50 PER YEAR

THE COMING WAYNE FAIR AND BIG STOCK SHOW

It is but two weeks now until the Wayne fair will be in full blast—September 15th, 16th and 17th. A short talk with the secretary this morning assures us that everything points to a successful meet. Wayne is a pioneer in the free fair, no admission fee being charged to see the fair, the street attractions or the ball games. So much for the sports and amusements.

The exhibit of stock, grains, fruits, vegetables and all manner of fine arts, needlecraft and good things to eat depends upon the co-operation of the people of this county, and we are assured from more than one source that this will be freely given, assuring the success of this second show at Wayne.

Plans are being made for some speaking, but that is not given out yet, except that Chas. Graef of Bancroft, a member of the state board of agriculture will make a talk on fairs one day—probably the second day, much as he did at the Pierce fair Wednesday, when he gave a short talk, showing the benefits which may come from a fair in many ways, and how the country in most instances is the proper unit for such an enterprise to assure its success.

No one in this community should neglect to take active interest in the approaching fair and do all in their power to make it the best possible.

DEATH OF ALBERT RUBECK

It was a sad homecoming for Chas. Rubeck, wife and sons Wednesday, when they accompanied the body of Albert, their 14-year-old son, who had died at a Canon City, Colorado, hospital Sunday, August 29th, 1920, after eight weeks of illness. Mr. Rubeck and the younger members of the family left Wayne about three months ago expecting to tour by car to the western coast. Albert was taken sick with what proved to be a gathering in the mastoid gland caused, they think from an injury received in a fall some time before. All that medical skill could do failed to save his life, and five weeks ago an operation was known to be the only hope, and that was not promising.

The family and body came Wednesday forenoon, and the funeral service will be from the Baptist church this Thursday afternoon, Rev. Kilburn of the Methodist church preaching.

Albert Rubeck was born in Wayne county, July 14th, 1896, and at the time of his death was 14 years and 15 days of age. The father, mother and five brothers and sister who mourn his early death have the sympathy of the community; three other sons having died within the past four years.

JONES-OWENS

Catherine O. Owens and Elmer A. Jones were united in bonds of holy matrimony Wednesday, August 25th, at high noon. The ceremony took place at the home of the bride's parents southwest of Carroll in the presence of only the immediate members of the families, it being a quiet wedding. Rev. W. O. Jones, pastor of the Presbyterian church, spoke the words that made them man and wife.

The bride is the daughter of Mr. and Mrs. Ellis P. Owens. She is a graduate of the Wayne high school and the Northwestern conservatory of music at Chicago. Miss Owens is well known in Carroll and Wayne.

The groom is the youngest son of Mr. and Mrs. J. A. Jones and is a young man of sterling qualities and will make good in this world. Mr. and Mrs. Jones will spend their honeymoon at the groom's ranch near Buffalo Wyoming.—Carroll Index.

POWERS-GRANQUIST

Wednesday afternoon, September 1, 1920, at the home of the groom's mother, Mrs. Ola Granquist, occurred the marriage of Miss Vera Powers, of this city, and Mr. Edward P. Granquist, Rev. Wylie, of Winside, officiating.

We have received none of the particulars of the wedding, except that it was attended by only a few relatives and friends. The bride is a daughter of Mr. Frank Powers, of this city, and a young lady of many excellent qualities and has a host of friends. The groom is an industrious farmer, at present working his mother's farm, where they will be at home after a short wedding trip to Colorado.

MARRIAGE LICENSES GRANTED

Judge Cherry has issued the following permits to wed in Wayne county: Edward P. Granquist, Vera D. Powers; Peter A. Larson, Mrs. Carrie A. Austin; Jesse Witte, Valtah Hines; Otto F. Stader, Mrs. Dora Carstens; Elmer T. Olson, Mrs. Ellis Loren Hall.

WAYNE SOLDIER RETURNS WITH WAR BRIDE

Eugene E. Hale, who left Wayne with the soldier lads called for service from this county in May, 1917, returned last week, after more than three years of service, bringing with him a wife, from Coblenz, Germany, where he was united in marriage February 4th, 1920, to Miss Frances Spru, of that place, who came with him to this place, last week.

Mr. Hale re-enlisted at the expiration of his first term of service, and was on duty at and near Coblenz as a military police until such time as their services were no longer needed, when he was sent back to his home country, where he received his discharge at Fort Slocum, New York, about a week ago and came to the home of his brothers at Wayne. It is their plan to remain residents here, and he hopes to be able to rent a farm for next season. Before entering service he worked on the farm for George Fox, south of Wayne.

They spent a few days after landing in New York, where Mrs. Hale has an aunt residing, then came west to the land of opportunity. They should be most welcome to the community.

WAYNE MEN ARE AMONG THEM

Twenty thousand business and professional men in twenty-four states have banded themselves together to co-operate with the Salvation Army in one of the biggest social service programs ever attempted in the history of the United States. The program calls for a working Salvation Army agency in every county in the twenty-four states. The states included in this program are all those west of the Mississippi river and Illinois, Wisconsin and Minnesota.

A report made public recently by Lieut. Col. Pebbles formerly in charge of the Salvation Army activities in Iowa and Nebraska, indicates that the Army now has 1500 agencies in the twenty-four states. These agencies or branches are known as Salvation Army Advisory Boards. Each board has from ten to twenty active members.

That the program will be a success has been demonstrated in California, and several other far western states, where for more than six months the plan has been tried out. The same enthusiasm that greeted the promoters of the plan in California has greeted the program in the other states. In not one instance has the plan met with a rebuff.

The Salvation Army is offering each community social service at cost. This means its trained personnel, its institutions and its various departments and bureaus. In exchange the community offers to co-operate with the Salvation Army in relieving distress and act as an agent of the Salvation Army without salary.

TWENTY GREAT GRANDCHILDREN

It was a proud event for "Grandma" Mary Zimmerman last Sunday when there gathered around her at the home of Mr. and Mrs. John Bierman sixty-six of her descendants, including the husbands and wives of her children and grandchildren. At this meeting, which partook the nature of a family reunion though a number were unable to be present, the venerable old lady counted five children, eighteen grandchildren, and eighteen great-grandchildren. There are now living in Nebraska and Wisconsin eight children, thirty-nine grandchildren and twenty great-grandchildren. Mrs. Zimmerman is now in her eighty-eighth year and is remarkably active for one of her age. As this is written she is canning fruit for the Martin kids and not infrequently does she insist on helping with the family wash. And take it from one who knows—when she invades the kitchen and pantry we always know there's going to be an honest-to-goodness meal served within a very short time.—Battle Creek Enterprise.

THE LEAGUE OF WOMEN VOTERS

There was an interesting and instructive gathering of the women of Wayne at the library basement last Friday evening, when the question of voting and how to vote was discussed and many ideas considered. The local chairman, Mrs. Brittain, presiding, Mrs. Eollen, county chairman, gave an excellent talk regarding the work, after which 30 women joined the league. Next meeting will be held September 3rd.

ADVERTISED LETTERS

Wayne, Nebraska, September 1st, 1920.—Letters: Mr. J. E. Rurin, Mrs. Dorothy Tidball, J. L. Wells, C. A. Berry, Post Master.

TOLLEFSEN TAKES CHAMPIONSHIP AT GOLF TOURNAMENT

Three Day Tournament Play Was Great Sporting Event

"Kearney's first annual golf tournament came to a close at a few minutes before six on Friday evening, marking the conclusion of the final rounds in Class A for the tournament championship, between F. Morgan, of Wayne, and Harry Tollefsen, of Kearney, which was won by Tollefsen with two up and one to go after playing the seventeenth hole. The match was a beautiful exhibition of golfing with a number of sensational plays by each of the rivals."

Here the Kearney Hub, from which these notes are taken, gave a splendid account of the second round in which the players were so evenly matched that the winner could not be named until the final play was made, giving the victory by a slight margin to the home man.

"The game was beautiful and intensely interesting, even from a professional standpoint. Both are 'home town' players of an exceptional type. Morgan made many friends during the tournament and deserved them all and shared in the compliments that were bestowed upon his successful competitor."

