## County to Get Huge Sum of Farm Money

### Million Dollars to Come Here for Corn and Hog Plan.

Aim of the corn-hog plan soon to be put in effect by the Agricultural Adjustment administration is to restore the farm price of corn and hogs to a point where they will buy as much per bushel or per head as they did during the period from 1909 to 1914. According to Dr. A. G. Black, chief of the corn and hog section, the farm price of hogs since the World War has reached this point in only one marketing year, 1925-1926, and corn prices have reached this same level only in the short corn crop year of 1924.

G. H. Liggett, emergency agricultural administrator for Wayne county, believes that nearly a million dollars of federal money will be put into Wayne county. Mr. Liggett says, "The federal administration contends that adjustment of production to the market that actually exists will bring the only permanent improvement in farm prices. Foreign markets have disappeared. Domestic markets can be improved to some extent by putting men back to work, but American consumers have never eaten up all the American hog crop."

Home slaughtering of hogs will increase materially in Nebraska and other corn belt states this winter, authorities at the Nebraska agricultural college predict. Farmers may kill their own hogs for use of their own families without paying the processing tax, which is to be \$2.00 per hundred pounds by February. Those who cannot do their own butchering may hire it done without paying the tax.

Persons who slaughter hogs and deliver the meat directly to the consumers will pay the required tax to the internal revenue collector within 30 days. After that time, failure to pay the tax puts the person in the same class as the income tax dodger who commits felony punishable by fine and federal imprisonment.

## TREASURY ASKS FOR POST OFFICE SITES

### Seeks Location for Local Federal Building; Sets \$12,000 Limit.

Wayne's long-sought federal post office building seemed to be much nearer reality Monday, when the United States treasury department advertised its intention to purchase or receive the donation of a site for a post office building at Wayne.

Intention of seeking a site at Wayne was published along with similar notice for 77 other cities in the United States. The advertisement specified that the site must be conveniently located and said consideration would be given to both corner and interior lots. The lot or lots selected must have an 80-foot frontage and contain 12,000 square feet. Bids will be received until Dec. 18, and \$12,000 is the maximum amount to be paid.

The treasury department has allocated \$58,500 for the Wayne building. Edgar Howard, congressman from this district, had been in communication with Wayne civic leaders for some time prior to the allocation, and had said that he believed a new post office building was a certainty for Wayne as soon as he could get approval of the Wayne allocation.

## Red Cross Roll Call Closes Next Thursday

Wayne county's Red Cross drive enters its final week today, with Roll Call chairmen and their committees making a final effort to secure members in the organization. Results of the roll call to date are gratifying. Chairman H. R. Best, said yesterday, "Total number of memberships sold in each locality of the county will not be checked until Thanksgiving, when the drive closes."

Wayne high school's debate class students are preparing for a practice tournament which will be held at Norfolk on Thursday, Dec. 7.

## Pete Can "Bring 'Em Back Alive"

Peter Peterson returned Sunday from a five-day hunting trip in the Black Hills near Custer, S. D. Pete took one shot at a buck deer. He admits he aimed at its heart, but the bullet hit the deer in the jaw. Pete told his brother-in-law from Burke, S. D., who accompanied him on the trip, that he had aimed for its eye.

The men dragged the buck to the car. After they had thrown it in the rear compartment, it regained consciousness and tried to show them that a car was not strong enough to hold it.

Pete brought the deer back to Wayne with him Tuesday afternoon. Mr. Peterson was host to his customers, serving venison sandwiches to prove that he can "bring 'em back alive."

## C. W. A. Funds Available for Carroll Spur

### Civil Works Money to Be Used in Construction of Highway.

Frank Erleben, county commissioner, and C. E. Wright returned from Lincoln Monday evening with assurance from Governor Chas. W. Bryan and State Engineer Roy Cochran that work would be started immediately on a three-mile spur from Highway No. 113 north into Carroll.

The men had gone to Lincoln with a delegation from Carroll and Winslow men, to confer with the state officials in the interest of the proposed spur. The road will be financed from C. W. A. funds.

L. C. Gildersleeve was instructed Wednesday night to have 50 men with shovels, 12 men with teams and old-fashioned dump board wagons and two men with plow teams to start work on the Carroll spur this morning. He said late last evening it was doubtful if he could have that many men ready for work before noon today.

Governor Bryan said that if any money remains in the C. W. A. allotment after approved road work has been completed, this spur will be extended to Helden. The governor indicated that he thought this work would be done and said he would do everything within his power to have it done.

