## RED CROSS MUSICAL PROVES TO BE A GREAT SUCCESS

Steckelberg With His Violin and Silber in His Piano Numbers Play Their Way Into Hearts of People

## \$200 GIVEN TO LOCAL RED CROSS

Wayne people enjoyed a rare treat Sunday afternoon when Carl Frederic Steckelberg and Sidney Silber of the University School of Music of Lincoln, came to Wayne in the interest of the Red Cross and gave us a recital never equalled here in any former entertainment of this kind.

To a lover of music of the superior kind each number on the generous program seemed better than the one before. It is indeed a rare and precious gift these gentlemen possess. With the magic of beautiful harmony they smoothed all the ache, all the cares of the strenuous life we are leading and, for a brief two hours, carried us above and beyond the sordid every day happenings, and better still, left us bigger, better, broader, happier for the acquaintance of their magic.

Carl Frederic Steckelberg is a stranger to the writer but his music is an old friend, each number having been interpreted for us at some time by some artist, but never more beautiful than we heard it Sunday. Like a perfect June day, made more beautiful by the love of a friend, so Carl Frederic Steckelberg made our loved music sweeter, more beautiful because of his closer understanding, "that divine gift of the gods." Mrs. Ouida Steckelberg played his accompaniments.

Someone has said that a very simple definition of music is "Discords Smoothed into Harmony." Like the false note in a beautiful life, there cannot be perfectness where there is one discord. So the music of these artists played on the heartstrings of their listeners, never failing to get a response to their perfect melody and who knows of the discords their music has forever smoothed away?

Sidney Silber and his piano, his inimitable way of making us better acquainted with the masters, was a great treat. Words of pleasure and appreciation were heard on every side. The grand piano, shipped here especially for his use at this musical, aided wonderfully in the performance. It can be easily seen that an inferior instrument would have lessened the beauty of his numbers.

The opera house was packed to its capacity, many out of town people were here. The day was an ideal one. These artists came here because of the promptings of patriotism and loyalty to this great country of ours. Here they have lived and enjoyed the privileges of justice and liberty and here they are giving of their talents and money—back to the country which provided their blessings and the opportunities which have enriched their lives. Actual expenses were paid them and the Red Cross was given the balance of the receipts which amounted to something near \$200.

## WAYNE COUNTY MEN CALLED FROM MARCH 4TH TO 9TH

Clerk Reynolds of the local board tells us that word has come that the remaining 15 per cent. (probably 16 men), will be called to training camp some day between March 4th and March 9th. When the last men went our quota lacked 17 men of being full, but since that date one man has been credited to the county, and if no other credits come the call will be for sixteen. Clerk Reynolds tells us that he cannot give the list at this time, as a report on classification from those who have appeals pending before the district board may cause some changes from the list as it would appear if the call was sent out today. The four who were once ready to start are included in this number.

## STOCK BREEDERS ASSOCIATION DONATES TO RED CROSS SALE

At the meeting of the Wayne county stock breeders Saturday afternoon a committee was named to purchase some good pure bred animals from some member of the organization and donate it for the sale to be held here Saturday. From the talk, which was not formal or binding upon the committee it is quite possible that a fine young bull will be offered, and if so, he should add several hundred dollars to the purse.

## MARCH MOVING

G. W. Albert and family are now residents of Wayne county, coming here from Leigh last week to take possession of the L. M. Owen farm which he purchased more than a year ago. Mr. Albert has been moving for some time, using an auto truck and making a trip as chance came with such machinery as he was through with. Thus when the final move time came he was all but finished. He came with live stock, driving and leading horses and cattle, and got two good days for the final move, but the mud was a little bad the last day.

Ernest Paulsen has moved to a farm near Carroll, and having forsaken the mercantile life will try his hand as an honest tiller of the soil. His Wayne residence is occupied by Mr. and Mrs. Cavanaugh. A. P. Gossard will move to his own home just south of the track this week, and Gus Will, who has been living there for the past year, goes to the Roy Tharp house. After waiting considerable time for cars, Mr. and Mrs. John Grimsey left this week for their new home near Jerseyville, Illinois. This worthy couple have twice been residents of this vicinity, selling once and going to a place in northeastern Iowa. Then returning again. They may return again any time they wish.

C. W. Dunham, who has been a resident of Wayne for several years, is just waiting for cars to move to Atkinson. When he vacates, C. A. Berry is to move to his place and vacate the residence he sold to Mr. J. C. Forbes a year ago, Mr. and Mrs. Forbes moving in from the farm just north of town.

W. A. Hunter (Lou or Sloughgrass) moves from his farm to the Richards property.

C. D. Martin moves into the Buffington house, which he has purchased. His place was taken when the college took added grounds.

H. B. Tremain vacates the college Cafe, to make room for the new owner.

S. H. Richards moves to a farm near Newcastle.

R. N. Meier moves from the Space property to the Reynolds house vacated by A. P. Gossard.

Gust Will has purchased the old Hunter place on First street from Ray Tharp and taken possession. A little later Mr. Tharp will move to Antelope county.

E. E. Fleetwood will follow Earl Merchant when he vacates the Hixcox house, and Earl and family will go to the Williamson house which he has purchased. S. L. Owens will move from this house to the Swanson house south of the Pile residence.

F. H. Jones moves from the Pine-grove house to the A. A. Wollert residence, and Mr. Wollert goes to the county.

W. L. Benson moves from the Crossland brick to the Orcutt house south of the track, now occupied by I. C. Trumbauer, who will become a farmer.

H. L. Atkins moves from the Buffington property to the Atkins house, vacated by Fleetwood.

P. A. Lantaff has moved to a farm near Canton, South Dakota.

## HE FOUGHT THE KAISER IN '64

J. D. Hansen of Norfolk was at Wayne Wednesday on his way to visit his children near Bloomfield. He was visiting with the Hansen brothers here, and while not related except that they are all natives of Denmark, they enjoyed a social hour or two. Mr. Hansen is 78 years of age, and was a soldier against Germany in 1864, when that country stole the best part of Denmark, driving the Danish soldiers, who came to defend their homes, back with a force of men to one, armed with what was then the latest guns, while the Danes had but the old army musket which did about as much execution behind as in front. Mr. Hansen was lost to his government for a time, but they found him a few years ago, and since that time have sent him a pension regularly—but it is small, being but about \$25 a year. He is evidently not in financial position to need this, but it shows the good faith of his impoverished country, for the Germans took the best part of it, and no doubt would have taken it all, only what they left was not thought to be worth taking. But by intelligent methods of fertilizing, drainage and caring for their land, the Danes now have built these almost worthless lands into one of the very rich agricultural sections of the world.

See the Novelty Fair adv. on page 3.—adv.

## CLOSING PROCLAMATION

By order of the Mayor and Red Cross Committees:

All stores at Wayne are to close at 12 o'clock noon, Saturday, March 2nd, and remain closed until the hour of 3 o'clock, p. m., that day that all may participate in the Red Cross Sale.

Banks will be closed from 12 to 1:30.

IT IS SO ORDERED.

## A PAYING INVESTMENT

Contributions made by residents of Wayne county to the National War Work Fund of the Army Y. M. C. A., which has now reached \$60,000,000, are already paying big dividends in the lives of boys who have gone from this city and county to receive their military training at Camp Funston, Camp Cody and other military points in the west. According to advices reaching here this week the Y. M. C. A. huts in the big cantonments never have been so popular as during the recent cold weather, when thousands of enlisted men were driven inside the buildings for their amusements, games and letter-writing. The cheery open fire-places, the phonographs, and pianos, books and magazines form a happy combination that spells "home" to the boys away from home.

Practically every family in this community has received letters from Nebraska boys written on Y. M. C. A. or Red Triangle stationery which is issued without cost to every man in uniform. At Camp Funston recently a total of 350,374 letters were mailed by the Y. M. C. A. in a single month, all of them having been written at the benches in their huts.

Y. M. C. A. accommodations have been provided already in more than 150 centers in France for the soldiers in Pershing's expedition. At the present time there are more than 1300 American Y. M. C. A. secretaries in the war zone promoting for Uncle Sam's boys the same program they have enjoyed in the camps in this country.

When the American troops took over their section of the French fighting front there were eight Y. M. C. A. dugouts waiting for their exclusive use. These provided chocolate, sweets of all kinds, biscuits and knickknacks. The last thing American troops will get before they go over the top will be a cup of hot coffee or tea, a biscuit or two, some chocolate for emergency rations and a word of cheer and inspiration from the Y. M. C. A. secretaries.

## SCHOOL NOTES

Miss Frances Strickland was visiting high school classes Friday.

Members of Mrs. Keyser's class in music gave the following numbers from their recital program before the high school yesterday:

Duet, "Sleighride," Eugene Walter, Wilma and Elizabeth Gildersleeve.

"Valse Brillante," Op. 34, No. 1, Onie Richardson.

"United States of America," Paul Lawson, Henry Ley.

"Varsovia," Chopin. Faunel Senter.

"Fantasia," Schubert. Katherine Strickland.

"The Palms," Leybach. Elizabeth Gildersleeve.

Duet, "Fanfare," Op. 303. Bahm: Frances Beckenhauer and Elizabeth Gildersleeve.

Mildred Wright and Helen Chapman are new pupils in the fourth grade.

Pupils who have moved away are John Coon, fourth grade; Lucia Hanson, Alice Richards, eighth grade.

## CORSETS

I am glad to call attention of the ladies to my complete stock of corsets. Here you will find good standard garments moderately priced, and also some good ones, but less expensive. I carry a full assortment of sizes and styles, such as the Noco, Henderson, Alberta, Mmc. Lu, and others. I feel confident that you can find just what you need in my stock.—Mrs. Jeffries' Ladies Ready-to-Wear Store.—adv.

## HOME GUARDS PROGRESSING

Captain Harington has nothing but words of praise for the members of the new guard organization and the manner in which the "fall in" and "take about" according to command. Soon they will be veterans.

## EVERYTHING MADE READY FOR RED CROSS SALE

Men and women have worked as they seldom worked before to do everything possible to make the sale at this place next Saturday an event in the history of Wayne, and arrangements are nearly completed for making Saturday a record-breaker. No object is more worthy than that of providing funds for this great charitable organization to use to relieve suffering everywhere and care for those who have gone out to fight for liberty.

Give till it hurts—buy until you go broke, is the sentiment of the day—business and pleasure and sweet charity combined prove that it is more blessed to give than to receive. Wayne business houses are to close, the farmers' will come, the people from neighboring towns will help swell the fund, and the name of Wayne county will have a place in the history of Red Cross work.

## GOOD HAMPSHIRE OFFERING

There are not many Hampshire breeders in this corner of Nebraska, but those who have the best strains of that breed appears to be well pleased with results. E. F. Shields, who lives in Stanton county, but just as near the good county of Wayne as he can get, is one of those who have been building up a herd of these "bacon hogs," and he is now out advertising his first public sale offering. He will sell at Wisner, Saturday, March 29th, his opening sale having 55 head of bred sows and gilts. Mr. Shields seems to be starting right, has bought some good stuff, and then attended to business carefully and raised from it a lot more equally as good. It will be an opportunity for those in this part of the state who are looking for a foundation for a herd to attend.

## COUNCIL PROCEEDINGS

## MRS. S. E. SODERBERG DEAD

About two weeks ago this pioneer lady was taken from her home between this place and Wakefield to Sioux City where she underwent an operation for a ruptured appendix, and two weeks later passed away. The body has been brought to the home and the funeral is to be held from the home and the Swedish church sometime tomorrow. Mrs. Soderberg was among the early settlers in this part, and an estimable lady whose death will be deplored by many.

