

### THE RETURNED SOLDIER IN GRAIN STATES

One who is interested in the soldier lads who went to war in time of need, (but not from any selfish motive) hands us the following clipping from the Iowa Homestead for which Geo. A. Barclay furnished the figures. The story tells that Wisconsin, Minnesota and North Dakota have lost no time in providing bonuses for their soldier lads and then goes on to tell what the tax in North Dakota of one-half or three-fourths of a mill means:

According to United States government statistics, the agricultural products of North Dakota have increased about \$278,000,000 since 1915, making a per capita wealth in the state of \$2,966 at the close of 1918. The United States census bureau estimates the per capita wealth of the entire union at \$1,956 so that the average wealth in North Dakota is more than \$1,000 greater than the average for the whole Union. Including horses, cattle, hogs, sheep and creamery products, the agricultural production of the state at the close of 1918 was valued at about \$638,000,000. The same production at the close of 1915 was valued at about \$360,000,000. Aside from the increased prices commanded by food products during the past few years, there has been a tremendous increase in production, and the utilization of vast natural resources, much of which had been previously neglected.

The same government report which tells of the astonishing increase of wealth in the state, says "the fuel problem has been forever solved in North Dakota." The western half of the state is underlaid with lignite, the beds estimated to contain 600 billions of tons. Over thousands of square miles this soft coal lies so close to the surface that farmers merely dig a hole in their own fields and take out the coal as they require it. During 1918 one million tons were mined. If the farmer is too busy with his farm work to help himself, he can buy it for \$1.50 to \$2 per ton. Many of the large grain elevators are operated by power furnished by coal that is mined on the spot, and this general economy in fuel has added materially in increasing the per capita wealth.

### WAYNE WOMEN OBSERVE FEDERATED PRAYER WEEK

This is the week of Federated Prayer, and Friday afternoon is selected as the day for Wayne, and the Methodist church the place. The ladies of the home and foreign missionary societies will observe this new world church movement, and extend a most cordial invitation for all ladies to attend. A splendid program has been arranged in which the ladies of the Presbyterian and Methodist societies will unite. All are welcome.

### WOMEN ENDORSE LEAGUE IN NATIONAL MEET

At the close of their convention the delegates to the League of Women Voters passed a resolution favoring the ratification of the treaty at once and without reservations. They also seemed to be following the non-partisan league plan of not committing themselves to party; but rather to go into the campaign free to support whom they will. Be the party label what it may be. The candidate, and what he stands for, rather than his party seems to be the idea.

### SICK AND IN NEED

It is reported at this office that there is need of aid at the John Harmer home where all have been ill except the mother, and she has thus not been able to earn money as usual. Mr. Harmer was ill with flu, Johnnie has been too sick to work for three weeks, and supplies are exhausted. In this land of plenty some one should see that worthy people do not go hungry when misfortune comes to them in the way of sickness.

The Wilmington, California, Journal (Goldie's paper) says: "A letter received last Monday from Pirlie Goldie located him at Tokio, Japan, January 15th. Pirlie writes they had one continuous stormy voyage all the way from Seattle to the Orient, and it was the worst experience he has had crowded into his young life. It will be two or three months before he will return to Seattle, and then it will be Wilmington for him."

### EX-SERVICE MEN—SHUN

The Irwin L. Sears post of the American Legion is putting on a big get together meeting of all ex-service men in this community, whether Legion members or not, on Thursday night, Feb. 24th.

There will be a big free supper, for ex-service men only, at the Opera House at 6:30 p. m. sharp—followed by the big dance. Music for the entire evening will be furnished by Slater's Jazz Orchestra—the rips-shortest, jazziest music in the state.

The entertainment committee has mailed cards to all men whose names were available but feel that some may have been overlooked. They want it understood that this evening of fun is for every ex-service man in this community. If you are an ex-service man and have not received a card, it is the fault of the committee and they want you there just the same. Let's get together—everyone try to be there and make this first social meeting a big success. Plenty of chow, music, dance and smokes.

The gallery only of the Opera House will be open to the general public at 50c admission. The fun and frolic on the main floor is reserved for ex-service men and their lady friends.

### LEROY L. KIBBY VICTIM OF PNEUMONIA

Death claimed Leroy L. Kibby at his home near Naper, Saturday, February 14, 1920, at the age of 33 years and 21 days. He was born in Boyd county of this state January 2, 1887, and when about ten years of age came to Wayne county which was his home until after his marriage in 1906, when they moved to Naper.

Kelley, December 26, 1906, who with two sons and a daughter survive him. His death is also mourned by one brother and two sisters. A funeral service was held at the home near Naper, after which the body was brought to Wayne, and after a short service by Rev. Wm. Kilburn from the undertaking parlors was buried at the Wayne cemetery Tuesday afternoon. The body was accompanied to Wayne by his family, who will remain here indefinitely with her parents, Mr. and Mrs. James Kelley and with her sister, Mrs. C. P. Lapham who had been with him during his last hours. His brother, Rollie Kibby who was also his next neighbor and a sister, Mrs. Linhart from Winner, South Dakota, also accompanied the body to Wayne.

Mr. Kibby was a good citizen, and a kind father and husband, and the sympathy of many former friends and neighbors in the vicinity of Wayne extend sympathy to the bereaved family.

### SAMUEL ELLIOTT CANAVAN

Was born in Flushing, New York, April 10, 1897. At the age of 5 he came to Wayne where he was adopted by Mr. and Mrs. B. E. Elliott. Samuel spent his early boyhood days in Wayne attending school there. In the spring of 1910 he went with Mr. Elliotts to make his home at Powell, Wyoming.

In the year 1912 he came to Omaha where he attended the Omaha high school. When the war broke out Samuel was one of the first to answer his country's call. He enlisted in the army going into the field artillery. He was stationed at Camp Greene, Charlotte, North Carolina. After several months serious illness at the hospital there, he was given an honorable discharge and returned to Omaha. After returning from camp he not being strong and unable to do any heavy work, the government was sending him to school at Ames, Iowa.

Feb. 1, 1919, he was married to Miss Katie Kearns of Omaha, the young couple making their home at Ames while he was in school there.

Samuel died at the state hospital at Ames, Iowa, Jan. 31, 1920 of influenza pneumonia. He is survived by his wife and sister, Marguerite Ethel Bacon of Omaha. His body was brought to Omaha where the funeral was held from Swanson's undertaking parlors, February 3. Rev. Titus Lowe of the First Methodist church of Omaha having charge of the services. The body was laid to rest in Forest Lawn cemetery.

### CRADLE

Gildersleeve—Monday, February 9, 1920, to Abram Gildersleeve and wife, a daughter.

Chambers—Sunday, February 15, 1920, to M. L. Chambers and wife, a daughter.

### NORMAN GIRL SINGS AT WAKEFIELD

Last evening the Wayne State Normal Girls' Quartet gave a pleasing entertainment to the people of our neighboring city. Below is the personnel of the entertainers: Leona Dietrich, first soprano; Margaret Mason, second soprano; Agnes Graham, first alto; Beatta Krause, second alto; Mrs. A. C. Serfling, accompanist; Virginia Bowen, reader.

### STREET PAVING DECISIONS

At its last meeting the city council listened to petitions for a reduction of the width of paving along Fourth street from Pearl to Logan from 40 to 30 feet, but the council showed that the 40 foot paving would not injure the trees, and as that was the plea to "spare that tree" it was allowed to stand without change.

After two weeks deliberation the council voted to make the paving on Pearl street below Fourth street 40 feet instead of the 54 of the plans or the mere 30 feet asked for by property owners.

No action was taken on the petition of practically all of the property owners along Seventh street west of Main to have the paving divided and along each side with a parking in the center. This street is more than 100 feet wide and might thus be made a prettier street without expense to the city, though it would make a little added cost to the property owners. The engineer advises against this change.

### THE MOST SUCCESSFUL KEEP FIT MEETING

Wednesday afternoon and evening the district meeting for organizing a district of six counties to cooperate in a "keep fit" campaign was held at Wayne, and won from O. M. Adams, the state director, the statement that this meeting was the best of any of the district meetings yet held in the state.

The program as published last week was quite closely followed, a few not being able to attend or take the part assigned. There were delegates from five of the six counties and the following county directors were selected: Dakota county, W. E. Voss; Dixon, W. F. Richardson; Cedar, E. E. Terrell; Knox, Dr. Carmack; Wayne, O. R. Bowen.

The week of March 22 is set for the national campaign, and it is planned to begin with a gathering in each county with delegations from over the county urged to attend—and this big county meeting to be followed by meetings over the county. The first meeting in this district will be at Bloomfield the 22nd. Mr. Adams will have a series of pictures and lectures, and hold three meetings during the day, and so continue through the district one day in each county.

The excellence of the program here entitled those taking part to much praise, from the opening address of welcome by Mayor Kemp to the benediction. Practically every phase of the question was covered, and the need of the work undertaken made very plain—in fact the need is now known to be great. We will be glad at some later date to give some of the good ideas contained in the many excellent talks and papers.

### WEBER-BURGLUND

Tuesday, February 17, 1920, at Wayne, occurred the marriage of Geo. T. Burglund and Miss Lena Weber, both of Wausa.

### NORDEEN—HOLST

Monday, February 16, 1920, at Wayne, Coy J. Holst and Miss Hilma W. Nordeen, both of Wausa, were united in marriage.

