CON ELECTION DAY

Serious Rows and a Close Contest at Chicago.

CREGIER OR WASHBURN ELECTED.

A Lively Time at Denver—An Exciting Struggle at St. Louis—The Citizens' Candidate for Mayor Wins at Lincoln—Results Throughout.

CHICAGO, April 8.—The polls closed at 4 o'clock on one of the most exciting municipal elections ever known in the city of Chicago. The day was bright and sunny and this, coupled with the fact that there were five candidates for the mayor's chair—Dewitt C. Cregier, Dem., the present incumbent; Hempstead Washburn, Pop.; Carter G. Hays, Hon. and Hon. Charles D. Washburn, Rep.; and Thomas Meyer, Socialist—caused a very heavy vote to cast.

James Scott, a colored man, was shot and dangerously wounded at the polling place in the Eleventh ward at the First ward. A number of rough picked a quarrel with Jim Tinnan, a Harrison street peddler. As an officer came up to stop the row, Scott carried a revolver and fired at the officer, striking him in the back and inflicting a severe but non-fatal wound. Tinnan was arrested, but subsequently released. The police are looking for the man who shot the officer.

A row between Republicans and Democrats at the Nineteenth precinct of the Thirtieth ward resulted disastrously to H. Clark, a Republican who became engaged in a physical fight with a Democrat who was knocked down and his chest lacerated. He was taken to his home, where his injuries were pronounced fatal. The police officers are at work on the case.

The Democrats did the most of their voting early in the day. The vote for Cregier was simply enormous, comprising nearly two-thirds of the total. Singularly enough, after so heavy a majority in which so many conflicting interests were arrayed against each other, there was less brawling and fighting than was expected.

Returns from 504 precincts out of 518 show that Mayor Cregier, Dem., is only 47 votes behind Hempstead Washburn, Rep., and indicates that Cregier will be elected mayor by a small majority. As Cregier ran about 100 tickets in the city, outside of the Republican ticket, the result of the election is that the Republican city ticket has been elected, although Mayor Cregier's friends claim his election by a majority of 240. The result will not be definitely known until later in the day.

At Denver.

At Denver, the election for mayor was held in this city. The candidates were Judge Platt Rogers, Dem. and W. H. Millhorn, the present county clerk. Rep. The Citizens' committee of 100 had posted a sign at each polling place to supervise the voting, which they were permitted to do in all except the Thirtieth ward. There the judges of the election refused to allow them, where upon the watchers smashed in the doors and took their positions besides the ballot boxes. The judges, however, refused to receive any more votes in that precinct. Finally the police were called in and the polls were opened.

Returns indicate that Judge Platt Rogers, D. elected 2,000 majority. The rest of the Democratic ticket is carried by large majorities. The city clerk, Vickroy, R. is probably elected by a small majority. There were four tickets in the field, including the Democratic, Peoples and Citizens', The Peoples and Democratic were practically the same, as were those of the Republican and Citizens'.

At St. Louis.

At St. Louis, Mo., the municipal election was one of the hottest in recent years. There were three tickets in the field, independent or Municipal Reform, the Republican and Democratic. The independent party, however, defeating the Republicans, but the indications are that the entire Democratic ticket is elected. About three-fourths of the registered vote was polled.

St. Joseph, Mo., April 8.

St. Joseph, Mo., April 8.—The city election for eight aldermen resulted in the election of four by each party, which is substantially a Democratic victory, as it gives that party the control of the council. That body having been so politically divided, there has been in an almost constant deadlock over all the matters of importance to the city of this government are Republican.

In Wisconsin.

MILWAUKEE, April 8.—Returns indicate that S. U. Pinney, Dem., has been elected associate justice of the supreme court. Robert C. Anderson, an attorney, city attorney of Milwaukee, who was elected by the voters, has been appointed judge of the superior court in Milwaukee county over the regular nominee of the Democratic county convention.

Lincoln, Neb., April 8.

Lincoln, Neb., April 8.—The city election passed off quietly and a large vote was polled. At 10 a. m. the returns were incomplete, but indications are that West Hays was elected mayor. The Republicans elect the balance of the city officers. They also elect four out of seven councilmen.

BARBURN IS GONE.

The Great Showman's Long and Active Life Ended—His Demise.