## TIDRICK HOG SALE WEDNESDAY

Next Wednesday, the 6th, Harry Tidrick will hold his annual sale of bred sows and gilts at Sunny Slope farm, just southeast of Winside. Harry sort of lost his reckoning, and discovered too late to remedy the fact that he had but this one week in which to advertise his sale, when he thought he had two weeks—but he is now thoroughly awake, and spreading the printer's ink in such manner as will bring him bidders, for all know, who know him, that he always has a good offering.

## FOOD CONSERVATION URGED

J. H. Kemp was at Omaha Monday and Tuesday attending a great food conservation meeting of state and national conservation officials. At Norfolk Tuesday night he attended a district meeting. The facts are that as a whole the people are not conserving in their homes as they should. They find it hard to realize that a most serious condition confronts us—that because they see plenty all about some one else is hungry, and that someone the son or brother out in the trenches fighting your battle and mine—fighting the battle of all for world-peace. Perhaps making the supreme sacrifice—and what are you doing? Growling because you cannot get the best of flour without taking something that you think is not good enough for you—and perhaps feeding the substitute to stock. That is not conserving—that is not sacrificing—that is pure, unadulterated selfishness—just damned hogishness. Why not do your little part? Why not eat of the abundance of wholesome food which cannot be shipped abroad in order to spare the best for the "Boys Over There?" Be a man or a woman among men and women—do your part in this struggle even if it be nothing but ceasing to gratify your unhealthy desire for choice, and oft-times injurious food. We are told of cases where there are those who have not been sparing, but apparently delight in seeing how little regard they can have for the regulations laid down for guidance. Are you better than the soldier boy who has gone to the trenches? Not in the eyes of anyone except yourself if your conduct is that of a glutton and a hog.

We trust that the reports are not true, but if they are, it would be just to send those who willfully disregard the rules to the front where they may realize what sacrifice is. We know not who may feel hit by this, but hope if the shoe fits, you will reform. Let's all do our bit, and do it today, tomorrow, and every day until honorable peace crowns the Allied efforts to make the world a safe and decent place in which to live.

## HAPPILY WED

Miss Grace Kayton of Lyons, Neb., and Dr. W. I. Devers, a promising young physician of Upland, Neb., were quietly married on Feb. 18th at the M. E. parsonage, in Tekamah, Neb., Rev. Buell officiating.

They were accompanied by Mr. and Mrs. Vernon Larson and Miss Maude Kayton, both sisters of the bride. They left the following day for Upland where they will make their future home.

The bride is a daughter of our esteemed citizens, Mr. and Mrs. D. M. Kayton, while the groom is an entire stranger, we know he has chosen an efficient and accomplished helpmate and we sincerely wish them many years of happiness while passing over the tempestuous sea of life.—Lyons Mirror-Sun.

Miss Kayton attended the Wayne Normal a few years ago, and also taught not far from Wayne, and will be remembered by many of our readers.

## PAULSON-McPHERRAN

Miss Viola McPherran, daughter of Mr. and Mrs. Stewart McPherran, and Mr. Oscar Paulson, of Wayne, Nebraska, were married at the M. E. parsonage in Ponca Thursday morning, February 14, at 10 a. m., Rev. L. R. McLaughy officiating.

Miss McPherran is one of Dixon county's teachers and it would seem that Dixon county is having the misfortune of losing its prominent teachers by way of "Cupid's darts." However, the best wishes and congratulations of their many friends follow these promising young people as they take up the responsibilities of wedded life.

The bride wore a traveling suit of taupe broadcloth and the groom a blue serge. They left on the noon train for a short wedding trip and will be at home on a farm near Wayne after April 1.—Ponca Journal Leader.

## MARRIED

At High Noon, Tuesday, February 26th, Mr. Ralph Still, of Newcastle, Nebraska, and Miss Phoebe Clark, of Concord, Nebraska, were united in holy wedlock at the Methodist Episcopal parsonage at Wayne, the Rev. D. W. MacGregor, officiating. Mr. W. E. Clark of Dixon Nebraska was groomsmen and Miss Vera Still of Newcastle, was in attendance as bridesmaid. After a short trip east the young folk will be at home to their friends at Newcastle.

## GREAT PATRIOTIC MEETING WAYNE PEOPLE ENRUSE

It was a great gathering of citizens of this community which assembled at the opera house Sunday evening for what was announced as a patriotic meeting—and it was more than that—for it was educational to a great degree, building well a foundation of knowledge of conditions, and causes which produced effects; and the fundamentals of democracy of which we hear so much of late and really know so little. A patriotism founded on logical reasons is an intelligent patriotism—the kind that will inspire men and women to do things worth while—things which will live in history. These meetings are right in line with the work outlined this week by a gathering of notable men, including Ex-President Taft. Perhaps they got their idea from Wayne, where the plan formulated two or three months ago and is gradually being worked out as a means of community education.

It is true that most of our indifference to the needs of government is due to lack of knowledge of the importance of action, and it is better to educate and thus secure the help of all than to antagonize those who are indifferent thru lack of understanding. Then the slacker can be handled, and those now indifferent will aid in the work.

At the Sunday night meeting the address of Dr. House was most timely, and well calculated to give those who heard his splendid definition of democracy a broader and clearer view of the cause of this world-war. Without eloquence, but by masterly logic, the speaker carried the audience with him as he told of the causes of war and the fundamentals which form the foundations of democracy of autocracy. Who of those who heard him would defend autocracy? He made it plain that we are contending for the same principles that Washington and Lincoln stood for and would stand for if here now, and the meeting was in commemoration of the birth anniversaries of these patriots.

H. E. Simon of Winside made an eloquent and logical talk, telling of the unspeakable and almost unthinkable atrocities practiced by the order of the rulers of the Central Powers. It made one see red and stirred the blood of all true Americans to the boiling point. It must have been heard to be fully appreciated, for one cannot reproduce in cold type the eloquence of the speaker nor bring the inspiration of his personality to you without reproducing his language and this we cannot do. It was a masterly talk.

The reading by Miss Mack, "Three Patriots," was indeed grand and showed that all may be patriots by doing well the duty which comes to us to do. The tribute of Col. Henry Waterson, of the Louisville Courier-Journal, to the memory of Lincoln was given by the reader in such an eloquent manner that it would have been an inspiration had the venerable writer been permitted to hear his tribute read so ably.

The singing under the direction of Prof. Coleman was well calculated to inspire patriotism. Forrest L. Hughes sang the verses of "America" very ably and the audience joined in lustily on the chorus. Mrs. Gamble Johnson sang the verses of "Home Sweet Home" beautifully. We hadn't heard this old favorite for some time and it brought back a flood of memories most pleasant.

The Democrat believes that great good and nothing but good can come from such meetings, and hopes that they will be continued frequently, for Wayne and Wayne county is well supplied with talent to place a series of these Sunday evening patriotic meetings on a plane so high and inspiring that no one can in any way criticize or object to them. Let's have another soon.

## CANE SUGAR FOR CURING PORK

Brown sugar for curing pork is unobtainable in many localities this year. Cane sugar may be substituted, according to animal husbandry extension specialists. Molasses can be used in the proportion of three pounds of molasses to every two pounds of sugar. One must take care that the molasses used has an agreeable flavor. Standard recipes for curing meat follow:

Brine cure—For every 100 pounds of meat, 19 pounds salt, 2 pounds cane sugar, 2 ounces saltpeter 5 gallons water.

Dry cure—For every 100 pounds of meat, 5 pounds salt, 2 pounds of cane sugar, 2 ounces saltpeter.

Mrs. Mary Meyer and daughter were Sunday visitors at Emerson.

Mr. and Mrs. G. D. Burnham of Randolph were Wayne shoppers Monday.

Miss Florence Gardner came up from Wisner to spend Saturday and Sunday at home.

Mrs. Anna Sackerson of Wakefield visited over Sunday with her sister, Mrs. Gustafson.

Miss Maud Grothe, who teaches at South Sioux City, was home for Sunday visit with home folks.

Mrs. E. P. McManis returned to her home in South Dakota Monday after a pleasant visit here with relatives.

Miss Alvina Hagelstein of Randolph was a Wayne visitor Monday. She went to Winnside to visit Miss Anna Walde.

Robert Skiles returned the last of the week from a trip to Vayland, South Dakota, where he was looking after land interests.

L. A. Panske went to Norfolk Sunday to visit his brother a short time there between trains, the brother coming from Pierce to meet him.

Mr. and Mrs. S. J. Jacobson took their little boy to Omaha Monday to consult a specialist and to have the little fellow undergo a minor operation.

Mr. and Mrs. I. V. Henderson returned to their home at Marshall, Minnesota, Monday after a week's visit here at the home of their son and family, Mr. and Mrs. E. Henderson.

The school at Newman's Grove observed Washington's birthday with a holiday. As it came on Friday this year, John R. Massie, principal there, took the opportunity to visit home folks here until Sunday evening.

Miss Hattie Crockett, who teaches at Stanton, is home this week on account of the serious illness of her father, C. P. Crockett. Mrs. Bessie Church is also here from Manhattan, Kansas, to assist in his care.

The ostrich which Walter Savidge was to have given to the Saturday Red Cross sale will not be there, for it died the first of the week. Its mate passed away some time ago. They were attractions at the carnival last summer.

Mrs. Horace Gaffin, who formerly lived at Wayne, but is now a resident of Chalk Butte, South Dakota, where she is editor of the newspaper and postmistress, was called to her old home at Villisca, Iowa, last week by the death of her mother.

Mrs. Jack Davis and children from Emerson, Iowa, came last week to visit her parents, Mr. and Mrs. June Conger, and friends, while on her way to a new home in Cheyenne county. Mr. Davis tarried but a short time, and then returned to Iowa to get the moving stunt off his hands.

Mrs. J. W. Scott of Wakefield, who has been taking treatment at the local hospital here, has so far recovered as to be able to return home the first of the week, and before the week closes she, and Mr. Scott plan to leave for Los Angeles to spend the winter—or rather what is left of it, and that is really the worst part, in the opinion of many, who think March is the very worst month of the twelve in this locality, and it very frequently so proves. Mr. and Mrs. Scott have the well wishes of many friends who hope that her health may be greatly benefited by the climatic change.

O. B. Hall was an Omaha business visitor Saturday.

Miss Inez Schreffler visited over Sunday with relatives at Blair.

Miss Winifred of Winnside visited Miss Myrtle Butterfield over Sunday.

Miss Dorothy Huse came home from Stuart for a Saturday and Sunday with home folks.

Miss Clara Echtenkamp, of Arlington visited her sister, Mrs. William Krallman, several days last week.

Miss Ruth Wychoff went to Wakefield Saturday to Sunday with relatives. Miss Ruth teaches east of Wayne.

Mrs. G. C. Clark of Morningside, Iowa, came Sunday evening to visit at the home of her daughter, Mrs. R. N. Donahay and her son Ralph Clark.

Miss Blanche Bever from Iowa is here for the season at the Miss Grace millinery parlors. Miss Bever was with Miss Grace during the fall season.

Seventy-five teams are listed to enter the state bowling tournament at Omaha the week of March 16-24. We know not that Wayne will be represented. Probably not.

Next year the I. O. O. F. will be one hundred years old, and plans are already under way for the proper celebration of the event. The birthday is April 26, 1817.

