Trucks Collide South of Town Two Injured

Four Youths Had Close Call When They Crash Into Truck.

A Ford truck, belonging to the Weber Dairy, crashed into a two-ton truck belonging to the Coryell Auto company last Thursday evening with dire results to the occupants of the Ford truck and its four occupants.

Don Miller sustained a broken arm, Edw. Thies, the driver, had several ribs broken and Murray Powers and Eddie Gaines, also in the car at the time suffered several bruises of a minor nature. Forsberg, driver of the Chevrolet, was uninjured.

The accident happened on the main highway about a mile south of town. Forsberg, driving on his way to town drove up to another truck stalled along side of the road. He stopped to offer help but being informed that none was needed and had resumed his journey. Just as he had shifted his truck into second, the Weber truck crashed into him. They were evidently driving at a high rate of speed for the impact hurled the engine of the Chevrolet truck clear across the road. Both front wheels of the Ford were demolished and the radiator was pushed up against the engine with such force that part of the engine came through.

Young Thies was hurled against the steering wheel with such force that several ribs were caved in. Peritonitis has since set in necessitating an operation. At first his condition was considered grave but it is believed that he is well out of danger at this writing.

The Chevrolet was not seriously damaged. L. R. Winegar hearing the crash from his home hurried to the scene and took the injured boys to the hospital.

Removes Paint With Blow Torch—Fire!

Removing paint from a building with a blow torch proved to be an exceedingly dangerous practice and came very near causing a serious blaze at the Charles Thompson residence last Saturday afternoon. The flame of the torch started a smoldering fire which was not noticed until the fire had reached serious proportions. The firemen had to chop several large holes in the building to get at the source of the fire. Not a great deal of water was required to quench the flames so the damage was not heavy.

Co. Superintendents Meet Here Yesterday

County Superintendent Pearl E. Sewell, and Miss Anne Will, county superintendent of Cuming county, entertained the county superintendents of the Third District here yesterday, May 28th. After attending the commencement exercises at the Wayne State Teachers' college in the forenoon, the hostesses and their guests went to Hotel Stratton for dinner, following which an informal get-together meeting was held at Miss Sewell's office. Prof. A. V. Teed, former county superintendent, was among the guests.

Local Post of American Legion Moves to New Quarters

Quarters Provided Them In Rooms At Court House.

Irwin Sears Post of the American Legion now has headquarters in the court house, moving this week from their club rooms over the Orr & Orr Grocery to rooms made available for them by the county commissioners. The rooms placed at their disposal are two fine rooms which have been long part time service as jury rooms. They will continue to serve this purpose, as the two purpose for

Sale of Poppies Broke Good Returns

Annual Poppy Day, observed in Wayne last Saturday proved quite satisfactory to the committee in charge of the sale of poppies. The sale of poppies netted \$132.00, which will be used for relief work among needy World War Veterans and their dependants, and reimburse disabled veterans in the government hospitals for their work of making the poppies. Two and one-half cents for each poppy sold is paid the disabled veteran who made it and the remainder goes to the veteran relief work. Mrs. Max Ash had charge of the local sales and was ably assisted by a corps of volunteer helpers.

Seek to Extend Rights of Cities

Petitions Being Signed To Initiate Law Extending Power.

Petitions are being circulated at the present time to submit to the voters at the next general election their approval or otherwise of a law permitting municipal owned utilities to extend their service outside of the confines of the city proper.

Under the present law governing such utilities, light plants and similar types of public service cannot be extended to homes located outside of the city limits. The proposed initiated law would permit municipal authorities to extend their power lines outside of the city limit and furnish light and power wherever the civic authorities deemed an expenditure was justified by possible returns.

The petition is at the office of the city clerk and may be signed by all legal voters wishing to have it placed on the ballot in the next general election.

Masons Hold Election

Kenneth N. Parke was elected Worshipful Master of the local Masonic lodge at its annual election held last Friday evening. Other officers named were: John C. Carhart, Senior Warden; Charles E. Wilson, Junior Warden; Harvey S. Ringland, Treasurer and J. M. Cherry, Secretary. The installation of officers take place Friday, June 13.

Of special moment in connection with the election is the re-election of Judge Cherry as secretary. He has been elected to this position for the twenty-sixth consecutive time.

ASSESSOR'S REPORTS

Two more assessor's reports have been handed to County Assessor Wm. Assenheimer, during the past week. These being the report from Garfield Township by M. Swihart, listing the assessed valuation of that precinct at \$292,000; and of Chapin precinct by W. Prince listing the valuation there at \$368,000.

TO LET GRAVEL CONTRACT

Highway No. 35 from Winside west, will be graveled this summer according to a decision made by the county commissioners at their meeting Tuesday. A call for graveling bids has been made and the contract for same will be made June 20.

BUILD CHARACTER GOVERNOR TELLS GRADUATES

Gov. Weaver Addresses Graduates Of Wayne Teachers College.

School Semester Ends

Building of character is the major task of those to whom are entrusted the training of youth, Governor Arthur Weaver told the graduating class of Wayne Teachers college at the commencement exercises held in the college auditorium last Wednesday morning.

The Nation is great, the governor went on to state, not in its wealth, but in its Christian principle and educational values. The need for the best obtainable training in that regard was therefore of most vital importance—a responsibility soon to be assumed by the young people whom he had the honor of addressing.

Governor Weaver, at the outset of his talk paid special tribute to President Conn and the school faculty and to the support and loyalty accorded the school by Wayne community. Such evidences as these, he asserted, had justified the deep and proved interest of the State government in its schools and especially its Normal colleges as the training of the trainers of youth.

Governor Weaver's address was a part of the ceremony that marked the termination of another college year and the completion of the school career of sixty students, who received their diplomas of graduation at that time. Fifty two of these students received Bachelor of Arts in Education degrees; Bachelor of Science in Education Degrees and three degree of Bachelor of Fine Arts in Education.

Out of the one-hundred-thirty-one students who complete two years of college work this year, ninety-five will receive the Normal School Diploma. Thirty-six of these sophomores are not taking out diplomas. Five have completed requirements but expect to return next year and thirty-one have completed the college work but have not taken professional work for the diploma.

Commencement exercises for the college high school were held at the college auditorium Monday evening when diplomas and scholarships were awarded and Dean W. E. Sealock of the University of Nebraska addressed the outgoing class.

College baccalaureate services were held in the school auditorium Sunday evening, the sermon being preached by Bishop Frederick D. Leete of Omaha.

School is now closed to reopen for its summer session June 9. The session is composed of two six week terms. The training school will be in session only four weeks. The instructors of the high school will teach in the department of education for the summer. Indications are that the attendance will be very heavy.

WEDDINGS FEWER MORE DIVORCES

Statistics Show That Dan Cupid Lost Ground In 1929.

Matrimony had an off year in Wayne county, according to a report of recent date sent out by the U. S. Department of commerce.

During that period there were six less marriages than the year previous and six more divorces. In other words, there were 66 marriages consummated in 1929 and 72 in 1928; while in 1929 there were divorces, while in 1928 there were but two. State averages showed up somewhat better showing a total number of 10,202 marriages in 1929 compared with 9,932 for the preceding year, and 1,728 divorces in 1929 compared with 1,538 in 1928.

The number of marriages performed and the number of divorces granted were furnished by the State Department of Public Welfare. The figures for 1929 are preliminary and subject to change.

There were many individual acts of heroism, devotion to duty and "good turns" by the Tekamah Scouts that may never become known.

Council Urged to Buy Str. Flusher

Petition Signed By 82 Tax Payers Urge Purchase Of Machine.

A street flusher, for washing off the paved streets of the city, may be listed among the improvements of the city if favorable action on the part of the city council is accorded a petition signed by 82 local tax payers requesting its purchase.

The petition was presented to the city council at its regular meeting last Tuesday evening and referred by Mayor Orr to the city finance committee for further consideration. Whether the council will take favorable action on the matter when it is brought up for consideration at some meeting in the near future, is a matter of conjecture, for though it is an improvement sorely needed, the purchase of such a machine would require an expenditure of from seven to eight thousand dollars, and funds for such a purchase, it is said, are not available at this time.

That such an improvement is sorely needed in Wayne is a matter that can hardly be disputed. The dust problem at times is a serious one and the sponsors of the purchase of a flusher are urging action on the ground that it would pay for itself in a short time in doing away with the damage caused by the dust and in doing away with a most serious menace to public health as well.

