruth, how in the world do you keep your low shoes from coming untied at every block?" inquired Marjorie, as she bent over hers for the second or third time during their afternoon stroll, "mine are the bane of my life. Are your strings different from mine?" "Why no," said Ruth, looking at them, "it isn't a matter of strings, my dear, it's just a matter of tying them properly in the first place. Before you put the shoes upon your feet, you should moisten the strings just at the place where you tie them. If you will do this they will never slip and will not be a nuisance by constantly coming untied. Just try it and see if I am not right."

"I surely will," asserted Marjorie gratefully, "if you will come into the shop for an instant, I will follow your advice immediately." And she did, with happy results.

State Normal Notes

The normal board will hold a meeting at Lincoln on August 3. Mr. Frank Masden will have charge of the schools at Loretta, Nebraska, next year.

Miss Grace Adams has been elected to a position in the primary department of her home school at Delta, Colorado.

The Knox county delegation in the summer session enjoyed a picnic Monday afternoon at the home of Professor Hickman.

All departments of the school will close on Friday of this week for the summer vacation, the new school year opening on September 13.

Superintendent Cowan enjoyed a visit from his daughter, Miss Laura Cowan of Albion, who accompanied Superintendent Johnson on her visit to Wayne Wednesday and Thursday.

Rev. E. Claude Smith of Tama, Iowa, was a recent visitor. Mrs. Smith, formerly Miss Myrtle A. Mills, was a graduate of the Nebraska normal about fifteen years ago.

Mr. Wm. Proebsting, representing the Crown Metal Construction Co., installed the first of the week, the new steel vault case. The fixtures are quite complete, and furnish a convenient and safe method of preserving the records of the school.

Superintendent T. B. Morris of Sioux City, Iowa, addressed the rural school teachers Monday, this being the last of the professional lectures provided for the class in theory and art. During the week Superintendent N. T. Lund of Blair and Superintendent Hannah Johnson of Albion also addressed this section.

Mr. Ernest Samuelson, class of 1913, was a visitor Tuesday. He has just returned from Lynd, Minnesota, where he has had charge of one of the large consolidated school districts of that state. Mr. Samuelson has had excellent success in his work and will return to Lynd in September with a substantial increase in salary.

Modern Prairie Schooner

In preparing to make an overland trip from Stanford, Conn., to San Francisco, a motorcycle enthusiast has developed a truly modern prairie schooner which is no less an innovation than it is a curiosity," says the August Popular Mechanics Magazine, in an illustrated article. "It consists of a light, covered wagon mounted on cycle wheels and drawn by a single-cylinder motorcycle hitched horse-fashion before it. The interior of the trailer is comfortably appointed with folding beds and especially designed cabinets for provisions, cooking utensils, and other paraphernalia. The builder of the vehicle will be accompanied on the journey across country by his wife and two children."

District Court Proceedings

Two cases were filed with the clerk of the district court last week, one was Townsend vs. Jerusha Mills, et al, to quiet title and is a case involving much. The other is John Schalmus vs. Simon and Hannah Goeman, a foreclosure proceeding on their home place in Wayne.

Petter August Emil Anderson, a native of Sweden, has made application to become a citizen of this land of the free.

The Cradle

McCONNELL—Friday, July 23, 1915, to Chas. McConnell and wife, a son.

SCRIVNER—Saturday, July 24, 1915, to Frank Scrivner and wife, a son. The little one lived but a few hours, and passed away, and the body was laid to rest in the Wayne cemetery the day following its birth.

Rev. Buell of the Methodist church was called to Beatrice Wednesday by word that his mother is seriously ill with appendicitis, and will doubtless have to undergo an operation. This sudden call will change the program somewhat at the church Sunday morning, and the Brotherhood will have the conduct of the morning service, and Weldon Crossland will speak at that time.

L. E. Panabaker asked for an extension of the water main on 11th street and was referred to the water committee.

The City Engineer was directed to survey and prepare a plat of sewer district No. 4, as provided for in ordinance published elsewhere. An alarm bell is to be procured and installed at the power plant.

New Cream Station for Wayne

Last Friday the Bloomer Cold Storage Co. an old established Council Bluffs firm opened a cream station on North Main St., south of the German Store. The Bloomer Co., while new in Wayne has stations in most of the surrounding towns and are well known to many Wayne County farmers. For the present the Wayne station will handle nothing but cream but expect later to establish a general produce business, purchasing butter, eggs and poultry and paying the highest market prices for everything they buy. The station here will be in charge of J. L. Davis, an old resident of Wayne. Mr. Davis has many friends in Wayne and the Democrat joins them in wishing him the best of success.—adv.

Jensen-Heyer

At the St. Mary's church in this city, Wednesday morning, July 28, 1915, Father Kearns united the lives of Mr. Jens Jensen of Briggsville, Colorado, and Miss Ida E. Heyer of Winside in marriage.

Both bride and groom have a large circle of friends in this county who will follow them with the best of wishes to their new home in Colorado, where the groom recently went to establish a farm home in Weld county.

The bride and groom were accompanied by a brother and sister of the bride, and following the ceremony returned at once to Winside where a reception awaited them after which they departed for their home in the west.

Agriculture Course in Ainsworth School

Ainsworth, Nebr., July 28.—At a meeting of the board of education Tuesday afternoon, it was decided to put in an agricultural department under the Shumway act. Word was received the other day from State Supt. Thomas that Ainsworth was eligible if she cared to take up the work. Arrangements will be made so that the work in that department will begin with the school year in September. Most of the farmers in this vicinity are greatly pleased at this action of the board. The boards action was preceded by a meeting of many of the business and professional men and farmers on Monday afternoon which, are commended this action.

Becker Denied New Trial

Justice John Ford of the supreme court of New York last night denied a new trial to Charles Becker, twice convicted and under death sentence for instigating the murder of Herman Rosenthal, a gambler. Under the sentence as it stands Becker will go to the electric chair tomorrow—Friday. The court claimed that the evidence submitted was insufficient and that it could find no warrant in law to grant another trial.

Social Notes

A party of young lady students from Terrace hall enjoyed a pleasant outing Saturday, accepting an invitation to a house party at the handsome Airstrope country home south of Wakefield, where they were entertained by Miss Olive Airstrope, assisted by Miss Mabel Kimball of Wakefield. The party was composed of Misses Melvina Hawk, Estella Crosser, Katherine Owens, Abbie Craven, Marie Addison, Daisy Russell, Bernice Russell, Alma Butterfield and Marjory Crosser. The hours were passed in sociability, games and music, and the hospitality of the Airstrope home was fully sustained in the refreshments served. The guests returned to their college rooms by automobile Sunday evening, feeling that school life had its bright spots.

The Junior Bible Circle had a farewell party for the college members at the home of Mrs. E. B. Young Tuesday from 5 until 8 o'clock. The program which had been planned was carried out and at the close of the meeting each guest was called upon to give a little farewell talk. A delicious buffet luncheon was served. About thirty-five were present.

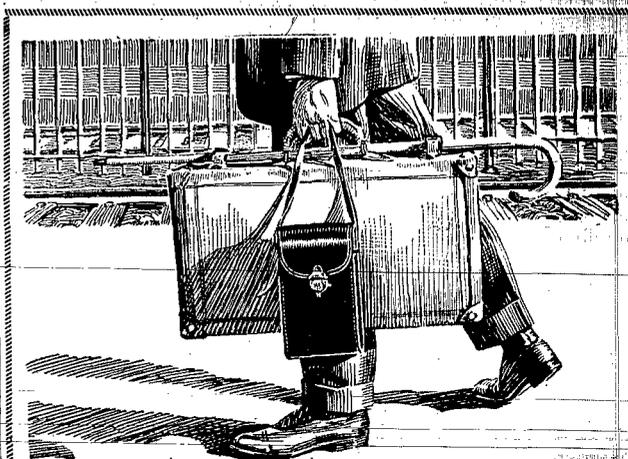

The Bible Study Circle had a most interesting meeting at the Gilbert home Tuesday afternoon. Mrs. D. W. Noakes led the lesson study. The next meeting will be at the home of Mrs. Libengood two miles northwest of town. Plans are made to go out in autos and all are invited.

A very pleasant social affair of last Friday afternoon was the 6:30 dinner at which Mrs. L. A. Fanske was hostess, complimentary to Mrs. Edith Berry of Chicago. Covers were laid for six guests, the table being prettily decorated with garden flowers. The evening was spent socially.

