

PREPARATIONS FOR SCHOOL OPENING NOW IN PROGRESS

Renovation of Rooms Almost Finished; Some Changes Made; Installing System of Electric Bells.

FACULTY IS ALMOST COMPLETE

All the teaching positions in the Wayne grade and high school except two are filled at the present time. These two, music and the fourth grade, are filled only tentatively and will be passed on at the meeting of the school board Monday evening. The board also will set a date for the opening of school, which probably will be September 2 or 9.

The renovation of the school building, which has been proceeding this summer under the direction of C. R. Best, superintendent of schools, and Peter Henkle, school janitor, will be completed within another two weeks. All the rooms have been thoroughly gone over and cleaned, and varnished where needed.

A number of the lower-grade rooms have been provided with new display frames for the work of students. The floor of the first grade has been sanded and revarnished, and the students will be furnished with new hardwood tables, instead of the stationery desks which have been in use. These were built by Homer Scace.

In the high school a number of changes have been made, including enlarging the history room by extension of the partition, and the placement of two new steel ceilings, in the latin and history rooms.

Will Use Electric Clock

A feature of the new equipment this year is a Hanson electric clock, purchased of J. G. Mimes, which is being installed in the superintendent's office, and which thru a system of bells will automatically control the taking up and dismissal of classes. These bells are being installed with two on each of the three floors, and are connected by wiring thru metal conduits, which was installed by Jim Pile, of McNatt Hardware.

This system of bells is hooked up for three programs, one for the outside gongs, one for the grade school and one for the high school. It is felt that the automatic system will facilitate the work of the school, as it does away with irregularities in length of class hours, and saves the time of the teachers.

The Faculty Roster

The teachers which have been contracted for next year and the positions they will fill are as follows:

Kindergarten, Miss Minnie Will. First grade, Miss Colla Potras. Second grade, Mrs. Lulu Waite. Third grade, Miss Ruth E. Ross. Fifth grade, Miss Marjorie Pease. Sixth grade, Mrs. Belva Melvin. Seventh grade, Miss Maude Curley. Eighth grade, Miss Mable Hollaway. Science and English, Walter D. Albert. Science and Athletics, R. K. Holder. Latin, Miss Olive Hage. English, Miss Mary L. Mielenz. Principal and Mathematics, Miss Glennie Bacon. History and Debate, W. Aubrey Behl. Commercial work, Miss Mildred E. Cole.

Local Office Effects Two Farm Transfers

Two real estate transfers were made by Martin Ringer, Wayne real estate agent this past week. Tuesday the 160 acre farm nine miles south of Wayne belonging to Waldemar Nissen was sold to George F. Roggenbach, at \$160 per acre.

Monday, a 160 acre farm one and one-half miles from McClean, which had belonged to Paul Wupper of Bremer, was sold by receiver to William Becker, of Osmond for \$95 per acre.

Salesman and Family Move to Sioux Falls

Mr. and Mrs. P. T. Smith and family moved Wednesday to Sioux Falls, South Dakota, where they will make their home in the future. Mr. Smith, salesman for the American Milling company, of Peoria, Illinois, had his territory changed from Nebraska to South Dakota, which necessitated a change in residence.

Local Young Women Return From East

Bertha Berres and Flora Bergt of Altona returned Monday morning from a two week's trip in the east where they attended the national Waltham League convention held at Fort Wayne, Indiana, July 14-18. There were between three and four thousand in attendance at the convention, with over 2,000 of the league members at the banquet Tuesday night.

Following the convention the two went on a conducted train tour thru the east, going to Niagara Falls, Toronto, and other Canadian cities, and coming back thru New York City, Boston and Washington.

METHODISTS HOLD QUARTERLY MEETING

Election of Officers and Departmental Reports at Fourth Quarterly Church Conference.

With Dr. G. C. Gomon, of Norfolk, district superintendent, in charge, the fourth quarterly conference of the Methodist church was held at the church parlors Monday evening, with the annual election of officers, and was well attended.

The conference, with a unanimous vote, requested that Rev. W. W. Whitman, pastor of the Methodist church here for the past 2 years, return to his pastorate for the coming year. The report of every department of the church was encouraging, with substantial gains for the year. Forty-three new members have united with the Methodist church during the year.

The election of local church officers included the board of trustees, the stewards, the official board secretary, recording steward, communion steward, financial secretary, treasurer of budget, and treasurer of benevolences. All officers were re-elected for the coming year.

Those elected are as follows: Music Committee—Chairman, Mrs. E. S. Blair.

Music Director—Prof. W. Irving Horn.

Organist—Mrs. J. T. Bressler, Jr. Pulpit Supply—Chairman, C. E. Wright.

Church Caretaker—A. E. Gildersleeve, Phone 588w.

Board of Trustees—Pres. L. W. Roe; C. W. Albert, Wm. Beckenhauer, R. W. Ley, G. W. Crossland, Miss Nettie Craven, Mrs. Winifred Main.

Official Board Secretary—Prof. K. N. Parke.

Stewards—C. E. Wright, Prof. O. R. Bowen, C. E. Gildersleeve, Clyde Oman, Prof. K. N. Parke, C. W. Brown, Dr. E. S. Blair, Mrs. C. H. Hendrickson, Mrs. L. A. Panske, Burret Wright, L. W. McNatt, W. C. Andrews.

Recording Steward—Mrs. Winifred Main.

Communion Steward—Mrs. L. W. Roe.

Financial Secretary—C. E. Wright.

Treasurer of Budget—C. E. Gildersleeve.

Treasurer of Benevolences—Mrs. C. H. Hendrickson.

The estimate for the total cost of improvements of the church this coming year will be over \$8,000.

Following the meeting Mrs. W. W. Whitman and Miss Margaret Whitman served refreshments.

This Month Wet As Compared to Last Year

July 1929 was wetter than July 1928 by 2.4 inches, as the local precipitation for the month of July this year was 5.4 inches, while the same month last year was just 3 inches.

The heaviest rainfall during the month came on the 14th, when there was 2.25 inches precipitation. The next heaviest was the 23rd when 1.3 inches fell. There are four rains recorded during the month, the 16th, 14th, 23rd, and 30th.

Local Farmer Has Corn Exactly Twelve Feet

A stalk of corn 12 feet in height is on exhibit in front of the Martin Ringer real estate office. It was taken from the field of the Henry Bush farm, nine miles northwest of Wayne. There are 200 acres of corn on the farm, all in fine shape.

City Dads Able to Make Cut in Taxes In Annual Levy at Meeting Tuesday

City Taxes for 1929 1 3-5 Mills Lower Than in 1928; Due to Paying Off of Improvement Bonds.

LEVY 22 2-5 MILLS COMING YEAR

City taxes this year will be lower than for several years. The annual tax levy for the city, passed Tuesday evening at the regular meeting of the city council, will lower the taxes for 1929 1, 3-5 mills under the taxes of 1928, and 4-5 of a mill under the tax levy for 1927.

Citizens of Wayne will be taxed 22 2-5 mills on the dollar this year. In 1928 the tax was 24 mills, and in 1927 23 1-5 mills. The reduction under the 1928 taxes was made possible by partially paying off during the last year the city hall bonds, reducing them from \$4,000 to \$2,000, and the reduction of the street improvement bonds from \$37,000 to \$22,000. The levy from the city hall bonds was reduced from 2-5 mill to 1-5 mill, and the levy on the street improvement bonds was reduced from 3 mills to 1 3-5 mills.

Approve Diesel Engine

The council formally approved the new diesel engine of the De La Verne Machine company which was installed at the city power plant in April.

The following is the tax levy as passed by ordinance Tuesday evening, and which is for the year commencing May 1, 1929:

(a) 5 mills on the dollar for general revenue purposes.

(b) 3 mills for maintaining, operating and extending the City Electric Light Plant.

(c) 1-7 mill for maintaining and repairing sewers.

(d) 2-5 mill for maintaining city parks.

(e) 2-5 mill for purchasing equipment for and maintaining the Fire Department.

(f) 1 mill for maintaining the City Library.

(g) 1 mill for payment of interest and creating a sinking fund for the payment of refunding bonds on Paving Districts 3, 4 and 5.

(h) 1 3-5 mills for payment of interest on Street Improvement Bonds and creating a sinking fund for their payment.

(i) 3-5 mill for payment of interest on Water Extension Bonds and creating a sinking fund for their payment.

(j) 1-5 mill for the payment of interest on City Hall Bonds and creating a sinking fund for their payment.

(k) 8 mills for the payment of interest on Intersection Paving Bonds of said City and creating a sinking fund for their payment.

(l) 1 mill for establishing and maintaining musical organizations in said city.

BUILDING UNDER WAY AT COLLEGE

Rapid Progress Being Made on Two Structures by Contractors.

Bricklaying on the new wing of Neihardt hall began Monday morning, just three weeks after the contract was let to Deckenhauer brothers, of Norfolk. Bricklaying began a week earlier on the power house, two weeks after the contract was let. It is hoped to complete the new power house by November 1, but the wing of Neihardt hall will not be ready for occupancy until the end of the second semester next year.

Carpenters finished the new roof on Connell hall Tuesday and began work immediately on a similar roof on Science hall, which they expect to complete next week.

The new roofs, of asbestos-cement shingles, are quarter pitched and extend clear out over the gutters. The old flat roofs caused trouble by leaking, which is expected to be eliminated in the new ones.

John Ahern Leaves for New Position in Ohio

John Ahern, son of Mr. and Mrs. J. J. Ahern, of Wayne, left Friday morning for Cleveland, Ohio, where he will begin work in his position with the Merrill Hawley Industrial company, in that city. John received his master's degree at Dartmouth college this June.

TEACHERS FOR MOST OF COUNTY RURAL SCHOOLS CHOSEN

Teachers of Rural Schools to Hold Conference August 31; Three New Buildings in County.

MOST SCHOOLS OPEN SEPT. 2ND

Out of the 72 rural school districts in Wayne county, all but 9 of them are now provided with teachers, according to reports received at the office of the county superintendent. About one-third of the rural schools of the county will have new teachers, it is estimated.

There are three new rural schools, with all modern equipment and arranged according to modern standards, being built this summer, with the expectation that they will be completed in time for school in September. They are schools in districts number 6, 21, and 55, the latter two of which are near Hoskins. Miss H. Eva Wiig is the teacher at district 6, Miss Izotta Buetow at 21, and Miss Carrie Stamm at 55.

The teachers of rural schools of the county will meet in conference August 31 at 2 o'clock in the office of Miss Pearl Sewell, county superintendent, when school supplies for the year will be given out, and plans for the coming year will be talked over.

According to Miss Sewell, all school exhibits for the Wayne county fair should be turned into her office before the beginning of school, as the exhibits will be judged there prior to the opening of the fair.

Schools Open September 3

Most of the rural schools will open this year on September 3, and some may open a week later.

The number of rural students who wish to enter high school this fall is fully up to that of recent years. There have been 330 applications for high school tuition from pupils in (continued on page five)

Local Woman Takes Part in Bible Conference

Mr. E. B. Young is on the program this week at the Victorious Life Bible conference held at Keswick Grove, New Jersey. Mrs. Young has been a regular attendant at this conference for several years, and usually has charge of some of the work. She will conduct several classes and give talks at the conference this year.

Mrs. Young left home Tuesday and will stop at Cleveland, Ohio to visit friends on the way out. The conference will last about a week.

CHICAGO STUDENT IN PIANO RECITAL

Esther Mae Ingham Gives Recital for Friends at Mrs. Keyser's.

Esther Mae Ingham, student under Sidney Silber of Chicago for the past two years, and former student of Mrs. Grace Dickson Keyser, under whom she graduated in the Sherwood branch appeared in a piano recital at the residence-studio of Mrs. Keyser Wednesday evening.

Miss Ingham gave the following program: Pastorale, Capriccio Scarlatti Andante con Variazioni Haydn Sonata Op. 26 Beethoven Andante con Variazioni Allegro

Nocturne, B. Major; Waltz, Op. 64, No. 2; Impromptu, A

Flat Chopin Claire de lune, Minstrels, Golliwogg's Cake-Walk Debussy Witches' Dance MacDowell

Miss Ingham, who is visiting with her parents for a short time, has been teaching while studying in Chicago. She plans to teach piano this coming year at Western Springs, a suburb of Chicago.

LOCAL FARMER UNDERGOES AN OPERATION AT SIOUX CITY

Ray Robinson, farmer of this locality, underwent an operation for rupture in the Sioux City hospital Monday. It is reported that he is getting along as well as can be expected.

Wayne Girl Scouts Go to Sioux City Camp

Sixteen members of Troop two of the Wayne girl scouts with Miss Nyeulah Whitmore, scout leader, are leaving Saturday for Camp of the Hills, girl scout camp at Sioux City, where they will remain for a week. The Scouts who are going are: Mary Alice Strahan, Dorothy Taylor, Evelyn Wendt, Inez Perry, Helen Jones, Jean Wright, Elaine Yocum, Marian Kearns, Helen Vath, Madeline Grantham, Charline Brown, Faunell Larson, Marcella Huntmer, La Verne Larson, Mary Ellen Gulliver, and Mary Ella Pile.

NO FURTHER WORD FROM WILSON BOY

Body Found at Bassett Friday Proves Not to be That of Manley Wilson.

Since the letter received from Rapid City, South Dakota, July 20, Mr. and Mrs. Clyde Wilson have received no further word from their son Manley, who left home in June in company with a man named Joe Doakin, and his whereabouts remain a mystery.

The sheriff of Rock county notified Sheriff Stephens the first of the week of the discovery last Friday of the body of a young man who apparently had been struck by a train, which was being held for identification at Bassett, and which was thought to be very similar in appearance to Manley Wilson. But on investigation, although the description was almost identical, the body was discovered to have an appendicitis operation scar and two moles on the face which Manley did not possess. At latest reports the body of the Bassett young man had not been identified.

The Wilsons are still making diligent search for Manley and cannot explain his disappearance.

Fine for Unlawful Practice of Medicine

Upon complaint of R. F. Wood, agent of the state department of public welfare, a warrant was sworn out Tuesday against Mrs. L. Newberry, of 929 Main street, for the unlawful practice of medicine. Defendant was arranged before J. M. Cherry, county judge, and plead guilty. She was fined \$25.00 and costs of \$4.50.

Dr. Texley, pharmacist of Carroll, whose name Mrs. Newberry had been using in the sale of her "Escoteric Ointment", will appear in Lingoin for hearing, it is understood.

Complaint was brought against Mrs. Newberry for practicing medicine without license. Agent Wood charged that he appeared before defendant and complained of not feeling well, upon which she diagnosed his case as cancer of the nose, and sold him a jar of "Escoteric Ointment."

Called from College by Husband's Death

Mrs. W. P. Moore, of Spencer, who is enrolled at Wayne State Teachers college this summer, was called home Tuesday morning by the death of her husband, who succumbed to apoplexy Monday afternoon. Burial services are being held today. Mrs. Moore has attended several summer sessions at the college here, and is principal of the Spencer High school.

