

The Nebraska Democrat

ESTABLISHED 1884

WAYNE, WAYNE COUNTY, NEBRASKA, THURSDAY, SEPTEMBER 28, 1922

\$1.50 PER YEAR

MRS. L. C. GILDERSLEEVE, PIONEER WOMAN DIES

This morning, Thursday, September 28, 1922, Mrs. L. C. Gildersleeve, who has been in failing health for a number of years, and been cared for at the hospital for the past two months, passed away at 4:30 o'clock.

Lyle Reynolds was born at Elkader, Iowa, July 15, 1866, and came with her parents to Wayne county at the age of 16 years, and has since been a resident of this place. She was united in marriage to L. C. Gildersleeve.

To this union two sons, Harry and Donald, were born, both living, and daughter, Hazel, who passed at the age of two and one-half years. She leaves beside husband and sons her mother, Mrs. Mary Reynolds, and brothers and sisters as follows: Mrs. C. S. Bebee of Wakefield, Chas. Reynolds of this place, Clyde Reynolds, Delos Reynolds, Mrs. Rollie Ley, Mrs. H. B. Craven and Mrs. A. C. Gildersleeve. A brother, Ray Reynolds, died about three years ago.

Mrs. Gildersleeve was an earnest, efficient woman, a teacher in the schools of the county, an active worker in the church and Sunday school. She was for years a member of the Methodist church of this place, and until failing health hindered her work was a leader in their good work, and especially active in the Sunday school, where she was very popular with those who were members of her class. She will be missed by many besides the immediate family.

The funeral service will be held from the Methodist church, Sunday afternoon at 2:30 o'clock.

MINERVA CLUBS FIRST MEETING

The Minerva Club held its first meeting of the year at the country home of Mrs. H. J. Miner. A one o'clock covered-dish dinner was enjoyed by the members after which the first study lesson was taken up by Mrs. S. A. Lutgen. She gave the introductory lesson of a group of three on Practical Psychology based upon the book "Every Man a King" by Marden. The lesson was not only interestingly presented, but brought out a line of discussion which was very profitable to all. Miss Marion Miner very pleasantly entertained the guests with both vocal and instrumental selections after which the club as a whole enjoyed community singing.

At the close of the regular club session, the ladies were taken about the farm by Mr. Miner where they inspected the prize winning stock of purebred hogs and cattle. After a visit to the orchard, a delicious luncheon was served before the guests departed for their homes.

The initial meeting was truly a feast of good things and promises a most successful club year. The next meeting will be October 9 with Mrs. Beaman hosts.

BIBLE STUDY CIRCLE

The Study Circle was entertained this week at the home of Mrs. A. E. Laese. Miss Pearl Beeks led the lesson which opened the series in the book of Luke and promises to be very interesting.

A report was given of the meeting held by Messrs. Legters and Denwiddie at the Dutch Reformed Indian Mission at Winnebago, Nebraska, where over fifty Indians came out into the glorious liberty of Jesus Christ, some from lives of drunkenness and debauchery almost past believing. Their own personal testimonies were given in power and observed a miracle of grace has been wrought in their lives the past week.

Some letters of interest have been received as follows:

Miss White writes of a fine new Sunday school organized near Rosalie together in beautiful fellowship, and where she has found a place of testimony.

Mr. O. R. Palmer, whom Wayne friends will delight to remember, writes feelingly of his extended trip through Russia and brings to light the unparalleled conditions of suffering among Jews and other of that land.

Mrs. Wm. Christie sends word of the famine that is raging along the Libetan border carrying off thousands by starvation and disease and appeals for prayer help for the multitude of suffering ones there.

The next meeting will be with Mrs. A. P. Gossard and as many new calls are coming for prayer it is desired that everyone should come promptly.

PHOTOGRAPHS DAY OR NIGHT

Photographs made Day or Night at Newberry's Studio.

THE FAR EAST

A crisis—a volcano liable to become active is noted in the far east. The Turk is out for blood, and his action and attitude on questions involving territory and lives is uncertain. The Turks have been successful in a war with Greece, and one of the results is told as follows in the evening papers:

Athens, September 27 (U. P.)—British and French ministers have sent a note to the Greek government suggesting that Greek warships be removed from Turkish waters where their presence is hampering the prospects of peace.

Mustapha Kemal, leader of the Turkish nationalists, yesterday protested against the presence of Greek ships in the Bosphorus straits. King Constantine was forced to abdicate the Greek throne in favor of his son, Prince George, following a bloodless revolution of his armies who demanded that Greece wage a finish fight on the Turks to prevent them from occupying Thrace.

Greek warships and large forces of soldiers that have cast their lot with the revolutionists, led by Colonel Gonates, are reported to be moving on Athens. The greatest disorder prevails there and the country, as far as can be learned, is without government, the cabinet being out of power just before Constantine's abdication.

The morning papers state that Kemalists agree at the 11th hour to British proposal for neutral straits. But the Turk wants Thrace before peace parley with Allies. They ask recall of British troops while their troops are still occupying strategic positions.

It is a situation uncomfortably near—and a way which might easily involve the world, once it is started.

Secretary of the Navy Denby has ordered a dozen destroyers to proceed at once from Norfolk to Constantinople, with extra supply of provisions and be ready to protect Americans in need of help.

ATTENDING NATIONAL G. A. R. ENCAMPMENT AT DESMOINES

A number of Wayne and Wayne county old soldiers are this week taking advantage of the fact that there is an opportunity to attend a meeting of the national organization without traveling far from home this year—and so a number have gone to meet once more with the soldiers they were with nearly sixty years ago. R. P. Williams, Dan McManigal, Jack Hyatt and Chas. A. Bagert from Wayne left Sunday morning. Messrs. A. B. Carter, C. Lowry and A. Chapin from Winside are also among the visitors at Des Moines, if their plans all carried. Mr. Carter went Friday, in order to be there in good time.

GOES TO PENITENTIARY FOR ENTICING GIRL

Pender, Nebraska, September 25—Glenn Foltz held by Judge F. D. Fales to the district court, on the charge of child stealing, was brought before Judge Guy T. Graves here. Foltz entered a plea of guilty and was sentenced to one year in the state penitentiary. He was taken to Lincoln by Sheriff A. H. Maskell. Foltz was charged with enticing a young Pender girl to Neligh, where they both secured work.

ATTEND LEGION MEETING

A large delegation from the local American Post, left last Sunday to attend the state convention at York. They were accompanied by several members of the Ladies Auxillary. The entire group made the trip by auto. Those attending are, Mr. and Mrs. Roy Carter, Guy Francis, Rodney Garwood, Clarence Woods, William Hennessey, Ruth Bartells, Mrs. Dr. Meier, Fred Weiringer, John Gemmel, Mr. and Mrs. Hirsch—Carroll Index.

THE SAVIDGE PLAYERS

The Walter Savidge Amusement company is closing the season of 1922 at Wayne this week, and giving good plays, as they always do. Their audiences have not been overly large yet, for it is a busy time, and many people had seen most of their plays here the opening week. Last evening one of the new plays was presented to a good house. "Safely Hypocrites and Honest Sinners" is one of the very popular plays and has done much to give occasion for volunteer endorsement. Mr. Savidge reports good season—better than last year.

WAYNE COUNTY TEACHERS' INSTITUTE SEPTEMBER 29-30

The 1922 annual session of the Wayne County Teachers' Institute will convene in the high school building in Wayne at 9 o'clock, Friday morning, September 29, and continue in session two days.

All persons teaching in Wayne county are required to attend. The law says: "The schools shall be closed during the time the institute is in session and teachers' salaries shall not be suspended, but they shall be paid their usual salaries in full by their board for such time as the school or schools shall be closed while teachers are in attendance at the institute."

Institute Faculty

W. E. Sealock, Ph. D., professor of history and principles of education University of Nebraska, Lincoln.

Miss Mas E. Schrieber, Boston, Massachusetts. Miss Schrieber is doing institute work this fall in several counties of Iowa and Nebraska. She will have the primary work.

Dr. Emanuel Sternholm, noted clergyman, social worker, author and lecturer, Boston, Massachusetts.

Harry E. Bradford, A. B., A. M., professor of agricultural education university of Nebraska, Lincoln.

Miss Muriel E. Thomas, instructor in music and drawing in the Wayne schools, will have charge of the music.

The daily program begins at 9 o'clock, and the time of each half-day session is divided into 30-minute lessons and lectures, and the last periods both morning and afternoon are given over to sectional meetings, and the teachers will attend where the work in which they are most interested is taken up. The program promises an interesting and profitable session.

OFF TO THE HILLS

Chas. Shephardson, who has been employed in this part of Nebraska for many years as printer or editor, and who has for the past year or two been a part owner of the Pierce County Call, and editor of the same, tells us that he has sold his interest to his partner, the former editor, and purchased the newspaper at Buena Vista, the county seat of Chaffee county, Colorado, and is to take possession without delay. The recent owner of this paper passed to his reward a few months ago, and Mr. S. thinks he found a real field awaiting him in Colorado. Mining and smelting make the chief occupation for people in that part of the state, tho there is a limited amount of agriculture in the valleys. The population of the town is now much less than it was when the silver mining was in full boom in that part of the west—but while many people moved away, the really substantial business remained. All wish Shephardson success.

WOMAN CLUB MEETING

The Women's Club met Friday, September 22, at the Community House. Community singing opened the program.

Mrs. Oman, as leader, gave a paper on noted living American Women. Mrs. H. H. Hahn, on Ida M. Taffel. Mrs. James Miller on Anny Marcy Beach. Mrs. Anna G. Johnson on Jane Addams. Mrs. Huse on Mrs. Winters. Mrs. Lutgen on Gene Stratton Porter.

The women are requested to send in their selection of 6 eminent living American Women, Details found in September number Pictorial Review.

The afternoon was a very profitable one and much enjoyed. Next regular meeting will be held October 13th. New members most welcome.

BAUMAN-CARROLL

Mr. John Carroll of this place and Miss Ella Bauman of Fremont, were united in marriage at the Catholic church at Fremont Tuesday morning, September 26, 1922.

Miss Bauman, attended the Normal here last summer, and taught school near Pender last year. Mr. Carroll attended the Normal for a short time and has been employed in the Judson furniture store for the past three years.

The young couple will make their home at Sioux City. Mr. Carroll has many Wayne friends who wish them well.

Get a Columbia Graphophone for a Christmas gift. A. G. Bohnert, Phone 284—adv.

W. C. T. U. CONVENTION WAYNE, SEPTEMBER 29

The annual county meeting of the members of the Woman's Christian Temperance Union, is to be held in the basement of the Methodist church Friday afternoon, and members and delegates from the Union at Carroll will be entertained by the ladies of the Wayne union.

The afternoon train from Carroll is due at 1:35, and the meeting is to convene promptly at 2 o'clock, giving those who come by train opportunity to appear at the business session, which is first on the program. The details of the program have not been given for publication—but there will be six numbers—three each from each union.

These annual gatherings are of much interest, and here the members and their leading workers gather in fraternal and ideas for the coming year work. We will venture the assertion that there will be a bit of political discussion at this meeting—the women are now voters, and realize that with the opportunity to vote comes the responsibility—and to meet that requires study of economic questions and of candidates and what they will do if given responsibility.

At the close of the meeting a covered dish luncheon will be served.

SCHOOL NOTES

The domestic science girls have spent the past two weeks canning fruit and vegetables. They have canned pears, peaches, plums, apples, carrots, beets, peppers, and tomatoes, using the cold pack method. They have also made jellies, conserves, and marmalade. Part of their canned fruit and vegetables are left in the school cupboard for class use this winter.

A group of loyal and peppy rooters went to Emerson with the football team to help win the game.

Reports from members of last year's faculty show the following: Miss Derby, substitute teacher in the Cleveland Public schools, Miss Ingham, student at the Iowa Agricultural college at Ames, Iowa. Miss Koester, still traveling in Europe but expects to resume her work in the sixth grade room soon. Mr. Crabtree, director of Manual Training in the Denver high school. Mr. Schroer, student in University of Nebraska where he expects to receive his degree. Mr. Shirey, proprietor of a book store at Burbank, California also partner of the California Printing Co. and Radio Publication at Los Angeles.