Mrs. Chas Shulteis entertained the ladies of the Early Hour club at her home Monday evening in honor of Mrs. Edith Berry of Chicago. Light refreshments were served. The evening was spent in playing cards.

Miss Mont Theobald left Tuesday morning to attend summer school at the Chicago University for a six-week term before returning to her school work at San Antonio, Texas. Mrs. Theobald accompanied her, and will spend two or three weeks sight-seeing and resting there, after which she will be joined by Mr. Theobald for their fall marketing.

Not many days ago some one said that the Wayne commercial club never appeared to amount to much, and if one look at it just now in a state of comparative repose the assertion might appear true. Perhaps it has made some mistakes and lost or missed some golden opportunities; but just scratch your head a moment and see if you can think of a few things which count that they have accomplished. We have a state school here with an annual enrollment of about 1,000 pupils and the commercial club was instrumental to a large degree in securing it. There is a city hall and the commercial club helped Mayor Kate secure that excellent building on a fine quarter-block site. We have a Carnegie library, and the commercial club was not idle while that improvement was being worked out. Then the new passenger station would not have been when and where it is without the united efforts of those organized as a commercial club. We have stock sales pavilion, and the commercial club was an organized body which helped to get that paying investment established here. There has been and is yet some road work which the commercial club and others than its members have helped along. There is now a hospital project under way, and while it is in a measure working independent of the commercial club, it has had and will have the support of the club and in time that needed institution will be a reality. The club has done many other things, and made some mistakes but look at the bright side. Organized effort is what has been instrumental in putting Wayne on the map. Let us keep the good work moving.

If It Were So

If it were so the producer received his just share of the products he produces. If it were so the laboring man received a just recompense for his labors, enabling him to buy more of the products of the producer. If it were so the manufacturer could sell direct to the retailer, eliminating the middlemen's profit and enabling the retailer to sell his goods for a reasonable profit over the cost of manufacture.

BAUGHAN'S BOOTERY

Wayne THE YELLOW FRONT Wayne

If it were so we could buy Cedar county meat without paying freight to Sioux City, the commission men's commission, packers' profits and freight back again. If it were so the producer supplied his home markets with the best he produces and shipped the surplus. If it were so we believe it would be better. But there is one thing absolutely necessary for the producer, consumer and retailer to learn before these conditions can exist and that is the necessities of patronizing home industries. For these conditions to become a reality the "buy it at home" spirit must prevail. By this we mean that a retailer should buy Nebraska-made goods from Nebraska manufacturers; that these factories should use in the manufacture of their goods products of Nebraska, buying outside of the state only what is absolutely necessary. Under these conditions the consumer will be using Nebraska-made goods. The stalwart Nebraskan today wears a hat from New York, underwear from Ohio, socks from Pennsylvania, a shirt from Minneapolis, shoes from Boston and a suit from Chicago. He eats his meals cereals from Michigan, potatoes from Minnesota, soups from New Jersey, canned pork and beans, baked beans, cucumber pickles, etc., (57 varieties) from Pittsburgh, canned vegetables from Iowa, apples from Washington and condensed milk from New York.

Cereals from Cedar county; corn and oats manufactured in Cedar county; tomatoes raised by our friend Thoen, canned in Hartington; corn raised by our friend Churchill, canned in Hartington, and beans raised by our friend Burbach, canned in Hartington, as well as Cedar county meats cured in Hartington and cream from a Cedar county cow would set well on our stomach and we believe we would feel very comfortable in a suit made from the wool from Nebraska sheep, manufactured in Omaha. To buy Nebraska products, would build Nebraska factories, which would employ Nebraska labor and keep Nebraska money at home. The Nebraska consumer should demand Nebraska-made goods as much as possible. If it were so we believe it would be better. Cedar County News.

The mail-order house first of all is an advertiser. Advertising is the life of its business. Every magazine that enters the small town and rural home carries the ad of the mail-order house. Expensive catalogs are printed showing the illustrations of the actual articles. Occasionally sheets are scattered broadcast over the country as a special "come-on" for the bargain hunter. Instead of doing these things in a smaller way through the columns of his local paper, the merchant who can't afford to advertise sits down and "cusses" his tough luck and wonders why he can't get the business. He never thinks he has a better opportunity to reach the people in his neighborhood than the mail-order house has. It doesn't cost him as much as it does the outsider; he can draw the people to his store and show them the actual article he is advertising, and, when they buy, they can take their purchase home with them instead of having to wait for several weeks for it. Advertising is an investment. It should be charged to your selling cost. Figure what percentage you have to pay to advertise, then base a fifty-two weeks campaign on the

A YEAR OF EUROPEAN WAR

This week closes the first year of the causeless horror of misgoverned Europe, and the total losses as reported are, certainly appalling. The killed total 2,392,300, a number equal to every man, woman and child in Nebraska and Kansas.

To this add the vast amount of treasure and wealth destroyed—a century of work will not replace it—some can never be replaced. Generations yet unborn will pay the penalty for the sins of the rulers of the land in which they may be born.

As to America, let us stand firm against every influence which would seek to unjustly draw us into any part of the great calamity. Let us not be tempted to enter a field so repulsive, so unjust, so horrible.

It sometimes happens that a man's mouth gets him into trouble. Last week John Wanamaker, counted a most level-headed business man, made a speech in which he advocated that this country buy trouble. His proposition was that the United States or the big business interests of this land of the free raise \$100,000,000 of money and purchase Belgium.

The Beemer Times is an all-at-home printed paper, and the only one in Cumming county—and we often wonder why the "newspaper" men of the land all—or nearly all—will continue to patronize their greatest competitor in the field of foreign advertising.

Many Lives Saved by "Safety First"

The safety first movement on the Chicago & Northwestern railroad has been the means of saving lives of many passengers and employees and of preventing the injury of many others, according to the reports of Chairman R. C. Richards of the central safety committee, just issued.

The figures show a gradual decrease in the number of deaths and injuries for each year beginning July 1, 1910, when the safety movement was organized. Following are the numbers killed and injured, respectively for the last five years:

July 1, 1910 to June 30, 1911, 90 and 7,135; July 1, 1911, to June 30, 1912, 70 and 5,907; July 1, 1912, to June 30, 1913, 69 and 6,412; July 1, 1913, to June 30, 1914, 63 and 5,912; July 1, 1914 to June 30, 1915, 36 and 5,203.

For the five-year period ending June 30, 1915, as compared with the same period ending June 30, 1910, there were 207 fewer employees killed, 12,576 fewer employees injured, three fewer passengers killed, 1,091 fewer passengers injured, 216 fewer outsiders killed and 252 fewer outsiders injured or total of 123.4 percent fewer fatalities or injuries on the system.

Ordinance No. 235

An ordinance creating and establishing within and for the City of Wayne, Nebraska, Sewer District No. 4 and defining and describing the territory embraced in said District.

Be it ordained by the Mayor and Council of the City of Wayne, Nebraska.

Section 1. That for the purpose of establishing a system of sewerage and drainage in certain territory within the City of Wayne, Nebraska, which is not included in Sewer Districts No. 1, 2, and 3 heretofore established by said City, Sewer District Number 4 is hereby established and shall be known as Sewer District No. 4 of the City of Wayne, Nebraska.

Section 2. That said Sewer District No. 4 hereby established shall be and the same is hereby composed of and embraces the following described territory in said City of Wayne, Nebraska, to-wit: All of Block 19, the south half of Block 18, the south half of Block 17, all of Block 24, all of Block 23, all of Block 22, of College Hill Addition, and all of Block 1, all of Block 2, All of Block 6, the north half of Block 7 of Britton & Bressler's Addition and all of Block 1 of Spahr's Addition and the unplatted tract of Mrs. S. J. Britton east of Main street and north of Ninth street all in the City of Wayne, Nebraska.

Said described district includes and embraces all streets, avenues and alleys situated and being within said District.

Section 3. This ordinance to take effect and be in force from and after its passage, approval and publication as required by law.

Passed and approved this 27th day of July, 1915. (Seal) GEO. A. LAMBERSON, Attest: Pres. of the Council. J. M. CHERRY, Clerk.

Order of Hearing on Petition for Appointment of Administrator In the County Court of Wayne County, Nebraska, State of Nebraska, County of Wayne—ss.

