

## MRS. J. L. KELLY IS CALLED BY REAPER

Passes Very Suddenly at Home of her Daughter-in-law in Omaha Last Week.

### FUNERAL SERVICES HELD SUN.

Mrs. James L. Kelley, who for many years has been a resident of this county and a member of the Methodist church since early childhood, passed suddenly at the home of Mrs. Madge Kelly last week and was buried in the local cemetery Sunday.

Mrs. Kelly had gone to Omaha only a few days before she passed to care for her little grandchildren while their mother underwent an operation for tonsil removal. She was in good health with the exception of suffering at times from a weak heart, it was said.

Fannie Jane Plum was born at Hastings, Iowa, May 20, 1865, departed this life at home of her daughter-in-law Mrs. Glenn Keelley of Omaha, December 6, 1928, age 63 years, 6 months and 16 days.

On July 7, 1881 she was united in marriage to Mr. Jas. L. Kelley at Hastings, Iowa. In the year of 1891 they moved to Wayne county which, with the exception of four years residence near Laurel, has been their home.

Mrs. Kelley was a member of the Methodist Episcopal church since early childhood, at the time of her death holding her membership in the Wayne M. E. church. She was a true Christian, a wonderful home maker, a true friend. Mrs. Kelley had been in poor health for nearly 8 years, however death came as a great shock as she seemed to be in better health than she had been for some years. She died as she lived, serving others.

Mrs. Kelley was the mother of six children, four of whom survive her: Mrs. Maude Halladay of Laurel, Mrs. Pearl Byers of Naper, Iowa; Mrs. Sylvia Lapham and Marion Eliza of Wayne; Mrs. Madge Kelley of Omaha. Two children preceded her in death, Eva Gertrude 1899 and Glenn whose death occurred December 12, 1927.

She is also survived by her husband James Kelley and the following brothers and sisters: Frank Plum of Malvern, Iowa; Valentine Plum of Macedonia, Iowa; Wm. and Richard Plum of Ft. Morgan, Colorado; Ezra Plum, Mrs. Hattie Allensworth and Mr. Emma Smith of Hastings, Iowa. Also eleven grand children.

Funeral services were conducted from the First Methodist church Sunday afternoon, December 9. W. W. Whitman officiating. The service was largely attended by the many friends of this kindly, neighboring woman.

Among the relatives who came to Wayne last week to attend the funeral of Mrs. Kelley were E. B. Plum and wife, Mr. and Mrs. L. J. Allensworth and Mrs. E. J. Smith, of Hastings, Iowa; Frank Plum, Val Plum and daughter, of Macedonia, Iowa; Val and Dick Plum of Fort Morgan, Colorado, and Mrs. Glenn Kelley from Omaha. They were brothers and sisters except two or three.

### SOULES-LONGNECKER

Miss Lottie M. Soules, youngest daughter of John L. Soules of Wayne, and Mr. Ernest R. Longnecker son of Mr. and Mrs. Jerry Longnecker of Winside, were united in marriage at three o'clock last Thursday afternoon, December, 6th, 1928, at the Baptist parsonage. The pastor, Rev. A. C. Downing officiating. Those present beside the bride and groom were the father of the bride Mr. John L. Soules and Mr. Henry Soules, brother.

The bride was attired in a black silk dress with hat to match, and coat of reindeer tan suede broadcloth, trimmed in black cone fur collar and cuffs.

The newly-weds left for Omaha and elsewhere expecting to spend about two weeks away before returning to take up their abode in Wayne county.

### EARLY MORNING FIRE

#### CAUSES \$400 DAMAGE

Fire early Wednesday morning caused a loss estimated at \$400 when a barn and goods stored in it were completely consumed, at the home of Wm. Sharer.

The fire it is reported, had gained good headway before it was discovered as it started during the late night when everyone in the neighborhood was asleep.

## RANDOLPH HAS FOUR CIVIL WAR VETERANS

In the daily dispatches Plainview, who has four Civil War veterans, wants to know if any town in her class can equal this record. We answer "yes!" says the Times.

Randolph has four Civil War veterans in the city proper, viz: John McClain, N. H. Dowling, Herman Heideman and Fred Weber, also one in the country nearby, E. W. Leicy, while another J. J. Moore, lives but six miles away. The ranks of the veterans of '65 are growing less each year.

Most of these Randolph Vets are known at Wayne, where they frequently came in other years to attend meetings of the old soldiers at this place.

## WILL ENTERTAIN AT XMAS DINNER

S. E. Auker Will be Host to 37 Guests at Special Christmas Dinner Party Here.

### WILL ENTERTAIN AT STRATTON

S. E. Auker, prominent citizen of Wayne, will entertain his entire family of seven sons, two daughters and eighteen grandchildren at a special Christmas dinner at the Hotel Stratton on Christmas day in what will be the first complete family reunion of the Aukers for several years.

All but two, Irvin of Sioux City and W. F. of Cherokee, live in Wayne or nearby vicinity, all are married and all but two have children and the entire family will require a good sized table, while no doubt will be well laden.

Mr. Auker is a real pioneer of Nebraska, coming to this state 52 years ago, when he was but 18 years of age. He came to Johnson county from Ohio and lived in that part of the state until 35 years ago when he moved to Wayne, where he has since resided.

For many years he has a very extensive cattle dealer and has shipped feeders into Wayne and other points in train load lots. During his early years he gathered trees on the river bottoms by the thousands, which were used on the timber claims of various parts of the state. He got his instruction on the handling of these from J. Sterling Morton, author of Arbor Day.

His chief occupation during recent years has been to keep his membership of the horseshoe club in good standing, and from reports he has done so satisfactorily.

## HENRY GORDON PETERSEN BROUGHT HERE FOR BURIAL

The body of Henry Gordon Petersen was brought to Wayne the last of last week for burial, in the town of his birth. The young man passed at Redfield, South Dakota, where he had been for several years, due to continued ill health, December 3, 1928, at the age of 21 years and 4 months. He was a son of Mr. and Mrs. Julius N. Petersen, who were residents of Wayne for a number of years, but now of Mission, South Dakota. Henry was born in August 1907, and spent a few of his childhood days here.

A funeral service was held at the undertaking parlors Friday, Rev. W. W. Whitman of the Methodist church officiating. His parents accompanied the body here, and a few other relatives were also here, and a number of the friends of the days when the Petersen family resided here were at the service.

## MR. AND MRS. BOWLES HEAR RADIO TALK FROM ARCTIC

According to the Randolph Times Mr. and Mrs. J. S. Bowles of that place got quite a kick out of their radio last week Saturday night or early Sunday morning, as they were listening in late, with a Pittsburgh wave length tuned for. Out of the far north there came to them messages from the Arctic night a word for the Oblate Fathers in an Eskimo mission, another to the Royal Canadian Mounted Police, as well as dozens of personal messages from mother, father, brother, sister or sweetheart. "One message," says Mr. Bowles, "said Sadie had a baby girl."

The announcer told the boys to get their letters ready for mother as the next boat would be the last one until the regular one next July. He then said to stand by as he had messages ready for Commander Byrd in the South Polar Seas. Mr. and Mrs. Bowles stayed and heard messages going toward the South Pole.

## Christmas Cantata and Candle Light Services Announced by Two Churches

Methodist and Presbyterian Churches Will Hold Song Services Sunday Evening.

March—"Stars And Stripes Forever" ..... Sousa  
Final

## WILD TURKEYS WILL BE RELEASED AT NIOBRARA

A shipment of wild turkeys will be released in the game refuge east of Niobrara within the next thirty days, according to a message from the state game warden, Frank O'Connell, which was sent to members of the Niobrara chapter of the Izaak Walton league.

The ground where the turkeys will be released is said to be one of the best natural wild game refuges in the country, and already is inhabited by quite a variety of game birds.

A number of Hungarian Partridges were recently released on the ground, which borders the Missouri and Niobrara rivers and is covered with wild growth.

## WAYNE TEAMS OPEN CAGE SEASON HERE

College and High School Quintets to Open Season With Home Stand Tomorrow Night.

### COLLEGE SCHEDULE COMPLETE

Both the college and high school cage squads will open their season tomorrow night on local courts when the Wildcats will meet the Yankton greyhounds and the Holder porteges will meet Winside at the Community house.

The Wildcats will play a double header, the freshmen meeting the visiting team's reserves as a preliminary to the main event which will begin immediately following.

With the exception of a practice game played with the C. A. C. at Sioux City last Friday night the local squad has not had an opportunity to show their colors and frequent shifts are expected in the lineup.

The Hickman pupils will make another home stand when they meet Western Union here next Thursday evening. In all twelve games are scheduled, seven of which are billed for the local courts.

**High School Plays**  
Coach Holder will pit his offering against the Winside team on the Community house courts, which game will also be played tomorrow night.

The blue and white have been seriously handicapped by not having a suitable place to work out, but have finally decided upon the Community house for the present at least.

They have been scrimmaging in the little four-by-two gym at the school house, where they have confined their workouts to basket shooting and passing and a few details of the game.

### College Schedule

December 14—Yankton at Wayne.  
December 20—Western Union at Wayne.  
January 2—Midland at Wayne.  
January 5—Wesleyan at Wayne.  
January 8—Yankton at Yankton.  
January 18—Western Union at Le Mars, Iowa.  
January 22—Chadron at Wayne.  
January 26—Peru at Wayne.  
February 8—Omaha at Omaha.  
February 9—Peru at Peru.  
February 15—Kearney at Kearney.  
February 23—Omaha at Wayne.

## DO INCREASED SAVINGS INDICATE PROSPERITY?

We read under big headline that the savings accounts for the year ending June 30, amounted to \$28,421,961,000 an average of \$237 per capita, and an increase of more than two and a quarter billions over the savings of the year before, and an increase of nearly two and a half million depositors over the fifty million depositors of the previous year.

Is that a healthy financial condition? We ask in all seriousness if it might not be better for all if conditions were such that the owners of half these deposits would feel safe in investing the same in business and using them to make more dollars for themselves, and give employment to more people at a fair wage? Such vast sums, it seems, in idleness of put out by the banks to those who can give security, does not look like a healthy condition in finance. Has the appearance of being a burden to the banker, who, in competition with other bankers, puts up a low interest rate, and sometimes fails to make the money earn what it costs them. Saving is good—is right and proper—but hoarding too much cash that should be employed might not be wise. Why not study the question from such a view point?

## FREE BARBECUE HERE SATURDAY

Public Invited to be Guests of Wayne Merchants at Feature Entertainment Saturday.

### SANTA VISITING LITTLE FOLKS

Santa Claus arrived as per schedule Saturday afternoon, but his appearance was delayed about an hour because of motor trouble on his aeroplane and he was forced to make the last lap of his trip by automobile causing him to be late in reaching Wayne.

He has been interviewing the youngsters of Wayne and near town each afternoon during the week, at his home on Main street, where he will be every afternoon from now until Christmas and he is anxious to have all the children come in to see him.

Saturday from 10 a. m. to 4 p. m. the Wayne merchants and business men will entertain at a free barbecue at the city hall for all the grown folks. They will have coffee and sandwiches enough to supply everyone and a good turnout will be hoped for.

Santa will have a treat for the little folks at his home on Main street so that no one will be forgotten.

### Free Picture Show

To complete the holiday programs a free picture show will be given at the Gay Theatre next Saturday December 22, at which time all the youngsters will be guests of Santa himself.

This will be a Tom Mix or Ken Maynard picture and a good one, one that all the young folks will like. It will begin about one o'clock. Only one show will be given so you'll have to be on time to see it.

### Band Concert

The Wayne band will give a concert on the streets about 2 o'clock Saturday afternoon if the weather permits.

The Wayne merchants have spent several hundred dollars for these entertainments and they hope that the public will enjoy them.

Bolivia is mobilizing troops to enter war against Paraguay and the latter is getting ready to resist. Uncle Sam, or some other proper authority should take them by the slack of their coat and bump their heads together, spank each of them and tell them to go to bed and remain there until they can agree to arbitrate their differences. No use in scattering good blood over the land before they settle. Save this blood.