A debating class has organized to develop material for the team, which is to be chosen next semester. Miss Goodrich will be in charge of the debating again this year.

Glee club has been organized and will meet every Tuesday evening at seven o'clock for the present.

Albert Soules and Mabel Nichols entered school Monday making the assembly enrollment one hundred and ninety-five.

A Radio class has been reorganized this year. There are nine boys interested in the work.

The new seats which have long been expected have arrived. They will add greatly to the comfort and convenience of the students.

At a recent business meeting Charles Senter was elected business manager of the Athletic club. Alton Rippon, Christine Weber, James Holt, Ray Finn and Don Anderson were selected as yell leaders.

BIG RECEPTION FOR PASTOR

The Welsh Presbyterian Church tendered their pastor, the Rev. W. O. Jones who has just returned from a trip to the Holy Land, a splendid reception in their church parlors last night. Practically the entire membership was present, each one presenting some little token of their esteem in the old fashioned way of a pound social.

Rev. Jones left Tuesday for Pender where he will attend the session of the Niobrara Presbytery. —Carroll Index.

MORE AND BETTER WATER

At the regular meeting the city council took the first steps toward sinking a 10-inch well in the north part of the city, where they have had a pump running for a month on a small test well to test the supply and also know the analysis of the water after the pump had been running long enough to be assured that the water it brought up represented the lower strata of water. It is said to be a better water than that produced from the present wells.

AUCTION SALES ANNOUNCED

The sale season is here, and auction sales are becoming common just now. This issue of the Democrat tells of several sales. One of the important ones to the community is that of H. J. Miner and C. A. Bard at the Miner farm just south of Wayne. This is an offering of 65 head of Spotted Polands—and the first offering of the kind in this part of the state, so far as we are known. The claim is for many good points for this particular branch of the hog family. This offering has some of the best individuals and breeding of this comparatively new claimant for breeder attention.

Farmers should read their adv., investigate the merits of the offering by a personal visit to the farm sale day.

On Two Saturdays there will be separate lots of cattle offered at the sale pavilion. One commences at 1:30 and consists of an offering of 250 head of yearlings and a car of stock hogs and a car of draft horses Geo. Kinnikin is owner. This is October 7th.

Saturday the 29, J. M. Ellenburg puts up 200 head of cattle and 175 head of good western range grower pigs—all ready for the corn. His offering of cattle are of particular value to farmers, because of the high grade of the offering of heifers.

Then there is the auction sale of furniture at the Gaertner store to watch for. This will be the chance, perhaps for the young folks who want to fit out for housekeeping at their own price.

Then will come an offering of eleven car loads of good white face cattle at private sale. These cattle are due for Saturday delivery, and are of good breeding. One beauty about this offering at Wayne lies in the fact that this county has an abundance of feed, and it is very probable that the grain product of the farm will bring double the price in beef and pork that it would if hauled to the elevator and shipped to market as grain.

No one in need of feeders of either hog or cattle should pass Wayne up this week. More than 1,000 head of cattle going to feeders and farms.

Another good sale is that of Poland Chinas—30 head of boars from the herds of Gus E. Paulsen and Jno. M. Peterson, of Carroll, at the Carroll sale pavilion Thursday, the 6th. These herds are too well known to need any special comment at this time. They are immuned, and are the big-boned kind, and of March and April farrow.

TEACHERS COMING TO WAYNE

Will find the store for women fully stocked with a most complete line of women wear—much of it brought especially for their inspection during the institute time, when they must be at Wayne. Here they may find all things for women wear. Dresses of popular weave and made in latest styles. Coats for fall or winter, of the latest patterns. Shoes in all popular lasts, with latest fads—and really serviceable shoes. In millinery, you may see the new pattern hats for winter—all the fancy shapes. Come and investigate, for here you can procure complete dress. Mrs. Jeffries—adv.

NORMAL JUNIOR CLASS ORGANIZE

At a class meeting the first of the week the Juniors of the State Normal and Teachers Training School organized by electing Paul Crossland president, Bon Moran vice president and John Ahern secretary-treasurer. E. J. Huntener was unanimously selected as class sponsor.

Mrs. Clara Gustafson, who went from Wayne about three months ago to visit her native land, Sweden, came home the last of the week. It was forty years since she came to America, and she says that many things in the mother country appeared much as she remembered them.

CANDY AND FOOD SALE

Saturday afternoon of this week, by the ladies of the Baptist Society at the Central Market, you may have opportunity to procure home made candies and home baked bread, cakes, etc. Come and get a feed—adv.

S. Fox and wife, who were called here from their Randolph home two weeks ago by the sickness and death of her parents, Mr. and Mrs. Robert Skiles, returned home Wednesday evening. It is their plan, if arrangements can be made, to move to Wayne and live at the home place in this city.

NE HIGH LOSES PRACTICE GAME TO EMERSON

Quite a few football fans accompanied the Wayne High school football team to Emerson, where the High school team of that place engaged our men in a game preparatory to the beginning of the regular season.

The Wayne team, confident of victory, after receiving the kick-off, carried the ball by a series of line plunges and forward passes to their opponents' 10 yard line. Here, by a bit of hard luck, the ball changed hands, and from then on Emerson was able to stave off any further attempts of the Wayne team to score.

Emerson played straight football, except for one goal from a drop-kick while Wayne completed several passes, two of which were good for 30 yards or more. In number of first downs, Wayne made seven as compared with six for Emerson.

The final score was 22-0 in Emerson's favor, resulting from three touchdowns, one goal, and a goal from a dropkick.

A remodeling of the team and more strenuous practice constitute this week's work, in readiness for the game between Wayne and Pierce scheduled for Friday, September 29, at Wayne.

The team, under the supervision of coach Kraus, is bubbling over with enthusiasm, and expects a large band of rooters to be at this game, and be there backing them, for they are determined to win or, if bested, to fall fighting to the last.

SOCIAL NOTES

The ladies of the country club had a happy afternoon Tuesday. The afternoon was spent socially and playing 500. The next Tuesday afternoon meeting has been postponed.

The members of the Coterie were happily entertained at the E. E. Fleetwood home Monday. Current events were discussed for the program, and refreshments were served by hostess. The next meeting will be with Mrs. C. A. Orr.

The Hebrews Circle is having fine attendance and interest and the book is opening up wonderfully. Meets with Mrs. E. B. Young Friday evening, at 7:30. Welcome to all.

The aid society of the Methodist church will hold its regular meeting Thursday afternoon at the church. Election of officers will take place, and plans for the new year will be considered. In the evening the ladies will serve the refreshments at the reception being held in honor of the minister, Rev. John Grant Shick and family.

The (30) thirty member club came with well filled baskets and surprised Mr. and Mrs. Will Beck, September 22. This being their wedding anniversary, the evening was spent in games and music, after which lunch was served.

WHO WILL BE OUR "NASBY" NEXT FOUR YEARS?

Below we give the call sent out by Uncle Sam, asking those who want the job as postmaster at Wayne to make application and get ready for the civil service examination. It is a very nice plum; these times, and beyond a doubt a goodly number will take the examination. Under the civil service rules the best man, or woman, is supposed to be called to the place, but they tell us that under the present administration, some one has the final say as to which of three candidates will receive the position. Under this rule it has been going to some one who belonged to the party in power; however, one may take the examination, regardless of political affiliation. The real notice follows: "The United States Civil Service Commission announces an examination for the position of postmaster at Wayne, Nebraska. Applications must be properly executed and filed with the United States Civil Service Commission Washington, D. C. on or before October 17th, 1922. For further information application blanks apply to John M. Brisben, Secretary Local U. S. Civil Service Board, at the local post office."

One of the educational features for teachers at institute may be seen in the Mrs. Jeffries store. It is of ready-to-wear garments of all kinds for ladies—adv.

James Edgell, who has been in the employ of O. P. Hurstad & Son for a year or more, left Monday morning for his home at Lyons.

Miss Mabel Hanson was over from Norfolk Saturday, returning Sunday morning. She is one of the teachers in the city schools of that place.

W. B. Vail and wife, accompanied by Prof. Martin, motored to Norfolk Sunday, and visited friends there a few hours, returning in the evening.

Corn was out of danger of injury from frost, ten days ago, and there is very little vegetation that will hurt after the middle of September in this country.

Mrs. Henry S. Heckert from Lexington came Friday for a short visit here with Dr. T. B. Heckert and his daughter, Mrs. Paul Mines. She left Tuesday.

Another use has been found of the auction. At Laurel local dealers put out an auction sale of used cars, advertising about a dozen and a half cars and trucks, of different makes.

Laurel country club is getting things in shape for fun. An expert at golf was out from Sioux City last week and laid out a golf course, and then he pronounced his work good, and said that the Laurel grounds are naturally good, and that the course is one of the best in this corner of the world.

It is many people as usual went from Wayne to the fair at Sioux City this year as in some other years they did not go by train. The passenger traffic hardly showed a ripple above normal. Of course the roads were favorable for motoring, and many went that way—but the cars headed that way did not seem as numerous here as in some other years.

Cream, eggs, poultry bought by Fortner.—adv

Elmer-Bloomberg, who has been at Sioux City for a number of weeks, came to visit at Wayne, the last of the week.

At a Farmer Union picnic at the W. W. Olson home last week Sunday, Harry LuX from Lincoln was a speaker.

A series of special meetings at the Swedish Ridge M. E. Church 12 miles north of Wayne closed Sunday, after two weeks. Rev. J. Munson from Lincoln has been assisting the pastor, Rev. Gabrielson.

W. H. Fischer, who has been harvesting and threshing in the Cheyenne Wells country in Colorado, returned home Monday morning. He tells of good crops in that part of the wheat growing country in the west.

Mr. and Mrs. J. H. Boyce returned Friday from a ten days trip spent at Mason City, Iowa, where they visited their son Harold, who is in school work there. They report good road going but on their return trip had to fight muddy roads part of the way. Crops in that part were reported good.

Miss Mary Fleming, for eighteen years a teacher in the Laurel schools, died at her home at that place September 16th, after an illness of two weeks, which followed a longer period of gradually failing health. The funeral was Monday from the St. Anne's church, and Rev. Father Kearns of this place took a part in the funeral service.

Miss Maria Johnson, from Stockholm, Sweden, was a visitor at the home of Rev. and Mrs. Gabrielson, twelve miles north of Wayne, and left Friday for Oakland, where she will visit a short time. She is a delegate to missionary meeting to be held at Hutchinson, Kansas, shortly. This lady has served for a number of years as a missionary in India, and was home on furlough to recuperate in health. From Sweden she was sent as a delegate to this country, and before returning she is also to attend a great missionary meeting in one of the large eastern cities—

Boston, we believe. She has been a guest of Miss Anna Gabrielson, daughter of Mr. and Mrs. G., while here, she too being home on a furlough after twelve years missionary work in India, where the two women became acquainted. They are to meet at Lincoln soon and together go to Kansas and then to the convention in the east.

For a market for poultry, eggs and cream, remember Fortner.—adv

Good 6 1-2x12 body Brussels rug for sale at reasonable price, Mrs. F. L. Neely.—adv.

C. A. Grothe, who was in North Dakota looking after the threshing and caring for the grain on his farm in that state, returned last week. He says that they have only a fair crop in that state as he saw it—and in his vicinity wheat was good quality, and made around 12 to 15 bushels per acre. He did not say much about the price—but we all know that is nothing to brag on these days.

There was quite a family gathering Sunday at the L. A. Fanske home, when his sisters and brother and families came from Pierce for the day here. The party consisted of Mr. and Mrs. Frank Drebert, son Eugene and daughter Lorene; Mr. and Mrs. Ole Cogle and son Dick; Mr. and Mrs. Geo. Drebert; Mrs. Emma Drebert and Mr. and Mrs. E. B. Fanske, all of Pierce; and Mrs. W. A. Ramsdell from Los Angeles. Mrs. Ramsdell and Mrs. Emma Drebert remained for a more extended visit.

