ESTABLISHED 1884.

WAYNE, WAYNE COUNTY, NEBRASKA, THURSDAY, OCTOBER 3, 1918

\$1.50 PER YEAR

## WAR SAVINGS SERVICE NOW FOR LIBERTY LOANS

When Wayne county's quota in the War Savings campaign was announced as \$215,720 to be subscribed by December 1, many thought it an impossibility.

"The will to win is half the battle," and Wayne county certainly has shown the will, as we have not only subscribed our quota but have registered in cash sales, to this date \$362,370 from this county, this putting us to seventh place out of ninety-three counties in Nebraska.

We are also holding an enviable place in the ranks of honor, as to the number of War Savings societies organized, being entitled to seventh place for having organized and operating at this time, one hundred forty-two societies.

These results are due to the untiring efforts of the officers of the rural school boards, the town chairmen, the women committees and the various officers of the societies organized, whose efforts are greatly appreciated.

The next two weeks will be wholly taken up by the fourth Liberty loan, at which time no special activities for the sale of War Savings Stamps will take place, however, War Savings and Thrift Stamps will remain on sale at all agencies as at present.

We wish all the War Savings workers to assist the fourth Liberty loan committees in every possible way.

The drive for the fourth Liberty loan started September 28. We must respond quickly and loyally.

Our country calls; she needs the money. Let our answer be to Uncle Sam, "We are with you till the last German gun is silenced."

Keep the boys fighting to win. Lend the way they fight and there can be but one outcome.

We are fighting for the right, and right is more precious than peace.

Sincerely,  
Rollie W. Ley,  
Chairman War Savings, Wayne Co.

## DEMOCRATIC GET-TO-GETHER DINNER

Two years ago the democrats of Norfolk, inspired by Mrs. Weekes called the faithful of this Third congressional district together for a feast of good things, in one of the best gatherings ever held in the state. This year the event is to be repeated, and Saturday, October 12, Columbus day, will be observed in like manner. Wayne people have already expressed a wish to go. Among those to be present are Governor Neville, Ex-Governor Morehead, Congressman Stephens, and a host of lesser lights. The plates are \$1 and as there is room for less than 400 in the largest banquet hall it is wise to get your ticket now. The Democrat has a few for those who call. There will be speaking during the afternoon as well as at the banquet. A program promised is not yet here.

## WINSIDE WILL HAVE LIBERTY LOAN PARADE, SATURDAY

A pleasant bit of entertainment and a cordial welcome awaits any and all of our citizens who can and will drive to Winside Saturday, for they have planned a great Liberty Loan parade to take place there between the hours of 1 and 2 o'clock that afternoon, and Winside is always advancing new ideas well worked out in the parade business. We may be mistaken, but we understand that the ladies are inspiring the move, and also taking an active part in the bond sale.

## LIBERTY LOAN MEETINGS

To the citizens of Wayne: You are hereby notified to attend a meeting at your usual voting place, instead of at the high school, on Saturday, October 5, 1918, between the hours of 9 o'clock a. m. and 4 o'clock p. m. for the purpose of subscribing to the Fourth Liberty Loan. Following are the places: First ward, city hall; Second ward, Wm. Beckenhauer's; Third ward, court house.—H. F. Wilson, County Chairman.

## JUNIOR RED CROSS AT SHOLES

Next week Friday evening the consolidated school at Sholes will have a program of more than ordinary merit to which the public is invited. The program is promised for next week; but we are asked to tell the people now that they should come, for in addition to the program there is to be an auction and an opportunity to buy things cheap.

See the Democrat for sale bills.

## WAYNE COUNTY BREEDERS' BIG BOOSTER TRIP

The committee in charge of the booster day trip for October 8, earnestly request all, who plan on making the trip to be ready to start from Main street in Wayne at 8:30 a. m. sharp. This may seem a little early but there are a number of stops to be made and the time will be taken up until evening in order to reach all the places.

The breeders are desirous of having as many of the business men as possible accompany them, and in fact, all who are interested in better livestock. Bring your lunch and enough extra for one guest. A short talk will be given at Winside during the noon hour by S. R. McKelvie, republican candidate for governor.

Following is a list of stops to be made and time schedule for the day: Leave Wayne at 8:30.

Ar. Wm. Lessman... 9:15 leave 9:30  
Ar. Wm. Meyer... 9:15 leave 9:30  
Ar. Fred Sundahl... 9:45 leave 10:00  
Ar. V. L. Dayton... 10:15 leave 10:30  
Ar. H. G. Miner... 10:45 leave 11:00  
Ar. H. Cozad... 11:15 leave 11:30  
Ar. Harry Tidrick... 12:00 leave 12:15  
Ar. Winside... 12:30 leave 1:30  
Ar. Peter Ulrich... 1:45 leave 2:00  
Ar. Cradoc Morris... 2:45 leave 3:00  
Ar. Burress Bros... 3:15 leave 3:30  
Ar. Albert Sabs... 3:45 leave 4:45  
Ar. Geo. McEachen 4:30

## DEMOCRATS OF COUNTY FILL VACANCIES ON BALLOT

At the meeting of democrats and members of the democratic county central committee at the court house last Saturday J. H. Kemp was named to fill the place of chairman of the committee left vacant by the resignation of W. D. Redmond. It was then decided to place candidates on the ballot for the offices of representative and sheriff. It was the choice of the meeting that David Herner of Leslie precinct to be the candidate for a seat from which to represent the people of the county at Lincoln next January, and that Sam Reichert of Winside be the next sheriff, subject to the votes of the county.

In Mr. Herner they have selected a man of ability, sound judgment and unimpeachable honesty. One of the pioneer settlers of the county, a real farmer—a man of good education supplemented with careful and intelligent reading on economic questions, we can see no good reason why the voters of this county should not be proud to send him to Lincoln as their representative. We believe him to be conservative as to financial matters, yet not afraid to make liberal appropriations where needed for the upbuilding of the state. These are the impressions we have of the man, and we hope to give his views on questions at issue during the next four weeks.

For sheriff Sam Reichert is vouchered for those who well knew him as capable, energetic and a man well qualified in every way to attend to the duties of the office he is asked to make the race for.

## MARRIAGE OF WILLIS NOAKES

Many friends of the young man in this his home town will be surprised to learn that Willis has taken to himself a wife in the person of a charming young lady of the southland, Miss Elsie Alvers of Napoleonville, Louisiana. Announcement came to his parents here, Mr. and Mrs. D. W. Noakes, that the ceremony was at the home of the bride's parents, September 11, 1918, one of the local ministers officiating. The bride and groom made a short wedding trip to New Orleans and some other nearby places, and are now at home at Napoleonville where Mr. Noakes has the management of the largest dairy farm in the state, looking after the buying and selling of all cattle and the fitting of their best animals for exhibition purposes in the different live stock shows and fairs. He had hoped to be able to come with his wife and visit his home folks, but business demands would not permit him to make so extended a trip. They are planning to visit Nebraska about holiday time. The Democrat will join with many friends in extending hearty congratulations to the young man and the lady of his choice.

## FLAG RAISING SATURDAY

At 4:30 o'clock Saturday afternoon the stars and stripes are to be flung proudly to the breeze from the new flag pole. The Savidge band will give a sacred concert at the time. Mr. Savidge, who offered the service of his band, promises a 45-minute program. It is a ceremony which all should delight to witness.

## HANDICAP GOLF TOURNAMENT NEARING THE WIND-UP

The handicap golf tournament now going on at the Wayne County club is rapidly drawing near the finish and some interesting and hard fought matches have been played.

The following matches remain: Jas. Ahern plays Jas. Brittain and the winner of this plays the winner of the Fisher-C. M. Craven match.

Jas. Miller plays Fred Blair and the winner plays L. W. Carter of Carroll who has loomed up as the dark horse of the tournament, since he defeated A. R. Davis. One of the hardest matches of the tournament was the Morgan-Blair match. Although the former made the course in 41 and 42 for the two rounds the latter was able to win by holding a long putt on the 17th. Practically all of the low handicap men have come through with flying colors.

The following are the drawings for the consolation in the handicap: V. A. Senter plays A. T. Cavanaugh. H. Theobald plays Heckert. R. Ley plays A. A. Welch. H. Huntmer plays J. S. Carhart. J. H. Kemp plays Ray Reynolds. C. Carhart plays J. G. Mines. Jenkins plays A. M. Jacobs. Joe Ringland plays Judson. O. Liedtke plays McMaster. J. W. Jones plays Von Seggern. H. H. Hahn plays Fred Berry. Ellis plays H. B. Craven.

All members are requested to turn in their best score between now and next Monday as a qualifying score in the championship open tournament which will start then.

A new low score for the course was turned in yesterday by Morgan—a 38.

## ODELS OF GOODS FOR BELGIANS

Last evening the ladies who have so faithfully worked to receive and care for the clothing asked for relief of the suffering in eastern France and Belgium practically finished a week of very diligent work, and had the goods nearly all boxed and ready for shipment to some seaport where they will be repacked for oversea shipment. They report that they received and packed 6,715 articles of clothing and bed covering in 21 boxes, of this number of pieces more than 4,000 were for babies. The total weight of the offering was 3,420 pounds.

Many of the goods donated were of better quality than can be purchased on the market today, and some of them were but slightly worn, but the style was not down to now. The editor might have profited by trading suits with the poor people—but the style would be missing. Many ladies' coats, lots of children's clothes, shoes, good, bad and worthless except for the leather that might be used for patches on other shoes. Broadcloth wedding suits, and plenty of good business suits but slightly worn. It was a most splendid offering, and has cleaned out many a closet in which unused garments have been hanging, and it is good.

## CLASSIFICATIONS

Local board hereby classifies the September 12, 1918, registrants as follows and inducts into students army training corps.  
CLASS I

## OVER THE TOP AGAIN S. A. T. C. UNIT ASSURED

The organization of the Student Army Training Corps unit at the State Normal will take place on Monday and Tuesday, October 7 and 8. Lieut. B. J. Brooks of St. Louis is on the ground now and will be in charge. The unit will probably be limited to 125 men. The matter, however, will not be definitely settled until final order are received from the war department. More than one hundred applications have already been filed and numerous inquiries are coming in on every mail and by telephone. Barracks for the entire unit will be provided in the industrial and physical training building. The basement floor of the training school is being fitted up for a mess hall and kitchen. It will be necessary to secure temporary accommodations for about 80 of the men in private homes until army cots and bedding arrive. This is an opportunity for the people of Wayne again to show their splendid spirit of cooperation by taking in some of these young men for board and room until permanent quarters can be provided for them.

## OUR FLAG POLE REARED

Saturday, all things being in readiness the Wayne flag pole was raised and planted in the hole made for it several weeks ago. It is a very graceful ornament and when old glory shall float from its top it may be an inspiration to people for many miles about. The funds for this ornament were donated by whoever wished to put an L, a V, or a sawbuck in the purse, and no one was to be solicited for any part of the sum given. S. D. Relyea ordered the pole, which is a simple shaft set in a base of concrete which extends some four feet below the surface and about six feet above the street. When the form comes off each side of the first base will have the cast of the national bird and the shield. On the top of this base will be a place for flowers in the summer time, and above it is a still smaller pier, making a total of fully ten feet of solid concrete in which the pole sets. Above the base comes four brackets to correspond with the brackets of the street light poles, for lights, and they are now lighted each night in red, white and blue, the national colors.

E. J. Huntmer was active in the work and made the form and designs for the sides, as well as shoveled the concrete to properly fill them. C. Clasen donated the use of his mixer and his services to the cause, and others shoveled the sand. Messrs. Kay & Bichel the windmill and implement men raised the pole, and to all as well as the many who donated the public will ever be grateful.

## PATRIOTIC MEETING

There was a patriotic meeting Monday evening at the school house in district No. 8, at which Mr. and Mrs. J. G. W. Lewis spoke making a part of an instructive and profitable program. Pupils, teacher and others took part in a varied program which was full of interest. Plans for the Liberty loan work of the district were also under consideration, as well as Junior Red Cross activities. Mrs. Grimm, president of the War Savings society, presided, and it was, we are told, a meeting which showed the harmony of the district in all war work.

## Every Paper Marked

We are marking every copy of the Democrat this issue in the same manner that this paper is marked, to call to your attention the credit on the label, which shows the expiration of your subscription. This is because we must very soon discontinue sending papers not paid for in advance, and if your Democrat fails to come, there may be a reason. Look to the label at once and if in arrears, please call or write sending remittance. If you think the credit incorrect, say so.

Statements to those in arrears will be made as quickly as we can get to the work, but we hope others will do as many have done, and heed these notices in the interest of conservation of time and paper.

