N. R. A. Idea Is Discussed by Educator

Dr. Horace B. Hawthorn Believes Program Will Succeed.

Dr. Horace B. Hawthorn, professor of social science at Morrisville college, spoke before members of the Wayne Kiwanis club Monday noon at Hotel Stratton on the economic aspects of the President's program and N. R. A.

"N. R. A.," he said, "is not the program of the President, but of the people. The people of the United States voted for a change in the economic structure of our nation, and are getting it. The details of this change are being worked out by the President and his staff. We are going to operate under this same program, with probably some major and minor changes, for the next 15 years. Principles for the development of economic security will be gradually evolved and the principles which are being laid down by President Roosevelt will have to be followed."

"The 'laissez faire' theory of economics is wrong and obsolete," he declared. "The spread between production and capital has been too great in the past. Leading industrialists recognize that the spread between manager and worker must be reduced, so that \$200,000,000 and \$300,000,000 fortunes cannot be accumulated. The best managers are not necessarily motivated from the standpoint of financial gain. We can get leaders who are willing to sacrifice their time and their lives. These are the best leaders. They do not require great financial remuneration, since they have dedicated their lives to truth and justice."

Wildcats Show Power in Overwhelming South Dakota Team.

Wayne State Teachers college gave Southern normal of Springfield, S. D., a football lesson Friday night at college field, winning from the Dakotans with ease by a score of 24 to 0. Coach Ray Hickman substituted freely in the second half, or the score would probably have been higher.

At the start of the game, after Wayne had advanced to the Southern 30-yard line on consecutive first downs, Simantel, Southern's right tackle, recovered Gast's fumble. Wayne held the Southern team without gain for three downs and Dermitt returned the Southern punt to Southern's 46-yard line. Manning made two yards and Gast made it a first down on the 35-yard line. Manning made two yards and Gast made it a first down on the 35-yard stripe. Gast cut off left tackle to the 11-yard line and Manning cut off right tackle for a touchdown. Gast's kick for point failed.

Gast kicked off to the 21-yard line. On Southern's first play, the ball was fumbled and Cook recovered on the 20-yard line. A pass, Dermitt to Manning put the ball on the yard line and Gast went over. His kick failed.

Wayne made another touchdown in the second quarter. Dermitt took a Southern punt on Wayne's 39-yard line. He made four yards and then Borden raced 24 yards to Southern's 33-yard line. Dermitt took the ball to the 31-yard marker and Borden advanced it to the 28. On the next play Gast cut off right tackle to go (continued on page four)

Setup Being Prepared for Corn Loans

Corn-Hog Applications to Be Distributed in Near Future.

All Nebraska farmers wanting corn loans must write the state railway commission for blanks on which to make application for inspection. Before any farmer can get a loan, he must have his corn inspected as to warehousing and grading, and must receive a warehouse certificate which will be attached to his loan.

The corn-hog application blank and contract which will be offered Nebraska corn and hog growers in the next few weeks will be one piece of paper and as short and simple as possible. The contract is now being drawn up in final form after a series of four regional conferences in the corn belt.

Under present provisions, a farmer who signs the contract agrees to reduce corn acreage 20 per cent and hog numbers 25 per cent. If he produces three or less litters per year during the base period, he may sign up the corn part of the contract but not the hog.

The corn-hog plan will be workable in Nebraska, W. H. Brokaw, director of extension service, said Wednesday morning on his return from a conference with Washington officials and other representatives at Kansas City, Iowa, Missouri and Kansas were represented at the meeting.

Community meetings will be held throughout the state in the near future, so that farmers can better acquaint themselves with the details of the corn-hog plan.

The farmers who sign contracts will arrange for publication of names in the local papers of those who sign up the corn-hog contracts.

It is said that Iowa, Nebraska and Illinois farmers will receive the greatest benefits from the plan.

The Inquiring Reporter

THIS WEEK'S QUESTION
"Do you think the NIRA program has benefited the midwest?"

Merchant: That's hardly a fair question. It seems to have benefited midwest cities, but hasn't had much appreciable effect here yet. I think it will help us.

Clerk: We haven't felt much benefit from it yet, but it is putting industry back on its feet. As soon as industry gets going, we'll get some benefits.

Farmer: They tell me that it's helped midwest cities, but it hasn't had time to help us much. Give it a chance.

