#### HASTINING HERALD.

Hermon Kampes brought the sheep  
he had frozen to Hartington last  
week, and sold them to Strange Bros.  
agent of Sioux City, for 50 cents  
apiece. To see them laying in one  
man it looks like a terrible loss for one

man to stand.

Alfred Peterson, of Concord, was  
up to Hartington Wednesday of this  
week, to do some trading, and found  
out that the sheep market was very  
good at the Merchants Hotel had walked  
down the street, and before reaching  
the state Bank, he stopped into a certain  
dry goods store to buy a spool of  
thread, no sooner had he got in and  
made known his wants, than the busi-  
ness proprietor grabbed him by the collar  
and jerked him around severely.

Mr. Peterson looked at the gentleman  
and said "I am a man, I am not a  
pig." The merchant responded, "I  
will not treat you like a pig."

After Thursday's blizzard, we had  
no train till the Wednesday following  
when the engine and two snow plows  
came over the road and cleared the  
track, but did not bring the mail bags  
to the post office. The post  
office was closed as early as possible  
when it is better acquainted with the  
abilities and results secured thro' the  
efforts of Mrs. Ada Bitzenbender, the  
lady lawyer from Lincoln, Neb., who  
has just gone to Washington in the  
interest of the National W. C. T. U.,  
whereas will remain during the pre-  
sent session of Congress. Mrs. Bitzen-  
bender is a law unto herself with her  
husband, and is a law unto herself in the  
city of Lincoln, where she has lived  
for many years, and is universally re-  
spected and beloved by all except  
those connected with the liquor traffic.

True Prohibitionists are standing  
true to their traditions. From  
the founding of the party in 1872 women  
have been recognized as members  
of committees. We notice that  
already Mrs. S. B. Forbes is chosen  
as one of the delegates at large from  
Connecticut to the National Prohibition  
Convention at Indianapolis. Mrs. Anna  
Peterson of Kansas, W. C. T. U., is  
delegated to Kansas. W. C. T. U. is  
delegates to the state convention in  
Illinois. Prohibitionists meet in May,  
and have invited the W. C. T. U. of  
the state to send one delegate for every  
local union. This is a grand  
move, and we hope it may be emular-  
by other states.

Louis Schade, of the National  
Brewers' Association, expressed a  
wish that a lady lawyer should be  
sent to Washington to represent the  
temperance cause. Perhaps  
it will not maintain that preference  
when he is better acquainted with the  
abilities and results secured thro'  
the efforts of Mrs. Ada Bitzenbender.

Many Chinese miners, a majority of them Chinese, were killed by a native explosion at St. Louis, Missouri, last week.

Sioux City is going to vote on the question of granting a state park east to the Sioux City & Northern Railroads come Aug. 1. Sioux City is bound to have this.

A bill to grant the miners of Fremont Logan and Blair a pension of two thousand dollars a year in case of the miners' death, but is expected to meet with strong opposition in the house.

It is very evident that in the race for the west in congress, led by Mr. Duray, there will be a large number of miners. In the struggle it is very probable that Mr. Duray will walk off with the nomination.

The New England states got their establishment of the blizzard law were and the railroads were blizzarded and stopped just as a similar storm stopped in the west. It was the same across the Yankees have experienced for thirty-four years.

A member of the Iowa legislature who goes or a referee or an anti railroad man, was caught taking a pass while on his way to visit one of the state institutions, the expense of the state, and the fellow members proposed to make life a burden to him for the rest of the session.

The bill for opening the great Sioux reservation in Dakota is the time to be had by a committee, the members of which all need to be informed of it, and a favorable report is expected. The opening of the reservation would undoubtedly be the means of making railroad building in North Dakota very likely. All the lines would push extension into it at once. Among others the Chicago branch would probably be extended.

A Bohemian carpenter named Cerny attempted to commit suicide at Cedar Rapids last week, and gave as a reason that he was afraid of being lynched for complicity in the murder of Hoddes in Sioux City. He was told that the murderers of Hoddes had been caught, but he replied that they had not yet hit. It is supposed that he knows something of the secret and that the clue may lead to important results.