### LONGE—TEST

Thursday, February 19, at home of bride's parents, Mr. and Mrs. Thos. Longe, occurs the marriage of Mr. Otto August Test and Miss Johanna Longe. The groom is the son of Mr. and Mrs. Gus Test, one of the early settlers of this county, and the bride is also one of the children of a pioneer couple. These young folks will start life with the well wishes of a host of friends.

Miss Agnes Richardson, who teaches at Carroll, when they have school there was a guest at the Mrs. M. A. Pryor home the first of the week while returning from Norfolk where she had been visiting with her sister who is teaching at Norfolk. The Carroll have again opened school being closed several weeks because of flu and some contagious diseases.

### BASKET BALL GAME WAYNE VS RANDOLPH

When the Wayne basket ball team met the boys from Randolph at the high school gymnasium Friday evening it was to win the second place in the contest. The score was 35 to 19 in favor of our visitors. The Wayne boys were game losers, and assert that it was a square, clean game. The home team express their appreciation of the bunch of loyal rooters who helped them in their hour of defeat.

### WAYNE STATE NORMAL NOTES

Through the enterprise of Professor Serfling, ably assisted by Professors Jantener, Bowen, Chinn, Gulliver and Superintendent Armstrong of the public schools, the business men's association of Wayne, and the members of the athletic teams of the Normal, arrangements for the high school basketball tournament are well in hand. Each visiting team on its arrival will be the special charge of one of the Wayne athletes. As far as possible this athlete will be one from the town of the team for which he acts as sponsor. He will meet the team at the train and conduct them to the office where the members will register for the tournament. He will then conduct them to the gymnasium and later to their rooming houses and eating places, all of which have been provided in advance.

The students and faculty of the Normal school will take an unbiased attitude during the entire meet and will cheer for all teams alike, according to an injunction given by President Conn in chapel.

The business men's association met last evening to arrange for securing two bronze shields to be awarded as prizes, one to the winner in Class A, the other to the winner in Class B. The winner of a shield has possession of it for a year and when it has been won three times by any school it becomes the property of that institution. Much credit is due the business men who are providing these expensive prizes.

School will close at noon Friday in order that all the students may attend the meet. The gymnasium is ample to accommodate all.

Since last announcement Wisner and Tilden have been added to the list of competing schools, making a total of eighteen high schools.

Prof. A. V. Teed is in attendance Tuesday, Wednesday and Thursday of this week upon the National Rural School conference at Cedar Falls, Iowa. Professor Teed addressed the conference on "Advantages and Disadvantages of Various Units of Administration in Consolidation," and will act upon two committees, one on course of study and one on systems of administration.

On Monday morning Professor Britell made an interesting speech at chapel on "The Individual." While asserting that he did not know what an individual is, nor what education is, he felt certain that too great conformity was not conducive to the production of the highest personality.

On Tuesday morning President Conn returned from a meeting of the Board of Education for state Normal schools at Lincoln, and on Wednesday afternoon departed for Cleveland, Ohio, where he will attend the national conference of superintendents and principals, and following that the midyear meeting of the National Educational association. President Conn reports that the state normal board at its meeting abandoned the building program for Peru and Kearney and made the funds set aside for that purpose available for other needs of the normals.

Miss Louise Feyerleisen, registered nurse, who for the past two weeks has been in the employ of the normal caring for a number of the students who have been suffering from an epidemic of colds, has completed her task and returned to Sioux City. She met a real emergency in a capable and satisfactory manner.

The following members of the faculty have been out of school for a few days because of illness, but have now returned: Mrs. Brockway, secretary to the president, Miss Beechel, Miss Luers, Professors Britell, Lackey, and Gulliver.

Wednesday morning at chapel the Normal school chorus, under the able direction of Prof. Coleman, sang with fine artistry three numbers and responded to an enthusiastic encore.

Walters Wanted.—At the Gem at once. Two waiters. Good wages paid for competent help. 2nd.

### REUBEN FAULK GETS A FORD, ACCORDING TO THE DAILY NEWSPAPERS

Last week Reuben Faulk, who reads the postal cards on the Norfolk-Sioux City run, took a day or two of his off time and visited home folks at Stromburg for a short time. While there a piece of good fortune befel him, and he came away the owner of a Ford automobile, which has not yet cost him much money, and if he is careful about the repairs needed, he may get past with it for a very little outlay. You will have to ask how he came to get the boat, for we dare not print it in a Wayne paper. The item telling of his good fortune also told that he is to resign from the railway postal service and locate on a homestead in Wyoming.

Mr. Faulk has a host of Wayne friends, for he formerly attended college here—then was postal clerk on the Bloomfield branch before the government discontinued postal service on that line. From here he entered the service, and was with the boys at the border, and later went and stayed until the fighting was over; but not until peace was declared—or he would be there yet. His friends wish him well on his claim.

### DIRT DEAL MOBE THAN A QUARTER MILLION

Wayne county lands are still holding and even advancing prices. Talking with B. W. Wright this morning we learned that he had just disposed of his holdings of farm lands in this county, and that the deal, which evidently showed some profit to him, totalled more than a quarter of a million dollars.

G. A. Goshorn of Concord purchased from Mr. Wright the half section which has so long been the home of Henry Cozad, six miles south, formerly belonging to J. T. Bressler, and the old P. M. Corbit farm of 200 acres, which Mr. Wright recently purchased from Nels Herman. In the deal Mr. Wright becomes owner of a choice half section adjoining the town of Bloomfield. A son of Mr. Goshorn will farm the Corbit place east of Wayne, and the half section south was rented, and the tenant remains on the place. Such a deal does not show that Wayne county land is not holding up to its reputation for value.

### CHRIST THOMPSON, PIONEER, PASSES AWAY

Early Wednesday morning, February 18, 1920, Christ Thompson, one of the most worthy pioneers of Wayne county, was called to his reward at the age of 69 years, 11 months and 21 days, from heart trouble following the flu. The funeral will be held Friday afternoon, a short service at the home at 1:30, and at 2 o'clock at the St. Paul Lutheran church, Rev. Fetterolf, the pastor officiating.

We plan to give a more complete life history next week.

### V. A. SENTER SAYS FURS GOING WAY UP

V. A. Senter was a passenger to Sioux City Friday the 13th, and when we asked why he selected such an unlucky combination in the date of going, he said he must go then, or not need to go at all—for he was going to buy the next season fur line, and it would be worse luck for their patrons, for fur was going higher—a song they are all singing these days. One wonders who is getting all of this advance. It is easy to find the fellow who pays it—any of us will plead guilty to that part, but few there are who admit that they are the ones to ultimately pocket and keep the raised cost. We feel confident that many retail merchants are now selling stock at a fair profit above what they paid, but they cannot go to market today and buy to sell again at that price; and in some cases cannot buy at the price they are today selling for. Many excuses were presented for public inspection, but are they real reasons? Do not read this and report that Senter said it all, for the writer assumes responsibility for the questions raised and such conclusions as are drawn.

### PLANTING TREES IN NEBRASKA

More than a million trees have been distributed among more than five thousand people of Nebraska by the forestry service of the nation. They were mostly sent to the residents of the Kinkaid enlarged homestead district. The work is still going forward under direction and with the aid of county agents.

### THE WAITERS ARE ON A STRIKE IN LOS ANGELES—TRY A CAFETERIA STYLE

The rumor that the president has suffered a relapse are denied by his physician.

Holland will not surrender the kaiser, but will guard him and keep him in that country if desired.

The women of the clubs in session at Chicago are having warm political discussions, and are framing resolutions for the platforms of the political parties.

Dawson of the Klondyke fame is soon to vote on the wet or dry proposition, with about even money being offered that the once famous booze city will vote dry.

Northern New York is heavily snowbound. They have been having weather conditions in the east this season which would put a Nebraska blizzard to shame.

The proposed auction of the former German liners is said to have collapsed Tuesday because the government reserved the right to reject bids. Perhaps the buyers wanted to steal the fleet.

Railway legislation is about ready for final action; and it embodies an arbitration system said to be satisfactory to labor, with no compulsory feature, and it is thought the new plan will be permanent.

Colonel Henry Watterson has just passed his 80th birthday. He is spending the winter at Miami, Florida, and was afraid to risk his health by coming to his Kentucky home to celebrate the event with his friends.

Ex-Secretary Lane, retiring from the secretaryship of the interior, is slated to a place in connection with the Pan-American Petroleum Company when he steps out, and the salary is said to be around \$50,000 annually.

Bad weather, a blizzard and poor health is slowing up the Newberry trial at Grand Rapids, Michigan. According to the latest testimony, an effort was made to work fraternal bodies to use their influence to bring about the defeat of Candidate Ford.

The league and treaty are being discussed on the floor of the senate, and the discussion is warm. The democrats have conceded much, but draw the line when it comes to admitting article 10. It is well to do so, for beyond a doubt the president would not accept that.

President Wilson and Secretary of State Lansing have had a break, and the secretary has resigned. Many reasons are told for the break, but one that claims to come with authority is that the trouble was over the Mexican notes issued by Lansing during the President's illness.

The railroad labor trouble, threatening a strike was finally taken to the president, and he has in some manner quieted the troubled waters, and there is to be no strike at present at least. This is as it should be. There certainly should be some just method of dividing the product of labor and capital without making the people of a country suffer.

The league of women voters have been in session at Chicago for a few days, and have been discussing the food supply question, which to their mind is one of the important questions of the times. There are more than a hundred million of us, and all hungry. They imply that the middlemen are getting more than their share and not doing their full part in the feeding program.

