

S. TOLEDO SHERRY FILED FOR CONGRESS

S. Toledo Sherry of South Sioux City, now in the Indian service of the government has consented at the request of many friends to make a canvas for the democratic nomination for the congressional nomination for congress from this Third district. In reply to our request for a bit of his life history, that voters may know something of his life, he has sent the following, and promises that he will outline his platform for the next issue, if we wish, for he does not want the voters to fail to know his attitude on questions of the day, though he says that he would feel as a representative that it would be his duty to act in accord with any wish properly expressed by a majority of the voters, rather than from his individual wish on a question. Here is the sketch:

S. Toledo Sherry, of South Sioux City, Dakota county, Nebraska, farmer and educator, democratic candidate for representative in congress from the Third congressional district of Nebraska, is of Irish parentage on his father's side and descended from an old Virginia family on that of his mother.

His greatest asset is his absolute honesty which is of the rugged Abraham Lincoln type.

Like the majority of Nebraska statesmen, he is a citizen from choice and not by accident of birth. Born on a farm in Champ Clark's district in Missouri in 1862, he came to Nebraska in January, 1916, residing at Winnebago, Thurston county, until last June when he moved to South Sioux City, Dakota county. He is known throughout the land on account of his plan for making America a nation of homes. His plan has been considered in Washington as a possible means of stabilizing the government of Russia and the countries of Europe. He has been actively associated with democratic statesmen for a quarter of a century having visited Washington several times and attended the national convention at Chicago, Baltimore and St. Louis. He was a candidate for assistant commissioner of Indian affairs in 1912, having the endorsement of the Montana delegation in Washington in addition to strong support from several other states.

He believes in a business man's administration based on the constitution the Golden Rule, and the application of common sense to the affairs of the nation. He is opposed to compulsory universal military training believing that America should return to the business of producing homes instead of war-time millionaires.

He believes that the producers, especially the farmers, are entitled to a just share of the wealth they produce. And that business must be stabilized and the profiteer eliminated.

ALL SHOT TO PIECES

Complaint comes from citizen of town and country of the street condition at Wayne, owing to the sewer and paving work, and some streets are now in such condition that no traffic cop is needed to stop speeding. But the fact remains that the city administration and the commercial club and the contractor are uniting in effort to make a way into and out of town as easy as possible, and also to provide as best they can for parking cars. When necessary to detour signs will be placed at the proper corners telling where to go. No way has yet been found to pave a street and use it at the same time. Come to Wayne, read the sign boards and you have good chance to get out in safety. More next week.

WHY DIDN'T YOU TAKE A KISS? IS GIRLS TAUNT

The ways of women are illustrated in the picture "In Old Kentucky," featuring Anita Stewart, when the rough mountaineer tries to make love to the little mountain girl. Clumsily he tries to put his arm about her waist, and pleads for a kiss. She eludes him, and after she is at safe distance, taunts him with: "Why didn't you take it. You are big enough." This picture of the life of the mountaineers of old Kentucky and of the city folk with their racing and hunting and night riding for outlaws will be shown at the Crystal Theater on April 8 and 9.

ADVERTISED LETTERS

Wayne, Neb., April 7.—Letters: Mary Admire, County Agent, A. L. Davis, Mrs. A. B. Dickson, A. M. Hughes, Dennis Kellier, Patrick Mahanah, Joe Meyers, Miss Helen Mohr.—C. A. Berry, Postmaster.

THE DECLAMATORY CONTEST

The declamatory contest between the schools of northeast Nebraska at the college auditorium last Thursday evening a splendid audience greeted the contestants, who with their friends were here in numbers from the several schools in this part of the state.

Miss Helen Hille of Besmer won first place in the dramatic contest, reciting "Lasca." Miss Fae Richmond of Bloomfield was first in the humorous class with "The Aspiring Dishwasher," and "Toussant L'Ouverture" won first place in the oratorical contest for Gene Shaffer of St. Edward.

Medals were awarded the winners. Second places were won by: Frederick Nye in the dramatic class. Dorothy Loebe of Osmond with a humorous selection and Verna Rice, Stuart, oratorical.

Other contestants were: Dramatic, Blanche Barada, Walthill; Lillian Paden, Hartington, Humorous; Fern Farrow, Randolph; Norma Dalley, Elgin.

The judges were Miss Lucy Hewitt of the department of expression of the Nebraska University, Miss Martha Dewey of the department of expression of the Wayne State Normal and Prof. I. H. Britell, head of the science department of the Wayne Normal.

L. M. Blankenship of West Point, secretary of the association, presided in the absence of the president, O. A. Wirsig.

THE REPUBLICAN LEAGUE CANDIDATE

Fred L. Crowley, farmer and labor candidate for congress from this district was a Wayne visitor last week, coming over with the senatorial candidate from this district, Mr. Ulrich. He distributed cards and from the story on the back we learn that his is the league platform, and here are some of the things advocated:

They include the exemption of farm improvements from taxation, the state ownership and state operation of packing houses, flour mills, stock yards, creameries, terminal elevators and beet sugar factories insofar as they deem best. Also state ownership of telephone and telegraph lines and government ownership of railroads.

One of their planks is for better rural schools and increase in teachers wages in accord with the importance of their work.

One thing they don't forget to advocate is the privilege of free assembly and free speech, and this boon we presume they ask for others as well as for the league.

Co-operative banks and better credit facilities for farmers and working men, and organization for co-operation of farmers and wage earners. State inspection of dockage and grading of grain and other farm products. State ownership and development of the waterpower of the state, and some few other measures for which more or less people have been contending without definite organization looking to attaining their purpose.

A NEAR FIRE

One day last week the roof of the freight depot was discovered on fire, and John Soules grabbed a teakettle of hot water from Marcus Kroger's stove and got up by the freight car route and extinguished the conflagration before damage was great, demonstrating that the woman who threw a kettle of water away at a fire because the water was hot was not well informed like our citizen. It takes less hot water than cold to put out a fire evidently, else a teakettle of water would not have done the work. A passing engine set the fire.

NEBRASKA PORKERS SELL AT TOP PRICE

Will Harder and Will Blake, well known farmers around Wayne, were represented in live pork receipts at this point the closing day last week, and both were the recipients of the \$15.00 mark, which was the top for the day. Much satisfaction was expressed by the patrons.

The above hogs were sold by C. F. Carroll of the Swanson, Gilmore & Walsh Commission Company.—1

Food Sale and Bazaar

The ladies of the Baptist church invite the hungry and bargain seekers to attend their food sale at the Judson furniture store, Saturday, afternoon, April 17, for all kinds of food, and aprons, dust caps and children's garments. A8 2

MRS. ELLA J. PILE IS CUSTODIAL FARM HEAD

Lincoln, Neb., April 1.—Mrs. Ella J. Pile of Wayne has been appointed by the state board of control as superintendent of the womens custodial farm at York.

Mrs. Pile will take charge of the institution on May 1. She has for some time been a stewardess in the Clayton girls' industrial school at Darlington, Pennsylvania.

The above news will be pleasing to the many Wayne friends of Mrs. Pile, and she has many friends here, for Wayne was her home many years, and with her late husband a splendid work was started for this community as all may see who visit the great state school on the hill.

BUETOW-MATHER

At the home of Mr. and Mrs. W. H. Buetow in this city was a quiet home wedding Saturday afternoon, when their daughter, Gertrude was given in marriage to Mr. Maurice A. Mather of Sioux City, Rev. John Beard, using the impressive ring ceremony, received from them pledges which united the two for life. As the bride and groom waited for the ceremony, Mrs. Beard, accompanied at the piano by Mrs. Carl Lindvall of Ponca, sang, "O Promise Me." Only relatives and a few close friends were present to witness the ceremony and partake of the splendid two-course luncheon which followed the hearty congratulations extended to the happy couple.

The rooms were appropriately decorated, and the bride wore an Alice blue georgette gown and carried a wreath of bride's roses—and her traveling suit was brown from hat to shoes. The groom was attired in black.

Miss Buetow is well and most favorably known to a large circle of friends in this community, which has been her life-home. The groom is an energetic young business man, holding a responsible position at Sioux City, where they will be at home after May 1. During the afternoon following the wedding which was at 1 o'clock the bride and groom were missed, having quietly eluded friends and stepped into a waiting car which took them to a nearby station, where they entered a train bound for Kansas City. May they have a happy life, is the wish of all.

COUNTRY CLUB COMPLETES ORGANIZATION FOR YEAR

At a meeting of the directors of the Wayne Country club held Tuesday evening a complete organization was formed for the year.

The officers elected a week ago are: C. M. Craven, president; John T. Bressler, jr., vice president; R. W. Ley, treasurer, and F. S. Morgan, secretary.

Board of directors for the year are: C. M. Craven, C. H. Fisher, A. T. Cavanaugh, J. W. Jones, F. E. Gamble, J. S. Carhart and J. E. Hufford.

The following committees have been appointed for the year: Ladies Social Committee—Ella K. Morrison, chairman, Mrs. C. H. Fisher and Mrs. H. S. Ringland.

House Committee—A. T. Cavanaugh, chairman, Mrs. J. W. Jones, Mrs. C. M. Craven and Wm. Morris.

Grounds Committee—J. E. Hufford, chairman, J. S. Carhart, H. H. Hahn and J. T. Bressler, jr.

Greens Committee—C. H. Fisher, chairman, J. H. Kemp and F. S. Morgan.

Special Work Committee—J. W. Jones, chairman, J. E. Hufford and C. M. Craven.

The club now has 170 members and is in the strongest condition in its history, and much enthusiasm is being shown for the coming season. Wm. Rice has been engaged as caretaker for the year and J. W. Malley has been engaged as manager and club professional and should arrive about the 15th of this month. The work of seeding greens, planting some more trees and general improvements of the golf course and grounds will begin next Monday.

The club is also to build a new porch for the house, and to equip this porch they will need a lot of porch furniture. If any of the membership find they are long on an old chair or two call A. T. Cavanaugh on the phone and arrangements will be made to get it out of your way.

The Wayne Country club can now boast of being the largest club in any town in Nebraska that is even close to Wayne in size. Norfolk, one of the best small city clubs in the state, has only 140 members so we are told.

THE WORLD INTER-CHURCH MOVEMENT

A county meeting was held at Wayne Tuesday put this great movement before the christian workers of this county at which Rev. Gelsinger and Rev. John Baker, both of Omaha, and Rev. Wm. Jackson and Rev. E. H. King from North Bend were speakers, assisted by local pastors. Rev. Gelsinger made an interesting talk at the high school on "Life Enlistment," and one of the other men spoke at the Normal. The sessions were held at the Baptist church and were full of interest. In the evening a delegation came from Carroll with Rev. Sala, and at their request a part of the evening program was put on for the especial benefit of those young people, Rev. Gelsinger repeating a part of his talk on "Life Enlistment."

This is one of the greatest and perhaps the most practical movement ever made by the church organizations of the world, and gives promise of great results. United efforts should mean much more than the scattered work of so many other years.

WHEAT-FLEETWOOD

A very pretty home wedding took place Tuesday morning when Miss Olive Wheat and Mr. Willis M. Fleetwood were united in marriage at the home of Mr. and Mrs. William E. Melody. American beauties and Easter lilies formed a beautiful setting for the ceremony, which was performed at 10:30 o'clock by the Rev. George Cassidy, of the First Baptist church. The bride was gowned in a traveling costume of blue taffeta and wore a corsage of lilies of the valley. She was unattended. Only immediate relatives of the couple including Mr. and Mrs. John Beal, of Des Moines, were present at the ceremony. Mr. and Mrs. Fleetwood left late in the morning for a short western trip. Both Mr. and Mrs. Fleetwood are prominent in Sioux City music circles, Mrs. Fleetwood being both organist and director of the First Baptist church, and Mr. Fleetwood baritone soloist of the same choir. Mrs. Fleetwood expects to return to Sioux City Saturday to resume her teaching. Mr. Fleetwood will not return to Sioux City until next fall. He will be engaged in land interests away and will also coach with noted eastern voice specialists.—Sioux City Journal.

