

## A ROUSING BIG AMERICAN LEGION POST MEETING

The big get-together meeting Tuesday evening by and for the soldier lads of this community, whether members of the Irwin Sears post or not, was a grand success. First came the big supper which the ladies of the Woman's club and mothers of the boys who were not club members, gave the boys. It was no "hard tack," beans and bacon affair, but a real supper of the best in the land, served by those who are mistresses of the art of serving. About the tables were seated about 100 of the Wayne lads, and a happy gathering it was. Short talks were made—and excellent ones—we are told, by Rev. Beard, the post commander, Prof. C. Chinn, Joe Cox and Art Haggard; and two of the speakers were from the army and two from the navy. At the close of the banquet volunteer K. P. force was called for, and those who responded evidently understood the art of breaking camp in good order, for as if by magic food, dishes, tables, stoves and all traces of the dining equipment disappeared.

Then the dance began, and those who availed themselves of a view from the gallery certainly felt amply repaid for the music was the best ever. The orchestra won much praise; and those who remained for the dance, nearly 100 hundred, speak of it as the best ever.

No story would be complete without telling of the tasty manner in which the old opera house was decorated. American flags and national colors as were fitting this occasion were ample, and Harry Hohimer, who did the job showed how they fixed their rooms in the "Y" and other centers when across the water. The big county flag covered one end of the room with its many stars of silver and a few of gold, and formed the base from which the other decorations appeared to branch.

As a membership drive this gathering was a success, and with the twenty-five or thirty new members who added their names to the roster, the post now numbers something like eighty members. This number is bound to increase, for within a few years nearly every one eligible to membership will want to be identified with this organization.

To Paul Harrington and John Ahern, who by virtue of the officers they hold, were leaders in this enterprise, much credit is due. The members of the post also wish to have an expression of their thanks and appreciation given to the women of the clubs of Wayne for so kindly and unexpectedly coming to their aid with such ration as they never had a chance to sample while in service. It was indeed an evening to be remembered.

## MARRIAGES OF THE WEEK

Wednesday, February 25, 1920, by Rev. J. H. Fetterolf, Ella A. Peterson, daughter of Mr. and Mrs. P. A. Peterson, east of Wayne and Mr. Ray C. Vesen of Stanton, Iowa. They left soon after the marriage for their new home on a farm near Stanton, Iowa.

Wednesday, February 25, 1920, by Rev. Wm. Kilburn, Miss Bessie Louisa Parker, daughter of Mr. and Mrs. Frank Parker of Winside, and Mr. David Arthur Sylvanus of Carroll.

Tuesday, February 24, 1920, Rev. R. H. Pratt officiating, Miss Minnie Wagner, daughter of Mr. and Mrs. Peter Wagner of this place, and Mr. Maunso Ulrich, son of Mr. and Mrs. Chas. Ulrich of Wayne.

Saturday, February 21, 1920, Rev. J. H. Fetterolf officiating, Miss Clara M. Kirchner and Mr. Edgar E. Spencer, both of Wakefield.

Wednesday, February 25, 1920, at Hoskins, Miss Emma Miller, daughter of Mr. and Mrs. August J. Miller of Hoskins and Willie F. Baden of Wayne.

Rev. Wm. Kilburn reports this morning two weddings. Floyd D. Moore of Randolph and Miss Bradley of Ottumwa, Iowa, and Mr. Evan Jones and Miss Ruth Jane Davis of this city.

Howell P. Jones, who had been a resident of this county since 1906, died February 13, at the home of his brother at Randolph, at the age of 34 years. His illness was traced to injuries received in a fall a number of years ago. He leaves a wife and two children.

## OBITUARY—CHRIST THOMPSON

Christ Thompson was born in Denmark, February 25, 1850, and died at his home in Wayne, February 18, 1920, aged 69 years, 11 months and 21 days. He came to America in 1869 and located at Pentwater, Michigan. He was married to Mary Jensen of that place July 18, 1873, and on August 30, 1876, moved to a farm southeast of Wayne where he lived until 1910 when he retired to his late home in Wayne. He leaves to mourn his death his wife, five daughters, and three sons. His youngest son, Thorwald having preceded him to the great beyond in 1913.

The children surviving are as follows: Mrs. Thos. Sundahl, of Sholes; Mrs. Theodore Larsen, Mrs. John Kay, Anna, Nina, Jens, Eric and Anrew Thompson of Wayne, all of whom were at his bedside when he was called to his great reward. He also leaves two brothers and one sister in Denmark and one brother living at Hamill, South Dakota.

Funeral services were held at the home at 1:30 o'clock Friday afternoon followed by services at the English Lutheran church at 2 o'clock, conducted by Rev. J. H. Fetterolf. Burial took place in the Greenwood cemetery.

Mr. Thompson was one of the early pioneers who first came to Wayne county. He was a man of true noble character, loved by all who knew him. During the many years he lived in the county he made many friends through his kindness and helpfulness toward everyone with whom he came in contact. He was a kind and loving husband and father. While he has been called from our midst, the memory of a kind husband, father and friend will forever live among those who are left to mourn.

## Card of Thanks

We wish to express our heartfelt thanks to our many neighbors and friends for their kindness and sympathy extended to us during our sad bereavement in the death of our loving husband and father, and also for the many beautiful floral offerings.—Mrs. Christ Thompson and Children.

## DEATH OF MRS. ARCHIE LINDSAY

Mary E. McBroom was born November 27, 1848, in St. Lawrence county, New York, and died at the home of her daughter, in Wayne, February 20, 1920, at the age of 71 years, 2 months and 23 days, after a short illness of which she was united in marriage to Archibald Lindsay, January 31, 1872, in Woodstock, Illinois. Shortly after her marriage they moved to Macedonia, Iowa, where they lived until they came to Wayne county, in 1884. She leaves to mourn her death six children, Everett and Edwin and John Lindsay, of Wayne; Harry Lindsay, of Winside; Mrs. May Wert and Mrs. Stella Chichester, of Wayne; her husband having preceded her on July 4, 1918.

Besides these she leaves eighteen grandchildren and the following brother and sister: Thomas McBroom of Woodstock, Illinois and William McBroom and Mrs. A. D. Smith both of Renville, Minnesota.

The funeral services were conducted Monday afternoon from the Presbyterian church, the pastor, Rev. Beard, speaking words of comfort to the friends and family, and the body was laid away beside that of the husband who passed away not many months ago.

## DEATH OF MRS. WHEELER

Mrs. Malinda Wheeler died February 11, 1920, at the home of her daughter, Mrs. Robert Morrow at Winside at the age of 71 years, 6 months and 24 days. She had been a resident of Winside since 1911, and in that time won many warm friends. She was the mother of Charles Bright, and during his years at Wayne she was a frequent visitor at his home.

## MARCELLA ROSE THOMPSON

The 2-year-old daughter of Mr. and Mrs. Chas. Thompson of this city passed away last Friday, the 20th from whooping cough and pneumonia, at the age of 2 years, 3 months and 26 days. The funeral was from the English Lutheran church Sunday afternoon, Rev. J. H. Fetterolf speaking words of comfort to the afflicted parents and friends. Marcella was a bright, happy little one, and will be sadly missed from the home.

Mr. and Mrs. Thompson wish us to give expression to their kind neighbors of their appreciation of the many acts of kindness during their hours of grief and affliction, and the beautiful floral offerings.

## A VALUABLE SHIPMENT FROM WAYNE

Not many days ago the editor stood with a friend watching a great freight car—100,000 pounds capacity being filled to the top with material gathered from the farms, shops and homes of this community. The friend who watched the loading process from the beginning and knew fairly well what had gone into the car, said the contents easily represented \$25,000. This caused us to wonder at the wealth of a community which could send \$25,000 worth of product to market in one car. While still wondering, the friend continued: "That car of junk is made up almost entirely of wrecked and ruined automobiles which easily cost this community \$25,000, and when they are sold at their destination the owner will be lucky if he gets a half of one thousand dollars." We venture the assertion that with proper care four-fifths of those cars might have been in fair running condition today. It is small wonder that the cost of living mounts up, for what applies to the automobile applies as well to much else which we are wasting.

## WOMAN'S SERVICE PROGRAM

Miss Euphemia Johnson of Omaha will address the various clubs in their meetings on Monday, on the subject of the World Service Program which the Young Women's Christian Association is undertaking for girls in every land. This organization was founded fifty years ago, and has grown and expanded until it has come to deal with practically every phase of girl's and woman's life. Wherever it touches, it leaves its mark of helpfulness. The woman in industry, the woman in the house, both in town and in the country, the colored woman, the foreign-born woman, and the woman in other lands, whose life is often so lacking in opportunity: Miss Johnson will tell in her talks something of what the Y. W. C. A. has to offer all these women.

## F. J. DIMMEL BUYS WINSIDE TRIBUNE

A deal was concluded the first of the week by which Fritz Dimmel becomes owner of the Winside Tribune, taking possession today, succeeding Roy Peterson, who for about five years past has been presiding genius of that paper. During the time Mr. Peterson has owned the paper he had put it on a paying basis, and built a fine advertising patronage. We are not informed as to where he will light next, but understand that he has a desire for an exclusive job business—and let the newspaper end severely alone. Beyond a doubt he can find the job opening, or can make one.

The new editor is no stranger to the people of the county or the patrons of the paper, for he is a native, and first saw the light of day at Winside. Here he grew to manhood, and served his apprenticeship as devil on the Tribune, and it is but natural that he aspires to become proprietor. Since finishing his devil work at Winside he has gone out in the world and acquired that knowledge of the trade which alone comes with travel and contact with other printers in other shops than the home place. He made good at the Norfolk News and other places. Then he got his gun and went after the Hun right and proper and is now back to do what good he can in his home community in a place where he can wield more influence for the public good than any other business in that little city if the other business concerns will heartily cooperate with his efforts to build a bigger and better Winside. This they should do with a hearty will. The Democrat wishes him success.

