A case was tried before Judge Martin and a jury Friday, in which Ran Frazier was plaintiff and Robert Skiles defendant. It seems that Mr. Frazier had contracted of Mr. Skiles 10 head of cattle in May, and paid thereon \$40, the cattle to be delivered the first of June. Emergencies arose which necessitated the holding of the cattle, but Mr. Skiles sold them later to Mr. Scace. At the time sold, the market price of cattle in Wayne was 25 cents higher than the contract price of Mr. Frazier, therefore suit was brought to recover the \$40 paid on contract, and increase in the market price over the amount of contract price. The jury returned a verdict in favor of the plaintiff in the sum of \$40 and costs. Attorney Welch appeared for plaintiff and Fuller for defendant.

While at one of the churches Sunday morning, the writer listened to an excellent address by the pastor. The thought or instruction was thrown out urging that new methods be adopted by the churches, that more individual work be done by visitation, good cheer and the extending of a cordial invitation to individuals to attend church. How happily would this apply in our city affairs if all citizens would concentrate themselves on one grand thought, that of adopting new methods for the further and future upbuilding of our city, but not tearing down individuals by our own selfishness and attempting to better our financial conditions at the expense of our neighbors. What a grand thing it would be if the citizens of Wayne dwelt in union.

WAYNE COUNTY FAIR!

The Directors of the Wayne County Agricultural Association Meet and Make Arrangements for Holding a Fair September 19, 20, 21 and 22, '94.

The directors of the Wayne County Agricultural Society met at the State Bank of Wayne Saturday afternoon. Present, Scace, Goss, Richardson, Ley, Northrop, Griffith, Larison and Strickland.

The meeting was called to order by the President, and the minutes of last meeting read and approved.

On motion it was decided to hold a fair September 19, 20, 21 and 22, and the following committees were appointed:

Arranging premium list and having the same printed—Northrop, Scace and Goss.

Executive Committee—Strahan, Larison and Strickland.

Grounds and Buildings—S. B. Scace. It was moved and carried that the fair be extended one day and that Jas. Britton be authorized to procure band at an expense not to exceed \$50 per day.

On motion F. M. Northrop was appointed to collect unpaid subscriptions, and the bill of Chace & Neely for \$41.70 was allowed.

The president and secretary were appointed a committee on privileges, after which the meeting adjourned.

Republican Club Meeting.

The meeting of the Wayne County Republican Club will be held at the Mellor hall Saturday evening at eight o'clock, to complete the organization. Every member enrolled is requested to be present. Speeches will be made by Frank Fuller, A. A. Welch and others. Everybody invited.

Base Ball.

Thursday afternoon many people were seen wending their way to the fair grounds. The object was to witness a game of base ball by the Wayne and Winside clubs. Wayne's club has just been organized but they know how to put up good ball. The members are Wellbaum, Rickabaugh, Hollo, Henry, R. Tracy, Witter, Geo. Coyle and John Barker. The game resulted in favor of the home nine by a score of 11 to 13.

Tomorrow afternoon the club will contest for supremacy with the Randolph club, which is considered one of the best in this part of the state, and an exciting game may be expected. The admission is small and the attendance should be large.

Bought Liquor for Indians.

Tuesday, two Winnebago Indians were noticed on the streets of Wayne all afternoon in company with a white man. During the evening the latter was seen to emerge from one of the saloons and wend his way to the wagon of the Indians. Sheriff Reynolds suspected that he was carrying liquor to the red men and the next time followed him. Soon after in company with Raymond Traer, he went to the wagon and arrested the fellow who gave his name as Charles B. Cunningham and lodged him in jail and notified the U. S. Marshal by wire. At the wagon the sheriff also secured the beer left in the bucket. The Indians live on the reservation near Pender and gave their names as "Big Bill" and "Little Jim" but refused to talk much and denied drinking anything but cider. The U. S. Marshal will arrive to-day and take the prisoner in charge.

Madame Ballard, advertised as a genuine Parisian Gypsy, has located in a tent south of the railroad and is devoting her attention to telling the fortunes of Wayne's citizens those who desire to know. She seems to have met with considerable success if reports are true.

Court House Meeting.

