REPUBLICAN TICKET.

For President, BENJAMIN HARRISON, Of Indiana. For Vice President, LEVI P. MORTON, Of New York. or Representative in Congress, G. W. E. DORSEY,

of Dodge County liesvy storms have visited various parts of the country this week.

The Nebraska Chautauqua asse bly at Crete ended Sunday after the most successful meeting in is history.

The republicans made a determined effort to put sugar on the free list, or at least largely reduce the tariff, but as sugar is a product of a Democratic state, the democrats refused to agree to any reduction.

According to the Railway Age, the amount of: new railroads built thus fir this year has been exceeded in the history of the country but once, last year, It is thought that the total mileage, for the year will reach Collected ten thousand mlies.

Atornado crossed northern Iowa last Tuesday, covering a territory nearly a hundred miles long and a nile wide. Nearly all the property. in its track was destroyed and a good deal of stock was killed but no bu

It looks as though there would be a fight in New York between Gov-Hill and Secretary Whitney for the nomination for govenor. The mag-rumps will not support Hill, and if the administration forces the nemina flow of Whitney over Hill, he will see to it that there us a defection in the camp. There's fun about.

camp. Theres the busdans if mony facuted exclusively in Great Britan links it an appropriate democratic emblem, but it desert speak to kind with the people. For a good many Genorate bave concluded that there is too much England and too little America in the campaign on their jide. On the Republican.

Instinctive Craving for Work

It is a psychological fact that a man
of brain power is baunted and driven intellectual man, with an his blood flowing to his cerebral organs, finds himself driven to mental activity. It ms a biological law, as it is a social seems a borogical raw, as it is a social law, that wherever power is them all power tends. The brain waves of a strong jutellect are so incessant that they impel and hurry the mind here they impel and hurry the mud here and there in search of new problems on which to expend its force. Such an intellect is always employed, for inherent in itself is the stimulus to brain work. — The Writer.
