Dr. U. S. Conn Gives Views of Depression

Says Over-Production Is Cause of Present Problems.

Timely observations on the current economic depression were given at the Wayne Kiwanis club meeting Monday noon by Dr. U. S. Conn, president of Wayne State Teachers' college. Overproduction, he said, is responsible for most of the difficulties which the world is experiencing.

In opening his address, Dr. Conn mentioned that he was a spectator at the opening of the Washington Bicentennial celebration on Feb. 22, at Washington. The outstanding part of the Mount Vernon program, he said, was the part in which President Herbert Hoover had charge of the proceedings.

"I had seen Hoover several times before he was a candidate for the presidency, and I was amazed at the transformation in the man. He seems to have aged 25 years in the past four or five years. He looks like a jaded, worn out, old man, and a perusal of our daily press gives reason enough for his harassed appearance. It is a sad commentary on the American people that we let our partisanship run to such an extreme that President Hoover is vilified and ridiculed."

SUPREME COURT TO HEAR FORNEY CASE

Wednesday, March 23, Is Set as Date for Hearing.

Wednesday, March 23, has been set as the date of hearing arguments in the supreme court on the appeal of Claude Forney, Wayne county farmer, from a conviction in district court here of four felonies. His conviction here was connected with the removal of mortgaged cattle, valued at \$3,000, to Iowa and the subsequent sale of them without the consent of the mortgagees.

Forney contends that the attorney for the mortgagees argued the case from the witness stand and demanded heavy punishment; that County Attorney H. D. Addison told the jury he thought Forney was guilty, and that the court refused to allow him to incorporate in the record remarks the court made in the presence of the jury that he regarded as prejudicial.

Winner of the dramatic section has not been selected.

Contest Closes On Monday, March 28

The Nebraska Democrat's Popularity Contest will end on Monday, March 28, despite the requests of a number of contestants and business houses to hold it over for another week.

A tremendous number of votes could be given out if the closing time were extended past the first of April, but The Democrat originally advertised the contest to close on Monday, March 28, at midnight. The Democrat management feels that to change the date would be breaking faith with those contestants and firms who entered the contest with the understanding that it would close at the stipulated time.

It would be highly advantageous to The Democrat to extend the time, but we want our readers to have implicit faith in this newspaper.

All bills paid to any of the participating firms on Monday, March 28, will entitle the customer to contest votes. You can help your favorite contestant by paying your bills three days early.

High Schools Organize New Athletic Loop

The new high school conference will provide competition in basketball, football and track. It was decided that in the basketball conference, each team must play five of the others, and that in football each team must play at least four others. The championship will be decided on a percentage basis.

A. F. Gulliver of Wayne was appointed conference chairman, and Gerald Cherry of Winside was appointed secretary. These officers are temporary, and will be permanently filled when all members of the conference, each team must play five Plans were made for a conference track and field meet, to be held in Wayne on April 29. Preliminaries will be held in the afternoon and finals in the evening on the flood-lighted field. Trophies for the winners of next year's championships were also selected.

Local Firms to Hold Style Show Next Week

A fashion revue will be presented at the Gay theatre in Wayne on Wednesday and Thursday evenings, March 23 and 24, by a number of local business houses, with a change of program each night.

E. E. Galley, manager of the theatre, has arranged for the showing of a different motion picture on each night, so that spectators will see an entire change of program.

Local business houses stress the fact that they are exhibiting stock apparel in the show and not dresses which have been obtained only for display purposes. All of the clothing shown at the style show may be purchased from the co-operating dealers.

POWELL, ULRICH GET THIRTY-DAY JOLTS

Home Brew Party Gets Noisy; Participants Land in Jail.

Somebody had a stomach-ache at about three o'clock Sunday morning, and Tom Powell and John "Molly" Ulrich are serving 30-day jail sentences as a result.

Had somebody not had a stomach-ache, there would have been no groaning and had there been no groaning, Sheriff A. W. Stephens would never have received a telephone call shortly after three o'clock.

Sheriff Stephens and Chief of Police W. A. Stewart answered the telephone call by going to the vicinity from which wierd groans had been emanating. The groaner had disappeared, but sounds of rrrrrrrrrrr were coming from the "Molly" Ulrich residence.

Sheriff Stephens stood guard outside, and Police Chief Stewart made a forced entrance. Tom Powell and Mr. Ulrich were his reward.

Powell pleaded guilty Monday in County Judge J. M. Cherry's court to intoxication, second offense, and was given 30 days in the county jail with one cooked meal and two meals of bread and water every day. He must also pay costs of \$8.05.

Ulrich, charged with delivering two pints of home-brew beer to another man, was sentenced to 30 days and payment of \$8.05 costs. The man to whom he was delivering the beer was fined \$10 and costs of \$8.05 on an intoxication count.

Two other men are said to have been hiding under the front porch during the raid.

Carroll Baby Dies of Poisoning; Parents Ill

Food poisoning caused the death this last week of Helen Marie Morrison, 15 months old, and seriously affected her parents, Mr. and Mrs. Leonard Morrison, who live on the Alvin Stoltenberg farm near Carroll. When Morrison failed to appear for work in the morning, Stoltenberg went to the house and found the family stricken. The baby had fallen from bed and its parents, unable to move, could not pick her up. A doctor revived Mr. and Mrs. Morrison, but the baby died in a few hours.

