

League Ass'n Secretary Speaks

Mrs. L. Allen Beck Discusses Peace Principles

A group of community leaders listened for an hour, then issued pertinent questions for another hour which the speaker, Mrs. L. Allen Beck, of Denver, Colo., secretary of the League of Nations association, answered to the satisfaction of her audience.

Mrs. Beck was sent to Geneva by the Carnegie endowment and was assigned particularly to the international labor office. She has been a teacher in Denver university and the University of Colorado.

Opening her address with the statement "I am one of those persons in the world who believe something can be done about war" Mrs. Beck proceeded to interpret the influence of world trade as related to world peace. The world is trading back and forth in almost every commodity of every day life. Peoples problems the world over are the same. The world is at unrest because people are getting those services and commodities needed for contentment. Pacifism is not enough to stop war. Elimination of war is an individual responsibility. The real road to peace and better international relationships is through the avenues of trade. Our 16 reciprocal trade agreements are strong bonds of understanding and friendliness. We must take an intelligent approach to these agreements.

These convictions were elaborated upon and an attentive audience received not only an authoritative array of constructive peace principles but they came from a lady who is also a mother of a son and to whom war is a vital reality.

It is the business of every person in every land to eliminate war, Mrs. Beck concluded.

Adolf Heseemann Dies Tuesday

Funeral Services Will Be Held Friday from Theophilus Church

Mr. Adolf Heseemann of near Wayne died at a local hospital Tuesday evening of pneumonia and complications. He was 47 years old.

Funeral services will be conducted Friday afternoon at 2 o'clock from the Theophilus church southwest of Wayne with the Rev. A. A. Hofeler in charge. Burial will be at the church cemetery there.

Henry Fredrich Adolf Heseemann was born April 19, 1890, in Gasconade county, Missouri. He was baptized and confirmed at the Evangelical St. James church at Drake, Mo., by the Rev. George Schultz, Sr.

Tietgen Hatchery to Have Formal Opening Saturday

The Tietgen hatchery which is located in the old creamery building will hold its formal opening Saturday. Mr. and Mrs. Chris Tietgen, owners and managers, need no introduction to Wayne and surrounding territory as they have been associated with the hatchery business for the past seven years.

Hatching of eggs has begun in the two all-electric buckeye incubators. The incubators have separate hatchers and have a total capacity of 33,000 eggs. The hatchery also handles all kinds of feeds and poultry equipment.

Wildcats Defeat "U" B 46-39

Lingenfelter and Retzlaff Lead Scoring in Friday's Game

Wayne college Wildcats husked the Nebraska B Nubbins Friday night in a fast game at the college gym. The game ended with Wayne leading 46 to 39.

During the opening minutes of play the score seasawed back and forth after the Nubbins made the first point on a free throw. Cunningham scored a field goal shortly after and then the teams took turns, sinking two-point counters for several minutes. The Wayne boys suddenly got hot and hit the loop for counters four times in a row. The half ended with Wayne in the lead 12 to 10.

Wayne got the first goal in the second half but by clever passing and close guarding the Nebraska B team gained rapidly on the Wildcats until the score stood 33 to 32 in favor of Wayne. Calvert went in for Wayne at about this point and immediately made two points which seemed to be the spur the Wildcats needed and from then on out they were never in danger.

Lingenfelter and Retzlaff led the Wayne scoring with 13 points. Marshall made nine, Cunningham eight, Bradford one, and Calvert two. Hulburt, Nebraska B guard, got 13 points and Campbell another guard for the Nubbins garnered eight points.

Wayne college Prep and Lyons High School team played a thrilling opener that same evening, Lyons winning in the last minutes of play, 24 to 23.

The third game that evening between the Platte Center town team and the college B team was won by the Junior Wildcats.

City Directory Well Received

16 Boy Scouts of Troop 175 Deliver Free Directory Saturday

Sixteen Boy Scouts delivered approximately 700 city directories in the residential section Saturday morning. It took the scouts just two hours to complete the distribution. The boys displayed the eagerness, efficiency and courtesy characteristic of the organization, and they thoroughly enjoyed handing housewives Wayne's first city directory.

The Nebraska Democrat office distributed 150 directories in the business district of Wayne and mailed copies to chambers of commerce in this area.

It was the purpose of the publishers to place a directory free in every Wayne business house and residential home. There are still a few directories left and family heads who did not receive one may do so by calling at the Democrat office.

Several persons have expressed a desire to secure a few copies to mail to friends. There is a limited supply for this purpose and they will be available in a day or two. It will be necessary to make a small charge for the directories.

The directory was well received. Many people, representing practically every phase of the community have called the Democrat office or mentioned the utility.

Outlines Truck Tonnage Law

New Ruling Regarding Farm Local Trucking Explained

In the new ruling regarding farm and local trucking, the opinion of state attorney general as sent out by the motor vehicle department has been received by the county treasurer's office.

The opinion is as follows: "Under the present law each truck owner must obtain and pay for a license upon the basis of the 'carrying capacity' of the particular vehicle for which he seeks registration. The burden is upon him to specify the 'carrying capacity' of his truck when applying for a license. He knows the type and amount of the load which he expects to haul. If he applies for and obtains a one and one-half ton license, he will be operating illegally if and when he undertakes to carry a load of more than one and one-half tons.

It is, therefore, our opinion that fees charged for the registration of farm and local trucks must not be less than the amount required when computed on the basis of the 'manufacturer's rated capacity' of the particular truck; but, if the applicant for registration expects to haul a greater load than the amount of the 'manufacturer's rated capacity' he must pay fees for registration of such truck upon the basis of the maximum load that he expects to haul, and his registration certificate should specify the tonnage for which he has paid."

Dormitory Corporation Elects Officers

Officers of the Wayne State Teachers college dormitory corporation were elected at its meeting last Wednesday. James E. Brittain was named president. Rollie W. Ley is vice-president, and Leonard F. Good was elected secretary-treasurer. Other members of the corporation are John T. Bressler, Jr., and Fred S. Berry. They will act as directors and trustees of the corporation. As a corporation they will borrow money for the construction of the new men's dormitory from the Board of Education Lands and Funds and supervise the construction of the new hall.

Adopts License Resolution

Council Makes Ruling Regarding Issuance of Liquor Licenses

A resolution regarding the issuance of license for the sale of beer and liquor was adopted at the meeting of the city council last Tuesday. Walter S. Bressler, city clerk, was instructed to send a copy of the resolution to the state liquor commission at Lincoln.

The resolution is as follows: "Resolved: that there shall be no more than nine off sale or nine on sale licenses for beer granted within the city limits.

"Resolved: that it be recommended to the Nebraska State Liquor commission that no more than three licenses be issued for sale of liquor by the package within the city limits. Routine business was transacted and bills allowed.

Which Party Is Trivial If the Program Works

A charming lady once wrote President Roosevelt: "I believe in you and in what you are trying to do for the nation. I do wish I could vote for you, but, you see, my parents were Republicans, and I was brought up as a Republican, and so I have to vote for your opponent."

A similar process of reasoning is observable every now and then when legislative measures benefiting farmers is being considered. Some long drawn out speeches are made by senators and representatives which simmer down to, "I believe in the proposed measure, but I am a republican, and I was elected the republican ticket and I therefore have to be against it."

The president's reply to the lady was, "My father and grandfather were Democrats, and I was brought up as a Democrat, but in 1904, when I cast my first vote for president, I voted for the Republican candidate, Theodore Roosevelt, because I thought he was a better Democrat than the Democratic candidate."

One often hears the remark today that among the rank and file of people, there isn't such a thing as a genuine democrat or republican. Perhaps this statement is overdrawn but it is encouraging to note a tendency among most people to slough off many old prejudices. Which party, is trivial if the program works for the bulk of the people.

Speaking for F. D. R.

It has been a strange thing throughout the present regime in Washington that so many so called close advisers of the president felt they were called upon to interpret him to the people. For if there ever has been a man in the White House who could speak for himself, Franklin D. Roosevelt could and still can. When he is silent it is because he wishes to say nothing. On occasions he has been both articulate and eloquent. Besides, he has indicated somewhat emphatically that he owns a fluency far above the average.

