**Representative Convention.**  
The Republican Representative convention will be held at Wayne, Saturday September 15, at three o'clock p. m. to select a candidate for the 15th Representative District and transact such other business as may be necessary. Stanton county is entitled to 5 delegates. Wayne county is entitled to 8 delegates. J. R. Manning, Chairman.

As between dictators Rosewater and Hammond we have no choice.—O'Neill Frontier.  
Ex-governor Boyd, of Omaha, has been placed in nomination for congressman by the democrats of the 2nd district.  
Samuel J. Kirkwood, Iowa's governor during the war, died at his home in Iowa City Saturday. He has been one of the most prominent republicans in the history of the party.

When an act is one of "perfidy and dishonor" then the President who enables it to become a law commits "perfidy and dishonor." How can a man separate himself from his leading acts.—Inter Ocean.  
Wm. Bryan has taken editorial charge of the World Herald and informs the public what he proposes to do. It is much easier said than done but the prairies are very dry now and one of William's "fiaries" may set 'em on fire.

Colfax county is a sort of monopolist this year, in the way of candidates for office: H. C. Russell, on the republican ticket for a state office; Geo. H. Thomas, democratic candidate for congress; John M. Devine, populist candidate for congress.  
The vast amount contained in the following few words of John M. Thurston compels attention; Says he, "Everybody knows more than anybody." Here is an idea the pops of Wayne county can use to advantage in regard to their judicial aspirant Jimmie.

It is enough to make a fat take way to realize that Pop Mackey, of the Madison Reporter, was appointed on two delegations by the democratic convention of Madison county. Talk about hypocrisy and gall! However as an anecdote for demo-pop congressmen tie-ups the doctor is far from a success. Carter's little liver pills would have done much more towards accomplishing the dirty job.

The Republican Rally at Pender today will be a regular stem winder, and long to be remembered. As genuine hustlers Peible, Swenson, Turner and many other republicans of Pender hummers. Hon. John M. Thurston speaks this afternoon, and General Corwin, of Omaha, and Lieutenant Governor Majors this evening. Congressman Meiklejohn and a number of the republican candidates on the state ticket will be there.

All men, according to an unwholesome number of democrat and republican office are hoodlums, thieves, and in fact everything that is mean. We do dem or pop nominees are little gods sent expressly on purpose to save the dear public. This kind of rot has become as caron in the eyes of the common people and is cast aside as such. It is the principles and competency of a party to transact the business of the country to the best advantage that should be taken into consideration.

**PLATFORM.**  
Of the republican convention of the Third congressional district. We, the Republicans of the Third congressional district in convention assembled, reaffirm the principles enunciated by the platform adopted at the Republican national convention in 1892. We reaffirm our faith in the cardinal principles of the Republican party, exemplified in its past record which gave to the country unprecedented prosperity and development and which alone can lead it from its present unfortunate and demoralized condition of industrial and financial depression, the heritage of Democratic misrule, into an era of happiness and prosperous growth. We denounce the so called "senate tariff bill" as a "cowardly makeshift" and the methods by which its leading provisions were secured as an unexampled instance of party perfidy and dishonor. It taxes the poor man's dinner table and at the same time reduces his ability to pay the increased prices for food that it imposes. It puts millions into the pockets of the sugar trust and the whiskey trust, but reduces the wages of labor. It taxes everything the farmer buys, but makes him compete free in the markets of the world with his grain and his wool. It stops the wheels of industry, robs labor of its right to employment and just remuneration, and replaces prosperity and plenty with distress and want, and we believe that the people of this country have had enough of the "good old Democratic times" promised under it to last them for a hundred years to come. We reaffirm our adherence and devotion to the American doctrine of protection. We believe that on all imports coming in competition with the productions of American labor duties should be levied equal to the difference between wages abroad and wages at home. A simple reference to the disastrous results following the threat and avowed purpose of the party in power to destroy American protection to home industries is conclusive evidence of the wisdom of the Republican policy on this subject, and we deprecate and condemn the further threat of the president and his followers in Congress to continue the warfare on American industries until they have established free trade and made the United States an industrial dependency of England and other foreign nations. We favor a sound currency, every dollar of which, gold, silver and paper, shall be as good as any other dollar and have a commercial as well as debt-paying value of 100 cents. The coinage of silver should be limited to the product of American mines only and upon such basis as will represent its true ratio to gold after considering its increased value by reason of its coinage. We favor national supervision and control of all corporations engaged in interstate commerce, and the enactment of such laws as will effectually prevent fictitious capitalization and bonding of such corporations, to the end that the people may only be compelled to pay a just return upon the capital honestly invested. We denounce the pension policy of the present administration as unjust and degrading to the union veteran, and favor a policy that will not only deal generously with our living heroes and the widows and orphans of their dead comrades, but that will give them credit with being equally as honest, honorable and patriotic as other citizens of the republic. We denounce the bad faith of the Democratic congress in violating the contract of the government by repealing the sugar bounty provision of the McKinley law. We favor the restoration to the people of free sugar and to the sugar industry, the bounty provided for it. We favor the creation of a national board of arbitration for the settlement of disputes between capital and labor with authority under the law to enforce its decrees. We favor the enactment of such measures as may be necessary to relieve the present distressed condition of the farmers of portions of our state by reason of the drouth. We heartily indorse the course of Hon. Geo. D. Meiklejohn as a faithful, efficient and hard working representative of this district always at his post to this the last day of the session, in congress, and cordially invite the members of all political parties to unite with us in returning him to the position he has honored.

