There appears to be trouble brewing at Lincoln, or will be when the women of Nebraska vote. Senator Sorgham wants the law to protect the skunk from slaughter, because the skunk is said to be an enemy to the gopher—and now comes Mrs. Sorgham, and says it will not do for the skunk kills the chicks and sucks the eggs, too.
Elsewhere is the remark that there "appears to be trouble brewing at Lincoln" but Bixby fears that the brewers are going to be the trouble with any prohibitory legislation which passes the state senate. Well, if the senate does not tote fair in giving the people what they voted for, a law to properly enforce prohibition of the manufacture and sale of intoxicants except under the restrictions and exceptions of the amendment we predict that they will see trouble brewing.

A number of districts west of here are organizing for their annual wolf hunts. At Battle Creek and Pierce the plans are being laid to surround a lot of territory and drive the wolves to a center and there slaughter them. This appears to be a slander on brother Warner of the Lyons Mirror. The story goes that some one advertised for a lost watch in the Mirror 20 years ago, and now, 17 years after the death of the man who lost it, the watch is returned to the Mirror office for the reward—which implies that people do not read the Mirror.

The Crofton Journal, in commenting on the proposition of the Bloomfield Monitor for a county organization of the newspaper folks of his county, suggests that they meet semi-annually in the different towns and that the commercial clubs of the towns furnish them a square meal at the time—two squares a year—that's too much—the field will soon be over-crowded.

M. A. Lyon a farmer near Hartington last week cracked the record for big loads of corn when he dumped 98 bushels and 32 pounds into the hopper from one load. The price was such as to bring the sum of \$82.75 for the load. That is going some when a farmer can get more than \$80 for a single load of corn at a time when the crop conditions have been excellent.

Three cases of appendicitis went from Laurel Saturday to a city hospital for operations. Laurel people would find Wayne hospital nearer than any other for their needs, and as successful as any in the world, according to the record made thus far. But one death at the hospital since it opened, and that of an old gentleman who went there for a broken hip, and was up and about the place just waiting for good weather to get out, when he was stricken with paralysis.

Bloomfield is concentrating efforts to organize a new band. A public comfort station or rest room is also being discussed. It is well for Bloomfield to consider these questions, for three months from today their present rest-rooms will be closed by authority of the people of the state, and it is a time when the public-spirited people of all places where they have saloons to move to provide something better than they have had and do it now, so that as far as possible those who have patronized these places may not be taken in at worse places. For something is sure, that following the closing of the saloons in many places there will spring into existence a substitute and it will be time for real reformers and missionaries to do real work.

Mrs. Carl Schmidt, who lived here about thirty years ago, was here last week from Waterville, Washington, visiting at the home of Mr. and Mrs. H. Gettman. She was accompanied by her son Chris Schmidt and wife, and their little child, and also by two younger children, Elizabeth and Albert. The younger Mrs. Schmidt was a resident of Wayne when a little child, but left here 14 years ago. She was able to pick out the house in which they lived when she was a little tot, and piloted the party direct to it, tho she notes many changes in Wayne since she went to Washington. They left Saturday to visit at Grand Island before going on to their home in the west. They live in the great wheat growing district of central Washington, and the young man said the farms all appear small to him here—too small he thinks.

Died at Age of 84

Mrs. Wilhelmina Kruger nee Statz, died at the home of her daughter, Mrs. Wm. Kruger nine miles south Randolph, Sunday night at the ripe old age of 84 years, 8 months and 18 days. She had not been ill but death was due to old age.

Mrs. Kruger was born in Samel-hagen, Pommern, Germany, on May 3, 1832, and was brought up a Christian in the German Lutheran faith of which she was a devoted member to the time of her death. She was married in Germany to Herman Kruger, and to this union were born four children, two sons and two daughters. The husband and one son died thirty-two years ago in Germany. With her three children she came to America in 1885 and located at Norfolk at which place she resided for a number of years, after which she made her home with her daughter, Mrs. Wm. Kruger.

Funeral services were held at the German Lutheran church in this city this afternoon, Rev. Franzen officiating, burial being made in the Randolph cemetery.—Randolph Times.

The railroads are making 'sentiment for public ownership as fast as they conveniently can by their inefficiency. If it is not one thing it is another. One day last week a local dealer saw a familiar looking car in a train which was just being made up here, and he glanced at the car number and then went to look at his shipping bills and his so suspicions were confirmed. It was a car he had loaded six days before, and all of that time it had been on a Wayne siding; and people calling for cars every day. In fact, corn-shelling crews had to stop work because the elevator would hold no more corn and no cars could be had. We were also told that loaded cars had been seen standing on the track at a near-by town a full week after they had been loaded and billed out. Yet the railroad is in such a hurry for its cars that it will scarcely give time to unload a car once it arrives at destination. One would think Chicago across the continent at least from Wayne, judging by freight time. For we know that a car loaded for the past ten days was reported out of Chicago three weeks before it arrived here, as it is not here at this time it is safe to guess that it will be longer time than that before it shows up. Wayne is no exception—all elevators are full.