Committee to Handle Seed Loans Named

Farmer May Borrow at 5 1/2 Percent on 1932 Crop Prospects.

W. A. Meyer, J. J. Steele and Len McClure were appointed by County Commissioner Frank Eixleben Saturday morning to serve on a seed and feed loan committee for Wayne county. The appointments were made following a meeting, attended by about 50 Wayne county men at the Wayne county court house.

The county committee will appoint community committees, to act in the various communities of the county.

W. H. Brokaw of the University of Nebraska extension department took charge of the meeting and explained the seed loan. He said that it comes from the Reconstruction Finance Corporation bill which was passed on Jan. 23, and has no connection with the livestock loan bill.

The money, he said, is not a gift in any sense of the word. The bill provides for a loan of \$3 per acre on average crops, with a maximum loan of \$400 to each farmer. The money loaned must be used for seed and feed for work stock or gas and oil for tractors. If there is a mortgage holder, that individual must sign a waiver before any loan can be granted. A renter may obtain such a loan if his landlord signs a waiver of the crop.

Any farmer accepting the government loan must sign a promissory note for the full amount, bearing interest at 5 1/2 percent and due on Nov. 30, 1932. A crop mortgage is given as security.

The application blank, which may be obtained from County Clerk Bertha Berres or from members of the community committees, requires a statement of the amount desired, the

REHEARING SOUGHT IN BRESSLER SUIT

Johnson Charges Decision Is Inequitable and Unjust.

Motion for rehearing has been filed with the Nebraska supreme court by Alva P. Johnson and others in a suit appealed from Wayne county in which the court ordered repayment with interest to John T. Bressler, Sr., and his associates of \$75,000 they had paid on the purchase price of a section of land.

The court ruled that Mr. Bressler cannot be forced to take the land, because of a defective title.

Johnson and his associates now list 34 alleged errors of the court and claim that the decision has inequitable and unjust results. They charge that the decision does not replace them in their original position, because it forces them to pay back the money, lose a quarter-section of land and take possession of tracts upon which mortgages have been filed. The Johnson group says the land now is worth only one-fourth of the price stipulated in the contract.

Vote Battle Wages as Contest Nears Close

Local Men Start Spring Cleaning

A number of Wayne business men have answered President Hoover's plea to "have your work done now."

The offices and chapel of the Beckenhauer mortuary are being entirely redecorated and new covering is being placed on the chapel floor.

All guest rooms and the lobby of the Stratton hotel are being redecorated in attractive colors.

The French Beauty Parlor has been refurnished and presents a highly attractive appearance.

Don't worry, President Hoover, Wayne is helping your employment plan.

Nine More Days Left in Competition for Free Vacation Trip.

With only nine days left after today in The Democrat's Popularity contest, Evelyn Stephens went into first place last night with a total of 248,000 votes. Foye Winegar, Alvern Johnson, Mercedes Reed, Mary Margaret McGarraugh and Hazel Neilsen held the next five places with substantial totals, only slightly behind the leader.

Rumors persist that many of the contestants who are down the list a considerable distance from first place are holding back votes for the final days of the competition.

All votes, to be counted, must be in The Nebraska Democrat office by midnight of Monday, March 28. A recount of all ballots will be made at that time by a committee consisting of Martin L. Ringer, County Judge J. M. Cherry, City Clerk Walter S. Brossler, G. A. Wade and George B. Anderson.

The winner's name will be revealed in The Nebraska Democrat of Thursday, March 31.

The winning girl will have her pick of three glorious summer vacation trips, with all actual expenses paid. Alaska, Bermuda and Havana are the vacation places from which the winner may choose. If she desires, she may take a Book Travel Tour of Yellowstone Park and take the difference in cash.

The Inquiring Reporter

THIS WEEK'S QUESTION

Do you think the crime of kidnapping should carry a death penalty?

Rev. Wm. Braisted: "I seriously doubt that the death penalty would have any more effect than an irrevocable life sentence."

Mrs. H. R. Best: "Yes. A child's life and safety are worth more than those of a kidnapper."

Prof. G. W. Costerlan: "I don't believe in capital punishment, but I do think that kidnapping should be punished by the severest penalty, that is, life imprisonment."

Mrs. E. O. Stratton: "Yes, I surely think that kidnapping should be punished by the death penalty."

Mrs. Ray K. Holder: "I had thought so, until I realized that should the kidnappers kill the child, there would be a death penalty for murder. If kidnapping received as severe a penalty as murder, the kidnappers would have no reason for returning the child alive. However, they should be given life imprisonment."

WITH THE WAYNE CHURCHES

Methodist Episcopal Church

Harold C. Caspey, Minister
Next Sunday, Palm Sunday, commemorates the coming of Jesus in triumph into His city. It would be worth very much to our age if we can make it a time of fuller recognition of His true place in our city and our lives. At the morning service at 11 we shall offer the service of Baptism for children. Any parents wishing young children baptized are asked to notify the pastor during this week. The sermon theme will be "The Outside of the Temple" and the music will be appropriate to the day.

Sunday evening at 7:30 the first of our special Passion Week services will be held. The sermon will be on the text "Behold the Man." Services will be held each evening next week, except Saturday. There will be special addresses on "Great Incidents of the World's Greatest Tragedy" to be given by the pastor. We are urging our people to lay aside all social and pleasure activities during that week and to give religion first place and if at all possible to attend all of these services. We invite everybody to share the commemoration of this season with us.

