

The Nebraska Democrat

ESTABLISHED 1884

WAYNE, WAYNE COUNTY, NEBRASKA, THURSDAY, AUGUST 22, 1929.

\$1.50 PER YEAR

SIoux CITY BAND ENGAGED TO PLAY ONE DAY AT FAIR

Famed Monahan Post Band One of Attractions at the Wayne County Fair This Year.

LIVESTOCK EXHIBITS LARGE

The Monahan Post band will play a one day's engagement at the Wayne county fair this year. At the meeting of the fair board Friday evening the contract was approved for a concert to be given by them Saturday, September 14, the last day of the fair. The other three days the Wayne Municipal Legion band, which has also been contracted for the Boone county fair at Albion and the Nebraska day program at the Four-State fair in Sioux City, will give concerts.

The Monahan Post band has the reputation of being one of the three or four best bands in the United States, having won first place consistently in national American Legion conventions, and world championship in a legion convention at Paris three years ago. F. C. Reed, director of the Wayne band, also will direct the Monahan Post band on this occasion.

Arrange for Officer Features

The fair board is making tentative arrangements for other feature entertainments. Movies will be given the second and third evenings from the grand stand. Just what these will be has not been decided, but they may be of a historical nature. E. E. Gailey who will be in charge of the movies, will make a trip to Omaha in company with members of the fair board to select these.

Good ball games also will be provided, probably by teams from Sioux City.

The fair board feel that the free acts this year will be the best ever offered here. They will include Pallenberg's bears, the Arab tumblers, Gertrude Avery and boys, and Camper's Tennessee jubilee singers. Pallenberg's bicycle riding and stilt walking bears, have long been featured with Barnum & Bailey circus. Besides that they can do stunts with roller skates, hobby horses, footballs, push carts, and all in add give one of the most novel animal performances on tour this season.

Gertrude Avery and boys will perform many difficult stunts, such as pyramid building and various tumbling tricks, and will finish their performance with a tumbling contest on the race track.

Those who love the colored jubilee singers will welcome Camper's Jubilee singers, four colored boys, who will do a program of typical darky songs with the aid of banjo, violin and accordion.

Automobile Exhibits Large

Preparations are being made for a big automobile display this year, and a tent 300 feet long has been provided especially for the cars. A number of the merchants including the implement men and the radio dealers, will also have complete displays.

Farm Exhibits Large

The largest farm exhibits that the fair has seen will probably be shown this year. The two large hog barns will not be sufficient to accommodate the hog exhibits and several tents will be provided. The building which was previously used by the women's department will house the cattle, but it is doubtful if this will be large enough. The baby beef barn will handle 76 head, but there will be at least 100 calves on exhibition.

Local Young Woman In Democrat Position

Miss Craig, Grad At State Teachers College, Our New Reporter.

The voice local people now hear coming over the telephone wire from the Democrat office is that of Miss Genevieve Craig, new assistant here. Miss Craig, who lives in Wayne and is well acquainted locally, is a graduate of the Wayne high school and of the two-year course at the Wayne State Teachers college, where she has completed almost four years of work. Miss Craig also has had a year's experience teaching in public schools. Miss Craig will act as a general reporter for the Democrat and will have charge of the social column. She will be on hand at all times to receive local and rural news.

Carroll People Are Married Wednesday

Mr. John Otto and Miss Opal Margaret Miller, farm people who live near Carroll, were married at 8 o'clock yesterday morning at the Carroll Lutheran church. Rev. H. C. Krohn performing the wedding rites. Mr. and Mrs. Julius Himmerichs of near Wayne, attended the couple. Immediately following the ceremony the couple left for a short wedding journey, after which they will make their home on the groom's farm northwest of Carroll.

Both Mr. and Mrs. Otto have lived near Carroll for a number of years. The groom is the son of Mr. and Mrs. George Otto, of Carroll, and the bride is the daughter of Mr. and Mrs. Ralph R. Miller, also of Carroll.

1929 COUNTY LEVY LESS THAN YEAR AGO

County Levy 2.8 Mills; Some Municipal Levies Raised.

At the regular meeting of the county board of supervisors Tuesday, the county levy for the year 1929 was fixed at 2.8 mills, which is .14 mills under the levy of 1928. The lower county and city levies will not offset, however, the increase of over 16 percent in the state levy.

The following is the levy, as passed by the county supervisors:

General fund945
Bridge fund75
Road fund	1.00
Wayne County Fair and Ag.075
Assn. fund075
Mothers' pension015
Soldiers' relief fund015

The road fund was cut .2 mills under last year, while the general fund and the fair fund were each increased slightly.

School Levy 12 Mills

The school levy for the Wayne school district for 1929 will be 12 mills, which is .5 of a mill under the 1928 levy.

Wayne was the only municipality in the county to lower its tax levy this year. The levies at Carroll, Hoskins and Sholes will remain the same, 19.5, 17.4 and 5 mills respectively. The Winside city levy was increased 1 mill, from 23 to 24 mills, while the Wakefield levy was increased 2.1 mills, from 8.6 to 10.7 mills.

FORMER WAYNE MAN WEDS IN COLORADO

Fred L. Ash, and Irene Lucas Wed at Greeley, Colorado; Make Home Near Julesburg.

Fred L. Ash, former Wayne young man, and a rancher near Julesburg, Colorado, for the past ten years was wed Thursday, August 8, to Miss Irene Lucas, at the home of the bride's parents, Mr. and Mrs. J. L. Lucas, near Greeley, Colorado.

The bride was attended by Miss Turyle Roles, and the groom by Jess V. Lucas, brother of the bride. A wedding supper was served following the ceremony, after which the young couple left for a wedding trip to Colorado Springs and to Wayne, where they visited Mr. and Mrs. Charles Ash, the groom's parents, the first of the week.

Mr. Ash is a graduate of the Wayne high school, and he attended Wayne State Teachers college. Since 1913 he has been making his home near Julesburg, Colorado, where he owns a farm. Mrs. Ash has always made her home in Greeley, Colorado, where she attended the Greeley schools.

The young couple will be at home after September 1 on Mr. Ash's ranch southwest of Julesburg.

Strickland Possessor of New Robin Monoplane

Guy Strickland has purchased a new Curtis-Robin monoplane from the Curtis Robertson company, of St. Louis. Mr. Strickland drove the plane from St. Louis, arriving here Tuesday evening after a journey of five hours and a quarter. The plane has a wing spread of 41 feet and is 25 feet long.

Mr. Strickland is building a hangar one and one-half miles east of town for his new acquisitions, and is prepared to give a passenger service within a few weeks.

Wayne Girl and Wakefield Boy Killed in Auto Collision Near Pender Sunday Night

Doris Kingston and Charles Killion Die When Cars Meet on Wakefield Road.

TWO OTHERS ARE INJURED

When the car in which they were driving collided with another at the top of the Kasel hill on the Wakefield road near Pender Sunday evening, Doris Kingston, 16-year old Wayne girl, and Charles Killion, 16-year old boy of Wakefield, were killed. Others injured were Louis Hansen, of Wakefield, who is in a Pender hospital with a broken collar bone and other serious injuries, and Opal Wuerth, who was in the other car, and who was confined to a Pender hospital for a short time. Her injuries are not serious.

Coroner's Jury Says, "Accident"

The coroner's jury, held at Pender after officers had investigated the cause of the tragedy, pronounced it an accident, and placed the responsibility on neither party.

Charles Killion was driving the car, a new Pontiac, which brought him and his companion to death. Doris Kingston had been visiting relatives in Pender, and the party, which included Harold Killion, the brother of Charles, Margaret Buis, of Pender, and Louis Hansen, of Wakefield, were taking her to her home in Wayne. They were headed west on the Wakefield highway, and had swung out in passing another car going up the Kasel hill, when they met in head-on collision at the top of the hill the Ford driven by Herman Dinklage, of Wisner, which was headed east. Both cars were entirely wrecked, the Killion car rolling more than a hundred feet down the hill after being struck. The Killion boy and the Kingston girl were killed instantly. The injured were taken to the Pender hospital.

Services Tuesday Afternoon

Funeral services for Miss Kingston were held Tuesday afternoon from the Presbyterian church, with Rev. W. W. Whitman, her pastor, of the Methodist church, in charge. Prof. W. Irving Horn sang, "Lead Kindly Light", and "Face to Face". A quartet of Standard Bearer girls, of which Miss Kingston has been a member, Misses Leatha Porterfield, Fau-

(continued on last page)

Faculty Male Quartet Sings at Concord Sunday

The Faculty Male Quartet went to Concord Sunday evening and sang at the union meeting of the Methodist church of Dixon and the Concordia Lutheran church of Concord.

Reid-Winship at Pilger

Miss Margaret Reid, daughter of Dr. and Mrs. John D. Reid of Pilger, and Frank Loren Winship, son of Mrs. Frank Winship, of University Place, were married at the First Methodist church in Pilger August 9. The couple will make their home at Pleasanton.

WINSIDE WOMAN PASSES FRIDAY

Mrs. Bertha Miller Had Lived in Vicinity Since Three Years Old; Born in Prussia.

After an illness of several weeks, Mrs. Bertha Miller, 49-year old Winside woman, died Friday at the Wayne hospital. Altho it was necessary to submit to an operation, hopes had been held during her illness for her recovery. A blood clot was the immediate cause of death.

Funeral services were held Sunday afternoon at the St. Paul's Lutheran church in Winside, with Rev. H. M. Hilbert in charge.

Deceased was born in West Prussia, Germany, July 15, 1880 and came with her parents to this country when three years old, settling five miles southwest of Winside. She was married to William Miller. Five children were born to this union, of which three survive, Henry and Gustav, of Winside, and Mrs. Matilda Gray, of Lincoln. One child died in infancy and one son, Otto, died at the age of 21. She is survived beside her immediate family by one sister, Mrs. Emma Janssen, of Fairfax, South Dakota.

WAKEFIELD GIRL DROWNS IN LOGAN CREEK LAST FRI.

Sybil Bean Succumbs While Trying to Aid Playmate. Boys Go For Help.

WAYNE PASTOR HOLDS SERVICES

In attempting to save her drowning playmate who had slipped into a deep hole while swimming, Miss Sybil Bean, 16 year old Wakefield girl, and daughter of Mrs. Bertha Bean of that town, was drowned in the water of Logan creek northwest of Wakefield last Friday afternoon.

According to the story of the tragedy as told by eye witnesses, Sybil, together with her younger sister, Ardith, and Frances Brown, had gone to the creek to swim. Later four boys walked up the railroad

tracks for the same purpose.

On arriving at the railroad bridge a short distance northwest of town, the boys discovered the girls in the water and did not go in, but stopped and talked to the girls. In the middle of the creek, was a deep hole estimated to be from 15 to 20 feet deep.

In their progress of wading up and down the stream Frances Brown slipped into this hole, and began to flounder. Morris Hyde, one of the boys, although but 13 years old, being the best swimmer plunged into the water after her, and pulled her to shore. In the meantime, Ardith and Sybil jumped in to save Frances. Morris promptly went back and pulled Ardith out, but by the time he had returned the second time Sybil had gone down and did not reappear.

While two of the boys kept diving for her, the other two ran to town for help and gave the alarm. The girl had been in the water from 30 to 45 minutes before found, and was beyond help. The body was lodged in water so deep that hooks were necessary to bring it to the surface.

Services by McClenden

Funeral services were held Monday afternoon from the Christian church, of Wayne. Girl friends of the deceased sang at the services, acted as flower girls and served as pall bearers.

Sybil Roxanna Bean was born at Wakefield August 21, 1913, and lived there all her life. She attended the Wakefield schools, and would have been a member of the junior class next year. She became a member of the Christian church in October 1922. She was also a member of the camp fire girls organization and the Home Guards.

She leaves to mourn her father and mother, two sisters, Ardith and Corine, and three brothers, Knowles, John and Keith.

COLLEGE-ART EXHIBIT TODAY

The students of the industrial arts department are giving an industrial art exhibit from 12:30 until 3 p. m. today in the industrial building.

MANLEY WILSON HAS RETURNED TO WAYNE

Local Boy Missing Since June Comes Home Sunday From South Dakota

Manley Wilson, 20-year old boy, for whom his parents have been searching over several states during the past two months, and who had been selling magazines with a man name Joe Goeken during that time, was located at Artesian, South Dakota last Friday when he got in touch with an uncle living near that place and learned that his parents were searching for him.

They drove to Artesian the next day and Manley returned with them Sunday night. Manley says that he had not known his parents were searching for him.

Wrist Cut While Is Canning Beets

Miss Edna Krallman, of near Wayne, had her right wrist badly cut last Thursday evening, when a glass fruit jar broke while she was canning beets. It was necessary to take four stitches in her wrist to close the wound.

Local Woman Returns From Bible Conference

Mrs. E. B. Young returned Monday from the east where she attended and appeared on the program of the Victorious Life Bible conference held at Keswick Grove, New Jersey. Mrs. Young has appeared regularly on the program of the conference for the past several years.

On the way home Mrs. Young stopped at Cleveland and Chicago for missionary meetings in those places. At Chicago she met P. H. Young, her son who is a teacher in the State Teachers college at Chico, and who was studying music in Chicago. Mr. Young intends to stop in Wayne within a week or two when he will visit his parents.

HUNDREDS HERE ATTEND REUNION

Large Crowds Expected at Annual County Old Settlers Gathering at Winside Today.

The Wayne County Old Settlers Reunion for 1929 begins this morning at Winside with a concert by the Winside Concert band, and will end with the free attractions and the bowery dance this evening with Ted Adams colored orchestra of Omaha furnishing the music.

It is expected that at least 200 from Wayne will attend the reunion, and people from other parts of the county will turn out in like proportion.