"Coach Caldwell, of Kearney, and Goodwin, of Columbus, against Coach Hearne, of Hastings, and Morgan, of Wayne, made up a special foursome Thursday evening, the individual scores being Caldwell 40, Goodwin 53, Hearne 41, Morgan 43."

"One of the popular visitors was Frank Morgan, of Wayne, an all-around athlete, always right at the top in tennis and golf, and having a state reputation. He is a business man and a good one, who believes that the man who is to take care of a business and a family properly must first see that he has a good mind supporting a fit body."

A NEW TRIBUNE PRESS

Fritz Dimmel, of the Winside Tribune has issued his first edition gotten out on a new press, just installed, and it makes a decided improvement in the appearance of the sheet. In speaking of the change he tells a bit of the history of the press he is discharging, and how it withstood all wear and rough usage, including the printing of Goldie "By Dads," in its better days. The Tribune says.

The old press had served its day of usefulness in this plant. Worn and broken beyond repair former newspaper men managed to "get by" in past years at the expense of an almost unreadable print, considerable loss of time and an ever prevalent fear that it might "go to pieces" at any crucial moment.

The old press was at least 35 years old and at one time printed Goldie's "By Dads" for the Wayne Democrat. It was a Cincinnati drum and is now an obsolete make. Jonas Ecker one of the best known editors and owners of the Tribune purchased the press from the Wayne Democrat and of course its history is known from that time on.

HOSPITAL NOTES

Mrs. Carrie Bruner, of Wayne, is a medical patient at the hospital this week.

Mr. Frank Brangenske, of Winside, entered the hospital Tuesday for medical treatment.

David Young, of Wayne, Susie Orr, of Walthill, and Master Frank Spahr, Jr., of Wayne, had tonsils and adenoids removed this week.

Miss Mabel Anderson, of Sioux City, is a new nurse on the hospital force.

Mrs. W. H. Jensen, of Guthrie, Oklahoma, is receiving medical treatment at the hospital this week.

The following were X-Ray patients this week: Mr. Carl Baker, Robt. Nichols, Mrs. E. H. Hunes, of Wayne, Mrs. Carl Munson, of Carroll, D. F. Jones, of Laurel, and Emil Swanson, of Wakefield.

HINES-WITTE

Wednesday, September 1st, 1920, by Rev. Wylie, of Winside, Mr. Jesse Witte and Miss Valtah Hines, both of Winside, were united in marriage. The bride is a daughter of Mr. and Mrs. Alonzo Hines, and the groom is a son of Mr. and Mrs. Witte, a Winside business man.

CONCORD DRUG STORE ROBBED

Last night the drug store at Concord was robbed of cash and their stock of jewelry. Their cash register was looted, and it is said contained about \$500 in cash. Their jewelry was taken, but we did not learn how large a stock they carry. No clue as yet to the burglars.

LEGION ELECTS WAYNE MEN FOR OFFICERS

Hastings, Nebraska, August 23th.—Robert Simmons, of Scotts Bluff, was elected commander at the second annual convention of the American legion of Nebraska here today. Other officers were elected as follows:

Vice Commanders, C. S. Goodrich, Fairbury; J. T. Bressler, Wayne; Lyman Wheeler, Omaha.

Chaplain, Dean Tyner, Hastings. Delegates at large to the national convention were elected as follows:

Earl Cline, Nebraska City; Edward F. McDermott, Kearney; George Fawell, Lincoln, and T. J. McGuire, Omaha, with J. M. Holmes, of Nebraska City; Guy C. Chambers, of Lincoln, and Harold Prince, of Grand Island, as alternates.

Edward P. McDermott, of Kearney, was named national committeeman, while Frank B. O'Connell, of Lincoln, was named adjutant. C. A. Orr, of Wayne, was named as a member of the executive committee.

The convention adjourned this morning to meet again next year at Fremont.

Favors Bonus Bill

Going on record as favoring the bonus legislation now before congress and asking that more land be made available for former service men was a feature of the state convention of the American Legion. An executive committee of two members from each congressional district of Nebraska was chosen and Fremont selected for next year's convention.

A suggestion was made during the convention proceedings that a congressional investigation be made of the facts surrounding the escape of Cleveland Bergdoll, alleged draft evader. Through resolutions that were adopted the convention also took a rap at alien radicals by declaring that "whereas, eternal vigilance is the price of peace, we congratulate the government on the safe voyage of the good ship Bufford with its long overdue cargo of morbid mentality." More energetic action in deporting dangerous aliens was also recommended. A resolution was passed declaring for drastic legislation covering draft and service evaders.

The legion went on record as favoring a state boxing bill modeled after that in force in New York. The necessity of a strong national guard organization was urged.

National Commander Franklin D'O'Jler, in an address said: "The message that I wish to leave with you is that as we stuck together in the service, let us as civilians see to it that the American legion, under unselfish leadership, continue as a great force in striving for the welfare of comrades and country."

THE FARMER PICNIC AT WINSIDE

There was a Farmer Union picnic at Winside Tuesday, and the attendance was estimated at fully 1,000, and all appeared to have a good time. A number from Wayne were present, some not farmers. The speaker, H. C. Elwood, from Creighton, made a good talk, we are told, presenting the farmer view of the causes of some of the economic disturbances of the day, and their proposed remedy. His able address pleased many who heard it.

The big amusement feature was the ball game between Carroll and Winside. A lot of other sports followed, taking the time until the evening, when a band concert and singing program was staged.

The little park at Winside is an ideal place for such a gathering.

AUSTIN-LARSON

Tuesday, August 31st, 1920, by Judge J. M. Cherry, Mr. Peter A. Larson and Mrs. Carrie R. Austin, both of Leeds, Iowa.

The groom is well known in this county, and it was from here that he entered the service of his country, becoming a member of the company mustered in at Wayne. He was for a number of years a soldier, and had served several enlistments in the regular army, and now he has enlisted for life. Congratulations.

HALL-OLSON

Wednesday, September 1st, 1920, by County Judge J. M. Cherry, Elmer T. Olson, from Mt. Ayr, Iowa, and Miss Ellis Loren Hall, of Carroll, daughter of Mr. and Mrs. S. A. Hall. The bride attended the Sholes school, after which she spent two school years at the Wayne Normal. The groom attended St. Louis City high school and graduated at Hinton, Iowa. He served 14 months in service being stationed at the Great Lakes.

TELLS PUBLIC HOW TO USE UNCLE SAM'S FARM MOVIES

The motion picture is a time saver. Suppose a county agent is showing a group of farmers how to construct a wooden silo—with the motion picture outfit he can show them in 15 minutes what it would take him days to show by actual demonstration. Suppose a home demonstration agent wishes to show a model kitchen in Massachusetts to a group of farm women in Nebraska. A trip from the Great Plains to the North Atlantic is not necessary. The thing can be done in a few minutes with the motion picture projector and a reel of films.

The United States Department of Agriculture is using the motion picture in a great many ways. Films already made cover 112 agricultural subjects. There are 460 reels, or more than 460,000 feet of film available for distribution. All of this film is in circulation, most of it constantly. During the past 12 months more than 700,000 persons saw one or more of these films.

Persons desiring to use any of these films can borrow them if they comply with some necessary regulations. Applications can be made through the county agent, the director of extension of State agricultural colleges, or any other officially cooperating agency. The borrower does not have to pay anything for use of films except transportation.

THE TEACHERS' INSTITUTE

The Institute for teachers of the county is in session this week, and the splendid program is being filed, with a few extra numbers for good measure. The enrollment is all that was expected, more than ninety-five teachers having their names down as members. Those in attendance tell us that the sessions are most interesting and instructive. The institute tends to give uniformity to the schools of the community, and they are now so conducted that a pupil may change from one school to another district and continue work almost without interruption. The sessions end tomorrow, but the good work will extend thru the school year and help in following years.

CRADLE

MUNHAUSSON—At Ponca, Sunday, August 29, 1920, to M. Munhausen and wife, a son. Mrs. M. was known to Wayne people as Miss Rose Balckmore, a niece of Mrs. L. E. Panabaker.

JONES—At Wymore, Saturday August 28, 1920, to John Jones and wife, a son. The mother was Miss Leta Fisher, of this city, before marriage.

