

## WAYNE GOLFERS HOSTS TO 1930 GOLF TOURNEY

Eight Wayne Golfers Complete First Round of N. E. Nebraska Tourney at Fremont.

### DOPE STRONG ON FRANK MORGAN

Four golfers out of the 16 who survived the first round of the annual Northeast Nebraska golf tournament Tuesday were from Wayne. They were Charles Craven, Frank Morgan, William Beckenhauer, and Carl Wright. Dr. A. D. Lewis lost by default.

Don Larson, R. R. Larson, W. P. Canning, and Roy McDonald also won their matches, with but two from Wayne, C. H. Hendrickson and Max Hendrickson, dropping out in the first round.

Frank Morgan, after qualifying, was picked as one of the three probable winners. Fred Dale and W. T. Hunter, who were unable to play after qualifying for the tournament Monday, were also strong favorites to win, as they won first and third places at Madison last week.

### Banquet Monday Evening

At the annual banquet of the golf association held at the club house Monday evening, Carl Wright, of Wayne, was elected president to succeed L. E. May, of Fremont, and Frank Morgan, of Wayne, was elected secretary to succeed "Mickey" Krupinsky, of Fremont. Wayne was selected as the location of the tournament next year. The Wayne golfers were the hosts to the tournament last year. Wayne men who gave talks at the banquet Monday evening were C. H. Hendrickson, C. M. Craven, and Roy McDonald.

The final rounds of the tournament will be played today. Men from Wayne entered in the tournament are: C. M. Craven, Frank Morgan, A. D. Lewis, William Beckenhauer, Carl Wright, Don Larson, R. R. Larson, W. P. Canning, C. H. Hendrickson, Roy McDonald, F. C. Blair, and Max Hendrickson.

## Ford Man Harvesting On His Texas Farm

E. A. McGarraugh, general manager of the McGarraugh-Briggs Motor Co., returned home the first of the week from Perryton, Texas, where he had been harvesting wheat on his farm there for the past two weeks. Two of Mr. McGarraugh's brothers operate wheat ranches in that territory, one of them owning over 3,000 acres.

According to McGarraugh, the wheat crop in that section is heavy this year. J. H. Berg, who accompanied McGarraugh to Texas, remained on the farm for the present, where he will aid in the harvest.

## Mrs. Jones Improved Is Coming Home Soon

The friends of Mrs. F. H. Jones will be pleased to learn that she has made rapid improvement since her recent operation when it was necessary to remove her foot, and that she was removed Monday from the Sioux City hospital where she had been confined for many weeks, to the home of Francis Jones, her son. It is expected that she will be able to return to her home in Wayne within two weeks.

## August Kruse Opens Small-Grain Harvest On His Farm July 5; Cuts 10 Acres Rye

The small-grain harvest in this vicinity opened Friday, July 5, when August Kruse cut a 10-acre field of rye on his farm northwest of Wayne. Saturday afternoon Gerson Allvin drove his binder into a 20-acre field of barley on his farm just west of the city. He reports a fine yield, with the grain well headed. Henry Barleman began harvesting a field of barley and oats Monday. But both Barleman and Allvin were delayed in completing their cutting by rain.

A number of other farmers were prepared the first of the week to begin harvesting the moment the weather cleared to permit them to get into the fields. The fields of early oats over the county are mainly well turned in color, and it is expected that

## MRS. JOHN MCINTYRE THE ONLY WOMAN PIANO TUNER

Mrs. John McIntyre of this city can boast of being the only woman in the United States to have a diploma for completion of a piano-tuning course. Mrs. McIntyre graduated in May from Polk college, at La Porte, Indiana, the only school which offers courses in piano tuning, and won the first diploma in that work to be granted to a woman in 27 years. The last woman to receive a diploma from the school is now dead, which leaves Mrs. McIntyre as the only living woman in possession of one.

Piano tuners, other than graduates of Polk college, first take preliminary work in factories; and there are few women at this kind of work. So far as the Polk college authorities know, Mrs. McIntyre, is the only woman in the United States who is a practicing piano tuner.

## 8,500 CELEBRATE AT KAY'S THE 4TH

Wayne Woodmen Defeat Altona; Colored Boys Walk on Pilger; Weather Good.

With the most ideal weather in years for the Fourth of July, over 8,500 people, a large number of them from a distance, celebrated last Thursday at Kay's Amusement park. This number included 2,500 children who were admitted free of charge. The weather, cloudy and cool, yet not threatening, did not keep the crowds away, and the climax came in the evening when 25 special police and parking directors were unable to handle readily all the traffic going in and out of the grounds. There were no serious accidents of any kind.

### Wayne Woodmen Win

The Wayne Woodmen walked away from the Altona team 8-1 in the morning baseball game, copping four runs each in the fourth and the eighth innings. The Altona bunch made their sole run in the seventh. Batteries for Wayne were Sund and Lutt. In the afternoon game the Kary All Star colored team walloped Pilger to the same tune, 8-1.

Of the various novelty contests, Leroy Stamm won two, successfully climbing the greased pole for a five dollar prize, and winning the potato race for \$1.50. Fern Van Allen won both pop races, with a \$1.50 award for each. She was just 12 years old and was eligible to compete in the pop race for those 12 years and under as well as the one for people 12 years and over. Leland Stamm won the potato race for boys 12 years and under, with a \$1.50 prize. The winner of the pipe race was George Rennieck. The prize was \$2.00.

The Wayne band elicited the usual attention with its all-day program of high class, semi-popular numbers. The concession booths, which did a rushing business in the evening, the swimming pool, the acrobatic stunts, and the dancing with McDonald's 10-piece orchestra furnishing the music, were other features of the celebration.

## Musical Production At College Tonight

This evening, at 8 o'clock, in the college auditorium a musical comedy adaptation of "The Cotter's Saturday Night" will be presented by an eastern company. This company has been on the road over three years with the popular Scotch production.

## August Kruse Opens Small-Grain Harvest On His Farm July 5; Cuts 10 Acres Rye

the oat harvest will be under way by the last of the week.

### Much Grain Down

The heavy rains and the hail, combined with the heavy yield that is generally reported, have resulted in much of the grain going down, and in some localities it is down quite badly. All indications are, however, that the small-grain yield in the sections not hailed out will be larger this year than last.

The farmers in this section are all engaged in laying-by their corn every minute that the weather permits, and in some sections most of them are thru cultivating. Corn has made rapid progress during the past two weeks, due to the warm nights combined with the frequent rainfall.

## State Normal and Wayne Dormitory Boards Award Contracts Here Monday

Homer Seace and Beckenhauer Bros. Win on Bids for Dormitory Wing and Power House Repair.

### NORMAL SCHOOL HEADS HERE

Contracts for the building of the west wing of Neilhardt hall and for the remodeling and repair of the college power house were let Monday at the meetings of the state normal school board and of the Wayne Dormitory Building corporation, held at the college. Beckenhauer Brothers, of Norfolk, were awarded the contract for the dormitory addition, at an estimated cost of \$49,000, and Homer Seace, of Wayne, won the contract for the enlargement and repair of the power house, his bid being \$16,489. The work on both buildings will commence immediately, and it is expected that the new wing of Neilhardt hall will be completed by the end of the second semester next year.

### A Number of Bidders

The bidders for the dormitory contract were, besides Beckenhauer Brothers: the Keller Brothers, of Yankton, South Dakota, Coomer & Small, Sioux City, and G. F. Construction Co., Exira, Iowa.

The bidders for the power house contract were: Homer Seace, G. S. Construction Co., Beckenhauer Brothers, J. H. Foster, of Wayne, and a Mr. Johnson, of Wakefield.

Sam Waugh and George W. Holmes, representing the First Trust company of Lincoln, which will finance the dormitory addition, were present at the meeting of the Dormitory corporation.

The members of the state normal board who were present at the meeting Monday were: Charles W. Taylor, state superintendent of schools, H. E. Reische, of Chadron, Fred M. Anderson, of Cozad, William H. Pitzer, Nebraska City, Frederick Berry, of Wayne, and the following normal college presidents: George E. Martin, of Kearney, Robert R. Elliott, of Chadron, U. S. Conn, of Wayne, and Miss Elma Gockley and Mrs. Inice M. Dunning representing President Pate, of Peru. The latter were letting the contract for the furnishing of the new dormitory at Peru State Teachers college.

Reports on the budget plans for the normal schools also were presented. These will be considered further in September. Members of the board left Tuesday afternoon for Kearney, where they are continuing a tour of inspection.

## Christensen Accepts Position in Wahoo

Democrat Man Takes Similar Position With "Wasp".

A. W. Christensen terminated three years of service for the Nebraska Democrat last Saturday evening, when he resigned in favor of a position on the Wahoo Wasp, published by W. P. Pickett of Wahoo. He commenced work on the Wahoo Wasp Monday morning. While he was here, "Chris" served in an advertising and editorial capacity, and since the death of Mr. Gardner in March, has had complete charge of that end of the work.

Mr. Christensen will undertake similar work on the Wahoo paper. Kent L. Pellett, who has been serving the past three months on the Democrat in a reportorial capacity, will fill temporarily the vacancy left by Mr. Christensen.

## Undergoes Operation In Sioux City Saturday

Herman Eickhoff was taken to the Sioux City hospital Friday, where he underwent a major operation Saturday morning. Fred Eickhoff, his father, who was in attendance at his bedside, returned home Tuesday afternoon, and reported that Herman is doing as well as can be expected, tho his recovery will be slow.

## Baby Beef Club to Meet Tomorrow Night

The members of the Wayne Baby Beef club hold their regular monthly meeting for the transaction of business tomorrow evening at the American Legion hall.

## MISS MARY HALE DIES THURSDAY FOLLOWING FALL

Young Woman Who Fell From Mow in June Succumbs Very Suddenly In Omaha Hospital.

### INTERRED AT BURWELL SUNDAY

After being paralyzed for nearly a month as a result of a fall from a hay-mow June 10, Miss Mary Hale, 35-year old woman of north of Wayne died very suddenly and unexpectedly at the State Hospital in Omaha the night of July 4.

Miss Hale, who had been confined to the Wayne hospital since the day of her fall, was paralyzed from the waist down. She showed some slight improvement while there, and the little hope was held for her eventual recovery, she was thought to be in no immediate danger, and was taken by ambulance to the Omaha hospital last Thursday. Her sudden turn for the worse and death Thursday night came as a surprise to those in attendance.

Miss Hale was injured about a month ago while caring for chickens in a haymow of a barn on the farm of Frank Gilbert, her half-brother, with whom she was living. She accidentally stepped over an opening in the mow floor which was concealed by a covering of hay and fell to the ground below. While no bones were broken by the fall, she sustained severe spinal injuries, and was taken at once the Wayne hospital.

Funeral services for deceased were held at Burwell Sunday, and interment was in the Burwell cemetery, beside her father and mother.

Mary Hale was born April 6, 1894, at Burwell, in Garfield county, Nebraska. When a small child, she lost her father, George Hale, and her mother about 10 years ago. For the past three years she has been making her home with Frank Gilbert, her half brother.

Deceased is survived by eight brothers and step-brothers, and three sisters and step-sisters, who live in this vicinity and in the western part of the state.

## "Seventh Heaven" Given Tonight By McOWens

Play Selected as Greatest Movie and Stage Production in 1927.

"Seventh Heaven", which will be presented to the Wayne audience this evening by the McOwen Stock Co., has the unusual distinction of having been selected not only as the greatest movie produced in 1927, but also as the greatest stage production the same year, when it was put on the stage in New York City, with Helen Menkin starring. This play, Mr. McOwen says, is the highest royalty bill ever produced by a company of this nature, and has special scenic and electric effects, and special costuming.

### Local Talent Saturday

Tomorrow evening the play, "Smiles" will be given, and Saturday night, the New York musical show, "Peggy from Paris," with a chorus made up of local girls and two daughters of Mr. McOwen. Holbrook, the chorus director, is now drilling the girls for their parts, but at the time of going to press the cast had not been selected entirely.