### NONPARTISAN LEAGUE MEET

A correspondent sends us a report of their county meeting at Wayne last Thursday a statement to the effect that in spite of bad roads and weather and worse flu they had a fairly representative gathering from over the county. Their real mission was to name a delegate to represent the league at the state meet at Lincoln February, 26th, and Otto Ulrich was named to go to the state meeting.

Inquire at this office.  
Mrs. R. W. Ley was visiting Sloux  
City friends Saturday.  
Wm. Buetow was looking after  
business at Sloux City Saturday.  
Mr. and Mrs. Aug. Jacobson of  
Sholes were shopping at Wayne Tues-  
day.  
Mrs. J. H. Foster went to Sloux City  
Tuesday to visit home folks a short  
time.  
Mrs. Emma Wilson was a visitor  
at Winside Friday night, returning  
next day.  
Tonight and tomorrow, William  
Farnum in "Wolves of the Night."  
Crystal—adv.  
—Misses Beechel and Stocking of the  
Normal academy went to Sloux City  
Saturday for a visit.  
Mrs. William and Mrs. Gus Boden-  
stead from near Carroll were shop-  
ping at Wayne Monday.  
Miss Laura Krusemark from Pen-  
der spent Sunday at Wayne with her  
sister, Mrs. Earl Parker.  
Mrs. Voigt from Randolph was a  
Wayne visitor Monday, while return-  
ing from a trip to Norfolk.  
Miss Hildur Wangstrom from  
Wausa, a former student here was a  
visitor at the Normal Monday.  
Miss Maude McCleary was at Sloux  
City for a week end visit Saturday to  
Monday. She is stopping at the J. S.  
Carhart home.  
Perry Benschopf from Van Tassel,  
Wyoming, came Friday morning to  
look after business here and visit re-  
latives and friends.  
Frank Schulte was called to his old  
home at Gerald, Missouri to attend  
the funeral of his mother who pas-  
sed away this week.  
Rev. McIntyre, pastor of the Em-  
erson Presbyterian Church was a  
guest at the home of Mr. and Mrs.  
E. B. Young Monday.  
Mrs. C. O. Hartman from Winside  
came Monday to visit her mother,  
Mrs. Elson, and her sister, Mrs. Henry  
Cozad. The mother is quite ill.  
Phil Burross of Carroll was a vis-  
itor at Sloux City Monday. He is

getting ready for his big sale of  
mules at Carroll Wednesday, Febru-  
ary 26.

Miss Ann Hansing from Pender  
spent the weekend with Miss Lillie  
Sophomoser who is attending Normal.  
Miss Sophomoser taught at Pender  
last year.  
C. A. Wilson went to Des Moines  
Monday to attend a meeting of insur-  
ance men at that city. He repre-  
sents the Des Moines Life Annuity in  
this part of Nebraska.  
Mr. and Mrs. Ivor Morris of Car-  
roll were here Tuesday morning. He  
was going to Sloux City to attend the  
big horse sale. Mrs. Morris went to  
Omaha for a short stay.  
Miss Sadie Hamill of Sloux City  
has been spending a week at Wayne  
with friends, and Tuesday went to  
visit at Wakefield. Here she was at  
the homes of Mrs. Williams and Mrs.  
J. T. Bressler.  
Mrs. Lewis, a young woman of Car-  
roll, wife of one of the business men  
of that place died suddenly Saturday,  
being ill but a day. She leaves two  
little children, one 2 and the other  
4 years of age.  
Mr. and Mrs. Andrew Jacobson of  
Wausa, visited at the home of Mr.  
and Mrs. J. M. McMurphy Monday  
while on their way home from a visit  
at Johnstown. They were former  
neighbors at Wausa.  
Dr. T. B. Heckert has gone to Lex-  
ington for quite an extended visit  
with his brother. We hope the doctor  
enjoys his visit—and we judge that  
he does, for he was there for quite  
a visit earlier in the winter.  
H. C. Bartell from Carroll is visit-  
ing Omaha and Lincoln this week.  
We trust he will call on the consti-  
tutional convention fellows and give  
them a bit of good advice about what  
they shall put in their new consti-  
tution.  
Otto, son of Mr. and Mrs. Wm. A.  
Meyer was united in marriage at  
Laurel, Sunday, a Miss Frederickson  
being the bride. They are to live  
on and farm the old Oscar Bloom-  
quist place. More we failed to learn  
of the event.  
Mrs. Wm. Benson and little daugh-  
ter went to Emerson about three  
weeks ago to visit her sister, Mrs.  
Geo. Hahn, and while there suffered  
an attack of the flu which detained  
her until last Friday when she re-  
turned home.  
Mr. and Mrs. J. C. Meink from  
Sholes were Wayne visitors Monday.  
They tell us that in about two weeks  
they will leave for Lyman, Colorado,  
where they purchased land last sea-  
son. Pete Larson and family plan to  
go with them to a Colorado home.  
Mrs. W. L. Mether and children  
came from Norfolk Sunday, where  
the mother had gone a few days be-  
fore for the two little girls, Fern and  
Viola, who had been making an ex-  
tended visit with their grandmother,  
Mrs. Marquardt, while they were tak-  
ing treatment at that city.  
Miss Eva Scriven, the lady Rowepa  
of the Wayne Homestead of the Yeom-  
en tells us to tell you archers that  
Friday evening will be a business  
session of Yeomen before the social  
hour. Two weeks ago there was no  
session on account of sickness and  
bad weather. All should attend this  
week.  
It was a pleasant week-end gath-  
ering at the home of Adolph Reth-  
wisch and wife near Carroll Friday  
to Monday when their daughter, Miss  
Elsie was hostess to Misses Viola  
Eustian and Pauline Girardin of this  
place during that time. The young  
ladies returned on the Monday  
morning train reporting that they  
greatly enjoyed the little vacation.  
Messrs. Hale & Hutchings, who  
have been farming the old S. E. Auk-  
er farm three miles east of Wayne  
the past year are quitting the game  
on so large a scale at least, and will  
hold a closing out sale at that place  
next Thursday, the 26th, and are in-  
viting Democrat readers to come, and  
buy at their own price of the excel-  
lent offering. It will be a big sale.  
Rev. Bishop of Carroll was at  
Wayne Monday morning on his way  
to Omaha to attend the big meetings  
of the Inter-church World Movement.  
The Baptist people of Nebraska also  
have a state meeting at Lincoln the  
first of the week, and he went early  
to be present at its sessions, and will  
return to Omaha for the great world  
meetings. Forty-eight states will  
hold similar meetings during the next  
four weeks.

The Wonderful  
**Red Star Burner**

One of the great achievements in oil stove  
construction. Converts kerosene, gasoline or  
distillate into gas. Mixes gas with proper pro-  
portion of air like an automobile carburetor.  
Produces a double ring of hot gas flame. Burner  
becomes red hot, adding intense heat. Consumes  
all smoke and odors. Made of grey annealed  
iron. Each burner weighs 8½ pounds. Impervious  
to effect of constant heating and cooling. Last  
for many years.

Saves 25 Per Cent of Fuel

**Carhart Hardware Co.**

### LOCAL AND PERSONAL

Watch for Nazimova, in, "The Red Lantern."—adv.

Wm. Lue was looking after business and visiting friends at Hoskins Friday.

Mrs. Rosetta Nichols went to Whiting, Iowa, Wednesday morning to visit a sister.

Henry Foltz was a passenger to Sioux City Wednesday morning—on a business mission.

Jay Jones was out from Sioux City last week visiting his folks and looking after business matters.

Miss Elsie Philbin was a visitor at Wakefield Friday afternoon, going to spend the half day with friends.

Miss Coila Potras of the primary room of the city school went to spend the weekend with home folks at Lyons.

Mrs. Gimmel from Carroll was visiting among her numerous Wayne friends last week, returning home Friday.

Henry Kay is able to be about again after three weeks at home with the flu. The business world looks good to him now.

Ned Conover left for his home at Colome, South Dakota, Tuesday, after spending ten days here with his sister, Mrs. G. A. Wade.

Mrs. Art Auker from Winside came to Wayne Wednesday, a delegate from the Woman's club of that place to the "keep fit" meeting at Wayne.

Notice—My dental office will be closed for several weeks while I am taking a bit of recreation and visiting at Lexington. T. B. Heckert.—t2ad

P. C. Crockett, was a visitor at Norfolk last week, returning home Friday after a visit with his daughter, Mrs. Geo. Church and family.

Chas. Craven is again improving, and able to be about the home, and his wife seems to be a lap or two ahead of him on the road to recovery.

Miss Helena Baker, who teaches at Rosatic, was home for Saturday and Sunday, some school house repairs going on gave the teachers part of

Monday gave the opportunity to extend the home visit until Monday morning.

Mrs. Chas. Ellis from near Sholes stopped here Friday to visit at the Ellis home between trains while returning from a visit with relatives at Pilger.

J. M. Roberts left Friday to visit in Missouri for a few days. Mr. Roberts frequently makes a spring trip to Missouri to attend some of the sales held there.

Mrs. C. A. Chace went to Omaha the last of the week to spend Sunday there with Mr. Chace, who has been spending some time in that city having his eyes treated.

Mrs. M. T. Munsinger was called here from North Platte last week by the serious illness of the little child of Mr. and Mrs. Joe Munsinger, the child having contracted pneumonia.

Mrs. Ed Swanberg, daughter of Mr. and Mrs. Frank Weber of this place, has been seriously ill with pneumonia at their home near Pender, but at this writing is said to be improving slowly.

Mrs. Ben Siek of Carroll was called to Council Bluffs Wednesday by news of the death of a little grandchild. Mrs. Carlson accompanied her on the sad journey to the house of mourning.

