enough to be his friends—he spoke an open contempt that did him little credit, considering how unsernpulously he use of them when his lonintolerable. There were others, sides Cleaver and his set, men of a courser stamp—boon companions, as the story books say—with whom, when the fit was on, he consented to herd.

oboos say—with whole the book of the consented to herd.

But as friends, as permanent companions even, lie rejected them, one and all, with a magnificence, an arrogant and bit-

element.

I saw him once, to my astonishment
with Norwood, and it came out that he
had the greatest admiration for Norwood What connection there could be between

these young puritans, aristocrats and scholars, the flower of the university—liprigs, a little, and torocs—and a man of chen's way of life, it would be hard ln\_aspiring to their acquaintance on

In asplring, to their acquaintanes one scarcely knew it fo accuss the man of an instance vanily or a pattertle immering after better things.

Little Leuringer, who played the fiddle, a Jel, was the rashing at that time among them, but he resolutely turned the cold shoulder to pioc Cohen, who, I believe, deeply research this in his beart, and nature. Just an apportunity of harlog a bitterwise when we have considered the cold shoulder to pioc Cohen, who, I believe, a bit accompanied to the contraction of the contraction of the contraction of the contraction of the contraction. at his compatriot.

A desire to stand well in one

eres, to make a brave show before one another, is, I have observed, a marked characteristic of the Jewish people.

As for little Leuniger, he went his Cohen's family were not people "know." On the subject of his family, Cohen him

very self, at the

Name".

On the subject of his family, Cohen htmsoff, at times awagely reserved, at others
supplilingly rank, viouseeved little Information, though, on one occasion he had
the subject of the little of the little of the
hadeground of the little.
But, naturally enough, it was an individual, not as the member of the tample.
There was, indeed, a forey, nu explosiance, a robustness about his individuality
that atoned—to the enious observer, atleast—of the presence of cortain of the
elements which shope the compose it. His

usa the fates aren't doing it he hale

tion.
"Oh, no." he replied, with a moody frony; staring hard at me

modely from; starting harm as many?" I get.

"Do you know what success means?" I saked suddenly, and in, lake quiestion—seeined to hear Cohen the poseur, always: the cities wor, and not always to be distinguished from; Cohen mark: nakedly a vealed.

"Ah, no, indeed."
"It. means—inundation—by—the—secon rate."

ate."
."What does the fellow want?" I cried "I never," he said, "was a believer in

"I never," he said, 'was a believer in the half least theory."
"It strikes me, Cohen, that your lost hookst megajamsty like 4 "block me, cohen chan to hookst megajamsty like 4 "block me, cohen change on this unsatisfactory planet."
- [Boburn into a laugh.
- "Nething," he said presently, 'ean ale true relations of things—their permanent, ossential relations, a \* "They shall know, they shall relations, a shall know, they shall relation that is what trued to say to mester in the half data. I sur-

shall feel what I am. That is what I used to say to myself in the old day. I suppose, now, they do kEoN more of less, and what of Lindat!"

"I should say the difference from your opinit of view was a very great one. But you always choost to'rry for the moon,"

"Well." he said, "quieff" bothing up, "if's the only thing worth having."

I was struck areas by the most insaffication of the work of the control of

bld demands, which looked at times like a passionant string after perfection, yet was side by side with the crudest vasity, the most vujear depies for recognition.

I rose soon after his last remark, which was delivered with a simplicity and on sit of conviction which made one perse to sus-pert the mountebupit, we shock hands and hade one another goed-night.

The many after of primitive and of the equation.

of the public which interests itself in books discussed the matter for three days, and the

d by my k Cohen for the catastrophe. Yet now then an inkling of his motive, a dim, ing sense of what may have prompted

IMP COURS AT A CUTO BYNNE.
In his hour of victory the sense of the
that been strongest. Is it, then, poshot that, amid the warring elements of
at discordant nature, the battling force
that ill-started, ill-compounded entity,
ser lurked, clear-eyed and ever wakshtal,
armied idealing.

A LAW AGIN IT.

Our church that got a braz' may must. The Bapin' preacher can't came one. And Sanday being bright and warm. I thought I'd like to go and like indir. But if I'd know of 'twas fashion day, With symme dressed like facey pictors, To take my malot in sermon time. I'd earyd at home and the acripter.

The out and Informersmooned, but I notice quief what he't decent, And I say women so like goine In aping every siyle that's recent They comb their hair straight up bel in aping every style that's freeht.
They comb their hair straight up behind,
And pat im arrers for to pin it.
And fris and bang it down in front.
There ought to be a law agin it.

There oughly to be a law agin it.