Attendance was very good the first three nights of the week, with the house almost entirely sold out each night.

## Library Board Holds Election of Officers

The Wayne Library board held its regular monthly meeting Monday evening, when officers were elected for the coming year. F. G. Phillee was reelected president and Mrs. E. S. Blair secretary & Dr. T. T. Jones was elected vice-president.

### AUKER VS. RITZE CASE TRIED IN COUNTY COURT

The suit of S. E. Auker vs. Richard Ritze and others, opened Wednesday morning with Judge Clinton Chase, of Stanton presiding.

## MRS. NETTIE SEARS GIVEN CHANCE TO VISIT SON'S GRAVE

Mrs. Nettie Sears, of Omaha, received word July 3 from the United States government to be ready to go to France at government expense to see the grave of her son, Irwin L. Sears, who was killed in action during the World War, according to Charles Martin, her brother, who spent the Fourth with friends at Council Bluffs.

Irwin L. Sears was the first soldier from the city of Wayne to be killed in action overseas, and he was buried in France. It is the practice of the U. S. Government to pay in small contingents the expenses of the mothers or near relatives who wish to see the graves of their fallen ones. But it is reported that Mrs. Sears will be unable to make the journey because of a recent operation.

## FACTS DISPROVE WET PROPAGANDA

Not Autos Enough to Carry Booze if People Drank as Much as Used to, Says Rev. Jones.

That all facts show that the consumption of alcoholic beverages has decreased immensely since the passage of the Volstead act, was the declaration of Rev. F. C. Jones, pastor of the Wayne Presbyterian church, in his sermon on law observance Sunday morning.

"The average consumption of alcoholic liquors in 1917 was 19.95 gallons per capita in this country, a total of over 2 billion gallons," said Rev. Jones. "This vast amount, which is manifestly no longer transported by the railroads, the wets claim is being hauled by automobiles." The speaker pointed out the absurdity of this, as it would take as many cars as there are in the United States to transport this amount of booze.

"If we were consuming liquor at the same rate today," he said, "it would take over 45 strings of cars, allowing eight feet between, stretching across the continent, to transport it." Rev. Jones pointed out that the number of saving accounts in American banks has increased over 400 per cent under prohibition. He placed much of the responsibility for misrepresentation of the situation upon the shoulders of the press.

## Weekly Band Concert Given This Evening

The Wayne Municipal Legion band will play in Bressler park again this evening, with the concert beginning promptly at 8 o'clock. The following program is announced:

- March, "Gloria".....Losey
- Overture, "Don Juan".....Mozart
- Encore, "The Toy Maker's Dream".....Golden
- Selection, "Erminie" from Jakowski's Comic Opera.....Arr. Meyrelles

- Clarinet Solo, "Showers of Gold".....Bouillon
- Bennie Kay
- Encore, "Wedding Bells".....Fain
- Largo, "From the New World".....Arr. by Safranek
- (From Antonin Dvorak's 5th Symphony)
- Encore, "Grades Du Corps" March
- Idyl, "The Glow-Worm".....Lincke
- Encore, "The Wedding of the Painted Doll".....Brown
- March, "Grandioso".....Seitz
- Finale

## Bonestel Is Now On His Chicken Ranch

Ben Bonnestel was in Wayne the last of the week, preparatory to shipping his household goods to Stratford, Missouri, where he is now located on a farm. Stafford is in the midst of the Ozarks, where Mr. Bonnestel says that the crops are looking fine, though lower Missouri is all flooded.

Mr. Bonnestel until recently was manager of the Boyd hotel. Dr. and Mrs. A. B. Cherry, of Pasadena, California, are spending two weeks at the home of Dr. Cherry's brother, J. M. Cherry, in this city. Dr. Cherry practiced medicine in Winslow for 25 years, and left here about ten years ago.

## NEW PAPER MONEY IS ISSUED LOCALLY WED. AFTERNOON

Over \$10,000 of Small Bills Received by First National and Wayne State Banks.

### TWO-THIRDS SIZE OF OLD NOTES

The first allotment of the new, small-sized paper money was received Wednesday by the two Wayne banks, and is now in circulation locally. The new money will be issued gradually, in proportion to the deposits of the banks, and will in time replace all the old paper currency. Over five thousand dollars was received by each of the local banks, and will be put immediately into circulation.

The preparation of the new currency, in denominations from one dollar up to ten thousand dollars, for the 118 million people of the United States, was one of the most gigantic tasks undertaken by the government in recent years. Making the engraving plates was the largest part of the work, with many artists engaged on the design of each plate.

### New Bills Convenient

The new bills, which are 6 5/8 in. x 2 11/16 in., are two-thirds the size of the old, and approximately the size of those which have been used in the Philippines for the past several years. This size has been found by money handlers to be more convenient in every respect than the larger size, fitting generally into pocket books without folding.

Another object of the creation of the new currency is simplicity and uniformity. Henceforth a \$1 bill may be always recognized by George Washington's face on the front of it, and an ornate "ONE" on the back, while Benjamin Franklin's portrait will shine forth from the front of all \$100 bills, and Independence Hall from their backs. When people grow accustomed to the new currency, it will be almost impossible for crooks to alter the denomination of currency without being detected, as they will need to alter the pictures and designs as well as the figures in the corners.

It is estimated that once the scheme is in full operation the government will save two millions dollars annually from the change to the smaller currency. This saving will come thru the smaller number of plates which will be used in engraving the currency, and in the 440 tons of paper saved annually by the smaller size of bill.

## George Patterson Has Collision With Auto

Two stitches had to be taken in his scalp Tuesday evening after George Patterson, local motorcycle policeman, collided with a car driven by a salesman from Lincoln, who pulled out in front of him. The motorcycle was temporarily put out of commission, but it is understood that damage was not extensive. The salesman admitted himself to be to blame. Mr. Patterson's injuries were not serious.

## To Be Married In Montana Next Week

Miss Elinor June Rennieck, local young woman and daughter of Mrs. W. C. Andrews, of Wayne, and Ralph Hayden Parker, of Valier, Montana, are to be married at Great Falls, Montana, next Thursday, July 13, according to announcement this week. Mr. and Mrs. Andrews will accompany Miss Andrews as far as Wyoming. The young people will make their home at Valier, Montana after July 25.

## Carroll Man Opens Produce Store Here

K. Tonseth, operator and owner of the Carroll Hatchery, will open a produce and feed store at the old Weber mill at 212 East 2d street next Monday, July 15. He will also open a chicken hatchery in connection with the store the first of the year. Mr. Tonseth plans to make his home in Wayne. Mr. Tonseth will be in the market for poultry, cream, and eggs, and will be prepared to supply all kinds of poultry feeds and supplies.

**LOCAL AND PERSONAL**

Mrs. Emma Baker and Miss Gwendolyn Mulvey spent Sunday in Neligh.

Mr. and Mrs. L. M. Owen and Mrs. H. H. Cones picniced at Wisner on the Fourth.

Dr. Young's Dental Office over the Ahern's store. Phone 307.—adv. tf.

Mrs. M. E. Cheney and Mrs. Don Lamb, the mother and sister of Mrs. J. M. Pile, are spending two weeks at the Pile home.

Fred Blair and family were Fremont visitors Sunday. Mr. Blair qualifying for the golf tournament held at Fremont this week.

**Special attention to all kinds of fillings. Robt. W. Casper, D. D. S.**

John Morgan who spent the Fourth in Winner visiting at the home of an old friend, returned home Saturday. He reported that a hot wind which they experience the first of last week did much damage to the small grain in the Winner territory.

Visitors at the J. C. Johnson home the Fourth of July were Mr. and Mrs. L. M. Schlicht, Mrs. Marie Jorgensen, all of Omaha, and S. P. Johnson, of Wakefield.

The members of the Christian Sunday school, with a number of visitors, held a picnic at the Amos Beckenhauer farm on the Fourth. The group gathered at 10 o'clock in the morning and the celebration lasted until 4 o'clock in the afternoon.

Mrs. James Gamble went to Shenandoah, Iowa, Tuesday morning where she will spend two weeks with her daughters, Mrs. Rose James, of Shenandoah, who has recently undergone an operation there, and Mrs. R. E. Malloy, who lives near Imogen, Iowa.

**Dr. S. A. Lutgen, M. D. All calls promptly answered.**

Leslie Welch, Kansas City attorney, with his son, Leslie, Jr., was a week end visitor at the home of his mother, Mrs. A. A. Welch. Mr. Welch returned to Kansas City Sunday afternoon, leaving Leslie, Jr., to stay with his grandmother for two or three weeks.

Just installed air pressure greasing system which speeds up our work, but we still don't go so fast that we miss any of the places. Salas Tire and Service Shop.—adv.

Mr. and Mrs. Harold C. Volf, and baby, and Henry Hofeldt, Mrs. Volf's father, of Blue Island, Illinois, are visiting in this vicinity this week, at the homes of George Hofeldt, of Wayne, and Gus and William Hofeldt, of Laurel. Mr. Hofeldt will also visit brothers in this part of the state whom he has not seen for 40 years.

Rev. Dan Burros and family, of Ada, Kansas, who had been visiting with Wilbur Gifford, Rev. Burros' brother-in-law for several days, left Monday evening for Walthill where they are spending a few days with the sister of Mrs. Burros. Rev. Burros until recently has been the pastor of the First Baptist church at Ada, Kansas, which was burned to the ground this spring.

**Findings Raising Peaches Is A Profitable Hobby**

Started With One Tree 15 Years Ago, Has Fine Orchard.

Starting with a single peach tree which he acclimated and coaxed to bear 15 years ago, B. J. Haeussler, Coleridge resident, now has a paying hobby with 80 trees in fruit, and an orchard of 1,000 ranging in age from one to fifteen years, and prospects for a big crop this fall.

The grandfather of Mr. Haeussler's orchard, was produced after 25 years of nursing in Northeastern Nebraska climate. It was allowed to freeze to the ground three times, after which a seed which could stand the cold was obtained.

The orchard, beautiful in bloom, was frosted this spring and about half the blooms taken. This means that the year's crop will be less, but the fruit will be much larger than otherwise, according to Mr. Haeussler, who expects to have from 75 to 100 bushels for sale. He sold 500 young trees to farmers about Cedar county this spring.

**Youth Rescued and Revived Then Dies**

Reuben Margolis, 19-year-old Norfolk youth, died at a hospital a few hours after he had been taken from a swimming pool the night of the Fourth and resuscitated. Edema of the lungs caused by the water was given as the cause of death.

Margolis was seen to topple into the pool as he was crawling out about 10 o'clock and did not rise to the surface. Walter Johnson, Stanton High school athlete, plunged into the pool and found Margolis in seven feet of water.

Ed McCune, Norfolk fireman, succeeded in restoring the youth's breathing. Recovering consciousness Margolis said, "I'm all right," but he was taken to the hospital where he died a few hours later.

Burros until recently has been the pastor of the First Baptist church at Ada, Kansas, which was burned to the ground this spring.

**Carroll Woman Says Hens Are Best Incubators**

Mrs. Guy Pippin, who lives north of Carroll, recently hatched 1,000 chickens with hens. Mrs. Pippin, an extensive poultry breeder, does not have an incubator on her farm, and says that she does not believe in them. Not only that, but she refuses to raise purebred chickens, choosing instead a cross between the Buff Orpingtons and the Rhode Island Reds, which she claims is superior to the purebreds both for killing purposes and for egg laying.

Mrs. Pippin has sold 600 dozen eggs for hatching this past season at two cents a dozen above the market price, all of them of her Buff Orpington-Rhode Island Red cross.

**Defunct Wakefield Bank Pays Dividend**

8 Percent Dividend Received by Depositors Last week.

The defunct Security State Bank of Wakefield made another payment to depositors the latter part of last week the dividend amounting to approximately \$55,000.00.

The dividend came as a surprise to local people, and no advance notice was given. The payments were sent direct to the depositors from the Guarantee Fund Commission in Lincoln in the form of a voucher, and could be cashed at the local bank.