Mrs. C. O. Mitchell has been quite seriously ill for a week past. Too much work, trying to aid the sick neighbors and friends in various capacities, from nurse to printer and reporter.

Mrs. Etta Dean, who has been here at the home of her brother, G. A. Wade, left for her home at Villisca, Iowa, Wednesday morning. Her daughter, Mrs. Scott Smith returned home Sunday.

If reports are to be credited as true some Neligh people sold 24 quarts of cold tea as high as \$15 per quart. We call that profiteering. Tea was worth something, but the water did not cost much.

A. L. Ireland from Craig, who has leased the Forbes farm just north of Wayne, was moving here last week, and is now getting nicely settled in his new home. His brother, John L.

# PUBLIC SALE

As I am going to quit farming, I will sell at public auction at the place, on the state highway, five miles north, one and one-half miles west of Wayne, two miles east and nine miles south of Laurel, three miles west and five miles south of Concord, seven miles east and two miles south of Carroll, on

## The Old-Time Hearth-Baked Bread

was not more delicious than

Which is baked with as much care and solicitude as ever given by the old-fashioned housewife to the making of a perfect loaf for her family. And in addition, our bread has all the advantages which modern equipment and scientific methods bring. You are sure to like it. Try a loaf today.

RALPH RUNDELL

Ireland from Tekamah came to help him get settled. A number of his new neighbors were also rounded up to aid, and shortly after noon Friday the last loads were out of the cars and on their way to the farm.

Mrs. M. H. Deems from Gothenburg, and her son, Geo. West from Wyola, Montana, were here last week visiting at the home of son and brother, J. B. West and family in the west part of the city. The visitors were heading toward home from several months spent visiting relatives in different places. Wisconsin, Iowa and other points were on their list and from here they made the home jump, leaving Friday.

Mr. and Mrs. A. A. Ulm of Randolph were visitors at Wayne Tuesday. Mrs. Ulm tells us that the flu has been quite an affliction at Randolph the past few weeks, though but one death has been reported from that cause. Mr. and Mrs. Ulm are in position to know pretty well the condition of the community as to health, as they run the movie, and can almost measure the health condition of the community by the attendance there.

Rev. Beard left Wednesday morning for Lincoln, where he will attend

the great meetings in session there this week, of the great interchurch world movement. Every active minister in Nebraska is called to the meeting, and it is estimated that fully 1,500 will be in attendance. Rev. Kilbourn went the evening before and the Baptist pastor went earlier in the week. Rev. Beard goes from Lincoln to address a patriotic gathering at Hastings Saturday evening.

Wm. Hurlburt of Carroll vicinity, who has been at a Sioux City hospital for a number of weeks under the care of Uncle Sam, came here Monday evening, and went with his wife to the home of her parents, Mr. and Mrs. Jule Landanger south of Wayne. Mr. H. has rented a farm east of Sholes, and it is their plan to move there. Mr. Hurlburt was in the service, and his health was not such that he was given a complete discharge, and he was taking treatment that his condition might be fixed for a basis of the discharge.

Agents Wanted—For county contract on Ray Puncture Proof Interliner. Large commissions. No competition. Write or wire, Rubber City Sales Co., 2064 Farnam street, Omaha.

W. S. Goldie, formerly of this paper, tells us through his Wilmington Journal that taxes are high in California—that they should be reduced from the city tax to the national as people don't feel like working all their lives just to pay taxes.

It is safe to assume that in these dry times there will be some trouble in spots with illicit distilling. But as the time moves on and the left over supply diminishes it will be easier to find the new stuff than today when it may be thought possible that it is of the old stock, and therefore not necessarily illegally held.

We all have our troubles—and they seem great in many instances—but we will have to give the first place to the prince who has sailed by order of the king to his father's Malay kingdom under command to marry four girls within as many weeks. We do not know that this is a leap year stunt, but it looks suspicious.

The congressman who represents a wet spot in Philadelphia is introducing an amendment to the prohibition constitutional amendment which will permit the manufacture of a beer with five percent of kick in it. It may bring him some wet votes, but the amendment will not get beyond the introduced and referred stage.

Hitchcock may as well keep out of the fight for the presidency. He and another democrat and two or three republicans with bees in their bonnet are fairly held responsible for the defeat of equal suffrage by the women when it went to defeat for want of one vote in the senate a year ago. Not one of that bunch can hope to win a nomination in either party.

The New York World is reported as saying that "except for the brains and character of President Wilson there is nothing left of the democratic party but a name. Except for money of the great business interests that have so long sustained it, there is nothing left of the republican party there is nothing left but a name and an appetite." We call that hitting 'em hard.

All who may properly be classed "republican" in national politics from now on must declare for the league of nations with the Lodge reservations. That seems to be the situation since Candidate Wood has come out for that position. Of course, this will leave Hoover outside the breastworks so far as the stalwart republican is concerned. And it looks more and more as though those who fall outside of that citadel this year are the lucky ones.

One of the advantages claimed for the adoption of the metric system for all weights and measures by this country is that it will save the pupils in our schools a lot of mind discipline in committing tables of weights and measures. As we understand, practically everything will figure in decimals. Great scheme, but for a time at least the poor kids would have to learn both systems and how to convert one form of measure into another. That would work a double duty at first.

There is some class to our United States senators. The evidence in the Newberry trial tells that his campaign managers promised people convicted of crime which should send them to the penitentiary complete immunity from the penalty of the law if they helped, and Senator Newberry was elected. And all of this was done in the name of patriotism—this sacrifice of time, money and principle was simply done to keep such a man as Henry Ford from becoming United States Senator. Well, they evidently succeeded in keeping Henry from breaking into bad company.

Bixby says that he is a Christian and adds that he "firmly believes that if all who profess faith would come within a mile of practicing what they preach we would see an end of devastating wars, and an end of national hatred, an end of murder in society and by society." Sure, and so long a men profess this faith and do not pretend to live up to what they profess they are stumbling blocks in the path of all moral uplift. We once knew an old gentleman who had observed mankind for many years sum up the situation briefly thus: "God hates a hypocrit."

**Your Hosiery**

Sox hose just the proper hue to set off your clever suit or dress are as much a part of your apparel as the dress itself. We have on hand all shades in many different grades, featuring open work and fancy embroidery.

**A Smart Veil**

Will accent the smartness of your new spring hat and you will find a timely, pleasing collection of VEILS to choose from. Some of them are profusely dotted; others with interesting scrolls. Veiling by the yard in many patterns is also a feature in this display.

**New Drapes**

A wonderful collection of new Cretones and Madras Draperies are ready for your spring house cleaning. Many shades and beautiful designs are features of this display.

Curtain Goods that are sure to please the most fastidious tastes are also here.

**For Early Spring Sewing**

A very complete showing of gingham in a great variety of patterns and colors. Ranging from 27 to 32 inches wide at 25c, 40c and 50c yard. Percales, 36 inch, both light and dark in attractive patterns at 40c. Cambrics, very best grade, 36 inches wide, in light colors only at 50c yard.

**White Goods**

A very complete line of Flaxons, Volles, Organdies and Mercerized Poplins at prices that are very reasonable.

**Cardinal Points of Corsetry**

Sometimes it seems that too much is said about the importance of wearing the correct corset. Yet, with all the talk there are still thousands of women who are not getting the kind of corset they should get. Good shapes are made bad by poor corseting; bad figures made worse; we have in stock a corset adapted for your particular needs.

### AIMS OF MODERN GEOGRAPHY TEACHING

If we are to play our parts well as good citizens in the new social and economic order into which we are moving, it is quite necessary that we become thoroughly conversant with life and problems of the peoples with whom we are associated. The world is becoming smaller every day. We hear from neighboring towns about once a week, but from France, Russia and China every day. What happens in Europe this morning we may have in this morning's paper. Since we can keep ourselves informed concerning important affairs in Europe or South America as easily as we can keep up on the community

gossip, it seems that the whole world has really become one large neighborhood of interesting and interdependent folks. Society will expect the educated man or woman of the future to understand well the social and economic ties that bind the peoples of the world together into one large unity. If our children are to develop into worthy leaders for the future, it is our duty to provide ample opportunity for them to study these problems. What can our schools offer children that will satisfy this pressing need? The answer is evidently more and better geography. The trend of modern geography is well shown in the following statement of aims:

1. Geography should seek to create in the children an abiding interest in how the people of different countries live—their important industries, their fine achievements, their pleasures, their leisure time activities—and the reciprocal duties and responsibilities that exist between them and us.

2. It should give pupils a mastery of geographic facts and principles so they will be able to explain the operations of the interesting phenomena noted in connection with the developing of important industries, the location and growth of leading cities, and the independence of the peoples in different parts of the world.

3. It should produce a social orientation in the lives of the pupils such as will lead to a sympathetic study and understanding of peoples and races other than their own.

4. It should determine for the pupils whether or not a people are using wisely the resources nature has given them, how they may improve their opportunities, and what we may do to assist them.

5. It should give such a thorough training in the use of the tools of the subject, namely—maps, texts, references books, government bulletins, etc.—that the pupils may become independent workers in the solution of geographic problems.

Training in this kind of geography will furnish vital materials from which to develop an intelligent citizenship, a citizenship that will find equitable adjustment for the intricate difficulties that are being forced upon us by the world's becoming smaller every day, and by our neighbors crowding us from every side.

The reason that geography training has not produced better results in terms of the aims here set forth is largely due to the fact that we have thoughtlessly conceived the value of geography to be individual and mercenary rather than mutual and altruistic; and that we have never realized that the purposes of geography might include definite provision for proper social orientation in the world of increasingly independent workers as well as for physical orientation in the world of objects.