At the same time as the band concert will be horseshoe games. There will be free attractions featuring "The Two-Thumbs" in feats of remarkable strength and endurance and "White's Horizontal Bar Artists". A baseball game between Hoskins and Carroll follows at 10:30 and a band concert at noon terminates the morning portion of the program. Beginning at 12:30 the free attractions make a second appearance, followed by speaking by Dr. Lucian B. Stark of Norfolk. Dr. Stark knows something of the early days in Nebraska and is well qualified to fill this part of the program. His talk will be interesting. The baseball game between Wisner and Creighton will be next in order and this game should be a real treat to baseball fans. Both teams rank among the best in northeast Nebraska and with Al Mahon, sensational southpaw pitcher, as an added attraction, the game should quite satisfy the interest and attention of every fan. The minor sports will take place along the Main street after the baseball game at 5:30 p. m. the water fight between teams representing the Winside and Hoskins fire departments. A band concert at 6:00 p. m. concludes the afternoon program. At 7:00 p. m. the free attractions and last, the bowery dance with Ted Adams colored orchestra of Omaha furnishing the music.

The Program

The complete program as planned is as follows:

- 9:30 a. m. Band Concert by Winside Concert Band.
- 9:30 a. m. Horseshoe games.
- 10:00 a. m. Free Attractions, "The Two-Thumbs" and "White Horizontal Bar Artists."
- 10:30 a. m. Baseball Game. Carroll vs. Hoskins.
- 12:00 m. Band Concert.
- 12:30 p. m. Free Attractions.
- 1:00 p. m. Pioneer Day Address by Dr. Lucian B. Stark, of Norfolk.
- 2:30 p. m. Baseball, Wisner vs. Creighton.
- 4:00 p. m. Minor Sports and contests.
- 6:00 p. m. Band Concert.
- 7:00 p. m. Free Attractions.

Pioneer Lawyer Buried at West Point Thursday

Pliny M. Moodie, of West Point, a well known attorney in this part of the state for the past 40 years, died in an Omaha hospital August 13, and was interred at West Point last Thursday, August 15. Judge Eberly, of the supreme court of Nebraska, gave a eulogy at the funeral.

A number of Wayne people were in attendance at the funeral.

Mr. and Mrs. C. O. Mitchell returned home Monday evening from their two month's trip in the west. While gone they visited in California and Oregon, as well as the national parks on the way home.

WAYNE COUPLE ARE MARRIED AT HOME OF BRIDE

Pretty Nuptial Rites for Miss Betty Hiscox and Paul Crossland; Brother Officiates.

BOTH GREW UP IN COMMUNITY

Miss Betty Ann Hiscox became the bride of Mr. Paul M. Crossland at 7:30 o'clock last Thursday evening, August 15, at the home of her parents, Mr. and Mrs. C. W. Hiscox, with Dr. Weldon F. Crossland, of Pontiac, Michigan, brother of the groom, performing the ceremony. Mrs. M. E. Benson, of Minneapolis, was matron of honor, and William A. Crossland, of Lincoln, attended the groom.

Sixty relatives and guests were present. The rooms were decorated in green and orchid, the colors of the bride. Armand Hiscox, brother of the bride, acted as usher and Miss Mary Mildred Crossland welcomed the guests at the door.

Preceding the ceremony Miss Mae Hiscox, sister of the bride, sang, "The Sweetest Story Ever Told" by Stultz, and "At Dawning," by Cadman. As the strains of Lohengrin's wedding march were played, the bridal party formed before a bowery of green, decorated with flowers of the bride's colors.

Bride Dressed in Taffeta

The bride wore a dress of white taffeta with pearl ornaments and a veil of white tulle secured by a pearl band. She carried a corsage of orchids and white roses and wore a pearl bracelet, a gift of the groom. Mrs. M. E. Benson, of Minneapolis, the matron of honor, wore a bouffant gown of greenorgette and carried a bouquet of sweetheart roses. Flower girls, Misses Jane and Margaret Randall, Margaret Jones, Eileen Brooks, Helen Jones, Mildred and Fern Reeves and Helen Hiscox carrying baskets of flowers of green and orchid, preceded the ring bearer, Dorothy Jean Casper. Dr. Weldon B. Crossland read the marriage lines, using the personal Bible of his mother, which she had owned for over 40 years. The double ring ceremony was used.

Following the ceremony the hostess assisted by the flower girls, served (continued on last page)

WAYNE YOUNG PEOPLE WED AT PARSONAGE

Miss Savilla Yocum and Raymond Finn Married Last Thursday by Rev. William Kearns.

TO MAKE HOME IN SO. DAKOTA

At the St. Mary's Catholic parsonage at 9:30 o'clock last Thursday morning, Miss Savilla Ruth Yocum became the bride of Mr. Raymond B. Finn. Father William Kearns performed the nuptial rites.

The bride, who wore a suit of transparent velvet, black with figures, was attended by Miss Viola Yocum, her sister, dressed in black satin. The best man was Paul Kelley, of Omaha. Immediately following the ceremony there was a wedding breakfast at the Hotel Stratton for the young couple and their immediate families, after which they left for a short trip to St. Paul, Minnesota. Mr. and Mrs. Finn will make their home in Meadows, South Dakota, where they will both teach in the school next year. Mr. Finn as the superintendent.

The bride is the daughter of Mr. and Mrs. C. E. Yocum, of Wayne. She graduated from the high school at Butte, Nebraska, and from the two-year course at Wayne State Teachers college in 1928. She taught in the public schools for the past several years, the last at Chappell.

The groom is the son of James Finn, of Wayne, and is a graduate of the local high school and college. He received his A. B. degree this year.

Auto Collision on Logan Sunday Damages Cars

Sunday afternoon a Ford roadster driven by Vernon Sylvanus and a sedan driven by a man named Bones, of Allen, collided at the intersection of 7th and Logan. The sedan was turned over on its side and some damage was done to the Ford. Neither party was hurt.

LOCAL AND PERSONAL

The Dammeyer billiard hall received some paint Tuesday.

George Fortner went to Omaha Tuesday morning on business.

Mr. and Mrs. Harry Lessman went afternoon callers at the Alex Jeffrey home last Sunday.

Farris Gifford came from Sioux City Saturday for a week's vacation with his brothers here.

Mr. and Mrs. Killinger of Immaculate were Saturday and Sunday visitors with relatives in Wayne.

Mr. and Mrs. L. A. Fanske drove to Pierce Sunday and visited with Mr. Fanske's brother, Ed Fanske.

Mr. and Mrs. Glenn Gildersleeve are driving through from New York City and will arrive at Wayne soon.

Mr. and Mrs. W. H. Buetow went to West Point Sunday to visit Mr. Buetow's cousin, Herman Leadlie.

A visitor at the W. Fisher home is Miss Ida Rohr, of Plymouth. She arrived Friday and will stay for several days.

The H. B. Craven Hardware store was dressed up the first of the week with a new coat of gray and yellow paint.

William Crossland, of Lincoln, is visiting this week at the home of his parents, Mr. and Mrs. G. W. Crossland.

Miss Pauline Judson arrived home last Tuesday from Chicago where she had been visiting relatives and friends.

Mr. and Mrs. Chas. Casper of Cedar Rapids, Nebraska, were week-end visitors at the home of their son, Dr. Robert W. Casper.

Miss Lila Gardner and Miss Margaret Helt drove to Villisca, Iowa, Monday morning and to Paul to visit Lila's sister Florence.

Mr. and Mrs. Walter A. Lerner and children motored to Madison Sunday to visit Mrs. Lerner's parents, Mr. and Mrs. Jacob Studt.

Mr. and Mrs. Floyd Kingston and Dr. and Mrs. L. B. Young went to Lincoln Saturday afternoon and returned Sunday evening.

Miss Esther Erxleben and Miss Alice Berry went to Center Monday morning to judge the school exhibit at the Knox county fair.

Special attention to all kinds of fillings. Robt. W. Casper, D. D. S.

Jamieson on account of the serious illness of Dr. Jamieson's sister, Elsie, who is a patient at the Wayne hospital. Mrs. Dunn is Dr. Jamieson's sister.

Dr. Young's Dental Office over the Ahern's store. Phone 307.—adv. 1f.

Northeast Nebraska Has So Far Sufficient Rain

Dept. of Agriculture Report Shows Small Grain as Expected.

Northeast Nebraska is the only part of the state that is not suffering from lack of moisture, and with the condition of corn in this section 21 percent above the state as a whole, this part of the state ranks considerably above the rest of the state in crop prospects. Following is the report for the state as a whole.

The condition of corn is 77% according to the Mid Month report of bankers released today by the State and Federal Division of Agricultural Statistics. About 75% of the oats are threshed. Yields of small grain last year and livestock prices are about the same. Moisture supply is short over the entire state with few exceptions.

Corn has deteriorated 9% since the first of August. Moisture supply is short throughout the state except in a few counties. Condition of corn is very good in northeastern Nebraska and still promising over a part of east-central and southeastern Nebraska. A few counties in central and southwestern Nebraska are still in good condition. The corn in a few of the central and southern counties has been severely injured and has fired badly.

Corn has withstood the dry weather remarkably well. The corn in all counties having a good reserve moisture supply has developed and while some permanent injury has been sustained, it still has a chance to make a fair crop. The cool weather has relieved the situation considerably. In other counties the damage varies from considerable to almost complete injury. The percent of corn acreage in lowlands injured by floods is very small and the same is true of injured upland corn. The percent of the state corn acreage that is badly fired to date, is also very small.

Small grain yields are about the same as August 1 indications. The average yield of 16 bushels of wheat is substantiated by the bankers Mid Month report. Expected yield of spring wheat is 14.6 bushels and oats 34.9 bushels, which is somewhat higher than the August 1 indications. The prices of grain average higher than on this date a year ago. Prices this year and last are as follows: wheat, \$1.02 and \$0.83; corn, \$0.87 and \$0.77; oats, \$0.37 and \$0.33.

Prices of livestock are about the same as this time a year ago. Prices now and a year ago are as follows: Hogs, \$10.60 and \$10.83; grain-fed cattle, \$10.60 and \$10.83; grain-fed cattle, \$13.42 and \$13.52. A smaller number of farmers are borrowing money for feeding operations at this time than a year ago.

Considerable of the alfalfa is being saved for seed throughout the state and the acreage is about 1% under that of a year ago. The season has been quite favorable recently for a feed crop.

Pneumatic Horse Collar Put Out Commercially

Cousin of Mr. Hook Finds New Collars a Big Success.

Forest Richards, of Akron, Ohio, was in Wayne two days last week, visiting T. S. Hook, his cousin, after a trip to Minden, where he had been trying out on the Harry Bindrup farm his pneumatic horse collar, recently invented by him. Mr. Bindrup had been using the pneumatic collars on his horses since the first of April, and has found them in every way successful. The collars showed no wear after several months of use.

It is claimed by Mr. Richards that the pneumatic feature of his collars will eliminate sore necks and shoulders on work horses, as the pulling pressure will everywhere be equalized over the surface of the collar.

Mr. Richards is now in touch with eastern manufacturers, and he expects to make a contract for the manufacture of the horse-collar within a short time.

159 Motor Vehicle Accidents in Two Weeks

Press Statistics Show Automobiles Responsible for Over Half of Accidents.

Of 355 casualties during the two-week period ending August 13, according to the Nebraska Press association 199 of them, or about three-fifths, were produced by motor driven vehicles. Of these 355 people injured, 33 of them died, 9 from automobile accidents, 10 from drowning, and 3 from railway accidents.

Collisions (28%), speed (10%) and reckless driving (9%) were the three predominate causes of automobile accidents during the period. Other causes in the order of their importance were: Losing control of car, passing car struck car passed, blinding lights and skids in loose gravel.

Home accidents caused 4 deaths and 46 injuries during the last two weeks. Falls were responsible for 26 of the 50 home accidents. Other causes are: cuts and burns, 17; power machinery, 3; miscellaneous, 4. Do your cellar steps or back porch steps need repairing? Rickety stairways may put you under the doctor's care.

More Farm Accidents

Farm employment produced more than twice as many accidents as industrial employment. They resulted in 31 injuries, 5 permanent disabilities and 4 deaths in two weeks' time. The causes were: farm machinery, 14; farm animals, 11; falls, 3; sprains, infections, cuts and burns, 7. In five accidents causing permanent disability, three farmers lost fingers and two each lost an arm.

Industrial employment accidents were responsible for 2 deaths and 19 injuries. Causes of these accidents are: burns, cuts and infections; power machinery; falls and electric shocks.

During the 14 weeks of the survey conducted by the Press association, there were 2202 casualties, of which 1347 were from automobiles. There were 232 deaths, 89 of them caused by automobiles. Seventy-five pedestrians were struck during the 14 weeks, some of them killed instantly, and others dying later of their injuries.

Janssen-Kurzahals

Miss Clara Janssen, daughter of Mr. and Mrs. Henry Janssen, of Hobart, Oklahoma and Leonard Kurtzahals, son of Mr. and Mrs. Frank Kurzahals, of Coleridge, were wed at St. Michael's Catholic church August 15. The young couple will make their home on the Kurtzahals home at the edge of Coleridge.

Wakefield Mail Routes to Be Consolidated Soon

According to the postal route adjuster who was in Wakefield recently, routes two and three out of Wakefield will be consolidated, and will henceforth have one carrier, the new route to be known as number two. Route one will also be changed, with an extension of nine or ten miles to the east of the present route, for the purpose of serving many farmers who heretofore been coming to town for their mail.

Wayne County Man Has Cornstalk With 6 Ears

Gus Hoffman, Wayne county farmer who lives four and one-half miles south of Winside, found a stalk of corn in his field recently that had six well developed ears on it. Three of the ears were large, and three would have made smaller ears.