The amount paid was 12% of the money still due depositors, or a little better than 8% of the total deposits, at the time the bank closed.

The bank closed in November, 1927, and had made previous payments of 20% and 10%. This now makes a total of about 38% paid in all.

Mr. A. M. Strunk, who has been in charge of the bank, could make no statement as to how much more the bank might pay out, or when. He stated that there were still some collections to be made.

Read the advertisements.

**Rare Volumes**

It is thought that there are but 101 printed books in existence that were made before 1500. Nearly one-third of these rare books are owned by the Library of Congress.

**He Gets an Earful**

A Czechoslovakian citizen returned from the Arctic region, where he had been living with the Eskimos 36 years. In that time he had had no news of the outside world.

**Old Hiding Place**

The bed of the Mattaponi river near Richmond, Va., has revealed an Indian dugout believed by members of the Pamunkey tribe to be three hundred years old.

**Peat's Great Value**

Peat is regarded as a splendid fertilizer. It is light and porous and is mixed with stiffer soils such as clay and sand to give these qualities to the soil.

**Shows Benefit of Rest**

A man who does heavy manual work and is in good health is usually four pounds heavier on Monday morning after his Sunday rest.

**A Child's Desires**

A canary bird in a big cage is sometimes more important to a child than bread, beans or fricassee of chicken.—Woman's Home Companion.

**Distribution of Indians**

The following states, in the order listed, have the largest Indian populations: Oklahoma, Arizona, New Mexico, California, South Dakota, North Carolina, Montana, Wisconsin, Washington, Minnesota, North Dakota, Michigan and New York.

**Constituents of Honey**

Honey contains 18 parts water, 73 parts carbohydrate (including 76 parts sugar and 2 parts dextrin), .02 mineral substances or 4 parts of pollen grain, gum, bee glue, formic acid and volatile oils and other flavor substances.

**Necessary Knowledge**

No man can lay claim to a liberal education unless he knows something of the reach and sweep of these peaks of poetry and learning raised by the spirit of man in the civilizations of Greece and Rome.—Markham.

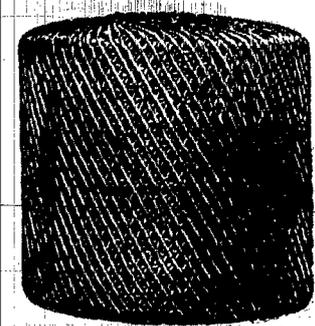

**Words of Wisdom**

Know the true value of time; snatch, seize, and enjoy every moment of it. No idleness, no laziness, no procrastination; never put off till tomorrow what you can do today.—Chesterfield.

**Stucco Needs Clean Surface for Adhesion**

Monolithic concrete walls should preferably be rough and of coarse texture, rather than smooth and dense, for the application of stucco. Walls of this type should be cleaned and roughened, if necessary, by hacking, wire brushing or other means.

The surface of the concrete should be brushed free from all dust, dirt and loose particles, and should be wetted to such a degree that water will not be rapidly absorbed from the plaster, but not to such a degree that water will remain standing on the surface when the plaster is applied.

Concrete block for stucco walls should be rough and of coarse texture, but not weak or friable. Block should be set with cement mortar joints, which should be raked out or cut back even with surface.

Before applying the stucco the surface should be brushed free from all dust, dirt and loose particles, and should be wetted to such a degree that water will not be rapidly absorbed from the plaster, but not to such a degree that water will remain standing on the surface when the plaster is applied.

**Where a Window Is There Should Sink Be**

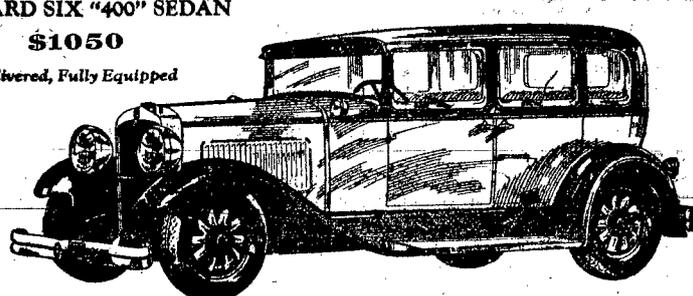

Kitchen experts agree that the best place for a kitchen sink is under a window. Under some circumstances, where the plan of the kitchen is unusual, the sink may be placed elsewhere, but there should be an assurance of good light. If the sink is placed on the outside wall the pipes will not freeze up, as the drainage line does not go into the wall and the supply pipes do not have to be placed there. If they are put in the wall they may be insulated so they will not freeze.

**Small House Idea**

On account of the high cost of construction and maintenance, it is no longer practicable to erect the huge frame residences which have lined our city streets in the past. The old order of eight and nine-room houses for the man of moderate means has had to give way.

**NASH '400'**  
Leads the World in Motor Car Value

STANDARD SIX "400" SEDAN  
\$1050  
Delivered, Fully Equipped

STANDARD SIX "400"  
\$980 to \$1090  
Delivered, Fully Equipped

COMPARE it to any car in its field, and you'll find the car you would rather have is the Nash "400" Standard Six.

Comparison confirms its style superiority. Comparison of this car with others at its price also brings out the fact that the "400" high-compression motor is smoother in its action, more dynamic in its power, ahead in engineering excellence. Here are 7 bearings instead of 3 or 4, Bohnalite invar strut pistons instead of the cast iron type, full pressure lubrication for dependability and durability.

And at no extra cost, this car is equipped with Lovejoy hydraulic shock absorbers, chromium nicked bumpers, spare tire, tire lock and tire cover; items customarily sold as "extras."

## THE WEEK'S NEWS

Bits You May Have Overlooked in the Daily Press.

**Colored Boy to West Point**  
Alonzo Souleigh Parham of Chicago became the 22nd Negro boy to enter West Point, when he presented his credentials last week and was measured for a uniform. Cadet Alonzo Parham was recommended by Oscar De Priest, colored representative from his state. If he graduates, he will be the 4th Negro to receive that honor at West Point.

**Railway Buys Bus Line**  
A short time ago the Interstate Transit lines, a bus company operating out of Omaha, purchased the Cornhusker and Queen City Bus lines, and thus secured almost complete bus coverage of Nebraska, with 80 buses serving 400 towns in this and neighboring states.

And now, this last week, the Union Pacific Railway, announced the purchase of the Interstate Transit lines, at a purchase price of about a million and a half dollars. Under the Union Pacific management, the lines will continue to operate from the Union Bus depot in Omaha, with Russell J. Walsh, founder of the Interstate Transit company, as president and general manager, Carl R. Gray, president of the Union Pacific announces.

**Snow Storm the Fourth**  
There was a snow storm in the United States on the Fourth of July. This occurred at Speculator, New York, where it fell so thickly for ten minutes that motorists stopped their cars to avoid running into each other. While this was happening a man died in Chicago from the heat.

**Pipe Gas to Chicago**  
Piping gas from the Texas panhandle to Chicago is one of the latest industrial moves. The Skelly Oil company, the Phillips Petroleum corporation, and the Columbia Carbon company are forming a combine for this purpose. L. E. Phillips, president of the Phillips company has revealed.

The Texas-Empire Pipe Line company already has a 12-inch pipe line under construction from the Cushing field of Oklahoma to Chicago.

**May Ban Omaha Fireworks**  
After the fireworks disaster in Omaha, Fire Commissioner Westergard of that city thought it a good time to move against the use of pyrotechnics in any form in the city, and he introduced an ordinance before the city council Tuesday evening which would ban all fireworks except public displays with a permit and those used for signals by transportation companies.

All the fireworks shot off in the country," said Westergard, "are not worth the sight of the boy in Benson, lost by a firecracker carelessly thrown."

Many of the larger cities and even some states have ordinances prohibiting the use of fireworks. The city officials are divided on the question. Mayor Dahlman is against the ordinance. "I have always been against dictating what a person shall and shall not do," he said.

**Tammany Celebrates Fourth**  
The braves of Tammany Hall, who have been celebrating every Fourth of July since the first one, celebrated this year by dedicating their new Wigwam in Union square, New York. Among the notables who were present at the Wigwam were Franklin D. Roosevelt, Alfred E. Smith, and "Jimmie" Walker, the latter, mayor of New York City.

**Ku Klux Moves Headquarters**  
Now that its campaign against Al Smith is safely over, the Ku Klux Klan is moving its national headquarters from Washington, D. C., back to Atlanta, Georgia. The Klan has just erected two new buildings in Atlanta, one for the manufacture of regalia, and the other an administrative building. Officials say that whether the headquarters are moved back to Washington in the future or not will depend on who the presidential candidates are.

Imperial Wizard Hiram Wesley Evans who remains in Washington, denies however, that it is correct to say that the official headquarters have moved. "The headquarters of the Klan," he says, "are wherever I am."

**Her Angelic Attributes**  
A man who surprised his wife by calling her an angel was asked to explain his unusual compliment.

"Well, Mary," he said, "in the first place, you are always sitting about; secondly, you are continually harping on things; and thirdly, you are up in the air most of the time."—Christian Endeavor World.

## Give Corn Water for High Yields

### Need of Fertile Soil and Use of Legumes in Rotation Are Factors.

No one ever saw a good yield of corn on poor land nor during a dry season, unless the crop was irrigated. Large amounts of water are essential to heavy corn production per acre.

"Much interest has been created through North Carolina by our statement that the average acre yield of corn should be at least 50 bushels," says G. M. Garren, cereal agronomist at the North Carolina State college. "We have had a number of letters asking how to obtain such an average yield. In answering these, attention has been called to the need of a fertile soil, the use of legumes in rotation, liberal fertilization and other necessary factors."

**Need for Moisture.**  
"It is also essential that we keep in mind the need for moisture in the soil. Some investigator has found that 300 pounds of water is needed by the corn plant for every pound of dry matter produced. This includes the water evaporated through the soil as well as that transplanted through the leaves."

Therefore, it is important, says Mr. Garren, that the corn grower conserve the moisture in the soil. This is the only kind that benefits the growing plant. The grower may increase the storage capacity of the soil by increasing its humus content, and he may conserve the moisture by keeping a mulch constantly on the surface. This mulch must be restored whenever destroyed, and certainly after every rain. Three inches is a fair depth for cultivation, and any implement that will produce the effect of a drag harrow may be used for the cultivations. For best results, level cultivation should be given—except in a very wet season. Then drainage becomes a problem.

**Conserve Moisture.**  
Those who wish to grow 50 bushels of corn per acre must give close attention to the conservation of soil moisture. In many cases, this will call for a change of practice and the securing of more suitable implements for cultivation.

## Select Turkey Breeders for Next Season's Crop

Before picking the Thanksgiving birds select the breeders for next year. Choose those birds which show good growth and development. The shanks should be heavy and fat and the legs well set under the birds. A knock-kneed condition reveals lack of vigor. Crooked keel bones are objectionable. They may be caused by poor feeding or they may be the result of breeding. If possible, do not keep birds with crooked keel bones for breeding purposes. In the colored varieties, turkey growers prefer birds with good color, but health and vigor are more important than color.

## Application of Orchard Sprays to Save Fruit

Nearly everyone has read and appreciated the truthfulness of this terse sentence—"Save the Surface and Save all." This statement may be applied with equal effect and force to the application of orchard sprays. Like the paint on buildings and fences, sprays, when applied to the surface of the fruit and foliage at intervals of from twelve to fourteen days up until five or six weeks of harvest time, will save the surface from injury by insects and disease and may prove to be the best insurance against failure.

## Around the Farm

Drag the farm roads—let's save some auto repairs.

Use best seed obtainable. Poor seed is expensive at any price.

Put grease instead of oil on the farm machines when you store them. It is better because it stays put.

Whoever buys and plants cheap seeds needs no sermon on gambling—he is sure to learn by loss.

It's easy to make money as a farmer. You just work hard for 20 years and then sell out to a golf club.

Try to take the small amount of time necessary to plow the garden just as soon as the ground will work well.