In the new world order that is up-

on us, geography occupies a unique place. It is the chief subject upon which we may depend for the moral-teaching complex human relationships. It occupies a field that is peculiarly its own. One may search through the other subjects of the common school in vain, to find any systematic attempt to present a comprehensive view of the home, the life and work of the Brazilian or any other modern peoples. The program of the new era calls for the elimination of international strife and jealousies, and the substitution of friendship and the co-operative spirit. The place to begin the rehearsal of this program is in the geography class of the elementary school.

Organization to avert international conflict in the future must provide for a better understanding between races of peoples. Geography deals with activities of modern peoples as they are busy themselves in the noble task of providing the world with the necessities of life. The better we understand our relationships in connection with these activities, the better we will be able to adjust our conflicting interests without appeal to arms. Intelligence alone will never make the world safe for democracy. It is only when intelligence is tempered with virtue that the world will be safe indeed.

The program for the new geography is a complete one. It provides for a study of man not only in relation to the economic and industrial phases of his physical environment but rounds out and completes the program by introducing the most vital and necessary element in the whole field of geography, namely, the social and moral obligations that perforce to with such closely interwoven human interests. To be sure, some of these problems are too complex and difficult for elementary pupils, but there are simple and easily understood phases of the social and moral elements of geography that we dare

not omit, even in the elementary school. Let it be said that this generation not only had the physical and moral courage to crush the head of autocratic government in the world but that, along with the many other worthy provisions looking to the future security of the world, it was wise enough and good enough to organize a complete program for geographical training, one calculated to take full advantage of geographical knowledge in introducing the moral and social corollaries that should accompany geographical principles.

—E. E. Lackey.

## Wash them clean —slip them off

Walk into the house with warm, dry feet—that's the new "U. S." Walrus

**QUICKLY** cleaned under a faucet or with a pail of water—buckled or unbuckled in an instant—warm and water-tight always—that's why farmers everywhere are buying the new U. S. Walrus. You need a pair for all-year-round use—for dozens of odd jobs around the farm.

You can slip on the U. S. Walrus right over your leather shoes—and slip it off with your toe when you're through. Its thick, fleecy lining keeps your feet comfortable in the coldest weather.

Wherever you go—tramping through snow and slush—splashing through water half a foot deep—the U. S. Walrus gives you perfect protection. And then at your doorstep—no matter how dirty and muddy they may be—a moment's wash under a faucet leaves them as clean as before you started out. Every trace of mire washes quickly off their smooth rubber surface.

Made by the oldest and largest rubber manufacturer in the world, the U. S. Walrus is built to last. At the very points where ordinary overshoes are

weakest, the U. S. Walrus has been made strongest. Every point of strain is heavily reinforced.

Ask your dealer to-day to show you the new U. S. Walrus. Look over the rest of his U. S. line—boots, bootes, arctics—whatever you need. Tough, heavy soles—special reinforcements at toe and heel—and always the highest quality rubber—these points are winning U. S. rubber footwear thousands of new friends every year.

Ask for U. S. rubber footwear—it means solid wear and long service for your money.

"U. S." Arctic—Made of snow-tight casimerette, warm and comfortable. Reinforced where the wear is hardest. In one, two, four and six buckles, all weights and sizes.

Ask for "U.S." RUBBER FOOTWEAR

demand that we as trainers of future citizens should see to it that the rising generation knows the world and world problems."

So says Professor A. C. Parkins, Professor of Geography at the George Peabody College for Teachers in Nashville, Tennessee, and director of the National Council of Geography Teacher's bureau to furnish articles on the teaching of geography for educational journals of the country.

At his request, Professor E. E. Lackey of our own Wayne State Normal has written the article which appears in the Faculty Column.

The Goldenrod Editors appreciate the honor so conferred in allowing us to publish first a treatise written for a magazine publication.

Mrs. H. C. Lund, nee Miss Rachel Fairchild, has been traveling since December 30th in the west. Mr. and Mrs. Lund have purchased and are preparing to locate soon in Pauyallup, a town near Tacoma, Washington.

#### AGRICULTURAL EXHIBIT

COMING

The city of Wayne has been selected for the exhibition of North Dakota products to be shown by the Great Northern Railroad of St. Paul. In connection with this exhibit which will be at the city hall there will be moving pictures and lectures descriptive of the country. The Great Northern agricultural agents are accompanying this exhibit and they will answer any inquiries that are made about the different localities in the Northwest. This exhibit has been shown in Iowa and Nebraska for the past two months and is attracting great interest. The Red River Valley potatoes shown and the rust proof wheat, which eliminates damage to wheat by rust, also have been the center of much interest among the visiting farmers.

This work is part of the plan of the United States Railroad Administration in developing the resources of the Northwest, where there are many opportunities for homeseekers. The yearly increase of the population of the United States demands increase in production, which can only be accomplished by the cultivation of more acres of land. There are 1,500,000 more mouths to feed in the United States every year. It is estimated that last year over 5,000 renters and small farm owners secured farms of their own in the Northwest through the medium of this work. See the advertisement elsewhere.

#### HOME FROM DENMARK

Andrew Jensen and family of Laurel returned last week from a visit at their old Denmark home, and the Advocate tells a little of their experiences abroad and promises more in the near future. They intimate that they will be satisfied in this country from now on. The Advocate says they were mighty glad to be back and that Mrs. Jensen declares she will not revisit her home land for a long time again. They returned on the Hellig Olaf, the same ship that first brought Mr. Jensen to this country twelve years ago. They had a very stormy passage, but that was nothing to the anxiety they suffered because of the serious illness of their

three and a half year old daughter. For several days they thought there was no hope, as the ship's physician seemed unable to do anything for her. The little girl is still ill at Waterbury, where Mrs. Jensen and the two children are staying in the home of Andrew's brother.

Mrs. Jensen, who is always seaisick in crossing, was in bed without food all the way from Copenhagen to New York, Andrew says, but knowing her probable fate in advance did not weaken her desire to come home in the least. Andrew says she told her mother when this phase of the situation was under discussion: "Even though I'm sick for a month, I want to return to the United States." Besides her parents and a brother, Mrs. Jensen has two sisters and a brother over there. Another sister, with her daughter 23 and son 20, accompanied the Jensens to this country. The young man has already taken a place on a farm near Waterbury and the young lady will enter domestic service as soon as a suitable place is found. These young people performed so much labor in Denmark for so little remuneration that it will seem like another world to them here. Speaking of conditions over there, Andrew has volumes to tell and has promised to give us an interview within a few days.

The stingiest man was scolding the hired man for his extravagance in wanting to carry a lantern in going to call on his best girl.

"The idea!" he scoffed. "When I was courting I never carried no lantern; I went in the dark."

The hired man went on filling his lantern.

"Yes," he said sadly, "and look what you got."—EX.

Two Tommies came into a restaurant and ordered Turkey with Greece. Servant: "I'm sorry, but I can't serve it."

Tommies: "Then call the Bosphorus."

The boss came in and said that he could not Russia; so the Tommies went away Hungary.—EX.

#### GOOD FELLOWSHIP WEEK

(From The Goldenrod.)

The Good Fellowship Week was undoubtedly a great success; from the first it was evident that great interest was being manifested in the programs for the week. There was not a disappointing feature in the whole affair, the general verdict was "A magnificent production" worthy of the best appreciation and good-will of the whole town.

The Good Fellowship Week was a wonderful revelation to Wayne in many ways proving the wisdom of unity and co-operation in all worthy matters.

The special week brought us together in a spirit of good will towards each other, we became better acquainted, the bond of friendship was made stronger and one conception of what is necessary for the community was enlarged and confirmed.

The community spirit needs to be cultivated so that perfect harmony may prevail in our midst. We discovered the fact that the citizens of Wayne are of a high intellectual type who believe in the development of mind as well as the moral qualities. We also made the wonderful discovery that in Wayne, Nebraska, we

have the best "Normal School" in the State. What a magnificent student body, the pick and the pride of the State. Young people who will in the future fill the important places in the life of our nation.

A word of congratulation must be said in behalf of the faculty. They are undoubtedly men and women whose characters are above reproach—capable, efficient, trustworthy, who are contributing their share to the success of town and College.

The town needs the College, the College needs the town. We shall look forward to a repetition of the good things produced on the Hill next year.

The effect is wholesome, we feel the thrill yet.

—Citizen.

"Never in the history of our country has the time been so opportune for advancing the teaching of geography. The Great War, the expansion of our foreign commerce, the rehabilitation of the merchant marine, and the paramount position the United States now holds among the world's great powers, and in directing world affairs and the ever recurring references to peoples and countries in distant parts of the world in our newspapers and magazines all

LOCAL AND PERSONAL

Frank Strahan was a Sioux City visitor Tuesday.

W. A. Hiscox went to Omaha Wednesday on a business matter.

Mrs. I. C. Trumbauer visitor at Emerson Wednesday-afternoon.

Vern Fisher was a passenger to Omaha this morning on business.

Wm. Thies is among the Wayne business men kept at home with the flu.

Cream and eggs and poultry—if you have them take them to Fortner.—adv

Tonight and tomorrow, William Farnum in, "Wolves of the Night, Crystal.—adv.

Fortner wants to buy your cream and eggs, and any poultry you may have to sell.—adv

Only twenty bucks for a new Ford radiator while they last, at the Wright Garage.—adv.