At a recent meeting of the Welfare workers of the state, the name was changed to the "Social Workers," which conforms to the National name with which they affiliate.

Mrs. Fred Frey of Norfolk visited several days last week with her father, John Rosacker, at Carroll. Mr. and Mrs. Frey are moving from Norfolk to Geddes, South Dakota.

Mr. and Mrs. Ed Dotson from Winside were Sunday visitors here, and it is their intention to soon again become residents of Wayne, having rented the Mrs. Durin residence.

Miss Winnie Reese and Mrs. Miller and daughter of Battle Creek were here Sunday to attend the Red Cross concert and visit friends. Miss R. was a guest at the C. W. Hiscox home.

Fred Wolter did a commendable thing when he put up a calf for Red Cross at his sale last week. The auctioneer was only sorry that the one who purchased the animal did not let it come back for another selling.

The Wayne Red Cross sale promises to be something great, judging by the offerings which are being made for the occasion. Some may get bargains, and some may make donations. Certain it is, there is to be ample supplies from which to select.

Are you going to enjoy Tuesday evening at the Normal if you go, yes; for the Juniors then give their class play. Adv.

A new business opens up at Wayne with the new month. J. H. Liveringhouse, commonly spoken of as "Jack," has rented a part of the J. S. Lewis building, and will make it his headquarters from which he will do electrical work, as well as keep in stock a line of fixtures, and accessories.

Mrs. Nettie Davis of Blencoe, Iowa, came Friday and visited until Monday with her son and family. Atty. A. R. Davis, Saturday evening Mrs. Davis gave a little dinner to her mother's honor and invited O. C. Lewis, an old schoolmate in to talk over almost forgotten days.

Mr. and Mrs. E. L. Griffith leave this week for Irene, South Dakota, where they plan to spend the summer on a farm. They recently sold their residence in the north part of Wayne to Henry Isom of Dixon, and they come this week to take possession and become citizens of the good town of Wayne.

Now that the Randall stock of groceries is practically out of the Miller store building, the oxper, Herman Jilmer, will begin repairing, it preparatory to moving his stock of groceries to this location as soon as the room is ready. His complete is to be his work that he does not think the room will be ready in less than a month or six weeks.

The sale season now drawing to a close, has been one remarkable for satisfactory prices, whether just a farm sale or of pure bred stock. Auctioneer Neely of this place, in speaking of sales last week said that he assisted at the Seaman sale at Newcastle, and in spite of bad weather and no train service the offering of bred sows averaged \$108, gilts and all, with a top of only \$160, showing a very even run. At the Mat Burns sale near Ponca he said that grade Poland sold for an average of \$83. The Fred Walters farm sale returned more than the owner had expected, and so to with the sale of Frank Pritchard, Mr. Neely did not say how much of this sale was due to the auctioneer, but we have heard no complaint of his work anywhere this season.

Crossland, went to Lincoln Friday where she will visit her parents before returning to her home in Detroit, Michigan. She was accompanied as far as Omaha by Mrs. Geo. Crossland who visited a sister there for several days.

Mr. and Mrs. Jens Pedersen went to Great Lakes, Illinois, Friday where they will visit their son, Peter, who is in training there. Mr. Pedersen says they will miss their son greatly this spring when farm work begins as his going made them short of help. Their daughters are trying to take the place of men in the farm work and, like many other young ladies of today, are making good. The patriotism of the girls who are giving up their pleasures to step into the game ranks them with the boys in olive-drab.

C. F. Gifford was a Norfolk business visitor Friday and Saturday.

Miss Sophie Wieland went to Rochester, Minnesota, Monday on a business trip.

Miss Helen McNeil went to Sioux City Saturday for an over Sunday visit with friends.

Mrs. Frank Schutte took her little boy to Rochester, Minnesota, to consult the Mayo Bros. in regard to his health. They went Monday of this week.

Mr. and Mrs. E. W. Cullen, of Winside, were Sunday visitors at Wayne.

Mrs. James Miller and Mrs. D. W. Kinne were Sioux City visitors Saturday.

Mrs. Albert Clark returned to Inman Saturday after a visit here with her uncle and aunt, Mr. and Mrs. R. N. Tharp.

"Our Starry Banner" is the patriotic title of the Junior Class play to be given at the Normal Tuesday evening next. No one should miss it. Adv.

W. R. Ellis returned from a trip to Madison Friday.

Mrs. John Kesterson of Carroll was a business visitor here Friday.

Mrs. Ellis Girtin and Mrs. A. D. Lewis were Sioux City visitors Saturday.

E. W. Demell of Winside was a business visitor here Saturday. He went to Randolph in the afternoon.

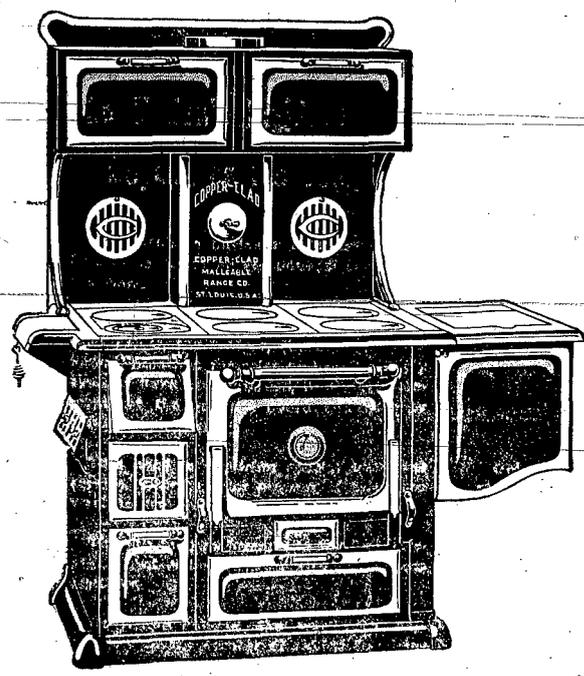

Mr. and Mrs. Thomas Fox of Gregory, South Dakota, returned to their home Saturday after a visit at the Alex Scott home.

# See The Asbestos Sweat

SEE WHY COPPER-CLAD RANGES DO NOT RUST OUT

A section of the range body is heated and there on the iron body is the sweat from the asbestos.

You see just exactly what happens every time you build a fire in your range you see why the sheet of copper is used and what it does and how it does it, and you take nobody's word—you see—you know—absolutely, positively.

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air-space. You know that storm windows, two windows with a space between, are much warmer than a single window even if it is as thick as the two windows.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR

The Copper-Clad Range has four walls and an air-space. See what it means in fuel saving. See how the heat is wasted by radiation on the three-wall construction and how it is saved by the four-wall thermos construction.

Suppose that you save but one shovel of coal at each meal; in a year's time you would save over a thousand shovels of coal. Pay? Of course, it will pay; and you owe it to yourself to see the asbestos sweat and know for yourself what range lasts longest—is most economical—cooks best—and looks best.

"OH—YOU BEAUTY"

That's what comes to your mind every time you go into the kitchen and see the Copper-Clad Range. It is an inspiration because the finest known example of the artist's art in range making. It is a picture because so pleasing—a statue because ideal in proportions—a symphony because of the perfect performance.

Copper-Clad means that a sheet of Pure Copper is placed BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on top of a roof to get out of the rain.

# National Implement Inspection and Repair Week!

A Great Movement Started for the Sole Purpose of Helping to Win The War.

## MARCH 4 TO 9, 1918

Save expensive delays and transportation charges and help in the Big Drive for Greater Food Production. If maximum crops are to be raised, all farm machinery likely to be used this year must be put in good repair so as to avoid delays in the field.

The week of March 4 to 9, inclusive, has been designated as National Implement Inspection and Repair Week, and the farmers of the United States are urged to inspect their implements and place orders for needed repairs that week.

The great difficulty of securing malleable and steel parts, which renders it impossible for dealers to carry the usual repair stocks, together with the delays in transportation, render it necessary to place orders for

your repair requirements early.

The warning has been given, do not fail to heed it by putting off ordering your repairs until the day you want to use the implement.

The Food Administration of the Department of Agriculture and the Council of Defense give sanction to this movement.

You will be performing an act of loyalty by heeding this appeal and acting promptly.

Preparedness is a necessity.

Look over your machinery and get your orders in NOW.

**TO THE MOTHERS OF OUR BOYS**  
The following poem was written by Mrs. Eliza Goldie, wife of Editor Goldie, formerly editor of this paper. The Goldies are now at Wilmington, California.

Fond hearts, you tremble at the thought  
Of separation from your boys  
Of heaving zones with danger fraught,  
Of cannonades, and war's deceys,  
Hopeless, indeed, our blackened skies,  
When judged and viewed through human eyes.

But listen, mothers, stop and think!  
There is no chance, while law and order  
Rules the Universe, Out on the brink  
Of yonder chaos and disorder  
God holds the reins of martial power,  
And His the victory hour by hour.

Whate'er befall, this thought recall,  
Your boys and mine, though far away,  
Are in His care, and cannot fall  
Beyond our loving Father's sway,  
Then trust Him mothers, trust and pray  
For the light of a brighter day.

Pray for the strength that brings release  
From the bondage of fear, from despair.  
Pray for the faith that must bring peace,  
Unite in an anthem of prayer,  
And He who hears the sparrow's song,  
Will heed our plea and make us strong.

Brother Stone of the Hartington Herald expresses the opinion that the editor in this part of the state who got free with \$5,000 worth of publicity on the bonds, Red Cross, Y. M. C. A., K. of C., Smilage and other kindred drives made his escape easy.

Suppose they had sent him to the front.

Plan to come and take supper with the School and be on hand for the Big Auction Sale at 9:00 p. m.

President Wilson has issued a proclamation calling the school children of the U. S. to the colors. He asks for an enrollment of an army of children 22,000,000 strong. The object of this is to assist the Red Cross in its noble work of healing the nations wounds; to teach patriotism; to train pupils for a higher type of citizenship and to produce a generation of men and women that will keep the world safe for democracy.

The Wayne schools have heard the call. They have completed their organization and will be ready for work as soon as they raise the money with which to buy the necessary supplies.

In order to raise the necessary funds the school will give a Novelty Fair at the School House, March 8th, beginning at 6:00 P. M. More than two hundred persons will take part in the production of this unusual program. No expense or pains will be spared to make this one of the biggest events of the season.

## Announcement Of Spring Display

Beginning March 1st and extending thru the season we will have on display an up-to-date line of Spring Styles. There will be no formal opening but I invite you to call at any time. Our exhibition of Spring Millinery reflects every correct and wanted fashion for Miss or Matron.

### YOUNG MAN KILLED

Chris Johnson, who resides near Menominee, was almost instantly killed yesterday forenoon while hauling a load of wood near the cemetery this side of St. Helena.

Johnson had been visiting his sister, Mrs. Tony Lammers, in that vicinity, and was hauling a load of wood when the accident happened. Evidently he had driven to the side of the road to get better traveling when the load toppled over and pinned him between the fence and the load. He was found a few minutes later, when life was extinct.

Chris Johnson was a son of Henry Johnson, well known old settler of the north end of the county.—Wynot Tribune.

One who thinks he knows says that if Germany fail of success on the big drive advertised for the west front, they will be ready to offer some reasonable and acceptable peace terms. Perhaps.

