DESIRE TO CREATE CAUSES HAPPINESS

Wayne Pastor Speaks on "Creative Life" at Union Services Sunday Night Here.

COMMENCEMENT FRIDAY NIGHT

"The desire to create something is the surest road to happiness," said Rev. W. W. Whitman in his high school commencement sermon, The Creative Life, given at the Presbyterian church Sunday evening. He told the graduating class that it was their duty to create a better world than had their parents.

Reverend Whitman contrasted the creative life with the possessive life. If all would seek to create, he said, instead of possess, then there would be plenty for everybody and there would be no more poverty. Since the creative impulse is stronger in most men than the possessive, the speaker held out hopes for ultimate peace and order in the world.

Whitman called attention to the fact that it is a rare achievement for a town the size of Wayne to graduate a class of 42.

As is customary, the graduating class was present in a body, in caps and gowns. The church was well filled.

Features of the services were numbers by a men's choir and a vocal solo by Mrs. Lura Belle Johnson, music teacher of the public schools. Rev. A. C. Downing gave the invocation, Rev. H. A. Teckhaus gave the scripture reading; there was a prayer by Rev. W. H. McClendon; and the benediction was by W. C. Heidenreich. Franklin Phileo played the organ prelude and postlude.

Rev. Snyder To Speak

Tomorrow evening at 8 o'clock in the Methodist church will be the commencement exercises for this year's graduating class of Wayne high school. Rev. C. E. Snyder, well known Unitarian minister of Sioux City, will deliver the commencement address. C. E. Carhart, president (Continued on page five)

200 Will Participate College May Festival

Old Fashioned Fairy Tale Theme of Annual Program

Two hundred training school and college girls will take part in the annual May festival under the direction of Miss Esther Dewitz, physical education head, in the college gymnasium next Tuesday afternoon at 2 o'clock. All of the training school girls will appear at least twice, and 100 college girls will have parts in the festival.

Assisting Miss Dewitz will be Prof. W. Irving Horn directing music and Prof. W. C. Hunter, in charge of the orchestra, and Miss Allwine W. Luers, kindergarten teacher. Marie Denlinger will be the accompanist.

Miss Dewitz, who has directed four May festivals at the college prior to this one, writes the stories of the festival herself. This year the tale is called, The Hidden Necklace, and is an old-fashioned fairy story, with a prince and a princess and all the old-fashioned things.

Some chimney sweeps steal the necklace from Princess Rosiere while she sleeps in her garden, and the king offers the hand of his daughter and half his kingdom to the prince who can recover it. Three princes set out to hunt the necklace. Prince Cecil is shortsighted and in such a hurry that he runs into Old Mother Hubbard and knocks a bundle of sticks from her arms. He is in such a hurry that he does not see Mother Goose Land which begins to appear. Prince Cyril comes along and helps Mother Hubbard to gather again her sticks, but he too hurries away. Then Prince Constant offers to carry the sticks for Old Mother Hubbard, and all Mother Goose Land gathers about him. He tells of the lost necklace and all help him hunt, but it is not to be found until at last Little Bo Peep rushes in bearing it. So Prince Constant wins the hand of Princess Rosiere.

Around this story are woven the songs and dances. The costuming this year will be even more elaborate than in former years. The festival has been under preparation for over six weeks.

The festival will be open and free to the public.

RELATIVES OF MISS PEARSON RECOVERING

Rev. P. Pearson and Miss Mae Pearson, father and sister of Miss Ruth Pearson, teacher at Wayne State Teachers college, and who were injured in an auto collision on the road between North Platte and Hershey Wednesday of last week are both making rapid recovery. Miss Mae Pearson who sustained several injuries about the head, had 31 stitches taken in her scalp. But her injuries are healing nicely and it is thought that she has been able to return home before now. Reverend Pearson left the hospital two days after the accident.

The accident occurred when the two were returning to their home in Hershey after a vocal recital in North Platte, in which Miss Pearson had taken part.

Miss Ruth Pearson, who was called to North Platte after the collision, returned to her classes this week.

ALLEGED CAR THIEF IS RETURNED HERE

Youth Who Stole Kasper Korn Car Year Ago Is Brought Here From Minnesota by Sheriff

Harold Mackey, 20, who completed the serving of a year's sentence on charges of breaking and entering in Minnesota, was taken into custody by Sheriff Stephens upon his release Tuesday and brought here on charges of stealing the Kasper Korn car, more than a year ago.

