The tabernacle of Rev. DeWitt Talma of Brooklyn, was destroyed by fire Sunday, entailing a loss of \$2,000,000.

Jack MacColl will undoubtedly be the next republican nominee for governor, according to the presage of the political horizon.

Don't you believe they'll pass any quorum counting rule in the senate. The democrats are afraid of themselves and they're in big enough boat now.

There are, in Nebraska, 3552 miles of railroad upon which is levied taxes at the rate of \$5,000 per mile. This is the finding of the state board of assessments.

It would be much more appropriate and fitting if the demo in democracy was changed to tyro. The antics of the present congress would then be more in line.

The ballots for the next state election will begin to drop in Oregon Monday, June 4, and the signs of the times indicate an immense growth in the republican number.

An early state convention is certainly preferable to a late one, and the republican party has nothing to fear from an aggressive campaign even though it be an extended one.

The Takamah Burtonian is enthusiastic for Judge Hopewell, as a candidate for the republican nomination for governor. The judges would fill the position with credit to the party and to the state.

The eighth semi-annual assembly of the Northeast Nebraska Press Association occurs in the city of Norfolk next Monday evening, May 21st. Every member of the association and all newspaper men in the third congressional district should be in attendance.

Oh! what a beautiful spectacle that Chicago platform would make framed and suspended along side the "Wilson reform tariff 400 amendment bill," introduced in the senate, as an abortion on the Wilson bill of the House. Paired, an artist could dispose of them like hot cakes.

Hon. J. H. MacColl, of Lexington, is an avowed candidate for the republican nomination for governor. If he is successful in securing the nomination he will be elected by a handsome majority. "Jack," as he is familiarly termed, is an old time war horse, and if he is defeated for the nomination his lucky opponent will know that he has been in the race.

"Let's see! It was in the year 1861 when it was prophesied by those who claimed to be wise that all would be lost because the republican party had gained control of the government. Instead of the prediction being fulfilled the republican party brought order out of chaos and such prosperity as the world never before saw. Is there any doubt but they can do it again?"

The gubernatorial contest, so far as the republicans are concerned, has apparently narrowed down to MacColl and Majors, with the odds favorable to the former. Two years ago MacColl stood aside in favor of Majors. This fact is little well known throughout the state and the spirit of fair play is favorable to MacColl, especially when he is the peer of Majors in every respect. MacColl is a winner.—Gothsburg Star.

Needham Bros. of the Bloomfield Monitor, printed a boom edition last week, and as "bummer" it stands well to the fore. It bears the ear marks of hard labor, pluck, enterprise and ability and the citizens of that hustling town certainly appreciate the manner in which the publishers look to the interests of Bloomfield, and the county of Knox. The publishers of the Monitor are excellent newspaper men, ever working for the upbuilding of the town and are certainly deserving the success they have attained.

We wish to ask the farmers if they remember of getting such prices for hogs as they do now prior to the time the reciprocity clause of the McKinley bill went into effect. Then the price of hogs ranged from two to three cents. Now the price ranges from four to six cents, because of the reciprocity treaty with Germany, whereby sugar is admitted free, and Germany admits pork. Now, how many farmers desire the reciprocity clause of the McKinley bill abrogated. Do you prefer to get 12 lbs of sugar for 31.00 instead of 23, and 21 1/2 cents per lb for pork instead of 4 1/2 to 6 cents? We believe not. To be sure, there are defects in the McKinley bill, yet it is one of the best laws ever enacted in behalf of the American people and if you look well to your interests you will most certainly cast your ballot for the republican ticket this fall.

If the railroad company desire to do the right thing, it will remove the riggles from its fall, get down to business and proceed to give Wayne reasonable freight rates. Talk is cheap and howling is all right in the papers and otherwise, but unless the business men crawl out of their lethargy and present their grievances by petition, the company will continue to suck the life from our generous city, besides deprive us of the milk of human kindness. 'T would be sad. This is official.

A true republican is so from principle, a true democrat is so because he is opposed to the republicans, a true populist is so because he thinks that is the best way for him to get an office and he is pretty near right about it.—York Times.

Some how Tim Sedgwick has a faculty of saying the right thing in the right place and at the right time, and he doesn't use the columns of his paper weekly to air his grievances against his contemporaries.

The House vindicated ex-Speaker Reed and the Senate is now doing its best to vindicate McKinley. There's nothing like vindication, but it has cost the country many millions before democracy deigned to succumb.

Out in the Big Sixth district the republicans have set the political ball rolling and it won't gather any moss.