DUMORFON, Conn., April 8.—P. T. Barburn is dead. He passed away in the presence of his family and intimate friends. Among the sorrowing group in the room when the end came were Mrs. Barburn, Rev. L. B. Fisher, Mrs. Thompson, a grocer, Miss May Read, his niece; Mrs. Bushtelle, another daughter; Clinton H. Seely, his grandchild and principal heir; Benjamin Fish, Mrs. Barburn's mother; Dr. Hubbard, and Mrs. Kikman, the housekeeper and nurse.

Barburn's illness began twenty-one weeks ago, and during this period he was in a constant struggle with the disease. The change for the worse, which occurred in the latter part of the week, was not unexpected. He died at 10 o'clock, and was buried in the cemetery at 11 o'clock.

HARRINGTON & EPLER.

The Connecticut Issue.

HARRINGTON, Conn. April 8.—An answer for State Comptroller Stanish filed in compliance with the application for a writ of mandamus made by Executive Secretary Brainard. The answer avers that Brainard is not the executive secretary, and therefore there is no money due him. No date has as yet been set for the argument of the application in the supreme court.

The political union is likely to be brought before the supreme court shortly. The term for which Judge Downing of the common pleas court, was elected expired March 31. He claimed to hold over and had continued. In a minor case at New Haven the lawyers for the defense refused to put in any testimony and on the conviction of their client raised the question of want of legal capacity. The case will be argued in the supreme court. The common pleas court adjourned for lack of funds, the legislature having adjourned without passing appropriation bills.

Divorcing Polton and Politice.

PHILADELPHIA, April 8.—Mayor Stewart, who was inaugurated Monday, has issued the following order to the police: "All persons connected with the bureau of police in any capacity, serving as members of the recent executive committee, are requested to withdraw from the city for a four-month period. The new force to be called 'The Hawaiian Islands' and will be the City for the same term. She will be 270 feet long, 42 feet beam and 34 feet deep. She will be the first of a fleet to be built in the Clyde for the same term, and all the ships will be engaged in trading in and out of San Francisco. The cost of the fleet and the new force in America makes it impossible to build such vessels here."

With Fry the Hawaiian Fleet.

SAN FRANCISCO, April 8.—The failure of congress to pass a tonnage bill is bearing fruit. San Francisco merchants subscribed \$100,000 and sent to the Clyde for a four-masted ship. The new vessel is to be called "The Hawaiian Islands" and will be the City for the same term. She will be 270 feet long, 42 feet beam and 34 feet deep. She will be the first of a fleet to be built in the Clyde for the same term, and all the ships will be engaged in trading in and out of San Francisco. The cost of the fleet and the new force in America makes it impossible to build such vessels here."

A Novel New Found.

NEW HAVEN, Conn., April 8.—Young Harry Donovan, who was injured from his home in this city a short time ago, returned to his father's home in New Haven, Conn., on Monday night last. Donovan found his boy long-haired and his father very many miles distant from any other dwelling. Donovan says he has instructed his attorney to prosecute Mrs. Rankin, who carried off the boy; for the purpose of sending her either to jail or to an asylum.

PLAGUE OF INFIDELITY.

OUR TALKAGE SAYS IT IS THE MOTHER OF PLAGUES.

Infidelity a Negative Religion—Can Offer the Christian Nothing in Exchange for His Faith.

New York, April 5, 1891.—Continuing all course of sermons on "The Plague of Infidelity," Rev. Dr. Talbot has this morning given the subject of "Infidelity." The discourse was delivered to a large and appreciative audience at the First Baptist Church in the forenoon. It was the last of a series of sermons on "The Plague of Infidelity." The text was, "There is a God, and he will be true, but every man is a liar."

It is God says one thing, and man says another. There are many who have had some of the same doubts as to the infidelity is not only a plague, but it is the mother of plagues.

Another false charge which infidelity has made is that it is a religion. It is not a religion, but a negation of religion. It is a negation of the Christian religion, and it is a negation of the Christian religion. It is a negation of the Christian religion, and it is a negation of the Christian religion.

A PARADISE FOR GIBBS.

A FEW POINTERS BY A TRAVELING ROMANICAN.

Breeding Climate and an Embracing Population—North Dakota is the Paradise for the Immigrant.

For people in the older settled parts of the country have little, or no land what a scarce article young ladies are up in the Dakotas, said a traveling man in Chicago, who has been making the tour of the country. He said that the country was a paradise for the immigrant, and that the climate was breeding a new race of people.