In county court yesterday the youth pleaded guilty to the charges and was bound over to the district term of court for his sentence and is being held in lieu of a \$2,000 bond which he failed to furnish.

Makes Get Away

When officers were hot on his trail in Sioux City, to which place he was traced after taking the Korn car, Mackey abandoned the Ford and made a successful get-away only to get into difficulties at St. Cloud, Minnesota, where he was sentenced to a year in jail on charges of breaking and entering.

He was identified by St. Cloud officers as the man wanted here for the car theft and his release to Sheriff Stephens arranged.

He is also charged with forging of a number of small checks.

Hail Insurance Canceled

A Lincoln hail insurance company which was alleged to have obtained more than 29 policies by false representations agreed to cancel all policies written and complaints filed by A. T. Cavanaugh, local insurance agent, were dismissed.

The company, it was contended, had sold the hail policies by contending that they are an old line company, but are in reality an assessment concern, which it was pointed out is not considered good protection.

More than 20 policies ranging from \$1,500 to \$1,800 were canceled, and the action rescinded by the plaintiff by agreement.

Kiwanians Will Hold Patriotic Program, Mon.

Harry Siman to Deliver Main Talk at Special Program.

The Wayne Kiwanians are planning their annual patriotic program for next Monday noon, when members of the G. A. Patriotic music is planned for the occasion, and Inez Armstrong will give a reading, Old Glory. Harry Siman, Wayne attorney, is preparing an address fitting to the occasion.

It is a custom of the Kiwanis to hold a patriotic meeting each year the Monday before Memorial day, and invite the G. A. R. as guests.

Mildred Bonawitz and Harriet Craven, Wayne high school girls, gave readings at the meeting last Monday noon, and were enthusiastically received by the club. These were the same readings they had used in the declamatory contest in April.

President Beckenhauer, at the Monday meeting, called for volunteers to interview business and professional men of Wakefield concerning a possible organization of a Kiwanis club there.

Government Defendant In Gildersleeve Suit

Seek to Collect Army Insurance on Total Disability Charge.

Action has been filed in Federal court in which the United States government is named defendant in a suit in which the plaintiff, Harry Gildersleeve, seeks collection of his war risk insurance for the amount of \$10,000 on disability charges.

Gildersleeve, who has been confined to a hospital since the war, it is contended is entitled to the amount of his policy on grounds of total disability as a result of his services. The payment has been contested on grounds of the plaintiff having allowed the policy to lapse, it is said.

The suit was filed by H. A. Welch and P. S. Berry, Wayne attorneys, who are acting as legal advisors for the plaintiff. A hearing will probably be held before the federal court at Norfolk this fall.

Mrs. L. W. McNatt, who was visiting her mother in Lincoln last week, returned home Sunday.

WILDCATS WINNERS, STATE TRACK MEET

Well Balanced Squad Cop. Championship in Meet Featured by Close Competition.

ANDREWS, RAY, DENNIS SET PACE

Fighting an uphill battle the Hickman proteges emerged from the state N. I. A. A. meet here Saturday with Wayne's first conference championship by piling up a total of 21 points in the three final events after they had been headed during most of the afternoon by the Peru bobcats, last year's winners by a two point margin when the Wildcats were runners-up. Wayne amassed 64 points, Peru 58, Chadron 29 and 1-2, and Kearney 22 and 1-2.

New records were set in 11 of the 16 events in which Wayne set the pace by cracking five, Ray accounting for two in both the hurdle events, and "Tige" Andrews following suit by heaving the javelin for a new mark and adding about a foot to the old broad jump record. The other Wayne contribution to the new records was in the medley relay, the final event of the day, which also settled the conference honors, and gave Wayne an 8 point lead.

Dennis Opens Up

In this four men competition Chadron and Wayne ran neck and neck with the former holding a slight advantage until Dennis took the baton on its last trip around the oval. With Bailey, Eagle flash, getting a scant lead Dennis opened up all six cylinders and galloped past his opponent as they rounded the first turn, from then on he gradually widened the gap leading the way to the tape by yards. Bailey also ran a poor second to Dennis in the 440 dash, the latter coasting in without having to exert himself.