With C. W. A. funds available, the Carroll spur will not have to be financed from county funds, as had previously been thought necessary.

## Thanksgiving service to Be at Baptist Church

Annual Union Thanksgiving services will be held at the Wayne Baptist church at 9 a. m. on Thanksgiving day. It was decided at the last meeting of the Wayne Ministerial Union.

Rev. W. C. Heidenreich of St. Paul's Lutheran church will give the Thanksgiving sermon. An offering for local relief will be received. Pastors of members churches of the Ministerial Union are urging a large attendance for the service.

## Local Graduate Nurses Organize Study Club

Graduate nurses in Wayne met on Thursday evening to organize, and elected the following officers: president, Mrs. E. C. Rhodes; vice president, Miss Kathleen McParland; secretary, Mrs. H. A. Bokelmann, and treasurer, Miss Golda Rubbeck. Other members of the organization are Miss Marie Mohr and Miss Sophie Wieland. The organization will meet every two weeks.

## Carl Sund's Car Is Damaged by Flames

A sedan belonging to Carl Sund was almost demolished Saturday night when it caught fire about two miles west of Wakefield. Mr. Sund said the car caught fire after a truck had forced it over the grade and into a bank.

## WRITES FOR PIONEER ARE HELD SATURDAY

### Woman Dies Wednesday at Home Southeast of Wayne.

Funeral services for Mrs. I. O. Richardson, Wayne county pioneer, were held Saturday afternoon, Nov. 18, 1933, from the Beckenhauer chapel with Rev. H. C. Caspey in charge. Interment was in the Wayne cemetery.

Mrs. Richardson passed away at her home southeast of Wayne on Wednesday, Nov. 15.

Sara Lucretia Rogers was born at LaCrosse, Wis., on Jan. 9, 1849. She came to Estherville, Iowa, when a young girl. She was employed for a time in an Estherville printing office and later taught school at Concord, Neb. for a number of years. She was united in marriage to Mr. I. O. Richardson at Wayne on May 26, 1886. The couple took up a homestead southeast of Wayne and endured many hardships and trials of the pioneer settlers.

Mrs. Richardson had been living since the death of her husband and son with a granddaughter, Miss Gladys Richardson, surviving as a sister. Mrs. John Carman of Burbank, Cal., and two stepsons, Claude and Fred Richardson of Ida Grove, Iowa.

## COLLEGE BAND WINS 'STUNT NIGHT' EVENT

### Mochajava Club Places Second in Annual Show.

College band and orchestra, directed by Prof. John R. Keith, secured its second successive victory Friday night in annual Stunt Night competition with 16 other organizations. Mochajava club won second place, then fourth place in many years. Third place went to Nelihar hall, and junior and freshman classes received honorable mention.

Sophomore class sponsored the affair, which was in general charge of LaVerne Larson of Wayne. Eighty-five dollars in paid admissions was taken in, and this sum goes into the student loan fund. Judges for the contest were Mrs. Henry E. Lev, Mrs. Elmer Mortenson and Mrs. S. D. Wolf.

Band and orchestra presented a skit, "Lifted Lyrics", in which they showed how popular tunes were borrowed from the classics. At their fourth Chopin's "Fantasia Impromptu" became "I'm Always Chasing Rainbows." Handel's "Hallelujah Chorus" became "Yes, We Have No Bananas" and Romberg's "Song of Love" was shown to be taken directly from Schubert's "Unfinished Symphony." The group gave popularized mountain songs of the southeast, with a chorus of appropriately dressed people accompanied, with tones secured by blowing into bottles and jugs partly filled with water.

Mochajava's stunt was a tableau of the famous picture, "Readings from Homer." Parts of those in the picture were taken by Harold Lebens of Lindsay, John Drake of Milan, Ohio, Joe Larson of Homes, Mary Kile of (continued on page four)

## COLLEGE TO HAVE ORATORY CONTEST

### Winners to Take Part in State Competition at Doane College.

Wayne State Teachers college is entering the Old Line oratory contest of the State Forensic League, to be held Dec. 8 at Doane college. Cetera, for the first time. The local contest will be held tomorrow afternoon at 3:15 o'clock in the college auditorium.

Four have entered in the men's contest: Cyrus Jones, who will give "Making the Masses Happy"; Ray Madison, who will give "Modern Pirate"; Gail McGee, whose oration will be "The Crisis"; and Edmund Sedivy, who will give "Wrapped in Dynamite."