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees.

The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. Those little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alike just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expels them, heals the places they leave, and so nourish and sooths that, in a short time consumptives become germ-proof and well.

Patent medicines differ.

One has reasonableness, another has not. One has confidence, another has not. One has success—another has only hopes.

Don't take it for granted that all patent medicines are alike. They are not.

Let the years of unintermittent success and the tens of thousands of cured and happy men and women place Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription on the side of the comparison they belong.

Wayne Herald

W. H. McNEALE, Editor. Official Paper of Wayne County. Largest Circulation of any Paper in Wayne County.

THURSDAY, APRIL 6, 1891.

County Directory.

Table listing county directors, sheriffs, clerks, and other officials for Wayne County, Nebraska.

Tarif Pictures.

New York Press: In Stockholm Sweden, women carry mortar and bricks in their aprons, and are not paid 30 cents per day for the kind of work. Hood carriers in England, average daily wages, 85 cents—10 shillings.

United States, average daily wages, \$2.44—30 cents. When women do this work in the United States for the same price as in Sweden we shall be able to stand as cheaply as they do in Sweden.

The base ball season has opened. The World-Herald doesn't know what Boyd is an alien—now.

Italy, the land of sunshine, etc. does not prefer war, and that's war's sensible.

Onaha World-Herald: "I hope you were not hanged, and now we're busted."

Since the reciprocity treaty with Brazil has been consummated, it will be seen that there is a gradual rate, in the hog market, prices tending upward.

"Sweet William," is the very pleasant cognome bestowed upon Major McKinley since the 1st of April. Bugar did it at the rate of about 25 pounds for \$1.00.

The Nebraska legislature adjourned without passing any usury laws, and now we suppose that the country is saved and that lots of money will be forthcoming. Time will tell.

The city of Chicago elected a republican mayor, Hempted Washington, and all republican city officials at the election yesterday. Think or hit the corruptness of the democratic party did it.

Northern Nebraska will receive thousands of settlers this year. The movement began last fall. Great numbers of farmers from eastern Iowa and Illinois then found homes in northern Nebraska. More will do so this year.—St. Louis City Journal.

Last Thursday a row which was only quelled by an immediate adjournment, occurred in the house at Lincoln, caused by smoking. The Nebraska legislature one of the special attractions at the World's fair.

A large number of the publishers of northern Nebraska have written to W. Wheeler of the Wakefield Republican, who issued the call, signifying their intention of being present at the convention, Monday, May 4th. Every publisher in the counties named should be in attendance, and should come prepared to transact business, which is certainly the sense of the meeting.

It must be extremely mortifying to the Onaha World-Herald which has lauded Gos, Boyd, to the skies, to be utterly ignored by him, and to the independent and democratic farmers who have heralded naught but words of praise for the W-H., it must be extremely gratifying to know that that "double barreled" organ so effectively drew the blind over their eyes by its misrepresentation of Boyd before election. We doubt the signficance of the World-Herald and believe it knew just what was to become of the Newberry bill, despite its great petting eplogue, and as great many farmers believe likewise.

The Sioux City Journal says "that if the republicans who went off on the independent" wild goose chase had held their party as they did it a few years ago under a somewhat similar emergency in Iowa, Nebraska, would today have a railroad law as well as Iowa." It further states that "the model which the Nebraska independ-

ents accepted still worked to was purely a republican model." In Iowa the republican farmers took the primacy in the convention, etc., and they have accomplished the great railroad legislation. If the republican farmers in Nebraska had done likewise, and stayed by their party they would today have the needed railroad law, passed by a republican legislature and signed by a republican governor, and probably a better bill would have been introduced than the Newberry bill, which had its defects and which would not doubt have been the means of bringing into court hundreds of lawsuits. However the independents caused the election of a democratic governor and he vetoed their bill.

We take pleasure in informing the North Nebraska Argus that the records of Wayne county are private property, that is to say they belong to Wayne county and not the town of Pender, which is in litigation with Wayne and Thurston counties is settled, that if they are so entitled, the Thurston county officials will have access to the records of Wayne county.—Wayne Argus.

If the Wayne records are private property they are the only set of county records in the state that are. Any ordinary twenty-year-old school-teacher knows them all county records, which are open to public inspection. Read the laws of Nebraska, Bro. McNeal.—Pender Times.