Mr. and Mrs. D. D. Tobias returned the last of the week from a six weeks' visit in southern California. They say it is a very fine place to spend the winter, and report an enjoyable time viewing the sights.

Ned Conover and wife came last Thursday from Colome to visit here at the G. A. Wade home, and the day of their arrival, he was taken ill with a bad cold, and confined to his bed. This morning they went to Sioux City for a two days' visit with his brother.

C. W. Hiscox, the implement and tractor man this week tells the people of this community several things it will be to their advantage to know, and therefore it will pay to hunt up his advertisement. In fact it will nearly always pay to read the advertising carefully.

## PIONEER OF DAKOTA COUNTY DIES IN SIOUX CITY

Mrs. W. A. Heikes, 59 years old, a pioneer resident of Dakota City, died at a Sioux City hospital Saturday, following an operation. Mrs. Heikes came to Dakota county when she was 7 years old, and at the time of her death had been a resident of that section for 52 years. She was born in Blair county, Pennsylvania.

Funeral services were held at the Westcott chapel Tuesday afternoon at 1 o'clock. Rev. C. R. Lowe, pastor of the Salem Lutheran church at Dakota City, officiated. Burial was in Graceland Park cemetery in Sioux City.

Mrs. Heikes is survived by her husband, six sons, W. C. Heikes, of Obert, Charles E. and George E., of Wayne, David C. Jacob R., and Albert D., of Dakota City, and two daughters, Mrs. Mary Hock, of Dakota City, and Mrs. Ruth Burhouse, of Obert.

Among those from Wayne who attended the funeral Tuesday were the above mentioned relatives and Mr. and Mrs. O. W. Milliken, and from Randolph their son, George and wife.

## DWIGHT C. SIGWORTH MARRIED

Mrs. C. A. Chace has received a paper from Long Beach containing an account of the marriage of a former Wayne boy, who left here about ten years ago, but who will be remembered by many. The bride is Miss Irene Cratty of Omaha, a graduate nurse from the hospital of that city. The groom is a son of Mrs. Amanda Person of Stanton, who is spending the winter at Long Beach, California. Dr. Sigworth is a member of the medical corps at Presidio, and the ceremony was at the apartments of his mother, February 12. The young people will make their home at San Francisco until the young officer receives his discharge from service.

## GOOD WORK FOR FORMER WAYNE YOUNG MAN

The following is from the Detroit Free Press, and is handed to the Democrat that the Wayne friends of Weldon Crossland may know how well he is meeting the hopes and expectations of his friends. Rev. Weldon Crossland is the son of Mr. and G. W. Crossland:

This newly organized church is forging ahead in splendid fashion. It is located in one of the most rapidly growing and most desirable sections in Detroit. There is no other vigorous Protestant church between Vicksburg avenue and Redford, some ten miles away. It has a clear and rapidly growing field. Under the leadership of that indomitable and tireless worker, Rev. Weldon F. Crossland, the church is having a remarkable growth. The membership has been doubled since conference. Many of the accessions have been by "conversion of faith." The Sunday school has grown 400 per cent in a year. An Epworth League of sixty members or more has been organized.

As an expression of appreciation of the unusual fine work being done by the pastor the official board at its last meeting unanimously voted to increase the salary \$500 per year. The congregation is still worshipping in the little church formerly known as the "Tracy" (now owned by the English Lutherans,) but work on the first unit of the splendid new church being erected at the corner of Grand River avenue and Beverly Court is going rapidly forward. The dedication will no doubt occur shortly after Easter. The church is thoroughly organized for the evangelistic campaign. "The quota as a minimum" is the slogan.

## A MEASURE OF PASSENGER TRAFFIC FROM WAYNE

Not many days ago one of the conductors between Norfolk and Sioux City said that it was his opinion that there were more cash fares for him to bother with than on all other stations along his run. We simply said that was logical, because we sold more tickets here—did more passenger business. He admitted that at no other station was it easier or better to buy the little pastboard than at Wayne, now listen.

Monday morning the editor happened to look in as agent Moran was checking up the tickets from Saturday noon until Monday morning at 9 o'clock, and he said in that time the ticket sales numbered 445 and yet some of them paid conductors on the train.

Wayne is the big town on this line no matter in what department you measure the railroad business.

## MRS. WHEELER IN FRANCE

Mrs. C. A. Chace has received word of the safe arrival of her sister, Mrs. Margaret Wheeler, at the destination in France, and the Cherokee Democrat contains the following extracts from a letter from Mrs. Wheeler:

Mrs. Margaret Wheeler, sister of the editor, who recently sailed for the old country in company with her son-in-law and daughter, has arrived at Nice, France. She writes that they had a very rough voyage, arriving at Liverpool the day after New Year's. They were two weeks in London and did not see the sun once during that time. Everything is very dear there, but considering the exchange it was not so bad for them. In England, she says, everyone has a little sugar, but on the continent the rich have all they need and the poor have none. They crossed from Dover to Bologne, and as soon as they got away from the sea the sun shone out. Passing through Amiens they saw the damage done by the shells, etc. The further they got away from America the cheaper everything got, considering the exchange. They got 42.80 franc for one pound instead of 25.

## PRESENTATION OF FRENCH GOVERNMENT CERTIFICATES

Tonight at the opera house a meeting is to be held in honor of the Wayne county soldier boys who made the supreme sacrifice for the cause of World Peace in a World War. The exercises will be under the direction of the officers and men of the Irwin Sears Post of the American Legion and the parents or nearest kin of those in whose honor the certificate were issued are to be presented with a token of gratitude and appreciation of the sacrifice made.

A short program will be given in which Post Commander Beard will make a talk, the Normal quartet will sing, and the high school orchestra will furnish music.

A. R. Davis will make the presentation speech and give the certificates to the following parents of near relatives: John Bressler, the secretary, told us that he could not give the names of the soldiers, as they are in a sealed package for the relatives, but most of the readers will know from the names of parents. The list is:

Ted Nydhol, Winside; Henry J. Korth, Wayne; C. W. Reed, Winside; Mrs. Nettie Sears, Wayne; Christen Bastian, Wayne; John Barrett, Wayne; H. C. Lyons, Wayne; Fred Benschoff, Wayne; Hans Jorgensen, Wayne; Mrs. Alice McManigal, Wayne.

## THAT EXHIBIT OF FARM PRODUCTS AT CITY HALL

This morning an exhibit of grains, grasses and vegetables from along the line of the Great Northern railway in Minnesota, North Dakota and Montana. The object of placing this exhibit and the accompanying pictures and lectures before the people of this vicinity where land prices are high is that people in search of good but lower priced lands may come to see what are the possibilities in the country through which this great road is built. The company is not selling any land—have none to sell, as we understand, but they do want to get more settlers on the lands along the line of road, and a company has taken the job of finding farmers to go and purchase parts of these immense and fertile ranches to men who will make them produce more, and bring about a greater diversity of crops and greater wealth to the country, and incidentally the railroad. Last season they took a large district and placed many settlers there and some who bought early and thus had the last season crop have a large percentage of their investment back in their bank account.

They are inviting the farmers to come and see what is offered, get their prices, listen to the lectures and ask all of the questions they desire to about the lands offered.

Last season the people of Cedar county appeared to get a better start on the lands offered than did the Wayne county people, and as a consequence they are this spring sending from 30 to 40 families from that county, while but a few go from this county. We believe this proposition will greatly interest renters and farmers of moderate means who are looking for productive farms at prices within their reach without mortgaging of their prospective lives. The entertainment is free, this afternoon and evening as well as Friday afternoon and evening.

## WAYNE STATE NORMAL SCHOOL NOTES

Ida M. Tarbell Pleases

The visit of Ida M. Tarbell to the Normal last Saturday night was a delightful experience for the school and the city. For an hour and a half she held the extreme interest of the large audience that gathered in the auditorium of the Normal while she discussed from first hand knowledge the World's Peace Conference at Versailles. With pleasing manner and remarkable tact, she revealed the clash of interests among the victor nations and the efforts to reconcile differences, incidentally giving a vivid word picture of Clemenceau and Lloyd George. The speaker began by saying the plan of a league of nations grew out of an undying hope in the souls of men for a world of justice and concord, and of late this hope had become a clear vision that would not perish. She admitted with regret that the fears of European nations had resulted in serious compromise of the "fourteen points," she knew that the size of the indemnity that Germany had been called upon to pay was beyond her power, but on the other hand many nationalistic ambitions had been yielded in consideration of this vision of world peace. This had happened in the case of Australia, in the refusal of the conference to permit her to annex certain islands formerly under control of Germany, and in the case of Japan who was not permitted to annex Shantung, but was allowed only a mandator over the region. Miss Tarbell felt that the league cannot be supported by the league. She felt it must be enforced by the league. She many of the provisions of the treaty held that the Monroe doctrine is safe, as the principle contained in it is in the league covenant, the covenant merely extending that doctrine to the rest of the world. The league, said the speaker, is already in operation, a going concern, and yet our nation is not in it. This condition ought to be remedied.

Miss Tarbell is well-known as the author of the history of the Standard Oil Company and a remarkable biography of Lincoln, and the people of Wayne, eager to meet her, were not disappointed.

## Honors for E. E. Lackey

A telegram received Monday from President Conn, who has been attending the meeting of presidents of normal schools of the county at Cleveland, Ohio, states that, in a competition among all the normals, Professor E. E. Lackey of Wayne has been adjudged to have furnished the best outline for teaching the principle of geography. Because of its high merit this outline will be printed by the association of normal schools and thus become available for use in all schools of the country. The students and faculty congratulate Professor Lackey on this notable fruition of his long and careful labor. Professor Lackey is joint author with Dean H. H. Hahn of the Hahn-Lackey geography scale that is in use in the schools of many of the largest cities of America.