Make Great Start

The Wildcats got away to a good start when Ray and Farrow copped a first and fourth for 6 points in the opening event, the high hurdles. This lead was increased by virtue of Christensen turning in two seconds in beautiful runs in the distance races and Phillips, Litel, Jones and Tige Andrews taking the 880 relay. Law Requires License For All Auto Drivers

Can't Drive Your "Lizzle" Without Permit After October 1.

A law enacted by the recent legislature requires every pilot of a motor driven vehicle to carry a license or run the risk of being taxed penalties varying in severity according to degree of violation.

The examinations and permits will be handled through the county treasurer's office, but as yet James J. Steele, Wayne county treasurer has received no instructions other than a copy of the law, and has made no definite plans for carrying out the new ruling.

It is estimated that from 10,000 to 15,000 licenses will be required to supply Wayne county, which will pile considerable work on the treasurer's office.

Cost is "Six-Bits"

The cost of the permit is 75 cents, one-third of which goes to the county treasurer, one-third to the county and the other one-third to the state vehicle fund.

The new law provides that all drivers shall file an application for their licenses by September 1, but 30 days grace is given for the securing of the licenses themselves. The applications are in the form of a questionnaire supplied by the state department and under oath the applicant for a license must answer the following questions in a satisfactory manner:

- Must Answer Questions
- Name?
 - Age?
 - Postoffice address?
 - Place of residence?
 - For how long a period prior to this application have you operated a motor vehicle?
 - Do you suffer from physical defects that would detract from normal ability to safely operate a motor vehicle?
 - Have you suffered dismemberment of foot, leg, hand or arm?
 - Are you subject to vertigo and fainting spells?
 - Are you blind?
 - Is your eyesight defective?
 - Are you deaf?
 - Is your hearing seriously impaired?
 - Has your operator's license ever been revoked or suspended? If so, give the date and period of suspension and period of revocation.
 - After the questionnaire has been filled out in a manner satisfactory to the county treasurer, he will forward it to the state department with his recommendation that the license be granted, and the license will come from the state highway department.
 - In case the county treasurer believes that the examination given by him shows some handicap in the physical

If the treasurer deems the applicant unfit to drive a car, the applicant has the right to carry the case up to the state highway department on an appeal.

Must be Sixteen

No license will be granted to a person under 16 years of age. It will not be necessary to take the examination each year, as the license is good as long as the holder resides in Nebraska, unless revoked for some abuse. For driving under the influence of liquor or a drug, for convictions of reckless driving, or for physical defects, a license may be suspended or revoked. Non-residents of the state may drive their cars for 30 days without securing a license.

The Standard Six Cabriolet is one of the most popular cars in its price field, because it combines the smart open-enclosed motoring vogue with Standard Six performance superiority.

It has a big, high compression, 7-bearing motor for power and speed—"400" steering for the world's easiest driving—Lovejoy hydraulic shock absorbers, for cushioned smoothness over all kinds of roads.

The Special and Advanced Six Cabriolets are distinguished by such "400" features as the new Twin-Ignition motor, Bijur Centralized Chassis Lubrication—press a pedal, your car is oiled—Lovejoy and Houdaille hydraulic shock absorbers.

And, every "400" model comes from the factory equipped with bumpers, hydraulic shock absorbers, spare tire lock and tire cover, at no extra cost. Some dealers, charge as much as \$50 or \$60 extra for bumpers alone.

Compare these Cabriolets to others, then compare their fully equipped, delivered prices. You'll see the advantage in buying a Nash!

Several of the rooms took

a hike after dinner in the school house.

On Friday, the three lower classes of the high school had their picnic. The Juniors and Sophomores went near Stanton. The Juniors accompanied by Miss Fredericka McCormick went to Loes lake where they went bathing, rowing and fishing, going home by the way of Norfolk in the evening. "Marathon Gasoline?"

"Yes, Mam. It's the real stuff puts pep in your car, mam."

"How well I know it. That's the reason I passed up two filling stations looking for Marathon"

and my tank's nearly empty, too. . . . Fill it up!"

Once you use Marathon, you get "choosey" about it. No other gasoline gives you that same mental satisfaction of knowing you are treating your car to the best of motor fuels. Try it once and discover its snappy, powerful performance . . . then use it always.

