SUPREME COURT DECLARES TAX INCREASE VOID

Declares Proposed Increase Is In Violation Of Statute And Amounts To Confiscation

CATTLE TAX INCREASE VOID
The state supreme court declared the twenty per cent increase in tax assessment for the Northwestern Bell company, the American Telephone and Telegraph company void, last week.

It took action in another appeal from the state board of equalization, brought by Stanton county in protest against a 10 per cent assessment increase in cattle.

The court held the same principle of law hold good in all four cases. None of the plaintiffs had proper notice, it ruled, nor the chance to present their cases properly at hearings.

This decision is expected to have considerable bearing on many tax matters over the state. Most of the public utilities companies in Nebraska received assessment increases this year. Four classes of property are affected by the courts decision. The board of equalization had voted 10 per cent increase on cattle, 10 per cent on electricity and public utility companies, 20 per cent on telephone companies, and 30 per cent on telegraph companies.

"Where an increase in the assessment valuation of any class of property as returned by any county is made by the state board of equalization, without due notice to such counties and without affording sufficient opportunity to be heard, 'read the courts opinion, 'such increase is in violation of the statute and amounts to confiscation of property without due process."

"Although the plaintiffs did have hearing, the evidence introduced on those occasions were meager."

Charles Reynolds, county clerk of Wayne County had protested the action of the equalization board on the 10 per cent increase on cattle. As the tax lists had not been delivered to the county treasurer, Wayne county's books will not be changed.

Stop Tax Collection
Following the supreme court's decision that assessment increases voted by the state equalization board was invalid, Lancaster county officials Monday stopped collection of personal taxes. New tax lists will be prepared by the county assessor and refunds made to a number of property owners.

The 10 per cent reduction on cattle assessment ordered by the court is the one most felt in that county. The 33,000 cattle are now carried at a value of \$1,550,000. The amount of taxes to be paid by 3,000 persons in the county will be changed by the ruling, and this will require a great deal of time and labor.

Wayne County Pioneer Returns For Visit

George Heady is renewing old acquaintances in Wayne this week. Mr. Heady first came to Wayne when the city was only three years old and resided here until about twelve years ago. He moved to Sioux City, Ia, where he resided until the death of his wife four years ago, and after returning to Wayne to bury his wife, he went to make his home with his stepson at Scotia, where he has resided since.

Mr. Heady says he is feeling fine and as evidence of his good health he says he has made a regular hand in corn husking this fall. Mr. Heady states that the corn crop around Scotia is very poor this year and if it were not for dairying and stock raising the farmers would be in bad shape.

Highly Intoxicated Draws A Heavy Fine

L. E. Peterson, a traveling salesman who has been selling carpet sweepers through this county, was found near Bressler park, in a high state of intoxication, last Sunday afternoon, by Officer Stewart. He was taken before Judge Cherry Monday morning and drew a fine of \$150, and cost. In default of payment he is serving his fine out in our county jail. When Officer Stewart appeared on the scene Peterson had left his car and said he was trying to find his way home.

Wakefield to Have New High School

The school bond election held in Wakefield, Nov. 12, for the purpose of voting on the proposed school bonds the amount of which has been fixed at \$70,000, was carried by a majority of 154 votes. Plans will begin immediately for the new building and its erection. The building, when complete, will be second to none found anywhere in the state in a town equal in size to Wakefield. The new building will be erected as a high school building equipped with an auditorium and a gymnasium, and will be large enough to accommodate the present number of pupils and take care of the needs of the district and the entire community for many years in the future as well. In all probability it will be finished by the time the second semester starts the next school year.

RED CROSS ROLL CALL SATURDAY

Red Cross Membership Drive And Roll Call To Be Made Here Saturday Morning

A Red cross membership drive and roll call will be held in this city next Saturday morning, Nov. 23, from 8:00 a. m. to 9:30 a. m. A committee of several members will canvass the city during that time, various committee members being assigned to the business district and to the several residential districts. Membership dues are one dollar, so have your dollar or check book ready and help complete this drive in the short space of an hour and a half.

When you join the Red Cross, you help directly to maintain continuously the practical humanitarian services of your Red Cross. You assist in preventing unnecessary suffering and death from avoidable causes. You give instant and effective relief to disaster stricken homes. You take part in providing assistance to disabled war veterans and their families, in bringing the benefits of public health nursing to thousands of communities, and in spreading knowledge of proper methods of first aid, life saving, home hygiene and care of the sick and nutrition; you participate in training the youth in the schools of unselfish service; you extend sympathy and aid to peoples of other lands.

The Red Cross is supported by the people through individual membership. The Red Cross is your agency for providing relief in disaster, for serving humanity. More than 70,000 disabled war veterans were admitted to Government hospitals the past year. The Red Cross continues to assist these men and their families. Since 1881, more than \$80,000,000 has been expended for relief of disaster victims.

Join the American Red Cross this year. Ask a friend to join.

Rickabaugh And Berry Partners In Grocery

A new partnership in the grocery business has recently been formed. Dale K. Rickabaugh, formally employed with Hrabak's general store, has become a partner with C. A. Berry in the grocery business. They have been busy the past week remodeling the building owned by Wm. Brocheit which is next door to Berry's former location and expect to get moved into the new location and ready for business by the end of this week.

The building has been redecorated and new shelving is being placed and when completed will allow them to display their stock very attractively.

Long Lost Overcoat Returned To Owner

Charles Jervis, of Minnesota, came to Wayne last spring, parked his car in front of a local cafe, leaving his overcoat in his car, went in the cafe. When he returned to his car a few minutes later his coat had disappeared; at that time he was not able to locate the coat. Jervis returned to Wayne last Sunday and Sunday evening he saw Bud Beard enter the Gay theatre wearing his coat. He watched Beard while a friend of his located Sheriff Stephens, who arrested Beard and placed him in jail. He was taken before Judge Cherry Monday morning and was sentenced to 30 days in our county jail.

Prominent Scout Officials Speak at Rally. Scouts Recieve Merit Badges

Dale Hanks Is The First Boy Scout In Wayne Ever Presented With Eagle Honors.

HONOR REQUIRES 3000 MERITS

The Scouts of this district held their big rally at the State Teachers College athletic field, last Saturday, where scouts were tested for speed and accuracy. The Court of honor met Saturday evening. H. R. Larson, District chairman, presiding.

Robert Gulliver and Robert Theobald played a saxophone duet. W. R. Ellis, Chairman of the Lone Scout committee gave a very interesting address on the value of the merit badge.

I. T. Wiltsie, Assistant Scout Commissioner of this area, residing at Omaha, talked on scouting in the Philippine Islands, after which he called Scout Master Gulliver to present merit badges to the boys of Troop one that had won them.

Scout Master Gulliver presented the merit badge to Dale Hanks, Hanks' Mother and Father came forward and presented their son with the Eagle Scout emblem. Dale is the first scout in Wayne to ever win this distinct honor which requires 3000 merits. T. S. Hook, Chairman of Court of honor, spoke briefly of the local situation in scouting, and enumerated the numerous benefits to be derived by the boys.

Prof. C. E. Wilson, Commander of the local Post of American Legion presented cups that had been won in the afternoon contests by the Beaver Patrol of Troop No. 1.

In Professor Wilson's presentation speech he told the scout boys that the American Legion is now and always has been back of the scout movement and that they were watching with keen interest their progress.

Professor Gulliver, Scout Master of Troop No. 1, presented gold medals to John Kemp and Robert Gulliver. These medals were awarded for consistency and accuracy in work undertaken. These gold medals were the third and fourth to come to Wayne. After Professor Gulliver had presented the medals, the scout boys served refreshments to their parents and Scout Officials.

Several Scout Masters and other officials from a distance attended the rally, among which were: I. F. Wiltsie, Assistant Executive, of Omaha; Lyman Burkholder, of Fremont; A. M. D. Wadgers, scout master at Emerson; and C. D. Anderson, Scout Master at Wausa.

Local Scouts regretted to hear that I. F. Wiltsie, who so faithfully filled the office of assistant executive located at Omaha will leave the first of December for Porto Rico where he will enter scout work.

Dr. Wm. B. Vail Attends Optician's Convention

Dr. Wm. B. Vail and wife were at Omaha, Saturday, Sunday and Monday. Dr. Vail remained in Omaha to hear the lecture of Dr. Neumuller at the optical lectures and clinic.

Dr. Neumuller claims this was the best convention ever held in this state. Most every section of Iowa and Nebraska were represented at this Opticians convention.

