## Reed, Berry Named Corn Loan Officials

Only Ear Corn In Cribs To Be Eligible For Federal Federal Money.

Keith Reed and Albert Berry have been appointed Wayne county inspec-tors for corn loans, according to an-nouncement made Monday by G. H. Liggett, emergency agricultural as-

sistant.

Mr. Reed and Mr. Berry have application blanks for corn loans and cargive added information. They will be supplied with information about new

cation blanks for corn loans and can give added information. They will be supplied with information about new developments from time to time. Mr. Liggett also has a copy of the application blank in his office at Wayne and will be glad to answer questions for farmers who want to know more about getting the loans.

Information reaching the state railway commission indicates that only ear corn in cribs will be eligible for the 45-cent loan offered by the commodity credit corporation of the federal government.

The first step in obtaining the 45-cent loan is to have the crib inspected, sealed and certified by Mr. Reed or Mr. Berry under the provision of the Nebraska warehousing law.

The corn must grade No. 4 or better. The crib must have a tight roof and floor and be in sound condition. The loans are open until March 1, 1934, and due Aug. 1, 1934. The corn loan contracts are said to contain provisions so a farmer will not have to have his corn-hog adjustment contract signed before he gets the corn loan. He does agree, however, to enter into the corni-hóg adjustment contract. Corn growers who buy corn to feed and want to borrow on it must have paid other corn producers 45 cents per bushel or more for it, and must get the sellen of the corn toagree to sign up the corn-hog adjustment contract.

A. A. conference games this seeson. The Wildcats won four-non-conference games.

Both Wayne and Peru played great defensive games in the first half, with Wayne gaining 34 yards from scrimmage and Peru gaining 33 yards. In the second half, Wayne put Peru at a disadvantage, with Gast punting out of bounds inside the ten-yard line on several occasions. Wayne got the ball on the 40-yard line and Evans made two first downs in succession, putting the ball in scoring position. Manning crossed overinto the end zone on a double reverse play. Gast's kick for point was good. Early in the fourth quarter, Manning passed to Gast from the Peru 40-yard line and Gast was stopped on the 20-yard stripe. On the next play, Gast went for a touchdown. His kick for point was good.

With four minutes left in the game, a Peru pass netted a touchdown on a freak play. Brandt attempted to intercept the pass and the ball slipped through his hands, going to a Peru end. Peru's kick for point was good. With the game nearly over, a 50-yard Feru pass netted another touchdown, and again the Bobcats made good on the kick for point.

A master code of fair competition for the marketing divisions of the poultry industry is being discussed by officials of the Agricultural Adjustment administration. The code is designed to remove some of the unfair practices and wastes in marketing poultry and eggs, and to increase returns to producers. Reduction or elimination of some handling charges through improved marketing methods, and increases in consumption of eggs and poultry through sumption of eggs and poultry through progessively rising standards of quality are other aims of the code.

## Government Tells How To Borrow Corn Money

Explanation of how Nebraska farmers can crib their corn under the government, 20 per cent reduction plan and borrow 45 cents a bushel on it instead of selling on a present market of around 25 cents, is outlined in a statement issued Saturday, which says in part:

"At this time every farmer, who

"In case he has to build a crib, the cost of building same would have to come off the 45 cents a bushel, but he would own his crib.

"In order to get this money the farmer has to agree to cut his acreage on corn 20 per cent, but the government will pay him for doing this a good rent for his land while it is idle. At the, same time, if he raises pigs for sale, he has to cut the amount of those 25 per cent, but the government also pays him for doing this."
