A. T. Chapin,	County Coroner.
T. T. Mattie,	County Clerk.

### OUR NEIGHBORS

#### ATKINSON GRAPHIC.

During the year 1887 there were 130,000 of land proved up on and entered for taxation in Holt county. As the average assessment is \$2.75 per acre this means an addition to the county of \$357,000.

#### BANCROFT JOURNAL.

Robert Ferguson, a young man living near Lyons, committed suicide Thursday by hanging himself in a corn crib. He hung himself some time during the forenoon, and his body was found about 2 p. m. Financial troubles are supposed to have been the cause of the rash act.

#### PENDER TIMES.

D. N. Wheeler, the well-known manufacturer of steel traps, has recently required the lawnmower products of \$30 per head on the 106 head sold last week to Mr. Abrams.

Mr. Wheeler is still feeding a large herd of cattle and hogs which he intends to dispose of before long.

D. N. will不出售 Jay County if he keeps on the pace he is now going.

Nearly \$1,000 per month clear profit is not very slow for a winter's job.

#### HARTINGTON HERALD.

It is reported that a disgraceful fight occurred in the general store of Adolph Andersen, J. W. Johnson, and C. F. Johnson, proprietors.

James, last week, about half a dozen took part and as the scene was becoming interesting, a woman appeared upon the field of battle and the contestants fled in all directions.

Several Cedar county farmers are having their cattle dehorned. Many farms justify contend that stock come a few less fed after having been dehorned. Others hold the operation to be brutal followed by poor results.

The best authorities however favor the theory as practicable and economic.

#### WINSTON CHRONICLE.

The town board has entered into a 5 year contract with Van Dorn & White under which the latter are to furnish water for the water works at 16 cents for each hour's pumping of at least 2,000 gallons per hour.

L. H. Williams has invented a contrivance for raising railroad rails and is applying for letters patent for the same.

Cows have been bringing from \$8 to \$10 per head more at the recent sales than they have in former years. This enhanced value is evidently due to the establishment of the creamery here, which makes milk cows the most remunerative property a farmer can have.

#### NORTH BEND FLAT.

The duty of the assessor to carefully guard the shirks of the country cannot be impressed too often or too earnestly. True the best he can do is he cannot get at the bottom of the mischief, but he can do better than has been done heretofore. One thing should never be omitted and that is to compare the tax bills of the different school-districts. Make every man make an oath to his assessments and if plain undervaluations or omissions are indicated in property owners may be arraigned before the courts as perjurers. We never need expect to get this matter down to science until the records of the county may be overloaded and the board allowed to add to the assesses for fear of being beaten up.

H. H. LEISINGH, Physician and Surgeon.

Give his entire attention to the practice of medicine, and will attend promptly to all calls attended to promptly during the night.

### W. C. T. U.

This column is conducted by the Wayne W. C. T. U.

In Des Moines, Iowa, arrests for drunkenness have fallen 400 per cent since 1883. Official returns for 1886 for the state show that of 1,645 convictions, 634, over one-third were saloons keeping two or more not a criminal who sentenced to prison for drunkenness in Polk county, while for ten years previous the number ranged from eight to eighteen each term of court.

The liquor men at the National capital are evidently alarmed. The Sentinel, whose editor, Louis Schwabe, was the principal speaker against prohibition, the argument before the House committee, came out the next week with a leader entitled "Alarmed." In it he says: "The opposition to this bill is so strong that the opposition is futile, and says: 'Never before have the friends of personal liberty been compelled to present protests of the kind to Congress. There would be no danger now if all the Democrats were as true as they used to be.' It follows that protest with twelve reasons why the prohibitory bill should not pass a law. No. 1 is 'Prohibition does not prohibit' and No. 2 is 'It fails to contradict this by declaring that it will destroy industries that have in fact stood and under sanction of law grown up in the District,' and that more than fifteen hundred buildings now owned and occupied by the trade will become vacant. We wonder why, if prohibition does not prohibit? Other of the reasons given are that it is a blow at the liquor interests, that it is a blow at the public health, that prohibition has in every instance where tried, increased, not lessened, drunkenness; that it is in the interests of immorality; that the appetite of man cannot be legislated away—it must be trained and restrained; that crime cannot be punished by law it can only be punished, and that the traffic in liquor must be regulated so as to produce purity, its selling so regulated as to make it respectable.

