More than a nundred or-ganizations (including Tammany) have thus far reported a probable strength of 17.600 men to form in time on March 4. The governors of the following named states have notified the com-mitten that they will be in ista ac-companied by members of their re-trictive staffs and in many instances by independent military companies: Delaware, Pannsylvania, New Jersey, Connecticut Massachusetta Maryland, North Carolina, South Carolina, Vir-ginia, Illinois Louislana and Wiscon-rinia, Illinois Louislana and Wiscon-North Carolina, South Carolina, Virginia, Illinois Louislana and Wiscon-

THE COLUMBIAN FAIR.

The Nebraska state board of agriculture, at its late annual meeting, determined to hold a state fair at Lifscoln, September 3th to 15th, 1893, to be called the "Columbian Year State Fair." Maintaining their place "in the procession" and imbused with the Columbian spirit of the day, the managers are making efforts to have this fair surpass all respects anything of the kind-everpresented the public.

The premium list has been thoroughly revised. Unimportant and fully, served features have been stricken out, and the more important, with new ones, on? THE COLUMBIAN FAIR.

Arrangements will be made to have excursion trains run from the world's fair at Chicago; to encourage eastern. visitors and foreigners who wish to study the west, to come and see this state display, examine our fertile acres. At this date all indications are that the season of 1803 will be producted of unusually good crops and business conditions; such as eyery one interested in Nebraska will take pride in showing to the world.

Mebraska will take price in showing to the world.

These encouraging words are spoken early in order that our people may not full to imbite the Columbian spirit per-vading the whole civilized world, and, keeping in line, lend all possible aid to make the coming fair, what it intended it shall be.

Her father came in at this juncture and hearing the last remark, laughed. Several other people also hughed. Fearing that she might get a gin. Miss Moltie was quickly asked:

"Did you say millions?"

"Exactly," was the answer. Don't be alarmed at that. I'm inside the limit because I have it down to a mathematical certainty. I have seen over 5,000 acress covered with them, and, estimating 1,000 birds to the acre, there would be 5,000,000, and I' am putting it low, because I do not want to be necessed of exaggerating."

The corpse was made the target for hundreds of pistois and shot full, of holes. Having done their work, the mob dispersed. Some of them were masked.
