The above prices are not to get rid of shelf worn goods nor to make room for Spring goods, or merely as an advertising scheme. We get goods daily and will continue these extremely low prices to give the cash buyer the benefit.

CALLING A BALD.

Senator Vorhees On the Alaska Seal Lease.

THE EDUCATIONAL BILL AGAIN.

Senator Spooner Speaks in Opposition and Blair Says a Word in His Favor.

A Decision by the Land Commissioner—Other Capital News.

WASHINGTON, March 4.—In the senate Mr. Vorhees offered a preamble and concurrent resolution reciting that in the recent lease of the fur seal islands of Alaska to the North American Commercial company certain provisions of the law were not complied with, and directing the secretary of the treasury to furnish the senate complete copies of all accompanying papers and correspondence with said law, and that the secretary refrain from the execution or delivery of the lease until the subject be inquired into by the senate. The resolution was referred to the finance committee.

Mr. Mitchell offered a resolution which was agreed to, directing the committee on foreign relations to consider the expediency of raising the Turkish mission at the second class, and making the secretary of the American minister at that country \$2,000.

On motion of Mr. Blair the bill fixing the salaries of United States district judges at \$3,000 was taken up and after some discussion was passed. The national bill was taken up and Mr. Spooner spoke in opposition to it. He said the bill was an interference with the rights of the people and once again, and now he again opposed it. He complimented Mr. Blair for his industry, courage and ability in his advocacy of the bill. He denied that the Republican party was pledged to the support of the bill. He could not admit that the federal hand could take jurisdiction of the school system of a state and take it into exclusive charge.

Speaking of Mr. Blair's allusion to the press being in a conspiracy in favor of the measure, he said that if a newspaper press could have no interest against the general interest of the people, it could have an interest against universal knowledge. If it had any special interest in the subject, it was in the direction that every man, woman and child should be taught, not only to read, but to read the newspapers. The newspaper had not used more extensively Mr. Blair's able analytical and exhaustive speeches than this, he thought. It could not afford to be interested in favor of the bill. In the west and the south there had been a great change in public opinion and in the attitude of the press that had formerly favored the bill. Mr. Spooner spoke in favor of the bill in the southern states. He said that the people in those states had not only been well in the education of white children but had been doing well to the

THE SUPREME COURT.

Mississippi's Law Valid.

WASHINGTON, March 4.—The supreme court of the United States rendered a decision in the case of the Louisville, New Orleans and Texas railroad against the state of Mississippi, involving the validity of the Mississippi state law requiring all railroads operating within the state to provide separate compartments for colored passengers. The decision was a narrow one, but it was a victory for the railroad company. The court held that the state law was not a violation of the equal rights clause of the constitution. The court also held that the state law was not a violation of the contract clause of the constitution. The decision was a surprise to many observers, as it was generally expected that the court would rule in favor of the railroad company.

Legislative Consolidated Bonds.

The court also rendered a decision in the case of Hanna against the state of Louisiana on appeal from the circuit court of the Eastern district of Louisiana. The case involved the validity of a law passed by the Louisiana legislature in 1878, which provided for the consolidation of the state's bonds. The court held that the law was valid and that the state was not liable for the bonds. The decision was a victory for the state of Louisiana.

WARMOTH WINS.

After a hard fight he gets the Col. re-elected at New Orleans. The senate in secret session devoted nearly an hour to the consideration of the nomination of Henry C. Warmoth to be collector of customs at New Orleans. Mr. Dingley who reported the nomination favorably from the committee on commerce, made a speech in defense of Mr. Warmoth and said that the committee had not found the charges made against him by Louisiana Republicans. The nomination was confirmed unanimously by a vote of 89 to 14. A long list of other nominations were taken up and confirmed.

A MIDDAY HORROR.

Eight Men Imprisoned in the South Wilkesbarr Shaft.

STREET TRAGEDY AT DEN MOINES.

One Ohio Boy Beaten—Another with a Stone.