WAYNE MARKET REPORTS

Following are the market prices quoted us up to the time of going to press Thursday:

Corn \$.88
Oats38
Eggs25
Butter Fat41
Old Cocks12
Hens 19c to 25c
Hogs \$9.00 to \$10.00

The receiving of \$1,344 by the county treasurer as the April remittance from the state of Wayne county's share of the gas tax collected indicates that in the future our county commissioners will have a considerable fund at their disposal in the improvement of highways. This fund apparently will amount to more than \$15,000 during the year and if used carefully will go a long way toward betterment of roads that have been neglected in the past.

In the winning of the Track and Field championship of the N. I. A. A. conference here last Saturday the coach, Mr. Hickman, and every member of his squad are deserving of much credit. They didn't win by a fluke. The honors were Wayne's only after the participants had given of everything they had in every event, never admitting that they might be beaten, but always insisting that they must win. The school no doubt would continue well without a track championship to their credit, but certainly the satisfaction of winning in athletic competition will warrant gratification that is an asset to everyone concerned.

SWEAT AND SUCCEED

Graduation brings to mind the time, not so many years ago, when we were numbered among those who believed they were well primed for anything that might be in store. . . . trained to successfully wrestle with the problems of life. A little reflection is convincing proof that it isn't so much how much one gets from his classroom training as it is how well one uses what is gotten, that matters.

Quite often those who apparently are lacking in natural talents prove more successful than others who are

expected to do great things. Students with an alert and fertile mind are likely to get into the habit of "stuffed" in their school work, finding it rather easy to make a passing grade, which leads them to expect that the problems of life can be surmounted without great effort. Others who have had to exert their minds while obtaining their training are prepared to work hard when they get out of school. They anticipate that they will be beaten in the game of life unless they work a little harder than anyone else . . . and that asset soon puts them far in the lead of those who were prepared for an easier time of it.

Laziness is perhaps the greatest handicap to anyone's success, just as a willingness to always do one's very best is the greatest asset possible of attainment.

Fortunately for those who believe they are less expert than others, they will soon learn that the world is inhabited largely by lazy people, who are satisfied "just to get by" and they will not have to travel far until many of those who were picked as their superiors will have been badly beaten.

We believe a graduate who has learned to always do his very best in everything will succeed regardless of whether or not he may possess a lot of natural talent. He will exercise what ability he does have well and will make up for any deficiency by conscientious effort.

SIOUX CITY STOCK MARKET

(Furnished by Steele-Siman Com. Co.) Beef steers and yearlings were draggy on the initial session and most sales reflected at 15c to 25c decline. No strictly choice cattle were offered to test the market on this class. On the following day, yearlings held up as receipts were lighter and quality improved. However, heavy steers, and especially the plainer kinds, were slow and weak.

Bulk of the cattle sold at \$12.50 to \$13.50 with a number of sales around \$13.75 and a few light weights topped around \$14.00 and \$14.10. Choice grades were quoted well above \$14.00. Plain lots sold down to \$11.50 and under.

The hog market eased off a little on the first day and was about steady on the second session. Light hogs have been in good demand this week but heavy hogs have been draggy.

On Tuesday, the top was \$16.00. Bulk of the desirable weights sold at \$10.25 and \$10.50 with strong and heavy butchers at \$10.00 and \$10.25 and a few ranged under the hill. Smooth sows sold at \$9.25 and \$9.50 with roughs down to \$8.00 and extreme weights less.

The American Legion Auxiliary will make its annual sale of poppies on Poppy day, Saturday May 25. Mrs. Charles Ash, president of the Wayne chapter of the Auxiliary, says of the poppy, "The poppy has taken the place of symbols as the flower of the World war. It has won a place in the hearts of the people of many countries, as it is the memorial flower of the French, British, and Canadian World war veterans; and it is the memorial flower of the American Legion Auxiliary."

WILDCATS WINNERS, STATE TRACK MEET
(continued from page one)

Peru Takes Lead

Following this event the field competition turned the tide in favor of Peru; they grabbing the lion's share of the shot discus and pole vault events, giving them a seven point lead which was overcome when Andrews led the way in the broad jump and javelin events in which his mates aided him in copping a total of 16 points while Peru were gathering in a measly six points which gave Wayne a two point lead with the medley relay still unsettled.

In this event the bobcats were running a poor fourth as they completed the third lap and disqualified by dropping out of the race; Wayne finishing with an 8 point lead.