INTERSTATE FAIR.
The Interstate Fair to be held at Sioux City promises to far excel the fern palaces of the past and to be a monument of good for the advertising and building up of the country tributary to Sioux City. If Wayne county is not represented the citizens will have failed in their duty to themselves and to one of the best counties in the state. Wayne, Dixon and Cedar counties, a trio that cannot be excelled should be there, should work in harmony, and show to the world the grand agricultural wealth in which they abound. Each county should have a committee to meet as a joint committee and look to it that these counties are represented as they should be.

The Meaning of Protection.
Editor American Economist: In my opinion the word protection should be studied as to its meaning and application. It is a word that should be held dear to the hearts of every American, man, woman and child. It means, as I have been taught, defense, shelter from evil, a passport exemption from being molested. It is very hard to explain to a man that is not informed what a cartel of commerce is, that it is a writing containing stipulations that give aid and comfort to him in his everyday transactions. It covers his head, shoes his feet, clothes his back and feeds his stomach. Protection is the only safeguard to American liberty. The man that will vote against protection who is a laborer and agriculturist is certainly a deluded man. I am now almost 70 years old, have always been a protectionist and expect to be until time is no more with me. L. WILLIAMSON.

If there is one person more despicable in this world than another, it is the printing office superintendent, though there are several specimens of this genus, there is but little difference between them; although I would put one of them on a little lower scale than the other, and these are the fellows who are invariably reading copy in the hands of the compositor and the types who piddle out to willing ears the contents of the paper in advance. The recipient of these confidence might however, be included with the latter on the general principle that the receiver is as bad as the thief and the giving out of what is going to be in a paper just as much a direct theft as the taking of money from the proprietor's till. The parties whom this little shoe fits can put it on and charge the fitting to The Sermonizer, in the Democrat.

The Sermonizer speaks well, but he further says the receiver is as bad as the thief. However, in the case which called forth the above "contents" came to the receiver voluntarily and without the asking. But let's see. Was it so when the Democrat sent one of its holdings to this office to shake a HEW AND a year or so ago, that it might get the contents before the paper was issued. Was that "despicable" or is the Democrat exempt, The Democrat can make no charge of unbrotherly acts against any member of the press of which it is not guilty, but in its morbid state it lives to berate and attempt to tear down its contemporaries. With this we bid you adieu, trusting that you may learn to hate the HERALD less.

CHANGES IN TARIFFS.

MANY ALTERATIONS HAVE BEEN MADE IN THE BILL.

Result of the Compromise Between the Democrats in the Senate-Duties Are Increased-Schedules in the Measure Which Suits the Majority.

Mutilate Wilson's Measure. During the executive session Monday Senator Jones presented the amendments to the tariff bill, which have been considered and agreed to by the Democratic Senators, known as the compromise committee.

On and after Jan. 1, 1903, there shall be levied on each pound of all cigars and cigarettes a duty of 10 cents per pound. On and after Jan. 1, 1903, there shall be levied on each pound of all cigars and cigarettes a duty of 10 cents per pound.

PULLMAN MEN GO OUT

BIG CAR SHOPS CLOSED UP TIGHT.

The Walk-out Wholly Unexpected by the Managers-The Discharge of Grievance Committee Undoubtedly Precipitated the Strike-Serious Trouble May Ensnare.

Thousands Quit the Works. Three thousand men stopped making palace cars for George M. Pullman Friday forenoon and spent the day in discussing their wrongs in the streets of the "model city" of Pullman, Ill.

About 600 men who did not belong to the union remained working through the all but deserted shops until 6 o'clock Friday evening. When they came trooping out with their dinner-pails they were confronted with the following notice posted conspicuously in each building:

THE SHOPS ARE CLOSED UNTIL FURTHER NOTICE. William A. Harrison, Foreman.

The result is that Saturday morning, for the first time since the great strikes of 1896, the wheels and forges at Pullman were silent. The struggle is likely to be both prolonged and bitter.

Say Wages Have Been Cut Down. The men claim that their wages have been cut down 25 per cent, but that they are compelled to pay just as much for rent and water and gas taxes as they did in flush times.

The position which the American Railway Union, as expressed by Vice-President Howard, has taken with regard to the matter has given the strikers much confidence in their ultimate success.

A GROUP OF PULLMAN STRIKERS.

Ride a cock-horse to Cleveland cross.

To buy little David a galloping horse, it trots behind and it ambles before. Will the cowboy take the man's horse?

A Matter of Time. It is seen from reading the Democratic papers that it is taking the country a long time to recover from the effects of McKinleyism.

Political Paragraphs. There were no industrial armies in Republican times—Quincy Whig.

Disease always strikes at the weakest point, observes the Washington Post. Not always. Mr. Cleveland has had considerable trouble with his foot.