WILKESBARR, Pa., March 4.—An explosion of gas occurred in the South Wilkesbarr shaft. Eight men were at work inside of the shaft at the time. A few minutes later the tunnel became filled with smoke and gas, which shut off all means of escape. The tunnel leads into the Walton mine adjoining that of the Wilkesbarr. The imprisoned men, the rescuing party was driven back and compelled to give up the attempt. Superintendent Phillips and Inspector Williams are on their way to the shaft every effort to break through the pillar of coal and rescue the men alive. The victims are: Michael Brown, James H. Brown, John C. Brown, Donald, aged 20, Thomas McDonald, aged 21, John McDonald and Carl. All are men of family. The mine is owned by the Lehigh and Wilkesbarr Coal company.

Selected on a Train.

ROANOK, Va., March 4.—Just as the Roanoke passenger train on the Norfolk and Western railroad came into Roanoke the passengers in the Pullman cars were startled by a pistol shot coming from the smoking compartment. The porter rushed into the little room and there found a man lying between two seats, with the blood gushing from a wound in the forehead. Papers found almost immediately. Papers found in the dead man's pocket disclosed the fact that he was Charles A. Wiles, and that his home was in South Greenfield, N. Y. He was returning home from work as a clerk. The suicide was about 35 years of age.

Burglars Felled.

RIDGEWAY, Pa., March 4.—An attempt was made to rob the Elk County bank in this borough. The burglars came through the back walls of the building and were working at the vault when they were discovered by the watchmen. They were driven away, as they left a number of their tools lying about the place. When the bank was opened in the morning the clerks discovered about four feet of the wall removed and brick mortar in the walling around the vault contained \$50,000 which was found undisturbed. The attempted robbery was by experts and caused a great sensation in this place.

A State Treasurer Suspended.

STANBURY, N. Y., March 4.—State Treasurer Charles A. Wiles was suspended as an examination of his books by Governor DeWitt. Mr. Wiles said his books

WITH SUSPECTED MURDER.

WASHINGTON, March 4.—Internal Revenue Commissioner Mason will start on an inspection tour through the southern states on the Atlantic seaboard. He will visit the collector for the states of Virginia, North and South Carolina, Alabama, Mississippi, Georgia, and Louisiana. His trip will last for about two weeks. Mr. Mason, leader in the spring, will visit the southwest. The object of these trips is to get better acquainted with the personnel of the service and the methods in route in transacting public business in his bureau.

A Blow to a Railroad Company.

WASHINGTON, March 4.—Land Commissioner Groff has denied the application of the Atlantic and Pacific Railroad company for a survey establishing the limits (granted and indemnity) of the grant of July 27, 1864, appurtenant to the line of the road in the Indian territory. The commissioner decides that the title of these lands are in certain Indian tribes, and not in the United States; that they could be no grant, and consequently no basis for indemnity.

WASHINGTON, March 4.—The Nebraska National Bank of York, capital \$20,000, was authorized to begin business. The following applications for authority to organize national banks have been filed with the comptroller of the currency: The First National Bank of Rice, Colo.; The First National Bank of York, Neb.; The First National Bank of Ely, N. M.; The First National Bank of Stanley, N. D.

Bond Purchases.

WASHINGTON, March 4.—The treasury department purchased \$49,000 41 percent bonds at 91 1/2.

WATERING AT NASHVILLE.

NASHVILLE, Tenn., March 4.—Several hundred delegates have arrived to attend the meeting of the Southern League of Women in this city. Gen. Goff of West Virginia is the most notable of the arrivals so far. The convention meets at noon in the grand hall. President Thurston mislaid connection at St. Louis, but will arrive tonight at 8 o'clock.

LANCASTER, Pa., March 4.—At a meeting of the Lancaster County Agricultural society reports were read showing that the fruit crop in the county was practically destroyed by the late frost. It was stated that there was no early fruit at all.

FRUIT AT STABLE.

MOBILE, Ala., March 4.—The frost of the past three days did much damage to growing peach crops in this locality. Sabages of the fruit crop, it is thought, is damaged fully 25 per cent. All small vegetables are killed.

SHOT RE-ELECTED.

PHILADELPHIA, March 4.—Emu Thomas (colored) shot and seriously wounded her former lover, James Jeffrey (colored), because he had married another woman. She was arrested.