Monday evening the citizens to the number of an hundred or more assembled at the town hall for the purpose of devising some method, or formulating plans and providing ways and means that will result in Wayne county securing a court house so badly needed. Dr. Crawford was elected chairman and W. E. Howard secretary. After considerable discussion as to a direct tax or bond it was decided that it was the sense of the citizens of the county that \$30,000 be the amount raised for the building of a court house and bonds be voted as follows: One bond for \$2,000 payable in five years and one for \$2,000 payable each year thereafter. This is almost the same as a direct tax and will provide means at once for erecting a building. Citizens interested will notice that no sinking fund is required with these bonds and if carefully considered the HERALD feels sure every person will agree that it is the best plan. It was also decided that one citizen of each precinct should be asked to circulate a petition for the purpose of ascertaining the sentiment of the people in regard to calling a special election.

It must be conceded that a court house is an immediate need as great dangers exist not only from fire but from water leaking through the present vaults whereby the records and papers may be destroyed, and, as voting bonds as above stated is the nearest a direct tax that can be voted and secure the building immediately, there should be no delay because it would be useless to "lock the barn after the horse has been stolen." It will require two years before a building can be started by voting a direct tax. More next week.

Meeting of the Republican County Central Committee.

The Republican County Central Committee met at the office of A. A. Welch Monday, July 16, 1894. The object of calling the meeting was stated by Chairman Welch to be to set date for holding the county convention and the transacting of such other business as may properly come before the convention.

There were present the following committeemen:

Hunter Precinct, Mark Jeffrey; Hoskins, Geo. Harrigfeldt; Wilbur, A. M. Jacobs; Winside, I. O. Woolston; Hancock, Perrin Long; Strahan, B. Cunningham; Leslie, J. E. Wilson; Wayne, 1st Ward, Nels Grimsley; 2nd Ward, J. P. Gaertner.

On motion the County convention was set for August 11, 1894, at 2:15 o'clock p. m. at the court house in Wayne. It was recommended that the primaries in the different precincts be held between August 4th and 10th, inclusive.

The county convention, August 11, 1894, is called for the purpose of electing delegates to the State, Congressional, Senatorial, and Representative conventions, and to place in nomination a candidate for County Attorney, and Commissioner from the 2nd district.

On motion the basis of representation was made one delegate at large for each precinct and one for each 25 votes or major fraction thereof, based on the vote of the republican presidential electors of 1892.

I. O. Woolston, of Winside and Secretary of committee were authorized to appoint committeeman for Chapin precinct. So ordered by chairman.

On motion meeting adjourned.

There is some talk of putting in a public watering trough for teams for the benefit of the farmers. This is a move in the right direction and the council should consider the matter at their next meeting.

At the meeting of the Republican county central committee Monday the members expressed themselves as individuals as in favor of a court house, and the levying of 7½ mills each year for two years for the purpose of erecting a \$25,000 or \$30,000 building and furnishing the same. The assessed valuation of the county is \$1,504,577.23 so that anyone can easily post himself as to the amount such a levy would raise by direct taxation for two years.

BURGLARS AT WORK!

The Residence of E. D. Mitchell Ransacked From Cellar to Garret. Amount Stolen Unknown—No Clue to the Perpetrators—Mr. and Mrs. Mitchell out of the City.

The residence of E. D. Mitchell, on Fourth street, was broken into Tuesday night and ransacked from cellar to garret. An entrance was effected by the cellar window, the glass being broken so that the latch could be reached and the window taken out. After gaining an entrance to the cellar access to the rooms above was accomplished by burrowing in the door. Upon gaining admittance the culprits proceeded to ransack every part of the house. Clothing and household goods were scattered all over the rooms, but as Mr. and Mrs. Mitchell are out of the city there is no way of telling how much or what was stolen. Mr. Tucker thinks no silverware was taken but there might be many articles he could surmise that are gone, and among them, possibly, a seal skin coat belonging to Mrs. Mitchell. No clue to the perpetrators of the dastardly deed has yet been discovered.

There are principles in the republi-
 can platform which commend them-
 selves to all liberty loving people. Yet
 when by some hook or crook a man is
 nominated for an office over a man
 much more competent, a voter should
 be allowed to exercise his own free will
 in the casting of his ballot for the man
 whom he thinks will most ably fill the
 position in the interests of the whole
 people, and not be considered as bound
 by the action of the convention to sup-
 port its nominee simply because it is
 the republican party or any other
 party.