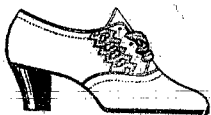

## HOLD SURPRISE FOR REV. FISCHER THUR.

Salem Church Members Pay Respects by Holding Surprise Party for Retired Pastor.

Last week Thursday, the 6th of December, there was invasion of the home of Rev. and Mrs. W. Fischer, four miles southwest of Wayne, when about thirty of the members of the Salem church, southeast of Wayne came to pay their respects to their pastor of the past fourteen years, and spent a few social hours beneath the parsonage roof. They also left some substantial token of the esteem in which the pastor and family are held by the members he has served so long and faithfully.

Rev. Fischer felt that he was entitled to at least partially retire from the ministry and so tendered his resignation to the two churches recently, he has been pastor of for so many years, one southwest of Wayne and the Salem church southeast of this place. But with the spirit of service which has made him so beloved by his congregations, said that he would preach for them until they might find a successor to suit them. Candidates came, and one was recently called, but he received a louder call to some other place. Meantime, Rev. Fischer had accepted a call to supply a church near West Point, the pastor having died, and thus he has three churches now on hand, and his new home at Wayne will be ready for occupancy next week and he plans to move then. So he has solved the problem by giving the two Wayne churches preaching services one Sunday and the West Point church the next. And that is the way he is starting his retirement.

## Wilbur Coon Shoes

### Are Your Foot Troubles Fit Troubles?

WE'VE found that true in hundreds of cases and corrected the trouble with Wilbur Coon Shoes. Their built-in Special Measurements give you a perfect fit, supporting the foot all over.

More than 200 sizes and 12, AAAA to EEE. Bring us your troubles. Let us fit you properly. Your feet will feel better, look better.

## Ahern's

LOCAL AND PERSONAL

Miss Hope Hoskinson from Laurel was a week-end guest at the Dick Bannister home.

Frank Thielman and daughter, Miss Helen, visited the Carl Neola family at Wisner Sunday.

Auditors are checking the records of county officials at Hartington. The work is expected to require about four weeks time.

Mrs. E. Archer, who has been staying for some time at the W. B. Vail home in this city, went to Bloomfield Monday.

Ted Perry sent five car load of fat heifers to the Chicago market this week. He sent in a half dozen or more cars of finished fat cattle during the past few weeks.

Special attention to all kinds of fillings. Robt. W. Casper, D. D. S.

Mrs. Art Heishied and son from Winslow visited her mother, Mrs. Emma Baker, Sunday.

H. C. Barleyman and E. B. Hanford each sent a couple of cars of fat cattle to the Omaha market this week.

Mrs. A. L. Evans and son drove down from Carroll Tuesday to meet her daughter, Miss Ruth, who was returning by bus from a visit at Beatrice.

Mrs. O. M. Davenport and son Larry from Carroll were here Tuesday, on their way to Sioux City, where they will visit at the C. L. Williamson home.

Elmer Scott of Norfolk attempted to end his life this week with a rifle because of disappointment in love. He is quite likely to recover from the self-inflicted wound.

Otto Rustmeyer from Pilger was here Monday, on his way to Rochester for a diagnosis of his troubles. He visited a bit with his old friends, Wm. Assenheimer while in the city.

Dr. S. A. Lutgen, M. D. All calls promptly answered.

Lawrence Libengood, who has been spending several months in Montana, returned to Wayne last week, and reports that he liked that state well, but was sick for a time, and decided to come home.

There are those who firmly believe that oil will be found beneath the state of Nebraska, as evidenced by the drilling for oil in various places. Just now touching of oil in northern Kansas makes the fellows at Beaver City feel confident that they will find it there.

Joy Hansen, four year old son of Hans Hansen, living near St. Helena, north of Hartington, fell out of the car in which he was riding when the rear door unlatched and opened, while they were traveling about 40 miles an hour. He was not seriously hurt, it is reported.

Conductor McDonald who has a passenger run thru this way between Sioux City and Norfolk, and back again, is back on duty this week, after a bit of vacation, during which he went to his farm near Hitchcock, South Dakota. He reports a fair crop there, and fine weather now for the winter time—and but little snow there.

Several cases of scarlet fever are reported in Cuming county, and several families are quarantined in the southern part of the county, according to a West Point dispatch.

Mrs. Walter Lerner and children went to Madison Saturday for a week-end visit at the home of her folks. They planned to return Sunday, but the young lady may not miss school.

French investment swindle is being delved into, says the news of the week. But we have plenty of those things at home, if we want to investigate. Enough to keep us busy for many moons.

The Pilger American Legion post is sponsoring a father-son banquet which will be held in their new hall on the evening of December 17th. The Auxiliary will have charge of the serving.

Your friends can buy any thing you can give them except your Photograph. Craven Studio.—adv. D6-2t.

Funeral services were held for L. D. Watson, pioneer merchant of Pilger for a quarter of a century, who died following a years illness that kept him bedfast. He passed at the home of a son in Omaha, but was brought to Pilger for burial.

"Smiling" Ralph Mailliard of Randolph, says the Times, captain and tackle of the Creighton University football team, has been honored by a place on the All-Missouri Valley Conference eleven. This recognition was won because of his outstanding work in the hard schedule of Creighton this season.

### See the new suits with the new vests at Gamble's,

Now is the time when death comes quickly from gas from the running motor of auto in a closed garage. It may seem a trifle cool when the doors are open, but it is the only safe way to do, before starting the engine, for it is a deadly gas that seems to kill quickly. Better be safe than have your friends sorry.

The statement of Mellon, secretary of the treasury, that national debt was reduced nearly a billion dollars last year, and we still owe more than seventeen and a half billions. Better reduce the tariff, and it will then produce more revenue. A tariff so high as to be prohibitive does not bring revenue to our treasury.

Mr. and Mrs. F. Krause, West Point, were awakened about 4 o'clock one morning last week when a large truck driven by Mr. Belter, also of that city, crashed into their home with a terrific bang. The steering wheel broke, causing the driver, who was rendered unconscious in the mix-up, to lose control of the machine.

The Pierce County Leader has the following item concerning former Wayne citizens, now residents of Norfolk: "Mr. and Mrs. George Roskopf of Norfolk, parents of Mrs. Frank T. Raubach, and Mr. and Mrs. Julius Ruhlow and the latter's sister, Miss Cora Raubach, spent Thanksgiving in the Frank T. Raubach home in this city."

FOR SALE—Duroc Jersey male pigs good ones; Also pure bred Barred Rock cockerels. Wm. Hoguewood.—adv. N29tr.

Nearly a month ago the Democrat told of the fact that a Pierce county man who worked one day, at a dollar a day for the Harvester company in Chicago nearly a half century before, and neglected to draw his pay. He sent his bill recently and found that his dollar with interest added had become ten dollars, which was sent to him; and Tuesday the story appeared in the World-Herald. Tho it was old news here, the city paper played it up on the first page with a picture of the Pierce man.

### Reduced prices on leather vests at Gamble's.

Over in Cedar county the Clerk of the district court for that county died and there were a number of applicants for the appointment to the vacancy caused by the death of Dick Crouch. Among the candidates for the place we noticed the name of A. B. Shively of Laurel, who will be out of office in that county after January 1st, unless he can by some means win a majority of the commissioners to name him for the place. Being now a member of the county board, he should be assured of at least one vote.

Mr. and Mrs. H. A. Bermel of Randolph were nearly overcome one night last week by fumes from a hard-coal burner. The damper in some manner was turned wrong, and the gas escaped in the house. It was nearing morning when the wife was awakened by the gas, and had much difficulty to arouse her husband, but finally did so, but he fainted on his way to the telephone to call for aid. But they finally got word to a doctor, and he aided in reviving them, and with the house thrown open for fresh air within thirty minutes they were fully conscious—and also aware of very narrow escape they had from death. A later report is to the effect that a defect of the chimney was in part responsible for the gas in the house.

## L. A. Fanske, Jeweler

(My Specialty is Watches)

Mr. and Mrs. B. Cunningham of Bloomfield and early settlers here, says an exchange, entertained Thanksgiving Day at a big dinner. The guests were: F. Weber, Mr. and Mrs. H. L. Sherwood and family and little granddaughter, Miss Hilda Sieh of Herrick, South Dakota, H. F. Taylor, and family of Norfolk, E. B. Story and family of Norfolk, B. B. Story and family of Hubbard, Mrs. Harry Clark and daughter of Hill City, Minnesota, and Mr. and Mrs. J. D. Lumsden of Burke, South Dakota. The guests be-

gan to arrive shortly before noon, by auto from various parts of the country, and at 1:30 gathered at the table to partake of a bountiful turkey dinner, such as only the hostess knows how to prepare, and which was thoroughly enjoyed.

PILGER WOMAN IS  
TULAREMIA VICTIM

Mrs. Richard Karel, Pilger, who has been ill for two weeks, is report-

ed to be suffering from Tularemia, which she contracted from dressing rabbits affected by the disease. A sample of her blood was sent to Washington and the contention of her physician was verified. She is thought to be recovering, although the disease is said to be highly fatal.

Many warnings have been issued by medical authorities in regard to the danger of dressing rabbits, and the public has been advised not to dress them except with great caution.

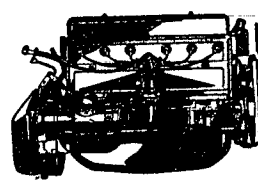

## New Features of- The Outstanding Chevrolet of Chevrolet History - a Six in the price range of the four!

The Outstanding Chevrolet has a marvelous new six-cylinder, valve-in-head engine whose perfected design represents over four years of development and testing on the part of Chevrolet and General Motors engineers. It has numerous advancements typified by a non-detonating, high-compression cylinder head—gasoline pump with filter, and automatic rocker arm lubrication. It provides performance the like of which was never before available in the low-price field—marvelous smoothness, tremendous reserve power, and sensationally swift acceleration—all with an economy averaging better than 20 miles to the gallon of gasoline!

Its marvelous new Fisher bodies display a new order of beauty, smartness and luxury. Additional new features by the score—each an impressive example of automotive progress—contribute to outstanding performance, quiet operation, long life, ease of control and economical ownership.

We cordially invite you to

Chevrolet's new six-cylinder, fully enclosed valve-in-head engine has a high compression non-detonating head. Its piston displacement is 194 cu. in. and it develops 46 H. P. at low engine speed.

### DEFUNCT WAKEFIELD BANK PAID TEN PERCENT, TUES.

The Security State Bank, Wakefield, which was closed several months ago, and which is being operated by the state Guarantee Fund Commission, paid a ten percent dividend to depositors Tuesday.

Wakefield is still without any banking facilities, other than those offered by the closed state bank, and much agitation for the opening of a new bank or the reorganization of the recently closed National bank is being indulged in.

The state commission, which is in charge of the affairs of the Security State bank, is handling checking accounts and deposits for a number of the Wakefield business men and farmers, it is reported.

A number of outside men have investigated the feasibility of starting a new bank in the city, it is said, but many of the Wakefield citizens seem to favor having local capital back the venture.

It is believed that a statement will be issued soon as to the condition of the recently closed National bank, the books of which institution are now being audited, and many favor a reorganization and reopening of this bank when this is done.

### NEBRASKA WOMEN WIN IN MEAT JUDGING CONTEST

Woman asserted her superiority over mere man in knowledge of meats when a team of co-eds from the University of Nebraska won out against

eight teams of men students from as many universities in the Intercollegiate Meat Judging contest held Tuesday, December 4, at the International Live Stock Exposition, Chicago. Misses Louise Genung and Marjory Thompson, both members of the Nebraska team, tied for high individual honors.

Contestants were required to judge quality in an array of beef, pork, and lamb, both carcasses and cuts. Kansas excelled in the judging of beef Nebraska in pork, and Illinois in lamb. The high individuals in each of the meats were: Dale Sheel of Kansas, in beef; Louise Genung of Nebraska, in pork; and J. C. McLean, of Missouri, in lamb.

Nebraska, as winner of the contest was awarded the National Live Stock and Meat Board trophy. The contest rules specify that the trophy must be won three times by an institution to be kept permanently. Iowa State College was the winner last year. By winning this year Nebraska has two legs on the trophy, having won it in 1926. Only three of these contests have been held.