Dr. Vail is a charter member of the association, took part in its organization and says he has attended every meeting since the association was organized.

DR. J. C. JOHNSON DESCRIBES HIGH POINTS OF TRIP

Dr. Johnson Tells Kiwanians of Many Places of Historical Interest, Seen on Trip.

TRAVEL 4500 MILES ON TRIP

Dr. J. C. Johnson was the speaker of the day, at the Kiwanis Club luncheon at Hotel Stratton last Monday noon. As usual Dr. Johnson's talk was very interesting. He spoke of places of interest visited on his trip east last summer, also things that happened while on his trip that were of unusual interest.

Professor Horn's Men's Chorus entertained with songs. The newly elected officers which serve during the coming year are as follows; J. H. Kemp, President; A. B. Carhart, Vice President; Wm. Beckenhauer, Immediate Past President; J. G. Mines, Treasurer; J. C. Nuss, District Trustee; L. W. Vath, Wm. Orr, and Don Cunningham, Directors.

Dr. Johnson and his wife traveled by auto. The high points of the trip as enumerated by Dr. Johnson were as follows: From Wayne they went to Omaha; then to Kansas City; then to St. Louis, to Vincennes, Ind; West Baden, Ind; Louisville, Ky.

where they attended the American Legion Convention. They saw colorful parades and saw the Drum Corp's final drills at the baseball park where the grandstand which has a seating capacity of 50,000, and was almost filled to capacity. Next they visited the mammoth cave. One of the most interesting sites of the trip was the frozen Niagara, composed of snow, at this cave, (which was Seventy-five feet in height and it is claimed that it takes 100 years to form an inch of this snow. Next they went to Hodgenville, Ky., the birthplace of Lincoln; then to the Old Kentucky home at Bardston, Ky; to Frankfort, Ky, where they visited the magnificent new capitol building; they stopped at Lexington, Ky., in the heart of the blue grass region, for which Kentucky is noted, and where Kentucky's famous race horses are raised. They had the opportunity of seeing Man-Of-War, the race horse that has become so famous.

The next point of interest was Shakertown, noted for its religious cult, where the men and women live in separate parts of the house and have separate stairways. Dix Dam was the next point of interest. This dam is the largest in the world built of stone, is 275 feet high. Due to the peculiar location of the dam it backs the water up for a distance of 30 miles. The next point of interest visited was Cumberland gap and high bridge, which is a natural bridge of stone, over which Daniel Boone and George Roger Clark are supposed to have crossed in making their first trip to Kentucky.

The next stop was at Petersburg, Va., where they viewed the old tunnel of the battle of the crater, then on to Portsmouth, Va., to Norfolk; then on to Newport News; then Fort Monroe, where they viewed the old forts; then to Richmond along the famous highway that is marked with various tablets describing the location of the (continued on page three)

Coryell's Garage Has New Electric Sign

The Coryell Auto Company has a fine new illuminated sign just recently put in place in front of the garage. It keeps up a continuous flashing of shimmering green, and red blending into orange and pale yellow, the green predominating around the large, white, vertical name, Chevrolet. This is one of the finest, if not the best, electrical signs in Wayne, and adds materially to the beauty of the city's illumination system.

Sermon.....Rev. W. C. Heidenreich
Benediction.....Rev. F. C. Jones

There will also be special music and congregational singing. A hearty invitation is extended to all. You are invited.

"CORPORAL EAGEN" IS STAGED HERE

Home Talent Play Staged by Legion Auxiliary Draws Large Crowds. Is a "Word of Fun."

"Corporal Eagen" sensational comedy of the American Rookie featuring Irish "Red" Eagen and his Jewish pal, "Izzy," was staged here Tuesday and Wednesday evenings under the sponsorship of the American Legion Auxiliary.

After a fine selection by Nebraska's championship band, the Wayne Legion Municipal band, the program opened with the reading of The Dream of the Big Parade, read by the Rev. Wm. Kearns before the curtain was raised, revealing the dream of the soldiers in khaki, the sailors in white, the nurses, and a great number of flag girls in beautiful costumes. The great company of the "Big Parade" then sang some of the old familiar war airs, concluding with "Over There."

The opening pageant concluded, the doughboys came on the scene. "Red" Eagen is continually late and "hastily" dressed, though he has been in camp thirty days. Neither can he seem to understand his sergeant's orders and is consequently sentenced to thirty days K. P. Thinking himself promoted, he writes his sweetheart, Sally, that he has been promoted to a corporalship. Not until he and his pal, Izzy, who likewise were sentenced to a thirty day term in K. P., were put to the task of peeling potatoes and scrubbing floors did he realize his predicament. Red's witty remarks in this situation and Izzy's equally witty answers and comical Jewish dialect made their conversation the cause of continuous bursts of laughter from the audience. Red whacks great peelings from his potatoes with a huge butcher knife; Izzy, using a razor, carefully knives his potatoes with an eye for true Jewish economy. But their hearts are not in K. P., and they seemed to get the potatoes peeled. Their antics would have made a wooden Indian laugh.

The predicament was made worse when Red got word that Sally was coming to camp to see her corporal. He was in constant terror lest she see him in K. P. However she did come, but could not find him, for he hid himself, trusting his pal to aid in his concealment, which he did in a way quite displeasing to Red. A spy is discovered in camp and Sally is mistaken as the spy. Here the excitement begins, and Sally finds it necessary, among other things, to hide amid the potatoes to escape discovery by the angry guard. She is finally caught and put into the guard house, and Red makes a desperate effort to find the spy to free Sally. He finally succeeds in spite of his absurd cowardice and all turns out well, for the war ends and he hosts to his Sally that it did not take her and General Pershing long to end the war.

Between acts a comic minstrel interpretation of "Show Boat" was featured. A number of other drills with music and dancing were also featured between acts.

The play ended with an all cast finale featuring the "The Gang's All Here" and "The Star Spangled Banner," leaving the audience with a feeling of pleasure and pride in Wayne's local talent.

Mr. and Mrs. R. Pinkham and daughter spent Sunday in Carroll visiting in the home of Mr. Pinkham's sister, Mrs. Lloyd Morris.

MAC JOHNSON IS CALLED BY DEATH

TUESDAY NOV. 12

Passes Away at Home of Daughter in Douglas, Wyoming. Had Been In Failing Health.

INTERMENT MADE AT CONCORD

Mac Johnson of Douglas, Wyoming, who lived for many years on a farm north of Wayne, passed away Tuesday morning, November 12, at 3:00 a. m. at the home of his daughter in Douglas.

Malcolm John Johnson was born in Sweden, March 8, 1858. When he was eight years of age the family moved to Illinois and from there to Creston, Iowa, where he grew to manhood and was married to Miss Anna Amella Larson in 1880. In 1883 they moved to Dixon county, Nebraska where they lived until 1914, when Mrs. Johnson died and Mr. Johnson went to Cheyenne county, Nebraska. Here he lived until about six years ago when he moved to Douglas, Wyoming, there to make his home with his youngest daughter, Mrs. Clifford Powell, and from whose home he departed this life, November 12, 1929, at the age of 70 years, 8 months and 4 days.

A son in 1910 and his wife in 1914, preceded him in death. He leaves to mourn his departure four sons, Edof Johnson of Trinidad, California; Elvin Johnson, Divide, Wyoming; and Raymond J. and Herbert J. Johnson of Potter, Nebraska; and three daughters, Esther Bovee of Dalton, Nebraska; Ellen Schainus of Wayne, Nebraska; and Mable Powell of Douglas, Wyoming.

Mr. Johnson was formerly a member of the Swedish Lutheran church of Concord, Nebraska, later uniting with the Methodist Episcopal church of Douglas, Wyoming, in which church he held his membership at the time of his death. Funeral services were conducted at the Powell home in Douglas Thursday morning, and at Beckenhauer funeral chapel in Wayne Saturday afternoon, November 16, the Rev. W. W. Whitman, pastor of the Methodist church, officiating. Music was furnished by Mr. and Mrs. Clyde Oman who sang, "Lead Kindly Light" and "There's a Land That is Fairer Than Day." Following the services, interment was made at the Concord cemetery.

WILDCATS DEFEAT YORK PANTHERS

Wayne's Wildcats Have Snapped Out of Their Looming Streak, Defeat York 32 to 0.

Wayne's Wildcats snapped that losing streak that has followed them since that memorial game with Omaha back in 1927. Coach Hickman and his men defeated the York college Panthers by a score of 32 to 0. The field was a swamp and that is what held the score down. Had the field been a fast field the game would have been a field meet.