Last June, Dick Crawford brought his
 twelve month old child suffering from in-
 fanthe diarrhoea, to me. It had been worn-
 out at four months old and being sickly every
 thing run through it like water through a
 sieve. I gave it the usual treatment in such
 cases but without benefit. The child kept
 growing thinner until it weighed but little
 more than when born, or perhaps ten pounds.
 I then started the father to giving Cham-
 berlain's Colic, Cholera and Diarrhoea Remedy.
 Before one bottle of the 25 cent size was used
 a marked improvement was seen and its
 continued use cured the child. Its weakness
 and puny constitution disappeared and its
 father and myself believe the child's life was
 saved by this Remedy. J. T. Marlow, M. D.,

Republican Congressional Convention. The Republican electors of the Third congressional district of Nebraska are requested to send delegates from their several counties to meet in convention in the city of Wayne on Tuesday, August 28, 1894, at 7:30 o'clock p. m., for the purpose of placing in nomination a candidate for congress from said district. The several counties are entitled to representation as follows: being based upon the votes cast for the presidential elector in 1892, giving one delegate at large to each county and one for each 100 votes and the majority fraction thereof. County. Del. County. Del. Antelope 9 Madison 11 Boone 10 Merrick 11 Cass 10 Platte 10 Cedar 8 Pierce 10 Colfax 7 Platte 10 Codington 8 Stanton 8 Dakota 3 Wayne 8 Dixon 8 Total 135 Dodge 17 Knox 4

Republican County Convention. The Republicans of the several precincts of Wayne County are hereby requested to send delegates to a county convention hereby called to meet at the court room in Wayne on Saturday, August 11th, 1894, at 2:30 p. m., for the purpose of nominating a candidate for county attorney and selecting delegates to the Republican State, Congressional, Senatorial and Representative conventions. The basis of representation is fixed at one delegate at large for each precinct and one for each 25 votes or major fraction thereof cast for republican electors in 1892 as follows: Precinct. Del. Precinct. Del. Dear Creek 2 Garfield 2 Hancock 2 Hoskins 2 Hunter 2 Logan 2 Leslie 2 Plum Creek 2 Sherman 2 Strawn 2 Wayne 2 2d Ward 4 White 2 3d Ward 4 Total 48

It is recommended that the several precincts hold their primaries at such time and place between August 14th and 17th inclusive, as may be called by their County Central Committee. The following precincts composing the second Congressional District will also place in nomination a candidate for county Commissioner from that District: Wilbur, Strahan, Brema and first and third wards of Wayne. By order of Republican County Central Committee. A. A. WELCH, Chairman. R. C. OSBORN, Secretary.

CONVENTIONS. Republican State, Omaha, Aug. 22. Populist State, Grand Island Aug. 25.

Every precinct committeeman should see that his precinct is represented at the republican county convention to be held at the court house in Wayne Saturday, August 11.

The strike is over, and to neither side can come claims of victory; but the great triumph of Americanism, both to the credit of the laboring masses and all others, prevails.

The work of constructing the new buildings for the Interstate Fair at Sioux City, has commenced. The fair promises to be a much greater event than the corn palace.

Our Populist friends will bear in mind that they are too near like their Democratic allies, and that the people will not be deceived this fall. Everything will be Republican.

Patrick Eugene Pendregast, the murderer of Mayor Harrison, paid the penalty of his crime on the scaffold within the walled walls of the Cook-county jail, at 11:48 o'clock last Friday.

Things are still going democratic. The Britons won in the International College contest. This is not a day when a man can sing "My country 'tis of thee Sweet land of Liberty," but wait until after the coming election and the ball will be set rolling that will clear away the clouds with the election of '96.

The Thurston County Republic contained an array of roosters in its last issue, caused by its victory over Wm. H. Beck, acting Indian agent, in which the government issued an order restraining the said Beck from interfering with the Flourney Live Stock and Real Estate Co's land leases on the reservation. He who laughs last laughs longest, so thinks Swenson.