Merchant: Corn is three-times as high as it was last year at this time. Farm prices are definitely on an upward trend. NRA is giving money to city people, and they'll buy our goods with that money. It surely is helping.

Physician: I'm not in a position to know about it. I think, however, that the mental attitude of our people is much better that it was a year ago.

THE KNOT-HOLE

No. 22 Wayne, Nebraska, Thursday, November 16, 1933. Vol. 8

The other day we overheard a student say, "A football coach is a fellow who is always willing to lay down your life for his school."

This week we received another bit of our SUPERIOR Briquets. The proof of their quality is the fact that those who have tried them come back for more.

During the early spring and summer, when lumber prices were at the very bottom, we filled our yard with low-cost material. This is your opportunity to profit by letting us figure your bill.

About a month ago there were 500 strikes in the United States and not a one of them lucky!

Just packed tight with heat are these SUPERIOR Briquets. Try 'em.

TWO NEW WINTER GRADES

ISO-VIS "D"

Anti-Sludge Motor Oil

10-W and 20-W

CAR MANUFACTURERS RECOMMEND NEW GRADES OF MOTOR OIL

After thorough study of common causes of difficulty in winter starting, motor car manufacturers have found, through investigations sponsored by the Society of Automotive Engineers, that most people use too heavy oil in winter, and that there is great variation in the starting characteristics of winter grade oils. They, therefore, recommend the use of two new grades for winter to be known as 10-W and 20-W, both of which are to have very definite viscosity specifications for starting at low temperatures.

They pour at sub-zero temperatures . . . Give easier starting . . . Yet could be used with perfect safety in mid-summer. Will not sludge. Now ready at all Standard Stations

Get set for the easiest starting winter you've ever experienced. At all Standard Stations you'll now find two new winter grades of Iso-Vis "D" Anti-Sludge Motor Oil—10-W and 20-W. These new grades not only meet the latest recommendations of car manufacturers for winter motor oils, but 20-W pours at 5° below zero, and 10-W pours at 20° below zero. At those temperatures these oils let your motor turn over easily—give positive lubrication instantly. And you don't need to

worry about these oils thinning out dangerously under the heat of driving. They are so little affected by high temperatures that they could be used with perfect safety in your motor on the hottest summer day, though they would give somewhat higher consumption in hot weather. Because these new oils do not sludge you will get just as quick, positive circulation of lubricant in your motor at the end of 1000 miles as when you first put them in your crankcase.

WAYNE MARKET REPORTS

Following are the market prices quoted us up to the time of going to press.

Table with market prices for Corn, Oats, Barley, Cream, Eggs, Springs, Roosters, Hens.

"WE HAVE A DUTY"

A man whose judgment the writer respects has this to say about NRA and the efforts of those in power to speed the return of prosperity:

"I have been a republican all my life. I voted for Roosevelt because I believed the republican party had fallen down on the job. I am still a republican at heart."

"I think President Roosevelt is faced with the most gigantic task that ever confronted a president of the United States. His task would be difficult enough if he had the loyal backing of every citizen—which he has not."

Any man who tries to throw a monkey wrench into the president's recovery machine is a traitor to his country. Any man who talks against the president's plans is a traitor to our national cause. We have elected Roosevelt and we are in duty bound to stand back of him. He is making a conscientious effort to block and hinder his plans is nothing short of treason.

"I may not approve of everything he has done, but I am bound to support his actions. I am bound by the national ties to do everything within my power to put his program across. I want it to succeed."

"Evidently, the nation has a good many petty politicians who do not want this program to succeed. These men, anxious to get a finger in the political pie, want a return to power and profit. They will not stop at anything short of wrecking our nation to discredit the president and get the voters to put them back on the public payroll."

"This is no time for party politics. We must be neither democrats nor republicans, but American citizens—ready to do our utmost to put the United States back on the plane of prosperity where it belongs."

"LET'S TRY ANYTHING"

Farmers of the midwest agricultural territory have cause for rejoicing in the government's evident intention of putting the corn-hog plan into immediate operation.

Some of them will be skeptical. Some will not want to sign the corn-hog contracts until they see how the program is going to work out. These few will retard the success of the plan, but it is doubtful if they can stop it.

If anyone in the world should be willing to take a chance on a plan which is designed to bring back prosperity, it is the midwestern farmer. He has been buffeted through the economic storm for several years until he is in the position of having little to lose.