DES MOINES, Ia., March 4.—Constable Skinner, a Des Moines seaman, shot "Fido" Henderson a negro tough. The officer had arrested Henderson for liquor and the latter had resisted. The result was that Henderson was badly bruised, and in a few hours started for the officer. Meeting him on a public street, both began firing, and three shots were fired. Henderson, one passing through his stomach. The negro's wounds will probably be fatal.

Des Moines, Pa., March 4.—Constable Skinner, a Des Moines seaman, shot "Fido" Henderson a negro tough. The officer had arrested Henderson for liquor and the latter had resisted. The result was that Henderson was badly bruised, and in a few hours started for the officer. Meeting him on a public street, both began firing, and three shots were fired. Henderson, one passing through his stomach. The negro's wounds will probably be fatal.

Des Moines, Pa., March 4.—Constable Skinner, a Des Moines seaman, shot "Fido" Henderson a negro tough. The officer had arrested Henderson for liquor and the latter had resisted. The result was that Henderson was badly bruised, and in a few hours started for the officer. Meeting him on a public street, both began firing, and three shots were fired. Henderson, one passing through his stomach. The negro's wounds will probably be fatal.

FIRST LOVE

For once a woman loved—didn't you know?—the first love of her life...

THE CONCEALED LETTER

"You, madam," he said. "Yes, you, if you please"—for she hesitated and looked about her...

"Never," I said, leading her to the lady and then to the audience. "Never," she answered...

"I told you," she said, "I am very sorry, but I cannot tell you. I am not in the habit of answering questions..."

I had this small clew, and I hurried on my horse...

"One like that turned up alongside the new hulls there," the boy said. "A white white she was..."

"I have never seen that out of my fingers closed on as I thrust them into my pocket, and hastened on the street..."

"I'll give you my," said he. "Wait. You are orders in regard to witness, I'll call him..."

"I'll give you my," said he. "Wait. You are orders in regard to witness, I'll call him..."

"How do you know my name?" she asked. "I read it in your letter," I answered...

"Which was stolen," I died. "With all my exultations," she wrote on. "I could not get any more..."

decent hotel attached to this restaurant," I said. "Will you assure me that you will remain here until I see you again..."

"I washed neither time nor words in plain proof of my constancy in devotion in life before her, and offering her my hand and heart..."

"There's no sound where there are no ears," we are told, and the sweetness of sound, as we call music, certainly depends in great measure upon the susceptibility of the listener...

"I'll give you my," said he. "Wait. You are orders in regard to witness, I'll call him..."

"I'll give you my," said he. "Wait. You are orders in regard to witness, I'll call him..."

"I'll give you my," said he. "Wait. You are orders in regard to witness, I'll call him..."

"I'll give you my," said he. "Wait. You are orders in regard to witness, I'll call him..."

IOWA NEWS NOTES

BRILLINGTON proposes to put down the duties of paying this year at a cost of \$100,000.

A kick from a horse fractured the skull of the little son of Mr. Larson, of Moorhead.

DAVID P. SHIBBY was found dead in Waterloo, having died from an outbreak of cholera.

The fire handlers at Storm Lake have struck for an advance in wages from \$2.50 to \$3 per day.

The murderer, Murray, at Center was being sentenced to the penitentiary for ten years.

NATHAN LEONARD, sheriff of Scott county, died on the 17th, aged 47 years. He was born in this county.

Following a lady on the streets of Marshalltown, Keesee, an intoxicated Indian, was given thirty days in jail.

(THURSDAY, MARCH 6, 1890.)

Abraham Lincoln, son of Robert T. Lincoln, died in London yesterday.
O'Sull has again weathered a severe loss from fire, the second within two weeks.

The Iowa legislature has passed in session for two months and has passed one bill.

It is estimated that it will require \$665,000 to buy seed for South Dakota.

Wm. B. Allison was re-elected United States Senator by the Iowa legislature Tuesday. Mr. Allison received more than his party vote.

The Journal accepts the result of Monday's election as meaning the return of the saloon to Sioux City. It was only the murder of Haddock that ever made it possible to enforce prohibition in Sioux City, and as that tragedy has gone out of the public mind the saloon has probably returned to stay.