J. A. Gurnon of the Willard service station is staying at home a few days because of flu.

Fortner says that grass seeds come high this spring, and for that reason he has bought the best.—adv

Watch and wait for Hurstad's big shoe sale. We must make room for new spring stock.—adv

Watch and wait for Hurstad's big shoe sale. We must make room for new spring stock.—adv

Frank Pryor is taking in the sights and escaping some cold weather by hiking to Texas for a time.

Nels Johnson from the west part of the county was looking after business at Wayne Tuesday.

The dredging crew are still busy getting ready to throw dirt on the outlet ditch for the storm sewer.

A few more of those good Ford radiators at the Wright Garage, priced while they last at \$20.—adv.

Chas. Carroll came out from Sioux City the first of the week to visit his mother and sisters here a day or two.

Miss Florence Baird was taken to the hospital Wednesday, suffering from the flu, and so too was one of Chas. Thompson's little girls.

See B. W. Wright now if you want a choice of several Wayne residence properties—better not wait if you want to get in on a good deal.—adv.

Mr. and Mrs. C. W. Reed of Winside returned home Tuesday evening after spending several weeks visiting relatives in northeast Missouri.

For Sale—Two nice residence lots 75 x 150 feet each, on Logan street south of Perry Theobalds, one and one-half blocks from Normal. H. H. Hickman. 2tad.

Miss Ella Dorsey from Creighton was a Wayne visitor Tuesday, a guest at the Mrs. Pryor home while on her way to visit at the F. R. Pryor home at Carroll.

Mr. and Mrs. Jake Delaney from Allen have been here visiting at the home of her parents, Mr. and Mrs. R. P. Williams, returning home this morning.

In Bingham county, Idaho 18 rabbit drives resulted in the extermination of more than 30,000 rabbits. Rabbit meat must have been a glut on the market there.

Take the eggs to Fortner often—buying and selling on a falling market as one does at this season of the year, they must move quickly or go at a lower price.—adv

Before March 1st is the best time to buy Wayne residence property if you need it, and I have for sale a number of bargains for quick sale. See B. W. Wright.—adv.

Ed Damme and his parents, Mr. and Mrs. Phil Damme visited at Norfolk Sunday, where Mrs. Ed Damme is staying to care for her sick father, Fred Schroeder.

The weather man has been fairly considerate since February came. A little snow, some mud and a few days of sub-zero weather, with snow or rain threatening this Wednesday night.

The Wayne bakery is installing a fine 500 horse-power cash register—that is it looks like that size. Those who need the cash register find them a great aid in keeping the cash-account correct.

Jas. Pile, who was down with flu for a few days last week reported for duty Saturday, and Monday the physician sent him back to bed again. At this writing he is about ready to again go on duty.

Ralph Clark is opening an auto salesroom in the Brittain building just west of the State bank, and has the Maxwell and Studebaker cars in stock. He will simply sell automobiles and trucks.

It will soon be time to sow grass seed, and the farmers well know that Geo. Fortner will have a supply of the best obtainable. He has the alfalfa, and it is his aim to buy seed of known quality—the best obtainable.—adv

## In Performance as in Style Essex is Leader

Its 50-Hours at Top Speed Endurance Mark is Unmatched. But That is Proof of Only One Fine Car Quality Essex Brings to the Light Car Field

Thousands at first bought the Essex, knowing nothing of its greatest quality. Perhaps no one expected great endurance in a light car. Perhaps its dynamic performance appeal swept aside the natural caution buyers feel about the durability of any new car.

More speed they found. More power—quicker acceleration—finer hill-climbing ability, and such riding ease as they had never known in a light car.

These things the Essex established quickly. A ride was sufficient. It left no vestige of comparison with the former light car performance standards.

Such attractions were irresistible to those who knew former light car limitations.

tests, the same Essex stock chassis travelled 5,370 miles in 94 hours, 22 minutes, actual driving time, averaging more than a mile a minute.

And another Essex stock car set a world 24-hour road mark of 1,061 miles, over snow-bound Iowa roads. Not a single adjustment or tire change was made.

Surely such endurance proofs must redouble the value of Essex in the eyes of all.

### See Why Essex Made a world's Sales Record

Moreover, Essex power means acceleration. It gives Essex right of way everywhere. It means that every performance is met at half effort—thus accounting for its long life.

These are reasons why in its first year Essex set a new world's sales record with more than \$35,000,000 paid for more than 22,000 cars in its first year.

This year it will be even more difficult to supply the Essex demand. Thousands waited, last spring. Many were disappointed. Yet at that time Essex had not given the conclusive proofs of endurance it now holds. You will avoid having to wait by making your reservation now.

### It Won on Endurance Minus Useless Weight

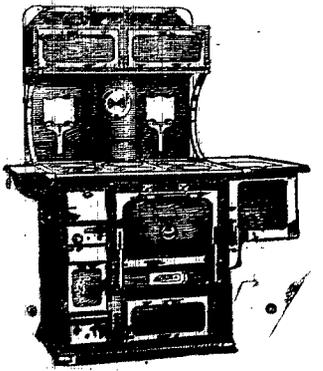

Now Essex has met these requirements. Not only have more than 24,000 owners proved its dependable, punctual reliability and freedom from repair and replacement needs. Essex has set a new world endurance mark of 3,037 miles in 50 hours. It is the only official test ever made of a stock car, driven at top speed for 50 hours. Counting other

But only time or abnormally abusive tests can prove car endurance.

## A Monarch Range

In your kitchen would make your work hours fewer and pleasanter

It's easy to see why every woman who really knows a MONARCH Malleable Range prefers it to any other. The freedom from stove blacking—from sooty, black kettles—from delays and baking failures quite naturally delight a woman who has had to put up with these inconveniences in using a range of the ordinary kind.

W. A. Hiscox Hardware

At Long Pine the commercial club purchased a defunk hotel and have converted it into a hospital, and Tuesday was the day of formal opening. A local physician with city and hospital experience is to have charge of the place.

There are 50,000 farmers in this country who own and operate trucks. If we had to depend upon horses to do the hauling that these trucks can handle it would require at least 200,000 more horses, and harness enough to hitch them.

And now it is Secretary Lansing who has quit the cabinet of President Wilson. Frank L. Polk the undersecretary of state will act for the present, and his name is mentioned as the possible successor to Secretary Lansing.

Fred L. Blair has purchased the building he has occupied on the corner of main and 3rd streets, from Frances Jones. Some say that Mr. Blair is planning to put up a modern building there some time in the not distant future.

Bid 8 Day Sale.—Canned fruits and vegetables. Begins Friday. Basket Store.—adv.

House for sale, well located. A bargain if taken soon. See D. D. Tobias. 1t ad

We are grateful to Editor Peterson of the Winside Tribune for excusing his printer F. J. Dimmel for half the week to help us out of a tight place. We are grateful to Mr. Dimmel as well as Mr. Peterson.

V. A. McChesney will go to Ames Friday for a Saturday and Sunday visit at Ames with his son, Ed who is attending the agricultural college at that place. Mr. McChesney wants to see what that great school is like where they have nearly four-thousand young men students learning about farming. He reports that his son likes the place very much.

Carload Minnesota White potatoes (sacked) due to arrive now. Suitable for table or planting. Price \$3.30 per bushel actual weights. This price for immediate acceptance. Phone orders. Basket Store.—adv

Henry Lessman from east of Wayne was a passenger to Lincoln Monday, going down to attend the annual meeting of the Nebraska Mutual Insurance company for which he has been writing insurance for a number of years. He tells us that 1919 was their banner year in amount of insurance written, and that the average of new business for the year was more than \$3,000,000 per month. They write only farm insurance, unless a town property has at least a half block to itself it will not be accepted. They now have more than \$236,000,000 insurance in force, and their rate is but 25 cents per \$100 annually.

The use of Careyzed stock tonic blocks will help your bank account. Accept a 60 day supply. Mr. Carey will refund full purchase price if it fails. Basket Store.—adv.

Mr. and Mrs. Chas. H. French from Marcus, Iowa, came to Wayne Wednesday evening to visit at the home of her sister, Mrs. G. H. Thompson. Tuesday was their wedding day, and the visit to this place is a part of their wedding trip.

JOHN S. LEWIS, JR., HARNESS AND SADDLERY, WAYNE

John S. Lewis Jr., Harness and Saddlery, Wayne, Nebraska, is the only place to buy a hand made oak leather harness in Northeast Nebraska. While they last be sure to get one. As one hand made will wear longer than any two machine made and the price is no more. Repairing rightly and reasonably done. 5 t ad

ORDER OF HEARING AND NOTICE ON PETITION FOR SETTLEMENT OF ACCOUNT

In the county court of Wayne county, Nebraska.

The State of Nebraska, Wayne county, ss.

To all persons interested in the estate of Rezin Z. Baker, deceased:

On reading the petition of Mary E. Baker praying a final settlement and allowance of her account filed in this court on the 17th day of January, 1920, and for distribution of residue of estate. It is hereby ordered that you and all persons interested in said matter may, and do, appear at the county court to be held in and for said county, on the 20th day of February, A. D. 1920, at 11 o'clock a. m., to show cause, if any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition and the hearing thereof be given to all persons interested in said matter by publishing a copy of this order in the Nebraska Democrat, a weekly newspaper printed in said county, three successive weeks prior to said day of hearing.

**Everybody Welcome. Bring  
Your Neighbors**

**DIED**

Lowell Hansen Hass, son of Alfred  
and Regina Hass, died Feb. 1st, 1920,  
at the home of his father in Cush-  
ing, Ia., at the age of 3 years 11  
months and 9 days. The little fel-  
low made his home with his grand-  
parents, R. H. Hansen and wife at  
this place for 2 years and 3 months  
after which his father thought it  
best for him to grow up with the  
rest of the children. Little Low-  
ell was often seen on the street with  
his grand-father, R. H. Hansen and  
with his grandmother and aunt An-  
na.