23 Year Old Steamer Threshing at Laurel

On last Friday the writer visited the threshing rig that was in operation at the Henry Mayer farm south of town to look over an old time steam engine. We found Harry Pritchard in charge and he told us the story of the engine. Twenty years ago this fall he unloaded the engine and drove it from Concord to Dixon. It was then a rebuilt machine and he tells us that it has been in active service every year since that time with the exception of one, when it was not taken from the shed. It is owned by Lon Boysen at the present time and from the way it was making the separator hum while we were present it is good for another twenty years. It is a Russell engine and during the present run of heavy straw has been able to keep things moving at all times. It was pulling a Red River separator with Bill Steckling in charge at the time of our visit. The oats were turning out nicely at the Mayer farm, good quality and yield and the work was progressing rapidly. The run would be finished today according to Mr. Pritchard. At the time of our visit there was about two hundred acres left in the run and the way the work was going it would not take so very long. A steam rig is getting to be an oddity in this county most machines being pulled by tractors. However, this rig is good for many more seasons.—Laurel Advocate.

JACQUESOL The CHAMPION CLEANING Fluid

Expert cleaners tell us that this solvent is the best ever discovered for cleaning furs, silks and woollens. It does not leave the garments hard or dry, as when cleaned in gasoline, but rather leaves them with a beautiful gloss, soft feeling and a finish like new.

JACQUESOL puts life into garments and that is what clothes must have to give good wear. They all say: "My, how do you put such a nice gloss and soft feel on your cleaned garments?" The secret lies in the fact that we use this new solvent, JACQUESOL.

SPECIAL PRICE OFFERS

Take advantage of the following offers:

Men's suits and extra pair pants cleaned and pressed	\$1.25	Men's overcoats cleaned and pressed	\$1.25 and up
Men's one-pant suit cleaned and pressed	\$1.00	Ladies' wool dresses cleaned and pressed	75c and up
Ladies' overcoats cleaned and pressed	\$1.50 and up	Ladies' and men's hats cleaned	50c
		Caps cleaned	25c
		Ties cleaned and pressed	10c

(These prices do not include fur coats)

JACQUESOL CLEANS FURS BETTER	JACQUESOL CLEANS Woollens BETTER	JACQUESOL CLEANS SILKS BETTER
---	---	--

Furs put on a beautiful gloss when cleaned in Jacquesol. This solvent also makes the fur pelt soft, insuring long wear.

Soft and bright as though they were new. This is the verdict of people who have seen the effect of Jacquesol on woollens.

The luster of silks is restored by the use of this marvelous new cleaner. It works wonders on all silks.

Bring them in, folks. Let us clean them for you.

Winside News

Rev. J. E. Wylie drove to Creighton Wednesday afternoon.

Mrs. George Goebler and Mrs. John Miller visited Mrs. Otto Schneider at the Norfolk hospital Thursday.

Henry Fleer and son Merlin were in Norfolk Thursday on business.

Mr. and Mrs. J. B. Wylie, and Mrs. Robert Morrow, Margaret Ellen and Harriet Simms, were in Hoskins Thursday evening.

Mrs. Gurney Benschhof and son Merlin, Mrs. A. H. Carter and Mrs. Mae Huffaker were in Norfolk one day last week.

Rev. J. E. Wylie was in Sioux City on business Friday, stopping at Pender and Walthill on the way home.

Mr. and Mrs. W. R. Hiller were in Norfolk Thursday.

Mrs. Walter Davis, and children, Clarence and Edna were in Wayne on Saturday to visit John Davis who is a patient at the Wayne hospital.

Mrs. Isabella Motson visited her brother, Green Tracy and family at Osmond Sunday.

Rev. and Mrs. L. R. Keckler and daughter, Leona, and Mrs. A. T. Chapin visited Mrs. Otto Schneider and Paul Hillier at the Norfolk hospital Friday.

Evelyn and Opol Darnell returned last week from a few days visit with their uncle Green Tracy and family at Osmond.

Mr. and Mrs. Earl Bordner and the latter's mother of Pilger visited last week with Mrs. Isabella Motson.

Miss Bernice Motson spent several days last week with her sister at Pilger.

C. E. Benschhof spent last week at Hoskins helping his son, Mark with the farm work and some improvements.

Prof. and Mrs. Geo. Hall and son Wendell returned last week from their vacation at Randolph and Hastings.

Louis Ulrich of Wayne visited Monday at the Wm. Brune and Henry Fleer homes.

Miss Bernice Motson returned the first of the week for a few days visit with a class mate in Sioux City.

Mark Stringer of Wayne was a Sunday guest of Mrs. A. T. Chapin.

Mr. and Mrs. C. A. Jones were in Belden Monday making some arrangements for moving next week.

Mr. and Mrs. C. A. Mittelstadt, Mrs. Mae Huffaker and Mrs. A. H. Carter drove to Norfolk Thursday.

Mrs. B. M. McIntyre and son John went to Omaha Friday to visit at the Jack Walsh home.

Mr. and Mrs. Jack Walsh of Omaha visited a few days last week at the B. M. McIntyre home here.

Mr. and Mrs. August Basgallar of Hoskins visited at the Chris Nelsen

home Thursday.

Mr. and Mrs. Joe Carr of Allen were dinner guests Monday at the C. A. Jones' home.

Mrs. B. M. McIntyre and Mrs. Jack Walsh enjoyed a picnic dinner at Norfolk Thursday.

The Herman Podoll family returned Friday evening from a few days visit with relatives at Fairmount.

Mr. and Mrs. W. J. Brown of Royal visited their son W. V. Brown here Thursday. Their granddaughter, Donna Mae returned home with them for a visit.

Mrs. Sarah Lannon of Monroe is here visiting at the Chris Nelsen home.

Mrs. Herman Reeg and son of Wayne visited at the Henry Fleer home Saturday.

Mr. and Mrs. Chas. Carey of Pilger were guests at the William Carey home Sunday.

William Carey accompanied stock to Sioux City Monday.

William Bayes, Miss Gertrude Bayes, Mrs. Etta Perrin and Beryl Prince were dinner guests Friday evening of Mr. and Mrs. J. B. Wylie.

G. A. Francis and family attended the circus at Norfolk Saturday.

L. W. Needham was in Norfolk on Saturday.

Mr. and Mrs. L. S. Needham of Norfolk were in town Friday.

Mr. and Mrs. Jack Reinbrecht and daughter were in Norfolk Saturday to see the circus.

Mrs. V. L. Siman and son Bob and Mrs. Gurney Benschhof, and son Merlin were in Wayne Friday.

Trinity Lutheran Aid.

The Aid Society of the Trinity Lutheran church held their regular meeting on last Wednesday afternoon with Mrs. Wm. Brune as hostess. Eighteen members and two guests, Mrs. Alex Gabler and Mrs. George Gabler, were present. The hostess served a two-course luncheon.

Fairwell Party.

Mrs. O. R. Selders entertained eight little girls at her home on last Thursday afternoon as a farwell party for Anna Floy Jones who leaves with her parents in about two weeks for Belden. Games of various kinds were played and the hostess served lunch. Anna Floy received several gifts from those present.

Picnic at Wayne.

About 50 people ate a picnic dinner together at Bressler park in Wayne Sunday. The party consisted of relatives and friends from both Wayne and Winside of Mr. and Mrs. Otto Schuerkamp and William Scheurkamp of Pringbar, Iowa and Mr. and Mrs. Ed Meyer of Missouri who are visiting relatives here. The afternoon was spent in visiting.

One O'clock Bridge Dinner.

Mrs. I. F. Gaebler, Mrs. Harold Neeley and Mrs. H. S. Moses entertained about 30 ladies at a one o'clock bridge dinner at the I. F. Gaebler home Thursday, in honor of Mrs. R. B. Berrie of Kansas City. The out of town guests were Mrs. R. B. Berrie of Kansas City, Mrs. R. E. K. Mellor, Mrs. H. F. Wilson, Mrs. L. A. Fanske, Mrs. D. J. Cavanaugh, Mrs. A. T. Cavanaugh, Mrs. J. M. Strahan, Mrs. Paul Mines and Mrs. J. G. Mines of Wayne. Mrs. R. B. Berrie won the guest prize, Mrs. B. E. K. Mellor the honor prize and Mrs. R. B. Lewis the consolation prize. The color scheme in both center pieces and place cards was yellow and white. The Misses Ruby Reed and Yleen Neely assisted the hostesses in serving the luncheon.

Birthday Surprise.

Mr. H. R. Moses was 64 years old Friday. A few of the neighbors went in without any previous announcement to help him properly celebrate the event. The time passed in visiting. The guests provided lunch of ice cream and cake.

SHERIFF'S SALE

By virtue of an Execution to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon Judgment in an action pending in said court wherein The Northwest Ready Roofing Company was plaintiff and Frank Ruth was defendant I will, on the 2nd day of September, 1929 at 10 o'clock a. m., at the door of the office of the Clerk of said Court, in the court house in Wayne, in said county, sell to the highest bidder for cash, the following described real estate, to wit: The interest of Frank Ruth in the east half of the Northeast quarter of Section Seven (7) Township Twenty-six (26) Range Four (4) East of the 6th P. M., Wayne County, Nebraska, to satisfy the aforesaid decree, the amount due thereon being \$148.15 with interest at 7 per cent from April 25th, 1929, and costs and accruing costs.

Dated at Wayne, Nebraska this 31st day of July 1929.

A. W. STEPHENS, Sheriff.

Best "Young Citizens" to Diamond Jubilee

Contests to Pick Best Young People for November Omaha Celebration

The finest young manhood and womanhood of Nebraska will be assembled in Omaha for the Diamond Jubilee celebration in November, Chancellor E. A. Burnett of the University of Nebraska, chairman of the Jubilee Young Citizens' contest, announced.

A boy and girl will be selected from every one of Nebraska's 93 counties for the final contest in Omaha.

The decision to bring the 186 county winners to Omaha during the Jubilee, with all expenses of the trip paid was reached at the meeting of the general Jubilee contest committee, presided over by Kirk Griggs, president of the Occidental Building and Loan Association of Omaha, chairman of the general contest committee.

J. N. Shannahan, head of the Jubilee celebration, attended this meeting.

Chancellor Burnett said that an appropriate preliminary contest would be held in each Nebraska county to select the boy and the girl who, in the opinion of the judges of the local contest committee, deserved, the title of best "young citizen" for that county.

In the final contest in Omaha during the Jubilee celebration, these county contestants will be gathered together and the judges will study the qualifications of the various contestants, on a basis of civic usefulness.

One Nebraska boy and one Nebraska girl will then be selected as representative of the young manhood and young womanhood of the entire state. The winners will receive appropriate prizes.

"The selection of the best young citizens is in my opinion one of the most important features of the Jubilee," said Mr. Griggs. "The attention of thousands of Nebraskans will be centered on good citizenship and its requisites."

Harvesting on Huge Scale Conducted at Chadron

Last Thursday 30 men and 12 combines began work in a 2400 acre wheat field, eight miles northwest of Chadron, harvesting between 30 thousand and 40 thousand bushels of wheat for the Baldwin brothers, in what is believed to be the largest wheat field in western Nebraska.

The Baldwin brothers are from Kansas City. They purchased four sections north of Whitney last year and set to work plowing and preparing their huge wheat seed bed. This field was seeded with fall and winter wheat, which is now turning out a yield of 15 bushels per acre average.

The wheat is being trucked to Whitney and shipped to market, with an average loading of four cars daily.

As fast as the combines complete work in a tract of land, the plowing outfits, two in number, with tractors and disc plows, are preparing the ground for another crop.

In addition to the Whitney fields, the Baldwin brothers have just completed another section of land for planting north of Crawford. They have four sections of wheat west of Hemingford and a large field near Kimball.

For milk or cream for daily delivery or for special occasions call phone 417-F-2 the Logan Valley Dairy. We are always on the job.—adv. M18-1f.

DON'T suffer headaches, or any of those pains that Bayer Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for Bayer. And don't take any but the box that says Bayer, with the word genuine printed in red:

Bayer-Tablets Aspirin Genuine

Aspirin is the trade-mark of Bayer Manufacturing Co. Monacopolitane-Gesellschaft of Elberfeld, Germany.

Wives Will Testify To This

Whither a little white ball goes, a man will gladly follow . . . up and down hill, over bunkers and through hazards . . . wonderful is the power of a golfing mind over physical weariness!

It's something different, however, to ask the same man to walk across two rooms to answer the telephone. Many a good wife will tell you a 36-hole-a-day husband seems to be chair-bound at home.

But a word to efficient wives is sufficient and the word is . . . Extension-Telephones.

Extension telephones can be located in den, living room, kitchen, bed room, hall upstairs and all those places where members of the family are likely to be found at any time. They save countless tiring steps.

EXTENSION TELEPHONES COST ONLY A FEW CENTS A DAY

FREE BOOKLET—Are your telephones conveniently located? Do you know how small is the cost of extension telephones? Just call our Business Office. Ask us to send you our free booklet which explains complete and convenient telephone service for the home.

A NEW "BADGER GAME"

An episode, not without interest, occurred within the confines of Randolph last Saturday night.

Four played prominent roles in the impromptu drama, and a fifth, quietly, unassumingly displayed the artistry of a great director.

The quartet of actors staging the show included three well-known local young business men—and a badger.

After a long day in the store, the trio went to the municipal light plant for a shower. And at the zenith of their cleansing operations, the director unloosed the badger. The animal roamed in, saw the elfish spirits beneath the waterfall, and, perhaps became frightened, but not nearly so panicky as the three bathers. Sans clothing, they were unable to utilize exits to the street, so they began climbing things they never knew they could climb—brick walls, and such.

Eventually, it dawned upon the brick-clutching three—some that perhaps the badger wasn't really so bad and with returning courage, they stealthily maneuvered a successful escape.

Thus the brief skit ended happily—the director pleased—the actors relieved.— Randolph Times.

Lady—What do you want?
Tramp—Could the doctor spare me a pair of old trousers?
Lady—I am the doctor!—Pathfinder.

NASH "400"
Leads the World in Motor Car Value

AN UNUSUAL OPPORTUNITY

REDUCED PRICES .. Reductions on new NASH "400's" as high as **\$300**

NASH, in reducing prices last week on 1929 Nash "400" models, gives you a golden opportunity to save as much as \$300 on your new car.