Entered in the women's contest are: Helen Morris, "Time on Our Hands," Helen Paper, "The New Oath"; and Mildred Scheffers, "The Uncertainty of June."

## Johnson Says Saloon Better Than "Tavern"

### "Pussyfoot" Elays Efforts of Anti-Prohibition Workers.

William E. "Pussyfoot" Johnson talked Tuesday evening at the Wayne Methodist church on "The New Deal in Prohibition."

In a sensational attack on the liquor interests, Mr. Johnson said, "The wets pretend they are opposed to the return of the saloon. They have already brought back the saloon, only they call it a 'tavern.' In the place of the aproned red-nosed bartender they have substituted young girls behind the spigot. But it is the drink that makes the trouble, and not the hand of the girl who pumps it out."

"If we are to return to some form of licensed and protected drink traffic," he said, "give us the old-time saloon, and the dirtier, the saloon the less destructive it will be. There was no hypocrisy about the saloon. The bartender did not pretend that he was running the snakehole in the interest of temperance. It is these pundits down in New York, St. Louis and Milwaukee who propose to launch fool enterprises of that sort."

"This program of government monopoly of the booze business," he charged, "has been chiefly proposed and urged by the brewers themselves for the last 75 years. This thrif of peddling booze for the benefits of the people and for the glory of God produces far worse results than the old-time saloon system."

R. P. Hutton, superintendent of the Nebraska Anti-Saloon League, introduced Mr. Johnson. "To awaken Nebraska voters to the fact that, though U. S. Prohibition is repealed, 32 states still have state prohibition," he said, "and to rouse the drys to repel the drive for state repeal is the purpose of the 'Pussyfoot' Johnson Nebraska tour which started Oct. 23 and is now entering its last week, closing on Sunday, night, Nov. 26. Repeatedly, by show of hands, audiences have disclosed that less than ten per cent of the people know that the last legislature, by passage of S. F. 115, ordered the people of Nebraska to vote on repeal of state prohibition—the question to be on every ballot with the candidates for state officers, voters to vote for or against repeal, the drys of course voting against repeal, at the November election in 1934."

## Wildcats End Season at Peru Friday Night

Coach Ray Hickman's Wayne Wildcats wind up the gridiron season tomorrow night when they meet the Peru Bobcats on the Peru field. Following a week's layoff from competition, the Wildcats should be in good shape to give the top-notch Peru gridders a battle.

Starting the season with poor prospects, the Wayne team has gone through a far better than average season, winning five games, tying one and losing one in seven starts. Chadron State Teachers college is the only team to hold a victory over the locals. Members of the Wildcat squad hope to turn in another victory tomorrow night.

## Dr. Paul Crossland Transferred to Florida

Mrs. Mary K. Crossland received word this week that her son, Dr. Paul Crossland, is to be transferred from San Diego, Calif., where he has been stationed as naval doctor. He will leave Nov. 29 for Washington, D. C., and will go from there to Pensacola, Fla., for hospital work.

Dr. Crossland has had sea duty the past two years, having been aboard the U. S. S. Saratoga and the U. S. S. Wauhinui. Before that time he did hospital work in San Diego. He spent last summer in Alaska.

Mrs. Paul Crossland and infant son William Armand, are visiting here with Mrs. Crossland's parents, Mr. and Mrs. C. W. Hixcox, and will go to Pensacola after Dr. Crossland is established.

## Corn Loan Work Starts Here Soon

G. H. Liggett, emergency agricultural assistant for Wayne county, has received word from the state railway commission that Mr. Keith Reed will act as Mr. Liggett's agent for inspecting bins and cribs, taking samples of the grain and sealing the bins or cribs for government corn loans in Wayne county.

Mr. Reed will have the necessary supplies for carrying on his work within the next few days, Mr. Liggett said Tuesday.

The farmer must properly fill out an application for inspection and sealing. When the application is filled out, Mr. Reed will inspect the grain and seal the bin or crib, and a certificate will then be issued which must accompany the application for a loan as collateral on the loan.

## Goltz Flays Incompetence of Policemen

### Criminal Lawyer Charges 'Moron Officers' Are Cause of Crime.

Carlos W. Goltz, Sioux City criminal lawyer, addressed Wayne Kiwanians Monday noon at Hotel Stratton on the causes and cures of crime.