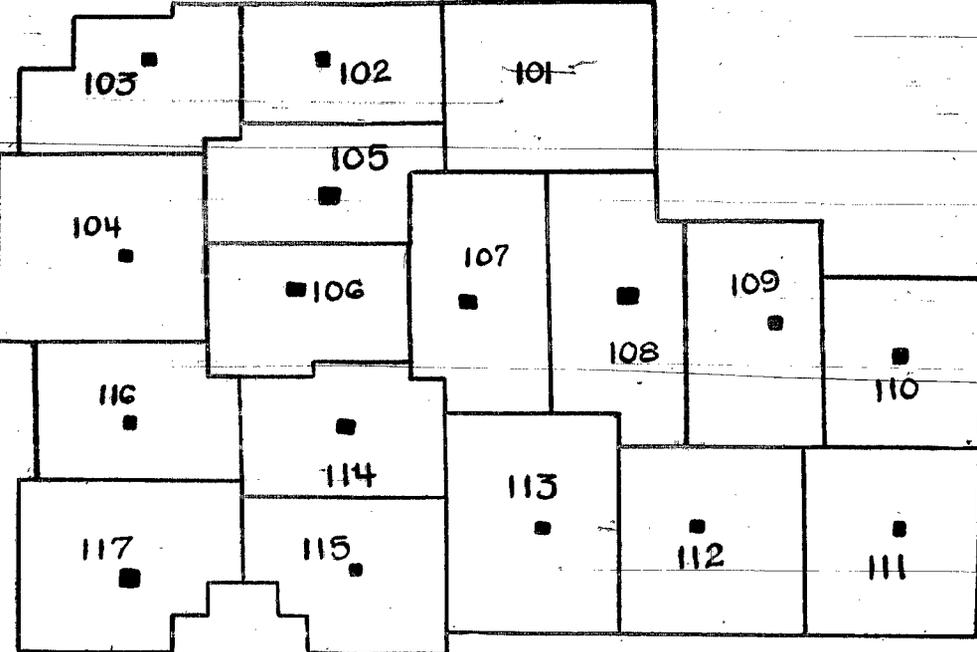

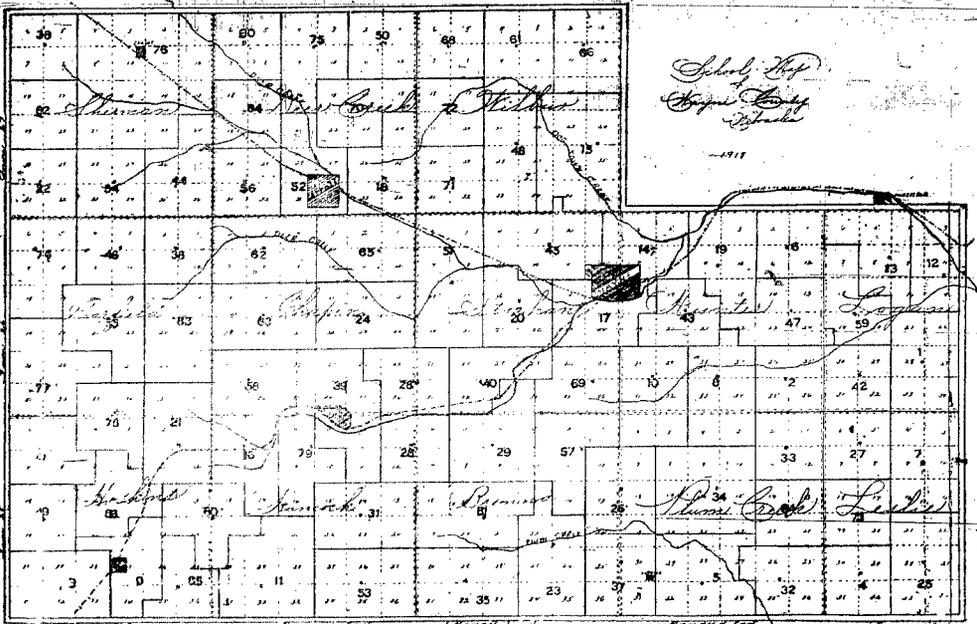

## Basketball Tournament

The Northeast Nebraska High School Basketball Tournament which closed last Saturday afternoon was a well-managed and successful enterprise. The attendance was large, the rivalry intense but not unpleasant, and good feeling prevailed. The referee, P. E. Lloyd of the Y. M. C. A. of Norfolk, was universally regarded as a fair and competent official. The hospitality of the Normal and the city to the visiting teams was appreciated, and it is felt that the total effect was to make many friends for the institution.

## The Teachers' Meeting

The program of the North Nebraska Teachers' Association, which will hold its thirty-fourth session April 1, 2 and 3 in Wayne, is in course of preparation by the executive committee. A letter has been sent out to teachers of this section of the state by the officers of the association which outlines the program. There will be present at the meeting David Snedden, of Teachers College, Columbia University, New York City; Professor Louise Pound, University of Nebraska; and J. H. Beveridge, superintendent of the Omaha public schools. An effort is being made to secure for the general session program a noted authority on rural school problems.

In the schools of the nation, this (Continued on Last Page)

**NEW CUT OF COUNTY NOT QUITE CORRECT**

**Corrections**

The proposed site of district 101 is the present site of district 61, in the southwest quarter of section 10. In proposed district 101, the east half of section 1 and the northeast quarter of section 12, goes to a joint district with Dixon county. In proposed district 112 the southeast quarter of section 36 goes to a joint district with Stanton county. In proposed district 113 the southeast quarter of section 34; the south half of sections 32, 33, 34, and 35; and the southwest quarter of section 36 go to a joint district with Stanton county.

**TO THE SCHOOL ELECTORS OF WAYNE COUNTY:**

The redistricting board of Wayne county, Nebraska submits the above map of proposed districts as provided in Section 4 of Article I of the school laws. Any elector may file written objections to the proposed boundaries and sites with the county superintendent on or before March 6, 1920, at which time the board will take their final action in the matter.

WALTER GAEBLER,  
A. F. REED,  
PEARL E. SEWELL,  
Committee.

While this map is the result of a survey made in compliance with a state law designed to prepare for more efficient consolidation of schools, it does not in any way change the school situation in Wayne county until some proposed district decides by vote or petition to adopt the consolidated system.

But two things are to be determined at this time, viz. boundaries and sites, and general arguments for or against consolidation will not be considered. The committee invites suggestions that will provide better school facilities for Wayne county boys and girls.

A Digest of Nebraska's School Redistricting Law (Senate File No. 261.) Provides for the districting of all

territory in any county of the state into districts for consolidated and high school purposes, and provides for the organizing and operating of the same. Repeals Chapter 229 of Session Laws of 1917, and Sections 1 and 2 of Chapter 121 of Session Laws 1915.

Goes into effect July 19, 1919.

Before August 8 the county board shall appoint two school electors, who with the county superintendent, shall constitute a committee of three to re-district the county.

Before August 13 the county clerk shall certify the two names to county and state superintendent.

Before August 18 the state superintendent shall call a state conference of all such committees for the discussion of principles to be followed in adjusting school boundaries and locating sites. Traveling expenses paid by county represented.

Within ten days after conference adjourns each committee shall meet in the county superintendent's office to establish sites and boundary lines of proposed districts.

Committees shall arrange for joint meetings with committees of adjoining counties.

New districts shall be approximately twenty-five square miles, and, wherever practicable, boundaries shall be on half section lines.

Within ten days after report is completed and new maps prepared, the county superintendent arranges for hearings of objections to the recommended plan.

Committee may then make changes if advisable, and within thirty days shall make final report to the county board.

County board shall record the report of their proceedings.

Within forty days after report is filed with county board 25% of the school electors in any such new district may file written protest with state superintendent, who shall call a meeting at county superintendent's office for hearing, with ten days' notice. State superintendent approves committee report or orders changes, county superintendent then proclaims legally constituted boundaries and school house sites.

The county superintendent, on petition of 25% of the school electors of any new district, orders an election, giving twenty days' notice, for and against the establishment of new district. Local school board shall hold election, using ballot boxes, count the ballots and certify to county clerk within twenty-four hours. Majority of votes cast determines result. If lost, another election shall not be held within twelve months.

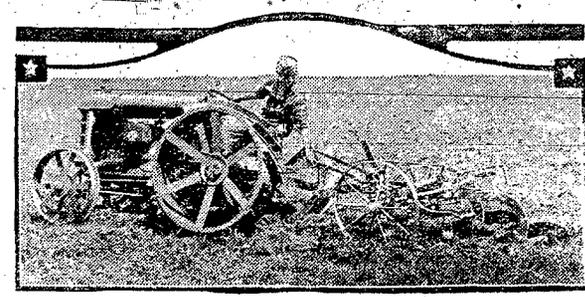

If carried, county superintendent within ten days shall call meeting to elect new school board. Provided that if the proposed new district contains an organized consolidated or high school district, a petition of not less than 51% of the school electors in said new district residing outside of the existing organized consolidated or high school district, filed with the county superintendent, and with the approval of the board of education of said consolidated or high school district, will annex such territory. Parts or fragments of old districts left outside the new districts in the adjustment and operation of this act shall be provided for by the districting committee, which may add temporarily such parts or fragments to other districts.

Boards of Education of such (consolidated high school) districts shall provide for transportation of pupils. Consolidated districts may be formed any time during the year.

Consolidated districts, which provide for comfortable transportation and maintain suitable grounds and a two-room school building and necessary departments and equipment for teaching agriculture and home economics or other industrial and vocational subjects in addition to the regular course of study and employing teachers properly certified to teach said subjects, and where said subjects are a part of the regular course, shall be paid from the state treasury \$100 toward the equipment required, and the further sum of \$150 annually, \$150 toward equipment required, and the further sum of \$200 annually. If a four or more room building is provided, \$250 toward equipment required, and the further sum of \$300 annually.

# A Tractor that Will Fit Your Farm

## THE FORDSON

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns Kerosene, easy to operate and care for—practically trouble proof. We are taking orders now for the Fordson tractor and farm tools. If you want a Fordson tractor for spring plowing don't put it off, but order now. We are not going to get as many tractors as we expected, the factory has cut our orders fifty per cent the demand is so large they wont go round.