It is certain that continued following of past operations can do little or nothing to relieve the farmer's burden. Why not then try something which operates along vastly different lines but which has as its end the advancement of the farm territory?

Washington is waking up to the fact that the prosperity of the rest of the nation depends in large part upon the prosperity of the farmer. It is only reasonable to assume that our government officials are making a serious, honest effort to aid the farmer. Why, then, should any sane farmer hesitate for a moment about getting behind the program?

Stunt Night Show to Be Given Tomorrow

Eighteen organizations have made entries in the "Stunt Night" show which will be presented tomorrow evening at 7:30 o'clock at the Wayne State Teachers college auditorium.

Each organization is supposed to present a "stunt" portraying in some manner the function of that particular group or group.

High School Juniors to Present Class Play

Wayne high school juniors have selected "The Heathers at Home," by William Alden Kimball, for the class play, to be given in December. Miss Leone Westover of the English and Dramatics department has been chosen to direct the play. Tryouts for parts will be held this week.

"The Heathers at Home," is a modern comedy which considers one phase of American domesticity. The playwright gives a truthful, humorous picture of a typical, middle-class family in revolt against its dominating head.

The comedy shows how a reverse in fortunes brings about the liberation of a patient and long-suffering family, and shows the immense possibilities and resources that come to life with the breath of freedom.

Piano Students Give Program at College

Students in the piano department at Wayne State Teachers college gave a program last Thursday evening, under the direction of Prof. Albert G. Carlson.

A piano quartet consisting of Fern Baker, Irma Mayer, Helen Pultz and Zela Verne Mac Dowell played several selections, including "Raymond Overture" by Thomas, at two pianos; Miss Jeanne Wright and Miss Mac Dowell played two solo numbers, "Rolling Fire," a duo for two pianos, was played by Miss Baker and Miss Mac Dowell. "Parade of the Wooden Soldiers," another duo, was played by Miss Mayer and Miss Mac Dowell.

N. R. A. IDEA IS DISCUSSED BY EDUCATOR

and managers lessened, Dr. Hawthorn said, producers will be able to buy more, taking care of over-production. He added, however, that there will have to be a control of production. "We cannot eat all the pork we can produce or wear all the clothing we can make," he said.

"Under the surface," he pointed out, there is a bitter battle with the government, headed by rugged individualists and capital. The United States must show more power than these capitalists. When benevolent despots get control, they usually cease to be benevolent.

In defense of President Roosevelt's "Brain Trust," he said, "The government is at last recognizing that a man who is trained, has spent his life studying economic aspects, is better fitted for service than a man whose sole qualification is that he has made money. A great many men were able to become financial successes prior to 1929, despite many economic mistakes. We hire engineers to build our bridges. We hire skilled specialists to do our surgical work. We hire experts to do everything except govern. The best financial leaders of our country have not proved themselves to be the best men for our government. It is certain that technical experts cannot make any worse condition than the financial experts have created in the past."

He said he believes the ideas behind N.R.A. are sound, and expressed the belief that the N. R. A. program will bring vast benefits to the citizens of the United States.

SCOTT SHOTS by "SCOTTY"

Operative 216 tips me off to a certain local gal, not too old, who is in the habit of indulging in cigars and drinks stronger than 3.2. Operative 216 doesn't mind that—figures its her own business—but he does think she should use more discretion in selecting a place for her pleasures. You see, she's in the habit of drinking and smoking in a restaurant that is a favorite loafing place of her father's—and if her Dad should ever catch her, it would be just too bad. Operative 216 hopes the gal in question will see this—and hereafter be more discreet.

I know it's a fact—that a certain local fellow who is supposed to be fairly well off is wearing pieces of cardboard in the soles of his shoes to keep his feet from coming in street contact with the sidewalks.

You might not believe that a local 17-year old femme is the leading craps-hooter of her set—but it's true, nevertheless. She beats all the boys out of their spending money and is just too lucky for words.

A certain local gentleman who aspires to entrance into the political arena could go a long distance in that semi-profession—because he has enough enemies to advertise him. And advertising, mes antres, will put almost any candidate over the top.

One local who played the stock market, too heavily is about to lose his house as the result of being just a guesser when he thought he was a deducer.

Two local femmes are always talking about their wonderful husbands and the attention which those gens shower upon them. It sets a bad example for the rest of us guys, and we fellows are beginning to suspicion that maybe all the fond words are just so much baloney. When they call you "honey baby darling" in public, its an odds-on bet that they call you a he-devil in the privacy of the Love Nest.