The price yet remains at only \$1.50 the year, and those a part of a year back will be wise if they send in for two years.

Remember, we are marking every paper, whether paid in advance or not, just to call the ruling to the attention of all.

Your Paper Being Marked is no exception to the rule. Every paper is marked in this manner this week.

## RIMEL-ANKENY

Miss Hazel Olive Ankeny and Mr. Harry Earl Rimel were united in marriage Sunday afternoon at the home of the bride's mother, Mrs. L. B. Ankeny of Laurel.

Rev. W. O. Harper of the Presbyterian church performed the ring ceremony in the presence of about seventy guests, nearly all of whom were related to the young people. Previous to the ceremony Mrs. W. H. Morris of Wayne sang, "I Love You." Miss Lucile Ankeny, sister of the bride, acted as bridesmaid, and Mrs. G. W. Griffith continued its strains softly during the ceremony. Miss Olive Ankeny, sister of the bride, acted as bridesmaid, and Mr. Hobart (Mac) Auker, of Wayne, as best man, Harriet Ankeny, youngest sister of the bride, carried the ring in the heart of a large rose, and Carroll Ankeny and Bonnell Nelson, tiny nieces of the bride and groom respectively, acted as flower girls. The bride was given away by her eldest brother, Vern C. Ankeny.

The bride was beautifully gowned in white georgette and taffeta and wore a veil and carried bride's roses. Her going away gown was a very becoming shade of dark blue and she wore with it a blue velvet hat and black furs.

Following the ceremony and congratulations came the jolly event of catching the bride's bouquet, which feat was performed by Miss Paula Mittelstadt of Winside, with Miss Dorothy Bessire a close second. (Dorothy still contends that Paula "only got it because her arms were longer.")

The decorations were in pink and white. An alcove in the living room where the wedding party stood during the ceremony was decorated with a huge bell, from which streamers of pink and white were festooned; the stairway and other portions of the rooms were similarly decorated and bouquets of pink and white asters, (the gift of the bride's great aunt, Mrs. L. C. Tollers) were effectively placed.

Many beautiful presents of cut glass and silverware attested the esteem in which the bride and groom are held.

With some difficulty (there were too many relatives present bent on mischief to make the thing easy) the young people got away about 5 o'clock by auto for Sioux City and expected to spend a few days at the Ak-Sar-Ben, and at Malvern and Tabor, Iowa, and be at home within a week. Malvern was the former home of the groom's family.

Out-of-town guests at the wedding were: Mr. and Mrs. J. H. Rimel, Mrs. Dorothy Nelson and Mrs. M. E. Boston, parents, sister and grandmother of the groom; also Mr. and Mrs. W. H. Morris, John Roberts, Arthur Dempsey, Irvin Auker, Miss Irene Dulin and Miss Dolly Ostland of Wayne. Mr. and Mrs. G. A. Mittelstadt and daughter, Paula, of Winside, and Miss Mary Rutherford of Kansas City.

The bride is the eldest daughter of Mrs. L. B. Ankeny, her father being the late H. A. (Bert) Ankeny, who died in April, 1903. She was born in Laurel and graduated from the Laurel high school in 1915 and from the Wayne State Normal in 1917. Last year she taught the second grade in the Randolph schools.

She is popular at home, which is best of all, and at the places where she has attended school and taught. That she may be happy, despite the rather untoward circumstances of being a war bride, is the wish of all who know her.

The groom is the older son of Mr. and Mrs. J. H. Rimel, who live on a farm one-half mile east of Wayne, where he has spent practically all of his life. He is called by the draft, being one of those who had expected to go next week to Camp Dodge. His younger brother enlisted in the summer and is at Camp Lewis, Washington. His only sister is Mrs. Nelson who was here at the wedding. Excepting to the younger set, he is practically a stranger in Laurel, but all of our good people will wish him joy and safe return to his charming bride—Laurel Advocate.

## CRADLE

WRIGHT—Friday, September 27, 1918, to Carl Wright and wife, a son.

HESEMANN—Tuesday, September 24, 1918, to Adolph Hessemann and wife, a daughter.

CHAMBERS—Wednesday, September 25, 1918, to Jas. E. Chambers and wife, a daughter.

STECKELBERG—Wednesday, September 25, 1918, to Herman Steckelberg and wife, a daughter.

## AUTOMOBILE COLLISION ON LAST SATURDAY

There was a mix up of automobiles Saturday evening when Master Charles Senter, who was driving the car down from home to take his father to supper, struck the rear end of a car driven by Miss Violet Bastian. One car was coming south on Main street the other going west on Fourth street. The lad thinks there was another car going north on Main street which was liable to hit him, or be hit by him, and that he was not able to dodge both of them, especially when he failed to make the emergency brake work. The people in the other car claim that the lad was talking to some one on the side of the street, and that they were unable to attract his attention when they saw a collision was coming, and their only chance for safety was to try to get in the clear. This they failed to do, and their car was struck hard enough to turn it quartering of the street and head it for the Wayne Motor company's window—but it was stopped before reaching the window. With Miss Bastian was Mrs. Emma Liveringhouse and Mrs. Auker and two children. Two of them were thrown from the car, and one of the little ones got quite a bump on the head; but according to reports is about well at this writing. The cars were slightly damaged.

The Democrat might say, "We told you so," but that is no good, and Charles, who met with this mishap on his first trip with the car alone, says he wants no more driving for him. But that does not cure the next boy or girl. Perhaps the law was right in fixing a minimum age for permitting children to drive automobiles, but it has been very generally disregarded in these parts, and we might have had something more serious to tell long ago.

One evening last week there was some sort of a near collision at the corner of Main and Seventh streets, and the post carrying the "Danger" sign was knocked down, and some cars mixed, but no one was seriously hurt. A few evenings before that the neighborhood was aroused by the frightened screams of some joy riders who came so near a mix there that they hollered plenty and some refused to get into the car again. The Democrat has been asked to mention these things—and we have repeatedly—but what is the use? Auto drivers violate the law with impunity—many of them—and are not punished, and as we have to walk most of the time, and take our chances of being run over, why worry? Some one will get a lesson some day, and the next fellow will not heed it—let 'em roll.

Wayne Cattle Top Market  
The following from last evening's Sioux City Tribune needs no explanation:  
L. M. Owen of Wayne, brought to market today a consignment of fed steers of a quality which brought \$17.25 per 100 pounds, the highest price paid here for live beef for several weeks. There were 44 cattle in the lot, and Mr. Owen had fed them on grain for about four months. They were purchased at the stocker and feeder show here last fall at \$9.25 per 100 pounds.

SPANISH FLU HERE  
Chan Norton is ill and the attending physician pronounces it the new Spanish influenza. Mrs. Elmer Sweet who came last week to visit at the Elmer Noakes home with her sister is said to be suffering from the same complaint, as well as the little daughter of Mr. and Mrs. Noakes. The cases are not considered critical at this time.

DEMOCRATIC PRIMARY NOTICE  
It is hereby recommended that all precincts in Wayne county hold their precinct caucuses at the usual voting places on Monday evening, October 7, and place in nomination the precinct officers to be voted for at the November election, and that returns be promptly made to the proper officers that the ballot may be made up.

Assessor, Justice of the Peace and Road Overseers are to be placed in nomination.

J. H. Kemp, Co. Chairman.  
W. O. Hansgen, Secy. Co. Committee.

CHRIS ROSACKER IS KILLED IN ACTION  
That is the sad news that comes from the front regarding one of the young men who went from this county last spring. Particulars are hard to get, but the death is said to have been early in September.

# Help Is Scarce! Let Us Show You One of Our Corn Pickers

Let us show you a way to get around the labor question. One way is to invest in modern labor-saving machinery, for instance, a corn picker. Yes a McCormick field picker will solve the corn husking question cheaper and better by far than could be done by human hands, all of which we can prove to you.

**FIRST**—Every draft makes labor scarcer, therefore you must use more modern machinery in order to keep on producing, and thereby help win the war and at the same time help gather your harvest. So why hunt and worry looking for some one to help gather your corn when a McCormick field picker will gather it for you in a surprising short time with less expense and is always on the job. With a little care the McCormick picker will last for years. Gets all the corn on the stalks; leaves

most of husks on stalks; takes what little shelled corn there is and puts it in the wagon with the ears.

**SECOND**—Stop and figure for instance you had 160 acres of corn yielding on an average 35 bushels per acre, a total of 5,600 bushels. At 8 cents per bushel would amount to \$448 and board for men, while a McCormick picker would cost you \$450 delivered to you at our place of business.

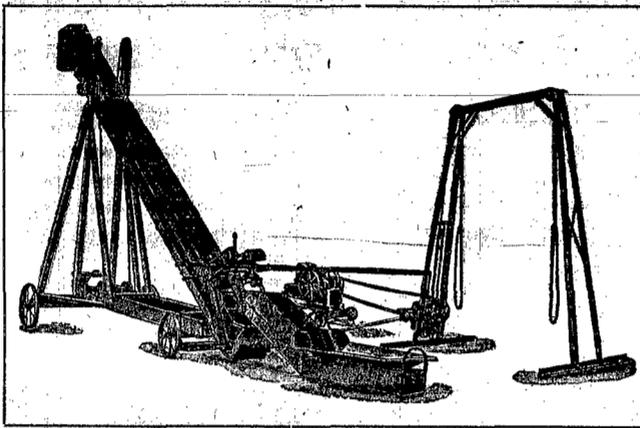

**THIRD**—McCormick pickers are built to last. All main bearings are roller bearings which means long life and also a light draft machine. Five horses will handle it any where. It is backed up by the International Harvester company, which means service.

## Sandwich Elevators

We purchased a car of these great elevators, a machine which has been thoroughly tested and proven a very popular aid for the farmer. It is so well made, using the time-tried cypress wood for its wood parts, that their life is so long and the repairs so slight that the first cost is lost sight of in the saving they make from year to year—and the convenience of having a dependable help in time when the emergency comes.

They make work easier, faster and less expensive. Huskers who have to scoop their loads want an extra price, and they lose time and energy.

In no essential feature is this elevator deficient.

## Meadow's

### Portable and Stationary Grain Elevators

Are the culmination of sixteen years of study and improvement, until they are considered the equal of the best for practical service. Ease of operation durability and satisfactory service.

These elevators are made in different sizes, of wood or steel, all castings are of gray iron, cast at our foundry, and made of the right kind and proportions of the different irons to produce the greatest strength and durability. Every department of our factory is in charge of experienced mechanics, specialists in their line, assuring a perfect elevator.

Never before have we taken the care in the purchase of quality implements, and we feel that in all reasonable farm machinery we are in shape to provide our patrons with that which has no superior. This, we feel to be especially true in our selection of the two makes of elevators offered above.

We invite inspection, confident that your judgment will confirm our judgment as to the quality of the offering. Yours for the best labor-saving machinery.

Implements of All Good Kinds.

Mrs. Walter Norris and son, Charles, who have been spending a month at the home of her father, Dr. T. B. Heckert, left Monday for her home at Kansas City.

Ernest Samuelson, who is in the employ of Uncle Sam, in the agricultural department, was visiting home folks at Wakefield a day or two, and spent three hours at Wayne Monday. His work, the "States Relation Service," takes him over a number of counties in this state, and he had been for a time at work in the drought stricken parts, and said that it looked good to get north of the Platte, where things look so much better than elsewhere that he had been. Last week he visited at Lincoln, where he attended school, and said that they were still up in the air there as to their military unit work—and that those who had gone to join there were waiting as patiently as they could to learn the chances, and what their duties would be, with practically no one to tell them. He referred to the opportunity on the hill here, and how well they were prepared to care for the young men, and expressed a wonder that any from this part of the state who could enter at Wayne would go elsewhere.

Mrs. Frank Strahan is visiting at Omaha this week.

Miss Fontanell Wright was a Sioux City visitor Tuesday.

Mr. and Mrs. Henry Ley went to Omaha Tuesday for a short stay in the city.

V. L. Dayton shipped three heifers from his Holstein herd to Grand Island Monday, and they slipped Mr. Dayton \$1,200 for the three. Monday evening he went to Albion, to attend a Holstein sale there Tuesday.

Sergeant Benjamin H. Schlorff from Waco, Texas, where he is in training camp, came Sunday to join his wife here for a few days. They were conducting a business in connection with the Savidge carnival, and when he was called the wife continued the. He will return the last of the week.