Only a limited number of these "400" models are available at these prices. The prices on 1930 models, when announced later this year, will be higher than the "400" prices which have prevailed prior to this price reduction.

Here is a real opportunity—now you can have one of these finer motor cars at a price you would ordinarily pay for one much less desirable.

And just compare them to any competitive car now being offered. You will find these cars still far ahead in style and engineering excellence. These are the cars with the Twin-Ignition motor, with Bijur Centralized Chassis Lubrication, with out-board mounted Houdaille and Lovejoy hydraulic shock absorbers, with the World's easiest steering, and with many other equally advanced and desirable features.

And, at the reduced prices, these Nash "400's" are fully equipped, exactly as at the former prices, with chromium nicked bumpers front and rear, spare tire lock and tire cover. *Nothing more to buy except a spare tire.*

Hogs \$8.50 to \$9.50
Heavy Springs22

Harry F. Sinclair, serving time in the Washington jail for contempt of the senate, is getting bored with his present existence, and wants President Hoover to help him out. Getting up early in the morning and jumping all day to other men's orders, even when doing the light work of the jail pharmacist, rather cramps his style, he believes.

Everybody seems to think that this will be a "heap big year" for the Wayne County fair. The crops have been and are good, the farmers are in a better mood, a new building is going up at the fair grounds, and everyone is bending his efforts towards making this the best year ever. From indications, there will be scarcely room enough to accommodate all the livestock that the exhibitors are grooming, and other lines are doing their share to exceed all records. It will take nothing less than a cyclone or two on the fairgrounds to stop them.

Nothing compels us to take cognizance of a situation so quickly as to have those near to us become involved in it. And once more the hazards of the highways are brought forcibly to our attention, by the death of one in our midst. The Nebraska Press association has been attempting for the past few months, by publishing periodically the bare statistics of accidents occurring in Nebraska, to startle people into pausing, and taking drastic steps to eliminate the causes of accidents, especially those by automobiles. In the two-week period ending August 13 there were a deaths from automobile accidents, and of 355 casualties in the state during that period, 199 occurred thru the agency of automobiles. And now, last Sunday, in one day, nine people, one of them of Wayne were killed in automobile accidents.

YOU CAN'T SEE THE END OF INDIA TIRE mileage BECAUSE IT WOULD GO CLEAR AROUND THE WORLD AND COME UP AND HIT YOU IN THE BACK.

Buy them at **Sala's Tire & Service Station** The handiest place in Wayne to get your free air.

MAKING HISTORY

A copy of this newspaper, the Nebraska Democrat, issue of Thursday, August 22, 1929, as well as copies of the other newspapers of the county, will be placed in the cornerstone of Niehardt hall when it is laid by the grand master of the Masonic lodge next Tuesday.

This copy of the Democrat shall be there still in a century or two or three when progress shall demand that Niehardt hall be razed to make place for a modern structure. When the halls and the rooms that have sounded for generations to girlish feet and laughter shall be no more, and perhaps the name itself of our prairie poet shall grace no building, then curious hands will turn the yellowing pages of this sheet, and read thereon a record of our life today.

Such events as the cornerstone laying make us pause and realize that we are making history, right now, here in Wayne county. It doesn't take wars, or battles of political parties, or constitutional conventions, to make history. There are other events which may be of more significance happening all about us.

When a local merchant successfully stocks a new line of cars, that is history. When a chain store locates in a town, or the oldest dentist decides to retire, or a new dentist coming in buys the latest equipment that is history. When the Wayne-Wakefield road is graveled, when the Democrat adds to its force, or the county fair is bigger and better than ever before—that is history. We, the citizens of the community, are making history, and we, the Democrat force, are recording it, every week, and we don't know it.

At any rate, you whose names are herein recorded are not in danger of having your names utterly extinguished, the memory of you entirely lost, so long as Niehardt hall shall stand.

THAT TENFOLD INCREASE

"As a result of the entire reorganization of the national scout organization this last year, the number of active scout troops in the Omaha area has increased from 14 to 168," said a news item in the Democrat last week.

This is an inspiring story to us. The Scout movement over the country had grown so fast that the existing organization was unable to handle it. Financial affairs were more or less chaotic and the organization was in the red. Then came an entire reorganization, with the formation of the scout areas, making every scout official directly responsible to the official over him, and putting of the whole on a budget basis. Every unit now knows exactly the amount of money which it is supposed to raise and which will be allotted to it. And during the first year since the reorganization the number of active scout troops in this one area has increased from 14 to 168.

It is another demonstration of what efficiency which is just another word meaning to work together to the greatest advantage of all, will do. Little by little man is learning the possibilities of efficiency.

The farmers are told to work together, to perfect organizations, that it will be their salvation. The churches are stressing more and more the purpose of working together.

The winning poster in the contest sponsored by the New York advertising club for the subject, "Why go to church," depicted the advantages of working together as compared to working separately.

We are growing to be a more trusting lot of beings, less afraid of the rest of us. Those big organizations called corporations no longer frighten us out of our wits. We know now that it is the way they are run, not their size that makes them good or bad. We may learn some day to work with the whole world in one big organization called the League of Nations, or some such name.

Working together, and that only, gets us ahead.

Family Gets Together at Charles Ash Home

Children of Charles Ash All Home First Time in Five Years.

Mr. and Mrs. Charles Ash were hosts at Sunday dinner to all their children August 18. It was the first time in five years that all of the family had been together. Monday evening the group had dinner at the Max Ash home, and Tuesday evening a picnic supper at the Ray Ash home.

The following were present at the dinners: Mr. and Mrs. Fred L. Ash, newly wedded couple, of Julesburg, Colorado; Dr. and Mrs. P. H. Stephens, of Stillwater, Oklahoma; Dorothy Mae Gilger, of Sioux City; Mr. and Mrs. Max L. Ash, Ray Ash, and Mr. and Mrs. Charles Ash, of Wayne.

Mr. and Mrs. Fred Ash left Wednesday evening for Julesburg. Dr. and Mrs. Stephens left at the same time for Stillwater.

Gleaned From Exchanges

GOD'S CHOSEN PEOPLE

This editorial ought to be written in verse and then set to music. And then it ought to be sung in major strain throughout the length and breadth of this fair land. For it is about the 1929 Nebraska crop that it is written. It is of the golden avalanche of wheat and corn and oats and pigs and cattle and sheep; it is of all those blessings that a fertile and properly tilled soil will give back in rich abundance to the laborer who is worthy and not afraid of work.

The year, 1929, say all available statistics will be the greatest crop in the history of the state, yielding a total of more than half billion dollars in crop value as compared to \$471,822,656 in 1928. In 1922, bless your hearts, he total value was only \$289,099,845. It has been going up steadily since, with a slight relapse in 1927, until today we stand face to face with a grand prosperity.

In a song poem of this nature of course, it is difficult not to devote a blue note or two to the demoralizing incapacity of the republican party, to the high protective tariff on woolens, gloves and cyanide of potassium; to the rank instances of sectional bias, class legislation and willful neglect of the middle west while privileges fit to rejoice the heart of a Louis XIV are poured down the insatiable gullets of the industrial interests which, rolling ponderously about in their obesity, always manage, somehow, to stuff down a little bit more.

But who wants a blue note in such a song as ours? Let's forget the big boys of the east for a day and lift up our hearts in a psalm of praise to Nebraska's soil, to the sunshine of Nebraska. After all, in one way, we have licked the big boys. We are what we are not because of them, God knows, but in spit of them. Assisted by a beneficent mother nature and a lot of intestinal fortitude, we have battled them at every step of the way until now, bearing the scars of conflict, bleeding from 67.2 per cent of our pores, we can place one hand on a half-billion-dollar crop and use the other for the wholly laudable purpose of thumbing our collective nose at the industrial east.

Should we Nebraskans, we of the middle west, not, in very sooth, thank thanks to a benign providence for this unmistakable manifestation of His whole-hearted sympathy with our side? We lost out in the election, the special session hasn't done us enough good to crow over, the tariff boosters continue to boost everthing but the things we have to dispose of and yet—ah, and yet?—providence takes a hand and what is the result? Why, we have a half-billion-dollar (\$5,000,000) crop in Nebraska this year and is a crop of which the world wants and jolly well needs by gosh the whole cock eyed output!

Think that over when you say your prayers to-night.—Omaha World Herald.

OUR RELIGION.

Modern methods applied to church as developed by the church group of the New York Advertising club, it seems, have done something effective already. A contest with a one thousand dollar award for a poster, modern method, has laid tremendous emphasis in a striking way on the real service of the Christian religion to civilization. The text of the winning advertising poster says with emphasis what has been in the minds of many, has been uttered from pulpits and platforms and has been justified by the record of two thousand years of the successful teaching of the Nazarene. Quoting from the winning text:

"You want happiness, contentment, prosperity. You can't have these alone you get them only as you help those around you win them, too. So why not join with your neighbors in praying as well as working for them."

"Get the weight of a common aim, a common purpose, behind both your prayers and your work—go to church."

Apart from creeds, dogmas and pet prejudices there is the platform upon which intelligent men and women can and do stand. We may say what we will about church and the religion we believe nurtured in our own backyard. We may say that we are glad we don't belong and there may be the amused expression, "he's got religion," but down in the depths of us, we all have "religion." The only theory of life that is in the last analysis dividing us is that we are not religious in the sense of the word which means "to bind together." In a practical sense, we fail to realize that we cannot be happy and successful if we stand in the way of the success and happiness of others. Our individual regrets and troubles, our national difficulties and our disputes among the nations are due to that indifference which leads to social as well as economic impasse.

A "common purpose" and the ideal "love one another as I have loved you" is still the hope and vital need of the world two thousand years. That implies organization as well as a brotherhood which extends to all right thinking people everywhere. The church, mishandled and misinterpreted as it is in many instances, is the organization based on that common purpose. It is only because of differences of our understandings that we are at outs with each other inside and outside the church. We believe that the church has yet the greatest responsibility of our day. It has the opportunity in a practical, social and spiritual sense.—Omaha World Herald.

WHAT PRICE LEISURE?

At a time of the year when everybody and his neighbor is either just back from, is away on or is about to start for a vacation, it might be difficult to get serious attention to the question of whether we are drifting in this matter of leisure and what is going to happen to us if we get much more of it. Then again, it might be just the right moment, because everybody should have a fairly well-delineated idea of what he thinks about leisure.

It hasn't been so many years since man's chief job centered on keeping alive. After he conquered that he had had problems of shelter and ease to master, and now that he has made the machine the slave of his Aladdin's lamp, he is in danger of dying out because there is nothing worth while to keep him here. The newspapers are full of stories of how wealthy people, freed entirely from even the most commonplace tasks of personal care, have gone to the devil because they could not find anything interesting to do that would keep them sane and well.

One critic says that it won't be long now till all the farm acreage is taken over by the golf and tennis and baseball clubs; all the highways be filled with motor cars carrying people some place they don't particularly care to go, and all the lakes and seashores dotted with the cottages of people desperately trying to find interest in existence.

The movement towards fewer hours has always had support and sympathy of the toilers, and it is they who have wrested this leisure from employers. They object to working twelve and ten hours a day, because it kept them strangers to their homes and home tasks. Now that they have seven and eight hour days and five and a half day weeks they are just as busy as anybody else trying to find some form of pleasure that is different from a way of passing the time.

But like the dangers of wealth, nobody pays attention to the warning signs. Everybody who has not had experience wants it, and thus the world wags on.—Lincoln State Journal.

I saw the much advertised bull fight Saturday night and found it sans bulls sans fight, sans fighters and certainly the tamest show I've seen in a long time. The five Brahman bulls turned out to be three trick steers who did their clown stuff with less kick than there is to the average milk cow in the average farm pasture. The Mexican toreadors, matadors and what not dors looked like they were grabbed off some section bunk car long past sleeping hours. It is really too bad to have that sort of thing foisted off on a community that deserves better. Publicity peddlers have much to be forgiven for. Attorney General Sorenson should see to it that there be a law passed against throwing the bull as evidenced hereabouts the past two weeks. Norfolk has passed its frontier days. Rodeos don't interest this community much and when slapstick stuff is offered for the real thing the resentment of the public is prompt. This should be plenty of experience in the rodeo line.—Norfolk Press.

THE TRUTH ABOUT WOMEN

Gorki and Tchekov were walking in the Crimea. They came upon Tolstol as he sat on the beach, his great head bent in meditation, his beard sweeping the sand. They squatted down beside him and began to talk about women. For a long time Tolstol listened in silence. Then suddenly he said: "And I will tell the truth about women only when I have one foot in the grave, I shall tell it, jump into my coffin, pull the lid over me—and say, 'Do what you like with me now.'"—Will Durant.

Vital statistics show more babies surviving the ills of infancy than ever before. Credit goes to mothers with that. Doctor Burris Jenkins says: "Young America is certainly daring these days, experimental, exploratory, investigative, but they seem to be getting by without more catastrophes and scandals than there have been in other times."—Norfolk Press.

NO MEAT RECIPES

Oakland, Nebr., August 18.—To the Editor of The World-Herald: We hear from Washington over the radio program given by the department of agriculture, and in their cooking lessons they always try to avoid any recipes containing meat. I don't see how they can call themselves an agricultural department when agriculture is a meat industry as well as grain industry. They will give oodles of recipes for substitutes for meat made from cereals, salmon, crackers, and everything under the sun that the farmers don't have to sell, dope it all together, bake it, and eat it as a substitute for meat, the ingredients costing more than a nice meat loaf or some sliced boiled ham, and it's a whole lot harder to digest.

What we need is some programs giving recipes how to prepare meats so as to be the most appetizing and the easiest to digest. Now in days of waterless cookers meat is so easy to prepare. Just put any kind of ribs, roast, steak or chops in the cooker, put in a few potatoes, set on stove or gas, if gas is turned low, go to church or lie down and sleep. When you get ready to eat it's done, no baking or stirring or worry of any kind. And a pork roast done that way is more easily digested, that fried fish or baked salmon. Our "eat more meat" association should see to it that these "agricultural" programs from Washington, D. C., are corrected so as to correspond with agriculture.—Mrs. Rennerfeldt, in the Omaha World-Herald.