### DAIRY REFERENCE CIRCULAR

The department of dairy husbandry of the University of Nebraska has just completed an interesting compilation of dairy literature, which should be of special value to those interested in dairy work. The references cover practically all phases of the dairy industry. Attention is called to the bulletins published by the Nebraska dairy department and the U. S. Dairy Division. The circular also includes a list of dairy papers and books together with addresses of publishers. This list will be sent free on request.

corporation on patriotism, is much like trying to satisfy the cupped old toper on any beverage which may be legally sold in Nebraska.

It is evident from the action last week of the senate on the question of government ownership of railroads that not all of the corporation tools have been eliminated from that body by the people.

The Nebraska editors, some of them at least, met at Lincoln last week in annual session of their association, and from the report in the daily press, had a splendid time.

If tax matters are properly adjusted the 2 per cent of the people of this country who have gobbled 95 per cent of the wealth will be gently but firmly urged to pay 95 per cent of the war tax.

An apology came from the Union Pacific railway company last week, because they sent out their letter the week before written on both sides of the paper, thus spoiling the back for copy paper for Democrat editorials.

Just now the question of sowing a large acreage of spring wheat is being considered. Uncle Sam guarantees a price for the same. Will you, Mr. Wayne county farmer, do your bit?

EDWARD EVERETT HALE'S MASTERPIECE REVIVED

"The Man Without a Country" is founded upon Edward Everett Hale's story, "The Man Without a Country," written in 1863 and intended, as the author said, to be "a contribution, however humble, toward the formation of a just and true national sentiment of love to the Nation."

GARDEN SURVEY

Nebraska towns are already making plans for war gardens next spring. In many of the towns every foot of vacant lot space has been listed with the school authorities.

SOCIAL NOTES

The Minerva Club met Monday with Mrs. George Fortner. Accompanied by Mrs. J. T. House, the session opened the program by singing, "Keep The Home Fires Burning."

The W. C. T. U. met at the home of Mrs. Chas. Hiscox Friday afternoon. Devotional exercises were led by Mrs. Clasen, prayer by Mrs. Scofield.

The annual meeting of the Missionary society of the Presbyterian church was held Thursday afternoon last at the home of Mrs. J. G. Mines.

The Methodist Woman's Foreign Missionary society met with Mrs. Tom Bracken Thursday afternoon. The meeting was opened by special numbers on the violin by Mrs. J. J. Coleman and closed with piano selections by Donna Sonner.

The 16th was the eighteenth birthday of Glenn Stone, and in honor of the event, Mr. and Mrs. Fred Stone entertained a party of about forty of his young friends.

Mr. and Mrs. W. Y. Miles were given a glad surprise Friday evening when thirty of their friends and neighbors came in to spend the evening. A royal good time was had.

Mrs. A. B. Clark entertained last Saturday afternoon in honor of her nieces, Misses Doris and Gladys Driscoll, of Oak Park, Illinois, who with their parents are visiting in the Clark home.

The Bible Study Circle had a very interesting meeting at the home of Mrs. Ziegler, Tuesday afternoon. After the lesson, discussion was led by Mrs. Wm. Goldsmith, a message was read from Shansi, China, telling of the deadly pneumonia plague that is now sweeping North China.

The Young Ladies Bible Circle will meet this Friday with Opal Robbins. A fine time is anticipated.

GOLDIE SAYS

"The inefficiency and dollar-grabbing tendencies of the big men of this country is very likely to cost thousands upon thousands of lives 'somewhere in France.' Every man caught robbing the country or even making a profit at the war's expense should be railroaded to the front to help stop German bombs."

"And if this country is forced to a long war—which we pray not—possibly it may finally inject a little real patriotism in those profiteers who up to the present time are only fighting for more gold at the expense of the nation."

"When a great disaster happens in this country, human buzzards that attempt to rob the victim of such tragedy are shot in their tracks. But now, with our sons on the battle front, men at home take advantage of the occasion to make millions of dollars at the expense of the country's great cause."

MARRIAGE LICENSES ISSUED

County Judge Brittain reports the following licenses issued: February 26, Ralph Still, New-castle, and Phoebe Clark, Concord.

Much Truth in Old Hoosier Saying That Liar Should Have an Extra Good Memory.

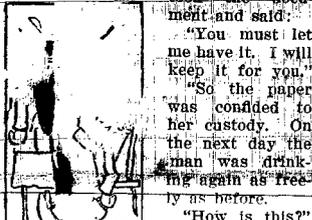

"Sid Says" in the American Magazine "I have long considered issuing a warning to liars, so here goes." He is all tempted to decorate the lie, but he finds the truth is no lily to paint it. He has another human frailty, particularly when it comes to telling a lie, is exceedingly poor and that is our poor old Hoosier. He realizes how often he has told the same story twice, and we know how hard it is to tell the truth, especially if you recall the old Hoosier. I reckon that a man in an extra good liar must have a good memory. It is no doubt that it is easy to tell a lie and then repeat it to tell a lie and then try that. Test yourself on this. Everybody asks you what size you are. If you tell the truth you won't have any trouble the same question a month. But if you lie about it recall the lie you told, and you are puzzled.

is how this editorial has been written—only it wasn't his hat that got him in the size of his salary or mine had two interviews with him he was an important job. The very three months apart. I interviewed the man who was salary he got. He mentioned figure. At the second the same question was in different figure was mentioned so happened that my recollections were such that he the truth. He did get at that both figures were led the negotiations for human beings are we can move about that called the world with ability. But the liar's and the reach of most of swing up to it with of falling and getting hurt.

I been drinking too own good was in the pledge the other was delighted. She took the document and said: "You must let me have it. I will keep it for you." "So the paper, was confined to her custody. On the next day the man was drinking again as free as before. "How is this?" asked a friend. "You signed the pledge yesterday, and now you are drinking whisky again." "It's all right," replied the pledge-signer in unsteady tones. "I don't have to keep that pledge. My wife says she'll keep it for me. That's the kind of a wife to have, old fellow."

"The Best Laid Plans." "Oh, dear!" said the girl with the pretty foot, "my shoe lace has come untied again, and it feels loose enough to..."

"le it for you," said her ad-escendant young man, leaning upon the step upon young woman had posed a shoe, while she looked off tance, raising her fluffily little that the offending e manipulated. "do it?" she queried a minute, there was no evidence of the step. "I began the young man, looking down, blushed I ducked the small foot lace again. She had forgotten she had changed the laced for out-need boots.

**BIRTH MONTHS OF SOLDIERS**

Men Born Between January and March Are Stronger and More Superior in Intelligence, Scientist Claims.

Dr. Marcella Boldini, one of Italy's greatest scientists, has been working with the Italian army gathering statistics upon which to base his opinions on the fighting ability of various classes of his countrymen, writes an Italian correspondent. The war has given science a chance to prove what it has for years suspected—that a man's strength, height and initiative depend far more than anyone suspected upon the month in which he was born.

Doctor Boldini has discovered that those men born between January 1 and March 31 are stronger, taller and superior in intelligence to those soldiers whose birthdays fall in September, October, November and December.

By living with the army, gaining its measurements and observing the men individually, he has demonstrated this to his complete satisfaction.

Several years ago his fellow scientist, Deola Rognere, found the proportion of children of inferior intelligence lowest among those born in January and February and highest in August and September.

The Binet tests have proved these facts in the schoolroom and among infants, but the Binet will prove them on the battlefield, the victorious man in a duel with the cold steel being more likely to be the man whose birthday comes earlier in the year than that of the defeated individual. That is Boldini's belief.

Percy Weevil—Did you notice the melancholy sound this blade of grass makes when it wishes in the wind? Garden Pest—Oh, that's just because it's blue grass.

Apartment House Story. On one side of the hall in the new apartment building lived Mr. and Mrs. Smithers; on the other side of the hall lived two girls who taught in the public schools and who were having their first experience in "batching it." Mrs. Smithers didn't know them very well, but she took a motherly interest in them to the extent of hoping that they had enough to eat and that their necessarily hasty and amateurish spreads would not give them indigestion.

The other day, out of the kindness of her heart, she took them a batch of fresh biscuits she had just baked, and one or two other wholesome trifles. And while she was there, she showed them how to use the stove, gave them some hints on marketing, wrote down a lot of recipes for simple viands, and gave them a lecture on food values and the preparation of leftovers.

They were very grateful to the dear lady, and they told us all about it. And they made us promise solemnly that we would never tell her that they were teachers of domestic science.

His Present. It was mother's birthday and Bobbie was very anxious to give her a present, but, unfortunately, the recent holidays had somewhat depleted Bobbie's exchequer. "I say, mother," he ejaculated, "would my drawing slate be any use to you?" "No dear," replied his parent with a smile. "Well, do you think you'd like to have my tin steamboat?" inquired the small youth anxiously. "No, thank you, little man," answered mother.

"Well, perhaps I could do something for you," he continued, and then a happy thought struck him. "I say, mother," he exclaimed enthusiastically, "I tell you what, I'll take a dose of castor oil for you, without crying."

The Points of Likeness. "Can you tell me why a clock is like a vain, pretty woman?" "I guess it is because it is all face and figure, has no head to speak of, is hard to stop when once it is wound up, and has a striking way of calling attention to itself every hour in the day."

Playing It on Father. She—Papa says he will pay half the cost of furnishing a house for us. He—But how about the other half? She—Don't be a goose! Of course we'll pick out a lot of nice things, get papa's check for half of the bill, and then go back and select things only half as expensive.—Boston Transcript.

Hobson's Choice. Diner (in cheap restaurant)—Well, waiter, what have you got? Waiter—Fried chops and fish, but the fish is all gone. Which'll you have? London Answers.

**ARTICLES OF INCORPORATION OF THE METHODIST EPISCOPAL CHURCH OF WAYNE, NEBRASKA**

Know All Men By These Presents:

That we, C. E. Gildersleeve, E. S. Blair, L. M. Owen, W. B. Gamble, C. A. Grothe, Wm. Beckenhauer, L. C. Gildersleeve, Winifred P. Main, George W. **TRUCK ROADS ARE MAPPED TO ATLANTIC SEABOARD**

A pathfinder car has started on a new lap of mapping out Army truck roads for the Government, one official route having already been laid out from Detroit to the Atlantic coast and another from Buffalo to the seaboard. The car will go as far west as the Mississippi river and will map

out routes from cities in Wisconsin, Illinois, Michigan, Indiana, and Ohio. When this trip is completed the Government will have four main highways forming connecting links between the great manufacturing centers and the Atlantic seaboard. Motor trucks on their way to France will follow these routes. Pay your subscription today.

**The Nation's Fighters Depend on the Telephone**

The telephone business was among the first to be called on for unusual service in the war.

All over the country the important railroad points, the bridges, the big grain elevators, munition factories and water-supply systems have been guarded, first by detachments of the national guard and now by private watchmen.

This need is requiring special telephone service, and the total amount of telephone work to provide it is enormous.

The call to arms brought to the Bell Telephone System imperative duties and responsibilities.

No nation entered the war with anywhere near the number of skilled telephone men, or as dependable and comprehensive telephone service as this country possessed.

More than 6,800 former Bell Telephone employees are now in some branch of the military service in Europe, or in training camps here.

In spite of the war and what it has meant to this company in the increased number of telephone messages to handle, the enlistment of so many of our trained men, the shortage of equipment, the scarcity of labor and the high cost of telephone materials—

In spite of all these obstacles, we are meeting the needs of the public for telephone service in a remarkably successful way.

Only the telephone companies could furnish the skilled telephone men the government needed in the army signal corps.

When the war came, telephone plants had to be built or enlarged at all the army posts, training camps, navy yards and department headquarters. Similar telephone systems have had to be installed in the American training camps, army headquarters, hospitals, etc., in Europe.