Mrs. Evans was down from Carroll the last of the week, and said that they had just received word from her brother, Wat Williams, in California, saying that he was quite seriously ill. The nature of his illness was not told in the message; but as he had previously suffered a stroke of paralysis it is feared that he is again afflicted in that manner. Mr. and Mrs. Williams formerly lived in this county, and near Wayne. Many friends of ten years ago are hoping that he rallies and again has good health.

Take your cream, eggs and poultry to Kearns.—adv.

These are quite times for railroad travel. The depot is no longer a good place to look for items of the going and coming of people. It would bring better returns in news items to stand on one or two of the highways leading out of town and interview those who go by motor. When a "spotter" makes four trains a day without a news item, because they are not there, looks as tho the railroads had best begin to put railroad fare back to the 2-cent rate, or take off half of their trains. And that would so impair service that all would travel by auto.

WANTED—To rent a house, 5 to 8 rooms on or before last of September. Phone No. 39 or call at Wayne Cafe.—adv. Aug. 31st.

John Skiles, who was here to attend the funeral of his brother Robert Skiles and wife, left for his home at Des Moines, Iowa, Friday.

LOCAL AND PERSONAL

Mrs. J. S. Gamble returned last week from a visit at the home of her son Arthur Norman, at Thurston, accompanied by his wife, who visited here a few days, and returned home Friday.

I have a brand new 33x4 Lee Cord tire which I will sell at a bargain. I have bought a new car which uses a different size tire and this is the reason for selling this new tire. Dr. A. D. Lewis. Phone Ash 491.

F. C. Plaghuas aged 51, a Randolph farmer near here suffered a broken leg and severe body bruises as a result of being knocked down by a car in company with neighbors he was driving cattle and had just turned the herd into his farm when several of the cattle turned back into the road. In his endeavor to head them off he ran in front of the car which his neighbor was driving the cattle with and the above accident was the result.

R. A. Dunn and wife drove to their old home at Villisca, Iowa, last week for a day or two visit with home folks, and to look after some business matters. Mr. Dunn says that the corn crop in that part of Iowa, and that is their chief crop, is a regular bumper. All in the clear of frost, and a really big crop for that county, where less than 40 bushels per acre is not considered much to speak of.

Thos. Rawlings of Wakefield was a Wayne visitor Monday, coming over on the morning train, keeping company with Congressman Evans, who was coming out to look his fences over. Perhaps Mr. Rawlings was able to tell him that he should have that of these days, and the people at home when he was down in Washington voting a tariff tax on the people. Perhaps he should make some explanation of his vote for the present railway legislation—such as the Esch-Cummins law.

BASE BURNER FOR SALE—Large stove, in good condition. I go to the new house with furnace. Come and see. Mrs. Schuster, on Main street—adv—tf.

SERVICE SATISFACTION REASONABLE PRICE

E. H. DOTSON EYESIGHT SPECIALIST Wayne, Nebraska Only Optician in Wayne County Registered by Examination.

Want a New Ford Truck?

It is too light for our use. A really honest-to-goodness truck, complete, with Cab, Wind Shield, and tripple box. We secured it in a trade, and it is offered at a price that will quickly sell it. Quick action, or you lose to some swifter man. Come and see it.

Mitchell & Christensen Monument Works Phone 68 Wayne, Nebraska

Dr. Ashby of Sioux City dropped off the west bound passenger last Saturday for a short chat with the editor who happened to be standing there, and he said that himself and wife had just come home from a trip to the wonderspot of America—way out where civilization has not yet spoiled things. In the brief time the train tarried we did not get that place or places they visited very clearly impressed on our mind, but we know the Doctor talked about the mountains and the glacier—and that the best way to get there was to walk and climb—or that one might take a burro part way or let the animal take him is the better way to say it. Fishing was good—four kinds of trout were there, and they had not been angled for until they knew more about fishing than the average tourist. The gentleman said that in most of the famous fishing streams he had previously visited, the tourist was the only fish found—and that he is the sucker. The tourist said that he had been on this trip where the earth crust appeared to have been heaved up, and the broken edges turned up on top so that one might scramble along over a mile or two of the broken edge and see just how the strata had been before the hot air forced its way thru the crust. Oh, yes, the doctor was going to Winside to see if his farms in that vicinity are all right. They were, he told us on the return trip—but he had lost one eye on the farm trip—that is one glass from his spectacles, and he was about as blind until he got a new glass as tho the eye was really gone, as it is his misfortune to be near-sighted. He still has faith in this country, tho it may not be as fine a climate for hay fever as the mountains—up near the line of perpetual snow.

SUCCESSFUL SCHOOL YEAR AT TEACHERS COLLEGE

Most of the old faculty are at their usual places, says the Goldenrod, and a number of new names have been added to the list.

Miss Helen Wehrli of Lincoln is supplying for the first semester in the Latin department and as preceptress of Terrace Hall, during the leave of absence of Miss Elsie Ford Piper. Miss Wehrli is a graduate of the university of Nebraska and has taught at Central City.

Miss Lettie Scott of Plainview is the assistant in the junior high school taking the place of Mrs. Lottie Walsworth who is on leave of absence working for her master's degree at Greeley, Colorado. Miss Scott received her A. B. degree from Greeley this summer. She has also attended school at Nebraska Wesleyan, Fremont College and the state university. For seven years she was county superintendent of Pierce County and for the past three years has been supervisor of the intermediate grades in the training school of Midland College.

Professor J. G. W. Lewis is on leave of absence working on his doctor's degree in the University of Chicago. During his absence Professor Bowen has charge of the history department.

Professor H. W. Bruehl is in charge of the mathematics department. Mr. Bruehl holds his A. B. degree from Northwestern University. He has had a number of years experience as high school principal and superintendent.

Professor W. T. Orr of Greenfield, Indiana, is assisting in the department of education. He holds a master's degree from Indiana University and is well qualified for the work he is doing.

Mrs. L. F. Beery, a graduate of the Sargent School of Physical Education and of Harvard University is in charge of physical education for girls. The classes meet every day and the work is divided between theory, general playground work, folk dancing, games and swimming.

New students who have difficulty in remembering the names or departments of faculty members will find in the following a complete list of all members of the faculty:

Administration U. S. Conn. President, School Man-

- agement W. T. Orr, Assistant in Education Elva B. Brockway, Secretary Clara E. Smothers, Registrar Grace Johnson, Assistant Registrar Department of Professional Training H. H. EMERSON I. O. O. F. HOLDS ANNUAL BANQUET

The Odd Fellows of Dewey lodge celebrated their second annual chicken supper last Thursday evening at their hall in Emerson. About sixty-three linkers were present and participated in the festivities. Prior to the banquet Superintendent Bixler and Prof. Clark were given the lessons of the initiatory degree. The Noble Grand of the grand lodge, was present and complimented the degree team upon the efficiency with which they exemplified the mysteries of the degree. He also praised the members upon their splendid quarters and home they had erected. Brother Childs, father of Brother C. C. Childs, of Illinois, was a visitor also. He has been a member of the Independent Order of Odd Fellows for the greater part of his life. These annual affairs are growing more popular every year, and are looked forward to with enthusiasm as one of the big events of the year.—Emerson Enterprise.

ELECT CHARLES BRYAN—HE IS EXPERIENCED

That is the answer Nebraska people will give in November to the following question, propounded in an editorial in the State Journal:

"What can the state of Nebraska do to keep within reason the price of coal to its people? The federal fuel distributor warns the governors that after coal has crossed state lines the reasonableness of the prices charged depends upon the state. The federal government can exert an influence on the cost at the mine. The distribution is for the states to look after. This would probably take care of itself if coal were given the publicity to which it is entitled. The mine cost of each grade of coal can be published. The freight cost can be known. This puts it within the power of the local consumer to figure for himself what the distributors are charging for their services. Given such full publicity, the price of coal would probably then reduce itself to reasonableness, granted only that the federal fuel distributor gets it started from the mine at a reasonable cost."

CARD OF THANKS

We desire to sincerely thank the people for their many acts of kindness, attention and assistance during the illness and death of our loved ones.

Mrs. Jessie Fox, Mrs. B. P. Skiles, C. C. Hurley and the Grandchildren.

October 4

On October 4, 1922, we will sell one of the largest offerings of Spotted Polands that will be sold this fall, at the

Fairview Farm One Mile South of Wayne, Nebraska

consisting of bred sows, sows with litters, spring boars and spring gilts, about 65 head in all. We will pick these hogs from 300 head and will satisfy you regardless of what you want.

Herd boars in service, English Boy, 37357 tracing back to the old King of England, and the Gates Leader blood. Silver Eagle 2nd 62825 combining the blood of Arch Back King 11410 and old Silver Eagle 5729—Some Breeding, Nehaukas Best 19287 by King-Spot B, and Obena 4th, another richly bred boar. Long Jack the straight Big Type boar by Leopard spot, a bogardus dam.

Sows in Service: A few standard, a few by Buckeye Boy, a few Big Type and several English, the young stuff will be out of these great sires and the combinations of dams.

Two boars by Queen Arch Back and a silver Eagle Dam, 3 boars by Fields, Giant Corrector boar. Space prohibits us from going into detail further, but a word to the wide awake breeder is sufficient. Be with us sale day and see more spotted hogs than you have ever seen in one bunch.

If you can't attend send a bid to D. H. Cunningham, W. H. Neely or Sam Ward, they will fill your order.

Spotted Polands

about 65 Head In All

Field Note

It will be worth your while to attend this sale whether you want to buy or not as Mr. Miner is also a breeder of Polled Shorthorn cattle and will be pleased to show you them as well as the spotted hogs.

WAYNE MARKET REPORTS

Following are the market prices quoted us up to the time of going to press Thursday:

Table with market prices for Corn, Oats, Springs, Hens, Roosters, Eggs, Butter Fat, Hogs, and Cattle.

Ford says that coal is going down. His advice to the people is to buy only what is now needed. That the price must tumble, is his opinion.

An investigation of the Herrin, Illinois killing has been made, or partially made, and the report makes it appear that the state and local authorities, President Lewis of the miners union and mine owners are in part responsible for the murder.

The political campaign has started in Nebraska, and it will grow warmer and warmer and hotter until the day before election. There is much at stake in the coming campaign, and it will be hotly contested.

SECURES GUN GRANDSIRE BORN IN REVOLUTION

Hon. George L. Loomis recently got back to the city from a three weeks' visit to his boyhood home near Chautauqua, New York, after an absence of eight years.

and saw again the city where—and Mr. Loomis well remembers the time—Messrs. Vincent and Miller first inaugurated their great idea of the Chautauqua.

Still doing service upon the old farm, Mr. Loomis found the ancient barn, which was one of the first structures his father had built on the place eighty-nine years ago.

Yet another landmark Mr. Loomis was gratified to find still standing near the old home was a rural school building, known far and wide as the "checker-board school house," so-called because it is painted after the scheme of a checker-board in alternating red and white squares.

During his visit to the home farm, which is now occupied by a couple of the Fremont attorney's nephews, sons of the elder brother who succeeded the late sire in ownership, Mr. Loomis secured a most interesting and valuable relic in the shape of the old flint-lock musket which his great grandfather Loomis carried through the Revolutionary war.

Mr. Loomis brings back the report that the New York fruit crop this year is one of the most abundant he ever saw. Apple, peach, pear and plum trees back there were so heavily loaded with fruit this season that they had to be propped and repped, and even then many of the trees broke down under the weight.

SOME NEWSPAPER HISTORY

R. G. Welsell announces in a recent issue of the Corning, Iowa, Free Press, that he has been with the publication for 22 years. In a reminiscence vein he says that "during that time I have seen all the newspapers in southwest Iowa either 'turn up their toes to the daisies' or change hands, many of them several times."

The above is from the Publisher's Review, of Des Moines, Iowa, and tells of a man well known to the publishers of The Democrat. The junior member of this firm served a part of his apprenticeship under instruction of R. G. Welsell.

NOTICE TO CREDITORS

NOTICE OF HEARING

In the County Court of Wayne County, Nebraska. In the matter of the Estate of Mary Skiles, Deceased. The State of Nebraska, Wayne County ss.