C. H. Morrill, of Lincoln, one of the state Regents elected in 1889 and a man greatly interested in the state university and educational institutions, has been elected as chairman of the republican state central committee. It will make all the newspaper men feel good to learn that Tim Sedgwick, of the York Times, has been elected Secretary. It would have been impossible to make a better selection. Editor Mauphin was not nominated for secretary of state. Is it not about time for the pencil pushers to register a little kick? Or are they entitled to no representation?—O'Neill Frontier.

We understand that T. S. Goss has declined to run for county commissioner. If this is true the county central committee will have to fill the vacancy on the ticket.

**Thurston's Platform.**

The restoration of our merchant marine.  
The tariff of William McKinley and the reciprocity of James G. Blaine.

A one-term presidency.  
The election of United States senators by a direct vote of the people.  
The establishment of a postal telegraph system.  
The government supervision and control of transportation lines and rates.

War on three great democratic trusts—oil, whiskey and sugar.  
The abolition of sectionalism; one people, one country, one flag.  
A political crop failure for calamity howlers and fusion jugglers.  
A pension policy just and generous to our living heroes and the widows and orphans of their dead comrades.  
The utmost expansion of our currency consistent with the maintenance of the equal purchasing and debt-paying power of every dollar.  
American mints for American miners.  
The free coinage of American product of silver and gold into honest money.  
An American welcome to every God-fearing, liberty-loving, constitution-respecting, law-abiding, labor-seeking decent man.  
The deportation and exclusion of all whose birth, whose blood, whose condition, whose teachings, whose practices would menace any permanency of free institutions, endangering the safety of American society or lessen the opportunities of American labor.  
An American flag on every American school house.  
A deathless loyalty to American institutions and a patriotism eternal as the stars.

**Democratic Confessions.**  
The three great schedules in the McKinley law which the Democrats assailed were those relating to wool, tin and tobacco. The Democratic orators claimed that there had been a great increase, or would be, in the price of woolen goods, in tobacco and of tin. After the election of 1892 they boasted that these were the assaults that won them the victory. They had promised the poor man that clothes should be made cheaper by free wool, that tobacco and cigars should be cheaper under lower tariff on tobacco, and that sugar should remain as cheap as under the McKinley law.  
Now that the "great unsigned" is the law of the land it will be pertinent for purchasers of winter clothing to ask if the price of woolens has fallen since last Monday. It will be entirely fair for the smokers to go down to Franklin McVaugh and ask for better prices on their cigars than they had under the McKinley act; also ask him why he does not sell sugar at the same price. The New York World was one of the most reckless of promisers for the Democratic tariff, and already it has begun to explain that sugar will be higher and that woolens and tobacco can not be lower. The World has interviewed the dealers of New York and discovered that sugar has already advanced in price and that free wool cannot have any effect on the prices of clothing for a year to come. As for cigars and tobacco, the World has discovered that the reduction on tobacco is not enough to change the price of cigars. It only helps the dealers, not the consumers, who will continue to pay the same old prices. The Democrats are beginning their confessions very early, but it is just as well, for they will be kicked out of power by the people, who now know them for mere bunko steersers.—Inter Ocean.