In addition to the military demands for telephone service, business activity, accelerated and increased by the war, has required enormous amounts of telephone service and equipment.

### TRAINING FOR DEMOCRACY

(From The Goldenrod)

In our present day talk of democracy, conservation, and related subjects, much is being said about the training of our youth. These in charge of children are daily confronted with questions concerning their part in this training and almost daily are they called upon to defend the institutions which they represent. To me, therefore, falls the lot to defend a field of work known as the kindergarten.

What is the value of the kindergarten? This question has been answered a great many times, and in a variety of ways, but the best claim we can make for it is that it is a most excellent means of fostering the spirit of true democracy at a most impressionable stage of childhood.

Any institution which must stand the test of time, needs a strong foundation and a good superstructure. Any democratic social body in which the individuals possess equal rights and each one is expected to make his contribution to the welfare of the group, needs not only to be made conscious of its possibilities and limitations, but must learn early what means are most effective in promoting the welfare of all its members.

Each individual must realize that his own actions and attitudes will largely determine his relationship toward others, and that the cultivation or repression of certain tendencies within himself will be chiefly responsible for his success or failure. Every individual should learn as early as possible that he can be a good leader in some situations, a good follower in others, and that by being either or both at the right time and in the right place he enters into the real spirit of co-operation.

Since these needs can be met only by strong individuals who are masters of their own desires and habits, who understand human nature and can see things from the viewpoint of others, who make a practice of subordinating selfish motives to the welfare of the group, and who can take their places as good leaders when situations demand it, one can readily see how important the training of such individuals is, and why it should begin as early as possible.

The home and neighborhood, it is true, begin to lay this foundation, but they need a strong ally almost as soon as the child leaves his own doorway. Why? Here are a few reasons: (1) The child forms many habits long before the age of six. These habits will always be of influence, and to eliminate waste, they should be worthy ones. Are they always such? (2) Homes do not supply enough different personalities for the child to learn to know human nature as he should. There are always family characteristics, due to heredity and training, which are present in all of its members. (3) It is difficult to place all members of a family upon a basis of equality. The youngest frequently has too much right of way, while the older ones sometimes become dictatorial. To prepare for democracy children need the leavening influence of others of their own age. (4) The child is not long satisfied to remain in his home, but for both individualistic and social purposes, seeks playmates elsewhere. He usually finds them in the neighborhood. Now, how many parents know exactly what goes on in the neighborhood at all times? Or, in other words, how many neighborhoods are supervised? The neighborhood may have fine possibilities and if it could be properly supervised by an interested, sympathetic, trained leader of children, nothing could be more useful in developing democratic ideals. Kindergartens would not be necessary. Perhaps the hours spent in school could also be lessened.

Since supervised neighborhoods, however, are very rare, the kindergarten certainly is needed, and the sooner the children of a community are admitted the better it is for them.

In a good, modern kindergarten the children are under constant supervision; which does not mean that they are never left to work out or test their own ideas. In fact, much freedom of choice is encouraged, with reference to both materials and playmates. The children may indulge in suggested group activities or play by themselves, as they wish, remembering only that the rights of others must be protected. Although none are forced to participate in group activities they soon discover that co-operation carries with it certain privileges and opportunities not found in individual play, and long before the first year is over most of the children want to be with the group a considerable part of the time.

Teachers and children learn to regard each other as necessary members of this little democracy, neither one assuming authority at all times, but both sharing as far as they are able, in the responsibilities of the school, both willing to solve the problems which arise, both meeting with grace the results of their solution. They also learn to know that those of broader experience usually have broader insight, and are able perhaps to make interesting contributions, and not infrequently are they called upon to impart some of this information or to suggest ways and means of solving a difficult situation. Thus, social service is emphasized, and individuality is given a chance for expression.

Anyone who is willing to devote more than a few minutes to visits in the kindergarten would find that the situation is usually a happy one, not because tasks are made easy for us, but because honest effort is given honest recognition, negative methods are practically eliminated, and the activities indulged in appeal to the children. He would find that the subject matter in an up-to-date kindergarten, has been chiefly suggested by the children, the teachers, of course, helping in the organization. The nature, variety, and number of topics introduced, might serve as an interesting study as it did to me when I first began to collect data on this matter. For instance, after three years of observation in the Wayne State Normal kindergarten I found that the children had introduced at least seventy topics, most of which were repeated each year. They covered a wide field of home, community and nature subjects, and in several instances surprised me greatly.

Since the children reflect the life of the home and community so clearly and make it so evident that within them lies the germ of future citizenship, including genius, and all, one cannot help considering the characteristics of their teachers. What qualities should a good kindergarten teacher possess? Practically the same as those expected in other good teachers. Should not her personal charms consist of neatness, sympathy and love for children, absolute honesty and sense of fairness, whole-hearted friendliness, sense of humor, and the like? Should she not be fairly well informed or at least appreciate many fields of labor and learning in order that the possibilities in her pupils may not be misdirected? Yes, besides possessing the best personal virtues, a good kindergarten teacher should love art, music and literature, lest she forget the special needs of the future draughtsman, cartoonist, poet, or musician in her group. She must know considerable science because she may be influencing a future Edison. She needs to know something of civics, commerce, sociology, hygiene and domestic affairs. And most of all, she needs to know psychology and human nature, in order that she may meet the child on his own level, and help him to live his present life as fully as possible; because, after all, the best adult citizen is the one who out of a broad, rich, well-balanced childhood, has gained a fine fund of worthy effective habits.

### CHAPEL

(From The Goldenrod)

Professor Bowen spoke at Chapel Wednesday morning on the national prohibition amendment. This amendment, approved by Congress, is awaiting the decision of the legislatures of three-fourths of the states before becoming a part of the constitution. Three years ago a similar amendment, prohibiting the manufacture and sale of intoxicating liquors in the United States was opposed by Congress on the grounds that each state had the right to settle this question for itself. In such a short time a decided change has occurred.

The speaker spoke of the units under prohibition laws. "All but two states have local option, some have county option and in some the saloon is excluded by legislative action or by a constitutional amendment. As twenty-seven states are dry and as other wet states have voted "yes" on the amendment and several governors have predicted the ratification in their states it seems as if national prohibition will carry. Viewing this nation as a whole 76% of the territory is dry with 56% of the total population living in this territory.

During John Quincy Adams' administration Dr. Lyman Beecher preached a series of temperance sermons. A little later the Washingtonian society, a prohibition organization was formed. In 1869 the prohibition party was organized and offered a presidential candidate in 1872. The vote received by the candidates of this party has been small but the party has kept up a campaign of education and agitation. The women have done their part through the W. C. T. U. The Anti-Saloon League has exerted the greatest influence by backing a dry candidate for each political office regardless of political allegiance. The church and school have been active in teaching the effect of intemperance as discovered by medical investigators. The saloon has hastened its death, by breaking the laws by which it was restricted in sale and hours of sale.

Every appeal brought out against the saloon is strengthened by war conditions. First is the moral appeal. America must be clean before she can help others. The financial appeal is strong, for money is needed by war relief organizations. The efficiency appeal is strong as intemperance makes inefficient soldiers. The conservation appeal holds a strong place. The grain,

glucose and sugar used in manufacturing liquors is needed to meet the world demand for food. Patriotism, through these appeals, demands that national prohibition should win.

## WAR PIE CONSERVATION

Every home and every army agrees that man must have a balanced meal, with a good dessert, either at home or in army rations. That doesn't mean that you shouldn't economize in desserts these days.

You should and you can. NONE SUCH Mince Pie is a very real dessert—none better. And a NONE SUCH package of Mince Meat works out the economy of pies, cakes, puddings, and cookies.

NONE SUCH is economical, because its condensed form and paraffin-lined package prevent waste. It costs only a few cents and is cheaper than bulk mince meat bought by the pound.

NONE SUCH MINCE MEAT is made from the very best ingredients. Just what you would use if you were making it yourself, and it comes to you cheaper than you could make it yourself.

A package of NONE SUCH Mince, Meat becomes three times the package weight when the moisture in making is added.

Miss Marguerite Bolt, of Columbus, who is attending the Normal, went home Wednesday for the remainder of the week to give her eyes a rest, a cold having seriously affected them.

James Finn was down from Carroll Tuesday and tells us that they will probably move to Wayne this week, taking possession of the Henry Giese place which he recently purchased, on Seventh street. Mr. Giese, we are told, will move to the Cid Swanson residence on Fourth street. Mr. and Mrs. Swanson go to their farm northeast of Wayne.

Ralph Clark went to Omaha Wednesday morning to see what's doing by all manner of dealers in automobiles this season. They tell us that the show is the greatest ever. No doubt. And a lot of fellows will come home wondering what they ever saw in the old car they bought last year that made them think they had the best and prettiest possible to build. This is a progressive age, and when it comes to moving forward, the automobile designers are always setting the pace.

## LOCAL AND PERSONAL

Mrs. Kate Parker went to Homer Saturday to visit relatives.

F. E. Philby of Sholes was a business visitor here last Friday.

Mrs. R. B. Coolidge went to Norfolk Friday to spend a week with her daughter.

Geo. Roskopf went to Omaha Sunday afternoon for a short visit and to look after business matters.

Mrs. Walter Savidge and Miss Edna Griffith went to Sioux City Monday for a couple of days visit.

Mrs. Frank Rubach of Pierce arrived Saturday for a visit with her parents, Mr. and Mrs. Geo. Roskopf.

Mrs. E. B. Echtenkamp, Herman Echtenkamp and son Harvey were Sioux City visitors Saturday.

Misses Hughes and Boyer came Saturday from Battle Creek to make a visit at the home of Mr. and Mrs. C. W. Hiscoc.

Mrs. J. Benner of Omaha, a sister of Fred Stone, returned to her home Saturday after a very pleasant visit here with Mr. and Mrs. Fred Stone.

Mrs. Etta Honey of Carroll returned from Creighton Friday where she had been visiting her daughter and family, Mr. and Mrs. S. Mossman.

Mrs. Verne Fisher went to Marshalltown, Iowa, Saturday for a visit with her home folks and for a farewell to her brother who is soon to go "over there."

Mr. and Mrs. A. Thies returned to their home at Stuart, Friday, after a visit with relatives at Altona and at the home of Mr. and Mrs. Will Thies here at Wayne.

Miss Buck, of Platteville, Wisconsin, arrived Friday evening to visit Mrs. A. B. Carhart. The ladies are old schoolmates and will undoubtedly enjoy a pleasant visit.

Mrs. Dorothy Grawe, returned from Quincy, Illinois, Friday where she had been on an extended visit. She will make her home here with her brother, Will Rosenkoetter.

Miss Lynda Needham of Bloomfield visited Saturday with Mrs. Katherine Robinson of the Democrat. She went to Pierce Sunday to visit other friends for several days.

W. H. Needham of the Bloomfield Monitor was a pleasant caller on the Democrat force last press day. Mr. Needham has been having a strenuous time with the pro-German element up there, but he doesn't show any signs of fear.

Miss Stella Rose went to Omaha Saturday for a short visit.

Misses Lottie Damme and Anna Harms of Lorton are visiting relatives at Carroll and Winfield this week.

Mrs. J. D. Jones of Wymore came Friday for a week's visit at the home of her parents, Mr. and Mrs. W. L. Fisher.