The groom is well known at Wayne, where he made his boyhood home, the son of Mr. and Mrs. Wm. Fleetwood, now of Sioux City. He served over seas in the hospital corp, and has made his home at Sioux City since his return.

WAYNE VS. OAKLAND HIGH SCHOOL DEBATE

Arrangements are just completed for the first high school debate in which Wayne pupils take a part. Monday evening is the time and the high school auditorium the place. The Wayne team will contend for the affirmative against the Oakland high school team on the question: "Resolved that Congress Should Prohibit Strikes on Railroads Doing an Interstate Business?" Oakland will defend the negative. This promises to be an interesting discussion, and many should hear it—for it is really an important matter for public consideration.

THE CARROLL ELECTION

All-bid fair to be quiet in the village election at Carroll Tuesday until the women decided to take a hand in the game and help run the city. For reasons not given the reporter, a number of citizens including a number of the ladies, came to the conclusion that the caucus had erred in naming E. G. Wessel as one of the members of the board, and decided to offer the name of J. E. Hancock. As a result, Mr. Hancock was elected. About a score of the women voted. Next time they should attend the caucus.

CITY ELECTION

City election was quiet Tuesday, there being no opposition to the nominees. But 14 votes were reported in the First ward, 18 in the Second ward and 12 in the Third. Four women are said to have voted—three in the first and one in the second ward. J. H. Kemp was named as mayor; Geo. Lamberson, city clerk; H. S. Ringland, treasurer; Robert Jones, surveyor; A. R. Davis and C. T. Ingham on the board of education and Wm. Gildersleeve, Chas. Hiscox and L. M. Owen on the council in the respective wards.

MARRIAGE LICENSES ISSUED

Judge Cherry has issued the following permits to wed during the past week:

Oscar Malin to Viola Ikenberger, both of Norfolk, and married by the judge Friday, April 2, 1920.

Maurice A. Mather, Sioux City to Gertrude A. Buetow of this city. Glenn Woods to Gladys Evis Moss, both of Winside, and they were united in marriage Tuesday by Rev. J. Bruce Wylie of Winside. The groom is a son of Mr. and Mrs. Oscar E. Woods of Winside.

Frank Matthes of Altona to Miss Martha Thiles of near Winside, where they were united in marriage Wednesday, April 7, 1920, by Rev. Teckhaus.

Wm. C. Kugler to Amelia Bauer. The groom is a son of Wm. Kugler who lives just across the county line in Pierce county, while the parents of the bride are this side of the line a short distance, and live in Wayne county, due west of Wayne. The marriage was Wednesday, April 7, 1920, by Rev. Spearing of Hoskins.

MOREHEAD'S NAME TO GO ON BALLOT

Lincoln, Neb., April 6.—The Nebraska supreme court ruled last evening that the filing of former Gov. John H. Morehead as a democratic candidate for governor is legal and that his name shall remain on the ballot to be voted at the primary election April 20.

The regularity of Mr. Morehead's petition was attacked by W. M. Maupin, editor of a newspaper at Gering, Nebraska, who brought a mandamus suit to compel Secretary of State Amsberry to notify county clerks to have the name of former governor removed from the ballots.

Mr. Maupin's contention was that Mr. Morehead had failed to comply with the requirements of the primary law within the time limit permitted for the filing of petitions.

MRS. J. W. WINTERSTEIN

In the death of Mrs. Jerome W. Winterstein, who passed away at the home of her son, J. A. Winterstein, near Wayne, on Thursday, April 1, a good woman passed on.

For years Mrs. Winterstein was a resident of this locality, she and her husband living on a farm west of town, later moving to another farm just across the river. They raised a large family, all of whom have gone out into the world and made good.

Augusta A. (Miller) Winterstein, was born in DuPage county, Illinois, October 2, 1847, and at the time of her death had reached the good old age of 72 years, 5 months and 24 days. When ten years of age her parents moved to Cedar county, Iowa, settling near Cedar Rapids. On December 24, 1868, she was united in marriage to J. W. Winterstein. They remained in Iowa until 1872 when they went to Smith Center, Kansas, and took up a homestead. In 1889 they returned to this part of Iowa and it has been their home until last fall when they broke up housekeeping on account of their children all being away. They moved to Nebraska so as to be near them.

The deceased is the eldest of a family of twelve children, all of whom with the exception of one survive. When quite young she united with the Presbyterian church and kept the faith until her death. For many years she was active in all the work of the church, but as old age came she was compelled to give up much of her christian work.

Mr. and Mrs. Winterstein were the parents of seven children, George died in infancy and Mrs. Hattie Spencer passed away about ten years ago. Those who survive are three sons, Joseph E., of Parker, Kansas; J. A. and H. W., of Wayne, Nebraska; two daughters, Mrs. Myrtle Reese of Regent, North Dakota, and Mrs. Irene Surber, of Wayne, Nebraska; the bereaved husband, who was too ill to attend the funeral services; eleven grandchildren; six great-grandchildren, a host of other relatives and friends.

The remains were brought to Griswold Saturday afternoon and the funeral services were held at 2 o'clock in the Presbyterian church, being conducted by Rev. C. Memmott. After the services at the church, which were attended by a great concourse of sympathizing friends, the remains were taken to the Flint cemetery and laid away.

For the many acts of kindness extended the surviving relatives wish to extend their heartfelt thanks.—Griswold American.

A REPORT FROM NORTH NEBRASKA TEACHERS' MEET

(Contributed)

Forenoon Session
The junior and senior high school section of the N. N. T. A. was held in the science building of the Wayne State Normal, Superintendent Brinson of Oakland acting as president.

The meeting was opened by some very fine numbers rendered by the Normal orchestra. C. W. Watson of Lincoln who was to talk on Vocation Agriculture was unable to appear before the meeting. Supt. Nelson of Hartington who was to speak on the Need of Standard Tests and Supt. Smith of Pierce who was to speak on Worth-while Report Cards begged to be left until last, so Dr. Snedden would be sure to have ample time. Because of the lateness of the hour after Dr. Snedden's talk, their talks were omitted entirely.

The general topic of discussion was measurements. Dr. Snedden of New York gave some very fine ideas to those present, a few of which are given below. We have inherited the old idea of making our work meet professional requirements. We have intermediate values, which consist of college entrance requirements, short hand, bookkeeping, typewriting, contested games, supervision of athletics, debating, elocution, and literary societies. Parallel with these values, we have the "Faith" ultimate values, which consist of good citizenship, social efficiency, cultured personality, self realization, mind discipline, leadership, and character formation. We have passed from the former values to the latter values. If we possess any one of the faith values, we possess all. One can get, just as much mind discipline from anything as from Latin or Algebra if they are taught for it.

The one thought of Dr. Snedden's which met with some discussion and disagreement in the afternoon session was on vocational education. Are we going to universalize vocational proficiency? It will be proved in the near future. Public schools were not organized for vocational work. They were organized for culture, character, development, etc., and should remain so in the map. The seven ultimate goals of secondary education are: health, vocation, citizenship, ethical character, good family membership, fundamental tools for learning, and education for leisure. There are many ways in which we want to make our people alike. We want their citizenship to be alike, their English alike, their health alike, etc. No one can be efficient in two things as our ancestors were. One can not be an efficient elementary teacher and an efficient high school teacher at the same time. We must specialize. There is no need to take a little short hand, a little typewriting, a little domestic science, etc. High school folks are destined to be good citizens. Probably they won't be as good citizens as they should. The most single weakness of training for citizenship is failure to understand the economic laws which enter into politics.

Afternoon Session

Messrs Lackey and Coleman favored the afternoon session with a vocal duet.

The general topic of conversation for the afternoon session was The Work of the Class Room. Supt. Tyrell of Laurel talked on Utilizing Subject Matter. He maintains all subject matter can and should be utilized. Latin can be utilized by means of advertisements. Many advertisements contain words which are Latin words. Have the student gather these advertisements. French can be utilized, connect the words up with actual things. For instance French words instead of English words. Home economics can easily be utilized. A long list of various uses of the latens were shown. There seems to be an unlimited number of these. A real problem must be given, and have this worked out.

Supt. Heimund of Tekamah talked on the Adolescent Boy. He has had some valuable experience along this line in his work in the juvenile courts. He said he chose to talk about the boy that is down and out. The agencies of civilization are the home, school, vocation, state, and church. Three bad homes. There are four classes of boys who are down and out—the boy who everyone says is bad; the boy who everybody says is bad and thinks he is bad; the boy who is bad because of home environment; and the boy who is bad in spite of home environment. The boy must have clean entertainment and a well developed play life. Continuous attendance at the movies is one of

E. H. DOTSON
 Eye-sight Specialist

Wayne, Nebraska

Mrs. H. G. Thompson was a passenger to Sioux City Monday morning.

Mrs. P. C. Crockett and daughter, Martha, were passengers to Sioux City Monday morning.

Miss Martha Weber was home from Omaha for Easter at the Weber farm home just south of town.

Miss Helena Baker was home from Rosalea for Easter Sunday with her mother, Mrs. Emma Baker.

Mrs. Jas. M. Gamble went to Thurston Monday morning, planning a fortnight visit with her son at that place.

Mrs. Grace D. Keyser went to Omaha Monday to attend the music teachers' convention in session at that place this week.

Miss Irma James, who teaches at Sioux City, came home to spend Easter with the James family, returning Sunday afternoon.

Mr. and Mrs. P. A. Theobald were passengers to Sioux City Sunday afternoon, going down by train, expecting to return by automobile, if the weather permitted.

A. S. Mitchell was called to Fairfax, South Dakota, Monday to attend the funeral of a friend and relative, Mrs. Chambers, who died quite suddenly at Ponca last week.

Miss Louise Fleming of Pender was a guest of Miss Mabel Gossard while attending the teachers' meeting here the last of the week. She returned to her school work Sunday.

Mr. and Mrs. Thos. D. Sieck from Underwood, Iowa, left for their home Monday morning after a visit here at the home of his mother and brother, Mrs. Kate Sieck and son.

Mr. and Mrs. True Prescott went to Rochester Monday with their daughter, Florence, who is not in the best of health, that the miss might have the benefit of a careful examination and treatment or an operation if needed—a possibility which they hoped would not be necessary.

Mrs. Thomas Hatch and two little sons, who have been spending a week at the H. J. Miner place with her brother-in-law, James Hatch, went to Sioux City Monday morning to visit a few days before returning to their home at Otis, Colorado. Mrs. Hatch was much pleased with this part of Nebraska.

Forty girls will graduate this spring from the Nebraska College and School of Agriculture at Lincoln. Half of the number will have earned the degrees of bachelor of science in home economics. In the opinion of the editor education along such practical lines is the best education the average young woman can receive. It fits for home duties—and home duties to women who are qualified is where the greatest enjoyment of life may come to women, and where the greatest service to the human family may be given. Yet, if this knowledge is given to those who do not wish to use it exclusively in the home it is a necessary step in education and may be used in teaching, nursing or other callings.

I. P. Lowry was at his home at Sioux City over Sunday, returning Monday morning.

Wm. Gibson from Randolph, who is in the land business selling Colorado lands, was a caller Monday.

Guy Briggs of Omaha was a Wayne visitor last week, a guest at the home of Mr. and Mrs. Henry Korff.

Joe Munsinger and family spent the Easter Sunday with her parents at Dakota City, returning Monday morning.

Mrs. Joe Myer and daughter, Miss Doris, were passengers to Omaha Friday morning, going to spend Easter in that city.

Miss Bessie Durrie, who has been assisting at the Orr & Orr store for several weeks, returned to her home at Laurel Monday.

B. W. Wright went to Sioux City Monday morning to ride back in a new Essex, and perhaps have a second one of those cars driven out.

Many a fellow is kicking now because this April weather is calling for more coal than January days. And just when it is due to give the ice man his inning.

Mr. and Mrs. R. A. Dawson from Brunswick, where they are teaching, were here to attend the teachers' meeting, and visit her parents, Mr. and Mrs. Herman Mildner.

Mrs. A. J. Lynch from Carroll spent Easter Sunday with her parents, Mr. and Mrs. C. J. Pawelski, returning home Monday. She was accompanied by Mrs. C. M. Lynch also of Carroll.