To all persons interested in said Estate:

You, each and all, are hereby notified that Jessie Fox has filed a petition in said court alleging that Mary Skiles departed this life intestate on or about the 18th day of September, 1922, and praying that Rollie W. Ley be appointed administrator of said Estate. Hearing will be had on said petition before me at the county court room in Wayne, Nebraska, on the 13th day of October 1922 at 10 o'clock a. m. (sec.) J. M. Cherry, County Judge.

They were discussing that joke about getting down off an elephant.

"How do you get down?" asked the joke-smith for the fourth time. "You climb down."

"Wrong."

"You grease his sides and slide down."

"Wrong."

"You take a ladder and get down."

"Wrong."

"Well, you take the trunk line down."

"No, not quite. You don't get down off an elephant; you get it off of a goose."—Junior World.

"Fight on, fight on; we're gaining ground. The price of things is coming down."

A. C. TOWNLEY EXPLAINS

"BALANCE OF POWER" PLAN

Sunday evening, at South Norfolk under the auspices of the Norfolk Progressive Educational league, which holds regular meetings at South Norfolk, A. C. Townley, organizer of the non-partisan league, appeared and explained the present league attitude as to the present political situation in Nebraska.

Be that as it may, we saw an ordinary appearing man when he appeared before the audience, an hour late, for he had traveled by automobile more than 130 miles and delivered a speech since the noon hour that day—and had a bit of ear trouble.

Karnl Steffen, reporting for the Norfolk News gave a good review of the talk, and much of the following is taken from his report as it appeared in that paper.

He said it took him eight years to learn that it is impossible to get the farmers and working men together so they will cast votes enough to defeat any other party.

Must Use Old Parties "We can't hope to elect our candidate to office when we have not enough votes to do that," the league leader said, "but we can elect one of the candidates from the other party and eliminate the big politicians with our balance of power."

Townley used the blackboard to illustrate how futile was the fight for complete power by the Non-Partisan league. "The man who still thinks he can get the farmer and laborer together so that they will cast more votes together than any other party, is a third party man, because he has not found out it can't be done," Townley said.

the manufacturers, jobbers, wholesalers, etc., professional men, courts, jails, army and politicians were against the league. He said the capitalists were opposed to the league because they feared it would interfere with their business and the politicians were opposed to the league because they were afraid they would lose their jobs.

He then used four members of the audience as illustrations of the various parties, the Republican, the Democratic, Non-Partisan league and the third party.

Likens People to Ox The Non-Partisan leaguer had a new method of facing his audience. He had a manner of staring over the crowd in silence for a period of time which sometimes grew embarrassing.

He chided them for not using their intelligence, and in the story of the ox which pulls the heavy burdens without thinking, he flatly told the people that politically they have acted that way.

He asserted that the government protects the business of those who control the government, he asserted.

ed. He flayed the Esch-Cummings law, the ship subsidy, the protective tariff which he declared is a law to keep prices high.

Cites Lincoln's Example He declared the people of Lincoln recently voted in favor of a municipal coal yard and that the courts ruled against it and that the people decided to change their charter and voted for municipal coal yards.

NOTICE OF HEARING

In the County Court of Wayne County, Nebraska. In the matter of the Estate of Robert H. Skiles, Deceased. The State of Nebraska, Wayne County ss.

To all persons interested in said Estate: You, each and all, are hereby notified that Jessie Fox has filed a petition in said court alleging that Robert H. Skiles departed this life intestate on or about the 13th day of September, 1922 and praying that Rollie W. Ley be appointed administrator of said Estate.

LOCAL AND PERSONAL

Take your cream, eggs and poultry to Kearns.—adv. tf.

Grand Lodge, Degree of Honor meets in Omaha October 10-12.

Mrs. F. B. Rockwell left Monday for Le Mars, Iowa, where she will visit with her parents.

Miss Sadie Harvey, went to Ponca, this morning to attend the teachers institute, at that place.

Osteopath practitioners of Nebraska are figuring on establishing a \$1,000,000 hospital in Omaha. A committee, has been named to finance the project.

District No. 2, Nebraska State Teachers' association meets in Omaha October 12-13.

Mrs. Wagner and daughter Rose from Carroll were greeting Wayne friends Tuesday.

H. C. Fuhrman of Hoskins was a Wayne visitor Monday, and was a caller at this office.

A. J. Lindstrom from Chicago, was a guest at the W. R. Ellis home last week for a few days.

See A. G. Bohnert for the very latest in records—music is fine for the long evening—adv.

C. A. Odegaard who has been with Grandquists family returned to his home at Hudson, South Dakota, this morning.

Take your cream, eggs and poultry to Kearns.—adv.

C. Stapleman and family from Belden were Wayne visitors Tuesday.

Mrs. Chas. Hamilton, went to Norfolk Monday and spent a few days visiting with her parents.

A tract of land, 266 acres just to the west of Omaha has been sold for \$157,000. It will be platted into acreage.

FORD TRUCK FOR SALE:—Truck in good condition, and priced to sell. Call Wayne Phone 446. Henry Korff—adv.

October 21-22 the Nebraska Forestry association meets in Omaha. Mrs. J. H. Corrick, Palsade, Nebraska, is secretary.

I. M. Hamilton and his daughter, Mrs. L. A. Novak and little son, were Wayne visitors Sunday, coming over to visit sons here.

In one week during the hot spell early in September the Omaha Municipal stations sold 2,994 tons of ice on the cash and carry plan.

Hugo Splittberger went out to Van Tassel Saturday evening to visit his brother Emil and look after his land in that part of Wyoming.

Sam Davies was taking a lay-off the first of the week, nursing a cold, but is again on the job, looking after the wants of those who read.

A 250,000-gallon pump has been installed at the Poppleton avenue pumping station, Omaha. It cost \$40,000. Going to take water?

Mrs. Clysdale, of Colorado Springs, who has been here visiting with her sister Mrs. James Rennick, left Wednesday morning for Norfolk where she will visit with relatives, and from there she will visit with her daughter at Panama, and will returned home from that place.

See our wonderful line of Men's and Young Men's overcoats. \$18.50 to \$40.00. Morgan's Toggery.

There is to be a wedding this afternoon at the Wm. Wroble home south of Wayne, when his sister, Miss Adella Wroble becomes the wife of John Menka, of Beatrice. We understand that the groom has rented a farm in this county, and that their home is to be here.

O. A. Harker, wife and daughter Julia, who were here from their home at Puryear, Tennessee to attend the Bressler-Main wedding left for home this morning. They have been guests at the home of her parents, J. T. Bressler and wife, and at the Wm. VonSggern home, her sister.

One of our exchanges tells what a wonderful business one of their stock farmers had been doing, and closed the story with the statement that he had not the slightest knowledge what his venture had netted him; but think he had a neat little sum left and states that this is proof of what can be accomplished even in these days of strife and discontent. Sure enough, the farmer fed a lot of cattle and hogs, and had some more hogs left, and no one knows the financial result. It may break him. Such things have happened.

Harold Sears is reported on the sick list this week. Throat trouble.

Miss Aradith Conn went to Norfolk Wednesday for a short visit with friends.

With the rail and coal mine strikes ended, prospects of an Omaha fuel shortage has rapidly disappeared.

September 15 Omaha banks had \$117,489,057, a gain of more than \$2,000,000, over June 30 the date of the comptroller's former call.

There will be no meeting of the ladies at the country club next week, but it is expected that the regular meeting will be held a week later.

FORD TRUCK FOR SALE:—Truck in good condition, and priced to sell. Call Wayne Phone 446. Henry Korff—adv.

Wm. Benshoof and his son Perry came over from Winside Wednesday morning, to visit son and brother, Fred Benshoof. Perry belongs at Van Tassel, Wyoming, when at home.

Dr. S. A. Lutgen returned Tuesday evening from a visit at Harrold, South Dakota, where he was a guest of Forrest L. Hughes for a day or two, and says that hunting was pretty good along the Missouri river bottoms. Plenty of grouse, chickens and ducks. The Doctor had a good time while there, but says that one loses too much time on the road—the train service being far from speedy.

Chas. Schellenberger, who lives between Winside and Hoskins, was a caller the last of the week, being out on a preliminary survey of the political field, he having been selected as the progressive republican candidate for the legislature at the late primary. Mr. S. is a farmer rather than a politician, and he said that he found but little encouragement for his candidacy among the Wayne people with whom he has but slight acquaintance.

R. R. Smith was visiting at Cole-ridge Wednesday, and looked on at the big hog sale there that day. Said it was a good offering, but in his opinion, they did not bring the prices they should. If that be true, it was a good thing for the buyers. That is one of the beauties of an auction sale. One may often strike a real bargain—especially where a sale is not thoroughly advertised. It is numbers of bidders that help make a sale a success.

Mr. and Mrs. George Porter returned Tuesday evening from a 10-day visit at the W. I. Porter home near Broken Bow, where they went by car. When they returned they were accompanied by Mrs. W. I. Porter, who will remain for a visit with relatives and friends in this county, and Wednesday went to Sholes to visit her daughter, Mrs. Glenn Burham. Mr. Porter said that crops were fairly good in vicinity of Broken Bow—but that it was not true of all the places along the road. It is spotted, some good, others dried out. Mrs. Porter said that Custer county this year had an abundance of wild fruit, and that they had gathered wild grapes and made grape juice—to bring home—in the form of grape jelly, she explained. Besides grapes, they have plums, choke cherries and buffalo berries, and other wild fruits.

The Omaha \$100,000 library bond issue has been dropped and will not be voted upon at the November election.

Mrs. E. O. Gardner returned Wednesday evening from a 10-day visit at the home of her sister, at Nebraska City.

B. W. Wright was at Mapleton, Iowa, the first of the week, on a business mission, returning Tuesday evening.

Dr. and Mrs. J. C. Johnson were called to Omaha Tuesday by the death of her brother Ernest Jorgenson who passed away Monday evening. The young man was at Wayne for a time. All members and friends of the M. E. church are cordially invited to be present Thursday (to-night) at a reception to be held for the new minister, Dr. John Grant Shick and family.

Go to Bohnert for the October records, and also the latest in international and foreign records. Make selection early. Come and hear them played—just south of track—A. G. Bohnert—adv.

Mr. and Mrs. John Sass and her sister, Mrs. Meyer, returned from a two-week visit at Sidney, with relatives there. Mr. Sass says that it is dryer there than here, referring to the weather, of course.

Word came to Wayne friends that G. H. Thompson and wife have finished their journey west, so far as the first lap was concerned, and arrived at Boise, Idaho, last week. They did not say much more than that.

Mr. Sewell tells us that they are moving to their new home on West 4th street this week, and that Mr. Davis and family, his son-in-law occupy the home in the west part of town, which they are leaving.

Yankee Doodle, Extra Heavy, Double sewed Husking Mitts. They never rip \$2.00 per dozen. A lighter one at \$1.75. Morgan's Toggery.

Mrs. Chester Witt, from Carroll has been at a LeMars, Iowa, hospital for treatment, and is expected home this week.

Miss Edith Beechel went to Ponca Wednesday afternoon, where she is one of the instructors at the teacher institute being held at that place this week, for Dixon county teachers.

John Morgan left Wednesday morning to visit his son W. Morgan at Granite Falls, Minnesota, where the fishing is good. Mr. Morgan is a successful angler, and brings in a string on nearly every occasion. Perhaps he is using a new device—possibly it is his invention—placing a small mirror back of the bait. The fish cautiously approaching the hook, thinks there is another fish coming from the other side, and makes a quick grab and is hooked. We don't hate to give this away, but if Mr. Morgan is the inventor he has had time, to secure his patent for protection from competition.

MORGAN SUIT BUILDER

Miss Ethel Swanson from Carroll, who formerly was in the employ of Mrs. Jeffries at this place, is again here to assist in the fall rush of business.

We are equipped with artificial light. Bring in the children and have them photographed. Special reduced price for the holidays. Studio open evenings.—ads. s28-2.

W. B. Hughes is home from a visit of several weeks, spent with his son at Fremont, and with friends at Omaha and Lincoln. It was real vacation that he had.

Dr. and Mrs. E. C. Carhart, who have been visiting at the home of his father J. S. Carhart, and other relatives, returned to their home at Hutchinson, Kansas, Wednesday afternoon.