It takes no toy affair to please the merchants of Nebraska, and so when they go to "Market Week" at Omaha that city has provided the largest horse known for the boys to look at, and perhaps ride round the ring on, a real Jumbo, named "Sambo." He is 24 hands high and weighs 4,000 pounds, else the circus ad. exaggerates. This week at the apto show those present have the pleasure of looking at the largest American flag ever made. Omaha and Nebraska dote on big things, but the horse happens to be a Wyoming product hired for the boys.

George Luebbers visited at the home of a cousin at Dunlap last week. This cousin was in Germany at the time war was declared, being over there on a visit. He told George that he was treated as a criminal, being thrown into prison, simply because he was an American citizen. He managed to get to Holland, and from there made his way back to this country. Mr. Luebbers also tells us that when he passed through Omaha last week he saw seven alien prisoners at the depot, handcuffed and under a guard of U. S. soldiers, on their way to Fort Leavenworth where they will be interned.—Osmond Republican.

John Niehardt departed Saturday morning on his western lecture trip. He will appear first at the University of Wyoming at Laramie, thence going to San Francisco, by way of Santa Fe and Los Angeles. On February 26th he will lecture at Leand Stanford University, where he will be the guest of David Starr Jordan. Thereafter, until March 2nd, he will visit at Carmel-by-the-Sea with his friend, John Galen Howard, professor of architecture at the University of California. On March 4th he will deliver a lecture at the University of California, and while at that institution will be the guest of the university by invitation of its president, Benjamin Ide Wheeler. Thereafter he will be entertained at the Bohemian club in San Francisco for several days. He will return by the northern route, stopping a few days with his sister, Mrs. J. E. Ballinger, at Butte, Montana. On March 15th he will appear at the Chadron State Normal school and on the 18th at Hastings College.—Banner Blade.

Mrs. M. L. Halpin of Winside was a Wayne business visitor Friday. Miss Edna Kreinke returned to her home at Hoskins Friday after a visit here with the daughters of Mr. and Mrs. Otto Kreinke.

John Morgan returned home Thursday from three weeks at Excelsior Springs, Missouri, where he took water both externally and internally, and admits that it did him a lot of good—and he thinks there are others who might be benefited the same way. We could call by name some of those he recommends this treatment to, but that might embarrass them. While the town is a water town, having many springs of many virtues and many kinds of waters, Mr. Morgan tells us that they also have some places where other drinks can be obtained, this town being in Missouri, but that in the time he was there he saw no one who appeared drunk or disorderly—that if they have a city marshal or police he never saw him. Perhaps they take so much water with their daily allowance down there that it does not go to their head. Seriously, Mr. Morgan likes the place, and threatens to return another winter, for he thinks it economy to live there—especially where he can keep well by so doing. Board and room—good board too he says—may be had most reasonable, with water only a penny a glass.

## SOME GREAT MOVIES ON

Manager Nielson gave his patrons a treat Monday night when he put on the first set of three Paramount pictures entitled "Bab's Diary." These pictures are decidedly popular ones and the large cities are making a feature of them. The film is made from the popular Sub-Deb stories by Mary Roberts Rinehart which appeared in the Saturday Evening Post a year ago. Marguerite Clark is featured in the picture. The one of Monday evening was entitled "Bab's Diary" and the others to follow are "Bab's Burglar" and "Bab's Matinee Idol." All who saw the film Monday night will be on hand when the others are shown and we can assure you the others are just as good as the writer has seen them and will be there right down in the front chucking away when they come to Wayne.

The Crystal Theatre is showing some wonderful productions and Wayne people are fortunate in having a manager who is spending his money for the best of the first run pictures. There's no better picture produced or shown as early in a city the size of Wayne in the country. A picture that only a few months ago made a sensational run in New York and brought from \$1.00 to \$2.50 per seat, and then reservation had to be made weeks ahead, is to be shown here the first week in March. It is "Joan the Woman," with Geraldine Farrar as Joan of Arc. It is a wonderful film and everyone should see it. The writer has witnessed it and thought it worth a dollar and will see it again.

## WATTLES NAMES THURSDAY OF EACH WEEK POTATO DAY

By proclamation, Food Administrator Wattles has named Thursday of each week as POTATO day. On this day all merchants are urged to sell potatoes at reduced prices and to urge their consumption by the people of Nebraska.

Mr. Wattles also permits potatoes to be sold as a substitute for wheat flour on Thursdays, under these conditions: Purchaser must buy four pounds of potatoes for every pound of wheat flour bought, and cannot buy more than one-half the amount of substitutes in potatoes required under the substitute rule.

The purpose of POTATO day is to save the great surplus of potato waste.

## FARMERS MAY EXCHANGE WHEAT FOR 30-DAYS FLOUR

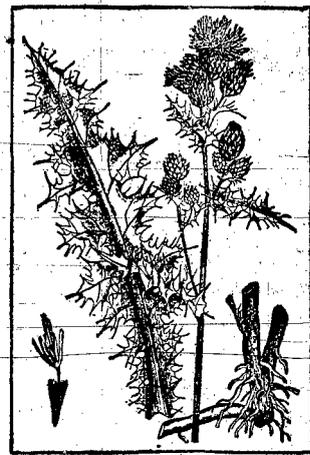

Omaha, Nebraska, Febr. 26.—To straighten out confusion with regard to exchange of wheat for flour at the mill by farmers, Food Administrator Wattles has emphasized this ruling:

"Farmers may exchange wheat grown by them for flour at the mill for not more than a thirty day's supply."

## KILL OUT CANADIAN THISTLE

Weeds Are Difficult to Eradicate, as They Have Underground Stems—Mow and Plow.

Canadian thistle and sow thistle are hard to kill, as they have underground stems from which new plants are sent up. A piece of this stem if cut off and given the right conditions will form a new plant. The first step in the eradication is to mow the plants, then plow them under and disk the land as often as new shoots appear. Keeping the top from growing will in time kill the roots and underground stems. Growing a crop of corn in hills and cultivating thoroughly both ways and hand-hoeing the hills is another way of eradication. Getting rid of the patches of Canada thistle and sow thistle now will save a lot of work a little later.

Most effective road tool is the road drag. The first drags were made more than 50 years ago, but it is only during the last few years that they have come into general use. They are easily and cheaply made, easily operated and accomplish wonders if properly used. Every mile of earth road in the state of Texas should be maintained with a drag, and if the time and money wasted under the present system of "working the roads" (this does not mean that all time and money so spent are wasted) were used in dragging the roads, our states would have some of the best earth roads in America.

Drag Can Be Used in Maintaining Public Highways—They Are Easily and Cheaply Made.

The most effective tool which can be used in the maintenance of earth roads is the road drag. ## GROW LARGE CROPS OF OATS

Farmer Should Provide Feed for Horses, Sheep, Cows and Other Stock—Plan is Outlined.

The farmer who raises horses and sheep, feeds dairy cows and fattens beef cattle, annually should grow large crops of oats. They should get ripe enough to be cut and bound by the binder, so when dried out in the shock the sheaves will not mold when stored in the barn. These things attended to, with some kind of power and a modern straw cutter in the barn, the entire crop, as needed, should be cut up quite fine and fed. Fed in this way, the stock eats up almost all the straw, and the grain entire.

## DRESSED WEIGHT OF SWINE

Shown by Experiments That Animals Average 76.44 Per Cent Fasted Live Weight.

A number of experiments have shown that the dressed weight of hogs is on an average of 76.44 per cent fasted live weight.

When hogs are fed corn or other concentrated fat-producing feeds the dressed weight may be 80 per cent of the live weight. On this estimate the blood constitutes 2.5 to 3 per cent of the live weight; the liver, 1.3 to 1.5 per cent; heart, 2 per cent; stomach and contents, 4.5 to 5 per cent; intestines, 6.5 to 8 per cent; kidneys, 3 per cent; spleen, 1 per cent; intestinal fat, 1 to 2 per cent; kidney fat, 4 to 4.5 per cent.

## PREPARING NOW FOR SPRING

Winter Is Good Time to Rig-Up Several Three and Four-Horse Evers on Implements.

In view of the probable shortage of farm labor next spring, now is a timely occasion to rig up several three and four-horse evers to be used on the farm implements. One man with a four-horse team will do almost as much work in preparing the spring seedbed as two men, each using a two-horse team.

## RAPID INCREASE IN ALFALFA

Has Resulted in More Careful Study of Its Possibilities as Food for All Farm Animals.

The rapid increase in the production of alfalfa in the United States during recent years has resulted in a more careful study of its possibilities as a food for all classes of live stock. Formerly it was used primarily as a cattle feed, but now it is used as a feed for horses, swine and sheep.

## JOKE AGE CANNOT WITHER

Laughter Producers That Have Been Part of Humorists' Capital Throughout the Centuries.

Perhaps we should say the second oldest joke, for this is a different one. It is the only rival to the "what-do-you-expect-for-fifteen-cents" witticism for age honors. This one we call the "He's the-man" joke. In some variation or other it has appeared in every comic magazine and in every almanac since the beginning of human speech. Example, in its simplest form:

"Who is that extremely bald-headed man over there?"  
 "Why, don't you know him? He's the discoverer and proprietor of Skinnem's Famous Hair Restorer."  
 The first appearance of this jest is shrouded in the mists of antiquity, but an early example is found in the Talmud. It is translated as follows: "Jehudah Ha Nasi records that he came through a village of the north where it was winter and exceedingly cold. And he observed that certain children were abroad without shoes or covering for their feet. And upon inquiry he found that they were the children of the shoemaker of that village."

Hence, of course, the ancient proverb. Coming down to the nineteenth century, we find it overworked. The human ostrich of the dime museum succumbs to a carpet tack in his mince pie. The fat man grows rich—and fatter—by putting an antifat preparation on the market. We have clipped 25 versions of this joke during the past week, and should be grateful for additions to our collection.

**To Be a Soldier in France.**  
 Oh, if today you dream of home,  
 Think of the road we know  
 Untangling blue skeins of hills;  
 And how the birches grow  
 Against the light, and of that day  
 Only a year ago!

For here alone those hills again  
 Your little son and I  
 Are wishing the enchanted trail  
 Would lead us round the sky  
 And drop us in a Flanders field  
 To see you marching by.

And now the child is eager for  
 A wonder-tale of Greece;  
 I tell him how you sailed away  
 Like Jason on the fleece,  
 To find a glory more than gold  
 Beside the winding Lys.

But while his deep eyes glow and glow,  
 It seems another tells  
 The tale and beauty to my heart  
 No word of mean bells,  
 And the river on the valley floor  
 Flows over Flemish hills.  
 Grace Hazard Conkling in the Century.

**Where She "Stumped" Him.**  
 You are to imagine that you are listening to the conversation between a young man and a young woman at a football game. And you are to imagine a harder thing—that the young woman has never seen football before. The young man is saying:  
 "Now if there is anything you want explained, just ask me. I suppose some of the plays are meaningless to you."  
 "Everything I've seen and heard so far is meaningless," she responds. "Some of the things are positively silly."  
 "For instance?"  
 "For instance, why do they call the seat 'the stands'?"

## OLD PREJUDICE

First Bird—What, back again? I thought you had a job as one of those educated songbirds that sing popular airs?

Second Bird—So I did, but the people next door thought I was a phonograph and started throwing things; so I quit my job.

**No Real Equality.**  
 She—At last the time is coming when the sexes will be on an equal footing.  
 He—That can never be.  
 She—Why not, sir?  
 He—There will never be any real equality between the sexes while a man can't go through his wife's pockets for the loose change he wants.