The town election in Iowa seems to indicate that the sentiment in favor of a return to a high license system is constantly growing, and the repeal of the prohibitory law is only a question of time. While the elections will undoubtedly have some influence with the legislators, it is not probable that any material change will be made in the law at this session.

The Sioux City Journal still professes to believe that a road will be built from Sioux City to meet the Missouri Pacific at Papillion, and that it will be built soon. What a joke it would be on Omaha, if while the road is being talked for years of a road to Dakota to cut off a big share of Sioux City's trade, Sioux City should build a road just around Omaha.

Only a few short months ago everybody in Nebraska was in favor of a large reduction, if not the entire abolition of the duties on sugar. Now the probability that the cultivation of the sugar beet may make this a sugar producing state has brought an entire change of sentiment on the question of the sugar duty. The state will not now willingly see a material increase of the duty until the experiment has been fully tried and its success or failure determined. It is not those who will engage in the manufacture of sugar or the cultivation of the beets who are interested, but it will be to the advantage of every farmer in the west to have a large area as possible withdrawn from the cultivation of corn and devoted to some other crop.

The Wayne Herald last week gave to its readers a quarter of a century of Wayne county rates about Thurston county. Among other things it stated that the rates of the people of Thurston county were not much less than those of Wayne county, especially on an acre where whose taxes in Wayne county amount to six dollars, while he has to pay thirty dollars in Thurston county. We don't believe it is worth the contending this rot as an intelligent man will believe it. May be there are a few instances where there is a discrepancy between the taxes in two counties, but on an acre there is not much difference, and we are reliably informed that the taxes in Thurston county are about the same as in Wayne county. There are two or three parties out in Thurston county who were opposed to the organization of the county, but we will say with our usual candor that there is not a single farmer in this county who would want to see it disorganized. The Herald also calls this county a "fizz" on a recent trip to Omaha a farmer business man sat in front of one of the most prominent attorneys of Wayne who was discussing with a friend the legality of this county. He said "I was once somewhat in doubt but later I have become convinced that Thurston's county is right. Will Bro. Gosborn please put this in your paper and smoke it together with the railroad's protest." Pender Times.

What the Herald said in regard to the feeling among the farmers on that part of the reservation that was formerly a part of this county, and the difference in the taxes, was on the authority of farmers who live there, and who are probably as well acquainted with the situation as the Times is, to say the least of it. Either the Times does not understand the situation or it misrepresents it. As in Thurston county being a "fizz", we have the Times' own statement for it that unless some means can be devised to get more taxable property the maintenance of the county organization is very doubtful.

BORROWED POINTS.

Cathoon county, Illinois, is a queer one. There is not a railroad, a public square, a printing office or a bank in the county. The county jail has not had a criminal inmate within the last five years. The grand jury of the county has found only three indictments within the last two years. These were against persons who had illegally sold liquors. The county has only two terms of court a year, and a term never lasts more than three days.

No sooner was it given out that Chicago corralled the world's fair than it was given out by some bold and daring spirit that Omaha would put in the bid for the world's fair. This was a big national political convention in 1892. It would be a great scheme if Omaha could knock that sentiment, and she will be the cat, the west is having to return.

A company with a capital of \$500,000 has been formed at Middletown, N. Y., for the purpose of constructing a milk pipe line to New York City. The proposed method of conveying the milk is in cylindrical cans surrounded by water, and the promoters of the scheme assert that the time of transportation for a distance of 100 miles will not exceed one hour, while the profit will be about a cent a gallon.

The American detective, as a rule, must take a back seat for newspaper men. To a great extent the professional detective is regarded as a blunderer, something the newspaper man hasn't got down to yet. During the past few years the best pieces of detective work have been done by newspaper men, not in hope of financial gain, but in order to give professional pride and jealous rivalry.