The announcement from Washington that Mr. Roosevelt has cracked down on some persons who have been writing as "the president's closest advisers" probably means that some of the boys who also were articulate and fluent went a little too far in attempting to interpret the official mind in this, the second administration. That too, is understandable. The old saying about giving one enough rope still is good.

Well, well, well, and alackaday! That it should have come to this must be painful to those

SOS From Inside Ship's Boiler Saves Life of Doomed Seaman

On the receiving end of the crack down process, but, perhaps, it may be a relief to the man who prefers to interpret himself and to a vast majority of the American people who would rather have him do that. Mr. Roosevelt never lacked an audience when he gave the country one of his fireside chats. —Sioux City Journal.

Democrat Press Conferences

David Lawrence, recently published a rather elaborate criticism of the White House press conferences, coming to the conclusion that it would be better if, instead of the face-to-face exchange of queries and replies, written questions should be submitted to the president some hours in advance in order that he might have time to consider his responses.

We had that system under part of the Harding regime and all through the Coolidge and Hoover terms. It was most unsatisfactory from the standpoint of the correspondents, for the president uniformly disregarded such questions as he did not wish to discuss, and the newspapers made their own deductions as to his reasons for ignoring unwelcome queries. Mr. Lawrence suggests that this could be taken care of by voluntary abstention by the press from giving any publicity to the failure of the president to make reply. It seems to me that this would give an unfair advantage to the chief executive, even if the press which has no individual or committee to make rules for it would go along.

Certainly the present process accords more with the spirit of popular government than the more formal written system. The very informality of these bi-weekly gatherings is an advantage. If a question comes up that the president does not want to discuss, he frankly says so and that, is all there is to it. Sometimes when the question is in relation to a policy, he explains that the matter is just being explored and is therefore not ripe for discussion. But generally he gives the group the background of the situation "off the record," and I do not think that there has ever been an intentional disregard of the limitation. After all, there are few state secrets and when and if there are any, the president is wise enough and nimble-witted enough to avoid any comment that would jeopardize any national interest. Actually, I believe that if the matter were left to the correspondents themselves, the vote would be practically unanimous in retaining the present system. By Charles Michelson.

Water was now coming in so fast that it was up to Elwood's waist as he started back, wading and feeling with his feet for the hammer. He could not see much below the surface with his light because of the reflections on the rushing water. He continued his blind search, but fast losing hope as the flood rose about him. Finally by luck he noticed that if he held his flashlight at a certain angle, he could distinguish objects on the bottom of the tank. Soon he saw the hammer, and by a series of plunges he managed to grab it and bring it up. He fell to beating with it on the sides of the boiler. "Water was up to my armpits when a fireman heard my pounding and opened the manhole," Elwood said. "A few minutes more and I would have been drowned. For one thing, my flashlight had not worked—if just one of those batteries hadn't been fresh when I put them in—I would not have had those extra minutes. It's just a case of a little common sense and a lot of luck." Elwood has worked on world-cruise ships almost exclusively for the last thirteen years. In that time he has been in the ports of practically every country in the world.

40,000 Hogs on Farms in Wayne County Now

Pig Numbers Are One-Third of Normal in Nebraska

Hog numbers in Nebraska are about one-third of normal at the present time, Arthur G. George, extension economist at the Nebraska college of agriculture said this week in reviewing the live stock situation in the state. Income from this source will of necessity be curtailed for a few years. George's statement tallies with that in Wayne county. Here there are about 40,000 hogs. In normal years there were 120,000 hogs.

Present indications are that Nebraska's spring pig crop in 1938 will be about the same as in 1937 with probably a considerable increase in the eastern and northeastern counties and a decrease in other sections outside of some local areas where feed supplies may be rather plentiful. In Wayne county, indications are that spring farrowing numbers will be greater than in 1937.

For the country as a whole, indications are that the 1938 spring

pig crop will be larger than for 1937. Present figures would indicate about a 5 per cent increase. It is probable that there will be a slight increase in hog prices within the next few months due to the seasonal reduction in hogs going to market for the rest of the winter and early spring and because of small storage holdings of pork and lard. Next summer there will probably be an increased supply of hogs for slaughter over the number slaughtered in 1937. This situation will probably cause a lower price level at that time than the one prevailing in corresponding months of a year earlier.

1-MINUTE SAFETY TALKS

By Don Herold

Broken Glass and Dented Fenders

Here are some tip-bit items in regard to automobile accidents which I have picked up here and there.
The Soviet Government recently executed a hit-and-run driver by the firing squad method.
Well, why not? Murder is murder whether you commit it with a six-shooter revolver or a six-cylinder motor car.
Not long ago, in a Midwestern traffic court, a driver who had been involved in an automobile accident was brought before a judge. It developed that he had been drinking that he had a glass eye and that his car had little or no braking power.
And I suppose he had one arm around a girl.
Warning horns are forbidden in Berlin; consequently drivers must keep a sharp lookout; the pedestrian death rate has been considerably reduced.
The horn-driver is still a menace in America.
A coupe going 60 miles an hour can turn over a 10-ton truck.
The steering wheel probably goes through your chest.
Want to try it?
More than 100,000 accidents a year are directly charged to drivers asleep.
About 60 per cent of the "autooids" occur at night according to the Travelers Insurance Company, when there is only 25 per cent of the traffic on the roads.
When it's dark, crawl, brother, crawl, brother, crawl.

To a Little Boy

We're not guessing who you are talking to...it might be Daddy...or one of your playmates. The thing that interests us is that you are learning how to use the telephone...and how to get enjoyment out of it.

Right now you're not concerned much about telephone service...or what it costs. Daddy and Mother—to have a telephone. But maybe they wouldn't have a telephone if it wasn't so dependable and useful...and if the charges were not so low that it gives your family so much more than it costs.

We're pretty sure you are always going to have a telephone because we are keeping on making service more accurate, more dependable, broader and more complete.

In spite of increasing taxes, wages and other expenses we are continuing to give our customers more and more service at the lowest practicable charges.

Avenging Wrongs
It costs more to avenge wrongs than to bear them.

WORKS IN 2 WAYS ON DISCOMFORT OF COLDS

1. Take 2 BAYER ASPIRIN tablets and drink a full glass of water. Repeat treatment in 2 hours.

2. If throat is sore from the cold, crush and stir 3 BAYER ASPIRIN tablets in 1/2 glass of water. Gargle twice. This eases throat rawness and soreness almost instantly.

All it usually costs to relieve the misery of a cold today—is 3¢ to 5¢—relief for the period of your cold 15¢ to 25¢. Hence no family need neglect even minor head colds.

Here is what to do: Take two BAYER tablets when you feel a cold coming on—with a full glass of water. Then repeat, if necessary, according to directions in each package. Relief comes rapidly.

The Bayer method of relieving colds is the way many doctors approve. You take Bayer Aspirin for relief—then if you are not improved promptly, you call the family doctor.

"Death in Two Tanks"
By FLOYD GIBBONS
Famous Headline Hunter

HELLO EVERYBODY.
Well, sir, we have Bill Schulz with us today—Bill Schulz of Woodside. We're glad to have him here—and Bill is a doggoned sight gladder than we are, even. Because if Bill were not here he'd be pushing up the daisies in a nice quiet place full of tombstones. That can be said of most any of us adventurers, of course, but it's particularly true of Bill.

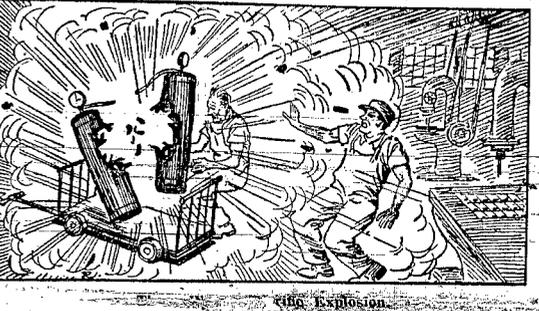

Bill was working in a garage, and it was the fall of 1918. The garage was in Fifty-fourth street between Sixth and Seventh avenues. It isn't there now—unless they rebuilt it. And Bill Schulz is lucky that they didn't have to do some rebuilding work on him.