Of course alfalfa is not grown for its fragrance and beauty, but these qualities should not be entirely overlooked.

Half of the failures in getting wind-break trees to grow and thrive can be laid directly to faulty preparation of the soil.

Commercial fertilizers applied according to recommendations will usually give paying increases in earliness, quality and yield.

In seasons of late corn or in case of early frosts, ensiled corn may save the entire crop, where, under other conditions, the loss would be very heavy.

## Two Killed; Four Hurt In Osmond Car Tragedy

Rudolph Alexander, 19, of Plainview and Leroy Riessen, 15, of Osmond were instantly killed and four companions were badly hurt when the car in which they were riding the evening of July 4 collided with a truck on the highway while driving at a fast rate of speed, it was reported.

The injured, all of whom will recover are: Miss Caroline Friedenbach of Osmond who is at a Norfolk hospital; Robert Swan, 17, of Osmond, who suffered a fractured collar bone and other injuries; Victor Bick, 22, Osmond, whose skull was fractured; Czar Hoover, 19, Plainview, slight bruises and minor cuts.

These six young people were traveling in a small car driven by Alexander about one-fourth of a mile west of Osmond about 10 o'clock, Wednesday night, when the machine crashed into the box of a truck driven by Frank Dedlow, Plainview.

According to reports of Osmond townspeople, the automobile was traveling between fifty-five and sixty

miles an hour when it hit the truck. Bodies of Alexander and Riessen, who were riding on the side of the automobile, were badly mangled, almost beyond recognition. Both youths were killed instantly as the side of the automobile was ripped away.

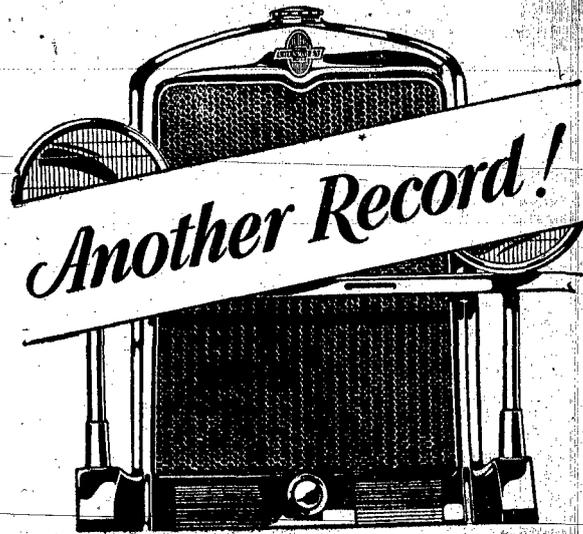

Miss Friedenbach, whose hand was badly torn and mangled, was riding in the front seat between Alexander and Hoover. Riessen, one of Osmond's star athletes, Swan and Bick were riding in the other seat of the car, which Alexander recently acquired.

## New CHEVROLET Sixes

on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

Wayne, Nebr.

A SIX IN THE PRICE RANGE OF THE FOUR!

Entered as second class matter in 1884, at the postoffice at Wayne, Nebr., under the act of March 3, 1879

Subscription Rates

One Year ..... \$1.50  
Six Months ..... .75

WAYNE MARKET REPORTS

Following are the market prices quoted us up to the time of going to press Thursday:

Corn	..... \$ .88
Oats	..... .40
Eggs	..... .22
Butter Fat	..... .30
Old Cocks	..... .09
Hens	..... .16c to 20c
Hogs	..... \$10.50 to \$11.00

We heard a certain well-known Wayne lady speaking the other day of the industry of a man whom she greatly admired. "He worked as hard as a woman," she said. After thinking it over for some time, we decided that it might be construed as a compliment.

WHAT PRICE FOURTH?

Wayne had a fairly safe and fairly sane Fourth of July celebration. There were no bad automobile accidents and no serious accidents with fireworks. If the crowds failed to respond early in the day, they more than surged over Kay's Amusement park in the evening, and found fun in the band concert, the free acts, the concessions, the dance floor, and the fireworks. Nothing spectacular, except perhaps after it was over when the miles of cars tried to thread their respective ways home.

But in the country, at large 150 people were killed while celebrating, which is not very good evidence that we are growing saner. That is less than the number who lost their lives last year, but of small consolation lies there, for no heat waves took their heavy tolls as they have in recent years. We must lay that to

providence, and not to human sanity. Deaths from fireworks, due to laws and a certain amount of education on the subject, are being effectively decreased, but there is more than a corresponding increase in automobile accidents. More people die in celebrating the Fourth than did in the Revolution.

There is a certain craziness lurking in the human makeup that makes us go tooting off across the country and congregate in large mobs, get overheated and overexcited. We sometimes call it patriotism.

Of course we really are patriotic; that has been proved by the sacrifices made in every war. But we suspect that patriotism springs from another source.

CIGARETS AND WOMEN

We notice press comment praising the action of John R. Ellis, the mayor of Beatrice toward the prevention of the posting on billboards within the city pictures of women smoking cigarettes. This situation we view with mingled feelings.

There is no doubt that the cigaret interests have put over successfully in recent years their campaign to ingrain in men the cigaret habit. And it is as certain that they are now conducting a strenuous campaign to sell cigarettes to women, and apparently they will be equally successful. In the east and in the west large numbers of women smoke cigarettes openly, as a matter of course, and here in the middle west where still lurks something of the old Puritanism, college girls, at least, smoke them covertly while they and the cigaret manufacturers gradually accustom us to the idea. How bad this state of affairs is, is for the moralists and the physicians to decide.

But we fail to see why the sight of a woman smoking a cigaret should be inherently more displeasing than that of a man doing the same thing. It is custom, that is all, a custom that is gradually changing. People are getting over the idea that there is a category of pleasures, good or bad, to which the male has exclusive right.

If the people of Beatrice feel that the cigaret interests should be combated, why not combat them as a whole?

EDITORS OF THE DEMOCRAT

"Pungency—That which causes a sharp sensation, as of the taste, smell or feelings." That is Webster's definition. The word "pungency" always brings to us nasal illusions of boiled onions or boiled cabbage, with a resulting watering of the mouth. Or it makes us think of the writing that "Chris" has done while on the Democrat.

The editors of the Democrat have been various in their outlook upon life, they have differed widely in their beliefs, but they have possessed one quality in common—that of pungency. All of them have been distinct in personality, fearless in expression of their opinion, and able somehow to put themselves into their work.

W. S. Goldie, who preceded Gardner and Wade, made the naughty and the foolish tremble weekly in the fear that their escapades might be blazoned forth on the pages of the Democrat; and to be consistent he published with gusto his own arrest and imprisonment at one time when he imbibed too much good Nebraska corn liquor. And all know of Mr. Gardner's fearless espousal of any cause he thought worth defending. He was always himself.

And "Chris" in his turn, has combined this same quality with an able pen. It is a spirit that seems to be

fading from country journalism. Newspapermen are becoming better business men and poorer crusaders. We hope that "Chris" loses none of his pungency in his new position with the Wahoo Wasp. We wish him well.

Gleaned From Exchanges

FIGHTING THE "REDS" AGAIN

The appeal for \$10 subscriptions issued by eminent republican leaders in behalf of the National Republic, a sort of official party organ, has drawn some tart rejoinders. The money is needed, it was related, to enable that journal the better to "combat destructive radical and un-American propaganda," and "to keep the public informed and sympathetic regarding the accomplishments" of the Hoover administration.

This is what Senator Borah has to say: "The best way for the republican organization to deal with radicalism in this country—that kind of radicalism in the minds of some—is for the party to go ahead and faithfully carry out its pledges and carry out obligations which it assumed. That can be done without taking up any collections. Anyone who collects money for the purpose of fighting radicalism in this country is collecting money under false pretenses."

Senator La Follette, neither so subtle nor so suave as the Idahoan, explodes thus:

"This appeal to the republicans for funds to fight 'Reds' in America is an insult to their intelligence. The attempt to resurrect the Red bogeyman will be a failure. The American people will know from previous experience that campaigns against the 'Reds' are the ingenious device of professional money-raisers which has outgrown its effectiveness. They cried Wolf! Wolf! too often. If this is a sample of the leadership which is to have control of the party I can only say that the party needs to be saved from its leaders."

And the New Republic recalls that the National Republic, now to be subsidized, viciously resisted investigation of the scandals of the Harding administration, denouncing the Walsh and Wheeler committees in these words:

"The ultimate aim of those back of this fight is to gain control of the machinery of government for their own sinister and selfish purposes. They reveal the inspiration for their damnable doctrine and the details of the campaign came from Russia."

The leaders of this campaign in the United States are hand in glove with the bolshevist machine in Russia."

As history has since revealed, it was not the bolshevists in Russia we had to fear, back in the Harding era. It was the bolshevists in Wall street and in the oil fields and in the president's cabinet. Why, in so unpleasantly suggestive a way, does the republican organization want to recall those odious memories now?—Omaha World-Herald.

PLENTY MEMBERS HERE

News dispatches of the last few days have told of the national meeting of the Optimists Club, a Nebraska man being chosen as one of the national Officers of the organization. Little is known of the aims of the Optimists Club, its qualifications for membership or what a person must do to belong to it, but the name is a striking one, and it would seem fitting that a Nebraska man should have so much optimism that he becomes nationally known in the club.

Nebraska ought to have plenty of members for an Optimists Club, and Cedar county in particular ought to furnish a goodly number, if feeling optimistic is one of the essentials for membership. Heavy rains may have done some damage here, but the county has been missed by much worse storms, and anyway those rains gave the ground a soaking it needed badly. Crops in the county has been missed by much worse storms, and anyway some of the corn is already knee high altho it is still a week from the Fourth of July. With anything like a decent break, and one can always be expected in Nebraska, a bumper year for crops can certainly be expected.

Truly, a Cedar County Optimists Club ought to be functioning, with every person in the county as an active member. No formal organization of such a club is necessary. Just Boost Cedar county every minute of every day. There's every reason you should.—Cedar County News.

CRADLE

DITTMAN—To Mr. and Mrs. Chris Dittman, of Wayne, a baby daughter, July 9.

ALLVIN—To Mr. and Mrs. Enfrid Allvin, of northwest of Wayne, a daughter July 4.

RUGLER—To Mr. and Mrs. Henry W. Rugler, of Wayne, a daughter July 6.

Farm Management Tour of Nebraska July 29

The annual tour of Nebraska conducted by F. D. Kelm, professor of agronomy at the agricultural college, for the study of soils, crops, weeds, farm management and for sight seeing, will leave Lincoln by autos Monday morning, July 29, and will last about two weeks.

The party will go west from Lincoln to Kearney, up the Platte river valley to Sidney, across the wheat table to Bridgeport, west to Scottsbluff, north to Alliance, and thence into the Black Hills, with the return down the Niobrara and Elkhorn valleys.

It is estimated that the trip will cost each individual about \$70. The trip is open to all land owners, managers, and students interested in seeing Nebraska first hand.

I. O. O. Fs. and Rebekahs In Joint Installation

The Wayne Odd Fellows and the Rebekahs will hold a joint installation of officers Monday evening. The new Noble Grand of the Odd Fellows lodge will be Levin Johnson, and the office of vice grand will be held by O. S. Roberts. The other officers will be appointed and have not yet been announced.

Following the installation the Odd Fellows will be hosts at a luncheon.

Word-Building Prize Winner No Novice

Ira W. Frederick, Randolph man who won the first prize in the Omaha-World-Herald word-building contest, has won in numerous other competitions, including a thousand dollars prize in a word-building contest from the Gentlewoman's Magazine of New York City. He spent three days in compiling his list for the World-Herald contest, and had a perfect entry, with all the three-letter words in the English language that could be formed from the word, "Reputation."

Anderson Purchases Wayne Lunch Room

V. E. Anderson, a student at the Wayne State Teachers' college last year, has taken charge of the Luncheon Room located next door to the Vail Optical shop, having purchased the business from A. J. Cochran.