The Barley Acreage is Making Large Gains On The Farms of Wayne County

Indications are that the barley crop in Wayne county, both the acreage and the total number of bushels, will be greater this year than ever before. Barley has been always a popular grain with Wayne county livestock feeders, but farmers have preferred to let other sections do the raising of it.

But the past few years, and this year especially the barley acreage has made rapid increases in the county. This, it is thought, is partially due to the fact that the number of farm horses is gradually diminishing, with a resulting smaller demand for oats as a horse feed. As barley is a superior cattle and hog feed, farmers substituting it for oats.

OLD SETTLERS TO HOLD REUNION AT WINSIDE AUG. 22

Wayne County Old Settlers Will Meet in All-Day Festivities the Latter Part of This Month.

CREIGHTON AND WISNER TO PLAY

The annually Wayne County Old Settlers Reunion will be held at Winside August 22, according to unanimous vote of the Old Settlers association, which met one evening recently at the city light plant office in Winside.

As usual, the reunion will be an all-day affair with two ball games one in the morning and one in the afternoon. The morning game probably will be between Carroll and Hoskins, and the afternoon game will bring together two of the strongest teams in northeast Nebraska, Creighton and Wisner. Creighton has won 13 straight games and has yet to be defeated this season. Wisner has lost but two games and is considered the strongest representative team in this particular section of the state. The teams will play for 75 and 25 percent of a \$175 purse.

There will be minor sports following the ball game, and a big bowery dance in the evening for both young and old. A band will play thruout the day as a free attraction.

At the meeting the following Winside people were elected officers of the association for this year: S. H. Rew, honorary president; William Prince, active president; William Brune, vice president; and J. C. Schmode, secretary-treasurer.

The following committees were appointed:

Finance—Fred Wittler, Henry Flier.

Band—Carl Miller.

Baseball—F. J. Dimmel, Jack Reinbrecht.

Lemonade—Will Bayes.

Free Attraction—Geo. B. Gordon, Jean Boyd.

Minor Sports—Alfred Koplin, Fred Trampe, Herbert Brune.

Dance Music—Alfred Koplin.

Bowery—Fred Trampe, U. A. Weible, Thorvald Jacobsen, Roy Witte, Ed Granquist.

Concessions—Fred Wittler, Jack Reinbrecht.

Horseshoe Games—Chas. Schollenberg.

Speaker—H. E. Siman.

Advertising—F. J. Dimmel.

Water Fight—Chris Nelson, Jr.

Seating—Dave Leary.

Booster Trip—John Flier.

Ribbon Committee—Bullait Brugger, Dorothea Rew, Mamie Prince.

The committees and officers are all at work and plan to make this reunion one of the best.

Complaint Against Local Grocer by State D. of A.

Upon complaint of O. J. Knox, agent of the state department of agriculture, a warrant was sworn out Monday against G. R. Schelley and the Nash-Finch grocery, of Norfolk, and Ralph Rundell, local grocer of Wayne, for violation of the pure food law.

Complaint is that defendants sold packages of cracker-jacks containing prizes which were mixed and mingled with the food in the packages, which is a violation of the pure food statute. The case will be heard in county court by Judge J. M. Cherry, this morning.

The Barley Acreage is Making Large Gains On The Farms of Wayne County

Also the yield of barley will be heavy in the county, very little will be shipped out, it is thought, and most of it will be consumed at home, as livestock feed.

Threshing, which is getting well under way, has been retarded the first of the week by rains. With the large number of machines which are being used for threshing, it should be completed within two weeks if the weather is favorable.

The oat crop is turning out well except in the localities which were badly hailed out, with a large per acre yield, and loads of oats received at the Wayne Grain and Coal company, are weighing up well.

LOCAL AND PERSONAL

Elaine Yocum spent Saturday night at the home of Faunell Auker.

Sam Davies was an Omaha visitor Friday and Saturday of last week.

The William Bustow family plan to spend Saturday and Sunday in Sioux City.

Lucille Auker, of Sioux City, was a visitor last week at the E. J. Auker home.

Mrs. E. S. Blair and her granddaughter, Betty Hawkins, were Sioux City visitors Monday.

Mr. and Mrs. L. W. McNatt and family went to Carroll Friday evening for an ice cream supper.

Mr. and Mrs. A. T. Cavanaugh and Mrs. D. J. Cavanaugh made an auto trip to Sioux City Monday.

Mr. and Mrs. Peter Cavanaugh returned home Sunday evening from a vacation of two weeks in the Black Hills.

The W. S. Bressler family plan to leave Saturday for a week's vacation in the Black Hills.

Mr. and Mrs. L. F. Rector, of Columbus, were week-end visitors at the Al Helleberg home, leaving for home Sunday evening.

Mr. and Mrs. G. K. Johnson and son, Don, of Sioux City were week-end visitors at the E. E. Fleetwood and Earl Merchant homes, leaving Monday morning.

T. S. Hook returned home Friday from Milwaukee where he attended the meeting of the agents of the Northwestern Mutual Life Insurance company last week.

Mrs. O. A. Strahan, of Malvern, came Saturday night for a visit in Wayne, with Gertrude Morris and the A. T. Cavanaugh family. She returned home Wednesday.

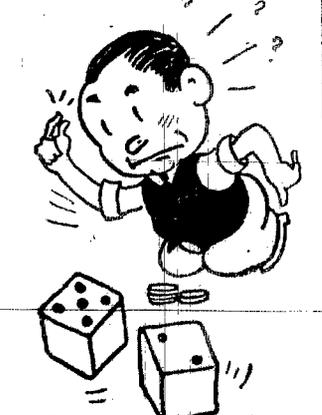

Miss Florence Beckenhauer drove to Lyons Monday, where she engaged a room for this coming year. Miss Beckenhauer is a teacher in the schools at Lyons.

Mr. and Mrs. A. W. Christensen and family moved to Wahoo Sunday, where they will now make their home. Mr. Christensen has an editorial position with the Wahoo Wasp.

Misses Maybel and Fannie Britell left Tuesday for a vacation of six weeks at Spectacle Lake, at Cambridge, Minnesota. They will stop at Flandreau, South Dakota on the way.

Mrs. L. W. McNatt returned home from Lincoln a week ago Wednesday night, bringing with her Miss Dorothy Hamilton, who will visit with the McNatts a week. Mrs. Jess Hamilton, of Lincoln, Dorothy's mother, came later in the week for a visit of a few days at the McNatt home. The McNatt girls will return with Dorothy for a month's visit at the Hamilton home.

Dr. S. A. Lutgen, M. D. All calls promptly answered.

Don't Gamble

YOU CAN BE SURE WHAT YOU'RE GETTING WHEN YOU BUY INDIA TIRES COME IN AND LET US SHOW YOU WHY INDIA'S ARE REAL INVESTMENTS.

Sala's Tire & Service Station

We give the best in Tires, Gas and Service, and we're the handiest station in town.

Visitors with the R. B. Judson family over Sunday were Mr. and Mrs. E. C. Tonseth, of Omaha. Frank Tubbs, Mrs. Tonseth's father, accompanied them and visited at the Chan Norton home.

Mrs. J. C. Johnson and son Harold drove to Omaha Saturday, returning with her daughter Loraine, who has been visiting with her grandmother, Mrs. Jorgenson. Harold plans to visit with his grandmother for a few days.

Mr. and Mrs. J. H. Kemp returned home Saturday from Milwaukee, where Mr. Kemp was in attendance at a meeting of the agents of the Northwestern Mutual Life Insurance company held in that city the first three days of last week.

Special attention to all kinds of fillings. Robt. W. Casper, D. D. S.

Visitors at the E. E. Fleetwood home Sunday were Mr. and Mrs. W. M. Fleetwood, Mr. Fleetwood's father and mother, and Mr. Fleetwood's two sisters and their husbands, Mr. and Mrs. E. A. Whitney, and Mr. and Mrs. G. K. Johnson. All are from Sioux City.

Mr. and Mrs. Oscar Liedtke and daughter, and Mr. and Mrs. Dan Martin, of Genoa, returned Sunday morning from a week's fishing trip at Park Rapids, Minnesota. They report fine catches of fish.

For milk or cream for daily delivery or for special occasions call phone 417-F-2 the Logan Valley Dairy. We are always on the job.—adv. M18-1f.

Cedar Co. Man Escapes, Weds Then Gets Caught

John Meyers, 20-year old Hartington youth, is lodged in jail at Yankton after going thru the experience of being arrested on a charge of illegal transportation of intoxicating liquor, escaping from the officers as he was about to be lodged in jail, getting married while he was enjoying a spell of freedom and finally being picked up by the officers and again lodged in jail.

Young Meyers was arrested together with James Harper, as they stopped to pay bridge toll a few weeks ago. Sheriff Roy Milliken of Yankton, having been tipped off that they had made a trip to Nebraska for alleged intoxicating liquor. Just as they were about to be lodged in the county jail Meyers broke away and ran. The sheriff kept control of Harper, the car and the jug. Harper was found guilty, fined \$250.00 and the car, which was owned jointly, was ordered sold.

Meyers was picked up Sunday, his wife, Mrs. Peggy Meyers, whom he married two days after his escape, also fell a victim of the law when she made a fuss, so was also arrested, charged with using language that merited a fine of \$25 and costs. Young Meyers was lodged in jail in default of a \$500 bond which he was unable to secure.

Richard Dix Has Record Of More Than 30 Films

Few stars have appeared in the leading roles of so many films as has Richard Dix, who graduated from the legitimate stage to the silver screen after persistently sticking to his ambition of dramatic achievement. After many heartbreaks on the stage Dix was given an opportunity to appear in films on the West coast.

He appeared in several films and was later given a contract by Jesse L. Lasky, executive vice president of the Paramount organization. Since that time Dix has appeared in 30 pictures of the silent type.

Omnibus College Girls Are Having Good Time

The Laurel girls who are on the Omnibus college tour are having a good time, according to letters received from them, after they had passed thru the Ozark mountains. They expected to spend the following Sunday in Memphis. The Laurel young women on the trip are all graduates of Wayne State Teachers college. They are: Mae Manley, Ethel Manley, Norma Winquist, and Lois Ward.

New View
"What is that picture of?" asked a small tot.
"That's the Goddess of Liberty," Big Brother replied. "You can always tell her 'cause she's got an ice cream cone in her hand."—Leesburg (Pa.) Commercial.

Facts About Nebr.
(From Bulletin of Nebr. Utilities Information Bureau)

Nebr. Leads in Labor Saving
Nebraska leads the world in labor saving farm power. In Italy there are 19 horsepower per 100 farm workers, France has 37 HP per 100, Germany 55, Great Britain 88. As a nation the United States leads with 205 HP per 100 workers. Alabama falls below with 81 HP and an annual average income of farm laborer of \$112; New York 169 at \$250, Indiana 216 at \$365 and Iowa with 386 at \$595. In Nebraska every 100 farm workers use the power of 471 horses, with an annual average income of \$910 per worker.

5,000 4-H Members
Nebraska boys and girls, more than 5,000 in number, belong to various branches of 4-H farm clubs. They are raising calves, pigs, poultry, potatoes, field corn; feeding baby beeves, making their own clothing and learning how to use ropes. The members will enter their exhibits at the State Fair in September and at Ak-Sar-Ben in November.

Extra Telephones
Eight per cent of residence telephone subscribers in Nebraska have one or more extension sets, as against seven per cent in Minnesota and six per cent in Iowa and South Dakota, all of which are above the national average. Thirteen per cent of Lincoln subscribers have a second telephone.

Valuation of Saline Co.
Saline county has an assessed valuation of \$49,072,486, which is \$85,640 for each of her 573 square miles, and \$2,750 per capita for each of the estimated 18,000 population. Rich farm lands constitute two-thirds of the total county wealth.

Where the Juice Comes From
Thirteen per cent more electrical energy was consumed in Nebraska during May than in the same month last year. The national increase was one per cent higher. About eight and one-half per cent of the energy in the state, 42,500,000 kilowatt-hours, came from waterpower. To make the bulk of the supply required 42,693 tons of coal and 8,839 barrels of fuel oil. In the United States more electricity came from hydro plants in May than in any previous month and represented 43 per cent of the nation's consumption.

Nebraska Industrial Notes
The work of improving the new park at Hay Springs has begun. The committee in charge is inviting suggested names. Sheridan county has 39,517 more acres in crop this year than last which exceeded all previous years. Hay Springs precinct has 52 per cent of the seeded acreage of the county.

Chapman farmers are selling blue grass seed to a Kansas City firm which is sending its own harvesters and pays \$3 per acre, merely "topping" the high stems in the pastures and without disturbing the forage.

The Oxford Standard states that \$20,000 has been offered by the Prairie Oil Company for the rights on a well and field now in process of development in that section.

A new college building in connection with Sacred Heart Convent at Omaha will be built at a probable cost of \$150,000. A new chapel for St. Cecelia church is to be built by the Mrs. C. B. Nash estate.

Local capital at Superior has raised the money to purchase a desirable lot upon which an outside company will erect a new hotel that will be a welcome credit to the city.

The Central Power Company has made an offer to purchase the Palmyra municipal lighting system which the company is now serving with power at wholesale.

The home state bank of Kennard has been reorganized with new officers, under a new name and is open for business.

A \$250,000 bond issue for Richardson county is being advocated in order to restore local roads and bridges that were destroyed by the June floods.

The Christian Science congregation at Hastings contemplates the building of a \$30,000 church.

A 12-story Insurance Exchange building is to be built at Omaha at a total cost of \$900,000, at 18th and Howard streets.

A tract of 160 acres has been secured for an airport at Scottsbluff. It is five miles southeast of the city and convenient to a good road.

The Farmers Union at Creighton has bought a Main street location and will build a filling station.

An addition to the Barr junior high school at Grand Island will be built at a cost of \$20,000 and be ready for September occupancy.

University Dairy Barn Windows Painted Blue

Windows in the University of Nebraska dairy barn have been painted blue. This is not to please the cows sense of beauty but to help fill the milk pails. Covering the glass openings with blue alabastine keeps the barn darker, thus making it cooler and freer from flies.

The cows seem to like the blue coatings, observed Professor H. P. Davis of the dairy department. They like it so well that they lick some of it off with their tongues. Whether this indicates that the cows have an aesthetic sense or merely a wide range of appetite has not yet been determined.

Shutting out part of the light from barns, stalls, and sheds has been satisfactory in relieving farm animals from some of the worry caused by flies, farmers declare. Openings can also be covered with burlap to a considerable advantage, they say.

Windows in the University dairy barn are so arranged as to open for ventilation without admitting direct sunlight. The blue paint with which they have been coated is easily removed and will be taken off after the summer is over.

NOTICE TO CREDITORS

The State of Nebraska, Wayne County, ss.

IN THE COUNTY COURT
In the Matter of the Estate of Garrett Lageschute, Deceased.

