## John G. Neihardt Delights Audience

A large and appreciative audience greeted John G. Neihardt at the auditorium last Thursday evening, when he appeared for the opening number of the lecture course of the second semester. Mr. Neihardt was a student of the Nebraska Normal twenty years ago, and among his teachers of that time were Mrs. Bright and President Conn. He is well known in Wayne, and many in the audience last Thursday evening remember him as a boy in the early days of the school. Mr. Neihardt is the author of several volumes of poetry and he is ranked among the best writers of the present day. His program consisted of the reading of his own poems. Dr. J. T. House presided, and in introducing the speaker quoted from one of his poems, "The Poet's Town," saying:

"Once in a cycle the comet  
Doubles its lonesome track,  
Enriched with the tears of a thousand  
years  
Aeschylus wanders back;  
Ever in weaving, returning,  
The near grows out of the far;  
And Homer shall sing once more  
in a swing  
Of the austere Polar Star."

"Ladies and Gentlemen: The people of the poet's town take pleasure in greeting the poet."

The complete program of the evening follows:  
Vocal Solo—Miss Nellie Baker  
The Stranger at the Gate.  
The Poet's Town.  
The Poet's Advice.  
Vocal Duet—Misses Baker and Abbott.  
Three April Lyrics:  
Hark the Music,  
Longings to Grow,  
April Theology.  
Prairie Storm-Rune.  
The Voice of Nemesis.  
Katharsis (two sonnets on the war)  
Vocal solo—Miss Emma Abbott.  
Prayer for Pain.  
Battle Cry.  
When I have gone Weird Ways.  
The Souls Triumph.  
And the Little Wind.  
Morning Glories.  
Vocal Trio—Misses Baer, Abbott and Oman.

## Heavy Stock Shipments

Stock shipments have been universally heavy from all this part of the state, says Mr. Moran, agent here for the "Omaha." Twelve cars left Wayne Tuesday, and others have been going forward daily in lesser lots. But he says that he never before has known such a demand for stock cars, and that they are loading all cars, foreign or their own, as fast as they can be obtained.

The shipments are made more active because of the fact that the corn this season has not the usual feeding value. The increased quantity does little more than make good the low grade.

In the face of such reports of activity all along among the railroads, calls to mind the prediction freely made less than four years ago to the effect that the yards would be full of idle cars and business dead in case of the election of a democratic president and congress, which shows that certain interests did not know what they were talking about.

## Engagement Announced

The Sioux City Tribune of Tuesday evening gave the information that Miss Mabel Banks will not be an applicant for reelection to the position she now holds in the Sioux City schools, and that she is to be married at the close of the present school year. Miss Banks was graduated from the advanced course of the Wayne State Normal in the class of 1913. While a student at the Normal she was prominent in school activities, and won a place on the debating team that defeated the Kearney State Normal. She has been eminently successful in her work at Sioux City, Superintendent Clark classing her as a superior teacher.

The women's bible study at the home of Mrs. Barker Monday was a time of refreshing. A brief report was given of the Lindgren campaign at Ashland, showing sixty-two people won for Christ, among them many influential citizens and heads of families. Prayer was offered for many objects. The next meeting at Mrs. Fred Dean's next Monday.

## "Let's Pass Prosperity 'Round"

"NATIONAL PAY UP WEEK" is coming. It is the outcropping of the tendency of the times to make settlements oftener—and to pay what you owe and get what is coming to you. It is good, and no one realizes it more than the newspaper man with a thousand and a half little accounts creeping up at the rate of 3 cents a week each. One account one week is of little moment; one account a full year is \$1.50. Fifteen hundred accounts one week is \$45.00—quite a neat little sum toward the running expenses of a weekly paper. That number of accounts one year means \$2,250; almost enough to build the Democrat a much needed new office building—and we need it. It is but a little sum for each, but the aggregate is considerable. National Pay Up Week comes almost on the 5th anniversary of the introduction of the present owners of the Democrat to its great family of readers and patrons, and it is our wish to have a wedding of the two events solemnized during National Pay Up Week, to secure from each of our readers any subscription money which may be in arrears and an advance payment to January 1917—and as much longer as you wish. If each and every subscriber will do his part we can pay all of our obligations and face the world with a clean slate. Do not wait to be asked a second time, please look at the label on your paper and see if it says that you are paid until 1917; if not, why not help us celebrate our 5th anniversary in proper shape, and DO IT NOW!

THE DEMOCRAT.

## Social Events of The Week

The Junior Music club met Saturday afternoon with Mrs. J. T. House. After the business session, the matter of the nine symphonies composed by Beethoven, and brought to the attention of the school children the past week through a list of questions published in the Omaha Bee, was discussed and a paragraph from the life of Beethoven, concerning his nine symphonies was read by Mary House. The program included compositions by Mozart, Beethoven and Chapin. Visiting guests who contributed to the program were Helen Gildersleeve and Ralph Hufford. Other invited guests were Mrs. George Crossland and Robert Riddle. New members received were Madge Rippon and Edna Hanssen.

Eight of the ladies, who assisted Mrs. Conn receive on New Years day, planned and carried out a big surprise for that lady. At 3:30 o'clock last week Thursday afternoon the ladies, with baskets of good things, invaded the home of Mr. and Mrs. Conn, where an elaborate two-course supper was served. To make the surprise more complete Mrs. Conn was presented with a half-dozen bouillon spoons. Mr. Conn was fortunate enough to be invited to share the feast. The time was spent informally. Those in attendance were Mesdames A. A. Welch, Horace Theobald, A. R. Davis, S. A. Lutgen, C. W. Hiscox, Keyser; Misses Finnigan and Trotter.

Wednesday afternoon Mrs. Marcus Kroger was at home to a number of lady friends invited in honor of her sister, Mrs. Hedge, who is visiting here from Seattle, Washington. The guests were former friends of Mrs. Hedge when Wayne was her home, and a happy afternoon was spent by all, in social chat of other days. A delicious luncheon was served at 5 o'clock. Mr. Peter Coyle was also a guest for a time, coming with his violin to favor the ladies with a few selections popular in their younger days, adding much to the happiness of the afternoon.

The P. N. G. club met Tuesday afternoon with Mrs. W. A. Hiscox. The rooms were very prettily decorated with hearts and cupid, reminding those present that valentine's day was approaching. Mrs. Earl Merchant was an invited guest. Mrs. I. W. Alter and Mrs. M. S. Davies were initiated into the mysteries of the club. The hostess, assisted by Mrs. Lamberon served delicious refreshments. The next meeting will be with Mrs. N. J. Juhlin, March 14th.

Mr. and Mrs. Fred G. Philleo very pleasantly entertained the Sunday school classes of Rev. Cross and Mr. A. R. Davis on Tuesday evening, complimentary to Mr. and Mrs. Ray Hurst, who are soon to leave this community. Dinner was served at 6:30 to about thirty guests and the evening spent informally. At the close of the evenings frolic, Mr. A. R. Davis presented Mr. and Mrs. Hurst with a token of remembrance.

The Aeché club met with Mrs. Carhart last Monday afternoon. Roll call. "The Montessori Principle." Mrs. Blair read a paper on, "Public Playgrounds." Mrs. Jacobs read one on, "What the Campfire Girls Stand For." A few minutes were spent in discussing, "Woman's work for Schools." At the close of the meeting Mrs. Carhart served delicious refreshments. Club meets next Monday afternoon with Mrs. Crawford.

## The Union Revival Meetings

The union meetings have made a fine start this week and everything indicates a great series under the direction of our local clergy. A meeting that is homegrown and hand raised. The ministers of Wayne are equal to the occasion and will make good in everything they undertake.

Since Wednesday, Prof. G. I. Walt, of Boston, has been on the ground and is conducting the singing part in a manner calculated to do much good. He has all the singers organized into a large chorus choir and they make some singing, when they all tune up.

Aside from a chorus leader Prof. Walt is an expert on the Zither and his melodious accompanying on this instrument is very pleasing.

The pastors of the city churches are rotating the preaching part of the services and each of them are surprising the congregations with their unusual handling of evangelistic themes.

The meetings are just as interesting as if we had sent off for a thousand dollar evangelist and a whole lot more satisfactory to the people of Wayne in general.

It is the duty of everybody to boost for the meetings.