If congressmen think the people of the United States will be benefited by a law which may stimulate the growth of a nation in England, but not in this country, they really find some difficulty in making their constituents take their view of it. The safest plan is to wait until the people unmistakably demand the law and the agitation for it passes beyond the narrow circle of those who will profit by it, or mistakenly, hope they will. Don't try to force it upon the people as long as you will be for them at least a nauseous dose of medicine administered by quacks and empirics—of doubtful benefit to the patient and of a permanent advantage to those who prescribe it. Mr. Adams, if he is prudent, will wait until the people call for international copyright; he will not out of his beneficent wisdom give it to their unasked and because he thinks it a for their good while they think differently.

There is an article going around telling "How to Plant Corn." This is of no use in Kansas. What they want to know out there is "How to Sell Corn."

The Hon. Joe Blackburn of Kentucky comes out today that he will continue to support the proposal of Chicago as long as any legislation pertaining to the world's fair remains to be done. Everything seems to be playing into Chicago's hands these days.

What church was it whose conference was held in England, or was it a assembly, or whatever you call it, that the other day there was nothing this year to be thankful for? That's the church I want to join.—Father Knickerbocker.

It is rank hypocrisy to prate about reform of the Australian rule while justifying and shielding criminals of the ballot-box stuffing type in Jersey City or some other city of dishonest politicians in Ohio or Indiana. Public opinion is not sufficiently aroused to do much good, if it honors the criminals who use "little gipsy" hats, or the crickets and managers who hire them, but condemns the man who buys a vote or furnishes money for bribery. The thing being done is a wrong and a disgraceful and a violation of the principles of common honesty to all political work and public business. The men who are not willing to vote down a party—so long as it is a party—by cheating have no right to pretend that they are reformers.

Mr. Dever says Chicago is like the man who marries the woman with a ready made family of twelve children. Due trouble is just begin.

Mr. Blair's recent speech in the senate would fill a book of 400 or 500 pages. CLIPPED into sections it would furnish a long sermon, for every Sunday in the year. Yet nobody knows what Mr. Blair said.

THE "NORTHWESTERN LINE" Restaurant!

Chicago, St. Paul, Minneapolis & Omaha Ry. Through Train between SIoux CITY and ST. PAUL, via the New Steel Bridge. Two trains daily, SIoux CITY AND ST. PAUL, with sleeping sleeping Coaches on night trains.

This is the Short Quick Route from Sioux City and Northern Nebraska

ST. PAUL, MINNEAPOLIS, And all points beyond.

THE WEEKLY TRADE REVIEW

New York, March 11.—R. G. Dun &

Co.'s weekly review says: Unseasonable

weather and growing doubts about the

prospects of the crop have been encour-

aging. Yet it must be remembered that

the reports of dealers everywhere are

favorable to such an extent that it is

difficult to find a single instance of a

factory because it is not up to the

season, and because distribution

does not suffice to clear away stocks

accumulated through the amount of freight

charges which are being paid.

The trader who bought 20 per cent

more than in any previous season, but

has had a 5 per cent increase in his

costs. The enormous traffic

descried the factor part of last year

showed that exceptionally heavy pur-

chases were made and the clothing in-

dustry has not yet recovered from the

depression of a year ago, last week's

showing an increase of 4 per cent at

New York 5 per cent at Boston, Phila-

delphia and St. Louis, and 3 per cent at

other places. But the prevailing

tone just now is one of despondency.

Some of the iron and steel work

is more than best foreign grades, and

is being ordered in large quantities.

The woolen manufacture, according to estimates of com-

merce, is doing better than in any

year since 1894. The movement of

wool is well advanced, and the

movement of late wool is

well advanced. The movement of

wool is well advanced, and the

movement of late wool is

well advanced. The movement of

wool is well advanced, and the

THE SPORTING WORLD.

The National League Meeting, the Brotherhood's Move.

CLEVELAND, O., March 4.—The city is full of base ball men, and every one is anxiously waiting to see what will be done by the League. The schedule committee held a meeting in the Weddell house, but what was done was not divulged. It is hinted, however, that a tentative schedule was adopted. Brotherhood schedule was laid before the committee by President Nick Young, who received it from Secretary Brunell, of the Players' League, but no attention was paid to it. The League schedule will be made up just the same as if the Brotherhood had no existence. It is pretty well settled that there will be no reduction in the number of clubs composing the League circuit this season.