You are Hereby Notified, that I will sit at the County Court Room in Wayne, in said County, on the 16th day of August, 1929 and on the 16th day of November, 1929 at 10 o'clock A. M. each day to receive and examine all claims against said Estate, with a view to their adjustment, and allowance. The time limited for the presentation of claims against said Estate is three months from the 16th day of August, 1929, and the time limited for payment of debts is One Year from said 16th day of August, 1929.

Witness my hand and the seal of said County Court, this 26th day of July, 1929.

(seal) J. M. CHERRY,
County Judge.

Announcement

"I have some bad news for you," said the young wife tremulously.
"Shoot!" growled the brute, never emerging from the sporting section of the newspaper.
"N-no," she replied thoughtfully. "I had considered that, but I decided not to. I'm just going to divorce you."

Work Soon to Begin on Large Niobrara Bridge

Definite work is to be begun as soon as possible toward construction of a bridge over the Missouri river between Niobrara, Nebraska and Running Water, South Dakota, approval of which was given by the war department at Washington Wednesday.

Plans, according to H. A. Rinder, Niobrara banker and president of the Nebraska-Dakota Bridge corporation, call for a structure 1,800 feet long, to cost approximately \$800,000.

It will be a mile and a quarter north of Niobrara and a quarter mile from Running water. At present Nebraska Highway No. 14 and Dakota Highway No. 37 are joined by a ferry at the approximate location of the planned bridge.

The nearest other bridges over the Missouri are at Yankton, 60 miles east, and at a point 75 miles west.

"It is a local proposition," Mr. Rinder stated, "the stockholders all being from nearby points in the two states. Plans call for toll collection until the bridge is paid for, after which it will be free."

George Williams of Albion is vice-president of the bridge company.

NASH '400'
LEADS THE WORLD IN MOTOR CAR VALUE

"400" Advanced Six Ambassador
\$2050

Delivered, Fully Equipped,
Nothing More to Buy!

THE AMBASSADOR BY NASH
—TWIN-IGNITION-MOTORED

THOUSANDS of people who drive the Twin-Ignition-motored Nash "400" Ambassador have discovered that the most luxurious type of motoring is not necessarily prohibitive in price.

Obvious to every eye is the style and thoroughbred character of this charming motor car. There is beauty in the purity and grace of every line and curve. There is luxury in every item of interior dress and decoration, from inlaid walnut panellings to the deep, overstuffed cushions, upholstered in fabrics restricted to fine car manufacture.

And equally obvious, to those who know good motor cars, is the high quality of "400" engineering and Ambassador performance. Here, in this moderately priced car, is the Twin-Ignition motor, the year's most notable achievement in power. Another very attractive "400" feature is the "world's easiest steering."

And the Ambassador is one of the easiest riding cars ever built. The wheelbase is 130 inches. The springs are built of special process alloy steel, individually designed for Ambassador size and weight, and outboard mounted Houdaille double action, hydraulic shock absorbers are regular equipment.

Other features of convenience and quality which Nash volume makes it possible for you to have at Ambassador price, are Bijur Centralized Chassis Lubrication and Chromium-nickel bumpers front and rear—at no extra charge.

Volume and its manufacturing economies plus Nash engineering skill make possible this value. More than 168,000 Nash "400s" were built and sold in the 12 months (just ended) since the "400" introduction.

Delivered, Fully Equipped Price Range of 23 Nash "400" models \$0 to \$2,300
Includes Touring, Roadster, Coupe, Cabriolet, Victoria and Sedan Models

Winside News

Mr. and Mrs. Fred Bright were Norfolk visitors Saturday.

Mrs. William Wylie was a Wayne visitor Saturday afternoon.

Harry Jones of Wayne, was in Winside and vicinity Friday looking after business interests.

Mrs. V. L. Siman and son Bob arrived home last week Wednesday, from Ayrshire, Iowa, where they spent a week visiting relatives.

Mr. and Mrs. Frank Wilson and family went to Lake Okhago Thursday for a week's outing.

Miss Beatrice Motson, who has been taking special work at the State Teachers College, at Boulder, Colorado, arrived home Thursday. On her way home Miss Motson stopped off in Omaha and visited Mrs. H. Lee Wells.

Mr. and Mrs. L. W. Needham left Thursday afternoon for Minneapolis, Minnesota, to be gone a week. They will visit some of the many lakes in Minnesota while on their vacation.

Mr. and Mrs. A. G. Middelstadt, Mrs. A. H. Carter and Mrs. Mae Huffaker, were shopping in Wayne, Thursday afternoon.

Rev. J. Bruce Wylie was a Norfolk business visitor Saturday morning.

Miss Dorothy Lewis was the guest of her aunt, Mrs. Irving Moses, of Brenna, last week.

Mrs. Mary Tillson returned Thursday from Alliance, Nebraska, where she has spent the past three weeks visiting her daughter, Mrs. George Miller. Mrs. Tillson says crops look good in the western part of the state.

H. E. Siman left Saturday for

Stewartville, Minnesota, to visit his mother and sister, from there he will go to Sparta, Wisconsin, where Mrs. Siman is visiting her mother and sisters.

Mr. and Mrs. G. A. Middlestadt entertained at dinner Saturday. Mrs. Dwight C. Hogue, of Santa Ana, California, Mrs. Ed Michael and Mrs. W. E. Wood of Wayne.

Miss Mildred Moses and Miss Ethel Lewis returned with their uncle and aunt, Mr. and Mrs. Ed Damme, to Sioux City Thursday, and visited until Monday.

Farmers began threshing in Chapan precinct, Monday.

Mr. and Mrs. Norbert Brugger and daughter, Marcella, and Miss Marnie Baker were supper guests of Mr. and Mrs. John Brugger, Friday.

Mr. and Mrs. Hobert Auker and Miss Sarah Nettleton of Wayne, were callers Sunday afternoon at the Auker home.

Dr. and Mrs. V. L. Siman and son Bob were Norfolk visitors, Sunday afternoon.

Mrs. Bertha Miller submitted to a major operation at the Wayne hospital Saturday morning.

Mr. and Mrs. Wm. Rabe and Mr. and Mrs. Oscar Ramsey were Norfolk visitors Friday afternoon.

Miss Augusta Fischer of Sioux City a niece of Mr. Carl Wolff is a house guest in the Carl Wolff home this week.

S. H. Rew and daughters, Miss Bess, and Mr. and Mrs. Fred Weible spent Sunday at Yankton, South Dakota.

Rev. F. D. Campbell filled the M. E. church pulpit Sunday.

Mr. and Mrs. Gurney Benschhoff entertained at supper Sunday Mr. and Mrs. Ernest Laugenberg and son, Dale of Hoskins.

Dr. and Mrs. V. L. Siman and son Bob, Dr. and Mrs. B. M. McIntyre and son John attended church at Carroll, Sunday morning.

Mrs. Carl Wolff, son Manfred and daughter Norma, returned from visiting relatives at Lincoln and Alexandria, Thursday.

Clarence Johnson who is employed by the Palmer Candy Co. of Sioux City spent the week end with home folks. Clarence plays ball Sundays with the Olson Sporting Goods Co., ball team.

Rev. and Mrs. F. D. Campbell and daughter, Louise, of Bloomington, Illinois, are house guests of Mr. and Mrs. W. R. Hillier. Mrs. Campbell and Mrs. Hillier were room mates when they attended the Lucy Rider Myer Mission school in Chicago, twenty-three years ago and have not seen each other since their school days until last week Wednesday.

Rev. and Mrs. Campbell have been in India the past nineteen years. Rev. Campbell being Superintendent of Bastar State, Central India. They are home on a furlough. At present they are making their home at Bloomington where Mrs. Louise is a student at Illinois University.

Prof. and Mrs. John Mettlen and family went to Shelby, Saturday on business.

Fred Miller and Mrs. Anna Laura Cooper drove to Lynch, Friday morning.

Mr. and Mrs. Henry Voecks went to Emerson Thursday morning. Mrs. Voecks and children returning as far as Wayne in the evening and Mr. Voecks going to Sioux City to attend a meeting of Radio dealers. They all returned home Friday morning.

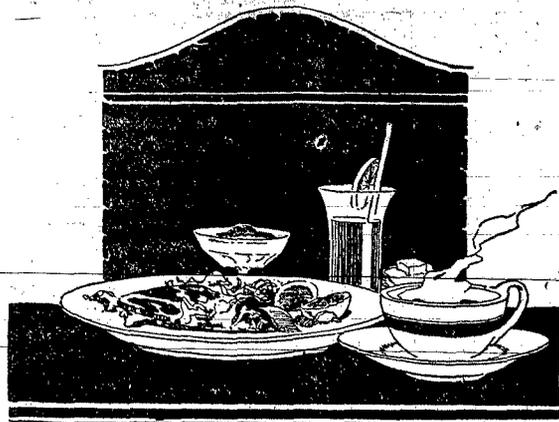

Mrs. Ruth Anderson and son Gerald of Omaha, were calling on friends Thursday.

C. A. Jones returned Thursday, from Milwaukee, where he attended a meeting of the North Western Mutual Life Ins. Co.

Fred Wittler was a Wayne business visitor Thursday morning.

Mr. and Mrs. Glen Hamm were guests at the John Hamm home Sunday afternoon.

A Two-Dollar Dinner For Six

Quaker Soup	25¢
Sliced Cold-Cornd Beef	25¢
Deviled Eggs	35¢
Potato Chips	15¢
Cabbage and Carrot Salad	23¢
Pimientos	17¢
Rye Bread and Butter	15¢
Custard with Raspberry Sauce	34¢
Iced Tea	6¢

ISN'T that a pretty good dinner for \$2.00 or thereabouts? The above figures total \$1.99, but food prices vary slightly in different localities.

To make the Quaker Soup, add one cup of water to a can of Pepper Pot Soup and heat to boiling. Heat a can of tomato soup to boiling, and scald two cups of milk. Add hot tomato soup very slowly to the hot milk, not boiling after mixing. Add the hot Pepper Pot, season and serve.

For the Cold Plate you will need one 12-ounce can corned beef, six eggs, one 3/4-ounce package potato chips, two and one-half cups cabbage, one 8-ounce can diced carrots,

one-fourth cup French dressing, and one 7/8-ounce can of pimientos. Chill the can of corned beef in the ice box, remove from can, and slice thin. Have the cabbage finely shredded and very crisp. Add well drained carrots and mix in lightly the French dressing, using two forks. Arrange the ingredients attractively on individual service plates, and be sure to have them all very cold.

To make the Raspberry Sauce for the custard, mix one teaspoon cornstarch with one tablespoon sugar, add to the raspberries from an 8-ounce can and cook till slightly thickened. Cool. Serve cold over the cold and unmolded custards.

Mr. and Mrs. Henry Fleer and son Merlin spent Sunday with Mr. and Mrs. Henry Lage, six miles south of Wayne. Mrs. Lage is a sister of Mrs. Fleer.

Mr. and Mrs. Earl Bordman, of Pilger, were Sunday guests of Mrs. Isabella and Miss Beatrice Motson.

Mrs. H. J. Candor of Lyons, was a guest Thursday of Mrs. Frank Mettlen.

Mr. and Mrs. Wilson Miller and sons, were guests Sunday in the Chris Graverholt home at Laurel.

Winside Socials

The F. M. S. of the Methodist church, will have their annual picnic in the Wayne park, Friday, August 2nd. Miss Gertrude Bayers, Mrs. W. R. Hillier, and Mrs. Burt Hornby are the committee in charge.

Rebecca Lodge met in regular form Friday evening in the Woodman Hall with nineteen members present. Mrs. Jens Andersen, Mrs. Peter Christensen, and Mrs. Andrew P. Andersen served delicious refreshments.

Social Circle

Mrs. Harold Quinn was hostess to the Social circle, Wednesday afternoon of last week. Thirteen members responded to roll call by giving the name of a famous Indian Chief.

Mrs. Halsey Moses read a very interesting bit of history, by Sheldon, Sioux Chiefs. An article entitled, Spell of the Indian for Artists, was read by Mrs. Ralph Prince. Mrs. Art Auker closed the program with a reading, Big Indian Chief. The next meeting will be with Mrs. Oscar Ramsey in two weeks.

Visitors were: Miss Effie Wallace and Miss Abigail Manning of Wayne. Mrs. Gurney Benschhoff, Mrs. C. E. Benschhoff and Mrs. Mark Benschhoff of Winside. The hostess served a delicious two course lunch.

B. C. Club Picnic

The B. C. club gave their annual picnic Thursday evening, on the lawn at the Fred Baird home. Members and their families to the number of fifty-eight were present. After supper a social time was enjoyed by all, the older folk visiting while the young people played games.

Evangelical Aid

The Evangelical Aid Society of the Theophilus church, met with Mrs. Louise Brune at Wayne, Thursday afternoon. Those attending from Winside were: Mrs. Fred Wittler, Mrs. Oscar Mann and Mrs. Henry Fleer. The next meeting will be with Mrs. Henry Fleer, of Winside.

Wallway-Weber

Miss Marie Wallway, of Emerson, became the bride of Mr. Eyno Weber, of Sioux City, at the home of the bride July 22. Mrs. Weber is a former student at Wayne State Teachers college. Mr. Weber is an employee of the Cudahy Packing Co. at Sioux City where the couple will make their home.

New Equipment Used for Threshing at Lincoln

Hall Windrows Grain; In Better Shape Than If Shocked.

Charles Hall, a farmer living near Havelock, harvested seventy-five acres of wheat this year by what is said to be the latest thing in modern methods. He used two machines, the first cut the grain and laid it in windrows just like hay. The second machine, "a pickup", threshed the grain. Two such outfits were used near Lincoln this year. These are the first ones to be used by eastern Nebraska farmers. Although the windrowed wheat was exposed to eighteen days of rainy weather during which time 11 inches of water fell, it dried out rapidly and was in better shape than much shocked grain according to C. L. Zink of the college of agriculture.

The "windrower" left about one-third of the straw as a stubble on which to lay the heads. Mr. Hall's crop suffered less damage from severe hailstorms than some shocked wheat, he said. This method of harvesting has advantages over straight combining in that the cutting may be started earlier, the quality of grain will probably be better, and damage from storms will be less, declared Mr. Zink. The increased cost is not great because the windrowing was done very quickly and required a relatively small amount of power.

This new method of harvesting grain was first used by Thomas Campbell, a 100,000 acre wheat farmer, at Hardin, Montana. By an ingenious arrangement of machines he windrowed his grain and then picked up the swath, fed it into small threshing machine and ran the grain into a wagon.

Lincoln Man is Using Sheep For Lawn Mowers

Purebred lawn mowers recently came into use as labor saving devices on a Lincoln lawn. These automatic mowing machines are two Shropshire sheep, used to trim the grass on a service station lawn at 1300 North sixteenth street.

These two registered sheep have kept this lawn neatly cut all summer according to Joe G. House, agent for the Texas company. While they represent a somewhat higher initial investment than the average lawn mower, they do good work and are always on the job, he says. They were purchased from the college of agriculture.