Wayne Hospital Notes

Wilma Coy is improving after a major operation.

Mrs. Raymond Christian and baby left for Sioux City Monday.

Ruby Keeper, of Spencer, left the hospital July 10 after being confined for medical care.

Earl Carter left the hospital July 10th.

Mrs. Chris Dittman, of Wayne, and baby daughter are doing nicely.

BOARD OF EQUALIZATION

Wayne, Nebr., July 2, 1929. Board of Equalization met as per adjournment. All members present. No further business completed. Whereupon Board adjourned to July 9th, 1929. CHAS. W. REYNOLDS, Clerk.

NOTICE OF PROBATE OF WILL

The State of Nebraska, Wayne County, ss. At a County Court, held at the County Court Room, in and for said County of Wayne, on the 10th day of July, 1929.

Present, J. M. Cherry, County Judge.

In the matter of the estate of Garrett Lageschulte, deceased.

On reading and filing the petition of Frank C. Lageschulte, praying that the instrument filed on the 10th day of July, 1929, and purporting to be the last Will and Testament of said deceased, may be proved, approved, probated, allowed and recorded as the last Will and Testament of said Garrett Lageschulte deceased, and that the execution of said instrument may be committed and that the administration of said estate may be granted to Frank C. Lageschulte as Executor.

ORDERED, That July 26, A. D. 1929, at 10 o'clock A. M., is assigned for hearing said petition, when all persons interested in said matter may appear at a County Court to be held in and for said County, and show cause why the prayer of the petitioner should not be granted; and that notice of the pendency of said petition and the hearing thereof, be given to all persons interested in said matter by publishing a copy of this order in the Nebraska Democrat, a weekly newspaper printed in said County, three successive weeks prior to said day of hearing.

J. M. CHERRY, County Judge.

Announcing the opening of the **Tonseth Produce Co. and Hatchery** Located in the Former Weber Mill 212 East 2nd St. Wayne, Nebr. Cash buyers of Cream, Poultry and Eggs. We handle all kinds of Poultry, Feed and Supplies.

BOARD OF EQUALIZATION Wayne, Nebraska, July 9, 1929. Board of Equalization met as per adjournment. All members present. On motion the assessment roll for Wayne County for the year 1929, is allowed to stand as assessed, and that the county Assessor be notified that such is the final assessment, and that such assessment is now ready for his certification to the State Tax Commissioner or State Board of Equalization. Whereupon Board adjourned to August 6th, 1929. CHAS. W. REYNOLDS, Clerk.

SOME HEAT A colored preacher down South was trying to explain the fury of hell to his congregation. "You all is seen molten iron runnin' out from a furnace, ain't you?" he asked. The congregation said it had. "Well," the preacher continued, "dey use dat stuff fo' ice cream in de place what I'm talkin' 'bout."

Itinerary Two colored gentlemen had just emerged from the funeral line, where they had been taking a last glimpse of an old-time crony. Tears stood in the eyes of each, for the recently deceased had been one of their best friends. "Po' ol' Sam was a nechel lookin' cawpse, wasn't he?" asked the first. "He sho' was all of dat," the second agreed. "So doggone nachel Ah come nigh axin' him whah in hell he was gwine."—American Legion Monthly.

The Worm Turns Wife (at busy crossing: "Now remember, Herbert, the brake is on the left—or is it the right? but don't—") Harassed Husband: "For goodness' sake stop chattering. Your job is to smile at the policeman."—Tid-Bits.

In four years, 1925 to 1928 inclusive, more people lost their lives celebrating the Fourth of July, than were killed in the 13 major battles of the Revolutionary war. Celebrating independence, evidently, is costlier than attaining it.—Randolph Times-Enterprise.

**NEWS** We Could Hardly Afford to do Otherwise With **USED CARS** EVERY Ford dealer has a reputation to maintain. Our name for fair-dealing in selling new cars, and in servicing cars, and in servicing those cars, means far more than "pale profit regardless of consequences." Likewise, our good name must also be upheld when we sell used cars, accepted in trade for the Model A. We could hardly afford to have it otherwise, for we realize that the person who buys a used car from us is a prospect for a new car later on—or at least another used car. **McGarraugh-Briggs Motor Co.**

**Fit the Paint to the House** That's the way we paint houses to stay painted, and can paint yours to stay painted. We mix Carter White Lead on the job to suit the kind of lumber, and the different exposures of the house. Properly applied, this lead and oil paint never cracks or scales. Now is a good time to have us fit a coat of paint to your house. Semnole Bright Red Barn Paint, Heavy Body. One gallon thinned with oil will make two gallons of paint. We have sold lots of it and know it is good. Price per gallon in barrels, \$1.25 Price per gallon in five-gallon cans, \$1.85 **L. W. McNatt Hardware** Phone 108 Wayne, Nebr.

**We Are Proud of the Record of Red Skin Meal** The pigs smile when you give them RED SKIN Pig Meal. We know, because our customers tell us so. And RED SKIN meal has made hundreds of customers for itself during the past two months, many of whom come in and tell us that it is the best feed they have used. We handle NORCQ Growing Mash, at \$3.46 per hundred-weight, and are the headquarters for feeds of all kinds, priced right. We also pay the highest price for poultry, eggs, or cream. Leave an allotment with us next time. **Fortner's Feed Mill** Phone 280w

**Bigger Cream Checks When You Use a New DeLaval Separator** IN more than 1000 public tests, in which De Laval Separators "skimmed the skim-milk" from some separator in use in each community, held during the past two years in various parts of the country, De Laval Separators never failed to recover some butter-fat from the skim-milk. The average yearly loss of butter-fat from these separators, as proved by the amount of butter-fat recovered from their skim-milk when run through a new De Laval, was \$78.80. That is a lot of money to lose because of a poor separator, and there are hundreds of thousands of separators now in use which are losing as much or more. Is your separator wasting money for you? A good way to find out is to try a new De Laval—it usually brings bigger cream checks. Two complete lines—the De Laval "Golden" Series and the De Laval "Utility" Series, among which will be found one that will suit your needs and purse. Call on us. Sold by **H. H. Hachmeier** Authorized De Laval Agency

**LOCAL AND PERSONAL**

Mrs. Frank Davis, of Randolph, was a visitor of Mrs. J. M. Cherry Saturday.

Verona McNatt was a visitor at the Irvin-Vahlkamp farm for a few days last week.

Frank Thielman, Sr. and Helen, his daughter, drove to Wisner the latter part of last week.

Irvin Auker, of Sioux City, visited Friday with his sister, Mrs. C. H. Hendrickson, in Wayne.

Mr. and Mrs. Foy Cross and baby of Lincoln, spent the Fourth with Prof. and Mrs. S. X. Cross.

Dr. and Mrs. J. C. Johnson drove to Omaha Monday where Dr. Johnson underwent a medical examination.

Miss Mae Hiscok, of Omaha, was a week-end visitor at the home of her parents, Mr. and Mrs. C. W. Hiscok.

Lucille Aimes, who has been confined to her home by illness for about two weeks, went back to work Monday.

**Horsehide shoe \$2.98 at Gambles.**

Dean and Mrs. H. H. Hahn spent the week-end with their son, Waldo Hahn and family, at Randolph.

W. J. McKay, of Fullerton, Nebraska, arrived Monday afternoon to spend a week with Glenn McKay, his son.

Visitors at the Mrs. Clara Heylman home this week are Mrs. A. Curtis and two daughters, of Portland, Oregon.

The Fred Blair family and Miss Katherine Craven were Fremont visitors Sunday, where Mr. Blair entered the tournament.

Mrs. A. McEachen, Mrs. H. S. Ringland, and Miss Ruth Ringland were Omaha visitors Sunday, returning home Monday.

Mrs. Marcella Moran, of Omaha, was a visitor at the home of her daughter, Mrs. E. J. Hunter, Saturday and Sunday.

Frederick Berry, Jr., went to Lincoln Sunday where he began work with a surveying outfit, a position he will hold this summer.

Mrs. Joe Schmalsteig and daughter, Clara, returned home Friday from a visit of two weeks with friends and relatives in Sioux Falls.

Mrs. Clarence Conger went to Norfolk Tuesday to visit her daughter, Mrs. Herbert Kai, who submitted to an operation last Saturday.

James Ahern and his son, John, went on a fishing trip Sunday to Brainard, Minnesota. They expect to be gone about two weeks.

Mrs. N. V. Duggan, of Seattle, Washington, and Mrs. J. W. O'Conner, of Sioux City, are spending the week with Mrs. Fred Berry.

C. E. Yocum and Misses Elaine and Pauline Yocum went to Butte, their old home, Tuesday, where they expect to visit about two weeks.

L. C. Gildersteeve and family spent Sunday at Crystal Lake.

C. A. Wood and family, of Council Bluffs, who were returning home on a trip from the Black Hills, stopped at the W. S. Bressler home Sunday and Monday. Mr. Wood is the brother-in-law of Mr. Bressler.

Walter Bressler, L. B. McClure, and E. E. Fleetwood went on a fishing trip to Lake Andes Sunday. They reported catching a fine bunch of crappie, but it is just as well not to question them too close as to the exact number.

Mr. and Mrs. Guy Derry, of Billings, Montana, were visitors Tuesday afternoon at the O. R. Bowen home. Paul Bowen, son of Prof. and Mrs. O. R. Bowen, is the law partner of Mr. Derry. The Derrys are visiting in Norfolk and South Dakota as well as here prior to their return to Billings.

Mr. and Mrs. L. E. Panabaker left early Wednesday for Fort Morgan, Colorado, upon receipt of word of the death of Mrs. Ida Finnerty, sister of Mrs. Panabaker, Tuesday. Mrs. Finnerty was formerly a Harmon, one of the older pioneer families of this section of the state, and she leaves numerous relatives here.

Mr. and Mrs. T. E. Wallace, Mr. and Mrs. C. I. Shellenberger, Miss Helen Phillips, and Miss Florence Phillips, all of Villisca, Iowa, arrived Monday afternoon for a short visit with Mrs. E. O. Gardner and Miss Lila Gardner, returning Tuesday afternoon. Mr. Wallace is Mrs. Gardner's brother, and Mrs. Shellenberger is Mrs. Gardner's niece.

**La Porte News**

Mr. and Mrs. Jack Dittberner and Mrs. Minnie Reaves, of Madison were Sunday visitors at the C. W. Hiscok home. Mrs. Reaves, the sister of Mrs. Hiscok, remained at the Hiscok home this week.

Mr. and Mrs. William Beckenhauer were Fremont visitors Monday. Mr. Beckenhauer entered the golf tournament there, and Mrs. Beckenhauer visited at the home of Mrs. Sam Reppert, his sister.

Miss Margaret Mines, who graduated in dietetics at Battle Creek college, Battle Creek, Michigan, June 18, returned home last Wednesday evening July 3. Miss Mines plans to spend the summer at home.

**Winside News**

Mrs. Irvin Gaebler, Mrs. J. G. Neeley and daughter, Yleen drove to Lincoln on Tuesday.

Mr. and Mrs. C. A. Jones and family were in Belden Friday.

Mr. and Mrs. Chester Wylie and Miss Frances Wylie were in Wisner Thursday. Miss Wylie will make her home with Mrs. Mary Lucas at that place.

Mr. and Mrs. Robert Wylie were in Tilden Thursday.

Louis Mittelstadt, who is in school at Creighton University in Omaha, was home to celebrate the fourth.

Mr. and Mrs. Art Auker and Mrs. Wm. Benschhof were guests of Mr. and Mrs. Wm. Patterson at Wayne on Thursday.

Mr. and Mrs. Harry Tedrick were guests of Clyde Omans at Wayne on Thursday.

Clarence Johnson came up from Sioux City Thursday and remained over Sunday with his parents.

Miss Beulah Halcomb and friends of Sioux City were here for the Fourth.

Bert Lewis, Clint Troutman and Rhudy Thompson were in Sioux City the first of the week with stock.

Miss Irene Iversen spent Sunday with relatives in Fremont.

