

Services For Farmer Held Here Tuesday

Clarence Dullerud Passes
Away on Sunday,
May 14.

After an illness of about six months, Clarence Dullerud passed away at his home southeast of Wayne on Sunday, May 14, 1933. Short funeral services were held from the home at one o'clock Tuesday afternoon, May 16, and at two o'clock from St. Paul's Lutheran church of Wayne, Rev. W. C. Heidenreich was in charge. Interment was in the Wayne cemetery.

Clarence Oswald Dullerud, son of Martin and Matilda Dullerud, was born at Wisner on Nov. 7, 1899. Both of his parents died in his early childhood and he was received into Bethesda home at Beresford, S. D., when he was 2½ years old. At the age of 16, he left the home and began to support himself as a farm hand. He came to Wayne county in 1910 to assist his uncle on the farm, making his home with his uncle, Nels, and his aunt, Miss Ellen Dullerud, for about five years.

When they moved to town, he rented their farm and lived on it until the time of his death.

He was united in marriage to Alice Thompson of Beresford, S. D., on Sept. 24, 1929. Two children, Lila Jean, now 22 months old and Roger Donald, now six months old, came to bless the home.

Mr. Dullerud was baptized in infancy and confirmed in the Norwegian Lutheran church. After his marriage, he united with St. Paul's Lutheran church of Wayne. He was a member of the Modera Workmen of America.

Mr. Dullerud had a reputation for being an industrious farmer and was highly respected by those with whom he associated.

Besides the sorrowing widow and two children, he is survived by his uncle, Nels Dullerud of Wayne, two aunts, Miss Ellen Dullerud of Wayne and Mrs. Henry Ross of Butte, and many other relatives and friends.

COLLEGE PRESENTS SHAKESPEARE PLAY

Shakespearean Comedy to
Be Given Wednesday
Evening.

Wayne drama lovers will have an opportunity to see "A Midsummer Night's Dream," one of the most popular Shakespearean comedies, at the college auditorium on Wednesday evening at 8:15 o'clock.

The presentation is being given by members of the college dramatics class, under the direction of Miss Florence M. Drake. Tickets will be on sale in the Wayne business district Friday and Saturday.

The production is said to be the most elaborate of the school year. Special costumes have been prepared with close attention to artistic detail and historical accuracy. Stage settings will be in accordance with the Shakespearean tradition of simplicity.

EIGHTH GRADERS TO HAVE PROMOTION DAY

Graduation Exercises to
Be Held on Friday,
June 2.

Wayne county eighth grade promotion exercises will be held here on Friday, June 2, according to announcement made yesterday by County Superintendent Pearl E. Sewell. Of 144 eighth graders taking the examinations 128 passed. An average of 75 per cent with no grade below 60 was required.

Herbert L. Cushing, deputy state superintendent, will give the promotion exercise address.

Many seventh graders passed with good grades in the six subjects which they were allowed to take this year. Only grades of 75 per cent or above hold good from one year to the next.

Prosperity

Farm prices have rounded the corner and are starting prosperity straight in the face. Recent steady rises in the farm markets indicate that the condition is not a manipulative movement but a healthy reaction to existing conditions.

In the agricultural area, there is cause for great rejoicing. Our prosperity, yours and mine, depends on nothing one-tenth so much as on the healthy condition of farm prices.

A noted grain expert, E. A. Goshert of Chicago, said Monday: "Three months ago when wheat futures on the Chicago board of trade were selling in the forties, we began strongly to advise the purchase of wheat. We ventured the statement that it was no longer a question of 'how much lower will it go?' but rather one of 'how long can wheat be kept down?' Paraphrasing that statement, the question which now suggests itself to us is not 'will wheat sell at one dollar a bushel?' but rather 'how long will the dollar be worth a bushel of wheat?'"

Mr. Goshert predicts that within the next few months wheat prices will be represented by three figures instead of two.

Of particular cheer to Nebraskans is the steady rise in corn quotations.

While it is true that commodity prices are bound to rise, it is not expected that the upturn will be as quick, nor as sharp.

This means that Wayne, and other midwestern communities, are on the upgrade. It means a return of money to the farm belt with an accompanying benefit to wholesale and retail business in Nebraska.

Army Officer Is Speaker At Kiwanis Club

Captain H. H. Elarth Gives
Sidelights on National
Defense Problems.

Captain H. H. Elarth, instructor of the infantry regiment and a regular army officer stationed at Omaha, spoke before Wayne Kiwanians Monday noon at Hotel Stratton on the subject of "National Defense." Captain Elarth and Col. J. Q. Thornton of Omaha were guests at the club of Major H. C. Capsey.