"They buy the highest hast there it,

"And make 'em higher yet with trimula",

Making Things Tidy.

A tidy, neat man in a neighborhood a perfect godsend to the community which he lives. Example does an amense deal of good or evil, as the iramense

immense deal of good or evil, as the case may be, to this words, and there are a great many things besides the mostles that are eathing.

When the tilly man begins to clean up his grounds, and dispose of the robbish. In his most word, all the most word of the control of the control of the control of the control of the proposition of the street will be picking up and the control of the control

on that attect will begin the ploping of the property of the p raily useful. And the next her husband will tell his abor that he cleaned that all up himself in less that

generally useful. And the next moraling her hessiand will tell his next polgribor that he cleaned that door not not be a supported by the support of the sup

neout it; and your tile, still you have been all the more uniqualitances campe use the old dress she has on, and if the minister does not still the control of the control

the eurphi, and the temper of the houseleeper has rises to fever heat in consequence. And when the rubbish is surpoid and when the rubbish is surpoid. And when the rubbish is surpoid and the rubbish is for the property of the force of the force of the force of the force send up their pointed splies, and the digrellies in the sunny corner of the force send up their pointed splies, and the firegrant of this proof; and the fless led by the dignified rooster, come to investigate the ground for worms, and turn up to the air and sun the three dates of the ground for worms, and turn up to the air and sun the three dates of the ground for worms, and turn up to the air and sun the three dates of the ground for worms, and the surpoid of the ground for worms, and the word as octally inclined had into the word; as schally inclined inclined the word in the word; as schally inclined inclined the word in the

York Weekly.

Consumption a Contagions Disease,

the origin of The germ theory of the origin of disease has completely knocked out the old time betief that consumption of the lungs was prematurely caused by a cold. A heavy cold by irritating the lungs may make them more sus

ment and milk an arbitral surface among the people of the knowledge.

Into every tubercular person may be a source of actual danger to his associates if the discharges from his lungs are not destroyed or rendered harmless. The careful disinfection of roots pied by published patients, at also recommended by these physicians.

Instances are not, infrequent of the externination of final flies by tubercular people, are, predisposed to lung some people are, predisposed to lung again are sensitive and onely the property of the

also instances of single deaths in large families of robust and neulthy chil

dren.
So, taking an all-around view of the

Censuses in the United States and Eugland.

England.
The question is so often asked,
"Why cannot the United States,
consus be taken in one day, as is done,
in England and many Conflictant
countries." The reasons are outline,
our reflection. In the first place, England, which we will take for example, land, which we will take for example, is a compact nation all the functions of government being concentrated at the national capital. The constabilities of the constabilities o is a complete mation. All the functions of government being concentrated arithment and the mational capital. The constability is national, and the ceases is taken through it.—The sateleton of the body; is a constable, and the constability of the constability of the constability of the constability force. This sateleton of the body; working with the parameter, constability force. This gives Englandand like conditions exist in obtain or castly brought into existence, for or castly brought and ordices, thou the constant of the constable is supplied with a proper quantity of years and the constability of the consta cansus comprehends, as we have seen, a very great number of inquiries re-lating to numerous topics.—North American Review.

Story of a Lone Highwayman Who Successfully Robbed Two Stage Coaches

No Ope Assists Him in His Demand on the Passengers to Deliver Up Their Wealth

But It is Strongly Suspected the R that the Hold Up Was Going to Occup

A fool Bletweyman Afoat.
Derran, Col., July 23.—Mr. F. Marshall, who has just arrived in Deaver
from Woming, gives his experience
with road agent in a stage hold up between Kaylins and Landen the pest
week. Ho was travelling by stage from
Raulins to Landon. In contensy with
monother passenger and the driver.
Wheet the mere abrout serventy-fits or
week proceedings belongery to me. the
Swedwater, between 9 and 10 offects
in the evening in a lonely those of the Sweetsmer, Detween 9 and 10 choose in the evening 1 in honely place of the road, a man dressed in a long courses continued hat and wearing a millior around his neek that Concealed his face and extended up to his eyes, stepped the converted by the contract of the converted by the con the readable, rwised a Winelester and commanded a lark. Of course the driver groundly obeyed, 'The two pas-sagers, however, had time to coincial some of their most valuable property. Mr. Marshall shipped his fine gold watels and chain inside the leg of his feeling. The other passenger his 1900 in hills inside the top of his most leg, which was outside of his multi-like the control of the cont all the money be had or

from their innes; that one year ago the Sionx told the government that they did not wish to not with the ways to not wish to part with their reservation, and now they come again, thinking the Indians will give up. He advised his Indians to stand firm and kep the lands. Sitting Bull is improved in health and will be incorporate the conference.