The above notice was given the  
Democrat for publication, and many  
well remember the little one who  
came to be cared for by his grand-  
parents at the death of his mother  
who passed away from pneumonia  
soon after the birth of Lowell. From  
one of the home papers we have the  
following added account, telling that  
he died from pneumonia following  
a severe siege of whooping cough,  
and that the funeral was held Mon-  
day afternoon from the residence,  
and then laid to rest, to slumber un-  
til the trumpets of the great resur-  
rection to partake of the glory and  
kingdom, the permanent home of the  
pure and innocent little ones.

The pall bearers were four of his  
uncles, Chas. Hass, of Holstein, Lou  
Hass, of Sioux City, and Arthur and  
C. E. Hass, of Cushing.

We cannot find words to express  
the sympathy and feeling now with-  
in us for those who feel the loss most  
keenly. It is useless for us to even  
attempt to tender word of consol-  
ation, for only those who have stood  
on the threshold of death—only  
those who have battled to wrench a  
dear life from the relentless hands of  
the life harvester, and then failed,  
know the intense anguish and grief  
that death will cause. Human sym-  
pathy cannot tide the sorrowing  
mourners over this great trial, but  
may the All-merciful Father apply  
his healing balsam—which in the  
course of time, will heal this terrible  
wound.

They prayed and hoped, and knew  
that God could spare this life if He  
but would. He deemed it best to take  
it to His fold of little souls. Do not  
despair, the boy is safe within His  
care. Grant him his peaceful sleep.

**For Sale**

A nearly new, modern home with  
nine rooms and bath; one block from  
college campus. Address P. O. Box  
757, Wayne, Neb. F12tfad

**PUBLIC SALE**

Commencing at 12 o'clock, noon, I will hold a closing out sale on my farm located one mile west  
and one and one-half mile south of Altona; five and one-half miles north and two miles east of Pilger;  
ten miles northwest of Wisner; ten miles due south of Wayne, the following property:

**Wednesday, Feb. 25, 1920**

**Five Head of Horses**

One black mare 14 years old, weight 1500; one bay mare 6 years old, weight 1150; one gray geld-  
ing 7 years old, weight 1150; one bay gelding 6 years old, weight 1000; one brown gelding 4 years  
old, weight 950.

**McCormick — Deering — International — P & O**

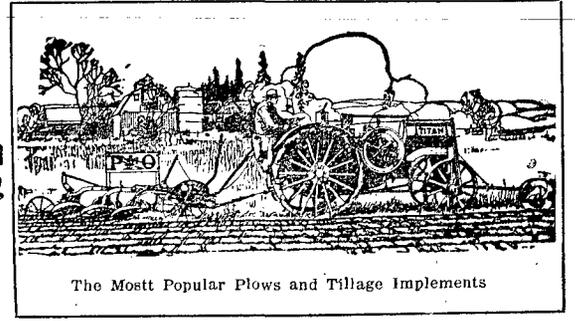

The Deering and P & O Have Been Added to Our Lines for 1920

The Most Reliable Harvesting and Haying Machines

The Most Efficient Tractors and Power Machines

The Most Popular Plows and Tillage Implements

**Y**OU know these trade names. Your father and grand-  
father knew three of them. They knew in their time,  
and you know today that these names stand for the  
highest quality farm machinery in the world. McCormick built  
the first practical reaper, Deering sold the first twine binder  
and was a good-twine pioneer, and William Parlin was one of  
the first steel plow pioneers. The lines of harvesting machines  
and plows started by these farm machine builders have been

growing and developing ever since. Other machines have been  
invented and developed by the same manufacturers, and every  
new machine and implement has had built into it the years of  
manufacturing experience and farm knowledge accumulated  
by McCormick, Deering, Parlin and their successors. Now all  
of these machines and implements have been merged into one  
line—the International Harvester. The reputation of every ma-  
chine and implement in this line is the same.

**The Complete International Harvester Line**

**We Sell the International Line**

**WHAT DOES THIS MEAN TO YOU AS A FARMER?**  
It means, first of all, that you can buy any farm machine or  
implement you may need, right here in this town, without tak-  
ing chances on EXPERIMENTS or implements that might be  
"orphaned" one or two years after you buy them because of  
the manufacturer going out of business. You can always get  
repairs for any machine or implement in the International  
line because the Harvester Company will never go out of busi-  
ness. You are assured of reliable machines because every  
machine in the Harvester line is tried out and tested under ac-  
tual farm conditions, before being offered for sale to the farm-  
er. Experimental Department of the Harvester Company is the  
most thorough and active institution of its kind.

It means, second, that you can get repairs and repair service  
on all of these machines through one concern—us. You don't  
have to go to the bother and inconvenience of trying to get re-  
pairs and service from half a dozen or more different compan-  
ies. You won't be taking chances on expensive delays waiting  
for repairs during the busy seasons because we are going to  
carry a big stock of repairs on hand and any repairs that we  
might not have, we can get for you in a hurry by a 'phone call  
to the International Harvester branch house.

Tack this advertisement up in your machine shed so that when-  
ever you need repairs for any of your International machines  
you will know where to go. Also, you will know where to go  
when you are in the market for new machines or implements  
of real quality and the highest operating efficiency.

### A BEAUTIFUL, MOST ATTRACTIVE 160 ACRE FARM HOME

This is a choice farm, with gas lights in dwelling, barns and yard. Nearly new six room house with cemented basement. Attractive front yard with abundance of shade and evergreen trees. Fine modern poultry house, costing \$600. Large granary and cob house, good wash house, an extra good corn crib with cement foundation, with driveway between. Good tool house, large implement house, good barn 30x40, large cattle shed with high board fence around cattle yard, cement ice house, good garage, good well and windmill and water supply tank and water works to buildings and yards. Orchard of two hundred fifty bearing trees, sells \$600 of fruit a year.

This farm is in the Elkhorn Valley, situated 8 miles from Norfolk, 5 from Battle Creek. Lays nearly level, every acre good farm land, heavy loam soil with clay subsoil, 20 acres in timothy and clover. Well fenced with a good share of woven wire. School house 30 rods from house. Most of corn land this year yielding 50 bushels per acre. In fact the best improved farm west of Omaha for the money. Priced right. Only \$175.00 per acre. Come and let us show you this farm. Possession March 1, 1920.

GOW BROTHERS, Norfolk, Neb.

### CONSOLIDATION OF RURAL SCHOOLS COMING

The last legislature provided a means for the consolidation of the schools of the different counties as and when the voters of the district direct. The Wausa Gazette has the following to say of the consolidation plans now under way, not only in Knox, but in many other counties of the state and the editor of that paper should know, for he was one of the men who helped to make the law:

There seems to be considerable misunderstanding relative to the provisions of the new redistricting law and a few explanations may therefore be in order. Let it be understood that the purpose of the law is not to force the consolidated school plan but merely to prove a universal method of adopting the plan where a majority of the electors within the proposed district so desire. The hearings at Center this month will not decide whether or not the plan is to be adopted. These hearings concern only the boundaries of the proposed districts and the respective school sites. When these boundaries have been established they will remain in force and will be the boundaries of any district that may sooner or later decide to come in under the consolidated plan.

There are two ways by which consolidation may be affected under the new law. One way applies to open county consolidation, and the other to a consolidation around an "organized consolidated or high school district," as, for instance proposed district No. 49, which includes the present Wausa high school district.

An open-country consolidation is effected in the following manner. A petition asking for an election must be signed by twenty-five percent of the school electors residing within the proposed district that wants to come under the new plan and must be filed with the County Superintendent who then calls an election when the question is submitted to the vote of the people residing within the district. If a majority of the votes cast at the election is in favor of the proposition the district will be organized as a consolidated district. If a majority of the votes is cast against the proposition there is no consolidation. Such petition may be circulated and an election called at any time it is believed that there is enough sentiment in favor of consolidation to warrant holding an election, but when one election has been held and the proposition defeated

another election cannot be called within a year. From this it is apparent that it is left entirely optional with the people in each proposed district whether or not to organize a consolidated school, and the initiative for such organizing must be taken by the people themselves.

If there is already a consolidated school or an organized high school district within the proposed district (as for instance in the proposed district No. 49 which includes the Wausa district) consolidation is affected when not less than 51 percent of the school electors residing in the territory which it is proposed to annex to the old high school district sign a petition asking for consolidation and file this petition with the County Superintendent. And then the district will be consolidated only upon the approval of the board of education of the old district.

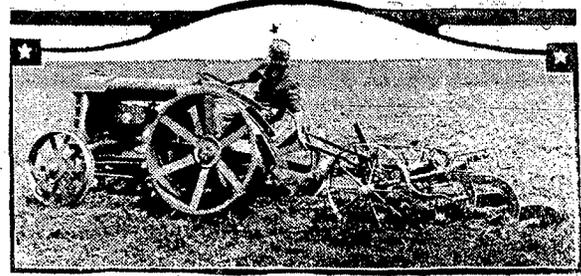

This special provision in cases where the proposed consolidated district comprises an organized high school district was embodied in the law to make it impossible for a town or any such district to annex additional territory against the wish of the majority of the people residing in such territory.

The law is absolutely fair. It does not compel consolidation. It does not make it possible for town districts to annex territory, as some seem to hold. It merely establishes boundaries which do not become operative until the people vote to make them so, in accordance with the plans outlined above.