McMILLAN—Monday, August 30th, 1920, to Harry McMillan and wife, a son. This little one passed away soon after birth.

BROWN—Thursday, August 26th, 1920, to Byron D. Brown and wife, a son.

BLAIR—Friday, August 27th, 1920 to Fred L. Blair and wife, a daughter.

VANNORMAN—Thursday, September 2nd, 1920, to Chas. VanNorman and wife, a daughter.

CARSTENS-STANDER

Wednesday, September 1st, 1920, at the court room of County Judge Cherry, and by him, Mr. Otto F. Stander and Mrs. Dora Carstens were united in marriage. The groom is from Kennard, the bride a Winside lady. The bride is a daughter of Mr. and Mrs. Henry Thielfeldt, of this county, and Mr. and Mrs. Wm. Thielfeldt, brother of the bride were present at the marriage.

VOEMEN MEETING FRIDAY EVENING

Next Friday evening is regular monthly meeting of the B. A. Y., and all members are requested to be present, as September is the month for the annual election of officers for the Homestead. Other business of importance is slated for the evening.

John Larson and family, who have been spending a month or two at Atwater, Minnesota, drove home last week, and after a few days at Wayne making preparation for the trip, left this morning to drive to Long Beach, California, where they plan to spend the winter. It is their purpose to make a hurry up trip, in order to be at their destination before the middle of the month that the boy may be there to enter high school when it opens about the 14th of September.

GIRLS WANTED.

To learn operating, good wages paid while learning. Apply to Chief Operator, Nebraska Telephone Company.—adv.-A.-12-tf.

IS A CONTRACT BUT A SCRAP OF PAPER?

It seems as tho those in the teaching profession—some of them at least—consider their contract of little weight—and not in the least binding upon them. Teachers contract and resign without consideration of the other party to the contract. Our superintendent thinks he has the record broken for lightning change. Contract signed up at 1 o'clock, and resignation tendered at 7 o'clock same day. Perhaps the teacher did not have a mind at all—perhaps a telephone or telegram offered a little more money. There should be a contract made with teeth. One which might be broken for some reasonable excuse, by giving proper notice—but the only consolation which could come in such a case as the above, is the fact that a person who holds a contract so lightly might be a good person to permit to depart.

SOCIAL NOTES

Mrs. Ed. Lindsey, of Grace Church, entertained the Bible Study Circle, Tuesday afternoon. Automobile trouble hindered some of the crowd from getting there, but a good time is reported by those attending. Mrs. C. A. Grothe will be hostess next week in a welcome home meeting for her mother, Mrs. C. A. Dean, and all the ladies are cordially invited. The Sunday school lesson will be discussed at that time and a report given of the Cedar Lake, Indiana, Missionary conference.

Attention W. C. T. U.

The first meeting of the year is called for September 3rd to meet with Mrs. Ed. Ellis with the following program: Devotions, Mrs. Brittain, roll call, "What Should Be Our Work The Coming Year," recitation, Mrs. D. W. Noakes; reading, Mrs. J. G. Mines. A large attendance is desired as important business is to be transacted and election of officers to fill vacancies is to take place at this meeting.

The Rural Home Society met with Mrs. J. C. Forbes Thursday, August 26th. The following officers have been elected for the year: Mrs. Claycomb, president; Mrs. Corbit, vice-president; Mrs. Hale, secretary and treasurer. Mrs. Vernon Dayton, of Carroll, will be hostess at an all day meeting September 24th. Five new members have been taken in. Dalnty refreshments were served.

The Annual Masonic picnic will be held at the City Park, Thursday, September 9th, 1920. Program starts at 2:00 o'clock, p. m. All Masons and their families, also members of the O. E. S., and their families are cordially invited to attend.

Mrs. H. F. Wilson, Mrs. T. T. Jones, Mrs. H. S. Ringland, Mrs. James Miller, are hostesses at Kensington this afternoon at 2:30 at the Country Club. The same ladies will entertain at cards at the Country Club Friday afternoon at 2:30.

The Ladies Aid of the Presbyterian Church met Wednesday afternoon with Mrs. Charles Craven. The afternoon was spent in sewing for the bazaar, which will be held in November.

At their last meeting the city council made the first move toward having the weeds in the city harvested from vacant lots and parkings. This should be given attention without having to be told, and if the city has it to do, it will be a tax against the property thus cleared. One citizen who keeps his place in perfect condition so far as weeds are concerned told us that he wants us to make a list of the patches and publish names and locations, so that visitors to our city may go and view them and know of the wonderful fertility of our soil. A good suggestion, that.

Rev. John Beard and family arrived home this morning from Sioux City, where they have been for a week or more, and Mrs. B. and children several weeks. Mr. Beard and Francis Jones, left Wayne a month ago for an outing, hoping to travel by canoe from Sioux City to New Orleans, and rode the river and worked their passage with the paddles as far as St. Louis, where word came to Mr. Beard calling him back on account of the sickness of a son, who underwent a minor operation at Sioux City, and was just now able to come home. The two men have had a great trip, making 1,300 miles and over down the great river, and doubtless regretted that they could not have added miles enough to have made it 2,000 and visited the metropolis at the mouth of the "Father of Waters."

J. J. Ahern and two of his sales-ladies, Mrs. J. W. Brown and Miss Fox, went to Omaha the first of the week to purchase new goods for the Ahern store. James seems determined to keep the stock up, even if it is so tempting that the store is frequently raided at night. It is not his purpose to let the patrons of the place wait long for a complete stock from which to select gowns.

The Durfee clothing store at Pierce was robbed of about \$1,200 worth of clothing last week Sunday night, and no clue has been found to the burglars. Clothing for men and women have become so expensive that a new line of robbery appears to be developing. It was once the fashion to rob banks and jewelry stores, but now they appear to be escaping while what appears to be organized burglars are gathering from the shelves of the stores carrying silks, skirts, waists, furs and clothing. At present prices it seems to be no trouble to load a thousand or two worth of these goods in an automobile and disappear in the darkness, leaving no trail behind, except the dust. Mr. Durfee was for a short time a clothing merchant of this city.

In Four Trips Across America Essex Four Times Breaks Record

Carrying U. S. Mail Between San Francisco and New York It Sets a Mark for Consistency of Performance and Reliability Never Equaled by Any Traveling Machine

The first test of an automobile carrying U. S. mail across the American continent was made with the light weight, moderate priced Essex.

And it resulted in establishing the Essex as holder of the transcontinental record both ways.

The performance while of momentous importance in the world of speed and automobile sportsmanship—is of greater value to the motorist. For it removes all doubt about the reliability of light weight in the most difficult and hardest road service.

Records Prove What Others Know

Ocean to ocean automobile travel has not become so common as not to be of interest to all motorists regardless of the time required in making the trip.

Hundreds of cars have sought to set new time records between San Francisco and New York. But it has not been an easy accomplishment. The records broken by Essex had stood for four years.

It is not speed so much as absolute reliability that counts in such a test.

The car must keep going. No time can be allowed for delays. Roadside adjustments would make such a performance impossible.

And it is because the Essex held to the task its drivers set and met every road situation with equal efficiency that it today holds a mark never equaled by a traveling machine.

Your demands can not equal those made in the transcontinental trip. But you require equal reliance of your car, whatever the service imposed.

You also have no time to

give for repairs and adjustments when you have need for your car.

You want to know that no road condition will impose a halt on your motor trip. And Essex has in the consistency of its performance obtained a distinction not shared even by the costliest cars.

Does It Prove What You Want?

Light weight has meant economy of operation in fuel and oil. It has not particularly meant reliability, economy of maintenance, performance or comfort.

But Essex reveals how those costly car qualities are a part also of its advantages.

You have the praise of close to 45,000 owners, to guide you to the Essex.

You have official records of its 50 hours top speed performance as to its reliability. You have its record of 1061 miles in 24 hours on Iowa country roads.

And now you have this most coveted of all performances—the transcontinental record—made by four different cars. Can you hesitate in deciding for Essex?

First Essex

San Francisco to New York—4 days, 14 hours, 43 min.

Lowers Record 12 hrs., 48 min.