## A Near Conflagration

The E. O. Gardner home came very near being the scene of trouble Friday evening when a basket of clothes ready for the washing machine were discovered in a blaze. A dash or two of water which happened to be handy so checked the flames that the basket could be carried out and the contents dumped into the snow where the remaining fire was soon smothered out. The loss amounted to about \$30 and was insured. But the thing that worries most is the fact that it is impossible to reach a satisfactory cause for the start. There were no oily clothes, no fire had been in the room for several months, the temperature was below freezing point and had been for a week. The contents of the basket had been added to from time to time, but nothing had been placed in the basket for more than 24 hours.

Both Mr. and Mrs. Gardner had been in the room within 10 minutes of the time the flames were discovered and saw no signs of fire—smelled no smoke. When such things can happen so quickly, insurance seems to be the only protection.

## Death of Martin Muth

Martin Muth, for many years a resident of this part of Wayne county, died at his home at Bloomfield, Monday, and the funeral and burial take place today. Mr. Muth moved to Bloomfield about six years ago. He was a man highly spoken of by all who knew him. More particulars will be given next week.

## Yellow Journalism Here

This week the Democrat comes out with a "streak of yellow" judging by the tint of the paper. Cannot be helped—the chemical necessary to bleach it white is not longer to be had so just lay it to the war.

## David City Commercial Club

From time to time the Democrat has made mention of some of the things accomplished by the commercial club at David City. Secretary Gaston of our club has a letter from their secretary in reply to some questions asked, in which he says that they have a weekly meeting. Have a membership of 80 with dues of \$12 per year. Their meetings are at a weekly dinner, and they have an average attendance of 55. They take up 30 minutes of the noon hour eating, then hold a 30 minute business session or listen to some talk. At their dinners any who care may attend, and the farmers who happen in frequently attend.

Of the work accomplished through the organization and its aid he writes as follows:

"Our club has done much good for David City. In 1915 we raised \$3,500 to help the business men boost trade. In the past two years we made it possible for the town to have 18 blocks of brick paving, 50 and 80-foot wide. City bought the light plant, formerly owned by private parties, built a new light and water plant with a 150 horse engine, put up 28 5-globe electroliers to which the club paid \$1,600.00. We voted \$60,000 bonds to erect a new high school building, made the B. & M. put up a swell station building. We backed up the Butler county fair and put it on a paying basis and many more good things which I could mention. The thing I want to impress mostly is, if you take in a town like yours or ours, both being about the same in size, 80 of the best men who co-operate as they should for the good of the town, you can pull off anything you wish to."

Following this he recommends this club to take a membership in the state organization from which they secure many benefits.

## Paving for Wayne Soon

With the coming of spring the question of street paving here becomes one to act upon, and a petition is being circulated for the signatures of those who own property on lower Main street who will favor it. The council may act and order paving, but they prefer to have the property owners say first that they want the improvement. There should be no hesitation or stutering now. Wayne must move forward—and over paved streets is one of the good ways. Ultimately—why not NOW?

## The Coming Weather

Predictor Will Weber tells us to tell the people that they may expect fair weather for one week from this day—but he would not make a prediction as to the temperature. Mr. Weber looks at the moon and weather conditions at the time of the change of the moon from one quarter to another and bases his forecasts largely on observation the past has taught him to expect under certain conditions.

See the Democrat for wedding invitations.

H. W. McClure went to Winnebago the first of the week where he has business interests.

Dr. Lowrey, from Leigh was here Friday on his way to Bloomfield, where he had been called.

Wm. Nangle was here from Sioux City Sunday to visit his mother and his sister, Mrs. T. T. Jones.

Mrs. J. H. Smith from Sholes was here Friday visiting her father and mother, Mr. and Mrs. S. Fox.

M. W. Ahern and wife from Carroll were here Monday, returning from a visit with friends at Norfolk.

E. L. Jones was at Sioux City last week on a business mission, trading Minnesota land for city property.

Miss Hazel Bitten of Lincoln, who has been visiting at the home of W. Green and wife for a week, left Monday to visit at Sioux City.

The ladies of the Catholic church have decided to have food exchanges at the Poulson grocery for a few Saturdays, beginning this week.

Elgin has a new Community club, and they held a banquet last week and a splendid time is reported. Their talks were mostly community speeches.

Misses Sophia and Bertha Wieland went to Omaha Monday, one of the ladies having eye trouble which she wished to consult a specialist about.

Mr. and Mrs. J. E. Brooks from Idaho, who have been spending a month with relatives in this place and nearby Nebraska towns, left Monday for their Idaho home.

Mrs. Levi Delts from Wakefield was here the first of the week, a guest at the home of Marcus Krogur and wife, and of Miss Charlotte White. She returned home Monday.

The editor of the Wynot Tribune is home from a trip to Texas, and is telling of that country in his paper. He visited a district where irrigation is necessary to get best results.

A program and box social will be held in school District 26, six miles south of Wayne, Friday evening, February 18th. Everybody invited. MABEL L. SCHROEDER, Teacher.—adv. 5-2.

At Wausa they recently organized a community club, and at a meeting last week the question of discontinuing the commercial club organization was discussed by the members, some thinking that the community club was all that was needed. It was decided to continue the organization and work some exclusive town propositions, such as street sprinkling, buying calendars together and like questions.

Grocers and butchers of Omaha, it is said, pay a penalty of more than \$200,000 annually for extending credit to their patrons in unpaid accounts.

Mrs. E. M. Collins, who has been here for some time visiting at the home of Walter Miller and wife, her daughter, left Saturday to visit at Sioux City.

The news reports say that Austria and Germany have purchased 50,000 car loads of grain and that delivery has commenced along the newly opened route to Turkey along the Danube.

FOOD EXCHANGE—The ladies of the Catholic church will begin a series of Saturday food exchanges the 12th at the Poulson grocery and continue four Saturdays—for good things to eat go there.—adv. 6 3.

Wm. Kay of Wakefield has sold his automobile business known as the Wakefield Auto. Co., to Fisher Bros., who took possession February 1. Mr. Kay will sell cars of some make not handled by the firm sold to.

At Blair they are going to install a septic tank to care for the sewerage of the city hall. That may be all right at Blair, but in some cities nothing less than a 12-inch sewer and furnace to cremate filth would answer.

George Barto of Wakefield has filed on the republican ticket for county treasurer. A. E. Baley of Allen, has also filed for the same office on the same ticket. Mr. Barto was defeated for the office three years ago.

Why was it that the snow of Friday the 28th was so generally cleaned from the walks of Wayne? is a question we heard asked. The answer is easy. There were more than 30 big newspaper scoops meandering about, and wherever they went the snow was sure to go.

W. B. Searight and little daughter from Crofton were here over Sunday to visit at the home of his father-and-mother-in-law, Mr. and Mrs. Jack Hyatt. They returned Monday morning. Mr. S. tells us that he contemplates moving to Montana when the snows begin to melt away.

There is to be a farmer institute at Wausa next Monday and Tuesday and a very good program is announced. H. L. Gaddis and Miss Aural Scott of Lincoln and G. L. Carlson of Norfolk are to take a part in the meetings. A band is to provide music, and local talent in both singing and speaking will be employed.

Mrs. Dan McManigal was a visitor at Norfolk Friday, going over to consult a physician as to the condition of her health. The fact that she was able to drive in from the McManigal farm and make the trip together with her healthful appearance shows her good judgment in taking care of herself before it is too late to get best results.

It is said that Governor Morehead has said that he will not again be a candidate for the office of Governor nor will he aspire to defeat Hitchcock in the race for the senatorial toga, and he is not to be a candidate for a seat in the lower house of congress—in fact, it looks as though he is planning to stay at home. The governor has made good for two terms, and has given his successor, whoever it may be, something to pattern after in the way of a business administration.

Chas. Bush and wife of Stanton and Harry Philson of Leigh were here Monday morning, returning from Bloomfield where they had been attending the funeral of little Marie Philson, who died quite suddenly at the Philson home in that city Saturday of acute diabetes. Mr. and Mrs. W. J. and M. T. McInerney of this place were also there to attend the funeral. The father, A. H. Philson, who was away from home when the attack became acute, was through here Saturday evening hastening to her bedside, but the little one had gone before he reached home. M. T. McInerney accompanied him from here on his sad journey.

