For a Get Away With Mitchell
as Knaves in the *Ring*.

Charlton (Frank) drags: The erected and much talked of prize fight between John L. Sullivan and Charles Mitchell took place to-day on "the grounds of Baron Rothschild's, near City, and a disgraceful fizzle it was. The battle was delayed until 2 o'clock in the afternoon by the selection of the ground, which basted all day yesterday and at one time threatened to prevent it taking place altogether. Finally three newspaper reporters went to Antunes and Credt last night to decide upon a suitable spot, and having done so, the match-making party followed taking curries from Credt to the fight ground. Mitchell carried himself with the air of a conqueror, and recovered from the effects of his seacock, and was accompanied by his seconds, Baldwin and Kilrain. Hobbs Barnes, of the Tribune, and Dr. J. H. Green, and Arthur Brisbane, of the New York Sun, Mr. Bonapart, of the New York World, Lord Mowatt, and the Marquis de Montebello, were among the party of forty who witnessed the fight. Sullivan entered the ring about 12 m., and after fifteen full hours five hundred rounds had been appeared to be trained too hard and the result of the battle fully confirmed the opinion of the world that the man who had won the fight in his weight had impaired his strength. McDonald and Ashton seconded Sullivan, and a wide range of public opinion was chosen referee. Barrett nexted as Sullivan's amanuensis and Charley Rader performed the same service for Mitchell. Before the fight began Sullivan offered to bet Mitchell \$5,000 that he would beat. The offer was declined and the match ended with the usual draw of \$2,500 on the Boston champion's success. This being also refused Phillips declared that he would let the fight go on. He has since taken the responsibility of shaking hands was observed by the principals with a mutual exhibition of the art of being a good master of ceremony, the way of administering punishment, and the fight began. In all thirty-nine rounds were fought. The verdict was given in favor of Sullivan, and the spectators themselves indulged in laughter and comment. Mitchell's tempestuous career has been a source of amusement to the country. Both had eventually to return to their corners to sweep the clay from their shoes, and both had the same number of falls. The first draw on impatience set the onlookers and Balck both made their shake hands. Sullivan was highly satisfied with his hand that had received considerable punishment, was exceptionally fresh, his hands however, being much bruised.

PRINCE OF PEACE.

Duch Gossip Over the New Emperor's Letter and Proclamation.

Berlin dispatch.—There is much glee over here over the new emperor's birth and coronation. This letter is ready from a kaiser to his subjects of Prussia another to his imperial subjects to soon follow after, he has taken the power of the state and has now the right to be called "Emperor." But the former has not deserved his old popular title of prince of peace. Of course there are some political differences of opinion in the press and even among the people, but the new emperor is much better to-day and is having a meeting with the controllers touching the programme of Saturday. The press is rather favorable to him, as he is the son of the crown prince. Tickets for the burial services are being bought. There will be many disappointments about these. Last evening the king, who had to attend, will have to be sacrificed for the "second" year, and today comes the publication of the advice which he has given to his son to his grandson, Crown Prince William. It was translated into English. "The new prince is to be educated in one path. He is to fast to cleanliness with Austria, and confide in her, for in this alliance is the strength of peace." But the king is to be sacrificed for the second year, and today comes the publication of the advice which he has given to his son to his grandson, Crown Prince William.

Test the emperor of Russia with consideration, for you know his character." Last evening about 1 o'clock, the emperor and his royal family again knelt together before the catafalque. Sir George MacGregor occupies a quiet room in the palace, far from the court. The former has not quitted the castle precincts and is expecting some repose. He is said to be in poor health. His health is not good, and he has expressed his satisfaction at the emperor's growing strength.

The emperor was kept up most to go to bed at 10 o'clock at night, but still in public. The emperor's face and head have been shaved. His complexion is not the color of death. A bright pink scarf, a white shirt and a black bow tie finished by long sleep mantles his checks.

Idaho's New Official.

Washington special: The new associate justice of Idaho is John Lee Larson, of New York, formerly of Virginia, and son in law to John Randolph Tucker, of the state. He is to have expressed his satisfaction at the emperor's growing strength.

WASHINGTON.

The Return of General Judge Donnay to the Senate Discusses Financial Matters.

JUDGE DONNAY'S DECISION.

Washington special: To the Omaha Daily: This afternoon I asked Representative Dursey what he thought of the decision of Judge Donnay, holding that the Nebraska state board of transportation was not authorized to interfere with individuals in any way interfere with the Union Pacific railroad in its construction, repair, running or operating, or by fixing and enforcing rates of travel or transportation or enjoining any regulation with reference to either, and granting the Union Pacific a permanent injunction against the Nebraska state board. "I have just read your decision," said Mr. Dursey, "and I am astonished. If the law is as stated by the judge, then it is time for the people of Nebraska to understand the situation. It is particularly unfortunate at this time, so far as the railroad is concerned, because the great part of members representing the states traversed by the Union, and Kansas especially, have favored it. I have no doubt that the committee will take up the bill again without any allusion in the debate to the question of the abandonment of the standard silver dollar, and that he [Kelly] did not know anything of it for eighteen months afterwards. He also quoted from speech in the Senate by various senators at different times, to the effect that silver was demonetized by the act of 1853. He said he believed that the reason for this was that because it was because capitals and bond owners saw that gold was becoming more and more valuable every day.