Second Essex

New York to San Francisco—4 days, 19 hours, 17 min.

Lowers Record 22 hrs., 13 min.

Third Essex

San Francisco to New York—4 days, 21 hours, 56 min.

Delayed by storms and Sunday road congestion entering New York. Yet did better by 5 hours, 35 minutes than former record holder.

Fourth Essex

New York to San Francisco—5 days, 6 hours, 13 min.

This car took a longer route and also ran into storms. Yet it broke the former record by 11 hours, 19 minutes.

The average time for each of the four Essex cars over 3347 miles Ocean to Ocean route was 4 days, 21 hours, 32 minutes.

On two different occasions this year the Hampshire haves topped the market at Omaha. Perhaps it would have happened more frequently, but there are but few Hampshire breeders who grow enough of that breed to have a full car on the market at one time.

Mrs. Anna Loeb, from Carroll, and her son, Marvin, were passengers to Sioux City Tuesday, going down to see if they might find some physician who could and would give the lad relief from a combined affliction of asthma and hay fever.

The Saturday rain which visited Wayne and vicinity would have been most welcome in some of the parched districts of the states east and north-east of us, where like the patient ill with fever, their constant cry is "Water, Water, Water."

Mr. and Mrs. John Berry, from Sioux City, have been visiting at the F. S. Berry home a short time; Mr. Berry putting in a little time directing some extensive improvements being made on his farms near Wayne in the way of new buildings for the convenience of the tenants. They returned home the first of the week.

Miss Henrietta Moler returned to Sioux City Sunday for one more year of school work in that place, at least, after spending a vacation with relatives and friends in this vicinity.

Roy Hurst, wife and daughters, from Malvern, Iowa, came last week to visit a few friends in Wayne vicinity, where they had made their home for several years, moving back to Iowa about five years ago. They found many a warm welcome here, and because of the Saturday rain failed to see all they would have enjoyed visiting with. Roy tells us that they have harvested a splendid small grain crop in that part of Iowa, and that they have the makings of a big crop of corn in sight, and that it will be of excellent quality if the weather man heeds the advice of the man with corn maturing, and makes the weather just right. They visited in the south part of the state before coming to Wayne.

Miss Sybil Dixon went to Sioux City Tuesday, after spending a few days here visiting home folks.

Miss Elsie Gilbert came home from a visit with sisters at Creighton Monday afternoon.

According to one prominent breeder of swine, a cross of Polands and Berkshires make a better animal for marketing than either of the breeds pure. More pork for less feed, is the meaning of that; but a farmer cannot continue to breed from the product of the cross and realize the best results—but the first offspring of the cross has often proven the more profitable animal to feed out for market.

Mr. and Mrs. M. S. Davies returned Monday from Rochester, where he has been for the past six weeks taking treatment and undergoing an operation. He may find it necessary to return after a few weeks at home—depending upon how much improvement he shows after a time.

Prof. J. T. House, who has been in the western part of the state, and in Colorado, during the past month, arrived home Sunday. Mrs. House came from Denver Saturday evening, and Miss Mary came a day or two later, having stopped at Bancroft Saturday for a short visit.

Did Cox make good with his charges as to republican campaign funds? From the squirming among those in high places, we judge that he did fairly well.

Yes, a fair is coming to Wayne, and we notice by the Lincoln papers that they are mowing the weeds along the parkings of our capitol city—and as we are soon to have a fair at Wayne that might be a good hint, and a lot of us should take the hint right away.

Production, distribution, marketing are the great problems of the day. Last year, according to report, the farmers of a state managed to make a saving for themselves or the consumers of more than \$5,000,000 by co-operative marketing, largely thru government county agents.

Cold storage figures do not indicate much of a meat shortage. There is but five per cent less beef in cold storage than a year ago, and the supply of cured meats is greater than last year. With meat prices where they are up to and meat on foot where

it is down to, we predict that meat consumption will be enough less that the shortage will not be felt except at the dinner table of the great masses of the people really make the business of producer and distributors possible.

Senator Borah, making political speeches regardless of the views of the party and candidates whom he is supporting, will be an interesting variation in politics. Politics as a whole would be immensely more interesting, and doubtless more useful, if all the campaign speakers were to say what they think instead of parroting the phrases and opinions prescribed as proper by party drillmasters.—State Journal.

Now that the transportation cost has been pushed up another notch wouldn't it be a wise policy to improve and make use of our waterways? It is a well known fact that transportation by water is much cheaper than by rail. The business of the entire country is slowed up because of lack of transportation facilities. It's a good time to begin on a comprehensive plan of inland waterway improvement, as the European nations have been doing for some years.—Blair Pilot.

The potato growers of the western part of the state are organizing to market their potato crop so that the commission men will not both buy and sell at their own price. Perhaps we do not get the cream of the Nebraska potato crop when they ship to a place like Wayne, but it has been the experience of a great many in this vicinity who have laid in a winter supply of the Nebraska potato, that it has failed to all be there in the spring. Dry rot has made sad inroads before new potatoes came again. It should be the endeavor of the grower to find a good variety that will so mature under ordinary weather conditions in the potato belt that this fault cannot be urged against the Nebraska grown spud.

We notice by the reports from the front porch that candidate Harding is going to scrap the league of nations and the treaty of Versailles and write a new peace pact and when he has been elected and inaugurated president he will present it to the troubled

nations of the old world as a sure cure for all of the ills of war-ridden Europe, Asia, and the rest of the world without in any manner obligating this greatest of world-powers to incur any responsibility. All Uncle Sam will have to do will be to snap his finger and "look stern" and all of the 34 nations who have been inveigled, bull-dozed or deceived into signing and approving the rank and unjust treaty rejected by a few United States Senators, will repudiate their solemn treaty as a scrap of paper and come right up and ask this nation with its new president to run the universe for them. Can you see them come?

Wool has declined rapidly since the war closed, and began to drop in price before the hostilities ceased—but woolen cloths have failed to recede. Perhaps it is because there is so much cotton in our woolen cloths—for the cotton men seem to have been better organized than the sheep men, and have held a better price on their product. Wool, according to a statement in the New Nebraskan has declined from a top of 70 to 90 cents a pound to 20 to 30 cents. When the combine cuts two-thirds of the price from the raw material they use, they should be able to cut at least half of the price from their finished product. Winter is coming, and we are about out of old clothes, in common with many an other poor devil, and are naturally much interested in not having to cloth manufacturers permitted to rob or freeze us. Perhaps Uncle Sam can and will put his foot down on daylight robbery some of these days.

THE TAX SYSTEM
When a man has built a barn—
Tax him!
When a man has cleared a farm—
Tax him!
When he lays another roof,
When he grows another hoof,
Hustle 'round and get the proof,
Then tax him!

Has a man some idle earth—
Don't tax him!
Though it's climbing up in worth—
Don't tax him!
Let him reap what others sow,
They are rather chumps, you know!

POLITICAL MEETING

Friday, September 3rd, at 8:00 p. m.
Wayne Opera House

Hon. Carl D. Thompson, of Chicago, Secretary of the Public Ownership League of America will give an address at the opera house in Wayne on Friday evening, September 3rd, commencing at 8 o'clock. Mr. Thompson is an orator of national reputation and one of the best Chautauqua lecturers in America. His lecture "The Fulfillment of Democracy" has brought him nation wide fame. He will speak under the auspices of the Independent campaign committee of Nebraska and will give the people of Wayne the facts about the platform adopted by the independents and progressives at Grand Island and the candidates now running on that platform. His main theme will be the destruction of the profiteer, special privilege and monopoly. The admission will be free but an offering will be taken to pay the expense of the meeting, and any balance remaining will go to the Independent campaign committee.—1.

COOK BOOKS HERE

The cook books have arrived and have more pages than was planned and the price will be advanced to \$1.10. Those having cards may send them in and a book will be sent. W. E. Beaman and family left Tuesday morning to spend the fair week at Mr. Beaman's old home at Rock Rapids, Iowa.

Ed. Schwank and family, from Madison, are here visiting at the home of Walter Lerner and family, the women being sisters.

Mrs. Warren Everett, from Lyons, left for home Wednesday morning following a visit at the home of Mr. and Mrs. Homer Seace, her daughter.