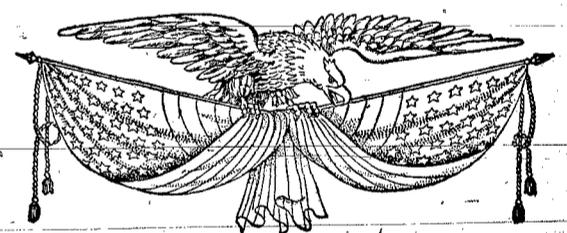

Mrs. Howison from Mapleton, Minnesota, who has been here at the home of her brother, Hi Griggs and family since the death of Mrs. Griggs, returned home Monday morning. She reports that the two daughters of Mr. Griggs who were most seriously injured are slowly improving, and able to be about with the aid of crutches, and that there is prospect of recovery without serious lasting injury.

Sergeant Major Guy Strickland, who enlisted in the engineering corps nearly a year ago, came home Monday on a ten-day furlough. He has been promoted rapidly, having graduated from a course of engineering and had considerable practical experience in Panama and in some South American countries. For a greater part of the time since enlisting he has been stationed at Washington, and kept busy as an instructor in one of the schools for teaching the recruits in that department. Guy is a son of Mr. and Mrs. D. L. Strickland, and has many friends here who are pleased to greet him.

Wayne Brown, son of the late W. S. Brown of this city, has sent word back that he is over in the land of the kaiser—or at least on the shore on the same side of the pond as his ribs, but he has not yet had a shot at him.

Saturday evening, Rollie Ley and Charles Reynolds and families autoed to the Ley cottage at Crystal Lake to spend the following day in an outing at that place. Of course, that is only part of the story, for Rollie was making a ferry of the little canoe and had safely sent the little folks over a stretch of about thirty feet of water—then pushed the craft out

and took passage himself. But his hair was not parted squarely in the middle and the boat tipped, skidded and Rollie waded out as the water was only up to his arm pits once he found the bottom with his feet. He spent the rest of the day by the fire inside with all the clothes he could spare drying on a line. Read the advertisements.

## To Win the War

Do your duty in patriotic deeds, not words—save food and fuel, buy Liberty Bonds and more if you can.

BE a unit with the Government, making every move productive of results that you may become proficient in doing your part for your country in this World War.

THEN we shall see a speedy and successful conclusion to our aim for a safe and lasting peace of righteousness and justice to all.

**LIEUTENANT JAY T. BAUGHAN SENDS MORGAN GREETING**

France, August 19, 1918.

Dear Old Frank:

I've often thought of the old gang around our mutual business stand and wondered how many of them were left. I suppose only a few.

Just at present we are east of Amiens and have driven the boche back so damn fast that we can hardly keep up with him but we are going to be moved tomorrow on to the front sector south of Paris. We spent five awful weeks up north before we came here but think we are going into a pretty good front now.

The place we are at today was just evacuated by Fritz about four or five days ago and we have been pretty busy covering up dead huns. The damned things have an awful odor if you let them lie around for a couple of days.

Fritz had to leave here in such a hurry that he left nearly everything behind. We found some of his big guns loaded all ready to fire so you see he didn't hesitate long. Also there are a couple of full hospitals around here and boche equipment by the train load. I am going to send you a Fritz helmet and gas mask today for I thought they would be quite an interesting sight to have in your window to draw the crowds.

Later: Believe me Frank we had some fun started just when I got this far, so I didn't stop to write. Jerry (the name for German airplanes, particularly bombing planes,) started dropping 5.9s on us and whenever he does that its time to hunt a hole somewhere. He got a few of the boys but only killed one sergeant and one corporal.

Well to go on with the helmet story, I remember all the things we used to do to get people to look at our windows and I thought these might help you.

This is an awful country right through here for it has been fought over four or five times. Towns are completely wiped off the map and shell holes as thick as the fly specks used to get on our windows in July and August. Another thing we have to watch is mines. Before Fritz left he mined a lot of bridges, buildings, dugouts, etc., and about every so often something goes up in the air. We go down into a dugout to sleep and any wires or anything left hanging on the wall is surely left alone.

Well Frank, whenever you have time scratch me off a few lines and give my best to all my old Wayne friends.

Jay T. Baughan,  
132 U. S. Inf. A. E. F.

**THE GREAT DRAWING OF MEN**

At noon Monday, President Wilson, blindfolded to represent the justice and justness of the draft plan for selecting men for our great army, drew from the first capsule from the large number of numbers in the great bowl, which proved to contain number 322. In this county, according to the list published in the Democrat last week, it called to service when he drew, as the first man from Wayne county Howard Vernon Silkett, Carroll. The next number low enough to take a man from the 1224 men who registered in this county, was drawn by Speaker Champ Clark, and was 1037, and it called for Wm. Herr of Winside. Mr. Herr has seen service before, and doubtless would have enlisted and been after the Kaiser before now but for the fact that he was shot through the stomach before our war was very old by a hold-up man, and it is doubtful if he is yet fit for service, though he was out of the hospital here in about three weeks, one of the few cases of recovery from a bullet shot through both walls of the stomach. No. 438, Fred Leroy Ziemer, Hoskins and 904, Samuel Solomon Church, Carroll, followed. Number 20 came next, and opposite that number stand the name of Carl Victor Johnson, also of Carroll. No. 739 is next on the list and that calls for Forest Roy Mills, Wakefield. No. 535 is Ervin Herbert Raduenz of Hoskins; 219 comes next and it calls Herman Deck Lehmkuhl of Pender. Harvey Summers Ringland, the first man called from Wayne is asked for in the next number taking one from this county, No. 625 Then follow in the order 72, William Alfred Fisher, Wayne; 11 William H. Lewis, Carroll; 338, Wm. Howard Morris, Wayne; 832, Thomas Green Fillmore, Winside; 964 Herman Richard Ulrich, Wayne; 348, Frank Henry Roggenbach, Wisner; 4, Fred Roscoe Dean, Wayne; 134, Per Person, Carroll; 395, Glenn Dewey Swartz, Wayne; and 657 is the last from this county in the 100 drawings reported in the Monday evening paper, and it calls for Paul George Wollschlager of Hoskins.

Of course, not all of these men will be called in the first call, because there is to be a greater per cent of exemptions and deferred classes in this draft than the other, because some are too young, and some not physically fit on account of age, and others because of dependents and being in a business which puts them in a deferred class.

**CATTLE SALE CALLED OFF**

The Cat Brewer cattle sale, which was to have been held on Tuesday, was called off by Mr. Brewer and he shipped his cattle to the Sioux City market this week. Several head of the cattle were sold, but as Mr. Brewer did not consider the prices satisfactory, he stopped the sale.

It is sometimes a peculiar fact that people will pay fancy prices for cattle that are shipped in, and of which they know nothing, only a stranger's word, but for cattle they know are of a high quality, that are offered by a home man, they fail to get enthused and such offerings go begging. The Brewer cattle were of an exceptionally high grade and should have brought top prices.

The above is from the Wynot Tribune, and Brother McCormick is commenting on a fact that is quite universal, and one for which no good reason can be given, unless it be that the men who wish to sell need to do more advertising. We do not know to what extent this sale was advertised, for we have happened to be too busy to watch the papers closely for such events. We do believe that the average farmer puts too little into advertising what he has for sale. Mr. Brewer knew that he had a good bunch of cattle—a few of his neighbors realized the same thing, but perhaps they did not need just that grade of cattle, which we infer from reading the above were feeders. Now had Mr. Brewer spent for printer's ink half what he paid for freight on the cattle to market, and told far and wide that he had so many head of cattle, that he wanted the neighbors to come and buy—that they could pay as much at his yard as they would have to pay at the stock yards and save the freight, he should have had from ten to twenty men there who really wanted cattle of that class, and you can bet the price would have been full value. The secret of a successful sale is to get the people there who want the stuff, and the more who want it the better. And judicious advertising will bring the bidders.

Last week we commented on what we considered the wisdom of Neils Herman going out to Bloomfield to get feeders. We will bet that he never heard of the bunch at Wynot, or he could have been there at that sale, and some one would have had to bid up to value to get the cattle.

**DOING THINGS IN EVERY BRANCH**

Never in the wonderful history of America has the record of the past year been equalled. In army, navy and air we have made wonderful strides. Less perhaps in the air than elsewhere—though as yet that investigation asked for and given so gladly to the charges of fraud and incompetency has failed to bring any report indicating that there has been anything radically wrong—and if there has been we feel confident that it will be exposed and any guilty of criminal neglect be punished.

Of the ship building the following official report shows what America can do when she tries, and a comparison of this record with that of any ten years of previous accomplishment must convince the most skeptical that there is something better than a prohibitive tariff to stimulate the shipbuilding industry:

The United States Shipping Board completed one year of work August 1, 1918, with a unique record of accomplishment. The year's work of the board is summarized by Pacific Shipping Illustrated under the head, "One year of Hurley," as follows:

The completion of 182 steel and wooden ships, totaling 1,420,000 dead weight tons.

The laying of 790 keels.

The construction of 819 ship ways. The increase of the ship building army from 45,000 to 250,000 men.

The lowering of ocean freight rates 25 per cent.

The addition of 118 German and Austrian owned vessels to the allied service.

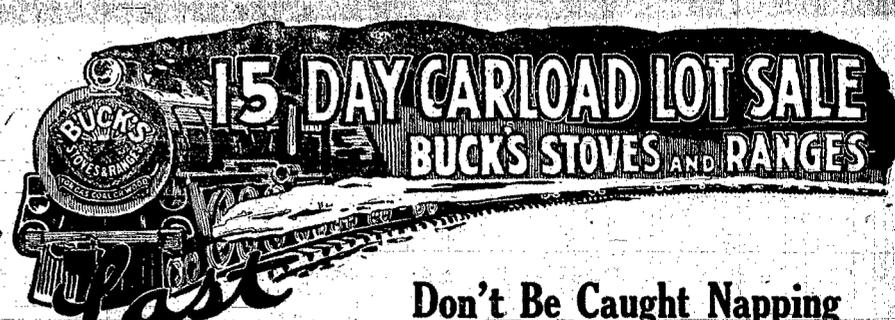

The requisitioning of 86 vessels from Holland.

The chartering of 215 neutral ships for allied Trans-Atlantic service.

**"THE CAMP DODGER"**

This does not mean a slacker, as used here, but is the name of a weekly paper issued from Camp Dodge, Iowa, by the soldier boys. Frank J. Harvey, from that camp, a man who tried to get to the front, but could not because he was born too soon, was here the first of the week securing subscriptions for the paper. It is a five sheet, and has for its business manager, Lt. Frank S. Perkins of Fremont. Mechanically it is most creditable, and is issued from a big printing house in Des Moines. Every dollar made above the expense of the paper, goes to the mess fund for the soldiers, so aside from the interest one might have in the doings at Camp Dodge it is helpful to a good cause.

As the next bunch of Wayne county soldiers will be in camp at that place soon, as well as nearly all of the 6,000 Nebraska boys of the next call this paper will have an especial interest to Nebraska people.

**TROUBLE AT HOSKINS**

The Hoskins city marshal was at Wayne Monday, and told the proper official that the thirsty and profiteering boot-leggers of that place have been discovered getting together at a new place, and he caught them with the bottle in hand. They were in a building in the dark, evidently looking for some of the wares supposed to be sold there. This looking at goods in the dark reminds the writer of an incident which happened in Iowa in an early day. A neighbor who had given reason to be regarded with suspicion came to a farmer home one evening for a few pounds of pickled pork, and the farmer picked up the candle, the only light of those days, and went to the cellar for the pork. While there in the dark, alone except for the faithful watch dog there appeared to be trouble between man and dog, and the man from below called up to know what was the matter, and to call the dog off as requested. He asked why the dog had bothered him, and for reply learned that the light-fingered gent had simply picked up a pair of new buckskin mittens to look at them, in the dark, and the pup had called a halt until the light came back.

Some men prefer darkness rather than light.

Mose Warner is of the opinion that the Germans will be so ashamed of their name after the war, that Germany will be known by some other name. If it were not for discrediting the devil it might be called Hell.

Now they are beginning to discover in Germany that the kaiser is crazy. We never saw him, but to read his ideas would make one know that he is as batty as a bed-bug. No sane man expects to rule the world in this day and age, and for one to seriously undertake the task as has the kaiser should be enough to send him to mad house.

The Hartington Herald says that we cannot afford at this critical time to trifle with the nation by changing

the personnel of the county exemption board. But he would not object to changing the state board perhaps, or even the political complexion of congress—something of far greater weight than a county exemption board.

The work of winning the war in battle is going forward most favorably to the allies. We cannot give war news in detail nor will the reader of a weekly paper wait to read it there—but we are winning great victories daily. The bond issue is receiving loyal support—the central powers are doomed to defeat and the day is not far distant.