"Recent rulings in the courts of our nation have been greatly opposed to the reversing of convictions," he said. "This is unfortunate. I say that it is unfortunate, because we are losing many of our democratic ideals and our beliefs in individualism."

"Why are the courts refusing to reverse conviction? Because our judges seem to have taken the power ordinarily assumed only by dictators. A great clamor has arisen in the last few years as the result of continued law violations. The public has blamed that condition on the bar, judges and juries. This propaganda has been swallowed by our jurists," Mr. Goltz continued.

"The fact is," he asserted, "that breaking down of law in America is attributable to incompetent police officers. The trouble has been a failure to apprehend—not a failure to convict. The criticism should be directed against the manner in which criminals are apprehended. We do not need better lawyers, jurists and juries, but better police officers. Nine out of ten criminals who are apprehended with legal evidence are convicted. No Clarence Darrow can secure acquittal for a guilty man when the police officers have secured legal evidence."

"We have in the United States," he charged, "police officers who do (continued on page four)"

## CAST IS NAMED FOR JUNIOR CLASS PLAY

### "Heathers at Home" Being Prepared for Public Presentation.

Rehearsals for "The Heathers at Home," Wayne high school's junior class play, started this week under the direction of Miss Leona Westover. Every member of the junior class will have an active part in the staging of the play. Those not in the cast will serve on stage crew, prop crew or costume crew.

The cast, selected last week, includes Nieva Mitchell, Pauline Yocum, Dorothy Hook, Margaret Jones, Willis Penhollow, Gerald Walling, Bob Cunningham, Paul Young, Frank Gamble, Robert McEachen and Donald Wright.

## County to Get Money for Wheat Contracts

Only \$194 of \$230,421 full payment to farmers in eight Nebraska counties for reducing their wheat acreage will come to Wayne county. Gage county, one of the largest wheat producing counties in Nebraska, will receive \$118,059. Payments already have been received in Gage county.

## C. W. A. Work Commences in This County

### Twenty Men Are Hired as Labor Program Is Instituted.

First benefits of the president's gigantic new Civil Works Administration program were felt here Tuesday when one state engineer ordered the services of ten men and a foreman for work on the highway patrol between Wisner and Laurel and another state engineer asked for nine men to work on the Wayne-Wakefield highway. The engineers said the work will probably last until Feb. 1.

County quotas for the civil works jobs for Nebraska counties were announced Monday by Governor Bryan. The numbers were determined with three-fourths distributed to county populations and one-fourth in relation to relief loads.

Wayne county's quota of men to be put to work on civil works jobs is 180.

All men who are put to work on C. W. A. projects must be taken from the relief rolls of the county. Men will be given 30 hours per week per individual.

L. C. Gildersleeve, local manager of the National Re-employment Service, received a telegram last Thursday which said, in part: "Work to start at once on highway projects under civil works administration. When men are called for these projects you must place them from relief rolls only. This is special ruling which applies only to civil works projects."

Mr. Gildersleeve received the following instructions: "It will be advisable for every community and county to submit a list of proposed C. W. A. projects to their county Civil Work Administrator immediately. We suggest that you meet with your county re-employment committee, relief groups, county commissioners, county engineer, local chamber of commerce, etc., and prepare a list of such projects which might be done to good advantage in your communities. Give a brief description of the work, estimate the number of men the project will use and for how long a time they can be occupied. "Keep in mind that the work done under the C. W. A. is to be of hand labor type with a minimum amount of expenditure for materials. The work is to be of such a nature that it can start at once."

The purpose of the Civil Works Administration is to provide regular work on public works at regular wages for unemployed who are able and willing to work. The board of the Federal Emergency Administration of Public Works has allocated to the Federal Emergency Relief Administration \$400,000,000 for this purpose.

## The Inquiring Reporter

### THIS WEEK'S QUESTION

What do you think of the new Civil Works Administration program?

Laborer: It's the finest thing Roosevelt has tried yet. It is an honest-to-goodness attempt to give the laboring man something to do.

Farmer: It is going to put a lot of men to work, but where is the money coming from?

Merchant: The C. W. A. plan should make a mighty noticeable difference in business. With hundreds of thousands of men put back to work all over the United States, a lot more money will be put into circulation—four hundred million dollars, I understand.

Attorney: We'll have to wait and see how it works out, but the idea sounds fine. The C. W. A. program looks like a sensible method of putting money into circulation.

Educator: The program seems to be highly meritorious. It will improve the physical plants of our municipalities and, at the same time, give the working man a chance to make a living.