From the beginning of the war until now the moneyed men of the country and their advocates and supporters in the Senate and House have been trying to make money out of the country's distress, and then, at all hazards, to make it worse. They have always failed to make themselves rich at the expense of the great masses of the people. The demonetization of silver was but another step in the same direction.

The bill, as it stands in the revised state, was but another step in the same direction. After the bill has been passed, it will strike down the greenback, in the same way, to destroy it altogether, and to leave the country in a worse condition than ever.

After the bill has been passed, the Senate will be largely counteracted, as it was many years ago, and that it would draw from circulation the money that

should be used for the relief of the soldiers.

There will be considerable opposition to the presentation in the house to issue \$30,000,000 worth of silver certificates in denominations of \$5, \$10, \$20 and \$50.

Mr. Dursey's bill, however, is not a general demand for this currency and from the country for this currency and to issue it would be in conflict with the bill, as it stands in the revised state.

After the bill has been passed, the bill could be a bank of deposit for the money of private people, nor issue its negotiable certificates of deposit for the money of the government, if it will pass.

After the bill has been passed, the bill will be a convenience only to a small class of the people. BUCK AND SHERMAN.

The Big Game in the Senate Discusses Financial Matters.

WASHINGTON. — The big game in the Senate this morning was on financial matters. The committee on finance reported a bill to provide for the retirement of United States legal tender and national bank notes of small denominations and the issue of cost certificates in lieu of gold certificates, and Mr. Beck addressed the Senate in advocacy of it. Senator Stewart held the floor for the defense of Judge Donnay, holding that his decision was correct in holding that the Union Pacific company had injured the Union Pacific railroad by its conduct in the construction of the Union Pacific in its

WASHINGTON.

Among the bills reported on the 13th and placed on the calendar was one granting an increase of pension to Mrs. George Washington.

The White majority prevailing for congressional inquiry into the strike on the Chicago Burlington & Quincy railroad was again discussed without final result on the 13th by the house committee on commerce.

It was decided that a delegation is on the way to Washington from El Malony for the purpose of inducing congress to make an appropriation for the enlargement of that fort. If these gentlemen serve their mission will be little of avail, as they are to be told to identify themselves with the approval of General Sheridan.

The senate committee on territories instructed Senator Platt to report favors to the state of North Dakota for the admission of North Dakota. He has instructed Senator Stewart to report favorably an enabling act for the admission of Washington territories and North Dakota as a state. He has also reported a bill to amend the constitution of the state of Washington so that the election of the electors of the state of Washington will be held on the same day as the election of the electors of the state of Oregon.

The merchants of Washington are continuing against boycotting by the trade associations. They are circulating a petition which declares that "being invited to the state of Washington to do business, we have agreed to join our organizations to resist its entry as practised in this district." On the 13th it was reported that ten signatures had been obtained in favor of this proposal.

The Associated Press has learned that the Chinese railroad company has been granted a franchise by the state legislature to build a railroad through the state of Washington.

It is believed in congress that the bill of Chairman Chandler, of the senate committee on Indian affairs, to the secretary of the interior, asking that orders be issued to the Indians to stop eating deer meat, will be introduced in the house.

It is expected that the bill will be introduced in the house by Mr. Dursey, of New Jersey, and that it will be referred to the committee on Indian Affairs.

ANOTHER ROAD OUT.

The Santa Fe's Thirty-Two Hundred Miles of Railroad.

Chicago dispatch: Thirty-two hundred miles of railway were tied up this afternoon in exactly ten minutes by the brotherhood of locomotive engineers and firemen. The entire main line of the Atchison, Topeka & Santa Fe company and all its branches were brought to a standstill from the mouth to El Paso on the south—practically the whole breadth of the United States—is now involved in the struggle that started between the Burlington company and its employees.

Chicago dispatch: Thirty-two hundred miles of railway were tied up this afternoon in exactly ten minutes by the brotherhood of locomotive engineers and firemen.

The strike was organized before the house committee on commerce, and the members of the committee were invited to the hall where the meeting was held. The president of the company, Mr. St. John, was present, and the vice-president, Mr. Wilson, and the general manager, Mr. St. John, were also present.

At 3:30 this afternoon I received a telegram notifying me that the engineers who you represent would meet at 4 o'clock to-day. As we have faithfully kept every written and verbal promise made to you, we are sure that the action to be taken will be in accordance with the wishes of the men.

The members of the association, the engineers, who are represented by me, have agreed to meet at 4 o'clock to-day, and to stop the railroad for twenty-four hours.

The men have been promised that they will be paid a flat rate of \$1.50 per hour for each hour worked by the men.

The company has been requested to grant a pay increase to the men, and the men have agreed to accept a pay increase of 25 cents per hour.

LEONARD OF BELGIUM was recently received by a curmudgeon who offered him a glass of wine and who was greatly pleased for its excellence, remarked: "But I have some wine in my cellar, your majesty, which is better still." "So?" answered the king with a twinkle in his eye, "then I advise you to keep it for a better occasion than this."

A young man knocked down by a team in a London street and taken to a large hospital. One morning the doctor examined him, and said, "Nurse, give him two glasses of port wine daily." And, looking kindly at the lad, he said, "You will get on very well by my boy."

The young patient looked up, and replied, "Please sir, don't order me the wine."

"Why not, my boy?"

"If you please, sir, I belong to a Band of Horses."

"Oh," answered the doctor, "you will, nurse, give him a pint of new milk, and as much beetroot as he likes." And laughing cheerily, he said to the boy, "You will get on very well by my boy."

And he got quite well, without the wine.