WOMEN'S LIBERTY LOAN COLUMN

The meeting of the Women's Liberty Loan committee at the city hall last Saturday augurs well for a successful campaign as all but two members of the large body responded to roll call, and an earnest desire was shown by each one present to learn how to do her part.

Mrs. A. T. Chapin has all the requisites for a fine chairman. Good judgment, decision and animation. Mrs. Art Auker acted as secretary and Mrs. Rollie Ley, district chairman, was present to help along with the good work.

After the secretary had read a splendid communication from Mrs. George Bass of Chicago, national secretary, Mrs. Chapin gave further information, answering many questions and imparting timely suggestions.

H. F. Wilson, head of the Liberty Loan for the county, was then called in to expound the deeper and more vital matters.

Our quota for the county is \$913,750. A large part of this will be raised by the card system 2 1/2 per cent of the property value going for the Fourth Liberty bonds. More than 115,000 persons not having subscribed two per cent for the first, second and third bonds will be expected to come across before having the pleasure of purchasing the fourth.

Meetings are to be held in all school houses in the rural districts Saturday, October 5, where the chairmen of both the men and women's committees with helpers jointly selected will sell bonds between 9 a. m. and 5 p. m. on that day.

The many non-property owners in the county will be the special work of the women's committee.

Mr. Wilson told of one man who had come to the bank that morning anxious to buy and not wanting to wait for the special day to invest \$1,000.

One-half to be placed in his wife's name at which remark the ladies all nodded a smile of approval. Further items on the part of the women's committee will be given next week. Watch for this column.

One mean newspaper man says that if all the women had been compelled to register September 12, a lot of them would have told the truth about their ages and been glad to be over forty-five.

We understand that the men of Stanton, Madison and other counties have not considered the work of the women necessary in the Liberty Loan crusade. Our men in Wayne county Wayne county have been "perfectly lovely" as one lady expressed it.

Watch for the Liberty Loan jingles on the slides at the Crystal.

Cherokee county, Iowa, went over her quota of about a million and a quarter the first day, September 28!

O, Uncle Sam, come blow your horn. We must save up our wheat, we must use up our corn.

Where are our khaki lads today? They're over the ocean and far away! And will you help them? "You bet" says I.

A Liberty bond I will gladly buy.

"How long do you expect to remain in Wayne," asked a war bereft young woman of a young lady who has come to help fill the place of an absent war worker. "I suppose as long as the war lasts," was the reply. "O dear! I hope it will end soon," remarked the first lady.

Superintendent Armstrong of the Wayne public schools informs us that a short Liberty program will be put on in the different rooms tomorrow afternoon. Trust the boys and girls to be on hand when there is anything to be done for their country.

We can whip Germany with our money, but not with money in our pockets. To whip Germany we must buy Liberty bonds.

After all why should one person urge another to buy bonds when it rests on the conscience of each one of us. Shakespeare must have been thinking of the Fourth Liberty Loan when he wrote his immortal words, "To thine own self be true, and if thou canst not then be false to any man," for never did these lines apply more aptly.

ENSIGN IN THE NAVY

John T. Bressler, Jr., who was recently commissioned an ensign in the United States navy, is for a few days the guest of his parents, Mr. and Mrs. John T. Bressler, sr., Young Bressler was educated in the public schools of Wayne, at Andover, Massachusetts and at the University of Nebraska. He would have graduated from the latter institution in June of this year, had he not joined the colors. He joined the navy and was ordered to San Francisco where he did all the stunts known to a seaman's life. After several months service on the Pacific coast, he was transferred to Newport, Rhode Island. In a short time he was chosen by his superior officers to enter the officers' training school at Newport. After four months of intensified study and training, the class was required to take examinations, and young Bressler passed all the examinations successfully. And in the near future he will be on a sea-going ship chasing German submarines. Like all American youths he is hoping his first assignment will be "over there." Nebraska has reason to be proud of her boys in both army and navy—for they are making heroic records in the greatest war known in history, and John T. Bressler, jr., will be in the front lines here or there no matter what his assignment.

FRITZ MILDNER SENDS LETTER

Herman Mildner shares with Democrat readers the first hand news which they have received from their son who is helping to win the war:

September 7, 1918.  
Dear Mother and Dad: Am feeling fine and getting fat. I have a good job and we eat pretty good, so their is absolutely nothing to worry about at all. This war is going to end soon, is the opinion of most of the men around here, I certainly hope they are right.

We have pay day in about a week and I am going to send some souvenirs of France home to you. Oh! say, I saw Ralph Ingham and Walter Briggs (you know Briggs the fat fellow that used to work for J. G. Mines.) They are stationed about seven miles from here. I was playing in the band, making trips from one town to another playing for the boys. We were playing at this certain town and I happened to look around, and there stood Ralph and Briggs—both staring at me with their mouths open. When I saw them I nearly dropped my horn in my excitement; I sure was glad to see them. Since then I have been up to see them again and had a long talk with them, they have to work all the time, it is pretty hard for them to get a pass to come down here, they are in an evacuation hospital taking care of wounded, etc. Ralph works in headquarters office and Briggs is ward master of one of the wards.

The band has broken up now because they had to have more men on the railroad, and the band was only a volunteer band so they took the band fellows, all but me because I am still attached to the medical department and not a member of the 13th Engineers as a railroad man.

I also saw Warren Shultheis day before yesterday. He is stationed about ten miles from me in the opposite direction from the other two boys. He belongs to evacuation No. 9, and they are just building the hospital. When I walked into the operating room Warren was, saving a board, he was on his knees on the floor working and sweating (to beat the band.) I stood beside him and watched him work. He didn't notice me for quite a while, then he looked up, and said, "well for God's sake look who's here." He sure looked surprised. We had quite a long talk, he told me he got the money from you. Thanks, Dad, I didn't know I would see him over here or I could have paid him.

I can't find any trace of Jones or Carhart we were all split up over here. When you answer this get their addresses and send them to me please.

I met a young Frenchman here, about two weeks ago. He lives in Alsace Lorraine and can speak German

and French, but not English. He was wounded at Verdun so they sent him to the French hospital stationed here his wounds are all healed now. He comes over to our camp nearly every evening and I am teaching him English and he is teaching me French. I ask him a question in German and he answers me in French and then I tell him how to pronounce it in English.

Am sending you one of our papers. Tell Paul I will write to him soon. Tell Elsa to send me some pictures. I forgot to tell you I have charge of the kitchen in the hospital, all I do is get the meals from the company kitchen and bring them over to the hospital and dish it out to each member of our outfit.

I also forgot to tell you that I met Ed Jones (Gaertner) on the boat, he is in the artillery. We had one regiment of artillery and one company of signal corps on the same boat that we came over on. Altogether we had about 4,200 men on this boat, it was a rather large boat but I went to sleep standing up many nights on the way over because there was not enough room to lie down. A lot of the fellows got sea sick but I didn't. Say, ma, I haven't received that sweater yet. Did you send it? If you did it is probably lost because we changed addresses so much I don't think it will follow.

I haven't received any mail since I left Camp Merritt, July 13. So write often.

With love to all.  
Give Mae and little Jeff my love.  
F. A. Mildner, 13th Engineers Ry. Med. Dept., American E. F. France.

WITH THE WAYNE CHURCHES

At 11 a. m. sermon, subject: "Ezekiel's Vision of the Waters." A World vision.

Young people's societies will meet at 7 p. m. Leaguers be boosters. College students are cordially invited to all our church services. Especially you who come from Methodist homes.

At 8 p. m. sermon by the pastor. Subject: "He Paid the Fare, and Went Down Into It."

Special music and song by the choir. Did you hear the Methodist choir last Sunday? If not you missed a great inspiring, uplifting, soul comforting service. Come next Sunday to church.

We extend a special invitation to the business men of Wayne to come to church next Lord's day.

Prayer meeting every Wednesday evening at 8 o'clock. A great meeting last week.

Woman's Home Missionary society will meet on Friday afternoon with Mrs. Charles McConnell, a large attendance of the ladies desired.

**English Lutheran Church**  
(Rev. J. H. Fetterolf, Pastor)

Our Bible school meets every Sunday morning at 10 o'clock. It would be a splendid thing for parents to set their children an example in being regular at these sessions.

The hours for public worship with sermon are 11 a. m. and 8 p. m. These are after all the important services of the Lord's day. Come tho! with us and we will do them good.

The league has taken on new life and interest. We are anxious to enlist the interest of every young person in the church. We are not depending on outside helps in these studies. The Bible itself is used and made its own interpreter. It has been the means of stimulating new interest in Bible study. Come promptly at 7:15 p. m.

The officers of the church are called in special session to meet in the pastor's study tomorrow (Friday) evening.

The Missionary society will hold its October meeting next Wednesday afternoon at the home of Mrs. Anton Lerner.

The pastors wants to meet all the young people who desire to take a course in catechism. This meeting is work. Come to the church next Saturday afternoon at 2:30. Parents can be of great assistance in getting this important work started.

All the fruit that has been canned for Tabitha Orphans Home should be brought to the parsonage not later than next Monday. It will be packed and shipped on Tuesday. We want to make only one shipment so please have it all in on time.

**Baptist Church**  
(Rev. Fletcher J. Jordan, Pastor)

State Mission day program will be given next Sunday morning at 10:30. There will be no evening worship, as the pastor is attending the state convention at Omaha.

Sunday school at 11:30. This is free for all. Plan to stay with us and study God's word. You will be welcome.

B. Y. P. U. next Sunday evening at 8:30. The topic will be: "All for Christ—Our Money." 1 Tim. 6:6-10. Normal school students and all young

GREAT LAND BARGAINS

400-Acre Farm at \$150 Per

For sale a farm of 400 acres, eight miles from Randolph. Good soil, fair improvements, and easy terms. Seeing is believing. Write the owner for particulars. G. A. Hanssen, Randolph, Nebraska, or W. O. Hanssen of this place can tell you much about the place.—Adv-40-2

A good half section, eight miles east of Bloomfield, Nebraska, well improved and favorable terms. Priced for quick sale at \$140 per acre.

Also 160 acres of land five miles west of Bloomfield, lays well and has house of 8-rooms, barn, hog and poultry houses, grove and fruit. Whole place may be cultivated, and it is priced to turn quick at \$100 the acre—but it won't stay long at that price. Terms most favorable. The name of owner, who wants to deal direct, may be had at Democrat office.—Adv-40-2

I have at bargain prices a section, a half section and a quarter section

of land not far from Bismarck, North Dakota, more than worth the money for any one looking for a home. Geo. E. Wallace, Bismarck, N. D.—Adv

NEW CHIEF OF POLICE

Mayor Lamberson has named Andy Chance chief of police to succeed Geo. Miner, who for so many years held the place. Mr. Chance has the qualifications to make a splendid officer.

Card of Thanks. We wish to express the heartfelt thanks to the neighbors and friends for their kindness during the illness and death of our dear one.—H. E. Griggs and family.

HOLT COUNTY LANDS

One hundred sixty acres, hay and grazing land, five miles from O'Neill, \$20 per acre.

160 acres 2 1/2 miles from O'Neill, well improved, worth \$60 per acre; 10-acre ash grove, 20 acres alfalfa, only \$45 per acre.

320 acres, 7 miles from O'Neill, best farm in Holt county, and none better any place. Will net owner \$10,000 this year. Price \$100 per acre.

600-acre ranch, near Swan Lake. Well improved, hay and grazing land, \$12.50 per acre.

1,200 acres, 7 miles from Chambers, mostly all hay land. A good ranch but no improvements, for \$12.50 per acre.

1,440 acres, 15 miles from O'Neill, practically all hay land, will cut over 1,000 tons. Fenced, \$30 per acre. Also have 800 acres of grazing land, 1/2 mile from it for \$10 per acre.

The New Tire Trouble Stop Shop

Is now open for business in the Witter building, recently occupied by the Basket grocery, just opposite the Union Hotel. Here they do hot water vulcanizing, and mend your inner and outer tubes without burning.

They make you money by adding to the life of your automobile tires.

We have exclusive agency for the famous

GATES HALF-TIRE

and are one of their authorized service stations

They now have in stock a full assortment of sizes of these famous tires, and are fully equipped to make your old tires new. An expert from the factory at Denver is here this week and has Messrs. Williams & Pohlenk fully instructed in the best manner of making your old tires new at less than half the cost of the new.

More than 300,000 motorists now use this wonderful protector to double the life of their tires.

Gates Half-Sole Tires transform your worn tires into the most beautiful, brand-new, over-size, puncture-proof tires that money can buy. They carry a stronger guarantee than the tires now on your car, because they are guaranteed puncture-proof. YET THEY COST ONLY 1/2 AS MUCH. Before you spend another dollar for tires, investigate.