Local Man Is Married Here Sunday, May 25th

George DeVoe Bacon, local barber working at Thielman's barber shop here, and Miss Irma K. Roberts of Osmond were united in marriage last Sunday noon, May 25th, at the local Presbyterian Manse, the Rev. P. A. Davies, pastor of the First Presbyterian church of this city performing the wedding ceremony. The young couple were attended by the bridegroom's brother Forrest Bacon, of South Sioux City, and by Miss Mildred Steel, also of South Sioux City.

The young couple will make their home in this city where Mr. Bacon plans to continue his school work at the local Teachers' college from which he was graduated from the two-year course a year ago.

UNDERGOES AN OPERATION

Mr. and Mrs. Charles White went to Norfolk by train Wednesday evening last week and Mr. White underwent a major operation at the Lutheran hospital the next morning. He had been planning for the ordeal for some time. Though the operation was quite a serious one Mr. White is doing very nicely.

PROF. REED WILL LEAD WISNER BAND

Adds To Local Duties The Direction Of Neighboring Band.

Prof. F. C. Reed, director of Wayne Legion Municipal Band, has added to his duties the organization and direction of a municipal and high school band at Wisner, his appointment being made at that city last week.

His appointment is a distinct honor for Wisner had the services of a number of prominent band men at their disposal to choose from, but Prof. Reed's ability to turn out championship band was so well known that he was selected as soon as it was learned that his services were available.

Prof. Reed has already set out upon his new task and held the first practice this week. He reports some splendid talent in the making and expects to have a band able to give concerts of a preliminary type, in the near future.

His new duties will in no way affect the status of the local band as he intends to remain here and keep his organization in championship form as of old.

Attend Memorial Day Services At Gay Theatre

The rights and privileges which was free and independent citizens of a wonderful country enjoy did not come to us in a hap hazard manner. They came to us through unspeakable suffering and self-sacrifice. They were bought and paid for at a tremendous price.

Memorial Day is set aside by this nation to revere the memory of those who have sacrificed.

It behooves every loyal American citizen in Wayne to attend the Memorial Day services held Friday morning at 10:30 at the Gay Theatre when Rev. Wm. E. Braisted, pastor of the First Baptist church will pay tribute to those who have sacrificed and paid the price.

The place should be filled to its capacity. Do your bit and be among those present.

Commencement Ends Semester

Outgoing Class Had Splendid Record Of Achievement.

Diplomas of graduation were presented to thirty-two students of Wayne high school at commencement exercises held at the First Methodist church last Thursday evening.

These exercises brought to a termination a very successful school year in which scholarship attainments and success in interscholastic have made the past year one of the most outstanding in the annals of the school.

L. C. Oberlies, of Lincoln, addressed the young graduates at the exercises, treating in his characteristic and interesting way, on the importance and value of a good education. He urged the students not to underrate or over rate the value of their high school training.

Wayne high school class 1930, while not the largest class in the history of the school, has listed on its roster many young men and women who have given the school and the community just cause to be proud of them. In scholarship, the class averaged among the best, while in school activities the class has produced several of outstanding ability in music, debate, oratory and athletics.

The young folks, naturally, are looking to the future with high hopes and the community has every reason to expect much of them.

Leslie Precinct Shows Loss In Population

Wayne county's net gain in the recent census over that of a decade ago amounted to 874, falling short by 26 of the estimated gain of 900 printed in last week's issue of the Democrat. Leslie, the only precinct not reporting fell short of expectations showing a loss in population of 38 in the ten year period. The population in that precinct in 1920 is listed as 354 while the late returns show it at 316.

Expenditures By City Limited To Fixed Amount

Cost Of Running City Will Probably Be Much Less.

\$89,500 Spent Last Year

Estimate of the probable amount of money necessary for all purposes to be raised for the city of Wayne for the fiscal year beginning May 1, 1930 has been set at \$130,800.00.

"Now don't get excited," said City Clerk Walter E. Bressler, "chances are ten to one that the cost of running the town will not come anywhere near that amount, but the council has to set a limit as to the amount of money it can spend and it has to be on the safe side in case an emergency should arise that would require an amount out of the ordinary, so the estimate is placed high."

The estimate for last year was placed at approximately the same figure but the total expenditure for all purposes amounted to \$89,500, which was ten dollars less than the amount of the funds on hand on May 1 to meet the expenditures. Other receipts belonging to the last fiscal year have increased the surplus.

The following is the division made of the estimated expenditures:

Light Plant—	
Salaries	\$12,000.00
Coal, Freight and oil	18,000.00
Repairs	30,000.00
Water Plant—

Fail To Identify Suspected Holdups

C. E. Benshoof, Dave Lenhart and Fritz Dimmel all of Winside, accompanied Sheriff Archie Stephens to Sioux City the first of the week for the purpose of ascertaining whether or not Harold Domlisse and Arthur St. Cyr, held by the Sioux City authorities were the parties who attempted a holdup of the Benshoof garage at Winside last March. They were unable to positively identify either of the pair. This will have little or no bearing on the status of the two suspects for they are held on a large number of counts in Sioux City.

Independent Communities To Become Like Mill Towns

"Do you want your community to have the same fate that has overcome the mining towns, where all local freedom and identity is lost, because mining towns are controlled by eastern corporations?", asked Mr. W. A. Masters of St. Joseph, Missouri, a nationally known authority on chain store practices, over radio broadcasting station KFAB Lincoln during the Federation of Nebraska Retailers "Community Builders" half hour program Tuesday night.

Are Nebraska communities to be reduced to the state of mill towns and mining towns, where every city official and some county officials are

"We Service What We Sell"

We can't go everywhere but you can come here--

We would like to call on everybody, but ob-
viously that is impossible.

We can, however, make it convenient for any-
body to call on us. This we have done. We sell
insurance "over the counter." You can come to
me and buy protection just as you can go to your
butcher and buy beefsteak.

This is a new departure in selling insurance, but we
are convinced that it is a sound one. No one could be as
greatly interested in your protection as you are yourself,
and insurance is essentially your buying problem----not
our selling problem.

We stand ready to supply you with insurance of
every sort. We represent strong reliable old line insurance
companies and write practically all forms of insurance pro-
tection.

WAYNE MARKET REPORTS

Following are the market prices quoted us up to the time of going to press Thursday:

Table with market prices for Corn, Oats, Butter Fat, Eggs, Hens, Springs, Rooters, and Hogs.

County editors are apt to get the notion that they have the meanest competitors in existence. But a peep behind the scenes shows that publishers of big dailies and magazines, managers of advertising agencies, department store managers, and even the men behind big railroad companies have the same notion.

Prohibition may be a big issue in this country, but hardly so if the recent Prohibition poll of the Literary Digest is taken as criterion. Of the 20,000,000 people solicited as to their views, seven percent registered satisfaction with the law as it is; six percent registered a desire to have the law modified and ten per cent favored repeal.

ANOTHER BRYAN IN POLITICS

Silas Bryan, son of Charles W. Bryan, got his name in the headlines of metropolitan newspapers recently because he filed for the democratic nomination for congress from the fifth Minnesota district, where he resides. His action was the cause of comment because he happened to be a member of the Bryan family and because his stand on the liquor question was a digression from what one would expect anyone bearing that name.

SPEAK WELL OF YOUR TOWN

The following creed of Charles Dawes is a very fine one: "If you work in a town, in heaven's name work for it. If you live in a town, live for it. Respect the great power that protects you, that surrounds you with the advantage of advanced civilization and what makes it possible for you to achieve results. Speak well for it. Stand for its civic and commercial supremacy. If you must obstruct or defy those who strive to help, why quit the town. But as long as you are a part of a locality, do not belittle it. If you do, you are loosening the tendrils that hold you to the community and with the first high wind that comes along you will be unrooted and blown away, and probably you will never know why."

PENNSYLVANIA TEARS LOOSE

Congressman Edgar Howard says little by way of an improved status in Pennsylvania political affairs in the defeat of Senator Grundy and the substitution in his place of Secretary of Labor James J. Davis. Secretary Davis, Mr. Howard states, may not be as radical in his tariff views as Senator Grundy, but labor and agriculture had far more to expect by way of consideration from Grundy than his victor.

Such may be the case, but the defeat of Senator Grundy is a great victory for the ordinary individual, nevertheless. Grundy's tariff policy has been brazen in its utter disregard of the will and the needs of the masses. His defeat is a stinging rebuke to that type of politician who thinks he is so strongly entrenched that he can disregard the will of the people he should serve.