Andrews Looks Good

McClurg clipped off a beautiful pace in the 880 yrd, finishing second to Williams of Peru, and barely missed winning the event after getting away to bum start when he was caught napping in his hole.

Lorin Andrews in the pole vault showed up very well for a first year man and looks like a future star for the Wayne school. Evans, rather heavy for a high jumper, managed to place second in tough competition with a couple of dark horses from the Eagle nest.

W. S. Rowden District Scout Commissioner

Rev. W. S. Rowden, pastor of the First Congregational church of Colorado, was named Boy Scout Commissioner for this district by R. R. Larson, district chairman, it was announced here last Friday.

The selection of Rev. Rowden, for many years an active Scout worker, Mr. Larson stated that in his opinion he had named the outstanding man in northeast Nebraska in that field of work. Mr. Rowden's scout troops have been regarded as of the very best in this corner of the state for some years, and several times have won the district championship in field competition.

Mr. Larson was selected district chairman by the state executive committee at Omaha recently at which time he was instructed to select a district commissioner.

Rev. Rowden has accepted the office and will assume charge of his new duties in the near future.

Scout Executives Will Meet in Laurel, Tuesday

Northeast Nebraska scout officers and others interested in scout work will meet at Laurel Tuesday evening when important business and other matters concerning scout work will be taken up, R. R. Larson, district chairman, announces.

Legion representatives and others interested in Scout activity will be in attendance, in the opinion of Mr. Larson who stated that the matter of holding a district field meet in the early part of June would probably be settled at this time.

State Scout officials including Mr. Bower of the Omaha National Bank and Mr. Owen of the Stock Yards National Bank of South Omaha, are expected to attend.

Carroll Farmer Solves Theft of His Chickens

A Carroll farmer after losing a number of his chickens on consecutive week-ends decided to play detective and discovered that his hired hand was the source of the mysterious disappearance.

Last Saturday evening instead of going to town with his family he hid about the premises and waited for results. Soon after the family had disappeared the farmer's hired hand was observed in the act of going to the coop and gathering a sackful of the fowls, which he planned to take to market, it developed.

The matter was settled out of court, when the value of the fowls was deducted from the check and the man paid and discharged.

In "Where East Is East," which played at the Gay theatre last week, Lon Cheney departed from his usual role of hopeless love and became a father trying to protect his daughter's lover from the wiles of his daughter's mother. But he is still burly and bull-headed and scowls like a thundercloud. And he seems unable to depart from the grotesque and the Oriental background. The plot centers about a gorilla and a Chinese mother, with a few elephants and tigers thrown in for atmosphere.

We wonder what the real Mr. Cheney is. They say he does not mix much in Hollywood society; that he is a rather seclusive man with a family. What would an interview with him be like?

Lon Cheney is averse to interviews, but the Democrat reporter being real smooth, gets one. (But probably what really leads to the interview is the fact that Mr. Cheney has a special regard for the Democrat. "A good little middle western country newspaper," he says during the interview.)

The Democrat reporter is ushered into Mr. Cheney's drawing room. He is unable to describe it except that it has a polished and gilded effect. He is too curious about Lon to pay much attention to drawing rooms. Lon rises to meet him, a plain square-shouldered man in a gray business suit, smartly pressed. He has a friendly smile. And he has not a single scar on his face, and he doesn't cock his eye, and he doesn't scowl. In fact he is handsome in a mild sort of way. The reporter tells him so, leaving out the mild.

Mr. Cheney apparently is not axi-

ous to talk about himself, for he changes the subject. "They are having quite a time in Washington over the debenture," he says. What! This man who plays with tigers and gorillas and who is always having a hopeless hidden love being interested in the doings of legislators! The reporter is quite disappointed in him.

"What do you think of the debenture?" he asks. A man of Mr. Cheney's type, if interested at all, should be in favor of some radical relief legislation. This may make a good story.

"I am very much in favor of farm relief," says Mr. Cheney. "But I think the debenture plan is not sound economically. In fact, I am quite squarely behind Hoover on most issues. I am a conservative republican."

The reporter feels his breath leaving him. He decides to change the subject, for he does not know much about the debenture, having been kept too busy writing up the doings of the numerous Wayne societies, to read much about national issues.

Perhaps he can get some of Mr. Cheney's advice on a Wayne problem.