To all persons interested in the estate of Wallace E. Graves, deceased: On reading the petition of Ed. Sellers praying that the administration of said estate be granted to Rollie W. Ley as administrator. It is hereby ordered that you, and all persons interested in said matter, may, and do, appear at the County Court to be held in and for said county, on the 20th day of August, A. D., 1915, at 10 o'clock a. m., to show cause, if any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition and that the hearing thereof be given to all persons interested in said matter by publishing a copy of this Order in the Nebraska Democrat, a weekly newspaper printed in said county, for three successive weeks prior to said day of hearing.

Witness my hand, and seal of said court, this 26th day of July, A. D., 1915. JAMES BRITTON, (Seal) 30-3. County Judge.

WAR NEWS SUMMARIZED

British army and navy have lost from the beginning of the war to July 20, nearly one year, a total of 330,995 men in killed, wounded and missing. Of these 9,106 were in the navy and the others in the army.

Petrograd announces the destruction in the Black sea of forty sailing vessels laden with coal for Germany. The Italian army has lost a general officer on the Austrian frontier. General Antonio Cantore was killed in battle while at the head of his men.

Some uneasiness is being caused in diplomatic circles of the entente allies by the report, not yet officially confirmed, that Turkey has ceded to Bulgaria the Turkish portion of the Deceagatch railroad. Sofia reports this cession will have no effect on Bulgarian neutrality, but the belief is expressed that Turkey would not be likely to give up such valuable territory without the promise of substantial aid from Bulgaria.

The English newspapers comment with warm approval on the American note to Germany, but two of the leading organs express some concern over the paragraph which, under conditions, promises co-operation with Germany in securing freedom of the seas.

Great Britain's reply to the American note of March 30, protesting against enforcement of the orders-in-council which restrict neutral commerce, was received in Washington. It holds that the orders are within international law, although they may involve a new application of principles, and argues that it is proper to await a judicial interpretation.

An American steamer, the Leelanaw, loaded with flax, a product officially declared by Germany to be contraband of war, was sunk off Scotland by a German submarine. All the members of its crew, which numbered forty men, have been landed safely at Kirkwall in their own boats.

Germany's armies in the east continue to make progress in the task allotted them of investing Warsaw. North of the Polish capital the Teutonic troops, according to official Berlin reports, have crossed the Narew river and are advancing toward the Bug river and the railroad running out of the city eastward. In this sector the Germans are twenty-five miles from the capital.

South of Warsaw the Germans are directing their efforts against the Russian lines of defense near Plaszczno, a town twelve miles from the capital, and they have already taken two positions by storm.

In south Poland the Germans are meeting with determined resistance from the Russian troops holding the Lublin-Cheim railroad, which is of great strategic value in connection with the military operations farther to the northwest.

French troops stormed several powerful German defensive works between La Fontelle heights and the village of Launois, in the Vosges, according to an official communication issued by the French war department. The southern part of Launois was occupied by the French and 700 unwounded Germans were taken prisoners.

German submarines resumed their activity in English waters, sinking a French and a British steamer, and four British trawlers. One of the submarines is reported to have been destroyed by bombs and gunfire. Four of the crew of the British steamer were killed by the explosion of the torpedo in the hull of their vessel.

A French torpedo boat destroyer, evidently operating with the Italian fleet, is reported from Toulon to have destroyed the Austrian submarine and aeroplane depot on Lagosta Island, in the Adriatic sea.

The Austrian town of Riva, on Lake Garda, has been the object of attack from the air by Italian aviators. An observer at the Dardanelles describes a successful effort on the part of a British aeroplane to prevent a submarine from discharging a torpedo at a British troop ship. The aviator dropped shells so close to the submarine that it was compelled to seek safety under the sea.

Further breaches in the defense of Warsaw are claimed in the latest official statement from German army headquarters. Teutonic troops are closing in on the Polish capital both from the north and south.

Apparently the Russian lines are still holding south of Lublin, where the Austro-Germans are struggling for possession of the railroad.

Only minor operations are reported along the fronts in the west from the sea to the Vosges.

Struggle of the Italians for Gorizia is proceeding. Claims of advances made in Rome are denied in Vienna. It is reported in Rome that Turkish forces have been landed in Tripoli.

There have been few recent operations of importance along the fronts in France and Belgium.

There is an optimistic tone in the latest official statements issued from Vienna and Berlin regarding the vast series of operations now in full swing in the eastern theater of the war, particularly in Russian-Poland. There is little in the official statement issued from general headquarters at Petrograd to contradict the claims set up by the Austro-Germans, but there are indications in all of the communications that fighting of a most desperate nature is in progress and that the Russians, though falling back, are resisting with determination.

LIVE STOCK PRICES AT SOUTH OMAHA. Best Cattle Steady and Others Still Lower. HOG PRICES 10C LOWER. Lamb Trade is a Little Slow, but 10@15c Higher—Similar Gain in Sheep Quotations—Feeder Lambs Sell Higher. Union Stock Yards, South Omaha, July 28.—A moderate run of cattle showed up yesterday, about 3,200 head. Conditions surrounding the fat cattle market were very much the same as on Monday, and while the good to choice beefs sold about steady at Monday's decline, there was

a further drop in prices on the general run of grassy and short fed steers. Prices were around 20@25c lower than the close of last week. Cows and heifers were slow sale and unevenly lower. Veal calves were in good demand and fully steady. There was little activity in stock cattle and feeding steers and both yard traders and country buyers were insisting on lower prices. Cattle quotations: Good to choice beefs, \$9.25@9.75; fair to good beefs, \$8.65@9.15; common to fair beefs, \$7.65@8.50; good to choice yearlings, \$9.00@9.75; fair to good yearlings, \$8.25@8.85; prime corn-fed heifers, \$7.50@8.50; good to choice fed heifers, \$7.00@7.50; good to choice grass cows, \$6.50@7.25; good to choice grass cows, \$6.25@6.75; fair to good cows, \$5.50@6.00; canners and cutters, \$3.75@5.25; veal calves, \$3.00@3.75; bulls, stags, etc., \$5.50@7.25; prime feeding steers, \$3.00@3.50; good to choice feeders, \$7.50@8.00; fair to good feeders, \$6.50@7.50; common to fair stockers, \$5.50@6.50; stock heifers, \$5.75@6.50; stock cows, \$5.50@6.00; stock calves, \$6.00@7.50. Some 10,700 hogs arrived yesterday.

Shipper buyers were fairly active, but they insisted on and soon got a reduction in prices that amounted to fully 10c. Their sales ranged from \$6.50 to \$7.40. Packers were slow and prices were also generally 10c lower. Bulk of their purchases was made at \$6.40 @6.50. Sheep and lamb receipts totaled 7,800 head. The lamb trade was a little slow, but prices were 10@15c higher. Bulk of the sales were made at \$2.15 @2.25, the latter price being the top for the day. Old sheep made up a fair share of the receipts, but continued to be in very good demand, and as a general thing scored a 10@15c advance. Several loads of ewes sold up to \$6.15, while yearlings touched \$6.50. There were no wethers of consequence here. Feeder lambs were almost a minus quantity yesterday, but the few sales made showed a 25@35c advance over last week's close. Quotations on sheep and lambs: Lambs, good to choice, \$8.00@8.25; lambs, fair to good, \$7.75@8.00; lambs, feeders, \$7.00@7.85; yearlings, fair to choice, \$5.75@6.50; wethers, fair to choice, \$5.25@6.25; ewes, good to choice, \$5.25@6.15; ewes, fair to good, \$4.75@5.25.

The county commissioners have been out measuring up some of the new bridges thus far completed this season. Col. Roosevelt has picked Governor Johnson of California as the man of his choice for the presidency in 1916, but does not say whether or not he is to run as a progressive or republican. This week the opportunity to purchase footwear at a money saving price is offered by Mr. Baughan opposite the postoffice. It is a real slaughter sale. It always pays the subscriber to read the advertisements—in that way he can invariably save many times the cost of the paper each year, turning what some might term an expense into an investment for profit—and if you cannot find something in your paper that is profitable to you there is something wrong either with you or the paper.

According to the latest war news the Russians are checking the German efforts to get in the rear of Warsaw and cut off Russian retreat and the forces of the Czar are even said to be acting on the offensive in places. The Italians, from whom little has been heard of late, report some important advances. From the English and French there appears to be little or no news, and their friends here who think they could handle an army better, insist that they fail to see why they do not keep the Germans forces busy on the west front while they have so many men looking after the fences in Poland.