Wayne worked the ball down to the York 30 yard line on straight football and then came Mr. Schwartz and he took on the first play a short pass from Andrews and ran for the first touchdown. From then on it was all Wayne.

York received but could not gain against the Wildcat wall that seems now to be functioning as they are capable of functioning. On attempt by York to punt the entire Wayne line broke through and blocked the kick. Cornish the Wayne left guard fell on the ball for a touchdown.

York now kicked to Wayne and Wayne using straight line bucks marched down the field for a touchdown Schwartz carrying the ball across. This style of play characterized the rest of the game. York unable to gain an inch would turn the ball over to Wayne and Wayne just used the game to practice all their formations.

They had a great time and should be in real good spirit for the coming conference with the strong Chadron team that is now leading the conference. Loren Andrews made a touchdown and Dennis made a couple of them. Two of the extra points were converted into counters and that accounts for the score.

Mr. E. Rippon, who has been visiting a few days in the home of his son, Roland Rippon, left yesterday morning for Omaha where he is in business.

DR. JOHNSON DESCRIBES
—HIGH POINTS OF TRIP
(continued from page one)

headquarters and position of batteries of the different armies of both the Revolutionary and civil wars.

The next point of interest visited was Fredricksburg, Va., where they saw Washington's childhood home, where he was supposed to have ridden his mother's sorrel colt to death and saw the shoots growing from the cherry tree that George is supposed to have cut with his hatchet, also Washington's original law office, which was built of logs; and his mother's home in Fredricksburg, all of which are well cared for. They visited the Popick church which Washington attended and the pew in which he sat when he attended church.

The next point of interest was Mt. Vernon, where they viewed Washington's estate which is kept in tact as he left it. They visited the Masonic lodge at Alexandria, Va., and saw the chair Washington sat in and visited the memorial which is under construction and will be completed in about 1932.

At Washington, D. C. they saw all of the residents of the Embassies; the bureau of engraving; the Whitehouse, Capitol building, and attended a session of the Senate.

They visited Gettysburg and viewed the battlefields, which is a government preserve, and the cannons are in their emplacements where they were used during the civil war. From here they turned homeward stopping at Greensboro, Pa., Wheeling, W. Va., then to Janesboro, O., the home of the world's largest pottery; then to Columbus, O., where they visited Dr. Johnson's brother, then to Detroit, Mich., to visit friends.

Their next stop was at Chicago, Ill., where they visited relatives. From Chicago they returned home over Highway twenty. They traveled 4500 miles on their trip and saw many places of interest; yet Dr. Johnson says they just hit the high spots, and they had to pass up many places of interest due to press for time.

Erecting Poles At Grand Island Station

The installation of the power unit of the U. S. radio monitor station being built at Grand Island has been completed, and the workers are busy with the poles for circuits to foreign points. Poles for the South America, London, and New York circuits have been erected, and poles to communicate with Japan and Russia are to be completed soon.

This station is the only one of its kind in the U. S. and possibly in the world. It is being erected in Grand Island because Nebraska is the central state of the Union and that city is very nearly the central point. The station will be used to check all radio stations to see whether or not they are keeping within the frequency and power allotted to them. It will be the policeman of the air.

They Had Good Cause to Rejoice and Give Thanks

OVERCOMING the hardships and dangers of life in a strange land . . . tilling a soil that was none too productive yet which, by the grace of Providence, yielded them their first harvest and staved off despair . . . our Pilgrim forefathers had good cause for establishing a day of Thanksgiving.

One third of Nebraska's farm income is from hogs. The return from hogs is approximately \$1,000 for every farm in the state.

The October statements of Nebraska banks showed a substantial gain in deposits and better banking conditions throughout the entire state.

The Southern Pacific railroad is constructing a \$12,000,000 bridge across Carquinez strait, Calif., to supplant what was termed the largest train ferry boat in the world.

Nebraska not only has no bonded debt but has heavy investments in the bonds of other states. There are 30,000 miles of highways in the state, 4,000 miles of which are graveled or paved.

Savings bank deposits of American school children exceed \$50,000,000. The savings bank division of the American Bankers' association says that 4,222,935 school children participated in school savings during last year.

Old time music has lost none of its charms. Playing forty-year old airs on a 150-year-old violin, Rogers E. Walters, Decatur, won the old fiddlers' contest held in Omaha as a feature of the Diamond jubilee celebration. Second and third places were won by D. D. Bowman, Walthill, and Reed Judson, Lincoln.

Official reports from the department of commerce reveal that the production of automobiles show a big increase. 4,870,000 automobiles and trucks produced in the United States and Canada during the first period last year. Unquestionably the year total will reach 5,500,000 units compared with 4,600,000 in 1928, the record to that time.

5,000 spectators at Platte City, Mo., cheered their favorite corn huskers as Walter Olson last Friday walked away with all honors of the national corn husking championship. This was Olson's second national—or world championship. Last year he shucked 26.6 bushels in Benton county, Indiana, to take first honors. Yesterday he only picked 25.27 bushels in the hour and twenty minutes.

The average of 2 and one-half million dollars daily, \$104,166 an hour or \$1,736 each minute, is the price Americans pay for automobile accidents, according to an American Research Foundation. Loss of lives for 1929 was estimated at 29,000, on which a value of 290 million dollars was set. Injuries, destruction of property, replacements and loss of time from work accounted for the 900-million dollar economic loss estimated for this year.

A year ago the country was trying to figure out why the voters chose one of two good men, rather than the other, to handle the nation's business for four years. The reason has just been brought to light by a woman who petitioned the federal court to have the last presidential election declared void. It was her view that if she had not been unlawfully detained abroad, she could have got home in time to expound her theory in politics before the election, and things would have turned out differently. —Nelligh News

WAYNE BULLDOGS DEFEAT WAKEFIELD

The Bulldogs Proved Too Speedy For the Wakefield Delegation De-feating Them 26 to 0.

The Wakefield Reserves were crushed by the orange and black Wayne Prep Bulldogs last Thursday by a score of 26 to 0. The game started with Wakefield receiving but they kicked all most immediately to Tyrrel the Prep quarter. Tyrrel handed the ball to Stamm who had come back to protect him and Stamm ran the ball back about 34 yards. Wayne took the ball on the Wakefield 36 yd. line and made a first and ten. But they lost the ball on downs in the next series of plays and Wakefield kicked.

The ball just moved back and forth across the center of the field during the rest of the first quarter. Early in the second quarter Del Fitch sent a punt about 60 yards that rolled out of bounds on the Wakefield three yard line. Wakefield punted right back but the punt was returned to the Wakefield 32 yard line by Tyrrel. Fitch threw a long pass to Theobald who was finally downed on the Wakefield 3 yard line. Stamm fumbled and lost 8 yards. Theobald carried the ball over for a touchdown. It was a wide end run to the right and he had perfect interference. Not a man was near him when he crossed the goal line. Fitch kicked wide in the attempt for the extra point. The second quarter ended without further scoring.

The third quarter started off with a bang. Wakefield kicked to Wayne and Martischang returned about 18 yards. Wayne took the ball and marched down to the Wakefield 32 yard line where they lost the ball on downs. Wakefield punted and Tyrrel returned 14 yards. It was Prep ball on their own 37 yard line. Del Fitch came behind the line on a double pass play and ran right end for a touchdown. Fitch again failed to kick the extra point. Score 12 to 0.

Wayne kicked to Wakefield and Hanks downed the receiver with a peach of a tackle. The Wakefield man never knew what hit him. Wakefield made a first and ten. Theobald caught a Wakefield buck behind the line for a 7 yard loss. Steele caught the same man on the next play for another loss, about 6 yards. Wakefield punted and Tyrrel returned 23 yards. Prep took the ball on their own 42 yard line and on the first play Martischang slipped off tackle for a touchdown. Steele had opened a hole and Captain Fred followed his interference right through and when his interference left him he just trotted down for the third marker. Captain Martischang plunged for the extra point and carried it over standing up. Score 19 to 0.

Wakefield again received but to no avail. The Prep line was working in great shape. Ahern piled them up with no gain on their first play. Steele and Gulliver downed a passer before he could pass the ball. On an attempt to work a double pass play the Wakefield runner was bumped for a good hard loss by Fullback Stamm. Wakefield punted. Stamm now started to earn his touchdown. The "speedboy" was waiting for the punt and he took it on the run. He ran it back almost to the place from where it had been kicked. The quarter ended.

