THE FAIR TROUBLES.

THE CARELESSNESS OF AMERICAN EXHIBITORS.

Displays Filling Up With No Knowledge Where to Place Them—The outrage on American Exhibitors in the Turkish Domain—Proceedings Had at the Last Cabinet Meeting—Disastrous Accident at Jacksonville, Ill.—Nine Men Killed—Adjournment of the Senate—

May Cause a Blockade.

CHICAGO, Ill., April 8.—The carelessness of American exhibitors at the World's fair is likely to cause serious trouble in arranging exhibits and may delay the installation of some displays until June 1. It is estimated that between now and May 1, 7,500 carloads of exhibits will arrive at the park and unless they bear more explicit shipping instructions than those already received, a blockade in the park is inevitable.

Trouble with the Porte.

WASHINGTON, April 8.—The United States has taken vigorous action in regard to the outrages on American citizens at Masosov in the Turkish dominions and the violations of the mail of the United States to the eastward.

On the 10th of January last a number of seditious placards were distributed throughout the region of Masosov and Caesarea in the center of Asia Minor.

The Turkish authorities ascribed the seditious placards to the students of Anatolia, college, an American educational institution of Masosov.

On the night of the 24 of February the girls' seminary of the institution was fired and burned to the ground. There was strong circumstantial evidence that this was done with the full knowledge of the Turkish officials.

Demands for redress made by the Turkish authorities were met by counter demands of their side that the alleged seditious movements of the American youth should be first investigated and determined upon before any efforts were made to discover the perpetrators of the outrages complained of.

Secretary Fish has cabled to the minister at Constantinople a strong expression of the president's views on the outrages and demanding not only prompt reparation for the burned seminary and the payment of a heavy fine for the guilty in the matter.

Minister Thompson is charged to give renewed attention to the matter and to dispatch a special messenger to the president to make a personal statement of the responsibility of the correspondence.

The minister is to act promptly and advise the department by cable. No effort is to be relaxed in securing the legal rights of our citizens in Turkey.

It is understood to be the policy of the United States to make a personal statement of the responsibility of the correspondence.

There are at present more than 200 American citizens residing in the Turkish empire who have the management of property to the value of over \$2,000,000.

Further advice from Mr. Thompson are looked for shortly.

Cabinet Meeting.

WASHINGTON, April 8.—The cabinet meeting yesterday lasted nearly three hours. Most of the time was spent in discussion of the forthcoming visit of the president and members of the cabinet to New York to witness the naval review and to Chicago to open the fair.

It is understood that the details of the trip have about been arranged.

The treasury department is in an excellent condition than it has been for several months past, the largely to the increased receipts from customs.

There are no additional facts relating to the assault upon a United States consular agent in Mexico, in which the treasury department today. Efforts to locate the scene of the trouble have thus far been fruitless.

Mr. Patterson, the French minister to the United States, has received the credentials promoting him to the grade of ambassador and raising the legation to the rank of an embassy.

Nine Men Killed.

JOLIET, Ill., April 8.—Nine men employed on the drainage canal were killed outright and ten others received injuries more or less severe by the falling of a cantilever machine used in the work on the engine house, in which the machinery was in the process of being moved from its old position to the new place which was situated in the line of the canal.

A heavy hail and wind storm passed through Joliet at 1 o'clock this morning and did great damage to buildings. At 10 o'clock the north of Lockport, on the drainage canal, struck the northwestern part of this county.

SHORTAGE OF WHEAT.

GRAIN SPECULATORS GREATLY EXCITED.

Reports from Kansas and Missouri indicate that the crop has been so badly damaged that there will be a shortage of many million bushels.

KANSAS CITY, Mo., April 10.—

There is much excitement here over the alarming situation in Kansas. Every eye in the grain markets of the world is turned toward the southwest.

This fact was plainly evidenced yesterday by the deluge of telegrams pouring in upon commission houses from New York, Baltimore and other Atlantic seaboard exporting ports inquiring to the truth of rumors concerning the Kansas and Missouri outlook.

Last year Kansas raised 70,000,000 bushels of wheat and 5,000,000 bushels more than the United States total.

The news from the southwest generally was of a sensational character.