The victory of former Governor Gifford Pinchot in the Pennsylvania primaries, is also significant. Pinchot, a man of pronounced progressive tendencies has been nominated for governor defeating Francis Shunk Brown by a narrow margin. His victory and the defeat of Senator Grundy are highly significant that Penn-

sylvania, in common with the rest of the United States is not the private property of any political machine.

MEMORIAL DAY

Memorial Day differs from our other national holidays such as Armistice Day and the Fourth of July, in that it partakes of a solemn rather than a festive nature. It is a day set aside to decorate the graves of our soldier dead and to contemplate on the serious side of our national life. The word "celebrate" is entirely out of place as far as Memorial Day is concerned. But too often the significance of the occasion is entirely lost sight of. Too often it means nothing more than a fishing excursion, ball game or picnic.

Those who choose to "celebrate" rather than "observe" Memorial Day may not be lacking in patriotism, they may be as true and loyal citizens as the next one, but if they cannot draw inspiration and appreciation from a Memorial Day service, they are surely lacking in some important element that is a necessary part of the best type of American citizenship.

The passing of the G. A. R. veterans has taken away much that was picturesque and inspiring out of the day. Those who recall Decoration Days of other years will agree that they have seen nothing more impressive of a patriotic nature than the ranks of the blue clad boys of '61 as they followed the flag on Decoration day to pay their tribute at the gravesides of their departed comrades.

There was something about these old men that marked them as persons to whom peculiar veneration was due—not because they were radically different from the common mold, for they were not. They had vices and virtues common to the rest of us—but they possessed one virtue from which they never deviated.

They loved their country. Their patriotism was intense. They regarded the flag of their country which they chose to call "Old Glory" with a zeal and a reverence which we, the younger generation could neither fathom nor understand. To us allusions to the flag seems superficial—an overworked metaphor employed by designing politicians—but to the old soldiers, the flag stood for everything that was noble and beautiful in our national life.

There was nothing superficial about the patriotism of the old soldier—nothing over done. His patriotism became him and he wore it gracefully, for his love for his country and veneration for his flag was a part of his religion, a faith as simple and beautiful as the faith of a reverent man in his God.

Eight Local Scouts Attending Camporall

Eight of the Boy Scouts of local troop No. 174 of the Nebraska area known as the Covered Wagon Area leaving this morning for Omaha to attend the Covered Wagon Area Camporall at which every troop in the area is to be represented. P. A. Theobald is hauling the boys to Omaha by truck. Those going are: Robert Gulliver, Miles Tyrrell, Dale Hanks, Bill Ahern, John Kemp, Robert Theobald, Kenyon Lewis and Jack Morgan.

Each boy is to take his own bedding and other necessary luggage for camp. The boys also must furnish their own food. All that is to be supplied to them at the camp is a plot of ground. It is up to the scouts to make the best of it, the representative group keeping the best and neatest camp to be awarded a prize. Contest will also be staged in which the scouts will compete in the following: Cooking the best meal, making fire by friction, water boiling, knot tying, first aid, signaling and perhaps other activities. The meeting is to be in session until next Sunday.

This will be a most enjoyable experience for the boys. A. F. Gulliver will also be present.

SALVATION ARMY MAN AS BUSINESS VISITOR

Envoy Charles Dykstra of State Headquarters of the Salvation Army from Omaha was in Wayne this week laying plans for the yearly campaign. Three of the local American Legion boys were appointed to put this over, namely, Prof. C. E. Wilson, C. A. Orr, and A. L. Swan.

Public men like these back the Salvation Army's appeal for funds because the Army knows no creed, class, or color, and gives service to all, reaching a class which is not reached by any other agency or church, yet thousands of its converts unite with the churches each year.

The Salvation Army does a good work. Buck it.

WITH THE WAYNE CHURCHES

First Presbyterian Church

P. A. Davies Pastor. "Some folks don't have to turn the light out to be in the dark", they just stay away from the light. Jesus said "I am the light of the World." We shall hold all of our services next Sunday at the usual hours; Sunday school 10 a. m. Morning service 11 a. m. Evening choir 7 p. m. Intermediate C. E. 7 p. m. Young Peoples C. E. 7:30 p. m. Evening service 8 p. m.

The pastor spent the first two days of the week with Mr. Colbert, representative of our great Presbyterian paper, "The Presbyterian Advance." Between thirty and forty of our people are now subscribers. It is one of the worthy goals of the church to have a church paper in every members home.

Let us keep Friday, Memorial Day fittingly by attending the memorial service at the Gay Theatre at ten-thirty o'clock.

Our young people have their plans well under way for a great district C. E. convention on the 7th and 8th of June. This is not a small undertaking and its success is dependant upon the assistance of those who are older as well as upon the loyalty of the young people. The young people are asking at present for the following:

- First: Entertainment for our guests in our homes.
Second: Many registrations at the price of 50c.
Any one can register and thus help pay the expenses of convention.
Third: Purpose now to be at all sessions of Convention.
Let us all boost.

bloms, local improvements in their towns, and you will find little if any interest on their part, as most of the town is owned and controlled by great foreign corporations, who not only control but dictate in policies of the town government."

"Miners will remain miners, and mill workers will remain mill workers for generation after generation," said Mr. Masters, "and we should be thankful that such towns constitute only a small portion of the towns of this country."

"But," continued Mr. Masters, "did you ever stop to think that towns controlled by chain store organizations will be just like that? Local managers would be much like the local mine and mill bosses. The heads of these great national chains would live in some distant city. The local manager would carry out their policies, not being permitted to have any policies of their own, and without authority to meet and confer with the people of such towns for the purpose of planning improvements in their form of government."

Mr. Masters quoted Mr. John T. Flynn, who is perhaps the greatest of all chain store champions who recently made a radio talk during "Collier's Hour", during which he said, "We may as well reconcile ourselves to the fact that we are to become a nation of employees. I think the sooner it happens the better it will be for we will then have a better disciplined people, and the people of America need to be disciplined." Do you agree with this philosophy of servitude?

"Who is Mr. Flynn?", asked Mr. Masters, and he answered his own question with the reply, "Mr. Flynn is a clever writer, and able speaker, writing and speaking for monopoly, and yet his every prediction must come true unless the American people, and especially the youth of America, wake up and prove to the world that the ideals upon which this nation was built will endure, to shake off the yoke which is slowly tightening itself around the necks of the

people." "Support your independent community business enterprises", advised Mr. Masters, "and let the jingle of silver replace the ominous clank of the chain, that we may point with pride to a citizenship whose loyalty will never again be questioned."

The "Nebraska Community Builders" program is sponsored by the Federation of Nebraska Retailers and is broadcasted over station KFAB Lincoln on Tuesday and Friday evenings of each week from 10:00 to 10:30 p. m. Tuesday evening, May 27, the principle address on this program will be given by Nebraska's attorney general, Mr. C. A. Sorenson, of Lincoln. On Friday evening, May 30, the speaker will be Mr. C. W. Watson, secretary of the association.

ROBBERS VISIT DIXON

Dixon—Thieves visited this village some time late Monday night or early Tuesday morning last week, breaking into the Dixon Mercantile Co. general store and making away with several pairs of shoes, hats, caps, a number of cartons of cigarettes and gum, and a small amount of change taken from the cash register. The large safe was not tampered with. They gained entrance into the store by breaking the padlock on the outside and then breaking a hole in the glass of the door to work the night latch. They also broke the padlock on one of the pumps at the Dixon Filling station and took about 25 gallons of red gas but did no further mischief. Cars were heard at various times during the night but no one had any suspicion of what was going on.

To Attend Homecoming Little School Of Yore

Clyde Oman recently had the surprise of receiving an invitation to attend a homecoming of the little college at Central City where he was a former student. The homecoming, evidently is somewhat of a rare event there, and will be held next Tuesday, June 3rd.

Besides Mr. Oman, others who enjoy the honor of having attended school at the Central City college and who attended school at the same time as did Mr. Oman, are Tom Perrin (now deceased); Attorney M. O. Cunningham of Omaha, Harvey Mason of Meadow Grove, and Bert Brown of Long Beach, California. Mr. and Mrs. Oman plan to drive to Central City for the homecoming. From there Mrs. Oman will go on to Denver, Colorado to attend the Biennial International Convention of Woman's clubs to be held there June 5 to 14, and Mr. Oman will go to visit at Sidney and other points.