**SERGEANT WARREN CLOSSON SEES PHILADELPHIA SIGHTS**

In a letter to his sister, Mrs. Ida Closson Clark of Sholes, Warren tells of what he saw when off duty from Camp Dix, where he is stopping on his way over to Berlin, as follows:

Camp Dix, N. J., September 21, 18.

Dear Samantha— I suppose you have been having a duck fit for several days because you have not heard from me, but the reason is that we have been under quarantine for Spanish influenza, but now are out. I did not hear from you either until today, and then I got five letters all at once.

I was in Philadelphia and did a good job rubbering. The first thing I did when I lit was to buy a dozen blue points as big as my hand, and they tasted as different from oysters at home as beef and pork. Then I went sight-seeing. I wandered up the same street that Ben Franklin did so many years ago, only I did not have my clothes in my pocket handkerchief nor a loaf of bread in my hand. I saw the original Independence hall, and the place where the Declaration of Independence was signed. I saw a huge bronze tablet on the side of an office building and on it was inscribed the message that this building stood where the building did in Revolutionary times that housed Thomas Jefferson when he wrote that most wonderful declaration of man. Then further on I saw the free public library of Philadelphia, founded by Benjamin Franklin, and before it stood a statue of him, erected in 1792.

I saw where Morris Bank stood—the man who made the credit of America. I cannot tell you now all I saw that day.

About ten miles from our camp stands a monument marking where Washington crossed the Delaware to get the Hessians at Trenton. In the cemeteries here you find many graves of heroes who died there. I saw four torpedo boat destroyers and a battleship anchored in the Delaware at Philadelphia. I also saw a mammoth transport. I cannot go into details, but some day I will tell you about these things.

Enclosed you will find how I looked one year after I landed in Camp Cody. I will write as often as I am allowed, so don't worry about me if you don't hear as often as you think you should. Love to all, Warrie.

Sergeant Warren Closson, Co. A, 109 Military Police, 34th Division, Camp Dix, New Jersey.

**RED CROSS SALE DISTRICT NO. 4**

Friday evening, October 11, there is to be a great Red Cross sale in the school house of district No. 4, better known as the Kai school, where Miss Gladys Chambers presides as teacher. There is to be a box supper, and many of the patrons are donating valuable things for sale. One \$75 thoroughbred pig is all ready in the ring. The prospect is for a good time and a fund from that district of several hundred dollars for the Red Cross. If opportunity permits you had better go.

**PRESIDENT WANTS CLEAR STATEMENT OF ALL WAR AIMS**

President Wilson has served notice on world there must be a new deal in diplomacy. His speech paves way for definite and open understanding.

(Robert J. Bender, United Press Staff Correspondent.)

"There is a strong and growing feeling among officials and diplomats in Washington that there should be a clarification of allied war purposes to answer the German cry of 'we must fight for self-preservation.' The short, sharp rejection of the Austrian peace maneuver not only by President Wilson, but by the chancellors of France, Britain and Italy has had two results:

"First, an appeal by the allied labor congress in England for a re-statement of war aims that the people of the nations fighting may see that the allied purposes are united, and

"Second, the Teuton masters have spread the poison that the turn-down of their offer shows that the policy of an allied economic boycott and the destruction of Germany is the purpose of America and her allies."

For some time there has been a feeling that the same unity of purpose did not exist in the diplomatic councils of America and the allies as has wrought such wonders under unity of military command.

"President Wilson has spoken repeatedly—and strikingly independently—of America's war aims and purposes at the peace table. From the peoples of allied nations his peace table views on open covenants openly arrived at, a square-deal-trade policy and 'peace-without-victory' in so far as victory implies the destruction of one nation so as to benefit another' have met with approval. But on these three points little support has been manifested by the allied statesmen.

**No Agreement on Trade**

"There has been no abrogation of the allied agreement for an economic boycott against the Teutons, which President Wilson does not sanction, diplomats pointed out.

"The league of nations which he sponsors, has had slight official approval openly voiced in the European capital that America and the allies should get together in a frank statement of their purposes at the peace table and clear the air, both at home and in the countries of the central powers.

"President Wilson has served notice on the European chancelleries—allied as well as Teuton—that they must scrap their old style state craft if enduring peace is to come out of the great war.

"The United Press is able to state semi-officially today that the purpose behind his New York address Friday night—regarded as most strikingly independent, is three-fold, namely:

"First, to notify frankly and openly the allied spokesmen that they must harken to their people's wishes and openly clarify their war purposes as the United States has done.

"Second, that they may frankly discuss America's views and say 'whether they think I am mistaken in my interpretation of the issues,' because unity of counsel and purpose is as essential as unity of military command to properly win the war.

"Third, that the whole world, belligerent and neutral, may know that America will not be party to a peace that sees one nation suffer to the profit of another: that this nation insists upon justice to friend and enemy alike, at the peace table; that it insists the peace negotiations shall be public to the world, and that no secret covenants of barter business shall occur within the world alliance to enforce peace, upon which we still insist.

"Standing out above his reiteration

of our war purposes, his adherence to the league of nations idea and like positions he has frequently taken heretofore is the president's virtual challenge to the European spokesmen to lay all their cards on the table now. He points to the demands of the 'plain work-a-day people' that the leaders of their governments declare to them 'plainly what it is exactly what it is, that they are seeking.'

"The people of these countries he says, are not yet satisfied with what they have been told \* \* \* statements must follow the clarified common thought or be broken."

"And on this point he talked directly at the statesmen of our associates as well as to the hypocritical spokesmen of our enemies. The note of the whole address sounded the warning that America and the allies must think more clearly now than ever before of the issues that hang upon the war, and the purposes that must be realized from it."

**DO NOT BURN PAPERS**

Beware of building bonfires nowadays. They will betray you. A paper famine confronts us and a bonfire is, therefore, an act of treason. "Waste paper," you say? The answer is: "There should be no waste paper that the junkman cannot salvage!"

Waste paper today is worth good money. Waste paper can be turned into thrift stamps. Your patriotism is therefore questioned if you indulge in bonfires. Your smoke and flame will speak louder than your words. Protest your loyalty if you choose, but we'll fail to believe while your sparks fly upward! If, in the face of proven facts you persist in wanton destruction of valuable material, do not blame us if we doubt you and act accordingly. Treason consists in giving aid or comfort to the enemy. Every bonfire is a kaiser aid. You sign your own decree when you apply the match. In time of war we are often forced to make short shifts. Do not oblige us to make a bonfire a legal act of treason.

Conserve your paper! Do not burn it!

That sounds good, but just go and whisper that to Sam Davies, or most any one else who has tried to conserve paper, and see how they came out. Sam worked early and late, gathered paper by the ton—paid a price so small for some good magazine paper that the people thought he was robbing them, and after a number of months he had a car load which he sent to market, and when returns came in Sam figured up what he had paid for help and freight and a little for old magazines, and discovered that he had paid out several

dollars more than he received just for the pleasure of getting a lot of exercise. Of course, we believe that a set of thieves in the guise of commission men or junk dealers, got hold of Sam's consignment and deliberately robbed him, but no matter who handles old paper from any town away from the market is very apt to have the same experience. Until there is a market to which to ship without letting a bunch of middle men rob the shipper, there is small encouragement for one to conserve paper. They cannot afford to do so. There is a class of profiteers always trying to stand between supply and demand and reap where they have not sown. The people who want to

use old paper should go over the heads of those greedy grabbers if they want the paper saved—but Sam is gathering another bunch, because he has a quantity accumulating weekly, and he hates to see it wasted. Give him a show to go direct to consumer.

**GOLDIE AND THE HOGS FORTY-FOUR YEARS AGO**

(Wilmington Journal)

Forty-four years ago the Journal man remembers taking a small load of hogs ten miles to market, in western Iowa. There were two sow pigs, a barrow and one stag in the assortment, and we rather guess the matter of selling them was put up to mere kid because of the possibility that no buyer could be found who would accept the porkers from a grown man although they were good hogs. A kind old Irishman took pity on the hungry, pinched and freezing-to-death country lad and paid us \$1.65 per hundred for the pork, which was considered a good price for even the choicest of fat hogs. A couple of days ago we noticed A. J. Cross carrying a small package, about eight inches long, six wide and two in thickness, and when he said it was "diamonds in pork," it brought to our recollection the above incident, and shows that four pounds of meat today is worth just as much as 100 pounds was forty-four years ago, which is going some.

## YOUNG MEN SHOULD GO TO CHURCH

Many young men go to church. The majority do not. Only 20 per cent of the young men of the average community attend divine services.

Most reasons advanced by young men, and old men, too, for that matter, for non-attendance at church reveal this common element—a fatal indisposition to attend.

To the majority of young men Sunday as a day of rest has no appeal. It is rather a day for picnicing, for motoring and gaming, etc. Plainly no need for the Sabbath ministries of the church is felt.

The fact is, however, that if the young man of today hopes to attain to the fullness of a full-orbed life, he must look to the training of his heart as well as his head or body. The strength for life's moral crises does not come alone from physics or geometry, but from that spiritual training which makes us realize our responsibilities. The church, with all of its facilities, furnishes that training.

The Church-Going habit is therefore a good preparation for life. Within the corporate life of the church is to be found that atmosphere, that climate, that opportunity, that enjoyment, that refinement, the cords that will bind you, young man, to the ideals and purposes of a noble life will not be alone the iron bands of worthy wisdom, but the mystic threads of devotion.

The church is an institution dedicated to a most worthy purpose and it should command the best energies and enthusiasms of young manhood. And what is good for the young man is equally good for his father.

Attend some church next Sunday.

LeRoy Owen left last week for Chicago where he joined a unit of the S. A. T. C. and will begin work at once. He would have preferred to have remained here, but could not take the studies he now needs in the plan of education he has mapped out. LeRoy will make good in either place.

Last week there was a family reunion of five members of the Young family. That is they were once Young. Mrs. Jas. Stockdale and Miss Kate Young of Harlan, Iowa, and Mrs. Sadie Berry from Peetz, Colorado, who came to visit their sister here, Mrs. I. W. Alter. Then the four went to Coleridge, to the home of another sister, Mrs. Lafe Darland, to complete the circle. The sisters from away remained there for some time, and then visit here again.

Robert E. Jones, our county surveyor, has been at Concord, where they are experiencing a bit of growth, and getting ready for more. He has been surveying and platting two additions to the place: One by N. P. Nelson and another by John E. Mr. and Mrs. G. L. Mather, Mr. and Mrs. Harold Lewton and daughter Barbara Jane and Mrs. Ona Mather Beutow of Sioux City, Mr. and Mrs. W. L. McCool and son Russell of Ponca, Mr. and Mrs. Fred Foster and W. R. Beutow were guests Sunday at the Wm. Buetow home.

There is to be a corn husker demonstration at the McEachern field just west of Wayne Friday afternoon, showing the work of a husking machine. Kay & Bichel are the ones who have the machine. David Herner, who was a Wayne visitor Wednesday, tells us that he has bought one for his farm, as the best solution of the problem of husking 180 acres of corn, and hopes to save enough in labor hire, board and time to pay for the machine this season.

## SOCIAL NOTES

The Minerva club held its first meeting of the year with Mrs. Ada Rennick this week. After the business session which was presided over by the president, Mrs. W. E. Beaman, a vocal solo was given by Marlow Coleman, accompanied by Mrs. J. T. House. Mrs. Lackey was leader for the afternoon, and gave a paper on "Child Welfare." It consisted mostly of laws for children, laws of different states and the penalties for violation of them, especially the labor law. She also told of the problem of children in the present day war-times. She then read a paper on "Ideal Child Labor in the Home," by Jessie P. Rice, which told about the amount of labor each child should do; should not be over worked nor be allowed to shirk all home duties. She also read the laws suggested by social workers in a recent committee meeting held at Lincoln. Lynette Rennick gave a piano solo, which was enjoyed by the ladies. Mrs. Rennick, assisted by her committee—Mrs. Owens, Mrs. House, Mrs. Beaman, Mrs. Miner, served a delicious luncheon at 2 o'clock. Mrs. Beaman will be hostess October 14.

Last Friday evening a bunch of young girls met at the home of Arline and Lucile McClelland for the purpose of forming another Camp Fire organization with Miss Florence Gardner as guardian. Miss Margaret Helt was elected secretary, Miss Arline McClelland, treasurer. The girls chose "Eriwohe," meaning friendship, work and health, as their name. A werner roast was planned for Friday evening. The members are: Margaret and Clara Helt, Arline and Lucile McClelland, Alice Fisher, Leila Mitchell, Opal Thompson and Sara Graves.