Misses Lynette and Irma Rennieck went to Pilger Saturday for the week end at the home of their uncle, James Rennieck and family. They tell us that Mr. Rennieck has purchased a Wayne residence property, and will soon become a citizen here, because of the school advantages.

Nels Nelson from Sioux City was here the first of the week on his way to Cheyenne county to close up a deal for land he disposed of there last season, about which there had been some delay, caused by the inability of some one along down the line of transfers leading up to the Nelson deal not being able to promptly come across, making the delay.

C. W. Weeces went to Princeton, Illinois, last Friday, his old home, and informs us that as he has sold his Wayne residence and must hunt a new home he finds that he purchased for less money and for what seems to him better advantages there than here. Thus we are liable to lose a good citizen because of the high cost of residence property at Wayne.

Mr. and Mrs. George Heady came out from Sioux City Monday evening for a day or two with friends here, and to look after their property. From here they went to Hartington, where Mrs. Heady expects to remain a few weeks to assist in the care of her father. They have spent the winter months at Sioux City, having rooms at the home of their daughter.

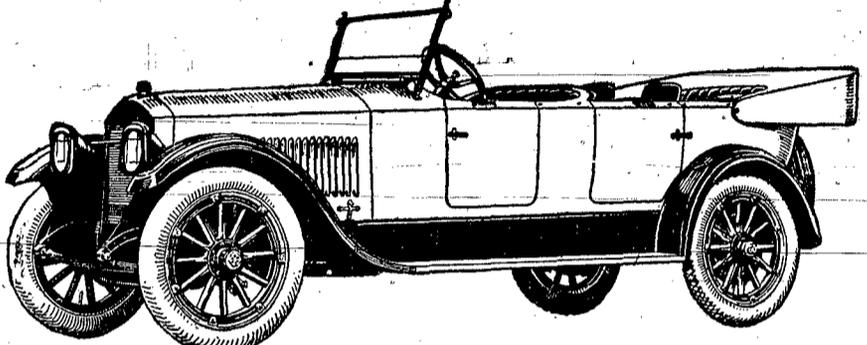

Mrs. W. T. Evans of Carroll was here Saturday morning on her way to Merville, Iowa, to visit her brother, Wat Williams, who is visiting at that place and who is said to be ill there. Mr. and Mrs. Williams were planning to visit among their many friends here, and then go to California, and all hope that he will be able to come here shortly and then eventually continue his journey.

C. Clasen sold four College addition lots to B. W. Wright last week, closing out his wayne holdings. Last week he sold his residence property to Mr. Wright—and this week Mr. Clasen and family moved to Norfolk, where he has purchased an interest in a planing mill and sash and door factory, and has also purchased a home there. Mr. Clasen and family have been residents of Wayne for the past ten years, and he has always been an active business factor in his line of contractor and builder. Himself and wife have also been active in church, lodge and social circles, and will be missed when they are gone.

Dan McManigal has been entertaining his brother-in-law, Noble Belcher, of Irontown, Lawrence county, Ohio, who came last week to visit his sister, Mrs. McManigal and relatives in northeastern Kansas. This is his first visit to the great prairie states, and it is quite a change to him from the timber clad and rock covered hills of his native land. He is coming back again after a few days visit in Kansas, when Mr. McManigal will take him out to the Wayne county farms and show him what this country is really like. Uncle Dan has a friend back in Ohio, whom he has frequently invited to come and see what a prairie country is like, and he is suspicious that this friend has sent this brother-in-law out to learn from a dependable source whether or not Mr. McManigal has not been telling his Nebraska farm stories a little large. Those who know this country and who also know the Ohio hills just north of that river can easily understand how one who has always lived in that country can hardly comprehend this land with its wide acres of prairie, rich and fertile.

The
Series 20 Cars Perpetuate The
Studebaker

Reputation which, for sixty-eight years, has stood for high quality, honest dealing and fair prices. They are the creation of the Studebaker organization of competent engineering and manufacturing experts, and are produced in large, modern plants unexcelled in the industry. Fundamentally sound engineering principles are incorporated in their design, and resourceful, ripened experience guides their manufacture.

Studebaker's reputation precludes the building of cheap cars or the making of substitutions to lower cost, and, therefore, these cars contain none but the finest materials, including the best-known grades of steel, leather, upholstery, finishing paints, tires and accessories.

Goodrich Cord Tires and Tubes

 WAYNE, NEB.
 PHONE 101

LOCAL AND PERSONAL

V. L. Dayton was here from Carroll Saturday.

J. M. Roberts went to Sioux City on a business mission Tuesday.

Mrs. Wm. Pritchard and daughter, Hannah, from Carroll were Wayne visitors Saturday.

Mr. and Mrs. J. E. Dowling went to Bloomfield Saturday to spend Easter Sunday with friends at their former home town.

Mrs. Fox, who has been here visiting her parents, Mr. and Mrs. Alex Scott, returned to her South Dakota home Saturday.

Miss Edith Green from Creighton was here visiting her grandmother, Mrs. Mary Gilbert, while attending the teachers' meet.

Mrs. P. Bachnel from Sturgis, South Dakota, returned home Saturday after a visit at Wayne with her brother, A. Dragon and family.

Mrs. Guy Root and children returned to their home at Laurel Monday after an Easter visit at the home of her mother, Mrs. Cross, and with her sister, Miss Birdie Cross.

Miss Iva Butterfield of Verdel, was attending the teachers' association meeting at this place last week, and a guest at the Wm. Buetow home. She is one of Bloomfield teachers.

Wanted—A good, steady, gentlemanly salesman to handle a Ward's wagon in Wayne or adjacent counties. No experience needed. For full particulars write promptly to Dr. Werril's Medical Company, Winona, Minnesota. Established 1858. A8-43

Bill Kraft of Mapleton, Iowa, was here last week to look after some of the details in connection with the closing of the C. Bloss deal. He tells us that it is the plan of himself and his partners to plat the tract and dispose of the lots at auction in the not distant future.

Herb Bluchel was over from Norfolk between trains Monday afternoon.

Jake Koch was looking after the purchase of supplies at Sioux City last Friday.

Miss Hattie Crockett who teaches at Stanton came Saturday for the week-end with home folks.

S. E. Auker was called to Tecumseh Monday by word of the serious illness of his sister at that place.

Wm. P. Leu was a passenger to Sioux City Tuesday afternoon, going on a business mission in connection with his garage.

Mrs. J. C. Meink of Sholes left Tuesday to join her husband and children in their new Colorado home near Lyman. Other members of the family went a month ago, part of them driving through by automobile.

Pete Larson, formerly of Sholes, who went to Lyman, Colorado, early in March, returned to Sholes on a business mission Monday. He reports heavy snows in that country, and most of the way between Colorado and this part of Nebraska.

CAMPAIGN TALK AT THE CITY HALL THIS EVENING

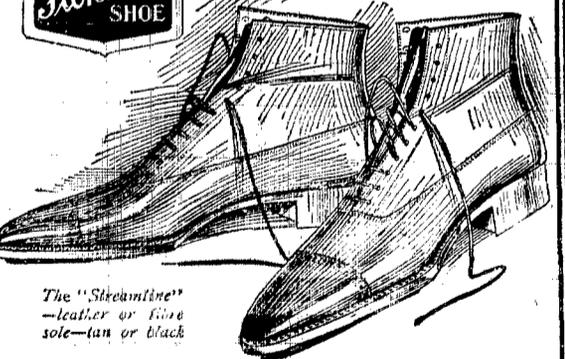

Bills are out announcing that S. Toledo Sherry, is to speak at the city hall this evening in the interest of his candidacy for the democratic nomination for congress from this district. Mr. Sherry spoke to a Wayne audience one evening during the war time, in aid of one of the drives, and those who listened to him then will be glad of opportunity to listen again. The subject on which he will speak this evening is "Present Unrest—Causes and Cure." The ladies are to be voters this year, and they as well as the older voters should take advantage of this opportunity to listen to the first political talk of the campaign, and they may rest assured that if the talk here two years ago was a sample of Mr. Sherry's ability to speak, they will be the losers if they fail to attend.

Ford Car For Sale

A 1917 touring car, in good shape, has not run over 2,000 miles. To see it and learn price see Wm. P. Leu, at the G. H. Garage, phone 85. A8-t2

STECHER THROWS DRASK TWICE

Raleigh, N. C., April 6.—Joe Stecher champion heavy weight wrestler, successfully defended his title last night in a match with Tommy Drask of The Netherlands. Stecher took two successive falls, each with a body scissors and arm lock, the first in 1 hour and 10 minutes, and the second in 1 minute.

Farmer Boy

A Farmer Boy who was born in a small Middle Western community; who shucked corn to pay his way through school; who spent ten years at the Missouri and Nebraska Universities; who has been a resident of this state for years.

What other candidate is so well fitted to understand and fulfill the needs of the Middle West?

World Leader

A World Leader who cleaned up the most turbulent island in the Philippines; who led his company to victory up San Juan Hill; who beat the diplomats of Europe at their own game; who ended a World War three years before the most optimistic European "experts" had hoped.

What other candidate is so well fitted to guide America out of the maze of European complications which remain as our heritage of the World War?

If Nebraska could offer the nation only Pershing, the farmer boy and Nebraska citizen, it would offer enough. If it could offer only Pershing, the World Leader, it would do more than any other state can hope.

BUT NEBRASKA THIS YEAR CAN OFFER MORE. IT CAN OFFER PERSHING, THE FARMER BOY WHO BECAME A WORLD LEADER—THE MIDDLE WESTERN WHO LED THE AMERICAN ARMY TO VICTORY IN THE GREATEST OF WARS—THE NEBRASKAN WHO IS FITTED BETTER THAN ANY OTHER AMERICAN CITIZEN TO BE THE NEXT PRESIDENT OF THE UNITED STATES.

NEBRASKA IS GOING TO MAKE THAT OFFER APRIL 20. DO YOUR PART BY GOING TO THE POLLS ON THAT DATE AND HELPING PILE UP THE BIGGEST MAJORITY ON RECORD FOR—

PERSHING of NEBRASKA For President

NOTICE

Notice is hereby given that bids will be received at the county clerk's office for Wayne county, Nebraska, for the furnishing of all necessary material and labor for the erection and completion of the following bridges, or so many thereof as shall be ordered built by the county commissioners for the year 1920.

One 40 ft. steel girder, 16 ft. roadway and 15 ton capacity, located as near the southeast corner of section 7, township 25, range 5, east.

One 60 ft. steel span, 16 ft. roadway and 20 ton capacity, located between sections 15 and 16, township 27, range 2, east, and across Log Creek.

One 32 ft. I beam, 16 ft. roadway, 15 ton capacity, located between section 7, township 25, range 2, east and section 12, township 25, range 1, east on township line, about 40 rods from the northwest corner of section 7.

All bids to be made on both 15 and 20 ton capacity.

At the same time and place as herein specified, bids will also be received for the repair of all bridges, which may be ordered repaired by the county commissioners for the year 1920.

All such bridges to be built in accordance with plans and specifications furnished by the State Engineer and known as the standard plans and adopted by the county board of Wayne county, Nebraska, on March 23, 1920.

Bridges to be built within ten days of notice by said county to construct the same, and in case any new bridge is to be constructed where an old one stands, contractor to tear down said old bridge and remove and pile all old lumber in such bridge; this to mean also the removal of all pile along with the lumber in such bridge and to deposit the same safely near the site thereof, such lumber and piles to remain the property of the county.

Said bids to be filed with the county clerk of said Wayne county, Nebraska, on or before 12 o'clock noon, of the 4th day of May, A. D. 1920.

Said bids for the building and repairing of said bridges will be opened at 12 o'clock noon of the 4th day of May, A. D. 1920, by the county clerk of said county in the presence of the board of county commissioners of said county, at the office of the county clerk of said county.

No bids will be considered unless accompanied by cash or a certified check for \$250.00 payable to Chas. W. Reynolds, county clerk of said county, to be forfeited to said county in case the bidder refuses to enter into contract with said county, if same is awarded him.

Also bids will be received for all of the above work at the same time and place and under all conditions as above set forth, the county to furnish all material delivered to nearest railroad station, except piling, which will be delivered at either Wayne or Carroll.