Mrs. L. E. Panabaker returned Wednesday from a visit of several days with her brother, Mr. Harmon at Norfolk.

Mrs. Leo Carroll who was here visiting with her sister-in-law, Miss Dorothy Carroll returned to her home at Wynot today.

Numerous Women of Omaha have been taking a course in political speaking. Next month they will enter the campaign.

Miss Bettie Thies from Emerson was a Sunday visitor at Wayne, a guest of her sister, Miss Alma, at the Mrs. Jeffries home.

Mrs. W. F. Wright left Wednesday morning for Sloan, Iowa, where she will visit with relatives, from there she will go to Knoxville, Iowa, where she will visit with her parents.

Friday Special

500 lbs. Picnic Hams—13c lb.

First quality, on sale one day only.

BASKET STORE

Frost Proof Closets

for garages, warehouses, and other buildings which have no means of heating! The water supply pipes and valves are located below the freezing point, under-ground. In use they give the same service as any other modern, sanitary closet. After flushing they drain clear of water and there is no possibility of freezing of pipes or valves. We'll be glad to talk over with you the problems of sanitary closets for such purposes.

COMMISSIONERS PROCEEDINGS

Wayne, Nebraska, September 19th, 1922.

Board met as per adjournment. All members present. Minutes of meeting held September 5, 1922, read and approved. Anson A. Welch, Judge of the District Court, having granted a widow's pension to Anna Barr for the care and support of the minor children of said Anna Barr, being Edwin, Volney Dale and Lorraine Barr, for a period of three months beginning September 1, 1922 at \$40.00 per month and payable out of Mothers Pension Fund.

On motion said order for the allowance of a widow's pension to Anna Barr is hereby approved, and county clerk to issue warrants.

The following claims are on motion audited and allowed and warrants ordered drawn on the respective funds as herein shown. Warrants to be available September 30, 1922.

BIG GRIDIRON SCHEDULE

IS ALMOST COMPLETE

Coach Dale Training Men for Wesleyan Game on October 6

(From The Goldenrod)

Many of the male sex are suffering untold agonies these days. The football season is on and the common or domesticated "charley-horse" is the cause of it all.

Practice began on Wednesday of the first week when twenty-five men reported to Coach Dale for suits. This number has since been increased to forty. An average of thirty-five men turn out every night for instruction in the "gentle art." No casualties have been reported as yet though Jones reports indigestion while Ashford complains of loss in weight and vitality, both maladies due to under eating.

As yet it is impossible to pick the team that will represent Wayne. There are at least two men for every position. Many of them are inexperienced, it is true, but Dale knows how to coach football. The team will probably be built around Captain Jones, Rickabaugh, Myers, Rennick and Miller, men who earned their letters last year. Kerbel, Puls, Larson, Moran, A. Babcock and Rockwell look good in the backfield. Black, Johnson, Moran and E. Babcock are working at end.

A line slightly heavier than last year is probable with Ashford, McConnell, Swan, Schroeder, Sass, Kopp, McCoy, Georges and others to pick from. The Wild Cats will use last year's brand of football, fast, heady and shifty.

Wesleyan opens the season here on October 6, coming with last year's team almost intact. The complete schedule to date is:

October 6—Wesleyan at Wayne.
October 13—Midland at Wayne.
October 20—Open
October 27—Western Union at Le-

Mars, Iowa.

November 4—Buena Vista at Storm Lake, Iowa.

November 11—Central City at Wayne.

November 17—Peru at Wayne.

November 30—Hastings at Hastings

Last year we lost the championship to Wesleyan but this is 1922. Why shouldn't everyone display the spirit shown by the boys on the Gridiron which can be summed up in two words—"Beat Wesleyan."

CELEBRATE GOLDEN WEDDING

Laurel, Nebraska, September 25—

Mr. and Mrs. Anthony Ford, of Laurel, have just celebrated their 50th wedding anniversary. Their four children and 60 to 70 relatives and friends attended. All were guests at dinner at the home of Anthony Ford, jr. Among the relatives were the following: Mrs. J. P. Twohig and family, Mr. and Mrs. William Meyers and family and Mr. and Mrs. George Meyers and family, of Sioux City; Mrs. George Geisler and family, of Yankton, South Dakota; Mr. and Mrs. Frank Lilly, of Merrill, Iowa; Mr. and Mrs. John Killackey, of Bloomfield, and Mr. and Mrs. William Ford and family, of Minneapolis. The Fords have been residents of Laurel for 30 years and Mr. Ford is engaged in business here.

Public Sale!

I will sell at Public Auction at the Wayne Live Stock Pavilion

Saturday, Sept. 30

Commencing at 1:30 o'clock

200 Head of Cattle

Twenty head of 2-year-old steers; twenty head of 3-year-old steers; forty head of extra good yearlings; sixty-five head of good, big, rugged calves; twenty-five head of cows; twenty-five head of 2 and 3-year-old heifers. These heifers are full sisters to the fifty-eight yearling heifers I sold in Wayne two weeks ago, being out of the famous Fisher herd of Wayside, Nebraska. These heifers are bred to his famous herd bull which is from the noted Braddock herd. This bull was sired by the \$21,000 bull purchased from Mousell Brothers. The cows are bred to Gaylad, jr. another one of the Braddock bulls, and will calf beginning about April 15 to May 1. These cattle are all high-grade Whitefaces and carry plenty of flesh.

175 Head of Pigs

These are good western, alfalfa pigs, weighing about 90 pounds. They have not been turned into any corn fields out west.

TERMS. Six to nine months time on approved notes bearing 8 per cent interest.

J. M. ELLENBURG

D. H. Cunningham, Auct.

ALUMNI NOTES

(From the Goldenrod)

Miss Ruth Pearson, '14, will teach in the normal training department of the Hartington schools this year.

Frank Clark, '21, and Miss Bess Van Duesen, attended the last quarter of the summer session of the University of Chicago, this summer.

W. P. Canning, '17, is superintendent of the Carroll school this year.

Mr. Gomer Jones who has been in this position for several years, will be superintendent at Rosalie.

Miss Izora Laughlin, '21, is teaching in the Carroll high school.

Mr. Walter I. Black, '17, is attending the state university this year and studying in the law college. Mrs. Black, formerly Beryl Malone who was also a student of Wayne, is taking a course in fine arts.

Harold Croghan, '20, is teaching at Huntley, Nebraska, in the southern part of the state, this year.

Miss Gladys Ackerman, '18, of Stanton and Dr. W. P. Higgins of Omaha were married on August 24. Mrs. Higgins has been teaching in the Albion schools for several years and Doctor Higgins is a dentist of that city.

John Deo Hash, '18, is teaching in District 30 in Cedar county.

C. W. Sabin, '17, who taught the last two years in Plainview, will this year have charge of science in the Albion schools.

Miss Nellie Strickland is teaching the fourth consecutive year in the high school at Livingston, Montana. She has charge of the Latin department.

Julius D. Young, '19, who received his A. D. degree from this school the past year, is principal of the high school at Murdo, South Dakota. His work is in science, music, and athletics.

Miss Leona Dietrich, '20, of Dodge and Joseph H. Cox, '20, of Newman Grove were married in Chicago on July 29. For the past two years Mrs. Cox has been teaching in the primary grades in the Norfolk schools. Mr. Cox served two years as lieutenant in the World War after completing work at Annapolis Naval academy. He is at present a senior in the Massachusetts school of technology, Cambridge, Massachusetts. Mr. and Mrs. Cox spent a few weeks at Youngwood, Pa. and are now at home in Cambridge, Mass.

Among Wayne graduates who are teaching in the Sioux City schools are the following: Miss Irma James, '13; Miss Josephine Horney, '19; Miss Gertrude Satorious, '19; Miss Vena Warner, '18; Miss Bernice Wilkerson, '18; Miss Violet Greene, '19; Miss Gladys Ewing, '17; Miss Mildred Page, '19; Miss Ina Reed, '18; Misses Susan and Isabella Stupfel, '18; Miss Mary Monahan, '15; Miss Floia Hoagland, '22; Miss Olive Snider, '22; Miss Lura Stonebraker, '17; Miss Ethel Burnham, '22; Miss Marie Talbot, '17; Miss May Muhm, '21.

Miss Blodwyn Owens of Carroll, graduate in 1920 who has taught successfully for the past two years at Kennard, Nebraska, is attending school this year at the state university. She is one of the pledges of the Kappa Delta sorority.

Miss Agnes Richardson, '16, is teaching in the high school at Gordan, Nebraska.

Miss Stella Arnold, '21, and Florence Baird, '21, are teaching in the Emerson schools.

Professor I. H. Britell enjoyed a pleasant visit recently with Mr. and Mrs. Arthur Christensen and their two children at St. Edwards. Mrs. Christensen, formerly Miss Elizabeth Buol, '17, was the efficient editor of the Goldenrod several years ago when it was published in magazine form and issued once each month. Mr. Christensen (Christie) was a junior in the Normal. He is now the proprietor of the Ford Garage at St. Edwards.

Miss Elsie Remender, '22 is teaching this year at Sidney, Nebraska, in the primary department.

Miss Marjorie Miller, '21, has been transferred from the Fremont public school to the Midland Training School. She now has charge of the second and third grades, acting as critic in this department.

Jesse Randol, '20, went to Lincoln last week after a short visit with his parents in Wayne, to resume his studies at the state university.

Miss Helen Meadenhall, '21, left last Friday for Madison, Wisconsin where she will take special work in the state university.

Miss Ruth Ingham, '19 will attend school at Ames, Iowa this year.

John Carhart and Donald Miller are attending school at the university of Illinois at Champaign. They are both pledges of the Alpha Tau Omega fraternity in the university.

Howard McEachie, '22, will attend school this year at Stanford University, Palo Alto, California, where he will take a course in law.

Mr. and Mrs. John Rockwell of Chicago are visiting in Wayne with the parents of the latter. Mr. Rockwell is a graduate of 1914 and is now studying on his doctor's degree at the

University of Chicago. Mrs. Rockwell (Eugenia Madsen, '15) has been doing work with the United Charities of Chicago.

Miss Florence Gibson of Salem, South Dakota, and Mr. Harold H. Boyce of Wayne, were married on July 25. Mr. Boyce completed the work at Wayne in 1916 and later graduated from the state university. Mr. and Mrs. Boyce spent their honeymoon at Clear Lake, Iowa and are now living at Mason City, Iowa where Mr. Boyce is a member of the high school faculty.

Miss Gladys Kesterson, '20, of Carroll and Mr. Ralph Horn were married on July 19 at Colorado Springs, Colorado. They expect to make their home on a farm in Colorado.

to have the Goldenrod sent to them during the year.

Alice Harvey, '22, is teaching in the high school at Blue Hill in Webster county.

Norman Harvey, who completed the junior course last year, is teaching at Bellwood.

John Massie, '17, is superintendent of schools at Creston, Nebraska.

The city schools in Wayne have as superintendent this year Conrad Jacobson who completed the work of the Normal in 1914. Since then he has completed work in the University of Nebraska for his degree. Mrs. Jacobson graduated from the Normal in 1920. Other Wayne graduates who will teach here are Sophia Kuester, '22; Minnie Will, '18; Nellie Johnson, '21; Glennie Bacon, '18.

Miss Faith Philleo, '22, had her tonsils removed during the vacation at Rochester, Minnesota.

Miss Helen Blair, '12, left recently for Sterling, Colorado, where she will teach this year. Last year she was an instructor in the Norfolk schools.

Luther Fetterolf, '19, who completed work for his A. B. degree in Wayne last year, is now attending school at the State School of Mines, Golden, Colorado.

C. Penn, '18, is superintendent of the Osmond schools.

Among the Omaha teachers from Wayne are Miss Mamie Wallace, '14, Miss Ethel Whalen, '20; Miss Hattie Shulteis, '13, Miss Faye Brittain, '13.

Miss Bonnie Hess, '22, last year's Goldenrod editor, has entered the University of Nebraska and will major in the English department. She is one of the pledges of the Alpha Omicron Pi sorority of the university.

Lowell Henry and Marion Surber, members of the 1922 class, are now students at the state university.