Mr. Claud Douglas of Allen was here Saturday on his way to Carroll to attend the funeral of Mr. A. J. Honey, who died there last Wednesday night. Mr. Douglas for a number of years made his home at the Honey farm, and it was such a home that he feels the death of Mr. Honey almost as that of a father.

August Fanske, who has been here for the past two months visiting at the home of his son, L. A. Fanske, went to Pierce Monday to visit his other son, E. Fanske and two daughters, at that place. L. A. accompanied him as far as Norfolk, as he had not entirely recovered from injuries received three weeks before, when the barn door fell on him.

More than 200 farmers in the vicinity of Wynot enjoyed a day last week rounding up the wolves and coyotes, and it was great sport and not very hard on the wolves as the entire 200 men only killed one wolf and thought they crippled another one. They saw plenty of them but the net was not close enough woven to catch them. Some one better keep a wolf in captivity to preserve the specie before it becomes extinct.

Miss Sara Milligan, who is successfully teaching in district No. 10, just southeast of Wayne, tells us that they are to have a box social at that school house the evening of the 25th, the proceeds to be used to purchase supplies and furnishings for the school room. Miss Milligan tells us that with an enrollment of 35 from kindergarten up to the top of the list for a country school, she finds but little time to play. But from reports, she is making good.

Wm. Morgan was at Wisner last week attending the sale of two of the Duroc breeders. He says that the Wallace sale of bred sows averaged \$60 each with a top of \$255. At the other sale the average was \$45. The farmers of Wisner vicinity have been many years paying careful attention to the breeding of pure bred animals, and they have established a reputation which brings the price—something which it takes years to do as a rule. The Democrat is glad to note increased activity along the same lines in this vicinity.

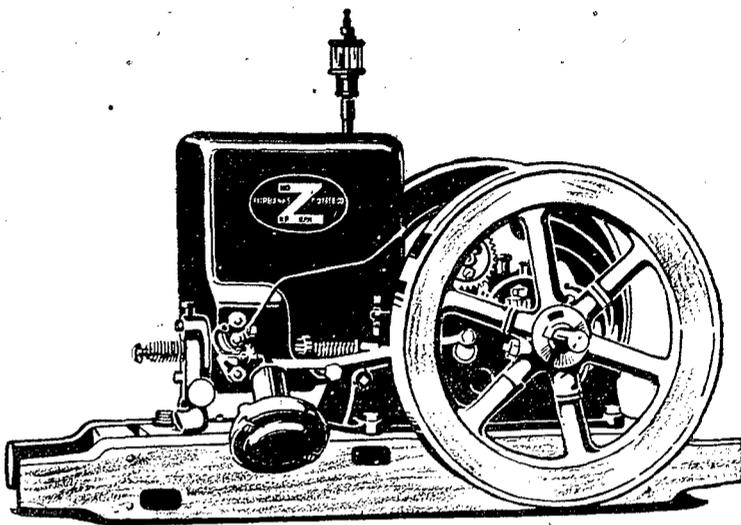

Orlin C. Bates, who died last week at Spearfish, South Dakota, at the age of 85 years, was for many years an Iowa newspaper man, and he it was who as editor of the Vindicator at Estherville claimed to have added a new word to our language and put it in circulation when he first printed the story of a great storm and called it a "Blizzard." He had a varied experience as a pioneer newspaper man and printer. He dated back to the days of Horace Greeley, and was personally acquainted with him.

Willis D. Noakes left Monday for Ames, Iowa, where he enters the dairy department of that great agricultural school for a 2-year course. The young man has been having a bit of the practical end of the dairy schooling during the past year or more when he successfully conducted a small dairy. The Democrat believes that he has acted wisely in deciding to take this schooling, for we believe that there is no branch of farm work offering better opportunities in this vicinity, all things considered, than the dairying interests, nor no part which responds so well to the managing ability and knowledge to be acquired by a bit of scientific training.

One of the local merchants said, in effect, to the writer a short time ago: "There are sure a hot bunch of merchants in this town." Upon our inquiry as to what was the matter with them, he said: "Here there are four merchants in town and not a one of us had an ad. in the paper this week." Said they had been unable to get to theirs due to sickness but supposed some of the stores would be represented when the paper went out, anyway, to keep people aware that the merchants were alive. When all local merchants begin to feel this responsibility to keep the trading public on the lookout for business offers each week it will be easier for the editor to show why people should trade at home.

The above is from the Coleridge Blade and it makes a good point. Too many merchants fail to consider that they have a duty to their town which should not be ignored. We frequently tell a merchant or one in some other line of business that they cannot afford to let a local paper go out to the people without at least having a line or two carried for them. One may not have need for a large advertisement every week, but when you may tell 2,000 people to "Trade with Smith" for five cents you should be able to get your five cents back and another with it from the profits.

A. Moseman and wife from Lyons were here over Sunday visiting at the home of Claud Farrel and wife, their daughter.

Melvin Eaton of Newport returned home Monday following a visit at the Barker home in this city, who were former neighbors.

### Echos From the Editorial Meet

Wayne people certainly made a hit with the visitors who came to attend the Northeast Nebraska Editorial association meeting, judging by what our brother editors have taken pleasure in saying of their reception and entertainment here. Unstinted praise comes from all, and Wayne has certainly gained much publicity by simply entertaining the brothers of the press as well as they do the other organizations which meet here from time to time. The preachers, the bankers, the tennis men, the Sunday school people, the fraternal orders and the editors have partaken of our hospitality and all have praised us, but the newspaper men were in the best position to tell the world what each and every gathering here has felt.

The daily press measuring the news value of the event gave it its proper place. The Sioux City Journal, in addition to the story of last week gave the group of men here space in their Monday paper. The Omaha Bee did likewise Sunday.

The Sunday World-Herald made a page feature of the event, giving besides the group picture a number of individual pictures of the officers and those who took part in the program. Editor Pease of the Beemer Times was also conspicuous on the page with a pair of roosters he had just picked up. The page by "Rex M." was well written and gave the readers a fair view of the work of the Wayne citizens and Commercial Club.

The Norfolk Daily News also gave excellent accounts of the meetings. The Hartington Herald used a four column story of the event, showing the two buildings in which the meetings were held. In addition to this an excellent editorial review of the meetings and their worthy objects—the improvement of the country press of the district and united work for the best interests of the communities of this part of the state.

The editor of the Burt County Herald from Tekamah was here and pleased to make an excellent report.

H. H. Pease of the Beemer Times made a generous report of the meetings as did Brother Cooley of the Crofton Journal and Fred Marshall of the Niobrara Tribune.

Editor O'Furey of the Cedar County News was much pleased with the manner in which Wayne people opened their homes to the

guests and also with the results of the meeting.

Mose Warner says: "We attended the meeting at Wayne, and that city surely did it up brown in the matter of entertaining. The banquet tendered the editors was the most elaborate ever pulled off in Nebraska, and would be a credit to a city ten times the size of Wayne. Editors who staid at home surely missed a rare treat."

The Wakefield editor was so well treated that he will not miss another meeting of the association, especially if at Wayne.

W. H. Needham of the Bloomfield Monitor thinks for once he did a good thing when he got mad at the snubs given the newspaper men by the state fair management and some other concerns who wanted a vast amount of free publicity, and sent out a distress call the response to which resulted in the organization of the association. That S. O. S. call from Brother Needham was one we were all ready to send.

The editor of the Laurel Advocate, who was made president of the organization, gave Wayne much credit for being royal entertainers—and he would have been just as well pleased and happy had honors not been thrust upon him.

The editors of the Bancroft Blade and Oakland Independent were touched in the right spot—they called it the heart—and we know it was not far from that part of their anatomy, but another name might do as well.

Editor Peck of the Randolph Times and Enterprise had to miss the big feed and go home and care for his cow and chickens, the weather being so bad, and yet he felt that it was good to be here and said so. He praised the paper by J. J. Ahern, and our schools and normal.

Editor Mayfield of the Stanton Picket had a splendid time and a fine visit with two of his brothers who came for the meet, Eugene O. of the World-Herald and L. J. of the Louisville Courier. Another brother was expected, but at the last moment was detained.

Editor Weeks of the Norfolk Press was active in advancement of the work of the organization and having been a pioneer in some of the reforms the association is slowly bringing to pass he views the work with satisfaction.

The man from the Carroll Index had a good time and said so, but he was unable to remain for the big feed, but came again Saturday morning to help the good work along.