Easter Sunday our services will start with a sunrise service. At the 11 o'clock hour there will be special music and new members will be received into the church. In the evening at 7:30 the choir will present the cantata, "Christ the Victor." The church will be decorated with memorial lilies.

This is the season of the year that calls for the centering of all around the symbol of our religion. You will find welcome and inspiration at the church.

THE KNOT-HOLE

No. 43 Wayne, Nebraska, Thursday, March 17, 1932 Vol. 6

A guilty conscience is its own accuser.

Speaking of operations, says the man who has had (and paid for) one — what this country needs is a good five-cent scar.

What you need and what we have is a fresh car of certified SAHARA coal.

Well, this weather should prove something about the lion and lamb theory. Wonder what?

Our theory is that the farmer who is quitting the hog business is making a mistake. Cut down production, maybe, but stay in the game. It's going to be profitable again ere long.

We are working on several orders for small hog houses. Let us have your specifications as early as you can.

Patient: "Doctor, I feel like killing myself. What shall I do?"
Doctor: "Just leave it to me!"

Leave your lumber orders with us. We'll see that you get what you want.

you want, when you want it.

"Say, do you still run around with that little blonde from Wkside?"
"Why, hadn't you heard? She's married."
"Answer my question."

The man you rent of may be the finest fellow of your acquaintance, but just the same you'll never have the chance at self expression until you have a home of your own. Let us help you plan one.

A Nebraska woman aged 110 died the other day. And we have just read about a man of 114 winters who passed away. This present-day rate of living is killing 'em off young, isn't it?

We know the contractors here in Wayne, and we want to say that we're pretty lucky to have such a fine group of business men.

They say this happened in the training school:
Practice teacher: "If

What we want to know is who started that idea, that gossip is "Idle."

Nobody ever got into trouble by saying too little.

a group of sheep is a flock, and a group of cattle a herd, what is the name for a group of camels?"
Johnny: "A carton."

You won't have any trouble identifying 4-SQUARE lumber. It's branded on both ends.

Service isn't our motto — it's our business. And believe me, we attend to business. You'll find our delivery service prompt and efficient.

Lawyer: "Was your car under complete control at the time?"
Husband: "Yes, my wife was sitting in the rear seat."

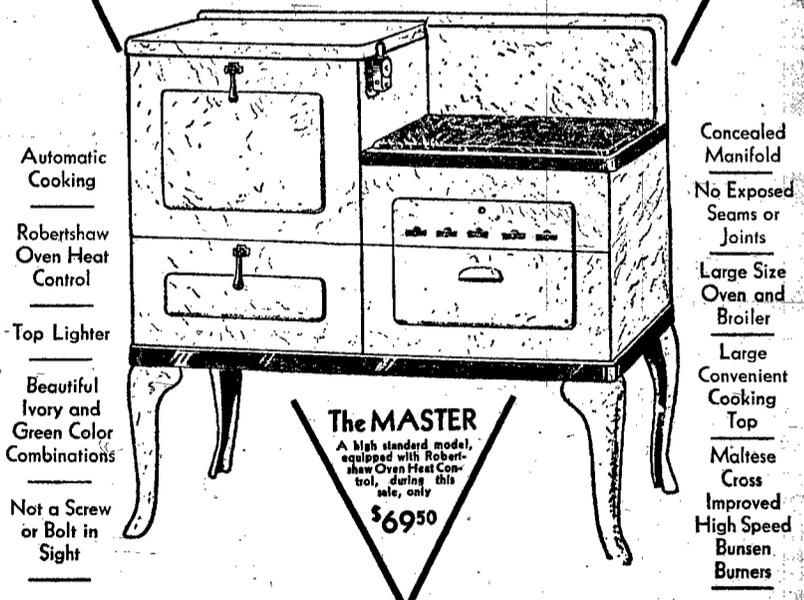

That car of Hot Nut coal which arrived the first of the week is going fast. Better get your order in now. It is a splendid coal for light furnaces firing this time of year.

NO MORE WAARS

One time the writer took part in a debate against Oxford University, the subject of which was "Resolved, that the World War tended, on the whole, to promote world peace." Serious young idealists talked with great fervor of "the war to end war" and its practically certain results.

A few years have elapsed, and we know that "the war to end war" was just another war. We know that it has left the world in an economically shaken condition. We can see traces of propaganda pointing to other wars, even as we failed to see them back in 1914.

Ardent militarists all over the world want war. Make no mistake about that. They see in the present international complexities a great chance to promote their ideas. War, to a militarist, is the logical way for solution of world problems.

To the great rank and file of people in America and in all other nations the illusion of war glory is disappearing. The World war is too easily remembered for us to swallow saccharine propaganda without nausea.

Make no mistake about it. War does not end war. War breeds more war. Preparedness does not end war. The fellow who wears a pair of brass knuckles usually gets a chance to use them.

The only way in the world to end war is for every citizen of every nation to take an absolutely definite stand against the use of armed force. More and more people every day, in every nation, in every walk of life, are taking that stand.

COLLEGE THESPIANS PRESENT "MINICK"

Ferber-Kaufman Piece to Be Given This Evening.