Some of the Great Northern land men were at Wayne Tuesday making arrangements for a picture show exhibit of the products of lands along the line of this great highway. The Great Northern has no lands for sale, but they are showing a commendable interest in getting people to settle in and develop lands along their lines, for the mutual benefit. Among those here Tuesday were B. Stevenson, the general agent of the development company, W. I. Lambing, E. B. Simmons and D. S. Giesel from Belden, agents for considerable territory in this part of Nebraska. Last season a large number of Cedar county people purchased lands in their North Dakota territory and are now moving to that state.

The flu and pneumonia appear to have been particularly severe and fatal in the vicinity of Neligh, where no less than ten deaths last week were attributed to these twin agencies of sickness and death.

## A Tractor that Will Fit Your Farm THE FORDSON

You can make your farm produce more at less cost and with less effort on your part by using the Fordson Tractor, not only will it help you prepare your land and cultivate the crop, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns Kerosene, easy to operate and care for—practically trouble proof. We are taking orders now for the Fordson tractor and farm tools. If you want a Fordson tractor for spring plowing don't put it off, but order now. We are not going to get as many tractors as we expected, the factory has cut our orders fifty per cent the demand is so large they wont go round.

Come in and see the Fordson Tractor and talk at our show room.

Fordson Tractor \$750.00 F. O. B. Factory.  
Oliver Plow No. 7 \$125.50 F. O. B. factory.

Horses, Cattle, Hogs, Machinery, Chickens  
and other property

Last week the deputy state fire inspector visited Neligh and put a chalk mark on a lot of places which needed better protection. The state is taking a lot of time and to keep the property safe from fire, and that is right. Another thing would be right; for the state to take a hand in providing fire insurance at cost. Wayne's rate is perhaps as high, if not the highest in its history, and yet the risk has been very materially reduced by the elimination of old buildings, the general cleaning up of fire traps and the added efficiency of the fire-fighting equipment and firemen here. It seems that the people, rather than the insurance companies should get a benefit in reduced rate of fire insurance.

#### WITH THE WAYNE CHURCHES

##### The First Presbyterian Church

(Rev. J. W. Beard, Minister)

Morning worship at 10.30.

Evening worship at 7.30.

Sunday school at 11.30. Classes for all.

Senior Endeavor at 6.30. We have a splendid Endeavor society!

Professor Britell will fill the pulpit both morning and evening.

You will enjoy all these services! Come!

First Baptist Church

(Robert H. Pratt, S. T. M. Minister)

The regular services will be held on Sunday and the pastor will bring a message from the state convention and the inter-church conference, in the morning. In the evening he will speak on "The Desert Prophet."

Special attention is called to the special business meeting of the church which will be held after the morning service, next Sunday, February 22. The report of the advisory board on the budget for next year must be adopted at this time and every member should be present and vote.

English Lutheran Church

(Rev. J. H. Fetterolf, Pastor)

Sunday school at 10 a. m. Our school has suffered a great deal on account of sickness during the past month, and many are yet unable to be present for this reason. We hope to see all of the scholars back as soon as they are able.

Public worship with sermon at 11 a. m. and 7.30 p. m. The subject of the morning sermon will be "The Great Temptation." The evening subject will be "From Death to Life."

Catechetical instruction on Saturday afternoon at 2 o'clock. The lesson is questions 244 to 264.

You need the church; the church needs you. We give a hearty invitation to all to attend all our services.

na Smith of the Normal will also give a reading, and this excellent program and the importance of the business session should induce every member not afflicted with the flu to be present for this meeting.

The Monday Club met February 9th at the home of Mrs. Chace. In response to roll call each member told something that she wished her Wayne friends would do. Mrs. Carhart gave several delightful readings. Mrs. Chace, assisted by Miss Piper, served refreshments.

Mrs. W. J. Kortright was hostess at a most interesting and profitable meeting of the Bible Study Circle Tuesday afternoon. This meeting was hastily arranged, sickness preventing Mrs. Chas. McClennen from having the meeting in her home but was a success in every detail. Mrs. J. A. Gurnon will be hostess next week and a fine meeting is planned to which all are invited.

The young ladies Bible Circle are having a little luncheon and their meeting on Thursday afternoon between five and seven-thirty this week. Mrs. Young is hostess and Miss Blanche Groves the leader. Next week the girls are invited to attend the Evangelistic meetings being conducted in the Swedish Mission church at Concord over the weekend. Weather permitting a pleasant time is planned for.

Monday Club met February 16 with Mrs. Kostomlatsky. The members responded to roll call with current events. Mrs. Welch gave a very interesting and instructive report on "Immigration versus Emigration." Mrs. Davies was a guest at the club meeting. Mrs. Kostomlatsky, assisted by her daughter, Mrs. Orr, served delicious refreshments. The club will meet next Saturday afternoon with Mrs. Beebe of Wakefield, leaving Wayne on the one-fifty train and returning at seven o'clock.

Members of the Acme club held a most interesting session at the home of Mrs. Williams Monday afternoon. Those present answered roll call with current events. Mrs. Weber told of affairs in Congress, mixed as they are at present; Mrs. M. S. Davies spoke of the new constitution now in the making by our representatives at Lincoln. Mrs. I. H. Britell's subject was church news and movements. The next meeting will be held with Mrs. Hamer Wilson, and the men are invited to join their wives there at a six o'clock dinner.

The Minerva Club met Monday, February the sixteenth at the home of Mrs. L. M. Owen. Mrs. Ben McEachen gave a very interesting book review of "The Little Visitors" by Daisy Ashford, who wrote the story at the age of nine years. Mrs. W. R. Ellis played a piano solo and Miss Maude Shapton favored the club with two vocal solos. All the ladies were presented with some "heart balm" in the form of hearts and valentines. Mrs. Owen, assisted by Misses Maude Shapton, Edna Gemlich and Marlan Miner served delightful refreshments. Mrs. Wm. Kilburn, Mrs. D. E. Brainard and Mrs. Mellick were guests of the club.

The Kiester sewing girls surprised one of their number, Miss Alvina Henkel, who has completed the course and about to return to her home at Atkinson, which she did last Saturday. The other girls taking the lessons gathered at the home of Mr. and Mrs. Bastian, where the lady had made her home and escorted the lady to a theatre party after which all returned to the Bastian home and spent the evening playing games. Light refreshments were served and all were happy. The guests presented the young lady with a silver canasole, in honor of her approaching marriage which is announced to take place March 3rd, and then move to a farm about twenty miles northeast of Atkinson. The young ladies departed at a late hour, wishing the young lady happiness and success in her new home. Those present were Misses Emma, Ida and Adella Schmitz, Francis Fox, Edna Frevort, Pauline Girardin, Elsie Rethwisch, Kate Paulson, Emma Victor and Viola Bastian.

Senior Theatre Party.  
The Seniors of the Wayne High enjoyed a theatre party Monday evening going to witness the "Desert Law" and a comedy at the Crystal. Each member of the class was accompanied by a guest; and after the curtain went down all repaired to the Gem cafe and partook of ice cream and cake, a very delicious repast in which heart shapes were predominant in both cream and cakes, in honor of St. Valentine, whose day was being observed.

Two Farms to Rent  
I have for rent two improved farms in eastern Colorado. Write or call A. G. Bohmert at once. Phone 284, Wayne, Nebraska.—adv

**GOOD IDEA!**  
Open your Lucky Strike package this way—tear off part of the top only.

Protects the Lucky Strike cigarette—a cigarette made of that delicious real Burley tobacco. It's toasted.

## Maxwell is but another name for Quality

THE goodness, the efficiency, the quality in previous Maxwells created a demand for the current Maxwell which 100,000 cars (the number now being built) cannot satisfy.

100,000 axles is constructed. Consider the vast use of capital it requires to turn them out—300 a day.

This shows a rare liking for Maxwell; and the appreciation that every dollar devoted to its manufacture has been wisely expended.

Estimate the confidence the Maxwell executives had in the Post-War model to rest the future of the Maxwell name on a year's production like 100,000.

Think what the making of 100,000 axles means, the making of 100,000 frames, 100,000 engines, 100,000 clutches, and 100,000 transmissions.

They knew; 300,000 previous Maxwells had told them; the public was their judge.

Think of the great saving that comes with the purchase of so many materials.

You can look for high engine efficiency, or merely comfort, or long mileage on gas and tires, or improvements the war developed, or style, or value—you'll find it in the Post-War Maxwell.

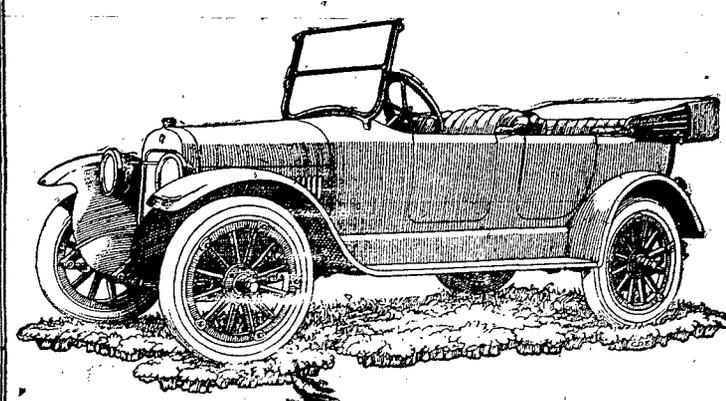

Consider the accuracy that follows as one after another of

Price, \$985 f.o.b. Detroit.