Altho the gate leading into sixteenth street is always open, these trusty "mowers" never venture out into the traffic, attendants said. They have an open shed for shade. This will be fixed up to house the animals comfortably during the winter.

THE WEEK'S NEWS

Bits You May Have Overlooked in the Daily Press.

Pope Leaves Vatican

Pope Pius XI broke the 40-year voluntary imprisonment in the Vatican of the Catholic pontiffs last Thursday evening when he came forth from St. Peter's Cathedral and blessed 200 people in the square before it. The head of the Catholic church broke with the Italian government two generations ago when the government took over the papal lands. The long standing dispute was recently settled when Mussolini and Pope Pius made the Italo-Vatican accord. And now Pius has emerged from the Vatican city.

Roller-Bearing Train

The Arrow, Milwaukee roller-bearing train, the most advanced development in mechanical and electrical engineering, made its first run Friday between Omaha and Chicago. Among other features the car carries a woman's smoking room, radio loudspeaker extensions into the smoking and sun rooms, and telephones with local connections at terminals.

Cruiser Building Halted

Following Premier McDonald's announcement of the curtailment of the British naval building program, President Hoover announced last week that construction of three American cruisers would be postponed until consideration of their effect on the expected British-American naval agreement. Hoover announced a general program of curtailing military expenses which may mean a reduction in federal taxes.

"Illuminati" Fast

George Huntley Aron of Chicago led 36 "Illuminati" last week to a peaceful spot near Denver for a 90-day fast, its purpose being the curing of physical, spiritual and mental ills. After a few days of fasting the cult will enter into the hypnotic state when they will receive "spiritual illumination" and receive the "perfect vision."

Hooligan Wins

Hooligan, a bullfrog of Stanislaus, California won the world's frog leaping, opened the Cheyenne rodeo last California, with a jump of exactly six feet. Pride of San Joaquin was runner-up with a leap of five feet nine inches.

Governor Emerson Rides

Frank Emerson, governor of Wyoming, opened the Cheyenne rodeo last week by riding the first bucking horse out of the chute. He stuck in the saddle without pulling leather. The crowd applauded.

Kellogg Treaty Effective

The Kellogg treaty for the renunciation of war, binding upon 46 nations, was formally declared in effect amid imposing yet simple ceremonies at Washington July 24. Hoover congratulated the entire world upon the "additional instrument of humane endeavor."

Wisner People Escape From Burning House

Mr. and Mrs. Leonard Kane, of Wisner, were barely able to escape, when they were awakened in their burning house at 3 o'clock in the morning a week ago Saturday, and were almost overcome by the heat and smoke before they reached an outer door. Plaster was falling in the upstairs rooms when they awakened, and all the first floor was ablaze. They saved only their baby buggy.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude salts. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For 60 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient. One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad

THE MANAGER PAINTED

"Is this the manager of the power company?"

And being assured that the manager was listening the customer proceeded with his telephone conversation.

"I thought, Mr. Manager, I should report to you about some of your men who did some work out here a few days ago. Maybe you didn't know it but I ordered an electric range to be installed and the old stove taken down while my wife was away."

The manager had not known it but he showed his appreciation for the order and expressed the hope that the range was proving satisfactory.

"Oh, the range is all right," continued the customer, "but I wanted you to know about the men who came out to set it up and do the necessary wiring. You see, I made it very clear to the salesman that I wanted it done as a surprise to my wife and I wanted it done just right—and I insisted that they clean up the kitchen carefully before leaving the house."

With a "Yes, I see—I understand how you feel," etc. the placid, voiced manager sat shuddering for the rest of the conversation.

"Well, as I expected, my wife got home before I did and went immediately to the kitchen. What do you think she first said to me when I returned?"

The manager was afraid to even guess and asked expectantly.

"Well, sir, she hardly said anything about the new range but she gave me credit for having tidied up that kitchen better than she could do it herself. I certainly was pleased at that and thought you ought to know how neatly your boys did their work."

The manager regained consciousness and was at his desk as usual the next day.

The late Thos. Marshall once made the now famous remark that what this country needed most was a good five cent cigar. We have often thought that the present crying need of the country is a suitable hot weather shirt for men—one that could combine both comfort and style. There are plenty of good shirts on the market, but none which seem to fill the bill exactly. If they are stylish, they are not very comfortable and, if they are comfortable, they are not very stylish. Fame and Fortune await the person who can supply this demand.—Hartington Herald.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word genuine printed in red? It isn't the genuine Bayer Aspirin without it! A drugstore always has Bayer, with the proven directions tucked in every box:

Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid

New Oats 35c to 37c
Eggs25
Butter Fat40
Hogs \$9.50 to \$10.00

The state law which makes the western meadowlark the official state bird of Nebraska, became effective July 25. What could be more symbolic of the world, sweet freedom that once was on our Nebraska prairies than this golden-throated songster?

But now along comes an editor who declares that it should be the inalienable privilege of every citizen of the United States to shake the hand of the president. Why? If every citizen of the United States should suddenly conceive it to be his inalienable right to shake the hand of the publisher of the Democrat, that gentleman would consider himself greatly abused, and would promptly lock his doors or go into hiding. Hasn't Hoover as much right to decide who shall shake his hand as we?

The town has a good tennis court where lovers of the sport may indulge, and in favorable weather it is in use at desirable times of day. The courtesy of the courts is usually observed, and players do not usually have to wait more than a reasonable length of time for their turn with the rackets. But there is one rule which many players do not observe, that of playing only in soft-soled shoes. If people would not play in hard-soled and heeled shoes, the court would be smoother and more pleasant to play on. All hard shoes are banned from courts in larger towns.

The Hoover party already have made great reforms in Washington. The presidential foot has been firmly set down on cocktail drinking at congressional parties, much to the sorrow of Congress. The wife of the colored congressman was admitted to

a White House social function; and the clatter of the tea glasses reverberated thruout the south. And the president, at least thru the summer heat, has eliminated all handshaking parties, and consternation reigns among the thousands of tourists who throng Washington. We thought the Hoovers would upset the old order of things.

THE NEW LIABILITY LAW

With a large number of other statutes, the taxi cab drivers liability law came into effect Thursday, July 25, and put the local drivers, who were doubtful about paying for the amount of insurance or surety bond required by the Railway commission, out of business temporarily.

Almost at once suit, as a test case, was brought against the Railway commission by a small taxicab driver in Omaha, who claimed that the rates set by the commission made it prohibitive to operate.

The law requires that drivers of taxicabs and of public conveyances carry either a liability insurance policy or a surety bond to the amount which the Railway commission may deem necessary for the proper protection of the public. For drivers of public conveyances such as are used here, the cost of carrying the required insurance is \$80.00 per year; for a taxicab equipped with taximeter the amount is double.

This law will do much to protect the public from reckless and irresponsible drivers, and some provision of this kind should be made. But there is complaint that the rates will drive the small operator out of business, and Railway Commissioner C. A. Randall himself charges that the law was enacted thru the influence of a large taxicab concern.

Whether this is true or not we have no way of determining. But it is certain that it will work a real inconvenience in the small towns like Wayne. The taxicab drivers, perform a real service for the people of this town, but they do not make sufficient income to enable them to carry a large overhead of any kind. While the people of the small towns are entitled to the same protection as those in the cities, there should be greater discrimination between the drivers who number their daily load of passengers by the dozens or even less, and drivers who number them by the hundreds. The risk incurred by the one is much less than that incurred by the other.

Electric Fans Warm Refrigerator at Nebr. U.

An electric fan may be cooling but one actually warmed up a refrigerator used in a test at the college of agriculture recently. An electric fan was set in motion ten feet away from the refrigerator creating a current in the direction of the coils or condenser unit of the machine.

There was an increase in electrical consumption which would have amounted to more than \$2.50 additional to the regular monthly electricity bill. The charge was five cents per kilowatt hour.

When a checkup was made, it was found that the fan was blowing air in the wrong direction and keeping the coils hot instead of cooling them. The fan currents opposed those normally set up by the condenser unit fan.

These results would indicate, says Professor M. P. Brunig of the agricultural engineering department, that the wrong kind of draft in a room may actually increase the electrical consumption. A draft similar to the one set up by the fan might easily be created in any room thru an open window, he says.

Further trials showed that it is essential to properly ventilate the condenser unit for economical operation. When the back part of a condenser unit was closed as might be done by pushing the refrigerator too near the wall, there was considerable increase in electrical consumption.

For milk or cream for daily delivery or for special occasions call phone 417-F-2 the Logan Valley Dairy. We are always on the job.—adv. MS18-17.

Gleaned From Exchanges

LEADING THE PROCESSION

Notwithstanding the recent unpleasant experiences of Mme. Schwimmer and Prof. MacIntosh, who were denied American citizenship because of their too great devotion to peace, these be great and glorious days for the pacifists. It used to be, after the partisan maligning of Woodrow Wilson and the League of Nations had sufficiently poisoned the public mind, that pacifist was the same as a red, and a red was a revolutionary and a revolutionary was a seditionist, and all such were denounced by the American Legion, blacklisted by the Daughters, and tagged by gum-shod operatives of the secret service. But recently things have come to such a pretty pass that the genuine and desperate seditionist is more likely to be found blustering his life away in an upholstered chair in the reading room of the Navy League. And what he is reading about, and exploding because of, is that the pacifists have captured the government of the United States and turned it over to the internationalists.

Within a week's time there have been notable events treading on one another's heels. Thirteen hundred marines have been called home from Nicaragua. The Kellogg-Briand treaties have come of age and been invoked by our state department to prevent a threatened war between Russia and China. The taking effect of these treaties, signed by 46 nations renouncing war and pledging peaceful solution of all international differences, has been publicly celebrated at Washington. President Hoover, splashing gleefully about in a sea of pacifism, has stopped the building of three mighty cruisers has declared that both our army and navy expenses must be sharply curtailed, and is obviously conspiring with such admitted foreign pacifists and socialists as MacDonald of Great Britain and Briand of France to reduce world armaments and buttress and intensify peace commitments.—Omaha World-Heald.

THE FASHION PARADE

Dallas housewives, Shreveport stenographers, Spokane waitresses, Chicago socialites—all fashion-conscious women in the United States were the invisible, ultimate spectators of a spectacle the other day in Manhattan's Astor hotel. Despite the heat, a parade of mannequins marched all evening, dressed and redressed for next autumn. It was a march stolen on Paris. The fall fashion show of the Garment Retailers of America forecast the following features and trends.

Silhouettes. Still sheathed closely from shoulder to hip, adventuring downward into eighteenth century exaggerations—godets, tiers, ruffles, puffs, bustles.

Skirts. No knees, even for sportswear, which drops two inches, for afternoon, 12 to 15 for evening, bringing many frocks in slanting fashion to the floor, adding trains.

Hats. Still mainly smooth to the head but trending to draped turbans. Small-feather trimmings. Some adventurous, wear low wide back brims of a salty flavor, reminiscent of fishermen's waterproofs.

Suits. Much in evidence, manish, some times sleeky furred. Their jackets favor fingertip lengths, have revers and collars. Many have no buttons. The blouse carry over from the summer, have no sleeves. Ensembles will be more widely worn than ever.

Colors. Stylists noted dark brown and wine red predominated, relieved by orange, royal blue, chartreuse, honey-beige, carnelian. Black and white "in", as always. Fabrics. Velvets, transparent and patterned; chiffons and rayons shot through with metal threads; woolens ingeniously woven through with small wisps of feathers.

Plugged like a new jazz song was the trouser mode for women at last week's show. Having established the once unpopular ensemble, United States couturiers are now busy trying to put over the glorified pajama and its offspring, the feminine overall, at least for luncheon, tea, tennis, beach strolling. The opinion of most buyers last week was that part-time trousers for women are just wandering, have gotten nowhere yet.—Time.

SKY BATHING

"Coast flyers enter eleventh day; get first bath." "In high spirits after first ablutions." "They bathe and fly on," read typical headlines. According to the reports they were not sufficiently isolated even in the air, for other planes flew by and the modest bathers had to sew down for curtains. Later reports from planes that carried them fuel said the endurance flyers were "sliced up spick and span." If flight in itself is not news any more, still less is bathing. And yet once upon a time it was. The gossip

sheets of Queen Elizabeth's Time in England, we are told, published the statement that "the Queen hath built herself a bath where she doth bathe herself once a month, whether she require it or not." Those days are past. Now a bath is news only when it takes place in the air or in other unusual circumstances.

The day may soon come when even sky bathing will not be news, when all the comforts of home, including soap and water and towels, will be brought to air travelers by obliging aerial bell-hops. American hotels have made "room and bath" almost synonymous with "room" for millions of travelers by train and boat and automobile, so it is not too much to expect "plane" to mean "plane with bath" before those same millions go in for air travel in a big way.—Nellig News.

WITH THE WAYNE CHURCHES

St. Paul's Lutheran Church

W. C. Heidenreich, Pastor
10:00 Sunday school.
11:00 Morning worship.
7:30 Luther League.

Miss Evelyn Helkes will report on the state and national Luther League conventions. Every Leaguer should hear this report.

Midland assembly opens August 5th at Fremont and will continue until August 11th. Many prominent speakers are on the program. The Nebraska Synod Women's Missionary society will hold its convention in connection with the assembly. Several members of the local society expect to attend.

The big Lutheran Rally will be held August 11th, no service will be held in this church on that day.

The pastor will preach at a mission festival in Winside next Sunday afternoon.

Will you show your loyalty to the church by being present at the services next Sunday?

Methodist Episcopal Church

William W. Whitman, Pastor
10:00 Sunday school session. Be sure to attend Sunday school this Sunday.

11:00 Morning worship. The sacrament of the Lord's Supper will be administered at this service. This will be the last service held in this church before the remodeling of the interior of the church is done. The church will be closed for the remainder of the month of August.

Our Fourth Quarterly Conference was held on Monday evening of this week with Dr. C. O. Gomon, district superintendent presiding. Reports of the various organizations of the church show a substantial gain in every department. Forty-three people have united with the church during the past year. The total cost of improvement of the church this year will exceed \$8,000.

First Baptist Church

10:00 Sunday school.
11:00 Half hour of special music by the choir and review of the Sunday school lesson, led by Prof. W. C. Lowrie.

6:45 Young peoples get-together meeting, at which time refreshments will be served. All young people of the church and others interested in the Young People work are urged to be present.

Mrs. F. H. Jones Comes Home After Long Illness

Mrs. F. H. Jones was able to come home from Sioux City last Friday evening, accompanied by Francis Jones, her son, who drove her home in his automobile. The many friends of Mrs. Jones were glad to learn of her complete recovery after her long illness in the Sioux City hospital, and that she is now feeling fine. Mrs. Jones left the hospital two weeks ago when she went to the home of her son, Francis.