The ball was on the Wakefield 30 yard line and Stamm carried it over in 4 plays for a touchdown. Fitch kicked the extra point perfectly and the score was 26 to 0.

There was no further scoring but the Bulldogs had the ball on the Wakefield 3 yard line when the game ended.

Agricultural Notes

Limestone is worth as high as \$40 per ton when applied to soils in many sections.

Pasturing sweet clover in the fall cuts down the storage of the plant food in the roots.

Wool should never be tied with binder or sisal twine or wire. Use four-ply paper twine.

Hay making has not been given the attention in the past which the importance of the crop deserves.

A fence post rots nearest the surface of the ground because the growth of the fungi causing rotting requires heat, light, moisture, and food.

Farms on which weeds are kept under control have less plant disease than have other farms where uncontrolled areas grow up into a luxuriant mass of weeds.

A single female fly will lay from 150 to 600 eggs which hatch in less than 24 hours, and in very warm weather a generation of flies may be produced in two weeks or even less.

Not only is the hay crop one of the most valuable from the money standpoint but present day feeding methods have also made it one of the most

For the School Lunch Box

WITH September and the beginning of the school year the struggle begins to fill the lunch box with food which will keep well, be appetizing and at the same time be economical and healthy.

In this class falls the popular pea put up in a sanitary enamel lined can to preserve its color perfectly. Peas are economical of both time and money, and the protein combined with the carbohydrate, vitamins and mineral salts which the little green pellets contain makes them an excellent part of a rather substantial lunch box meal.

Some Ways to Use Them

A particularly suitable food for this purpose is Pea and Walnut Roast. To make it, mix the following together lightly: one and one-half cups of pea pulp, one cup of

soft bread crumbs, one-half cup of chopped walnuts, one-fourth cup of butter, two-thirds cup of canned tomato soup, one slightly beaten egg, and salt, pepper and onion juice to taste. Put the mixture in a buttered baking dish or loaf pan and bake in a moderate oven, 350° F., for 30 to 45 minutes or until set and brown. This may be served at the family dinner, then, when cold, sliced, the slices wrapped in waxed paper, and packed in the lunch box.

Peas in salads are always popular with child and mother. A salad made of a cup of peas, a cup of diced boiled potatoes, one-half cup of diced pickled beets and one tablespoon of chopped onions may be mixed with mayonnaise and put in a waxed paper cup with a tight-fitting cap. Gelatin salads may be packed in the original mold.*

Roger Bacon First to

Talk of Metal Airship

In the all-metal airship we see realized an eight-century-old Baconian project. In the Thirteenth century, says Domestic Air News. United States Department of Commerce, Roger Bacon, English philosopher and Franciscan friar, seems to have been the first to realize the principles of aeronautics, if we discard Kircher and the legends.

Bacon wrote in glowing language on the possibility of constructing engines of immense size and power that could traverse the land and the water with great speed and carry with them persons and merchandise.

He proposed the construction of an aerial machine which "must be a large hollow globe of copper or other suitable material... filled with 'ethereal air or liquid fire' (some have claimed Bacon referred to rarefied air and hydrogen gas) and then launched from some elevated point into the atmosphere, where it will float like a vessel on the water."

There may be made, Bacon said, "flying machines so that a man sits in the midst of the machine revolving some engine by which artificial wings are made to beat the air like a flying bird."

The idea of the rigid airship may be traced from Bacon through Albertus de Saxonia (1850), Mendoza (1503-75), Lana (1870), Gourdin (1783), Delcourt (1824), Moage (1843), Giffard (1855), Splees (1873), Bausset (1888), Schwartz (1897) to Zeppelin (1900), all of whom proposed metal for the hull.

Old Customs Dear to

Hearts of Britishers

The archbishop who lives at Lambeth palace is a very kind archbishop

the poor of the district will tell you. Every Thursday at the main gateway 30 half-crowns are distributed to 30 poor people of the parish. The custom is a very old one. Years ago it took another form. On Sundays, Tuesdays and Thursdays 15 quarter loaves of bread, 9 stone of beef (made into broth and served in pitchers) and 5 shillings' worth of halfpennies were the gifts. One is reminded of this and other quaint customs, surviving or revived, by the fact that the lord mayor of London revived the Boy Players a few weeks ago. They gave a performance at Salters' hall, the first since 1608, when they were the favorite players of Queen Elizabeth. The Salters' company is named after John Salter, who died in 1605. Formerly a service to his memory, held each year, took the form of a procession to his tomb, upon which each person knocked with a stick, and called three times in a loud voice: "How do you do, Brother Salter? I hope you are well."—London Mail.

Fight at First Sight

The "elchids" of the fresh water carp family are said to be among the most ferocious of fish. They are quite difficult to mate and have to be kept separate, for they fight and kill each other with little delay. When they are once mated, however, they take great care of their progeny. A flower pot or hollow stone is found, which they clean spotlessly and in which they raise their family. They guard their eggs in alternate shifts, fanning them with their fins. Just before hatching, the female digs a pit in the sand or shingle and transfers the young fish to it. They are then a wriggling mass of black jelly. After two or three hours she digs another pit, and this process goes on till the youngsters can swim about.

Why, Yes, You Can Have Cranberries

IT'S a serious question, this one of cranberries, now that Thanksgiving is coming near. So serious that Professor William H. Sawyer, Jr., of Bates College, has spent nearly two years of research and experimentation at the Cryptogamic Botany Laboratories at Harvard University seeking a way to exterminate a parasite upon cranberries which has been rapidly causing the disappearance of these bright red berries from the New England marshlands. He now announces a discovery, in the form of a plant or mould parasite aimed at the parasitic growth now threatening the cranberry, which will mean the probable destruction of that growth.

Cranberry Recipes

Everyone knows about the cranberry sauce that is invariably served with Thanksgiving turkey.

and most people know that excellent cranberry sauce can be secured in cans. But how many people know of the other delicious ways in which to use this product? Have you ever tried, for instance:

Cranberry Ice Box Cake: Put the contents of one No. 2 can of cranberry sauce, one-half cup of seedless raisins, one-third cup of chopped nuts, ten chopped dates and a third of a cup of water in a saucepan, and heat slowly and carefully until the cranberry sauce is somewhat thick. Cut a small sponge cake in slices, and put alternate layers of the sliced sponge cake and the cranberry mixture in a buttered mold, finishing with cake. Pack down well, and let stand overnight in the ice box. Unmold and slice. Serve with cream or any desired sauce. These quantities will serve eight.

Old System of Timing

Still in Use in Egypt

Before the advent of the modern clock, many towns and cities told the time to their people by firing a gun at noon. Rome was such a place, and kept to the daily firing of her veteran noon-gun on the Janiculum hill, which had been done so far back as human memory could go until a year or so ago.

Then she decided to replace this ancient form of time signaling by the most ultramodern system available. A master electric clock was installed in the city observatory, which controlled 500 other electric clocks placed in different quarters of the Eternal city on the Tiber. The 535,000 Romans are therefore exceptionally well catered for as regards the time.

What an amazing contrast is such a method as this to the manner in which parts of Egypt to this very day tell the time. There some of the natives still employ ancient shadow clocks. These consist of wooden boards with little "goal posts" in the middle of them, which measure by the shadows they throw the length of jobs which have to be performed by oxen or laborers.

These "clocks" have been in use for telling time for 4,000 years.

Eye Strain Responsible

for Much Bad Temper

Physical exhaustion entirely disproportionate to the amount of energy expended is often caused by eye strain, said Dr. B. Franklin Royer, medical director of the National Society for the Prevention of Blindness. In many cases, Doctor Royer said, loss of temper could be traced to defective vision.

"Some of us are fooling ourselves when we do not connect serious bodily fatigue and irritability toward the end of the day, and still greater fatigue and irritability toward the end of the week, with the eye that has actually shown no pain during all that period. Many a worker having just such daily and weekly manifestations of increasing fatigue may have his symptoms disappear by wisely applying present day medical knowledge of the cause, have the fault corrected, and still keep the same job and the same kind of work, with the fatigue and discomfort rapidly disappearing."

Forged Art on Show

Some of the specimens of forged pieces of "ancient art" are so clever that they are of marvelous interest, although they are known to be spurious. The characteristics of old stone carvings, for instance, have been so minutely reproduced that it is often difficult to detect the fraud. As a matter of fact, there is hardly a museum in the world which at some time has not had one of these "fakes" in its collection. Ultimately, however, the imposture is revealed and the offending piece removed. The Metropolitan Museum of Art in New York has a special department devoted to these forged antiques and they are regarded by experts as quite as interesting as the genuine, but in a different way.