The plans and specifications as adopted and also the bidding blanks are furnished by the State Engineer of Lincoln, Nebraska, who will, upon request, furnish copies of the same.

All bids must be on completed work, as no extras will be allowed. The board of county commissioners reserve the right to build or construct any other concrete bridges, arch or slab other than steel, which bears on other plans and specifications furnished by the state engineer, and adopted by the county board.

The board of county commissioners reserve the right to reject any and all bids.

Dated at Wayne, Nebraska, this 25th day of March, A. D. 1920. (Seal) CHAS. W. REYNOLDS, County Clerk.

NOTICE

Notice is hereby given that bids will be received at the county clerk's office for Wayne county, Nebraska, for the furnishing of all necessary material and labor for the erection and completion of the following bridges, or so many thereof as shall be ordered built, or as many more

as the county commissioners may deem advisable for the best interests of the county for the year 1920.

One 14 ft. Concrete Arch, 30 ft. long with concrete wings located at the southeast corner of section 28, township 26, range 3, east.

One 20 ft. Concrete Slab, 18 ft. roadway, located on the half section line of section 28, township 27, range 2, east, about 20 rods east of the west section line of said section 28.

All bids to be made on both fifteen and twenty ton capacity.

At the same time and place as herein specified, bids will also be received for the repair of all concrete work which may be ordered repaired by the county commissioners for the year 1920.

All such arches and slabs to be built in accordance with plans and specifications furnished by the state engineer, and known as the standard plans and adopted by the county board of Wayne county, Nebraska, on March 23, 1920.

All arches or slabs to be built within ten days of notice by said county to construct the same, and in case any arch or slab is to be constructed where an old bridge stands, contractor to tear down said old bridge and to remove and pile all old lumber in such bridge; this to mean also the removal of all pile along with the lumber in such bridge, and to deposit the same safely near the site thereof, such lumber and piles to remain the property of the county.

Said bids to be filed with the county clerk of said Wayne county, Nebraska, on or before 12 o'clock noon, of the 4th day of May, A. D. 1920.

Said bids for the building and repair of all concrete work will be opened at 12 o'clock noon, of the 4th day of May, A. D. 1920, by the county clerk of said county in the presence of the board of county commissioners of said county, at the office of the county clerk of said county.

No bids will be considered unless accompanied by cash or a certified

check for \$250.00 payable to Chas. W. Reynolds, county clerk of said county, to be forfeited to said county in case the bidder refuses to enter into contract with said county, if same is awarded to him.

Also bids will be received for all of the above work at same time and place and under all conditions as above set forth, the county to furnish all material delivered at nearest railroad station.

The plans and specifications as adopted, and also the bidding blanks are furnished by the State Engineer of Lincoln, Nebraska, who will upon request, furnish copies of the same.

All bids must be on completed work at so much per cubic foot in place, as no extras will be allowed.

The board of county commissioners reserve the right to build or construct any other bridges, other than concrete arch or slab, which bears on other plans and specifications furnished by the State Engineer and adopted by this board.

The board of county commissioners reserve the right to reject any and all bids.

Dated at Wayne, Nebraska, this 25th day of March, A. D. 1920. (Seal) CHAS. W. REYNOLDS, County Clerk.

THE SONG OF HUGH GLASS

(From the Goldenrod)

At the request of Dr. House copies of the poem "The Song of Hugh Glass" were purchased last fall for use in the English classes in the junior high school of the training school.

Under the instruction of Miss Lucy Edwards, the ninth grade has recently completed the study of this poem, together with facts concerning Mr. Nelhardt's life as far as the pupils were able to find them. The members of the class with one accord say they like this poem because it is a good, clean, true, interesting and thrilling story of western life. They like the adventure it relates. Its appeal to some came through the enchantment of Indian life it portrays; to others its appeal came through the history of western life which permeates the entire poem.

Its greatest appeal was largely due to its epic spirit. The adventure of the traders, the romance of Hugh Glass and Jamie; the heroism and daring of the old hunter, the wonders and excitement of travel and exploration that it presents thrill the school-boy and girl leaving them with a feeling that the end came too soon.

Some of the finest lines of this poem were memorized by the members of the class. What better can we do for boys and girls of this age than to give them an opportunity to study, enjoy and appreciate literature that surrounds them with a cloud of witnesses to the glory of courage and nobility; literature that gives them the companionship of the great and the friendship of the true and tried?

We find all of these in The Song of Hugh Glass. Our experience with study of this poem has been very satisfactory and pleasing. We feel sure that no class will meet with disappointment in its study under a sympathetic and appreciative teacher, who uses the special school edition with notes, a map and a preface. We are very glad to recommend the study of it in high schools.

—Mrs. Lottie Walsworth.

Y. M. C. A.

The Y. M. C. A. met in the auditorium Wednesday evening. Harry Shantz gave a very interesting report of the Fremont conference. It was decided that the cabinet for next year should compose a committee to make a membership drive for next year.

The Estes Park Convention was brought to the minds of the members and every one was urged to go. This convention is one of the greatest events of the year in the Y. M. world and all members should make an extraordinary effort to attend.

MISS DEWEY ENTERTAINS

The members of the Junior play cast were entertained at seven o'clock dinner by Miss Dewey Friday evening. The table was decorated with pussy willows and lily place-cards bore the names of characters in the play. After dinner a pleasant hour was spent telling stories. Miss Wendt and Miss Louise Sprague were honorary guests.

GEOGRAPHY TRAVEL CLUB

Following well rendered readings by Julius D. Young, Professor Lackey exhibited lantern slides of war pictures, Mary Bettis explained interesting scenes from western Nebraska and Arthur Haggard finished a travelogue of South America and the Panama which he began at the last meeting.

Mrs. Fangman was called to Wayne on account of Frieda's illness. Frieda went home with her Tuesday morning.

Mrs. Reed of Winside, Mr. and Mrs. Rohrke and daughter, Miss Ruth, of Hoskins, attended the Junior class play.

FORTY IDEAL AGE FOR WOMEN

English Artist Sweeps Away Time-Honored Ideas Having to Do With Spinsterhood.

There is a flurry among English spinsters. A prominent artist has come to the conclusion that a girl of forty should be man's ideal. He sweeps away all the time-honored rubbish about spinsters at the age of forty being mostly interested in cats and canaries. Here is what he has to say about the new old girl.

"The ideal age for a woman from the viewpoint of the man who studies the sex as an artist is forty years. The woman of forty is at the perfection of her beauty and has attained a settled mentality which she did not possess as a girl in her teens, or as a young woman in her twenties and thirties. At forty she is an ideal companion, pleasantly matured, tolerant and understanding. Only the ignoramus in life find joy in the society of young girls or undeveloped women."

During the war and since many women of the so-called "sweet-and-forty" age got married, a considerable number of them widows. This has led to frequent lamentations by younger women that, with the huge number of unmarried beauties about, it is unpatriotic for Cupid to show such favoritism for widows and spinsters.

CLASSED HIM AS BEGINNER

Retired Sea Captain Evidently Knows Little of "Impressionistic" School of Painting.

"I once engaged board and lodging at the house of a retired New England sea captain," says a New York artist, "and from him I received some sincere advice.

"One day, while I was busy painting, I became aware that the captain was standing behind me, gazing at the canvas over my shoulder.

"How do you like it?" I asked. "Now, it chanced that the captain's house has been without an artist boarder for several years and that I was the first follower of the impressionist school it had ever harbored.

"The old sea dog gazed thoughtfully at the lower right-hand corner of the canvas where I had thrown a mass of parti-colored splashes and blotches.

"You're kinder young," said the captain, kindly. "This is your first summer outdoors at it?"

"Yes."

"Well, now, see here," resumed the captain. "There's two or three old palettes up in our shed chamber. You get one of those and try out your paints. You'll have to lose that whole corner of your canvas, I'll bet you, and it'll make your picture considerably smaller. I wouldn't do that again if I was you."—Harper's Magazine.

Nickels in London.

A letter in the Times of London points out the advantages England should gain by substituting nickel coins for bronze. To one who has merely visited Switzerland, this proposition requires little argument. In weight, bulk and convenience nickel is unquestionably preferable. With what ease can Swiss 20-centime pieces to the value of, say, 2 shillings, be carried, as compared with 2 shillings' worth of "copper!" And how this reform would lighten the bus conductor's burden! The combined weight of the 20-centime, 10-centime and 5-centime Swiss nickels is, writes the Times correspondent, only 137 grains, against the 515 grains, which 3½ pence weigh. Apropos of this subject, the London chamber of commerce has decided to recommend that the government prepare for issue, when required to supplement the silver currency, nickel coins of the value, say, of sixpence, a shilling and half a crown.—Christian Science Monitor.

Imports of Precious Stones.

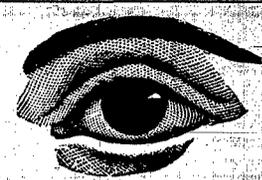

The value of the precious stones imported into the United States in the fiscal year that ended recently was greater than it had been in any previous year. Pearls are growing more popular, but because the war interfered with the fisheries they have become so scarce that dealers cannot supply the demand. The South Africa diamond producers are taking advantage of the favorable market to unload the diamonds that they have been accumulating during the war. According to the National City bank of New York half the diamonds in the world are already owned in the United States.—Youth's Companion.

Japan Taking Western Sports.

Japan is offering somewhat of a market for American sporting goods, at the present. Since the end of the war there has been an increased interest in sports, and it may be said of Japan that western games played there are essentially scholastic in nature, baseball being the most popular, with tennis second. The latter-named sport has now found favor outside of student circles, and tennis courts are scattered here and there throughout the larger cities.

Demand for House-Cat Fur.

In a report on the London fur market prepared by Alfred Nutting, clerk in the American consulate general in London, a comparison of the total number of skins sold by C. M. Lampson & Co. at public auction in 1918 and 1919 shows that the number of house-cat skins sold during the current year was 35,934, or almost double the quantity sold in 1918. The price of house-cat fur had advanced 60 per cent since spring.

POLITICAL ADVERTISING

I announce myself a candidate for the nomination to the office of County Assessor, subject to the vote of the republicans of Wayne county at the April 20 primary. George T. Porter, Wayne.

Hoover has his hat in the ring, and the fact does not please a lot of politicians who seem to be less able than he for the duties which await the man who is successful in the convention and at the polls.

Congress is now trying to get itself out of the bad fix which the senate action has left the politicians in by resolution. When a boy we tried the experiment of lifting ourselves by the bootstraps, and know that it cannot be done. Members of congress are going to find that out too before their joint resolution declaring that we are not at war is ever with. If they pass it, the best lawyers of the land say it will not be worth the paper it is written on, because there is no constitutional authority for such action. If it has nothing to stand on, how can it stand?

SOCIAL NOTES

The Minerva club meets with Mrs. J. T. House next Monday.

The Queen Esther society will hold a social meeting with Miss Mabel Gossard next Tuesday evening.

The D. A. R. will meet Saturday, April 10, with Miss Ella Morrison and Miss Elsie Ford Piper hostesses.

The Guild of St. Mary's church meets this afternoon with Mrs. James Finn. The afternoon will be spent socially.

The Early Hour club meets to night with Mrs. Jessie Reynolds. Dinner will be served at 6:30. The evening will be spent in playing "500."

The Sorosis club postponed their meeting Monday afternoon and will have their next meeting Monday, April 12, with Mrs. Elmer Noakes.

Miss Dorothy Brainard entertained at a dancing party Monday evening in honor of Miss Dorothy Ellis and Miss Winifred Main. Refreshments were served.

Miss Edna Hansen entertained at a theater party last Thursday evening, followed by a dance in the Hansen home. Refreshments were served.

The O. E. S. will have a covered dish supper at 6:30 next Monday evening at their lodge rooms where there will be the annual election of officers and initiation.

The P. N. G. will meet with Mrs. Herman Lundberg, Wednesday, April 14, instead of the 13th for a 6:30 covered dish supper. To which the husbands are invited.