The action of the piece occurs in Chicago. Robert Moran, as the father who has come to make his home with his son and daughter-in-law, is said to give the character a fine blend of humor and pathos. Harlan Borin, who plays the part of Al Diamond, one of young Minick's friends, and Miss Katherine Thomas as Mrs. Diamond, are said to lend zest and charm to the production. Mrs. Lippencott, played by Margaret Martin, adds humor to the second act with her management of Mrs. Minick's committee meeting. Gladys Israelson as a negro maid and Blanche Collins as a white maid offer entertaining characterizations.

SCOTT SHOTS

by "SCOTTY"

Rulow Manton, the Democrat's numerologist, sends the following interesting information in his publicity material:

"United States numerates four. All wars in the history of the United States have begun in the month of April, the FOURTH MONTH. William Henry Harrison, ninth President of the United States, had a number nine temperament, and died in office before his term expired. The fourth President following him, Zachary Taylor, died in office before his term expired. Every FOURTH president since William Henry Harrison died in office, and each was elected 20 years apart. Death numerates 20. Example: Harrison elected 1840 died in office; Garfield elected 20 years later, 1880 (died in office); McKinley elected 20 years later, 1900 (died in office); Harding elected 20 years later, 1920 (died in office). Let those who scoff at the truth of numerology give some explanation."

Things that probably make very little difference:

Nowadays, when you buy a ten-gallon jar, you are apt to be accused of wanting it for something besides pickles or sauerkraut. Voltaire once said to Helectius, "I agree with everything you say but will defend to the death your right to say it."

Main street is the longest street in Wayne. What street is the shortest? (Look now, I've got you thinking.)

Some piddle sleep with their arms under the covers and some with their arms outside the covers. Which way do you snooze? (Stay awake tonight and find out.)

Charles Augustus Lindbergh, Jr., has been the central topic of more publicity in our public prints than has his famous father.

A smarter guy than this'n once said, "No girl can make a fool out of a man unless that man furnishes the material."

What Wayne fellow, not engaged in the radio business in any way, has three radios and seldom listens to any one of them? (Puzzles, yet, he's making.)

Who owns that automobile? I mean the one that cruised around Wayne with foreign license plates for a longer period of time than the law allows. Then it went its way for some time with no license plates at all. Now it is struggling along with those inexpensive paper plates, which are supposed to be used for only a very few days after a car has changed ownership.

Who is Wayne's most popular bachelor? (Nominations will be gratefully received.) And who is Wayne's most popular benedict? Or shouldn't we mention that?

This here now department receives, and gets a huge kick out of more anonymous letters than anybody else in Wayne. Just an old anonymous-letter-receiver, that's me. (I should say, "That's I," in case you think the sentence is weak on grammar. Speaking of grammar, how is the old lady, anyway?)

Some time when you haven't anything else to do, come around and we'll get up a petition.

Up around Bloomfield and Wausa, they raise their editors tough. Pete Stepp is editor of the Bloomfield Monitor and C. Anderson is editor of

the Wausa Gazette. In his issue of March 10, Mr. Anderson says, among other things, "We don't expect the truth from a man of the ilk of Pete Stepp but some of his foul and putrid prevarications of recent weeks have been inclined to rouse our ire slightly. Mr. Stepp must have slipped in the mud he has been throwing and gotten an eyeful. We regret that we cannot agree with our brother editors' idiotic imbecilic ideas, but knowing that we are right we prefer to stand our ground."

Dear Scotty:

Have you heard about the Scotch lassie who only dolls up once a month 'cause the boy friend lives out-state and only comes to see her that often?

My great aunt Nora says that no matter what the wife's sentiments are, a man considers the marriage a success as long as he is contented. I have a friend who is such a radio fan that he was on the verge of a nervous breakdown worrying over the good programs he was missing because he could only listen to one at a time. He now has 8 radios and he keeps each tumbled in on a different station—now his wife has a nervous breakdown.

IKEY.

I'd heard of that Scotch gal, Ikey. Her brother wants her to dress up fancy more often, because when she's all frilled up she draws interest.

As to the radio narration, I consider it a fanciful prognostication. I abjectly supplicate, where oh WHERE does this plenipotentiary of the inner circle of radio auditors find eight good programs to attune his undoubtedly sensitive ear to? I'm asking.

What's Your Number?

Any reader of The Nebraska Democrat may obtain a complete numerology analysis by sending a self-addressed, stamped envelope to R. L. W. Manton, % The Nebraska Democrat, Letters will be forwarded to Mr. Manton and he will return a confidential analysis, giving both good and bad qualities as revealed by numerology.

Mr. Manton, famed numerologist, will give brief character portraits of 10 Democrat readers every week.

BY RULOW MANTON
In numerology, we have nine DISPOSITIONS or TEMPERAMENTS. As there are only four perfect numbers between 1 and 10,000, there are only four perfect dispositions or temperaments for 10,000 people. That pro-

portion holds good throughout all of nature.

GROSS VOLUME of a name is what the person is as a whole; it is the TEMPERAMENT NUMBER.

You want SUCCESS. You want to know how to get it. Four essential things are necessary. The first is to know what kind of success you want. Do you know yourself what you want? Have you thoroughly considered the field you wish to enter? Do you have a clear mental picture of what you DESIRE? That is the first step. But DESIRE is not the real power that will bring you success. Almost everyone has desire, which is the fore-runner of AMBITION. In AMBITION is the power. WORK and DETERMINATION are the other two steps.