It was a good-sized garage—that place Bill worked in. They did a lot of major repair work, and as a consequence there was a lot of machinery around the place. On the morning that this adventure happened Bill was fixing up a wrecked car that had a badly bent frame. A crew of welders had come in from outside to help him, and they had brought their own apparatus, consisting of a hand truck on which were mounted two tanks.

One of those tanks contained oxygen—the other acetylene gas. The welders did some work on the bent frame, and went off to take care of another job, leaving their apparatus behind. And just about the time they left Frank Lawter came into the room where Bill was working.

Deadly Mixture of Gases.
Frank Lawter was a battery repairman at the garage. He had run short of acetylene—which he used to burn out the pitch in storage batteries—and he came in to see if he could get a little out of the tank the welders had left behind them. Bill was busy, so he told Frank to help himself.

Frank went out and got an empty oxygen tank, in which he intended to get the acetylene. At least Frank THOUGHT that oxygen tank was empty, and if such were the case, everything would have been all right.

The Explosion

But the fact was that the tank was a brand new one—fully charged with oxygen. Frank had got hold of the wrong tank.

Standing about eight feet away from where Bill was working, Frank started to couple the two tanks together with a piece of copper tubing. He asked Bill for a wrench to fasten the couplings, and Bill, still busy, told him where he could find one. Then, after fastening the couplings up tight, he turned on the valves of both tanks.

Well, sir, oxygen and acetylene, alone in their respective tanks, are a fairly respectable pair of gases. But mixed together they form one of the most inflammable and explosive compounds that you will find anywhere. And they were sure being mixed up in that hookup of tanks that Frank had arranged.

The tank valves hadn't been open more than ten seconds when Bill Schulz smelled gas. Then he looked over and saw what Frank was doing. Immediately he caught the situation and shouted to Frank to get away from those tanks before they blew. At the same time he dropped his work, sprang to his feet, and took one step forward.

There Was a Terrific Explosion.
What Bill had intended to do was to grab Frank and drag him away bodily from the danger area. But it was too late. He took just one step forward—and there was a terrific explosion!

All the thunder in the world seemed to come together in one great, resounding roar. The ground shook—the building rocked and swayed. The garage roof lifted completely off its steel girder beams, and the walls cracked and tumbled in.

Bill was picked up by the force of the explosion and catapulted across the floor. For thirty-two feet he flew through the air. Then he landed—hard—but on something that was soft—a pile of cotton waste stacked in one corner of the garage. He sat there in a daze for a minute, wondering if he had been hurt. He didn't feel any pain. HE DIDN'T FEEL ANYTHING!

That's what frightened Bill. There wasn't a bit of sensation in his whole body—had there been he would have known that he was alive and had a chance to recover. But this business of having no feelings at all—it was just too much like being dead.

Bill sat there for a minute. Then he began to lose consciousness. Dying? Bill was very much afraid so. And that was the last he knew for a while.

Thought His Arms Were Gone.
Meanwhile the whole neighborhood had felt the force of the explosion. Windows were shattered for a mile around. Fire apparatus—emergency patrol cars—ambulances, came flying to the spot from all directions. They put Bill in one of the ambulances and carried him off to the hospital. Poor Frank Lawter went off to the morgue. He had been killed instantly.

When Bill regained consciousness he felt numb all over. "Where are my arms?" he asked the ambulance doctor who was working over him. For it felt to him as if his arms—both of them—were gone. It was a long time before he would believe the doctor when he told him that his arms were there all right—that he was only suffering from shock.

Bill is just as sound as ever now, after a month in bed—and his only regret is that he couldn't have saved Frank Lawter.

LITTLE STORIES FOR BEDTIME
by Thornton W. Burgess

LUCKY PETER RABBIT

SOME folks seem to have been born lucky; some seem to have been born unlucky, and some are so lucky part of the time and so unlucky the rest of the time that it is sometimes quite hard to say which they are. Peter Rabbit is that kind. He is dreadfully unlucky in getting into all kinds of scrapes and then wonderfully lucky in getting out of them again. Now with most people there isn't any such thing as luck. No, sir, there isn't.

When the winter has been very long and cold and hard and food

"Why!" exclaimed Peter, "It Sounds Just Like the Humming of Busy Bee."

has been very scarce. Striped Chipmunk doesn't mind. He comes out in the spring as saucy and pert as ever. He has had plenty to eat all winter and it always makes him smile when some of his neighbors tell him that he was lucky. He knows better. There was no luck about it. He worked hard, ever so hard, to store away that food and make sure that he had plenty. Many and many a time the little people of the Green Meadows have thought that Reddy Fox would surely be caught by Bowser the Hound and when Reddy has escaped they have said that he was lucky. Nothing of the kind! Reddy had just used his wits and fooled Bowser the Hound.

So there isn't nearly so much luck in this world as some people think. Most of what people call good luck is nothing but the result of hard work or smart wits or both; and most of what people call bad luck is nothing but the result of carelessness or laziness or stupidity. But sometimes it seems as if there is such a thing as real luck. It was that way with Peter Rabbit when he tried to follow Busy Bee to her storehouse in the Green Forest. He saw her start from the sweet clover patch out on

the Green Meadows. She went up until she was only a tiny speck and then she started in a straight line for the Green Forest, and Peter started after her. But he hadn't made three jumps before he found that he must look where he was going, and he couldn't do that and look up in the sky at the same time. And so, of course, he lost sight of Busy Bee.

"Anyway," said Peter to himself, "she flew in this direction and there is no place for a storehouse until she reaches the Green Forest, so if I keep right on going I may find the place if I keep my eyes open when I reach the Green Forest."

So, though Peter was disappointed at losing sight of Busy Bee so soon, he didn't let a little thing like that bother him much. It isn't Peter's way. "It can't be helped and so I'll make the best of it," said Peter, which was quite like Peter and a very wise way of looking at the matter.

Now, though Peter fully intended to go just as straight to the Green Forest as a straight line could be made, he didn't. You see, it isn't Peter's way to travel very far in a straight line. He takes advantage of every little bit of tall grass and every bush to hide. And so he runs a "little way to this side and then a little way to the other side, and never very far in a straight line. It was just that way this time, and so when at last he reached the Green Forest it wasn't at all where Busy Bee, flying in a straight line, had entered it. But Peter didn't know this and he went on eagerly looking up in the tree-tops for a glimpse of Busy Bee and never getting it.

So Peter went deeper and deeper into the Green Forest and he wandered this way and he wandered that way. Finally Peter stopped at the foot of a big tree to rest. He had given up all hope of finding the storehouse of Busy Bee and he was tired and disappointed. He sat there for a long time thinking it all over. By and by he became aware of a humming sound. At first he didn't think much about it, but after a while he began to wonder what it was and where it came from. Then he noticed that when his ear was close to the tree it sounded louder.

"Why," exclaimed Peter with the most surprised look on his face, "it sounds just like the humming of Busy Bee and I believe it comes from inside this very tree!"

He looked up. There, way up near the top, was a little hole and in and out of it were coming and going all of Busy Bee's relatives. Peter had found Busy Bee's storehouse. Lucky Peter Rabbit!

HOW to SEW By RUTH WYETH SPEARS

An Interesting Border for a Braided Rag Rug.

The center oval part of this serviceable braided rag rug is 32 inches long and 16 inches wide with 8-inch scroll border all around. The scrolls are made in pairs from braided strips 2 3/4 yards long. These strips are braided tight so they are not more than 1/2 inch wide. The center of each strip is marked as shown here at A and the ends are then sewn around and around, working toward the center as at B. The pairs of scrolls are sewn together and also to the edge of the rug as indicated here at the lower right.

This kind of rug has infinite possibilities for color schemes. One seen had a blue center, a band of mixed color and then a wide band of red. The pairs of scrolls alternated red and blue.

Full instructions for making the chair seat covers shown in this sketch are in the book offered herewith.

Every homemaker should have a copy of Mrs. Spears' new book SEWING.—Forty-eight pages of step-by-step directions for making slipcovers and dressing tables; curtains for every type of room;

lampshades, rugs, ottomans and other useful articles for the home. Readers wishing a copy should send name and address, enclosing 25 cents (coins preferred) to Mrs. Spears, 210 South Desplaines St., Chicago.