The U. D. Club met last Monday afternoon with Mrs. J. W. Jones. Mrs. Von Seggern read a very interesting paper on Mexico. The hostess served delicious refreshments. Next meeting will be with Mrs. J. H. Kemp next Monday.

The members of the P. E. O. sisterhood met with Mrs. A. T. Cavanaugh Monday evening. After the business meeting a social evening was enjoyed. Mrs. Cavanaugh served home-made candy. Mrs. A. A. Welch will be hostess Monday evening, April 19.

The Missionary society of the Presbyterian church will meet this afternoon at the home of Mrs. Carol Orr and Mrs. E. Kostomlatsky and Mrs. Ringland will lead the devotionals. Mrs. J. W. Beard and Mrs. J. G. Mines will have charge of the lesson.

The Home Missionary of the M. E. church meets this afternoon at the home of Mrs. Britell. The subject for the afternoon is, "The work of the society among the colored people—their schools and other items of interest, pertaining to the colored race."

The W. C. T. U. will meet Friday afternoon at the home of Mrs. James Brittain. Mrs. Kilburn will have charge of devotionals, Mrs. Bruner will read selections from the Union Signal. Music selected. Mrs. Trumbauer will be hostess Friday, April 30.

Miss Lila Gardner entertained a few friends Saturday in honor of Miss Agnes Rebensdorf and Miss Mildred Nisonger of Pender, who spent the week end in the Gardner home. Progressive Somer Set, Flinch and other games were played. Refreshments were served.

The Acme club met with Mrs. Ingham. Members responded to roll call with current events. Mrs. Blair read from the book entitled "As Others See Her," an English woman's impression of the American woman in war-time. Next meeting will be with Mrs. V. A. Senter.

The Coterie met Monday afternoon with Mrs. Frank Morgan. Mrs. Frank Gamble gave a paper on Majestic Movies. The hostess served a delicious lunch. April 16, the Coterie will have their anniversary dinner at the home of Mr. and Mrs. L. A. Fausko. The husbands are invited. The evening will be spent socially.

Monday club met April 5 at the home of Mrs. Chace. Mrs. Beebe of Wakefield gave an excellent report on "Socialism." A five-minute entertainment was provided by each member present, which was greatly enjoyed by all. Mrs. Chace served refreshments. The next meeting of the club will be with Mrs. T. T. Jones.

Miss Grace Soderberg from China, Miss Faith Richardson of Atchison, Nebraska, and Miss Esther Hansing of Niobrara were guests of Mrs. E. B. Young the week end and welcome visitors at the Girls' Bible Study Circle Friday evening. Miss Mabel Gossard will be hostess this Friday evening and all the girls anticipate a happy time together.

Monday evening, April 5, at the home of Mrs. Geo. Fortner the ladies of the Minerva club entertained their husbands and a few other guests. Games of various kinds furnished the entertainment for the evening. Delightful refreshments were served by the following committee: Mrs. E. E. Lackey, Mrs. E. J. Huntmer, Mrs. L. M. Owen, Mrs. H. J. Miner and Mrs. H. H. Hickman.

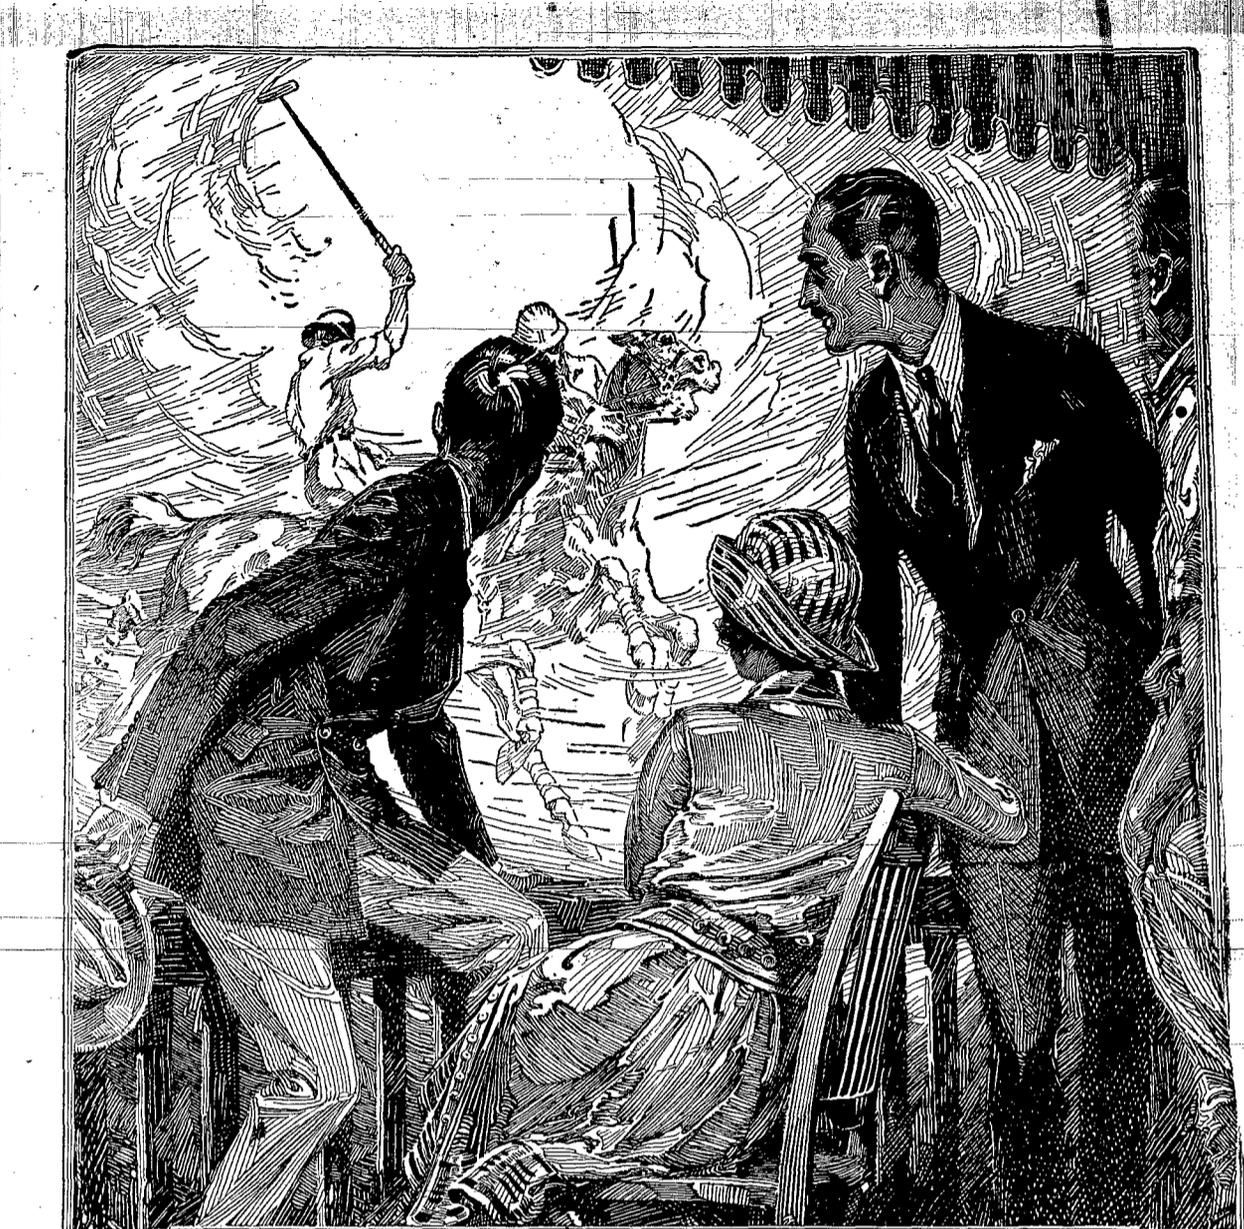

The Helping Hand club meets this afternoon at the home of Mrs. Ed Grier for an Easter program. Roll call will be answered with Easter poems. Easter songs will be sang by members. At the business meeting plans will be made for the coming year's work and programs arranged. A two-course dinner will be served at 1 o'clock. Mrs. Wm. Buetow will be hostess Thursday, April 22.

The Central Social club will hold their monthly meeting with Mrs. John Getman this afternoon. The entire afternoon will be devoted to the garden, both flower and vegetable. Each member will give her favorite flower or vegetable, and tell the peculiarities of each. The care, etc. If vegetable she will tell the different ways of preparing it for the table. At 4 o'clock a covered dish luncheon will be served.

Mrs. A. P. Gossard was hostess at a most interesting session of the Women's Bible Study Circle Tuesday afternoon. The meeting was called at an early hour to permit all those desiring to attend the meeting at the Baptist church. Miss Pearl Beaks was the lesson leader and all found the turning to the old testament Sunday school lessons to be a means of help and refreshment. Mrs. Ziegler will be hostess next Tuesday and all are invited to these restful meetings which continue to grow in a way that marks plainly divine guidance.

Mrs. John W. Beard entertained the members of the Alpha Woman's club Tuesday evening. Members responded to roll call with a recipe to cook their favorite vegetable. Mrs. Samuelson gave a paper on "Why We Observe Arbor Day." Mrs. Phillips gave a paper on trees native in Nebraska. Mrs. Beard sang O. Promise Me. Mrs. Claude Wright and Mrs. Samuelson were elected delegates to represent the club at the district convention at Wisner the last of April. Miss Dewey will give a reading the opening day. Miss Morrison presented the Y. W. Work before the club. The hostess assisted by her sons, Robert and John, served refreshments. The club will meet April 20 with Mrs. Samuelson.

Katherine Lou Davis celebrated her ninth birthday anniversary in a most delightful manner Wednesday after-

Making the goal in perfect form

noon from 4 to 6 with a party of her little friends, who enjoyed the afternoon of games. The fishing pond attracted the little people and each one got a toy balloon. After this came the candy hunt, tiny candy hearts were hidden about the rooms and this caused a great deal of fun to see who could find the most hearts. The table was decorated in pink and white, and the birthday cake with its nine lighted candles made an attractive centerpiece, and all enjoyed trying to blow out the pretty candles. With Mrs. Horace Theobald at the piano the little people formed a grand march to get partners for the luncheon which ended the happy afternoon. Mrs. Davis, assisted by Mrs. Theobald, served a splendid two-course luncheon. The little hostess received a number of pretty gifts.

Saturday afternoon the social center for a large number of Wayne young people seemed to have been at the Rollie W. Ley home where the Wayne members of the T. B. E., a school society of other years which has still kept its organization, were entertained in honor of Miss Alma Craven, whose marriage to Mr. Hahn is to occur next week. Mrs. R. W. Ley, Mrs. A. T. Cavanaugh, Mrs. Lester Vath and Miss Tot Chapin were hostesses to about forty guests of the fraternity. It was a most enjoyable afternoon for all. The decorations and flowers were in white and pink, tulips being the flower. Cards occupied the afternoon hours, and as evening came a neat two-course feast was served, the guests being served at the card tables they had been using. The bride-to-be was given a seat of honor at a large table on which a magnificent bouquet was the centerpiece. Roses were the nut bowls used and the ice cream was patterned after wedding bells, and

the same unique plan was followed in all the serving. Before the guests gave their approval necessary for one of their fraternity to wed with the approval of the other members the test of fitness was applied and Miss Chapin was authorized to question the guest of honor. When she answered correctly and promptly the many test questions applied she was voted a diploma, a splendid scroll certifying to her many good qualifications which when unrolled disclosed a wealth of pretty and useful presents, the expression of love and good will on the part of the donors.

Wednesday was the birthday of O. B. Haas, and in honor of the event Mrs. Haas invited a few Wayne friends to eat supper with him and spend the evening, and those present report a very pleasant evening.

PERHAPS YOU NEVER KNEW THAT
 If you suffer from periodical headaches, easily get tired and seem to have lost your accustomed "pep" the chances are that there is something wrong with your spine.

Get your Chiropractor to give you a Spinal Analysis. He will tell you what is wrong and **CHIROPRACTIC SPINAL ADJUSTMENTS** will restore you to your normal condition. Just try it once and see. Subluxations in the spinal column with the resultant pinching of nerves and shutting off of the vital force, are responsible for the majority of so-called Diseases. The remedy is at hand. You know what to do. Now do it.