Mr. and Mrs. L. W. Needham visited Fred Hills at Omaha on the fourth.

Mr. and Mrs. A. H. Schmale and family spent the week end, with relatives at Lincoln and Wahoo.

Henry Andersen of Wahoo was here the first of the week visiting at the A. H. Schmale home.

Mrs. A. T. Chapin returned last Wednesday from a six months visit with her daughter, Mrs. Arthur McCain who has been in the hospital for several months.

Mrs. Sadie Hitchcock and daughter from Wayne visited Mrs. A. T. Chapin on Sunday.

Mr. and Mrs. Chas. Keiffer and mother, Mrs. Lena Keiffer, left for the former's home in Chicago, Wednesday.

Mr. and Mrs. Ed Lindborg visited at A. J. Fords at Laurel on Thursday.

Mr. and Mrs. Henman Martin and Frank Martin of Hoskins were Sunday dinner guests at the Gurney Benschhof home.

Mrs. William Benschhof was in Sioux City Tuesday.

The Home Department met in the church basement Tuesday afternoon with nine members and four guests present. Mrs. Harry Tedrick was the hostess and Mrs. I. O. Brown was the lesson leader. After the lesson study the hostess served a two course luncheon.

**Sons of Herman Install New Officers**

The Sons of Herman Lodge, at their regular meeting on Tuesday night, installed their newly elected officers as follows:

H. G. Troutwein, president; Chas. Unger, vice president; Carl Wolf, secretary; Fred Weible, treasurer; Chris Lautenbaugh, conductor; Wm. Witte, inner guard; Henry Theofold, outer guard; Jacob Walde, Hans Gotch, Chas. Scheleinberg, trustees. Lunch was served at the close of the business session.

The La Porte Community club postponed its July meeting till next week because the members are so very busy with cherries, etc., this week. It will be held next week Wednesday with Mrs. Raymond Baker.

Eli Laughlin had a team of horses break into a corn bin while he was away the Fourth. One horse died and the other is still in danger. Fortunately they were his oldest horses.

**Wisner Cattle Man Tops Market Monday**

P. H. McGill, Wisner cattle feeder, topped the Omaha market for fat steers Monday with 17 head of Herefords, averaging 1,362 pounds, which he shipped to South Omaha. McGill received \$16 per hundred for them. This is the second time within a week that this price (the highest of the year, has been paid on the Omaha market.

Men's one-piece suit cleaned and pressed	\$1.00
Ladies' top-coats cleaned and pressed	\$1.25 and up
Men's top-coats cleaned and pressed	\$1.25 and up
Ladies' wool dresses cleaned and pressed	75c and up
Ladies' and Men's hats cleaned	50c
Caps cleaned	25c
Ties cleaned and pressed	10c

## Jacques Model Cleaners

# Book Chat

Recent accession at the Wayne public library are two large maps, a highway map of the United States published by the National Map Company and an official road and township map of Nebraska. The latter gives the population of the cities and towns of Nebraska and other useful information, and will include the 1930 census report when it comes out.

Recent additions to the books at the Wayne public library are the following:

About Ourselves, by T. A. Overstreet, Professor and head of the department of philosophy, College of the City of New York, published by W. W. Norton & Co.

The Snake Pit, by Sigrid Undset, published by Alfred Knopf.

The Case of Sergeant Grisca, by Arnold Eweig, published by Viking Press.

Dodsworth, by Sinclair Lewis, Harcourt, Brace and Co.

Cavender's House, by Edward A. Robinson, MacMillan.

In the Imperial Shadow, by Mirza M. K. Saghaphi, Doubleday Page & Company.

Young Mrs. Greeley, by Booth Tarkington, Doubleday Page & Co.

Garda, by Rose O'Neill, Doubleday Page & Co.

Back to Stay, by Jonathan Leonard, Viking Press.

Farthing Hall, by Hugh Walpole and J. B. Priestley, Doubleday Page & Co.

Hardware, by Robert L. McKenna, Robert McBride & Co.

Magic Gold, by Martin F. Lanning, Little, Brown & Co.

The Little Nugget, by P. G. Wodehouse, The Curtis Press.

The Trial Eaters, by Barrett Willoughby, G. P. Putnam's Sons.

International Economic Relations, by John Donaldson, Ph. D., Longman's Green & Co.

Bryan, by M. R. Werner, Harcourt Brace & Co.

The Alchemy Murder, by Peter Oldfield, Washburn.

Tomahawk Rights, by Hal G. Everts, Little Brown & Co.

Norwegian stories are almost having a vogue here in the United States. The critics made a fuss over "Giants in the Earth" by O. E. Rolvaag, a book written in America about people in America, but first published in the Norwegian language and translated into English. Knut Hamsun, another Norwegian who has settled in America but who writes in Norwegian about Norwegians, has created for himself a large American following. And now, "The Snake Pit", by Sigrid Undset, which won the Nobel prize for literature in 1928 and which was recently translated into English, is attracting a lot of attention among peo-

ple who like the Scandinavian writers.

In "Dodsworth," Sinclair Lewis again portrays the American business man and the American home. Sam Dodsworth sells his automobile business to a big trust company and decides that he and his wife shall get some of the things they have missed in life. So they go abroad for a long time. "Dodsworth" has not caused the uproar that did "Elmer Gantry" and "Main Street". Perhaps we are getting used to Sinclair Lewis.

Those who liked "Tristram" will be glad to learn of the accession at the library of "Cavender's House" by the same author. Robinson uses the same fine rhythm and elevated style in "Cavender's House."

"Young Mrs. Greeley," Booth Tarkington's now novel, deals with a supposedly modern complication, a combat of two young married women of the purely "female" type with a competent and cool-headed young business woman. Of course there have always been women with brains and women who depended entirely upon their feminine charms to get what they wanted; but the subject is not worn out for all that, and it is the type that Mr. Tarkington knows how to handle.

"The Trial Eaters" is another story by Barrett Willoughby, of the gambling, dog-sledding north.

"International Economic Relations," by John Donaldson, Ph. D., of Johns Hopkins, is a treatise on economics and politics and is intended as a reference work for those interested in world questions.

M. R. Werner has tackled a life of Bryan, and the result is now before the public. Interesting personalities as were Barnum and Brigham Young, recent portrayals of his, the Great Commoner has much larger possibilities. Werner has a way of compiling large masses of material and writing a good journalistic style; but his stories of Barnum and Brigham Young are lacking in the imagination and sympathy that characterize first class biographies. As we have not read "Bryan" we do not know if he succeeded better with the stormy Nebraskan.

The first amendment proposed to the Nebraska constitution, after the convention of 1875, was that of woman suffrage in 1882 and was defeated. It was again proposed and defeated in 1914. Forty individual amendments to the state constitution were voted on from 1882 to 1924; 33 were approved and 7 defeated.

Nebraska auto drivers used 197,058,186 gallons of gasoline in 1928 upon which they paid \$3,941,164 for road taxes. Twenty states paid less tax and 27 states paid more. The total tax collected in the United States was 305 million dollars for a little more than ten billion gallons of gasoline.

There have been twelve special sessions of the Nebraska legislature; two in 1870, two in 1876 and two in 1918. The longest regular sessions were in 1915 and 1921, each containing 99 days.

Nebraska Industrial Notes

A board of five members to study irrigation needs and flood control in Nebraska has been appointed by the governor. State Engineer Cochran will head the board.

Engineering work is under way for the combined heating and lighting plant that will be erected for the joint use of the capitol building and the state university buildings at Lincoln.

Forty carloads of gravel from the Platte river and 14 carloads of paving construction on Iowa highways.

The Union Pacific railroad is purchasing ground at Fairbury and it is expected that a new depot will be built and other improvements made.

A Seward newspaper says that every resident at Loma has electric service and that a line is being built to serve 15 farmers.

The Nebraska state historical society is asking for six floors in the tower of the capitol building, when completed. The rooms will be 75 feet square.

Three irrigation wells on the Foster farm in Cass county lift a thousand gallons per minute 18 feet by the use of centrifugal pumps.

The new municipal sidewalks of Glenville will be used for picture show and other entertainment.

COMMISSIONER PROCEEDINGS

Wayne, Nebraska, July 2nd, 1929.

Board met as per adjournment. All members present.

Minutes of meeting held June 25th, 1929, read and approved.

Report of Pearl E. Sewel, County Superintendent, showing balance of \$229.68 in the Institute Fund at the close of business on July 2nd, 1929, was examined and on motion duly approved.

Report of J. J. Steele, Co. Treasurer, showing fees received by him for the quarter ending June 30th, 1929, amounted to the sum of \$11.75 was examined and on motion duly approved.

Report of J. M. Cherry, County Judge, showing fees received by him for the quarter ending June 30th, 1929, amounted to the sum of \$610.45 was examined and on motion duly approved.

The County Attorney is hereby instructed to procure four (4) special officers, with powers of deputy sheriff, to act as special police officers during the 4th of July celebration at the Kay Pavilion.

The following claims are on motion audited and allowed, and warrants ordered drawn on the respective funds as herein shown. Warrants to be available and ready for delivery July 13th, 1929.

# FARM STOCK

## TON-LITTERS MAKE PROFITABLE PORK

### Best Returns on Pigs When Fed to Full Capacity.

Producing a "ton-litter" of hogs—meaning a single litter which will weigh a total of 2,000 pounds or more when 180 days old—is more than a merely spectacular stunt which entitles its performer to membership in an agricultural honor club and may cost him more money than it brings in. Raising ton-litters is profitable, according to testimony of men who have raised them and who are now members of the Ohio Ton-Litter Honor club, sponsored by the agricultural extension service of the Ohio State university here. These men have reported to J. W. Wuichet, swine specialist in the department of animal husbandry, that their ton-litters have been the most profitable hogs ever produced on their farms.

"The reason is that the principles of producing ton-litters are the same as those of producing pork profitably in any amount," says Wuichet. "For one thing, it takes a large number of pigs in the litter to weigh a ton, and our records show that the cost of producing 100 pounds of pork depends primarily on the number of pigs marketed, per litter.

"In the second place, pigs which gain most rapidly make their gains on the smallest amount of feed, time and labor. Hogs are pork-producing machines, and like other machines, operate most efficiently and economically when operating at full capacity. And if fed to capacity for the most rapid gains, they reach the market at a more advantageous time than if they were given a limited ration and took more time to get ready for market."

### Prevent Bone Disease by Feeding Minerals

The mineral substances which go into bone consist largely of compounds of lime and phosphorus derived from the food. In any case they are primarily derived from the soil, writes Dr. L. Van Es in the Capper's Farmer.

In some regions the soil is poor in lime and the vegetation it supports may not provide live stock with a sufficient quantity. Or, the mistake may be made of selecting feeds poor in bone building materials. In both cases, animals may come to suffer from bone softening because there always is an expenditure of the lime-phosphorus complex. Evidence tends to show that to utilize bone building materials the animal body must be exposed to direct sunshine. When sunshine is lacking or when the minerals are deficient, the bone is inadequately formed or it eventually softens. Such diseases as leg weakness in chickens, rickets and paralysis in swine, and the loin disease in cattle are traceable to these factors.

Animals should be so fed and kept that bone disease may be avoided. If the natural foodstuffs are deficient, supplementary feeds, such as milk or milk by-products, tankage or a small amount of steamed bonemeal must be added to the ration. Direct sunshine usually is not difficult to procure, but when it is, recourse should be had to codliver oil, especially for young animals kept indoors.

### Centers for External Parasites in Old Lots

While in continuous use, old hog lots and houses may become centers for external parasites such as lice and mange mites and more death-dealing microscopic organisms, those that cause pig diseases such as scurvy, scours, infectious nasal catarrh, bronchitis, infectious edema, swine pest, undesirable sequels to wound infections, eczema, necrobacillosis of the skin, nose, stomach, and intestines, and various types of pneumonia. Besides all these troubles, there are the ever-present round worm eggs.