EQUALITY

All men are equal in their birth, Heirs of the earth and skies; All men are equal when that earth Faces from their dying eyes. 'Tis man alone who difference sees, And speaks of high and low, And worships those, and tramples these, While the same path they go. O let man hasten to restore To all their rights of love; In power and wealth exult no more, In wisdom lowly move. Ye great, renounce your earth-born pride! Ye low, your shame and fear! Live, as ye worship, side by side; Your brotherhood revere! —By Harriet Martineau, in The Public.

A. P. Gossard and family move to Lincoln, or University place next week. Such is the news that came Monday, and with many other friends we are sorry to see them go. For the past sixteen years they have been residents of Wayne, progressive in every good work for the community and their church. Both Mr. and Mrs. Gossard will be missed when it comes to looking about for some one to put a shoulder to the wheel and push to carry some desired project over the pinnacle to a place where the downgrade begins and running is easy. Mr. Gossard has been for years identified with the creamery interests of the place, and has been a factor in keeping a standard of butter output to a point where it brought the top price, as well as a bulwark against the encroachments of the creamery combine, upon the producers of cream and butter. He still retains his Wayne property so may return some time. Gus Will has rented his residence and soon moves in.

One is reminded that spring is coming by the fact that the number of incubators and brooders being sent out by the Radio-Round people is increasing in number. We saw twenty loaded on one train Monday, and Mr. Hufford told us a few days ago that up to that time their shipments had been more than three times as great as for the corresponding period the year before.

Senator Phil Kohl was home over Sunday, the legislature having taken a short recess for the committees to catch up with the procession, and get in shape to introduce more bills before the time limit expired than they could otherwise have done. Starting with a good resolve to keep the number of bills introduced way down in number, the result is the same as other years—the hopper being kept full all the time.

W. Weinstein came this week from Sioux City to live at Wayne. A son came with him, and has entered the city school here, and the family will follow a little later. Mr. Weinstein comes with a modern equipment for the repair of boots and shoes, as well as to make them to measure. He is located in the Britton building west of the State bank, and is already mending soles. He advertises to complete work promptly, which is a feature all people appreciate.

James Steele left Wednesday morning to take charge of the school at Naper, as principal. This school has a 10-grade course, and four teachers including the principal. They have been having a bit of trouble there in keeping a teacher because of sickness and other causes beyond the control of any, and we predict that James will make good and bring order to the unsettled state of affairs, and have things running smooth as clock work before the school year closes.

Robert Jones, who resides in the west part of the city calls the Democrat to announce that himself and family are staying at home for a time, himself and children being on the sick list with scarletina—a disease quite harmless in itself, but one from which an occasional case of scarlet fever may be contracted. He was kept in bed nearly a week but is now about the place, and all are improving. We are glad to note that Mr. Jones was willing to go into almost voluntary quarantine, for it too often happens that these mild cases are kept quite and no precautions taken, and the result is sometimes an epidemic which may later be traced to some mild case for its origin.

J. J. Williams was kept at home last week for a time, and his trouble soon became so serious that Dr. Sibley was called from Sioux City, and found it necessary to operate, making an opening into the thigh bone to release pus which was forming there. When Mrs. Chas. Reynolds returned from Minden, last week, where she was called to attend the funeral of her father, her brother, Walter Linson accompanied her and is visiting here for a time.

Says the State Deputy Pure Food Inspector

Read The Report

Of this place, as made by Mrs. Weeks, after a most thorough inspection:

"Excellent" in this report stands first and each of the following items were checked "Excellent": Ceiling, walls, floor, shelving, ventilation, food display and general sanitary condition. Next nearest condition is marked "Good" and here is the list: Cellar, kitchen, cupboards, lavatory, waste disposal, back yard, utensils, sinks, employees clothing, butter, candy display, water supply. The following items were marked "Fine" which means the same as good and excellent: Refrigerator, ovens, meats, foods in bulk and proper protection. Utensils well washed; no evidence of rats and mice, and no cuspidors.

With such report it is small wonder that people recognize it as a real cafe—a satisfactory place to eat—POPULAR WITH EVERY PATRON.

THE ideal soap is mild so that it is pleasant to use; pure so that it can be used freely without danger. It lathers freely so as to save time. It rinses easily so as to leave the skin really clean. It floats so as to be convenient. It is white so as to suggest cleanliness.

Ivory Soap is and does all these things. It is the ideal soap for the toilet. Yet it costs but a trifle.