PITHY POINTS ON SUGAR.

A Few Facts That Demonstrate the Democratic Love For Trusts. Under the McKinley tariff the American people have secured free sugar. The treasury department estimated our population July 1 at 68,807,000 persons, the per capita consumption of sugar at 63 1/2 pounds, and our total consumption of sugar at 4,343,200,500 pounds.

The total value of these 4,343,200,500 pounds of raw sugar at an average price of 2 1/2 cents per pound would be \$119,438,261. An ad valorem tariff of 40 per cent upon this sum would be \$47,775,304. This would be the extent of the direct sugar tax upon the breakfast table of the people without adding any specific or differential duty upon refined sugar. This tax has been proposed by the Democratic representatives in congress.

The interest upon the national debt for the year ending June 30, 1892, was \$23,378,110. The direct sugar tax would be more than double that amount. The Democratic representatives in congress propose to impose upon every person in the country a direct sugar tax of 70 cents per capita as compared with the tax of only 35 cents for payment of interest on the national debt. The sugar tax will be double the payments necessary to sustain our national honor and credit.

The payments for pensions made by the United States government during 27 years—1867-'93—averaged \$1.06 per capita of our population. The sugar tax proposed by the Democratic representatives in congress will be almost 70 per cent of the average per capita amount paid to the defenders of their country. The amount of duties collected upon all our imports during the year ending June 30, 1892, was \$190,143,678. The sugar tax of \$47,775,304 will add almost 25 per cent to the total of these duties collected upon all our imports.

THE DECREASE OF OUR DEBT.

Under Protection We Increased Our Assets and Lessened Our Liabilities.

Not only do a nation's or individual's assets show progress and prosperity, but the liabilities and their nature should be considered as well. Our wealth and savings have been tabulated and compared with those of previous periods, all proving our marvelous progress under a protective tariff. But every nation has a debt, and the United States is no exception to the rule, though the showing made by our country is most satisfactory.

While foreign nations have increased their debt, we have, in the same period, decreased ours by nearly the same amount as the foreign debts have increased. The average annual decrease in the national debt of the United States during the last decade exceeded \$100,000,000. The decrease per capita of combined national, state and local debt during the same period was from \$60.73 to \$32.37, while other statistics showed that the value of property assessed for taxation increased meanwhile from \$17,000,000,000 to \$25,500,000,000, or 50 per cent, indicating a reduction of debt and an increase of wealth unprecedented in modern times. So it is that protection works both ways. It not only increases our assets, but decreases our liabilities.

Tariff Reform.

Lower Wages For Lumbermen.

The threat of free trade in lumber has completely demoralized the lumber trade in every section of the country. There has been stagnation in the building trade, which, together with the uncertainty as to future values caused by delay in the tariff settlement, has naturally curtailed the output of the mills. As a consequence there have been many idle lumbermen, and their wages have fallen. Two years ago the lumbermen in Georgia were earning from \$1 to \$1.25 per day, but lately they have been only receiving from 70 to 85 cents for a full day's work. They find that the loss of \$2 or \$3 in a week's wages does not compensate them for any cheapness there may be in the price of goods. They begin to appreciate that protection for lumber is also protection for lumbermen, and they wonder if the mere fear of free trade has already caused a loss of \$2 or \$3 a week in their earnings what free trade itself will do. This "object lesson" is bringing the southern lumbermen over to the side of protection.

This Is Truly Shocking.

We are continually being hidden to expect all manner of good things from democratic government. In fact, the term "democratic" is as practically on the tongues of political spouters that it is getting sickening. But here is a democratic (American) government which has existed for over a hundred years presenting to the world a spectacle of selfishness and corruption that is truly shocking.—Nottingham (England) Guardian.