Wednesday about a car load of poultry was delivered at the car in this place, some buyers having been over this part of the county a few days before and contracted for the bunch. They paid 9 cents the pound the same as the local buyers were paying. We are wondering whether or not the poultry men had rather sell to strangers, or whether they never thought to ask the local dealer about prices. The gathering in of a car load of chickens in one day, however serves to show that there are in this goodly land a lot of wealth tied up in the poultry business, and that the hen and her fruit can be cashed in at most any time.

The special local talent program at the Normal Tuesday night was very creditable to all the performers. It was a pleasure to hear again the voice of Herbert Welch, who has always been a favorite with a Wayne audience and who sang better than ever after his year in the east. The two quartets acquitted themselves, as always, with much eclat. Mr. Rogers played on the cornet to the delight of all. Mrs. House rendered a piano solo with her usual control, skill, and delicate appreciation. Miss Graves and Professor Coleman won all hearts in their duet, and Mrs. Keckley moved everybody with her sympathetic interpretation of the child's feeling toward Grandfather. Encores and double encores were the order of the evening.

The Child's Teeth

The baby's teeth should be carefully cleaned, daily, by the mother, and as they grow older examined for decay.

Children as young as three, are often in need of dental attention, and if taken to the dentist early, filling may be accomplished with little or no pain.

There appears to be chautauqua trouble all along the line, and Editor Goldie of the Cherokee Democrat has sized up the average chautauqua about right, in the following: It doesn't require very much discussion to determine why chautauquas do not pay out. The reason is simply this, that the people can't be induced to pay for something they don't want. The chautauqua business has come to be a gigantic graft. Mediocre attractions are foisted upon the people and we are asked to pay big salaries to lecturers who couldn't earn more than \$1.50 per day at any sort of work they are fitted for. And as for musicians, one can find playing and singing in the country Sunday schools as good talent as much of that which appears on the chautauqua platform. When sports and entertainments become commercialized most of the charm is gone.

A. O. Row came the first of the week to join his wife here in her visit at the home of her sister, Mrs. I. C. Trumbauer. Mr. Row had a little device in his pocket—a simple thing, on which he has a patent pending, that is intended to prevent automobile stealing. The model he had was made for a Ford, but the principle may be applied to any car. With it the gas and electric spark are both locked. This will not conflict with some city ordinances where they prohibit the locking of automobile wheels, for the car may be moved by hand should it be in the way as sometimes happens when a car is left on the street. The device can be made for a small sum, and would be profitable to both purchaser and seller at a dollar. One could then lock the car, put the key in his pocket and feel pretty sure that it would not be used without his knowledge. If Mr. Ford will use it at a 15c royalty it would be worth \$15,000 annually on his present output.

John H. Kate and wife and daughter, Miss Francis, from Des Moines, came Tuesday to visit their many friends here, and they are guests at the home of J. E. Hufford and wife. They had been visiting at Holdrege and Lincoln, and started from the latter place by automobile, but it was so wet by the time they reached Fremont that they left the car there and came on by train. Mr. Kate has been looking the place over, and is much gratified to see a number of public enterprises that were started when they were citizens of Wayne brought to a successful completion and of benefit to the people. He noted the well-kept lawns and parkings and streets. They like their Des Moines home and have purchased a residence there, so that they really feel at home there now. Business has been good with them, but he thinks Wayne looks like a pretty good place in which to live. Many were the friends who were glad to greet him during his short stay here.

"Sunlite" is the natural light, and many have been the unsuccessful attempts to imitate it with artificial light, but the road has been long from the tallow dip to the almost perfect substitute for sunshine. Most artificial light has a red look when matched against sunlight—and in some cases where a white light is produced it is too bright and dazzling, and is injurious to the eyes. Some lights produce a gas which is injurious to the health if one remain long in a close room with it. But a few days ago W. E. Beaman hung a new electric lamp above the editorial desk which is called "Sunlite", which comes as near a reproduction of the light of the glorious orb of day as any we have ever found. He has secured the exclusive agency for this lamp in this place and can show you at his store just what the light is. Put to any test they show superior to the best of other lights. There is economy in their purchase because their natural life is three times as long as the Tungston—and they are not so susceptible to injury from a jolt. A 40 is better than a 60 in light directed to the place that it is needed, and that can be proven to any one. The evenings are beginning to lengthen, and Mr. Beaman asks a chance to show you this light any time after you have read this little advertisement.

The world do move, and by a freight train service the Randolph people will hereafter receive their Sunday papers at about 8 o'clock Sunday evenings, but the postal department will not handle them until Monday morning, but that will give them the funny paper two hours earlier than in the past.

There is to be a meeting of the landowners who favor the single tax on land values at San Francisco August 23rd. It may seem strange that the people who own land should advocate single land tax, but those who have made a careful study of the question claim that it is one of the best taxes for the land owner who farms what he owns that ever happened.

The Borden reforms of Germany are wanting Germany to show to the soldiers now in the front that they are indeed fighting for "their" country by pledging and then giving to each married soldier a home-stead, and if he fail to come home alive assure the land to his family. A most just plea. Will the landed aristocracy of Germany permit it to be done, is a question which will test their loyalty to the land they have their common people fighting to preserve to them.

At Sholes last week Rev. Franzen celebrated Mission Feast Sunday night in the hall. He was accompanied by Mrs. Franzen and Marie, Rev. Jansson of Napier, Nebraska, who gave the discourse, and Rev. In New York City there are 454,095 parcels of land that are idle and it has a taxable valuation of \$818,000,000 or a tax of more than \$31,000,000. Neligh is getting on the newspaper map of the state just now. The Register has just installed a new Linotype, and the Leader is doing likewise or has done so. Then to make things interesting E. S. Scofield, who formerly owned and edited the Register is assembling a complete new equipment and installing an Intertype preparatory to starting a semi-weekly paper a month from now. Neligh has a population of less than 2,000 and the population of the county does not exceed 15,000, and as there are six papers in the county other than those at Neligh the people of the county should be amply supplied, and some of those in the newspaper game stand to not grow rich from their business. Now that the Register has a type casting machine they should be able to cut out the two pages of patent they have been carrying and thus cease giving free circulation to a lot of advertising which the patent monopoly draws for pay—in other words quit competing with itself.

The big outing of the allied associations of Nebraska business men is assuming definite proportions for the opening at Omaha on August 2 to last a week. Not every good thing can be had by all places, even at as good a town as Wayne. At Hartington they have a building and loan association which is helping to build up improvements in the town and country and paying a fine dividend to home people every year. The Herald of that place has a story of their success of 21 years. They have \$73,300 of loans in force, and the people who have borrowed this money are making payments monthly of about what many of them would otherwise pay for rent, and are thus increasing their equity in their homes. And this is not only a fine thing for those who are able to borrow in this manner, for those who furnish the money are drawing a better return than those who simply bank their spare money, or spend it as many a young wage earner is doing each month. At least two men who are in business at Wayne have told the editor that they got their first start by subscribing to building and loan stock. Of the profits the Herald says:

The success of the building and loan association in Hartington illustrates the cumulative power of money in constant use; for instance, during the past year, the association's loans drew 10 per cent, and yet by keeping the monthly income paid of dues and interest constantly employed, it was able to declare a dividend of 10 1/2 per cent, after having paid all the expenses of the management, setting aside \$200 for the reserve fund and leaving \$150 in the undivided profit account.

Wm. Orr went to Omaha the first of the week on a buying trip for the Orr & Morris Co. store.

Sleeping at the Post

That's what the people of Nebraska are doing, and while they sleep smart men with abundant money are gradually securing a strangle hold upon the valuable rights to power privileges on the rivers of Nebraska. In the view of The Telegram no private corporation can secure a good title to the right to exclusive use of the waters of any river for power purposes. Those rights belong to the people, and they cannot be alienated except by a vote of the people. But it will be vastly expensive to the people of Nebraska to permit private wealth to gain a color of title to the river rights. With such color of title the private interests will get into court. What will that mean? Look at the record in the Capital National bank case! That case was instituted at a time when some men who are now grandfathers were yet unmarried, and it is still in the courts.