"What is the best way of running a band, Mr. Cheney?" he asks. Lon looks at him doubtfully and just the shadow of the old thundercloud comes over his face. "That is a very ticklish question," he says. "I shouldn't like to say. I wouldn't like to say." And then he cocks his eye just a trifle in the old way, looks at the reporter with that straight-out glance and smile of his, and asks, "Who is this Avery Whare who writes in the Democrat?"

"That," replies the reporter, "is a deep secret known only in the inner sanctum of the Democrat office."

Good crowds greeted the first week of talkies at Wayne. The Gay is now an attractive, up-to-date little theatre.

According to Mrs. E. S. Blair, local

librarian, Wayne people do not read so much during May as they do the rest of the year. The filling station men could probably tell us why.

Wakefield Treasury Has Balance of Over \$15,000

Receipts of Past Year Exceed Expenditures by more than \$2,000.

According to the annual report of the Wakefield city treasurer receipts for the past year exceeded the expenditures by more than \$2,000 which added to a balance on hand at the beginning of the year leaves a total accumulated amount of \$15,035.25.

The report shows total receipts in to the city funds for the year of \$37,895.43, and total disbursements for the year of \$35,009.81, leaving a balance on hand May 1, 1929, of \$2,885.62, plus a balance on hand May 1, 1928, of 12,149.63 or \$15,035.25. All of this amount is available except \$1,580.02 which is in the closed Security State Bank.

The report shows the total bonded debt of the city to be \$75,000.00, divided as follows: Sewer, \$8,000, District Paving Bonds, \$26,000; Inter-section Paving Bonds, \$17,000; and Electric Light Bonds amounting to \$24,000. It also shows that bond indebtedness of \$3,500.00 has been paid off during the past year.

Second Visit at Ponca Nets Yeggs \$6.50; Beer

Paltry Amount of Loot Is Reward for Blowing of Safes.

Two bottles of near beer, \$6.50 in cash and some flashlights was the extent of loot to award yeggs, who visited Ponca for the second time during the month, for their efforts in blowing a safe.

The Townsend Drug company and an Elevator company shared about equally in contributing to the reward for the efforts of the uninvited visitors, it is reported.

This is the second time during the month Ponca has experienced visits by safe crackers. About three weeks ago a more fortunate reward of \$550 was gotten from the safes of a garage, general store and smoke house.

The only clue to the robberies is that a large car and a number of strangers were seen on the streets late the night the offenses were committed.

Entrance to the places visited were gained by prying open the doors.

World War Veterans Should File Claims

"There is no Armistice With Death" Edgar Howard Writes.

Approximately 400,000 World war veterans have failed to file their applications for Adjusted Service Certificates, commonly known as the "bonus," according to a letter from Congressman Edgar Howard, which was presented to the Legionnaires at their last meeting by Post Adjutant C. E. Wilson.

Under this law, which was passed in 1924, all men who served more than sixty days are entitled to the bonus, Howard's letter states, and application should be made before the time of expiration the last of this year, as a further extension is regarded as unlikely.

Widows May Apply

"If a veteran, the letter states, died either before or since the enactment of this law without making application, then the widow or children or the dependent father or mother of the veteran may do so now.

"These applications must be filed soon or it will be too late. I am anxious that all interested parties residing within the Congressional District which I represent may not be barred from making claim by reason of limitation, Howard writes.

Can Get Insurance

"One of the outstanding features, Mr. Howard continues, of the recent amendment to the World War Veterans' Act permits veterans of the World War who have heretofore applied, or been eligible to apply for Term Insurance or Converted Insurance, to make application for United States Government (converted) insurance up to the maximum amount of \$10,000 in any multiple of \$500 and not less than \$1000, provided the applicant is in good health and furnishes evidence satisfactory to the Director to that effect. There are no restrictions as to who may be designated as beneficiary under Government Life Insurance, and to place insurance in force it is necessary that a remittance sufficient to cover only the first monthly premium on the amount and plan of insurance applied for be submitted with the application.

"There is no armistice with death."

It costs very little to recondition a MODEL T FORD

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22.50 covers the overhauling of the motor and transmission.

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

Talkies Are Believed Boon to Stage Shows

Report That Show Business Declining Is Called Propaganda.