Dead Ball May Help Restore Base Stealing

By GEORGE A. BARCLAY

BASE stealing may be rescued from the limbo of lost arts as a result of the decision of the National League to reintroduce a dead ball into the 1933 pennant race.

In the old days of Ty Cobb, Max Carey, Willie Collins, Clyde Sauer, Jack Miller, George Burns and that generation of players in the big leagues, the man who could steal a base was a big asset to his club.

Rogers Hornsby

Follow him and get himself from first to second on a bunting position, was valuable baseball property.

Pitcher Has Edge

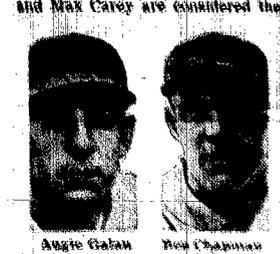

The figures support Hornsby's contention that it's easier to steal today. In the American league last year 500 bases were stolen against 371 attempts that failed.

With the dead ball in use in the National league, the pitcher will once more have the edge over the batter.

A glance at the records shows how base stealing has declined to a place of comparative unimportance in recent years.

1937 Champs Poor

Last year when the Philadelphia Athletics led both leagues in base stealing with 85 only two men, Ben Chapman and Bill Werber, stole more than 25 bases in the National league.

Augie Galan Ben Chapman

great base stealers in all time. Carey, while stealing 31 bases in 1916, was thrown out nine times.

Tunny Optimistic

GENE TUNNEY, who with Jack Dempsey was a part of the greatest fight of the century, has a prediction for the next few years.

Gene Tunney Jack Dempsey

has found himself attending more and more fights in the past year.

Tunney, who will be 40 in May, is not much heavier than the day he retired from the ring as the undefeated heavyweight champion of the world.

He is getting rather expert at sparring and may enter one of the national tournaments.

What's Going Now?

WHEN Donald Hudge, the red-topped titan of tennis, began his recent Australian tour there was much shaking of heads among wisecracking Indian game.

The thoughts of the United States Lawn Tennis association were heated for sending Hudge down to Australia where continued competition would threaten his health.

Donald Hudge

early exhibition match defeats were no sign of a slump by routing Mr. Bromwich and adding the Australian lawn tennis title to his American and Wimbledon crowns.

So once again, Don Hudge is the king pin of the tennis world. His form in the Australian championship matches was reassuring to his sponsors in this country and indicated that he can round into top shape for the Davis cup matches.

Northwestern Happy

WHEN Bill De Courvent, the nation's most highly publicized high school football player, announced recently that he would enroll at Northwestern university next fall, he saved himself and scores of universities all over the country a lot of worry in the next six months.

Bill, who graduated from Astoria high school, Chicago, recently had more bids from colleges than any prospect in the history.

Among the universities that are expected to receive him are Northwestern, Michigan, and Stanford.

CHAPTER XV

Joyce sprang from bed, ran to a great rosewood wardrobe and snatched out her polo coat. As she slipped into it there came a knock on the door. Dirk opened. Don Jorge entered, led by Leonardo and closely followed by Luz and Adan.

"You don't have to tell me what it was, Maxie," said Joyce. "Let's go to the roof."

Dirk and Leonardo, one on each side, fairly lifted Don Jorge along and presently the whole party emerged into the light of a late moon, climbing almost darkly into a star-spangled sky. They gathered in a huddle against the front parapet and waited in expectant silence.

"It's foolish to stand so close together," remarked Arnaldo presently, and as he spoke there came a flash, another boom, but no howling shell—only an earthshaking thud and then an opaque column of dust where the flash had shown.

Silence again—a long silence, broken at last by Don Jorge. "Tell me, somebody, what you saw; I heard, but for the love of heaven, give me eyes."

"Let me speak," said Dirk. "Of course you know it's artillery, Maxie, but I can tell you more than that. It's howitzers—a battery of them—firing from the bottom of the barranca. Since the elevation even of a howitzer has certain inexorable limits, the first shell passed over us and the second—the one you just heard—hit the lip of the gorge. It's my bet there won't be another fired before day light."

"Why not?" asked Don Jorge. "Because Drazo has to do one of two things, both of them difficult. He must either move the guns farther away along the bed of the barranca or remove the wheels to get a sharper angle and dropping the carriage is a tedious operation."

"You know a great deal for one too young to have been in the war," said Don Jorge, comforted.

"Plattsburg," murmured Dirk.

He was interrupted by a carbine volley resulting in a splatter of bullets against the wall beneath them. They retreated in haste, all but Leonardo who hurried to the southern bastion to direct a counter offensive. Safe below, Joyce drew Dirk aside.

"Things look black, Dirk, and there's nobody I want to talk to but you—not even Maxie and certainly not Adan. Artillery, cannon—the one thing I can't answer!"

"It's a tough one," admitted Dirk. "I felt so sure," mourned Joyce, "now I feel helpless and a fool." Suddenly she lifted her eyes to his face. "By the way, that bit about the battery of howitzers. Who told you? How did you know?"

"I guess you're no fool at all."

"Reason" repeated the blind man, bewildered and a little shocked by what sounded like a threat of desertion. "No, senorita; it is well you should withdraw from danger."

"I?" gasped Joyce. "I withdraw from danger? Maxie, are you trying to make me laugh?"

Color swept into Don Jorge's cheeks and his sightless eyes watered at the corner. "Ah, chica, my beloved child, forgive a blind man for his mistake. Where is it you intend to go?"

"Mr. Van Suttart and I will start for Mexico City as soon as it's light enough to see."

Adan Arnaldo, who had scarcely listened and was sitting with head hanging despondently, suddenly straightened and rose to his feet. "No, too!" he cried fervently. "But how?"

"I'm sorry, Adan," said Joyce. "You're going to be terribly disappointed. You don't ride very well, and besides, there are only two horses—fast enough to do the trick. Of course it will have to be a race of wits and speed between us and Dorado's outfit."

Don Jorge shook his head doubtfully. "Too far," he muttered. "Toluca is too far. You don't know our campesinos; they won't have to ride, they could walk you down."

Joyce hesitated whether to mention the flivver; out of consideration for Adan, poor exile, she decided not.

"You'll have to leave it to us, Maxie," she said finally. "We'll surely find a way."

"Even so," said Don Jorge. "I don't understand. Say you do reach the city, what then?"

Again Joyce hesitated before she answered. "Maxie, by the ambassador's letter to Mr. Van Suttart, we know General Onelia has become minister of war."

"Onelia," murmured Don Jorge, frowning; then he cried out, "Onelia!"

"Yes," said Joyce; "perhaps—perhaps—" She stopped, her lips trembling.

Arnaldo moved forward and something in his pose seized her attention. Most men she had known threw up their heads when they came to some crucial decision, but not Adan.

He bent his knee and she mounted Rayo; an instant later he was astride Tronido. They tried to walk the horses across the great court and through the zaguan, but the mysterious seismograph of sympathy between horse and rider made the beasts lift their heads, and mince sidewise toward the gate. Adan Arnaldo came running after them.

"Where are you going? What do you think you're doing?"

"Never mind, Adan," said Joyce. "Open the eastern gate, will you?"

"Not," shouted Arnaldo.

Joyce turned to Tobalito and raised her quirt. "Open the gate!" she commanded. "Open!"

He obeyed, the bar tumbled and one leaf swung back. Joyce was the first to rush through, Dirk hard at her heels; already they were at a full gallop—a near bolt. "Joyce!" he fairly screamed. "Stop! It isn't fair! For God's sake, Joyce, give the horses a chance!"

For the first time he laid quirt to Tronido. The gallant beast took it well. Seemingly to sense what was wanted, he laid belly to ground and drew level on the right of Rayo just as the barranca came into full view. That was all Dirk asked. He began to ride Joyce off, slowly at first then with firmer pressure. Now they were galloping in a wide circle, giving the horses and themselves opportunity to steady down. Dirk could talk and be heard.

"That was a close call, Joyce; they wouldn't have jumped—they'd have ridden into the gorge head down. But now that they've had a chance to look at it, come on."

He whirled Tronido, headed him straight for the barranca and began to lift him with knee, hand and voice. Rayo was beside him, stride for stride. They rode together—he and Joyce were together. Out of the tail of his eye he felt rather than saw her figure, tense where it ought to be tense, light where it ought to be light, crouching into the saddle, passing its message of courage to the horse beneath: "Are you afraid? No. Neither am I!"