Miss Helen Felber, '22, who is attending school at the state university has been pledged as a member of the Chi Omega sorority.

Miss Helen Reynolds, '22, student of the university of Nebraska, is one of the pledges of the Alpha Omicron Pi sorority.

Miss Wilma Gildersleeve, '20, is teaching in the Carroll high school.

Miss Virginia Bowen, '20, who received her A. B. degree last year from the university of Nebraska, is teaching in the high school at Lyons this year.

Ray Hickman, '15, is superintendent of the schools at Billings, Montana.

Miss Ida Jeep of the class of 1912, is teaching in the Wakefield High school. This is her second year at that place.

Miss Mamie Ludwick, '20, is teaching this year at Ewing, Nebraska.

Miss Faye D. Arnett, '19, sends her address as Western, Nebraska. She is teaching in the high school at that place and anticipates a pleasant year.

Miss Jessie Watson, '19, is spending her vacation from work on the Lincoln Star visiting in Warren, Ohio.

Miss Mary House, '21, returned last week to Chicago to resume her work at the university. She is ranked as a senior this year.

Eggs wanted at Fortner's. Adv.

NEW BOOKS IN NORMAL LIBRARY THIS YEAR

Among the many new books which have been added to the Library since the opening of school are titles which will appeal to all book-lovers. The following are only a few of the additions, says the Goldenrod:

Painted Windows.
Glass of Fashion.
Robin, Burnett.
Shadow of the East, Hull.
Country Beyond, Curwood.
Breaking Point, Rinehart.
Glimpses of the Moon, Wharton.
In the Days of Poor Richard, Bacheller.
Inns and Taverns of "Pickwick," Matz.
Vandemark's Folly, Quick.
His "Soul" Goes Marching on, Andrews.
Merton of the Movies, Wilson.
Red House Mystery, Milne.
Secret Places of the Heart, Wells.
Gentle Julia, Tarkington.
Mr. Prohack, Bennett.
Teaching to Think, Boraas.
Mind in the Making, Robinson.
Modern Social Movements, Zimand.
How to Measure in Education, McCall.
Up Stream, Lewisohn.
Story of Mankind, Van Loon.
Working with the Working Woman, Cornelia S. Parker.
Intelligence of High School Seniors, Book.
The magazines which come regularly to the library should interest a large number of the students. There are so many of them, that if you do not care for one you will surely like another one. Some of the many received are:

Literary Digest.
Outlook.
Nation.
Independent.
Living Age.
Survey.
Youth's Companion.
Colliers Weekly.
Saturday Evening Post.
Good Housekeeping.
Delineator.
Ladies Home Journal.
Woman's Home Companion.
Modern Priscilla.
American.
McClure's.
Everybody's.
Century.
Harpers.
Scribners.
National Geographic Magazine.
Radio News.
Science and Invention.
Scientific American.
Popular Mechanics.
Illustrated World.
Country Life.
House Beautiful.
House and Garden.
Ceramic Studio.
International Studio.
School Arts Magazine.
Every one is welcome at the library to enjoy the many books and magazines which are placed there for use.

NOTICE TO CONTRACTORS

Sealed proposals are invited and will be received at the office of the City Clerk of the City of Wayne, Nebraska, until 8 o'clock, P. M. Central Time, October 2nd, 1922, for furnishing the material and labor and installing Storm Sewers and their appurtenances in block 12 and 21 of said City in accordance with the plans and specifications on file in the office of the Clerk of said City.

The Engineer's quantities and Unit prices are as follows:

Quantities	Unit Prices
670 lin. ft. 12 inch sewer, inclusive of 36-6 inch Y's.....	\$ 1.40
80 Lin. ft. 12 in. inlet pipe.....	1.00
32 Vertical ft. manhole.....	6.00
2100 lbs. Cast Iron.....	.05
6 catch basins.....	10.00

Each bid shall be accompanied in a separate sealed envelope with a certified check drawn on a solvent Nebraska bank in the sum of \$200.00.

The contractor will be required to give a surety bond in the amount of 100 per cent of the contract.

Plans and specification for the work may be seen and proposal blanks obtained at the office of the City Clerk and at the office of the Engineers, Rohrbough Engineering Co., 929 City National Bank Building, Omaha, Nebraska.

The City reserves the right to accept or reject any and all bids.

Published by order of the City Council of Wayne, Nebraska.

W. M. ORR, Mayor
W. S. BRESSLER, City Clerk

Foreign Exchange

"Dot's all right," protested a Rhine shopkeeper who made a living by selling iron crosses to the occupying Yanks, but still retained traces of Deutschland Ueber Alles. "Mebbe we got loked yet, and mebbe der Kaiser's gergangen ist, but choost der same, Bismarck was a great statesman."

"Yeah!" agreed the doughboy, as he slung a bag containing a dollar's worth of German coins over his shoulder; "but remember that we're the guys that put the mark out of biz."

THE REAL NANCY

By MARGARET MOULTON

© 1922, by McClure Newspaper Syndicate.

"And if you ever come over to the New York office," went on Hill, "be sure you meet Miss Bradlee—she's Henderson's secretary, you know—Anne Bradlee. We call her Nancy, though. Oh, that's all right. My wife is a friend of hers—we have her out every now and then over the week end. The little boy's awfully fond of her, too."

Young Dick Terhune, the manager of Henderson & Co., Toledo branch office, smiled at the other man's enthusiasm.

"You're talking in exactly the same strain, old man, that my well-wishing Aunt Jenny uses when she's trying to get me matrimonially interested in one of her friends' daughters."

"I see you're a hard-shelled bach," retorted Hill. "Well, you couldn't do better anywhere than Miss Nancy. I wasn't 'selling' her to you, though. She has enough suitors in New York without casting about in the mid-West. Henderson jokes about getting a five-year anti-matrimony insurance policy on her, but he says no company would take the risk after seeing her. A beauty."

"You're really arousing my curiosity now," Terhune interposed, drily. "When do you suppose I'll be called on to New York?"

"Possibly in the fall. I'll get my wife to fix up a party when you do come. Well, I have to go now. Must see Wilcox at 2. I'll be back later. So long!"

It was only one month later that Terhune was called to the New York office. Brown, who had been in charge of the Cuban branch for the past three years, was sick, and another man must be sent at once to carry out the important work planned for the summer.

On his way East, Terhune remembered Miss Anne Bradlee. "Perhaps there'll be time for the party Hill promised," thought Terhune, eagerly.

When he reached New York, Terhune found that Hill had gone on a tour of the western offices. Henderson, the president of the company, cordial and energetic, spent half a day going over the work with Terhune.

"This is one of the most important jobs we have this summer," he told Terhune. "We're sending you because we're pleased with your work so far, and because you know Spanish. Your boat leaves tomorrow at noon, and we have your reservations made. Brown is waiting until you get there. He'll stay over three days to show you about the work. He paused to ring a bell beside his desk. "My stenographer has your tickets," he explained.

Terhune sat up very straight and prepared to make a good first impression on the charming Miss Nancy.

In about two minutes a faint red spot glowed in each cheek as he thrust the envelope containing his tickets into his pocket.

"Hill was certainly kidding me!" he glibbed to himself. "Honey-colored hair! Huh! He meant mud-colored, and he forgot to say it was stringy and straight. What ho, for Cuba and the malaria, or whatever it is Brown has!"

Terhune had to think twice when he received a friendly little note signed "Anne Bradlee," saying that, at Mr. Henderson's suggestion, she was sending a batch of New York and Toledo newspapers.

Terhune answered the note the next day. Anne Bradlee must have read between the lines of his jolly descriptions of tropical life, and discovered that he was homesick and lonesome, because she wrote again very soon.

Terhune's fifth letter began "Dear Nancy."

When he had been in Cuba a year and was beginning to long for a taste of the cooler northern climate, Terhune received the welcome news that he was to report to the New York office in a month, and that Brown would return to his old job.

When his boat docked in Brooklyn, he went directly to the office. Henderson was away, but Hill greeted him cordially.

"Mighty glad to see you back, Terhune. Sorry I have an appointment at 12, but Miss Bradlee will explain everything to you, and I'll be around tomorrow. You've never met her, have you? Come along and I'll introduce you." He led Terhune to the adjoining office.

"Nancy, here's Mr. Terhune, from Cuba, you know. Terhune, Miss Bradlee. Explain things to him, Nancy, will you? And then send him home to rest after his trip. See you tomorrow, Terhune."

Terhune, smiling down at the girl before him—the slender girl with the honey-colored hair and the blue-green eyes and the cherry red lips, asked, "Please, first of all, Miss Bradlee, who was the young lady I saw here a year ago—just before I left for Cuba?"

The blue-green eyes sparkled mischievously.

"I remember you mentioned having met me in your letters. But I was away at the time on my vacation and there was a substitute stenographer taking my place."

"That's fine—I mean—er—do you suppose it's too early to go to lunch—Nancy?"

"Perhaps not—this once—Dick."

Hill, lurching with a client at the same restaurant, watched Dick and Nancy in amazement.

"I introduced them ten minutes ago," he chuckled, "and you'd think they were engaged—or going to be!"

LEADS IN HOME OWNERSHIP

According to Population, Canada is at the Head of All Nations in That Respect.

Canada has a larger percentage of home owners in its population than any other nation, according to recently compiled figures of the census department.

London, Ontario, leads among Canadian cities with 80 per cent of its inhabitants owning their own homes. Hamilton and Calgary have 60 per cent home owners, Toronto 55 per cent, Halifax 51 per cent, Vancouver 45 per cent, Edmonton 45 per cent, Winnipeg 44 per cent, Ottawa 40 per cent, Montreal 5 per cent.

Montreal, the largest city in Canada, pulls down the general average to 85 per cent for the ten cities. Taking into consideration the country districts, it is believed by the census experts that nearly 60 per cent of the people of Canada own their own homes. Canada is a land of farm owners where the tenant farmer is almost unknown.

The ten cities covered by the figures range in number of residences from 3,000 to 184,000. Of 72 cities in the United States with a population of 100,000 or more, only two, Des Moines and Grand Rapids, it is declared, have a 50 per cent population of home owners. Des Moines tops the list with 61.1 per cent while Grand Rapids has only a shade fewer. Recent government statistics in the United States show that 45.6 per cent of the people of the United States own their own homes and 54.4 per cent live in rented quarters.

GOT VERIFICATION FROM DAD

Small Boy Satisfied That Malachy Was Right About the Steering Gear of Bulldogs.

An eminent college professor is the father of a small boy who is very observant and inquisitive, and is the employer of a man who has much Irish wit and humor.

One day Alfred, the small boy, was playing with a cat in the stable while Malachy cleaned the harness.

"Say, Malachy," the child asked, "why do cats always land on their feet?"

"They steer thimselves wid their tail."

"Well, how do rabbits steer themselves? They haven't long tails, only a stub."

"Wid their ears; that's plawnt they have their long ears for."

"How does a bulldog steer himself? He doesn't have long ears or a long tail."

"Wid his bark."

At this the boy looked doubtful. Presently he ran to his father's study, and in a few minutes came back to the stable.

"Malachy!"

"Yis?"

"That's true what you told me about bulldogs. I asked papa, and he read something to mother out of a book about 'barks that steer against the wind.'"—Pittsburgh Dispatch.

Unexpected Candor.

My most embarrassing moment occurred one day last winter. I was attending a church bazaar with a friend of whom I was very fond. All went well until we came to the pillow booth, where I made my horrible break. Quite confidentially I told her: "Now, some of those pillows aren't so bad looking, and some of them are really quite good looking, but did you ever in your life see one in as poor taste as that?"

My friend looked at me queerly for a moment and then said: "I'll admit it's in poor taste, but, then, you see, I am rather noted for my lack of taste, and I made that."

I made a hasty exit, and have not since had the courage to face her, though she insists on considering it a joke.—Chicago Tribune.

Effect of War Against Disease.

The effect of successful war against disease and death is to make life better worth living. There is no doubt that whole cities and even countries have lived at a low physical level of well-being. Settlers in malarial districts of the United States are pertinent examples. For them life was a sad affair. Low death and sickness rates signify a more exuberant vitality, and more general enjoyment of life. The possibilities in a nation which really enjoys life are limitless.—Pittsburgh Dispatch.