Consult your Chiropractor. Consultation and Spinal Analysis Free.—

Early Ohio Seed Potatoes
Car Load on Track

We are better supplied than the average store on seed stock. We have the genuine Red River Minnesota, Early Ohio and the quality you will say is "A 1." Potatoes are very hard to secure and we doubt if another car will be available in time for early planting. The market is strong and we look for higher prices. If you need seed potatoes we advise as we have at every opportunity since last fall "Buy them now!"

Yes This Store Buys Eggs

We doubt if there is a store that handles more eggs than this one. Bring us your eggs, trade out as much as you wish and we pay you cash for balance. From the fact our terms are cash for groceries it would be unfair to ask and patrons to accept the bills for their produce. Our cash price we guarantee to be equal to any cash buyer. Phone for prices before you leave home. Phone No. 2.

Garden Seeds Back to Old Price
5c Per Package

Our seeds are all fresh and secured from dependable concerns. Handy to select seeds—wait on yourself if you like.

LOCAL AND PERSONAL

Our chick feed has arrived. Mildner's Grocery.—adv
Chas. LaCroix from near Magnet was looking after business at Wayne Wednesday morning.
Rev. Sala of Carroll was a Wayne visitor Wednesday, on his way to Neligh for a short stay.
Mrs. Rosella Nichols went to Sioux City Wednesday afternoon to visit a sister for a short time.
The wireless telephone now has a record of talking sixty-eight miles. We can remember when the wire line did not do that well.
P. G. Burress of Carroll was one of the shippers from that place to Sioux City the first of the week, going in Monday with a load of fat cows.
Vern Fisher and family left Wednesday for their new home at Norfolk, where Mr. Fisher has secured a business and purchased a home. Many friends wish them well in every way in their new business venture and their new home.
The road question is an important one, and is receiving much attention in this part of Nebraska these last few years. Every dollar honestly expended for permanent road improvement is a dollar well invested for the benefit of the entire community.

Don Cunningham was an Omaha visitor Wednesday.
Carload Early Ohio seed potatoes on track this week. Mildner's Grocery.—adv
Henry Kellogg went to visit a son living at Wood Lake, South Dakota, Wednesday.
Mrs. Emma Wilson is visiting at Pender this week, going down Wednesday afternoon.
Mrs. John Kret left Wednesday afternoon to visit at the home of her children in Minnesota for a short time.
Pres. U. S. Conn of the Normal left Wednesday morning for McCook, where he has a place on the program of the Southwest Nebraska Teachers' association meeting.
Rev. J. L. Phillips was reelected mayor of South Sioux City, Tuesday in a triangular fight. His election endorsed public improvement. Rev. Phillips is known to many in this county, and he is preaching at Sholes now each alternate Sabbath.
Frank Gaertner went to Omaha Wednesday to attend a meeting of the company manufacturing and marketing the "Cathedral" phonograph. Mr. Gaertner and others are of the opinion that they have the best music machine yet made, and the fact that they cannot make them fast enough to fill orders is the way they know what others think.

Geo. Fortner wants cream.—adv
Have you ever tried Pleazall Mour? You can get it at Mildner's Grocery.—adv
Mr. and Mrs. Clyde Oman left Wednesday evening on a prospecting trip to Wyoming.
Mrs. L. B. Palmer from Hubbard spent Wednesday between trains with Wayne friends.
F. H. Jones is moving into the Wolpert house on Pearl street, just vacated by Vern Fisher.
Rev. and Mrs. William Kilburn are assisting the pastor at Winside in special meetings this week.
Miss Mildred Nisonger from Pender was a guest of Miss Ethel Bonawitz last Saturday and Sunday.
Miss Alice Root of Sholes was here Saturday, returning to her school work at Albion, after a week's vacation with her parents.
Claude Wright has moved to the home he recently purchased from Frank Gamble at the corner of Second and Pearl streets.
Mrs. Jeffries has just received an additional line of new things in spring waists—beauties they are. Ladies should see them.—adv
Mrs. H. H. Hahn went to Omaha Wednesday to meet her daughter, Mrs. Barkly, who is coming from Fort Collins to visit home folks and friends, and be present at the Hahn-Craven wedding. They will come from Omaha Friday.
Mrs. Evans of Carroll returned home last evening from Merville, Iowa, where she went to visit her brother, Wat Williams and wife, and reported that he is improving from his recent illness, which will be good news to his Wayne friends.
S. H. Richards, who for the past two or three years has been living near Allen, has returned to Wayne, and again occupies his home in the southwest part of the city. He seemed rather pleased that he could once more be considered a citizen of this little city.
Mrs. Chas. Shultheis, who has been spending a portion of the winter with home folks and relatives at Three Rivers, Michigan, came to Wayne Tuesday evening to visit with her many friends here. She is a guest at the home of her son, Warren Shultheis and wife.
You can get a box of Polar White Laundry soap for \$5.50 at Mildner's Grocery.—adv
Miss Marguerite Forbes returned last of the week from California where she spent a month or two with her parents at Hollywood, and after a few days with friends here she returned to her place at the Martin store in Sioux City. She reports a very pleasant trip to the coast and back.
The weather has been such that the ladies yet have all of the real spring weather before them, and therefore it is the opportune time to purchase new millinery, and in anticipation of this, Mrs. Jeffries has kept her stock of pattern hats and all millinery most complete by ordering often.—adv
Mrs. Charles Gildersleeve and Mrs. L. C. Gildersleeve from this place went to Madison Wednesday as delegates to the district meeting of the W. F. M. society as representatives of the Methodist church of this place. They were joined here by Mrs. Phil Most of Laurel who drove across to catch the train here thus shortening her time on the road considerably.
Mrs. A. E. Krause from West Point came to Wayne Wednesday morning to visit her daughter, Miss Beatta, who is attending the college here, and also to attend the concert given by the students last evening, the daughter having a part in the singing. She is a sister-in-law of Mr. and Mrs. Wm. Beckenhauer, and was a guest at their home during her stay here.
Mrs. Jas. Jeffries went to Sioux City this morning to visit the day at the home of her nephew, Perry Francis and family—for they now have a family, a daughter coming to their home Easter morning, and it was to meet the little stranger that the lady went. Mrs. Jeffries tells us that Perry has been made manager of one of a chain of Newark stores in Sioux City, and that he is making good.
Ray Burch from Bloomfield has been out looking for a location for a printer, and returned last evening from Randolph, Iowa, where he looked the field over, but was not favorably impressed. The town looked too small, and the plant had been dead too long. It had been their misfortune at that place to lose two proprietors of the shop by death. Perhaps Ray was afraid of being No. 3.
Now that the Essex people are beginning to make deliveries here, B. W. Wright says the big trouble is over, if they will continue to send the cars. During the past week Lyons Brothers and W. F. Burton north of Wayne have each secured one of these popular cars. Mr. Wright has made two trips to Sioux City this week, accompanied by a driver, and has thus brought four cars to Wayne—Essex and Dodge.
Onion sets are in, sure have some good ones. Mildner's Grocery.—adv

The Orr & Orr Co.
QUALITY STORE

These New Garments That Appear In Our Display Illustrates the Superiority of Tailoring with Its Consequent Simplicity.

And in this season's suit one is assured a becoming selection, since navy blue is so easily worn and since the simple mode so well becomes the American type of womanhood. The softness of a hand tailored suit is a strong suppleness which retains its good looks after many days of hard wear.

The Polo clothes, Velours, Tweeds and others selected for your viewing are well worth inspecting—you will find them all, and a bit more than good taste demands, with the added fineness of fabrics and details that make service.

Suits \$40 to \$80 Coats \$25 to \$75

House Dresses and Aprons

In styles that are becoming as any street costume—indeed the fresh, dainty gingham, percales and tissues are fine enough for street wear on summer mornings. A large showing and a fairly priced one.

Smart Clothes For The Little Folks

Sturdy built play clothes for the children that not only stand a world of abuse but are made up in attractive little models that make them different. Also a fine collection of organdie other dainty materials made up in fine frocks for the little girls. Rompers Suits Dresses

Summer Voiles

Dainty goods for summer frocks as sheer as georgettes. Wonderful patterns in large figures and color combinations, clever designs made of silk stripes and plain voiles. Something new.

PRICED 75c to \$2.50

Your Corsets

A valuable asset to insure a proper fit of your new spring frock or suit. To much cannot be said in regard to proper corseting. Your need are our serious consideration. Kabo Nemo

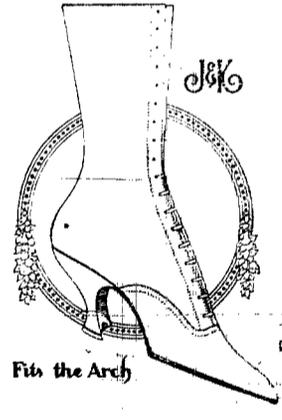

Ladies' Underwear for summer is now here. Most complete stock of all styles and sizes.

Grocery Specials That Mean Dollars

Standard Peas\$1.65; dozen; Case \$3.25
Standard Corn\$1.50 dozen; Case \$2.90
Large Oranges 70c dozen; Case \$4.00

Buy your next year's canned fruit and jams from last year's pack. It means a big saving to you and you have the assurance of prompt delivery as the goods are now in stock. Special price on case and dozen lots.

The Best Time to Buy Shoes and Save Money is NOW

Finest Kid Black, Gray, Brown \$10.00 and \$12.50

You don't want to see the prices of shoes go up; neither do we. But they are going up whether we like it or not. Shoes of the same quality and style we are offering at \$10.00 and \$12.50 must if we bought them today retail at \$15.00 to \$18.00. We own these shoes at last fall prices and our customers can make a splendid saving by buying while this stock lasts.

These high shoes ARE PRICED AT LESS THAN LOW SHOES of equal quality.

The styles are the very best and leathers the finest.

We are glad to have such a saving to offer you.

Geo. Fortner wants cream.—adv.
L. M. Owen sent a car of hogs to Sioux City Wednesday afternoon.
More of those popular and comfortable sweaters have just been put on sale at Mrs. Jeffries' store.—adv
H. Preston and family are visiting at Belden today, in response to an invitation to attend a birthday party of a friend at that place.
Warren Christenson, who came to Wayne some days ago for treatment for what has been diagnosed as the flu, died last night, after all efforts to save him had been exhausted. The body will be taken to Osmond for burial. He was a young man, we are told.

Geo. Fortner wants the eggs.—adv
Carl Madsen leaves this afternoon for Rochester to have his wound examined by specialists, and perhaps remain there for treatment. Eric Thompson will accompany him and remain a few days.
When it comes to chick feed, Fortner's own make is said to be of the very best for real results, and this season he has been able to get the proper ingredients to make it the real fully balanced ration he made before war times. It feeds every part of the little bird.—adv
For Sale—Reid's, Yellow dent seed corn of the 1918 crop. C. Swanson. Phone 212 on 424. R. F. D. No. 4, Wayne, Neb.

Geo. Fortner wants cream.—adv.
An article of interest to many here appeared in last week's Saturday Evening Post, from the pen of Emerson Hough, a noted writer of current history and fiction, founded on historical facts. This story tells of the recent war, and its thrilling events, and the part which seemed of most local interest is that telling of Fort Sheridan, Illinois, because of the fact that Miss Marguerite Chace, a nurse at that great station for rebuilding and caring for the wounded soldiers, is so well known in this her home town. She commends the article highly for the manner in which it presents their great work to the reading world.

**THE BUTCHER, THE BAKER,
THE CANDLE-STICK MAKER**

(From the Goldenrod)

"Ouija boards, Ford repairs, Saxophones, and Everything," says the sign on the front of the Grassville general store. "Phrenology books, side-saddles, cabinet organs," it read twenty-five years ago. Fifty years ago the sign read "Claim stakes, Ox yokes, Marriage Licenses." Seventy-five years ago an American Indian's wigwag was where the store now stands. A string of scalps and some dried venison adorned the hut.

Twenty-five, fifty, seventy-five years hence—what?