Large Delegation Attend W. C. T. U. Meeting Fri.

Twenty Wayne women were in attendance at the semi-annual meeting of the Wayne county W. C. T. U. held at the M. E. church parlors at Carroll last Friday afternoon, May 23rd, the meeting beginning at 2:30 o'clock. Members of the Winside union were present also.

After a devotional service and prayer, County President, Mrs. C. E. Elder of Carroll, gave an address of welcome. Mrs. Wm. Beckenhauer of this city, president of the local union, gave the response to the welcome. The following program ensued:

Songs, "There's Music In the Air" and "Sweet and Low," sung by the eighth grade graduates of Carroll; Humorous reading, "Lena Buy A Hat," given by Miss Wilma Elder; Community singing led by Mrs. Elder. The balance of the program which had been prepared by Carroll was laid aside and the time given over to the Rev. Mrs. Iva M. Innis of Wilcox, state vice president. She was introduced by Mrs. Elder, and gave an interesting talk on the work of the W. C. T. U., stressing the need of prayer and urging the need for vigilance. Her lesson theme throughout her talk was, "Be strong and of good courage." After the session there was a social hour and luncheon was served.

Mrs. Innis has been working in Wayne county for about 10 days, and has been able to accomplish a good deal in the way of getting new members. In her work in the schools she has secured several hundred signers to the Youth's Roll Call, a roll on which the names of the signers are written and which sets forth the following attitude or pledge: "I want prohibition to succeed; I want to give prohibition its chance." The roll will be sent to President Hoover to show him where the Youth stand in regard to the prohibiting question. Mrs. Innis has never once been turned down in her quest for signers among the young people. The age limit of the signers ranges from 14 to 30 years.

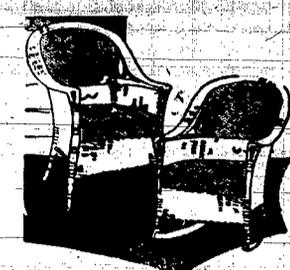

Those who attended the meeting from Wayne were: Mesdames Wm. Beckenhauer, John Grimsley, D. W. Noakes, Walter Phipps, Mary Brittain, P. A. Davies, Nettie Call, Stella Chichester, Miss Ada Cash, and Mesdames George Crossland, C. A. Anderson, C. C. Kilborn, Wm. Fox, Earl Fox, Charles Simpson, Eric Thielman, Robert Porterfield, George Hughes, T. E. Ellis, and C. O. Mitchell.

MILLER-McCLURG
Harold E. Miller and Miss Bessie E. McClurg were married at the Methodist parsonage of this city yesterday afternoon, Wednesday, May 28th, at 2:00 o'clock, the Rev. W. W. Whitman, pastor of the First Methodist church of this city, performing the wedding ceremony. They were attended by the bride's brother and wife, Mr. and Mrs. W. J. McClurg, of Inman.

The bride is a school teacher, having taught school at Inman the past four years. The bridegroom is an industrious young farmer living near Inman. The young couple will make their home on a farm near Inman.

TEKAMAH BOY SCOUTS DO MANY GOOD TURNS

Render Effective Service When Disaster Hit Their City.

In spite of many tendencies of present day youth that are pointed to by alarmists as sure signs of degeneration of our civilization, there is much of an encouraging nature tending to show that there are some powerful agencies at work in the promotion of good citizenship among our boys and girls. Chief among these are the boy and girl scout movements.

The Boy Scout troop at Tekamah during the recent disastrous tornado in that city, furnished a good example of the fine spirit of service that becomes a part of every boy who joins the organization.

Every Troop has a mobilization system for times of disaster. However, the storm caught the Area in which most of the leaders live. The Scoutmaster, Assistant Scoutmaster, Scribe, Senior Patrol Leader, and three of the four Patrol Leaders were in the Area affected. Nevertheless within an hour after the storm, more than half of the Troop was mobilized and assisting the local police chief in guarding. Several reports of First Aid work came in, as well as First Aid to Animals. Most of the boys remained on duty during the night of the storm when paid guards and a few volunteers relieved them. They were all back on duty before eight o'clock Friday morning and worked until after dark Friday night. By Saturday morning practically the whole Troop was at work, some at points of traffic congestion, some guarding, and others assisting the Red Cross workers.

Saturday afternoon the whole Troop, with the exception of those on duty along the cemetery road, attended the funeral of Scout Bern Tuttle's mother.

Sunday the boys worked from early in the morning until long after dark helping the American Legion in controlling the huge crowd of thousands that milled around the damaged sector.

In addition to the heroic work of the Scouts a number of them suffered the loss of their homes and other damage. One Scout's mother was killed, and his father and little sister badly injured, five Scouts had their homes totally destroyed, and two Scouts' homes were partially destroyed.

The full text of the Third Scout Law, "A Scout is Helpful" is as follows: "He must be prepared at any time to save life, help injured persons, and share home duties. He must do at least one "Good Turn" to somebody every day. The citizens of Tekamah and the thousands of visitors found these modest young men prepared for duty and loyal to their organization and community. The training of Boy Scouts for just such catastrophes as befell the City of Tekamah is but one of the many noble deeds the Boy Scouts of America have done and are doing daily and which marks them as the outstanding future citizens of their respective communities.

NEBRASKA HAS OFFICIAL FLAG, BIRD, AND FLOWER

Interest in developing the state spirit is shown in the recent adoption by the state legislature of bills designating a state flag, a state bird, and a state flower.

An official replica of the state banner hangs in the office of the secretary of state in Lincoln. On a field of blue is stamped an enlarged state seal. The banner has a fringe of gold on three edges.

The state bird is the western meadow lark. His popularity preceded his adoption as the official state bird. A preliminary vote on the most popular state bird established beyond a doubt that this native bird, found by the pioneers inhabiting the deep grass of the prairies and regaling his mate with his cheery call, was enthroned in the affections of his human friends. A state statue has made his popularity officially permanent.

It was not a difficult task to choose Nebraska's state flower. One who drives along the roads of the state in late summer and early fall is ravished by the plum-like blossoms of the golden rod, reflecting the gold of the shining sun. There are a number of varieties of golden rod native to Nebraska but the one stamped with legislative approval as the state flower bears the botanical name of solidago scotina. The original plume which formed the basis for the enactment is preserved at the state university.

The state department of publicity at Lincoln plans to present colored plates of the state flower and the state bird to the public schools, and to better acquaint the people of the state with their official state flag.

Social hour with games, Mrs. Albert Watson and Mrs. Alex Jeffrey winners, and Mrs. Margaret Grier in charge.

The June meeting will be with Mrs. Chris Jensen, Mrs. John Grier will be social leader.

La Porte News

The corn in this vicinity is planted and the farmers are hoping for a good rain. The last long wet spell left the ground crusted and it dried out quickly. A good soaking rain would help the newly planted corn sprout and grow.

A small twister struck the Nels Lyngen farm last week. A new chicken house was torn from its foundation and demolished. Other slight damage was done.

Allen and Vivian Sandahl, Arno

Hammer, Richard Oelklaus and Don Lutt who have been attending school in Wayne are home for vacation.

Mr. and Mrs. August Kay spent Sunday afternoon at the Max Brudigan home. Mr. and Mrs. Rudolf Kay and baby spent the day at the Frank Longe home.

Helen Laughlin spent Thursday afternoon with Lester Lutt and Monday with Marie Kirwan.

Mr. and Mrs. Max Brudigan spent Thursday evening at the John Brudigan home.

Mr. and Mrs. Max Brudigan entertained the Henry Brudigan, Herman Brudigan and James Benjamin families and Hilda and Irma Doring for dinner Sunday.

Mr. and Mrs. August Kay and the George Geise family were afternoon callers.

Mr. and Mrs. Raymond Baker and Mr. and Mrs. John Brudigan were sight-seeing in Yankton, South Dakota Sunday.

Mr. and Mrs. E. M. Laughlin drove to Sioux City Tuesday and returned with a new Dodge.

NOTICE TO TAX PAYERS
As the time approaches for the Board of Equalization to begin its sessions, I feel that an explanation of the basic principles on which this years assessment is made might be due to the property owner of Wayne County. An examination of previous Assessment books disclosed inequalities between different parts in the county; with the willing cooperation of the Precinct Assessors this has been corrected as much as possible so that every part of the county is assessed fair as compared to every other part of the county. While the adjoining counties and the R. R. are constantly complaining that our valuations are too low, especially on improvements, I feel that improvements should not be penalized, but that the holders of speculative properties that spend nothing for improvements should pay their full share of the tax burden.