Mrs. Mary A. Woodbridge was asked concerning the W. C. T. U. the following question: "Have you entered politics?" She made in substance the answer: "No, we never enter;" that is never since we can remember, for we are always here. We marched on Fourth of July processions and attended the Godless of Liberty and sixteenth of states, blockade in the red, white and blue. We put out a flag and illuminated our houses, even if we did not harass for our side," when the victory was won. Every woman who has a heart and head has always been in politics." The white ribbon women have changed their party that is all, and for this they had to give up their husbands, fathers and their sweethearts, to say nothing of their mothers and their sweethearts because parties change like clothes, and grow old fashioned like clothes.

Dubuque brewers and liquor dealers have just incorporated a Personal Liberty Association which has for its object to obtain legislation concerning the working of prohibitory laws, in various states to work for their repeal or modification, to secure compensation to aid individuals in defending their rights of person and property, and to obtain the enactment of a license law in Iowa.

The news of the political and commercial conquest of Africa will inspire respect in the minds of Indians. The Mohammedan curses the dark continent with slavery, but that false religion proscribes the use of liquor by the individual. Mohammedan, Nomad, Christian nations curse poor Africa with ruin, which is worse than death. Will the world ever learn? If civilization can agree to abolish the twin plagues, we may yet have the torrid east coast tempering temperature to the temperate zones. Arguments are already made to prove that the liquor traffic interferes with commerce with the tribes in Africa. Possibly we may yet be victorious through the very self-sufficiency of world men. When conscience gets into the commerce of mankind many tangled problems will be simplified.

#### Physicians' Test.

The physicians in Lowell, who are treating the Marie Nore's "bad plant" on paroxysmal neuralgia, have been asked by the number already selected to have received a Mrs. Brock, of Harvard, Vt., who has written to Dr. Wm. C. Powers, 25 Main Street, Lowell, Mass., and has stated no less than that she has had her fits from the first day of her visit to Lowell, and that she can't get rid of them. The apothecaries present are asked to keep it forever. Large compensation is offered for the manufacture all over the world.

Mississippi will pension ex-Confederate soldiers.

Southern people are anxious and worried that Mississippi will follow the South and not when they are. Not here is a picture of sadness. They still have a picture of happiness. They still have a picture of the family that has never took a bottle of Harriet Craig, Corp. The most positive proof known for all living effusions.

Most of the Mississippi soldiers have a re-distribution.

Washington, D. C.—John Tamm, who is the West, brought up to

The democratic national convention will be held June 2d.

Two Thousand Physicians, Nurses, Clerks, and others will be present to the annual Meeting of the National Teachers.

—H. E. Davis, head of institution of Miss America, was in Boston yesterday.

#### SUACOSS OIL

#### RHEUMATISM.

The Case Closed.—July 1, 1885. Mrs. George G. Smith, wife of the famous Lawyer, now known as George A. Smith, of New York, died at the age of 80 years, having been born in New Haven, Conn., Jan. 20, 1805, and died Aug. 21, 1885.

Mr. Smith, a man of 12 years, came to the house on the avenue of the working classes, his son, Mr. George G. Smith, having been born in New Haven, Conn., Jan. 20, 1805, and died Aug. 21, 1885.

He was a poor example of a rhenitis, and was, when he died, in a state of complete debility. The young man has been and is now a workman, having been born in New Haven, Conn., Jan. 20, 1805.

—Dr. J. G. C. O'Connor, M. D., said to Dr. Prentiss and Dr. Jones, "I am

sure that Dr. Charles C. H. Smith, the

Berkeley and Conclusive Testimony.

—London, July 8, 1885.—Ferdinand Meyer, a well-known physician and author, has written to the German B. H. B. that he has a poor example of a rhenitis, and would not be able to help him.

Mr. Smith, a man of 12 years, came to the house on the avenue of the working classes, his son, Mr. George G. Smith, having been born in New Haven, Conn., Jan. 20, 1805, and died Aug. 21, 1885.

He was a poor example of a rhenitis, and was, when he died, in a state of complete debility. The young man has been and is now a workman, having been born in New Haven, Conn., Jan. 20, 1805.

—Dr. J. G. C. O'Connor, M. D., said to Dr. Prentiss and Dr. Jones, "I am

sure that Dr. Charles C. H. Smith, the

—

# The Wayne Herald.

GOSBORN, & REEVAL Editors.

