## BOYD IS DONE FOR

### The Supreme Court Decides the Contest Case.

#### GOV. BOYD GRACEFULLY RETIRES.

And General Thayer Agts Qualifies and is Once More in the Executive Chair—Other Designations and Appointments Quickly Follow.

—LINCOLN, Neb., May 7.—The supreme court at 4:30 Tuesday afternoon handed down its opinion in the case wherein John M. Thayer contested the title of James E. Boyd to hold the office of governor of Nebraska.

The decision is that Governor Boyd is not a citizen of the United States; that the lieutenant governor cannot inherit from one who could not qualify as governor, and that John M. Thayer is the governor and must now regularly.

A moment after the opinion was handed in the office of the clerk of the supreme court was filled with crowds of excited men.

#### Thayer Qualifies.

Gen. Thayer appeared on the scene and his friends crowded around and shook him by the hand. Thayer was immediately taken into the room of the supreme court and requalified as required by the opinion. Chief Justice Cobb administering the oath of office. The opinion as rendered by the court was agreed to by Justices Cobb and Norval.

Judge Maxwell dissented from the opinion and gave it as his opinion that when a territory is admitted to statehood the enabling act so operates as to make every resident of the territory a citizen of the state, just the same as though it was a foreign territory acquired by the United States.

At 5:15 o'clock Gen. Thayer stepped into the executive office with a writ of ouster. There he met Governor Boyd.

#### Boyd Retires.

"Will you turn the office over to me without the formality of hearing the writ read?" asked Gen. Thayer. "My attorneys are not here," answered Governor Boyd, "but I hardly see the necessity for further delay."

Governor Boyd studied the writ for a moment and then said he would turn over the office and effects without further delay.

#### Designations.

As soon as Adjt. Gen. Vifquain saw Governor Thayer in possession of the office he handed in his resignation as adjutant general. A. N. Cole, who was standing at Gen. Thayer's side, was immediately appointed to the vacancy. John M. Thayer, Jr. was again appointed private secretary. James Ferris was appointed stenographer and the record clerk office fell to Morton Smith.

Governor Boyd smilingly greeted his friends and acquaintances as they came in, and appeared not at all "put out." "I am a law-abiding citizen," said Governor Boyd, "and I yield gracefully."

#### Thayer's Appointments.

—LINCOLN, Neb., May 7.—Governor Thayer made the following appointments: A. V. Cole, adjutant general. Rev. P. W. Howe, chaplain of the penitentiary. The sixth and last ballot resulted: Call, 50; Mays, 43 and 3 scattering votes, and the caucus at midnight in great disorder and confusion adjourned.

#### The Third Party Movement.

—CINCINNATI, May 6.—Much surprise was manifested by the announcement that the Knights of Labor of this state have ordered 400 delegates to attend the third party convention the week after next in St. Louis.

#### The Wisconsin Supreme Court.

—MILWAUKEE, May 6.—Governor Peck represented Judge John R. Winshaw of Racine to fill the vacancy in the supreme court caused by the death of Justice David Taylor. Judge Winshaw at present presides over the First judicial circuit.

#### The League Fund in Paris.

—LONDON, May 6.—A meeting of the McCarthys' fund was resolved to submit the question of the release of the Paris fund to arbitrators, one to be appointed by the McCarthys and the other by the Parnell, the arbitrators to have power to direct an umpire.

### THE PRESIDENT'S TRIP.

#### Yesterday's Journey Through a Steady Fall of Rain—At Salem and Portland.

—SOUTH AND OREGON, May 6.—The early part of the presidential party's journey was made in a steady fall of rain. This discouraging state of affairs, however, did not seem to dampen the enthusiasm of the people, and they paid the chief magistrate every honor at each place visited. The visit to Salem was the principal event of the forenoon, a stop of about an hour being made. There was a large procession of militia, Grand Army of the Republic, and citizens. At the state house, Mayor Durey delivered an address of welcome on behalf of the city and citizens. Penoyer on behalf of the state. The president responded, expressing thanks for the cordial reception.

After the speech making the party returned to the train and started for Portland, that city being reached promptly at noon. All the steamboats in the harbor blew whistles and a salute of twenty-one guns was fired when the train horns in sight. Ex-United States Attorney Williams instructed the president.

The party entered carriages, and escorted by a large force of militia crossed the Morrison street bridge. Twenty thousand people were in Portland at the end of the bridge and when the party reached this side a mighty cheer went up from every throat. The crowd fell in behind the president's carriage and cheered until hoarse. Rain was falling heavily at this time.