Snake With Ears

Another story of a snake with ears comes from the Bushveld. Mr. S. Voges writes to say that he read the report in the Johannesburg Sunday Times of a "snake with ears" being seen in a vlei at Roolberg, and he adds, that he believes this tale to be true. "My mother often tells us how, when she was a child, a snake which was found to have two ears was killed in a fig tree," he writes. "As the snake was so strange, the neighbors were called to see it, and the reptile was kept for some time, so that people round about could come and see it as well. I can assure you that this story is true."

Manitoba Boundary

The lower half of the boundary between Manitoba and Saskatchewan is stepped because, crossing a well-settled farming district, it follows the survey lines. Survey lines in north-western Canada are, of course, always stepped, this being necessary in view of the fact that the meridians of longitude, which form the basis of the surveyors' calculations, converge as they go north, and the distance between them, instead of remaining uniform, is thus gradually narrowing, whereas survey lines have to be kept straight.

Ant-Queen's Easy Life

In the huge ant-hills seen in most tropical countries, there always is a queen, which is imprisoned for life in a hard-formed pocket of clay. She is about two inches long, and looks like a big lump of fat, with the body of an ant attached at one end. She cannot move of herself, and is copiously fed by her subjects. The expression "Sit as an ant-queen" is supposed to convey what the natives consider the acme of prosperous ease.—Detroit News.

Against All Bloodshed

To me it seems that neither the obtaining or retaining of any trade, how valuable soever, is an object for which men may justly spill each other's blood; that the true and sure means of extending and securing commerce is the goodness and cheapness of commodities; and that the profit of no trade can ever be equal to the expense of compelling it, and of holding it, by fleets and armies.—Benjamin Franklin.

Life's Happiness Found

in "Doing Unto Others"

An old man who had met life serenely and tranquilly for more than eighty years was asked the secret of his cheerfulness. He answered in four words: "Thinking of other folks. You can't travel very far in this world," he explained, "without finding that your path is all tangled up with other folks' paths. Some people think that if they can only travel their paths without getting hurt themselves, they're going to be happy.

"But there's more to it than that. When you've learned to dodge a collision, not because you're afraid of getting hurt yourself, but because you're afraid of hurting the other fellow, you're getting near to happiness. But when you arrive at a point where it's a genuine pleasure never to cause grief to another living soul you're still closer. In other words, when you get so far that it's a joy to you just to make others happy, you're about there yourself."—Great Thoughts (London).

World's Great Debt to

Peruvian Guano Bird

One of the most valuable birds in the world is probably the Peruvian guano bird. It exists in countless millions in the uninhabited islands on the coast of Peru and it is stated that some hundred millions pounds worth of a fertilizer, 30 times as strong as barnyard manure, have been obtained from one station alone. The deposits there are some two feet thick, and extend over great areas.

Why the birds should be more numerous there than in other parts of the world is not easy to say. It has been explained that a current flows along the west coast of South America keeping that section cool and hence suited to the habitat of myriads of small fish. By a fortunate coincidence the birds congregate here, and the bare islands in the vicinity form centers where the invaluable fertilizer is deposited in vast level tracts, from whence it may be dug out and transported.

Silver "Cartwheels"

The original coinage of the silver dollar was authorized in 1792. By the act of January 18, 1837, the weight and fineness of the coins were changed. The act of February 12, 1873, provided for the discontinuation of the coinage of silver dollars. The acts of February 28, 1876, July 14, 1890, and March 3, 1891, authorized the recoinage of silver dollars. The silver purchased under the act of 1891 was consumed in 1904. There was no further authorization to purchase silver for dollars until the passage of the Pittman act of April 23, 1918. From that time on silver dollars have been issued each year.

Demand and Supply

Two friends had met and were discussing business on the way home.

"I heard that you'd kind of amalgamated with old Marples at your game."

"Well, you're half right," agreed his friend. "We are in partnership all right, but we don't sell the same kind of thing."

This puzzled the other man.

"Explain what you mean," he suggested.

"Well, you see, Marples goes about selling a stove polish that leaves a stain on your fingers, and two days later I call with the only soap that'll get it off."—London Answers.

Peculiar Beauty Culture

Startling color effects are achieved by the women in parts of the Solomon Islands. They bleach their kinky hair white with a paste made from coral lime. An arch of lime is applied over each eyebrow. Straight lines of lime cross each cheek and meet at the chin.

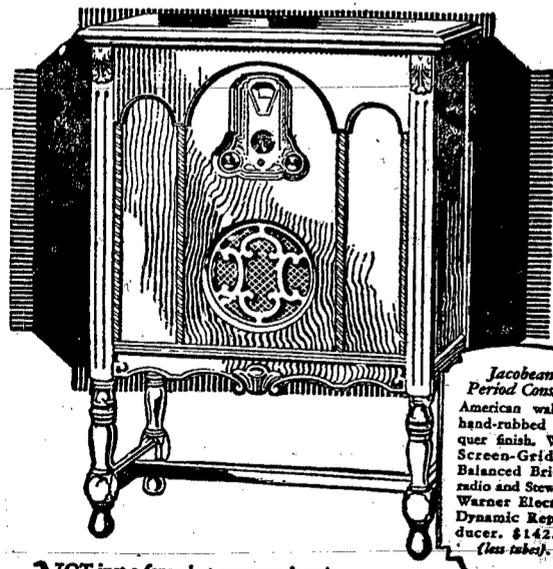

Big ears are considered beautiful on the island of Borneo in the Dutch East Indies. The women insert heavy rings in the lobes of their ears until they gradually yield to the weight and assume the desired character of long loops. These often hang below the shoulder, and the beauties adorn them with heavy rings.—National Geographic society.

Live Wire Dangers

A human being, dead or alive, is a conductor of electricity. If a person is in contact with an electrical circuit, those rescuing him should break his contact with the circuit by means of some insulated tool, such as a long, dry stick or long, dry rope. Where the voltage of the live wire is not greater than 6,000 volts a coat might be used for a rope by throwing it around the wire and pulling the wire with the loop thus made. It should be recognized, however, that this will probably bring the rescuer in closer proximity to the live wire than would be considered safe if the emergency did not exist.

Odd Nesting Place

A young lady at East Grinstead, England, went to remove letters from the letter box, and feeling a slight flutter, investigated and discovered that a tit had utilized the box for a nest, and had laid eight dainty little eggs. In the stomach of a bliblock killed in the same town were found nails, screws, iron bolts, and hairpins. At Hartfield a snake, driven on to the road by the fires in Ashdown forest, was run over and killed by a motor car. It was more than a yard long.

Assembly

Lavern Ertleben played the assembly march this week.

A short program was given in the assembly on Monday, November 11, for Armistice Day. To open the program the girls' glee club sang "Keep on Hopin'". This was followed by a talk by Prof. C. E. Wilson, head of the biology department at the Wayne Normal. Prof. Wilson is the president of the local post of the American Legion. He spoke concerning Armistice Day and what it means.

On Tuesday Kathryn Kemp told of her trip to Omaha during the jubilee. A pep meeting was held in the assembly last Friday before the game with South Sioux City. Speeches were given by Mr. Holder and members of the foot-ball team.

A radio was installed in the assembly last Friday so that the students could hear the musical program given by Waltham Damrock, director of the New York Symphony Orchestra. Every Friday the students will hear programs in the assembly.

A teachers' meeting was held Monday after school.

Commercial

The typing classes are progressing nicely. Speed tests have been given on new and practiced material.

Dorothy Gildersleeve wrote sixty-eight words a minute on drill material.

Music

Mrs. Ellis visited the fourth grade music class. Work is progressing on the operetta O Hara San. Leads are being chosen this week.

Athletics

The Wayne high school football team played the South Sioux City high school football team and lost by a score of 19 to 7.

The touchdown for Wayne was by Herbert Perry after receiving a penalty of five yards which left Wayne with the ball and three inches to go for a touchdown. The extra point was made by Dean Hughes on a run play.

Senior Notes

The U. S. history class studied the history and events of Andrew Jackson's administration. They have also studied the personality and character of Jackson.

Interesting current topics were reported on last Friday.

The first of the week the class studied the annexation of Texas. Now they are studying the causes of the Mexican War.

The physics class has just studied the chapter on force which includes the study of gravitation, units of force, components of forces, center of gravity, and equilibrium.

Completed scrap books containing various newspaper clippings were handed in last Monday in the English class.