Largest Circulation of any Paper in  
Wayne County.

Official Paper of Town and County.

TUESDAY, MARCH 15, 1888.

There is no particular change in  
the situation on the Burlington.

Wayne county should join the pro-  
cession and form republicans right in  
every precinct.

Emerson William, of Germany,  
died last Friday. He would have  
been ninety-one years old in a few  
days.

T. J. Potter, general manager of  
Union Pacific, and the best known  
railway manager in the United States,  
died at Washington last Friday.

The long talked of fight between Sol-  
livan and Mitchell came off in France  
Saturday, and resulted in a draw.  
Thirty-nine rounds were fought, and  
then the affair was declared a draw.

A number of papers are enga-  
ged in the harmless and useless di-  
version of nominating Van Wyck for  
the presidency. None of them have  
yet stated which convention his name  
should be presented to.

The democratic free trade papers  
of the north that not long ago were  
lancing the silver-tongued Grady of  
the Atlanta Constitution, are now be-  
rating him with more vigor than they  
formerly praised him. The reason of  
the sudden change is that Grady,  
who sees that the only hope of building  
up the manufacturing industries  
of the south lies in maintaining the  
protective system, is savagely attack-  
ing the free trade tendencies of his party,  
and is especially severe on the "glit-  
tering ass" who are pushing the  
Mills bill.

What shall we do with Dorsey? Is  
the "knotty question" that just now being  
passed around among the republicans of  
the big states? George W. E. has proven  
to be a white elephant on their hands,  
and it is time to be rid of him.—Brooks Bow State-  
ment.

The stalwart republicans of the big  
Third however, propose to solve the  
knotty question by bringing forth J. C.  
Robinson of Hartington, a stalwart  
of the stalwarts. In him is embodied  
all the commendable features of rep-  
ublicanism that made Jimmie Blane  
so popular.—Hooy down up for Rob-  
inson.—Hartington Daily.

We are at a loss to know whether  
the above means that Mr. Robinson  
is in the field as a candidate, or the  
Democrat is simply giving him a lit-  
tle taffy. If he is really a candidate  
the Democrat will have to "boor her  
up" very skilfully if Mr. Robinson  
is to make very much headway this  
year. The "knotty question" of what  
to do with Mr. Dorsey will in all prob-  
ability be solved by re-selecting him  
to congress this fall by about twenty  
thousand majority. Mr. Dorsey's  
work in congress has been very ac-  
ceptable to the people of the district,  
and the fact that he has served two  
terms already will not be an objection  
to any one except the gentlemen who  
wish to succeed him.

For a long time the blizzards has  
been regarded as a peculiarly western  
product, but only a few weeks ago  
the eastern states experienced as se-  
vere a case as anything known in the  
west, and on Monday another storm,  
the worst ever known, swept over the  
Atlantic states from Georgia to Connec-  
ticut. The snow fell to a great  
depth and was piled into huge drifts  
by the furious gale. Railroad traffic  
was completely stopped in all direc-  
tions, telegraph lines broken down,  
and business of all kinds was brought  
to a standstill. In New York city,  
the only point from which full details  
could be had, owing to the interrup-  
tion of telegraphic communication,  
such a storm had never been known.  
Every street car and all the elevated  
trains in New York and Brooklyn  
were stopped, the ferries were nearly  
all abandoned, and people living at  
a distance from their homes were  
unable to reach their homes. Hun-  
dreds of loaded wagons were aban-  
doned in the streets and the horses  
were taken to the nearest shelter. Of  
forty miles due in the afternoon but  
two arrived. Not a single train de-  
parted or arrived during the day.  
Hundreds of people had hands, feet  
or ears frozen, and a woman from  
Death at the corner of Broadway and  
Fulton Streets, said to be ordinarily  
the busiest spot on earth.

Holt county has the division fever  
again, and this time it looks as though  
division would come. The county has  
got into debt ninety thousand dollars  
and the people want it made smaller  
in order to save sufficient.

The railroads will be ready to do  
some rapid building when the great  
St. Louis reservation is opened. The  
Milwaukee has already let a contract  
for grading through from Chamber-  
lain to the Black Hills as soon as the  
hill now before congress passes.