While valuations on some properties, especially older buildings, have been lowered, there also had to be some raised and the owners of properties where the total valuation is materially increased, will be notified by mail, so they have an opportunity to appear before the board of Equalization if they feel that they have any grievance. The board meets on June 10-11-12 at the Court house and will give everybody a fair hearing when approached in a decent manner. This is the proper time to make all corrections.

WM. ASSENHEIMER,
County Assessor.

CAPTURES TWO BADGERS
West Point—William Fillmer of northeast of here and one of his neighbors managed to dig out two badgers from the field after about four hours of hard digging Friday, May 16th. The older one weighed 35 pounds and the other one was about the size of the full grown cat. They killed both the animals. Badgers being one of the worst enemies of the barn yard fowl. Mr. Fillmer feels his chickens as well as those of his neighbors will be safe at least from this source of trouble.

Don't Make a Toy Out of Baby - Babies Have Nerves

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, carried to length or even screamed, will sometimes result in weeping and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with new consideration, but when you just can't resist the temptation to play with him, before you give him a few drops of pure, harmless Caloria. He's getting to be too quiet; it calms his nerves and soothes him to sleep. It is sure to do it. It is sure to do it. It is sure to do it.

With each bottle of Caloria you get a book on Motherhood, worth its weight in gold. Look for Caloria in the signature on the package or you'll get a genuine Caloria. There are many fakes.

GET ACQUAINTED WITH THE FARMER'S FRIEND

The common meadowlark, though not dubbed by the state legislature as Nebraska's official state bird, for the western meadowlark won that honor, is just the same a fine big fellow and the farmer's friend. Somewhat larger than "Bobby" Robin, he is one of the first birds to put in his appearance in the spring. Wearing a brown coat varied with chestnut, deep brown and black, and a bright yellow vest, he is a merry singer often seen perched on some favorite platform—a fence post, a stump, a rock, or mound—putting on a musical performance unsurpassed in sweetness even by the "Sandhill Mocking Bird," the Brown Thrasher. He stays on and on delightfully, not always the same song, for he knows several and charms all listeners with his tender, sweet, flute-like whistle. Somewhat of a bashful fellow, he has a habit of turning his back on one to conceal his bright yellow breast and the conspicuous black crescent that he wears across the upper part of his breast. He likes to hide in the grass and stubble of dry fields of grass or grain where the protective mimicry of his plumage effectually conceals him. Flying is not his specialty anyway, for he is strong legged, active, walker, and rarely rises from the ground unless some intruder gets very near or unless he wishes to put on a musical performance for which he flies to some favorite low perch.

The female meadowlark has the same plumage as does the male, except that it is paler.

Every farmer's boy knows his father's friend, the meadowlark. It is estimated that every meadowlark is worth more than a dollar a year to the farmers, if only in consideration of the grasshoppers it destroys; and as insects constitute 73 per cent of its

diet, he remainder being chiefly weed seeds, the farmer might as well draw money out of the bank and throw it into the sea as to allow the meadowlark to be shot. Yet unfortunately, it has long been classed among game birds—a target for hunters. Years around, the meadowlark "lays low" waging a perpetual insect war, if not in the Nebraska and northern territory, in the land to which it migrates for the winter—Illinois and Massachusetts and to the southward as far as the Gulf of Mexico.

When the meadowlark takes flight, note the white feathers on the sides of its tail to be sure it is not the big, brownish flicker, which wears a patch of white feathers on its lower back, conspicuous as it flies.

The meadowlarks make their grassy nest among the grasses where it is almost impossible to find it, especially if it be partly arched over at the top. No farmer who realizes what an enormous number of grasshoppers, not to mention other destructive insects, meadowlarks destroy, is foolish enough to let his mowing-machine pass over their nests if he can but locate them. Usually the little meadowlarks are running about through grassy run-ways by the time the hay is ready for the June cutting, but eggs of the second brood too frequently meet a tragic end, and eggs of either brood are in danger of the greatest foes of all birds that nest on the ground—meadow-mice and snakes.

The meadowlark is the farmer's friend. Protect it.

Safety First on Any Farm Is Good Slogan

Precautions Outlined to Prevent Many Accidents

A farm is looked upon as a safe place to live, but in spite of this, accidents often occur. If the following precautions are observed, accidents will be greatly minimized:

Don't walk behind horses when they are pulling hard. A singletree, trace or doubletree might break and strike the driver.

Don't place yourself in such a position when working on machinery that you would be injured if the horses moved. The most trusted horse might take a step. Only a second is required to drop the traces.

Don't rely on clutches while working on or around implements which are attached to or are driven by a tractor. Place the gear shift lever in neutral so if the clutch should engage no harm is done.

Don't attempt to make adjustments on tractors while they are moving. You might lose your balance or slip. Don't reach around moving power machinery wearing gloves with large cuffs or with jacket or coat unbuttoned.

Don't reach across a moving saw or work around one with refuse lying under your feet.

Don't stand in the line of movement of pulleys, wheels, etc. A wheel or belt might break or an attachment might loosen and be thrown.

Don't operate high speed emery wheels without a shield over the emery wheel. Keep your eyes above the work being ground and wear goggles.

Don't stand beside or hold wire while it is being stretched. It might break.

Keeping Farm Records

Pays Large Dividends

Keeping a simple farm record book is the most profitable job on the farm, according to R. L. Donovan, extension farm management specialist, University Farm, St. Paul. Time used in keeping such a record pays a greater return than for any other farm operation, he says.

Few men who work all day in the field and have chores to do both morning and evening have the time or inclination to keep detailed cost records, Mr. Donovan points out, but any farmer can well afford to take time to keep one of the simple record books issued by the agricultural extension service. Such a record requires only about a half hour a week, with an extra half day at the close of the year for summarizing and analyzing the completed record.

Right now progressive farmers are planning their coming operations. To do this intelligently requires that they know what has happened in the past. Therefore they realize the necessity of having a farm record that will show which of their farm enterprises has been most profitable, or in some cases, on which ones they have lost the least money.

"Many men have started keeping records, and you hear less call for farm relief from them than from any other class of farmers," says Mr. Donovan. "They know about their business and can make plans for the future to avoid mistakes they have made in the past."

Expert Advice on Time for Beginning Garden

If you are planning a garden this spring, you will be interested in this expert information on planting time for the various vegetables offered in the Farm Journal.

"When planting in the open ground, smooth peas, radishes, spinach and onions can be planted just as soon as the ground can be worked.

"When the peach and plum trees are in bloom, it will be safe to plant beets, cabbage, lettuce, carrots, Swiss chard, parsley, salsify, turnips, kohlrabi and watercress. As soon as it warms up enough that there is no freezing at nights, plants of cabbage, lettuce, beets and broccoli can be set out, if they have been hardened off properly. Some of the early plants set out in the ground may require protectors.

"Early potatoes, according to tradition, are to go into the ground on Saint Patrick's day, whether the weather man decrees it or not. Before planting, treat the seed with a good disinfectant. The new organic mercury disinfectants are not only most effective against tuber borne diseases, but they are convenient to use."

New Vegetable Entered Illinois Family Garden

A new vegetable has entered the family garden at the University of Illinois. It is called Italian broccoli, a plant closely related to cauliflower. The new vegetable has the ability to produce two or three crops a season. It is as easy to raise as cabbage and has a delicate flavor as cauliflower, according to Lee A. Sommers of the university. It is a hardy plant, and can endure far greater temperatures than cauliflower. About 60 to 70 days after the plant is set in the field the main stem enlarges and flower buds break forth. The buds form the edible part of the plant. The plant looks somewhat like cauliflower but it is green.

After the first main head is removed smaller heads form and are soon ready to cut.

The common method of serving the vegetable is similar to cauliflower.

Utilizing Sweet Clover for Different Purposes

Sweet clover may be utilized as hay, pasture, and for soil improvement purposes. As a hay crop, however, it is not equal to alfalfa or red clover. As a pasture, a good stand of sweet clover in its second season will furnish more grazing than any other plant known. It is also an excellent crop for soil improvement, and fortunately it will serve both as a pasture and a soil improving crop at the same time. In some sections it has been found that the increased yields of sugar beets due to sweet clover were practically the same when the crop was turned under after being pastured as when the entire crop was turned under.