Mr. and Mrs. F. S. Berry and son, F. S. Junior, and Florence Owens drove to Sioux City Sunday to attend the circus, returning Tuesday.

John Parker and wife have moved to Wayne, where he plans to make headquarters while selling and distributing the Dr. Koch preparations.

Mrs. A. Heideman and daughters, Adele, Lilly and Ivy, from St. Louis, left for home Wednesday, following a visit at the home of Aug. Wittler and family.

Mrs. W. R. Ellis went to Bloomfield Wednesday morning to visit at the home of her sister at that place, and with her many friends in the town that was once her home.

Mrs. Harriett Norris and little nephew, Charles Heckert Norris, who spent a week or more visiting at the home of the little lads grandfather, Dr. T. B. Heckert returned to their home at Kansas City Saturday.

Mr. and Mrs. C. J. Martin, from Council Bluffs, Iowa, came Monday to visit here at the home of his brother, Fred Martin and family. Wednesday morning they left for Elgin to visit another brother residing near that place.

Thos. Rawlings was over from Wakefield a short time Wednesday, looking after business matters. He says it is his first visit here since he came near having his back broken in an automobile wreck nearly two months ago.

Mr. and Mrs. E. B. Young went to Fremont by auto Wednesday to attend a weeks conference of the American Sunday School Missionaries of three states, Iowa, South Dakota, and Nebraska. Both Mr. and Mrs. Young have a part in the program planned.

Mrs. A. A. Ihde and daughter, Ruby, stopped at Wayne Wednesday to visit at the home of her brother, G. A. Wade and family, for a short time while returning from a visit in Wyoming. They left for their home at Pierson, Iowa, Wednesday morning.

A representative of the Madison county Star-Mail says that he visited the farm of one of the noted breeders of that county, just at feeding time; which is one of the good times for a hungry newspaper man to visit the home of a prosperous breeder farmer.

Gomer Jones, of Carroll, has accepted the superintendency of the school at that place, the position being made vacant by inability of the one previously elected, he not being able to qualify for that school under Nebraska laws.

S. Ickler and wife left Tuesday evening for a vacation, going first to Newell, South Dakota, to visit a sister of Mrs. Ickler. They were accompanied by her mother, Mrs. G. Schearer, and a sister, Mrs. Ed. Holler, who have been visiting here. Later they plan to go to Wall, South Dakota, and visit at the home of the lady's brother, Richard.

PROPOSED CONSTITUTIONAL AMENDMENTS

SYNOPSIS OF THE PROPOSED NEW CONSTITUTION OF THE STATE OF NEBRASKA

SPECIAL ELECTION SEPTEMBER 21, 1920

This Will be the Most Important Election Ever Held in the State of Nebraska—Be Sure to Vote On Each of the Forty-One Amendments

TO THE PEOPLE OF THE STATE OF NEBRASKA:

The Third Constitutional Convention of the State of Nebraska, authorized by the people to amend or revise the existing constitution, met in Lincoln, December 2, 1919, and continued in session 74 days. A total of 336 proposed amendments were submitted and 41 received favorable action. These will be submitted to the people at a special election to be held Tuesday, September 21, 1920. The convention was unanimous in the opinion that the amendments should be submitted at a special election, thus avoiding the confusion that might result from submission at a general election held in a presidential year. Many meritorious measures submitted at great expense in previous years have failed when submitted at a general election.

The form of ballot permits a separate vote on each amendment and every voter should see to it that he votes on 41 amendments. An "Address to the People" with sample ballot attached, has been mailed to every elector in the state. In addition to this every voter who desires may get from the Secretary of State, county clerk or delegates a pamphlet entitled "Proposed Amendments" which gives full information in detail.

Following is a synopsis of the amendments, each being designated by the number appearing on the official ballot:

No. 1. Authorizes a five-sixths jury verdict in civil cases. This prevents many unnecessary retrials and saves expense for the public and litigants.

No. 2. Permits regulation by law of property rights of aliens. If immigrants want the benefits and protection of our government but refuse to become citizens their property rights should be protected. No. 3. Declares the English language to be the official language of the state and requires common branches to be taught therein in all schools. This insures future citizens a knowledge of our language.

No. 4. Reduces percentage in number of signatures required for initiative and referendum petitions and increases number of voters caused by granting suffrage to women makes this advisable.

No. 5. Divides counties entitled to two or more representatives or senators into districts. This shortens the ballot, distributes senators and representatives more evenly in the cities and provides representation for rural communities. No. 6. Provides that the number of state senators cannot exceed fifty. This permits the legislature to provide one senator for two representatives as the growth and needs of the state require. It does not prevent the reduction of membership in either or both houses.

No. 7. Eliminates the provision requiring the legislature to remain in session 20 days. Limits salary to \$100 for special sessions. This expedites public business and reduces expense by making it an object for the legislature to conclude its work as rapidly as possible.

No. 8. Requires a majority vote by "Yeas" and "Nays" on roll call for the passage of all legislation, including conference reports and amendments. This prevents hasty legislation, carrying in many cases large appropriations, in the closing days of a session when many members are absent.

No. 9. Prohibits appointment of members of the legislature to state offices. This prevents members from becoming beneficiaries of their own laws.

No. 10. Prohibits raising the salary of any public official during his term. This prevents lobbying for increased salaries.

No. 11. Reserves mineral rights in state lands, saves to the people the remaining natural resources.

No. 12. Eliminates obsolete legislative apportionment provisions.

No. 13. Provides for a board of pardons, an executive budget and continues the present state officers. Pardon board includes governor, attorney general and secretary of state. Its action must be based on application, notice, a full hearing and a complete record. Sound public policy demands that one convicted of crime should not be released without a hearing and recorded facts sufficient to warrant clemency. An executive budget insures appropriations based on actual needs, prevents log rolling and avoids hasty consideration and waste.

No. 14. Creates the office of tax commissioner and provides a board of equalization. Will prevent many inequities now existing and more fairly distribute the burdens of taxation.

No. 15. Revises and simplifies the procedure of courts; enables the supreme court to sit in division, the chief justice to sit with each division. This will obviate delays, reduce expenses of trials and prevent appeals without merit.

No. 16. Requires concurrence of five-fifths of the Council to declare laws unconstitutional, thus safeguarding the will of the people and insuring stability of law.

No. 17. Provides for election of supreme judges, except chief justice, by districts. This insures representation to all parts of the state, shortens the ballot and enables voters to be more familiar with qualifications of candidates.

No. 18. Provides for equal suffrage, answers the demand of enlightened public sentiment in state and nation and renders justice to women.

No. 19. Allows soldiers to vote when absent on duty, preserves the rights of citizenship to men who are in military service.

No. 20. Provides for equitable distribution of state school funds and for minimum term of school as a condition for participation therein. This safeguards the interests of children in small districts.

No. 21. Prohibits the sale of school lands except at public auction, thus insuring the maximum price if the state should decide to sell its school lands.

No. 22. Provides for election of University Regents by districts. Insures more state wide interest and representation for the university.

No. 23. Prohibits state aid to sectarian institutions and prevents requiring any religious test from teachers or pupils. This is declaratory of the well accepted American doctrine of separation of church and state.

No. 24. Raises the age for admission to the reform school from 16 to 18 years. Provides corrective training for young offenders rather than penitentiary sentences.

No. 25. Brings the board of education for normal schools under the constitution instead of under a statute. This will stabilize the teaching profession and give the normal schools constitutional recognition along with the university and common schools.

No. 26. Provides uniform taxes on tangible property and franchises, permits classification of other property and permits taxes other than property taxes. Intended to reach property now escaping taxation. Covers the whole field of taxation and will undoubtedly apportion tax burdens more evenly.

No. 27. Substantially continues present tax exemptions, including those relating to property of religious, educational, charitable and cemetery associations, except when used for profit. Also exempts \$200 of household goods for each family. This makes the old section more clear and more equitable.

No. 28. Places county tax limit at 50 cents on \$100 actual valuation, raises the law certain and fixes fair limitation on counties.

No. 29. Prohibits changes in county boundaries except by majority vote in counties affected, except for the purpose of correcting irregular boundary lines.