In France the excess of deaths over births amounts sometimes to over 40,000 a year. It has increased rapidly the last decade. The explanation is found in the grim fact that the consumption of abstinence in France has risen from less than 1,500,000 gallons in 1885 to about 3,000,000 gallons at present. The consumption of other alcoholic drinks has increased in proportion. It is time the movement for moral reform began among the young men of France. At this rate abstinence and alcohol world destroy the French people in a few generations more.

The Cocco Pender Times says "the Wayne Herald and other republican papers are worried to death fearing that the dems and pops might fuse in this congressional district." The Herald doesn't know of any reason why it should "worry" whether a republican democrat or populist is elected or not. But we will wager the Times a new hat that if the populists nominate a populist for congressman the democrats won't fuse. What the democrats desire is to "work" the pops to support Robinson and if they are big enough snokers to do it there is no reason why the democrats shouldn't look on and smile while the play is carried out. That is all the use the democrats have for the pops. They haven't mentioned anything else.

Mrs. Mary Woodward, the populist, who delivered at length, an address at the closing meeting of the W. C. T. U. last Thursday evening, attempted to vilify such men as ex-President Harrison, Blaine and others, charging them with what she evidently considered a great crime, drinking, and in her barrange denounced the republican party bitterly. Her denunciation consisted of about everything she could "lay her tongue to," yet not once did she mention Senator "Windy" Allen on his hurrah at Washington. The Herald does not hesitate in saying that this woman will do more to injure the cause of the W. C. T. U. if she continues in the line of harangue pursued here, than all the saloons in vicinities where she speaks.

The senate tariff bill, says the Minneapolis Journal, gives rice, a Southern product, protection of 100 per cent. The rice raising industry employs a few thousand negroes at \$8 a month; but these tariff tinkers recognized it, while they put wool, in which industry \$500,000,000 is invested and over 2,000,000 people are employed, on the free list. —Sioux City Journal.

The Madison Reporter makes the awful charge against Congressman Meiklejohn that he wears corsets. This is dreadful if true, but no worse than for Scoble Simpson to wear silk night shirts, striped stockings of the same material, and a long tailed Prince Albert coat. Who cares what a man wears, anyway, if he has paid for it. —Wakefield Republican.

The entire Republican party has been striving for thirty years to promote the best interests of the United States and succeeded until it met with disaster at the close of the year 1892, when its political antagonist, the Democratic party, came to life again. But, while the Republicans have not been able to completely destroy Free-Trade Democracy, that much desired result has been achieved within one year by one man, Grover Cleveland has utterly annihilated the entire Democratic party by his Administration during 1893 '94. —American Economist.

The Populist Senators. The Populist party has not been of very long duration in the United States. It was an outgrowth of discontent at Republicanism which would not sink to the depths of Democracy. In the present Congress the Populist party has four representatives in the United States Senate Senators Allen of Nebraska, Irby of South Carolina, Kyle of South Dakota and Peffer of Kansas. The last named gentleman appreciated, by his vote against the Tariff bill, the true and well meaning efforts of those whom he represents, but we cannot believe that those who sent either Mr. Allen, Mr. Irby or Mr. Kyle to the Senate anticipated that the early years of the Populist party would be distinguished by the buying and selling of the votes of their representatives. Not one of these three Senators voted on the Tariff question according either to the convictions of his party or of himself, but each sold himself; he sold the vote which he held as the representative of the State which he did not represent by deliberately bartering and dicker for special interests against the best interests of the people. The Populist party is deliberately opposed to trusts of all kinds, yet the representatives of the Populists, except Senator Peffer, voted solidly to encourage and enrich trusts. They joined with the Democratic Senators in robbing the many to enrich the few.

The Scope of Service. It is only in the service of mankind that great power can be fully used. No man can exert himself to the utmost when he works for selfish ends. The rich man is tormented with ennui when all his possessions are used to gratify his own desires, but if he diverts them into channels of philanthropy he finds abundant employment and a glow of satisfaction. The powers of an orator can never flame and sparkle for the wrong. The great speeches of the world have all been made in defense of righteousness. God Himself finds full employment for His powers, and finds His joy in pouring out the fullness of His nature into the objective universe. His delight has not consisted in self-existence, but in building worlds and beautifying them, in dying for humanity. —Omaha Christian Advocate.