**Representative Convention.**  
The Republican Representative convention will be held at Wayne, Saturday September 15, at three o'clock p. m. to select a candidate for the 15th Representative District and transact such other business as may be necessary. Stanton county is entitled to 5 delegates.  
Wayne county is entitled to 3 delegates.  
J. R. Manning, Chairman.  
Robert J lowered the track record to 2:02 1/2 at Indianapolis last week.  
The republicans carried the state of Vermont at the election last week by 30,000 majority.  
Wart is the somewhat suggestive name of a candidate for representative in the Creighton district.  
Judging from the election Monday Thos. B. Reed about owns the state of Maine, and the beauty of it is the voters are willing that he should.  
When the votes are counted this fall it will be discovered that there has been a beginning of the grand republican victory which will sweep the country in 1896 and bring a return of better times.  
Sherman Saunders, of Bloomfield, was placed in nomination for state senator at Pender last Thursday by the republicans of the Eighth senatorial district. The nomination is a good one, and, as Mr. Saunders is an excellent business man and successful in all undertakings he will be elected.  
A. A. Welch will receive the votes of about all the citizens of the county who desire to see the county's interests looked after properly, and not as they have been the past few years. A man must necessarily have some experience in law, besides other qualifications to fit him for the office of county attorney.  
If the republicans and all citizens have any pride in their county, they will send John T. Bressler to the state senate. This is no time to hag over petty grievances. If Mr. Bressler is elected he will represent the district as creditably as any other republican that could have been named in the district.  
The Burt County Herald, the democratic paper of Tekamah, has been purchased by J. K. Sutherland and C. K. Ott, and will hereafter espouse the cause of republicanism. If the first number under the new management is a sample of what it is to be in the future, its readers are to be congratulated.  
Some democratic statesman in West Virginia has applied to the state committee to put forward to combat Tom Reed when the latter appears on the stump in Congressman Wilson's district. If his wish is gratified the ambitious Virginian will be wondering in a dazed way where he is at when the the bout is over.  
The latest news is to the effect that J. Sterling Morton would like to be senator from Nebraska. So would lot of other people, and their chances for doing so are about as good as J. Sterling's. It is said that he would have the influence of the administration, but that that would be a very potent factor in the election of a senator from this state no one but some sanguine soul like Morton would believe.

The Madison Reporter, the "ablest edited populist paper in North Nebraska," towards the decline of the party in the Third district. Below is the lament:  
"Populists who have been republicans formerly are going back to the republican party with the avowed intention of making a fight for reform in that party, and convinced that reform cannot come from the independent party. The party has lost one-fifth of its voters in the Third district since the congressional convention. Even their organization is threatened with disruption from the lack of harmony in the party. When members of a party accuse each other of being traitors and accepting money and selling out the party, the chances for vigorous, united action are small." - Norfolk News.

We understand that T. S. Goss has declined to run for county commissioner. If this is true the county central committee will have to fill the vacancy on the ticket. - Herald.

We think possibly in this case "the wish is father to the thought, for it is no secret that the Herald has no use for Mr. Goss. But it would not be at all strange if Mr. Goss, in recalling the old usage that "a man is known by the company he keeps," had concluded to get off the ticket. - Democrat.

The Democrat has no regard for the truth when it states "it is no secret that the HERALD has no use for Mr. Goss." It cannot name a single person who will say so. Furthermore, the HERALD has been an earnest supporter of Mr. Goss, and the writer voted for him in the convention, when if he had not Mr. Goss would not have been nominated. Therefore, the Democrat can swallow its lie or not as it chooses.

The convention of the sugar planters of Louisiana, at session in New Orleans last week, passed strong resolutions in favor of protection, and declared that they would only support for members of Congress such candidates as would pledge themselves to vote for measures embodying the principle of protection, and for a speaker of the House who is favorable to protection; no matter to what political party he belongs. It looks as though the threatened revolt against the Democratic party in the South were finally begun.

In a speech at Bedford, Maine, the other day ex-Speaker Reed said: "You might just as well try to drive a span of horses and chariot across the Red sea without a miracle as to try to get wise and fair legislation out of the democratic party." And he not only said it but proved it. - Sioux City Journal.

How much more capable are the populists if they propose to fuse with the democrats at every opportunity?