"The show business is as good as it ever was," declares Czerny James, director of the Savidge players who appeared at Wayne in their opening performances last week. Among other parts, James played that of the

bandit, in the show of that name. Mr. James and his wife, Ruth Friend, were resting in their rooms in the Boyd hotel between rehearsals when approached by the Democrat reporter. Their real name is Stockfeldt, and Mr. James' father is Doctor James Stockfeldt, a dentist and former boys' band organizer of Fremont. James is well known by several people here. His wife comes from Indiana. "It's rather a strenuous life,"

James admitted as he stretched his sparse length over a chair. "Right at present we are working 12 to 18 hours a day whipping the plays into shape." No snap that. But both the director and his wife declared that Wayne people were appreciative and were giving the cast a warm reception. This is their first year with the Walter Savidge players.

Demand for Good Actors

When asked if newspaper reports were true that the show business was in bad shape in New York City, with great numbers of actors out of work, James made a strong denial. "That is all propaganda," he said. He admitted it to be true that hundreds of actors in the large cities were looking for jobs, but he said that there were always down-and-outers in the show business, and that good actors who were willing to work could always find jobs.

"Will the movies and talkies put the stage out of business?" the reporter asked.

"Talkies Help Stage"

"I believe they help the stage," James said. He stated that it was his belief that the greater taste for the theatre that the talkies will give will make for a larger attendance at the stock shows. He did not believe that the mechanical stage could ever take the place of actors in the flesh. The people the talkies will hurt, according to James, are the movie actors who have not had dramatic training and have not acquired a "screen voice". This is especially true of the cowboys, who, as a rule, can ride better than they can talk. But movie actors who were on the legitimate stage before they went into the movies are finding themselves in luck with the advent of the talkies.

Czerny James went to school at Lincoln and at the dental school in Omaha. He first felt the lure of the show world when the Hodgen Brothers Opera company came through Fremont in the early nineteen hundreds. He signed up with them to play second violin, and went out through Colorado that season.

Started With Circus

The next summer he played with a circus which turned out to be a tougher bunch than he had anticipated. Circus members killed a man in attempting to rob him. The whole troupe were thrown under suspicion, with the result that the circus was virtually broken up.

For the last 15 years James has been playing with stock companies. A few years ago he acted with David Warfield in The Merchant of Venice, taking the part of Bassanio. He likes the higher type of dramatic plays. People will not get better plays until they demand them, he says, for actors have to live and they must give the people what they want.

MY MOTHER

Come thou, eternal Muse, inspire my heart to sing,
To sing a song of sweetest cheer;
Let Heaven's bright wolk in ring
With a song of thee, sweet mother dear!

As memories of the eternal years roll by,
No sweeter name than thine
On earth below or in heaven on high
Hath come to cheer this heart of mine.

The power that holds the planets in their path
Is not stronger in its power to bind,
Than the strength that thy heart hath
To hold and direct this life of mine.

How oft in the stillness of the night,
Doth visions of thee appear!
And I awake at break of morning
To find it only a dream of morning dear!

Long years have into eternity been pressed,
Since thy gentle hand smoothed down my hair,
But thy power to soothe my aching breast
Is a part of heaven that hath doth share.

As I wander on through the mist of years
With no substitute for this love of thine
May thy memory-presence quiet those fears
That sometimes cause me to shudder and repine!

For the guardian angels that watch my path
Are companions of thine in service of love
To watch and preserve in full and not half
My life on earth and lead it to God's joys above.

For a Better Job—in Half the Time

John Deere ND Two-Row Cultivator

Get into your fields with the ND this year! Do your cultivating in half the time it would take with a one-row—make a real reduction in your labor costs, and do a better and easier job of cultivating.

You will be sure to like the simplicity and convenience of the one master lever, by means of which you raise and lower rigs without stopping at ends of rows.

You will appreciate the advantage of the spacing levers and the tilting lever, which are operated

from the seat as you drive. The spacing levers enable you quickly to space rigs the desired distance from rows—the tilting lever enables you instantly to adjust set and suck of shovels—a special advantage on hillsides.

The quick, easy dodge makes it easy to follow crooked rows. The ND works all the soil—shovels always cut their full width and kill all the weeds. Knife attachment can be furnished.

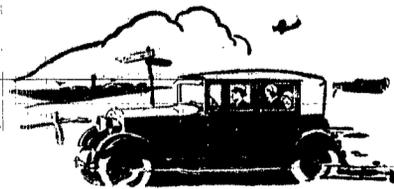

OT John Deere quality through-out, this cultivator will prove itself a real buy.