The kid coaster and the automobile have had two fatal meetings in Omaha already, and in spite of precautions that have been thrown out for the safety of the coasters, they seem to be unable to keep the young folks from taking risks.

For milk or cream for daily delivery or for special occasions call phone 417-F-2 the Logan Valley Dairy. We are always on the job.—adv. M18-11.

### WITH THE WAYNE CHURCHES First Baptist Church

Rev. A. G. Downing, Pastor  
"The wounds of the world are bleeding, and they never can be healed by any material things. The only remedy is that brotherhood and healing which emanates from the Gospel of Christ."  
—Lloyd George.

One of the best ways of becoming acquainted with the 'Gospel of Christ' is to be found regularly attending the services of the church, morning, evening and mid-week.

J. H. Anderson, of Knoxville, Tennessee, gives ten reasons why he attends prayer-meeting, one of them is "I cannot stay away because I feel the need of spiritual food. Its too long between Sabbaths to do without food."

Every church meet that appears week by week in our papers is just another invitation to the readers to a spiritual feast—do you avail yourself of the opportunities?

Sunday school at 10 o'clock followed by the morning preaching service at 11 o'clock. Anthem by the choir every Sunday.

The evening service begins at 7:30. This coming Sunday the pastor expects to discuss the following subject:—"The Quality of Our Religion, or Should the Christian Be Peculiar?"

The Ladies Union and The Mission Circle have a joint meeting today at the home of Mrs. Chas. Simpson. The new study book entitled "The New Africa" will be introduced.

All plans for our annual observance of Christmas are now well under way. Detail information in next weeks notes.

### First Methodist Episcopal Church William W. Whitman, Pastor

A fine increase in our Sunday school attendance was recorded last Sunday. We hope for a still further increase next Sunday. Remember, Sunday school begins at 9:45 o'clock.

Morning worship with sermon by the pastor at 11 o'clock. Special music by the choir.

Christmas Vesper service by the choir at 5:00 p. m. See program elsewhere in this paper.

The following were elected at officers of the Intermediate League at their meeting Monday evening. Charlene Brown, president; Jeanne Wright 1st vice president; Charles McConnell, 2d vice president; Clarence Berry, 3rd vice president; Marion Kearns, 4th vice president; Miles Tyrrell, secretary; Donald Whitman, treasurer; Lucile Wright, organist; Helen Steele, assistant organist.

### First Presbyterian Church Fenton C. Jones, Pastor

10:00 Sunday school.  
Dr. J. G. W. Lewis will lead the men's class next Sunday.

11 Morning worship. Sermon, "Just before the first Christmas."

6 Young people's luncheon.  
6:30 Young people's meeting.  
7:30 Christmas cantata by the choir.

This will be one of the best our choir has produced.  
We appreciate the invitation to attend the Candle-light service at 5 o'clock at the Methodist church and hope that many of our people will be present. There will be plenty of time to get back to our own church and hear our choir.

### St. Paul's Lutheran Church W. C. Heidenreich, Pastor

Sunday school at 10 a. m.  
Divine Worship at 11 a. m.  
Luther League at 7 p. m.  
Let all Leaguers be present Sunday night.

A large class in religious instruction has been organized. The first regular meeting will be held Saturday December 29 at 1:30 p. m.

Christmas Eve exercises will be in charge of the Sunday-school and choir. The usual candle light services will be held Christmas morning. The public is cordially invited to all our services.

### Evangelical Lutheran Church H. A. Teckhaus, Pastor

Sunday school 10 a. m.  
German preaching service 11 a. m.  
December 14, choir practice 4:30.  
December 15, junior and senior choir meets at 1 p. m.  
Saturday school 1:30 p. m.  
You are cordially invited to attend our services.

### Grace Ev. Luth. Congregation (Missouri Synod) H. Hopmann

Sunday school at 10 a. m.  
Service in the German language at 10 a. m.  
Service in the English language at 11 a. m.  
Holy Communion will be celebrated in both services.  
Instruction every Saturday at 2:00.

### CATTLE TO CHICAGO

Frank Strahan sent four cars of fat cattle from this station to Chicago, Saturday afternoon, expecting them to be on the Monday market. They were a fine appearing bunch of Herefords, and showed some well toward the market top. Carl Benston and Deak Powers accompanied the shipment, as a sort of body guard.

## Christmas Gifts For Men and Boys!

All the popular brands of Tobacco in jars, humidors, and packages.

You Favorite Brand of Cigars in boxes of 5, 10, 25 and 50. Fancy wrapped, especially for Christmas.

Mereshaum and Briar Pipes of English, French and domestic makes, from 25c to \$10.00.

Leather Goods and Smoker Articles. Cigar and cigarette cases and holders, Cigar Lighters, Tobacco Pouches, Billfolds, Pocketbooks, Key Cases, Ets.

## Wayne Cigar and Tobacco Shop

J. A. FRYDENLUND

### NEBRASKA MANUFACTURERS IN ANNUAL SESSION

Manufacturers of this state have been organized to protect their own and the people's interest, and hold their annual meeting last week, and below we tell of some of the things they recommend, and hope to accomplish:

A platform of industry for Nebraska in 1929 was adopted by the Nebraska Manufacturers' association, at the close of its sixteenth annual convention Thursday at the Fontenelle, with the following planks:

1. Support of the further development of Nebraska's highway system, along economic lines.
2. Continued support to inland waterways development.
3. Encouragement of airplane landing field development in order that Nebraska will assume her rightful place as a center of aerial transportation.
4. Careful thought and study of Nebraska's taxation system, and assistance in development of a system which will encourage, rather than discourage the development of this state.
5. A continued firm stand for a compensation law which is fair and equitable to employee and employer, and

for the best interests of the state as a whole.

6. Assistance to the chancellor and faculty of the University of Nebraska in their efforts to study industry and the further possibilities for industrial development in the state.

7. Sponsorship of legislation making arbitration possible in commercial disputes.

### To Study Sales Tax

The association also passed a resolution recommending that the incoming legislature pass a resolution authorizing the governor to study the question of a sales tax to replace the present personal and real estate tax.

A motion was adopted recommending that survey be made by the association to determine the need for new legislation governing the payment of occupation taxes by corporations in Nebraska.

C. M. Aldrich of Nebraska City, manager of the Morton-Gragson company packing plant there, was unanimously elected president of the association to succeed W. J. Monaghan, Omaha. Mr. Monaghan, unable to attend the convention because of illness, was commended for this work during the past year in resolutions adopted by the association.

Some professed democrats with little brains and less honesty of a good purpose, called a meeting to boom Al. Smith for the nomie in 1932. Smith was not a part of the move, and it fell flat, as it should have done. The governor has said that he did not intend to be a candidate any more—and doubtless meant what he said. But, if the affairs of the nation take a turn so that the people ask him to take the leadership, we doubt if he would refuse. There is a difference between the people and the politicians, and we believe that Smith would listen to the people, but turn a cold shoulder to the politicians.

Butter Fat	.....	.49
Cocks	.....	.07
Hens	.....	.20
Springs	.....	.20
Hogs	.....	\$.67 to \$.75

Reports from Washington are to the effect that the women are making an attempt to capture the republican party, and keep it as their own. Well it is leap year, and therefore perfectly proper for them to do the proposing.

Lincoln won the Vet hospital, and it is said that very fine site has been selected near that city. We hope the committee made the best possible selection—the veterans deserve the very best.

A poultry and rabbit show opened at Norfolk Monday. Poultry is one of the great industries of the state, and one that should receive more attention on many farms than it does. There would be profit in giving that branch of agriculture more care. Just now heavy hens are quoted at 20 cents the pound—that is a dollar each for a hen that will market in that class—and the biddy has perhaps paid her keep and more with eggs in the year or two since she commenced to produce. We know not whether many Wayne poultry folks are taking a part in the show or not.

While peace negotiations—for world peace are going forward, a little war between Paraguay and Bolivia is under way. Yes, while our president elect is in the great southland on a peace mission. It might also be noted that while all of the peace negotiations are going on in the old world, France is asking the biggest war budget in recent years for its army, and our own president, with the Kellogg peace pact pending is asking added millions for our navy. It looks as the some interests are wanting war for the profit there may be in it for them. The graft of war is no doubt the

greatest obstacle to peace for the so-called civilized world.

A plan is under consideration now for irrigating two million acres of Nebraska lands along the Platte river between Keystone on the North Platte and the mouth of that stream at the Missouri river. The greater part of their proposed irrigation will doubtless be above Grand Island. When the people stampeding to Pike's Peak for gold, and the freighters who made the weary trip of 600 miles by ox team, sixty or seventy years ago, often digging a bit of a hole in the sands of the Platte river bed for water few indeed, if any of them, dreamed that the desert was some day to be a garden spot of a great state, or watered by that stream.

The Northwestern railway, a branch of which comes thru Wayne, sends us a glowing account of the possibilities for agriculture in the Belle Fourche district of the Black Hills. It states that the United States (in spite of a high protective tariff) only fills the national sugar bowl 42 percent full, and then invites attention to the fact that this rich agricultural district now has a sugar factory, and that others will be built and operated in the district as soon as the production of sugar beets demands it. It tells that beet growers there the past season have received returns from a single crop on land which Uncle Sam sells at from \$35 to \$65 per acre with plenty of irrigation water assured, got from \$45 to \$75 clear per acre for their beet crop. Some one should pay for advertising such agricultural prosperity. It should be profitable.

Sixty years ago, when the writer was about the age of the lads who are now growing champion steers that are bringing them thousands of dollars in price and prizes, it was the fashion to give the boys a pig, a calf or a colt; but when the animals were marketed or of age to be of use, it always seemed to belong to dad—or nearly always, at any rate, but as a rule that was all right, for the animal, what ever it was, was not cared for as rule by the one to whom it was given, but took its chance with other stock at Dad's hay or grain, and was not a special charge to the one to whom it was given. These thots are brought to mind by reading of the success of two or three lads in Iowa at the International Stock Show, just held at Chicago. In those other days conditions were very different, and big stock shows were not known, and the breeding and care of all manner of live stock had not attained the place it now occupies in the public eye and mind. Scrub stock was the rule, now it has come to be the exception.

Santa Claus is due in 12 days. Are you ready?

## Winside News

Mr. and Mrs. H. E. Siman and Dr. and Mrs. Paul Siman of Wayne drove to Sioux City Tuesday.

The Home department met Tuesday afternoon with Mrs. John Miller, a covered dish luncheon was served. Nine members and ten guests were present. There was a Christmas tree and the exchange of gifts. The next meeting will be held at the parsonage with Mrs. Geo. K. Moore as lesson leader.

The Cline Troutman family have been sick with the flu the past week. Mrs. V. L. Siman has been confined to her home for several days by illness.

Fred Schroeder had stock in Omaha the first of the week.

Wm. Bayes left Wednesday for Omaha where he was called on the federal jury.

The Odd Fellow lodge met Monday night with fourteen members present. Only the usual routine lodge business was transacted.

The Bridge club were entertained at a seven o'clock dinner Monday night by Mr. and Mrs. I. F. Gaebler.

The Junior class of the high school presented the play "Aron Slick of Pumpkin Creek" to a good-size crowd at the high school auditorium Tuesday night. Aaron Slick was Arlington Prince with Sis Briggs in the person of Mildred Moses outwitted the city slicker, Mr. Merridew, represented by Raymond Wylie who with his niece, taken by Irene Weible were summer boarders at the home of Mrs. Merry a widow, who was Wilma Lewis Merridew tried to buy Mrs. Merry's farm but only landed in trouble himself thru his attempts to defraud.

Over Ahern's Store  
Wayne, Nebraska

George Moore and Opal Schneider had parts that helped very materially in showing up the city slicker and in showing that country folks are not always so slow as the city folks imagine. Two scenes were in the country in Oklahoma and the third in a cabaret in Chicago. The play, was well presented, and two vaudeville acts between act s were given by Virgil Keeney and Allen Francis. The Winside orchestra also furnished several instrumental numbers.

## WAYNE SCHOOL NOTES

(continued from page five)

Kilbourne, Helen maboot and Jane Randall. The B class had a perfect record this quarter.

Dorothy Hook received 100 on her report card in spelling this six weeks, because she had had no grade lower than 100% during the entire term.