There is a good deal of silly talk about the injury the West will receive on account of the last blizzard. Men who have not enough to come to a country where millions of people live very comfortably, because they are frightened by exaggerated accounts of a storm, are not the kind of people the West wants, such fellows are perfectly welcome to stay where they are. They would be out of place in a pushing, growing country. The opportunity of the newer states are for men of energy and vim, and who are not scared out by a single storm.

A leading editorial in the Philadelphia Record opens with this paragraph.

There is a duty of 20 cents a bushel of wheat imported into this country, but no farmer in the land can be induced to imagine that this duty operates for his protection. During last year the country's exports of wheat and wheat flour amounted to more than 100,000,000 bushels, and in the same period the imports of wheat did not amount to 300,000 bushels. While the duty on foreign wheat has not the slightest influence on the price of the domestic product, it only affects it to obstruct the shipment of some Canadian wheat to this country for exportation to foreign markets. But the protectionists insist that they are failing the farmers of this country by putting a duty of 20 cents a bushel on wheat. Whether the duty should be 10 or \$1 a bushel its effect on the American wheat market would be just the same."

I might add that the removal of the duty might not immediately result in the importation of wheat, other than Canadian, but this is not so, but it nevertheless a fact, that no wheat can be landed at New York City at 65 cents per bushel, duty added, and with the duty removed at 75 cents per bushel. It also is a fact that when the extensive system of railways building in India is completed, that country will drive the United States

out of the British market as it is now unless the duty is made higher than at present. The lands in India are as fertile as any over, and as adapted to the growth of soft wheat. There is no power in the American farms to do more with the Indian farms than the latter have done for the former for the next ten years.

The last in the American farmer if the crop he need not sell, will be a very poor winter seed production. The very men who talk the loudest about the influence of the present time, the farmer is protected, are seeking to remove protection from one of the most important of his products—wheat, just as soon as the question is settled, because the tariff does not benefit him directly in the same intelligence. The home market is open where he depends. Domestic wheat is not home danger to him. The agricultural products of this country outside of tobacco and cotton amount to about \$2,000,000,000 a year. Of this amount about \$1,000,000,000 are consumed at home and 80 percent goes abroad.

In the summer it is to determine a market where they find ready buyers for each of these enormous quantities of produce. Consumption must have money to buy with, or they will not go along with him. Omaha will walk off with the nomination.

All the way from Miss Francisco comes a tribute to the courage and heroism of Miss Minnie Freeman in saving her scholars from death during the terrible blizzard which raged over the state two weeks ago. The Hon. James M. Boyd received by express from Col. George W. Johnson, the personal jeweler of Miss Francisco, a handsom gold watch and a finely wrought gold chain to be sent by him to Miss Freeman. The watch repaid is a pretty well as unique jewel case and was a present of which any young lady might be proud. A small charm with monogram was attached. On the case was the inscription: "A. A. Jones, San Francisco, to Miss Minnie Freeman, Myra, Valley District, for her heroic in saving the lives of thirteen children in the storm of Jan. 12, 1888."

The following letter to Miss Freeman was also sent which Mr. Boyd was instructed to open.

HON. FRANCIS, Jan. 21.—Miss Minnie Freeman, Myra, Valley, Neb., hand you this watch and chain as the expression of a distant stranger's appreciation of your courage and presence of mind, your self-sacrifice and readiness to risk your life for others who are saving the lives of your poor in the recent great storm.

I have received only the telegraphic account of this good deed, by which I learn that you secured them by a rope and led them to safety against a most dangerous element. The world should never cease to reward and applaud such characteristics which have made you the mother of thirteen children, a wife, and to contribute to you as well as to encourage others in the exercise of the qualities you have so usefully exhibited.

I send my recognition from the far Pacific. The chain is wrought in the semblance of a rope, to always remind your friends of the means by which you led poor little lives from peril to safety. Upon the case are stars to testify that you are a true star, whose greater strength should lead them often to risk themselves for others, for "greater love hath no man than this, that a man lay down his life for his friends." A. A. Jones, Omaha, Neb.