Here are our numerology reviews for this week:

HENRY ULRICH—You have a No. 6 soul number and a number 5 temperament. Abraham Lincoln was a No. 5, though his vibration numbers differed from yours. This, as I have said before, is one of the most difficult vibrations for the analyst to interpret and more than usual care should be taken that hasty conclusions be avoided. The 5, in your cycle, is endowed with the intuition and power to make his dreams come true. You have possibilities for strong development along either "high" or "medium" lines. You love to experience anything new, and are capable of coping with practically any difficulties that may arise in your life. Failure does not discourage you. With your 6 soul number, denoting physical strength, you should make a splendid success as a practical farmer, a teacher of manual training, or a political executive. Chances would point to success in any line of retail business you might care to follow.

MARCUS KROGER—You have a number 5 soul number and a number 9 temperament. This combination would indicate a placid, gentle disposition combined with a determination and stick-to-it-iveness that usually means success in the long run. People in your cycle work hard and long, knowing that they are going to accomplish their desired ends. Virtues are accuracy and economy. You have a sincere desire to serve your fellow man, and are naturally determined in your opinions. Probable occupations are real estate agent, coal dealer, gardener, inventor.

O. B. HASS—You have a No. 1 soul number and a No. 1 temperament, an unusual combination which makes it possible for me to classify you almost as definitely as if you were standing here before me. That may sound like a strong statement to those who have little faith in numerology. You want lots of action. You have your own ideas on things and are not easily swayed from your way of thinking. Craftsmanship is strongly affiliated with such a combination. Probable vocations: artist, sign painter, interior decorator, watch-maker, chemist, designer.

BURR DAVIS—You have a No. 6 soul number and a No. 1 temperament. Your number vibration approximates the perfect. On such men must the leadership of the world depend. Under no circumstances, sign your name in any way other than that printed above, because it is highly harmonious. You

have the physical health and the mental ability to succeed in most things. Sincerity is one of the keynotes of your makeup. Develop your self-reliance. I predict much success. Probable vocations: Surgeon, dentist, attorney, senator, Chamber of Commerce secretary.

CLARENCE LONG—You have a No. 1 soul number and a No. 5 temperament. A variable, changing number that leads you into the most unexpected fields. You have a knack at freeing yourself from difficulties which would cause the average man intense worry. This knack is a rare and priceless one. A good sense of humor is another attribute. Your friends probably regard you as "good natured." Back of this good nature, there is a determination and perversity which will keep you trying constantly for greater success. Probable vocations: Organizer, cattle raiser, surveyor, claim adjuster.

L. A. JOSEPH—A No. 5 soul number and a No. 4 temperament. You have a respect and veneration for mechanical achievements. Work is likely to become a habit which is difficult to abandon at the age when others seek to enjoy the fruits of a life of labor. You work hard for your money and appreciate the value of it. You are open to debate, and are willing to change your mind on the subject if someone can show you that his point of view is correct. You like to keep yourself well informed on current events, through discussion and reading. Probable occupations: Collector, coal dealer, welder, die sinker, shop foreman.

A. T. CAVANAUGH—You have a No. 9 soul number and a No. 8 temperament. The person coming under this cycle may overcome obstacles as a tornado scatters bundles of grain in the field through which it passes. He may always be a power in his environment. You have the possibility of mastery in your intellectual endeavors. Business acumen is a natural characteristic. You appreciate life, and want to enjoy it. You will not make your money with your hands, but with your mind. Probable vocations: Security or investment salesman, employment bureau, banker, editor, cashier.

ROBERT HENKEL—You have a No. 7 soul number and a No. 9 temperament. Expression is the keynote of the person whose melody is nine. People coming under your classification are nearly always addicted to traveling. You should have the ability to plan well and the gift of direction. The sun is the symbol of your number combination, so I would advise work which keeps you out in the fresh air and sunlight. Probable occupations: gardener, horticulturist, mathematician, demonstrator, foreman.

CHRIS JENSEN—You have a No. 7 soul number and a No. 5 temperament. It is almost safe to say that you are not satisfied with your present occupation and hope to better yourself. The person of your temperament is constantly striving for self-improvement and is willing to try new ideas in order to advance. You have a mentally capable of grasping new theory and seeing the advantages or disadvantages of it, and you probably keep well-informed on the progress of the world. Probable occupations: cattle raiser, organizer, insurance adjuster, farmer.

SALES TAXES

Manufacturers' associations continue to file their objections to the proposed manufacturers' sales tax as a means of raising additional governmental funds. The grounds for such objections are based on the belief held by manufacturers that such a tax would be class legislation and unjust discrimination. That it will retard the recovery of industry; make more difficult the expansion of export trade; seriously injure many manufacturers who purchase parts and materials for their products; by pyramiding the tax; penalize those manufacturers who have to absorb the tax and cannot pass it along; increase materially the cost of production; compel the ultimate consumer to pay the tax after it has been increased and multiplied at every step in the process of distribution, and finally deprive the government of large potential revenues.

Additional revenue must be raised to meet the deficit and provide for ever increasing government expenditures; but extreme care is needed in placing the extra burden of such increased taxation not to work serious injury to the country's industrial, agricultural and financial structure. Any sales tax usually reverts to the ultimate consumer for payment, and has a tendency to decrease buying, and the payment of such a tax falls upon those who can least afford to pay. This is especially true if the tax affects any of the necessities. — Norfolk Press.