## FOURTH GRADE

The fourth grade were invited to a Thanksgiving party given by the third grade.

Dorothy Heidenreich is a new pupil in the fourth grade.

The pupils who were neither absent or tardy last six weeks are: Carroll Peterson, Buford Johnson, John Thompson, Ray Bonawitz, Geraldin Gamble, Neva Jones, Ruth Judson, Marjorie Lerner, Margaret Randall, Wilma Baker, Iocan Barnes, Ardath Johnson, Eva Liveringhouse, Marie Thies, Lois Thompson and Helen Westerhouse.

The fourth grade is making hot dish mats for Christmas.

Neva Jones was ill Monday and Tuesday.

The story for story hour is "Five Little Peppers Abroad."

Helen Bald has left the fourth grade in Wayne and will go to Winner, South Dakota.

## THIRD GRADE

The third grade entertained the fourth grade at a Thanksgiving party Wednesday, November 28. They dramatized "The First Thanksgiving" for their visitors. The fourth grade also gave a playlet. The children brought popcorn, candy and apples from home.

The third grade is working on another playlet "The Lonely Fir Tree" to be presented at Christmas time.

The pupils are making booklets of their spelling papers and are trying to see how many hundreds they can have.

Mrs. Ringer and Mrs. Sund visited the third grade Wednesday.

The Art class made covers for the Spelling notebooks.

## SECOND GRADE

The second-grade children gave two playettes for Thanksgiving. The first one was "The First Thanksgiving" and the second was "Pocahontas."

Guests present at the Thanksgiving program were: Mrs. Piepenstock, Mrs. Carl Wright, Mrs. Felber, Mrs. Sherbahn, Mrs. Poul Mines, Mrs. J. G. Mines, Mrs. George Roland, Mrs. Vath, Mrs. Ringer, Mrs. Hackmeir, Mrs. Gildersleeve, Mrs. Bradford, Mrs. W. Kemp, Miss Bernadine Sherbahn, and Mrs. Ray Larson.

All the grades are now carrying on a sale of Christmas stamps. Second grade students have sold nearly \$10.00 worth. They have sold about eight hundred stamps and are working to sell 1,000.

The children in the second grade have been making Christmas presents for their parents.

Phyllis Kilbourne was absent from school two days on account of sickness.

A new student, J. T. Martin, has recently entered the second grade.

## FIRST GRADE

Margaret Larsen had a birthday party December 3. The children had a treat and played games.

Mrs. Roy Beeks visited the first grade Wednesday, December 5.

The children in the first grade were weighed December 5. The following received stars for being up to normal: Mildred Franzen, Margaret Larson, Beverly Strahan, Scottie Thompson, Ardene Ulrich, Darrel Johnson, Kenneth Peterson, J. M. Pile.

For the six weeks ending November 23, the following children had perfect attendance: Bobby Theis, Scottie Thompson, Wilmer Ellis, Kenneth Peterson, J. M. Pile, Warren Mau, Arlene Ulrich, Margie Thompson, Catherine Cavanaugh, Mildred Franzen, Carol Beeks, Beverly Strahan, Irene Haberger, Ermajean Dunn.

The first grade is sorry to lose Marguerite Forth who has gone to Missouri to live.

The first grade has been selling seals for the support of the work of the Nebraska Tuberculosis Association.

The first grade pupils are beginning to make Christmas decorations and gifts.

Economical Power for  
Years To Come!

## John Deere Farm Tractor

In the John Deere Tractor you get power you can depend upon, month after month, year after year, at costs that are surprisingly low.

Great Power—Light Weight—  
You Want Both

In the tractor you buy, you want ample power to do your field and belt work in volume that will effect real economies.

But you don't want to drag around a lot of surplus weight to eat up power, fuel and oil. It's the successful combination of light weight, strength and power that makes the John Deere the outstanding

value in the tractor field today.

On farms of all sizes, in all parts of the country, this powerful tractor is establishing records for less fuel and oil consumption—for low upkeep—and for continuous, uninterrupted service month after month, year after year—records difficult for other tractors to equal.

Let us show you why the John Deere is the tractor best suited to your farm needs.

## Wayne Public School News

Prepared by the class in Journalism

### OFFICE NOTES

The Board of Education has considered buying an adding machine. A committee consisting of C. E. Carhart and L. A. Fanske has been appointed to make the purchase.

The need of an adding machine for use in commercial classes and in the office and for use of teachers has been keenly felt for some time.

An adding machine has been borrowed for temporary use in order to facilitate the making of some statistical records.

Monday and Tuesday have been set aside for giving private band lessons to beginners and Wednesday has been set aside for giving lessons to advanced classes.

A board meeting was held Monday night December 2. Usual bills were allowed and a legal matter concerning a sale of former school and not properly entered was taken up and proper legal entries were made.

Mr. Hook and Miss Bacon are making a study of correlation of scholastic records and intelligence tests of high school students and will present them at the next teachers meeting.

A study of reading rates and abilities is being made by Miss. Mielenz and Mr. Albert.

### MUSIC

Material for the music contest to be held at Lincoln next spring has been ordered for the glee clubs.

### COMMERCIAL

Margaret Fanske, Jeanette Lewis, and Irol Whitmore made 40 words a minute in typewriting tests last week.

Fern Wamberg and Esther Thies

**Don't Make a Toy Out of Baby**  
-Babies Have Nerves-

By RUTH BRITTAIN

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, carried to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhoea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. E. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

have passed the 100 word a minute. Grade Writer Shorthand test. They will receive certificates for this work.

### DEBATE

Trial debates are to be held in the high school assembly after school December 12, 14, and 17. Contesting teams debating on the respective days are: Jeanette Lewis, Evelyn Feiber and Zola Wilson versus Eileen Emmons, Letha Porterfield and Irol Whitmore; Lavern Larson and Dorothy Davis versus Helen Hansen and Mary Jan Morgan; Jeanette Lewis, Evelyn Feiber and Zola Wilson versus Paul Peterson, Reo. Mears and Dick Fanske.

Members of the district team will be chosen at this time. The rest will be used to compose an out-of-district team for practice debates. Judges for the trial debates have not yet been chosen.

Work on inter-class debates will be started soon. All classes except the freshmen have chosen their teams. A silver cup will be awarded the class with the winning team.

The two topics for extemporaneous speaking to be used in the declamatory contest for this district next spring are: "Water Power and Waterway Development," and "International Disarmament."

### ATHLETICS

The first basketball game of the season will be a practice game with Winside high school, Friday, December 14.

Those taking basketball are Doc Surber, Carl Peterson, Paul Peterson, Walter Sund, Noal Isom, Wilber Porterfield, Charles Berry, Walter Bressler, Fred Davis, Max Hendrickson, Fred Dowling, Kenneth Dowling, Fred Cross, Lloyd Ertleben, Dean Hughes, and Vernon Hughes.

Initiation of new members into the W club will be Friday, December 21. Those to be initiated are Charles Berry, Wilber Porterfield, Charles Ingham, Lowell Gildersleeve, Orval Rhodes, Max Hendrickson, Noal Isom, and James Morris. Although Walter Sund, Fred Dowling and George Downing are members of the W club they will also be initiated as they have not been initiated before.

### SENIOR NOTES

The French II class has begun the reading of a French play, "Les Americains Chez Nous," by Boleux.

Helen Heidenreich is a new student in the Senior class coming here from Leigh, Nebraska. Her entering the Senior Class brings its number up to that of the class of 1923 which with 43 members was the largest class ever graduated from the high school.

### ASSEMBLY NOTES

School was dismissed Wednesday evening for two days of Thanksgiving vacation.

Report cards were given out Tuesday November 27.

Helen and Ruth Heidenreich are new students in the high school.

A. Icyda of Japan spoke before the assembly Tuesday November 27. Mr. Icyda thinks the United States is better than Japan in the respect that Japan has the caste system while in our country every citizen has an equal chance to climb to the top rung of the ladder.

Mr. Icyda showed some very artistic needlework which had been done by Japanese girls. He also had with him some hand-painted pictures which

were for sale.

The assembly voted on the ring designs last Thursday. Design No. 2 which bears the two gates with "Wayne" written across them, was chosen. This will be the standard design for class rings.

Mrs. Pollard has written three new songs. One is a round of four parts. The other two songs are sung to the tune of the Illinois state song. The latter are toasts to the boys and girls who earn Wayne high school letters in any of the activities of the school. Last Friday afternoon mimeographed copies of the songs were given to the students and the songs were practiced. The songs will be used by the Pep club and the student body at basketball and football games.

### JUNIOR NOTES

Helen Heidenreich is a new student enrolled in the physics class.

The study of the chapter on machines has been completed by the physics class. This chapter includes the six simple machines: lever, pulley, wheel and axle, inclined plane, screw, and wedge.

Experiments dealing with machines have been performed.

The three acts of the Junior play "When's Your Birthday," have been memorized by the cast. Play practice is held every day. The Junior play is to be given Wednesday December 19, at the Gay Theatre.

### SOPHOMORE NOTES

The morning division of ancient history is studying the feudal age, from Barnard and Roobach's "Epochs of World Progress," and the afternoon division is making a study of Charlemagne, from Robinson and Breasted's "History of Europe."

The Sophomore class is represented in the Pep club by four members.

### FRESHMAN NOTES

The ninth graders are studying the "Lady of the Lake." The class has finished one semester's work in their rhetoric. The pupils are learning how to write invitations and are going to begin a study of grammar.

Cotton is now the subject of discussion in the first year agriculture class. A chart has been made upon which the grade of each member is to be posted.

### EIGHTH GRADE

Telephone screens and wastepaper baskets are being made for Christmas gifts.

Recitations, stories and songs made up a short Thanksgiving program on the Wednesday before vacation.

Marion Jones was absent for several days.

Grammar students of the A class are having a thorough review of the parts of speech. "Simple and compound interest is being studied by the B Arithmetic division. The B grammar class is studying compound and complex sentences.

### SEVENTH GRADE

The A class has begun a complete study of verbs which will require some time for study.

The different kinds of sentences and their meanings are being studied by the B class.

Members of the A class are struggling with compound interest.

In the arithmetic contest in the B class, the boys are one point ahead of the girls. "Arctic pastures in Europe" is the chapter under discussion in the A geography class.

The B class is learning all about Argentina.

A Thanksgiving party was held by the classmen. Two teams were chosen Yale and Harvard. These teams took part in the various contests and games.

Kathryn Keame left Tuesday for Omaha where she will live. Warren Bald moved to Winner, South Dakota, Friday. Both students were from the B class. However Louise Heidenreich formerly of Leigh, entered the class. This places the B class enrollment at 22.

Tuberculosis stamps are being sold and the students will receive proper awards.

### SIXTH GRADE

The B class is studying decimals in arithmetic. The A class is studying denominate numbers.

The geography A class is studying Colorado farms located in the lava soil region of the Columbia plateau.

The history B class found out that the European countries were settled by hordes of barbarians from Asia, which gave rise to our present European nationality.

The hygiene class is studying the effect of cereals and of water upon the body. They were surprised to find that seven-tenths of the body is water. Stanley Norton has had a 100% spelling for three weeks in succession.

The sixth A class is completing the work so they will be able to enter the 7th grade the coming semester.

The art classes have been studying the picture "Deer in Forest, Twilight." The pupils mounted the picture and wrote a story about the pic-

ture. They also wrote a story about the life of the artist. The pupils are making Christmas designs too. Plans are being made for a Christmas program.

The sixth graders are selling Christmas seals.

Miss Nora Colligan of Lyons, Mr. Stoven, Mrs. Vath, and Mrs. Bernston were visitors last week.

June Gayle Jones was absent two days on account of illness.

### FIFTH GRADE

The girls of the fifth grade are embroiling tea towels for Christmas presents for their mothers. The boys are making wooden toys for their younger brothers and sisters. This work is done out side of school hours, at noons and recesses.

The art class has finished the Indian heads which they were working on. These have been put up for decorations in the room.

The A class will finish their review on the geography of South America. They have done much reference reading in this review.

In a preliminary spelling test given Monday all but six received 100%. This means that those receiving 100 will not need to take spelling until Friday. Every member of the class is striving to receive 100 on Monday so that time during the week can be used for supervised study.