Our New Solvent
Acclaimed By The Leaders

Those of long experience in the cleaning industry tell us that our cleaning solvent is the best ever produced. It cleans clothes better and puts the original newness in them--both woolens and silks.

Bring in your garments. Have them cleaned by this wonderful new solvent.

Miss Laura Humphrey, a graduate nurse of Norfolk, has been on special duty at the hospital.

SHERIFF'S SALE

By virtue of an Order of Sale, to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon a degree rendered therein at the March 1929 term thereof, in an action pending in said court wherein Frank F. Korff was plaintiff and Alvina M. Korff, Executrix of the Estate of Henry Korff, Deceased, et al were defendants, I will, on the 2nd day of September, 1929 at 10 o'clock a. m., at the door of the office of the Clerk of said Court, in the court house in Wayne in said county, sell to the highest bidder for cash, the following described real estate, to wit: Lot One (1) and the North forty (40) feet of Lot Two (2) all in Block Twelve (12) of the Original

Town of Wayne, Wayne County, Nebraska, to satisfy the aforesaid decree, the amount due thereon being \$2968.00 with interest at 10 per cent from April 15th, 1929, and costs and accruing costs.

Dated at Wayne, Nebraska this 30th day of July 1929.
A1-5t A. W. STEPHENS, Sheriff

SHERIFF'S SALE

By virtue of an Execution to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon Judgment in an action pending in said court wherein The Northwest Ready Roofing Company was plaintiff and Frank Ruth was defendant I will, on the 2nd day of September, 1929 at 10 o'clock a. m., at the door of the office of the Clerk of said Court, in the court house in Wayne, in said county, sell to the highest bidder for cash, the following described real estate, to wit: The interest of Frank Ruth in the east half of the Northeast quarter of Section Seven (7) Township Twenty-six (26) Range Four (4) East of the 6th P. M., Wayne County, Nebraska; to satisfy the aforesaid decree, the amount due thereon being \$148.15 with interest at 7 per cent from April 25th, 1929, and costs and accruing costs.

Dated at Wayne, Nebraska this 31st day of July 1929.
A1-5t A. W. STEPHENS, Sheriff.

NEWS

Used Car Sale

Last Saturday we opened our sale on the 31 used cars we had on hand. We were surprised to find the main comments were not on the special low prices we put on them, but on the exceptional condition we had them in, in preparation for this sale.

Saturday night will be the close of this sale. All cars are tagged plainly, showing cash, also term prices.

You are always welcome.

Baby Beef Club on Tour and Picnic Sunday

Dr. Wm. Hawkins, Club Leader, Conducts Membership Inspection.

Starting with the George McEachen farm Sunday morning, the members of the Wayne Baby Beef club with Dr. William Hawkins, their leader, made a tour of the farms of the members and inspected the calves being raised. The boys and girls of the club are raising 48 calves this year, most of which will be exhibited at the Wayne county fair. Many of the fathers of the members also participated in the tour.

The circuit of the farms to the west of town being completed by noon, the party held a picnic at Bressler park, and visited the farms to the east of Wayne Sunday afternoon.

Wayne Couple Are Wed in Sioux City Last Week

Alma Rehwinkel Becomes the Bride of Henry Victor.

Last Wednesday noon, July 24, Mr. Henry Victor and Miss Alma Rehwinkel, both Wayne young people, were wed at the Trinity Lutheran church in Sioux City, with Rev. Albert B. Schwartz officiating. The young people are making their home on the farm of the groom, which is six miles north of Wayne.

The groom is a young farmer of this vicinity, having lived here for six years. His parents live in Germany. The bride, the daughter of Mrs. Bertha Rehwinkel, of Wayne, has lived here since last November, when the Rehwindels came here from Missouri.

Winside Couple Wedded by Judge Cherry Friday

Obst-Kruger Nuptial Rites; Will Live at Winside.

Last Friday at 10 o'clock Mrs. Bessie Obst and Frank Kruger, both Winside farm people, were wedded by Judge J. M. Cherry at the county court house in Wayne. The bride was formerly Bessie Carpenter, and is the daughter of the late Frank Carpenter. The groom is the son of Herman Kruger, of Pilger.

The couple will make their home on the Frank Carpenter farm, where Mr. Kruger has been employed for the past five years.

PONCA TO HAVE MUNICIPAL PARK, ACCORDING TO PLANS

At a recent meeting of the Ponca city council, the purchase of a city park, comprising a quarter of a block, was authorized.

Col. Popoff.....Mr. Myron Brockway

Mariniska.....Miss Lyle Clayton

Kaitinka.....Miss Frieda Rowaldt

Soldiers.....Mr. Henry Gulliver and Mr. Ivor Note

Emerson Woman Hurt Here in Car Accident

Confined to Local Hospital for Several Days.

Rosalind Dorcee, of Emerson, had her leg quite badly cut last Saturday when the car in which she was riding with Steve Dorcee, her father, upset four miles north of Wayne. The probably too great a rate of speed, when rounding a corner at what was father was unhurt. The car upset.

Miss Dorcee was taken at once to the Wayne hospital where she was confined until Wednesday morning, when she had recovered enough so that she could return home.

Old Wayne Resident A Visitor Here Monday

A visitor at the Democrat office and parts about Wayne Monday was Burl Cunningham, of Bloomfield, who plans to celebrate his 78th birthday with his children this coming Sunday.

Mr. Cunningham was one of the earliest settlers here. He claims that there were but 13 houses in town when he arrived in the early eighties. He is still chipper for his age and was just returning from a trip about this state and South Dakota. "Crops are fine everywhere," says Mr. Cunningham.

Iowa Man Succumbs to Operation Wednesday

D. R. Jones, of Casey, Iowa, succumbed early Wednesday morning following a major operation at the local hospital on Monday. Mr. Jones was visiting at the home of cousins in Carroll when it was found necessary to submit to an operation. He was taken to Casey, Iowa, for burial Wednesday.

New Asst. Librarian at Wayne Teachers College

Miss Mildred Snyder, of Indianola, Illinois, has been elected to the position of assistant librarian at Wayne State Teachers college for the coming year. Miss Snyder is a graduate of the University of Illinois, where she received her B. S. degree, and has had one year of library training.

Neon Sign Installed at Felber Pharmacy

A new neon sign graces the front of the Felber pharmacy. It was installed last Saturday, and was purchased from the Neon Sign company, of Omaha. The neon signs, besides being very attractive, cost much less for upkeep than do these lit by electric lights.

Wayne Golfers Will Enter Norfolk Tourney

According to present expectations, a number of our Wayne golfers will enter the Norfolk Country club invitation tournament to be held on the Norfolk course August 11-14. The qualifying round will be Sunday, August 11. The championship flight will be open to the 32 low qualifiers.

Book Chat

David Crockett, backwoodsman, bear hunter, military hero, and congressman of the rip-roaring 1820s and 30s gave me a treat the other evening when I read his autobiography.

David had never read a newspaper in his life and hardly knew what the government was when first elected to the legislature from a backwoods district of Tennessee. He was greatly embarrassed when somebody mentioned the judiciary in his presence, quickly leaving the room, for he was afraid somebody would ask him what the judiciary was. He said in his autobiography, "I don't indeed believe I had ever before heard that there was such a thing in all nature."

But a little thing like a want of learning did not keep David Crockett from being very independent when he later went down to Washington as a congressman. Andrew Jackson was president and ruled Washington with a mighty hand, and Crockett did not like him, for Jackson had ordered him shot during an Indian war.

Crockett had been serving under Jackson as a minor officer. His detachment had enlisted for three months. After they had served six they decided that they should go home for new supplies, and perhaps a rest. Jackson forbade them to go. When he learned that they had disregarded his command he detailed a company of militia to guard a bridge they had to cross and to shoot them down. But Crockett and his comrades did not quail, and the only reason they were not shot was that the militia did not fire. Jackson declared, "we were the damndest volunteers he had ever seen in his life; that we would volunteer to go out and fight, and then at our pleasure would volunteer and go home again, in spite of the devil."

And Crockett was just as insubordinate to Jackson the political boss as he had been to Jackson the general. He expressed himself in his autobiography thus, "Look at my neck, you will not find there any collar, with the engraving,

MY DOG

Andrew Jackson
But you will find me standing up to my rack, as the people's faithful representative."

He considered Jackson's Indian bill especially pernicious, opposing it against the advice of his friends, for he had been elected on the Jackson ticket. When Jackson destroyed the national bank, Crockett felt it his one duty to the people to see that all the "deposits" were put back again.

He reaped the results of his independence when he went home, for the people of his district were Jackson men. He says, "I was hunted down like a wild virginit, and in this

hunt every little newspaper in the district, and every little pinhook lawyer was engaged." But after being politically eclipsed for a term, when he spent his time hunting bears he returned to Washington in triumph, still refusing to be Andrew Jackson's "dog."

Crockett is just as entertaining in the story of his love affairs. He had a number, which he relates with the utmost frankness.

Of his first love he says, "I reckon no poor devil in the world was ever cursed with such hard love as mine has always been, when it came on me. I soon found myself head over heels in love with this girl, whose name the public could make no use of, but I was afraid to begin, for when I would think of saying anything to her, my heart would begin to flutter like a duck in a puddle; and if I tried to outdo it and speak, would get right smack up in my throat and choke me like a cold potato. It bore on my mind in this way, till at last I concluded I must die if I didn't broach the subject; and so I determined to begin and hang on trying to speak, till my heart would get out of my throat one way or t'other. And so one day at it I went, and after several trials I could say a little."

He found the girl not averse to him, but as she was a Quaker she was honest and told him that she was engaged to another. "This news was worse to me than war, pestilence, or famine; but still I knew I could not help myself. I saw mighty quick my cake was dough, and I tried to cool off as fast as possible; but I had scarcely pipes enough, as my love was so hot as might nigh to burst my boilers."

Our Pender poet has written another poem on life, which we take from the Omaha World-Herald.

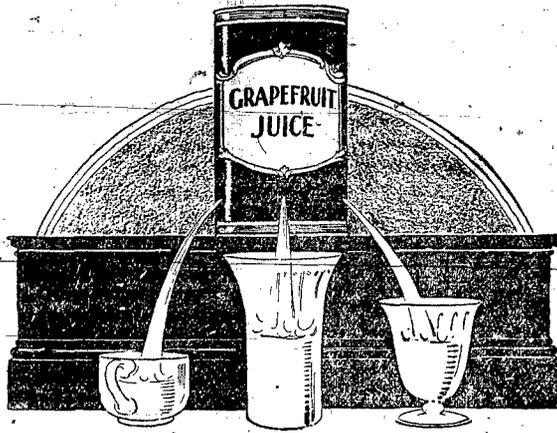

The Dentist's Chair

by Agnes Macklin
Life is like a dentist's chair,
We came against our will;
There's naught to do but grip the chair
And sit and take the drill.

We come because we have to,
We stay because we must;
We fret and cut our wisdom teeth
And shed them in disgust.

And every day is the same grind,
There's soreness in compression,
And such an awful lot depends
Upon a good impression.

Frosty Summer Drinks

FRUIT drinks have now become a regular and most welcome part of the summer. One of the most delectable ingredients of these frosty concoctions is grapefruit juice put up in cans which is here to stay because it's so good. One proof of this permanence is that a company in Florida which already operates two large grapefruit canneries at Eagle Lake and Lake Alfred is now planning to build the largest grapefruit cannery in the world at Winter Haven, but the best way to convince yourself of it is to try out some of the following:

Fruit Combinations

Havana Special: Mix one ten or eleven-ounce can of grapefruit with one cup of pineapple syrup, and add one-fourth cup sugar and one cup

water which have been boiled together and then cooled. Chill, add a bottle of white rock, and serve ice cold in punch glasses. This recipe will make ten glasses.

Citric Delight: Boil one-fourth cup sugar and one cup water five minutes, cool and add one ten- or eleven-ounce can of grapefruit juice, one cup orange juice, one-fourth cup lemon juice and four cups of cold water (charged if desired). This will fill fifteen punch glasses.

Cherry Rickey: Boil one-fourth cup sugar and one cup water, cool and add one ten- or eleven-ounce can of grapefruit juice, the juice from a No. 2 can of sour pitted cherries and one-fourth cup Maraschino cherry juice. Chill, add a bottle of white rock and serve ice cold. Twelve punch glasses.

THE GREEN AND THE GOLD

Tourists passing through Nebraska these days are getting a glimpse of a great state at its best. Neither the beauty of western mountains, nor the inviting vista of eastern and northern lake regions, can attract the eye more than does the brilliant, yet harmonious panorama of color now evident here on all sides.

Plats of luxuriant, green corn, and fields of gleaming amber grain, the latter mostly in the shock, but some still waving billowy seas of variegated color, combine to give this very northeastern Nebraska topography upon which we live, a glorious garb of beauty an enchantment, one that visibly approaches grandeur.

Truly, 'tis a scene to inspire.—
Randolph Times-Enterprise.

Every Lass Loves a Uniform

To brighten gold braid, give it a cake, put it in whole into a steamer and steam for 20 minutes; it will then be thoroughly warm. Split in two, toast and butter well.—Brooklyn Daily Times.

No Menopollist

The difference between a co-ed and a traffic cop is that you get a chance to slip in a word or two to the traffic cop.—Notre Dame Juggler.

FIRST COMES FOOD

THE national food bill of the United States was recently estimated at \$23,000,000,000. The food industry as a whole thus exceeds by many billions the textile, steel and automotive industries which our financial manuals list as our largest.

All this was pointed out by Colby M. Chester, Jr., president of the Postum Company, in a recent speech before the American Newspaper Publishers' Association, and he went on to discuss the effect food had exerted on the world's history. "Because of it," he said, "armies have surrendered and cities have been made captive. International boundaries have continually been altered and nations made subject peoples. It was the seed on which red revolution thrived in France and Russia. It is safe to say it forced Lee's surrender at Appomattox, and there is every reason to believe that the World War would not have ended in 1918 if the Central Powers had been well nourished and well fed.

In War and Peace

"China still continues to be a backward nation because dread famine wipes out millions of its people periodically. Food has had its place equally on the constructive side. Joseph averted famine in ancient Egypt by hoarding a surplus in the productive years, making him most favored of the King. Food brought peace and order to the world after the Great War, and Belgium, Poland and Southern Europe threatened with chaos were saved from anarchy and ruin by food."

Have you ever stopped to think that the population of this great country consumes 360,000,000 meals every day in the year? So important is this fact economically that dietary studies of the distribution of expenditure for food have been made by the United States Bureau of Labor Statistics, the United States Department of Agriculture and the New York Association for Improving the Condition of the Poor.

Where Your Money Goes

From these studies it can be estimated that of the money devoted to the purchase of food the average American family spends from 30 to 40 per cent for meats and fish (including poultry and shell fish when used), about 5 or 6 per cent for eggs, about 7 to 10 per cent for butter and other fats, from 10 to 20 per cent for bread and other cereal and bakery products, 3 to 7 per cent for sugar and other sweets, 7 to 10 per cent for vegetables, 2 to 8 per cent for fruit, and less than 2 per cent for cheese and nuts.