Former Wayne County Residents Hold Picnic at Long Beach Park

Former Wayne county residents, now in California, held their annual Wayne county picnic at Bixby park, Long Beach, on Saturday, March 5. Sixty-three people attended. Miss Laura E. Lyons sent the following account of the affair to this paper: "Greetings to the Nebraska Democrat and its readers: On Saturday, March 5, '63 of us met at Bixby Park, Long Beach, and had a fine picnic dinner and enjoyable visit, and I noticed that 'home' was often mentioned, so you see we think of you—and that very often. The weather was ideal and this is to be an annual occurrence the next Saturday following the Iowa State picnic, so no more cards will be sent after this.

Mr. Howard asked me to write this for the Wayne papers. The Press Telegram very graciously gave publicity for several days previous in their Future Events column.

Each one registered and I now have an entire list. It is interesting to note that 14 towns and cities are represented, Santa Barbara being the greatest distance away. Mr. and Mrs. Frank Skeen drove down the day before to his brother's.

Mr. and Mrs. Clyde Oman were the latest arrivals and will soon be on their way home. Mr. and Mrs. J. C. Forbes came from Alhambra. Mrs. Ann Jansen Roberts and Kathleen and Helen came from Rosemead; Mrs. Elizabeth Jensen Glass, Bobbie and Patty Ann from Whittier; Mr. and Mrs. Wayne C. Howard and Dorothea Needham Marsh from Compton; Dan Spears from El Monte; Mr. and Mrs. L. W. Carter, Lucretia and Stanley from Wilmington; Mrs. Henry A. Brune, Marjorie, Barbara and Henry A. Jr., from Monrovia; Mr. and Mrs. C. A. Grothe and Mr. and Mrs. W. E. Howard from Pomona; Wm. J. Rennick and Mrs. Emma Prescott from Hollywood; Dr. and Mrs. A. B. Cherry, F. E. Moses and Miss Merle Moses from Pasadena.

The following were present from Los Angeles: Nels Nelson, visiting his stepdaughter, Marcela Lindberg Canty and husband; Mr. and Mrs. John Canty, H. E. Griggs, Mr. and Mrs. John Larson, Mr. and Mrs. Wm. Sonnekin, Mr. and Mrs. W. O. Hansen, Mr. and Mrs. Ellis E. Miner and Junior, Mr. and Mrs. Frank Ulrich, Ethel Shaw Krahn, Mrs. B. F. Feather, Mr. and Mrs. B. F. Skeen, Mr. and Mrs. Claude Ferrell and Mrs. David Townsend.

Long Beach was represented by Mr. and Mrs. Frank Hurlbert of Winner, S. D., Mr. and Mrs. Walt Hurlbert (glad to say Walt is able to be out, as he has been ill), Mr. and Mrs. Thos. E. Jensen and John Laurie, Ella Piepenstock Miller, Mrs. Amanda Person, May Chase Miller, Suzanne Wightman, Mrs. Chas. McLeod, Mr. and Mrs. E. W. Cullen, Magnus Jensen, wife, Evelyn and Walter, and the writer.

Long Beach residents were especially sorry to have read of the accident to the dirigible Akron, for it was scheduled to be here when the fleet maneuvered. In fact, its landing ship had previously arrived in the harbor.

Today begins the week's dedication exercises for the million and a half dollar auditorium. Today at noon, the flag will be presented; tonight the formal dedicatory service, addressed by Governor Ralph. His lieutenant, Frank Merriam, resides here and he, the mayor and other dignitaries will be introduced. I hope to attend some of these services.

Sincerely,
Laura E. Lyons.

Political Whisper

Go'ness grashus! What times William Ritchie Jr., and Governor Bryan are having. Ritchie resents the publication of "State Capitol Notes," a news service mailed from Lincoln to Nebraska weeklies.

In a signed letter, he says: "You have been receiving through the mail for many weeks now, unsigned copies of statements called 'State Capitol Notes.' Thousands of these have recently been sent broadcast throughout the state. At first I ignored them, but finally, when they began to contain statements that were highly exaggerated, I went to the State Capitol and asked various employees who was responsible for these notes, who wrote them, etc. Finally the Deputy Secretary of Agriculture told me that each week a certain number of these capitol notes would be placed on his desk and he was mailing them out as enclosures in official letters."

"I made a protest against such political propaganda being sent out at state expense. Mr. Bryan at first

answered 'Absurd peewee stuff' but when confronted with the admission of the Deputy Secretary, on Jan. 5, is quoted in the Lincoln Star as follows:

"While denying that any political partisan matter is being thus distributed, he told newspaper men that some mimeograph sheets had gone out containing information about departmental business, in response to thousands of requests I had had for such information. Each department has a maintenance fund appropriated for this purpose and we expect to save the state's money by using this method of getting facts about the state government to the people of Nebraska. Instead of answering each letter separately, the information will be classified and put together in standardized form and in that way the work being done by the different departments can be made known to our citizens and taxpayers without writing everyone who asks for data an individual letter."

"To my mind this is a direct admission that State Capitol Notes are being sent out under state postage."

Ritchie is going to speak in Wayne on Monday, April 4. He has been waging a vigorous campaign against the veteran Charlie—but those "in the know" say that Bryan's tremendous following throughout the state will pull him through the primaries without a struggle.