The fifth grade is planning a Christmas program. So far a play has been the only thing practiced, but if every thing goes well the program will be given before the parents.

The Wednesday before Thanksgiving the language class told stories and read poems about Thanksgiving. Afterwards the pupils were treated to cakes.

Those receiving perfect attendance slips this quarter are: Frances Baker, Gladys Downing, Dorothy Hook, Margaret Jones, Josephine Ley, Verba Berry, Ila Gildersleeve, Ima Jean (continued on page four)

### When Gasoline Was Dumped Into Ocean

In the process of distilling petroleum, the lighter oils, naphtha and gasoline are first obtained, and these were considered waste products for many years. Kerosene, the heavier oils and greases, constituted the great demand, and gasoline had only a limited use in exceedingly small quantities, such as the cleaning of fabrics.

Not only was gasoline practically useless in the "good old days," but it was dangerous because of the attendant risk of fire which was ever present wherever quantities were stored. Millions of gallons were loaded into huge tanks on barges, transported far out to sea, and there dumped. Thus was the fire hazard averted.

The advent of the internal combustion engine changed all this, and gasoline in a few years became the principal product of the petroleum trade. Kerosene lost caste with the coming of the electric light. The development of the automobile made the petroleum industry one of the richest of the nation, and the "dangerous byproduct" became one of our principal articles of trade.

In the early days of the automobile, when fuel was cheap, few manufacturers paid much attention to operating costs of their cars. Automobiles were costly, and the men who purchased them were wealthy. Gasoline was comparatively cheap, and the early automobiles used plenty of it.

Modern times have changed all this, and economy of operation is one of the essential requirements of the present-day automobile. Exhaustive tests are made and every available scientific aid is used in this research.

### Great Britain Noted for Varieties of Cows

Recently a local contemporary informed its readers that a certain Siamese nobleman, whose interests in the dairy industry are well known and meritoriously popular, has Australian cows. He said that he hadn't that his cows were Zebu, the Indian humped cow, or the purely native one.

Which leads us to remark that of all the lands on earth Great Britain presumably has the greatest number of breeds of cows. The Royal Agricultural society recognizes the Short-horn, Hereford, Sussex, Welsh, Long-horn, Aberdeen-Angus, Belted Galloway, Galloway Park, Dairy Shorthorn, Lincolnshire, Red Shorthorn, Devon, South Devon, Red Poll, Blue Albion, British Friesian, Ayrshire, Guernsey, Kerry and Dexter. Which would seem quite a lot for the small area that is their habitat.—Siam Observer.

### The Native Doctor

The native trained in medical work is becoming a main factor in bringing about the new day in Africa, states the Missionary Herald, an English Baptist monthly. It says further: M. Louis Franck's humorous description of the native medical assistant confronting the witch doctor could be echoed by every missionary. "Standing before the witch doctor he says to that ancient charlatan—'You are an ass,' and then proceeds to prove it.' 'Look,' says he, 'through the lens of my microscope at the minute creature shown there. This is the cause of disease, not the entrance of an evil spirit. You know nothing at all about it. I am the one who knows.' Hence the end of the witch doctor's influence."

# Herschel

## A New Style Washer at an Old Style Price

This new Herschel washer has the new and up-to-the-minute features of modern washing machines . . . and yet it sells for a lot less than you would expect to pay for a high class machine. In fact, IT IS A NEW STYLE WASHER AT AN OLD STYLE PRICE.

Before you buy a washer, you should come in and see the Herschel or have us bring one out for a demonstration.

Engine power or electric motor hook-up attachments are available.

Although this washer sells at a very low price, it is not a cheap machine. It is an all metal machine and is built to last and give years of service.

### OUR NAVAL PROGRAM ATTACKED

London, December 5.—Field Marshal Sir William Robertson, former chief of the general staff, in a speech today, declared that the United States "influenced by imperialistic tendencies, apparently means, whatever happens, to go on increasing her navy and her official attitude on the question of armaments that not infrequently bear a close resemblance to Germany's claims previous to the tragedy of 1914."

The marshal, who was a prominent figure during the World war, was addressing a peace conference held in connection with the League of Nations

union and presided over by Viscount Cecil.

Sir William said that the United States might be fully entitled to take her own course without care or thought for the interests and opinions of other states, but it was nevertheless disquieting to reflect that she could not attach much importance to the League of Nations or to the recent Kellogg renunciation of war pact or she would not be so anxious about her navy.

Dr. Young's Dental Office over the Ahern's store. Phone 307.—adv. fr.

## Now Is The Time

Better be thinking about those snowstorms and cold winter days that will soon be here, and get ready for them.

Save handling charges . . . and be sure of getting the very best grade of coal by having your coal delivered right from the cars of an early shipment.

## ABERDEEN SOFT and LEHIGH VALLEY HARD

will be among the first arrivals.

Rock Bottom prices will be quoted on the early deliveries, come in and see us.

## LIGHTS KEEP HENS LAYING IN WINTER

Winter means nothing nowadays to the hens that produce New York's 6,000,000 eggs daily.

It used to be that the season of short, dark days was vacation time for the pullet. If she laid an egg every three or four days, she had done her duty. But now modern efficiency methods have taken her in hand. Winter days are made as long as summer ones by electric lighting of the chicken houses, and the thousands of suburban poultrymen of New York, New Jersey and Connecticut are ringing up profits at the season when prices are highest.

Just how the artificial lighting fools the hen into believing that winter never comes is explained in the *Farm Journal* by Leslie M. Black, poultry expert of the New Jersey Agricultural college, who reports on a six-month test made with 166 flocks of pullets.

Oddly enough, Mr. Black found that one method of lighting worked better than others and produced 10.7 more eggs per bird over the period of the test than when no lights were used.

"Three systems of lighting are most generally used," he explains. "The first is the 'evening lunch' system, when the houses are lighted for an hour at night, usually between 8 and 9, or 9 and 10. The second, or morning lights, plan consists of turning on the lights before dawn. The third plan is to use the lights both morning and evening so that the length of the day is made to equal absolutely the length of night."

"This last system seems to have given the best results. Under it the pullets averaged 83.6 eggs per bird for the period. It produced 10.7 more eggs per pullet than when no lights were used, 6.5 more than under the 'evening lunch' plan, and 1.8 more than the morning lights system."

## Size of Male Is One-Half of the Turkey Flock

Like begets like, and there is an old saying that the male is one-half the flock, and he is easier to produce over standard in size than the female. But don't expect the male to overcome all the faults of undersized hens or poor matings. Again, do not mistake coarse bone for size. Avoid the long-legged crane-like specimen with no breasts. This is caused by breeding for size only and not properly mating. During the last few years, as conditions have improved, the price of turkeys has advanced with an increased demand. There seems to be a tendency to want extra large toms, and some breeders have put too much stress on size only, when improperly mated, resulting in off-shaped birds which place them in the No. 2 class on the market.

Of course, size is a very important item and some of our best breeders have been able to attain weights up to 45 pounds in a yearling. Again many injure their birds for breeders by excessive fattening to attain weight to meet that demand for size.

## Cater to Fancies

Notwithstanding that some of the whims and fancies of the market may seem ridiculous, it is the wise poultryman who caters to them. In making sales, appearance is a factor. A plump, neatly-dressed carcass, free from pin feathers, will attract the eye of the buyer. While quality of flesh is not necessarily guaranteed by yellow legs and yellow skin, the American market calls for it and should have it. He who quarrels with the demand of the market, or tries to reform it is working in his own light.

## Good Green Feed

Alfalfa hay, preferably of the last cutting, provides winter green feed for poultry on the farm of P. D. Barnes, Pottawattamie county, Iowa. Mr. Barnes makes winter egg production a specialty. "I have raised stock-beets for my hens," said Mr. Barnes, "but I saw no noticeable improvement in egg production. The hens seemed to produce just as well on green alfalfa as when the beets were used."

## Poultry Breeds

There are a great many different breeds of chickens suited to various poultry raising conditions. In general the breeds are divided into four classes—American, Asiatic, English and Mediterranean. All birds of the American class, which includes the Plymouth Rock, Rhode Island Red, Rhode Island White, Wyandotte and Jersey Black Giant, have qualities which make them good producers of eggs and meat. However, the strain and breeder is most important.

## Egg-Eating Habit

The egg-eating habit is started by birds getting a taste of eggs that have been broken. It usually starts when hens are not getting enough minerals and are laying soft-shelled eggs. Offenders usually can be picked out because they have egg yolk on their beak. These should be sold, eaten, or isolated from the flock. Oyster shell should be kept before the birds to supply lime. Darkened nests with plenty of straw will decrease the chances of eggs being broken.

## Traits Revealed by Abnormality in Nose

Is it true that singers frequently have noses that are too broad to conform to the accepted standards of feminine beauty?

The typical singer's nose is said to be wide at the top and broad and muscular in the wings. It has been observed, too, that singers whose noses were, to begin with, rather delicate and slender, acquired in the course of their training broad noses of the sort described. Jenny Lind had a nose that was even uglier. The nostrils were broad and the ridge though spacious was flat. This formation was said to be especially favorable to a soprano voice.

Napoleon Bonaparte chose men with large noses for responsible stations, because, as it was explained, such noses allowed free and full inhalation, and thereby kept the brain cool and clear. However, among notable men who possessed quite small noses might be mentioned Peter the Great, Thomas Jefferson, Oliver W. Holmes, Robespierre and Thackeray.

Width between the eyes is said to indicate ability in judging distances and conditions. It was especially marked in the face of George Washington, who was an able surveyor and, of course, an excellent judge of conditions.

## French Nation Shown as Great Landowner

The greatest landowner in France is the French state. It possesses palaces, castles, mansions, buildings of all kinds, and forests—besides roads, ports, railways. A record of all its properties, just drawn up, reveals a total value of \$3,800,000,000. The castle and park of Versailles are estimated at \$240,000,000. Fontainebleau is much cheaper, \$4,280,000, and its wonderful forest is worth only \$2,000,000. Also, the lovely castle of Azay-le-Rideau, in Touraine, is entered in the inventory for the ridiculous sum of \$20,000. To make up for that, the Louvre, in Paris, with its immense palace and the Tuilleries garden, comes up to the sum of \$200,000,000.

But the French administration refused to assign any monetary value to certain monuments, such as Notre Dame de Paris and the Arc de Triomphe, which symbolize a glorious past, or to the war cemeteries in foreign countries, under the French flag, where lie the children of France who sacrificed their lives for justice and liberty.—Washington Star.

## Moved All Ports Inland

In ancient times so terribly did the sea rovers infest the Chinese coast that one emperor with a stroke of his vermilion brush solved the problem by ordering all seaports to move inland 20 miles. Vast populations and great cities were moved from the mouths of rivers by this one act. Old walls and dwellings were abandoned; new walls and properties were set up.

The old sites were used as observation points, and fortresses were located near them, so that it was no longer possible for a fleet to descend without warning upon the inhabitants of an unsuspecting city. This is why, today there are no ports on the actual seacoast of China.

## Loss of Food Animals

The annual loss of food animals in the United States, through disease and neglect, is estimated to be in excess of \$200,000,000. It is likely that this estimate on the part of government officials is far below the actual loss.

The indirect loss defies calculation, because we cannot possibly estimate its effect upon the cost of living for both the rural and the urban population. A great variety of maladies afflict nearly all animals which are used for food. They are not only affected with as many diseases as attack mankind, but many young animals die from neglect.—Thrill Magazine.

## Music Not Sports

In a small Scottish town there had been a musical recital that afternoon at the town hall by a well-known Edinburgh pianist. The audience and the performer had departed, and the caretaker was locking up, when the telephone bell rang.

"Hello!" said a voice. "Is that the town hall?"

"Aye."

"Has Mr. Bruce Ferguson been there this afternoon?"

"Aye."

"Did he play Bach?"

"Awa wi' ye, mon. This is a town hall, no' a fitha' field."—Musical Mirror.

## Museum Gets Early Clock

The British museum has just acquired what is believed to be the first clock made to go for a year with one winding. It was made by Thomas Tompkin, the "father of English watch-making," in 1678.