An amazing fact is that, at the most moderate estimate, more than 50 per cent of the foods enumerated in this combined budget may be obtained in cans. These foods include meat and fish, milk, butter, some cereal and bakery products, many sweets, practically the whole range of vegetables and fruits and many varieties of cheese and nuts. Who shall say that the commercial canner who makes available in safe, sanitary and palatable form and at

moderate prices more than 50 per cent of the kinds of foods the public eats is not a modern Joseph of a most practical kind?

Far from Saturation Point

The number of meals consumed in this country daily multiplied by the number of days in the year makes the astonishing total of 131,400,000 meals. Yet the commercial canners of the United States are now putting up only about 9,000,000,000 cans of processed food a year, or only one can for every 14.6 meals, or sufficient meals for nearly five days. If you will call on your own experience at home and in restaurants, you will realize that you eat more than one can of food every six days. The answer to this paradox is partly home canning, and partly the fact that there are still many people in this country who are not consuming their possible proportion of canned foods.

The men in the canning industry are conservative, but they continue to build year after year huge plants for making cans and big new canneries. They are saying nothing and saving wood, but it is obvious from the above figures that the industry can and will continue to grow.

The food products which are canned in any great quantities now number approximately 240, but new foods, combinations and ready prepared dishes are constantly being added to this total, and each one holds the possibility of growing into a respectable sized industry of its own.

estate of John W. Morris, deceased.
On reading the petition of Ellis Morris, administrator praying a final settlement and allowance of his account filed in this Court on the 16th day of July 1929, and for distribution of the residue of said estate. It is hereby ordered that you and all persons interested in said matter may, and do, appear at the County Court to be held in and for said county, on the 2nd day of August A. D., 1929, at 10 o'clock A. M., to show cause, if

any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition and the hearing thereof be given to all persons interested in said matter by publishing a copy of this order in the Nebraska Democrat, a weekly newspaper printed in said county, three successive weeks prior to said day of hearing.
(seal) J. M. CHERRY,
County Judge.

COMMISSIONER PROCEEDINGS

Wayne, Nebraska, July 23rd, 1929.
Board met as per adjournment. All members present. Minutes of meetings held July 16th, 17th and 18th, 1929, read and approved. On motion the depositary bond of the Standard Accident Insurance Co., in the sum of \$5000.00 filed May 7th, 1929, was cancelled as of June 17, 1929. Report of L. W. Ellis, Clerk of District Court, showing amount of fees earned by him for the quarter ending June 30th, 1929, amounted to the sum of \$359.75, and the payment of the same into the county treasury as shown by receipt attached, was examined and on motion duly approved. The following claims are on motion audited and allowed and warrants ordered drawn on the respective funds as herein shown. Warrants to be available and ready for delivery on August 3rd, 1929.

Sodium Arsenate Quite Efficient

Poison Has Proved to Be Satisfactory for Grass-hopper Bait.

Paris green and white arsenic have long been used as the standard poisoning agents in grasshopper baits. As a consequence most farmers have become familiar with these materials. They know that desirable results can usually be obtained. That being the case, most farmers are not prone to make a change to other materials. They always ask the question, "Why change to sodium arsenic when I can get results with paris green or white arsenic?"

Paris Green Costly. Paris green, besides being hard to mix, is entirely too expensive for economical poisoning, therefore should be eliminated. White arsenic is cheap enough, but due to the care required to get the poison evenly distributed in the bait, it is often difficult for the field worker to obtain a perfect mixture. When the mixture is imperfect, erratic results are sure to be had. The possibilities of arsenical poisoning are also greater when one works with white arsenic extensively.

Its Advantages. Sodium arsenate is free from the above criticisms, and has proved to be a most satisfactory and efficient poison. It has the following advantages:

1. It is cheap, reducing the cost of poisoning to a minimum.
2. It is easy to mix. The chances of an imperfect mixture are reduced.
3. It is soluble. Therefore every flake of bran moistened is poisoned, doing away with possible erratic results.
4. This material is poison and must not be taken internally, but due to its liquid state, there is less possibility of being poisoned with it than with white arsenic where large quantities of dust can be breathed.
5. It is easy to measure and handle.
6. It is efficient. Experiments show it to be entirely effective when properly applied.—George S. Langford, office of Colorado State Entomologist.

Grind With Electricity Is Cheapest Operation

Experiments at Iowa State college lead to the conclusion that the farmer who needs only 100 or 200 bushels ground annually should have it done at a custom mill if within reasonable hauling distance. Where more than 400 bushels are needed per year, the farmer can well afford to own his own equipment and do the grinding work on his farm. Home grinding costs about one-half that of custom grinding when more than 700 bushels are ground per year. A small electric grinder will operate from 25 to 35 per cent cheaper than large equipment, especially when arranged for automatic or semi-automatic operation. It is cheaper to operate, a smaller transformer can be used with much decreased core loss, and it gives an improved load factor and better diversified load.

Cattle Grub Expensive to Many Cattle Owners

It costs in the neighborhood of \$50,000,000 a year for cattle owners, dairymen, feeders, butchers, and tanners to support the cattle grub, yet this pest can be destroyed. Either the old method of hand extraction may be used, or the newer methods developed by the United States Department of Agriculture. The department advises the application of Derris as a wash, ointment, or powder, pyrethrum ointment, fine tobacco powder or nicotine dust, or the injection of benzol or carbon tetrachloride. A concentrated drive on the cattle grub is necessary to eradicate it from a locality. The pest is becoming more serious, says the department, owing to the spread of a second species of grub, known as the northern, or European grub.

Staking and Pruning Is Essential for Tomatoes

Staking and pruning truck crop tomatoes is a common practice. Advantages claimed for staking and pruning are greater uniformity and better average size.

Stakes are commonly set when the plants are from 12 to 15 inches tall and should stand three to four feet above the ground. Plants should be tied to the stakes with soft twine or rags loosely and as the plant develops additional ties should be made.

The amount of pruning varies with the desire of the grower. Many believe that heavy pruning reduces yields needlessly and experiments tend to bear this out.

Protection Is Needed for Parts of Machines

Cultivator shanks, tractor drawbars, power take-off shafts, and similar devices or parts of machines should be breakpin protected, as a rule. Spring release hinges are replacing breakpins on tractor drawbars to some extent, while safety clutches form a convenient and practical means of protection for power take-off and other revolving drive or driven shafts. But whatever device is used, see that it is always ready—like a fuse in an electric circuit—to break, slip or trip when an obstruction is suddenly encountered.

House of the Future, as Architect Sees It

The house of the future may be seen as a building designed without windows except perhaps a few small ones for the purpose of observing the visitor at the door or determining the state of the weather.

The large wall space will be utilized by the architect as a means of expressing a new type of architectural beauty. Within, we shall have all the comforts we now possess plus others undreamed of.

There will be illumination containing a healthful percentage of ultraviolet light, and there will be a ventilating system supplying fresh, warmed, or cooled air to all parts of the home. Quiet will prevail, no matter how noisy the street may be.

The smoky atmosphere of our cities does immense damage to textiles, furniture and all the trimmings and trappings of the home. The air circulated by the ventilating system can just as easily and readily be made free from dust and corrosion and properly humidified at the same time. The home will become free of the accidental variations of the weather.—Albert Parsons Sachs.

Book Collection Shows Printer's Art at Best

Among the countless millions of books on the shelves of the library at the British museum, are about 200 volumes considered the acme of the printer's art. They form an exhibition of books illustrating the most beautiful and expensive British and foreign printing during the last ten years. Centuries-old Chinese manuscripts and illuminated books from the monasteries of medieval Europe are exhibited in the same room as these masterpieces of post-war printing which attracted the attention of printers whose names are famous among book collectors in the two hemispheres. Books from the leading presses of England, Scotland, the United States, France, Germany, Holland, Spain, Italy, Poland and Belgium are included in the collection. They have all been printed within the last ten years, and experts are unanimous that the art of the printer has greatly improved since the opening of the Twentieth century.

In the Same Boat

Two friends met one day and began to discuss the various events which had taken place in their lives since last they met—a year ago.

"I've not done anything much at my job," said one. "I took a job as groom, and I've not had a minute's peace since!—on the go, day and night, and ordered about."

"That's just how I've been treated!" broke in the other.

"You!" said the first, surprised. "How can you be putting up with my sort of life?—you never took on as a groom!"

"I did," said the other, gloomily. "I took on as a bridegroom!"

Freak of Striking Clock

The bell on the house of parliament in London may be heard for a distance of four miles and within that radius there are points where it is possible to hear the clock strike 22, through the combined utilization of the wireless and the sound waves. This is at eleven o'clock each day when the time signals are sent out from Daventry. There is an interval of 4 1/2 seconds between the strikes and at a distance of four miles, five or six strokes are heard by wireless before the first of the sound waves and then five or six afterwards so that under these conditions it is possible to hear the bell, "Big Ben," give off 22 strokes.

Mysterious Crows

Crows which talk have been found near Weenen in Natal. Their remarks are libelous. They say to the natives of the district: "There will be no rain; you have killed your chief." They have started a first class scandal about the death of Muzucitawayo, once chief of the Mennu, who died of dropsy. The natives are flocking from all the surrounding districts to hear them. The key to the mystery, suggests a Natal paper, is the fact that the crows only speak when a certain head boy is present. There is nothing to prove that they have been corrupted by a Maritzburg parrot.

Bokhara Tea Drinkers

The manner of drinking tea varies from country to country. In Bokhara every man carries a small bag of tea about with him and, when assailed by thirst, hunts up the nearest tea booth and has the boothkeeper brew a pot of tea. The Bokhara breakfast beverage is Schirechaj—tea in which bread is soaked and which is flavored with milk, cream or mutton fat. During the day the drinker takes tea with cakes of flour and mutton suet. After drinking he eats the tea leaves, which are considered a great delicacy.

Cruel

Johnson never dared ask anyone to his home. His wife was unpopular with visitors.

"Aren't you going to ask your friend Tompkins and his fiancée to our home?" she asked one evening.

"Not much!" replied the husband, who preferred to entertain his friends at restaurants.

"You dislike him, don't you?" was Mrs. Johnson's next query.

"A little," answered the husband, "but not enough for that."

Electric Lamps Lure

Moths to Their Death

Finding that from 30 to 50 per cent of the tomato crops in a certain district were ruined by grubs at the center of the fruit, a professor of the Entomological Institute in Switzerland had the happy thought of seeing whether the moths laying the eggs from which these larvae were hatched could be destroyed by electricity.

He installed eight electric lamps, varying from 80 to 200 watts, about three feet from the ground. The lamps were furnished with reflectors directed toward the soil, and underneath the lamps were placed basins filled with water on the top of which was poured a little petrol.

The plan proved highly successful. The moths, attracted and bewildered by the lights, were drowned by thousands in the bowls beneath the lamps, and as a result 80 acres yielded perfect fruit, while neighboring lots of land not so protected lost from 30 to 60 per cent of their crops.

The same method has been tried with equal success in connection with melon culture, and the fruit has been free from worms and graded as perfect.

Picture Depicts the First Forms of Life

Scientists generally agree that the first forms of life originated in water and an effort to illustrate this has been made in an oil painting by Charles R. Knight of New York, which has been placed in the hall of historical geology of the Field Museum of Natural History. The painting is a present by a patron of the institution. The artist gave a great deal of time to scientific investigation before making the painting. In it he has portrayed these earliest known forms of life as appearing in a group of pools. Within the waters of these pools algae of a blue-green hue are shown in such quantities as to tint the liquid with their colors. They also have built up a series of stony basins. In other pools cushion-shaped forms of pink algae are shown. Other portions of the deposits are seen to be tinged brown or orange by algae of the colors. The adjoining rocks are represented as being bare and naked, no other life being in existence at this time. The rocks are mostly of black lava, but some areas of a reddish color are shown to indicate the great iron-bearing deposits which were also formed at this time.

Fair Warning

When Viola Lawrence, Goldwin film editor, was first learning to drive her nifty coupe, she hid herself to the great open roads around Beverly. Crawling up one of these, she was horrified to see a turtle directly in her path. It was a hundred-foot boulevard, but VI didn't want to take any chances so she stopped the car, picked up the turtle and carried it across the road.

Next day, in about the same place, she saw the turtle again crossing the road, but in the opposite direction. "Turtle," she cried, feeling more confident of her steering ability, "you take your own chances, I'm not getting out today."—Los Angeles Times.

Solar System's Movement

The solar system is traveling at the rate of about 1,000,000 miles a day in the general direction of the constellation Hercules, or, more exactly, the boundary between Hercules and Lyra. The stars in these constellations are not all at the same distance from the solar system, and no fixed point can be set at which the sun will arrive at a specified time. Observations have not been continued over a long enough period to determine whether the sun is moving through space in a straight line or along a curved line.

Diet for Cats

Milk is not the best food for grown cats. It takes a great quantity to nourish them, and this distends the stomach, causes various sicknesses, and is wholly unnatural. The diet of a milk-fed cat should not be instantly changed to a meat diet. A sudden change of this sort may cause fits, because a cat fed on milk, gruel and vegetables probably has worms, and these rebel at a meat diet. A change of diet should be gradual, and follow a thorough treatment for worms. It is not the meat that causes fits, but worms.

Underground Wonders

The quantity of water underground beneath the crust of the earth's surface is nearly one-third the total volume of the oceanic waters, says a scientist who has just concluded investigations of buried rivers and caves.

The earth's ground water has been accumulating for countless ages, and extends to great depths, perhaps six miles, and percolates slowly through the porous and jointed rocks, to form a great system of underground drainage.

Matters of Weight

Elderly persons live longer, according to some authorities, if they are thin. It is believed that young people will do better if they are slightly overweight. This gives a reserve of internal food to draw on for extreme exertions which are more frequent in the young. National health would benefit if young people were willing to be plump and old people, determined to be thin.

Nature Provided for "Cold Storage" Pussy

One day the local carpenter, who had taken a job in the city, came to see me. He had under his arm one of the oddest little kittens I've ever seen. Apparently a long-haired white, it didn't look like a Persian. It didn't look like anything I'd ever seen before. More than anything else, it looked like a polar bear's cub.

"What kind of a cat is this?" I asked him.

"This here is a cold storage cat." "A what?" I cried, thinking of frozen eggs and defunct chicken. Cold storage was in its somewhat sickly infancy then.

"A year or so ago," he explained, "the cold storage warehouse I'm working for took in a lot of cats to kill rats. What with the damp and 'the dark an' the cold, only a few of 'em lived, but the ones that did grew longer and longer hair, and this kitten is the fourth generation. I've got seven of 'em."

I watched the various generations of those kittens around the neighborhood, and was amused to see them revert to common short-haired.—Mara Evens in the Saturday Evening Post.