The latest reports from the great  
eastern storm show that the first re-  
count was not exaggerated. Over  
one foot of snow had fallen throughout  
New York, and a number of places  
reached five feet on level and  
the snow still falling heavily.

Sioux City has already begun to  
prepare for the corn palace of 1888,  
which it is intended to make a much  
larger and finer exhibit of the resources  
of the northwest, than was that of  
last year.

The new emperor of Germany an-  
nounces that he has no desire for mil-  
itary glory, but will carry out the pol-  
icy of his father as far as possible.

The eastern papers will have less  
to say of the terrible "Dakota bliz-  
zard," now that they have a far worse  
sample of their own to deal with.

The Union Pacific engineers em-  
ployed in the yards at Omaha struck  
Tuesday night because they were  
asked to switch Burlington cars.

The Burlington road is proceeding  
as the courts against connecting lines  
that refuse to haul their cars.

A Blow at Northwestern Farmers.  
Sioux City Journal.

In another column of the Journal  
this morning is printed a report of an  
interview with Capt. T. P. Gere, of  
the Sioux City Lined Oil Works, the  
statements of which are of deep interest  
for the farmers of the northwest, and  
particularly for the farmers in the  
region about Sioux City. Capt. Gere,  
than whom no man is more  
competent to express an opinion on  
the subject, clearly and emphatically  
states the position of the farmers  
in this country in regard to the proposed  
protection of the Mills tariff bill to  
put flax seed on the free list. That  
effect, it is worth the attention of all  
farmers to note, would be simply to de-  
stroy flax production in the United  
States and all the manufacturing  
industries in the west dependent there-  
on. Flax seed cannot be produced at  
a profit less than \$1, while 90 cents  
per bushel barely equals the cost of  
producing it. The cost of production  
at which production ceases, over  
which flax seed can be produced at a  
profit, is infinitesimal, and is ruled by  
prejudice as much as by an American  
citizen. I believe in American labor  
and I tell why. The other day a man  
told me we produce in the United  
States one million tons of raw  
flax worth \$50,000,000, the value of  
the oil in the ground is 25 cents per  
ton. American labor takes twenty  
cents a bushel to produce flax seed  
worth 50 cents. We could ship  
the American flax worth \$50,000,000  
and the value of the oil in the earth, of  
the trees in the forests, of all that en-  
ters into the ship bringing \$50,000,000  
in gold, is only \$20,000-\$40,000  
collected by Americans into gold. I  
propose to stand by the nation. I  
want the furnace kept hot. I want  
the smoke of America's industry to  
fill the sky, and upward to the sun,  
and the world to be filled with the  
smoke of our industry.

The flax crop is a serious thing.  
The crop amounts annually to about  
10,000,000 bushels, and of this amount  
90 per cent is grown by the farmers  
of the four states of Minnesota, Iowa,  
Nebraska and Kansas and the ter-  
ritory. The crop is becoming  
increasingly important, and is likely  
to increase, and every man who sells  
his crop for money, or is ruled by  
prejudice is unfit to be an American  
citizen. I believe in American labor  
and I tell why.

The south would like to stifle the property  
of the north. They would rather  
trade with the people who were willing  
to help them in war than those who  
conquered the rebellion. They  
knew what gave us strength in  
the Civil War. They knew that the banks,  
banks and manufacturers of New England  
were putting down the rebellion. They  
knew that every wheel that turned  
and every spint that revolved was  
a soldier in the army of human progress.  
It won't do. They were lured by  
greed of office and were willing to  
trade in the misfortunes of the nation.  
I won't do. I don't wish to belong  
to a party that succeeds only when  
my country fails. I don't wish to be  
a part of a party whose banner went  
up with the standard of rebellion. I  
belong to a party that is prosper-  
ous when the country is prosperous.  
I belong to that party which is not  
poor when the golden bollows are run-  
ning over the seas of wheat. I belong  
to that party which is prosperous  
when there are oceans of corn and eat-  
ings upon a thousand hills. I belong  
to that party which is prosperous  
when the furnaces are afire, when you dig  
coal, iron and silver; when everybody  
has enough to eat; when everybody  
is going to school; and joy covers my  
country as a garment. That party  
which is prosperous then is my party.  
And that party is the party of  
protection, the grand old republican  
party.