## You Want It . . . We Have It . . .

There's no reason why you shouldn't buy.

Maybe you're one of the folks who keep the house warm with a heating stove. You're using the old-fashioned style stove—and you're beginning to wonder if you'll ever be able to keep the house warm when Old Man Winter really gets down to business. You know that it is an eyesore, and you know that it uses more coal than it should.

## If you've seen the Copper-Clad Circulating Heater

you know the answer to your heating problem. You know that it is attractive . . . that it circulates the heat to every part of the home . . . that it is way out ahead in economy . . . that it has features which are years ahead of the average heating stove. With a Copper-Clad, the Big Bad Wolf can huff and puff, but he can't get YOUR house cold.

You know you should have a COPPER-CLAD. All right, WHY NOT GET ONE RIGHT NOW? You really can't afford to wait, when prices on quality merchandise are so low. The stove, right now, is honestly worth more than we ask for it, any way you look at it.

Drop in today and convince yourself that now's the time to buy.

ECONOMIC THANKSGIVING

Long have we shouted for industry. Long have we hoped and prayed for some kind of a boom... anything to furnish employment for every man in Wayne county.

It begins to look as if our hopes are being fulfilled. The United States Treasury department has advertised for bids on a site for a new Wayne post office building.

C. W. A. is in operation. C. W. A. is the Civil Works Administration—a program to furnish employment to anyone who needs it and wants it.

G. H. Leggett, emergency agricultural administrator for Wayne county, believes that Wayne county benefits from the corn-bor plan will amount to nearly one million dollars.

Action is slow on the municipal auditorium, but there is reason to believe that money will be forthcoming for that project in the near future.

ECONOMIC HIGHLIGHTS

Muscle Shoals, fortunately, is not an important spoke in the Roosevelt wheel. It gained an altogether unjustified prominence because it had long been the pet of the Senator Progressives, of whom Nebraska's able, hard-bitten George Norris is the leader.

Mr. Roosevelt put Muscle Shoals to work under government auspices, but that isn't the end of it by a long shot.

Muscle Shoals can't apparently realize the Norris dream of power for next to nothing. First test came the other day in the city of Birmingham.

The fact was produced that the private utility now serving Birmingham buys its power wholesale for a still less than that.

State Says No Work in Sutherland Territory
L. C. Gildersleeve, local secretary of the National Re-employment service, has received word from headquarters at Lincoln to discourage the migration of labor to the Sutherland district.

Business Analyst Sees Upturn in United States
Business statistics of the past week registered the most distinct advance since July, according to figures published by a national business analyst.

Johnson Nominee for Kiwanis Presidency
Nominating committee of the Wayne Kiwanis club reported Monday noon at Hotel Stratton that Dr. J. G. Johnson had been selected as candidate for president of the organization.

High School Pep Club Gives Program Friday
Wayne high school's pep club gave a program in the high school assembly Friday afternoon, with Inez Perry as chairman.

to competition with private industry. They pointed out that the production cost of power, where Muscle Shoals has an advantage over most private plants, is magnificently unimportant.

The NRA has its pioneering work behind it. Now it is gradually developing into a more rational, better organized governmental bureau.

General Johnson always has a lot of fights on his hands. Most recent was with the Federal Reserve Board's Bulletin. It said that late industrial declines have occurred most severely in industries which have been affected by codes.

#### INTRODUCES NEW OIL

Standard Oil company announces two new grades of Iso-Vla "D" motor oil.

The Society of Automotive Engineers made a study of winter oil during the past year and found that most people experienced unnecessary difficulties in starting, because most winter oils were too heavy. They established a classification for two new grades of motor oil to be known as 10-W and 20-W; 20-W to be recommended for all temperatures from freezing to zero and 10-W for temperatures below that.

The two new grades of Iso Vla "D" are the oils developed by Standard Oil company under this new classification—except they have gone even further. The 20-W pours at 5 degrees below zero and the 10-W at 20 degrees below zero. Both grades are said to start to lubricate even on the coldest mornings; the minute the starter on any car is pressed. This new instantaneous lubricating feature is offered as a special inducement.

## Storm Windows

It's not too late to buy storm windows. A few dollars spent for storm sash will be saved on your heating bill. We can give prompt service on your order and the price will be right.

## Storm Door Covers

Our JIFFY storm door covers will keep out the cold this winter. Jiffy covers are made of heavy storm-proof, wind-proof canvas. They tack on any size door.