The butcher, the baker, the candlestick maker—who are they? Where do they come in? They come in in time for their share; leave that to them. One of them is the proprietor of the Grassville general store. He gets his share. A customer comes in. "These are brand new Ouija boards, not shop worn; made entirely in the factory of the 'Big Hoax Novelty Company,' not assembled like other brands. Guaranteed free from knots and benzoate of soda and impervious to tears. They will last a life time if reverently handled." "All right, I'll take one; how much?" "They have gone up 25 per cent due to scarcity of labor and material. The recent heavy snow in Brazil made it about impossible to get the cotton-wood lumber out of the forests of Greenland. We hear they will have to go up another 25 per cent before Decoration Day. At this price we are losing money, etc., etc."

The next customer buys a Ford fender, head light, windshield, some radiator anti-leak compound, a book of court-plaster and five gallons of near-gasoline with which to do it all over again. He pays the price, but he should worry! He is the fellow who fixes our pumps, paints our house, builds our garage and installs an electric burglar alarm in our cellar. He gets his.

The next customer buys a reed for his saxophone, a silk shirt, collar-button, tie, pair of shoes, suit of clothes, and a copy of the most ultra-recent jazz. "How much?"—and he pays for his purchase and the following information: "Everything has gone up and is going higher. Lead is scarce so we may not get any more saxophone reeds for some time. Silkworms struck for a 23 1/2 hour day and expenses. The war used up all the celluloid to make gun botton and we must raise the price again on collar buttons. Materials and especially dyes for neckties have gone out of sight in New York since last July. The shoe manufacturers of Massachusetts had to raise wages five dollars per week and the scarcity of rock salt caused 500 head of buffalo to die of blackleg in the Sahara Desert making such a leather shortage that shoes have gone up and we may soon be out of leather overcoats. The recent typhoon at the Gulf of Mexico killed so many alligators that the negroes of the south have all gone to the bathing beaches and the Canadian cotton growers cannot get anyone to help spend the proceeds from their cotton. If this keeps up much longer wool will be so scarce that the price of asbestos will go up another 50 per cent and before fall this same suit would cost you twenty dollars more. The Alaskan railway used so much paper for insulation on their refrigerator cars that the supply of paper has decreased in the Fiji Islands and so we have to pay 25 per cent more wholesale on these sheets of music. Prohibition has caused the music composers to strike for more bars on the staff so we have had to raise the price on all our music."

Thus they tell the old, old story. Who is to blame for the amount on the price tag and on the wage check? Who pays it? Who gets it? Who keeps it? Society has these questions at close range. Yet the price goes higher. Who shall get the blame? Not the butcher alone,—he knows the game; not the baker individually,—he has his lining; not the candlestick maker solidly,—he is on the team.

The present state of economics is not to be wondered at considering the rapid growth of population and industry with the changes in social structure, and the fact that we are all mortal, each one of us about as selfish as our selfish neighbor. "We must beat him at this money grabbing game!"

A broad view of the situation reveals "something for nothing" unstable and unnatural. Emerson said "Nothing is ever a free gift or loan, but everything is paid for in certain definite measure." This is true in the final analysis. Nature, through the phenomena of chemistry and physics, demonstrates this law clearly, always working for a balance. Why cannot society follow this to good advantage?

What do we give society; what do we try to take? Ouija boards, Ford repairs, and saxophones were unknown to cave-men but they had their own little social and economic problems. They met them partially and started the world toward the butcher, the baker and the candlestick maker with "us" thrown in for good measure. In the life worthy of its laborer?

**WHY CHOOSE TEACH-
ING AS A CAREER?**

(From the Goldenrod)

1. Teaching will insure opportunity for continuous intellectual and moral growth. The meeting of human problems as they arise from day to day in the school room will help you to avoid the deadly, mechanical routine so characteristic of many—indeed most—other callings.

2. Teaching is a preparation for home making. Seven-eighths of all women in America marry before they reach the age of twenty-five. That means that they assume domestic relationships and responsibilities. The training given in the Normal School and a few years of experience in teaching (the average number of years of teaching by American teachers is less than five years) give an intelligent insight into child nature and skill in the care and training of children. This preparation is a valuable asset to any young woman when she goes into her own home. There is consensus of opinion among educators that no other course of study yet devised which occupies a young woman's time for but two years beyond the high school is comparable with that of a good normal school course of study as an all round preparation for the duties of a home maker.

5. Teaching is by far the most effective and significant type of social service. The joy and satisfaction which results from daily for the common uplift far surpasses those which come from the accumulation of money of other material rewards. The organized activities of the classroom bring the teacher into daily contact with children who need sympathy as well as direction, and with large numbers who must be taught the English language and given the ideals of American democracy. Read what Theodore Roosevelt, Superintendent, Spaulding and others have to say on this subject.

"You teachers make the whole world your debtor; * * * if you did not do your work well, this Republic would not outlast the span of a generation. * * * You furnish a common training and common ideals for the children of all the mixed peoples who are here being fused into one nationality. It is in no small degree due to you, and to your efforts, that we of this great American republic form one people instead of a group of jarring peoples." —Roosevelt.

Dr. Frank E. Spaulding, Superintendent of Cleveland Schools, on leave of absence with the American Expeditionary Forces in Europe, writing from the center of the wreck of modern empires, says: " * * * now, as at no time in the history of the world before the supreme power of teaching and the teacher stands revealed. It is universally recognized that false teachers and base teachings were responsible for the inexpressibly terrible war now at an end; it is equally sure for that teachers and noble teachings have finally achieved the greatest world victory for Justice, Right and Humanity.

The lessons of more than fifty months of unparalleled carnage and hatred must be turned into permanent blessings for mankind. This transmutation must be achieved by the teacher, more than any other. * * * Just as the war that inhuman barbarians forced upon our beloved country called upon every soldier and sailor, called upon many others capable of qualifying for military and naval service, to hasten to the defence and vindication of our land and our highest ideals; so now the critical times before us call upon every teacher, call upon many others most capable of becoming teachers, to unite in the prosecuting of the most aggressive educational campaign that the world has ever seen. Just as the war summoned everyone to the active support of our army and navy, so the educational campaign that must be waged summons every loyal American to the hearty support of those who are called upon to take direct part in it.

When Edward T. Devine was investigating the causes of human misery he came to the conclusion that all the real causes could be expressed in one word—Ignorance. When Lester F. Ward, the noted sociologist, was asked to prescribe a panacea for all human ills he gave his answer in one word—Education. —Antelope.

When a plumber makes a mistake he charges twice for it.

When a lawyer makes a mistake it is just what he wanted because he has a chance to try the case all over again.

When a carpenter makes a mistake it is just what he expected because chances are ten to one that he never learned his trade.

When a doctor makes a mistake he buries it.

When a judge makes a mistake it becomes the law of the land.

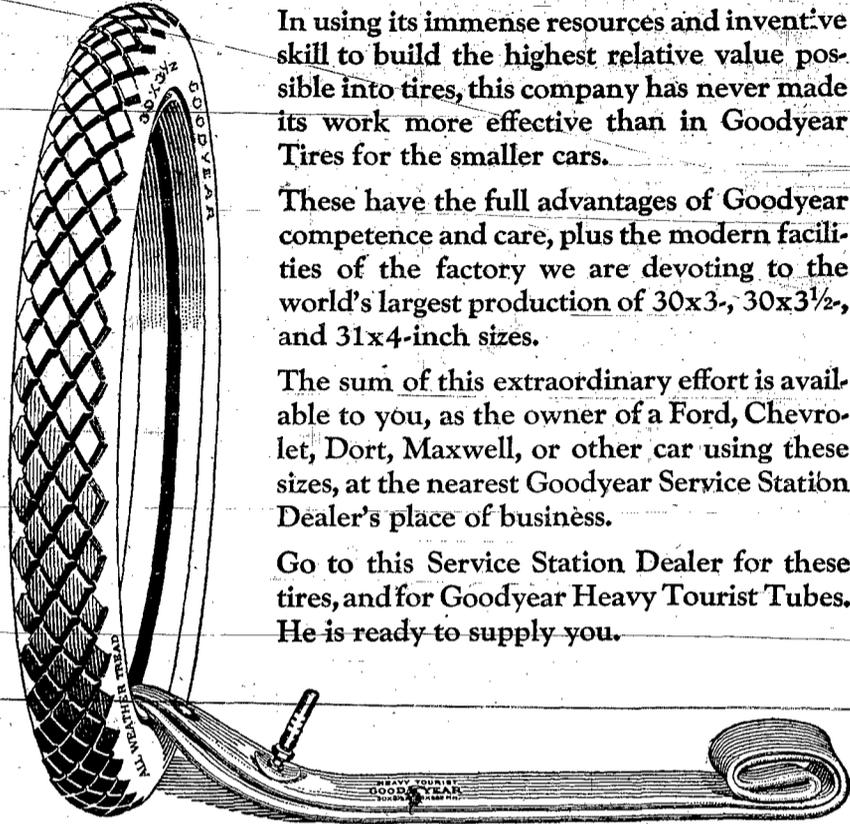

When a preacher makes a mistake nobody knows the difference.

When an electrician makes a mistake he blames it on induction and nobody knows what that is.

But when an editor makes a mistake—Good Night!

When a printer makes a mistake—get the gun. —Lightning Line.

**Tires for the Smaller Cars—
Built With Goodyear Methods**

In using its immense resources and inventive skill to build the highest relative value possible into tires, this company has never made its work more effective than in Goodyear Tires for the smaller cars.

These have the full advantages of Goodyear competence and care, plus the modern facilities of the factory we are devoting to the world's largest production of 30x3-, 30x3 1/2-, and 31x4-inch sizes.

The sum of this extraordinary effort is available to you, as the owner of a Ford, Chevrolet, Dort, Maxwell, or other car using these sizes, at the nearest Goodyear Service Station Dealer's place of business.

Go to this Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He is ready to supply you.

30x3 1/2 Goodyear Double-Cure \$23.50
Fabric, All-Weather Tread

30x3 1/2 Goodyear Single-Cure \$21.50
Fabric, Anti-Skid Tread

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water-proof bag. \$4.50

THRILLS! THRILLS! and More THRILLS!

Mrs. B. Hickman was a passenger to Sioux City Tuesday afternoon.

Mrs. Chessie Harrington from O'Neill has become a citizen of Wayne, and is engaged at the Orr & Orr store where she is in charge of the ladies' ready-to-wear department, a work in which she is said to be experienced. She says she likes Wayne very much and plans to make a permanent home here.

Prohibitionists it is said, will place a state ticket in the field in this state at the primary April 20. Some people are never satisfied. A prohibition vote is a half a vote for the wet element—given by the voter who is supposed to want the dry forces to win. They have not yet selected their victims for the ballot.

The Missouri river has been out of its banks near Omaha, flooding the north part of the city, but has receded in the last two days so that most of the people who were run out of their homes have been able to return. At Dubuque the Mississippi has been out of its banks, and inundated the railroads and homes near the river. The crest of the rise is now south of Dubuque, and not quite as high as at that city.

Interest in the primaries as far as held has been great, as they are supposed to furnish an index to the strength of the different candidates. In South Dakota the republican candidates were reported as follows: Wood, 29,697; Lowden, 25,843; Johnson, 25,657; Poindexter, 1,107. For senator, Norbeck won with over 40,000 to his opponent Haney nearly 29,000. For governor McMasters had more than 42,000 and Richards 27,000 plus a few. Democratic figures are not yet complete.

TOO LATE

Death only a matter of short time. Don't wait until pains and aches become incurable diseases. Avoid painful consequences by taking

The world's standard remedy for kidney, liver, bladder and uric acid troubles—the National Remedy of Holland since 1693. Guaranteed. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.

Australia, which is 26 times larger than the whole of the British Isles, has a population not exceeding that of London.

The indications are that the southern delegations will as usual be the sore point in the next republican national convention. It is notorious that these delegations are brought to Chicago by men who are able to gather them and control them through the most sordid considerations. The nucleus of southern delegation is the federal office holder, but their leaders are unable to bring groups of colored delegates to the convention without the use of considerable money. Men experienced in such work say that it costs from five to ten thousand dollars to "handle" a delegation of the ordinary size from the south. It is clear that something should be done to remove this great political blot.—State Journal.