No. 30. Requires public utility corporations to report to the Railway Commission, thus provides better corporate control.

No. 31. Prohibits the consolidation of competing public utility corporations without permission from the Railway Commission and only after public notice, thus protecting public interests.

No. 32. Provides that the authority of public utility corporations. No dividend to be declared except out of net earnings and after providing a depreciation reserve sufficient to maintain equipment and service. This will result in maximum service and minimum rates.

No. 33. Permits metropolitan cities to adopt present charter as home rule charter if 75 per cent of the voters so desire. Recognizes the principle of local self-government which is fundamental in a republic.

No. 34. Insures the control of corporations and prevents the issue of stocks and bonds except for full value; also permits co-operative companies to limit voting power and stock holdings of members. Complete control of corporations by the state and recognition of co-operative and mutual companies are manifestly in the public interest.

No. 35. Defines priority rights in water and provides constitutional protection thereto because of its necessity for irrigation purposes.

No. 36. Protects public rights in the use of water power against private control. The best engineers believe it possible to develop 600,000 h. p. in the state through the use of the water in our streams. This should be conserved for the use of the public.

No. 37. Provides that laws may be enacted regulating the hours and conditions of employment of women and children and securing to them a minimum wage. Insures protection to the mothers and to our future citizens.

No. 38. Provides that the legislature can create an industrial commission to administer laws relative to labor disputes and profiteering. This is not self-operative and any law would be subject to referendum. The authority of the state to deal with such matters in some way should be unquestioned. Therefore, it was deemed advisable to submit this amendment.

No. 39. Permits amendments to the constitution by a majority vote thereof, provided the same is equal to 25 per cent of the total vote cast. This places the constitution under the control of the people and this simplified method of amendment will avoid the necessity for future constitutional conventions.

No. 40. Provides for temporary salaries for state officers until otherwise fixed by law.

No. 41. Eliminates obsolete sections of the constitution and provides for a continuing schedule.

Each of the proposed amendments has received the earnest and careful consideration of the convention and we recommend all of them to the people of Nebraska. We believe that their adoption will not only modernize the constitution and simplify our system of government, but will also result in a more efficient and economical administration of the public business.

Respectfully submitted,
A. J. WEAVER,
President of the Constitutional Convention.

FISHING IN BOYHOOD DAYS

Glorious Time When Mother Kept Supper and Praised the Five Little Sunfish.

The city man who was the country boy of yesterday closes his eyes a few minutes and lives over again a summer afternoon of long ago, notes the Milwaukee Journal. A day when his little crowd, equipped with enough worms to feed a school of fish, betook itself to the pool where it was annually reported and fervently believed the big bass were hiding.

They didn't get big bass. Bites came slowly, and those they landed were little sunfish. Is there anywhere in any lake a muskie big enough to give him as great a thrill as those little sunfish? He was late to supper, but there was supper kept for him. And mother didn't scold. She was pleased as punch, and told him to hurry and clean the fish, and she would cook them. And she did.

No other grown person praised his catch. In all the world he and mother alone recognized how worth while those five little sunfish were. And yet it didn't seem wonderful that she didn't ask him where the bass were. That was what other people did.

It was a wonderful day, but as he looks back on it, he sees that the wonderful thing was not the little string of "boy's fish," but the mother who was so pleased that she stood over a hot stove cooking them. How glad she was to do it. How happy she would be if she could do it again, today. But she lives too far away now.

We wonder if he remembers to write and tell her of his discovery—his discovery that mother's heart was big enough to make his little fish a splendid catch.

FOREST ON DRIFTING SANDS

Frenchman's Ingenuity Has Made of Waste Place a Region of Fertility and Usefulness.

In the southwest corner of France, between the rivers Adour and Garonne, are long stretches of pine woods, green and cool. Where these pines now stand was a barren waste in the middle of the eighteenth century. Sun and wind vied with each other in making the land drier and dustier. Over the stormy bay of Biscay came winds that set up great sand storms and sometimes buried whole villages. But at last there came along a man who acknowledged fate only as something to be overcome. His name was Bremonther and he was an inspector of roads. He began fencing in the desert. He built a fence and behind it planted a handful of broom seeds. Behind the broom seeds he put seeds of the pine. The fence protected the broom seeds and the broom grew. Then the broom in its turn afforded shelter to the delicate pine shoots. Soon the pines spread and their tough roots bound this sandy soil together. The first step was accomplished. Then canals were made to drain the wet parts and carry water to the dry.

Ammonia From the Air.

A syndicate has been formed to establish a nitrogen factory for the manufacture of ammonia synthetically from the nitrogen of the air, says the American Chamber of Commerce in London. The syndicate has purchased the extensive site in County Durham which the British government acquired more than two years ago for the purpose of building a factory. The capital required will be \$325,000,000. The process to be adopted, says the American chamber, will be on the principle of the German chemist, Haber. Nitrogen and hydrogen will be combined into ammonia under pressure at a high temperature, the ammonia then being converted into nitric acid or other nitrates as may be required either for the manufacture of explosives or for use as fertilizers.

Must Not Disturb Swans.

Even the highest in the French Republic must bow before the edicts of the French protocol, as Mme. Deschanel, wife of the president, learned when she objected to the presence of five white swans in the Elysee palace ponds. The swans, Mme. Deschanel admitted, were very beautiful, but nearly every morning early they disturbed the rest of the president's household, and therefore she inquired whether they could not be removed. The chief of the protocol found that sixty years ago a clause was written in the protocol which provided that not less than five swans must be kept in the Elysee palace grounds, for the feeding of which the keeper of the presidential gardens was responsible.

Had Identity Many Months.

Miss Gwendoline Farrar, who inherited a fortune of several million dollars from her father, Sir George Farrar, the Rand millionaire, who was one of those sentenced to death by Boers for taking part in the Jameson raid, is one young woman who can keep a secret. For more than a year Miss Farrar has been appearing on the London stage, and only recently was her identity discovered by accident.

Canada's Soldier Police.

The Canadian Northwest mounted police is one of the most noted organizations of the character in the world because of the efficiency of its service, which was established nearly 50 years ago. Recently the headquarters of the organization have been changed to Ottawa and the size of the organization enlarged and the territory covered by the scarlet-coated officials has been greatly increased.

FINED \$100 AND COSTS

The trial of DeFord, Peck and Grubb drew a crowded house at the courtroom Friday. As counsel for the trio Mark J. Ryan demanded a jury trial because of the active participation of Judge Flynn in the arrest of his clients. The county attorney objected to a jury and Justice H. S. Smith was called into the case. Each defendant was convicted of possession of liquor, and in addition Mr. Grubb was also convicted of taking orders for booze. The prisoners were given their option of a fine of one hundred dollars or thirty days in jail. Mr. Grubb has paid his fine and costs; DeFord and Peck are without funds thus far. Peck will have to remain because he has no bondsmen on a charge pending against him in District Court of non-support of wife and child.

His honor says that the case is one of the best built on circumstantial evidence that he has heard; that all the evidence fit perfectly and excluded the possibility of the guilt of any persons other than the defendants.

Early the next morning Sheriffs Rutledge and Young, County Judge Flynn and County Attorney Smith raided a real still and some "foaming brew" near Decatur; the prisoner, Ernest H. Osterman, came back to Pender with the officers and pleaded guilty the same evening.—Pender Republic.

THAT HOME CIDER

According to a statement just given by United States District Attorney Allen, any person may without permit and without giving bond, manufacture non-intoxicating cider and fruit juices.

Such non-intoxicating cider and fruit juices, however, must be used exclusively in the home and when put to this use the phrase "non-intoxicating" does not necessarily mean less than one-half of 1 per cent alcohol. Mr. Allen's statement, made in response to many inquiries, adds:

"A person making cider can sell the same at any time to persons having permits to make vinegar or he may sell to anyone for use so long as it contains less than one-half of one per cent alcohol, but the purchaser cannot use or possess the same if it contains more than one-half of one per cent alcohol.

Cider in the home may be allowed to turn to vinegar if the owner desires, provided he adds no sugar or other fermentable substance to the cider to increase the alcoholic content. He may sell the cider to anyone who may desire to purchase it."