Come in and see the Fordson Tractor and talk at our show room.

**Fordson Tractor \$750.00 F. O. B. Factory**  
**Oliver Plow No. 7 \$129.50 F. O. B. Factory**

## Wayne Motor Co.

Phone No. 9 Wayne, Neb.

had never heard of the Chadron Normal. Why this ignorance? Because students in high schools are not given enough information concerning this class of school. After graduation they hasten to the State University for the inspector has done his work well.

As a result of this one-sided method the education in our grade schools suffers a serious loss. Students at Lincoln are not encouraged to take up grade teaching as a profession. This is the duty of the normal's. Hundreds of young men and women desire a college education but the University is beyond their means. In counties where rural and small town teachers are not easily obtained,

third grade certificates and permits must be issued to satisfy the demand. This is especially true in western counties like Brown and Cherry where we find teachers struggling along with little education and no professional training. A knowledge of the advantages offered by a normal summer term would remedy this condition.

Any argument upon this subject would be incomplete unless a remedy were suggested. If the state assumed control of high school inspection instead of leaving it in the hands of a few men at Lincoln, there would be at least three beneficial results. The state inspector would be unbiased; he would advise with high school stu-

dents concerning the course offered by normals; and more bright young people would come to the normals and the smaller colleges.

Having the interests of all the state educational institutions in mind, the inspector would not "boost" the University to the detriment of other schools. High school graduates would be advised as to the advantages offered at the state normal schools and as a result more bright and interested young people would undertake professional training preparatory to grade teaching. It is time for our state educational department to awaken to these conditions and to remedy the present defect by a state system of inspection.

## The World Is Now Being Revised

Revision, Rehabilitation and Reconstruction are going forward in every Industrial, Professional, Social and Political field—in every Art and in every Science. The World has a new vision of Democracy. Thoughts that we thought up to mid-summer of 1914 we can think no more. The very facts on which our thinking was based are altered.

# NELSON'S

*Perpetual Loose-Leaf*

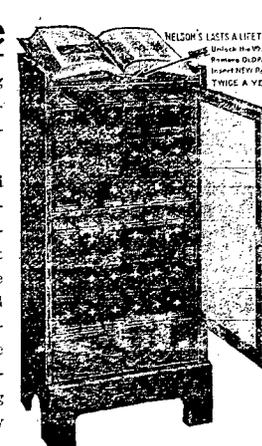

# ENCYCLOPAEDIA

& Research Bureau for Special Information

### Down to Date

In these unusual times, teeming with stirring events, an Extraordinary Encyclopaedia is an absolute necessity.

American enterprise has solved the problem by making a loose-leaf Encyclopaedia that is perpetually new, containing material that is found in no other Reference Work, as, for example, the splendid new article on Aeronautics prepared under the direction of the Aero Club of America and including details of the record-making feats of the NC-4, Vickers-Vimy and R-34.

### Down to Date

The war is now history. Nations are being remade. You must keep in step with the world today. All old fashioned reference works have been simply marking time during the greatest years in history. Nelson's changes with the changing world.

**ALWAYS NEW**—Every six months all subscribers to NELSON'S receive their renewal pages—250 or more—between 500 and 700 pages each year. These include over 2,000 changes and keep NELSON'S perpetually accurate and up-to-date.

### Nelson's Loose-Leaf—the One Encyclopaedia of Today

Nelson's Reading and Study Courses in United States History, The World War, Business Economics, Nature Study, Agriculture, and Home Economics are declared by educational authorities to be equal to a college course and training in each of these departments. By their use a boy can remain on the farm and yet receive all the advantages of a college course in Scientific Farming; a girl may have the services of the leading authorities on household economics, without leaving her home; while the professional and business man may receive a business training superior to that which can be obtained from any of the widely advertised business institutes.

**EXCHANGE** Send for price list giving amounts allowed for old Encyclopaedias to apply as part payment on a new Nelson's Perpetual Loose-Leaf Encyclopaedia.

**STATE INSPECTION OF HIGH SCHOOLS**  
(From the Goldenrod.)

Our attention of late has been drawn to a number of serious defects in our present educational system. New methods of teaching are being introduced; modern text books are replacing the old ones; and greater conveniences are made possible in many schools. There is, however, one fault which has not yet received the consideration which it should be given—the inspection of our high schools.

At this time, the University of Nebraska sends out the only inspector who visits the high schools of the state. For several reasons this plan is injurious to the educational system of Nebraska; namely: the normal schools are neglected; the inspector "boosts" the University; and this method results in a serious loss to our system of education.

The present inspector is hired and his expenses are paid by the University at Lincoln. He would be a loyal and unprofitable to his employ-

ers did he not exert himself to the utmost in bringing new students to Lincoln. The educational system of Nebraska is for the benefit of all the people and all the schools, yet a single institution employs the only inspector who visits our high schools.

By this method the normal schools are very likely to be neglected. Not more than fifty per cent of the high school graduates know that there is a normal at Wayne. Perhaps more know about Peru and Kearney, but I have met young people at college who

finest imported and American woolens, together with authoritative style-plates originated by the designers for

### *F. J. Price & Co.* TAILORING

Men and young men who require absolutely correct tailoring—to individual order—and unquestionable quality of all materials entering into the making, will see in this showing a striking demonstration of the economic advantages resulting from superior purchasing power and concentration of effort in one vast organization of highly skilled designers and tailors.

*We shall welcome the opportunity to present the new woolens, styles and values for your personal criticism.*

Quality and style that inspire the question—

### *Whose Your Tailor?*

#### THE CONSTITUTIONAL CONVENTION GRINDING

J. G. W. Lewis was home from Lincoln over Sunday, and he reports that it will be at least two weeks before their work will be completed. In conversation about the convention and its work he said that the body was not properly balanced, in his opinion. Too many lawyers and too many farmers. He said this without intention to cast any reflections on those of either calling—but the two classes make up about two-thirds of the membership for business men, mechanics, teachers, preachers and all other classes combined. The lawyer bunch are not progressive in any sense as a whole. They appear not to look to future needs. The farmers are divided—but as a

rule are not progressive. And in his opinion the man apparently most feared by the most conservative element seems to have been instrumental in putting to sleep some very good progressive measures. As a whole, in the opinion of Mr. Lewis, the result of their work will be slightly progressive. No reactionary measure is going to get through in his judgment and there will be some things bettered. When asked as to the provision likely to be made for the people to own, control and develop the water-power for the benefit of the people, he said that matter had not yet been reported from the committee, but a member of the committee had assured him that the report to come from them would be favorable for such development. He had attended an open meeting of the committee addressed

by Mr. Howells of Omaha, who has long made a study of the conservation for the people of water and other natural resources, and his advice was for provision to make the constitution so that such matters could be handled by districts. When the body was accused of not having done much yet, he told the story of the Irishman who had been given what he supposed was a parrot, which was really an owl, when asked if his bird was talking any, replied: "No, not yet, but I can see by his looks that he is thinking a great deal." Mr. Lewis was not talking for publication, that we know of—but he was talking, and the writer was listening—and if he thinks we have in manner misquoted or given a wrong impression, we will be glad indeed to set the matter right.

The matter of making or amending a constitution is a great work and if we do not all get what we thought we wanted, let's select the best that is offered when it comes to the people and put it on and wear it—patching it from time to time as occasion requires—though we did hope for a complete new suit big enough for such a lusty commonwealth as Nebraska has grown to be in a half century of statehood. "We do hope, however, the work at Lincoln will leave the matter in such shape that a patch may be applied easier in the future than in the past. The amending of the constitution in this state in the past has been a tiresome, difficult and tedious ceremony. The will of the people should be given a shorter and better way of being placed on the law books of the state.

#### CARROLL EXTENDS PAVING DISTRICT

At their meeting last week, we are told, the village board of Carroll let contract for eight additional blocks of paving, making a total of about one mile in that place. This will include a number of the residence streets in the paved district. The Nebraska Workman for February has a well written article by the grand master workman, John Stevens, telling of the "Outwitting Old Man Toil." We hope that every member of that order will read the story and loan his paper to some friend. We may be able to use it a little later in the Democrat, as it does not seem to be copyrighted. See the Democrat for sale bills.

#### A BLANK FAILURE

We once knew a newspaper man, a good printer who had the old-time printshop appetite for that which stimulates developed to the third degree. After a time he went to a neighboring town and started a paper called the Enterprise—but it was not a successful one, and he was willing to tell of it when feeling about the right of "kick" from what he had taken as a "d—m failure." So it was with the little effort we made to get an expression from our readers on a little ballot which we inserted in the Democrat two weeks ago. We admit that it did not land in a very good position, and there seemed to be too much flu—too much social, too busy for it to get much attention. But we are now going to tell the result—for the primary election call has been called and that may awaken some candidates, or some citizens who have favorites. Hoover was choice for president on the first ballot received, and he had a majority of the vote. For congressman in this district J. G. W. Lewis and J. H. Kemp received vote, A. M. Sheldon was a favorite for governor and so was Mr. Shumway from the west part of the state. Phillip H. Kohl was one of the men suggested for state senator, and Chas. Graf and H. E. Siman others. O. R. Bowen and Charlotte White received each a vote for the legislature. For mayor, Chas. Carhart and Eugene Huse. We wish more people had taken interest enough to suggest candidates but it seems that they did not. The Democrat will be glad to present any names suggested at any time before the filing date is passed, which will be about three weeks yet.

The Nebraska University is now talking of establishing a department of journalism. They well might do that, in fact there is no profession where a thorough training could be given which would be more to the credit of the state and nation. The average newspaper man of this country though all the years appears to have been born, rather than made. And while the university cannot make a journalist, they might help some in developing quickly and better the natural journalist. The school of hard knocks will develop if the victim lives long enough and has the fortitude to stay with the game.