Double Cylinder Air Motor.

An air motor, on the order of those used in pneumatic tools, but of such extreme compactness that it is no bigger than a safety-match box, weighs only three ounces, and yet develops over half a horsepower, was an outstanding feature of a recent model exposition at Dublin, Ireland. The motor, illustrated and described in Popular Mechanics Magazine, is double-acting, with two opposed cylinders of three-quarter-inch bore and stroke, and runs on compressed air at 100 to 300 pounds' pressure.

Bottled Fresh Air for City.

With summer all minds turn toward vacations, and seek new scenes and cooler airs, than the city affords. A German savant is said to have found the means of procuring pure mountain air inclosed in earthen tubes for home folks. An English savant is said to have discovered the means of conveying sea breezes to city homes. All this is very nice, but to complete these inventions a third savant would have to find the means of offering in the domestic the joys of open air!

LIVE STOCK

"HOW TO GET THE LAST TICK"

Much Valuable Experience Accumulated by Scientists. Given in Recent Circular.

(Prepared by the United States Department of Agriculture.)

As the territory infested by the cattle tick gradually contracts under the pressure of eradication work, the difficulties in the way of further reduction of the area increase. In the 15 years since the campaign was started to starve and poison the tick out of existence, counties and states have been freed of the insect at a rapid rate but there are knotty spots in the remaining ticky territory, and progress toward the goal of a tick-free country will be slower than in the past.

However, those who are now engaged in cleaning up infested country have the advantage of much valuable experience accumulated by scientists, veterinarians and local authorities, while more than 500,000 square miles were being made tickless. These fundamental facts, a knowledge of which is essential to those taking the lead in eradication, particularly the inspectors, have been gathered into a circular, "How to Get the Last Tick," by W. M. MacKellar, one of the inspectors for the United States Department of Agriculture who has had years of experience in various infested areas.

The circular contains no new formula, no panacea; it is classified experience of practical field men put into usable form for those who will have

Such Cows as These Are Not Found in Ticky Territory.

charge of the work of cleaning up the remaining ticky states and counties. Although it is designed principally for inspectors, others who are interested in eradication work may get copies by addressing the Department of Agriculture at Washington.

CHANGE PIG PASTURE OFTEN

Healthy Animals Become Infested With Internal Worms From Feed, Water and Soil.

The main trouble which hog raisers have in raising pigs seems to be that when a trouble, such as worms, gets started in the lots, they let it spread too rapidly over the entire herd. Healthy pigs become infested with internal worms from feed, water and soil which has become infested by other pigs having the same trouble.

The logical thing, then, is to see that pigs have a frequent change of pasture. This is not so big a problem where they are given plenty of range. There are other desirable points in having a range of pasture for the growing pigs, although they can be raised successfully, and are so raised, in close quarters if these are kept clean. Dividing up a pasture and letting the pigs run a while in each part will keep the pigs healthy and give the pasture a chance to come back when not in use.

SUPERIOR CORN FOR SILAGE

Some Growers Can Use to Good Advantage Larger Variety—Choice Should Be Limited.

"Generally the same variety of corn grown for grain production will prove satisfactory for silage also," says Prof. A. C. Army of the division of farm crops and farm management, University of Minnesota. "However, since it is not necessary that corn for good silage should mature beyond the beginning of the dent stage before cutting, some growers, particularly those in the northern part of the state, can use to advantage a somewhat larger corn for this purpose. The choice should be limited to varieties which will produce ears that reach the beginning dent stage before killing frosts."

Pigs Grow Vigorously.

On clover pasture and skimmed milk, with a little barley or oats, pigs grow rangy, strong and vigorous. They make quick and profitable gains when turned into the feed lots or corn fields.

Young Pigs on Pasture.

It is seldom if ever profitable to force young pigs to subsist on pasture alone. It is generally more profitable to feed two pounds or more of corn per 100 pounds of pigs than to feed a lighter ration.

THE STRUGGLE BETWEEN BIOLOGY AND BOLSHIEVISM

H. G. Wells has lately declared his conviction that the outcome of civilization depends on the race between education and catastrophe. In different terms, but in a similar spirit, Lohrop Stoddard, author of "The Rising Tide or Colo" and "The New World of Islam," asserts in his new book, "The Revolt Against Civilization" (Scrivener's), that our modern world may perish if we do not learn to improve our stocks and to set higher standards for human life. We have come to the place, he says, where great multitudes of men and women are unable to carry the burdens of an increasingly complex society, and in consequence, either fall beneath these burdens or revolt against them. In Russian Bolshievism we get the supreme illustration of their revolt.

As Mr. Stoddard sees the issue, Bolshievism is the incarnation of the atavistic past; biology, the hope of a progressive future. What he means is that Bolshievism is the last of a long series of revolts by the unadaptable, inferior and degenerate elements against civilizations which have irked them and which they have therefore wished to destroy. The only new thing about it, he says, is its "rationalizing" of rebellious emotions into an exceedingly insidious and persuasive philosophy of revolt which has not merely welded all the real social rebels, but has also deluded many misguided dupes, into what Bolshievism implies. In biology, on the other hand, he sees one of the finest fruits of the modern scientific spirit, ripened by the patient labors of earnest seekers after truth. Here, he exclaims, is something new, "eugenics," the science of race betterment, "the unveiling of the mysterious life process, the discovery of the true path of progress, the placing in man's hands of the possibility of his own perfection by methods at once safe and sure."

When Mr. Stoddard speaks of eu-

LIVE STOCK PRICES AT SOUTH OMAHA

Cattle Are Fairly Active and Steady all 'Round.

HOGS STILL ADVANCING

Keen Demand From all Quarters for Fat Sheep and Lambs as Well as Feeder Grades.—Best Fat Lambs \$14.40.

Union Stock Yards, South Omaha, September 27, 1922.—With a moderate run of cattle Tuesday, 18,000 head, the market was active and steady on all useful offerings. Medium and common cows as well as the plumper grades of feeders are somewhat lower.

Quotations on cattle:—Choice to prime beefs, \$10.60@11.25; good to choice beefs, \$10.00@10.80; fair to good beefs, \$9.50@10.00; common to fair beefs, \$8.50@9.50; choice to prime yearlings, \$10.50@11.25; good to choice yearlings, \$9.85@10.50; fair to good yearlings, \$9.00@9.85; common to fair yearlings, \$8.00@9.00; choice to prime grass beefs, \$8.00@8.50; good to choice grass beefs, \$7.10@7.85; fair to good grass beefs, \$6.25@7.10; common to fair grass beefs, \$5.50@6.25; Mexican, \$4.75@5.50; good to choice grass heifers, \$6.00@7.00; fair to good grass heifers, \$4.75@6.00; choice to prime grass cows, \$3.85@6.50; good to choice grass cows, \$5.00@5.75; fair to good grass cows, \$4.25@5.85; common to fair grass cows, \$3.00@4.10; cutters, \$3.00@3.50; canners, \$2.50@3.00; hog-logna bulls, \$3.50@4.00; year calves, \$5.00@11.00; prime heavy feeders, \$7.85@8.50; good to choice feeders, \$7.00@7.75; fair to good feeders, \$6.35@7.00; common to fair feeders, \$5.50@6.35; fancy stockers, \$8.00@8.40; good to choice stockers, \$7.15@7.85; fair to good stockers, \$6.25@7.10; common to fair stockers, \$5.00@6.00; stock heifers, \$4.00@6.00; stock cows, \$3.00@4.25; stock calves, \$4.50@8.00.

Light Hogs Sell Higher.

There were 8,000 hogs on the market Tuesday and trade was uneven, light grades selling 10@15c higher and heavy packers just about that much lower. Light weights sold at \$9.75@10.20 with heavy and mixed packers at \$8.25@9.75.

Active Trade in Lambs.

Some 18,000 sheep and lambs were received Tuesday and sold readily at prices 10@15c higher than Monday. Best fat lambs sold around \$14.25@14.40 and feeder lambs moved at \$13.75@14.25.

Quotations on sheep and lambs:—Fat lambs, good to choice, \$13.75@14.40; fat lambs, fair to good, \$13.50@13.75; feeding lambs, \$13.25@14.25; cull lambs, \$8.00@13.00; fat ewes, light, \$4.50@6.25; fat ewes, heavy, \$3.50@4.50; feeder ewes, \$3.50@5.25.

OMAHA CATTLE RECEIPTS HEAVIEST IN TWO YEARS

Monday's supply of cattle proved to be by far the largest received at Omaha in the last two seasons. With trains coming in all day, the final count overran the morning estimate by more than 3,000 head, the official total for the day being 24,587 head. This is the heaviest supply that has been checked up here since October 18, 1920, when arrivals reached a total of 27,042 head.

genics, he is thinking of both its positive and negative aspects, with special emphasis on the latter. There is truth, he admits, in the contention that the increase of superior types is an absolute prerequisite to the perfecting of the race. But the fact remains that "race perfecting is a much more difficult matter than race cleansing and involves measures for most of which public opinion is not yet prepared."

The first step in the campaign of "race cleansing" proposed is a much more thoroughgoing segregation of the insane and feeble-minded than now prevails. The second would be the prevention of all obvious degenerates from having children. Mr. Stoddard is appalled when he thinks that one degenerate family, like the Jukes of New York, may, breeding freely for two hundred years, have cost their country over two million dollars. He sets over against this example the shining record of the Jonathan Edwards strain.

The great thing, he maintains, is to get people thinking racially. "With the development of a 'eugenic conscience' and the curbing of degeneracy," he says, "plans for race building will almost formulate themselves." It has been objected that eugenics visualizes a specific type of "superman" and wants to "breed for points." This is arrant nonsense, according to Mr. Stoddard. "No real eugenicist wants to do anything of the sort, for the very good reason that the eugenicist realizes better than anyone else that the fundamental quality of superior germ-plasm is its generalized creative urge—expressing itself in a multitude of specific activities."

The eugenic ideal is thus presented as "an ever-perfecting super race—not the 'superman' of Nietzsche—that brilliant yet baleful vision of a master caste, blooming like a gorgeous but parasitic degradation; but a race, cleansing itself throughout by the elimination of its defects, and raising itself throughout by the cultivation of its qualities."

Such a race, Mr. Stoddard predicts, will imply a new civilization. "Of course," he says, "even under the most favorable circumstances, neither this race nor this civilization can come today—or to-morrow perhaps not for many generations; because, like all really enduring creations, the will be the products of a progressive, evolutionary process, not of flaming revolution or numbering reaction. Yet this revolutionary process, however gradual, must ultimately produce changes almost beyond our dreams. Every phase of human existence will be transformed: laws and customs, arts and sciences, ideas and ideals, even man's conception of the 'infante.'"

Current Opinion.

THE HABIT OF FAILURE

(From The Goldenrod.)

In schools, in workshops, in offices, on farms, there are boys and girls, men and women, who have the failure habit. They have become so used to failure that they are discouraged and don't half try. If they don't try of course they will continue to fail.

This habit of failure is one of the worst habits that a boy or girl can acquire. If you have it, shake it off or it will make your whole life a failure. The longer you yield to it the harder it will be to conquer. Resolve that you will be a success. When you resolve to win is more than half the battle. Begin with tomorrow's lesson. It may come hard at first, but don't be discouraged. Every lesson mastered, every duty done, makes the next one easier. Those who have been accustomed to failure, and discouraged by it, will be surprised to find how easy success becomes when one has acquired the habit of succeeding.

The world is full of disheartened failures who don't half try. They go through life, from failure to failure, always blaming somebody else for their ill-success. The discouraged pupil will blame the lesson as too hard, or the teacher as too strict, but never puts the blame on his own failure to make an honest try. In later life he will blame "the boss" or "the system," or "bad luck," or "society," or "capitalism," or "the Administration"—anybody or anything but himself, for what in his heart he knows to be his own fault.

Do not be one of these habitual failures. Resolve today to work hard and honestly for success. If you keep to that resolution you will not be a failure.