Buckley's Advice—  
The best salve in the world for Cuts,  
Blisters, Scars, Ulcers, Salt Rheum, Chil-  
blains, Corns, and all Skin Eruptions,  
and positively cures Ulcers or any part  
of the body. It is guaranteed to give perfect  
relief, and money refunded. Price  
25 per box. For sale by Wrightman &  
McFarland

Col. R. G. Ingalls says: "There is  
another thing in which I believe. I  
believe in the protection of American  
labor. The hand that holds And-  
erson's hammer must be the strongest.  
This nation rests upon the shoulders  
of its workers, and I want the laborer  
to have enough to wear. I want him  
to have something for the ordinary mi-  
nurities of life; I want him to have  
the pleasure of seeing his wife well  
dressed; I want him to see the few blue  
ribbons fluttering about his children;  
I want him to find that his country  
and the world is full of prosperity.  
I am for protection, too. If we were all  
farmers we would be stupid, if we were  
all shepherds we would be stupid, if we  
were all masons, we would be stupid,  
no matter what it was, we would be  
come stupid. Protection to American  
industry diversifies American industry,  
and to have it diversified develops  
every part of the human brain. Protection  
protects integrity, it protects  
intelligence, and protection raises  
several points which we have  
greater men and better looking men,  
men and healthier children. Free  
trade means that our labor is an  
equality with the poorest paid labor  
in the world. And let me tell you  
that for an empty stomach, "Harral  
for Cleveland" is poor consolation.  
I do not think much of a government  
where the people do not have enough  
to eat. I am a materialist, to that extent,  
I want something to eat. I have  
seen countries where a man had  
not more than a year's supply before  
Christmas and Easter. And I have  
seen women carrying on their heads  
a burden that no man in this ame-  
liance could carry, and at the same time  
knitting busily with both hands, and  
those women live without meat. And  
when I thought of the American la-  
borer I said after all my country is the  
best in the world, and when I came  
back to the sea and saw the old flag  
flying in the air, it seemed to me from  
the bottom of my heart that this  
was the best country in the world.  
Labor has more to eat, and more to wear  
in the United States than in any other country  
of this earth. I want America to produce  
whatever that Americans need. I  
want it so that the whole world  
should declare war against us if we  
were surrounded by walls of cannons,  
bayonets and swords, we could supply  
our human wants in and of ourselves  
and not in any other country in the  
world. I want Americans to buy  
what Americans make in everything from hats to  
boots, produced by the cunning hand of  
the American toiler. I want to see  
working men have a house painted  
white, with grass in the front yard,  
carpets on the floor and pictures on  
the walls. I want a man to feel that  
he is a king by divine right of living  
in the republic. And every man here  
is a little bit of a king, you know.  
Every man here wears a little king  
upon his shoulder. Every man is a little  
king, and every man who sells  
his crop for money, or is ruled by  
prejudice is unfit to be an American  
citizen. I believe in American labor  
and I tell why.

The other day a man told me he  
had a good deal of trouble in getting  
a place to live in. He said he had  
a good place, but it was not large  
enough for his family. I told him  
he had a good place, but it was not  
large enough for his family. I told him  
he had a good place, but it was not  
large enough for his family.

North. Freight, arr. 8:15 P.M.		Dep. 9:15 P.M.			
Passenger " 8:30 " 9:30 "					
Teachers' Examination.					
I will examine all persons who offer themselves as candidates for teachers of the common schools in this state. Exams. to be held at Wayne, on the third Friday and Saturday of each month.					
W. E. HOWARD.					
On Sept. of Public Instruction.					

Oats 20 c.

Wheat 55 c.

Corn 30 to 35.

Spring work is at hand.

The carpenters are very busy.

Cash for potatoes at P. L. Miller's.

An extra freight went over the road Sunday.

Fine mixed paints at Van Camp & Perrin's.

Go to M. P. Ahern's for your fine kid gloves.

Newton & Co. have a public sale at the creamery Saturday.

White lead and oils of superior quality at Van Camp & Perrin's.

Shaver & Fisher shipped a car of hogs to Omaha yesterday morning.

James Britton, who will be storked at the hospital on Tuesday.

A man set of marten skins offered at this office to do fine job work.

Ed. Vernon of Sherman precinct put in a car of wheat the latter part of January.

An endless number of paint brushes of all sizes and kinds, at Van Camp & Perrin's.