**Might Be Partly True.**  
 "They say your husband squeezes his employees."  
 "Well, I don't know, but I have my suspicions about that blonde typewriter."—Boston Transcript.

## EASY TO TRAIN SHEPHERDS

Puppies Soon Learn If They Are Placed With Ewes and the Lambs Taken Away.

It is easy enough to train shepherd dogs if they are taken as puppies. When the sheep are lambing, take a lamb away from its mother and put the puppies on the ewe. Keep the ewe tied up for a few days and see that the little puppies nurse her; then it will not be long until she will think as much of the pups as she does of her lamb.

As soon as the pups are old enough to follow the sheep let them go with the bunch and they will soon be taking care of the sheep. The dogs will soon learn to take them out of the sheds in the morning and bring them back at night. And if a strange dog or wolf comes around, one dog will stay and fight while another will start the sheep for home. In lambing time they keep the sheep close around the ranch or camp, and seem to take on a degree of intelligence that is marvelous. They can soon be taught the master's calls or signals and will obey promptly. It is essential that they shall be fed by some sort of system, and it is well to have them understand that this is their reward. If one has a good working dog, it is surprising how readily a young animal will learn from the old one. But the masters do not always have an old dog, and then the trainer must play the dog himself and do a little running. Everyone has his own whistles or words of command, and a dog soon catches on.—Exchange.

## ARTISTS FAMOUS AS WRITERS

Several of the Most-Noted Novelists Deserted the Brush for Literary Work.

Several artists of note have been known to desert the brush for the pen, and when they have died they have left their mark behind them as literary men. Observes an exchange, William de Morgan did this. He wrote the longest set of novels since Dickens and Thackeray "ceased firing," although he was an old man when he took to the pen. George du Maurier was an artist who turned author after making a European fame with the pencil as a satirist of society. He suddenly startled the world with "Trilby," and set two continents comparing feet. With him novel-writing seemed his true forte, but he had started too late. He only enjoyed his new fame a few years. Even Thackeray tried art before he found his true vocation, and he illustrated several of his own books even then. A very piquant story tells of Thackeray calling on Charles Dickens to see if he could get the commission to illustrate one of his earlier novels. He had not written "Vanity Fair" then!

A very distinguished artist-author was Dante Gabriel Rossetti, who was supreme in both arts.

## Progress.

Sending messages by lightning, traveling at 40 miles to the hour, crossing in a week the ocean which the Mayflower perilously traversed, in our sumptuous vessels, framed of iron, luxurious in appointment, propelled from within, and gay with color as so many swimming summer gardens—these applauded achievements do not tend of necessity to the upbuilding of nobler courage, to the development of a luminous moral wisdom, to the culture of even philosophical refinement, or the nurture of the temper of devout aspiration. On the other hand, do we not sometimes feel that virtue among us is coming to be too much a matter of manners; that the intense subjective processes from which august character is derived are in a measure being superseded by the mechanical contrivances and the physical successes with which our noisy years resound; and that the grand and lovely spirits, which are present still, and in which, whenever we touch them, we find strange charm and inspiration, are fewer and lonelier than they were?—Richard Slater Storrs.

## Alphabet of the Soul.

Gesture's part in Oriental drama is set forth in a recent Hindu volume, which says that there is a fitting gesture to represent every emotion. The gesture, in fact, is described as a deaf and dumb alphabet of the soul. There are nine movements of the head, corresponding to nine emotions, mentioned by one authority, twenty-four by another; twenty-eight movements of the single hands, and twenty-four (or twenty-six) of the double hands, etc.; also "hands" denoting animals, trees, oceans, and other things. For example, a certain position of the hands denotes a certain emperor, caste, or planet. The translator says, rather slyly, that only a cultivated audience can appreciate Indian "actor's art."

## The Pig's Food Habits.

We must all (says the Pall Mall Gazette) make our apologies to the pig, who has been grossly maligned in regard to his food. Instead of being ready to eat anything, he turns out to be the most fastidious of animals. Experiments have been made in France and Sweden which show this to be the case, and in the latter country the record tells us that out of 575 plants the goat eats 449 and refuses 126; the sheep out of 528 plants eats 387 and refuses 141; out of 494 plants the cow eats 276 and refuses 218; out of 474 plants the horse eats 262 and refuses 212; and the pig out of 243 plants eats 72 and refuses 171.

## HAD MOTORMAN GUESSING

Small Boy and Roll of Paper Tape Held Up Cleveland's Traffic for a While.

At an early hour the other morning, a boy on his way to work in the downtown section idly trailed a narrow ribbon of paper behind him. He had a big roll of paper tape, such as is used in stock-tickers, and he was letting it unroll as he walked. The tape was nearly two blocks long. As he crossed Euclid at East Sixth street. An east-bound Euclid car stopped suddenly, within a few feet of the paper ribbon which lay in its course. A west-bound car, a second later, did the same. After waiting a minute or so and watching the boy, who was now disappearing around the corner of East Fourth street, the two motormen got out to investigate. They consulted for a while, then came to a darling decision. They broke the tape, and traffic proceeded.

The policeman on the corner made a report of it.—Cleveland Dealer.

**"Raising Cane."**  
 I remember, I remember  
 The farm where I was born,  
 The little patch of sugarcane  
 Beside the field of corn.  
 It never came a mite too soon  
 Nor made too long a stay,  
 And now I often wish my teeth  
 Were up to it today.

I remember, I remember  
 Oh, the syrup on the cake,  
 The coffee with long sweetenin'  
 That mother used to make.  
 The big of stuff dished from cans  
 Behind the cellar door.  
 I remember once I found it, and—  
 Remembered nothing more!

You used to run your little still  
 As simple as a child,  
 Now sugarcane's like happiness  
 Always of a running wild.  
 It kept you lit two solid days,  
 A fount of bubbling joy,  
 Seems like we'll were nearer heaven  
 When I was just a boy.

**Good Gunning.**  
 Nick O'Tine, our favorite East Liverpool correspondent since the passing of Forte Forque, was in the jewelry shop the other day, talking to the proprietor.

"To quote from my favorite column," says N. O. T., "I had not gone in to purchase jewels, but to talk to the proprietor. And while I was there, a customer came in with a busted clock under his arm. It was a cuckoo clock, but the cuckoo had flew the coop. 'How did you come to lose the bird?' asked the jeweler. 'It was like this,' answered the customer. 'I read the ads in the magazines, because I consider truth stranger than fiction. And I allowed a magazine ad to persuade me to buy an air rifle for my son. And the first thing he did was to stalk the cuckoo. When it said 'Cuck,' it was on the porch of the clock. When it said 'oo,' it was in the opposite corner of the room. And my boy was leaning on his gun and looking like a big game hunter who has just slain his first lion.'—Cleveland Plain Dealer.

## The Young Idea.

An eighth grade teacher sends us a few sample answers from a recent examination in American history. The list is amusing, and we select these two for printing:  
 "The Pilgrims were a religious sex that did not believe in the doctoring of the Church of England."  
 "The only means of communication the colonists had was by horseback, and in this way it took quite a long time for letters to go to England."  
 Which reminds us of an examination paper in literature, shown us by another teacher not long ago. It contained this statement:

"The Autocrat of the Breakfast Table was written by Ralph Waldo Emerson, and its general plan was to produce perfect etiquette at meals."

**The Weary Captain of Industry.**  
 "Do you approve of government ownership?"  
 "Yes."  
 "You think the government could take your business and run it successfully?"  
 "Nope. But I believe I'd get a very pleasant and beneficial holiday while the government was making a try at it."

**Not Married Young.**  
 "She's different to most women."  
 "In what way?"  
 "She admits that she was over thirty when she married."

**That Made Her Maddier.**  
 "They separated on account of incompatibility, I understand."  
 "Yes, he would never get angry when she was."

**Never That.**  
 "Anyhow there was one thing he wouldn't do with his money."  
 "What was that?"  
 "Save it."

**Too Handy.**  
 "A man who wears his hair long is a freak."  
 "That's worse than a freak; he's a fool, if he's married."

## WEAPONS OF THE TEACHERS

Evil Methods Inspiring Fear in Hearts of Children Not Conducive to Best Results.

Power to produce fear is a poor weapon. The teacher who uses it is not doing his best work. Snakes are feared by reason of their stings. So are lions and tigers for reason of their power to produce harm.

Fear is the weapon of an enemy. We do not fear our friends, nor can we fear anything that we love.

Evil is just absence of good; for it cannot exist where good is. And evil chooses fear for its weapon. Neither evil nor fear should exist in the schoolroom, says an exchange.

Good is always stronger than evil; love always stronger than fear. Why should teachers employ evil methods and inspire fear in the hearts of children when springs of love are bubbling up on every side?

There are smiles, and kind words, and kind thoughts, and deeds of kindness and—but the list is too great to complete. These inspire love, and as weapons are much more efficient than is fear.

And then there is faith! When good loses its trust in its ability to overcome, fear disarms and evil conquers.

An animal will not attack a man who has absolutely no fear of it. That is the secret of the liontamer's power. Evil cannot defeat a man who is strong in good, and therefore he has no cause to fear evil.

## USE CHOPSTICKS IN JAPAN

Old Custom Prevails Among Poorer Classes, While the Rich Have European Knives and Forks.

The use of chopsticks is general in Japan, except among the richer classes, who have adopted European knives and forks, and, to some extent, the European cuisine, London Tit-Bits says. Small bowls of china or lacquered wood are the usual table equipment. After the various solid portions of the food have been lifted to the mouth with chopsticks the liquor remaining is sipped from the bowl. In the case of rice, which would be tedious to pick up grain by grain, the bowl is often raised to the mouth and the rice shoveled or pushed in with the chopsticks.

It is also customary to pour a little tea into the rice bowl after it has been nearly emptied, and in this way the few remaining grains of rice are washed down as the tea is drunk. At public places the chopsticks at each meal must be new; this is indicated by the fact that the chopsticks are made from one piece of wood and are left joined together, as were matches at one time. These new chopsticks are incased in a thin paper envelope, sealed at the end, and bearing Japanese characters advertising either the hotel or some firm that has furnished them free to the proprietor for the sake of the publicity thus gained.

## Insects Carry Disease.

Our knowledge of the connection of insects with disease is a very modern acquisition. In his presidential address to the Washington Academy of Sciences, Dr. L. O. Howard noted that standard medical works of a score of years ago made no mention of the subject, but recent literature records 228 different disease germs as known to have been carried by insects to man or animals, 87 organisms as known to be parasitic in insects but not known to be transmitted, and 282 species of insects as discovered causes or carriers of diseases of man or animals. The transportation by wind of the body-lice, the carrier of typhus fever, is among late discoveries to which many writers have given attention. Tick paralysis is another novel subject, the disease occurring in Australia, Africa and North America, and 13 cases have been reported by a single Oregon physician. Progressive paralysis of motor but not sensory nerves follows the attachment of the tick. The disease is not infectious, and it has not been decided whether it is due to a specific organism or to nerve shock. Infantile paralysis is believed to be one of the diseases not carried by insects.

# Columbia Grafonola and Columbia Records

## The Common-sense Way to Buy a Phonograph

First, drop into our store and learn to play the Columbia Grafonola. Hear it play the kind of music you like best. Select the style and price of instrument that suits you best. Since the phonograph is to be in your house and your eyes will see it for many years and your ears will hear the songs and music it plays, doesn't plain common sense tell you that the way to buy a phonograph is to have a Columbia Grafonola sent home for a complete trial, you to decide then whether or not you want to keep it? Suitable arrangements made for payments.