Mrs. Wm. Goldsmith was hostess at a most interesting Bible study circle session Tuesday afternoon. The opening lesson in the Old Testament series on the Call of Abraham was led by Miss White with unusual grace and wisdom. Much praise and rejoicing over recent war victories, and many answered prayers, gave a bright

note to the meeting. Mrs. A. E. Laase will be hostess next week. An invitation to meet with Mrs. T. F. Braeken at Emerson in two weeks was accepted with pleasure.

The first meeting of the season of the Woman's club was called to meet Tuesday at the home of Mrs. Chas. Hiscoc, and was well attended. At their business session it was decided to devote one meeting each month to Red Cross work. After business had been completed, the hostess, assisted by her two daughters, served a dainty luncheon to those present. The next meeting will be held Tuesday at the same home. Mrs. C. W. Hiscoc and Mrs. Burret Wright were elected delegates to the state meeting at Fairbury October 15 to 18.

## Country Club Pleasures

Last evening a number of the members of the Country club gathered at the grounds for a social time, supper and dance, and a part of the party went in the afternoon and spent the time at golf. Among those present were Rollie Ley, Harry Fisher, Charles and Harry Craven, A. R. Davis, H. S. Ringland, J. E. Hufford, F. S. Morgan, B. Carhart, Jas. Miller L. A. Fanske, D. W. Kinney and Ray Reynolds and families.

The Coterie club held its regular meeting Monday afternoon at the home of Mrs. A. T. Cavanaugh. After the business meeting an interesting paper on the health and morale of the American army by Mrs. William Metlor was enjoyed by the club. Light refreshments were served. The next regular meeting will be held October 7 at the home of Mrs. H. W. Theobald and the afternoon devoted to Red Cross work.

Mrs. J. J. Coleman entertained the Girls' Bible circle Friday evening. Mrs. Young led the lesson using 1st John third chapter as lesson study. It was decided to take up the study of John using Miss Grace Sax outline on the book. Mrs. Chas. McClelland will be hostess this week, Friday evening.

The H. H. S. met last Thursday with Mrs. Dean Hanson at Concord. Sewing on quilts and garments for the Christian Home Orphanage at Council Bluffs was the work. Next meeting with Mrs. Irve Reed Thursday, October 4.

The Sophomore class of the Normal had a werner roast in Ben McEachern's grove Thursday evening. Games

were played. It was 9 o'clock when the tired but happy students reached the dormitory.

The Acme club will have their first meeting of the year Monday at Red Cross rooms, where they plan to meet the first three weeks.

Mrs. A. B. Clark entertained a few friends at cards Friday evening. The hostess served a delicious two-course luncheon.

P. E. O. meets with Miss Rachel Fairchild at the home of Mrs. A. H. Ellis on Monday evening.

## No Ugly, Rusty, Red Doors on a Copper-Clad Range

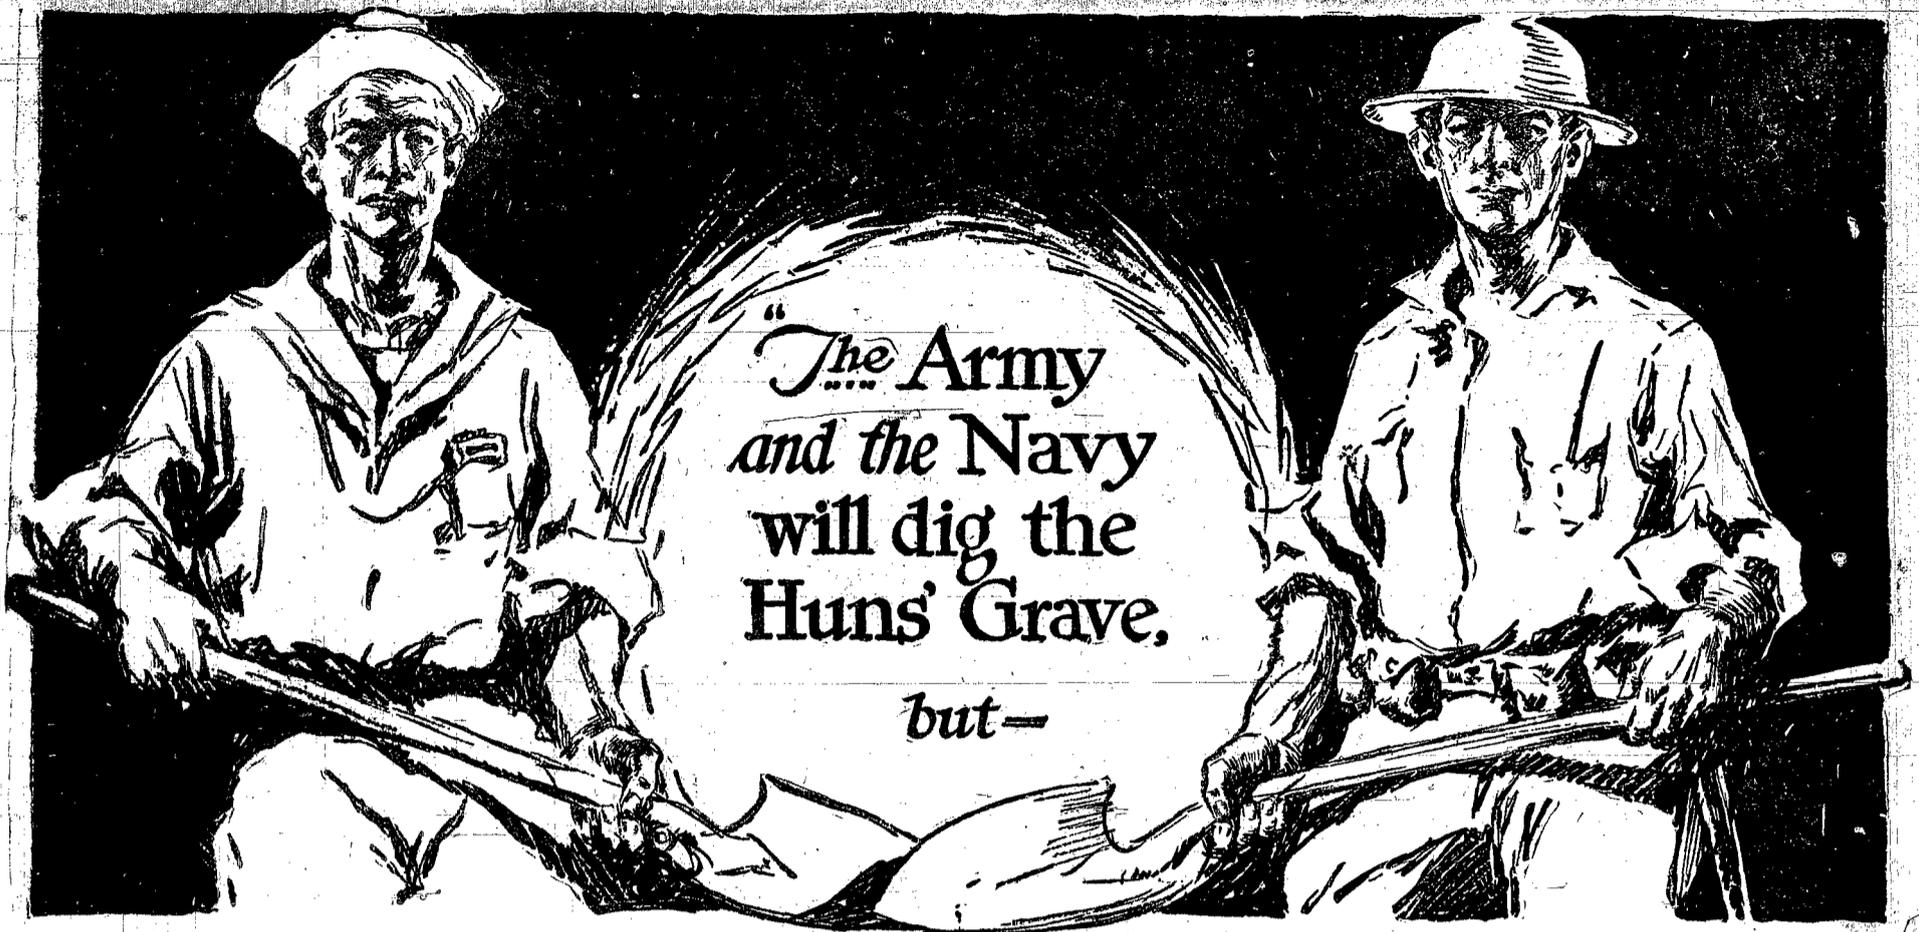

The doors of your old range are red, rusty, ugly. The Copper-Clad doors are clean, bright, plain and pretty all the time.

Copper-Clad doors have two walls or panels; an inner panel and an outer panel, and an outer panel, with a big air space. This air space saves the outer panel from the heat and it never burns red. With double-walled doors, a four-walled body, and an air space, you can understand why the Copper-Clad is the best heat-holding range known.

The small amount of fuel and the regularity of the heat is a pleasant surprise to every buyer of a Copper-Clad, The World's Greatest Range.

# We Must Furnish the Spade" — *Billy Sunday*

By REV. WILLIAM A. SUNDAY

Uncle Sam's Liberty war chest needs filling  
against

We have the cash to fill it as many times as  
he lifts the lid.

There are only two horns to this dilemma—  
you are either a patriot or a traitor.

The men on the firing line and on the battle-  
ships have turned from business, home, mother, wife, chil-  
dren, and they stand ready to give *their* lives and shield with  
*their* bodies us who remain at home.

We are unworthy to be thus protected, if we  
do not do our utmost to sustain them.

We must be one in our determination to win  
this war. We are traitors to the cause for which they are  
giving their lives, if we do things here that make their efforts  
harder.

Life is not worth living unless there is some-  
thing to live for. *Life would not be worth living if that bunch  
of Heimsers should win.*

That is why they cannot win. That is why  
we cannot lose.

What a mountain of crime God has on his  
books against that horde of Hellish Huns. What grave is  
deep enough for this thousand-armed, thousand-footed,

We will never stop until Germany dips her dirty blood-stained rag to the Stars and Stripes.  
It's a whale of a job we've tackled, but we can and must put it over.

But you must help.

Don't whine. Don't knock. You can't saw wood with a hammer. Don't turn the hose  
on the fire; add fuel.

thousand-headed, thousand-horned, thousand-fanged pirate  
of the air, assassin of the seas, despoiler of the earth and ap-  
bassador of Hell!

The army and navy will dig the grave, but  
we must furnish the spade.

Our boys will soon hang crape on the door of  
the Potsdam Palace, and the bands will play Yankee-Doodle  
and Dixie along the Rhine.

Uncle Sam is the cactus in the Kaiser's pillow.

Our Boys have gone over to clean up on that  
fool bunch of Huns and it is up to us to supply them with  
whatever they need to finish the job. It takes money to keep  
the riveters riveting—the sawyers sawing—the machine guns  
spitting bullets and the grub wagon always on hand with the  
eats. There is nothing too good for our brave defenders.

Our vocabulary contains no words adequate  
to express our approval of the achievements of our govern-  
ment since we threw our hat in the ring. We are rich on top  
of the ground; we are rich under the ground and our rivers  
creep like silver serpents to the seas, bearing our products.

The children of England, France, Italy and  
Belgium are laughing once more because they are being fed  
from Uncle Sam's bakeshop. One carload of meat every two  
minutes, one hog out of every four, nine million pounds of  
meat a day—all going over to feed our boys. We are in this  
scrap to the last dollar, the last grain of wheat, the last day.

## HEAR THIS CALL from OUR HOME TOWN BOYS OVER THERE

LETTERS from our boys in the trenches and from the women in canteen and other war work, all bring to us the same message—SEND US NEWS FROM HOME.

World news is all right, but OUR BOYS want NEWS OF THIS TOWN. They want the home newspaper. Publishers are prevented from sending their papers free to anyone, even boys in the service. Consequently a national movement has been started by Col. William Boyce Thompson of New York, who is acting as President of the Home Paper Service of America to give the boys what they are calling for. Every community is joining the movement. Let us see that our boys are not forgotten.

Send to the publisher of this newspaper whatever amount of money you can—5 cents or \$50.00. We will publish a list each week of those contributing, and the amounts contributed.

Every cent received will be used to send this paper to our boys at the front. If at the end of the war, there is any surplus, it will be turned over to the local Red Cross Committee.

There is no profit in this to the publisher— even in normal times, subscriptions are not sold at a profit. With war prices prevailing, and the high rate of postage on papers sent to France, our cost will scarcely be covered by our full subscription price.