I want all the butter that the farmers and country have to spare. P. L. Miller.

Philips & Son have been getting in a large supply of lumber for their new yard this week.

Mary L. Hunter and George South have a public sale at the farm of the latter, near LaPorte, today.

A concert will be given by the young men of the Sunday school at the Presbyterian church next Sunday evening.

A boisterous individual from the country left his team standing on the streets all day Monday while he indulged in a big drink.

Edwards & McCullough Lumber Co. having bought out Phillips & Son, may be seen with their old stock with a few sets of lumber, etc.

The meeting night of the Brethren, literary and debating society has been changed from Friday to Saturday evening. Persons interested please take notice.

Judge North rendered a decision this week in favor of Ernest W. Milligan, pleading in favor of the plaintiff, and ordering a specific performance of the contract to recover real estate.

Ayer's Hair Vigor stimulates the hair to grow. It contains all the supplies to make the hair beautiful and abundant, removes dandruff, and renders the flexible and glossy.

No interest was manifested in the election for justices of the Peace Tuesday, only 31 votes being cast. In fact, it was the same proportion of the people that voted as in P. D. Phillips' "Sam Davis" 7, Bob Williams 6, and other voting centers.

The twenty-second annual meeting of the State Teachers' Association will be held at the State Normal School at Lincoln, Oct. 30th. That Prof. McLean is on the programme for a discussion of "The Object of a Recitation and How to Conduct It."

The preparations for tree planting in the grounds lead Arbor Day coming to nothing on account of the unfavorable weather. This year the trees should be planted whether they are potted or not, for the first day of May is well suited for it, as well if planted on some other day.

The astronomical committee of the Wayne Academy will be in town this week, to see what our citizens can do for the preparation of the observation of the school. The board of education of the general school is ready to close the contest as soon as Wayne is ready to guarantee the performances of its part of it.

Now that the agricultural society will start in with a program of debt, it will be a concerted effort to make the fair a successful one, and one of which the country can be proud. The grooms are now to be equipped with new harness and teams, and more money will be spent on the horses and mowers, etc., than ever before.

The military firm of Miss H. Wilkinson will be known hereafter by the name of Misses Wilkinson & Swan. We will carry a full line of military and national uniform supplies, and notions, and all other valuable shirk in that value is no use giving them in at all.

A meeting of the Agricultural Society was held Saturday afternoon. A new name was adopted, and a committee appointed to fix the date for the fair, was fixed for Sept. 27 and 28th. The total indebtedness of the society was from \$2,000 to \$3,000. A sum of \$1,000 was appropriated at once to the affairs of the society so as to place the affairs of the society so as to good footing for the fair. The amount was \$1,000.

The military firm of Miss H. Wilkinson will be known hereafter by the name of Misses Wilkinson & Swan. We will carry a full line of military and national uniform supplies, and notions, and all other valuable shirk in that value is no use giving them in at all.

And now the ranching time is come, when the cattle ranchers shall forth at break of day with a double hook on the front of his wagon. He encounters the long, deep, silent prairie, the intervals, when he urges not his horses to greater exertion. He stretches therein and whipping the horses mightily, and urges with might and main, until he reaches the pasture hills, but still it remains.

He pushes his shoulder to the wheel and lifts off his saddle, when he reaches the head to the sole of his foot, and utters such a mighty effort and burst of energy, that the earth trembles beneath his feet. Then goes for the bars, and fence boards and rails, and they make a mighty effort and break out the tongue, and tear up the harness and slip the leather, and then dashes through the lonely miles on foot, and give him ample time to reflect on the way he makes an ass of himself. Yet, very, very few are the cases where the horse and his mate are not thrown with roses.

—Read this Record.

Any one who has lived in central or eastern Illinois will readily perceive that the above is not overdrawn. It is rather less than more than the truth. We occasionally have a few small bushels, but much rather a horrid condition of roads as prevails in those states every spring, sometimes for weeks together.

**These were dying north yesterday.**  
The roads are beginning to dry up.  
Blair has a small pox scare on hand.  
Monday's thaw set the streams flowing.

Good hunting is scarce and in great demand.

K. of P. Monday night, work is all done.

There will be more votes at the next election.

The farmers are all getting ready to sow.

No snow in Nebraska, five feet in New York.

Van Camp & Perrin's prices on mixed paints.

The sportsmen are beginning to get ready again.