### THE BARNBAY MURDER.

#### Suspicion Turning from Dr. Graves to Other Interested Parties.

DENVER, Colo., May 6.—Mystery still shrouds the Barnbay murder. The slaying of suspicion which has rested on Dr. Graves of Providence and which has come at last to rest upon Mrs. E. W. Correll of Chester, Pa., and her son, Dr. S. W. Correll of Denver. Attention was first directed towards the conduct of the Worralls through the strange utterances of District Attorney Stevens in regard to the case, and it is generally known that Mrs. Worrall was a beneficiary in the will of Mrs. Barnbay. Mr. Stevens says the manner in which the case was conducted by the Worralls is very strange. He has sent out to have Mr. Worrall and his mother return to attend the grand jury investigation. "I do not mean to make any charges against any one," he said, "but when the Worralls return we shall see what they say."

#### Maine Prohibitory Law.

—BANGOR, May 6.—The new amendment to the prohibitory law of Maine providing that a penalty shall be a heavy fine and imprisonment for sixty days in cases of single sale and seizure went into effect Sunday. This clause will cause considerable change in affairs, it is thought, if the temperance enthusiasts attempt to have its provisions carried out.

#### The Florida Dealings.

—TALLAHASSEE, Fla., May 6.—In the Democratic senatorial caucus three ballots were taken. The Alliance men substituted Mays for Spier, but without success. The sixth and last ballot resulted: Call, 50; Mays, 43 and 3 scattering votes, and the caucus at midnight in great disorder and confusion adjourned.

For Throat and Lungs

"I have been ill for Hemorrhage" about five years, "I have had the best medical advice," and "I took the first dose in a few hours doubt. This resulted in a few hours easy sleep. There was no further hemorrhage till next day, when I had a slight attack, which stopped almost immediately. By the third day all trace of blood had disappeared and I had recovered much strength. The fourth day I sat up in bed and ate my dinner, the first solid food for two months. Since that time I have gradually gotten better and am now able to move about the house. My death was daily expected, and my recovery has been a great surprise to my friends and the doctor. There can be no doubt about the effect of German Syrup, as I had an attack just previous to its use. The only relief was after the first dose." J. R. LOUGHRAN, Adelaide, Australia.

## Building Houses of Paper.

The utilization of paper in the arts of industry and construction presents an example in the present generation of a new Hamburg tower. In northern Germany, the structure being built is a house of paper, constructed of the hardness of wood. One advantage of paper is its lightness, and its being impregnated with certain chemical solutions, it can be made absolutely fire proof; the same process of treatment also secures against the attacks of destructive insects, and might thus specially recommend it for use in certain river valleys in the tropics, wood-eating ants having been known to demolish large frame buildings in less than a month. For some time past a firm at Dresden has successfully engaged in the manufacture of tool handles and shafts from compressed paper, chemically prepared, the articles being not only very hard and firm, but possessing the quality of being non-conductors of heat. Another firm at Dresden has been engaged in pastebordas pressed by hydraulic power, having an iron core and strong casing of wood, supposed to take less room, generate less friction, and be a water proof.

**How's This?**  
We offer One Hundred Dollars reward for any person who can furnish a recipe for making Hall's Catarrh Cure. Dr. J. C. Hayes of the City of New York, has been perfectly honorable in all business transactions, and financially able to meet any obligations made by him.

Accuracy of aim and range of action of practice have marvellously increased since the last great war between the United States and Germany. "Heavy and pound foolish" are those who take it necessary to use soap and soda soap, instead of the good old Bobbing Soap. Try it once. Be sure, you are buying. When a man begins to know himself real well he has a very good opinion of other people. H. Case & Son, 910 Broadway, New York City, announce very attractive \$200 trips to Europe, Brazil, etc. See advertisement. A good deal of the best work is done by electric power. Mrs. Wislow's "Soothing Syrup" for Children, which cures the most distressing coughs, colds, croup, whooping cough, and all other ailments of the throat and lungs. Put an angel where there is no love and he would become a devil.

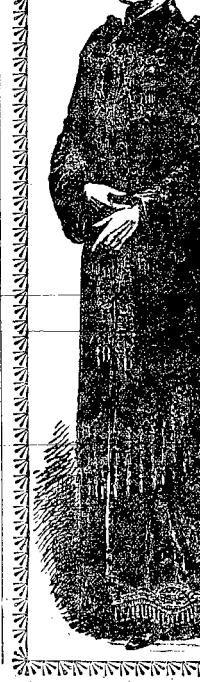

What is lacking is truth and confidence. If there were absolute truth on the one hand and absolute confidence on the other, it wouldn't be necessary for the makers of Dr. Sage's Catarrh Remedy to back up a plain statement of fact by a \$500 guarantee.