Remember that over in France, some brave soldier or sailor from this town—perhaps even some splendid woman working within sound of the guns—is depending on you to "KEEP THE HOME LOVE KINDLED."

They are calling to YOU from "Over There"  
GIVE WHAT YOU CAN

### THE RAILROAD MEN AND THE LIBERTY BONDS

From a conversation which the editor had Sunday with some of the railroad men, they are all planning to do well their part in securing the little six billion asked of the people to can the Kaiser. John A. O'Brien of Minneapolis, a general traffic agent of the Omaha, and James Clune, from the same port, who has been for fifty years in the employ of the Northwestern, and is the oldest engineer in point of continuous service on the road, were here Sunday, running over from Emerson where they had left the special car in which they and others were traveling in the interest of the loan. J. Lynch of this state, who looks after Nebraska traffic matters, and A. E. Morell the agent of Emerson were with them. It had been their purpose to meet with R. A. Coyle here, who has been assigned to a part of the loan work, but he was out looking after the men he had to see.

One of these men was particularly enthusiastic in favor of making the loan a success, and said that it was the sentiment among the men from the section up, for the government had recognized their need of greater pay and given it without unnecessary delay or parley—and that they had received what they would never have been able to obtain from the old management, not because it was unwilling, but because the stockholder had to be reconed with as well as the workmen.

Mr. McClure, looking back over his years of service, and noting the development which had taken place along the railroad lines he had traveled so many days told interesting incidents of intelligent development of what had once been considered waste lands that it made one think that most of the land of this country could be made to produce, once it is properly handled, tickled and fed just right.

The railroad boys are enthusiastic supporters of the administration, and admirers of the president for what he has done for the laboring people of the world.

September 26, 1918.  
Mr. and Mrs. Ed Broker and E. H. Summer and family of Norfolk and G. W. Wingett were at H. C. Lyons' Sunday.

Elmer and Reuben Lyons spent Sunday their high school classmate, Verner Wickert, as he is soon to depart for camp.

L. D. Bruggeman and Mrs. Ed Bruggeman were Sioux City fair visitors Wednesday. Louie, Jr., going down later in the week.

A reception was held at the John Beckman home Wednesday evening in honor of Mr. and Mrs. Fred Beckman who departed for Camp Funston Saturday where the bride will remain till Fred departs overseas.

Albert Hogelin has been visiting his sister, Mrs. R. Nelson, at Fallon, Montana.

### October 1, 1918.

Those from this vicinity who received first notice to become Uncle Sam's boys are: Louie Bruggeman, Harry Lyons, Alfred Bruggeman, Elmer Lyons, Henry Hohr, Alvin Young, Carl Sals, Henry Meyer and Albert Okbloom.

Charley Meyer sold his 160-acre farm near the home place to John Rosacker for \$180 per acre.

A. A. Smith is erecting a dandy double garage.

Elmer and Harry Lyons spent the latter part of the week in Norfolk at the E. H. Summers home.

L. D. Bruggeman and family spent Sunday at the Wm. Bruggeman home near Sholes.

H. C. Lyons and family spent Sunday at the G. Hoogner home.

The editor of the Hartington Herald, implies that a protective tariff will help men hold their jobs after the war, and then in the next paragraph appears to feel a satisfaction over the prediction which he makes to comfort the employer under present day tribulations that the tables will turn after the war, and the man will again be hunting the job, instead of the job accepting any excuse of a man. Well, it was that way for many years in this country when we had free importation of labor and a tariff to protect the products of labor. Those were palmy days for the employer, and with the employee it was every fellow for himself and the Devil take the hindmost.

## WILL YOU HELP OUR BOYS ABROAD?

Every Man, Woman and Child Can Join to Send News of This Town Into the Front Line Trenches.

### WHOLE NATION MOVES TO BANISH SOLITUDE

Our Heroes Are Calling From Over There—Give What You Can to Help Those From Home.

Every citizen interested in the boys of his home town now at the front, and in the brave women who equally are serving their country abroad, has an opportunity to show his appreciation of the sacrifice they are making. The opportunity comes as a result of the generosity and thought of Colonel William Boyce Thompson of New York, who has conceived and put into execution what is known as the Home Paper Service.

Under the plan, every man and woman in foreign service will receive the town newspaper, and so be kept in constant touch with the places and the people they know and love.

Every branch of the United States Government is interested in the plan. The Government realizes the importance of keeping those in the service happy and constantly in touch with their home ties and associations. Nothing is more depressing in a national emergency than the spirit of loneliness in those serving their country, and officials know that nothing can dispel this feeling more effectually than reading the home town newspaper.

Publishers of newspapers in all parts of the country—this newspaper included—have grasped with pleasure the plan outlined by Colonel Thompson, and they have agreed to co-operate in every way.

Under the ruling of the War Industries Board newspaper publishers are forbidden to send their newspapers free, even to soldiers. The newspaper must be subscribed for in the regular way, the only exception being soldiers who formerly were in the employ of the newspaper and who left that service to enlist. Colonel Thompson therefore proposes that the public in each community contribute to a fund so that the home newspaper (in our case this newspaper) may reach every man and woman now in the service of his country.

Anyone may contribute to the fund, and any sum may be contributed. It is not necessary to contribute the entire amount of one subscription. It does not matter whether the rich man sends in one hundred dollars or the poor boy or little girl sends in five cents. Each gift will be a message of love and helpfulness to the home town folks "Over There." The money will be lumped into one fund, out of which subscriptions will be entered as fast as the money is received.

Contributors who send in the full price of a year's subscription may, if they wish, designate to what particular person they wish the newspaper sent, but if the name given is already listed as receiving the paper, then the publisher reserves the right to apply the subscription to some less fortunate soldier boy or noble woman who is just as lonely for news of home and home folks.

The name of every contributor to this home paper service will be published in this newspaper, and the name of everyone entered for a subscription will be published as well as the number of those remaining whose subscriptions have not been covered.

If the amount of money received shall be more than is necessary to send the paper to every person from the town now in the service, then the balance will be turned over to the Red Cross.

The plan is endorsed by the publisher of this newspaper without any thought of profit, either directly or indirectly, but with a sincere desire to help keep the home fires burning and to send to our heroes and heroines news of our town, to keep their hearts warm for us and to let them know they are constantly in our minds.

The publisher, of course, cannot make a profit on circulation, and additional circulation such as this will be circulation from non-purchasers sent far across the sea—can have no added value to the advertiser.

These facts are stated so that every contributor may feel that every cent contributed goes to the good cause.

The mothers of our boys are facing an ordeal with a bravery that commands respect and admiration. Here and there where tiny stars are turned from blue to gold, where anguished grips the heart, the nation stands in silence and honors the women who have given of their blood, the very bone of their bone, to their country. To them, home has lost its meaning—the soil of it has fled—there is no home, it is just a place, and no place is quite so lonely, unless it be within the hearts of those brave sons in far off France who long for just a word of home. There cannot be a man, there cannot be a woman, no, not even a child, who will fail to contribute just a little to make the hearts of these patriots lighter.

Not one. Not in our town.

### POLITICAL PARAGRAPHS

"The Nebraska tax problems are simple affairs," screams the Omaha Bee in big black headlines. Sure thing; that's what would be Governor Sam McKelvie learned in his joint debate with Governor Neville at Scotts Bluffs last week.

The creating of new and false issues by designing and scheming republican politicians in this campaign is not meeting with the success that might be expected. From nearly every section of the state comes the cheering news—that the voter is not particularly interested in any issue except the war. The most common comment heard runs something like this: "President Wilson is doing all right and I guess I will stay with him this fall. He ought to have a congress that will back him up, and I am going to vote for his kind of man." The discouragement at republican state headquarters is becoming more manifest as the days go by.

There will be no "fine distinction" drawn by the nations of Europe when the votes are counted in November. If the election favors the administration at Washington then will our enemies know for a certain that the people are behind its great war issues in this country. That the United States will continue to fight regardless of his issue until the war is won does not enter into the question. But our duty as citizens of our common country is to refrain from giving our antagonists even a grain of hope on which to base a continuance of the war. President Wilson needs men in congress of his own political faith who will back him to the limit, and the voter's duty is plain.

When the democrats took over the control of state affairs in January, 1915, they inherited a list of registered warrants amounting to \$843,059 together with the accumulated interest at 4 per cent running up into the thousands of dollars. It became the task of the incoming administration to pay off this indebtedness. Some years prior to the democratic entry, the state debt had increased to such alarming proportions that the republicans were compelled to resort to a redemption fund levy, this measure going into effect in 1905. For four years thereafter, an annual 1 mill levy was created, which raised nearly one million and half dollars

to pay the principal and interest on registered warrants. But the succeeding six years saw registered warrants again mounting up into the hundreds of thousands of dollars, and at times running over a million. The interest paid out became a tremendous drain on the state's resources. When the democrats finally took charge of the state in 1915, it was decided to pay this indebtedness without resorting to the redemption fund provision, but to inject a little business efficiency into state affairs. This was accomplished within three months after the new officers took their oath of office, and since that time not a state warrant has been registered nor a penny of interest paid out. This was accomplished, too, in addition to cutting the state levy during the years 1915-16, more than a million dollars.

**HIGH SCHOOL NOTES**

Friday morning Mr. Fowler, a member of the Nebraska School Supply house of Lincoln, delivered an address before the high school. He spoke on the importance of an education in carrying on the war and how important a factor an education will be in the reconstruction period after the war. If every student did his patriotic duty, he would continue his school work and procure the best education possible.

Friday afternoon the following program was given at the high school: Star Spangled Banner—School. Battle Hymn of the Republic—School. The Story of the Red Cross—Edna Hansson. Over There—School. Story, Fighting with Nickels and Dimes—Martha Crockett. Essay, What I Did this Summer to Help Win the War—Chris Will. Solo, Laddie in Khaki—Fannell Senter. Talk, What Uncle Sam Wants Us to Do—Mr. Armstrong. Junior Red Cross Pledge of Service—School. America—School. Flag Salute—School. The juniors chaperoned by Mrs. Pollard, enjoyed a weiner roast Friday evening. The class left the high school at 6 o'clock in cars stopping two miles west of town where the bonfires were built.

The kindergarten made apple-butter on Thursday morning under the supervision of their instructor, Miss Willey. The children seem very anxious to do their bit to help Uncle Sam win the war.

Mrs. Ley visited the first grade Friday.

Mrs. W. O. Hansson, Mrs. Ed Ellis, Mrs. Fred Philleo, Mrs. Ben Davis, and Mrs. A. R. Davis were visitors of the second grade on Friday.

A new pupil, Margaret Cox, entered the second grade Monday morning.

Mrs. C. L. Wright visited the third grade recently.

Floy and Mildred Hungerford, who recently moved here from Minnesota, are now members of the Wayne school.

Mrs. Davis visited the fourth grade on Tuesday.

Rev. Cross and Ruth Ingham were visitors of the fifth grade Thursday.

The fifth grade has three new pupils Ethel and Gladys York and William Gaut.

Mrs. Kopp, Mrs. Long, and Mrs. James visited the sixth grade on Thursday.

All of the grades gave patriotic programs Friday afternoon.

The past week most of the classes have organized and elected officers.

Seniors—President, Edward R. McChesney; vice president, Leland Holtz; secretary-treasurer, Lucile McConnell.

Juniors—President, Edith Huse; vice president, Doris Myers; secretary-treasurer, Fannell Senter.

Senior-Sophs—Sec. A. President, Frank Martin; vice president, Howard McEachen; secretary-treasurer, Lynette Rennick.

Senior-Sophs—Sec. B. President, Frances Surber; vice president, Madge Winterstein; secretary-treasurer, Emma Arnold.

Junior-Sophs—Sec. A. President, Oyvillie Thompson; vice president, Henry Ley; secretary, Chris Will.

Junior-Sophs—Sec. B. President, Vena Randol; secretary-treasurer, Bon Moran.

Two practice games of basketball have been played between the senior-sophomores and a selected team from the high school. Both games were won by the Senior-Sophs. The players that will represent the high school will be selected from these two teams.

The following letter from James K. Jones, received by Prof. Armstrong, will be of interest to many:

Somewhere in France, Sept. 2, '18. Dear Professor:

Today is Labor day and it is in every sense of the word. Holidays and Sundays are not very well observed in the army. I am just out of detail and now I am trying to stay out of sight and beat another one if possible. But then it isn't the easiest thing to hide so I may be interrupted. Tearing down and setting up a field hospital is not the most fun that I have ever had, and I can't say it's very enjoyable. I think when this war is over I'll be qualified for a big top manager in a circus or carnival. That's what it looks like now at any rate for we no more than get set up and away we go again.