Some change in the ad of E. L. Jones & Co. in the paper.

Well strained Missouri seed, fax for sale by J. H. Rollan & Co.

B. F. Smith left with his goods for Washington Territory yesterday.

A fine line of carpet samples at low prices at Compt. Gorham & C. Co.

A. C. Adams formerly of this place, is in charge of a drug store at Wahconah.

Rev. James of West Point is in town today.

Today we are meeting at the educational board of the academy.

MARSHALL.—At the residence of N. L. Judlin, Monday, March 12th, 1886, P. N. St. John, Mrs. M. L. Judlin, Rev. Mr. Jason J. Andrews and Miss Lizzie L. Rogers, both of Dixon county, Neb.

A man set of martens highly regarded at this office to do fine job work.

Monday began the clearing away of the snow, and Tuesday about finished it.

Ed. Vernon of Sherman precinct put in a car of wheat the latter part of January.

An endless number of paint brushes of all sizes and kinds, at Van Camp & Perrin's.

I want all the butter that the farmers and country have to spare. P. L. Miller.

Philips & Son have been getting in a large supply of lumber for their new yard this week.

Mary L. Hunter and George South have a public sale at the farm of the latter, near LaPorte, today.

A concert will be given by the young men of the Sunday school at the Presbyterian church next Sunday evening.

A boisterous individual from the country left his team standing on the streets all day Monday while he indulged in a big drink.

Edwards & McCullough Lumber Co. having bought out Phillips & Son, may be seen with their old stock with a few sets of lumber, etc.

The meeting night of the Brethren, literary and debating society has been changed from Friday to Saturday evening. Persons interested please take notice.

Judge North rendered a decision this week in favor of Ernest W. Milligan, pleading in favor of the plaintiff, and ordering a specific performance of the contract to recover real estate.

Ayer's Hair Vigor stimulates the hair to grow. It contains all the supplies to make the hair beautiful and abundant, removes dandruff, and renders the flexible and glossy.

No interest was manifested in the election for justices of the Peace Tuesday, only 31 votes being cast. In fact, it was the same proportion of the people that voted as in P. D. Phillips' "Sam Davis" 7, Bob Williams 6, and other voting centers.

The twenty-second annual meeting of the State Teachers' Association will be held at the State Normal School at Lincoln, Oct. 30th. That Prof. McLean is on the programme for a discussion of "The Object of a Recitation and How to Conduct It."

The preparations for tree planting in the grounds lead Arbor Day coming to nothing on account of the unfavorable weather. This year the trees should be planted whether they are potted or not, for the first day of May is well suited for it, as well if planted on some other day.

The astronomical committee of the Wayne Academy will be in town this week, to see what our citizens can do for the preparation of the school. The board of education of the general school is ready to close the contest as soon as Wayne is ready to guarantee the performances of its part of it.

Now that the agricultural society will start in with a program of debt, it will be a concerted effort to make the fair a successful one, and one of which the country can be proud. The grooms are now to be equipped with new harness and teams, and more money will be spent on the horses and mowers, etc., than ever before.

The military firm of Miss H. Wilkinson will be known hereafter by the name of Misses Wilkinson & Swan. We will carry a full line of military and national uniform supplies, and notions, and all other valuable shirk in that value is no use giving them in at all.

And now the ranching time is come, when the cattle ranchers shall forth at break of day with a double hook on the front of his wagon. He encounters the long, deep, silent prairie, the intervals, when he urges not his horses to greater exertion. He stretches therein and whipping the horses mightily, and urges with might and main, until he reaches the pasture hills, but still it remains.

He pushes his shoulder to the wheel and lifts off his saddle, when he reaches the head to the sole of his foot, and utters such a mighty effort and burst of energy, that the earth trembles beneath his feet. Then goes for the bars, and fence boards and rails, and they make a mighty effort and break out the tongue, and tear up the harness and slip the leather, and then dashes through the lonely miles on foot, and give him ample time to reflect on the way he makes an ass of himself. Yet, very, very few are the cases where the horse and his mate are not thrown with roses.

—Read this Record.

Any one who has lived in central or eastern Illinois will readily perceive that the above is not overdrawn. It is rather less than more than the truth. We occasionally have a few small bushels, but much rather a horrid condition of roads as prevails in those states every spring, sometimes for weeks together.