At 15 yards from the brink the horses seemed to get a first inkling of what was coming and at 20 a mysterious change took place in the rhythm of muscle and stride. They were gathering themselves, feeling the sod, digging in for the mighty leap. Then the rush—that peculiar hurdling where heart, muscle and bone make their bid to slap!

Impossible in the face. Thunder and lightning—they hit the take-off side by side and soared. Joyce had a sensation of flying, abyss above, abyss below. Rayo's hind feet, everything gathered under, made the level with only half an inch to spare. He was over!

But not Tronido. Before Dirk had time to know terror he was conscious of dark blot in the chasm where it widened on the left—the guns—surrounded by a pale sea of upturned faces, fixed in astonishment. Then he knew, he saw what was coming. The blood in his veins turned cold, ceased flowing, as he felt the last vain wrench of the back between his legs. Tronido's hind hoofs missed the top by a full foot, but simultaneously his knees and chest crashed against it, catapult-

clever. They had deployed on the near side of the chasm in two broad fans, well out of range, almost three miles to the east and west of the hacienda. There they waited like vultures for the moment when fire or ruin should drive its inmates into the open. Dirk turned away, not caring to see what must be in Joyce's eyes.

"Well," he murmured. "I guess the game is up."

"Wait," said Joyce. "Come here, Dirk. Come quite close, so nobody else will hear. Look in my eyes, Dirk. How far can a horse jump?"

He stared at her and the longer he looked the more did a bar of steel seem to form between her eyes and his. "I don't remember the record, Joyce," he said quietly, "but it's well over the width of the barranca at the spot where the bridge used to be. Shall I help you up?"

"Please," said Joyce.

He bent his knee and she mounted Rayo; an instant later he was astride Tronido. They tried to walk the horses across the great court and through the zaguan, but the mysterious seismograph of sympathy between horse and rider made the beasts lift their heads, and mince sidewise toward the gate. Tronido's hind hoofs missed the top by a full foot, but simultaneously his knees and chest crashed against it, catapult-

know. Then she cried, "Never mind—here it comes!"

The first bullet struck in line but well behind the car; it ricocheted and passed over them with a screaming whine. That was enough for Dirk, he opened the throttle wide and sent the flivver careening across the prairie, making note of the direction he would have to take to bring it back to the abandoned trail. More bullets followed but none so threatening as the first and presently there was silence. Joyce sat down and sank back, sighing her relief.

"I guess we're safe, Dirk. Hadn't we better nurse the tires a bit? They must be pretty soft."

"You're right," said Dirk, slowing down. "How long has this soap box been parked in that gully?"

"Let me see," said Joyce, calculating. "Is it a year? No, it can't be. I'll give you a chance to figure it out for yourself, Dirk. How many days have you been at La Barranca?"

"Nine," said Dirk promptly.

"Then add three to that," said Joyce. "It doesn't seem possible. Twelve days, less than two weeks! I was away twelve years; I've been back twelve days. Somehow it doesn't make sense."

She smiled. "Again I love you, Dirk."

Going out in search of the finest car available, he walked on air. He was glad to be alive, glad to be relieved of the strain of driving and to sit in the back with his arm around Joyce, both of them wrapped in the same rug. Arrived in the city they drove straight to his little house and from her first glimpse of its exterior to the last long look within Joyce was conscious of pleased wonder and a steadily increasing sense of well-being. Here was a nurtured loveliness, unpurchasable in bulk, individual to the core yet with arms held wide to all devotees of good taste. She was happy in this house. Even Pablo, masking amazement, all but choking on suppressed joy at the return of his missing master, seemed of its warp and woof.

"What about a hot bath to start with?" asked Dirk.

"Splendid," she answered quickly, then her lips drooped. "I haven't anything to put on."

"Don't worry," said Dirk. "I'll search the world and you couldn't

CHAPTER XVI

At the first crossroads they were lucky enough to get gas and the poor, old flivver, faithful to the last, limped into Toluca a little before noon. Abandoning it in a side street to avoid unnecessary complications, they walked to the San Carlos and before long were feasting on crystal trout fresh from the Lerma and certain equally famed accessories. More than once they raised their eyes to look at each other across the table, then dropped them because their hearts were too full of content for words.

"But the moment the meal was over Dirk said without warning, 'Joyce, will you marry me? I've got to know.'"

"Yes, Dirk. When?"

"This afternoon. As soon as we get to the city."

"Oh? Why wait till then?" asked Joyce.

But Dirk was in no playing mood. "Because there's no American consul in Toluca," he answered gravely.

"Does there have to be a consul?"

"Either that or some authorized officer from the embassy. Any preacher in good standing can do the trick, but the presence of an American official as witness is what makes it legal at home."

"I see," said Joyce slowly; then she raised her eyes to his face. "Dirk, I'm yours. I'll do whatever you want me to."

He reached out to lay his hand on hers. "I love you, Joyce."

"And I love you, Dirk. Is that why we must hurry so? You'd think it would make us willing to wait."

He frowned. "You haven't told me your reason for rushing to Mexico City, but I think I guessed it."

"To attend to General Onelia," said Joyce, also frowning.

"I thought so," said Dirk, "and that's why we're going to marry today. When you take on Onelia or the ambassador or any other small fry I want a right nobody can dispute to be in the ring—to sit in your

corner."

She smiled. "Again I love you, Dirk."

Going out in search of the finest car available, he walked on air. He was glad to be alive, glad to be relieved of the strain of driving and to sit in the back with his arm around Joyce, both of them wrapped in the same rug. find a costume more becoming than what you're wearing to a person of your particular looks, size and adorable build."

"I can furnish you a soft shirt for a blouse and by the time you're ready for them the jodhpurs will have been brushed and pressed as sweet as a flower." He turned to Pablo. "Pablo, this is the senorita Joyce Sewell, from whom you may take orders as coming from myself, only more so. Give her into the charge of Paulina. As for the rest, I leave it to her since, she talks Spanish better than either of you."

Dirk had not dismissed the hired car and without bothering to inform Joyce or even waiting to wash his hands he started for the embassy proper, passing the chancellery by. The great iron gate was opened by a strange porter but the man on the door was an old friend.

REPORTER-PHOTOGRAPHERS, hundreds of them, constantly scour the world for "shots" that will make a news highlight more real... more interesting... more understandable. The single, business-like click of a camera and a thousand-word story is captured, all in an instant, to be presented in a manner more graphic than the words themselves could ever attain.

The scenes these men photograph number into the thousands daily. From this great number a careful selection is made. The chosen pictures, designed to aid you in the visualization of important news events or "human-interest" occurrences and individuals, are regularly offered by this newspaper.

This is our answer to a modern public's demand upon a modern newspaper for pictures of places, persons and incidents of world-wide interest.

ALTONA COUPLE WEDS SUNDAY

Double Ring Ceremony Takes Place at Altona Church

At a morning ceremony Sunday, Miss Frieda Brundieck, daughter of Mr. and Mrs. Henry Brundieck of Altona, became the bride of Clarence Cornett, son of Mr. and Mrs. Rush Cornett also of Altona. The wedding took place at the Trinity Lutheran church of Altona with the Rev. E. J. Moede reading the double ring marriage lines in the presence of 40 guests.

On the opening strains of "O Perfect Love" played by Prof. C. Gernoth at the organ, Miss Ernestine Brundieck, maid-of-honor and sister of the bride, entered. The bridegroom and his attendants, Elmer Meyer of Unadilla and Arnold Brundieck, took their places before the altar. The bridesmaid, Sylvia Spanjer of Denver, Colo., entered next. The bride entered on the arm of her father who gave her away in marriage.

The bride was gowned in white brocaded satin with a cowl neck and shirred bodice. Her tight fitting sleeves were puffed at the shoulders and fell in points at the wrist. Her silk lace veil was caught in a crown-like cap effect set with pearls and calla lilies. Her bouquet was also of calla lilies.

The maid of honor and bridesmaid wore ankle-length corded taffetas with jacket effects. Miss Ernestine Brundieck wore blue and Miss Sylvia Spanjer wore pink. They carried bouquets of white and pink snapdragons.