Each hour period on the dial is divided so that the 12 hours actually represent 24.

The clock had been missing for over a century, and was discovered lying in a cupboard.

## The Head in Question

Edwin—if I do say it myself, I fancy I've a pretty good head on my shoulders. Angelina—it's not really beautiful, Edwin. It's the way I do my hair.

## Saber-Toothed Tiger Victim of Toothache

Studies being carried on at the Los Angeles museum show that the saber-tooth tiger, traditionally associated with the struggles of early man, had tooth disturbances, which they bore without the benefits of painless dentistry.

More than 1,000 jaws of this mighty feline are in the possession of the museum and some thirty observations are being made on each jaw. A difficulty in the work is that so many teeth dropped out after the animals left their bones in the asphalt pits, at Rancho la Brea. Scarcely a half dozen jaws in the whole 1,000 possess full complements of teeth.

Caries, or tooth cavities, have not been found in the saber-tooth jaw, although there are many jaws where the teeth are greatly worn. Pyorrhea is probably present, but rare. Impaction, the bane of modern human "wisdom-tooth" sufferers, is clearly shown in jaws of the saber-tooth.

Alveolar abscesses show clear in some of the X-rays. Dead teeth are known in which the root canal is filled in. The root itself becomes bulbous and acquires excessive growths, as in human teeth. The dead teeth are always blackened.—Kansas City Star's Science Service.

## Wedding Cake Made Symbolic by Romans

Some one has credited the invention of cakes to a certain Thearion, a baker, who lived in Sicily in the Fifth century B. C. Certain it is that the Romans were extremely fond of pastry. Cakes or "galettes" appeared on the altars, at the tables of the wealthy, and in the scanty repasts of the poor. When the Romans invaded England they took with them the custom of breaking a cake or biscuit over the bride's head.

The fragments were picked up and given her to distribute among her friends. The custom betokened fruitfulness, hospitality and prosperity and was in vogue many centuries after the Romans left England. Wedding cakes came to be composed of many rich and aromatic ingredients and were crowned with an icing of sugar and bitter almonds—emblematical, it was said, of the mingled pleasure and pain that attends married life.

The Teutonic pagans also had their customs of offering Yule cakes of fine flour sweetened with honey to the god Thor, which in time became our Christmas plum cake.

## Origin of Playing Cards

Many nations claim the invention of playing cards, but it is generally believed that they came from Asia, probably China. The great Chinese dictionary (1678) states that they were invented in the reign of the Emperor Seun-ho in 1120 A. D. Some authorities are of the opinion that they were invented in 1390 to amuse Charles VI, king of France, who was subject to fits of melancholy. The inventor proposed to represent the four classes of men in the kingdom—the clergy of hearts; the nobility and military by the points of spears, now known as spades; white diamonds stood for citizens, merchants and trades people, the clubs referring to peasants and farmers.

## Ocean Temperatures

The weather bureau says that available figures of ocean surface temperatures for a five-year period for the North Atlantic ocean only, show the greatest annual ranges as between August and January to occur over that section of the ocean extending between Newfoundland and southern New England. Within this area the average annual extreme is about 23 degrees. The maximum range is 25 degrees, over the 5-degree square covering the western end of Massachusetts bay and the waters immediately south of New England. Here the extremes—midsummer and midwinter—are 68 degrees and 43 degrees.

## The Call

The late Marcus Loew, the movie millionaire, said one day to a New York reporter:

"When a man don't like his work his work don't like him."

"A friend of mine hurried into his office and found his clerk asleep one morning at ten o'clock. It wasn't the first time, either."

"My friend waked the clerk up and said:

"'You can go, Meyer, at the end of the month.'"

"'My gosh,' said Meyer, 'what need to call me so soon, for that?'"

## Gems From Doctor Johnson

On this occasion Goldsmith, Boswell, and Doctor Johnson were making merry in a hay field.

Boswell—Sir, how does a horse take his hay?

Goldsmith—Sir, a la cart. You might know that.

Doctor Johnson—Why, sir, I don't know as to that. Some horses like it a la moved.—Louisville Courier-Journal.

## Sure Sign

Little Robbie was bragging to his small chums that they had a new little girl at his home.

"Why, Robbie!" exclaimed his mother, overhearing the conversation, "baby's not a girl, he's a boy. What made you think he's a girl?"

"You can't fool me," stoutly maintained Robbie. "Of course it's a girl; ain't you powdering it all the time?"

## Dispute Over Origin of Frontier Weapon

Two slightly different stories appear to have been passed down to posterity concerning the origin of the bowie knife, famous as a weapon in the days of Texas independence, says a writer in the *Detroit News*. "One of these tales has it that the weapon was made by Jesse Cliffe, blacksmith, an employee of Rezen Bowie, father of the man generally known as the inventor."

Some time after the invention of the knife James engaged in an altercation with Maj. Norris Wright which resulted in Wright shooting at James. The latter was saved when a silver dollar in his pocket deflected the bullet. Drawing his own pistol, James aimed at Wright—but the trigger snapped. His father then gave James the knife, saying, "This will never snap."

The other story of its origin gives to James Bowie entire credit. He is said to have made a model of the knife and a Louisiana blacksmith fashioned it for him. Major Wright appears in both stories, although in the second he is supposed to have shot Bowie in the leg. It was this circumstance, the second tale contends, that led James always to carry the knife on his person thereafter.

## Shoes Discarded by South Sea Islanders

A party of 24 South Sea Islanders from the islands under Japanese mandate arrived in Tokyo recently on a sightseeing tour of the country. It was their first trip away from their native habitat.

They were barefooted when they arrived third class on a Japanese vessel at Yokohama. Among the petty dealers who met the ship was a shoe salesman who soon convinced the entire party as well as their guardians that they would need shoes before they had gone far in Japan.

Orders were taken for 24 pairs, and without measurements the entire lot was delivered on the ship before they disembarked. The natives succeeded in donning the shoes, but by the time they had walked the distance from the pier to the railway stations to get to Tokyo they were howling with pain.

It was the first time they had worn shoes and their new footwear, in addition, was ill-fitting and misshapen. To a man, the natives, once boarding the train, took off their shoes and refused to wear them again while they were in Tokyo.

## Couldn't Fool Langtry

At the zenith of her stage career Lily Langtry displayed a business acumen that made her manager feel about as useless as the varnish on an adding machine. The manager, Edward Michael, in a book of reminiscences, relates of those bygone years that the English actress had "A Napoleonic genius for detail and when planning a theatrical campaign, and, indeed, in all business matters, few things escaped her." He adds that "she was as thorough in financial as in other details and knew to within \$100 or \$150 what her credit balance was at any moment. Furthermore, by some process of mental calculation she would estimate the worth of the house to within a few dollars on the rise of the curtain."

## Sundown

A woman who recently had occasion to visit one of the cemeteries called the superintendent and inquired:

"Is the cemetery open this afternoon?"

Being informed it would be open, she asked: "Will it be open until late?"

The superintendent replied: "It will be open until sundown."

The woman again inquired: "Will that be according to daylight saving time or standard time?" And the superintendent replied:

"My dear madam, the cemetery association cannot change God's time."—Indianapolis News.

## Individual Progress

If the popular saying, "There is nothing new under the sun," is surely not strictly true, nevertheless it is quite accurate to state that progress due to any one man is comparatively small. Humanity moves forward at a slow pace, but the thousand-fold accumulation of short steps forward has altered the face of the world. This progressive revolution has only been possible because men have had a thorough knowledge of the accomplishments of their predecessors.—Scientific Monthly.

## Significant Number

Forty is a number that has been regarded as peculiarly significant. The idea may have originated with readers of the Bible, who notice that Moses was 40 days on the mount, Elijah was fed 40 days by the ravens, the rain of the flood fell 40 days, another 40 days elapsed before Noah opened the window of the ark, 40 days was the period of embalming, Jonah gave Nineveh 40 days to repent, the Lord fasted 40 days, and He was seen 40 days after His resurrection. Old English law also featured many 40-day periods.

## Ancient America

Recent discoveries in the Isthmus of Panama lead to the conclusion that the region probably was the most populous in the ancient world. Many large cities have been discovered in ruins in the jungles.

## Death Only Can Open Gates of Greatness

The trouble with great men is they always are dead. You have to be dead before the world will admit that you were great. And the greater you are the longer it takes the world to take your measure. Great men are like great mountains. You have to get a long way from them to realize what big fellows they are, writes A. G. G., in *Passing Show*, London.

"When we are near them we see all the little kinks in them. He, a great man? We say. Why, he doesn't pay his butcher bill, or he drops his althaus about the floor, or he was rude to his wife—and so on and so on."

It took this country a couple of hundred years to discover that even Shakespeare was something quite out of the common. I daresay that when he died the people at Stratford thought no more of his departure than if he had been the village parson.

I have no doubt that Abraham Lincoln was a very great man—one of the greatest—and also one of the best men that ever lived. But even his colleagues in the government hadn't a suspicion of the fact until he was dead. They thought he was a queer country bumpkin whom a prodigious jest of circumstances had flung into the White House.

## Wildcat Never Loses Its Savage Instinct

There may be a more unpleasant disposition than that owned by the wildcat or bobcat, but if so, it would be difficult to locate. Nature has been kind in keeping the wildcat small. It is untamable, intractably savage, and, after years of captivity, will snarl and spit at every one who comes near, even the keeper who feeds it.

It is a night-hunting animal and lives on small animals such as rabbits or squirrels and on birds and even fish pawed out of shallow streams. It is lightning swift in its movements, sharply clawed, and its teeth, while small, are needle-pointed. It is a great climber and jumper and often catches birds by leaping three or four feet into the air as its victim rises from a bush or the ground.

Even the kittens of a wildcat are ill-tempered and snarl and scratch at the hand that attempts to stroke them. The wildcat ranges in many parts of the United States, in Europe, and has close cousins in all parts of the world. It will attack anything that seeks to corner it and is more than a match for a stout dog.—Detroit News.

## She Knew

The mistress of the house was giving the new maid, who was fresh from the country, a list of household requirements.

"There you are, Alice," she said, and then suddenly remembered an item she had almost forgotten. "Oh—don't forget we shall want a new grill for the kitchen, too."

Alice stared vacantly. "Don't you know what a grill is?" asked the other sharply.

"I should think I do," replied the maid, significantly. "It's a big, hairy monkey the size of a man. And if you want one of those in your kitchen, I'm leaving at once."

## Sausage Plants

A little fellow from England spending his vacation in Nantucket with his aunt was taken for his first ride around the island. His aunt called his attention to the Scotch broom and sweet pepper bushes that were growing along the sides of the road—taking for granted the acres of cat-o-nine-tails they were passing.

"What makes you so quiet, Tommy?" asked the aunt.

"Well," Tommy replied, "I was thinking. You know in England people have to buy sausages at the meat market, but I see in Nantucket they grow in the swamps."

## Veneration for Salt

The veneration of salt spread in a most remarkable manner throughout the whole Eastern world. Thus, even among pagan tribes to this day, we find salt springs being saluted as gifts from the gods. On the Sahara and Libyan deserts, where the great caravan tracks, like the chief of the Roman roads, were opened for the conveyance of salt, the salt springs are used for effecting supernatural cures, covenants are sealed by a simple gesticulation over their bubbling waters, and repentance is offered and protection implored on their lonely brink.

## Softening the Blow

A wealthy business man, who, incidentally, has insured his life for \$10,000, went on a trip to South America. Shortly after a report was published that the ship had sunk, and there was no news of the safety of the man in question.

A week later, however, the brother of the missing man received a cable from Rio de Janeiro:

"Safe after all. Break news gently to wife."

## Took Refuge in Silence

There was once a newspaper editor who made it a rule never to say anything but good of any person. But he was subject to the usual human limitations, this editor, and had what are termed off days, as a result of which there were issues of his paper in which little was said of anybody.—D. H. Talmadge, in the *Portland Oregonian*.

# POULTRY

## ADVERTISING EGGS BRINGS PROFITS

There is a market waiting for the eggs that the progressive poultryman advertises.

So says W. A. Sumner of the agricultural journalism department at the Wisconsin College of Agriculture. Many poultrymen are finding large profits in a "direct to the consumer" business and are building up a flourishing business through small inexpensive classified advertisements in city and town newspapers.