Provide Honey Supers

It is easy to lose part of the honey crop, and some of the bees as well, if care is not taken. This is particularly true of the farmer beekeeper, because he falls very often to provide sufficient supers for the bees to store their honey.

The amount of nectar varies with the year and in some is more abundant than in others. Some years the nectar comes with a rush and if the bees do not have room to store their surplus, they either loaf or become crowded and as a result swarm and the honey crop is lost.

FOR AN EASY SUMMER

THESE are the days when you are not only busy planning spring menus, but in the back of your mind also lurks the problem of stocking that summer bungalow up in the mountains or providing proper provender for your family at that shack down by the shore. Wherever you are going, if you're going to keep house, the food supply is subconsciously on your mind, and a few good new recipes will not come amiss.

We're not going to suggest to you what to take along, or have sent, because you probably have a pretty good idea of that already. It's a useful hint, however, to remember to leave your correct address with your grocer so that you can be sure of a dependable supply of canned and dried foods if the local dealers don't happen to carry your brands. For, if there are certain brands of foods which you have tested, tried and found true, it's a mighty good thing to stick to them. Not all hands are alike, and the aphorism "old friends, old wines, old books are best" applies equally well to processed foods which have proved themselves. As canned foods are hermetically sealed, they are as good the day they come out of the can as they were the day they were sealed in.

Simple Summer Beverages

Summer is the great season for refreshing drinks, and new suggestions as to these are always welcome. Here are two which are simple to make, and good for both grown-ups and children.

Tomato and Cucumber Cordial: Slice one medium cucumber thin with the peeling left on. Simmer together for thirty minutes three cups strained tomato juice, two cups water, one clove, garlic, the cucumber, one teaspoon salt, one teaspoon sugar and a few grains pepper. Strain, and cool the juice. Serve ice cold in glass cocktail cups. Serves eight.

Prunade: Boil one-third cup sugar and two cups water together five minutes. Cool. Add the juice of eight lemons, one cup pineapple syrup, one cup prune juice and three cups cold water. Serve very cold in punch glasses. This will make 12 to 15 glasses.

Chicken, Cold or Hot

Your family should not eat much heavy meat in summer, so chicken is a good dish to serve. Here are a couple of chicken dishes with all the fuss and feathers of fussing with the feathers left out.

Jellied Chicken: Dissolve one package of lemon jello in two cups boiling water, and set aside to cool. Drain a can of asparagus tips and arrange several in each of six individual molds, with the tips down, forming a lining. On the bottom of the mold and between the tips of asparagus place sliced stuffed olives as artistically as possible. Pour about a tablespoon of the jello mixture in each mold, and let harden to hold the asparagus and olives in place. Then fill the centers of the molds with the cut up contents of one 6-ounce can of chicken and one-half cup diced cucumbers. Pour

over the rest of the jello, filling the molds completely. Set in ice box to chill and harden. Unmold and serve with a lettuce and mayonnaise garnish. This dish may also be made in one large fancy mold. It serves six.

Southern Creamed Chicken and Corn: Slice the mushrooms from a 4-ounce can, and cook them and one-half cup chopped, blanched almonds in three tablespoons butter for five minutes, being careful not to brown. Add three tablespoons flour and stir smooth. Add the liquor from the can of mushrooms and two cups milk, stirring constantly until smooth and creamy. Add one chicken bouillon cube, salt and paprika to taste, one cup canned corn, the cut-up contents of a 6-ounce can chicken and the slightly beaten egg yolk, and serve this mixture very hot. Serves eight.

Fresh and Canned

A good way to vary your salads of fresh fruits and vegetables and also to make them go further is to combine them with canned foods. Here's a salad, for instance, of ripe tomatoes and canned pears which will serve eight people:

Pear and Tomato Salad: Slice chilled ripe tomatoes, and lay one slice in each of eight individual nests of lettuce. Place half a pear from a No. 2 can on top of each, cut side up. Mix one cream cheese with three tablespoons chili sauce, and pile in the pear cavities. Garnish with strips of canned pimiento, and serve with either mayonnaise or French dressing.

Rich Calcareous Loess Helps Corn Production

The corn belt soils are the world's richest because they are young soils, according to Dr. R. S. Smith of the University of Illinois. The origin of the soils is rich calcareous glacial deposits or rich calcareous loess. "The time elapsed since the last glacial age has been short and the weathering of the soils is not far enough advanced to deplete the fertility of the original elements. The climate of the corn belt is favorable to formation of good soils due to the frozen condition of the soil a good part of the year, which prevents leaching for the period of the winter. "The grass that grew on the prairies of the corn belt contributed organic matter to the soil, while the forested areas left very little vegetable matter in those soils."

Mice Gnawing Harness Is Very Common Trouble

Gnawing harness by mice is a very common trouble, but an inquiry among a number of harness manufacturers indicates that none of them know of any material which can be rubbed on the harness to discourage the mice. One or two suggest that fish oil might help, but are frankly doubtful of its doing any good. The only practicable remedies seem to be to hang the harness on wire suspended from swinging racks or in mouse-proof harness rooms, or to trap or otherwise destroy the mice. If any of our readers have found a remedy, we should like very much to have their experiences.

Agricultural Squibs

Sweet clover will give one crop of hay in a season, but not much chance for two.

When sweet clover is sown on bluegrass it is recommended that unscarfed seed be used.

It will pay anyone who likes to garden to use a seed drill. The initial cost may seem high, but it cared for will last almost a lifetime.

A seeding made up of six pounds of timothy, three pounds of alsike and two pounds of red clover would give a splendid hay crop of good quality.

Every gardener should have a compressed air sprayer and a powder gun or blowers available, but a dollar buys a good one and is cheapest in the long run.

"Shieling of My Sorrow"

Typical Highland Legend

The following legend is associated with Aueda No Dhubbach, the sloping ground lying to the east of Loch Drom, on the way from Garve to Ullapool, in the highlands of Scotland. Three young men from Strathmore were returning home from the low country where they had been working all summer and autumn. They reached Loch Drom in the evening, and as the night was stormy, they decided to stay in a shieling that was near. One of the men was a piper, and had his pipes with him, and to pass the time away he struck up a tune on the pipes, while his two companions danced to the music. One of the lads said it would be fine if they had some lassies to dance with. He had hardly spoken when three women entered the shieling, and playing went on for a long time, and at last the two men sat down on the seat, and the women seated themselves beside them. The piper, feeling all was not right, looked at his two companions, and was horrified to see them dead. Slipping out, leaving his plaid with the women, he ran for his life as fast as he could. The women followed, and continued to pursue the poor, exhausted piper until dawn, when he came in sight of Fasgach, and escaped from his evil pursuers. When the mothers of the dead men arrived at the shieling the next day they bewailed their loss, repeating the words "Aueda No Dhubbach"—"Shieling of my sorrow."—Montreal Family Herald.

Golf, in Its Infancy,

Looked On as Puerile

It is rather curious, in view of the extraordinary vogue of golf in this country, to reflect that the few American and English visitors to St. Andrews in the '60s and '70s were simply dumbfounded at the sight of grown men hitting little white balls and playing a game with extraordinary gravity. Those visitors would have viewed with pitying contempt any prophet who had told them that the United States and England would soon be spending millions on golf and that more adults would be playing it than had ever played any game since the first one was invented. Even at the beginning of this century, when golf was the game of the rich man, few could ever have believed that the golf links at St. Andrews were to make the old town one of the best known places in the world.—Exchange.

Home-Grown Wood Is Excellent for Fuel

Makes Cleaner and Quicker Fire Than Coal.

With over 50,000,000 cords of wood available for use this year, R. W. Graeber, extension forester at North Carolina State college, asks the question, "Why not use home-grown fuel in North Carolina homes?"

"Any wood makes a cleaner, quicker fire than coal, is free from gas and odor and compares very favorably with coal in heating value," says Mr. Graeber. "Two pounds of dry wood has the same heating value as one pound of coal and many of the heavy woods, such as hickory, oak, ash, birch, beech, elm and long-leaf pine, weigh 4,000 pounds to the cord, making a cord of this wood equal to a ton of coal. The lighter woods such as poplar, cypress, white pine, basswood and many others weigh only 2,000 pounds to the cord and it would therefore take about two cords of this wood to equal one ton of coal in heating value."