President Brush, of the Indianapolis club, arrived here, and when asked by a United Press reporter if he had any intention of selling out his team, he said: "I have not, I shall stay in the League, if this season is any of them. It may be that in the season, above all others, that Indianapolis ought to be in the League. We have no objection; our people are enthusiastic, and the indications are that we will have the best season ever known."

This is generally taken as Brush's final answer. It was rumored that Detroit had made another effort to link into the League at this meeting, but thus far no one representing that city has appeared. It is said by the delegates present that there is no chance whatever for Detroit to obtain a franchise. If another eastern club could be secured, and a delegate, "we might be Detroit in and have a favorable club league. But Baltimore is the only eastern city that would be large enough for us, and they are in the Atlantic league to stay."

Kilrain Sentenced.

PURVIS, Miss., March 4.—Jake Kilrain appeared in court for sentence. After dwelling briefly on the laws of Mississippi against prize fighting, and speaking in severe terms of the invasion of the state by the pugilist and his friends, the judge sentenced Kilrain to two months imprisonment in the State jail, and a fine of \$100. The "cut-throat" case, which is on appeal from sentence one year, will probably be decided next Monday.

A Two-Four Knackout.

WASHINGTON, March 4.—Jack Collins, the champion middle-weight of Delaware, and Mike Healy of this city, fought for a purse of \$300, near Mount Vernon, Va. The "mill" was brief. In the second round Healy knocked Collins so badly that he failed to come to time and Healy was given the "light" time, 7 minutes.

Admission a Quarter.

PITTSBURGH, March 4.—W. P. Potter, of the Pittsburgh Players' League club, stated that the Players' League was not going to allow the National League to make any stronger bid for public patronage than it. To this end it has been voted definitely to lower the price of admission at 75 cents, instead of 50 cents, as previously determined on.

Half Players Bound South.

NEW YORK, March 4.—John Ward and his team of base ball players departed on the steamer Chattanooga for Savannah. The Philadelphia Brotherhood team accompanied them. The Brooklyn League team also left at 8 o'clock on the steamer Clyde for Jacksonville, Fla.

A Tie.

ST. CINCINNATI, Fla., March 4.—The Chicago and Philadelphia League teams played an exhibition game here, resulting 10 to 10.

VOICES FOR REFORM.

A Petition Bearing Seventy Thousand Signatures Asking for Ballot Reform. ALBANY, N. Y., March 4.—In the assembly a petition, signed by about seventy thousand citizens, for ballot reform, was presented. It weighed about one hundred pounds, and was brought in by four men. Mr. Sherman objected to its being presented until after the regular business, according to rule. Speaker Hendon said he would bring it in and Mr. Sheehan was literally pushed down the aisle by the bearers of the petition. He protested vigorously, and there was quite a scene. Later the petition was formally presented and referred to the Judiciary committee.

Non-Union Men Strike.

PITTSBURGH, March 4.—The switchmen employed in the Pittsburgh and Charterford of the Pittsburgh and Lake Erie railways about fifty in number, have quit work. They demanded an increase from \$1.90 to \$2.10 for day and \$2.20 for night work. No attempt was made to move freight trains, and considerable difficulty is experienced in getting passenger trains out on time. The strikers are all non-union men. President Newell is in Europe. The local officials claim that they have no objection to the matter and cannot concede the demands.

Loss Election.

DES MOINES, March 4.—The election here resulted in a victory for Mayor Carpenter and the entire Democratic ticket. The vote for Mayor Carpenter was 5,000, the entire Democratic ticket was elected there on the first time in the history of the city.

—OTTUMWA, Ia., the home of Capt. Hutchinson, the opponent of Governor Hoies in the late state election, also went Democratic, and reports generally throughout the state show large Democratic gains.

Trains to Off.

ROSTON, March 4.—George Francis Train left Boston at midnight for his trip around the world, which he expects to complete in sixty days. New York will be his first stopping place. From there he will go directly to Tacoma and thence across the Pacific ocean to China.

—BOSTON, Mass., a Progressive ticket of Roosevelt was defeated by Swallow and the ticket was defeated.

Ballard's Snow Liniment.