Yes these are hard times. We throw away ashes and buy soap. We raise dogs and buy hogs. We grow weeds and buy vegetables and brooms. We build school houses and send our children to be educated away from home. And at last we send our boys out with a \$40 gun and \$12 dog to hunt 10 cent game.

### AT THE Crystal THEATRE

E. GAILEY, Manager

Office in Mellor Block  
Wayne, Nebraska

**OUR PRIMARY VOTE**  
We have an early primary this  
presidential year, and being a be-  
liever in the rule of the people, the  
Democrat proposes to give its readers  
an opportunity to express their pref-  
erence for men or women to fill some  
of the various offices. We ask those  
who are of legal voting age to fill  
any or all of the blanks below with  
their choice:  
For President \_\_\_\_\_  
For Congressman Third District \_\_\_\_\_  
For Governor \_\_\_\_\_  
For State Senator \_\_\_\_\_  
For Member of Legislature \_\_\_\_\_  
For City Mayor \_\_\_\_\_

We will prepare a box in which  
you may deposit a vote. This box  
will be opened Wednesday and the  
contents arranged for publication,  
thus giving people an opportunity to  
make public their preference for the  
different offices. In this manner some  
good new names may be presented—  
and perhaps a good officer selected.  
Any who wish may place their name  
on the ballot so that we may know  
who voted. We would like it much if  
women voting would mark their bal-  
lot to indicate that fact.

**Hudson**  
**Super**  
**Six**

**Hudson Also Supreme**  
**in Distinction**

The Super-Six Has Always Been the Pattern  
Car. Its Exclusive Motor for Five Years Has  
Given It Mastery in Performance and Endurance

It was never sought to develop the Hudson Su-  
per-Six as the greatest speed and power car in the  
world.

It is true that in speed—in hill-climbing—in  
quick acceleration—no stock car ever matched it.  
Official records show that. But they are incidental.  
They were made in tests to prove Hudson endur-  
ance.

Surely these great performance qualities are  
enough to account for Hudson's five years of lead-  
ership as the largest selling fine car in the world.  
Any owner would take pride in a car that none has  
equalled in any worthwhile performance record.

Yet a large class of Hudson buyers selected it  
for an altogether different quality.

**A Distinctive Design**  
**An Exclusive Motor**

Thousands chose it with an eye single to its  
beauty, charm and notable appearance. They hold  
none can surpass it in distinction. For the Hudson  
looks its supremacy in every line.

But it is idle to think that those who primarily  
seek fine appearance in a car, do not value the me-  
chanical superiority of the Hudson Super-Six.

Granted you will never require such great speed,  
yet Hudson's capacity means less than half load in  
ordinary driving. It insures absolute freedom from  
strain.

That extra reserve power means much on hills.  
It means much in flexibility and in quick response.  
It saves much changing of gears. It means utter

smoothness—due to less vibration, than any other  
type ever achieved.

That, too, is a matter of record. The official  
proofs are open to all.

**Perfected Mechanism Makes**  
**Such Luxury Possible**

In the exclusive Super-Six motor—vibration is  
reduced almost to nil. Motor efficiency is increas-  
ed 80 percent. Motor power is increased 72 percent,  
without added size or cylinders. Endurance is al-  
most doubled. The Super-Six principle would add  
these advantages to any conventional type, six-cylin-  
der motor. But no other can use it.

Its type gives Hudson every advantage. Why  
accept a lesser car?

You will find in the Hudson all the beauty and  
luxury that imagination and skilled workmanship  
can create.

**See How It Leads**  
**All Fine Cars**

Note how it predominates wherever fine cars  
are seen. Outside of the clubs, the opera, the thea-  
tre; in the fine residence streets and on fashionable  
boulevards observe how it outnumbers two, three and  
even four to one, any other make of fine car.

The supply of Hudsons has never been suffic-  
ient for the demand. Thousands have waited months  
for certain wanted models. You can insure yourself  
against disappointment in delivery only by placing  
your order well ahead of the time you will require  
it.

Phone 152

**WRIGHT'S GARAGE**

Wayne

**Carrying a Ton a Mile**  
**for less than a Cent**

Freight rates have played a very small part  
in the rising cost of living.

Other causes—the waste of war, under-pro-  
duction, credit inflation—have added dollars  
to the cost of the necessities of life, while  
freight charges have added only cents.

The average charge for hauling a ton  
of freight a mile is less than a cent.

A suit of clothing that sold for \$30  
before the war was carried 2,265  
miles by rail from Chicago to Los  
Angeles for 16½ cents.

Now the freight charge is 22 cents  
and the suit sells for \$50.

The cost of the suit has increased 20 dollars.

The freight on it has increased only 5½ cents.

Other transportation charges enter into  
the cost of the finished article—carrying the wool  
to the mills and the cloth to the tailors—but  
these other charges amount to but a few cents  
more.

The \$10 pair of shoes that used to  
sell for \$5 goes from the New Eng-  
land factory to the Florida dealer for  
a freight charge of 5½ cents—only  
one cent more than the pre-war rate.

Beef pays only two-thirds of a cent  
a pound freight from Chicago to  
New York.

American freight rates are the low-  
est in the world.

**JUST JOKING**  
**PRINTER IS SEEKING A JOB**

In a certain town in southwest Mis-  
souri a newspaper office received an  
order for some sale bills from a  
prominent farmer living near Sike  
and the work was promised for June  
30th. June 30th being the day be-  
fore the prolonged draught, the prin-  
ter decided he would take one shot  
out off (hootch) in honor of the oc-  
casion. One glass brought company  
and the wine flowed freely for many  
moments. Suddenly the printer tho't  
of his public sale bill job he had  
promised for that day. He hastened  
to the printery and set type with both  
hands, his legs felt slightly wobbly  
but his head was as clear as a bell.  
He set the job, read the proof and  
printed the bill and wrapped them up  
preparatory to delivery.

The farmer called for his job, paid  
the bill and started tacking up his  
bills.

This is what he found on the bills:  
twenty-five cows broke to work, 11  
head of cultivators coming in soon,  
10 head of shoveling boars with  
scoops by side, 8 piano mares, 120  
rods of canvas belting better than  
new, DeLaval cow with ice cream at-  
tachment, McCormick binder in foal,  
Poland China bob-sled due to farrow  
in April 14 head of chickens with  
grass seed attachments 2 J. I. Case  
riding helpers, good as new spraying  
outfit can be ridden by children, 15  
billy goats 90 bushel capacity with  
spraying nozzels and other attach-  
ments and many other articles too nu-  
merous to mention which I expect to  
get at night between now and the date  
of sale.

cates; but Bryan is not advocating Hoover. In fact he seems to class Hoover with the Parker candidacy of 1904 when Wall street captured the democratic convention and named the candidate and then deserted him in the last of the campaign and bought Roosevelt as the better buy of the two for them.

#### FATHER IS IN BAD

Youngtown Telegram: There was great excitement of the little man who approached a saleslady in a local store the other day and sputtered:

"Say, y-you got me in a dickens of a pickle, you did!"

"I dont understand," the girl replied.

"You remember when I came here to pick out a silk dress for my wife, don't you?"

"Yes."

And you remember we asked the assistance of the lady who was buying the middy skirt for her little girl—"

"W-w-well, you got the packages mixed, that's what you did, and I took that little middy skirt home to my wife."

"Oh, well, that's too bad. I am sorry, but of course, we can fix that all right."

"I can exchange the little middy skirt."

"I know you can, but that isn't the trouble."

"Well what is the trouble?"

"My wife opened the package while I was away, thought it was the latest style from the city and wore the blooming thing to prayer meeting."

#### PRIMARY ELECTION

Notice is hereby given that on Tuesday, the 20th day of April, A. D. 1920, at the regular polling places in each precinct of the county, a primary election will be held to express a preference for a candidate for each of the political parties for President of the United States.

Vice President of the United States. Also for the election of four delegates at large and two from this the third congressional district to the National Convention of the respective political parties, and for the election of a like number of alternates.

Also for the election of one National Committeeman for each of the political parties.

For the non-partisan nomination of two candidates for Chief Justice of the Supreme Court.

For the non-partisan nomination of two candidates for Judge of the Supreme Court to fill vacancy.

For the nomination by each political party of one candidate for Congressman for the third Congressional District.

State Senator for the Seventh Senatorial District.

State Representative for the Twentieth Representative District.

Governor.

Lieutenant Governor.

Secretary of State.

Auditor of Public Accounts.

State Treasurer.

Attorney General.

Commissioner of Public Lands and Buildings.

Railway Commissioner, Railway Commissioner to fill vacancy.

Clerk of the District Court.

County Assessor.

County Surveyor to fill vacancy.

County Commissioner for the Second Commissioner District.

For the non-partisan nomination of four candidates for Regents of the State University.

For the non-partisan nomination of two candidates for State Superintendent of Public Instruction.

For the non-partisan nomination of four candidates from the Ninth Judicial District, for Judges of the District Court.

For the non-partisan nomination of two candidates for County Judge.

Also for the election by each of the political parties of Delegates to the County Convention by precincts.

Also for the election by each of the political parties of two members of the County Central Committee from each precinct, one man and one woman.

For the nomination by each political party of one candidate for Police Magistrate for the City of Wayne.

Which primary will be open at eight o'clock in the morning and will continue open until eight o'clock in the evening of the same day.

In testimony whereof, I have hereunto set my hand and seal this 21st day of February, A. D. 1920.

(Seal) CHAS. W. REYNOLDS, County Clerk. F26 to M18

#### WHO CAN ANSWER TRUE?

Here are ten simple questions. Most any grammar school pupil could answer them without hesitancy. But how about citizens—baker and baker and candlestick-maker? How many of them can the reader, for instance, answer right now?

1. How does a bill become a law?
2. Who is the president of the United States senate?
3. What is the subject matter of the fifteenth amendment to the constitution?
4. In whom is the judicial power of the United States invested?
5. Quote the preamble to the constitution.
6. How long must a foreigner reside in this country before he may be admitted to citizenship?
7. For how long a term is a United States senator elected?
8. What are the qualifications necessary for membership in the house of representatives?
9. May a man born without the limits of the United States be elected to the United States senate?
10. In which branch of congress do all bills for raising revenue originate?