But while the majority of the people of Nebraska have been sleeping in the presence of the interests which are trying to steal the water rights on the rivers, it is gratifying to observe the signs of an awakening which will mean something. On every hand there is evidence that the farmers are beginning to desire that their own homes be lighted by electricity, and that they desire electric current for the operation of all stationary machinery on the farm. In their union meetings they have been studying the situation. The bright minds in the Farmers' Unions have found that under state ownership of water-power plants every farm house in Nebraska could be lighted by electricity, every cook-stove operated by electricity and every stationary machine on every farm driven by electric current at less cost than the farmers now pay for coal oil lamps, cooking fuel and gasoline. How do the farmers know that this could be done? Why, their representatives have investigated many power plants operated under public ownership and they know what can be done. It is not a guess. It is a fact.

But how can a start be made in Nebraska in the direction of state ownership of water-power plants? Legislative action will be necessary. How can we make the start? Well, under our new initiative and referendum plan the people of Nebraska now have the right to do some legislating on their own account, and to put it on the books, no matter if the big corporations do control the state senate. It is high time that action be taken by the state to preserve the valuable river-rights which private capital is trying to grab.

The action will be taken all right, even though it may be delayed. The farmers of Nebraska will take the lead in this matter, just as they have done in all great crises in the affairs of the state.

In the old days Nebraska had an election ballot which enabled the big interests to handle their voters like a flock of sheep. The farmers began discussing election abuses, and eventually it was the agitation of farmers which secured for us our present excellent ballot system.

In the old days the railroads of Nebraska were robbing the farmers by the aid of robber freight rates on grain and live stock. At their school house meetings the farmers discussed railroad rates, formulated a maximum freight-rate law, and eventually forced the legislative to adopt it.

In the old days the people of Nebraska never felt sure on Saturday night that the money they had deposited in the banks would still be there Monday morning. At their school house meetings the farmers began discussing the sad conditions, and in due time the discussion brought to the statute books our present law to guarantee bank deposits.

The farmers of Nebraska, in the meetings of the Farmers' Unions, are now earnestly discussing ways and means to enable the people to preserve the valuable river-rights from the grasping hand of corporate capital, and discussing plans to have the state build water-power plants, so that farmers may enjoy the great boon of cheap electricity. It is a big problem, but the farmers will solve it, just as they have solved all of the big government problems in Nebraska.

Not in the distant future, but very soon, the State of Nebraska will build and operate water-power plants on the Loup, the Platte, the Elkhorn, the Blue and the Republican rivers, and in that day every farm home in Nebraska will be able to buy electric current at a price so low that every home will

The politicians, stealthily speaking the instructions they receive from their corporation masters, are saying that it cannot be done. That's what they said about the proposed ballot reforms. That's what they said about the proposed bank guarantee law. But while the corporation politicians were prophesying the farmers were agitating and in due time the needed reforms were accomplished, just as state-owned and state-operated water-power plants will be accomplished.—Clumbus Telegram.

Is Reed a Socialist?

Attorney General Willis E. Reed was the orator of the day at the Fourth of July celebration of the Sons of Veterans at Electric park, Sunday. Speaking of the increase in number of persons having great wealth, Mr. Reed said:

"No human form of government is perfect, but in one such as ours it is the duty of each generation to consider the injustice and restore it to a sound condition. We should seek to establish a type of civilization where want is unknown, where the cry of hunger is not heard and where oppression is a stranger. The laws should be so framed that no individual, company or corporation could rob another of the wealth which it has created."

That sounds exactly, precisely, teetotally like speeches we have heard on sundry and divers occasions from ardent, seasoned, studious, devout, earnest, scientific socialists. The immortal Mr. Debs could not do better. It is what we have been fighting for for years; we've been on the firing line all the time, an army of we "crazy" socialists and the alleged wise heads have been pounding us and hooting at us, but they seem to be coming around to the doctrines we preach, slowly and unconsciously, but coming all the same.

If Attorney General Reed meant what he said in his Fourth of July oration, and fully understands the meaning of what he said, he has no business in the democratic party. The democratic party makes no promise to right the wrongs the attorney general complains of. The democratic party is clearly and purely a capitalist party and stands for and fosters capitalism in all its hideousness and evil phases.

If Mr. Reed is sincere in his Fourth of July utterances, and knows what he is talking about, his place is in the socialist ranks, fighting against oppression and to establish that "type of civilization" he talks about. All really good people are socialists; trouble, is so many of them do not know it. Where is our attorney general?—Lincoln Herald.

"Equal rights to all—special privileges to none" is good democratic doctrine, and if we mistake not was incorporated in the national platform. If there is anything in what Mr. Reed said that is contrary to that we fail to understand it. One cannot be read out of the democratic party because some other party is using the creed of pure democracy under another name. We don't care what you call it, so it is right—and if Reed is correctly quoted we think none the less of him for the sentiment.

Mr. and Mrs. F. S. Berry and son Moke went to Minneapolis, starting Tuesday afternoon. Mr. Berry was called there on legal business and the family went for an outing of a few days. Mrs. Edith Berry, who has been visiting here for two weeks past accompanied them as far as Sioux City on her return trip to Chicago.

Wm. Jacobson and his mother left Tuesday afternoon to visit at Omaha, where they formerly lived.

Comment From Exchanges

Neligh Register:
Here's hoping that the movement now on foot to do away with the practice of penning up juries until a verdict is rendered. This practice is a relic of ages gone by and is as unnecessary as it is barbarous. To expect twelve men to arrive at a decision any more quickly and equitably when shut up in a close room with not even the conveniences enjoyed in the most unassuming home is to expect something the wisest men of the day know is impossible.

Pender Republic:
If the business men of a community haven't enough faith in each other to patronize home institutions, you can't expect the farmers to have faith in business men. When you send money out of the community you are accomplishing about as much for your home as the fellow is lifting who is pulling up on his bootstraps. Watch jealously that money remains as near home as possible.

Creighton Liberal:
R. G. Thurston of Brunswick, has started a vegetable cannery in a small way, and the results will bear watching. He has been unfortunate this year in the fact that his early planting of vegetables was entirely destroyed by hail, and his later planting of tomatoes was ruined by wind. In spite of this however, he expects to put up about 1,000 cans of vegetables of his own raising. It is clearly apparent that vegetable canning is one of the most promising industries of this section and this experiment is particularly interesting as affording a demonstration whether it will pay on a small scale. The increasing dependence of the world on canned goods affords practically unlimited market for such things, especially if the quality is good; and there is no place in the world that can raise better vegetables than Antelope county.

Sunday press dispatches report the filing of a complaint before the Federal Reserve Banking association by Labor's Peace Council in which it is charged that through the influences of J. P. Morgan and other confederates, who are members of the federal reserve association, that the money which has been collected from the member banks is being used to float a loan for Great Britain and her allies. This raises a serious question and the usual reply that the complaint is a blackmailing scheme or one to promote some ones publicity campaign will not satisfy the people in their present temper about preserving the neutrality of the nation.

Ever Feel This Way?

David Grayson, writing his story "Hempfield" in the August American Magazine, describes as follows some of the sensations of a man in love:

"Why, he could do anything for her; he could slave and dig and die! He could be great for her—and let no one else know how great he was! He could win a battle, he could command men, he could write the greatest book in the world, and no one should know it but Anthy! Oh, youth, youth!"

Among the Churches of Wayne
German Lutheran Church
Rev. Moehring, Pastor
There will be no Sunday school or preaching service at this church Sunday, as it is the pastor's day at Winside, where he will preach at the usual hour.

St. Paul's Lutheran Church
(Rev. Blessing, Pastor.)
Sunday school every Sunday morning at 10 o'clock.
Morning worship at 11 o'clock.
We are glad to see so many present last Sunday morning. Come again. The subject of next Sunday morning's sermon will be "Submission to God"—James 4:7-10. History reveals to us the great truth that "God resisteth the proud, but giveth grace to the humble". Nebuchadnezzar King of Babylon, grew haughty and proud, but God pulled him from his haughty position. He was driven from among men and did eat grass as oxen, and his body was wet with the dew of heaven, till his hairs were grown like eagles feathers and his nails like birds claws! God humbled him. But on the other hand, Daniel in the face of opposition, did not fail to humble himself before God and for his faithfulness God blessed him.

Union meeting will be held in the evening at seven o'clock.
Luther League will be held after the union meeting. All are invited to Luther League.