According to Mr. Graeber, the economic value of using wood is twofold in that all the money spent for wood remains in the state and the cutting and hauling would furnish work for many that would otherwise be objects of charity. At an average price of \$4 a cord, the wood that is now available, if sold, would add \$200,000,000 to the wealth of the state. As it is, two-thirds of the money spent for coal leaves the state to be divided between the railroads, the mine operators and the miners.

To use this wood would not deplete the forests of any marketable timber as it could be harvested from the over-mature, crooked, crippled and diseased trees and from forests that are over-crowded. This would aid also in making room for trees of better quality and more desirable species for future timber production, states Mr. Graeber.

Agricultural Notes

Considerable damage may be done to pasture by turning the stock on too early in the spring.

Winter months offer an excellent time in which to make the final selection of seed corn for spring planting.

Treat all seed corn whether you think it needs it or not, is the recommendation of Prof. H. D. Hughes of Iowa State college.

As a result of the dry season the 1929 potato crop is estimated at about 350,000,000 bushels, which is one of the smallest in 10 years.

Timothy with alsike clover will make you a very good quality of hay. Some prefer to use a part seeding of red clover with the alsike.

Many potato growers are finding it profitable to throw out the long, slender, or badly misshapen tubers from their seed. These tubers carry the virus of the spindle tuber disease.

A combination of seeds would be the best thing to sow this spring for a summer pasture. Rye, oats, barley with red top and timothy will make about as good a combination as you can get.

Milk Is Milk

A RECENT issue of one of this nation's great monthly women's magazines had the following caption under an illustration showing four cans and a bottle:

"Evaporated, condensed, powdered or malted, milk is milk just the same."

Science bears out the above assertion. An article entitled "An Experimental Study of the Use of Unsweetened Evaporated Milk for the Preparation of Infant Feeding Formulae" by McKim Marriott, M.D., and Ludwig Schoenthal, Dr. Med., which was published in a recent issue of the Archives of Pediatrics summarized its conclusions as follows: "1. Unsweetened evaporated milk is, from the nutritional standpoint, the full equivalent of pasteurized or boiled whole cow's milk."

"2. The continued use of evaporated milk as a routine food for normal infants is unattended by nutritional disturbances."

"3. Evaporated milk was found to be especially suitable for premature infants."

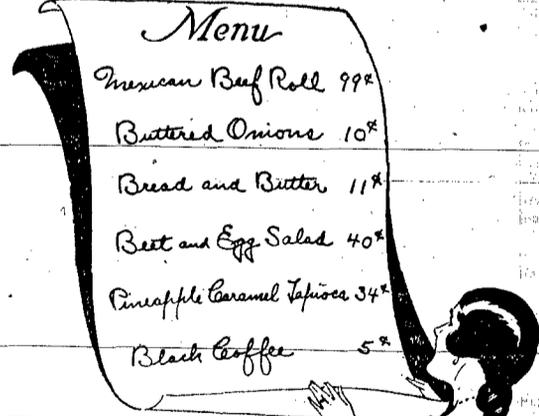

"4. The experiment proves evaporated milk, when suitably modified, to be a satisfactory food for sick infants, especially those suffering from nutritional or gastro-intestinal disturbances."

"5. The known qualities of unsweetened evaporated milk—its sterility, its ready digestibility and uniformity of composition—are distinct advantages which recommend it for general use as milk for infants."

A Word of Caution

No mother should include either unsweetened evaporated milk or any of the other forms of processed milks mentioned above in her infant's diet without first consulting a physician. In fact no one but a skilled physician should ever determine any young infant's diet, and his instructions should always be faithfully followed.

A Two-Dollar Dinner for Six

HERE is a good dinner the ingredients of which will cost \$1.99 if you do your marketing carefully, and which will serve six persons.

Mexican Beef Roll: Boil one-half cup rice, drain and add one and one-half teaspoons salt, one-half teaspoon chili powder, one teaspoon poultry seasoning, one-eighth teaspoon pepper, one finely minced onion and one minced green pepper. Spread evenly over one and one-half pounds round steak, cut very thin, and roll up like a thick jelly roll. Tie and skewer firmly in place, dust with flour and brown well on both sides in some drippings in a skillet. Remove to a baking dish, pour over it the contents of a No. 3 can tomatoes, and bake until tender in a slow oven, 350°, for from one and a half to two hours. Remove strings, and serve cut in slices with the tomatoes.

Drain the contents of an 8-ounce can of diced beets, chill thoroughly, and arrange in nests of lettuce. Slice three hard-cooked eggs and place in an overlapping circle around the beets. Sprinkle three tablespoons chopped sweet pickle over the beets and garnish with six tablespoons mayonnaise.

A New Dessert

Pineapple Caramel Tapioca: Scald one and one-fourth cups milk in a double boiler. Caramelize three tablespoons sugar, and add to the milk. Add four tablespoons sugar, four and one-half tablespoons minute tapioca and a few grains salt. Cook until tapioca is transparent. Beat one egg, pour hot mixture over slowly and return to double boiler, stirring constantly till thick and creamy. Add the contents of a No. 2 can of crushed pineapple and cool. Serve very cold.

SOCIETY and Club

Woman's Club

The members of the Wayne Women's club and quite a number of guests were entertained at a one o'clock luncheon at the Stratton last Saturday, May 24th. Informal singing during and after the luncheon was enjoyed. Following the luncheon an afternoon program was held with Mrs. W. M. Fender of Meadow Grove, third district president of the Nebraska Federation of Women's clubs, as the chief speaker, the thread of talk being, "Some Principles of the Woman's Club," especially that principle of International relations and Community Service in regard to World Peace. For a number of years the Woman's clubs have dealt with the topic of "The Home," but the topic has been changed to that of International Relations and Community Service. The afternoon was closed with a social hour including games for which Mrs. James Miller received the bouquet. Mrs. Fender was presented with a bouquet as a gift of appreciation from the club. Just before the close of the business session Mrs. Clyde Oman was elected delegate to attend the International convention of the Federation of Woman's clubs to be held in Denver, Colorado some time in June. This was the closing meeting of the season. No more meetings will be held until next fall.

Goldenrod Troop.

The Girl Scouts of the Goldenrod troop held their closing picnic last Friday afternoon at the city park. Mrs. W. K. Smith, Scout Leader, held a short meeting before the social time began and awarded the stars and told of the year's work, giving the rating of the individual scouts. She also announced that she would not serve as Scout Leader next year. Many games were played by the girls, one of the games being a game in which each girl was given a cracker. All began eating the cracker at the same time and the one first able to whistle after eating the cracker was dubbed the winner. At about 6:00 o'clock, the parents came and a picnic was enjoyed at the park.

This having been the closing meeting, the Scout meetings have been discontinued until next fall.

Birthday Dinner Party.

Mrs. J. S. Carhart entertained the Carhart family at a dinner at the J. S. Carhart home last Tuesday evening in honor of herself, the occasion being her birthday. After the dinner, a social evening ensued. Those present for the occasion from out-of-town were; Mr. and Mrs. Ralph Carhart and baby of Randolph, Mrs. Nina Moore of Sioux City, and Dr. S. C. Carhart who came from Los Angeles, California Saturday evening.

St. Paul's Aid.

The ladies of the St. Paul's Lutheran aid met last Thursday afternoon at the church basement for a regular business session followed by a social time and refreshments. Mrs. H. W. Bonawitz and Mrs. Floyd Powers were hostesses.

The next meeting will be the second Thursday in June at the church basement with Mrs. Harvey Haas and Mrs. Wilbur Spahr as hostesses.

Delphians.

The Pontenello Delphians will meet with Mrs. J. T. Bressler Sr. at the Bressler home Friday, June 6th, for a business session and an election of officers. This will be the closing meeting of the season.

Presbyterian Aid.

There will be a regular meeting of the Presbyterian aid next Wednesday afternoon, June 4th, at the church beginning at 3:00 o'clock. A committee will be in charge.

Bus Line To Yankton Discontinued

The state railway commission has given the B. W. Wright Bus Line, operating out of this city, permission to abandon service between Yankton and Hartington. Lack of patronage and the heavy bridge toll at Yankton were said to make the business on this line unprofitable. Hereafter the busses will make their regular run with Hartington as the terminal. All other routes will operate as heretofore. The change went into effect May 15.

Shoes Items

Mr. and Mrs. Glade McFadden autoed to Sioux City Sunday. W. S. Ickler was up from Wayne on business Tuesday.

Mr. and Mrs. V. O. Sellon and Bessie spent Sunday at the Gail Selton home at Concord.

Frank Tucker of Carroll was in Shoes Tuesday on business.