Before beginning, however, Sumner emphasizes that the future advertiser must be sure that he has something worth advertising and that he can give prompt replies to those who answer. To get top prices for his eggs and bring repeat orders, the poultryman must have strictly fresh eggs that he can guarantee. But, it pays to sell them, for city customers are willing to pay from five to ten cents a dozen above the retail prices for strictly fresh eggs.

Often a single insertion of an advertisement will bring enough inquiries to build up a steady trade for months to come, but the sales copy must be attractive enough to draw attention in competition with all the other advertisements in the column.

In writing the advertisements, Sumner gives this hint: "Make the copy detailed enough to furnish all the necessary information, including prices." The copy must be brief, for it is paid for by the words, but no important facts should be left out.

A trade mark also helps when selling to out-of-town customers, if it is attractive and easily remembered. When it is used on neat cartons, crates, or packages containing clean, fresh eggs, it helps bring more orders and makes it easy for customers to tell their friends about the poultryman's products.

## Fresh Warm Water Is Essential for Layers

Ice water may taste good at a hot July picnic but in winter it does not appeal to either people or laying hens. If either were forced to consume ice water in winter they would drink no more than absolutely necessary. In the case of poultry this would mean serious falling off in egg production. It might mean serious injury to the health of the fowls.

If water were an expensive part of the ration all would probably see that the fowls always had plenty of it. They would also give it to them in the most effective manner. But because water is a gift of nature, we are apt to overlook its importance.

The egg supply from a group of laying hens can be practically cut off in from two to three days by interfering with the water supply or by furnishing it in frozen buckets, etc. With the winter months ahead it will pay to see that the hens get plenty of water and for best results it should not be too chilly. If fresh water is given at least twice a day the hens will consume more than where it is not offered fresh. For this reason do not favor large containers; they are apt to be neglected.

## Poultry Hints

If a concrete poultry yard is used, sweep or scrub it each day.

Frozen toes and feet are a bad thing for fowls, and if noticed need attention.

If pullets replace yearlings in the flock each year diseases such as T. B. will be reduced considerably.

Heating drinking water for the hens with coal or wood is much cheaper than letting them heat it with food.

Poultry culture, like any other business, must be regulated according to demand. It is a proved fact that, for table use, the dark-legged breeds, or, at least those with legs of a color other than yellow, are the best.

The nesting boxes should be in the darkest part of the hen house, and should all face away from the door.

Sprinkle a little carbolic acid in the hens' dust bath occasionally. After each rain stir the dust and make it fine again.

Sweet milk and sour milk are about equally valuable as chick feed, but one of them should be fed exclusively. If the milk diet is changed bowel trouble often results.

Ventilation of poultry houses is essential. One hundred hens give off three and one-half to four gallons of water every 24 hours.

Large supplies of eggs are keeping the prices down, and under these conditions it behooves every flock owner to get rid of his low producers.

Even though the culls must be sold at low prices, they should be marketed immediately, for they will lose more money for their owners for every day they are kept in the flock.

### LOCAL AND PERSONAL

George Fortner was a Sioux City business visitor Tuesday.

Frank Gamble was an Omaha business visitor the first of the week.

Remember the food sale by St. Mary's Guild at Denbeck's Saturday.—adv.

I. E. Ellis drove to Lincoln this morning on a combined business and pleasure trip.

Mr. and Mrs. C. O. Mitchell spent Monday and Tuesday looking after business at Omaha.

The Wallace brothers were Omaha visitors over the week-end, returning home the first of the week.

Supt. T. S. Hook attended the teachers state delegates assembly held at Grand Island last Thursday as elected delegate.

H. D. Addison purchased the Jenkins property which was sold at auction Monday. The total cost is estimated at about \$5,000.

Mrs. Viola Fox and her daughter Miss Nellie, accompanied by Miss Elsie Folck, were visitors at the home of Mr. Folck at Bloomfield, returning home Tuesday.

Prof. Maynard of the local school faculty attended a state debate meeting held at Grand Island last Friday. Mr. Maynard represented northeast Nebraska as a delegate.

Boys tie and pencil 50c at Gamble's.

E. A. Williams, for a number of years a resident near Wayne, was out from his Sioux City home the first of the week, looking after business matters and greeting friends.

Mesdames S. E. Auker, A. R. Davis, Mrs. R. B. Judson went to Omaha yesterday, where she planned to meet her daughter, Pauline, who is teaching at Gehring this year. Their school was dismissed because of the prevalence of influenza in that territory, and Miss Judson met her mother in Omaha and accompanied her home.

FIVE PER CENT LOANS for farmers on easy terms. Long term, optional payments. Cooperative association shares profits with the borrower. For full information write: ROPER LOANS, West Point, Nebr.—adv D6-2t

A voter we once knew, and supposed that he was a democrat, was expressing surprise that some of what he called good democrats had voted for Al Smith for president. He did not like Hoover very well at the time of his nomination—and confessed that he did not vote at all. We have most too many eligible voters who are not easily pleased, and so they do nothing. To some people a wrong vote is better than not to have the citizen spirit enough to cast a ballot.

Clarence Kuncie, a former Villisca, Iowa, neighbor, accompanied by Thos. Gourley, another neighbor from the same place surprised the Demo-

crat Wednesday, when they stopped to say hello as passing this way. Mr. Gourley had been taking sandhills air for asthma, during the summer, and his son-in-law had been to the west to give him a joy ride home. They were accompanied by a son of Mr. G. who lives in the west part of the state. From the Democrat they went to the Chevrolet headquarters to greet W. C. Coryell, also a Villiscaite when a lad.

Many Wayne feeders are shipping corn in here from Iowa, as some parts of that state have a surplus, which is finding an outlet thru Sioux City. The Iowa corn is selling here on track at a little less than home corn growers think their crop is worth. Feeders of this vicinity have imported corn from various places several other years. If Wayne county can feed

more corn than they grow, it should prove profitable, for that is converting raw material which costs but a trifle more than a cent a pound into a finished product which is worth up to 15 cents the pound, at some times.

It is reported that Michigan has no law imposing greater than life imprisonment for any crime committed in that state and that they also have a law fixing the penalty for illegal sales of intoxicating liquors with a life imprisonment limit. Some people seem to think that the liquor man should get a death sentence, at any rate. But recently a fiend was convicted of murdering a little girl in that state, and it later developed or he confessed to the murder of other innocent children. His penalty was life imprisonment. Then comes the account of one who had been found guilty of slight

violation of the dry law, and his sentence for the fourth violation was life imprisonment. Some laws appear rather unjust, or penalties inadequate.

## Winside News

Hornby Bros. had stock on the Sioux City market Friday.

Mr. and Mrs. George Sewigard, Sr., and Mr. and Mrs. George Sewigard Jr. and son were in Norfolk Monday.

Rev. J. B. Wylie preached in the Methodist church at Walthill Sunday. He will go from there to Cherokee and Shenandoah, Iowa, where he will deliver several lodge addresses.

Jacob Walde was in Sioux City Thursday.

Mrs. Ralph Prince and Mrs. Harry Tedrick attended the monthly meeting of the D. A. R. at the Carl Wright home in Wayne Saturday.

Clyde Oman of Wayne visited his mother, Mrs. P. W. Oman Saturday. Mr. and Mrs. Walter Gaebler, Mrs. I. F. Gaebler and Mrs. Harold Nealey were in Wayne Sunday afternoon.

Victor Kniesche returned home on Friday evening from Herman, Missouri where he was called by the death of his mother.

Mr. and Mrs. Albert Donner and family left Friday for their home at Hemingford after an extended visit with friends and relatives here. They were accompanied home by George Mead.

Mr. and Mrs. David Koch left Tuesday for Omaha to attend the annual

convention of county commissioners, county clerks and supervisors. They will continue after the convention to Neola, Iowa, to visit Mrs. Koch's mother.

Miss Golda Jensen and Mrs. Mary Jensen of Omaha and Mr. and Mrs. Anton Jensen of Colome, South Dakota, were among those who were here to attend the funeral of Mrs. Anna M. Jensen Saturday.

Mr. and Mrs. Raymond Mellick and baby daughter of Battle Creek visited at the home of Mrs. Julia Overman Sunday.

Mrs. Lena Keiffer left Friday for Tekamah to visit her son. From there she will go to visit her brother at Blue Earth, Minnesota.

Mrs. William Schrupp of Wayne is visiting her sister, Miss Gertrude Bayes.

Mr. and Mrs. I. C. Trumbauer of Wayne were Sunday dinner guests at the L. W. Needham home.

Leonard Needham of Norfolk was here on Thursday looking after business interests.

Mrs. Chris Nelson and Mrs. Harry Jensen were in Norfolk Friday afternoon.

Mr. and Mrs. Chris Nelson and son Vernon, Mr. and Mrs. M. D. Wagers and children and Mr. and Mrs. Thorvald Jacobsen and son Warren were Sunday dinner guests of Mr. and Mrs. Nick Hansen.

Mrs. A. T. Chapin spent Saturday night with Miss Florence Leamy at Pierce.

Mrs. Gurney Benshoof and son Merlyn were in Hoskins Sunday visiting the former's father, Herman Martine who is ill.

Former Old Settler Brought Here for Burial.

The body of Mrs. Anna Marguerite Jensen, who had lived in Wayne county many years but who died at the home of her granddaughter in Rosemead, California, was brought home for burial and funeral services were held at the Methodist church Saturday afternoon.

Mrs. Jensen was born in Denmark on January 15, 1852, and was nearly 77 years of age. She was married to Andrew Jensen in Denmark in 1871. To this union three children were born, Mrs. Hannah Jensen of Colome, South Dakota, Neil Jensen now deceased, and Mrs. Sophia Jensen of Long Beach, California. The family came to the United States and located near Blair in 1886 and then coming to Wayne county where she has spent most of her life since that time.

The past five years she has lived with a granddaughter, Mrs. Anna Roberts. She leaves besides her two daughters, nine grandchildren and six great grandchildren. Interment was in the Winside cemetery.

Highlander Lodge Hold Election  
The Highlander lodge held their annual election of officers, at its regular meeting last week, with the following results.

Bertha Unger, past elector protector.

F. G. Miller, elector protector.

Len Bartlett, chief councillor.

Minnie Schellenberg, worthy evelangel.

Lizzie Gaebler, secretary and treasurer.

Charles Schellenberg, warden.

M. L. Halpin, sentry.

Charles Schellenberg, John Miller, Chris Nelson, managers.

Stella Miller, guide.

Irene Gaebler, herald.

John Miller, chief spearman.

Chris Nelson, chief archer.

Mamie Sweigard, first worthy councillor.

Carrie Bartlett, second worthy councillor.

These officers will be installed at the first meeting in January. The next meeting is December 20 with Christmas tree and covered dish luncheon.

Robert J. Thomson, a travel service representative of the Chevrolet, was driving this way the first of the week, and called at this office to comment upon the advertising campaign put on during the past year by company and their local representative, W. C. Coryell, and his efficient force of assistants. Mr. Thomson says that he is kept constantly busy on the road suggesting service for the public, and that the dealers are responding to the plans suggested and as one of the results, their president and general manager, a conservative business man, Mr. W. S. Knudsen, is predicting that during 1929 the company is planning on producing and marketing at least one and a quarter million cars and trucks.

Fifteen mammoth factories throughout the country, according to Knudsen are now working at top speed building the new six. Cars are being distributed to the dealer organization as

fast as they come off the line, so that as many as possible will be on display and ready for delivery December 29.

The tens of thousands who have already placed orders can feel assured of early deliveries; Mr. Knudsen said, when they bear in mind that 90 days after the introduction of the 1928 car more than a quarter million of them were on the highways in owner service. He further recalled that by June 1 of the present year, five months after the January announcement, a half million cars were in use. And before October 1 the company established a record of building and delivering 1,000,000 cars which Mr. Knudsen referred to as the greatest single achievement in the history of the automobile industry.