The Ladies Aid met at the home of Mrs. Christ Flohr last Thursday. The attendance was very good and the meeting enjoyed by all. The next meeting will be held at the home of Mrs. Gustafson on August 5th.

The August meeting of the Woman's Home and Foreign Missionary society will be held August 11th at the home of Mrs. N. J. Juhlin. A cordial invitation is extended to all who wish to worship with us.

Baptist Church
(Rev. B. P. Richardson, Pastor)
Sunday will be our communion service.
Tomorrow (Friday) the missionary circle and the prayer circle combined, will meet at the home of Mrs. Christensen.

This evening the young people will give their play at the opera house. They have worked hard in their preparation and have something worth hearing. Let us all give them our heartiest support.

The young people's class had a splendid time last Friday afternoon and evening at Bressler's grove. This outing was the result of a contest during the weeks of the summer school.

The program for the associational meeting is out. Besides the general workers and delegates from northeastern Nebraska, Rev. W. I. Fowle of Grand Island will be at this meeting. He will preach twice for us on Sunday. The dates of the association are August 13-15.

Union services Sunday evening on the lawn if weather is favorable, otherwise at one of the churches. Announcements will be made Sunday morning as to place.

We were all glad to have Mrs. Conover come back to us last week. She has a large place in the hearts of the church people. We were also pleased to have Mrs. Sears, return for a visit. It seems like she belongs here, rather than anywhere else.

Prayer meeting Wednesday evening.
The young people will meet Sunday after the union service. Miss Myrtle Evans will be the leader of this meeting.

Presbyterian Church
(Rev. S. Xenophon Cross, Pastor)
The regular church service will be continued through the summer. The pastor will preach next Sunday on the theme, "The Burden Bearing One". Vacation visitors are especially welcome at the summer services of the church.

We missed you from the S. S. class last Sunday if you were absent. Come the next time and bring your children or your parents with you, please. Prof. J. H. Kemp is the superintendent and the session begins at 10:30 sharp.

Miss Mable Dayton will have charge of the Junior work at 3 o'clock. This is one of the most desirable features of the work for the children. Parents and others interested are always welcome to visit at any meeting.

Mr. Ralph Ingham will lead the Consecration meeting Sunday evening. This C. E. meeting is appointed for 6 o'clock and will last just one hour. Come and spend an hour with the young folks and then go to the evening service.

We are glad to note the splendid "union" spirit in the meetings. We mean the Union Vesper meetings at 7 o'clock each Sunday evening. Come! It shows a good community spirit when we can get together for our worship.
Our mid-week prayer meeting

convenes Wednesday evening at 7, prompt. This meeting lasts exactly one hour: you surely can afford that much time. You cannot afford to miss your prayer meeting if you seek the best church life. Amongst the pitfalls by the way "The best of us walk blindly." So, mind, be wary, watch and pray. And judge your brother kindly.

Methodist Church
(Rev. A. S. Buell Pastor).
At a meeting called for that purpose at the close of the services Sunday morning Brother L. M. Owen was elected delegate, and Brother C. A. Grothe alternate, to the Methodist Layman's conference which meets in Omaha, Friday, September 24th. This conference votes on constitutional questions and elects delegates to the general conference which meets in Baltimore next May.

With the close of the summer term of school we doubtless will miss the student constituency from our regular congregation. We have greatly appreciated the inspiration of the presence of the young people during the school year.

We hope to make next Sunday's service a source of mutual blessing to the congregation and to causes represented by the benevolent enterprises of the church. The theme for the morning message will be "World Building Through Missionary Enterprise".

We were pleased with the appreciative attendance at the services last Sunday both at the morning service, despite the threatening weather, and at the Union evening service.

The pastor and his family are planning on taking a short vacation extending over two Sundays. The plan is to auto to Lincoln and attend the Epworth Assembly, then spend a few days with friends and relatives in the southern part of the state. Rev. Buell is one of the directors of the Assembly and has been a regular attendant at the annual gatherings for sixteen years. He has seen that institution which is under the management of the Epworth Leagues of the state, grow from small beginnings until it has the distinction of being the largest gathering of its kind anywhere.

The Assembly unites the chautauqua features with the old time camp meeting. Bishop Homer C. Stuntz, D. D., LL. D., Buenos Ayres, Argentina, preaches every morning and conducts the evangelistic services. There are also expert conferences held each day in Sunday school work, young people's work, and also special lectures on citizenship, temperance and missions; besides a full lecture and entertainment course occupying two large auditoriums every afternoon and evening. About 500 tents are already registered and an encampment of over three thousand with a daily attendance reaching nearly ten thousand is expected. The Assembly dates are August 5 to 12.

The Woman's Foreign Missionary society are spending the day between trains, Friday, as guests of the Winside Auxiliary.

Standardizing Schools
There is a move on foot for the betterment of rural schools, and it is called standardizing the schools. It is a good move, and here are the requirements:
The minimum requirements for a standard school are as follows:

1. Term must be at least eight months.
2. Teacher must hold a second grade certificate or better, with at least 24 weeks of normal training, or at least two years' successful experience.
3. Salary of the teacher must be at least fifty-five dollars per month.
4. School grounds, buildings and out buildings must be adequate and clean.
5. School room must be lighted from the left or the left and rear of the pupils, with window area at least 20 per cent of floor space.
6. School room must have a heating and ventilating system of some approved type—at least 200 cubic feet of air for each pupil.
7. Seats must be individual, adapted to the size of the children and properly adjusted.
8. Outbuilding must be separate, at least fifty feet apart, clean and sanitary.
9. School must have plenty of text books, supplementary readers and desk dictionaries.
10. Reference library including a dictionary.
11. School must be well organized and teaching efficient.
12. School must have globe, maps and plenty of blackboard.

Who Will Pay?
Ominous rumblings and mutterings from the largest and richest city in America warn us that another break may occur between labor and capital in New York City at any moment. The protocol, so ingeniously devised, and so carefully worked out by Louis Brandies, has kept them at peace for several years. But that plan has now gone by the board; and the relations between the garment workers and the employers are strained to the breaking point. Kindly disposed but muddled gentlemen are proposing the creation of industrial courts to determine just how little a family or an individual can live upon. The employers claim that the outside shops employing the starving immigrants from abroad, can underbid those paying decent wages; and so it is a question of increasing the burden on their own labor to a corresponding degree, or going out of business. Meantime, land values on Manhattan Island and neighboring territory are soaring skyward.

Is it possible that there is no sense of humor in these good people? Are they utterly devoid of the faculty of reason—to say nothing of a sense of justice? Can they not put two and two together? How can Capital pay decent wages to Labor, when it is itself bled to the last drop by the owners of Manhattan? Arbitration and the protocol are better than strikes; but there can be little satisfaction in trying to obtain a fair division between Labor and Capital of a product that has already passed into the hands of the landlord. If Capital and Labor could unite in resisting their common despoiler, instead of wasting their strength in mutual strife both would soon find relief.—S. C. in The Public.

Lincoln Letter
H. C. Berge, formerly assistant clerk in the department of banking, has been selected as deputy state treasurer, vice W. H. Murray, resigned.

State Treasurer Geo. E. Hall is rejoicing over the completion of new steel cabinets in the treasury vault, which gives him an up-to-date filing system.

State Auditor Wm. H. Smith is preparing books and blanks for use by every department in the state to make monthly reports of expenditures, classified in such manner that the governor may make up his budget in 1916 as required in House Roll No. 651 of the last session. Typewritten abstracts of these reports at the close of each fiscal year are to be made by the auditor and furnished to the public press.

The report of Deputy Food Commissioner Clarence E. Harmon for the month of June shows a total collection of \$10,309.52 in fees, about nine-tenths of which came from the inspection of 243 cars of oil and 295 cars of gasoline. Inspections were made of 2,128 groceries, meat markets, slaughter houses, bakeries, and other business places covered by the food laws. During the month 219 sanitary orders were issued, 21 complaints made, 11 prosecutions begun, 296 chemical analysis and 3 seed analyses made.

Educational trust funds now approach the ten million mark. On June 30 there were invested in bonds the following:

Permanent school fund.....	\$8,838,062.97
Permanent university	225,953.00
Agricultural college endowment.....	559,200.00
Normal endowment.....	81,250.00
Total.....	\$9,704,465.97

In these four funds there was on June 30th less than twenty thousand dollars uninvested. The interest on the first item above goes into the temporary school fund, and is apportioned to the several counties twice a year. Interest on next two items is placed in the University (endowment) income fund; and on the last, the normal interest fund gets credit.