Exactly, Bro. Murray; but we never read in the laws of Nebraska, where the records of one county were the property of another, so would be inferred by any one but a mutton head, from our item addressed to the Argus.

The independent press is discussing the conference of the different reform organizations which is called for May 14th at Cincinnati. Commenting upon this proposed gathering a correspondent says: "The Cincinnati conference is like the building of the tower of Babel with a confusion of tongues. When the sons of God came together Satan came also. When honest reformers meet, and then the restless devils of discord will come also." If such men as Weaver of Iowa are permitted to dominate the conference he may confidently expect a monkey and parrot time.—Onaha Bee.

A Tin Plate Lie. The Boston Herald publishes a column article in which it proves its assertion that no American tin plate is being manufactured. The Press afterward to fill the Herald office full of American tin plate at a price as English tin plate is sold. O. O. D., within thirty days after receiving the order, just for the satisfaction of the Herald's article, it is hard to kick against the pricks, and the Herald should know that the free trade "tin plate" has had his day.—New York Press.

No Surrender of Protective Principles in the Brazilian Treaty. Free-trade folk about the Brazilian reciprocity treaty's involving surrender of the Protective principle is pure demagoguery. Not an article is allowed to come in free from Brazil which was not free under already existing protective legislation. A very popular, very small, very good, DeWitt's Little Early Riser, the pill for constipation, biliousness, sick headache, B. J. Kasa.

DeWitt's Little Early Riser never cures or causes nausea. Mild but sure, assists rather than forces the bowels, and is safe for sick headache, chronic constipation, dyspepsia. B. J. Kasa.

Starting Facts. 3-4w. The American people are rapidly becoming a race of nervous wrecks, and the following suggests the best remedy: Alphonso Hempling of Butler, Pa., writes that when his son was afflicted with St Vitus dance Dr. Miles' Great Peppermint Cure cured him. Dr. J. D. Taylor, of Logansport, Ind., each cured 30 pounds of flesh, and Mrs. H. A. Gardner, of Vistula, Ind., was cured of 30 convulsions a day, and much sickness, distress, backache, and nervous prostration by one bottle. Trial bottles, and free book of marvelous cures, free at E. E. Perrine's who recommends and guarantees this unequalled remedy.

HERE AND THERE. From Our Exchanges. E. J. Northcutt, Pullman, Washington, sent President Harrison a sample of the Norfolk Giant Wheat, an sort of which yielded 107 bushels, 11 pounds. This is probably the most productive acre of wheat on record.—American Rural Home.

Just take a glance in the store of E. J. Sherman and observe four pairs of busy hands wrapping up goods for purchasers. The virtue of strict attention to business is ever asserting itself and Mr. Sherman is to be congratulated upon this success. The virtue of the black art so found in printer's ink has not been neglected, but owing to positive advantage look for that near ad.—Randolph Times.

Jim Jones shipped a car load of grain, four farm implements, and brass to ranch near Norfolk this week.

Eppopy. This is what you ought to have, in fact you must have it to fully enjoy life. Thousands upon thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands are suffering from chronic biliousness, and are in the hope that they may attain this. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the user keeps taking them, will cure all diseases of Liver, Stomach, and Kidney. Sold at 50 cents, and \$1.00 per bottle by E. E. Perrine.

Cabbage Worm Remedy. Orange Juice Farmer.—To J. L. McNeal, N. Y.: Of your numerous applications recommended for the cabbage worm there is probably none so effective as Pyrethrum, or a powder sold also under the name, Butcher. But this is somewhat expensive, and it rests with the cultivator to determine whether he can afford to apply it on a large scale or not. It can be blown among the leaves of the infested plants with a powder blower, or supplied with spraying apparatus being most certain to reach the majority of the worms. For a patch of cabbage of any size, or if haphazard, with extensive patches, I believe it would prove as cheap and certainly more effective to employ a boy, or boys with butterfly nets during the two or three weeks in which they are most gush, to catch every butterfly appearing near the cabbage patch, when they are depositing their eggs for the fall brood. If extensive patches of any great size it seems to me this method would be less expensive than applying remedies for the worms when at work, on any large scale, and at the same time, on any farm, what ever to the plants from this insect. H. O.