Travel sketches and biographies of historical characters were written for the 12th grade magazine, the Seniorite.

Eleventh Grade

The English III classes have finished the play "Hamlet". The pupils of these classes were divided into groups for special dramatization or original group work. One group gave

papers on subjects such as, Amusements in Shakespeare's time, The Elizabethan Theatre. Several groups gave clever dramatizations of the play. One group compared Shakespearean expressions with modern expressions.

The biology class students are studying different animals. They have a small fish and a frog in a basin of water. The pupils watch these grow to determine the different stages and life cycles of the animals.

The Cicero class is nearing the finish of Cicero's first oration. The pupils are going to take up new vocabulary. New books have been ordered for that purpose.

Tenth Grade

The Latin I Class is studying the art of ancient Greece. Several of the class members gave a report on material found describing Parthenon.

The English II class is studying punctuation, namely, the comma and the semicolon. A test was given over "Idylls of the King".

The Ancient history class had a test over the topic of Barbarian Invasion. The class is now beginning a study of the Rise of the Church. The class is making imaginative drawings describing the Crowning of Pope Gregory.

Ninth Grade

The algebra I classes are taking up the study of the parentheses in equations.

The mid-year algebra class is studying addition, subtraction, multiplication, and division of fractions.

The class in Latin has been having tests this week.

The ninth grade English class is studying pronouns. The students are having an archery contest in which the pronoun is the target. A medal mark is given as a reward for a perfect paper. In one class 9 medals out of 19 were awarded and in another class 20 out of 24 were awarded. For oral reports the members of the English class are giving pep speeches.

The physiography class is studying responses of the soil and plant life.

Seventh Grade

The pupils of the seventh grade hygiene class have been studying the heart and the circulation of blood. William Mohr brought a pig's heart to school to be studied.

The commercial classes have been

fixing stencils for the seventh grade newspaper, "The Bugler", for this week.

The art class has been given work with water colors this week.

The geography class has just completed the study of Great Britain and is now taking up the study of France.

Sixth Grade

The new adjustment of seats in the sixth grade room has made the students much more comfortable.

The sixth graders are making posters for book week. A play is being planned by the students and several students are giving book reports. The public library has loaned two large posters for use during book week.

Mary Ella Pile and Peggy Strahan are out of school on account of chicken pox.

The English class is studying the parts of speech. They are getting word pictures to represent adjectives used in poetry. The pictures represent the words as the poet planned them to be used.

Paul Young and Weldon Haas have charge of the history class. The class is using maps of the world and studying routes of explorers after Columbus.

The sixth B arithmetic class is studying multiplication of decimals. They are learning how to point off and multiply decimals. Verba Berry received the highest grade in arithmetic the past week.

Fifth Grade

Health posters were finished by the art class this week.

The class chose for their slogan "Our Room is a place for Business."

Now each child is responsible for his own good behavior.

The pupils also planned to change the bulletin board twice a week, on Wednesday and Friday.

The language class has been practicing the play "The Enchanted Doorway". They are going to present it to one of the other grades during book week.

The B class is studying railroad time tables in arithmetic. They drew lines and placed cities on it to represent the railroad.

Lueen Barnes treated the fifth grade pupils with popcorn balls and candy in honor of his tenth birthday last Monday.

Carroll Peterson and Delores McNatt prepared the best penmanship papers this week.

Billy Miller, Eva Liveringhouse, and Frances Sydow were absent the first of the week on account of sick-

ness. The pupils are very much interested in watching their polliwog. It comes to the top and breathes now. They will soon have to transfer their polliwog into another jar.

Fourth Grade

The following pupils were absent from the fourth grade last week: Charles Thompson, Doris Sproke, and Kathryn Young.

The pupils have been learning the uses of zeros in multiplication.

For language several pupils brought story books and exchanged with other members of the class. The pupils have a choice of reading a story to the class or telling about a book and showing a book that they like. They give reasons for liking it. This helps to teach them to make reports. This is reading and language combined.

Pupils have been making folios in art work. These are made for the purpose of holding drawings which are made from time to time.

Mrs. Ellis visited the fourth grade last Wednesday forenoon.

Third Grade

Three third graders have completed Project I in Penmanship during the last week and have received green stars for their work. These three are Robert Ellcock, Jean Mines and Bonadel Roland.

A test was given the first of the week on one hundred subtraction facts. This is the second of a series and results were satisfactory.

Marian Vath celebrated her eighth birthday last Friday by serving molded ice-cream toys and wafers to her class mates. Mrs. Vath and Helen and Mrs. Ringer and Mildred were also guests.

Mrs. Paul Mines visited the class last week.

Original drawings were made in art class and then criticized by the others. The work was then corrected.

The pupils have brought Thanksgiving stories and read them during the month.

Second Grade

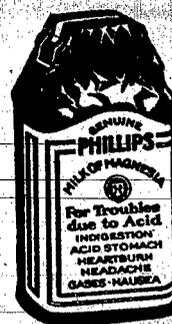

The girls won the health chores contest by one point last month.

Visitors the past week were Mrs. Leslie Ellis, Mrs. B. F. Strahan and Miss Mabel Stamm of Winnebago.

Dick Ellis celebrated his seventh birthday, November 13. He treated the pupils.

Those absent last week on account of illness were John Berry, Wilmer Ellis, Irene Haberer, Margaret Larson, Robert Theis, J. M. Pile, Vera Mills, and Leah Young.

The students have been studying

Indigestion

Immediate Relief!

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude help. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad

after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn now why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting stomach acids. 25c and 50c a bottle—any drugstore.

health programs.

First Grade

Mrs. T. S. Hook visited the first grade Friday afternoon.

Marjorie Gildersleeve and Noma Jane Hall, celebrated their sixth birthdays this week. They treated the children to candy and gum. Games were played.

Bell Harvex who attended school at O'Neill has enrolled in the first grade.

Arelene Ulrich has been absent from school this week on account of illness.

Thursday afternoon the children visited the library. This was in keeping with Book week.

Kindergarten

The kindergarten pupils are busy making Thanksgiving decorations. These add much to the attractiveness of their room.

The children observed Armistice day by playing patriotic games.

A great deal of sickness prevailed among the children.

Betty Sund was absent for a week on account of tonsillitis. She returned again.

Betty Pile and Melvin Franzen have been absent all week because of illness.

Leo Harvey is a new pupil in the kindergarten room.

Stanley Gamble celebrated his birthday Thursday November 14. Candy and Popcorn were enjoyed by all.

State Capitol Admired By Chinese Minister

The Chinese minister to America, Dr. Chao-Chu Wu, was officially received by the state of Nebraska when he came to Lincoln Monday of last week and paid his respects to Governor Weaver. Dr. Wu came to Lincoln for the express purpose of seeing the new capitol. After a tour of the building, Dr. Wu was taken into the executive suite by the governor. He very much admired Nebraska's statehouse and marvelled at its unique type of architecture. He was also interested to find this part of the country so well covered with railroads.

He had come to Omaha almost directly from a long sojourn in Europe during which time he took an active part in the League of Nations meeting. Returning to Omaha, he left for Washington, D. C.

About Nebraska's Big Horse Market

One of the largest horse markets in the United States is located at Grand Island. Between the years of 1915 and 1920 the average annual sales were 37,000 horses and mules, the market attaining its highest activity during the war. Since that period an average of 19,000 horses and mules have passed through the Grand Island sales ring every year. The barns and yards at this market cover ten acres and there are thirty acres of feed lots.

The largest market of this kind in the United States is in East St. Louis. Last year its total sales were 38,000 head.

The horses and mules that are handled at the Grand Island market come from Nebraska and all the states to the west and northwest that have railroads leading directly to the city. The mules sold here go on to the southern states, there to do work in a climate where the mule outlives the horse in the hot summers. The horses are sent east, the best ones going to New York and Pennsylvania where there is a continuous demand for fine, sound, heavy draft horses. Horses and mules for the U. S. Government are also selected here.

Great Britain, through its government agents, buys a great many mules here for shipment to India. Some of our Nebraska boys get a great haul way around the world trip by accompanying mule shipments to India. A few Nebraska mules are also sent to Spain. Last year a shipment was sent to Italy to do service as pack animals in the Alps and other Italian highlands where the wheel cannot go.

Black fox are numerous in Nebraska. Not wild, but grown in specially designed ranches for their fur which brings a high price. Nebraska climate has been found to be good for fox fur.

