Mr. Valle of Welcott & Valle appeared for the United Stitus attorney general in behalf of the governion of the Read, The suit is brought by ex Governor Evans and the other stockholders of the read to compel maintenance and opera-tion of the iread activity separato from the Union Pacific system and incident-ally for the appointment of receivers for that purpose. When the case came up for trial, Mr. Yalle asked for a hearing in the matter and then presented a pictuch for Union States Attorney General Olney, in be-half of the government, that the case be further partenned for several days at the set of the indent if of the govern-ment, he said, made it necessary that the government should be represented in this case, and time was vanied by the attorney general in which to decide upon what attituite to actuate in order to best protect the interest of the gov-ornment.

The counsel for plaintiff, opposed th ostponement, because the governmen ad already had sufficient time to prehad already had sufficient time to pre-pare its case, and, also because the de-fendant could have no possible interest in this case, excepting such as could be properly protected by the proceedings at Omaha, and those interests domanded that the Denver. Pacific and Gulf rail-way should be operated independent of the Union Pacific. Judge Hallet ruled that the governuent should be properly represented in the suit and so should have time to propare for it. He there-fore postported the case until next Mon-day.

The Action of the Michigan Board Health in Designating Consumption

The recent action of the Michigan State Board of Health in placing con-sumption on the list of contagious dis-eases and requiring safeguards to pro-vent its sprend, is causing widespread newspaper discussion as to the propri-cty of similar action in other States. " Not only has the Michigan Board of Health taken this radical step, but the County Medical Society, of Philadel-phia, has petitioned the Board of Health there to -isolate consumptives. The Pan-American Congress also passed a resolution at the recent Washington

Pan-American Congress also passed a resolution at the recent Washington convention calling on Jhe National government to take steps in the same direction, even going so far as to ask President Cleveland to give his per-sonal attention to the matter. The result has been that National, State and civic authorities have been appeuled to, thereby causing con-sternation to thousands of consump-tives in every stato in the Union, who are in terror lest they should be torn from their homes and friends, and turned over to "special hospitals,"

Mr. Thurston was asked what course he proposed to pursue in view of the po-sition his government is now placed in Herepited ho had not porfected his plans as yet. Mr. Thurston has been a prom-inent leader of what is known as the rs-form government, which was in progress in the Hawaiaa islands for a number of years. He is a natural ovator, and the recent revolution in the islands was due in no small part to his efforts. ights they have acquired by the recog-nition of their government. Minister Thurston to oncload the marrow of their hopes when he said Sunday in Chicago that any attempt to overturn the, pres-ent government by a foreign power would be an act of war. An act of war requires the consent or declaration of congress. Congress, will undoubtedly take up the subject of Hawaii in some way inmediately upon assombling in December. The fight, it is said, will be made on the administration policy on this line-that it has declared war with-out the consent of congress, and has therein done an unlawful act. Gives Rise to Mary Surmises. What effect it would have on this pro-posed policy if the present government should peacefully yield to the persua-sion of the American minister, is also dilacussed. The question involved is whether so peaceful a proceeding could be regarded as an act of war. It is ar-gued that it would be an act of aggres-sion on a sovereign power, none the less because the power peacefully yield to the threat of so overwhelmingly superior a force. It still romains an unnawsvora-be problem to those of diplomatic ar-perience how the American minister ac-credited to the Hawaiian government surmises such as that the real policy pursued by the state department has not littlesto been announced at all, thi that Secretary. Gresham's report to th senate was simply designed to give opportunity to rend the public sonti-ment upon tho subject. It is not at all probable that this is true, but it shows the policy of the Gresham report is con-iddered as entirely extraordinary. that incredulity, and speculations cluster about it. d at all, but