Editor Backhaus of the Pierce County Leader pronounced the meeting a success from every point of view.

### Sighing For Good Old Times

Rosalie Ripsaw:—Nothing is as it was in the good old days. When a neighbor called the boys and girls were expected to sit up straight as a cob and speak when they were spoken to, now they are brought to the front and put through their paces like a race horse at a county fair. The girl must kick a few kinks out of the piano and the boy will look wise like a sick monkey begging for raisins. They used to get married for two dollars and begin house-keeping on \$50. One suit of rags lasted a year for Sunday and two more for every day. The community worked ten hours and then went to a shindig and old and young danced till morning. They had no "brainstoms" and heartaches nor appendicitis. Brainstoms were cured with a water elm club. Heart failure was then called fits and appendicitis was called bellyache. They rolled the patient on a barrel or rubbed him with a hot brick and none knew that he had a verminiform dohiker that was liable to get full of cherry stones. We used to eat soup with a fork and have "sass" of all kinds. Now we eat fruit salad and consomme and have biscuits with baking powder, that looks as though someone had sat on them. We had bread with "risin" that smelled like a glue factory struck by lightning when it was rising, but tasted better than anything made from XXX rolled flour ground into nothing but dust. And if the girls chewed gum they had to climb a tamarack tree and dig it out with a screw driver, and by the way, how would one of our present day high-fliers with a dew-drop slappaek on her belfry look trying this feat. Progress don't always mean betterment by a pell-of-a-sight. Those pioneers were as happy as a monkey taking salts. They needed less than a quarter of the luxuries of today and six times the necessities. They neither froze in the blizzards nor roasted in the heat. They were too tough to be affected by either the heat or the cold and one quart of likker would sometimes do M. M. Warner of the Lyons Mirror, or Mel Schmied of the North Nebraska Eagle, for two hours. "Rah for the pioneers! What did you say, Mose or Meil?"

### New Hospital at Wayne

Some months ago there was considerable talk of a hospital at Wayne—an institution much needed in any place of this size—but the plans to sell stock or receive donations for such an enterprise did not meet with very ready response, we are sorry to say, so we now have no great and imposing public place for the care of the sick. But we do have a hospital. Dr. S. A. Lutgen, who was long ago in favor of such a hospital, decided that if others would not aid, he would build a place himself, and proceeded quietly with the work. He owned a neat cottage and a suitable lot on North Main street, and he went to work to enlarge it, remodel it and convert it into a very comfortable little hospital, modern in every respect. The editor was perhaps the first victim, going there by invitation Monday and escaping easily, feeling much better.

The building is one story and a basement at present, 26x46, and contains a reception room, a most complete and modern operating room, a sterilizing room, six private rooms for patients, a bath room, kitchen, dining room, nurse room, laundry and basement storage, the last two not yet completed. Other parts of the building are completed, and a part of the rooms are furnished, and furniture for others is on the way and will be here soon. A lady friend of the institution from a neighboring town has donated the furnishings for one room, and one of the lady clubs of Wayne, has voted to provide the furniture for another room.

The building is modern and sanitary throughout and most conveniently arranged for its intended use. The private rooms are small but light and pleasant. Oak floors throughout except the operating room which has a tile floor. The ceiling of the operating room is studded with two dozen electric lights so that the most delicate operations may be made at any time of the day or night. In one side of the room an instrument case is built in, and shelved with plate glass. One who knows something of operating rooms expresses the opinion that no more convenient one has been built in the state.

Now that it is ready for use we wish that no one might need it—but they will, and then it will be of inestimable value to the people of this vicinity. Few weeks pass that some one will not need such a refuge, and the Democrat is glad that Dr. Lutgen has had the necessary faith that such a home for the sick will be supported, to take the initiative and complete it.

### Farmer's Begin to Move

The moving season is at hand for the renting farmers, and it is a shame that so much energy is wasted in trekking from one farm to another, to the detriment of both the renter and the land owner.

So many one year leases does not give the renter the chance to do what he should do and what he would frequently like to do. This year he may have been on a place with plenty of hay and pasture land, and is tempted to grow and gather in a bunch of stock, which is a good thing for the owner of the farm. But, only having lease for one year, he may be ousted at the end of the year, and perhaps be obliged to rent a farm without hay land or pasture land. This makes it necessary for him to dispose of most of his stock before it comes to age and condition to make it worth the most. There are also many other disadvantages, including the cost and work of moving.

Then the land owner too might have a much better place by securing good renters and making it possible for him to stay for a series of seasons. If the fence is weak, the barn out of repair and the manure piling up about it, the renter for a single year has no heart to repair the place—he rightly says that he is not going to fix it up for the next man—let him do it as he pleases. Manure is not distributed over the farm, fences are left go, the fertility of the soil is sapped, weeds are not kept down as they should be, and sood the owner realizes that his place is on the toboggan, going down, down, DOWN. It is a condition which should be remedied for the good of the community and the profit of both renter and landlord.

### GORE'S Hog Worm Cream Concentrated

All Hogs are Wormy: By the very nature of the hog, His way of living and what he eats, is bound to be wormy.

There is no market for hog Worms, and they sap the life blood and your money from the hog. Hog worms stunt young hogs, and a stunted hog is a money loser in the fattening pen. The greatest menace to the health and thrift of the hog is worms. A wormless hog will be a choleraless hog.

Gores Hog Worm Cream is certain death to hog worms. It is the cheapest insurance and the best investment for hog raisers. It costs less than 3c per hog. "Each Dose", and if fed once each 30 days will keep them free from worms.

### No Waste and Proper Dose

Gores Hog Worm Cream is not like any other medicine, it is a heavily concentrated cream preparation containing an absolute anthelmintic "Worm Killer", and if the directions are followed, each hog is certain to receive the proper dose.

You simply mix or stir Gores Hog Worm Cream in swill. It mixes perfectly and evenly. Put your swill in the trough and there you are.

Gores Hog Worm Cream is put up in the following sizes with full directions for mixing in swill or water and sold at the following prices:

Small size enough for one dose for 25 hogs, price, \$1.50  
 1 gallon enough for one dose for 60 hogs, price, \$3.00  
 1 gallon enough for one dose for 120 hogs, price, \$5.00  
 3 gallons enough for one dose for 360 hogs, price, \$10.00  
 5 gallons enough for one dose for 600 hogs, price, \$15.00  
 10 gallons enough for one dose for 1200 hogs, price, \$25.00

Gores Hog Worm Cream should be fed at least once a month.

The Wausa Gazette has again become a home print paper, discarding the patent sheet which cumbered it for the past year or two. This editor never could understand why the editor of that excellent paper ever permitted it to be enveloped inside that patent outside. It must have been a good hypnotizer that the patent house sent out to get that scalp. The Democrat is glad to note that many papers in this part of Nebraska are discarding their patents. It is not yet five years since the present owners bought the Democrat, and in that time the two papers here, two at Hartington, one at Laurel, at Carroll, several in Pierce county, one or more in Madison county, and others we cannot now call to mind have decided to run their own advertising pages—and they are better home papers for having gotten away from the patent idea. The next five years should eliminate a lot more of them, and we believe it will.

From this distance, and in spite of all the President has said, it looks as though the powder trust, the big steel combine and the great financiers are the fellows who have so suddenly discovered the need of such extensive expensive preparation for defense. If that be true, let them pay for it, and not ask the poor people who have nothing much but their lives to protect to help pay the bill—for in case of trouble they can run away if permitted to do so—but that is not the plan. It is proposed that if trouble come they shall be the ones to bare their breasts to the shafts of an invading enemy—and also be taxed to pay for the equipment to fight with. Better let us work on the roads.

When we open an exchange and find an eight page paper with six pages of patent containing news a week old or more and a lot of syndicate dope which some one does or should get pay for distributing, we wonder how the editor can have the gall to connect the town name to it and try to pass it out to the people as a "home paper." If the patronage of the place will only justify two pages why load them down with the other stuff and distribute a lot of advertising for which you get nothing?

C. J. Rundell has made a claim for the year subscription offered by the Democrat last week for the correct answer as to the sum which would represent the interest value of the greenbacks, which some want to retire, for 50 years at 6 per cent, annual compound interest. Mr. Rundell says that the interest value of one dollar for that period at above rate is \$7.20, and that with the original dollar added would make a debt of \$8.20 for each dollar, if the greenback may be called a debt. With \$364,000,000 in greenbacks the interest saving alone would amount to \$2,491,200,000. Unless some one can disprove the correctness of his figures, he wins the prize offered.