QUICK FOOD FOR THE HUNGRY CROWD

WHEN a committee meeting drags itself out longer than was expected, when a glowing crowd of bright-eyed high-school girls come in with a hungry look in their faces, when unexpected guests drop in during the evening—then what a comforting feeling it is to know that on a certain shelf in the kitchen there are the makings of a dainty bit of food which will take only twenty or thirty minutes to prepare and will win the crowd's plaudits.

Let Your Daughter Cook

This shelf is especially desirable if your daughter—or son—is of the gregarious type who is always bringing friends home after school, for you can teach her, or him, to make a few dishes and rest serene in the knowledge that the responsibility is off your hands. But to do this, one of the most important things is to see to it that the necessary supplies are always on the shelf and that recipes, if needed, are pasted on the inside of the cupboard door. Because the essence of such a meal is speed, some preparations should be made ahead of time. If you include cheese in the repertoire, see to it that grated cheese is always in the glass jar on the shelf.

Canned fruits are especially suitable, for they lend themselves to many uses. Apple sauce is one of the best liked. It can be used as a filling for cake or gingerbread. If you have baked tart shells ready, it

is the work of only a minute to add spices to taste to the canned apple sauce, pour it into the shells, sprinkle with grated cheese and heat in the oven until the cheese is melted.

Apple and Date muffins are simple to make and with chocolate or coffee are enough for such a light lunch. To make them, beat two eggs and add one cup of milk. Mix and sift two cups of flour, three tablespoons of sugar, four teaspoons of baking powder and one-half teaspoon of salt. Add to the first mixture. Then add one-half cup of canned apple sauce, three tablespoons of melted butter and one-half cup of chopped dates. Pour into buttered muffin tins and bake in a hot oven, 400° F., for 15 to 20 minutes. This makes eight to ten muffins.

Versatile French Toast

French Toast is a quick and universally liked dish and can be varied in many ways. You can sprinkle it with powdered sugar or a mixture of cinnamon and sugar, or you can serve honey or a tart jelly with it. Another variation is to cut the bread in circles, dip in the egg and milk mixture and sauté in the usual way. Then force canned apricots through a sieve and spread half the slices of toast with the puree. Place the other slices on top and garnish with a thin slice of orange, cut crosswise.

A pineapple sauce to be poured over French Toast is made by boil-

ing until thick the contents of an eight-ounce can of pineapple tidbits, one-fourth cup of orange juice and one-fourth cup of sugar mixed with two teaspoons of flour. Pour over the hot toast and serve immediately.

Peanut butter may become a partner in the French Toast business, too. To make it, cream together one-half cup of canned peanut butter and one cup of milk. Add salt and pepper and a slightly beaten egg. Remove the crusts from slices of bread and cut in strips. Dip the bread in the mixture, and sauté in butter. Serve hot with a garnish of sweet pickles.

Pie Crust Sandwiches

Pie pastry may be kept in the refrigerator for some time all ready to be rolled out and made into turnovers—if you have a filling ready. Or you can roll the pastry out and cut it in circles the size of a slice of pineapple, and bake it in a hot oven. Put a pastry circle on a serving plate, and place a slice of drained pineapple on top. Spread with marshmallow creme and sprinkle with nuts. Another circle of pastry goes on top of that, and a dab of marshmallow creme to top it off.

By a little home practice in making the foods which will appeal the most to your crowd, and by seeing to it that supplies are always on hand, you will have no qualms when the crowd descends on you.

DEMAND

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer, Manufacturer of Monoclonalacetate of Salicylic Acid

RED CROSS EXPENDS EIGHT MILLIONS FOR RELIEF IN DISASTER

Year Just Closed Put Heavy Task on Society—120 Calls for Help Were Met.

An unusually large number of disasters in the United States and its insular possessions have required assistance from the American Red Cross during the year just closed. The organization sent emergency relief workers to the scenes of 120 tornadoes, floods, fires and other types of catastrophes and expended \$8,020,000 in relief and rehabilitation of the victims.

Calls for aid came from eleven other nations in which earthquakes, floods and other problems caused distress to large populations, and the Red Cross sent \$76,300 to help in relieving the suffering.

The catastrophe causing the greatest loss of life and most widespread devastation was the West Indies hurricane of September, 1923, in which more than 2,000 lives were lost in Florida, Porto Rico and the Virgin Islands. A relief fund of \$5,883,725.62 was contributed by the public, following a proclamation by the President of the United States, to which the Red Cross added \$50,000 from its own treasury, and the society was enabled to give relief to more than 700,000 persons.

In the early Spring, river floods in the southeastern states cost a heavy toll to many persons, 76,000 inhabitants being affected in four states. The Red Cross assisted 4,883 families, approximately 28,000 persons, with food, clothing, temporary housing, food for stock and seed for replanting.

In all, thirty-eight states were visited by calamities during the year, affecting 864 counties. Twenty-eight counties were devastated twice by storms, fires and floods.

Red Cross expended \$424,000 from the treasury in giving relief in these disasters, and at one time had as many as 120 disaster relief workers, nurses and other representatives in the field.

Funds for this relief work are obtained in the annual roll call for members, which occurs from Armistice Day to Thanksgiving Day, November 11 to 28. Only once a year—during this period of Roll Call—does the Red Cross ask public support to carry on its many activities.

COFFEE CROP AIDED BY RED CROSS IN ISLANDS

Disaster relief given following the West Indies hurricane which struck Porto Rico, the Virgin Islands and Florida, as well as other islands in the Caribbean Sea, presented one of the largest tasks yet undertaken by the American Red Cross. In Florida, where 1,810 lives were lost, the Red Cross aided 41,336 persons. In Porto Rico and the Virgin Islands, where the loss of life was not so great, but where the devastation was almost complete, the Red Cross aided 731,718 persons.

Destruction of the coffee plants was the gravest loss, and the Red Cross aided in rehabilitating this industry by employing 67,000 natives to clear the coffee-land, so that replanting would go forward immediately, thus providing work and wages for thousands.

LABOR HEAD URGES SUPPORT OF RED CROSS

"Invariably it is the masses of the people which suffer most when disaster occurs," stated William Green, president of the American Federation of Labor, recently.

"Because they suffer most and because of their helplessness, the ministrations of the Red Cross organization take on added significance and importance. No doubt many lives among these particular groups are saved through the prompt service which this organization gives."

"Because the American Federation of Labor appreciates this fact, we have supplemented the appeal of the American Red Cross at each Roll Call period for membership from the great mass of working men and women and their families."

"The continued service of the American Federation of Labor in this most humane and unselfish work will be most cheerfully rendered."

Mr. Green is a member of the Board of Incorporators of the American Red Cross.

NURSES ENROLLED WITH RED CROSS FOR SERVICE

Enrolled with the Nursing Service of the American Red Cross at Washington are 49,000 nurses, qualified under the society's regulations, who may be summoned to service in time of disaster or other emergency. From the Red Cross enrollment were assigned 20,000 nurses in the World War. These Red Cross nurses are the standing reserve of the Army and Navy Nurse Corps of the United States, and are also called upon for service in other governmental health services.

HOOVER'S BUDGET TOTAL ANNOUNCED

Total Fixed At \$3,830,000,000. 1931 Budget Shows Decrease Of \$111,000,000.

The budget for 1931 government expenses will show a decrease according to figures of Hoover's first budget recently released.

The budget for 1931 will amount to \$3,830,000,000, or about \$111,000,000 less than last year when the total with appropriations and the deficiency amounted to \$3,941,000,000.

There will be an increase of \$10,000,000 for improvement of waterways. Of this sum \$5,000,000 will go for actual waterway transportation improvements and \$5,000,000 for Mississippi river flood control.

The farm board appropriation for the 1930 fiscal year totaled \$150,000,000 and the amount which will be needed in the 1931 fiscal year has not been determined.

Increase Waterway Fund
In addition the waterway fund will be increased by a sum of between \$4,000,000 and \$5,000,000 available for Ohio river improvement which will not be needed as that project has been completed.

President Hoover announced the budget outlook last Friday, revealing also that it will carry the full amount contemplated by congress for the fifth year of the army and navy aviation development program. There has been some slowness during the past four years in money appropriated for this purpose, but this year the fifth of the program, the full amount will be available.

"Why Teachers Leave Home"

Why teachers leave home is the question Dr. Willard S. Elisbree, of the Teachers college, Columbia university, attempts to answer through a recent study made in 125 cities and villages of New York state.

The roving disposition of the American school teacher is in great contrast to the staple character of the European instructor and has always been felt as one of the greatest weaknesses of the profession.