In city politics, the only competition, unless there are some "dark horses," will be in the second ward, where Dr. J. G. W. Lewis, present incumbent, will be opposed for the City Council by George P. Berres, Sr. In county politics, an interesting fight looms between Attorney Donald P. Miller, republican, and Frank J. Kloppling, democrat. Both men seek to represent the county in the state legislature.

From Washington comes the news that the house of representatives Monday voted 227 to 187 against taking up legislation designed to turn back control of liquor to the states.

News head from Omaha: "Mayor Backs Ban on Black and Tan Dance." That's a tough spot for a politician who lives in a city which has a large negro population.

And Germany follows Hindenburg in peace, just as in war.

Hostetter departed this life intestate on or about the first day of October, 1930, and praying that Harvey Hostetter be appointed administrator of said Estate. Hearing will be had on said petition before me at the county court room in Wayne, Nebraska, on the 18th day of March, 1932, at 10 o'clock A. M. (Seal) J. M. CHERRY, County Judge.

DR. U. S. CONN GIVES VIEWS OF DEPRESSION (Continued from Page One)

how many of them had been careless or indifferent about their work. It gave me a depressing feeling. "I saw no building operations in New York. There were some government projects in Washington. One small building was being erected in Chicago. I saw no others, either going from or coming back to Wayne. There is no question about it. We are in the throes of a depression.

"The common talk is, 'I wonder what congress will do about it.' We have a child-like faith in congress. The man on the street thinks, 'Congress should do something about this.' The office-seeker must work on this naive tendency. He promises to effect miraculous cures if he is elected. The promises are made to gain office. After election, the office-holder soon learns that he is not a magician."

"There is no question about unemployment. Of the six to eight million out of work, probably half a million never had a job. Another half million were probably on the borderline. We are not interested in these. It is the remaining six or seven million who really give us concern.

"Many causes are given for the depression. Some say the tariff. Others say banks and trusts. Still others say lack of proper distribution. I think the difficulty is in over-production."

Dr. Conn said that the advent of women into industrial activities had undoubtedly been responsible for some unemployment, and that machinery had been responsible for far greater loss of work. In the six years ending in 1925, he said, there was an eight percent reduction in employment with a 40 percent increase in production. When the slump came, America was overloaded, and in a financial jam. Production had to stop, and thousands of men were taken off of payrolls as a consequence. "It has reached a point," Dr. Conn said, "where we are now manufacturing and distributing just the things which are necessary to keep us going."

Dr. Conn said that installment selling had made the problem of over-production greater than it might otherwise have been. Eight billion dollars worth of goods, he said, had been sold on the installment plan prior to the economic slump.

Congress, he pointed out, is proposing a five and a half billion dollar bond issue for construction, which would mean more production. "I believe," he said, "we would still have unbalanced consumption and production. I fail to see where the plan would do any good."

He suggested as a solution to the problem a commission to make a check-up on consumption and production, to determine demands and then regulate production, controlling factory output.

"We loaned Europe ten billion dollars during and after the war," he added. "I am not in sympathy with those who would try to collect it. We gave money instead of men. The so-called international bankers have loaned Europe 15 billion dollars more. Who owns these bonds? Everybody. They have brought us finan-

cial ruin. I predict that we won't get 25 percent of the 25 billion.

"Since the war," he said, "America has been obsessed with the idea of advising Europe. The Europeans are as different from America as can be. They have vastly different problems and situations from ours, yet we persist in irritating them."

"This year we are celebrating the George Washington bicentennial. Washington offered this country sage advice when he said, 'Stay out of foreign entanglements.' I think it would be a fitting tribute to his memory for us to follow his advice."

STOCK MARKET GAMBLING

We think we are perfectly safe in saying that the 'business depression' has 'scraped bottom' and that the upswing has begun. It is certain that there is a much greater feeling of confidence among manufacturers, business men and bankers than there was a month ago. The remedial legislation which has been enacted at Washington has already had a deep psychological effect upon the business and financial world.

The best proof that these efforts to put a stop to the process of deflation are regarded by men who know about such things as being effective, is the fact that men and institutions of great wealth who have been holding back their funds waiting to be sure that the bottom had been reached, are now actively investing again.

But on the heels of these investors follows an army of speculative sharks, whose activities may succeed in undoing the beginnings of restored confidence. These are the traders who rush in whenever the shares of any corporation show signs of strength, and buy merely to sell again as soon as they can make a dollar or two profit.

The New York Stock Exchange is an important institution, in that it furnishes the only open market into which anyone who wants to buy or sell securities can go to make his sales or purchases. But a large part of the trading on the Exchange is pure gambling. These gamblers care nothing about the welfare of the nation; they seek only to line their own pockets. And it is too bad that whenever there are encouraging signs of restored confidence that they should come in and kill it by first running the market up and down, when they sell to take profits, putting it down again.

We believe that these stock gamblers have done more to retard the resumption of normal business than any other one influence. We hope that the nation as a whole will not continue to regard the day-to-day fluctuations of security prices on the Stock Exchange as reflecting anything more than the operations of gamblers, but we are afraid that too many people think the nation's prosperity is dependent upon the price of stocks, which have no more relation to the actual values of the properties behind them today, when they are absurdly low, than they had in 1929, when they were ridiculously too high. —Wisner News-Chronicle.

DOODLE-BUGS Digging Needed to Catch Them.