CRADLE

BEEKS—To Mr. and Mrs. Roy Beeks of Wayne, a son, Monday August 19.

RETHWISCH—To Mr. and Mrs. Walter Rethwisch of four miles north of town, a daughter, Wednesday, August 14.

At the Wayne Hospital

Mrs. Irene Greenfield had a major operation August 14. She will return home Friday, August 23.

Malinea Brockendur of Wisner, Nebraska underwent a minor operation August 15.

Mrs. Floyd Shreve was a medical patient August 18.

Mrs. Lang of Carroll, Nebraska, underwent a major operation August 18th.

Mr. John Davis of Winside had a stroke of paralysis August 18. He is much better now and is able to walk around.

Dr. Victor Simon of Winside was a professional visitor at the Wayne hospital August 19.

Dr. Burgess of Norfolk was a professional visitor at the Wayne hospital August 20.

Elsie Jamieson of Cheyenne, Wyoming is in a critical condition at the Wayne hospital.

Two Are Fined in Wayne Co. Court for Offenses

Judge Cherry Imposes Fines on Frank Hamm and on Cedar Co. Man.

Frank Hamm was found guilty of assault on John M. Peterson in county court last Thursday morning, by Judge Cherry, who fined him \$25.00 and costs. Hamm struck Peterson, it was said, and knocked him down in an altercation while threshing.

Monday, Frank Riebe, of Hartington, was found guilty of passing a bad check. His fine and costs were \$28.00. Riebe had bought nursery stock of D. Hyl, and had paid for it with a bank check which proved to be no good.

Splendid 320 Acre Stock Farm at a Bargain

Just the place for a man with a large family who wants to raise cattle, hogs, alfalfa and corn.

Exceptionally fine improvements which cost at least \$12,000, all newly painted and in good repair, as follows:

A good house, 7 rooms with small basement and outside cement cave; barn 52x64 (room for 20 head of horses, 600 bushels of grain and 100 head of stock cattle); 2 hog houses, corn crib 32x32, built so it can be used with elevator, cow barn 20x40, granary and garage combined about 32x32; splendid water at house and in yards. Buildings sheltered by a good grove.

Farm is all fenced and cross fenced; woven wire tight except 80 acres.

Soil is dark loam, especially adapted to corn and alfalfa. Land is level to gently rolling, no hills or gullies. One small spring creek runs the year round.

The same tenant has occupied this farm for 17 years. It has always been used as a stock and grain farm.

Location is northeast of Laurel.

Price \$100.00 per acre. \$6,000 to \$8,000 required to handle, and owner will carry balance of price in a mortgage. This farm was acquired by the present owner through foreclosure who does not want to continue to own it, preferring to have his investments in mortgages instead of land.

LOCAL AND PERSONAL

Burret W. Wright and R. L. Larson went to Omaha yesterday morning on business.

Mr. and Mrs. Fred L. Blair and family are spending their vacation at Lake Okoboji.

Mr. and Mrs. W. Weber spent Sunday in Sioux City visiting their friends, Mr. and Mrs. Robert Utter.

Miss Edith Beecher arrived at the home of Mrs. Homer Seace Wednesday August 21, to enjoy a several day's visit.

Mr. and Mrs. Oscar Liedtke and daughter, and Mr. and Mrs. Wm. Dammeyer were Sioux City visitors Sunday.

Pres. and Mrs. U. S. Conn are planning to leave next week for Minnesota where they will spend their vacation.

Mr. Ralph Sterling and wife from Sioux City and his sister, Ruth Sterling, called on Wayne friends Sunday afternoon.

Charles Senter of Sioux City spent the week-end with his parents, Mr. and Mrs. V. A. Senter of Wayne.

Mr. and Mrs. Grant S. Mears accompanied Mr. and Mrs. F. M. Griffith to Lo Val Lake Sunday afternoon.

Mrs. M. C. Clark of Randolph spent two weeks with her sister, Mrs. J. M. Cherry. She returned home Friday evening.

Miss Mildred Piper arrived home Sunday evening from the Black Hills and from Sioux City in which places she had spent her vacation.

Mrs. Walter C. Lowrie returned home Tuesday afternoon from Kansas City, Missouri, where she had spent about ten days with her sister.

Mrs. Herbert Welch and children, and Mr. F. G. Philleo and son Franklin returned this week from a ten days' outing at Spirit Lake, Iowa.

Samples now ready for ladies tailored coats at Gamble's.

Mr. and Mrs. T. E. Chaney of Chicago were Sunday visitors at the home of Mr. and Mrs. James Pile of this city. Mr. Chaney is Mrs. Pile's brother.

Mr. and Mrs. C. H. Stansbery of Colome, South Dakota, were visitors in the C. H. Hendrickson home this week. They motored to Omaha Wednesday.

Miss Wilma Swanson of Bloomfield, Nebr., came to Wayne Monday on the train to visit her aunt, Mrs. Frank Sederstrom. She returned home the next day.

Mr. and Mrs. K. N. Parke and family are expecting to leave the last of this week for Illinois where they will visit Mr. Parke's people during the college vacation.

Lou Owen reports that his oats has made a yield of 66 bushels per acre, not counting the loss of about five bushels per acre due to the wind's having blown the oats down somewhat.

H. G. Hostetter motored to Sioux City Wednesday.

Martha, Agnes, and Walter Johnson of northwest of Concord were Monday evening callers at the Ablin Carlson home.

Andy A. Chance, who was taken to an Omaha hospital three weeks ago Saturday, and who has been seriously ill, is slowly improving.

Mr. and Mrs. A. V. Teed, and daughter Janice Mae, returned Wednesday afternoon from a two weeks' vacation at Lake Okoboji.

Mr. and Mrs. Wm. B. Vail are expecting to arrive home tomorrow evening from Illinois where they have been spending a two weeks' vacation.

Miss Ila Zellmer, of Gordon, arrived last Thursday for a visit of about a week with Miss Kathleen McGuigan. Miss Zellmer used to live here with her parents at the time they ran the Boyd Hotel.

Mr. and Mrs. Howard James and daughter leave this coming Monday for Longmont, Colorado, for a stay of three weeks or longer with Mrs. James' relatives.

H. G. Hostetter and his mother are starting today for a motor trip to Wheatland, Wyoming. They expect to also drive on to Yellow Stone park and into Montana. They plan to spend about three weeks traveling and visiting friends.

Mrs. May Young of Aurora, Illinois, who has been visiting at Bailey arrived at the home of Mr. and Mrs. H. J. Miner Tuesday. Mrs. Young and Mrs. Miner are old friends, having lived near one another in Illinois several years ago.

Miss Emma Larson, with her sister, Rose Larson who is a private secretary with a large concern at Denver, is visiting at her home at Clairmont, Iowa. The two drove thru from here in Miss Emma's new Ford. They expect to return the first of next week.

Mr. F. A. Furness of Denver, his wife, and his three daughters arrived at the J. M. McMurphy home Monday afternoon. Mr. Furness is a brother of Mrs. McMurphy, and he and his family are spending a few days visiting relatives and friends in Wayne and vicinity.

Mr. and Mrs. H. G. Mears of Omaha, their son John, daughter Lenette, and June and Jack, arrived in Wayne yesterday to spend a few days with Mr. Mears parents, Mr. and Mrs. Grant S. Mears. Mr. Mears is office manager of the Ice Machine Corporation of Omaha.

Mr. and Mrs. Henry Ackerman of Long Beach, Calif., arrived Tuesday afternoon at the home of Mr. and Mrs. David W. Noakes of Wayne where they will stay a few days for visit. They have been visiting about three months in Illinois and are on their way back to California.

Over 200 store buying power at Gamble's.

Farmers in the County Almost Thru Threshing

Yield of Small Grain Large All-Over Wayne County.

Except for the straw piles, the fields of the county are now looking pretty bare, as this last week almost completed the grain threshing in Wayne county. Reports of grain yields everywhere were favorable, with the average yield per acre of oats probably around 45 bushels and individual yields running as high as 70 bushels. Barley yielded a little heavier yields.

A few of the farmers have begun their fall plowing, but the majority are waiting for a rain, as the surface soil over much of the county is dry and has a tendency to break up in lumps when plowed.

Altho corn in most of the state is suffering from lack of moisture, it is not badly in need of rain here, tho a rain at this time would do no harm, the farmers say. Indications are for one of the best corn yields here that the county has seen in years. Most of the corn will be safe from frost in another three or four weeks.

THIS LICENSE BUSINESS
This license business is getting my goat. The first thing I know I'll have to secure a license to breathe, smoke, eat, sleep, or imbibe. Want to get married? Buy a license. Want to hunt or fish? Buy a license. Want to drive an automobile? Buy a license. Want to keep a dog? Buy a license. Want to own an automobile? Buy a license. The physician who ushered you into the world must have a license. The undertaker who will embalm your remains must have a license. The druggist must pay a license, the tobacconist must pay a license, the cafe manager must pay a license, the lawyer must have a license, the barber must have a license. The beautiful darn such spelling—manager must have a license. I am going to pass a law doing away with all forms of license.—Hastings Democrat.

New Equipment Added at Wayne High School

May Add Section to Kindergarten; Parents Should See Supt. Best.

Six new noiseless Remington typewriters have been recently bought for the commercial department at the Wayne high school to replace older machines. The noiseless machines will make instruction easier by the teacher, as she will be able to talk while the machines are running.

There are 12 typewriting machines in the commercial rooms, six of them Underwoods. The machines are replaced every three years, and it is planned later to replace the Underwoods with noiseless machines.

In the athletic department new football outfits have been purchased, including 12 suits of pants and jerseys, and replacements of headgears and shoulder pads. These were purchased thru the F. H. Jones book store.

Change in Kindergarten
At the recommendation of Miss Minnie Will, kindergarten teacher, there probably will be two groups, of the older and younger children, formed in the kindergarten this year. This will be done unless the enrollment is so large as to make the plan unfeasible.

Parents who intend to enter children in the kindergarten should get in touch with Supt. C. R. Best at the high school soon after September 1, and have them registered. This will aid the school in making plans for the management of the kindergarten.

A number of the school teachers are returning within the next few days. Miss Will returned Wednesday from Portland, Oregon, where she had spent a six weeks vacation. R. K. Holder, athletic coach, is expected to return about September 1, and Mrs. Lulu Waite, who is in charge of the school exhibits at the fair, will be here shortly after.

Several People Visit On "Hill" During Week

Among the visitors on the college campus during the last week or two were:

Mr. V. F. Wilson, class of 1916, and his sister Mrs. Grace Ford, class of 1917, who are now editing a newspaper at Morehead, Kentucky, who visited with friends. They had not been back to Wayne for some ten years, and observed many changes and improvements.

Mr. Ivil Montgomery, class of 1914 and his wife, formerly Ethel Clayton, class of 1916, who called at the College. Mr. Montgomery is superintendent at Wilber, Nebraska.

Mrs. Paul Schaffer of Prescott, Iowa, formerly Elsie Meyer, class of 1916, who visited at the college a short time.

Miss Alice Pearson, class of 1919, was at the college on Tuesday. She teaches English at Stambough, Michigan.

Quartet Program at College Tuesday Night

Supt. E. R. Rogers, Former Student Here, Takes Part.

The Faculty Male Quartette, consisting of Messrs. E. L. Corbit, A. F. Gulliver, Walter C. Lowrie, and J. G. W. Lewis, gave a program at the college auditorium Tuesday evening for the benefit of the training school equipment fund. They were assisted by Supt. E. R. Rogers of Madison, Nebr., who gave a number of humorous songs and readings. Miss Marjorie Maryot of Chadron, student here, also assisted. As a surprise part of the program, Misses Dorothy Gulliver, Jeannette Lewis, and Irol Whitmore gave dances including the Highland Fling and a Negro clog.

Mr. Rogers is a former student of the Wayne State Teachers' college and is also a former member of the Faculty Quartette. He was accompanied by his family to Wayne and was a guest at the J. G. W. Lewis home.

Infant Daughter Is Buried Here Saturday

Two-Weeks Old Olson Baby Dies in Wisner Friday.

At the Beckenhauer funeral parlors last Saturday afternoon were held the burial services for Betty Lou Olson, infant daughter of Mr. and Mrs. Anton H. Olson, of northwest of Wayne, who died Friday, August 16. Interment was in the Wayne cemetery. The baby was born in the Lutheran hospital at Norfolk August 1, and passed away last Friday at the home of its grandparents, Mr. and Mrs. Bruse, in Wisner.

Sioux City Market Report

(Furnished by Steele-Siman Com. Co.)
Sioux City Stock Yards. Heavy liquidation of live stock caused bearishness in the markets again this week. Most of the cattle showed losses and all grades of hogs slumped sharply while the lamb trade recovered after a low opening.

Cattle receipts were much heavier than expected at all centers on the first day of the week and a big increase was noted over previous Monday. The increase was made up of shipments from the range country.

Cornfed steers and yearlings were rather scarce on both Monday and Tuesday and the market held about even with the close of last week. Some strength was in evidence on choice medium weights and a top of \$16.40 was paid for 84 head of 1,176-pounders a record price for the season and the highest mark of the year, outside of one sale early in January. A springling ranged down to \$15.00 with the big bulk at \$12.75 and \$14.75.

Grass killing steers met with a rather slow reception and sellers were forced to take off a quarter in order to clear. Sales were made mostly from \$12.50 down with choice hard finished kinds quoted around the \$13.00 mark.

Desirable stockers and feeders found an outlet at close to steady prices while plainer grades eased off a quarter and some were carried over from day to day. Receipts were by far the heaviest of the season but general quality was better than usual. Demand from the country has picked up considerably of late but not enough to absorb the sudden sharp increase in receipts.