First Book on Fishing Credited to a Woman

The first book that was published about fishing in England was written by the prioress of St. Alban's about the time the Cabots were busy making their American discoveries, and the fundamentals of angling have changed but very little since outlined by the authoress, Thomas W. Jull, champion fly-caster of Ontario, said recently. According to "Fishing Julie," as the authoress is commonly known, "the sport is to be followed for its own sake and not for mercenary gain." Of the thirteen files described in her book, twelve are in common use today, Mr. Jull said.

Walton's Compleat Angler, "the only classic that has ever been written on any sport," was written in 1663. An original copy, at the time of publication was worth about 17 pence and now realizes a price around \$2,500.

Saving the Sequoias

In order to protect the last of the "Big Trees" the government has established two national parks, Sequoia and General Grant, containing some of the most interesting groves now left. In Sequoia National park alone there are scores of sequoia trees 20 to 30 feet in diameter, with a few still larger, and thousands with a diameter of more than ten feet. This park contains the General Sherman tree, considered the largest of them all. General Grant park, an area of only four square miles, contains a magnificent grove of sequoias in addition to the one for which it is named. There are also three groves of the "Big Trees" in the Yosemite National park. One of them contains the famous Wawona tree, through which a motor road runs.

Uses of Education

Bees cull their several sweets from this flower and that blossom, here and there where they find them, but themselves afterwards make the honey, which is all and purely their own, and no more thyme and marjoram; so the several fragments he borrows from others, he will transform and shuffle together to compile a work that shall be absolutely his own; that is to say, his judgment; his instruction, labor, and study tend to nothing else but to form that. He is not obliged to discover whence he got the materials that have assisted him, but only to produce what he has himself done with them.—Montaigne in "Of Education."

That Wouldn't Do

Weary William was on the point of securing a new job—or, rather, his wife had secured it—and Weary William was in imminent danger of settling down to it.

His account of the past few months, spent in drawing unemployment benefits, had not impressed his prospective employer, but the latter decided to give him a chance.

"Very well, you can have the job," William was told, "and you'll be paid just what you're worth."

"What I'm worth, gov-nor?" he repeated. "That won't do at all! The wife told me to get a livin' wage!"

All the Difference

The clock had just struck twelve when Henpeck inserted his latchkey and let himself into his suburban villa. His wife was ready for him.

"Where have you been, I'd like to know?" she snapped.

"I—er—er—" began Henpeck hesitatingly, when he was interrupted.

"Yes, go on. I suppose you'll tell me you've been to see a sick friend—holding his hand all the evening?"

"Oh, no, my dear," replied the erring husband sadly. "If I'd been holding his hand, I would have made some money."—Pittsburgh Sun Telegraph.

Home Manufacture

A radio-loving family has been greatly annoyed lately by a man in the neighborhood who has an electric work shop, saw, lathe and so on. He was running it full-blast one evening when one of the family, giving up the radio in despair, complained: "I wonder what on earth he's making." Then up spoke five-year-old Bobby. "I know," he asserted, "he's making static!"

Age Not Determined by Number of Years Lived

The following bit of philosophy, written by a contributor who signs it "Author Unknown," has been received by the Detroit Free Press:

"Youth is not a time of life—it is a state of mind. It is a temper of the will, a quality of the imagination, a vigor of the emotions. It is a freshness of the deep springs of life. Youth means a predominance of courage over timidity, of the appetite of adventure over love of ease. This often exists in a boy of twenty. Nobody grows old by merely living a number of years. People grow old by deserting their ideals.

"Whether seventy or sixteen, there is in every being's heart the love of wonder, the amazement at the stars and the starlike things and thoughts, the undaunted challenge of events, the unflinching childlike appetite for what next, and the joy and the game of life. You are as young as your faith, as old as your doubt; as young as your self-confidence, as old as your fear; as young as your hope, as old as your despair. In the central place of your heart there is a wireless station. As long as it receives messages of beauty, hope, cheer, grandeur, courage and power from the earth, from men, and from the infinite, so long are you young."

Black Ox Always the Symbol of Misfortune

The black ox symbolizes old age, ill luck, adversity, or trouble in general, according to an article in the Pathfinder Magazine. "The black ox has trod on his foot," is a proverbial expression recorded already in 1540 by John Heywood. It means that one knows the meaning of sorrow and misfortune, such as having been visited by death.

The phrase alludes to the black cattle sacrificed by the ancient pagans to the infernal deities, especially to Pluto, supreme judge and lord of the underworld. White cattle were sacrificed to Jupiter.

At Rome the altar on which the black oxen were sacrificed was 20 feet below the level of the ground and was never exposed to public view except when the sacrifices were being made. Among the Arabs the black camel is the symbol of murder and death by violence.

Defending Thirteen

One of the arguments against reforming the calendar is the coincidence that the thirteenth of each of the thirteen months of the proposed year would fall on a Friday. One of its defenders answered this opposition by saying that the United States "grew great on thirteen" and, incidentally, on Friday.

America was discovered on a Friday, the Pilgrims landed on Friday, there were thirteen American colonies, thirteen stripes and stars on the American flag, and thirteen feathers on the American eagle's tail. The motto, E Pluribus Unum, contains thirteen letters.

Preserve Historic Spot

Maine Daughters of the American Revolution have voted that Pemaquid is the most historic spot in the Pine Tree state. An act of the Maine legislature made a state park of the area surrounding the fort. In all there have been four forts at Pemaquid; the blockhouse called Fort Pemaquid, erected in 1630; Fort Charles, 1667; Fort William Henry, 1692, and Fort Frederick, 1720. It was at Pemaquid that English people are said to have landed 13 years earlier than the Pilgrims at Plymouth. Pemaquid is a part of the old town of Bristol, which was named for Bristol, England.

Age Brings Penalties

The penalties of old age, it is evident, are not confined to those which Byron enumerated—gout and the stone. Loneliness must also be considered, and when we call the roll of the friends of our youth and there is not a whisper in reply, then, perhaps, we shall feel the full burden of our years. Sir Oliver Lodge stated that science had made possible the extension of life to a hundred years. If such a gift is universally bestowed, it will be well. But there are few of us, perhaps, who would accept it as a particular favor.—Exchange.

Famous Rum Quay

Rum quay, the most jealously guarded spot in the London West India docks, is inclosed by an immense glass roof that originally formed a covered way to the Crystal palace when that building was erected in Hyde park in 1851, to house the great exhibition. Here, isolated behind iron doors, puncheons of rum, each holding 103 gallons of spirit many degrees overproof, are laid before being rolled into the vaults which extend to the water's edge, and afford accommodation for 40,000 of these gigantic casks.

Camp Meetings Protected

Back in 1838 the General court of Massachusetts gave protection to camp meetings by creating what was known as "The camp meeting mile." Within that distance of "a field meeting for religious purposes," it was decreed to be unlawful to hawk or peddle goods, to sell goods in tent or other structure, and to take care of horses for pay, unless the officers of the religious meeting gave their consent.—Detroit News.

Soy Beans Win Fame for Illinois

Popularity of Crop Brings Inquiries From Eight Different States.

What baked beans did for Boston, soy beans are doing for Illinois—making her famous, says J. C. Hackleman, crops extension specialist of the college of agriculture, University of Illinois. Because of the widespread reputation of Illinois as a soy bean producing center, Hackleman recently received within the short space of a few days inquiries regarding soy bean seed or the commercial utilization of the crop from eight states and one foreign country.

Brighter Day for Beans. Incidentally he considers the letters as additional evidence that an even brighter day is dawning for soy beans. What popularity the crop already has gained in this state is indicated by the fact that Illinois last year produced slightly more than 3,000,000 bushels of soy beans, which was more than any other two states and about a third of the production for the entire country. The recent inquiries which the college has received about the crop came from Montana, Nebraska, Indiana, Missouri, Wisconsin, Ohio, Arkansas, Texas and Porto Rico.

Riding high on the wave of soy bean popularity now sweeping Illinois is the Illini variety, a new high yielder developed by plant breeders in the experiment station of the University of Illinois College of Agriculture. This past year it again proved superior to all other varieties grown at the experiment station and produced the highest yield ever recorded for a soy bean variety on the station plots. This was 42.5 bushels an acre in a rotation grown on rich soil. In a rotation grown on rather light soil it made 30.8 bushels an acre.

Seed Distributed. Seed from the new variety is gradually being distributed over the state, farmers in 31 counties growing it this past year. Reports from these farmers indicated that the new variety averaged 25 bushels an acre, or about five bushels an acre more than the average for all other varieties. Superiority of the Illini variety as a seed producer is especially marked on the more fertile soils of the central and north-central portions of the state.

Field Stones Useful in Walls and Footings

Concrete foundation walls and footings can be cheapened somewhat with no injury to the quality of the concrete by filling in to some extent with hard, clean, field stones. This also offers a means of disposing profitably of what otherwise is more or less of a nuisance.

The stones should not be piled in the forms and the concrete worked down among them, as is sometimes done; but a layer of concrete should be put in the forms, then stones dropped in so that they do not touch the forms or each other. Then another layer of concrete and another layer of stones, and so on. The stones should be thoroughly water soaked an hour or so before they are to be used.

Larkspur Poisoning Is Cause of Large Losses

Losses of cattle from larkspur poisoning, which are heavy each year on western ranges, and occur to a lesser extent in the East, may be largely prevented by keeping cattle away from poison areas until the plant has matured, says the United States Department of Agriculture. Not until the plants have passed the flowering period and are in seed are larkspur ranges safe for cattle. Many cattlemen in the West keep cattle away from infested areas by riders or by the use of "drift" fences. Larkspur can be destroyed where it grows in masses by grubbing, including from six to eight inches of the root.

Agricultural Hints

Plans make the money go farther on the farm and in the home.

Too many silos stand empty the year round. They ought to be filled or torn down.

Some folks use weed-killing preparations for eradicating weeds in walks and driveways.

Red clover, if quite ripe, may be successfully put in the mow the same day it is cut provided, of course, there is a bright sun and a free movement of air.

The pocket gopher and ground squirrel will bother garden crops, such as cabbage and tomatoes. Ordinary moles will also cause some damage to these crops.

Vegetables that are not good when they leave the field are never any better. It does not pay to put poor vegetables on the market, for they lower the price of the whole shipment.

When blasting stumps be careful of limb-fires. Instead of risking life and limb by immediate investigation, look at the charge the next day. The electric method of firing is the safest and surest.

SOCIETY and Club

Judson Lawn Party.

Over 125 guests attended the party held at the R. B. Judson home last Thursday afternoon, on a lawn festive with hotchkocks, golden glow and tiger lilies, and the many bouquets of cut flowers in the pastel shades. The pastel shade idea was carried out in the table covers and napkins. The guests were received under a canopy made of asparagus ferns.

Hostesses were Mesdames R. B. Judson, W. P. Canning, W. C. Coryell, L. W. Ellis, L. E. McClure, F. S. Morgan, C. A. Orr, M. L. Ringer and L. W. Vath.

A 6 o'clock two-course supper was served. The ice cream and cake carried out the pastel shades, with petit four decorations in varied colors and the garden flower designs. The ten girls who served were Mrs. Clarence Kay, Jane Von Segger, Margaret Fanske, Katherine Kemp, Faunell Beckenhauer, Mary Jane Morgan, Rhea Schmielescamp, Evelyn Felber, and Pauline and Doris Judson. Miss Lila Gardner served water.

There were 28 tables of bridge, with five prizes awarded. Mrs. Sherwood Wheaton, of Boise, Idaho, won the all-cut prize. The two high prizes were won by Mrs. Paul Siman and Mrs. B. S. Blair. The low prizes were by Mrs. Henry Bush, Sr., and Mrs. Ellen Armstrong.

Out of town guests were Mrs. Sherwood Wheaton, of Boise, Idaho, Mrs. A. L. Tucker, of Los Angeles, California, Mrs. LeRoy Ley, of Long Beach, California, and Mrs. Jack Beatty, Charlotte, North Carolina.

Country Club Social.

There were 11 tables of bridge at the Country Club social Tuesday afternoon, with four out-of-town guests, Buelah Larson, of Sarabault, Minnesota, Mrs. Harris, of Sioux City, Mrs. P. W. Huntmer, of Brookings, South Dakota, and Mrs. Gurney Benschhof, of Winside. Ten children were present, under the supervision of Mary Jane Morgan and Gwendolyn Mulvey.

The committee for next Tuesday are Mrs. E. W. Huse, chairman, and Mesdames Lloyd Hanson, J. T. Bressler, Jr., C. W. Brown, Paul Mines, J. Q. Owen, H. A. Welch, and James Miller.

Shower for Miss Downing.

At the home of Mrs. William Watson, Mesdames Watson, G. A. Wade, O. B. Haas and James Renick gave a miscellaneous shower for Miss Edith Downing, whose marriage to Milton Childs, of Osmond, has been announced for this month, last Thursday. About 25 guests were present. Decorations consisted of garden flowers.

Miss Downing received a number of fine gifts, presented to her in a clothes hamper by Ned Wade and Bobbie Haas.

Coterie Club.

The Coterie club gave a picnic at the Country Club Friday evening in honor of Mrs. LeRoy Ley, of Long Beach, who is a guest at the Rollie Ley home, and Mrs. Sherwood Wheaton, of Boise, Idaho, a guest of the C. A. Chaces. Bridge was the diversion, with Mrs. LeRoy Ley receiving the guest prize, and Mrs. Carroll Orr the prize for high score.

St. Paul's Lutheran Aid.

St. Paul's Lutheran Aid met last Thursday afternoon at the church, with Mesdames Knoll and Heftl as hostesses. It was decided to hold a church social Saturday evening on the lawn of Mrs. Alvin Korff.

The next meeting will be a rally day with a covered dish luncheon, held at the church the second Thursday in August.

Winside News

Mr. and Mrs. H. R. Moss, son Ralph and Mr. L. W. Lowry were dinner guests Sunday of Mr. and Mrs. Glenn Woods, at Hoskins.

Mr. and Mrs. Jack Reinbrecht and daughter Maryanna and Mr. and Mrs. Ed Lindbergh visited the airplane field at Norfolk, Sunday evening.

Mrs. G. C. Francis left Monday evening for Rapid City, South Dakota, to visit her brother, Ed Miller.

Mr. and Mrs. Robert Wylie, Lee Minkler, and Raymond Wylie visited Mr. and Mrs. Fred Minkler at Tilden, Sunday.

Mrs. Harold Andersen was a visitor in the Roy Davis home Thursday afternoon.

Mr. and Mrs. Jessie Witte and daughter Theo, attended the Granada theatre in Norfolk, Sunday evening.

Miss Louise and Alma Lautenbough went to Hubbard, Monday afternoon to visit in the home of their uncle, Henry Sundt until Thursday.

Wm. McKinney and Miss Dorothy Rew attended the talkies at Norfolk, Sunday evening.

Miss Norma Wolf is a guest this week in the home of her uncle, Alfred Sydow.