Go to it! But be honest with your-

self. If you have forgotten the answers, or if you never knew them, ask your Boy Scout son—and go easy on "those ignorant foreigners!"

#### WHAT HOOVER STANDS FOR

New York, Feb. 18.—Herbert Hoover made known his attitude on several national and international questions in a speech before the American Institute of Mining and Metallurgical Engineers of which he was unanimously elected president. He declared for:

Prompt ratification of the peace treaty.

Establishment of a federal budget system.

Right of employes to bargain collectively.

Retention of a large merchant fleet to protect American overseas commerce.

Regarding return of the railways to private control, Hoover said it "places predominate private operation upon its final trial."

Hoover said there was little danger of radicalism over controlling this country because of the large farmer population.

Some of his declarations sound much like those Mr. Bryan advo-

LOCAL AND PERSONAL

Wayne and Wakefield play basketball this evening.

Fortner has the best of grass seeds—alfalfa, clover and lawn grasses.—adv

For Sale—Steel cot and mattress, practically new, enquire at this office.

Everybody is going to Hurstad's store for Tip-Top bread. The best in town.—adv

The Democrat is in need of a good printer-operator. If you want a place, call by phone or wire. Man or woman.

C. A. Chace is spending his days at home just now, because of a little sickness, from which he is improving daily.

The Farmers' Co-Operative Elevator, phone 39 still have some of that good flour in stock which we can sell at a low price. Ask about it.—adv

For Sale—Trap drummer outfit, including set of Deagan round-top orchestra bells, with rack. If interested, see Geo. Crellin, at Democrat office, Wayne.—adv

We have a line of good axle grease, and with each 50-pound pail we give purchaser a quart of separator oil. Come in and try it. Farmers' Co-Operative Elevator.—adv

Mr. and Mrs. A. F. Gulliver have the sympathy of their many friends and neighbors in the loss of their little one who came to their home and stayed but a short time before passing away.

Mrs. J. T. House and daughter, Mary, were at Sioux City Tuesday, going to listen to the playing of the famous pianist, Godowsky, and they report that it was a wonderful musical treat.

Our report of the basketball tournament at Wayne last week, is side-tracked for unavoidable reasons. It was a splendid gathering, and we were indeed sorry not to be able to make a full report in this issue.

Mrs. M. T. Munsinger left Tuesday for her home at North Platte after a week's stay with her son, Joe Munsinger. She was called by the illness of their little child, and now that he is on the way to recovery she returns.

Geo. Van Norman returned home Tuesday evening from Moxie, Iowa, where he was called to attend the funeral of an uncle, James Eldridge. Deceased was an old soldier, and he was given a military burial, the mem-

bers of the American Legion of that place taking charge of the service, which was very impressive.

The flu is subsiding—and many who have been kept in are venturing out into the sunshine a little today. The weather man has been pretty busy the past week. He has sent the wind clear round the circle every twenty-four hours, and sent a bit of snow each day, and the minimum amount of sunshine. Today is clear and cool.

The ladies of the Presbyterian Aid society will hold a bazaar and food sale on Saturday, March 6, at Miss McCreary's millinery store. The sale will begin at 1:30 p. m. There will be aprons of all kinds and sizes and other articles for sale also a full line of pies, cakes, bread and butter, cream, chickens, and canned fruit of all kinds. Ladies who have their aprons done can leave them with Mrs. J. J. Williams or at the millinery store at any time.—adv

Frank Gamble is at Omaha this week attending the doings of the Merchant Market week at that place. There is one thing about that week we cannot exactly understand—and that is by what authority they use the mails in advertising the lottery they have a habit of running in connection with their show. Both state and postal laws seem to be disregarded in the matter of bestowing prizes. Because this criticism happens to be hitched on to the local about Mr. Gamble's going, do not mix him up with the lottery, for that does not appeal to him. He goes for business reasons.

There was a Y. M. C. A. drive meeting at Wayne last evening—two of the drivers from Omaha being present, and a supper was spread at the Boyd in their honor. We have not learned with what success they met; but hope it was what they might reasonably from a community as wealthy as Wayne, where we have plenty of fellows able to make up the entire quota, if we may believe all we hear, and if they would let the other fellow measure their donation, it would be easy. But the move seemed to start right for it is said the stomach route is the shortest cut to a man's heart—and their heart is apt to be closed to their wad.

C. A. Hackett, of Bloomfield was in Wayne Tuesday, on his way home from a trip to Illinois.

Coming! March 4 to 13, shoe sale at Hurstad's. We must make room for spring stock.—adv

# The Protection of a Boot— The Comfort of a Shoe

A miner's rubber shoe that farmers everywhere are wearing

IN the wettest weather—over the muddiest ground—you can keep your feet as dry as in boots—and yet have all the lightweight comfort of a leather shoe.

Farmers everywhere are strong for the new U. S. Bootee—a water-tight, lace rubber shoe that is just the thing for everyday service around the farm.

It was designed especially for miners, who must have a waterproof shoe that will not tire their feet. So the U. S. Bootee was made to withstand the roughest wear—absolutely water-tight—and yet light and comfortable.

Today it's fast becoming popular all over the country—with farmers and all men who have to work much out-of-doors. Worn right over your sock like an ordinary shoe, the U. S. Bootee gives perfect protection always—whatever job you have on hand.

Its light weight and its smooth, easy fit will give you a new idea of real comfort in rubber footwear. Ask your dealer today to show you a pair of the new U. S. Bootees. Look over the rest of his U. S. line

—boots, arctics, rubbers—whichever you need. Tough, heavy soles—special reinforcements at toe and heel—and always the highest quality rubber—these points are winning U. S. rubber footwear thousands of new friends every year.

Ask for U. S. rubber footwear—it means solid wear and long service for your money.

"U. S." Boots—Reinforced where the wear is hardest. Made in all sizes and styles—Short, Storm King, Sporting and Hip. In red, black and white.

Ask for "U. S." RUBBER FOOTWEAR

#### WITH THE WAYNE CHURCHES

**The First Presbyterian Church**  
(Rev. J. W. Beard, Minister)  
Morning worship at 10:30. Theme of the morning sermon, "When John Leaves Home."  
Evening worship at 7:30. Theme of the evening sermon, "The Choice of a Life Calling."  
Sunday school at 10:30. Classes for all.  
Christian Endeavor at 6:30. We have one of the very best Christian Endeavor societies in the state. You young people will enjoy the spirit of fellowship found here.  
A home church, with a real home welcome for all who come!

**First Baptist Church**  
(Robert H. Pratt, S. T. M. Minister)  
The Ladies' Mission Circle will meet at the parsonage on Friday, February 27, at 3 p. m. It is hoped that as many as can attend will do so.  
The pastor will be in Omaha Thursday for a training conference of organizers for the new world movement. He will return to Wayne, Friday noon. The pastor has been drafted by telegraph to assist for one week in this work. He asks the indulgence of the church people as they will curtail his calling. If the pastor does not visit you as often as you would like, remember these extra calls on his time. If you have sickness in the home, let him know and he will make an especial effort to call at once.  
On Sunday the regular services will be held as usual. The pastor will preach morning and evening. Your presence at church is an encouragement to him to do his best.

Everybody is going to Hurstad's store for Tip-Top bread. The best in town.—adv

**A STETSON**

ONE of our breezy Spring Stetsons will make you feel brisk and look brisk.

They have a happy, debonair touch that puts a man in tune with the season.

We have a remarkably complete selection this Spring both in Soft Hats and Derbies, either singly or in Matched Pairs.

Particularly attractive is the "Stetsonian"—a soft hat of true distinction.

The Stetson Quality Mark  
in every Stetson Hat.

## Gamble & Senter

Mr. and Mrs. J. H. Miller went to Boone, Iowa, Sunday, to attend the golden wedding anniversary of Mrs. Miller's parents, which was to be observed yesterday, the 25th. Until a few days ago the minister who performed the marriage ceremony a half century ago, was living, and it was planned to have him attend the anniversary, but the reaper came, and he was taken.

Mrs. C. A. Fox went to Randolph Saturday to visit with "Grandma" Fox a few days. Mrs. Fox tells us that this pioneer lady is now ninety-three years of age, and has been quite seriously crippled since last summer when she broke a hip. She is planning to visit Wayne when weather and roads get good in the spring. She has many friends here who will welcome a visit.

LOCAL AND PERSONAL

Miss Sybil Dixon was a Sioux City visitor Monday.

Mrs. E. Morgan of Randolph shopped in Wayne Saturday.

Elizabeth Schrad of Randolph was a Wayne visitor Saturday.

For Sale—Well-located lot 40 x 150—Call owner at Red 271. adv. 2-26-3.

Mrs. Aug. Lohberg went to visit her old farm home at Carroll Monday.

Mrs. Petersen from Winside visited her daughter, Mrs. Chas. Riese Sunday.

Mr. and Mrs. Nick Hansen, from Winside were visiting at Sholes last week.

Wilbur and Orville Meinke spent Saturday in Wayne attending the tournament.

Wm. Sabs returned Saturday from Omaha where he had been with a car of fat cattle.

Miss Margaret Coleman was visiting at Carroll last week with relatives and friends.

Mrs. C. A. Berry went to Fremont Saturday to spend Sunday with relatives in that city.

Mr. and Mrs. A. Hirschman from Bloomfield returned home Monday after a visit with Wayne relatives.

Mr. and Mrs. Evans came over from Emerson Saturday to visit her parents, Mr. and Mrs. John L. Soules.

Mrs. McGregor and her brother, Archie McKay went to St. Edwards Saturday to spend Sunday with home folks.

Mrs. H. Frederick and children from Norfolk were here over Saturday and Sunday visiting at the John Krei home.