### Hog Cholera Prevented by Right Use of Serum

Let us not forget that hog cholera has not been entirely and completely eradicated in this country. Let us not forget also that the disease may be easily prevented by making pigs immune with the proper use of serum and virus. Let us keep in mind that after the disease gets a good start in a herd of pigs there is little that can be done to stop it. While we are at it let us be reminded that it costs less to immunize weanling pigs than 150-pound shoats. They are also more easily handled.

### Feeding Orphan Lamb

If the orphan lamb cannot be given to another ewe, it may be raised satisfactorily on a bottle. Of course it is better to get another ewe to adopt the lamb if possible. When necessary to raise a lamb on a bottle, it will need to be fed several times a day at first. The number of feedings may be reduced until by the time the lamb is six weeks old, three or four times a day will be sufficient. A creep should be provided where some ground straw may be kept for the lambs.

### Good St. Nicholas

St. Nicholas was the patron saint of Russia. He was the bishop of Myra in Lycia, in the Fourth century. He is regarded as the patron saint of merchants and travelers by sea and land, but also especially of the young and of scholars. Hence his festival, December 6, was formerly celebrated in the English schools, and still survives in the Santa Claus of Christian rejoicings.

### Perfect Female Figure

One compilation of measurements for the perfect female figure is as follows: Neck, 12½ inches; bust, 35 inches; waist, 26 inches; hip, 34 inches; thigh, 20 inches; knee, 14 inches; calf, 13¼ inches; ankle, 8 inches; upper arm, 10½ inches; forearm, 9 inches; wrist, 6 inches; height, 5 feet 6 inches; weight, 133 pounds.

### One Sort of Fellow

He is the sort of fellow, we said in our bitterly intolerant way, who would spend ten minutes backing into a parking space and preventing the egress of the car behind, rather than drive up to a comfortable space, get in there in ten seconds, and spend two minutes walking back.—Fort Wayne News-Sentinel.

### Negroes in British Empire

There are some negroes in England, but the number there is extremely small. The British empire has within its boundaries lands whose populations consist largely of negroes, as, for instance, Jamaica and Central and South Africa. The natives of such countries are British.

### Wood for Lead Pencils

The forest service says that the red cedar, from which lead pencils are made, grows all through the eastern part of the country. The lead pencils are made from the heart wood, and probably the trees suitable for this purpose are about fifty years old.

### Parachute Fall

How far a parachute jumper can allow himself to fall before opening his parachute has never been determined. An army air corps sergeant, to demonstrate that people do not lose consciousness in falling, dropped 1,500 feet before pulling his rip cord.

### Nerves Need Watching

There is a tendency for people who feel indisposed to blame it on their nerves and let it go at that. Real nervous disorders, however, are serious and the excuse of nerves should not be used to camouflage some other disorder.

### News for the Kiddies

"A milder form of punishment may be all right for sensitive children," writes a subscriber of Farm and Fireside, "but the only thing to do with most of them is to tan their hides, turn them loose and trust to God."

### Costly Superstition

The Gran Chaco, the country in dispute between Bolivia and Paraguay, is inhabited by Indians who have the curious custom of burning their whole village after a death has taken place in one of the huts.

### Anything to Get Her

Suburbanite (in employment office, seeking a cook)—If you come out and cook for us you may use my garage and I will do all the repair work on the tires of your car and even buy your gasoline.

### Man of Proper Training

Give me a man so trained in mind that his body is the ready servant of his will, and does with ease and pleasure all the work that, as a mechanism, it is capable of.—Thomas H. Huxley.

### Antony's Great Oration

The speech in Shakespeare's play is in part founded on the historical funeral oration made by Mark Antony, though of course it is not a translation of his actual words.

### Thinking Vegetables

Even if vegetable life does think, as a scientist claims, nothing really important can happen when a parsnip and a carrot go into conference.—Philadelphia Inquirer.

### Dragons Done Away With

"There are no dragons," said Hi Ho, the sage of Chinatown. "The fire-breathing motor car is now regarded with humble terror."—Washington Star.

### Must Use Horsehair

The Etude says that materials other than horsehair for violin bows have been tried, but none has proved satisfactory or come into general use.

### When It Is Welcome

Lima Beane says the best time to say what you think is when you think of something that is pleasant for others to hear.—Toledo Blade.

### Harrison's Distinction

While other Presidents have died in office, William Henry Harrison is the only one whose death occurred within the White House.

### War's First Victim?

It is believed that the first boat sunk in the World war was the San Wilfrido, a British ship sunk by a mine, August 3, 1914.

### Quick Remedy

The sting of a bee is said to be a sure cure for rheumatism. Also for inertia.

## TWEED OF A LIGHTWEIGHT SORT IDEAL FOR TOWN AND TRAVEL WEAR

IN THE yesteryears of fashion tweeds were just tweeds, classified among sturdy woollens restricted to practical wear—but now what a magic word is "tweed!"

That aestheticism of color, that phantomlike daintiness of weight and weave which modernism demands in fabrics for the appareling of woman-kind, registers in the new tweeds to an enchanting degree. In fact, that which is said of tweeds applies to 1929 woollens in general. Their delicacy of texture, their color beauty, their versatility has captured the fancy of the entire fashion world.

Speaking of tweeds, there's a tweed for every daytime occasion, ranging from handsome-rough mannish tweeds to weaves as dainty and supple and colorful as fastidious taste may demand. To mention color in relation to tweed of this season's vintage is to sound the keynote of its new charm. A tweed in orchid, in pale green, soft rose, marine or steel blue, orange or a reddish tone—even the most sensitive taste yields to the wiles of such.

In any tone or tint the youthful tailor in the picture would invite ad-

miration, but in soft rose tweed flecked with white as it is in the original this model is of unusual attractiveness. The white blouse is interesting, too, being styled of the very new woolen plique. Observing the rule that the hat must be related to the costume in color, the felt chapeau which milady wears with this suit is in a harmonizing rose tint.

Another woolen weave which is inviting in all of favorable comment, is very loose-woven basket cloth. Like tweed, the new and ultra-smart basket cloth comes in a range of adorable colors. An ensemble consisting of a one-piece frock of basket cloth with a knee-length unlined circular cape is among the arresting costumes created for immediate wear.

Designers are finding it expedient as well as proving highly pleasing in a trimming way to hand-fringe the edges of the now-so-modish basket cloth. Sometimes collar, cuffs, pockets, scarf and all hemline edges are thus fringed, the result being as charming as it is novel.

JULIA BOTTOMLEY.

(© 1929, Western Newspaper Union.)

### Danger in Transplanting

Trees, like people, lose adaptability with advancing age, and a comparatively minor change in their environments may be fatal.

Entomologists of the Department of Agriculture say that transplanting almost always is a severe test for trees of considerable size and many transplanted trees are attacked by insects. If most of the large trees in a grove are killed, leaving only a border of trees or small groups, the survivors often suffer serious damage and die.

This may be the result of a disturbance of moisture conditions and a change from general shade to large areas of sun-baked soil. Borers then may complete the deadly work.

### Primitive Counting

While enjoying a holiday in Finland, writes an English traveler, I flew across by seaplane to spend a day in Reval, the capital of Estonia, and I was very interested to see that in all shops they still use the ancient and primitive abacus, the frame with colored balls, used in kindergartens, for purposes of adding. I went first to a bank to change a sovereign. They accepted the coin with some suspicion and checked the notes they gave me on one of these ball frames, and when I went to the post office to get a set of stamps as a souvenir they totaled the amount I had to pay by the same method. I am no mathematician, but I got my total first.

## Chicago—Go!

"CHICAGO! Chicago! Chicago! Go it, Chicago! Go it, Chicago! Go it, Chicago! Go!" The second city of our land, which is first in so many things, now steps forward to announce that tin cans are rapidly bringing her to another first place in this country's list of industries.

At the present time the city is manufacturing 2,500,000,000 cans a year. These represent an annual value of about \$50,000,000. Someone has calculated that if the tin can products of Chicago were lined up in ranks five cans wide, they would make a solid belt around the terrestrial globe.

\$30,000,000 Worth of Cans  
The major portion of this enormous output of tin cans is used for food, the cans devoted to that purpose totalling 1,500,000,000 a year

and being worth more than \$30,000,000. The remaining billion represents an outlay of approximately \$20,000,000 a year, and falls into the "general products line" such as containers for cosmetics, candy, coffee, oil and countless other commodities.

The daily output of cans for food purposes alone in Chicago averages 6,000,000, and a good portion of this product goes to canners all over the Midwest. Last year more than 9,248,078 cases of peas were packed in Wisconsin, 3,016,508 cases of corn were packed in Illinois, and the major part of the condensed milk from Wisconsin reached the consumer in Chicago-made cans.

Such large cities as Chicago could not exist without canned foods, but the above statistics show that they are an economic advantage to the localities where they are made.

# LIVE STOCK

## FAVORABLE TIME TO RAISE COLTS

### Farmer Developing Own Power Has Low Cost.

If a farmer ever intends to raise a colt, now is a good time to do so, according to A. O. Rhoad of the New York State College of Agriculture. If the farmer raises colts now he will save money in a few years when he puts them to work in place of the horses he now has on his farm.

The farmer who grows his own power, says Mr. Rhoad, buys his own power at the lowest cost and pays for it on the instalment plan without interest. With the possible exception of a fee for stallion service the farmer does not have to take much money out of his pocket at present to produce his farm power. The farmer who breeds his mare to foal next spring and feeds the colt well will have a work horse that will cost him far less than one purchased on the market.

According to a recent survey made by C. E. Ladd of the college, 57 per cent of horses in New York state are more than twelve years old. The price of horses is increasing. Doctor Ladd also states that from two-thirds to three-fourths of the horses in New York state will be replaced during the next ten years, and that it is probable that they will be replaced at a time when it will cost New York farmers several millions more than it would today. This survey, "The Farm Horse Situation in New York," will be sent free to anyone who writes to the office of publication, State College of Agriculture, Ithaca, N. Y., for \$1.00.

### Sweet Clover Disease Should Be Prevented

It is now definitely established and acknowledged that some specimens of molded or spoiled sweet clover hay and silage produce a specific disease in cattle, the so-called "sweet clover poisoning," say L. M. Roderick, assistant veterinarian and A. F. Schalk, veterinarian, North Dakota Agricultural college.

Several experimental feeding trials with molded sweet clover hay and silage in North Dakota have shown quite conclusively that the so-called poisoning is primarily a disease of cattle, particularly young animals a few months of age to two or three years old.

The trouble can be avoided in practically all cases, if small quantities of the molded hay or silage are fed with two or three times as much other feed; or the spoiled clover can be fed safely if fed once every week or two.

### Immunize Pigs

Baby pigs one month of age may be successfully immunized against cholera, according to the work of Graham, Thorpe and Hectorne at the University of Illinois. Such practice is not generally recommended by veterinarians working under general farm conditions. The studies quoted indicate that other diseases constitute a complicating factor of growing importance in outbreaks of hog cholera. There is a saving of time and serum worth considering when pigs are vaccinated young.

### Selecting a Sire

Thorough investigation should be made to measure the true worth of a bull in selecting a proved sire. The fact that a sire has a number of tested daughters is not adequate and may be no reliable measure of his worth. A proved sire is considered to be one with five or six unselected daughters with records, preferably for one year. Tests show that a sire mated with a given type of cow will continue to produce similar daughters. If six of the daughters are good, the sire should be saved.

### Live Stock Notes

All lambs should be docked and the ram lambs castrated.

The sheep man should gauge the feed given by the condition of the ewes, but it is always advisable to feed some grain for at least six weeks before lambing.

Bloating is to some extent an individual matter with the animals, some animals showing a much more frequent tendency to bloat than others, possibly because they are more greedy.

Farm ewes need exercise. Feed them so as to move them away from the barn lot.

Swine sanitation will result in saving a larger percentage of pigs and more economical gains for feed consumed.

It has been estimated that only 50 per cent of the pigs farrowed live to marketable age. It is commonly assumed that 90 per cent of all losses from diseases in swine may be charged to hog cholera.