As the bridal couple left the church the organist played "Blest Be the Tie that Binds." During the wedding service the congregation sang, "What a Friend We Have in Jesus," which was chosen as the couple's favorite hymn.

A reception was held following the ceremony. The two-course wedding dinner was served at the home of the bride's parents. The table decorations carried out the bride's chosen colors of pink, white, and blue. Atop the two-tiered wedding cake was the ornament that decorated the bride's parents' wedding cake over 27 years ago. The cake was baked by Mrs. Carl Schiermeier. The dinner was served by Misses Alma Stuthmann, Hulda Koehlmoos, Verona Kumm, Esther Matthes, and Melvay Spanjer.

The young couple will be at home in Pilger. Out-of-town guests were Mr. and Mrs. Herman Meyer and Elmer of Unadilla, and Misses Sylvia, Melvay, Melvin and Merlin Spanjer of Dailey, Colo.

4-H Topnotchers Discuss Fair Plans

Members of the 4-H Top-Notchers club held a regular meeting at the Harry Baird home Friday evening. Gene Baird, president of the club, presided. All members were present. Two new members, Dorothy Bierman and Margaret Anderson, were taken into the club.

Walter Moller, county agricultural agent, discussed the new precinct exhibit plan adopted by the Wayne Fair association in the exhibit showings at the county fair each fall. The importance of every farm boy and girl taking part in the agricultural exhibits at the fair or belonging to a 4-H club was stressed. Parents were, also urged to have an exhibit at the fair to make it more interesting and successful.

Refreshments were served at the close. The next meeting will be held at the Alfred Sydow home March 9.

TIPS to Gardeners

The First Step THE first step toward a successful garden is an early start. Spade or plow as soon as possible. If a handful of soil gripped firmly can be crumbled readily upon release, the soil is in condition to be worked. It is important that fertilizer be used cautiously, advises Harold Coulter, vegetable expert of the Ferry Seed Institute. An excess is often harmful, particularly in growing fruits, such as tomatoes, cucumbers and peppers. Garden preparation effort is wasted if you do not plant seeds from dependable sources. Select your favorite varieties from the nearby store before the supply is depleted, even though it is not yet time to plant. Make sure the seeds you buy are freshly packed. Weather conditions permitting, it is advisable to spade into the soil some rotted manure, rotted leaves or lawn clippings, or rotted garden refuse. Clay soils are improved in texture by this treatment, and sandy soils are improved in water holding capacity.

MERCHANDISE

Must Be GOOD to be Consistently Advertised BUY ADVERTISED GOODS

SEEN and HEARD around the NATIONAL CAPITAL By Carter Field

FAMOUS, WASHINGTON CORRESPONDENT

Washington.—No buyer for the 12 standard cargo vessels for which bids were to be opened by the United States maritime commission was in sight when the bids were called for. None is in sight now. And there are those who say that unless the merchant marine act is amended materially there is doubt that any experienced American operator will buy the new ships. The merchant marine act was so weighted down by safeguards by suspicious legislators that some believe it is almost unworkable. At the time of its passage, June 29, 1936, it was openly charged that the act had purposely been so hobbled as to make government operation necessary if America is to have a merchant marine.

Public ownership and operation advocates occupy key positions with the commission. They are alleged to be aggravating the present demoralization in the hope of creating a situation in which public operation will be the only alternative. Whether this is true or not, it is quite apparent that before American operators put up any money they will have to be convinced that the commission wants them to succeed and will co-operate wholeheartedly in trying to make private operation successful.

In this connection it is pointed out that many of the executives now associated with the American merchant marine have operated ships under foreign flags. They are familiar with the respective advantages and drawbacks of that form of operation and will be willing to undertake it if conditions are not created promptly to make operation under the American flag more tolerable. American operators feel that the way they were compelled to sign on the dotted line in the termination of postal subsidies was a bad start for a co-operative effort to establish a permanent American-merchant marine. Nothing is causing more apprehension than the labor situation and the difficulty of maintaining proper discipline on shipboard.

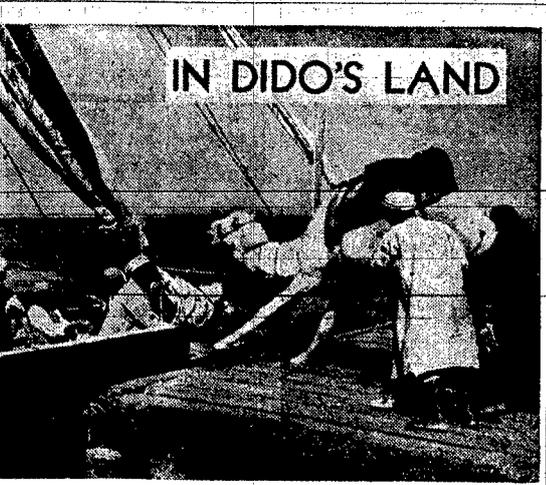

Middle Is Growing American shipping men say that they are anxious to operate under their own flag, as the middle seems to be growing worse instead of better, they are growing impatient. They point out that all the present act does is to equalize construction and operating costs. They would be just as well off if they were to place their construction orders abroad and operate under a more ship-minded jurisdiction. They then would not have to comply with a multitude of restrictions such as are imposed by the merchant marine act.

Some lines are unable to comply with the requirements that they have no interest in lighterage or stevedoring operations. This is essential at some ports, shipping interests maintain. While troublesome restrictions can be escaped by operating under a foreign flag, American operators realize that the navy must have auxiliaries; that this country's commerce must be protected at times when foreign countries have other uses for their ships, and that ships under the American flag are a guarantee against discriminatory action by foreign governments that handicaps our trade. It is for these reasons, they say, that they have been waiting thus long in the hope that the law might be freed of restrictions they consider unreasonable, and that a disposition be shown on the part of the maritime commission to encourage, rather than hamstring, private operation.

Ambassador Kennedy

Joseph Patrick Kennedy, the Irish New Dealer, whom the President will send to wear knee pants for the United States at the Court of St. James, is one of the most impressive characters walking the Washington stage. He headed two powerful commissions, got himself whispered for President in 1940. Now he'll negotiate a trade tariff agreement between America and Great Britain. The pact may bind the two countries closer together and make important history. Mr. Kennedy is Boston Irish, about fifty, with Celtic blue eyes, sandy hair—what's left—expanding waistline. He's dynamic. He works himself and his employees to jitters, and they like it. Mr. Kennedy's home and his wife and nine children are in swank Bronxville, half an hour or so north of New York. At another estate just out of Washington he sometimes breaks quiet along the Potomac with rousing parties for a mixed company of hot shots and his hard-worked assistants.

Before the New Deal, Mr. Kennedy had quite some millions in Wall Street. Then the President appointed him to head the securities and exchange commission—"so nobody else could clean up," old dealers said. After SEC came the ship subsidy law, whereby the government is building vessels for private companies operating to foreign coun-

Carthage Today Is Not the City of Which Virgil and Flaubert Wrote

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

TODAY, one goes to Carthage by automobile or electric train. Shades of Dido, Hannibal, and Hamilcar! But for Virgil and Gustave Flaubert, Carthage would be deeper than ancient Philadelphia, which now is Amman, Trans-Jordan.

Just above the station, in a little garden massed with daisies and geraniums, is a monument to Flaubert. The head, representing the "immortal author of Salammbô" (his "Madame Bovary" isn't even mentioned in Carthage) is less than life size. But Flaubert's romantic description clothes the city site with an aura of lasting glory. Today, it seems a blessing that the author wrote some 75 years ago, for Carthage is less Carthage now. Stucco villas are crowding closer and closer about the ancient ports and their gardens climb higher and higher on the Byrsa, where the Carthaginians had their fort and temple and around which 700,000 of them had their homes. The site which Dido chose is too blessed by beauty and climate to remain a mere sepulcher for a vanished race which left its most notable monument, a primitive seafaring and ancient world-commerce.

Carthage isn't Carthage, and possibly never was. What remains is Punic, Roman, Christian, Moslem, and art moderne. Here heavy-footed elephants shuffled down long ramps to their stables and armed men stood watch on walls that seemed impregnable. But the site is a grab bag of history, and unless one is careful he stumbles over anachronisms.