A local gal who is interested in the victories of the Wildcats should know better than to keep a football player out late in the evening, night after night. You can't think about love and blocking at the same time.

She's four or five years older than he, but they get along wonderfully well and go for each other in a big way. They're perfectly oblivious to the laughs of the on-lookers, who really should have something better to do than on-look.

One local fellow who is a wov in a rough and tumble brawl is a big sis in a ring mix. He knows how to play when anything goes, but when it comes to a question of fists and footwork, he passes.

There's not the slightest indication of reform on the part of a certain young girlie who was taken home blotto last Saturday morn-tide. She was in the cups again Monday evening.

Who's afraid of the big, bad brute, taking care of (male specie)? Not a little blonde who is old enough to take care of herself.

Page One-Bye Connelly. A certain local fellow has crashed the gate at all home football games (both high school and collitoh) this season. He not only crashed the gate at one game, but got a few of his friends in with him.

Aid of course, no column would be complete without some mention of the dust storm. It calls for some brilliant comment. However, since every reader of Scott Shots has made some observation or other in regard to the event (which even the old-timers grudgingly admit has seen no equal in this territory) there seems to be little remaining to be said. Your comment's as good as mine and vice versa (only more so).

Hereafter let this be known as The Year of the Big Dust Storm. (Or maybe—and how we all hope so—The Year of the Depression's Ending.)

One of the N.P.s (New Paps) reports a peculiar quirk in his child's mental makeup. His child, he discovers, has a complete misunderstanding of day and night. Daytime for sleeping and night-time for general hell-raising, he sighs, wiping his hands over his sleepy eyes.

He wondered why the local clothing dealer smiled when he said, "I'd like to look at your shorts."

Theory vs. Practice. An old, old argument which can never be settled; fog Theory becomes Practice as soon as it is tried. We all have to admit that the theories of yesterday are the practices of today. Will the theories of today be the practices of tomorrow? Mahatma, bring on the crystal.

'We want to give NRA a fair trial, a lumberman says. 'Every lumberman in the state, I believe, wants to see the plan worked out under the best possible conditions.' And the lumbermen are not alone. As long as NRA is being tried, anyone who wants to hinder it is being nothing short of damphoolish.

Beautiful Sunbeams—contributed to the world by Fred Howard in his Clay County Sun.

The only redeeming feature some men possess is their wife.

Many a man has got himself into a hole by thinking that he has discovered a good opening.

Marriage ties are like garters in that, too tight, they are annoying and too loose they are worthless.

Scolded for not attending church a local real estate man said that if immortality was just a continuation of such things as he had experienced for the past decade he did not hanker for it.

I question if the socialistic ticket would poll more votes in this state today than it did at the last general election, yet we are all throwing our hats in the air and shouting approval of as radical social doctrine as was ever offered a people.

I wonder which is the better friend, the one who forces you to do your best or the one who sympathizes with your weaknesses and condones your failures. I have lost a life long friend recently by making such vigorous protest when he tried to turn yellow in an emergency that he was forced to back into the fight and win it. He will not forgive, but I find myself quite happy in the knowledge that he had in him the ability to fight which I like my friends to have. No one respects a craven, grumbler not a layer-down.

It is said that Mrs. Roosevelt is inclined to give serious thought to a new deal proposition which contemplates having all under 26 years of age support the balance of the world. Again I am pleased to find myself aligned with the first lady—I would go so far as to include in the working class all under 50, in fact all under the age at which I may chance to be when the plan it adopted.

Scout Court of Honor Held Monday Evening

WAYNE WINS SOUTHERN TILT BY 24-0 COUNT

(continued from first page)

28 yards over the goal line. His kick failed.

In the fourth quarter, Wayne took a poor punt on Southern's 45-yard line and returned it to the 22-yard stripe. Dermit went to the 10-yard line and Borden picked up four yards. A penalty for unnecessary roughness put the ball on the 1-2-yard line and Dermit went over through the center of the line. Manning's pass for point was incomplete.