"They say—"If we can't cure you (make it personal, please), of catarrh in the head, in any form or stage, we'll pay you \$500 for your trouble in making the trial." "An advertising fake," you say.

"Funny, isn't it, how some people prefer sickness to health when the remedy is positive and the guarantee absolute. "Wise men don't put money back of "fakes." "And "faking" doesn't pay.

Magical little granules—those tiny, sugar-coated Pellets of Dr. Pierce—scarcely larger than mustard seeds, yet powerful to cure—active yet mild in operation. The best Liver Pill ever invented. Cure sick headache, dizziness, constipation. One a dose.

Stanz City is figuring on a mammoth corn palce ship at the World's Fair. The idea is very suggestive, (as undoubtedly its ship has come over) and if carried out will be a great attraction.

The democratic press don't like the apparent speech of President Harrison during his tour of the United States. The speeches are a little too rich for their blood.

The grand jury at New Orleans have indicted six jury hitters, and a thorough investigation proves that the rogues of the New Orleans were justifiable in the late Italian unpleasantness in that city.

Cattle, hogs and corn, as among the necessities of life, have advanced very decidedly in price since the passage of the McKinley bill. Do we hear any complaint from our democratic friends on this score? No, but that's different you know.

The Supreme Court handed down its opinion in the Thayer-Boyd quarantaine case Tuesday afternoon, granting the writ and entering a judgment of ouster against Boyd. Boyd was very suddenly ousted and Thayer now holds the fort. There is no doubt but that Nebraska would take the first premium as the World's Fair if its record of the past six months should be kept up.

A few newspapers have a faculty for selecting a line or two of a subject presented in the columns of another paper, prepare an argument, based on misrepresentation, and then print it in their own sheet. Fairness in all things should predominate, therefore in most instances the full item should be printed, that the people may decide as to the merits of the subject and the comments thereon. The Feder Times being slightly afflicted with the troubling opinion of, will pass its arguments by.

The Omaha Bee, because the Supreme Court decided against Boyd in the Thayer-Boyd quo-warranto case, is threatening in a round about way, the republican party, because of its attitude on this subject, a particular friend of Ross was contacted, a large majority of the democrats in this section are very well pleased in the matter, and we do not see why a republican (?) like Ross should kick, even if the timber put in is exchange is no better. Two-thirds of the people in the state failed to get their wants supplied, at the last election anyhow, therefore there is no room for anyone to gumble now.

The Democrat, under the head of "Tariff Pictures" in its last issue says "before the enactment of the McKinley bill, aluminum paper, used by photographers, AND NOT MADE IN THIS COUNTRY, was \$33.00 per ream, but that it has increased to \$44.00 per ream," though it don't give the price in 1890 before the McKinley bill went into effect, and in 1891, after the bill went into effect in this country. If it had it would have discerned but little difference. Furthermore the price of photographic paper the same or lower, and the wage paid "Bos" has not been affected, except more laborers are needed in

the paper mills in this country, and an increase in the number of mills is assured.

The Treasury's Available Cash
Have you noticed that the McKinley Tariff law would bring in a revenue so great that the Treasury would be filled with surplus, and having found its predications which anticipated the over-press use now taken for other track, and is crying out that the Treasury is so nearly empty that it will soon be unable to pay its obligations?

It is a cold day when our brethren of the opposition do not discover some overwhelming impending "calamity" about to befall them, unless they are of the opinion that the present administration of national affairs. Unfortunately for their credit as prophets the calamities never occur. From 1860, when they predicted the dissolution of the Union as the certain result of the election of a Republican President, down to the present time, their seering prophecies have proved to be nothing more than a collection of disappointed and disgruntled elements.

The latest calamity which is recorded and printed above is the silliest of the kind, as according to official statements, \$751,000,000 in the Treasury, of which a large part is free money—as, for instance, \$490,000,000 of gold and silver, \$265,000,000 of bonds, but \$265,000,000 certificates to the government absolutely and is available to meet its obligations. Our calamity prophets have done their worst, and the money available in the Treasury at various times, ranging from \$10,000,000 to \$100,000,000, and it is a singularly confounding feature of the croaking of two of them present the same figures.

The country has always been safe as to its finances with a Republican administration of the Treasury, and under a Republican Secretary that means were found to prosecute war; under another that specie redemption was accomplished; under another that specie redemption was accomplished; under another that specie redemption was accomplished; under another that specie redemption was accomplished; under another that specie redemption was accomplished.

Last Friday morning a traveling train would wait for him and a party strolled up down. The train pulled out, the drummer imperatively demanded that they should come back and get him but at the last moment a very hard hearted class of men and the drummer had to wait till the next train. It does us good to see some of these over-ambitious graduated matters be set on—Calder Sentinel.