"Salammbô" Is a Suburb. The guardian spirit of Carthage is a novelist's creation, whose name has been appropriated by a seaside suburb. As one rides from La Goulette (the "gullet" of the lake of Tunis) toward Carthage, the street conductor shouts "Salammbô." Strangers start at the magic word. The only Punic relic worthy of Flaubert's heroine is a young priestess with a dove in her hand and her soft robe ending in wings which cover her limbs. Among the stone ammunition, crude steles, and cinerary caskets of the Punic period, this life-size coffin top stands out like a pretty girl in a morgue. Revenged ancient who vowed not to leave one stone of Carthage on another kept their promise, but this lone figure slept on in her hillside tomb and so survived to prove that the Punic traders, who took their art where they found it, were not entirely lacking in taste.

The ancient ports of Carthage, long isolated from the sea by the building of a shore road, are again connected with the gulf of Tunis. In the interests of health, small channels have been dug. The naval and commercial harbors are now connected with the Mediterranean whose Levantine shores bathe the piles of murex shells from which Tyre and Sidon extracted a purple whose memory still colors history. From the rough stones of the amphitheater rises a white cross. "Why this modern emblem in this pagan arena?" one wonders. Then he remembers Cardinal Lavigerie, who never lost his historic sense amid his numerous good works, erected this seemingly incongruous cross over a spot where Christian martyrs, to whom that symbol was more than life, were put to death some 400 years before Mohammed was born.

"Carthage must be destroyed" was the grandiose slogan. But Caesar and Augustus had more sense than Scipio. They deliberately stored a ruined enemy to more than its former beauty and Hadrian gave it an aqueduct whose remains still rank among Tunisia's most impressive ancient monuments. Kairouan the Saintly. For miles his high-arched aqueduct stretches above grainfields and grazing flocks, coming from Mount Zabouan, which provides Tunis, as it did Carthage, with water. You parallel it on your way to Kairouan the Saintly.

How to describe this holy place created by Muslims, some of whom had seen the Prophet in the flesh? Nothing you may read prepares you for the silence of the Great Mosque, the polychrome tiles of the mosque of Sidi Sahab, the grotesque swords and giant pipe of the mosque of Sabers, the teeming marketplace of the Rue Saussier, or the relentless irritation of street Arabs begging, "Good day, mister, give me a cigarette." Once a year the word evidently goes around that the little pests shall cease to pester. And since that luxury comes at a time when Kairouan is at its best, a visit on the last day of the annual Rug fair is pleasantly memorable. Soon after dawn, to receive powder for their salutes, the famous Zliss horsemen assemble beside the circular pool of the Aghlabites. Clad in their best robes and wearing sombreroes whose broad brims are held up by ostrich feathers, they seem a doleful lot. But when the resident general's car arrives the tempo quickens. By afternoon these somnolent horses will be racing at breakneck speed while their riders stand in their saddles, sweep the earth with their heads, do a shoulder stand on a galloping charger, and juggle gun and saber in mimic warfare. Among the whitewashed graves where the dead huddle as close as possible to the Great Mosque, veiled women stand and cheer. Eve has not lost her delight in weddings. When the rider sweeps down on a carriage groomed about the silken saddle-tent of the bride-to-be, and an Arab Lochinvar abducts the angel of his dreams from half-hearted defenders, who are probably glad to have it over with, the veiled women ululate their delight. The fact that the silken canopy is empty doesn't spoil the fun. Too Much Olive Oil Produced. Between Kairouan and the southern oases stretches the eastern plain, in which the French protectors take just pride, for they have restored fertility to a region long barren. In neat rows, miles long and 80 feet apart, stand olive trees whose only fault is their fruitfulness. When Paul Bourde, a journalist, convinced of ancient olive production here by the ruins of Roman millstones, brought back groves to regions the Arab invader had laid desolate, he failed to bring back the little Roman lamp. Even beauty parlors can't use as much olive oil as did the Roman athletes who rubbed it on thick and then scraped it off in rivulets with the curved strigil. Lands of corn and cotton offer substitutes, and the Philippine palm seeks its share of the oil trade. Bourde succeeded all too well. Tunisian olive oil, the equal of any, begs for buyers at a fourth its former price. Soussa and Sfax are the "big cities" of Tunisia's eastern plain. Each has its neat European quarters, each its interesting native town. Soussa, then Hadrumetum, helped Hannibal fight Scipio and later was carpeted with Roman mosaics. Le Bardo's little gem, found at Soussa, shows Virgil writing the "Aeneid" between the Muses. Sfax, second only to Tunis, ships phosphates and fishes for sponges, octopuses, and a variety of finny fodder. Its neat European quarter seems like an exposition city. Native life centers in the mosque. On raised benches covered with matting, dealers sell frippery gewgaws and a fortune-teller divines from field beans. Amphitheater of El Djem. Between Soussa and Sfax a Roman ruin dwarfs the modern town for which it was the quarry. It is the amphitheater of El Djem. One sees it from miles away and its memory follows one for years. In the Eighth century, when Kahena, Berber queen, sought to repel the Arab invaders, this coliseum served as her fortress. Except for this and a few other martial interludes the towering structure stood there, empty as the Yale bowl or the Ann Arbor stadium between games, waiting only for 60,000 spectators to swarm toward the clouds and look down on the barbaric spectacles in the arena. Then, at the end of the Seventh century, rebels hid here, a hey broke through the wall to reach them, and El Djem, each of whose stones had been painfully quarried and shipped, became a source of ready-made building blocks for petty-huts.

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will vibrate you to dance and parties. BUT, if you are cross, listless and tired, men won't be attracted. Men don't like "dead" girls. For three generations one woman has told another how to go smiling through life. Lydia E. Pinkham's Vegetable Compound helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure. Make a note NOW to get a bottle of world-famous Pinkham's Compound today. WITH OUT FAIL from your druggist—nearly a million women have written in letters reporting benefit. Why? LYDIA E. PINKHAM'S VEGETABLE COMPOUND!

Favorite Recipe of the Week

For Washington's Birthday. FEBRUARY 22 would not be completely celebrated if cherries were not featured in some way during the day. It is true that the story of the cherry tree and George Washington is more closely connected in the memory of many of us than his great prowess as the Father of our Country. We seem to take for granted his ability as a leader and talk about the cherry tree episode of his youth. This recipe for cherry pie is made to use the entire contents of a No. 2 can of cherries, which holds 2 cups. Cherry Pie. 1 No. 2 can Pitted 2 tablespoons corn-Red Sour Cherries starch 1/2 teaspoon salt 6 tablespoons sugar 1 tablespoon butter Line an 8-inch pie pan with pastry. Drain the cherries from the juice and place them in the pastry shell. Mix together sugar, cornstarch and salt and sprinkle over the cherries. Pour on the juice; dot with butter and cover with a thin top crust or with strips of pastry. Bake in a hot oven (475 degrees) for 12 minutes; reduce temperature to 425 degrees and continue baking for 45 minutes. MARJORIE H. BLACK.

Difficulties Aid Difficulties are meant to rouse, not discourage.—Channing.

GAS, HEARTBURN? Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood free of an excess of toxic impurities. The act of urinating is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide disease. One may suffer nagging headaches, persistent headache, attacks of dizziness, getting up at night, swelling of feet, under the eyes—feet tired, nervous, all worn out. Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Ask your druggist for Doan's Pills. Sold at all drug stores.

WHO'S NEWS THIS WEEK... By Lemuel F. Parton

NEW YORK.—There is hope for world peace and solvency. Some day a little band of diplomats and financiers will meet in the Paris catacombs or a London fog, heavily disguised, and put something over, and Pertinax won't catch them at it. To date, the watchful French journalist has anticipated and cried down every effort, warning all and sundry that, whatever it is, it won't work.

Thus, the studious proposals of Paul van Zeeland, former premier of Belgium, were blasted several weeks in advance of their publication, as just so much eye-wash. Pertinax is one of the most brilliant and influential journalists of Europe and anything he touches up in advance goes in with two strikes against it. As does the Van Zeeland plan for economic reconstruction.

Walt Disney is readying "Snow White" for France. That probably means that Pertinax is preparing to swing on it, just before it lands there. One American commentator made the film his sole exception in many years of dissent. Nothing like that may be expected from Pertinax.