I have traveled over a great deal of France (two-thirds in a box car and the rest on foot.) That isn't the best way to see a country but its the way we go. It don't seem so bad though, except at the end of a good days hike. I guess its all in getting used to the life.

You can tell those fellows still in school that they are lucky to be in school. (Detail). They got me and now I am back. I will try and finish what I was saying. I thought it was pretty tuff when I was there, but it wasn't half bad after you see these ignorant people and the way they live. It may seem hard to go five days out of the week, but seven is worse and then you don't even get your evenings to yourself at times. If it was back home the boys would complain, in fact there would be a riot. But over here its all in a days work, the harder we get the quicker we will get home—that is, what's left.

That is our dream, getting home, but first and foremost we have a job to do and we will finish it if we have to make eight days in a week. Things are looking good just now and a good many fellows who have been over here some time, are willing to bet that \$30 per that Christmas will have seen the end of the fighting. Pershing said, "Hell, Heaven, or Hoboken by Christmas," and what I am wondering is where my ticket reads to.

Well I expect I had better close by saying that I am O. K. in every sense of the word and feeling fine.

I have made acquaintance with "Jerry" (boche planes) a little closer than I like but its all in getting used to him. But at that the English say you never get used to his iron foundries (bombs) some of which weigh one ton.

Give my best regards to Mrs. Pollard and any of the other high school teachers who may be back this year. Tell the students I would like to be back and spend a few forty-minute periods with them, but as I can't I will wish my share off on the senior class.

Your friend as ever,  
Knox.

Address—Pvt. James K. Jones, 312 Field Hospital, 303 Sanitary Train, American E. F. via N. Y.

It is rather gratifying to know that the work of the Junior Red Cross meets with the hearty approval of the Omaha office. The following letter has just been received by the chapter school committee: Chapter School Committee, Wayne, Nebraska.

At present, I am not in a position

to advise definitely whether or not it will be possible for your county to secure a larger quota of the more simple garments. I truly hope that it will be possible and I assure you that I will make every effort to see that you obtain the same.

I certainly am well pleased with the showing in the institute work, which will naturally result in a very successful year for you. The instruction sheet you enclose is a most excellent one and the plan which you have outlined should be most successful.

Yours very truly,  
L. W. Trester,  
Director of Junior Activities.

**SAVIDGE CARNIVAL COMPANY PLAYS FAREWELL VISIT HERE**

The Savidge Carnival company are playing Wayne this week to good crowds daily. This is their last engagement of the season and the members of the company will go to their respective homes or to winter engagements.

Mr. and Mrs. Walter Savidge make Wayne their winter home each year and their friends are always glad to welcome them home.

This year has been an exceptionally good one for the show business, that is the really good, clean shows such as are each year seen at this carnival.

Mr. Savidge was fortunate in securing high class people this year when war conditions made this almost impossible at any price but he has a reputation to keep up and spared no expense to keep his company up to its former standard.

Perhaps the topline among the plays put on at the big show tent is "The Calling of Dan Matthews." It has a heart interest for everyone, a story throbbing with life's real problems. Enough of comedy to give spice to each act. The writer feels that for this play Mr. Savidge and his manager, Al C. Wilson, deserve especial credit. The plays were all good, the concessions were clean and were all enjoyed by good crowds each night.

Tonight is "In Walked Jimmy," Friday, "Officer 666," Saturday matinee "A Dixie Girl" and Saturday evening "The New Chief of Police."

**A THRIVING BUSINESS IS GROWING RAPIDLY**

Messrs. Mitchell & Christensen of the Wayne Monument Works are continually finding it necessary to increase their capacity to turn out more work and then more work. An extra stone cutter was found necessary to keep the mechanical work up with the orders. This made necessary the ordering of a new air compressor, as their stone cutting is all done with compressed air. Thus it was necessary to secure a more powerful machine, and one was installed Monday, it having been bought and brought here in record-breaking time. The class of work they are making pleases, apparently, and they are certainly doing a business which is a credit to themselves and a good thing for the community.

**SURGICAL DRESSINGS QUOTA**

A new quota of surgical dressings has been assigned to Wayne, and Mrs. Carhart, who superintends that work asks those who can get materials now for as many of the 3,100 compresses as they can make, as that is the number asked from this unit.

**COMFORT KIT GROWS**

The following sums are reported for the past week:

Mrs. I. W. Alter.....\$1.00  
Mrs. C. A. Grothe..... 5.00  
Mrs. H. Henney..... 2.00  
Mrs. Chas. Ulrich..... 1.00

**LOCAL ITEMS FROM GOLDENROD**

Professor Coleman, head of the music department, reports a rousing big chorus this year. The opera "Carmen" is planned for the May Festival next spring. In this splendid opera many boys can be used. The chorus is one of our pleasing classes and we are certain of a treat in store for us.

Professor Helzer of Sloux City will be here next Tuesday to take up his violin instruction work. This is his first trip for this year. Those desiring to take violin lessons this year may make arrangements with Mr. Helzer on Tuesday.

The order has been placed for all electrical equipment needed to adjust our lighting system to fit the change in current to be had soon. Better lighting will be the result of this change from the old 220 Volt D. C. to the 110 Volt A. C. current.

The radio department is progressing nicely and several of the students have a proficiency of ten or more words per minute.

The Zarathustra literary society met with Miss Mack Tuesday noon and held a business and discussion

# GAS FAILS TO HALT "SUICIDE SQUAD"

Passed by the Censor. Copyright 1918.

The British Tommies named machine gunners the "Suicide Squad"—The Yanks still call 'em that, but the suicide is usually that of the Hun who gets fresh with one. These gunners are working in gas masks and the man in front is feeding the gun at the rate of 500 shots a minute. The American buying a \$50 Liberty Bond keeps this gun in ammunition for two minutes of this kind of firing, time enough to annihilate a formation of advancing Huns.

This picture tells a graphic story, not only of the two red blooded Yanks who are braving gas and shrapnel to keep their machine gun going, but also of other red blooded Americans at home who must form the other half of a solid combination that can send 500 bullets a minute into the Hun ranks.

The machine gunner has one of the most perilous jobs in the army, for one man left alive behind one of the deadly Brownings or Lewis guns might easily break up a Hun attack. The Boche MUST get him if he can, and woe to the machine gun nest that runs out of ammunition in a hot

place. It means a few names on the casualty list next day.

The combination that keeps the gun going includes the man over here, who goes without a new suit, and buys a \$50 Liberty Bond instead. He keeps the gun firing at its fastest rate for two minutes. That two minutes may mean the turning point between life and death for the gunners. It may mean the annihilation of an advancing Hun formation and the breaking up of an attack. It may mean the clearing of a Beech-parapet long enough for an advancing American platoon to take a portion of a new sector of trench—one more step

toward Berlin. The partner over here whose dollars go to war in this Fourth Liberty Loan is important indeed.

A ringing sound is heard above the rattle of the gun, shrapnel glancing from the steel helmets. The money from a \$50 Liberty Bond goes to war and buys "Carnegie derbies" for twenty-five men. The proceeds from a \$500 bond supply a whole company. A \$50 bond supplies four fighting men with the masks that make it possible for these guns to spit death from out of a Hun gas cloud into the ranks of those who sent it, and last, but not least, \$200 in bonds puts one more gun like it on the front line.

## LIVE STOCK PRICES AT SOUTH OMAHA

**Good Active Steer Trade and Cows 25-50c Higher**

**HOGS SLOW; 10 CENTS OFF**

Bulk Sells at \$18.80@18.95, with Top at \$19.40—Lamb Slow and About Steady—Best Killers, \$18.25.

Union Sotek Yards, South Omaha, Neb., Oct. 2, 1918.—Trading opened up in active shape on a supply of 10,000 head of cattle and the desirable steers had been all sold by noon. Best heavy western beef was strong to 10c higher, and the medium kinds fully steady. Good to prime western steers were quotable from \$14.50@15.50, and the medium kinds on down. Most of the day's advance went to the butcher stock at advances of 25@50c, and fully fifty cents higher for the two days, with the good to choice kinds from \$0.25@11.50, and the medium kinds from \$8.25@9.25.

Quotations on cattle: Choice to prime heaves, \$17.50@18.00; good to choice heaves, \$15.00@17.25; fair to good heaves, \$13.50@15.75; common to fair heaves, \$10.00@13.00; good to choice yearlings, \$15.00@18.00; fair to good yearlings, \$12.00@15.50; common to fair yearlings, \$8.50@11.00; good to choice heifers, \$9.75@12.00; good to choice cows, \$8.75@11.25; fair to good cows, \$7.50@8.25; cutters, \$6.75@7.25; canners, \$5.75@6.25; veal calves, \$7.00@13.00; bologna bulls, \$7.00@7.75; beef bulls, \$6.00@8.75; choice to prime feeders, \$13.25@15.50; good to choice feeders, \$10.50@13.00; fair to good feeders, \$9.00@10.25.

Hogs Slow 10c Lower.

It was a slow and unevenly lower deal yesterday morning on a run of 5,800 head of hogs. Some of the heavy grades were 15c lower, and the packer market was draggy and shippers did not get into the game very strong. Bulk of sales ranged from \$18.80@18.95 with an extreme top of \$19.40.

Lamb Trade Holds Steady.

Sheep receipts amounted to 111 cars or 30,000 head and trading was for the most part steady with Monday, although very slow. Best fat lambs were selling largely around \$15.75@16.25 and the good feeders from \$14.50@16.00. Best ewes were selling up to \$9.00 as killers.

Fat sheep and lambs: Lambs, good to choice, \$15.75@16.50; lambs, fair to good, \$14.00@15.75; hams, culls, \$10.00@14.00; yearlings, good to choice, \$12.50@13.00; yearlings, fair to good, \$12.00@12.50; wethers, \$10.75@12.00; ewes, good to choice, \$8.75@9.00; ewes, fair to good, \$8.00@8.75; ewes, culls, \$7.00@8.00. Feeders and breeders: Lambs, good to choice, \$14.50@15.50; lambs, fair to good, \$13.00@14.50; lambs, culls and cuts, \$10.00@13.00; yearlings, light choice, \$12.00@12.25; yearlings, fair to good, \$10.00@12.00; wethers, \$11.75@12.25; ewes, breeders, good choice, \$15.00@18.00; ewes, breeders, fair to good, \$13.00@15.00; ewes, culls, \$8.00@7.00.

meeting. The following officers were elected in order: President, Julius D. Young; Vice President, Marsaline Lewis; Secretary, Dorothy Bessire; Treasurer, Nora Figum. Those members present seemed very enthusiastic and with new members soon to be enrolled the society will be strong.

The radio class is making excellent headway and is one of the popular divisions of our school. Several men from town and a few from the Normal attend the evening class. Those familiar with the work wake up in the morning with the thought of "ta-tu-ta-tu-ta."

Mr. Huntemer at Senior class meeting: "There is no class president so you young folks haven't a head."

To uphold the members of the Senior class it may be well be said that the big heads can be found among the Juniors and Preps.

Julius D. Young went to Craig, his home, to fill out his draft questionnaire last Saturday, returning Monday forenoon.

Jesse Randol has joined the ranks of the boys in West Hall lately.

Miss Fannie E. Warbur, member of the class of 1916, has accepted a position in the high school at Wall Lake, Iowa. Her plans until recently had been to attend the university this year but, like many other qualified teachers, she saw the necessity of carrying on the work of the schools.

# The Wales Gas Machine!

**The Wonder of The Age**

Makes a perfect and beautiful gas flame for cooking and heating purposes from ordinary kerosene.

**WHAT IS THIS MACHINE?**

It is the result of many years of hard labor and experimenting by a man who made the "Fuel Problem," which is the greatest problem confronting the public today, a deep and careful study. It can be attached to any cooking or heating stove—in fact it can be used any place where wood, coal, or coke is used for fuel. It consumes kerosene with the same results and satisfaction. Burns 6 per cent gas and 94 per cent air. It is Clean, Safe and Non-explosive. It is simple and easy to install and operate. It makes No Soot—No Dirt—No Ashes—No Odor. It is the talk of the present day. In fact it is the greatest invention of the twentieth century.

It does all we claim for it, and much more.

**It is the Poor Man's Friend and the Rich Man's Delight.**

**INSTALLED AND GUARANTEED FOR ONE YEAR BY THE OKLAHOMA GAS GENERATOR COMPANY, Incorporated.**

This is the Daddy of all Gas Makers—Said by U. S. Experts to be the most Perfect Machine Ever Passed Through the Patent Office.

Said patent was issued October 23rd, 1917.