Sugar, 20 pounds for \$1.00. D. E. Smith & Co.

Old Fashioned Americanism. The Sun indorses the cotton schedule lately passed by substantially the whole Senate as "a model of a non partisan, old-fashioned American Tariff. It is protective." Protection is a tenet of old fashioned Americanism. The first act of the first Congress, after providing for the organization of government, was one laying duties "on foods, wares and merchandise imported." And those duties were not made to protect manufacturers and ruin farmers. Manufactured shoddy was not protected and wool made free. Sugar refiners did not get all they asked, while the sugar grower had his market destroyed.

Our farmers not only do not get dollar wheat under this administration, which promised them so much, but every avenue for profitable sale of their produce is blocked; the market at their doors is willfully impaired and in some instances destroyed. Reciprocity with Southern countries and the opening it gives for farm produce is to be abrogated, and a quarrel with Germany over sugar duties is to be precipitated that will again bring discrimination against American meats and grains.

Instead of the care for all the country evinced by the McKinley Tariff, as passed, we have sectional and class legislation of the vilest character. And through it all runs a settled purpose to injure American interests and upbuild the prosperity of foreigners. And as the managers of the bill in the Senate have in nearly all instances given way to the demands of large capital, as shown so noticeably in sugar and lead schedules, so the original Wilson bill was a surrender to the aggregated capital of Great Britain.

This is not old-fashioned Americanism. It is not Americanism of any kind, unless her importing agents of foreign manufacturers and their attorneys are American and all the rest of us are foreigners. —American Economist.

AN ALABAMA BATTLE.

STRIKING MINERS AND DEPUTIES HAVE A FIERCE FIGHT.

Six Killed and a Score or More Wounded—Three Soldiers Killed and a Number Injured in an Accident at Chicago.

A Bloody Battle.

Birmingham, Ala., special: A fierce battle occurred at No. 3 Mine at Pratt's between mobs of striking miners and deputies, in which six men were killed and nearly a score wounded. A full list of the dead and maimed cannot be secured.

When the employees of the mine quit work the mob was secreted in the woods near by. As the negroes came out one by one, a shot would be sent at them, and they would drop, either fatally wounded or dead.

Another section of the mob made an attack on a train which was carrying negroes in a mine No. 4 to their homes. There were several guards on the engine and the attack was answered by a fusillade of bullets.

Gov. Jones, who was still in the city, hastily summoned the Birmingham battalion of state troops. The Eastlake company, still in camp, was hastily carried to Pratt's with the deputies.

A courier has just returned from the scene and says everything is well guarded there for another attack, should one be made.

CANNON CAISSON EXPLODES.

Three Soldiers Killed and a Score Wounded in an Accident.

Chicago special: A caisson of Battery B Second Artillery, U. S. A., exploded with terrific force at Grand and Oakwood Boulevards. Two artillerymen and one trooper were instantly killed. Nearly a score of other persons were injured, some fatally.

The caisson was being driven by a team around the city to exercise the horses. Everything went smoothly until the column was marching south on Grand Boulevard just crossing Oakwood Boulevard.

The explosion occurred. The men on the caisson, supposed to be Donovan and Doyle, were literally blown to pieces, and others were thrown many feet by the violence of the concussion.

The damage to residences and the park property in the neighborhood of the accident is estimated at about \$10,000. Shells and other missiles, as well as fragments of the exploded caisson, tore through windows of immediate surrounding houses, creating havoc in each instance.

Farmers Fear a Boycott.

St. Paul special: The farmers fear they will suffer from a sympathetic strike, growing out of the Pullman boycott. On account of the strike shipments of blading twine have been few and far between, and the wheat crop is suffering because it has not been harvested promptly.

Both the fireman and engineer were instantly killed, and two baggagemen and two mail clerks were badly injured.

Send the Mats Through Canada.

London special: As a result of the strike situation in the United States an agitation has been commenced by a number of members of Parliament to have the Australian mail now coming through San Francisco sent east by way of the Canadian Pacific.

Invitation to French Government.

Paris special: The Chamber of Deputies by a vote of 369 to 90 passed a resolution inviting the Government to introduce at an early day its proposals in regard to taxation revenue.

New Feature of the Boycott.