# The Baker Says:

## Let's All Comply With Rules.

It is no little undertaking to comply with all rules and regulations for conservation of food materials most needed by the soldier boys at home and abroad, if you are conducting a bakery, but with the co-operation of my patrons it is my aim to provide wholesome breads, cakes, pies, etc., and comply with the law in both spirit and letter. With Corn flour, barley flour, bran, and other substitutes putting out products which please the taste and carry all of the life sustaining qualities necessary for a healthful bread.

We make a Victory Bread that satisfies, and in public eating places it is taken from the plate in preference to whiter breads and we will spare no pains to provide every thing in our line of the best substitutes obtainable, and where possible, obtain those substitutes of home producers.

Only until March 3rd may we use rye flour for a wheat substitute, and until that date bread made of graham or whole-wheat flour complies with the wheat substitute. We are making a bran bread which complies with all requirements and pleases the patrons who usually term it graham.

We want to join with all the loyal citizens in conserving to the greatest extent possible the grains so badly needed for export, and at the same time provide our patrons with wholesome, palatable foods, and we believe we have the material and equipment to successfully do this work.

### WITH THE WAYNE CHURCHES

#### Baptist Church (Rev. Fletcher J. Jordan, Pastor)

**BAPTIST CHURCH**  
The First Baptist church will observe the Lord's Supper at 10:30 next Sunday morning. A short Communion meditation will be given by the pastor. Evening worship at 7:30 with a sermon.

Sunday school meets immediately at the close of the morning service. We want everybody to remain for the Sunday school. Let us have just as large an attendance as possible. There are classes suited for all. You will be welcome as a member or a visitor.

B. Y. P. U. at 6:30. Topic: "Christian Duty and Privilege." Prayer, John 14: 12-17 (Consecration meeting). Leader, Miss Louie Sprague. All who are interested in Young People's work are urged to attend.

Choir practice Thursday evening at 7:30.  
Prayer meeting next Wednesday evening at 7:30. Our special study will be, "Prayer as Dominant Desire." May we have a large attendance.

You are heartily invited to share in the work and worship of this church. To help people everywhere to know Jesus aright is our aim.

#### Methodist Episcopal Church (Rev. D. W. MacGregor, Pastor)

Sunday school 10:00 a. m. Good music and singing. Good place to study the Scripture. Last Sunday a record breaker for attendance. Next Sunday the superintendent will present the new banner to the winning class for February. Come to Sunday school next Sunday.  
Sermon 11:00 a. m. Subject, "The Unpardonable Sin."

The Epworth League held a very interesting meeting last Sunday evening. They will meet at 6:30 p. m. next Lord's day. Intermediate League and Boy Scouts meet at the same hour and they are winners.  
Sermon 7:30 p. m. The excellent music and song that Professor Coleman and his choir is giving the congregation is adding greatly to the services.

The ladies will serve a good, big supper from 5 to 8 o'clock on Thursday evening. Come and fill up. All for 25 cents.  
Come worship with us.  
The Methodist basket ball team

plays Bancroft Champions next Friday evening at Bancroft. Saturday they play a return game with the Norfolk Methodist church team. Play to win boys, we are proud of you.

Mrs. MacGregor's Sunday school had a party at Professor Lackey's on Saturday evening. They had a fine time.

#### English Lutheran Church (Rev. J. H. Fetterolf, Pastor)

Sunday school meets at 10 a. m. Worship with sermon at 11 a. m. and 7:30 p. m. The subject of the morning sermon is, "The Triple Record." The evening subject, "Walking in the Old Paths."  
Miss Henrietta Hurst is the leader of the Luther League meeting next Sunday evening at 6:45. The topic to be studied is "The Suffering and Death of Christ."

The campaign for Soldiers and Sailors War Time Service ended on Monday evening. All the teams brought in gratifying reports. The subscriptions ran considerably above the amount apportioned to our congregation.  
The Luther League will hold its monthly business meeting and social tomorrow (Friday) evening at the home of Miss Clara Madsen. Every member of the League is urged to be present.

The Ladies Aid will meet at the parsonage next Thursday afternoon. The ladies are still working on quilts for the Red Cross and they would like to have a good representation out for the meeting.

A program is being arranged for the dedication of the service flag Sunday, March 10th at 11 a. m. A complete program of the service will appear in these notes next week.

#### Presbyterian Church (Rev. S. Xenophon Cross, Pastor)

Professor J. A. Kemp will speak on Sunday evening next on Food Conservation. Mr. Kemp brings from the Convention at Omaha some startling facts with which we should all be familiar.

The subject of the Sunday morning sermon will be, "Camouflaging Conscience." A good musical program will be rendered under the supervision of Mrs. A. R. Davis, chorister.

Mrs. Frank Graham will lead the Y. P. S. C. E. meeting at 6:30 on Sunday evening. This will be a consecration meeting. All are invited to come and stay for the evening meeting.

The mid-week meeting will be on Wednesday evening at 7:30 sharp. Bring the little book, "Jesus is Coming," and your Scofield Bible if you have one. These studies are interesting.

#### WOMAN'S WAR WORK

(By Mrs. J. G. W. Lewis, chairman Woman's Committee, Wayne county Council of Defense.)

#### Increased Food Production of Prime Importance

Food administration speakers who have been to the war zone are this week speaking in Nebraska and in other states, imploring the American people to save food in order that starving children of our Allies and that our own men in the trenches may be fed. America must heed their warnings, but of even greater importance right now is the problem of Food Production. Production in 1918 must be increased in order that we may have the food to conserve. Some lines of patriotic work can be carried on all the year round, but plans for food production must be made NOW. The women, and especially the women on the farms, can and will have a large part in increasing food production. Mrs. F. M. Deweese, of Dawson, Nebraska, who is herself a farm woman, and who is serving on the Woman's Committee as State Chairman of Food Production has issued the following:

#### FOOD PLATFORM FOR WAR-TIME PRODUCERS

To stimulate production of all food that can be utilized without urging indiscriminate production of perishables or articles not purchasable on the general market until there is solution in sight of some of the present problems of labor, market and transportation, is the aim of the food production department of the Woman's Committee of the Nebraska Council of Defense.

With the endorsement of G. W. Wadsworth, state food administrator, C. W. Cuzley, head of the extension department of the University of Nebraska, and George Coupland, chairman of the Nebraska Council of Defense, the following platform is issued by the Woman's Committee food production chairman, Mrs. F. M. Deweese, of Dawson:

All families produce to their full ability such food as is purchasable on the general market. This includes general crops and stock, poultry, some of the dairy products, honey, and some garden products such as dried beans, etc.

All families supply as nearly as possible their own tables and try to provide themselves with a supply of vegetables for a year—all they can use, fresh, canned, dried or stored.

Under present conditions of labor, market and transportation, all families produce what they feel assured will find a market either through the regular channels or by arrangement with all hotels, boarding houses, families who are not so situated that they can supply themselves. "Get-together" meetings should be held in every locality to urge increased production, investigate local labor and market conditions and further definite arrangements between producers and consumers.

The women of Wayne county will endeavor in some measure to carry out these very practical suggestions, through our county chairman of Food Production, Mrs. Andrew Thompson, and through the precinct sub-chairmen. Each precinct chairman of the Woman's Committee—Wayne County Council of Defense, has been asked to appoint in her precinct a woman to head the Food Production work. Not all have responded as yet, but at the present writing the following appointments have been made:

Brenna, Mrs. Carl Wright.  
Deer Creek, Mrs. Walter Hurlbert.  
Hoskins, Mrs. W. F. Johnson.  
Hunter, Mrs. Andrew Thompson.  
Leslie, Mrs. Jerome Hunter.  
Plum Creek, Mrs. Dan Leuck.  
Sherman, Mrs. E. Mattingly.

#### THE IRISH PLAYERS PLEASED

By that we mean that they pleased a fine audience with a most excellent program and the audience, surroundings and Wayne generally pleased them. It was not the foolish Irish wit and burlesque so commonly associated with them, but the rollicking fun and comedy of the real Irish—just natural wit, full of comedy, a touch of pathos, sarcasm, and romance as the mood of the players desired. It was truly enjoyable.

#### Convivial Gentleman Had Overlooked Possibility of His Wife's Having Missed the Train.

"What's the matter, old man?" he said, as they met the next morning. "You look blue."

"I feel blue."

"But last night you were the jolliest member of our party."

"I felt jolly."

"You acted like a boy just let out of school."

"I felt like one."

"You said that your wife had gone away for the first time in three years, and there wasn't anyone to say a word if you went home and kicked over the hall clock."

"I remember it."

"You said that if you stayed out until four o'clock there was no one to look at you reproachfully and sigh and make you feel mean."

"Yes, and I stayed out until then, didn't I?"

"You certainly did."

"And I gave a war whoop on the front door step?"

"Yes, and you sang a verse from a comic opera and tried to dance a jig."

"Yes, and my wife missed that train. Now, please, go away and let me alone!"

New spring hats are arriving and being trimmed by expert trimmers, at Mrs. Jeffries—see them.—adv.

The Nebraska Farmer and the Twentieth Century Farmer have arranged to consolidate within a few months.

Word comes from Rochester, Minnesota, that Mrs. C. H. Hendrickson, who is taking treatment there, is being benefited by the care of the specialists who have charge of her case.

Grandma Davies has been quite poorly for several days, but is reported better this morning. Mrs. Florence Armstrong came from Sioux City Tuesday evening to assist her mother in her care.

Patrick Coleman, who has been kept at home the past month by grippe and a bad eye, is able to be out about the place, and will visit the "office" from now on with his usual regularity, weather permitting. All will be glad to welcome him.

Mrs. Lucus of the Wayne hospital left this morning to accompany Mrs. Scott of Wakefield to Los Angeles. Mrs. Scott has been under her care at the hospital most of the time for two months, and will see her safely to her journey end, and then return.

Washington Box Apples, in fine condition. Specially Priced at \$2.00 per box at The Basket Store.—adv.

Mr. and Mrs. E. J. Driscoll and family, of Oak Park, Illinois, have been visiting in the home of their sister, Mrs. A. B. Clark and Mr. Clark for a week. They are on their way to California. When they resume their journey they will be accompanied by Mr. and Mrs. Clark, who will spend the summer there.

Mr. Archie Lindsay received word last week of the death of his sister, Mrs. Thos. Weir, at her late home, near New Plymouth, Idaho. Mrs. Weir was the only surviving member of the family except Mr. L. and she

had attained the allotted three-score-and-ten before she was called. Mrs. Weir visited her brother here several years ago, and it was their first meeting in thirty years. Mr. Lindsay is nearing the four-score year anniversary.

Word comes to home folks that Lt. Jas. Steels, who has been for the past two months at Ayer, Massachusetts, has been transferred to Ft. Sill, Oklahoma, where he will put in time at aerial observation. We do not know that this means that he is to be permanently transferred to this branch of the service, but we have noticed that there is a big demand for men for this service, and they will have great opportunity to rise—get up in the world for a time.

Rev. Ray E. York, of Lincoln, Nebraska, superintendent of the Baptist State Convention of Nebraska, and Rev. L. R. Bobbitt, of York, Nebraska, were here Wednesday evening in the interest of raising an additional million dollars for the Baptist Convention, the money to be raised before March 31st. This movement comprises thirty-eight states. Both men gave excellent talks and a most profitable evening was spent at the church. Refreshments were served in the church parlors at 7 o'clock.