Caribou Half Sole

Our machine sewed soles give the best of satisfaction, and are so quickly put on that frequently but a short wait is required if you are in a hurry.

I have a well equipped, modern shop, employ good assistants and can serve you well.

Let us reduce the high cost of footwear by our excellent repair work.

JAKE KOCH

In Old Laundry Building. Opposite Union Hotel

LOCAL AND PERSONAL

Misses Fern and Frances Oman returned to their school work at Lincoln Tuesday morning.

C. H. Hendrickson is preparing to fight the cold next winter, and is excavating to install a furnace.

Paul Crossland is now one of the clerking force at the Gamble & Senter clothing store, out of school hours.

Hoover ran pretty well in Michigan for a man who did not enter the race any too early to more than get his name on the tail end of the ballot. Our General Pershing did not get to first base.

Ward Randol returned to his school work at Lincoln Tuesday after a short visit with home folks near Wayne and with friends. He decided to withdraw his filing as a republican candidate for the legislature, which was a wise thing to do, we believe, for office seeking is something requiring too much attention these days for one who is attending school.

For Sale—Two bulls, one horse, a mower and a hay rack. Eli Laughlin. AS 12

Dave Nettleton from Randolph was a passenger to Sioux City Tuesday, going to visit her son at that place.

Francis Jones was looking after business at Omaha the first of the week, going down Tuesday afternoon.

Miss Mae Hiscox came home from Hastings, where she is attending college, to enjoy the spring vacation with home folks and friends.

Robert Larson of Newman Grove has purchased the Farmers' National bank of Pilger and has moved to Pilger to take personal charge of the institution.

The city electrician of North Bend, Herman Gutsch, was electrocuted Monday while working on the main trunk line between Fremont and North Bend.

August and Joe Madsen, who are attending the university at Lincoln, returned to their school work Tuesday afternoon following an Easter visit with home folks.

Mr. and Mrs. L. L. Kingsbury came from Sioux City Saturday evening to visit a few days with Mrs. Kingsbury's cousins, Mrs. Charlie Gildersleeve and Mrs. Will Gildersleeve.

Mrs. B. McNulty from Omaha and her sister, Mrs. L. Snowden, from Lincoln, returned to their homes Tuesday after a visit of nearly two weeks here at the home of Mr. and Mrs. C. A. McMaster, their sister.

Thos. Rawlings of Wakefield was a Wayne visitor the first of the week, and when not talking land business he is standing up for Bryan, which is right and proper, for he believes that way—and that is nothing wrong.

C. O. Mitchell and daughter, Hazel, went to Omaha Saturday afternoon to spend Easter with Mrs. Mitchell who is at a hospital there. They report that the invalid is improving slowly under the care given her, and hope that she will be able to return home in two or three weeks.

Jack Johnson who forfeited bail-bond and fled to Mexico, is ready to surrender and come back to the United States, which means that he prefers to take his chance of living in prison in this country to having his freedom in the country below the Rio Grande. Yet they expect folks to go and live in Mexi co.

We notice that the American Legion at Laurel last week went into the trenches against the non-partisan league and poured a lot of hot whereases and resolutions into their ranks, which was really good advertising for the league, for there a host of voters who believe in a number of the things advocated by the league, and denounced by the Legion—regardless of other political affiliations. There are many advocates of stateownership of packing plants, mills, elevators, creameries, and other things of that nature that are now monopolized. There are also plenty of people who believe one should not be fined by a tax each year for improving his home and beautifying the town in which he lives. Wayne would be a better improved town if taxes were removed from improvements and assessed against lots held idle for speculation. But this a land of free speech, and the league and the Legion both have the right to express their sentiments.

(Robert H. Pratt, S. T. M., Minister)

At the morning service at 10:30, the pastor will speak on the subject of giving as a spiritual gift.

The Sunday school follows the morning worship.

The meeting of the young people will be held at 7 p. m. Note the change of hour. Spring is coming whether we realize it or not.

Evening preaching service at 8 p. m.

The prayermeeting services are now held in the church building once more. We meet each Wednesday evening at 8 p. m. Some time will be spent in prayer for God's blessing on the work, and part of the time devoted to studies in the life of Jesus. Bring your bible with you. The pastor expects you to try to attend.

Your attention is called to the date of the Ladies' Bazaar which will be held on April 17. Fuller announcement will be made next week.

Methodist Episcopal Church
(Rev. William Kilburn, Pastor)

Sunday school, 10 a. m.
Preaching service, 11 a. m.
Epworth League, 7 p. m.

Evangelical Lutheran Church
(Rev. H. A. Teckhaus, Pastor)

Sunday school, 10 a. m.
No preaching service.
Catechetical instruction Saturday April 10, 1:30 p. m.

CARE OF BABY CHICKS

A circular called "Baby Chicks—Their Care and Feed," by the Nebraska College of Agriculture, gives the following essentials for successful chick raising. Do not feed chicks until they are at least 45 hours old. Feed buttermilk or skim milk for the first feeds, if possible. Keep drinking vessels clean. Feed only clean sweet chick feeds. Keep chicks busy. Feed green feeds in small amounts. Feed early and late. Keep brooder temperature regulated so chicks will not chill over night. Allow chicks out of doors as soon as possible. Feed all the sour milk on buttermilk they will drink. Furnish sand or grit material. Many other valuable suggestions are given in the circular, which may be obtained free.

A REPORT FROM NORTH NEBRASKA TEACHERS' MEET

(Continued from Page One)

the very bad things that can happen to the boy. Returns the boy to the environment God intended him to have.

Alice M. Loomis of Lincoln talked on Vocational Home Economics. She talked about the phase at public expense under the Smith-Hughes Bill. Under this cooking becomes marketing, the student learns when to sew as well as when not to sew, the subjects of home furnishing, laundering and care of children are taken up. This work provides for one half day work in school. It may consist of home physics. The university has full control of this high school work. It holds people in high school. It aims to have some effect upon the school work. It advocates working in family size amounts.

Supt. Beveridge of Omaha talked on the High School Teacher's Greatest Problem. At one time this question was sent out to a number of teachers and he found that all the answers were the same, or meant the same thing. The greatest problem is that they don't know how to study.

A short talk on the Junior Red Cross was given by a man from Lincoln. The problems of this organization are health and patriotism. The school should be an auxiliary first. Funds should come second. The program given out by the Junior Red Cross is not rigid. It may be changed. It is merely suggested.

WAYNE STATE NORMAL NOTES

The meeting of the North Nebraska Teachers' Association last week proved a great uplift to the Normal. Attracted by the announcement of the attendance of such notable educators as Doctor Snedden, Miss Olivia Pound and Superintendent Beveridge, and the importance of the subjects set for discussion, a large number of the students remained in Wayne rather than take the opportunity for a vacation. The evening address of Doctor Snedden aroused much thought and challenged all to submit all educational customs to scientific analysis. Miss Pound and Mr. Beveridge were very popular. One of the most satisfactory addresses of the entire session was that of President U. S. Conn, who outlined the problems of the schools of today and suggested many common sense ways of dealing with them. The matter of Americanizing the foreign born citizenship was forcibly presented. President and Mrs. Conn and the faculty of the Normal gave a delightful reception to the visiting guests on Friday afternoon at the gymnasium. Four hundred sixty-eight teachers attended the meetings. Miss Edith Beechel of the Normal was the efficient and popular president of the association. The officers for next year are: President, O. H. Blinson, Oakland; vice president, L. J. Surface, Albion; secretary, Marjorie Parminter, Plerce; treasurer, A. P. Gulliver, Wayne.

Professor E. E. Lackey has again received deserved recognition within the field of his special interest, that of geography. The Rand McNally Company has accepted for publication his manuscript "The Principles of Geography." The book will consist of fifty-six sections each presenting in problem form some subject in geography. Professor Lackey is fast becoming recognized as an authority in this important field of pedagogy.

Professor I. H. Britell will go tonight to Valentine where he will speak tomorrow to a Teachers' and Patrons meeting, returning Saturday. On Saturday evening in the Calisthenium the senior class will entertain the juniors and a few members

of the faculty at an elaborate banquet. The friendly custom of closing the year of class rivalry in this form of good fellowship has been established for some years at the Normal. There is much regret at the Normal to learn that Superintendent Gordon Saunders of Crofton, who was graduated in the class of 1916, has suffered an illness that, after incapacitating him for work in the schoolroom for over two months, has at length compelled him to seek the climate of Colorado for his health. Earnest hope for his recovery is felt by his many friends at the Normal. Mr. Saunders saw overseas service during the world war, being in France over a year.

Among the teachers attending the North Nebraska Teachers' association held in Wayne last week were a large number of former students and alumni.

Spring days have seen a renewal of work on the grounds at the Normal. Some grading is going on, trees and shrubbery are being planted, and the Jones-Manville Company is completing its work on the heating pipes which was suspended last fall because of the cold weather.

President Conn left yesterday morning for McCook, Nebraska, where he will deliver two addresses today to the Southwest Nebraska Teachers' association. He will return Saturday and on Monday attend the meeting of the normal school board of education at Lincoln.

Vaughn Williams is campaigning at Wayne today, seeking votes for the nomination to the legislature as a republican. His opponent was one day ahead of him at this place. Vaughn appears quite cheerful—no matter how he may feel after the primary.

NO GAIN BY DELAY IN SHEARING
Nothing is to be gained by waiting for "olly fleece before shearing sheep, says the Nebraska College of Agriculture. Wool is bought on the shrinkage, or according to the amount of grease and dirt in it, and buyers usually can make a close estimate of this waste. Wool containing chaff and burs must be given an expensive acid treatment and it is therefore purchased at a big discount. Much Nebraska wool will shrink from 45 to 60 per cent and some even more. Shearing time varies according to the part of the state. If the spring is moderate some shear early in April. If ewes suckling lambs suffer from heat their milk supply is reduced. They should be sheared early, especially if shelter is available for them in case wet or cold weather follows. Sheep suffer on warm days of early spring and their wool soon begins to slip.

Banquet dresses in great assortment of and perfect beauties may be seen at Mrs. Jeffries' store. See them soon.—adv

STATEMENT OF THE OWNERSHIP AND MANAGER

Of The Nebraska Democrat published weekly at Wayne, Nebraska, required by the Act of August 25, 1912.

Editor, E. O. Gardner, Wayne, Neb.
Managing Editors, E. O. Gardner and G. A. Wade, Wayne, Neb.

Also Judge Essex Fineness By the Hudson Standard

The Essex is Famous for Beauty as Well as Performance **Hudson Design and Super-Six Motor Still World Supreme**

Essex performance proofs naturally over-shadow its qualities of quieter appeal.

For prior to Essex, it was held that light weight must mean some forfeit in smoothness, speed, power and endurance.

But even those whose choice was decided by its supreme performance ability are captivated by its notable beauty of design, its luxurious fittings and its quiet riding ease.

It is not merely that Essex matches large, high priced cars in comfort. It is not only its speed, its quickness at the getaway and its quiet mastery of the hills. Its charm is the combination of these qualities with a flying smoothness in action and responsiveness that heed the highest touch.

Great Surplus Power Makes Driving a Joy

Abundant surplus power handles the Essex with ease in every situation. This surplus power and strength, beyond any need you will ever have, accounts for Essex smoothness in tasks at which many cars strain with permanent injury to their mechanism.

Every day you see Hudson's two and three years old, which, both in style and performance, might well be judged of recent production.

Advance ideas you will always find in Hudson. That fact created its style leadership. But they must earn their right to belong. No mere straining after something new has ever won a place for a single feature in Hudson design.

On fashionable boulevards you see more Hudson chauffeur-driven cars than any other make. Yet leadership in style alone was not enough to win such recognition.

Hudson Leads All Fine Cars in Performance

Hudson's chief advantage has always been in performance. Its many official speed, power and endurance records were made four or five years ago. But they still stand. They account for Hudson becoming the world's largest selling fine car.

Those records are the reason why no change has ever been made in the principle of the Super-Six motor. It is exclusive in Hudson. You can get its advantages in no other car.