## Posts and Fence

Use Keystone steel posts and Red Brand fence and you will have a fence that will serve you for years.

## Corn Cribbing

We still have a few slat and wire cribs for \$3.75 and up.

## Coal

Simple arithmetic proves that coal is the most economical fuel.

Thrift Coal - \$8.00 per ton  
Fire Chief - \$10.00 per ton

**Mrs. O. W. Hahn Honored**  
Mrs. O. W. Hahn, recently elected national vice-president of the American Legion Auxiliary, was honored Friday evening when the American Legion and Auxiliary entertained jointly at a dinner party at Hotel Stratton. About 80 attended. Among the out-of-town guests were Harry Kautz, of West Point, Dr. and Mrs. R. B. Gornley of Winfield, Mr. and Mrs. Clyde Krause of Newman Grove, Mrs. Nettie Igo of South Sioux City, Mr. and Mrs. Hugh Drake of Lincoln, Miss Horn and Mrs. Worth of Carroll and Miss Yleen Neely of Winfield. During the meal Prof. P. C. Reed's orchestra furnished music and Miss Barbara Strahan gave two tap dance numbers. On the after-dinner program, short talks were given by Mr. Kautz, third district commander of the Legion; Dr. Gornley, commander of the Winfield post; Mrs. Nell Krause, second district president of the Auxiliary; and Mrs. Nettie Igo, third district president of the Auxiliary. A. L. Swan introduced the men guests, and Mrs. C. A. Orr introduced the women. Mrs. Hahn gave a speech of thanks, discussing her work and also national defense in Russia. A short reception followed her talk, and cards and dancing occupied the remainder of the evening. Arrangements for the affair were made by the executive committee of the Auxiliary: Mesdames C. A. Orr, R. L. Larson, A. L. Swan, W. D. Hall, A. L. Jacobson, Walter Bressler, E. W. Huse and G. A. Renard.

**E. P. W. Guest Tea**  
Members of the Wayne Business and Professional Women's club and their guests, about 75 in all, attended a formal tea between the hours of three and five o'clock Sunday afternoon at the R. J. Kingston home. Miss Genevieve Kingston, Miss Aulda Surber, Miss Logna Westover, Miss Dorothy Clover and Miss Ruth L. Freeman were hostesses. The tea table, covered with a lace cloth, was lit by four tall white tapers in silver candelabra. Yellow tea roses centered the long table on which the tea things were formally arranged with fancy sandwiches and cookies. Yellow and white motifs further carried out the dainty color scheme. Miss Westover and Miss Clover poured the first hour, while Miss Kingston and Miss Surber received guests. The hostesses reversed duties the second hour. Incidental music was furnished by a string quartet with Mrs. John R. Keith at the piano and violins played by Miss Caroline Spangler of Stanton and Miss Helen Kern of Stanton and Miss Louise Heyne of Lyons. The business women's group plans a dinner meeting on December 4 with Miss Pearl E. Sewell, social service chairman, and Miss Ruth Ross, chairman of finance committee, in joint charge of the program.

**READING FUN IN STORE FOR BOYS**  
World adventure thrills are in store for readers of THE AMERICAN BOY—YOUTH'S COMPANION, according to word just received from the editor of youth's favorite magazine. From the Arctic to the jungles of Haiti, and from the plateau of Asia to the lion country of Africa, the editors have charted a course of excitement and fun in the 12 issues of 1934.

Several years ago, THE AMERICAN BOY introduced to its readers the popular, black-haired Jimmie Rhodes, Army aviator. Those who followed his adventure through Brooks and Kelly Field, and with the 94th Pursuit on cross-country hop-target practice, and formation flying, will be delighted to learn that Jimmie Rhodes has returned to the magazine. The new series takes him to Haiti where a revolution is impending.

THE AMERICAN BOY—YOUTH'S COMPANION, filled with the adventure every boy craves, with the information he needs, and the advice on hobbies and sports he is always seeking, is the ideal present for that son, cousin, nephew and chum. It's the kind of present that renew itself every month when the mailman lays a copy on the doorstep. Approved by teachers and educators, and endorsed by high school America, the magazine can solve your Christmas shopping difficulties.

The subscription price is \$2.00 for one year. Until January 1, you may take out a three-year subscription for \$3.00, a saving of \$3.00 over the one-year rate for three years. After January 1, this three-year rate will be withdrawn. Mail your order direct to THE AMERICAN BOY—YOUTH'S COMPANION, 7430 Second Blvd., Detroit, Mich. Service on your subscription will start with the issue you specify.—adv.