Mr. Knudsen's optimism over the forthcoming year, he explained, has its basis in continued prosperity and in what he interprets as a well defined preference on the part of the public for the six cylinder car. "The coming year will find national prosperity solidly entrenched, and Chevrolet, with a new and improved product carefully designed to meet public preference, is prepared to handle its full share of the coming year's business growth," he said. "All of our production facilities are being keyed up to meet the rising demand so that Chevrolet will be able to make deliveries as rapidly as our precision methods permit."

"The year just coming to a close found Chevrolet preparing itself for the advent of the new six. Numerous expansions were brought to completion, adding to our facilities several hundred thousand feet of factory floor space. The natural result of all this has been an increased productive capacity."

### CITIZENSHIP SCHOOL

S. R. Elson, Director of Adult Immigration Education, of the State Department of Public Instruction has asked the county superintendents of the state to see what they can do toward the organization of Citizenship classes.

If there are any adults in Wayne county who would be interested in such an organization and wish to enter a school in citizenship they will either see or write to County Superintendent Pearl E. Sewell.

The object is to give the foreigner a chance to learn to speak and write the English language, and understand the American form of government.

A class of 12 members has been organized in Cedar county. It is reported that some members of the class travel 24 miles to be present at its sessions.

Miss Myrtle Scovill, superintendent of the Hartington public schools, is teacher of the class.

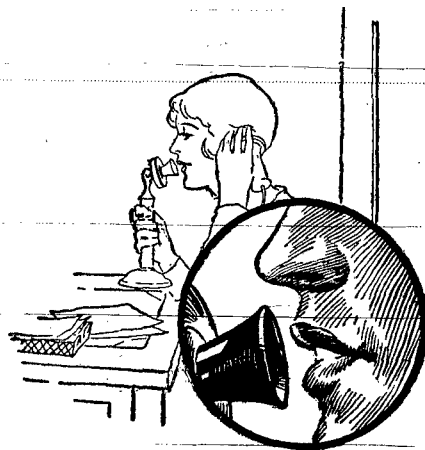

The school is free to the students, books being provided by the federal government and the state of Nebraska takes care of the expense of conduct-

### WHAT COOLIDGE SAYS

Council Bluffs, Iowa, December 5.—To the Editor of The World-Herald Will those who grew hysterical over the mere mention of a change in the Eighteenth amendment study the following words of President Coolidge in his annual message to congress: "The country has duly adopted the Eighteenth amendment. Those who object to it have the right to advocate its modification or repeal."

H. C. TURNBULL.

# SOUTH SIOUX CITY LAD MAKES 1,775 MILE HIKE

George Truman, 14-year old grandson of Mr. and Mrs. C. A. Hiserote of South Sioux City, arrived in that city last Friday following a 1,775 mile hitch-hike from Phoenix, Arizona.

Following a disagreement with his stepfather, the lad decided to leave and "hoof-it" to the Nebraska home of his grandparents, leaving Phoenix on the morning of November 12 and reaching his destination four weeks later.

Aside from frost bitten feet and be-

ing considerably fatigued he arrived in good health and happy spirits. He entered the 10th grade in school and plans to work evenings and Saturdays to pay living expenses.

He was given a number of lifts by motorists, he said in relating the experiences, which speeded up his journey.

It looks now like some solution of the Boulder dam matter at this session of congress. It is time the matter was settled and settled right in the interest of all of the people, rather than the corporations.

## COMMISSIONERS PROCEEDINGS

Wayne, Nebraska, December 4, 1928.

Board met as per adjournment. All members present. Minutes of meeting held November 13, 1928, read and approved. The following official bonds are on motion duly approved.

J. M. Cherry as County Judge.

August Meierhenry as Overseer of Road District No. 62.

John G. Newman as Overseer of Road District No. 33.

Geo. Buskirk as Overseer of Road District No. 49.

Andrew Granquist as Overseer of Road District No. 54.

Martin C. Andersen as Overseer of Road District No. 28.

Fred Meierhenry as Overseer of Road District No. 63.

A. R. McClary as Overseer of Road District No. 59.

Peter C. Jensen as Overseer of Road District No. 34.

Report of L. W. Ellis, Clerk of District Court, showing amount of fees earned by him for the quarter ending September 30th, 1928, amounted to the sum of \$445.00, and the payment of the same into the county treasury, was examined and on motion duly approved.

Report of Chas. W. Reynolds, County Clerk, showing amount of fees earned by him for the quarter ending June 30th, 1928, amounted to the sum of \$720.95, and the payment of the same into the county treasury, was examined and on motion duly approved. Board finds that he earned fees as follows:

## SOCIAL NOTES

The Wayne Woman's club met Friday at the home of Mrs. Wm. Gilderleeve with Mrs. Mae Young and Mrs. Clyde Oman as assistant hostesses. Christmas carols were sung, led by Mrs. Casper. Mrs. Gilderleeve gave a very interesting account of the European trip that she and her daughter, Wilma took last summer. A proposition was made to the club by the Transcontinental Oil Co. to lease the Community House property for ten years, with an option to buy or renew the lease at the end of that period. Another wholly unsolicited offer was made by a local man, of \$5,000 for the property or \$500 for the building. The matter was put in the hands of a committee, consisting of Mrs. E. S. Berry, Mrs. George Crossland, Mrs. Mary Mason, Mrs. Clyde Oman, and the president, Mrs. E. W. Huse. This committee will make a report of their investigation within two weeks.

Douglas King Chapter of the D. A. R. met with Mrs. Carl Wright Saturday afternoon with Mrs. R. L. Smith assistant hostess and sixteen members present. Members responded to roll call by naming and locating old trails and forts. Mrs. Brockway gave a very interesting paper on the Lewis and Clark expedition. Mrs. Orr read the President General's Christmas message and a Christmas poem from the D. A. R. magazine. A donation of \$5.00 was made for Americanization. Mrs. Paul Simon's papers were presented. The hostesses served refreshments.

The Business and Professional Women's club met Monday evening at the Homer S. Seace home with the following assisting in entertaining: Miss Mamie McCorkindale, Miss Ruth Pearson, Miss Ida Fisher, Miss Lettie Scott, Miss Enid Conklyn, and Miss Stephens. Following an exchange of gifts and games the time was spent at Kensington. The hostesses served luncheon at the close of the evening.

The Alpha met Tuesday with Mrs. B. W. Wright. Roll call was answered by naming new books. Mrs. Samuelson gave an interesting review of "Sorrel & Son" by Warwick Deedes. Refreshments were served by the hostess who was assisted by Lucile Wright. The club will meet with Mrs. D. Hall, December 18, for an Xmas Kensington and exchange of gifts.

The Rural Home society were entertained at the T. T. Jones home yesterday with Mrs. Eph Beckenhauer and Mrs. T. T. Jones hostesses at a one o'clock luncheon. Roll call was answered by making Christmas suggestions. The club exchanged gifts.

The Fortnightly met Monday with Mrs. Fred W. Nyburg. Mrs. F. A. Mildner gave a book review of "The Swan Song" by Gallsworthy. The club will hold a New Year's Eve party at the D. S. Wightman home at which time the husbands will be guests.

The U. D. were entertained at the home of Mrs. Wm. Von Seggern Monday at a covered dish luncheon which was followed by an exchange of gifts. The club will be entertained by the husbands at the next meeting, sometime during the holiday season.

The Acme met with Mrs. J. G. Mines. Mrs. A. M. Jacobs lead the lesson on American Art History. Mrs. J. T. Bressler, sr., gave a paper on "Where Leads the Indian Trails". The club has adjourned until January 7th.

The Oteri met with Mrs. Frank S. Morgan when roll call was responded to with Xmas hints. The hostess served candy. The next meeting will be a "Watch Party" on New Year's eve at the home of Wm. Mellor.

Miss Lewis and Miss Mason were hostesses at a 1 o'clock luncheon Tuesday and Wednesday. The afternoons were spent in playing bridge, with guests to complete four tables.

The Minerva club will be entertained by Mrs. U. S. Conn at a one o'clock luncheon, Monday, December 17. The Christmas program of the club will be given after the luncheon.

H. W. Theobald, Wm. Hiseox, C. T. Ingham, Wm. Hawkins and Paul Mines will be hostesses Saturday at a one o'clock luncheon and bridge party at Hotel Stratton.

The P. E. O. will meet next Tuesday even at 7:30 with Mrs. Horace Theobald.

The Altrusa will meet next Monday with Mrs. W. C. Coryell for a Xmas party.

The police of Buenos Aires are said to have nipped a plot to do bad things to our president-elect, and spoil his peace and pleasure trip.

## Practical Xmas Gifts!

A Gift That Everyone  
Likes to Give & Receive

### Silk Hose

She will be delighted with Silk Hose, especially if they are nice ones. She would like them to be full fashioned, pure thread silk, perfect fitting and long wearing. There are certain new shades of brownish tan for wear with tan shoes and brown dresses, and new shades of darker grey for wear with black satin and velvet dresses which she probably would like to have in particular. You can get the Gift hose that will please her most from our fine selection.

**\$1.50 \$1.85**

A Practical  
Suggestion

If you are planning on buying a new coat during the January clearing sales, why not get it now and have it to wear during the holidays.

Prices now are very low as we have marked all coats way down to close them out.

\$22.00 coats are now \$15.00. \$45.00 coats are now \$33.00. \$50.00 coats are now \$37. There are also several especially fine coats with Handsome sets of furs marked now at a splendid saving.

\*A coat would be a wonderful Gift for mother or sister or wife.

A Gift That Will Be  
Greeted Enthusiastically

### Silk Lingerie

Lovely dance sets—Bloomers and Brassiers to match, daintily lace trimmed at \$2.50. Pajamas in lovely colors at \$3.50. Night Gowns in fine quality \$3.50. The little girls will be delighted too with a dainty Rayon Combination consisting of bloomers with an attached waist at \$1.25. Ladies vests and Bloomers for Gifts will be heartily appreciated if you give a good quality such as we have on sale at

**95c**

This Stylish Gift Will Please Her, Surely

Costume Jewelry is now in great favor. Choker Beads, Ear Rings, Finger Rings and Brooches are required to give a touch of style and color to the present modes of dress. Here they are in just the style and quality she would buy if she was choosing them herself. Each.....

**\$1**

She Expects Gift Handkerchiefs

She would like them to be pure linen ones too, with a dainty spray of color in the corner. There is a wonderful assortment here for you to choose from, many of them in fancy boxes. They are very moderately priced, the linen ones, at 25c, 35c and 50c. Dainty lawn Kerchiefs are 5, 10 and 15c. There is an especially large assortment of Embroidered linen ones at.....

**25c**

Quality Gifts In Good Taste, and Moderately Priced at \$1.00

Gifts inexpensive in themselves but worth so much because they speak eloquently of the good taste and foresight of the Giver. The Pohlsen and Norwood artists are specialists in creating these clever inexpensive remembrances.

There are Tidy Boxes covered with gay flowered material at 50c and \$1.00. These will keep her silk hose gloves, handkerchiefs and trinkets in order in the dresser drawer. There are Perfume Atomizers, Bud Vases, Trinket Boxes, Bridge Pads, Puff Boxes of decorated glass, brightly decorated Salt and Pepper Shakers for the kitchen, Glass Lemon

**50c  
and  
\$1.00**

Forks, and Fruit Knives in colors with flowers decorations, Fancy Garters, Box Stationery, Shoe Trees, Hot Plate Stands, Decorated Wooden Knife and Fork Salad sets. All in holiday boxes with gift sentiment cards attached.

Bath Towel Sets, Linen Towels, Fancy Silk Pillows, Silk Shoulder Flowers, Boxed Handkerchiefs, Compacts, Gloves, Choker Beads, Silk Vests and Bloomers, Girl's Silk Hose, Dresser Scarfs, Large nicely dressed Mama Dolls, and Jars of Bath Salts are among a few of the other desirable expensive Gifts to be found here at 50c and \$1.00.

You Can't Go Wrong  
When You Give Slippers

Especially if you give those made of soft leather. The old fashioned felt slippers with soft soles are not popular any more. You can find here the styles that are best liked by women, children and the men folks in soft comfortable good looking leather at \$1.95 to \$3.50.

A Silk Kimona Will  
Delight Her

This is a sure tip for the man with an important feminine name on his list. When she travels she will particularly enjoy this Gift of both luxury and necessity. The ones she likes best cost