Sales were made around \$12.00 to \$13.00 on good choice kinds with fair to good at \$10.00 to \$12.00 and plainer lot down to \$9.00 with common forced values lower.

On the second session, light weights sold at \$10.65 to \$10.85. Medium weights ranged at \$10.25 to \$10.65 with strong weights at \$10 to \$10.35 and heavies from \$10.00 down to \$9.50 or so. Bulk of the hogs sold at \$8.50 to \$9.00 with a few at \$9.10 and a top at \$9.15. Stags brought \$9.00 to \$9.75. A few pigs sold downward from \$10.00.

The lamb market took a quarter loss on Monday but was strong to a quarter higher on the following day. The top was \$13.00 on Tuesday with choice westerns quoted a trifle higher. Ewes slumped 50c with the best at \$6.00. Feeding lambs held steady with choice rangers at \$13.15.

Over One Hundred Baby Beeves to Be Shown

Call Exhibits Will Exceed All Previous Years.

The largest 4-H club display ever will be given at the Wayne county fair this year, according to present expectations. The calf exhibit of the Baby Beef clubs of the county will total over 100 head it is thought, which is more than the barn provided will accommodate. The barn has a capacity for 75 calves. A tent probably will be erected for the extra calves this year.

The 34 members of the Wayne Baby Beef club are raising 48 calves and expect to exhibit them all at the fair. Most of the calves are making a fine showing. The Winside Baby Beef club has 26 members and plans to show 33 calves at the fair. Frank Wilson is the club leader. The club at Hoskins has 14 members who are showing 16 calves. Arthur Behmer is the club leader at Hoskins.

The Wayne Pib club, of which Joe Beckenhauer is the leader, will also exhibit at the fair. The 12 members probably will each show a spring gilt.

The names of the Wayne Baby Beef club members and the breeds of calves they plan to show are as follows:

Ernest Splittgerber, two Herefords; Junior Steele, a Hereford; Dean Baird, a Hereford; Hershel Baird, a Hereford; Clarence Hoeman, a Hereford; Edward Dunklau, an Aberdeen Angus; Donald Baird, a Shorthorn; Victor C. Lion, a Hereford; Dale Stiles, a Hereford; Donald Lutt, a Shorthorn; LeRoy Stamm, an Aberdeen Angus and a Shorthorn; Leland Stamm, an Aberdeen Angus; Blaine Auker, a Hereford; Frank Claycomb, two Herefords; John Claycomb, two Herefords; Ivan Chambers, a Shorthorn; Leonard Blecke, two Aberdeen Angus; Willard Blecke, Aberdeen Angus and Shorthorn; Elmer Harder, Aberdeen Angus and Shorthorn; Willard Heesch, Shorthorn and Hereford; Ronald Jonson, Aberdeen Angus and Hereford; Robert McEachen Shorthorn and Hereford; Donald McEachen, two Shorthorns; Evaline-Victor, Shorthorn; Donald Carlson, Hereford and Shorthorn; Walfred Carlson, two Herefords; Bernice Splittgerber, Shorthorn; Burdett Nygren, Shorthorn; Bernadine Meyers, Shorthorn, and Alvin Carlson, Shorthorn.

McMurphy Wins at the Tri-County Tournament

Leo McMurphy, local boy, won both the doubles and the singles championship at the Tri-County Tennis tournament which was completed Tuesday at Pierce.

Leo defeated Alfred Calvert of Pierce, in the single finals, after dropping to him the first set, coming back 14-12, 7-5, 6-4 for a win.

McMurphy and Glen Davis, of Norfolk, who played together in the doubles tournament, defeated Alfred Calvert and Charlie Chivers, both of Pierce in the semi-finals. It was a close match, the score being 6-4, 6-3, 6-4. In the finals they defeated the Durfee brothers, of Pierce, 6-3, 6-1.

W. S. T. C. Summer School Closes This Friday P. M.

All the classes of the second summer session at Wayne State Teachers college will close this coming Friday afternoon. The fall semester will open September 16, both the college classes and the training school. There will be no activities at the school in the meantime except routine work by the officials and a general repairing and cleaning up of the buildings in preparation for the opening of school.

Former Wayne Man is Critically Ill in West

William L. Fisher, former Wayne man, and who has a number of relatives in this part of the country, is critically ill in a hospital in Los Angeles, according to word received by Judge J. M. Cherry Wednesday morning.

Mr. Fisher has been making his home in California for the past two years.

Winside Boy Has Arm Reset at Norfolk

It was necessary last week to re-break the arm of Paul Hillier, nine year old son of Mr. and Mrs. W. R. Hillier, of Winside, last week at the Norfolk hospital. The boy broke one of the bones in his arm several weeks ago when he fell from a pony. An X-ray taken later showed that the bone was not knitted in its proper place. It was necessary to rebreak the arm.

THE WEEK'S NEWS

Bits You May Have Overlooked in the Daily Press

Mayo and Prohibition

Dr. Will Mayo, of the Mayo clinic at Rochester, Minnesota, recently spoke at Manchester, England and mentioned prohibition. He said, "The great middle class in America is no longer drinking. The class at the top and the dregs at the bottom are still at it. The saloon is gone, and no one wants it back. Liquor is scarce and what there is is not safe."

Burlington Buys Busses

According to E. P. Bracken, operating vice president of the Burlington railroad, who passed through Nebraska last week on a periodical inspection trip, the Burlington is buying bus lines in a number of traffic centers in Burlington territory. The most recent was the acquisition of the Clarinda-Omaha line. Busses are being taken over where the traffic conditions warrant the purchase he says, and the bus traffic is showing some growth.

Doran on Prohibition

Prohibition Commissioner Doran in an address before the institute of public affairs at the University of Virginia, declared that the state police powers must be developed more fully and states discharge more fully the constitutional duties in regard to prohibition, or else the national government must extend its facilities to perform every function, great and small, of prohibition enforcement.

Nebraska Ranges Excellent

The state department of agriculture reports this month that cattle and pastures in the west of Nebraska are excellent, with plenty of grass and hay in the sand hills. In the states further west dry, warm weather in June cut the supply of range feeds, although July rains improved conditions somewhat.

Record Freight Traffic

Freight traffic on railroads of the country is the greatest on record for this season of the year. At least that was thannon cement last week of car service division of the American Railway association. Revenue freight cars for the week ending August 3 totaled 1,104,193 cars, which was 55,372 cars above the corresponding week last year, and 80,155 cars above the same week in 1927.

Bartenders Become Soda Jerkers

The Bartenders' International League of America changed its name last week at the end of its annual convention, held in Kansas City, and now will be known as the "Beverage Dispensers' International League of America." All the bartenders are selling soft drinks, and the old name does not apply.

No Rest at the Hoover Camp

A the president's fishing lodge in the Blue Ridge mountains last week Hoover became chief engineer and directed his guests in the building of a dam over the Rapidan River. Among his aides in the building of the dam were Col. Charles A. Lindbergh and Secretary Hyde.

Last G. A. C. Passes

When John Crook passed last week at Meadow Grove, the last veteran of the Civil war was gone from that town. He was 89 years of age. Mr.

Omaha Now 225,000

Omaha now has 225 thousand people, says E. W. Edwardson, of the Chamber of Commerce publicity bureau. His estimate is based on the government estimate of July 1, 1928 that Omaha population at that time totaled 222,300.

Sinclair Wants Pardon

Harry P. Sinclair, serving a term in the Washington jail under sentence for contempt of the senate and for jury shadowing, has appealed to President Hoover for executive clemency from his sentence. The basis of his appeal was not made public.

Paralyzed, Excels as News Reporter at Carroll

Mrs. Maud Smith is praised by Slou City Tribune for work.

For sixteen years, paralyzed from the hips down, Mrs. Maud Smith of Carroll, Nebr., unable to move unaided, from her bed, is acting as local reporter for the Carroll News. Each week her writing fills the local page of the paper, and there's little of any importance that is not recorded by her pen.

On the window sill at her bedside is a telephone, and also pencils and copy paper. By telephone she visits many persons each day, and friends ring her up day or night to give her choice bits of news. Frank Kelley, the veteran editor of the News, often gives her assignments and she gets the facts quite as well as though she traveled around in person.

Of her work Mrs. Smith says: "Of course there are times when I feel blue and discouraged, but I learned early soon after my injury, that I must look on the bright side, learn to count my blessings, and above all to take an interest in the affairs of others. From the nature of my injury I must be more or less of a burden to others, and how wrong it would be of me to add to their burden by a complaining spirit.

"My arms and hands are as active as ever and I have enjoyed doing fancy work, making bead necklaces and yards and yards of tatting.

"Writing for the paper has been most interesting, and I surely thank those good friends who have helped me and whose kindly voices over the telephone are at once encouragement and inspiration."—Slou City Tribune

New York Company is Offering 4-H Club Prize

By writing an essay on "What happens to milk in various forms and products between the farm and the consumer's table," some 4-H club dairy member in Nebraska will earn a prize trip to the National dairy exposition at St. Louis, Missouri, this fall. This announcement has just been received by dairy club leaders and members in this state.

The Dairy and Ice Cream Machinery and Supplies' Association, a dairy equipment company in New York City is offering the prizes for this contest according to the 4-H club committee of the National dairy exposition. There will be one prize trip for the winner in each state. The winning essay from each state will be sent to the National dairy association to have the national winner selected. The winner of the national contest will receive a gold watch.

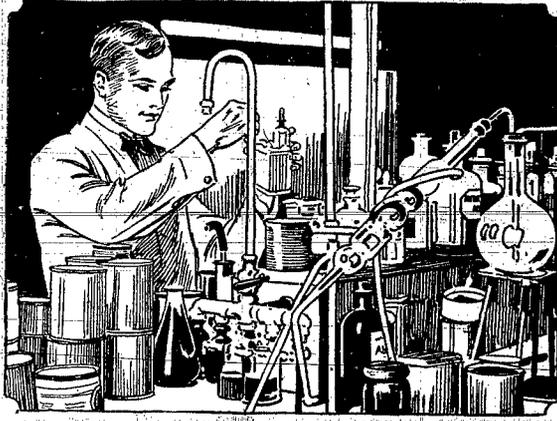

Nearly all the Nebraska dairy club members will enter the contest, said L. Y. Frisbie, state leader of boys' and girls' clubs. All essays are due at the state club office in Lincoln not later than September 15, he said. The state winner will be determined by a committee appointed by the club office. The St. Louis daily show opens October 12.

A SELF-WINDING WATCH

A perpetually self-winding wrist watch recently received by Leo Hewitt is something of a curiosity. Recent experiments in the Harwood Watch company's factory have produced the new watch, which keeps itself wound by means of the natural motions of the arm of the wearer while the watch is strapped on the wrist. The timepiece sells for \$55 and Mr. Hewitt believes its invention to be of great importance to the watch making industry. There is no stem—the hands are set by turning the frame which holds the crystal. The self-winding movement marks the third great epoch in watch construction. First came the key-winding watch of our forefathers; next the stem-winding watch with which we are all familiar, and now the self-winding watch of the future. —Nelson News.

Suits Modern Speed

"A UTRE temps, autres mœurs" is an old French saying, which means "Other times, other ways." And this characteristically terse Gallic summary of one all-embracing fact applies not only to manners, morals, dress, deportment, diplomacy, customs, habits, even conversation and education, but also to foods. Could we, for instance, live as we do in this speedy Twentieth Century without canned foods? The mere fact that we put up more than 9,000,000,000 cans of them a year in the United States alone supplies the answer to this question.

Safe Celerity

But this is a scientific age and the public demands not only speed but safety. So it sets its scientists to work to make sure that food that comes in cans is as safe and good

for people as the forms in which our forefathers ate their food. The answers to this question are being published every day, and they are all in the affirmative. A recent editorial in "American Medicine," for instance, said in part:

"The food cooked in the factory caldron is as safe as the food heated in the family kettle. The cleanliness of the commercial product is no less than that prepared by mother's hands. The stress and strain of modern living, the varying facilities in cooking, the increased variety of foods available at all seasons, have given an impetus to canning in the home, but even more so to canning outside the home. Canned foods, whether produced in the house or in the cannery, have proven their value, their nutritional usefulness, their economy and above all their safety for public health."

Visiting Boston Lawyer Strong for Weeklies

Judd Dewey, a Boston attorney who recently visited at Hartington while on his yearly vacation, which he tries to spend in the west, is strong for the weekly paper.

He says, "Country weeklies are coming to have a stronger hold as the big family papers in homes' all over America. Not only are they assuming a place of importance, but they also are fulfilling a need in the homes that the daily papers cannot reach." "Proof that the country weeklies are so important is shown in the class of advertising they do, of the national concerns who are increasing their advertising in the better class weeklies" believes Mr. Dewey who has had frequent contact with all types of newspapers in his law work.

Speaking of the small New England towns, he says they are not economic units as are towns in Nebraska. "A town of two or three thousand wouldn't be anything in the east, but here in Cedar county, it is a thriving municipality, economically independent. In New England a town like Coleridge might have a factory, but it wouldn't have stores, banks or elevators."

THE ART OF SIGHT-SEEING

A keen-eyed visitor to a great factory where thin, waferlike razor blades are turned out by the million, after watching the swift movement of an endless belt that carried the finished steel product to its proper destination, remarked to the guide: "Well, a good many of these blades must fall off the belt during the day and get lost in the sweeping."

"We don't lose a single blade," replied the guide. "When the factory closes at 5 o'clock, men with powerful magnets pass along the belt's route, and all the blades upon the floor are instantly attracted and cling to the powerful magnet. In five minutes we recover hundreds of scattered blades."

There are scores of factories, easily accessible, and other interesting places where the investigating sight-seer may acquire equally worth-while information about the activities of

ALL READY

When the Gates swing open Friday morning, August 30, we will be ready to prove all we have said about the State Fair.

mind that wants to know.