Moux City special: Nearly 2,000 Iowa traveling men have joined in a boycott against Pullman cars to assist the Pullman strikers in compelling the company to arbitrate.

Over in Sacramento.

Sacramento special: The strike is virtually over here. Several hundred men who walked out with the strikers have returned to work. There is no report of any time.

DEBS' DAY DONE.

Gompers Refuses to Come to the Rescue of the A. R. U.

Chicago special: The conference of the American Federation of Labor adjourned after having decided against a general strike. The action of President Debs and the A. R. U. was endorsed, however, and \$1,000 voted to aid Debs in the forthcoming trial.

The address denounces George M. Pullman for his persistent refusal to arbitrate and declares him a public enemy.

A proposition was formulated in a conference between Debs, Sovereign and Gompers, and it was agreed that in case the general managers refused to meet the wishes of President Debs Gompers should call out the National Federation of Labor throughout the country.

1. That arbitration as proposed by President Cleveland be entered upon. 2. That all the striking employees except those who had been guilty of criminal misconduct shall be restored to their positions without prejudice by the railroad companies.

The Building Trades Council of Chicago, which deferred action until the regular meeting instead of voting with practical unanimity to assist the A. R. U. was actually unanimous in refusing such assistance, the radical change being due, solely as all the members agreed, to the slight put upon the committee by Debs and Sovereign in attempting to settle the difficulty without them.

Adjt. Gen. Orendorff of Illinois said that if the general managers would not accept the proposition made by Debs, he was in favor of asking Gov. Altgeld to withdraw the state troops from Chicago.

PARALYZED BY THE STRIKE.

Wholesale Business at Western Centers Suffered the Past Week.

New York special: Bradstreet's will say: During the greater portion of the week general wholesale business at Chicago and tributary centers has practically been paralyzed by the railway strike. The boycott shut up a large number of important industries in the west through want of fuel.

A number of small strikes was reported, but there are 25,000 fewer idle because of strikes this week than last.

The iron, steel, lumber, shoe, wool and cotton manufacturing industries at the larger eastern and western centers made practically no shipments and commercial travelers throughout the central and western states are generally compelled to leave the road.

Exports of wheat, flour included, from both coasts of the United States and Canada, were equal to 2,377,000 bushels, compared with 4,134,000 bushels last year.

FARMERS MYSTIFIED.

Visitation of Worms Which Destroy All Growing Crops.

Mansfield, Wis., special: Farmers three miles north of here are greatly mystified over the appearance of myriads of worms which have lately been visiting in that locality and which destroy all growing crops in their way. The worm resembles the cabbage worm very much, being about an inch long. They literally cover the ground.

As Perna reached the exit a crowd of frenzied men sprang upon him and kicked and clubbed him without mercy. The cry of "lynch him" was heard and immediately taken up. Messengers went in search of a rope, and the threat would have been carried out, but for the arrival of a constable, accompanied by a number of cooler citizens.

They Fired on Regulars.

Sacramento, Cal., special: This has been one of the most exciting days in the strike. As a result, two men lie wounded in the hospital, while several others are reported dead or injured.

Orangemen Parade in Canada.

Toronto, Ont., special: Owing to the religious element that was introduced into the recent provincial elections the anniversary of the battle of the Boyne was celebrated throughout Ontario today with more than usual enthusiasm.

Omaha Secures the Saengerfest.

St. Louis City special: The northwestern saengerfest decided to meet next year in Omaha. The prize banner for the best singing society in the association was awarded to Minnehaha, Mandokor of Sioux Falls.

Jackson Starts for the Pole.

London special: The Jackson polar expedition has left the Thames for A-changel, enroute for Franz Josef Land.

AN EARTHQUAKE PROPHECY.

Started by the Verification of Prof. Falb's Prediction.

London special: The spirit of unrest now prevalent throughout the world seems to have brought society to the verge of hysteria. No one seems exactly to know from whence the next report of a great horror of physical upheaval will come.

The time is now near at hand when, if Prof. Falb's predictions continue to come true, a great tidal wave, created by a submarine earthquake, will sweep over New York and practically wipe the American metropolis from existence.

MISSISSIPPI SURPRISED.

Uncle Sam Wants an Issue of Emergency Currency Uttered.