He is the only full-time dissenter who bats 1,000. He has picked fights with Senator Borah, former President Hoover (being the only man ever to assail an American President with that dignitary present), with all the Germans, before, during and after the war, and with all ambassadors of good will.

In 1933, the French government announced it would spend \$1,320,000 to build good will in America. Pertinax, fielding that one, pegged over to this country some sour cracks about American materialism. And, just in passing, a French journalist ought to know a lot about materialists. For a few days it looked as if he might overlook the recent Brussels conference, but he was on the job and smeared it in plenty of time to get it a bad press. He is at his best in discovering and exposing Geneva's good will conspiracies.

Parisian sophisticate, dapper, dressy, nosing in various diplomatic feed-boxes—a first-class reporter; but never satisfied. One of the depressing things about him is that he is so often right as he pans this or that hopeful endeavor before anybody else knows what it is.

PROPOS of recent flare-ups of the behaviorist argument among the psychologists; here's Eugene Ormandy in the news as a timely exhibit of the effect of early conditioning. Long before he was married, Eugene Ormandy's father, a Hungarian dentist, used to say, "Some day I'm going to get married and have a son and I'm going to make him a great violinist." Years later, he pressed a tiny violin into his new baby's hand and had him coached in rhythm before he was out of the cradle.

At the age of three, the boy was working hard at his violin lessons. His only toys were music boxes. And now, Eugene Ormandy, conductor of the Philadelphia orchestra, gets the Gustav Mahler medal, following the performance of his composition, "Das Lied Von Der Erde."

At the age of five, he was a student in the Budapest academy of music, through at fourteen, but not allowed to go on tour as a violinist until he was seventeen. In 1921, he was in New York, hoping to bridge the break in his career with his last five-cent piece. He did, as a violinist at the Capitol theater, then assistant conductor, later with Roxy's gang and then six years as conductor of the Minneapolis symphony orchestra. He is perhaps the first conductor to be upped to fame by radio.

His father in Hungary isn't altogether pleased. "Just think what a great violinist you might have been," he wrote to his son.

Crocodile Felled
Three white men with guns and dozens of tribesmen with spears rescued a native boy from the jaws of a crocodile on a tributary of the Mitchell river in northeast Australia, it is reported at Brisbane. Blood-curdling screams woke the camp and the huge reptile was seen carrying the boy to the stream by his shoulder. It reached the shallows and started for deep water. The contour of the bank enabled the rescuers to head it off. Repeating rifles at close range failed to stop the beast, but it was maneuvered into such a position that natives drove many spears into it.

"Abide With Me," Victory Song

Beam of Light and a Lucky Grab Save Man Racing to Sea in Sewer

SWEPT seaward through a city sewer by tons of water which had burst a barricade of bags, James Clarke, New York "sand bog" owes his life to a small flash light and a chance grab at the rungs of a manhole ladder as he was hurled along, 30 feet underground, toward the waters of Jamaica Bay. Clarke was one of a crew ordered to repair a leak in the main sewer line at Jamaica. By way of preparation for the repairs, the men erected sandbag barriers on each side of the leak. The plan was to dry out a 250-foot section between the barricades with compressed air, forcing out the water through the break in the pipe. The break would then be closed with a tough, quick-drying cement. Soon after the air was turned on, the men found that they were making no headway. The pressure necessary to force out the water was so great that air kept escaping through the sand barricades. Clarke, who was down to stop these leaks, carried a bag of clay and sometimes crushed by barricade materials.

Woman's Club Gives Patriotic Tea

Members of the Wayne Woman's club gave a patriotic tea at the club rooms Friday afternoon with sixty members and guests in attendance.

Mrs. Fred W. Nyberg gave excerpts from her book, "History of Wayne County," which will be completed this summer. She gave the origins of the names of the precincts and towns of the county. She told of the five or six "ghost towns" which were towns that sprang up and were abandoned. She illustrated her talk with maps.

Miss Pearl E. Sewell, county superintendent of schools, in her talk on "Early School History," gave the origin of the streams and creeks in the county showing the locations on a map of the county. She named the 19 different county school superintendents since the first Wayne county superintendent served in that capacity. At present the school districts number 86.

The tea table was laid with lace and silver and the table appointments carried out the patriotic motif with flags as the central theme. Mrs. Rollie W. Ley and Mrs. Jessie Hale presided at the table.

The hostess committee included Mrs. D. J. Cavanaugh, chairman; Mrs. A. B. Carhart, Mrs. R. C. Hahlbeck, Mrs. E. W. Casper, and Mrs. O. R. Bowen.

At the business meeting, the club voted to give five dollars to the girl scout fund and five dollars to the boy scout fund.

ity of the directory. The publishers would like to emphasize that the free distribution of the directory was made possible only by those business and professional people who purchased advertising in it. It was an untried medium of advertising and we suggest that users of the directory help prove our contention that the Wayne city directory is a medium to reach buyers.

The following scouts of troop 175 delivered the directories in record time Saturday morning:

Bob Wright, Rodney Love, John Einung, Bobby Chan Meyers, Robert Einung, Junior Wedge, James Pile, Robert Benthack, Gordon Johnson, Warren Bilson, Paul Petersen, Jimmie Allen, Jimmie Strahan, Paul Harrington, Van Bradford, and Robert Anderson.

World Day of Prayer March 4

Topic of Day's Program Will Be "Church, A World Fellowship"

The world day of prayer program will be held at the Methodist church the first Friday in Lent, March 4. It will be an all-day session beginning at 10:30 o'clock and concluding at 4 o'clock. All women of Wayne are cordially invited to attend.

The prayer day topic will be "The Church, A World Fellowship." Sub-topics to be discussed will be "The Church's Charter of Fellowship," and "Fellowship in Prayer and Service." The program will consist of prayer, song service, and talks.

The following women will give a report of missionary work: Mrs. W. P. Canning, Our Redeemer's Lutheran church; Mrs. H. J. Felber, Presbyterian church; Mrs. Walter Bressler, Baptist church; Miss Anna Thompson, St. Paul's Lutheran church; Mrs. John Ahern, Episcopal church, and Mrs. George Crossland, Methodist church.

At the Jerusalem conference in 1928 when 250 world Christians from fifty-two countries gathered on the Mount of Olives for a three weeks' conference, many new standards were set.

Last summer at Oxford and Edinburgh 800 world Christians from forty-five nations, and 120 denominations faced unitedly the contemporary facts in the life of the church, the state, and the community. A new and deeply moving sense of Christian unity amid diversity was felt by all and it led to the proposal for the formation of a World Council of Churches more inclusive than any organization now in existence.

The work of the conference in the realm of Christian thought and action was consciously related to the plans being made for October, 1938, when 7400 Christian leaders from the whole world, but particularly from the Orient, will gather in the Far East.

The officers of the association are Mrs. C. O. Mitchell, president; Mrs. Harry McMillan, vice-president, and Mrs. Carlos Martin, secretary-treasurer.

Those attending the prayer day program are requested to bring their luncheon. The Methodist ladies will furnish coffee and cream.

School District 43 Mildred Heikes, Teacher

On our display board we have large colored pictures of animals. The pictures are of dogs, deer, kittens, bears and horses. We have historical pictures on our bulletin board. Some of them are Statue of Liberty, Lincoln, Lincoln's Cabinet, Lincoln's first home and Charles Goodyear.

We had a Lincoln's birthday program Friday. The pupils each prepared a number. The numbers were: The Gettysburg Address, A Talk on the picture of Lincoln painted by Cobb, Union and Liberty, "O Captain! My Captain!", the Life of Lincoln, and "Why We Celebrate Lincoln's Birthday."

Our schoolroom is decorated with red and white streamers. We had a Valentine party and exchanged Valentines Monday. We made our mothers red silk pin cushions trimmed in lace.

We presented three numbers for the farm extension program at the Bell School. Our numbers were a dialogue, a musical reading and a piano solo.

The lower grades have made conventionalized birds of blue and red construction paper to put on the windows.

For opening exercises we are reading the book of Robinson Crusoe. During music period we have been learning the Nebraska State song and we are preparing numbers for the musical festival in April.