SEPTEMBER

September, I first saw the
On a September long ago
September hues were on its hills,
I felt September breezes blow,
And I am told, I washed proud
To see the world September-dressed
And all the love that fell for it.

Since then has not been half expressed.

Safety First

Mabel: "Did you count with a daisy to see if I loved you?"
Harry: "Indeed, no. I used a three leaf clover."

FOR THE EYES OF POSTERITY

Satisfactory Way Said to Have Been Found to Preserve Newspapers for Indefinite Period.

How to so pickle newspapers that they can be preserved indefinitely in the public libraries is a problem which has apparently been solved, according to the American Paper and Pulp Association.

Eight years of experimenting, participated in by three big New York newspapers at a cost of \$5,000 a year each, under the supervision of the New York public library, has taught librarians how to preserve for posterity newspaper files. The solution seems simple, being the mounting of each newspaper sheet between two sheets of thin Japanese tissue, shutting the air from the original sheets, reducing its legibility but slightly, and strengthening the page. Bound volumes of the mounted pages are now in constant daily use, and are free from the wear and tear which destroyed the untreated newspapers.

The New York experiments have been so successful that a big Western newspaper has sent representatives to New York to study and adopt the practice for use there.

The first investigation was made in Boston, and the library there tried to persuade the newspapers to print library editions on an extra paper, but the expense was too great. This is now done by a Brooklyn paper, but the cost was prohibitive.

In the New York experiments silk was first used, but the Japanese tissue was found the best for the purpose, as it hermetically sealed the newspaper pages from the air. Shellac, varnishes and other substances were tried, with little success. Under the method now in use the operator wets a glass or steel-covered table, lays down a sheet of tissue; with the pasting machine, rice paste is put on, then in turn the newspaper page, paste and tissue, when the page is dried and pressed under a gas-heated mangle.

NOT THEN

(Old Timer, in Chicago Tribune.)
"President Harding is expected to veto the bonus bill"—News from Washington.
I remember the dawn of that cold, rainy day,
Our first time over the top,
How for hours we crouched in the mud of the trench.
With our hearts going flippity flop,
And at last the word came—and over we went,
Where the bullets whistled and spat
And shrapnel screamed 'round like demons from hell,
But no-one put a veto on that.

PRECIPITATE INDIVIDUAL FORESAW HARD TASK IN SQUARING HIMSELF WITH HIS FELLOW CITIZENS.

Clad in knickers and driving home from college two girls stopped at Noblesville. While there they went into the library.

When they came out into the street, most of the town was out to see them. Deciding that knickers must not be the thing in Noblesville, they hurried to get under the shelter of their car.

A man came up to them and invited them to stay longer as guests of the town. They refused, saying that they were in a hurry to get to Warsaw.

"Warsaw?" he stammered. "Why, aren't you the two girls who are bumping your way from New York to Indianapolis, and whose picture was in the paper this afternoon?—We have been expecting two girls all day and as soon as I saw you go into the library I thought you were the ones, and had gone in to see what the Noblesville press had to say about you, and I hurried around and told everybody you were here. What'll I do?"

Indianapolis News.

WALKING TO LEARN THE WORLD.

President Masaryk of Czechoslovakia has lately given another example of his practical idealism and wise foresight. He is furnishing the funds for a walking tour of the world this summer by students of Prague university. In the group are two Czechs, a Serbian, a Bulgarian and a Russian. After walking through Jugoslavia and Bulgaria the students will go to Constantinople and then to China and Japan. Thence passage will be taken to San Francisco and the leading cities of the United States will be visited on foot. Prague university will publish a report of the expedition. President Masaryk knows the folly of national isolation and the value of learning something about other nations besides his own.—Christian Science Monitor.

TORONTO'S VACATION SCHOOLS.

Utilizing schoolhouses, churches and public buildings, Toronto is maintaining this summer daily vacation schools in the congested districts of the city. More than 3,000 children are in attendance, says the Christian Science Monitor. While the primary object is to provide a place of refuge from the hot streets, the school has also a distinct educational value. The morning session is devoted to "play-work" and includes basketry, sewing and raffia instruction, story-telling, kindergarten activities and occasional moving picture exhibitions. In the afternoon come picnics, hikes and organized sports.

UNEARTH ANCIENT ROMAN BARGE.

Important archeological discoveries have been made at Castello di Portor near Rome. The hull of an enormous Roman barge has been excavated near a small lake. It is presumably a relic of a mercantile fleet which was used to ship wheat from Sicily to Rome, before Castello di Porto shipped by the Tiber. The hull is like a similar relic of Nero's fleet at lovely Lake Nemi. Excavations are proceeding and other discoveries are expected.

NEWSBOY, SEVENTY-ONE, FOLLOWS RACE.

David Stevens, a seventy-one-year-old "newsboy" of Dublin, has attended every running of the Epsom Derby for 50 years. The week of the great race is his only holiday. At all other times he is to be found on the street corner in the Irish capital selling papers.

Dandelions and Other Plants on Courthouse Square Eagerly Devoured by Animals.

(Prepared by the United States Department of Agriculture.)

The courthouse lawn in Elbert county, Colo., like many other lawns, was badly infested with dandelions. The county agent suggested killing them by pasturing rather than plowing under the sod. According to reports received by the United States Department of Agriculture, the test was approved by the commissioners. Sufficient hog wire to fence the lawn was purchased and two pastures 100 feet long and 80 feet wide were made. A farmer living near town furnished six old ewes, which were placed in one pasture May 14, when the dandelions were at their best. A week later four more were added to the flock.

The ewes were changed from one pasture to the other at one-week intervals. They soon had the dandelions and grass eaten down and kept it down. They ate blossoms and buds

CASE OF MISTAKEN IDENTITY

Walking to learn the world. President Masaryk of Czechoslovakia has lately given another example of his practical idealism and wise foresight. He is furnishing the funds for a walking tour of the world this summer by students of Prague university. In the group are two Czechs, a Serbian, a Bulgarian and a Russian. After walking through Jugoslavia and Bulgaria the students will go to Constantinople and then to China and Japan. Thence passage will be taken to San Francisco and the leading cities of the United States will be visited on foot. Prague university will publish a report of the expedition. President Masaryk knows the folly of national isolation and the value of learning something about other nations besides his own.—Christian Science Monitor.

PREVENTION IS BEST REMEDY

White Scours in Calves and Pigs is Caused by Infection—Treatment Not Promising.

White scours in calves and pigs is caused by infection; virulent colon bacilli are mostly responsible. Treatment of infected pigs is not promising; the main thing is prevention. Do not feed too heavy a grain ration for a period of two weeks before farrowing. Feed bran, roots and alfalfa, with a light ration of corn or barley, and be sure to provide opportunity for exercise. However, these things are of little consequence after infection appears. Keep your sows with little pigs on the ground, in individual hog houses. This will be safer than keeping them in the same old pens, which may still be infected. These hog houses should be kept out in a field and well-scattered. This gives opportunity for exercise and lessens the danger of infection. Provide a small amount of litter or bedding for each house. Use disinfectants freely.—Veterinary Department, Colorado Agricultural College.

SHEEP REQUIRE GOOD SHADE

Plenty of Right Kind Returns Big Dividends—One Tree is Much Worse Than None.

Plenty of the right kind of shade for sheep returns big dividends, farmers and sheep raisers say. Only one or two shade trees in a pasture are worse than none at all since a place to which the sheep come day after day soon becomes a hotbed of parasites, they add. The construction of smart shades which can be moved from place to place is solving the difficulty for many farmers.

ARTIFICIAL SHADE FOR HOGS

Protection of Some Kind Should Be Provided in Pasture Where Trees Are Lacking.

Where there are no trees in the hog pasture to provide the much-needed shade during the summer months, an artificial shade is a most important part of the summer equipment. A good shelter may be constructed by setting short posts in the ground and building a roof of light boards over these. Windstorms should be guarded against by nailing the boards securely.

LIVE STOCK NOTES

Do not lose sight of the good high-grade coal-tar dips, which are certainly valuable when applied according to directions.

Stagnate and a wallow for hot weather, and wood ashes, charcoal and other stomach rectifiers are necessary if the hogs are expected to do their best.

CREDIT TO AMERICAN RULE

Affairs of Colony of Pago Pago, in the South Seas, Declared Admirably Managed.

According to Randolph Bedford, in a recent number of Our World, Pago Pago is the "happiest community on earth."

This island in the Samoan group is the southernmost outpost of American government. Little has been said about this colony of ours; probably there are a great many Americans who do not even know that we have it. But in our administration of its affairs we have demonstrated, according to Mr. Bedford, who is an Australian globe trotter and journalist, that we govern our colonies better than we govern ourselves.

The total of the annual taxes levied on the natives is just \$7. It is with mingled feelings that one reads of what Uncle Sam can accomplish for \$7 a year if he has to. The Samoan, according to Mr. Bedford, gets for this expenditure, "protection, work, cleanliness, electric light, good water supply, cement roads and education." When Spanish influenza was raging through the islands of the South seas, taking a cruel toll among the natives, it passed Pago by. There was not a single case throughout the entire epidemic. "Pago is a long march ahead of the average western Pacific settlement administered by the white man. The native has succeeded at no personal cost to the efficiency of the American engineer; to the smooth roads that bear his bicycle; eye, and to the picture show and ice cream of California."

MOVED WALL WITHOUT INJURY

Engineering Experts Proved It No Trick at All to Lengthen Big Buffalo Church.

In olden days, when the medieval cathedral builders wished to lengthen one of their great churches (and this happened very frequently), there was nothing for it but to pull down the western wall with its two towers, if it possessed any, or the eastern face, and lengthen the structure to the desired extent.

Today, however, thanks to the highly developed art of "house moving," we can lengthen a church without any preliminary destruction of its principal front. As witness of this, the front of the Central Presbyterian church, Buffalo, was recently moved 30 feet eastward, to permit a lengthening of the auditorium to that extent. The front of the building is 78 feet wide over the lateral buttresses, 65 feet high and 8 feet wide at the thickest parts. The weight of the wall, as moved, is 1,000 tons.

The preliminary operations consisted of removing the front, preparing the new foundations, 30 feet to the eastward, and making a clean cut through the roof and through the side walls, where they abutted against the church front. While this was being done the front wall was jacked up upon rollers. The work of moving the 1,000-ton mass was done by means of screw-jacks, operated by 15 men, and the wall completed its journey of 30 feet without injury in 16 hours.—Scientific American.

ENFORCE FEDERAL BIRD LAW

Among the convictions obtained by the United States Department of Agriculture during May for violation of the Migratory-Bird Treaty act were one in Illinois, involving in killing of a gull, fine \$25 and costs; one in Virginia, involving the sale of a heron, fine \$25; two in Kentucky, involving the hunting of ducks from a motor boat, fine \$25 each and costs; two in Florida, involving the possession of ducks in close season, \$25 each; two in Oregon involving the hunting of ducks after sunset, fine \$25 each; one in Oregon involving the killing of a band-tailed pigeon, fine \$25; two in Arkansas, involving the sale of ducks, \$20 each; one in Florida, involving the killing of ducks in close season, fine \$50; one in Virginia, involving the sale of ducks, fine \$100; and one in Louisiana, involving the sale of ducks, fine \$100.

EFFECT OF DAYLIGHT ON PLANTS

Investigation of length of daylight on plant life conducted by the United States Bureau of Plant Industry indicates the importance of this factor in its development. Formation of bulbs is induced by excessively long days, while formation of tubers commonly results from excessively short days. This deposition of carbohydrate in relatively condensed or dehydrated form as a result of an unfavorable light period indicates marked loss of power to utilize the products of photosynthesis in elongating the stem or in developing flower and fruit, a condition well exemplified in the stemless or leaf-rose form of foliage development. The opposite change toward the optimal day length, or stem elongation may rescue typical annual plants from impending death and effect more or less complete rejuvenescence.

HOW SHE DID IT

Two housewives were exchanging confidences as to their help.

"What I can't see," exclaimed the first, "is how you manage to get so much work out of Ruth. I can't do it. She gets your work done much quicker than mine, and does it just as well or better, too."

"Well," exclaimed the second housewife, "I just put jazz pieces on our electric player piano all the time she is working. Simple, isn't it?"