### Food and Exercise

The trouble with most Americans, men and women, but men particularly, is this: They violate two rules—they eat too much, they exercise too little. Diet is the bane of most lives. To curb the appetite is a difficult commission, because eating is one temptation we have three times every day. The tendency is to overeat, and none of us are exempt from it. Outdoor sports and games are best for the business man. They benefit him most because they keep him outdoors and here he breathes good fresh air and breathes deeply while exercising. Any sport is good, such as golf, baseball, rowing.—Charles B. Roth in Physical Culture Magazine.

### Flour From Apples

Experiments are reported of the manufacture of flour from apples in the Pacific Northwest, and it is felt in some quarters that this project will show considerable development. It requires seven tons of apples to make one ton of flour. A baking company is now making and selling cookies, manufactured from this by-product. Shipments have gone as far east as Chicago, and the cookies seem to meet with favor. Because the apple flour contains no gluten, much experimentation was necessary to determine the right percentage of wheat flour to combine with the apple product in order to bake properly.

### Ignited by Steam

That it is possible to light a cigarette with steam was demonstrated before the Royal Institution of London. Doctor Andrade produced high-pressure steam hot enough to set fire to shavings and cigarettes. The scientist explained that the steam which escapes from a teakettle is not, strictly speaking, real steam. By the time it emerges it has condensed into tiny drops of liquid and has ceased to be real water.

DON'T suffer headaches, or any of those pains that Bayer Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for Bayer. And don't take any but the box that says Bayer, with the word genuine printed in red.

Aspirin is the trade mark of Bayer, manufacturer of Monocloacetic Acid of Salicylic Acid

## Don't Make a Toy Out of Baby—Babies Have Nerves

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, coaxed to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness. fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity. With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fisher's signature on the package so you'll get genuine Castoria. There are many substitutes.

# SOCIETY and Club

## Announcement Luncheon.

Mrs. Charles Hiscox at a 1 o'clock three-course luncheon and bridge party last Friday announced the approaching marriage of her daughter, Miss Bessie Hiscox, to Mr. Paul Crossland, which will take place August 15. About 25 guests were present.

The decorations were appropriate to the Fourth of July, and the place cards were in the bride's colors, lavender and green. Centerpieces on the six tables were of sweet peas. The announcements were in the form of firecrackers placed in the center of the sherbet dishes. Each firecracker contained a small roll of paper which gave the announcement.

There were four tables of bridge, with Mrs. T. T. Jones winning the prize for high score and Mrs. Horace Theobald winning second prize. The other two tables spent the afternoon in compiling a book entitled, "Future Life of Bessie Hiscox". Pictures for illustrators were cut from magazines, and appropriate verses were added.

Mrs. John Thomas, of Battle Creek, and Miss Minnie Reeves, of Madison, both aunts of Miss Hiscox were out of town guests.

## Country Club.

There were 60 members and 20 children present at the Country club social Tuesday afternoon, with 13 tables of bridge. The committee in charge were: Mesdames H. D. Addison, William Mellor, C. E. Wright, F. E. Strahan, George Crossland, Winifred Main, W. P. Canning, and William Beckenhauer. A guest was Mrs. Kent Pellett.

Jean Wright and Mirabel Blair took care of the children.

The committee in charge next Tuesday afternoon will be: Mrs. R. B. Judson, chairman, and Mesdames Frank Wilson, J. J. Ahern, R. W. Casper, A. M. Jacobs, C. W. Hiscox, Dean Hanson, and L. W. Ellis.

## For Miss Margaret Chace.

Mrs. C. A. Chace entertained at a 1 o'clock three-course luncheon last Wednesday complimentary to her daughter, Margaret. There were five tables at luncheon and bridge. Decorations were with flowers, with the Margaret daisy carrying out the decoration scheme, in the favors and place cards.

Mrs. Warren Shultzeis won the high prize at bridge, and prizes were also won by Mrs. Rollie Ley, Mrs. L. A. Fanske, and Mrs. R. W. Casper.

## For Burton Chace.

Mr. and Mrs. C. A. Chace entertained at a dinner at the Stratton hotel Saturday evening in honor of Mr. and Mrs. Burton Chace, of Long Beach, California, who are visiting here. Guests were: Mr. and Mrs. Burton Chace, Mr. and Mrs. Perry Theobald, Mr. and Mrs. Don Wightman, Mrs. A. A. Welch, Leslie Welch, of Kansas City, and Miss Margaret Chace.

## Gildersleeves Give Shower.

A miscellaneous shower was held at the Abram Gildersleeve home Wednesday evening for Mr. and Mrs. Clifford Gildersleeve, who were married some time ago. Mrs. Gildersleeve was Miss Edna Robson, of Carroll, before her marriage. The people of the neighborhood were guests. A play, "Wedding of Way Back",

with a mock wedding, was a feature of the entertainment.

## Legion Auxiliary.

The Wayne chapter of the American Legion Auxiliary meets at the home of Mrs. Alvina Korff at 7:30 next Tuesday evening, July 16. Mesdames J. M. Barrett, Nels Juhlin and W. H. Phillips will serve on the committee with Mrs. Korff. Members are expected to be present. Please note the change in time of meeting from afternoon to evening.

## Presbyterian Missionary.

The Presbyterian Missionary society meets this evening at 7:30 at the church: Mrs. Ralph Beckenhauer will read the missionary story and Mrs. A. A. Welch will lead the devotional service. Hostesses will be Mesdames John Harrington, Fenton C. Jones, and R. R. Larson.

## Theobalds Entertain.

Mr. and Mrs. Perry Theobald entertained at dinner at their home Wednesday evening. Guests were: Mr. and Mrs. Burton Chace, of Long Beach, California, Mr. and Mrs. Don Wightman, Mrs. A. A. Welch, Mr. and Mrs. C. A. Chace and Miss Margaret Chace.

## Picnic at Crossland Home.

The George Crossland family entertained a number of friends with a porch picnic the Fourth of July. The following were guests: Prof. I. H. Briffell and family, Prof. A. V. Teed and family, El Laughlin and family, Miss Edith Stocking and Miss Alvina Lutens.

## Bowen Dinner.

R. H. Whitt, who is teaching at the college in the department of education this summer, and Miss Margaret Schemel were dinner guests at the O. R. Bowen home Monday evening. Mr. Whitt is the superintendent of schools at Douglas, Wyoming.

## Harmony Club With Mrs. Lindsay.

The Harmony club met Wednesday afternoon at the home of Mrs. Arthur L. Chichester. The program was a study of children of pre-school age. A social time followed the program. The hostess served refreshments.

## Ehlers Entertains.

Mr. Leroy Ehlers, of Scribner, Nebraska, entertained at dinner Friday evening in the Stratton hotel Mr. and Mrs. Burton Chace, of Long Beach, California, and Miss Van Nook, of Dodge, Nebraska.

## Luncheon at Omans.

A 1 o'clock, three-course luncheon is being given today at the Clyde Oman home, with Mesdames Oman, D. J. Cavanaugh, A. T. Cavanaugh, and J. M. Strahan as hostesses. There will be nine tables.

## Sunshine Club.

The Sunshine club and families meet this evening for a 6:30 o'clock picnic dinner at the John Grier home. The program and menu committee will be: Mesdames James Grier, Irve Reed, and Alex Jeffrey.

## O. E. S. Meets.

The Order of the Eastern Star held its regular meeting Monday evening, with initiation of new members and a social hour following. Light refreshments were served.

## Wightmans Entertain.

Mr. and Mrs. Don S. Wightman entertained at a luncheon Wednesday noon Mr. and Mrs. Burton Chace, of California, Mr. and Mrs. John T. Bressler, Jr., and Mr. and Mrs. John Carhart, Jr.

## Methodist Foreign Missionary.

The Methodist Foreign Missionary society meets this afternoon with Mrs. A. M. Helt. Mrs. Robert Stambaugh will be the leader of the lesson.

## St Paul's Missionary.

The St. Paul's Lutheran Missionary society held its regular meeting Wednesday afternoon at the home of Mrs. O. G. Nelson. Mrs. Harry McMillan led the lesson, Missionaries at Home.

## Light Bearers.

The Light Bearers met Tuesday afternoon at the home of Mrs. Frank Gamble, and spent their time sewing. Light refreshments were served.

## Rural Homes.

Rural Homes meets July 18 at the W. H. Neeley home, with Mesdames W. K. Neeley and W. H. Neeley as hostesses.

## For Mr. and Mrs. Derry.

Prof. and Mrs. O. R. Bowen entertained at dinner at the Stratton hotel Mr. and Mrs. Guy Derry, of Billings, Montana.

## Evangelical Lutheran.

The Evangelical Lutheran Aid meets this afternoon at the home of Mrs. H. J. Luders.

## Lutgens to Entertain.

Dr. and Mrs. S. A. Lutgen will entertain at eight tables of bridge Friday evening.

## Pleasant Valley.

The Pleasant Valley meets July 17 at the home of Mrs. Aden Austin.

## WITH THE WAYNE CHURCHES

### First Baptist Church

A. C. Downing, Pastor  
10:00 Sunday school.  
11:00 Morning worship. Sermon by Dr. H. Q. Morton, Executive Secretary, Nebraska Baptist convention. Anthem by the choir. All members and friends urged to be in attendance. Evening Union service will be held at St. Paul's Lutheran church, sermon by the Rev. H. A. Teckhaus.  
Ladies Union and Mission Circle meet Thursday afternoon with Mrs. Carlos Martin. Mite boxes will be opened.  
Saturday night a meeting of officers and members is called for 8:00 p. m. Purpose—a conference with Dr. Morton. It is hoped that many will be present and on time.

### St. Paul's Lutheran Church

W. C. Heldenreich, Pastor  
10:00 Sunday school.  
11:00 Divine Worship.  
7:15 Luther League.  
8:00 Union services at St. Paul's church. Services in charge of Rev. McClendon. Rev. Teckhaus will preach the sermon.  
You are welcome to all of these services.  
The Sunday school workers conference will be held at the home of Mrs. Carl Granquist, Friday evening. Let all workers be present.

### Evangelical Lutheran Church

H. A. Teckhaus, Pastor  
10:00 Sunday school.  
11:00 English preaching service.  
2:00 Choir practice Friday.  
All Sunday scholars will be entertained at a Wiener roast this Saturday by the Sunday school teachers. Individual invitations stating particulars will be issued by the respective teachers.

## Safe Taken From Hartington Store

Thieves broke into the Robert C. Moore store at Hartington last week, removed a safe containing \$1400, grew frightened and dumped it into a ditch without ever opening it.

The morning following the theft the County Sheriff Clarence instituted a search, and his son found the safe in a ditch one mile east and one-half mile south of Hartington. The safe was immediately returned to Frank Ferris, manager of the store, who opened it and found everything intact.

Hartington people believe that daylight overtook the robbers and induced them, from fear of being apprehended, to dump the safe out of their car.

## Take a Look Now At Those Uppers

The soles of your last year's shoes may be worn thin, and the heels may be tipping, but if the uppers are still in good shape, we can put many months of wear in them by heeling and half-soleing, and at a small cost.

Our equipment is modern, our service is prompt and obliging. Bring in your worn shoes and let us look them over.

## Electric Shoe Shop

## Old King Cole....

if he lived today would call for MARATHON GASOLINE and MOTOR OILS

## TRANSCONTINENTAL OIL CO.

GENERAL OFFICES: RITZ BLDG., TULSA, OKLA.  
John Phipps, Agent, Wayne, Neb.

## Economy HOG FEEDER

### STOP FEED WASTE

The Economy Self Feed will pay for itself many times over each year by its saving in feed and labor. The best and easiest way to feed. Gets pork out of its market quicker and at bigger profit. Constructed to outlast all others. Has patented features making it the most efficient feeder on the market. Capacities for feeding from 50 to 200 hogs. It will pay you to investigate the advantages of an Economy Hog Feeder. Write for a free literature and let us show you what a real feeder is like.