Captain Elarth opened his talk by saying that his opinions could be called biased, inasmuch as he is an army officer. "The facts which I will give you," however," he said, "are absolutely accurate, and I want you to believe them."

In discussing national defense, he said, we must ask ourselves three questions: Why do we need national defense? How much national defense do we need? and Are we getting it at the present time at bargain prices?

We all possess a certain amount of information on the national defense problem, he said, but we possess too much misinformation and too many half-truths.

"In discussing the need for national defense," he said, "I want to tell you that in the history of the modern world there have been 8,000 treaties of peace signed by various nations. All of these treaties were to last forever. The average life of each treaty was two years. We have made progress, but we do not yet dare rely too greatly on the sanctity of peace treaties. We need a national defense to supplement them."

"The greatest disaster which can come to any nation," Captain Elarth continued, "is the loss of a war. Germany furnishes a good example of what the loss of a war does to a nation. We must insure ourselves against getting into a war and we must not forget to insure our nation against losing a war if we have to get into one."

Captain Elarth said that the regular United States army at the present time consists of 12,000 officers and 120,000 men. One-third of these men, he said, are in overseas service. (Continued on page five)

The Inquiring Reporter

THIS WEEK'S QUESTION
What do you think of the farm
strike idea proposed by the Farm
Holiday association?

Farmer: I can't see much sense to it. The man who has to sell his stuff or wants to sell it should be allowed to.

Farmer: With corn hitting consistently over 40 cents on the Chicago market, I don't see any reason for farmers to strike. A holiday might spoil what looks like good times coming.

Farmer: I believe in the Farm Holiday association and think that the only way for farmers ever to get any place is through organization. If the Holiday association says "Strike, then I'll strike."

Farmer: It's one of the silliest things I ever heard of and all it can accomplish is a lot of trouble. Prices are going up very nicely without any strikes.

Farmer: I live in a hotbed of Holiday members, so if there is a strike, I suppose I'll have to strike, too—but I think it's nonsense.

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years—1929 to 1932—we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward—through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method—new political and financial machinery—to pull us out the way we are going—forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only—the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

RESULTS OF INFLATION

What will inflation mean? Those who have followed the Administration's inflation policy are wondering what its results will be. Since the latter part of March, generally higher prices and greater activity have characterized both commodity and security markets following the suspension of gold exports.

It is a queer method of reasoning that the state legislature worked out, waiting until after the time limit for payment had expired to enact a law extending the date for delinquent interest rates for two months.

But it was the same legislature that changed the price of automobile license fees after the lawful time for payment of those fees had expired.

While we may criticize the legislature for its methods, we can at least be deeply thankful that it really made an effort to lift some of the heavy tax load.

They cannot be indifferent to present calls for patriotic service. As long as the memory of our heroes is kept bright, America can be confident that heroic service will come from its citizens in every hour of need.

AT LEAST SEVERAL

While many property owners are glad to know that the date for payment of delinquent taxes has been extended for two months, there are others who are not so glad.

SCOTT SHOTS

"SCOTT"

Isn't it funny how come of the wild-goose chase and flourishes without the slightest foundation? Well, "poca favilla gram flamma secunda" as our Italian friend would say.

When Scott Shots publishes the "inside dope" and "latest gore," we like to make our accounts sparkling, bold and pungent—but we don't like to smash anybody's fingers in the gossip door-jam unless we know that their hands are dirty.

When I hear a certain local gal say nasty things about another fellow, I take it with a grain of salt, because they are both trying to fill their date books with signatures of the same fellow, Lucky fellow!

I like this sage observation which appears in The Bloomfield Monitor: "It is all right to hope that the government will make us prosperous through legislation, but it is not wise to depend too much on it."

He asked me for my candid opinion about a personal matter—and then got mad when I gave it to him. Mebbe I'll learn to keep my mouth shut. But, after all, why do we ask people to tell us things that we don't want to hear?

If Wayne goes against the 3.2 beer proposition, Operative 246's relay, one man plans to open a beer garden just outside of the city limits.

Last week's wet weather may have been just dandy for crops, but it was surely tough on dispositions.

While everybody will be tickled to death to see Will Rogers, Janet Gaynor, Lew Ayres and Sally Eilers, plus a really all-star cast in "State Fair," the member of the cast that will prove of paramount interest to local folks will be "Blue Boy," the famous Hampshire purchased from Ed S. Rennieck of Pilger after the boar had won the grand championship at the Iowa State Fair last summer.