Miss Mildred Page, who teaches at Bancroft was visiting here over Sunday visiting her sister, Mrs. Eli Laughlin.

Miss Vina Warner of Randolph spent Saturday in Wayne. She was accompanied by Miss Martha Uhlr who visited the Normal.

Mrs. L. A. Fanske and children went to Sioux City Friday to visit a few days at the home of her parents, Mr. and Mrs. Wells.

Miss Pearl Madden went to Omaha Friday to resume her studies there at the commercial college where she is taking a business course.

Mr. and Mrs. Wm. Nissen left Saturday for their western home near Sterling, Colorado. Carl Carlson of Carroll accompanied them.

Mr. and Mrs. Harry Overrocker from Norfolk were guests at the home of Dr. and Mrs. W. B. Vail Sunday, returning home in the evening.

A. L. Ireland, who settled on the J. C. Forbes farm just north of Wayne, went to his old home at Craig Friday to look after the closing up of some business affairs.

Mr. and Mrs. Henry Kellogg were called to Verdel Friday by news of the death of their little grandchild, at the Fred Kellogg home. The little one was a victim of the flu.

Mrs. Lee James from Carroll was a Wayne visitor last week. She was accompanied by Miss James from Kansas City who is out in this county visiting her brother at Carroll and brother, John at this place.

Mr. and Mrs. W. H. Bradford from Sioux City were visitors at Wayne last week, greeting old friends, for they lived here in the early days of Wayne. They were guests at the homes of W. R. Weber and wife and Dr. and Mrs. E. S. Blair.

Mrs. W. A. Linn and sons, who are visiting relatives and friends in this part of Nebraska, were at Wayne Friday on their way from Hoskins to the Chas. Linn home at Carroll. Their home is in California, and they came east to visit and look after some business matters.

Mrs. Harry Smith came last week from Marshall, Minnesota, where herself and husband had been visiting her brothers. Her grandmother, Mrs. I. D. Henderson came with her and is visiting with her son and family, E. Henderson. Mrs. Smith returned to her home at Laurel Friday.

Quite a number of breeders of the red hogs from this part of the county attended the John Erwin sale at Concord Monday, and we have not learned whether any of his good stock came to Wayne or not. His top was above the \$600 figure, and the average hovered around the \$250 mark.

Mr. and Mrs. E. Davies, who have been making a visit at the home of Mr. and Mrs. Ben Carhart, their daughter, while waiting for the arrival of their goods at Wakefield, where they have recently purchased a home, went to set up housekeeping again. Mrs. Carhart went over to assist in getting settled.

Mr. and Mrs. C. O. Hartman, who visited a few days here last week with her sister, Mrs. Henry Cozoo, left Monday to visit a few days at Norfolk, after which they will move west, having a farm home near Wheatland, Wyoming to which they are going. They have been living in this county, near Carroll.

C. Benshoof of Winside was a Wayne visitor Monday.

Mrs. Gudgel of Sholes was a Wayne visitor Friday afternoon.

Mr. and Mrs. I. C. Trumbauer were visitors at Sioux City Friday.

Phil H. Kohl was here the first of the week for a day or two.

Mr. and Mrs. Earl Merchant and son, Stanley were visitors at Sioux City Friday.

A force of men went to Carroll last week to install an oil station there for the Standard people.

For good building lot, phone the owner at Red 271. Lot 40 x 150. adv. 2-26-3.

Mrs. Nell Eberly went to Bloomfield Tuesday to visit relatives and friends a few days.

Editor Needham of the Bloomfield Monitor was a caller Tuesday morning while on his way to Sioux City.

Mr. and Mrs. D. E. Taylor of Carroll and their little daughter, Lorraine of Carroll were visitors at Sioux City Saturday.

Joe Schon from Sidney came Tuesday to visit Wayne friends and look after business matters in this good part of the state.

A. G. Seastadt of Omaha returned home Saturday after spending three or four weeks at Carroll with his sons, assisting them with some building projects.

Mr. and Mrs. S. E. Auker are home from Denver where they have been spending the winter, and are soon to take possession of the Perry Theobald residence which he purchased last fall.

Clarence Conger, who is in charge of a basket store at Bloomfield, spent Friday afternoon with Wayne relatives and friends. He reported that they have a fine business all the time.

Mrs. L. C. Walling of Laurel, who is a patient at the Wayne hospital, went to her home at Laurel Saturday for a visit with her family. Her sister, Mrs. L. E. Panabaker accompanied her for the trip.

V. L. Dayton and family move to Carroll soon, the place in which they lived since moving from the farm over a year ago, having been sold. Mr. Dayton has a farm near Carroll, and is to occupy the house or at least one of the farm houses.

Mr. and Mrs. C. Banta from Anthon, Iowa, returned home Saturday after spending ten days at Wayne, where they were called because of the serious illness of their son, Meredith Banta, who works the L. M. Owen farm. Pneumonia developed from the flu made it necessary for him to go to the local hospital for treatment. He is recovering nicely.

B. R. Robson, who has been in this vicinity for a number of months, left Monday evening to try his fortune in the west, and was ticketed to Burbank, Washington. He did not make plain just what he expected to do in that land of fruit, but implied that he would stay long enough to know the country a little, and if it suited to purchase some of the land offerings there.

Rev. and Mrs. Wm. Kilburn were called to Allen Tuesday to attend the funeral of the wife of Rev. Williams of that place. Rev. and Mrs. Williams were for a number of years at Wakefield, where he was pastor of the Methodist church, and they have numerous friends at this place who will mourn the death of the good lady and sympathize with the bereaved pastor.

C. A. Anderson, editor of the Wausa Gazette was called to Wayne on a business mission Monday, and finished his work in time to miss the return morning train, and spent the afternoon here as a gentleman of leisure. The Democrat acknowledges a fraternal call. He reports that business is good on the Gazette and help scarce. They have just enough to get past after a fashion, if all stay on the job.

Chas. Fink from San Diego, California, came the last of the week to look after business affairs near Atkinson, was here Monday to say hello to Wm. Kugler, his brother-in-law, and a few other friends. He is much in love with the climate of his southern California home—and thought Nebraska winter made a cool reception for one from a place where the temperature ranges the year round between 65 and 90 degrees.

The Nebraska Press Association begins its annual session at Lincoln today, and the newspaper men are to be the guests of the University. A program of more than usual interest is promised. The scribes are to be shown the city. All of it, is the promise.

Geo. H. Patterson, who has been farming southwest of Wayne for several seasons and at the same time growing a poultry business, is planning to quit farming and give his entire time to the poultry. He will have a sale at the farm Monday, March 8. He breeds and grows a fine strain of White Leghorns, and has been winning prizes and fame where he has shown them. Evidently he is learning that specializing might pay far better than spreading out over too much land.

N. O. Servene was down from his farm near Laurel Monday, and dropped in at the Democrat office to swap stories about land prices here and back in Montgomery county, Iowa, where he formerly lived, and where he still holds a farm waiting for land there to sell for enough to make him acre for acre with what he would have to pay in this good country. We are afraid that the prices here will continue to advance faster than they do there—at least they have been so doing in recent years. His son Frank, drove over with him and greeted a few friends at the Normal.

### COUNTY CENTRAL COMMITTEE MEETING

A meeting of the Democratic County Central Committee is hereby called to convene at the Court House at Wayne, Nebraska, on Saturday, March 6th, 1920 at three o'clock for the purpose of determining the basis of representation from the several precincts to the County Convention, (The basis of representation must be determined in order to get the names of delegates to the County Convention on the April Primary ballots,) and for the purpose of transacting such other business as may rightly come before the meeting.

J. H. KEMP,  
Chairman County Democratic Central Committee.

### TWO KINDS

(By Ella Wheeler Wilcox)  
There are two kinds of people on earth today,  
Just two kinds, of people, no more, I say,

Not the sinner and saint, for 'tis well understood  
That the good are half bad, and the bad are half good,  
Not the rich and the poor, for to count a man's wealth  
You must first know the state of his conscience and health,  
Not the humble and proud, for in life's little span,  
Who puts on vain airs is not counted a man,  
Not the happy and sad, for the swift flying years,  
Bring each man his laughter, and each man his tears.

Not the two kind of people on the earth that I mean,  
Are the people who lift, and the people who lean.

Wherever you go you will find the world's masses,  
Are always divided in just these two classes,  
And oddly enough you will find, too, I ween  
There is only one letter to twenty who lean.

In which class are you? Are you easing the load,  
Of the over-taxed lifter who toils down the road,  
Or are you the leaner, who lets others bear your portion of labor and worry and care?

House for sale, well located. A bargain if taken soon. See D. D. Tobias.

## What Will Farmers Sell?

Any GOOD thing to save money for their patrons. This week it is

### GRIPWELL TIRES and INNER TUBES

These tires come with a 6,000 mile guarantee, and a long line of tests prove them dependable, and priced right. GRIPWELL Inner Tubes are made of pure up-river fine Para rubber, built up layer on layer, cured into one solid unit. They are dense in texture, preventing slow leaks, minimizing punctures and blowouts. The live rubber readily permits vulcanizing and patching repeatedly, and does not become brittle or spongy.

#### CHURCH STATISTICS

People who have been predicting that the world is getting worse, and who think it is getting better may not find any thing as whether it is better or not; but the following will tell how the churches, as measured in membership, are thriving:

The "Year Book of the Churches," which is just off the press, contains some interesting statistics of the religious faiths in the United States. The statistics are retroactive, of course, and show past acquisitions rather than future possibilities. Nevertheless, they make interesting reading, even for those who find any statistics dry. The total growth of all religious bodies last year over 1916, the last year of reliable statistics because of the war disturbance, was 2,861,182. There was an increase of 6,347 church organizations and of 3,519 ministers and pastors. The total number of church organizations now stands at 233,834, with 195,313 ministers, priests and rabbis and lay membership of 44,780,036.