Travel continues to be the great educator, the master interpreter of the printed page, if only the traveler acquires the art of putting well-directed purpose into his quest. Then sight-seeing ceases to be a fitting succession of aimless excursions, but a rich experience in sympathy and understanding. — Christian Science Monitor.

Levies in Cedar County and Towns Are Lowered

The board of county commissioners of Cedar county met last week and fixed the county levy for 1929 at 3.8 mills, which is .04 mills lower than 1928. Randolph made a material cut in its levy, lowering it from 17 to 15 mills. Coleridge also reduced its levy, from 11.4 mills to 10 mills. Hartington's levy remains the same, 10.4 mills.

Pender Woman Passes

Mrs. James W. Maloney, 65 year old Pender woman, 30 years a resident of Pender, died at the Maloney family home August 10. She was buried in Rose Hill cemetery at Pender.

NOTICE OF HEARING

In the County Court of Wayne County, Nebraska.

In the matter of the Estate of Charles A. Killion, Deceased. The State of Nebraska, Wayne County, ss.

To all persons interested in said Estate:

You, each and all, are hereby notified that Tinna Killion has filed a petition in said court alleging that Charles A. Killion departed this life intestate on or about the 14th day of July, 1929, and praying that Tinna Killion be appointed administratrix of said Estate. Hearing will be had on said petition before me at the county court room in Wayne County, Nebraska, on the 23d day of August, 1929 at 10 o'clock A. M. (seal)

J. M. CHERRY,
County Judge.

SHERIFF'S SALE

By virtue of an Order of Sale, to me directed, issued by the Clerk of the District Court of Wayne County, Nebraska, upon a degree rendered therein at the March 1929 term thereof, in an action pending in said court wherein Frank F. Korff was plaintiff and Alvina M. Korff, Executrix of the Estate of Henry Korff, Deceased, et al were defendants, I will, on the

2nd day of September, 1929, at 10 o'clock a. m., at the door of the office of the Clerk of said Court, in the court house in Wayne in said county, sell to the highest bidder for cash, the following described real estate, to wit: Lot One (1) and the North forty (40) feet of Lot Two (2) all in Block Twelve (12) of the Original Town of Wayne, Wayne County, Nebraska, to satisfy the aforesaid decree, the amount due thereon being \$2968.00 with interest at 10 per cent from April 15th, 1929, and costs and accruing costs.

Dated at Wayne, Nebraska, this 20th day of July 1929.

A1-5t A. W. STEPHENS, Sheriff

Don't Make a Toy Out of Baby - Babies Have Nerves

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep. It contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 35 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

CARBON KNOCK?

fill up with
RED CROWN ETHYL
and forget it

No knocking—no matter how heavy a load you put on your motor. Power your car has never developed before—when you put Red Crown Ethyl in the tank.

Smoother, quieter, more flexible driving under all conditions. These are some of the amazing results of Red Crown Ethyl.

Made from high-power Red Crown Gasoline—plus the famous Ethyl compound. Costs a bit more by the gallon—but not by the mile. Try it.

3 to 1 favorite...

In 1928, Nebraska motorists bought three gallons of Red Crown Gasoline for every gallon of the next most popular brand. A preference based on the unusual performance of uniform, balanced Red Crown Gasoline.

Use of Combine Fast Increasing on Farms

Machine Will Facilitate Practice of Double Cropping.

(Prepared by the United States Department of Agriculture.)

Summarizing an article on "The Influence of the Combine on Agronomic Practices and Research," John H. Martin, of the United States Department of Agriculture, says:

"Extensive use of the combine probably will result in a decrease of diversified farming and increases both in the size of farms and fields and in the practice of early tillage. The combine also will facilitate the practice of double cropping in some sections.

"The use of the combine is limited much more by the type of farming than by climatic or topographic conditions.

"Combining will probably largely solve the problem of organic matter in the soil in the regions east of the Rocky mountains by immediately returning the crop residue to the land, if needed.

"The usual loss of straw for feed in combining probably will be compensated for growing feed on land now used for green-manuring crops. If straw is desired for feed, it can be saved by some additional labor.

"Crop varieties susceptible to lodging can be harvested more efficiently with a combine than with a binder. Only a few varieties of wheat will ever shatter enough to cause appreciable losses, but most varieties of oats and some of barley will shatter unless harvested as soon as they are ripe enough to combine."

Sweet Clover Big Help in Improvement of Soil

(E. B. WELLS—Extension Soils Specialist, Kansas Agricultural College.)

Sweet clover as a soil builder "tops" all other legumes. Being a legume, it has the power of taking free nitrogen from the air and using it in the building of its own tissue and storing some in the soil for use by the crops which follow.

Plenty of lime and proper inoculation are the only requirements needed by sweet clover for a good stand.

By growing sweet clover which draws upon the subsoil for a large amount of its mineral elements and then plowing the crop under for following crops in the rotation, the sweet clover enthusiast is able to utilize his soil to much greater depth than is ordinarily the case.

Sweet clover has been found to be superior to most crops in its ability to utilize the phosphoric acid of raw rock phosphate. Such a fact suggests the combination of raw rock phosphate and sweet clover for green manure as a source of cheaper phosphoric acid, and at the same time offers a possible solution of our soil fertility problem.

Secure Better Results From Various Hay Crops

For best results timothy hay should be cut when in full bloom. Clover should be cut when it has reached full bloom. If allowed to stand too long, many clover leaves will turn brown and fall and the stems will become woody. Such hay has less feeding and market value than hay cut at the proper time.

Mixtures of clover and timothy are best cut when the clover has reached full bloom. Red clover is usually ready to cut ten days to two weeks before timothy.

Alfalfa should be cut when 10 to 25 per cent of the crop is in bloom. Alfalfa that is putting forth new shoots from the crown should be cut without regard to bloom.

Farm Notes

No foders are better for growing bulls than alfalfa, clover and vetch hay.

Spraying with the bordeaux or some other fungicide is practiced to prevent tomato blights.

Sweet clover may be seeded in bluegrass pastures to supplement these at times when the blue grass is at its poorest supply.

Unless they have two full-size hive bodies, bees in any colony, headed by a young and vigorous queen from good stock, are likely to swarm.

Sweet clover is not as palatable as red clover or alfalfa, but it provides plenty of forage and will grow under conditions distinctly unfavorable to alfalfa.

Most good clay soils are benefited from plowing occasionally at a depth of six or eight inches. Many other soils need not be plowed over four or five inches.

Many farmers recognize birds as a valuable ally in the warfare against insect pests, but few know that when the birds cease their daylight activities the battle is taken up by another important ally—the toad.

Although toads, like birds, devour some beneficial insects, they more than compensate for such indiscriminate feeding by eating termites, beetle larvae with injurious or potentially injurious habits, plant sucking bugs, voracious caterpillars, and other noxious insects.

Ancient Property Laws Protected the Weaker

The oldest Greek statute now extant, governing the disposition of "real" property, comes from the island of Crete. This is the law of the city of Gortyna, dating from perhaps B. C. 400. This inscription, the largest existing fragment of any Greek law, came to light less than fifty years ago; for the stones on which it was chiseled had been buried for 2,000 years or more and its discovery made a sensation in the learned world. It was about thirty feet long in its original form; the broken pieces are now scattered in several museums.

These laws show that more than 2,000 years ago women in this Cretan city could own property. Moreover, the law provided that a husband could not sell or mortgage his wife's property, nor could a son dispose of his mother's property. If a mother dies, says this ancient statute on property, and leaves children, the father has power over her property, but he cannot sell it or mortgage it unless the children consent, when they come of age. Moreover, if the father marries another woman after the first wife's death, the children of the first wife shall have power over their mother's property. Penalties are provided for the violation of any of these provisions.

Origin of Vegetables in Common Use Today

Celery is spoken of in the "Odyssey," and is later mentioned by Pliny the Elder, which leads scientists to believe it must have originated either in Greece or the Dardanelles. Lettuce also is native to Greece. Sesame, walnuts, peas, spinach, watermelon, were all known in China 200 B. C. Spinach was also brought back from New Zealand by Cook after his famous voyage. Sweet potatoes were known in China 2700 B. C. Radishes were cultivated in Japan and China from the earliest historical records. Bananas, first thought to have originated in Asia, are now known to have had their origin in Central and South America. The first records of figs were found in an early drawing in the Pyramid of Gizeh, Egypt, 2300 B. C. From America prickly pear, maize and tobacco were first imported into Europe and Asia after the voyage of Magellan, 1520-21. Cabbage was first known on the Isle of Lapland, Denmark, and on the Isle of Heligoland. Salsify was native of Greece, Dalmatia, Italy and Algeria. The Jerusalem artichoke was discovered about the same time, 1616, in both Brazil and Canada. Garlic originated in Sicily.

Dead Letters

Despite the legend on the General Post Office building in New York city, "Neither snow nor rain nor heat nor gloom of night stays these couriers from the swift completion of their appointed rounds," which was said by Herodotus many centuries ago, the "couriers" suffer from one insurmountable difficulty—mis-directed mail. More than 350,000 pieces of badly addressed mail flow daily into the New York post office, and about 80,000 letters bear as the address only the words "New York." A veritable army of separators is forced to correct the mistakes of careless letter addressers, despite the fact that most of the mail is entirely worthless advertising matter.

Civilization's Passwords

A missionary, captured by cannibals, and stripped of most of his clothing, managed to escape. Half-clad, he fled through the jungle, and after many hours he blundered into a native village where, breathless, he crouched against the wall of a native hut in an attempt to hide.

A voice from inside caused him to start.

"Oh, you hopeless imbecile," he heard. "Why on earth didn't you remember hearts?"

"Thank goodness!" exclaimed the missionary, "at last I'm among civilized people again."—London Opinion.

Anemia

There are many different causes of anemia. Various forms of parasites or bacteria may invade the blood and cause a destruction of the blood corpuscles. This type of anemia is seen in malaria and in certain forms of blood poisoning. In other cases of anemia the blood cells are destroyed by some poison circulating in the blood. This type of anemia is seen in lead poisoning, in tuberculosis and in bright's disease. Anemia is also produced by constant loss of blood. Such loss of blood may be due to an ulcer or to blood-sucking parasites, such as hookworm.

Fountain of Wine

On the first Sunday of July the Brunnenfest, or Feast of the Fountain, is held at Wangen, in Alsace; and it presents an interesting contrast to the procession at Bourbon in that far from being in the nature of a benediction, it commemorates the removal of a tax of 6,000 gallons of wine which Wangen had once to pay annually to an abbey in Strasbourg. On the day of the Brunnenfest, therefore, the public fountain runs not water but wine, and hundreds of visitors throng to the village to share in so lavish a gift.

Think It Over

Don't feel alarmed because your boy thinks he is smarter than his dad. He may be right.—Capper's Weekly.

SOME SUMMER MENUS

SOMETIMES you want to eat indoors in summer, sometimes you want to eat outdoors—on the porch or lawn, or at a picnic in the woods—and sometimes, when it's very hot, you just can't think of anything you want to eat anywhere. But it's a help to have some suggestions for the times when you want to eat—and even for the times when you think you don't want to—for the minute you begin thinking of specific dishes your mouth begins to water and your appetite to stir.

The Recipes, Too

So here's a menu for an outdoor meal that you can eat most anywhere inside or outside the house, providing you don't try to take it too far away on a picnic.

Salmon and Rice Salad with Deviled Eggs

Potato Chips

Peanut Butter and Mint Sandwiches

Bacon and Pimiento Sandwiches

Chocolate Layer Cake

Dropped Date Doughnuts

Lime Punch

Coffee

But we're not going to leave it at that, just to tempt your appetite. We're going to give you the recipes for these dishes, too. So, here goes: **Salmon and Rice Salad with Deviled Eggs:** Mix very gently together, so as not to mash, the contents of a No. 1 can of salmon, one cup of boiled rice and one and one-half cups of sliced celery. Marinate fifteen minutes in French dressing. Add one tablespoon capers, one-fourth cup chopped, sweet pickles and one-

fourth cup sliced radishes, and moisten slightly with mayonnaise. Arrange in a large bowl lined with lettuce, mask with mayonnaise, and arrange four deviled eggs around the edge. This recipe will serve eight. **Peanut Butter and Mint Sandwiches:** are made by cutting white or graham bread into thin slices, spreading them with softened butter, then with a layer of peanut butter, and finally with a layer of mint jelly. Top with another slice of bread.

Bacon and Pimiento Sandwiches: Chop the contents of a 4-ounce can of pimientos fine, add three-tablespoons of chopped olives and half a cup of diced fried bacon. Then add enough salad dressing or tartar sauce to moisten, and spread between slices of buttered bread, with a lettuce leaf in each.

For a Formal Luncheon

Lime Punch: Dissolve one cup of sugar in a quart of tea infusion while hot. When cold add the syrup from a No. 2½ can of apricots and the syrup from a No. 2½ can of grapes (reserving the fruits for salads, cocktails, etc.), and the contents of an 8-ounce bottle of lime juice. Put in the ice-box to chill. Just before serving ice cold, add three pint bottles of ice cold White Rock. This will make twelve large glasses or about twice as many punch cups.

Sometimes, even in summer, you want to be formal, so here's a suggestion for a formal luncheon with plenty of green things and cold

things and fresh things in it to make it fit your summer nutritional needs: **Cantaloupe Halves with Raspberries**
Cream of Spinach Supreme
Toasted Crackers
Broiled Squab on Toast with Currant Jelly
Fried Potato Balls Baked Tomatoes
Romaine and Green Pepper Rings with Roquefort Dressing
Apricot Mousse
Demi-Tasse

To make the Cream of Spinach Supreme, simmer the contents of a No. 2 can of spinach and a bay leaf together for five minutes, and then rub through a sieve. Make a white sauce of one tablespoon of butter, one tablespoon of flour, two cups of milk, one-fourth teaspoon salt and one-eighth teaspoon nutmeg. Add the strained spinach to this and bring to boiling. Add one cup of cream and an egg yolk, slightly beaten. Heat enough to set the egg, but avoid boiling. Keep hot in a double boiler. Serve topped with whipped cream if desired. This recipe will serve eight.