Victor Rosewater was so well pleased with the city and citizens of Wayne when he visited us last week at the time of the editorial meeting that he urges in the Bee that the State Editorial association come to this city for one of its annual gatherings. Wayne is equal to the occasion, come on brethren.

A. H. Bachaus, editor of the Pierce Leader, has filed for the office of representative in the 19th legislative district. He has the ability to make a creditable showing among the solons who are usually sent to represent a state and make its laws.

### Dirks-Korff

A marriage of two popular young people occurred Wednesday, February 2, 1916, at the home of Hon. Henry Korff, when his daughter, Miss Bertha was united in marriage with Henry Dirks, son of Mr. and Mrs. Ben J. Dirks. The ceremony was performed by Rev. F. Hefner. Both of these young people are well and favorably known in this vicinity and they come from two of our most prominent farmer homes. Their many friends and the friends of the families will wish for them a prosperous and happy matrimonial voyage with just squalls enough to make the long trip have a proper balance of variety.—Coleridge Blade.

### Lincoln's Only Morning Paper

The publisher's report that the special \$2 a year price now being made for the State Journal is resulting in thousands of new subscriptions. It is not much wonder as that is only about half rate. With the Sunday Journal including the Fiction Magazine and colored comic, the price is only \$3.50 a year. The Journal can reach most parts of the state with later news than any other state paper. This will be a wonderful year for newspaper reading, and the Lincoln Journal promises to keep at the head of the procession. Order it today.—adv.

### Among the Churches of Wayne

**Presbyterian Church**  
(Rev. S. Xenophon Cross, Pastor)  
Every afternoon and every evening, every person is supposed to be in attendance at the union meetings at the Baptist church. Every part of the meeting is good; there is a fine "Union" spirit manifested at each service.

Each church will hold its regular morning services. We specially want every boy and every father and mother of a boy, to be at church next Sunday morning. We have something of immediate importance to say to you.

We have long professed to stand for "Unity of Spirit" why not get together right now in a unity of effort in the evangelistic meetings? Every church member in Wayne and vicinity should attend the meetings if possible.

The Presbyterian Sunday school will welcome you at any session of the school and will provide just the class for which you have been looking, provided you desire to enroll. Visitors are always welcome in this school.

Come tonight to the Union meetings. You cannot afford to miss any of these meetings. If you have not been coming, begin this evening. If you were there last night, you will want to come again. Bring your neighbor!

There will be a united meeting of the Session and the Board of Trustees at the church on Sunday afternoon at 2 o'clock. There is business of importance. Every member of both sides is urged to be present. Come!

If everybody knew how much the Union meetings may mean to the whole community, the Baptist church would not hold the crowds of people that would seek to attend them. Be a booster for a movement that means much to Wayne.

Misses Mabel Dayton and Cella Gildersleeve are doing splendidly for the Junior Endeavor. Send the boy and girl next Sunday. No hour of the Sabbath day is spent more profitably than the hour in the Junior Endeavor.

### Methodist Church

(Rev. A. S. Buell Pastor).  
That was certainly a great service at the Methodist church last Sunday. With an audience that comfortably filled the large auditorium, of people who put the inspiration into a speaker it would be a great pity if we did not have inspiring and helpful services. The choir rendered two anthems. There was also a large attendance and an enthusiastic Sunday school. Come again next Sunday and bring your friends with you. We will be glad to take care of a few more people.

The subject for next Sunday's sermon will be "Constructive Christianity." This should be a better sermon than the one we had last Sunday and I am sure you will want to hear it. Let us be loyal to the church and its institutions. Let us make our religious life something more than a name.

Have you been attending the Union Evangelistic meetings this week? "Come thou with us and we will do thee good." We will expect you at the union young people's society and revival service at the Baptist church on Sunday night.

### Baptist Church

Rev. W. L. Gaston, Pastor  
The Baptist church in common with the other churches co-operating in the union meetings, will hold the regular service in their own church on Sunday morning. The pastor, the Rev. W. L. Gaston, will deliver one of his regular Sunday morning sermons and the church going people are invited accordingly.

### St. Paul's Lutheran Church

Sunday school every Sunday morning at 10 o'clock.  
Luther League at 6:30 o'clock.  
The Ladies Aid society meets Thursday, February 17, at the home of Mrs. Frank Sederstrom.  
Choir rehearsal Thursday evening at the home of Julius Hurstad.  
A cordial welcome is extended to all who desire to attend our Sunday school and Luther league.

### German Lutheran Church

Rev. Moehring, Pastor  
Sunday, February 13: Sunday school at 10 o'clock and preaching at 11 o'clock.  
There will be no services at Winside.

### Hay, Farmer, Hay

Why go to the trouble of buying a car of hay when you can get just the amount you need from me at any time just as cheap as you are buying in car lots. I am again in the feed business and want your hay trade—will make it an object for you to buy through me. Geo. W. Fortner, the Feed Mill man again.—adv.

### School Notes

Mrs. Arthur Norton was a recent visitor.

Prudence Bush is a new pupil in the first grade.

On Friday of next week the fifth grade will give a rhetorical program.

The Wayne debating team will meet the Pierce team February 25 at Pierce.

The second grade has finished three readers and begun work on "Grade Literature, book 2."

The high school basketball teams will play at Randolph Friday evening and at Pierce Saturday evening.

Mr. Daney, a member of the Pierce high school faculty was a visitor at the high school Monday forenoon.

Professor Waltz, singing evangelist, who is assisting in the union revival meetings, sang before the high school yesterday afternoon.

A. M. Voss, state high school inspector, visited the Wayne school Tuesday afternoon. He expressed himself as being highly pleased with conditions in the city schools.

The pupils of the eighth grade sang several two and three part songs before the high school Tuesday afternoon. There are some excellent voices in this class, and the music was a source of great pleasure to the high school.

Miss Nita Krause of West Point was the guest of Miss Delilah Mullin the latter part of last week. Friday morning she sang several selections before the high school. She has a voice of rich quality and her singing was much enjoyed by the high school.

Through the courtesy of H. C. Henney the eighth grade students were privileged to examine some fine historical newspapers. One was published at the time of the framing of the Constitution, another during the Civil war, and a third at the time of Lincoln's assassination.

The Senior class gave the following program at convocation yesterday: Piano solo, Victoria Jenik; paper, "Origin of Valentine Customs," Anna Ganquist; story, "The Girl in the Dark," Genevieve Dorsett; two papers on "Vocations," Fred Ash, "Farming," and Irene Carpenter, "Teaching," piano solo, Julius Hurstad.

The Senior class enjoyed a sleighing party last Saturday evening. They drove in bob-sleds to the fine country home of Albert Watson, a member of the class, where music and games were indulged in and a delicious oyster stew was enjoyed. The class was accompanied by Mrs. M. A. Phillips, class sponsor. All appreciated the warm hospitality shown them by Mr. and Mrs. Watson.

The basket ball game between Hartington and Wayne, advertised for last Friday evening was called off by Hartington. In its place two games by local teams were played in the gymnasium. One between the high school first team and Wayne business men resulted in a victory for the high school by a score of 31 to 19. The other between the normal training high school team and the high school second team was won by the normal, score 18 to 9.

### Science Club

A very interesting session of the Science club was held on the evening of February eight. The topics for the evening were light and petroleum. Miss Margaret Forbes read a paper on "Petroleum," which was of special value to the prospective teachers and of general interest to the public. Her discussion did not emphasize the scientific significance of the oil, but exploited its economic values. The present age demands great quantities of petroleum. The rate of consumption is of such enormity that unless care and judgment are used the United States, in a few years, will have exhausted its supply. Miss Forbes suggested that we avoid, where possible, the use of the products of petroleum as a fuel and to discontinue its exportation.

Miss Gladys Woods explained the properties and velocities of light, using both oral discussion and blackboard illustration.

The last number of the program dealt with the diffraction of light. Miss Elsie Meyer, Miss Gladys Wood, Mr. Herman Siems and Professor Britell performing interesting experiments.

Members of the club feel that students can ill afford to miss these meetings. It wishes the public to know that any one interested will at all times be welcome.