From Emporia, Kan., a telegram reported the thermometer at 96 and a terrible wind, blowing from the south-west.

The atmosphere was hazy with dust and the weather of a most unfavorable character.

From Kingville a telegram reported the injury to wheat at 85 percent.

Lorraine, Kan., reported hot winds, and the crop irreparably damaged.

Clinton, Mo., reported a prospect of not over half a crop and a great deal of wheat being plowed up.

The interest in crop conditions was never more than intense than at present, and the amount of speculation was over the whole between Kansas City and the great exchange has reached a phenomenal volume.

Rain will cause a complete revision, of course; but the weather bureau prediction do not hold forth any hope of moisture.

MEXICO NEEDS \$42,000,000.

Increased Government Expenses May Force Higher Export Duties.

CITY OF MEXICO, April 7.—A sensational report has been issued by the announcement from the Committee of Ways and Means of Congress that \$42,000,000 will be needed for the government expenses for the coming year.

The question, "Is dancing right?" was discussed by the Northwestern convention of Young People's Societies of Christian Endeavor.

EAU CLAIRE, Wis., April 5.—The question, "Is dancing right?" was discussed by the Northwestern convention of Young People's Societies of Christian Endeavor.

Michigan Family Becomes Rich.

LANSING, Mich., April 10.—By the death of John A. Fowler, who died in New York city two months ago, leaving an estate valued at \$3,000,000, Joseph A. Fowler of this city, brother-in-law of the deceased, has become rich.

AN EPIDEMIC IN NEW YORK.

One Hundred Deaths a Day From Lung Trouble.

New York, April 10.—The statistics of the last few days is producing a more cheerful aspect of things. Previous to this week physicians on all sides were predicting the return of that dreaded influenza grippé.

The eyes of the medical profession were turned upon the cases of the twenty test patients who are undergoing Dr. Amick's Chemical Treatment for Consumption under the conditions imposed by the New York legislature.

Dr. Amick is a Cincinnati physician and was invited by the Recorder to come to New York to select patients on whom to make these test treatments.

This is creating a great deal of talk; Dr. Amick is a Cincinnati physician and was invited by the Recorder to come to New York to select patients on whom to make these test treatments.

TRAVELERS' GRE D Y.

The T. F. A. Preparing for a World's Fair—Association Activities.

St. Louis, Mo., April 10.—There is great activity at the headquarters of the Travelers' Protective Association, as a result of the settling aside of June 10 as P. P. A. day at the World's Fair.

The National Board are cooperating with him to make the concluding event of his administration one of the grandest in the history of the association.

The annual convention will meet at St. Louis, June 27, 28 and 29, and the 3,000 traveling men will proceed by special train on the 9th of October.

The school revenues of St. Louis have just been increased by \$100,000 a year through a merchants' tax bill signed by the Governor.

The street parades in St. Louis during the fall festivities, and in Chicago at the opening of the World's Fair will be made more attractive by the presence of a body of cavalry which the Italians of this city have organized.

More than three thousand families in St. Louis are now having rooms built for them by the building associations, of which there are four hundred in the city.

The interest in crop conditions was never more than intense than at present, and the amount of speculation was over the whole between Kansas City and the great exchange has reached a phenomenal volume.

Rain will cause a complete revision, of course; but the weather bureau prediction do not hold forth any hope of moisture.

Drummer—Home?—I should say not why, sir, I get home so seldom that I can't remember half the time when I live.

Stranger—My Mr. Drummer—That's straight. Why one time I was away so long that I thought I'd ever been married, and I thought got a fancy to a pretty woman I met in a strange town that I eloped with her.

Drummer—Yes, it would have been terrible funny, when I called on the first thing my wedding toad, and introduced her; the old man told me she was my wife before.

Professional Men. Boggs—Lend me a quarter to buy a cocktail, will you?

Fogg—Cocktails are only fifteen cents, I believe. Boggs—That is the usual price, but they are a quarter at Delmonte's.

Fogg—But why do you go to Delmonte's? Boggs—Because I want to be seen there as much as possible. You know I am struggling to gain a foothold as a painter.

Some people speak at least twice before they think.