State Farm Receipts. By direction of Auditor Wm. H. Smith, the books and accounts of the University Farm have been audited for the six month period ended May 31, 1915. Eleven departments produced cash receipts in excess of fifty-five thousand dollars during the period. They are as follows:

Hog cholera serum production.....	\$26,606.81
Dairy husbandry.....	12,444.69
Dormitory and cafeteria.....	8,132.92
Animal husbandry.....	4,103.67
"Farm".....	1,721.00
Text books.....	1,448.00
Instructional agronomy.....	527.39
Horticulture.....	159.60
Experimental agronomy.....	33.45
Animal pathology.....	10.00
Agricultural engineering.....	7.80
Miscellaneous.....	228.01
Total.....	\$55,423.34

\$1,635,000 Hidden
In This Year's Goodyear Tires

Here are amazing facts:
Goodyear Fortified Tires contain five costly features found in no other tire. They have other features not common.

Users Save \$5,000,000
Yet our 1915 price reduction—made February 1st—will save Goodyear users about \$5,000,000 this year. And that was our third reduction in two years, totaling 45 per cent.

If we omitted those features, this year's probable output would cost us \$1,635,000 less. We could add that much to our profits. And you would never know it until troubles came.

These extra features—used by us alone—will save users millions more.

This year's improvements alone will cost us \$500,000 yearly. Most of this goes into extra rubber—all into extra wear. And we shall spend on research \$100,000 this year to find other betterments still.

That's why Goodyears dominate. They have long outsold any other. They are gaining new users faster than we can supply them. We hope, for your own sake, that they'll soon win you. Any dealer will supply you. (2418)

Winside Notes

(From the Tribune)

Miss Nelle Palmer returned to Emerson Monday afternoon after visiting in the A. T. Chapin home.

Mrs. C. Pockrant and Mrs. Hentig returned to Laurel Monday after visiting in the H. Fleer home. They were accompanied by Goldie Fleer.

John Davis, rural carrier on route 3, had the misfortune to lose one of his valuable Hamiltonian horses last Tuesday. Death was due to acute indigestion and it is thought that feeding wet alfalfa was the cause.

Wednesday morning at 8 o'clock occurred the marriage of Miss Edith Eberhardt to La Vere Carter, at the home of the bride's sister, Mrs. A. T. Troupe in Sioux City. Mr. and Mrs. A. H. Carter went to Sioux City Tuesday afternoon to attend the wedding.

Mrs. I. O. Brown entertained ten of Winside's young ladies at a Kensington party Wednesday afternoon and evening in honor of the Misses Elva and Lois Templeton of Westington, S. D. The time was spent with various games and music after which they enjoyed the movies at the Jewel Theatre. Those present were Misses Esther Tillson, Abbie Lound, Gertrude Motson, Ina Reed, Caroline Dysert, Stella Kieffer, Bess Rew, Paula Mittelstadt, Elva and Lois Templeton.

Tuesday, the railroad officials' special pulled into town, bringing about fifteen of the bosses, in reply to our city dad's request that they come and see what could be done with the oceans of water that has been doing a vast amount of damage to town property and also to the railroad property, after each heavy rain. They met at the depot by our town councilmen and a good sized aggregation of our citizens. After looking over the flood area the railroad officials informed us that they would send their chief engineer here to survey the big ditch, and also to ascertain on the coast to both city and railroad company. They were a jolly, good bunch of fellows and left a feeling of good cheer with our citizens. L. S. Needham & Bros., whose elevators pits have been flooded four times in the past three weeks, offered a free right-of-way across their pastures to Logan creek for the proposed ditch. There is no doubt in our minds but that the work will be progressing in a very short time. An enormous tunnel will be laid under the street and across the railroad yards from Dr. B. M. McIntyre's to the Thos. Prince elevator, where it will find a channel leading to Logan creek.

Carroll Items

(From the Index)

Miss Anna Griffith left yesterday for Emerson, Iowa on a month's visit to relatives. Her brother, Harry accompanied her as far as Omaha.

Harry Jensen met with a painful accident Monday morning. He was working under an automobile engine when in some manner it became unfastened and fell striking Harry on the back of the left hand where it cut, or rather crushed an ugly wound. He will be laid up for some time.

Cora May Zimmer, of Carroll will receive her degree of bachelor of arts at the commencement of Highland Park college, Des Moines. Senator Albert B. Cummins will deliver the oration. Miss Zimmer also studied newspaper work during her senior year in college.

Mr. and Mrs. Mathias Jones and daughter, Miss Edna returned Thursday from an automobile trip to Leith, N. D. where they visited with Lemuel and David Jones and family. They encountered lots of mud both going and coming getting stuck in the mud six miles from Carroll and having to finish the trip by team.

Cy Sitton left Saturday morning for Milford, Nebraska where he will be employed in the James A. Smith lumber yard. Mrs. Sitton did not go at this time. Cy plans to return later part of the month for his wife and household goods. A number of the young people from town and country dropped in on them Friday evening and gave them a parting surprise. A good time is reported.

Mr. and Mrs. H. B. Cannon and children, Mr. and Mrs. Kates and Mrs. Porter, enjoyed the past week camping at Mrs. McConoughly and Reservation lake.

Mrs. E. S. Johnson and Mrs. L. P. Dixon were hostesses at a birthday party in honor of Mrs. Pete Henningsen Friday afternoon. Refreshments were served.

Miss Faith Haskell departed Monday for Auburn, N. Y., to be the guest of her school mate, Miss Fay. After a week's visit she will meet her parents at Syracuse, all going to Watersville, N. H., to spend a couple of months.

The sad news of the death of their only daughter, Miss Ruth, reached Mr. and Mrs. A. J. Erickson Thursday. Mr. Erickson left the next day for Minneapolis, where she had been visiting for the past seven weeks, and brought the body to Wakefield for burial. Funeral services were held from the Mission church Sunday afternoon conducted by Rev. Wallin.

Albert Chase, a veteran of the Civil War, died Sunday in his eightieth year. He was born in Pennsylvania in 1835. He enlisted in Company K, 141st Penn. Volunteer Infantry in 1862 and served until the war closed. In 1865 he married Lally Cummins and to this union 11 children were born, two sons, J. B. and A. L., and three daughters, Mrs. A. L. Rnone, Mrs. J. W. Johnson and Mrs. Emerson B. Haase who survive him. Funeral services were held Tuesday conducted by Rev. Hatfield and interment made in village cemetery.

John D. Haskell, who has been in the banking business here for the past twenty-seven years, has disposed of his interests in the Farmers' National Bank to D. Mathewson of Norfolk and Robert Mathewson of this place who have been associated with him. Mr. D. Mathewson has been elected president and Mr. Robert Mathewson, cashier. Mr. Haskell is considered one of the successful and prominent bankers of the state and the Farmers' National one of the strong banks. It will continue to do business along the same lines that have won it success. Mr. and Mrs. Haskell will continue to make their home in Wakefield.

Notice of Sale Under Chattel Mortgage

Notice is hereby given that pursuant to the terms and conditions contained in a certain chattel mortgage given to secure a note executed by Hugo Lehmkuhl to the undersigned in the amount of Two Hundred Seventy Two (\$272.00) Dollars, on which there is due Two Hundred Seventy Two Dollars (\$272.24) Twenty Four Cents, which said mortgage and note was executed by the said Hugo Lehmkuhl to the undersigned, C. H. Fisher, June 9th, 1915, on the following described property, to-wit: One (1) bay mare, seven years old, weight about 1225 pounds, and one (1) bay gelding about seven years old, weight about 1250 pounds, white star marking on head; which mortgage was filed in the office of the County Clerk of Wayne County, Nebraska, on June 9th, 1915; and default having been made by the said Hugo Lehmkuhl of the terms and conditions contained in said mortgage, I will on Wednesday the 18th day of August, 1915, at three (3) o'clock, p. m. on Second street in Wayne, Nebraska, between Main street and Logan street, sell the above described property at public auction to the highest bidder for cash. C. H. FISHER, adv. 30-3.