Lax the Bladder with Juniper Oil, Buchu, Etc.

Drive out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUKETS, the bladder laxative, also containing Buchu leaves, etc. Works on the bladder similar to castor oil on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights" so back and get your money. If you're bothered with backache or leg pains caused from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep. "Ferber's Pharmacy" says BUKETS is a best seller.—adv.

With the Wayne Churches

Presbyterian Church  
P. A. Davies, Pastor  
Our services for next Sunday are at the following hour: Sunday school, 10 a. m. Morning worship, 11 a. m. C. E. services 6:30 p. m. Church play 1:30 p. m. The young people of Pender are presenting the very interesting five act play, "The Honorable Mrs. Ling." They presented it last Sunday night to a large crowd at Wakefield, and the pastor there informs us that we all should see it. We are sure from what we know of the play as well as from his word that it will be enjoyed from the very beginning. Come early and obtain a good seat. The play comes under the auspices of the High School C. E. and the offering will be shared between the Pender society and our society.

It is needless to say that the pastor enjoyed more than he can say, taking charge of his own services last Sunday. Next Sunday we continue with the same text "Whom Think ye That I Am." Surely we feel that he is not "The man that nobody knows."

Presbytery met with us Tuesday morning were highly appreciated, with us.

The solo by Miss McDonald of our State College and the special anthem by our choir at the service Sunday morning were as highly appreciated.

The Westminster Guild will meet with Mrs. J. Woodward Jones Thursday afternoon at 4:30 o'clock. After the lesson in charge of Miss Mary Ellen Gulliver and Miss Mae Beckenbauer a supper will be served. Those planning to attend are to inform Miss Mary Ellen Gulliver or Mrs. P. A. Davies.

Lost Spud Find May Bring Growers Gold

Early Development of Peach-blow Colorado's Hope.

By C. E. Metzger, Associate Horticulturist, Colorado Agricultural College.

Colorado potato growers may increase their incomes at least \$100,000 yearly within three or four years as the result of the finding and development of an almost extinct strain of potatoes known as dark red Peach-blow or Red McClure.

The lost strain that is believed to have originated 30 years ago was located on the McClure farm at Carbondale, from which it took its name. It was a sport or seedling of the Peachblow potato.

Although this potato was produced in 1908 at a farm near Carbondale, all trace of it disappeared until 1927 when the college in connection with its potato improvement program, collected 250 varieties of potatoes for comparative tests. In this collection was the dark red Peachblow. It had been obtained from a Teller county rancher.

Later the same strain of potatoes, which commands a premium of 10 to 15 cents a 100 pounds on the market because of its attractive color, was found on a farm in El Paso county and a ranch in Teller county.

Farmers' Institutes Are Crowd Bringers in Ohio

Although community funds for farmers' institutes have shrunk from \$38,000 to \$28,000, or 40 per cent, the total attendance or number of persons served has continued to increase, a rise of 14 per cent in the last two years, according to J. P. Schmidt, supervisor of farmers' institutes for the agricultural extension service of the Ohio State university.

Funds, he says, have decreased but requests for help are greatly increasing. Costs averaged about 8.3 cents per person attending in 1931-32, of which the state paid 2.8 cents. The total attendance was 700,995.

Institutes, which are open to any citizen in the community and which have been publicly supported since 1890, were held in all 88 Ohio counties. Wayne county, home of the Ohio agricultural experiment station, had the largest number of institutes and highest attendance in 1932, 16 institutes with a total attendance of 37,760.

Eighty-four per cent of the 89 members of the present regular farmers' institute staff, Schmidt pointed out, are farmers. The average person in this group rates as successful in some farm enterprise, college trained, or a master farmer or master homemaker.

Twenty co-operating state agencies furnish some talent at no cost or for expenses only. Among these are the state department of agriculture, the Ohio agricultural experiment station, farm organizations, state department of education, Ohio Bankers' association, state department of health, Commodity Marketing associations, and the Ohio Council of Churches.