With pops fighting pops in the Third district, and some little dissensions in the ranks of the democracy, George Meiklejohn could easily leave the stump to his enemies and still come out winner by a heavier plurality than he received two years ago. The people up there know a good man when they see him, and even the school children are uneasy at their desks for wanting to go out and hurrah for Meiklejohn. - State Journal.

Chairman Wilson is authority for the statement that the sugar trust made \$10,000,000 out of the new tariff bill before it became a law. It is not known how much certain senators made. Of course the dear people are expected to meekly submit to all this and pay about 20 per cent. more for their sugar than formerly. - Omaha Christian Advocate.

Tom Majors is a plain, everyday farmer such as we read about in books. Holcomb is an ex-railroad attorney who resigned his position simply because he could not hold it and a district judgeship at the same time. Which one's admirers, brethren, think you, have the best right to howl "corporation tool" at the other. - St. Paul Republican.

Thomas J. Majors, the republican candidate for governor, served more than five years in defense of the flag. Holcomb, the populist candidate for the same office, fought and bled about the same length of time as attorney for the B. & M. railroad. Old soldiers and their descendants are invited to pick their man. Fullerton News.

The Southern sugar planters, like the representatives of all the other great industries of the country, are awaking to the fact that they cannot trust this country in the hands of the democratic party and expect it to be prosperous.

When the votes are counted in November it will be learned that Hon. George D. Meiklejohn, who has so ably represented this district in congress, will have been re-elected by a much larger plurality than he had two years ago.

The York Times pertinently remarks: "If you are a republican, support the republican ticket. That is the best and only true test of republicanism."

The Democrats who follow the old banner this year must love their party for the mistakes it has made. Inter Ocean.

A man who is looking for a job and votes the populist ticket this fall has no respect for the coming winter.

**REPUBLICANS SWEEP MAINE**  
By the Biggest Majority Ever Known.  
The republicans carried the state of Maine by a majority of 37,000, the largest majority in the history of the party in that state. They carried every county in the state, and have a majority of 127 in the legislature, a gain of 53. Thos. B. Reed was re-elected to congress by a plurality of 10,000. Two years ago his plurality was only 1,677. The four republican congressmen were re-elected by increased majorities ranging from 6,000 to 9,000. Two years ago Governor Cleaves' majority over Johnson (democrat) was 12,531; this year it is 37,000. The senate is entirely republican while the democrats only succeeded in electing fourteen in the house.  
Returns from all the towns in Vermont show a republican majority of 27,310, and a plurality of 28,356. The republican gain is 9,274 and the democratic loss 1,963. The senate is a republican unit and the house stands: Republicans, 223; democrats, 9; populists, 1.  
If the republicans of New York should make the same proportionate gain as the republicans of Vermont it would be equivalent to a plurality of over 400,000. - Sioux City Journal.

**The Pender Rally.**  
The republican rally at Pender last Thursday was a grand success, and ably managed by Messrs. W. E. Peebles, Harry Swenson and Jack Turner. The business men of the town, without regard to politics, decorated their stores with flags and bunting, and streamers were floated across the Main street, welcoming John M. Thurston, Thomas J. Majors and Meiklejohn. The fine hotel, the Peebles, is a handsome structure, and would do credit to Sioux City or Lincoln, and the committee were thus able to royally entertain the prominent guests. Besides the parties above mentioned, Auditor Moore, W. S. Churchill, nominee for attorney general; Captain Russell, nominee for commissioner of public lands and buildings, and many prominent republicans were present.  
A barbecue was held at noon, and two beef, twelve hams and 4,000 sandwiches were disposed of. John M. Thurston addressed an audience of nearly 4,000 people in the afternoon, and Thomas J. Majors and Congressman Meiklejohn spoke to a large assemblage in the evening.  
The firing of anvils and a beautiful display of fireworks, together with the music of the band, lent much enthusiasm to the large crowd. It was a grand rally in every sense of the word. About thirty in all were present from Wayne.

ARE STILL IN DANGER.

FLAMES THREATEN MANY TOWNS IN THE NORTH.

Smoke in the Lake Superior Region Shows Fires Unquenched - Bores Aggregate Incalculable Millions - Relief for the Suffering Subscribed Liberally.