WHAT IS A CHIROPRACTOR?

A Chiropractor is a person who, after being duly educated in the Science of Chiropractic and trained in the proper application of the art, uses his bare hands in contact with the various processes of the vertebrae (small bones of the spine), to effect a peculiar adjusting move to realign the subluxated (displaced) units and release the nerve compression. When this compression is released, the life force flows uninterruptedly to the various organs, and HEALTH is the result. The effect has NOT been treated, but the CAUSE has been adjusted. GROWING BETTER

"The difference between 'the pit' of the grain gang and the 'roulette wheel' of the slums," says the Co-Operators' Herald, "is only in name and social standing. One the law recognizes as respectable, the other disreputable." The Herald is right in the main, but perhaps it forgot that six months ago a Minnesota court held that grain gambling was gambling and refused to help a little grain gambler to col-

lect a debt of honor from a commission firm. It has big business sanction only, which is above the law-Exchange.

Of the many sins and crimes charged against Candidate Wray, who is being run for governor, the New Nebraskan is authority for saying that he is not for Union Labor. The Nebraskan and Will Maupin have decided that much, to their own satisfaction.

Listen, good friends, and you shall hear why some Cigarettes are so all-fired dear

SOME cigarettes are packed in pretty boxes that certainly don't grow on trees. Next, they're dolled up—and flavorings are sure getting expensive. And then, they're priced a bit high so they'll seem "exclusive." But read how Spur Cigarettes offer the highest possible quality at the lowest possible price:

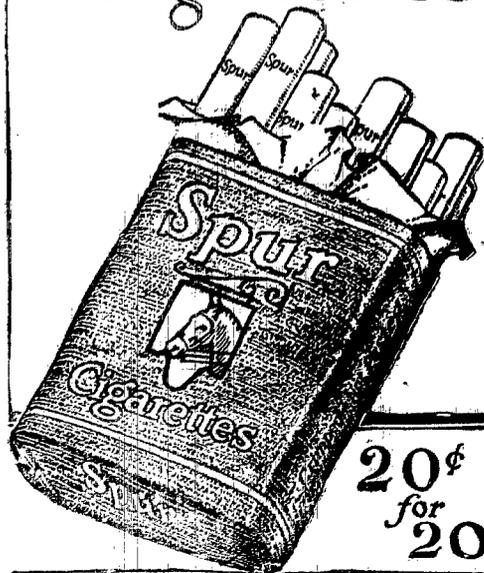

If there are any finer tobaccos from the Orient and the good old U. S. A. than those selected for Spurs, they must be a secret that the world has never heard. And when we got these combined in Spur Cigarettes, what do you suppose was the result? Just the best taste and aroma that any cigarette could give, and Willie Doll-up or Freddie Flavoring hadn't a thing to do with it.

Spur is "class" all through—even to the smart "brown-and-silver" package, triple-wrapped, that keeps Spurs fresh and fragrant. Try out a package of Spurs. You'll say "made and priced for popularity."

STUDYING FARM PROFITS

Not two weeks ago the editor stood and listened while two farmers—or at least men with farm interests predominating in their business affairs—and we listened. In their opinion the farmer is getting the raw end of the deal, the hot end of the poker, so to speak. They said that the sky is the price limit on what the farmer must purchase, and that he must sell what he produces for what others will pay, and that they were not paying enough, considering the cost of production. They said that the farmer was entitled to figure into the cost a reasonable interest on his investment, a bit for a sinking fund to take up the natural wear, and a wage. That all seems fair, considering that most any well-managed, prosperous business figures these things in before thinking that they have a profit.

The editor tried to do a little thinking, something not generally supposed to be necessary to run a paper, and he could see no flaw in their line of talk. We wondered, as we have in reading of other lines figuring interest on their investment, on what basis they figured investment. These men bought land at a much less price than it sells for today. Which price are they to use in figuring investment? Railroads seem to have two sets of figures as to investment or valuation. One on which to claim dividends and another for the assessor. One is what they paid—the other is the value given by the public—the unearned increment.

But opening the mail soon after hearing this talk the following report caught the eye and brought the conversation back to mind, so we give you the report as well as the thought expressed in their neighborly talk:

Farming Profitable Half the Time

"Statistics being gathered by the College of Agriculture indicate that farming in the South Platte section of the state has been profitable two of the last four years, including this year. The figures came from farmers who kept an accurate account of their business. A good many farmers made money in 1917 while many lost money in 1918 and 1919. As an example, the college cites a case of a typical farmer who has kept a careful record of all his transactions for four consecutive years. Allowing 5 per cent interest on his investment, this man made a profit of \$816 in 1917. In 1918 he lost \$1,882 and in 1919 he lost \$1,507.85. His profits this year probably will be good. The figures are considered con-

servative. For instance the \$816 profit in 1917 was all the man received for his year's labor, with no pay for his wife and children. Likewise 5 per cent interest on his investment is conservative. The four years, however, with the exception of this year, were not well favored with moisture and the crops were not up to normal in that part of the state in which the farmer lives. Nearly 30,000 farmers are keeping records of their business this year and the College of Agriculture is gathering data from these records as to the profitability of Nebraska agriculture and the value of Nebraska land."

P. S.—The men referred to above are retired farmers who have made good in this part of Nebraska. One has been counted a republican and the other a democrat. We do not think either of them belong to the nonpartisan league. But they are not satisfied. What remedy would they propose?

STOP THAT PLUNDER!

On behalf of the common people—the people who have to work and sweat and save to make a living—The Herald demands that this iniquitous profiteering stop and that the cost of living be reduced. There is no reason in theory or in fact for the present outrageous prices of everything, and it is time to call a halt. It is time that the capitalists and the profiteers were forced to quit robbing the public, and that the common people were given a square deal. If there are laws against these things, they should be enforced; if there are no laws, they should be enacted; and if the laws we have are ineffective, then more drastic measures should be applied. At any rate, it is time to stop parleying, theorizing, temporizing and discussing, and get down to business.—Hartington Herald.

Many people are of the same mind—some suggest one remedy and some another. When the people get about so badly exasperated some one comes along with a remedy which looks plausible and people in their desperation are persuaded to act—feeling that they are willing to try anything once. It is this feeling which has made the growth of the nonpartisan league possible. They present a remedy—or at least claim that they do. Now Brother Stone may have another remedy—perhaps a better one. We hope he has; but in the mean time many people are watching the plan of

the league as being fought out in North Dakota. They would fight monopoly with state competition. Some in this state would like to try the plan, and suggest that the state make and sell sugar at cost, plus a sinking fund to pay for the plant in a

series of years. The Herald editor is right in shouting against the evil, and the members of the league can hardly be blamed for making a trial if they believe they have the remedy.