Jackson, Miss., special: The Mississippi Legislature passed an act authorizing the issue of \$200,000 treasury warrants at 2 per cent interest in denominations of \$5 should it become necessary to tide the state over the financial panic.

For the past week, as reported for the United States Weather Bureau by Goodwin D. Swetey, director, Lincoln, Neb.:

The week has been dry, except in the northwestern portion, with more than the average amount of sunshine, but the temperature has averaged about normal, and there have been no hot winds; good growing conditions have prevailed in nearly all sections of the state.

Small grain shows no improvement in the western part of the state, and in the northwest, the wheat counties the crop will be very light.

Potatoes are not doing well in the south-central portion of the state, but are in excellent condition in the northern and central portions.

Reports received from Lancaster, Johnson and Nemaha Counties indicate a prospect for a good apple crop. Blackberries are also doing well.

ASSASSIN IS HANGED.

SLAYER OF CHICAGO'S MAYOR PAYS THE PENALTY.

The Gallows Sends Patrick Eugene Prendergast Into Eternity—Remarkably Tenacious Legal Fight to Save His Life—Story of the Crime.

Harrison's Murder Avenged.

Without a word of protest or an act of resistance, Patrick Eugene Joseph Prendergast suffered the extreme penalty of the law Friday for the murder of Carter H. Harrison. He was hanged at 11:48 o'clock, in the county jail in Chicago. He walked to the scaffold without support. He showed no sign of weakness till the moment before the drop fell, when he stood with the nose about his neck, the white shroud enveloping his form, his feet and knees strapped together, his arms fastened to his body, and the white cap covering his head and face. Then he almost

gave way. His knees trembled and seemed to sink under him. His breath came in gasps and he gave convulsive gulps that showed his nervous system was breaking. His pulse was beating at 120 a minute, and he was on the point of physical collapse when the drop fell.

He died painlessly, as his neck was broken by the fall. To the very last moment he expected to be saved from the scaffold by some power. Five minutes before he began his walk to the gallows he said he expected to hear soon from the Governor. He made no speech on the gallows. He had intended to do so, but was dissuaded by his spiritual adviser, Rev. Father Barry, who pleaded with him to submit to the inevitable and not to make a scene.

THE death and burial of a little child at Table Rock the other day was called a tragedy of three years ago. It was the child of the late Mr. and Mrs. A. L. Ferguson, who lived two miles northwest of Violet. A few days before Christmas, 1891, the father, mother and this child, then an infant, got in a light wagon and started for town to see the presents. One mile out of Violet, while crossing the railroad a train struck the vehicle, landed the seat on which they all sat on the pilot of the engine, carried them three-fifths of a mile, when the train was stopped and the parents both were dead, and the living babe was taken from the tightly clasped arms of the dead mother. For a long time it was thought that the child would not recover, as one side seemed to be partially paralyzed. The child lived and grew strong, but later sickened and died, and was laid by the side of the little grave where the parents were buried.

As pretty a sight as ever met the gaze of Wayne people was afforded them on last Saturday evening, the occasion being the Gypsy social given by the class of '04. This class deserves all the praise, and especially the lady members, that has been heaped upon them. The ground was beautifully arranged, Gypsy tents enclosing a large circular piece of ground. Here various out door games were participated in by more than 300 people from early dusk till eleven o'clock. The members of the class were conspicuous on account of their unique uniforms. Here also the fortune teller foretold the future and rehearsed the past of many a lad and lass. The vendor, too, got in his work, dishing out supper and lemonade to the sum of several dollars. All in attendance expressed themselves as never having passed such an enjoyable evening in the history of their lives. Laughter and fun were at high tide until Prof. Pile in his own jolly manner bade them good night with wishes of sound sleep and sweet dreams.

We are in receipt of a Chester County (Pa.) Times by A. H. Potts who recently visited with the family of H. C. Wright.