"State Fair" comes to the Gay on Saturday, Sunday, Monday and Tuesday. It is based on the Literary Guild prize novel by Phil Stong, a newspaperman who was born and raised on a farm.

More than 100,000 people, among them eight of the screen's leading stars, appear in the picture. The story blends romance and comedy, dealing with the loves and adventures of a middle-western farm family.

Miss Gaynor is seen as a demure and lovely farm girl who learns about love from a fascinating young newspaper reporter. Rogers plays Abel Frake, the hog-raising farmer.

On Wednesday and Thursday, we'll get to see Stan Laurel and Oliver Hardy, two of your favorite comedians, in "Pack Up Your Troubles."

CUT IN OIL RATE MADE BY M. AND O.
Reduced Shipping Charge to Aid Petroleum Dealers.
Dealers in petroleum products in Cedar, Knox and Wayne county towns served by the M. and O. railroad will be saved from one to three cents for every hundred pounds of such products shipped over that line from Tulsa refineries following recent action of the railway company in reducing their rates. Discrepancy in rates between petroleum shipped to these towns and to Yankton was called to the attention of railway officials by the Nebraska state railway commission following the intervention of Senator J. F. O'Farney of Hartington and others interested in the matter. Previously a flat rate of 44 cents was made to all dealers in towns served by the M. and O. branches. As a result of the protest, the new Laurel rate will be 41 cents; Coleridge, 41 cents; Carroll, 41 cents; Sholes, 42 cents, and Randolph, 42 cents. The new rates go into effect at once.
ARMY OFFICER IS SPEAKER AT KIWANIS CLUB
(Continued from Page One)
Another third, he revealed, are in work such as the instructional work Captain Elarth is doing. That has left one-third available for any emergency duty. This last one-third, he said, are being put in charge of the president's reforestation army. He showed a chart which depicted the United States as being far ahead of any other nation in total national wealth, and then introduced a second chart which showed the United States in thirty-sixth place among the nations of the world in respect to the number of soldiers per billion dollars of wealth. In strength of regular army, he showed, the United States ranks eleventh among nations. France has five times as large a regular army and Great Britain has three and a half times as large an army as the United States. In respect to regular army plus reserve forces, the United States is in sixteenth place. In proportion to number of men in the regular army for each 10,000 population, the United States is in seventh place. Taking area as a yardstick, Captain Elarth said, the figures show a still greater discrepancy. "The United States," he said, "has gone further toward disarmament than any other nation in the world." In regard to pay of army men, Captain Elarth continued, "The United States pays its soldiers 70 cents a day. This is about ten times as much as is paid for soldiers in Europe."
The actual cost of the army for one year, he said, is about 290 million dollars. Such a sum, he showed, is about 6.1 per cent of the United States budget. In 1909, he said, the percentage was 13.28. "The too-ardent pacifists and the Jingoists are both wrong," he concluded. "We want an adequate national defense. We do not want to seek a war, and we do not want warring nations to seek us."

FARM RELIEF ACT TO BE VOLUNTARY
Provisions of Law Not to Be Forced Upon Farmers.
Acceptance of the provisions of the new agricultural emergency relief act will be entirely voluntary on the part of Nebraska farmers, according to W. H. Brokaw of Lincoln. A director of agricultural extension services, Brokaw is to be one of the state committee in charge of administration of the agricultural relief act in Nebraska. There is nothing in the law, Mr. Brokaw says, which says a farmer must reduce acreage, lease land to the government, or destroy surplus crops. He may take advantage of whatever plan is worked out only if he cares to do so. The first move that Secretary Wallace will make, according to latest word from Washington, will be to call together representatives of all industries concerned for "commodity hearings." Judging from information coming to Brokaw's office from Secretary Wallace so far, one of the first and most important jobs of the Nebraska state committee will be to acquaint farmers with the content of the emergency relief act and to tell them how the act will work in Nebraska. The state committee will get the national information from a regional or national conference to be held in the near future, and also from communications sent out by Secretary Wallace's office. In Mr. Brokaw's opinion, no Nebraska farmer would be justified in delaying any of his seasonal farm work in the next few weeks on account of the emergency act.

The beauty of our dining hall, the excellent service by our ladies and the charm of young college life, made this a service most enjoyable. The sunshine of last Sunday and the Spirit of Mothers Day gave us a large attendance and a beautiful service last Sunday. The sermon and the special number by the men's chorus were in keeping with the meaning of the day.