Miss Bessie Hiscox returned Tuesday from a three weeks visit with relatives at Madison. Will Hanssen and family returned Sunday from their trip to Minnesota by car. Remember the political talk about the profiteers at the opera house Friday evening. Misses Loretta Mae and Zetta Fae Buetow spent the first of the week visiting the homes of Alvera and Ruth Carlson, northwest of Wayne. All who believe in free speech should come and listen to a free lecture on economic questions at the opera house Friday evening this week. It may pay you well for the time. George Smith, who underwent an operation at a St. Louis hospital a few days ago for some gathering in the head, is still in a critical condition, according to the latest reports, with the final results in grave doubt. Mr. and Mrs. Harold Lewton and daughter, Barbara Jane, and Mrs. Maurice Mather, from Sioux City, are visiting at the home of the latter's parents, Wm. H. Buetow and wife, after attending the fair at Concord. A great many people in this vicinity may have their curiosity as to what the Independent progressive program in Nebraska proposes by attending their public meeting at the opera house Friday evening—a free lecture—adv. A great many people have little real first-hand knowledge of the proposed program of the Independent Progressive movement in this state, and there is to be a chance to hear their presentation of their case at the opera house Friday evening. Those who care to be posted should attend—adv. It is possible that you have been misinformed as to what the Independent progressives are trying to do for this state, and it is but fair to at least hear their side of the movement at the opera house this Friday evening. The women voters should attend, as a woman candidate for congress is announced as one of the speakers. P. L. Bollen was called to southwest part of the state last week to address a few political gatherings. He reports that it was represented to him that the Farmer-Labor ticket is popular in that part of the state, and has promise of hearty support. Of course, being a candidate, one has a poor chance to get some real sentiment, for a lot of fellows are all things to all men. Chas. Graff, from Bancroft, was a Wayne visitor Wednesday morning, from here driving to Pierce with Geo. McEachen to see the big show now on at that place. Mr. Graff is the nominee on the democratic ticket for the state senate from this district, and he may be making a bit of politics in this visit—or at least letting the people see him, and find out his attitude on questions of state. A. T. Cavanaugh left Wednesday morning on a combined business and pleasure trip to the western part of the state and eastern Colorado. Mrs. Cavanaugh and her mother accompanied him as far as Central City, where they plan to spend a week. James McEachen is also with the party, and the two men plan to spend a number of days in looking over the country around Sidney, and possibly go on to Denver and the mountains. Today and tomorrow the Wayne Motor Co. is putting on a Fordson farm demonstration at the James McIntosh farm a mile and one-half north of Wayne. Perhaps a dozen Fordsons will be busy showing the many farm uses to which this power may be applied, such as threshing, baling hay, cutting ensilage, grinding feed, plowing, disking, harrowing, manure loading, and other labor saving uses. Crofton, Allen, Pender, Wausa, Ponca, Hartington, Emerson, Bloomfield, Laurel and Homer dealers are to assist the Wayne dealer in the showing. Good road improvement work is moving all the time. One of the big road enterprises of interest in this corner of Nebraska is the Yankton bridge over the Missouri river, for both rail and wagon traffic. At a meeting of stockholders last week it was decided that the time was at hand to ask for bids on the structure. The completion of a bridge at that point should easily double the tourist travel this way over the federal highway between this city and Hartington. Many towns in this part of Nebraska have representatives in the company who were at the meeting. We notice by advertising being given out that Mrs. Marie Weekes, candidate for congress from this district, is to be one of the speakers at a political meeting at the opera house, Friday evening, the 3rd. This will be an opportunity for the women of Wayne to meet one who may be chosen to represent them at Washington in the next congress, for there is a triangular contest on in this district and people who know conditions and the trend of public sentiment are not at all sure which side of the triangle may prove the more popular. At any rate, the women of the vicinity owe it to one of their sex and to themselves to hear the lady talk. Read the advertisements.

HOSPITAL NOTES

Nurses Lyle Clayton and Ethel Barton spent three days observing the work at the Mayo hospitals at Rochester. Dr. Lansing of Wakefield, was a business visitor Sunday. Walter and Ella Smith, of Dixon had tonsils and adenoids removed Saturday, and so did Esther and Glenn Prouce, of Emerson, and David Johnson, of Concord. Mrs. Clavis Voss, of Emerson, was brought to the hospital Sunday and the index finger of the right hand removed. The hand had been caught in an electric ringer and badly mangled, but it is thought the rest of the hand can be saved. Mrs. W. D. Hughes came from Orchard for examination and treatment this week. Mrs. R. Wagner is a medical patient this week, and Henry Hennerich begins a course of medical treatment this week. He has been ill since leaving the army. Miss Mabel Anderson, a nurse, from Sioux City, was a visitor this week. Wm. Carstine, of Winside, who underwent an operation for ruptured appendix is to leave this week. X-ray patients were Elizabeth Jensen, of Winside, Mrs. Bryan Kloppling and Milo Krimple, of Wayne, Arthur Wilson, of Bloomfield, and Herman Roggenbach, from Pender. PEOPLE GRAFTED ON PIONEERS The following items were taken from the Peoria Journal in August, 1931. Last week two men went through the southern and central parts of the county, selling clothing, by sample. They had sample cases, and proposed to send the goods from Chicago to purchasers. Their prices were very low, because, as they said, the clothing was part of a bankrupt stock. The cheapness of the goods induced quite a number to buy. The peddler seemed quite fair, for they would not take any money from a purchaser. All they wanted was the purchaser's note. Now the probability is that such purchasers have been bitten. In several of the counties of Iowa, lately, two peddlers (perhaps these are the same) went through the country and through the people as well. They sold clothing by sample and took notes, which afterwards would be found to be for from two to ten times the amount they were intended to be given for. Then the peddlers would sell the notes to a bank who would collect the notes. Then the purchaser would curse. He would also have to pay. We are afraid that those who gave their notes to the peddlers last week will find they have been badly nipped. Yesterday's Sioux City Journal says that a train of four wagons and 100 head of cattle from Martin county, Minnesota, passed through on Tuesday, bound for the Logan valley. A squad of ten Indians and six squaws came into town yesterday afternoon and started in to get up a war dance. They commenced operations at Lewis' corner in this manner: Four bucks sat around a big drum and drummed thereon, and sang a very pathetic song something like this: "Hi och, hoh oh ho, Hi och hoh, hoh oh hi, Hi och hoh, hoh oh ho, Hi och hoh, hoh oh hi." Then two bucks with their faces painted and tomahawks in hand, proceeded to prance into the ring. They jerked themselves almost into pieces as they executed the mazes of the dance, they jingled their bells, spat the earth with their feet, and shook their tomahawks in a wild and blood curdling manner. After these interesting feats, they stopped and the boss Indian passed around the hat. The collection was not as big as was expected, and hence the warriors, getting mad, gathered their blankets around them, picked up their big drum and tore out of town. THESE UNITED STATES (From the Beater) A great many of our own people delight in fostering the idea that these little old United States face dismal days ahead, and they've been harping on this pessimistic theory ever since the war ended. Do you know that the United States has only 6 per cent of the population of the world and only 7 per cent of the land? And yet we produce: 20 per cent of the world's supply of gold. 25 per cent of the world's supply of wheat. 40 per cent of the world's supply of iron and steel. 40 per cent of the world's supply of lead. 40 per cent of the world's supply of silver. 50 per cent of the world's supply of zinc. 52 per cent of the world's supply of coal. 60 per cent of the world's supply of cotton. 60 per cent of the world's supply of copper. 60 per cent of the world's supply of aluminum. 66 per cent of the world's supply of oil. 75 per cent of the world's supply of corn. 85 per cent of the world's supply of automobiles. We also refine 80 per cent of the world's railroads. Before the war we owed other nations \$5,000,000,000. We have not only paid this debt, but foreign nations now owe us \$10,000,000,000 and we hold the largest gold reserve of any nation in the world.

STATE HOLIDAYS AND OTHER DAYS RECOMMENDED FOR "FLAG DAY" OBSERVANCE

(From the Nebraska School Laws) The following days, viz: 1—The first day of January known as New Year's Day. 2—The twenty-second day of February, known as Washington's birthday. 3—The twenty-second day of April, known as "Arbor Day." 4—The thirtieth day of May, known as Decoration or Memorial Day. 5—The fourth day of July, known as Independence Day. 6—The first Monday in September, known as Labor Day. 7—The twelfth day of October, known as "Columbus Day." 8—The twenty-fifth day of December, known as Christmas Day. 9—Any day appointed and recommended by the governor of this state or the president of the United States as a day of fast or thanksgiving. 10—Any day which may hereafter be made a legal holiday, shall for the purpose of this act, be holidays; but if said days herein be the first day of the week, known as Sunday the next succeeding secular or business day shall be a holiday. 11—The state superintendent of public instruction also recommends the following days as "Flag Days": February 12, Lincoln's birthday; March 1, Nebraska's admission to the Union as a state; April 15, Death of Lincoln (half mast); April 19, Inauguration of the first president of the United States; October 19, Surrender of Cornwallis; and December 20, the landing of the Pilgrims. As far as practicable we trust the above named days will be observed in the respective schools of the state by appropriate exercises and instruction of the character especially suitable for the respective occasions. So far as schools are concerned the statutes of Nebraska make no provisions for legal holidays. A teacher, in the absence of any provisions upon the matter in his contract, would have no authority to close school upon the so-called holidays, without being legally required to make up the time so lost to the district. However, a district board has authority to make provisions for closing school upon such days and in case the board directs that school be closed upon any specified day, the teacher would legally draw pay for such time.