In his letter to the Times after speaking very highly of the Northwestern railway accommodations, Mr. Potts on his arrival at Wayne says: "We soon found the home of H. C. Wright, an old school mate when we lived at Belleville, O. twenty-four years ago, and to whom we are greatly indebted for favors during the railroad blockade. His elegant home and happy family of industrious wife and three well trained children make us feel at home, and his comfortable carriage and splendid traveling span of horses enabled us to see over much of the surrounding country. Mr. Wright was one of the first persons who settled in the town 13 years ago, when there were no buildings. Wayne is now a town of 1800 and the county seat. An exciting episode in its existence was the removal of the county seat from Laporte to this place, even after a \$15,000 court house had been built at the former. The town was moved bodily, the frame houses being brought on wheels and it was nothing new to arise in the morn-

ing and see another house located onto see one coming across the county. The court house was brick or it would have been moved also. The wagon used to haul houses was in procession to-day carrying 71 girls representing States and Territories. The chariot seemed to have a floor space of about 11x21 feet on 12 wheels drawn by 8 horses. The Fourth was celebrated in good style, creditable to a larger place. There were several foot races, sack race, wheelbarrow race, potato race, 3-legged race, and bicycle race, in which a good number took part. A patriotic address was delivered by Judge Norris and the Declaration of Independence read. In the evening there was a fine display of fireworks at the Court House Square. During our stay we visited the Normal College, a fine, well equipped College, with near 300 students; also the abandoned Court House at Laporte and leave Wayne with a good impression of this part of the country as a place to live.

W. H. Dixon of Winside was called to Omaha Tuesday by the dangerous illness of a brother.

IRRIGATED FARM LANDS!

IN THE Fertile San Luis Valley, Colorado.

THE SAN LUIS VALLEY, COLORADO, is a stretch of level plain about as large as the state of Connecticut, lying between surrounding ranges of lofty mountains and watered by the Rio Grande River and a score or more of small tributary streams. It was the bottom of the great sea, whose deposits have made a fertile soil on an average more than ten feet deep. The mountains are covered with great deposits of snow, which melt and furnish the irrigating canals with water for the farmers' crops.

The Climate is Unrivaled.

Almost perpetual sunshine, and the elevation of about 7,000 feet dispels all malaria, nor are such pests as chinch bugs, weevil, etc., found there. Flowing artesian wells are secured at a depth, on an average of about 100 feet and at a cost of about \$25.00 each. Such is the flow that they are being utilized for irrigating the yards, garden and vegetable crops. The pressure is sufficient to carry the water, which is pure, all through the farmers' dwellings.

Irrigation.

Already several thousand miles of large and small irrigating canals have been built and several hundred thousand acres of land made available for farming operations. Irrigation is an insurance against failure of crops, because success is the question only of the proper application of water to them. The loss of a single corn or wheat crop in Nebraska, for instance, would more than equal the cost of irrigating canals to cover the entire state, so important is the certainty of a full crop return to any agricultural state.

Crops.

The San Luis Valley will grow immense crops of spring wheat, oats, barley, peas, hops, beans, vegetables, potatoes of the finest varieties yield 20 to 40 bushels per acre. Alfalfa hay 6 to 8 tons, small fruits including Strawberries, Blackberries, Raspberries, Currants, Cherries, the hardier varieties of Apples and Pears pay handsomely. In the yield of the products it has never been surpassed by any other section of the U. S.

Forty Acres Enough Land.

Forty acres is enough land for the farmer of ordinary means and help. Besides the certainty of return, the yield under the conditions of proper irrigation will average far more than the 100 acre farms in the Mississippi and Missouri Valleys, and the outlay for machinery, farming stock, purchase money, taxes, etc., are proportionately less. There are a hundred thousand acres of such lands located in the very heart of the San Luis Valley, all within six miles of the Denver and Rio Grande Railroad, convenient to markets and shipping stations, for sale at \$15.00 per acre. Some of these lands are fenced and have been under cultivation and many instances have wells and some buildings—everything ready to proceed at once to begin farming. A small cash payment only is required where the purchaser immediately occupies the premises, and long time at seven per cent interest is granted for the deferred payments.

A Specially Low Homeseekers Rate.

Will be made you, your family and friends. A large party will leave for the Valley on July 21 and 22 and a second excursion August 11 and 12. Should you settle on these lands the amount you paid for railroad fare will be credited on your payments; and remember the land is perfectly and thoroughly irrigated, and the land and perpetual water rights are sold for less than other sections ask simply the water rights without the land. No better lands exist anywhere on earth.