**LIVE STOCK PRICES AT SOUTH OMAHA**

Cattle Trade Steady and Market Very Active.  
HOGS STEADY TO 5C HIGHER.

Lambs 10@15c Higher For the Two Days—Top Hits the \$11.00 Mark—Ewes Follow Advance in Lamb—Top, \$7.40.  
Union Stock Yards, South Omaha, Neb., Feb. 9.—Another very good run of cattle arrived yesterday, about 6,500 head. After the fat cattle market was once under way it was a very good, active trade and prices were fully steady with Monday. If there was any change in the market for cows and heifers as compared with Monday, it was in the direction of greater activity and a broader demand, and for the most part was fully steady with Monday, but there were cases where something desirable and heavy sold to better advantage. There was also a better demand for stockers and feeders and the movement was livelier, although prices were little different from Monday.

Cattle quotations: Good to choice beefs, \$7.30@8.50; fair to good beefs, \$7.50@7.90; common to fair beefs, \$6.50@7.50; good to choice heifers, \$6.25@7.00; good to choice cows, \$6.00@6.75; fair to good cows, \$5.35@6.00; canners and cutters, \$4.25@5.25; veal calves, \$7.00@9.75; bulls, stags, etc., \$5.00@6.50; good to choice feeders, \$7.00@7.60; fair to good feeders, \$6.50@7.00; common to fair feeders, \$5.50@6.50; top heifers, \$5.75@7.00; stock cows, \$1.75@6.50; stock calves, \$6.50@7.50.  
Hog receipts totaled 17,500 head. While the trade was a little slow, the market was anywhere from steady to a big nickel above Monday. Bulk sold at \$7.55@7.70 and tops reached \$7.85.  
Sheep and lamb receipts amounted to 9,000 head. Trade showed a strong tone right from the start, and first sales looked 10@15c higher than Monday's opening prices, or fully steady with the high time on Monday's close. In other words, values were 10@15c above last week's close. Some real good lambs brought \$11.00, the highest prices paid since last June. Bulk of the desirable lambs sold at \$10.75@10.85. Ewes found a good outlet at strong figures. As high as \$7.40 was paid for good ewes, and several bunches of a desirable kind sold upward from \$7.25.

**Do You Belong?**  
If you like the old town best,  
Tell 'em so!  
If you'd have her lead the rest,  
Help her grow!  
When there's anything to do  
Let the fellows count on you  
You'll feel bully when it's through  
Don't you know!  
If you want to make a hit  
Get a name!  
If the other fellow's it  
Who's to blame?  
Spend your money in the town  
Where you pull the shekels down;  
Give the mall concern a frown—  
That's the game!  
If you're used to giving knocks,  
Change your style!  
Throw bouquets instead of rocks  
For a while.  
Let the other fellow roast,  
Shun him as you would a ghost,  
Meet his hammer with a boast  
And a smile.  
When a stranger from afar  
Comes along,  
Tell him who and what you are—  
Make it strong.  
Never flatter; never bluff,  
Tell the truth, for that's enough,  
Join the boosters—they're the stuff;  
Let's belong!

Muskogee county Republicans in convention at Muskogee, Okla., the first political gathering of the year in that state, endorsed Theodore Roosevelt for president.

Canada's magnificent parliament building at Ottawa, which cost more than \$6,000,000, is in ruins, swept by a fire attributed by some to a bomb. Six lives were lost.

George M. Reynolds, the Chicago banker, who has been critically ill at a Los Angeles hotel, is reported to be greatly improved, but his physicians said he was not out of danger.

Charles A. Hibbard of Tulsa, Okla., died suddenly at a Kansas City hotel. He was interested in oil projects in Oklahoma and was a brother-in-law of Paul Morton, former secretary of the navy.

The Pennsylvania railroad, which recently lifted its embargo on grain exports through Baltimore, has issued a new embargo on all grain exports through that port. Freight congestion is given as the cause.

The Philippine bill, which would extend to the islands a greater degree of self government and would authorize the president to grant them absolute independence within four years, passed the senate, 52 to 24.

M. D. Jones was shot and killed at San Francisco by M. B. Chamblin, deputy collector of internal revenue, on whom Jones had opened fire when Chamblin attempted to arrest him as a dealer in unlawful drugs.

Sheep and cattlemen from the western states urged the senate lands committee to defeat or at least radically modify the 640-acre grazing homestead bill, which has passed the house and is pending in the senate.

The Metropolitan Street Railway company of Kansas City, under a settlement reached in court, agreed to pay Miss Evelyn Whittington, sixteen years old, \$500 for a kiss administered by one of the company's conductors.

More color in men's clothes and more attention to effect rather than fit were the predominant topics in the discussions of the thirty-sixth annual convention of the International Custom Tailors' association, which closed at Kansas City.

Police have been assigned to protect the New York subway system from the Brooklyn terminal to the Bronx terminal and the Hudson and Manhattan tubes on the strength of a report that a threat had been made to dynamite the underground roads.

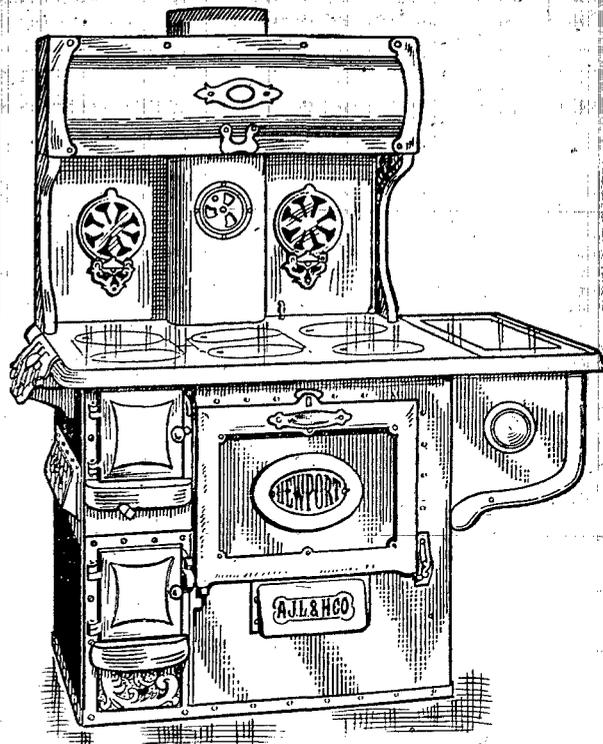

The scarcity of foodstuffs in Norway has increased alarmingly during the last few weeks and the local dealers throughout the country have organized for the purpose of regulating importations in order to prevent an increase in prices.

The federal reserve board issued a statement expressing regret at the disposition evidenced in some states to draw a line of distinction and cleavage between state and national banks which are members of the federal reserve system.

Shooting of "some of our feeble-minded jurymen" was suggested as a remedy for too frequent acquittals of women charged with shooting men, by Judge Frank P. Dunne, when a jury in the superior court at San Francisco freed Mrs. Maloena Dyotta, tried for the second time for an assault on her husband.

The conference of federal and state health officers to consider rabies and other disease conditions in the west, closed at Salt Lake after adopting resolutions asking the department of agriculture to investigate the practicability of inoculating coyotes with mange or scabies for their eradication, as now practiced in Montana.

A freight wreck near Bloomfield last Thursday, when the caboose and several freight cars jumped the track on a fill near Bloomfield delayed traffic on that branch about 12 hours. No one was seriously hurt, and the derailed cars all went into the ditch, so that business could be resumed as soon as the track could be repaired. A spread track is supposed to be responsible for the accident.

Everett Skerman, a painter and fiddler was at a country dance Saturday night, and gave way, we are told, to a weakness he has for a bit of drink, and when discovered Sunday morning he was trying to climb a fence near the Munsinger home, which is not far from where he lives. He was aided to his home and a physician called to look after his frozen parts. The latest opinion is that he will not have to have his right hand amputated as was first reported. That arm and hand were badly frozen, for it was a pretty cold time to be out in his condition. His faithful horse was found at home in the morning trying to get a bit of hay for breakfast, and it is thought that he fell from his buggy not far from where he was seen in the morning.

LOST—Grey wool shawl. Leave at German store for reward.—adv.

If you want top prices for your hogs, phone 9, J. W. Kinsey's Wayne Meat Market, next to city hall.—adv.