Dr. Elisbree found that an average of eleven percent of the teachers in a system changed places during or at the end of the school year, and that the turnover was greater in villages than in the cities, ranging from three to forty-two percent in the former and one to thirty-four percent in the latter.

Marriage ranks first as the cause in cities and second in villages. In the smaller communities one-fourth of the teachers who leave do so to accept better positions in larger places, the average increase in annual salary gained thereby was \$200.

Contrary to expectation, the men teachers found to do almost as much shifting as the women.

The average age at which teachers marry is about twenty-six years.

More removals because of illness and death occur in the cities than in the villages.

Kentuckian Named Farm Board Counsel

The announcement was made at Washington, D. C. last Friday that Stanley Reed, of Marysville, Ky., will become general counsel for the federal farm board on Dec. 15.

Reed, a member of the firm of Browning, Reed and Zieger, of Mayeville, Ky., will succeed George E. Farrand, present general counsel who has completed the initial organization work he came to Washington to do for the board.

Reed has been named assistant counsel until he assumes Farrand's post.

Peculiar Elevens Of The World War

The Great War ended with dramatic suddenness at eleven o'clock on the eleventh day of the eleventh month, just even months to the day after General Allenby took possession of Jerusalem. Jerusalem was surrendered December 10, 1917, but General Allenby did not enter it until the morning of the eleventh. Hence it may be truly said that the World War ended at the eleventh hour of the eleventh day of the eleventh month, just eleven months after the taking of Jerusalem without a shot on the eleventh day of the twelfth month of the preceding year.

Charles Sala, a youth, made a very unusual request of Municipal Judge Peck, of Lincoln. After the judge had assessed a fine of \$13 and cost for speeding, the youth turned to the judge and said "couldn't you revoke my driver's license?"

PRESIDENT ENROLLS IN RED CROSS

President Hoover, who is also president of the American Red Cross, enrolls in the annual Roll Call of the society, which occurs from Armistice Day to Thanksgiving Day, November 11 to 28.

Automobile Accident.

Mr. and Mrs. G. A. Mittelstadt met with an automobile accident last Thursday evening that might have

been fatal to both. While Mr. and Mrs. G. A. Mittelstadt were driving on the Pierce Highway, about two miles north of Norfolk, a car without any lights, drove from a side road onto the highway just ahead of them. Mr. Mittelstadt did not see the car until he was too close to stop his car, so though he might be able to avoid an accident by turning his car to the side and in attempting to do so, went into a ditch, his car turning over and completely wrecking it.

Mrs. Mittelstadt suffered severe bruised shoulders and neck and a slight scalp wound. Mr. Mittelstadt was badly shaken up but not injured. They were taken to Norfolk where Mrs. Mittelstadt received medical attention and later in the evening were brought back to their home in Winside. Mrs. Mittelstadt is confined to her bed but hopes to be around in a few days.

Cedar County Has A Superior School

The Logan Center school in Cedar county is the second school in the state to be recognized as a superior school by State Supt. Taylor. Rather than urging the consolidated school, so popular over the state, Supt. Taylor is encouraging rural schools to be of the highest standard that the respective districts are willing to pay for. The only other school to be recognized by the superintendent is the Martel school in Lancaster county.

Dog Shoots Boy, May Loose Arm

It is the unusual happening that interests the public, if a boy were to shoot a dog that would not interest the public unless it happened to be a mad dog that he shot, however, when a dog shoots a boy that is news, for we are accustomed to consider a man's dog his best friend, although you may neglect the dog, failing to feed and care for it even to abusing it, yet that same dog will sacrifice its life for his master.

The only dog that has ever been known to shoot its master, so far as we have record of, did so accidentally.

Floyd Elserman, 17 years of age, of Pleasant Dale, was shot Tuesday by his own dog, Young Elserman had been out hunting and had returned to his barn to do some chores, as he entered the barn he set his gun down at the head of a stairway went down into the basement of the building, his faithful hunting dog which was following him bumped against the gun and it slid down the steps, the hammer striking against the step and the boy who had just reached the foot of the stairway received the charge of shot in his arm, and as gangrene has set in, his left arm may be amputated.

Entire Town Will Be Auctioned Off

The village of Eliza, Ill., has devised a novel method of starting a boom in real estate.

According to an announcement in one of our exchanges the whole village is to be offered for sale, so, if you are not pleased with the way your town is run this is your opportunity to buy an entire town of your own and experiment on running a town according to your own ideals.

The announcement reads as follows: "For sale, one up-to-date village in the heart of the corn belt, comprising general store, drug store, barbershop, poolhall, community building and fifty-three acres of surrounding farm land. To be auctioned off Nov. 14 by John Bishop, Owner."

Such are the glaring bills which have been nailed to telephone poles for miles around to tell of the sale of Eliza, a prosperous town of 275 inhabitants.

The placard goes on to say "Eliza is connected with other towns by good roads, has fine schools and is a good buy for some financier or group of men seeking the unusual."

You may not be so important as you think! The postoffice department lost approximately \$5,000,000 last year on carelessly addressed mail, a large percentage of this loss being the direct results of business firms having an exaggerated idea of their own prominence.

Many firms doing a large advertising business have labored under the impression that not having a street address indicated great importance in the home town and impressed customers with the fact that "even in New York and Chicago we are so well known the postman needs no help in finding us." The result has been that 200,000,000 letters had to be especially handled by clerks hired to fill out adequate addresses. Of the 200,000,000 inadequately addressed letters 25,000,000 found a final resting place in the dead letter office.

The J. H. Hokamp family held a family reunion at their home in Carroll Sunday, Nov. 10, and about 31 relatives were present. This is the first time in several years that this group of folks has had the pleasure of being all together. The following were present: Mr. and Mrs. Harry Hokamp of Mitchell, the W. F. Hokamp, Ed. Hokamp, John Schram and Fred Hellweg families of Belden, G. H. Hokamp of Bloomfield, the Chris Hellweg family, the Lester Bartels family of Laurel, and Mr. and Mrs. Fred Hellweg, Sr. and son, Alford.

Methodist Church Notes.

Study to show itself approved unto God. While some people may and do study who never go to school yet the enormous educational taxes paid in America indicate that in a practical way we believe in our schools as the best place in which to study and secure an education. There is no better place in which to study the most important problems of life than in the church school. The original text written thousands of years ago is still up to date and the most up-to-date text book on the essentials of life that has ever been written. Let's everybody be in school promptly on time Sunday morning at 10 o'clock. Morning worship at 11:00.

Epworth League at 6:30. The largest attendance last Sunday evening we have had yet.

Dr. Charles C. Gomon, our district superintendent will be with us and preach at 7:30. After the preaching service he will conduct the first Quarterly Conference of this year. We anticipate a packed house for all will want to hear his message. All our members and friends are invited to attend the business meeting and observe the conduct of the conference.

By vote of the congregation we will heed the call of the President and Governor and hold a Thanksgiving service in the church on Thanksgiving evening at 7:30. The entire community is invited to attend. The pastor will give a Thanksgiving message.

As the weather begins to strengthen shall we not each increase our diligence and faithfulness to attend upon all the services of the church and make the winter months the best time of the year in Kingdom building. Carl Critch, Pastor.

Mr. and Mrs. A. T. Carstrom, and Mrs. Harry Wissing, all of Sioux City, spent Sunday in this city visiting the Curtis Foster and J. H. Foster homes. M. C. Carlstrom is Mrs. J. H. Foster's father and Mrs. Curtis Foster's grandfather. A. T. Carlstrom is a brother of the former and Mrs. Wissing is a cousin of the latter.

6:30—Epworth League service.

7:30—Evening service, subject: "Folks I Don't Like, Folks That Don't Like Me." What shall we do about it?

Governor Weaver has been made an "Indian" and given a new name. He was made a member of the Omaha Sioux tribe of Indians in 1871. The Indian ceremonies at the Grand Jubilee, and given the name, Wamblika, which means "Great Chief Standing Bear of Pine Bluff" was in charge of the ceremony which, fortunately for the Governor, did not include any such treatment as was meted out to Dantel Boone the years ago when his Indian friend took him to a river and scrubbed him thoroughly, painted him with bright colors and braided feathers into his hair in their attempt to make an Indian of him.

Miss Jean Redick, queen of the Sat-Ben, also was made a member of the tribe and given the name "Wamblika," meaning "Princess White Eagle."

Card Of Thanks

We wish to thank all those who so kindly extended to us their sympathy and thoughtful kindness during the failing health and recent death of our beloved father, Malcolm J. Johnson.