For the Apricot Mousse drain the juice from one No. 1 can of apricots and force the fruit through a sieve. Heat the apricot juice, two table-spoons of lemon juice, one-half cup of orange juice and one-half cup of sugar till the sugar is melted. Cool. Add the fruit pulp and fold in one cup of heavy beaten cream. Pour in either one large or individual molds, and pack down in ice and salt, using two parts ice and one part salt, for four hours. This will make sufficient dessert to serve six.

Vast Wealth Amassed by Old Time Monarchs

Among those in ancient times who could afford to turn over and take another nap in the morning, one of the wealthiest was Rameses III, according to a writer in the Detroit News. This Egyptian pharaoh some 3,000 years ago was dazzling the known world with his treasures. Diodorus estimated Rameses' wealth at about 400,000 talents, equivalent to the purchasing power of \$10,000,000,000. Croesus, the best known of all rich men, probably was not quite as wealthy as Rameses, but he was able to give the equivalent of \$200,000,000 to the Delphic Oracle as a bid for victory against the Persians. And, he it added, took his defeat like a man. Croesus had a relative, Pythius, who handed Xerxes \$24,000,000 one day as a token of his esteem and when Xerxes hesitated, assured him that it was a mere trifle to what he had on hand. Considering that the money would have to be multiplied by 20 realize its purchasing power today, that was one of the largest gifts ever made.

Solomon's income was equal to \$20,000,000 a year. Sardanapulus, Nero, Lucullus, the queen of Sheba and Cleopatra, if alive today, would be respected by some of our richest nabobs. Then there was William de la Pole, who, in the fourteenth century, loaned his king \$5,000,000—to tide over a royal embarrassment—and never got it back.

Had Not Really Done Much to Relieve Him

"Have you given him anything or done anything to relieve him?" asked the young doctor, who had fared far into the backwoods to see a patient in the dead of a stormy night.

"Well, no, doc—that is to say, nothing to speak of," said the wife of the patient. "I had him soak his feet in almost 'tillin' water with a lot of mustard in it, an' I clapped a red-hot plaster on his back, an' another one on his chest, an' I've put a couple of blisters I had in the house under his arms, an' a bag o' cracked ice on the back of his neck, an' had him drink a pint o' ginger tea jes' as hot as he could swallow it, an' I foltered that with some yarb bitters one of the neighbors sent over, an' I had him take five or six pills out of a box I got one day from a man that come along with medicine to sell, an' he's had three or four spoons o' Quakem's pain-killer an' one o' these selditz powders, but I didn't feel like as if I ort to give him much o' anything, or try to do much for him, until you come an' see what you think ailed him."—Credit Lost.

Swedish Superstition

One of the strangest superstitions is that believed by some in Sweden that when a man dies after having been a faithful husband his shirt goes to heaven with him. If the wife dies first and the widower is married again he must destroy his first shirt on the eve of his second wedding. Disregarding the assumption that there is no good reason why a shirt that has given long and faithful service should not be permitted to accompany its master to eternal reward, the origin of this superstition probably is to be found in the Viking burial custom that called for the warrior's incensement in his best battle clothes, for it was assumed that he would need them—even in Valhalla.

The Last Fence

At last the vicar had found time to accept an invitation to dinner from a wealthy parishoner.

As a special treat the host's little

son had been allowed to stay up late and was seated at the table.

After holding back his ready flow of conversation and curiosity for the greater part of the evening, the little boy shattered a sudden silence with a voice like a cold chisel.

"Mr. Snookes," he began, while the family waited for the bombshell they felt sure was coming—"Mr. Snookes, did you take up the church 'cos you weren't any good at anything else?"—London Answers.

His Pound of Flesh

It was Thursday and Wilkins was "broke" and hungry. Halting outside a butcher's shop, he gazed wistfully at the display of chops and sirloins in the window. Plucking up his courage, he entered.

"If I leave a security equal to what I take away, will you trust me till tomorrow?" he asked.

"Certainly," replied the butcher.

"Well, give me a couple of those joints and keep one of them till I

Some Boy and Girl 4-H Champs

Proud of their herd are this group of 4-H club boys and girls who won first award in the county club group at the Ak-Sar-Ben Stock Show.

Youngsters go in for raising thoroughbred livestock these days, just as eagerly as do their elders.

At the Ak-Sar-Ben Stock show to be held in Omaha, Neb., November 1 to 8, hundreds of head of cattle and hogs will be shown by boys and girls from the farms of Nebraska and other mid-west states.

Last year a herd of five cattle raised by boys and girls of Madison county, Nebraska, won first honors for a county 4-H club herd. R. A. Stewart, Battle Creek, Neb., was the county agent who directed the work.

Awards to these youthful livestock raisers rank in importance with the ribbons awarded senior

division exhibitors.

This year the Ak-Sar-Ben Stock show will be greater than ever, due to the fact that it has been combined with the Nebraska Diamond Jubilee Celebration which will include thousands of dollars worth of free attractions and entertainment events, including parades, pageants, spectacular fireworks displays, and band contests. A Horse show, Agricultural show and huge Industrial exhibit will also feature this combined celebration, which will attract thousands of people.

L. I. Frisbie and F. P. Reed, in charge of 4-H clubs exhibits, predict a heavy enrollment of 4-H club cattle and swine.

Cold Storage at 37 Degrees Best

Temperature Should Not Run Too Close to Freezing for Potatoes.

(Prepared by the United States Department of Agriculture.)

Cold storage of seed potatoes should not run too close to the freezing point, and 37 degrees Fahrenheit is probably a desirable temperature, potato specialists in the United States Department of Agriculture have concluded after storage experiments with seed potatoes in several seasons.

Results of Studies

The results of the studies appear in Technical Bulletin 117-T, "Comparative Influence of Different Storage Temperatures on Weight Losses and Vitality of Seed Potatoes," just published by the department. When potatoes are stored at a temperature of 32 degrees considerable decay results. At temperatures of 36 or 40 degrees the potatoes remain approximately dormant for the usual storage season, and may even be stored for an additional year without excessive deterioration in appearance but not in quality.

The authors, William Stuart, P. M. Lombard, and Walter M. Peacock, all of the bureau of plant industry, experimented with storage of seed potatoes, not only at the department's Arlington farm, but also at the Virginia truck experiment station near Norfolk, Va., at the Marble laboratories, Canton, Pa., and at the Aroostock farm of the Maine agricultural experiment station. Different variations in storage of potatoes showed slight differences in response to variations in storage conditions. Variations in storage temperatures did not reveal important differences in yields from the stored seed stock of the Irish Cobbler variety. Results indicated the desirability of holding potatoes for several days at a 70-degree temperature after removal from cold storage and before planting.

Results Summarized

The authors summarize the results of previous investigations of the results of cold storage on the vitality of potato seed stock, and report in detail the methods and conclusions arrived at in the studies by the Department of Agriculture. Technical Bulletin 117-T may be obtained free, while the limited supply lasts, by applying to the United States Department of Agriculture, Washington, D. C.

Good Implements Give Protection From Bees

Many farmers who could use the honey from one to two swarms of bees on their table during the year and at practically no cost for the food will not keep bees because they are afraid they will get stung.

With a bee smoker, a bee veil, and bee gloves, all of which cost but little, bees can be handled with as little fear as chickens. Blow a little smoke into the entrance of the hive first, then raise the cover of the hive a little and blow a little smoke in on top. Wait a moment and you have a docile swarm of bees. There will be some workers in the field and they will come back while you are working with them. To protect yourself against these have a veil and for fear you would pinch one a little and cause it to sting, wear gloves. Then you are absolutely safe. But after all, a bee sting hurts but little more than a savage peck from an old setting hen.

Cellar Is Convenient for Vegetable Storage

The house cellar is a convenient place for vegetable storage. A dirt floor is preferable. The furnace cellar should be separated from the storage cellar by a concrete wall or a double wood partition. A window is needed for ventilation. An outside pit, made by burying a barrel horizontally in the side of a bank, makes an ideal place for storing cabbage and root crops, and the unused hotbed pit frequently can be used successfully for storing celery.

Agricultural Squibs

Most fungous or bacterial parasites thrive best where moisture is plentiful.

Generally millets can be sufficiently cured in the swath and windrow and this is the quickest method.

There is practically no difference between the flavor or the body of whey butter and that of the regular product.

Aphis, or plant lice show signs of being particularly plentiful this year. They are sucking insects and must be controlled with a contact spray.

Millet is not a difficult hay crop to cure. Usually the cut crop is allowed to cure in the swath for at least one day after which it is raked into windrows.

To plant soy beans from the same lot of seed in the same field during the same summer with the same amount of fertilizer and make one plot yield three times the weight of cured hay as another plot is an accomplishment worthy of mention.

SOCIETY and Club

Country Club.

There were 13 tables of bridge at the Country club social Tuesday afternoon. Fifteen children were present and Misses Sarah Jane Ahern and Jeanne Wright acted as caretakers for the children. The committee this week were: Mrs. Art Ahern, chairman, and Mesdames C. R. Chinn, L. A. Fenske, Rollie Ley, Mary Brittain, and Clara Ellis.

Out of town guests were Mrs. H. J. Felber's mother, Mrs. Tucker of California, and Mrs. Berrie of Kansas City, Missouri.

The committee for next week are as follows: Mrs. J. G. Mines, chairman; and Mesdames C. H. Fisher, Paul Harrington, A. D. Lewis, Maggie Mellor, and W. C. Coryell.

Dinner Guests.

Mr. Don Cameron of Los Angeles California, Mr. and Mrs. Arthur Solset of Sioux City, and Mr. Solset's sister, Miss Sylvia Solset, also of Sioux City, were Sunday dinner guests at the home of Mr. and Mrs. Henry Bush of Wayne. Mr. Cameron is a brother-in-law of Messrs. George and Henry Bush, and Mrs. Arthur Solset is their sister. Other guests who called Sunday were Mr. and Mrs. S. E. Auker, Mr. and Mrs. Henry Bush, Jr., Miss Prudente Bush, Mr. and Mrs. Horace Theobald, Mr. George Bush, and Mrs. Ray Perdue.

Bridge Party.

Friday evening Mrs. John and Mrs. Paul Harrington entertained five tables at bridge in honor of Miss Estella Morrison of Kansas City, Missouri, and of Miss Virginia Byerly of Kansas City, Kansas at the home of Mrs. John Harrington. Mrs. R. R. Smith and Mrs. O. R. Bowen received the highest scores and Miss Morrison and Miss Byerly received guest prizes. Miss Byerly is a sister of Mrs. Bowen. Ice cream, cake, coffee, and nuts were served.

For Miss Jacques.

The Misses Margaret and Marian Ahern gave at the Ahern home last Wednesday afternoon, August 14, a kitchen shower and an afternoon tea in honor of Miss Hilfred Jacques, whose marriage to Mr. Henry Gulliver will take place on August 24. Decorations used were rose and gold, the colors of the bride-to-be. Mrs. R. H. Jacques, Mrs. A. P. Gulliver, and ten young women were present.

Country Club Dinner.

The last dinner party of the summer series at the Country club was held last Friday evening, August 18, at 6:30 o'clock. About one hundred persons were present, and there were several tables of bridge. This being the last party in the series, the prizes were awarded to the winners. Mrs. Harry Craven received the ladies' prize and Mr. W. P. Canning received the gentlemen's prize.

Bible Study Circle.

The Bible Study Circle met Tuesday afternoon at the home of Mrs. L. W. Kravitz. The Sunday school lesson was studied, Mrs. Chas. Simpson being leader. The class meets with Mrs. J. W. Ziegler next Tuesday. Miss Elizabeth Lawler, who is visiting with her brother, Dr. Wm. B. Vall, will lead the lesson.

Young People's Bible Circle.

The Young People's Bible Circle met last Friday evening at 7:30 p. m. with Mr. E. B. Young as leader. The study of Abraham was continued. The class will meet this week Friday at the J. W. Ziegler home. Miss Charlotte Ziegler will lead the lesson continuing the series of studies from the book of Genesis.

Lutheran Aid.

The English Lutheran Aid meeting has been postponed on account of the Old Settlers' Picnic at Winside. It will be held Thursday August 29, in the Lutheran church parlors. Mrs. Van Bradford and Mrs. Wilson Miller will have charge.

Dinner Guests.

The group took a picnic supper and drove to Lo Val lake to spend the evening. Mr. Reinhardt reported a wonderful crop prospect in the vicinity of Wausau.

It is regretted that when threshing falls on a rainy time that many farmers so far forget their brothers' welfare that they quarrel over the order in which the threshing shall be done. Of course no one wants his grain to rot, but when the crew work from 8:30 a. m. to 9:30 p. m. and take turns in a way that seems fair to the majority, it would seem that a little thought for the other fellow should keep every body sweet. Troubles

started a threshing time cause many neighborhood feuds. There has been an unusual amount of fussing this year. Several crews have split up over it. Let's try to forget this year's trouble and start at the other end of the line next year, with a determination to be a little bigger and broader in our dealings. We should develop some Christian graces in year with an honest effort.

Threshing is over, now is the time the farmer is supposed to be idle. All he has to do between now and corn husking, besides his usual everyday chores is go thro his corn fields looking for a stray cockle-burr, fall plow his stubble, vaccinate his pigs, market surplus grain and help his neighbor do the same, fatten and market his hogs, cut weeds in fence rows with a hoe, (lots of fun) clean up fallen limbs etc., caused by the recent winds, fix fences and put in new ones, paint and repair buildings, spend one week at the fair, do all those little jobs that accumulated during the "busy" time, put up hay and help neighbors do the same and try to wedge in a few days outing. Henry Ford says if a farmer did not have so many idle months he would get rich. We wish friend Henry would find them for us.