Senator Logan of Kentucky hit upon a happy illustration when he introduced the doodle-bug into the discussion of hoarding. It will appeal to the juvenile as well as the adult mind.

This is the doodle-bug mythology, accepted by hundreds of thousands of children. Find a small crater in the sand with a hole at the bottom. Place the lips close to the crater and whisper coaxingly, "Doodle-bug, doodle-bug, come out of your hole."

The doodle-bug should immediately scramble out of his tunnel. The fact that he doesn't is what gives zest to the sport of doodle-bug hunting.

If the hunt is persisted in the doodle-bug may make his appearance. Skeptics will say he was just leaving home without being called.

Doodle-bug hunting has become one of those fads that sweep the country like pee-wee golf and ping-pong. We go about whispering our incantations into dry sand holes to prosperity and employment and pacifism and whatnot.

The naturalist, really determined to add a doodle-bug to his collection, would probably take a shovel and do some digging in the vicinity of the doodle-bug's hole. —Omaha Bee-News.

COLLEGE HIGH STUDENTS GIVE "BELLE OF BAGDAD"

(From the Goldenrod) "The Belle of Bagdad" was very capably presented by the College High School on Thursday, March 10, under the direction of Miss Bowman, who was aided by Miss Drake, Doris Blackmer, and the college orchestra. They were presented with flowers by the operetta cast in appreciation of their efforts.

The scene was the market place in Bagdad, with a background of descriptive buildings and blue sky. Paul Hunter as Archie Fitzgibbons, directly from London, was very amusing in his excellent imitation of that language and dress. Marian Becker as a romantic spinster, with all of those characteristics, hunting for her man, was especially entertaining in her solo. The voices of these two singers carried well to the back of the auditorium.

The gaily colored costumes of the dancers created a festive atmosphere, and the solo dances of Glea Gifford and Ruth Hanson were gracefully interpreted.

Kenyon Lewis as the caliph of Bagdad and William Denkinger, the prefect of police, in appropriate costumes were strong characters and singers. The airplane mechanics, Milton Dawson and Roland Johnson, gave a very clever airplane dance and song upon their arrival in Bagdad, and again danced with Eleanor Martin and Gladys Whorlow. They were disguised by two of the caliph's daughters, Olivia Dittenbaugh and Beulah Johnson, a short time later appearing in the role of whiskered guards.

After all difficulties had been straightened out by Jessie Hanson as the new American Consul, Marion Auker announced his intention to "Ring the Belle of Bagdad"—who was Amy Whorlow, favorite daughter of the caliph.

You are hereby notified that on the 29th day of February, 1932, Robert B. Leonard filed his petition in the County Court of Wayne County, Nebraska, alleging that said John R. Van Fleet died intestate, a resident of Taylor County, Iowa, on the 6th day of October, 1881; that at the time of his death he was seized of an estate of inheritance in the following-described real estate, to-wit: North-west Quarter (NW 1/4) of Section Thirty-four (34), in Township Twenty-six (26) North, Range Five (5), East of the 6th P. M. in Wayne County, Nebraska, and that he left surviving him as his sole and only heirs at law his widow, Ellen Van Fleet, and the following children, to-wit: Ella V. Henley, a daughter, intermarried with H. M. Henley; M. M. Van Fleet, a son, whose first and given name is unknown to petitioner, intermarried with Clara Van Fleet; Hattie V. Crum, a daughter, intermarried with William E. Crum, and Maude Van Fleet, a daughter. That all claims, debts, and demands against said real estate and estate have been paid in full. That no application has been made in the State of Nebraska for the appointment of an administrator either by his heirs or by persons claiming to be creditors of said deceased. That said Robert B. Leonard is the owner in fee simple of the above described real estate by reason of mesne conveyances from said heirs.

Van Fleet, deceased, for the determination of the heirs, the degree of kinship, and the right of descent of said real estate, and for an order barring claims of creditors and prays for such other relief as may be proper.

Said petition will be heard in the County Court Room in the court house in Wayne, Wayne County, Nebraska, on the 15th day of March, 1932, at 1 o'clock P. M., at which time and place all persons interested in said estate, both creditors and heirs, may appear and show cause why a decree should not be made and entered as prayed in said petition.

Vacuum Packed Peas

ONE of the most popular of canned vegetables is peas. There are few people in this country who have not eaten and enjoyed this product at some time. For when you open a can you actually seem to get a whiff of the sunny garden in which they were grown.

And now you can get peas in a new form—vacuum packed. There is no liquid in the can when they are packed in this manner, but just the beautiful fresh peas with all the flavor of when they were picked. If you're fond of peas, this new form is worth trying. Here are some recipes in which to try them.

Hot or Cold
Curried Pea Omelet: Make an omelet as usual of three eggs,

three tablespoons milk and one-half teaspoon salt. Combine one tablespoon butter, one tablespoon flour, one-fourth teaspoon salt, three-eighths teaspoon curry powder and three-fourths cup milk into white sauce in the usual way. Add three-fourths cup vacuum packed peas to sauce and pour hot over omelette just before folding over on the platter. Serves four. In doubling the quantity make two omelets instead of one large one.

Pea and Apple Salad: Marinate one cup vacuum packed peas and one cup diced celery in French dressing for an hour. Add one-half cup chopped nuts, two large apples, diced, and mix with mayonnaise.