Spray While You Prune

The home fruit grower can do much while he is pruning his trees toward lessening the number of injurious insects he will have to combat during the succeeding growing season, says a writer in the Rural New Yorker. The close inspection of individual trees necessary for this work makes it impractical for the commercial orchardist, but it is a time and labor saver for the home grower with a few trees and little spraying equipment. While pruning keep a sharp lookout for egg masses, larvae and cocoons! Among the many things to look for, the following may be mentioned: The gelatin-like masses of eggs of the tent caterpillar, which are usually placed on small twigs; frothy egg-masses of the tussock-moth; the cocoons of the codling-moth which will be found under the loose bark of the tree trunk; pear psylla, minute insects which often hibernated under the rough bark on the trunks; twig-girdlers may be controlled by burning all twigs found on the ground.

Home-Made Brush Burner

A homemade brush burner, which will burn orchard prunings as fast as three men can pile them in, solves one common orchard problem for Clifton and Everett Derby of North Leominster, Mass. The burner is merely a large box, 10 feet by 6 feet by 3 feet deep, made of scrap iron, salvaged from old iron drums and sheet roofing, the pieces fastened together with stove bolts. Ventilation, which was found necessary to keep the brush burning, was provided by chipping a few holes in the sides with an ax. The box is mounted on skids and is pulled through the orchard at the end of the pruning season by a tractor or team, while men pick up the pruned branches from under the trees and pile them by the box.

# THE RED CROSS HELPS

THE American Red Cross is probably the most practical organization in the world. It comes to the rescue quickly and efficiently in times of flood, famine, earthquake or any other disaster. The most important word in that last sentence is "efficiently." It's easy to be quick and willing, but it's a mighty hard thing to be efficient.

Here is an example of its every day efficiency. Tons of Red Cross flour have been released to welfare agencies over the length and breadth of the land. Thousands of cases of evaporated milk are being distributed to relief clients. How can these two important foods—the flour and the milk—be brought together in nourishing, appetizing dishes? The Baltimore Red Cross Chapter decided to furnish the answer to this question, and the result was a compact, practical booklet from which we are quoting the following:

**What is Evaporated Milk?**

"Evaporated milk is pure, whole cows' milk with half the water taken out, and nothing added. Just as it comes from the can, it's twice as rich as the milk the cow gave.

"For drinking, mix evaporated milk with an equal amount of water, and serve (hot or cold) plain, or with a dash of nutmeg, cinnamon, or salt. It makes smooth, delicious fruit drinks, too.

"For sour milk, add one tablespoon of vinegar to half a cup

of evaporated milk, mixed with the same amount of water. For sour cream use one tablespoon of vinegar to a cup of the milk as it comes from the can. In baking use one-half teaspoon of soda for every cup of sour milk or cream.

**For All Cooking**

"Wherever milk is needed, evaporated milk gives foods the finest flavor and texture. Use it as it pours from the can, in coffee for adults, in soups, in custards to save eggs, in sauces to save butter, and on cereals.

"Mix it with an equal amount of water to cook cereals, to cream vegetables, fish or meat, and to prepare puddings and other desserts. Instead of water, you can often add the liquid from cooked or canned vegetables, fruits, fish or meat.

"And certainly for baking, evaporated milk is the right choice. With it, all the good old recipes: from bread to cake, are more nourishing, taste better, and stay fresh longer. The flour gives food to keep our bodies warm and to make them go. The milk gives building material for bones, teeth and muscle, and vitamins that protect our health."

**Tested Recipes**

The booklet does not stop there with its practicality, but goes on to give eighteen tested, low cost recipes for baked things in which evaporated milk is used. And all of the recipes were required to pass rigid taste and appearance

tests, too, before they were included.

These recipes are for making biscuit, griddle cakes, plain muffins, bread, oatmeal bread, hot apple dumplings, sauce for hot apple dumplings, cream cake, cottage pudding, vanilla sauce, gingerbread, plain cake, pie crust, soft ginger cookies, oatmeal cookies, peanut cookies, chocolate blanc mange and cream filling for pie.

We have not space to quote all of these recipes, but here is a sample to show what they are like:

**Pie Crust**

4 cups flour  
2 teaspoons salt  
1 cup fat  
1/3 cup evaporated milk  
and  
1/3 cup water, mixed

All ingredients should be sifted flour, then mix with salt. Work fast quickly. Flour, the pastry will be flatter if fat and flour are not too thoroughly blended. Add liquid all at once, and stir with a fork quickly but thoroughly. Put the flour mixture in one flour sifter, sifter here, hand there, other. Add only sufficient liquid milk to make dough soft enough to roll out. Yield: four crusts, or two double crust pies.

A copy of this booklet can be obtained by writing to the Evaporated Milk Association in care, which collaborates in preparation.