Miss Velma Burnham returned Sunday from Yankton, S. D. where she had spent several days.

Mrs. Harry Fallette and Vera of Winnetoon were visiting friends in Shoes Tuesday.

Mr. and Mrs. Clarence Beaton and J. L. Beaton left Tuesday for Excelsior Springs where they will seek medical aid for three weeks.

Mrs. Agnes Kinny and son John returned to Shoes Saturday after spending several weeks in Sioux City.

Mrs. William Russell and daughters Maxine, Lorraine, and Mildred and Miss Sadie Jackson autoed to Norfolk Saturday to shop.

Mr. and Mrs. Ed Maslifen spent Sunday with relatives in Dixon.

Mrs. Ray Boles and little son of Sioux City came Sunday to visit with

relatives a few days. Mrs. Boles was formerly Miss Agnes Kinny.

Miss Mary Burnham came Wednesday from Table Rock, Nebraska, where she has taught the past year. Mary will have music in the Bridge Port schools next year.

Mr. and Mrs. Ed Masher autoed to Norfolk Tuesday on business.

Mr. and Mrs. Martin Madsen and Burnetta and Claron left Friday for Slifer, Iowa to visit relatives a few days.

Lennie Burnham and Joy Allison autoed to Sioux City Sunday to spend the day.

Ralph Pickering and Helga Landberg were Randolph callers Monday.

The Pleasant Hour club met Wednesday at the home of Mrs. Fern Huwaldt. The next meeting will be with Mrs. Ed Kinny.

Mr. and Mrs. Ed Gentleman and son Billy left Thursday for their home in Hemmingford after spending the winter in Shoes.

Mrs. Haldean and daughter Vivian of Randolph are spending several days at the James Allen home.

Mr. and Mrs. Will Lewis, and Mr. and Mrs. Frank Lewis and daughters Evelyn and Allene spent Sunday at the Capple home at Randolph.

Dr. S. A. Lutgen, All calls promptly answered.

IT PAYS TO MAKE HASTE SLOWLY

The voters of Norfolk, at a recent election, turned down a proposal to grant a franchise to the Utilities National Gas company, the vote reversing an action recently made by the city council of that place. The drive against the measure was sponsored by a large group of business men who contended that the franchise had been hastily granted by the council, that it contained no revocation clause in case no gas was brought into the city during the twenty-five year period for which the franchise was granted, and that no word was contained in the franchise concerning the heat content of the gas, amount of pressure etc. The president of the gas company promised to rectify any mistakes but the opposition held that such promises were not binding.

It is hardly likely that the action by the Norfolk voters will delay the extension of natural gas into this territory. The gas company, whose proposal was rejected, may yet have an opportunity to submit a franchise revised to suit the wishes of the people.

It is well that Norfolk took action the way it did for it is reasonable to expect that the new franchise when granted will conform more satisfactorily to the wishes of the consumer. Other communities to be benefitted by the extension of this convenience

can then pattern after Norfolk to their own advantage.

Too often, in the past, municipalities in welcoming some new public utility have granted concessions that later proved an imposition on the public.

ELECTED DELEGATE

At the closing meeting of the Wayne Women's club at the Stratton last Saturday, Mrs. Clyde Omen was elected delegate to the Biennial International Convention of Women's Club to be held at Denver, Colo. from June 5th to June 14th inclusive. She plans to leave soon to represent the local club at the convention.

ENGAGEMENT ANNOUNCED

The approaching marriage of Edwin May of Hoskins, son of Gustav May, to Miss Clarice Woodmann, Hoskins, daughter of William Woodmann, recently has been announced. The wedding will take place at Hoskins June 1st, the Rev. Emanuel Frey to perform the ceremony.

GOES TO KANSAS CITY

Armond Hiscox left Friday for Kansas City, Kansas where he is now Head Embalmer at Long's Mortuary. The Democrat joins friend here in wishing him the best of success in his new position.

Local Man Called Away By Death Of Sister

George W. Box was called to Sioux City yesterday on account of the sudden death of his sister whose funeral is being held there this afternoon at 2:00 o'clock. Mrs. Box went to Sioux City this morning.

RETURNS FROM OMAHA

George and Everett Hoguewood went to Omaha Saturday to see little Wilma Gene Hoguewood and her mother, Mrs. George Hoguewood. Sunday evening they returned bringing them back with them. Wilma Gene who has been seriously ill the past few weeks is considerably improved, but plans are to take her back to the hospital after about two weeks to have her tonsils removed, provided she has by that time regained strength enough.

CROP PROSPECTS IN STATE REPORTED GOOD

Corn Planting Late But Soil Condition Never Better.

Farming operations, after a delay of many weeks due to the protracted rainy season, began in dead earnest the first of the week. Beautiful sunny weather, which was ushered in Monday morning, seems to have ended the enforced period of inactivity on the part of the farmers, who have, since that time put in extra long hours making up for the time lost.

The corn planting season is fully a week behind schedule in these parts and according to the Nebraska mid-month crop report, released May 19, but eleven per cent of the corn has been planted thus far in the state compared with 20 per cent at this time last year and 33 per cent at this time in 1928. This section of the state is much farther behind schedule than any other part, the report giving but four per cent of the crop planted whereas in the northwestern part of the state where the rainy season has not been so pronounced, 18 per cent is reported.

Corn planting will be unusually late for in addition to the delay in planting caused by the excessive amount of rainfall, much of the ground will have to be redised before any extensive planting is to be done. Weeds have also got a start that will be hard to overcome. These conditions however, will have no serious bearing on the crop prospects which at this time, according to the report are practically as good as in the banner year of 1927. The moisture supply has seldom been better and with the advent of warm growing weather the crop prospects for this section were never better.

DRESSES THAT ARE NEW

Many New Silk Dresses have been received this week. They were personally selected by J. F. and A. W. Ahern, who are now in the east and you can depend on the styles being correct and up to the minute.

Among them are many very nice Quality Dresses made of Flowered Silk Chiffons, Georgette Crepes and the better qualities of Washable Silk Crepes. These are of the \$15.00 and \$18.00 qualities. There is also a Group of Printed Chiffons and Washable Crepes in the \$10.95 quality. And a collection of Plain and Figured Shantung and Printed Silk Crepes at \$5.95.

These new dresses are all in the latest Summer Styles that are being shown in the East. Many of them are sleeveless or have short sleeves. The colorings are light and summery.

You are almost sure to find a dress that will please you in this carefully selected assortment.

There are all sizes from 16 to 46.

They will be fitted for you perfectly without extra charges.

WASH FROCKS JUST RECEIVED

New Summer Wash Frocks of Voile, Dimity, Batiste and Handkerchief Lawns have just arrived.

These Dresses are of the nicer qualities and styles that will be suitable for almost all summer afternoon occasions. Those of the finer voiles are especially attractive. They are priced at \$2.95, \$3.50 and \$4.50. Sizes up to 52. You will enjoy selecting from these many fresh new styles.

COATS AT VERY LOW PRICES

Ladies' Coats have their final reduction. \$15 to \$20 is all we ask for your choice of 68 new Spring Styles—many of them in fine \$30 quality.

There are no cheaply tailored light weight Serge or Flannel Coats among them. Every Coat is made of Regulation All Wool Coatings—the Tailoring is perfect and the Linings are first class. Do not think of them as \$15 and \$20 coats—they are really very fine high-grade garments. The time has come to close out this stock and we have named these very low prices for this purpose—disregarding former value entirely. Among these 68 coats are several of Fine Broadcloth with stylish fur trimmings. There are also several tailored models of the new Coverd Weave Woolens and a good selection of Tweed Coats. Several nice Suits are included at the same prices. This is the coat opportunity of the Season—Garments of Such quality are a rare bargain at these low prices.

BARGAINS IN DRY GOODS

You can still buy many of the Special Bargains which we got at the Marshall Field Removal Sale in Chicago two weeks ago.

Most all of the Specials advertised on the first circular are still on sale.

There are splendid values in Summer Dress Goods, Silks, Prints, Percales, Curtains and Curtain Materials, Hosiery Table Linens, Towelings, Bed Spreads, Bed Linens, Sheetings, Lingerie, Fancy Goods and Notions.

We bought liberally of these goods because this chance to buy goods of Marshall Field quality at such bargain prices may never be repeated.

No matter what your needs in Summer Dry Goods, come here first and see if what you need is not on special sale among these Marshall Field Specials.