Pronounced Hoopless, yet Saved. From a letter written by Mrs. Ada E. Hurd, of Gordon, S. D. we quote: "Was taken with a head which settled on my joints, could get in and daily torturing in constipation. Four doctors gave me up, saying I could not live but a short time. I gave myself up to my sorrow, determined I could not stay with my friends on any longer, and must my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, cough and cold. I gave it a trial, took it in eight bottles, it has cured me and thank God I am now a well and hearty woman. Trial bottles free at Perrine's Drug store, regular size, 50c and \$1.00.

Blaine and Canadian Reciprocity.

WASHINGTON, April 6.—There is a great deal of misinformation current concerning the position of Secretary Blaine in the matter of Canadian reciprocity. The presence here during the last few days of Canadian ministers of finance, Mr. Tupper, and of the Canadian ambassador, Mr. Blaine, has given rise to the impression that the Canadian government is about to announce that it will return to the United States—officials within a few days additional interest to the matter. The Canadian ambassador, Mr. Blaine, is not opposed to the Canadian reciprocity bill, and he is not opposed to the Canadian reciprocity bill. A LABOR DIFFICULTY

IN WHICH A NUMBER OF STRIKERS

LOUIS VIKING LATER

Strike in the Coking Region of Pennsylvania—Strikers Fired Upon by Guards—Seven Killed—Deaths and a Number Wounded—The Governor's Policy of Non-Interference—Peace Policy of Our Minister in Italy.

More Strikers Killed.

MOURNERS, April 3.—Ominous signs of the gathering of a storm in the coke region have been observed for some time, and at 9 o'clock yesterday morning it burst at the Meadok plant. Two rounds of cartridges were fired by a band of sixty-five guards and seven of the charging mob of strikers fell dead, while at least forty others were wounded, how badly cannot be definitely ascertained. They were taken away by their companions, who were killed instantly were: Crescenzo Biondo, Italian; John Fudora, Pole; Antonio Biondo, Jacob Shuckinsky, Pole; James Brown, American; Zeld, Slav; Paul Dominik Slav; and another Slav.

Under the orders of Captain Lear

the sixty-five guards stood quietly in the ranks, waiting for the order to fire. Suddenly a break was made by the advancing mob towards the fences of the company, and the order of half was given, but the only strikers who received was the firing of three shots by members of the mob, which whistled about the heads of the impetuous guards.

After the shots were fired

the strikers turned and went toward the stable building, where they were gathered. Without firing a shot the guards were ordered to follow, and the command was given to fire. The order was obeyed, and the mob answered the order with yells and threats.

The Nebraska gubernatorial contest

LINCOLN, April 8.—The supreme court has adjourned until May 5 next, and will take no new business at this time.

President Harrison's Trip

HARRISBURG, Pa., April 8.—President Harrison's trip to the West has been finally arranged and the route marked out definitely. The departure will occur on the 14th inst. New Orleans, which was originally in the schedule for the circuit, has been removed from the schedule for reasons satisfactory to those having charge of the arrangements. The trip to San Francisco is expected to occupy ten days. Thence the presidential party will proceed northward, taking in Portland, Seattle, and Tacoma, and will then return to the party will visit Salt Lake City, Denver, Omaha and other cities. It is understood that the trip will be accompanied by the official party will be limited to ten, including the representatives of the Associated press and the Associated Press.

Highly Sensational Charges

CHICAGO, April 8.—Charges of a highly sensational character are made in a suit for \$1,000,000 damages begun in the circuit court here. The plaintiff is Harry D. Potter, a 17-year-old boy, who claims that his life has been wrecked as the result of a conspiracy between Orrin W. Potter, the millionaire, and other persons. The boy's father, James Potter, is also a defendant. It is alleged that a deep feud was laid by Potter to break up a acquaintance between his daughter and Dummitt, and with this end in view he conspired with other persons to cause Dummitt to serve four years in the penitentiary. The charge is also made that the editor of a newspaper in Chicago, James Potter, had been receiving \$15,000 from Potter. A New York paper prepared and published the story. News associated a faculty session of the University of Chicago.

James Potter's Suit

ST. LOUIS, Mo., April 8.—James Potter, a 17-year-old boy, who claims that his life has been wrecked as the result of a conspiracy between Orrin W. Potter, the millionaire, and other persons. The boy's father, James Potter, is also a defendant. It is alleged that a deep feud was laid by Potter to break up a acquaintance between his daughter and Dummitt, and with this end in view he conspired with other persons to cause Dummitt to serve four years in the penitentiary. Ayer's Sarsaparilla

The Best Blood Medicine
So say Leading Physicians and Druggists. It is cured by thousands of cases of Scrofula, Eczema, Erysipelas, and other diseases of the Blood.