Mrs. C. E. Hansen came home Friday, from Randolph, where she has been caring for her mother, Mrs. Wm. Bowles, who is confined to her bed with gall trouble. Miss Carrie Hansen went to Randolph Sunday to stay two weeks with her grandmother.

Mr. and Mrs. Harold Quinn of Wayne, were Sunday dinner guests in the C. E. Benschhof home.

W. I. Lowery was in Hoskins Sunday and called on Grandpa Templin who lives with his son in Hoskins. Grandpa Templin is 92 years old, was a soldier in the Civil war, and can still tell the young people somethings worth while.

Mr. and Mrs. Julius Schmode and family and Norris Weible of Winside, Mr. L. C. Mittelstadt, and Mrs. Augusta Schmode of Norfolk, Mr. and Mrs. Geo. Schmode and family of Battle Creek, met at Yellow Banks, Sunday and had picnic dinner.

Mr. and Mrs. I. F. Gabler and son Walter, Mr. and Mrs. Harold Neely and son Jack arrived home Monday evening from lake Okibogi.

Mr. and Mrs. Rasmus Nielsen and daughters were guests at the John Nelson home, Sunday evening.

Christ Leuthold and son and two daughters, of Hoskins, were Sunday afternoon callers at the M. L. Halpin home.

Mr. and Mrs. Frank Wilson and family returned from lake Okibogi, Monday evening.

Mrs. Gurney Prince spent Thursday in the Rasmus Nielson home.

Rev. and Mrs. J. Bruce Wylie, Miss Alice Wylie and Raymond Wylie went to Big Stone Lake, Minnesota, Monday, for a few days fishing. They will return Thursday.

Mr. and Mrs. Fred Hubolt of Cook, Nebraska, were guests of Mrs. Frank Weible Thursday. Mr. Hubolt is a cousin of Mrs. Weible.

Louis Mittelstadt who has been attending Creighton college at Omaha, came home Tuesday and will spend the remainder of the summer with his parents, Mr. and Mrs. G. A. Mittelstadt.

Birthday Party.

Mrs. Lena Lambrecht entertained at a barn dance, Friday evening in honor of her son Emil Lambrechts birthday. About 100 guests were present and all had a good time.

Mrs. Lambrecht served a delicious luncheon.

Celebrates Birthday.

Neighbors and friends of M. L. Halpin met at the Halpin home Monday evening to help Mike celebrate his 53th birthday. The evening was spent socially and at cards. Refreshments of ice cream and wafers were served by Mrs. Halpin, assisted by Mrs. Alex Gabler and Mrs. Fred Wittler.

Guests were: Mr. and Mrs. Fred Wittler, Mr. and Mrs. Chas. Unger, Dr. and Mrs. V. L. Siman, Mr. and Mrs. Chas. Shellenberg, Mr. and Mrs. Wm. Brune, Mr. and Mrs. Len Bartlett, Mrs. Alex Gabler, and Mr. Chris Nelson Jr.

Benschofs Entertain.

Mr. and Mrs. Gurney Benschhof entertained four tables at cards, Sunday evening. Mrs. Mark Benschhof of Winside, and Mr. H. D. Addison of Wayne, won high score. Summer flowers were attractive decorations about the home. Mrs. Benschhof served a two course luncheon.

Rev. and Mrs. Wylie Entertain.

Rev. and Mrs. J. Bruce Wylie Sunday evening entertained, Mr. and Mrs. Harry Baird and family, Mr. and Mrs. Wm. Wylie and son Geo. Bruce, Mr. and Mrs. G. Lewis,

Miss Alice Wylie, Mr. and Mrs. Harold Anderson, Mrs. Nellie Collier, Mr. Will Collier, and Miss Mabel Mills. A real old fashioned visit was enjoyed and the hostess served light refreshments.

Surprise Party.

Miss Dorothea Bartlett was pleasantly surprised Saturday afternoon, her twelfth birthday, by nine members of the Sewing and Health club. The afternoon was spent playing games, after which the guests served lunch. The club presented Miss Dorothea with a choker necklace.

Six Years Old.

Master Joe Granquist was six years old Tuesday and 13 of his little friends helped him to celebrate. Games were played on the lawn and ice cream, cake and red lemonade served. Out of town guests at the party were, Fred Gildersleeve, Mary Alice and Ila Gildersleeve, of Wayne.

La Porte News

Helen Marie Laughlin and Francis Lutt spent Wednesday afternoon at the Otto Lutt home visiting Joy and Lester Lutt.

Mrs. Raymond Baker was ill the last of the week, but is better at present. Mrs. Mary Doring, Mrs. Max Brudigan and Clara Doring assisted her to cook for theshers Friday.

Rudolf Kay brought his bride to the home of his parents Wednesday. They will remain there till spring when they will move to the farm August Kay recently bought of August Slahn.

Mr. and Mrs. F. C. Hammer and children spent Sunday evening at the Hans. Hammer home south of Wakefield.

Mr. and Mrs. August Slahn entertained Mr. and Mrs. Pete Jorgensen and children Sunday afternoon.

Marjorie Hanson was a guest Friday evening of Francis Lutt at the musical recital given at the home of Mrs. Keyser.

Mr. and Mrs. Otto Lutt and children, Mr. and Mrs. John Lutt and children spent Sunday afternoon with Mrs. Johanna Lutt.

Mr. and Mrs. F. C. Hammer entertained at dinner Sunday Mr. and Mrs. Pete Nelson and family, Mr. and Mrs. Wm. Lutt and daughters, Mr. and Mrs. Ray Hammer, Mr. and Mrs. John Geewe and son and Otto Sievera. Ed Miller has just completed a double corn crib and grainary at the Otto Lutt farm.

Mr. and Mrs. Pete Jorgensen and family spent Sunday evening at the Art Meyer home.

Helen, Marie Laughlin spent Thursday evening with her sister Izora while her mother attended the garden party at the Judson home.

The rain Monday night, while beneficial to the corn, caused a cessation of threshing operations. Oats are molding in the shock, and unless threshing can go forward the straw will be a total loss. Oats in this vicinity are yielding from 25 to 45 bushels.

Mr. and Mrs. August Kay and Mr. and Mrs. Rudolf Kay entertained for Sunday dinner, Mr. and Mrs. John Grimm and Dale, Jno Meyer and family of Wislone, Mr. and Mrs. Nels Grimm and Neil, Mr. and Mrs. Carl Sievers and family, Mr. and Mrs. Frank Longe and Melvin.

NOTICE OF SETTLEMENT OF ACCOUNT.

In the County Court of Wayne County, Nebraska.

State of Nebraska, Wayne County, ss. To all persons interested in the estate of John W. Morris, deceased.

On reading the petition of Ellis Morris, administrator praying a final settlement and allowance of his account filed in this Court on the 16th day of July 1929, and for distribution of the residue of said estate. It is hereby ordered that you and all persons interested in said matter may, and do, appear at the County Court to be held in and for said county, on the 2nd day of August A. D., 1929, at 10 o'clock A. M., to show cause, if any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition and the hearing thereof be given to all persons interested in said matter by publishing a copy of this order in the Nebraska Democrat, a weekly newspaper printed in said county, three successive weeks prior to said day of hearing.

(seal) J. M. CHERRY, County Judge.

The Tender Age

"How old are you, Mary?" "Fifteen." "A girl of fifteen should tell her mother everything." "I know it. But mother is so innocent, really I haven't the heart."—American Legion Monthly.

Club Atmosphere Best for Little Poker Game

Many of the boys in the city council are not averse to a friendly game of "five and ten," and so a few of them were sitting around a circular table at the home of a friend the other night. The wife thought it would be a kindly and popular thing to give the boys a sandwich or two and she busied herself like any perfect hostess would do.

The sandwiches came, but the boys hardly knew what the filling was, as they were too occupied looking for the third ace or trying to find the fifth club. The dear lady didn't know it, but it's not ethical to interrupt that kind of a game.

A little later she happened to think, that the baby had just reached the cute age and she knew the "gang" would only be tickled to death to see him perform. So she toted out the little fellow, who put on his act to an unsympathetic audience.

"I guess we will play the next game at the club," one of the boys remarked, and there was a heartfelt chorus of "Amen."—Brockton Enterprise.

Englishman First With Idea of Artificial Silk

Most of the credit for the idea of manufacturing artificial silk goes to France, and the honor has usually been given to Reaumur, a French naturalist. Actually, the first known suggestion was made by an Englishman, Dr. Robert Hook. In 1664 he published a book, "Micrographia," in which he described a microscopic examination of real silk, and suggested the possibility of producing a similar thread by mechanical means. The first machine to produce an artificial thread was made in England. In 1840, Mr. Louis Schwabe took out the first patent and erected his machine, embodying spinnerettes, in Manchester, but the product failed to attract and Schwabe committed suicide three years later. Today the spinnerette is in full use, and \$135,000,000 is invested in the industry in England alone.

Bible Printing Restricted

As Colonial New England rebelled against the tax on tea, so it must have writhed under the ancient law which gave to the crown a monopoly of the right to print the Bible, for the literary tastes of those hardy pioneers were distinctly religious.

But it was a law with teeth, for it is a matter of history that in 1537 a certain Richard Grafton was imprisoned until he gave bond of \$500 that he would print no more English Bibles until given permission to do so by the king. From that time the right to publish the English Bible was vested with certain printers who were connected with English universities.—Detroit News.

Early Bird

The prospective maid of all work was stating her terms: "I want \$15 a week paid in advance, and I don't wash nor scrub floors, nor—"

"But," began the mistress of the house feebly.

"Or work after six o'clock," went on the woman steadily, "and I want every evening off and a fine reference and—"

"But surely the reference can wait till you leave us?" broke in the mistress, nervously. "No, I want the letter now," returned the domestic firmly. "I've tried getting them when I leave and I've never got a good one yet."

Virtue and Vice

Dr. Will Durant says, "Every vice was once a virtue and may become respectable again, just as hatred becomes respectable in wartime." How true is that? A mental search for examples should give you an interesting half hour. And if you examine your own "virtues" and "vices" in this light, as closely as you can, you may find it profitable. The border cases, those habits which seem to be neither vices nor virtues, or to be both, are especially interesting.—New Orleans Item-Tribune.

One Thing Man Can't Make

Doctors in a Nova Scotia city removed the heart from a cat. In its place they put a rubber heart, electrically operated. The artificial heart kept up the blood circulation for several hours, during which time the cat remained alive. Of course, the doctors could make a rubber heart work for a time. But a natural heart, of cat or man, is an engine that human genius can never duplicate or approximate.—Capper's Weekly.

Peep at Valencia

The city of Valencia is on that wonderful bit of Spanish Mediterranean coast where the climate is so much more certain than that of the Italian Riviera or the French Cote d'Azur. It is curious that so many places in this district should be associated with "desert." Valencia and Malaga raisins, Denia oranges, Barcelona nuts—they are all familiar to us. And Tarragona supplies a wine which does duty on many a British dinner table for port.

Going Too Far

The strings have been taken out of string beans and the warts have been educated off pickles and now Professor Huelson of the Illinois College of Agriculture threatens us with an odorless onion.—Farm and Fireside.

Best Insurance for Many Legume Crops

Inoculation Is Favored for Growth and Soil Building.

It is only a few years ago since a few farmers began rather shamefacedly to coat their alfalfa seed before planting with a thin mud made from earth taken from an old alfalfa field. This was the beginning of the farm practice of inoculating the seed of leguminous crops. In 20 years, we have progressed greatly in this practice and our understanding of it. The most successful farmers we know today would not plant alfalfa, soy beans, sweet clover, peas, beans, vetches, or any of the clovers without making certain of inoculation. Science discovered and practice has proved that these crops so inoculated with beneficial bacteria as to produce numerous root nodules, take extra nitrogen from the air, thereby adding to the soil an excess supply of our most expensive plant food. Inoculation simply means supplying the seed with a start of these bacteria, to render the plant independent of soil nitrogen for its growth. With inoculation, legumes are soil builders and, other conditions being favorable, grow thriftily. Without inoculation, they deplete the soil of nitrogen the same as any other crop and unless other conditions are unusually favorable, grow unthrifty or not at all.

There are different good methods of inoculation. Commercial inoculation is reliable and easy to use. The soil transfer method is effective but more trouble. If you buy inoculator, specify the kind of crop you want to use it for, and you will get the right sort. By whatever method, do not try to inoculate soy beans with earth from an alfalfa field or inoculator meant for vetch. It requires a different kind of a bug for different groups of legumes.

Modern Practice Is to Fill the Silo Evenly

Many silo owners are coming to the conclusion that it doesn't pay to tramp the silage when the silo is being filled. It is almost impossible to compress the silage evenly, and the labor is largely wasted. The modern practice is to fill the silo full with no tramping—then let it settle for a few days, after which it can be refilled. Even with the most vigorous tramping, settling will occur, and it is observed that not much, if any greater settling will occur even if no tramping is done. The main thing is to distribute the silage evenly over the entire area, which can be done easily with proper handling of the distributor pipe.

Satisfactory Ration for Work Horses Is Outlined

Even though work horses are fed plenty of grain they will not keep in good shape if their ration is not properly balanced. Oats and prairie hay make a satisfactory ration, but corn and prairie hay are not good. When corn is the only grain fed, at least half the hay should be alfalfa or clover. If neither alfalfa nor clover hay is used, the ration of corn and prairie hay may be balanced by feeding a small amount of cottonseed or linseed meal. The amount of meal needed to balance the corn and prairie hay ration will vary from one and a half to two pounds daily, depending on the weight of the horse.

Agricultural Squibs

Tipturn of lettuce is increased by use of fertilizers high in potash.

When winter pastures are not available an empty silo means an empty milk pail.

It pays to buy and plant the best, as good crops are largely dependent on the use of good seed.

If your house looks bare and uninviting, plant trees, but not too many, and not squarely in front of the house.

Spray celery plants with a 4-50 Bordeaux mixture to save them from bacterial and fungus blights. Apply with 900 pounds pressure at intervals of seven to ten days.

A cool temperature (just above freezing) and a somewhat moist atmosphere is needed in storage for cabbage, celery, chinese cabbage, kohlrabi, and the root crops.

Do not wait to see if a new weed will be a bad one before trying it. Endless trouble and annoyance later may be avoided by promptly killing weeds in new infestations.

Spraying is an essential practice in successful potato culture. Farmers who applied timely and thorough sprays last year grew their crops at the lowest cost per bushel.

Do not attempt to handle soil when it is too wet. This applies especially to upland soils, which are rather heavy. Avoid walking on wet soil either before or after preparing it for planting.

The condition of the weather has much to do with the time required to dry hay. Both clover and alfalfa hay should be put in the barn or stacked just as soon as dry enough to be safe from mold.

I STILL SAY
THAT NEBRASKA'S GREATEST FAIR
HAS NOT BEEN HELD, BUT IT WILL
BE HELD
AUGUST 30 to SEPTEMBER 6

Write for information to
GEORGE JACKSON, Secretary
 Capital Building, Lincoln, Nebraska