Emil Marotz of Hoskins marketed three loads of cattle of his own raising this morning which were good enough to bring \$9.90. They were Herefords and Shorthorns and had been on full feed for the past six or seven months. The lot showed an average weight of 1,354 pounds and numbered fifty-four head. Needless to say Mr. Marotz was very well pleased in spite of the fact that the cattle market was a big time lower than yesterday. —Omaha Drivers Journal Stockman.

Frank Gaertner returned Wednesday from Rochester, Minnesota, where he had been with his son Frances, who remained there to take treatment for asthma.

Life Prisoner Seales Wall of Penitentiary.

GUARD HANDS IN RESIGNATION

Governor Morehead Returns From Cheyenne Trip—Omaha Street Railway Appeals to High Court From Large Judgment.

No trace has been discovered of Sam Story, the prisoner at the penitentiary who climbed the wall of the prison.

Considerable excitement was added to the first affair by the circulation of a report that the Lincoln companies of the national guard had been called out, but General Hall denied any call had been made.

The guard who was supposed to have charge of the part of the wall over which Story escaped would not talk, but simply handed in his resignation to the warden.

Story was a life prisoner, sent up from Cherry county five years ago for the murder of a fellow harvest hand. He was considered trustworthy, having twice refused to escape when an opportunity was offered, but later developments had convinced him. It would seem, that he had no chance to get out legally and so he took the first opportunity to decamp.

Insane Man Ends Life With Shotgun.

William Engston, twenty-two years old, and living near Etna, in Custer county, killed himself by sending a charge of shot into his head. Engston was being brought to Broken Bow to appear before the insanity commission, but escaped from the car and ran back to the home of his aunt, Mrs. Peterson, with whom he had been staying. He procured a shotgun and revolver and took possession of the house. When Sheriff Wilson arrived he found Engston lying across a bed with the fore part of his head blown away.

Governor Back From Cheyenne Trip.

Governor Morehead returned from his trip with the Omaha boosters to the western part of the state, and as far out as Cheyenne. He is much pleased with the trip. On the way back the party stopped at several places and the crops along the way are looking fine, according to the Nebraska executive.

At Cheyenne he was the guest of Governor Kendrick of Wyoming and enjoyed a visit with Governor Carlson of Colorado, who was also a guest of the Wyoming executive.

State to Make Auto Numbers.

The state board of control is looking up the possibility of buying machinery for the manufacture of the plates needed by the state for the use of automobiles. These number plates cost the state much money, the number up to this time running up to 75,000, 3,000 of them being the small size for the use of motorcycles. It is believed that the state can put in a plant at the penitentiary and manufacture the plates at a considerable saving to the state.

Stecher at State Fair.

Joe Stecher, the Dodge county wrestler, will be an attraction at the state fair, putting on two matches, one with his brother and the other with some lively heavy weight, if one can be secured. The matches will come off on Tuesday and Wednesday evenings. Contests will be pulled off in the boys' camps of different kinds, the boys of the different congressional districts being in contests against each other.

Labor Convention Called.

The call for the eighth annual convention of the Nebraska State Federation of Labor has just been issued by Secretary Coffey. The convention will be held in Omaha, Sept. 14. The local unions of Omaha have appointed committees to make the necessary arrangements for the entertainment of the delegates. There are generally about 200 delegates in attendance.

Appeals From Large Judgment.

The Omaha and Council Bluffs Street Railway company has appealed to the supreme court from a judgment of \$12,000 secured by Alva H. Jackson, who was injured in July, 1913, while riding on a street car in Omaha. Damages for \$25,000 was asked by the plaintiff in the suit in the Douglas county district court.

State Board Awaits Report.

The state board of control is not in a position to make any statement regarding the death of an inmate of the Norfolk asylum who fell from a window at that institution. They have had no report from the superintendent and will take no action until the matter is brought before them.

Ask For New Bridge.

Saline county has made application to the state board of irrigation for a new state aid steel bridge across the river about two miles south of Crete. The bridge will be 290 feet long and will cost in the neighborhood of \$5,000.

Seward County Land Sells High.

R. A. Studley of Staplehurst, purchased the Guy Ramsey farm, 83 miles north of Seward, paying \$150 an acre for it. This is considered a good average price for well improved land in that vicinity.

HITCHCOCK'S STATEMENT

Two of New Federal Appointees Named on Request of Bryan.

Senator Hitchcock gave out the following statement:

"The news from Washington that President Wilson has made the four important federal appointments in the state does not call for any comment by me at this time.

"The best of these offices is collector of internal revenue. For this office I first recommended C. M. Gruenther, later J. C. Byrnes and finally Merton L. Corey of Clay Center. Each had rendered important service to the Democratic party in Nebraska in various state campaigns. Each, in turn, however, was rejected, because of Mr. Bryan's objections, and, finally, last week, I proposed A. P. Sprague of York, secretary of the state central committee. He, too, has now been rejected and George L. Loomis of Fremont has been appointed on Mr. Bryan's request.

"For district attorney, I first recommended Merton L. Corey, but later pressed him for collector of internal revenue, when I found he could not be made district attorney. For this office, which is perhaps more important than the others, the president has appointed Thomas S. Allen of Lincoln, Bryan's brother-in-law.

"For marshal, I first recommended J. R. Swain of Greeley, but after a long delay and on account of ill health he asked me to withdraw his name, which I accordingly did. I then recommended Thomas J. Flynn, city clerk of Omaha. He has now been appointed.

"For collector of customs at Omaha there has been only one candidate, C. W. McCune, night editor of the World-Herald. He was widely supported by active Democrats all over Nebraska. I endorsed him and he was appointed.

NEXT MEET AT KANSAS CITY

Saengerfest at Omaha Wins Out Financially.

The saengerfest at Omaha has been so successful that it will yield a profit of about \$4,000 over and above all expenses.

A big success was scored by the great children's chorus of 2,000 voices at the second matinee of the saengerfest in the Auditorium. The great building was again filled to capacity.

All the soloists were accompanied on the piano instead of by the orchestra. They were Miss Christine Miller, Enrico Palmetto and Mme. Julla Claussen and E. C. Boehmer, the latter being from Lincoln.

The Nebraska saengerbund rendered with splendid effect "On the Shores of Weser River," specially arranged for this chorus by Professor Reese.

Kansas City will be the meeting place of the next national saengerfest, in July, 1917.

Eastham Takes New Place.

W. B. Eastham began his duties as insurance commissioner. He will make no changes in the office at the present time, getting along with one inspector and doing away with the services of a clerk. Henry Berge began his work as deputy state treasurer, also, and Mr. Murray, the former deputy, has gone back to his former position as cashier of the Franklin State bank.

Eastern Roads Pay Elevation Charges.

Although all the railroad lines running south from Omaha have now stopped paying elevation charges for the grain they carry from Omaha, the lines to the east have not changed their former policy. According to C. J. Chisam, general freight agent of the Great Western, the grain business of Omaha has not yet been affected by the change.

To Extend Burlington.

Coleman township, in Holt county, wants a railroad and has voted bonds in the amount of \$7,500 for an extension of the Burlington into that township. The bonds have been put up to the state auditor for his approval. The road will connect with the O'Neill and Alliance line of the Burlington.

Oil Fees Reported.

The report of the food, drug, dairy and oil department of the state for the month of June shows a healthy income for that department, the fees amounting to \$10,309 for that period. The oil inspections amounted to \$9,568. Twenty-one complaints were filed and eleven prosecutions made.

Thomas to Sherman.

Dr. A. O. Thomas, state superintendent, has gone to Sherman county to look after school developments in that county. The people up there are wide awake on the consolidation proposition and expect to have some of the best consolidated schools in the state in that county.

Village Without Tax Levy.

The village of Lorton, in Otoe county, has notified the county officials that they will not need to make any tax levy this year as they have sufficient funds on hand to meet what few expenses they have.

Complains Against Railroad.

The Omaha broom factory has filed a complaint with the interstate commerce commission against the Burlington railroad that rates on broom corn shipped from Wichita, Kan., to Omaha are unjust and asks reparation for \$49.28.

Positive and Comparative.

In the lobby of a Cincinnati hotel, during an educational convention, one school man approached another and, by way of introducing himself, said: "I'm Beck."

"That's good," replied the man addressed, taking the proffered hand. "I'm more so."

"You're what?" asked the first speaker.

"I say I'm more so," repeated the second.

"What do you mean by that?"

"Why, you say you are Beck?"

"Yes, I am. My name is Beck."