"Ayer's Sarsaparilla has won its reputation by years of valuable service to the community."—Dr. W. C. Wright, New York, Tenn. Druggist, 212 Metropolitan, Lowell, Mass.
"In my practice, I invariably prescribe Ayer's Sarsaparilla for chronic diseases of the blood."
"For many years I was afflicted with scrofulous running sores, which at last became so bad the doctors advised amputating of my legs to save my life. It began to take Ayer's Sarsaparilla and soon saw an improvement. After using about two dozen bottles the sores disappeared and I was cured. I have tried other reputed blood-purifiers, but none does so much good as Ayer's Sarsaparilla."—J. A. Robinson, New York, N. Y.

Ayer's Sarsaparilla

Prepared by
DR. J. C. AYER & CO., Lowell, Mass.
Sold by Druggists, etc., through the country.

RINGS OF THE ANCIENTS.

STYLES WORN BY THE EGYPTIANS, ROMANS AND HEBREWS.
Rings are regarded differently now than formerly—were not so much worn. They were the tokens of some famous history.

Looking at the exhibition of modern finger rings, the old time is hardly struck by the fact that, whereas in the good old days decorative art and design were almost wholly expended on the gold band itself, modern jewelers count themselves almost exclusively on combinations of valuable stones. It is a very ungrateful task to spoil a romance, but old truth compels the admission that this is a practical age, which looks large to the matter of convertibility in rings, watches and valuable jewelry.

Actors and actresses on their travels are seldom seen without a diamond pin, brooch, necklace or solitaire ring, but the same articles represent a considerable amount of money in small bulk and undepreciable form. The finest workmanship on the gold itself goes for nothing. It is simply "old gold"—sold by weight.

The ring is so frequently alluded to in the Old Testament as to make it plain that the greatest importance attached to it, even in the pastoral age. In Genesis it is stated that "Pharaoh took off his ring from his hand and put it on Joseph's hand," as a signal mark of King Pharaoh's recognition of Joseph as King of the Hebrews taking his ring from his hand and giving it to HANAN, and the context shows that certain written documents were "sealed with the king's ring."

The old time rings were made of all sorts of metals, but the most common rings were commonly worn by betrothed persons. It seems tolerably certain that rings of gold and silver were worn only by kings, nobles and nobles, while less expensive circles of brass, iron and porcelain or glass were worn by the average citizen.

ANTIQUE OF RINGS.

The Egyptians and Romans undoubtedly preferred the left hand for ring purposes, while China, Italy and Taurus all seem to insist that the right hand is preferred for rings on the fingers.

The Hebrew rings worn in those good old days were very ornate and beautiful. Quite a number of them have been preserved, and they put the art of the modern jeweler entirely to rout. The most beautiful were the plates of the betrothal or wedding rings. The coronets in connection with these rings seem to be introduced in the reconstruction process specified in Ruth iv. 7. The workmanship of these Hebrew betrothal rings grew still more elaborate in the Middle Ages, when towers and minarets of gold were most expensively built up on the hoop. The Jewish bride of this era wore the wedding ring on the first finger, but in later days shifted it to her convenience to the third.

The old style "gemmed" or "gemmed" rings were not at all out of place in the modern jewelry. Usually at the marriage of the parties the bridegroom presents the bride with one of the rings. George IV gave a gemmed ring to Mrs. Fitzherbert. The tonstone ring was another kind of betrothal ring. It was an outcome of superstition and died when superstition died. The idea of the tonstone ring was that the infant daughter of Henry VIII of England, to the Dauphin of France, son of France. The marriage was performed by the Bishop of Cahen, in Cahen, in the year 1532. The bridegroom being 8 months old and the bride 1 year and 10 months old.—Boston Globe.

Some of the Grand Army boys may be interested in the following from Alex. H. Brown, Esq., of the Grand Army, Dep't Tenn. and Ga. He says: "We have had an epidemic of whooping cough in our camp. I have used your Chamberlain's Cough Remedy and it has been the only medicine that has done any good. It is a wonderful medicine and I have given it to my children. It is completely correct. The doctor says it is worth 50 cents a bottle for sale in the States."