Wayne's punts averaged 39 yards and Southern's averaged 28. Wayne made 11 first downs to 9 for Southern. Wayne completed two passes out of three attempts for 33 yards and Southern completed 5 out of 18 for 97 yards. Wayne intercepted two Southern passes. Wayne made 207 yards from scrimmage to 72 for Southern. Wayne made seven fumbles and Southern made six, with Wayne recovering four and Southern nine. Wayne drew 65 yards in penalties and Southern received 30. Wayne returned Southern punts 95 yards and Southern returned Wayne punts 26 yards.

Gast, Manning, Dermit and Borden showed brilliant coordination in the backfield. Steady, Owens, Beckwith and Cook looked particularly good in the line, with most of the linemen functioning properly most of the time.

Officials: Referee, Rich (Kearney); Umpire, Sisty (Midland); Head linesman, Gibb (Nebraska Wesleyan).

Camel Compels Tribute

From Desert Traveler

Unlovely, striking, ill-natured brutes are camels in the world, and the only one capable of surviving in a wilderness of thorn bush, sand and relentless sun.

You never come to feel the slightest affection for a camel. But after a hard trip through a difficult country, a country that would kill a beautiful horse in a week and a tough mule in two, you are astonished to find your camels thriving, actually putting on flesh on a diet of thorns in heat almost unbearable to a white man.

You watch them curiously at their slow, unburied pace, carrying their 850 pounds, never stumbling, never shying and never showing the slightest need for that precious commodity, water. And at the finish of the trip you feel like taking off your sun helmet every time you meet a camel.—James E. Baumj in Atlantic Monthly.

WHY GET UP NIGHTS?

Make this 25c Test. You need a bladder laxative to drive out impurities and excessive acids that cause irritation, burning and frequent desire. Get a 25c box of BUKETS, the bladder laxative, from any drug store. After four days if you're not relieved of getting up nights go back and get your money. BUKETS, containing buchu leaves, juniper oil, etc., acts on the bladder similar to castor oil on the bowels. If you are bothered with backache, or leg pains arising from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep. "Felder's Pharmacy says BUKETS is a best seller."—adv.

Fine Winter Coats

only
\$18 and \$28

These coats were bought last summer before the advances in labor and material prices. They are priced 25 per cent below the present market. Every week we make sales to customers who have shopped for coats in nearby cities. They tell us we have by far the best values.

\$18.00 and \$28.00 are mighty reasonable prices for real quality coats of all wool winter weight coatings with generous fur trimmings — silk linings and warm interlinings.

We could offer cheaper coats if we would accept light weight materials, cotton mixtures and skimp cut furs but we have always insisted that a winter coat should have warmth, good looking furs and tailoring that would make it keep its shape and style.

Quality Hats

\$1.95 and \$2.95

We specialize in millinery at these two popular prices.

Come and see the perfect styling and excellent quality of these moderately priced hats.

Fashionable Footwear

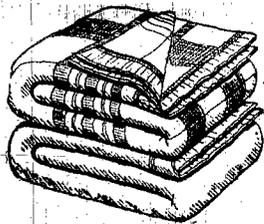

Still Moderately Priced

\$2.95 to \$5.85

Styles that are perfect and plenty of them to choose from in Suedes, Kid or the new tooled effect Calf leathers.

Children's Oxfords \$1.35

Not our finest quality, but a remarkable value in a low priced oxford. Either black or brown. Sizes up to 2. \$1.50 for sizes 2 1-2 to 4.

Blanket Prices

25% Below the Market

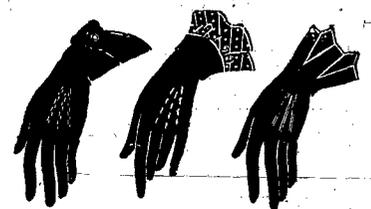

We offer you fine warm part wool blankets in the very largest 72x84 size at this old time price, and other values in both cotton and part wool just as cheap.

80 Smart New DRESSES

priced mostly

\$4.75 to \$10.75

Dresses are one of the few things which show a decided price advance.

It is no longer possible to get good looking silk dresses at \$3.95 to \$6.50. . . . Nothing can be done about it unless the women and girls who used to work at \$2.50 a week in the dress factories are put back to work at these worse than starvation wages. . . . and that is not going to happen.

We find in talking it over with our customers that they don't want it to happen. Every one is satisfied to pay a couple dollars more for their dresses when they understand that these factory women are getting the most of this extra money.

We are keeping our dress stock right up to the minute with fresh new styles. This week we have some very attractive new "Charlotte" and "LeVine" dresses designed for wear on special occasions.