The Roman Catholic membership, that is the baptized communicants, number 17,549,324, approximately three-eighths of the whole church membership. Some interesting features of the figures are the large numbers of adherents of obscure faiths. The two branches of the Mormon church have a combined membership of 494,388. Most people think of the Mormon church as an incident to Salt Lake City. The Russian Orthodox church has 99,681 communicants, though it is seldom mentioned and little known. The adherents of the Jewish faith number only 260,000 memberships in the synagogues. This small number of communicants, compared with the large number of Jews in country, is accounted for on the ground that in most synagogues membership is restricted to the heads of families.

The subdivisions of faith is illustrated by the number of classifica-

tions under general definitions of faith. Thus the Baptists have twenty-one different bodies or branches, standing at the top of the list in subdivisions. The Lutherans come second with twenty bodies. The Methodists are third with seventeen. The Mennonites are runners up for the Methodists, having sixteen different bodies. The Presbyterians have ten subdivisions.

#### NEWS ITEMS FROM OMAHA

The first hogs, cattle and sheep were killed at the new Skinner packing plant last week.

Omaha Elks had to drink sweet cider at the first stag held since the war.

A car to be exhibited at the Omaha auto show here March 1 to 6 will cost \$10,000.

Fifteen Poles who came to Omaha seven years ago have returned to Poland, having amassed fortunes.

Rumor in Omaha has it that the Great Northern, Burlington and Northern Pacific railroads will be blended into transcontinental system.

The Knights of Columbus have a free auto mechanic school in Omaha with over 100 students.

State Cleaners and Dyers, at their convention in Omaha, adopted the slogan, "Make Your Old Clothes Do."

It is at least figured out that the total cost of the war is three hundred and thirty-seven billion dollars. If that is final, we may as well write a check for the sum and have it over with. Figuring the monetary or economic loss of life, that part alone totaled more than thirty-three and one-half millions. Of this sum Russia is said to have had the greatest loss, Germany second and then France, England, Austria-Hungary, Italy, Serbia, Turkey, Rumania, Belgium, United States, Bulgaria, Greece, Portugal and Japan.

See the Democrat for sale bills Read the advertisements.

#### OPEN TRAPPING SEASONS IN NEBRASKA

United States Department of Agriculture farmers' bulletin 1079, "Laws Relating to Fur-Bearing Animals, 1919" gives the following open seasons for Nebraska: Muskrat, opposum, and otter, November 20 to March 20; skunk and raccoon, September 20 to March 20; mink, December 1 to January 31. It is unlawful to destroy muskrat houses on the premises of another. There is no open season for beaver, but if the animals are damaging property a permit to destroy them may be obtained from the chief deputy game and fish commission. There is no closed season for other fur animals; any except beaver may be taken at any time on one's own premises. The Nebraska trapping licenses are as follows: Resident, \$2; nonresident or alien, \$10. It is unlawful to trap on the premises of another without consent of owner.

#### ROAD BUILDERS TO MEET

The third Nebraska road institute will be held at the university of Nebraska the first week in March. All Nebraska engineers, surveyors, draftsmen, highway commissioners, county commissioners or supervisors, road builders, contractors, and others interested in the improvement, construction, and maintenance of Nebraska's public roads and bridges have been invited to attend. Some of the subjects on the program are: Organization of state highway department, bridges, culverts, earth road construction and maintenance, construction and maintenance of permanent improved roads, motor transportation, and inspection of actual work being done in Lancaster county. The main object of the Nebraska road institute is to aid in the dissemination of knowledge of the construction and maintenance of roads and bridges and the materials to be used in their construction. More than 300 persons attended the institute in 1919.

#### THIRTEEN MISTAKES OF LIFE

Judge McCormick, of San Francisco, says there are thirteen fundamental mistakes of life:

1. To attempt to set up your own standards of right and wrong.
2. To try to measure the enjoyment of others by your own.
3. To expect uniformity of opinions in this world.
4. To fail to make allowances for inexperience.
5. To endeavor to mold all dispositions alike.
6. Not to yield to unimportant trifles.
7. To look for perfection in our own actions.
8. To worry ourselves and others about what cannot be remedied.
9. Not to help everybody, wherever, however and whenever we can.
10. To consider anything impossible that we ourselves cannot perform.
11. To believe only what our finite minds can grasp.
12. Not to make allowances for the weaknesses of others.
13. To estimate by some outside quality, when it is that within which makes the man.

A wedding I attended was held in an orchard in apple blossom time. One of the women wore a red shirtwaist. In the midst of the service a bull in a pasture in the next field rushed in at the red shirtwaisted woman, who climbed a tree before the bull arrived. The rest of the party and myself did likewise. The bride's veil fell off, which embarrassed her exceedingly. The shirtwaist was thrown over the fence and the bull subdued, and the wedding continued in peace. The woman hastened home after a new shirtwaist, wearing her husband's frock coat.—Exchange.

#### Replanting Forests.

In England and in Scotland, before the war, were many hunting-ranges and sporting grounds. During the war, however, these were cut down to supply munition factories at home and armies abroad. Never before, it is said, have these countries been so bare of timber as they are at present. But now they are preparing to replant their forests. The old ones were first of all ornamental but incidentally they proved useful. These which they are planting now are to be first of all useful and also, of course, ornamental.

#### BASKETBALL TOURNAMENT

AT LINCOLN MARCH 4, 5, 6  
More than 1500 men are expected to attend the high school basketball

tournament in Lincoln March 4, 5, and 6. P. J. Schlessler, basketball coach at the University of Nebraska says this will be the largest meeting of its kind in the world. Classification of teams into eight divisions will occur February 21, when the state board of control will meet with Coach Schlessler.

An emergency arises; someone reliable is needed immediately. The halls are full of people; the stair is lined with spectators. Why do you not choose one of these who is standing idle in the marketplace? You have not the plea that they were not at hand for here they are before you. To whom do you turn? Why, certainly, to the people who do things. But who does things around this school? My answer is: the busy people. You do not agree? Reflect upon this 'er you answer.

Can't you pick out the names of those who are always ready and willing to aid you efficiently, be the question grave or trifling; they are the enthusiasts, these busy people. Everywhere as in school the busy man is a sure refuge.

Get busy! do your part and you will belong to the worthwhile aristocracy—the busy men.

Fortner is headquarters for cream, and assures every producer a fair test and top price.—adv

Miss Gretha Jurgensen and Miss Frieda Frick from Winside were visiting Wayne friends Wednesday afternoon.

### NOTICE OF CONSIDERATION ON RESOLUTION

Notice is hereby given that the following proposed Resolution is on file in the office of the City Clerk of the City of Wayne, Nebraska, to-wit:

"Whereas, it is deemed necessary and advisable to build and construct a lateral sanitary sewer within the City of Wayne, Nebraska, for the benefit and use of the property lying within the outside boundary lines

hereinafter described.

Now, therefore, be it resolved by the Mayor and Council of the City of Wayne, Nebraska, that the property lying within the following boundary lines to-wit: Commencing at the northeast corner of Block 1, East Addition to the City of Wayne and running thence south along the west line of Dearborn Street and the east line of Dearborn Street produced south to the northwesterly line of the right-of-way of the Chicago, St. Paul, Minneapolis & Omaha Railroad; thence southwesterly along the northwesterly line of the right-of-way of said Railroad to a point 150 feet south of the south line of Fourth Street; thence west along a line 150 feet south of and parallel with the south line of Fourth Street to a point 150 feet east of the east line of Windom Street; thence south along a line 150 feet east of and parallel with the east line of Windom Street 166 feet; thence west 150 feet to the east line of Windom Street; thence north along the materials to be used in their construction are as follows:

The length and size of the said

sewers with their appurtenances and the east line of Windom Street to the south line of 7th Street; thence east along the south line of 7th Street to the place of beginning, be and the same is hereby established and made Sewer District No. 5 in said city.

Be it further resolved that lateral sanitary sewers be constructed to serve said district, the location and terminal points of which are as follows:

Commencing at the manhole on the present sanitary sewer in Third Street midway between Nebraska and Windom Streets and running thence east to a point in Windom Street 33 feet east of the west line of said street; thence north in Windom street to a point in Fourth street 33 feet south of the north line of Fourth street; thence east in Fourth street to its east terminus 23 feet west of the west line of Dearborn street; also a sewer in the alley between Windom and Walnut streets from the sewer to be constructed in Fourth street to its north terminus at a point 30 feet south of the south line of 7th street; also a sewer in the alley between Walnut and Dearborn streets from the sewer to be constructed in Fourth street to its north terminus at a point 30 feet south of the south line of 7th street; also sewers in the east and west alleys in Blocks 1 and 4 of East Addition to the City of Wayne from the sewer to be constructed in the alley between Walnut and Dearborn streets east to their east terminus at points 23 feet west of the east line of Dearborn street.

The method of constructing said sewers shall be the placing in position at the proper depth and grade 8-inch vitrified clay pipe with a sufficient number of 6-inch Ys to serve the property in the district and a sufficient number of brick or concrete manholes and other appurtenances to insure the proper working of the sewers.

4018 lin. ft. 8-inch vitrified clay pipe, including 102 6x8 Y junctions.

2 flush tanks constructed of brick or concrete and cast iron. 80 vertical feet of concrete or brick manholes. 3900 lbs. of cast iron for manhole covers.

The engineer's estimate of the total cost of the construction of said sewers is the sum of \$6,529.16."

All persons interested are hereby notified that said Resolution will be considered by the Mayor and Council of the City of Wayne, Nebraska, at the City Hall in said city on the 10th day of March, 1920, at 8 o'clock p. m. at which time and place all persons interested and all owners of property

which might become subject to assessment for the improvement set forth in said resolution may appear and make objections to said proposed improvement.

By order of the Mayor and Council of the City of Wayne, Nebraska.

Dated this 26th day of February, 1920.  
(Seal) L. W. ROE,  
F26&M4 City Clerk.

Mr. Farmer, we are prepared to clean grain for seeding, at 2c the bushel. Bring in your oats and have them cleaned at the Farmers' Co-operative Elevator.—adv