Reports from the fire-swept north say that, while the worst is thought to be over, the danger is not at all ended. Fire smolders at countless points in northern Wisconsin and Michigan, and strong winds would fan the sparks into a blaze that would sweep away many towns that all this far fought successfully against destruction.

Port Wing, forty miles east of Duluth on the south shore of Lake Superior, was totally destroyed Wednesday. The town had 200 inhabitants.

Reports are to the effect that Carlton, Kerlock, and Barnum, Minn., are in danger. The fires now surround these places, and are raging furiously.

The heroes of the forest fires were many, and their deeds are just coming to light. Most of these men have been too busy to say anything about themselves, and their stories have only come out when some one has reported them.

ROTHWELL CATTLE CASES.

One of the Alleged Rustler Gang Turned State's Evidence.

District Court has opened at Neligh, Judge Sullivan of Columbus, presiding. All of one day was consumed in getting a jury to try Charles Stewart, one of the Rothwell cases from Knox County. Jacob Blume, turner, state's evidence and he and one Walker, both of whom are under arrest in Knox County for stealing cattle, testified against Stewart. The evidence being that Stewart, Blume and Walker went to a herd and stole forty-nine head of cattle, driving them to Rothwell's ranch, Rothwell was to cash the checks and did so. Blume and Walker drove the cattle to Plainview and shipped them to Sioux City, where they were sold. Rothwell cashed the checks and a fire got up. The Bartlett-Scott case will come up when this trial is concluded.

THE END OF CHILDHOOD.

I sped down a green lane with eager feet. When day was young, a sweet joy at my side. On either hand the fields of yellow wheat. Spread shimmering far and wide.

A LOVE STORY.

Caroline felt very wretched as she packed her trunk. She was acutely conscious of many disagreeable things. She observed that her pink oramide was rumpled, and she knew she had lost a shirt waist.

"GOOD MORNING," HE SAID, "HAVE YOU HEARD THE NEWS?"

smashed an ammonia bottle, and the sad strain of her thoughts was interrupted while she hastily skrimished about looking for dusters, wherewith to wipe the overpowering liquid from the floor.

Then she resumed her meditations, pulling out her long suede gloves as she did so. At least she had been very noble, very honorable, and self-sacrificing.

It had all come about so simply, as she told herself. She had gone to Miriam Bright's country home, which she had been promising to visit ever since they both left school.

"SOME TIME YOU MUST TELL ME ALL ABOUT IT."

godchild. When she had wrestled from Caroline the promise to stay until she came back, and then to finish the month's visit, Miriam departed, leaving her friend in particular care of Ferdinand De Voe.

pected return of her friend gave her no pleasure. When she saw the horseman she suddenly comprehended. She wished very much to know how he felt.

"Good morning, Miss Caroline," he said. "Have you heard the news?" "About Miriam's return?"

Three months later Ferdinand De Voe sat uneasily in the little drawing room of the Buell seaside cottage. He changed his position every few minutes, now looking out at the sea, and again fastening his gaze on the trellace.

"How do you do?" she asked cordially. "I am so glad to see you! How is Miriam?" "She was quite well when I saw her last," said the gentleman.

"Oh, I am so sorry!" exclaimed Caroline, naturally enough. "I am sure it is a foolish misunderstanding. You two were intended for each other."

Artificial Silk. The difficulties attending the production and utilization of artificial silk appear likely to be overcome one by one, and the ingenuity by which these results are accomplished is indeed striking.

Crimson clover in common with other plants requires good soil for the best development, though it is well adapted for light lands. It will catch readily and grow well where red clover will not thrive and is also more hardy.

Using Fertilizers. Does it pay to use fertilizers? This question is often discussed at the farmers' meeting with a wealth of words, that, after all, prove nothing but the opinions of persons who enter into this discussion.

POOR CARLOTTA IS DYING.

The End of Emperor Maximilian's Unhappy Widow Expected in a Short Time.

It was a melancholy day for the members of the royal family of Belgium, on June 7, when they made their annual official pilgrimage to the Chateau de Bouchout, near the village of Mayse, to present their "best wishes" to the unhappy Carlotta, ex-Empress of Mexico.

The people of Belgium have taken the deepest interest in the welfare of the Princess Charlotte, as they always call her, ignoring the title of Empress, in the twenty-seven years since the loss of her reason.