Coming back to a good country—that is what R. H. Hanson, Jr., is doing, who is this week moving from Holstein, Iowa, to his father's farm south of Wayne, which he will farm this year and probably for several years. True, he says he left a good country, and he did. His car arrived Tuesday evening and the wife will follow when the goods are at the farm.

Mrs. E. E. Phipps of Foster was here Tuesday morning between trains, while returning from a visit with her daughter, Mrs. J. E. Hancock at Carroll. Mrs. Phipps formerly lived two miles north of Wayne for a number of years, and says it is yet to her the most home-like place she knows of and if she never comes back here to live it is her desire to be brought here for her final rest. They have been away from Wayne about five years, but she is still homesick for this splendid community.

One hundred fifty-three pleasure cars, shown by sixty-one manufacturers, twenty-six commercial cars from nineteen firms, and a balcony full of motorcycles will constitute the chief display at the Omaha Auto show in the municipal auditorium, February 21 to 26. The number of exhibitors is larger than before and the numbers of cars much in excess. The motorcycle display will be unusual, including pleasure cars, racing cars from the east, and all varieties of commercial cars.

Paul Gossard from Canada, a young man who came back with other relatives to visit among Nebraska relatives this winter was here this week to visit his uncle, P. A. Gossard at this place. He is planning to return to Canada now and be ready to resume farm work when the spring comes. He is of an age when he is liable to be called to fight for his adopted country if they make drafts in Canada. He thinks he will not volunteer, but might have to go if urgently invited.

There is a proposition awaiting the action of the commercial club executive committee at its next meeting looking to the ordering of a county map and calendar combined for the use of those who have been distributing such souvenirs among their patrons. Numerous places in this part of the state have combined in recent years and purchased a community calendar for distribution, saving much money and giving to each family a good calendar and not so many to some people and none to others as under the haphazard way of doing this work in the past when each fellow tried to outdo his neighbor. The money saved in some places has been used as a road fund. R. C. Packard of Norfolk, representing the Kenyon company of Des Moines, Iowa, submits a proposition for Wayne to purchase a county map with calendar for four years thereon to be placed in every home in the county. There has been no county map made of this county for about eight years, and the last one was a blueprint only.

R. R. Smith was through here Tuesday with a car of hogs from his farm, which he had loaded at Carroll, the roads for one mile between his place and Wayne being so badly drifted that he could not haul them to this station. While waiting at the station for the train carrying his stock, he took a look backward, and saw himself as a young man coming to this then wild, unbroken prairie land 35 years ago. Saturday will be the anniversary of his arrival in Nebraska. He wanted to go to Cedar county, but could not buy a ticket from Sioux City to Wayne or Emerson, so he purchased one to Ponca. The train was blocked by snow five miles out from Ponca, a snow plow and dead engine being stuck in the drifts ahead of them. But his ticket was good for passage to Ponca, so he and the conductor walked the five miles. He then started out for Coleridge and was three days walking the drifts to that berg. He said had he known at that time what was in store for him, in the way of hard work and hardships he would probably have walked back to his Iowa home near Monticello and been dairying there now. But he stayed with it, and now has a good farm at least to show for his privations. He says that many things have changed since those days, and beyond a doubt he is glad he did not go back to his old home to remain.

**POLITICAL POT TO BOIL**

The "Early Birds" in the Political Game Ask Recognition.

Saturday, March 18, 1916, will be the last day for candidates to get their names on the official primary ballot. A glance at the records kept by Secretary of State Pool shows a number of filings for state senator and representative, but of these mention will be made in a later letter.

The presidential situation is amusing. Way back in January 1913, John O. Yeiser got into the game with a petition for Theodore Roosevelt. Crawford Kennedy filed a protest, but the petition slept in Addison Wait's dusty pigeon-holes until December last year, when Yeiser tried to withdraw it and Charlie Pool said it "couldn't be did." Then Teddy requested that his name should not go on the official primary ballot, and Pool granted the request.

In December and January the republicans filed petitions for Charles E. Hughes, William Hale Thompson, Henry Ford, Albert B. Cummins, Theodore E. Burton, George W. Norris, Henry D. Estabrook—seven, count 'em—but Hughes, Thompson and Norris declined to be used as stalking horses, and Ford is too busy with his peace propaganda to bother with a little matter like this. The real race thus far is between Cummins, Burton and Estabrook.

On the democratic side the name of Woodrow Wilson has been filed and a motion that the "nominations be closed" is in order.

For United States Senator, Chester H. Aldrich and John L. Kennedy, republicans, alone have filed. W. E. Andrews and Silas R. Barton, republicans in the 5th and Ben S. Baker, in the 2d; Ashton C. Shallenberger, democrat in the 5th, and Charles O. Lobeck, in the 2d, have filed for congress in their respective districts.

For governor the filings have not been plentiful up to February 3d. Wm. Madgett, Walter A. George, and Samuel Roy McKelvie have been named by the republicans; and John H. Morehead, Charles W. Bryan and George W. Berge by the Democrats. Governor Morehead has intimated that he would not file an acceptance, just as Dr. P. L. Hall did some days ago.

Walter Kiechel and Theodore E. Nordgren want the republican nomination for lieutenant governor. James Pearson, democrat, asks a renomination.

Addison Wait for secretary of state, W. L. Minor for auditor, W. H. Reynolds for treasurer; Fred Beckmann and Joe W. Leedom for land commissioner, and C. A. Randall for railway commissioners—all republicans ask nominations. The present democratic incumbents, Secretary of State Pool, State Auditor Smith and Treasurer Hall have not filed yet, but they will undoubtedly be candidates for renomination.

J. Reid Green for the 1st, Norman T. Johnston for the 5th, and Peter Jansen at large, ask to be delegates to the republican national convention. No democratic delegates have filed thus far.

Additional democratic filings are A. J. Sliger for land commissioner; Victor E. Wilson and Andrew Clute for railway commissioners; and Harry Adams for State Treasurer. The next six weeks will doubtless be a busy time for Secretary of State Pool, for the closing day for filing is March 18, 1916.

**A Calf and Pig Feeding Trial**

Hoard's Dairyman:—I notice in your valued paper of December 31, an article on "Substitutes for Skimmilk for Calves." Having raised many calves in various ways, I will give my experience of one in particular.

Living in the city and having a calf, a nice Jersey heifer, and my wife selling all the milk except what we used, and having studied feeds to some extent, I was much interested in trying out this problem. In studying up the analyses I found out that keeping nice clover hay and equal quantities of bran, oil meal, and gluten continually before her in a box, dry, that she would thus have access to a combination of feeds the analysis of which is almost exactly that of the mother's milk. This, I concluded, ought to be a good feed for the calf. From the time the calf was three weeks old it had no milk whatever and no other feed than that named, and I never grew a better one. It was the winter season and I gave her lukewarm water to drink, morning and night.

At one time I told a friend of mine that I would furnish the feed if he would put four little pigs in with his lambs on pasture, feed them 100 pounds of milk during the month together with gluten, dry or mixed so it was an thick slop. At the end of the month he reported that when they started the 4 pigs weighed 119 lbs., and at the end of the month they weighed 200 lbs., a gain of 81 lbs. They were fed a bag of gluten and a little over 300 lbs. of whey during this period. Figuring this gain at 7c a pound and the gluten at \$1.40 per hundred, it would make the whey net about \$1.35 per hundred, although we will not claim that it has any such value. The value in all lines of feeding comes from the intelligent methods of feeding obtained by scientific research and practice.

**Farmers' and Breeders' Meeting**

Sioux City, Iowa, February 7th. Special: The big guns of the farmers' world, men who have won fame as experts on the scientific management of farms, or who have been accorded equal renown in framing beneficial farm legislation may be heard at the meeting of the Interstate Farmers' and Breeders' association here on February 16 and 17.

The Meetings will be held at the Martin hotel and the guests will represent the three states, Nebraska, South Dakota and Iowa. In addition to the business features of the big session, an appealing social program will be carried out. Besides the farmers, the plans call for elaborate entertainment for the wives of association members, winding up with a complimentary banquet, at which W. L. Harding, lieutenant governor of Iowa will be the speaker.

Andrew E. Lee, former governor of South Dakota, E. G. Dunne, Mason City, Hon. Frank J. Spillman, chief of the farm management bureau of the Department of Agriculture, Washington, D. C., E. E. Perisho, President of South Dakota State college, and H. G. McMillan will be some of the speakers at the gathering. Besides these men, experts from the agricultural colleges of Iowa, South Dakota, and Nebraska will discuss phases of farm management and improvement of animal breeds.

The sessions will be made practical in nature through demonstrations and special addresses on the handling of grain by officials of the Sioux City Board of Trade.

B. M. Stoddard of Sloan, Iowa, will discuss a special topic bearing on the improvement of rural school work through consolidation.

**Rural Carrier Examination**

The United States Civil Service commission has announced an examination for the county of Cedar, Nebraska, to be held at Wayne, Nebraska, and Sioux City, Iowa, on February 26, 1916, to fill the position of rural carrier at Cole-ridge and Hartington and vacancies that may later occur on rural routes from other post offices in the above mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service commission at Washington, D. C. Application should be forwarded to the commission at Washington at the earliest practicable date.

D. H. CUNNINGHAM, Auctioneer. PAUL MEYER, Clerk.

28, 1839, and died at Carroll, Nebraska, January 30, 1916, being 76 years, 11 months and 2 days of age.  
 In 1852 he moved from Ohio to Illinois and there on September 5, 1861 enlisted in the Fourth regiment of Illinois volunteers, fighting with the union forces for three years, and was honorably discharged as sergeant on November 3, 1864.  
 At Boonesville, Missouri, on September 26, 1867, he was married to Miss Hannah Vanderberg and to this union were born seven children, six of whom are still living, one having died at the age of six years. Those living are, Mrs. Grant Marshall of Naperville, Illinois; Mrs. Dave Lang of Chicago, Illinois; Charlie Williamson of Leadville, Colorado; Fred Williamson of Arco, Idaho, and Clyde and Maud Williamson at home in Carroll. All the children living away arrived before his death and were present at the funeral services. He moved with his family to Wayne county, in the year 1891, and has lived here continually since that time.  
 The funeral was held at the M. E. church Tuesday at 2:00 p. m., conducted by Rev. R. J. McKenzie. Interment was made in the Carroll cemetery.

## Serving the Public Well

We believe that the public welfare is best served by our constantly making extensions and improvements to our existing property to meet the continuing requirements of the public for additional service

In order to get new money for extensions, it is essential that we pay fair dividends. No man will put his money in an enterprise unless he is reasonably sure that it will be safe and that fair dividends will be paid promptly.

We have absolutely no "watered stock." A dollar has been invested for every dollar's worth of securities issued. This has been proved beyond all doubt by hundreds of investigations by commissions and governing bodies.

In order that we may keep the investment of our security holders safe and our service to the public dependable and continuous, we maintain a sufficient reserve to rebuild or replace our property when it is destroyed by fires or storms, or is worn out or becomes obsolete.

A consistent adherence to this policy has enabled us to give you the best, the most comprehensive and the cheapest telephone service in the world.

## The Buskirk Cattle Sale

Last Saturday Geo. Buskirk of Pender—or more properly speaking from the south part of this county on a rural route from Pender—held a sale of Shorthorn cows at the Wayne pavilion and distributed nearly 50 head of cattle from his farm among the good farmers and breeders of this part of the state. The offering, mostly cows, brought fair prices, but nothing fancy, the bunch bringing about \$5,800. These cattle were all good individually and well bred, but they were not fixed up for show stuff nor had they been pampered or stuffed, and were all the better for their condition, especially for the farmers who took a number of the cows. \$200 was the top, while one lucky man picked a good one for \$65, while the others were not looking. Below we give the lot number, name of purchaser and the price sold at:

## Senior Class Enjoy Dinner

One of the delightful social events of the school year occurred last Saturday evening, when the Senior class of the Wayne normal gave a dinner at the Vibber cafe. It was one of the regular class functions, and as usual was well attended and much enjoyed. After a three-course dinner the following toasts were responded to: The Senior in the Past..... Anna Baer

The Senior of the Present..... Thomas Musselman

The Senior of the Future..... Vere Maun

Mr. Bright, the class sponsor, closed the program by one of his usual wholesome, well-rounded talks.

C. A. Kingsbury, county attorney for Dixon county, is being urged by a large number of friends in this judicial district, to file for the nomination of District Judge.

Attorney Kingsbury is splendidly qualified for the judiciary and his broad acquaintance throughout northeast Nebraska, places him in a strong position in the race should he decide to file. He has also demonstrated to the satisfaction of the legal fraternity that he is a jurist, student and interpreter of the law, and should he be nominated and elected, his conduct upon the bench would be conscientiously enacted.—Emerson Enterprise.

Mr. Kingsbury is a law partner of Mr. Hendrickson of this place, and is frequently here on legal business. He has many friends here who would be glad to vote for him were he a candidate in this district.

**Petition of Hearing and Notice on Petition for Settlement of Account**

**FOOD AND THE TEETH**

The famous Dr. Osler has said, "There is more physical deterioration caused by poor teeth than from the use of alcohol as a beverage." Meaning that a person with poor teeth could not properly masticate, consequently he would have poor digestion, which of course caused physical deterioration, especially in children.

The rule as laid down by physicians and dentists is plain; course foods, very little sweet, much chewing and good health.

"Rich, sweet and soft foods, no chewing, poor teeth and poor health."

## SELECTING BREEDERS.

Vitality is the Thing to Seek in Poultry Parent Stock.

Vitality—that's the thing to seek in selecting individuals for the poultry breeding flock, because lack of it in the parent stock is one of the great causes of loss in poultry raising.

Marks of strong vitality: A head that is short, broad, deep, compact; an eye that is bright, full, clear, round, prominent; a beak that is short, broad, well curved; comb and wattles that are well developed and fiery red; a body that is well jointed, compact, stout; back long and broad; breast deep, broad, thickly fleshed, with a keel running well back; capacity large, especially in a hen which needs room to develop a digestive and reproductive system capable of manufacturing many eggs. A strong bird generally stands with shanks squarely under its body and wide apart at the knee joints. Its toe nails are usually worn broad and flat across the point, evidencing great activity.

The marks of low vitality are the opposite of those of strength. The head is long, flat, sunken, narrow; the eye is small and dull; the comb and wattles poorly developed or pale. The body is often loosely jointed, with knee joints close together. The breast is narrow, shallow and poorly fleshed. Long, pointed toe nails indicate less activity.—H. A. Bittenden, Iowa Station.

SOME GOOD BREEDERS.

**SCIENTIFIC FARMING IN GUAM**

First Report of Experiment Station on That Island Possession.

The island of Guam, which now belongs to this country, has an experimental station, and, like the rest of these institutions, it issues a report, says the Rural New Yorker. The first one, just at hand, is very interesting. Among other statements made in this report is the following:

"The average native of Guam is extremely hesitant in the investment of a dollar in a new enterprise or any farm equipment that has not through custom or long usage become an acknowledged necessity." It would appear from this that there are some agricultural habits which are worldwide and not at all confined to the island of Guam. The island has 210 square miles, and there are real agricultural opportunities there. Quite a number of milk goats have been imported, and they appear to be doing reasonably well. The island goats were of an inferior and degenerate type. The introduction of new blood from good strains of dairy goats is improving the stock of the island, and it seems as if goat breeding fairly conducted would be a help to the inhabitants. Cattle of the Ayrshire breed have also been introduced, as this breed appears to be best suited to the island conditions. While it is not expected that the island of Guam will ever add materially to the food supply of this country, the work there is interesting, and if it can be so developed as to enable the inhabitants to live with greater comfort, enjoy better food and add somewhat to their wealth the money spent on these experiments will be well invested.

**LESPEDEZA HAY GRADES**

The following are the grades of Lespedeza hay recommended by the Louisiana Lespedeza Growers' association:

Choice Lespedeza hay shall be Lespedeza not mixed with over one-twentieth foreign growth, properly cured, bright natural color, sound and well baled.

No. 1 Lespedeza hay shall be Lespedeza mixed with foreign growth, properly cured, good color, sound and well baled.

No. 2 Lespedeza hay shall be Lespedeza not over one-fourth mixed with foreign growth, fair color, sound and well baled.

No. 3 Lespedeza hay shall include all hay not good enough for other grades, sound and well baled, provided that no hay shall be termed Lespedeza hay unless it contains at least 50 per cent Lespedeza.

No grade shall include hay that is badly cured, stained, thrashed or from which the seed has been removed or is in any way unsound.
