

HON. JOHN BRENNAN!

Of Sioux City, Iowa.
Will address the people of Wayne county at the opera house tomorrow evening. Mr. Brennan is an Irishman of more than national reputation and at this meeting he will give reasons for the political faith that is in him. Wayne is to be congratulated in securing so noted an orator and a large audience shall greet him irrespective of party.

Auction at Singer's.
Next Wednesday is Halloween.
One week from next Tuesday is election day.

Frank Fuller transacted legal business at Ponca Monday.

A. H. Smith and John Elliott, of the Wayne county bank of Winside, were in town Wednesday.

Mrs. L. W. Alter was a passenger on Tuesday's train for Plainville, where she will visit friends for a week.

United States Senator Manderson speaks at Wakefield this evening. All Wayneites who can should attend.

Mrs. S. A. Ritchie entertained the ladies high five club at the residence of Mrs. H. F. Wilson Friday afternoon.

The battle has just begun. After Brennan the republicans have Senator Manderson, John L. Webster and others to call on.

A regular school house campaign is going on in Wayne county which will bring out every vote and the number of votes cast may reach over 1800.

Some painted Holly-hocks and a crayon portrait of Luella Brenner, the work of Cora Nisson, artist, will be on exhibition at the Sedgwick drug store this week.

The HERALD has printed invitations for the annual Halloween party, which will occur at the photograph gallery of Charles Craven Wednesday evening October 31.

Auction at Singer's.
Moore's Rifles, Co. L, 2nd regiment, N. N. G., of Norfolk, will give a reception and ball at Norfolk Tuesday, October 30. The HERALD acknowledges an invitation to attend.

The Missionary society of the Presbyterian church will meet with Mrs. Wm. Wright Friday, October 26, at 3:00 p. m., to observe the day set apart by the board of the northwest.

Two members of the Wayne Glee Club, Messrs Cook and Titsworth, will assist the glee club at the republican meeting at Wakefield this evening, which will be addressed by Senator Manderson.

We understand that the trade that was to have been made by A. J. Tracy and Price Williams for Mr. Shane's grocery stock has been abandoned because Mr. Williams decided to go to Wyoming, Iowa.

The Foreign Missionary society of the Baptist church will meet with Mrs. J. W. Bartlett Friday afternoon Oct. 26, at three o'clock, after which a tea will be served, also ice cream. 15 cents pays for it all and everyone invited.

Auction at Singer's.
To persons wishing to attend the State convention by the Baptists of Nebraska, to be held at Norfolk, from October 29 to November 1, excursion tickets will be sold, good going Oct. 29 and 30, returning on or before Nov. 3. Fare \$1.15.

The German club of sixty members have built a hall northeast of Winside, which is called Germania hall, where they meet at regular intervals for the purpose of enjoying themselves. They do enjoy themselves and also take pleasure in entertaining visitors.

Since J. W. Mahalm left Wayne county a few weeks ago he has traveled about 350 miles and has met with considerable luck. In a letter to S. P. Theobald he says that he is greatly pleased with Southern Iowa and may decide to locate there. A lack of space prevents our publishing a number of interesting items in the letter.

Auction at Singer's.
Mr. Britton, we understand is conducting his campaign fairly and deserves credit for so doing, but for your own interests it is your duty to vote with the republican party, because it is the party that has the best principles for the interests of the whole people, therefore place your X after the name of Charles Chace for representative.

Mr. Chard has written a letter. It was in December, 1891, but a portion of it appears in the World-Herald of Tuesday, but it clearly shows the position of men at one time and then at another and further shows that the letter writing business is not a success. Whether the World-Herald can force Mr. Chard into the populist camp or whether he will do as his signature remains to be seen.

A daughter was born to Mr. and Mrs. Lemkuhl Saturday, October 24.

Miss Pattison, of New York, is the guest of Mrs. Dan Harrington.

Phillip Eowler and family departed for Topeka, Kansas, Tuesday morning.

Boon:—To Geo. Lincoln and wife, Tuesday, Oct. 23, a 10 pound girl.

Mr. and Mrs. C. S. Beebe visited relatives at Stanton Friday and Saturday. John Bennett and Price Williams drove over from Stanton Saturday returning Sunday.

Auction at Singer's.
A surprise party was given in honor of Alex Scott last Friday evening. The young folks report a splendid time.

The finest sauer kraut you ever tasted and pickles of all kinds, also olives fresh oysters and celery received daily at Shane's.

Remember the Union Temperance meeting at the opera house Sunday evening. A five cent collection will be taken up at the door.

John Connor, of Fort Scott, Kansas, has been visiting with Wayne friends the past week and looking after business interests in Wayne county.

J. Singer & Co. have an auction every afternoon and evening, commencing next Saturday. J. W. Newell will be with them to conduct the sales. See their ad. on the last page.

Auction at Singer's.
It now appears that the pops have been shown that Silas A. Holcomb is a friend of the "dear people," in his mind. Many men he has charged from 8 to 10 per cent-per month for money loaned to his neighbors in sums of from \$10 to \$50.

Last Monday evening the writer visited the Wilbur school house to listen to addresses by Prof. Pile, Elmer Lundberg and Messrs James Britton and A. B. Chard. The latter will leave for the World-Herald to look after, while the address of Prof. Pile was in the form of a plea to vote for him. As to Elmer, the writer thinks he is superior to any of the other speakers present, but like T. S. Goss, others said: "Why did they send a young lad out here to give us instructions?" or words to that effect. But the funny part of it all is Col. Britton's story of the possum. Got Jim to tell it. It would make a horse-laugh. Yet that is not all. Jim has a desire to make out that the farmers know nothing, and therefore goes on to state how the insane asylums of Lincoln and elsewhere purchased 480 tons of coal in July and 490 in August in the year 1892; and then to make it appear ridiculous, asks why should it be purchased to warm the inmates at this time of year, and then there is pause for laughter. But let us see; Does not nearly every man who has the money at hand, and many who have not, purchase their coal during these two months because they can buy it cheaper than at any other period of the year and thereby save money? Isn't that true? If it is not, ask our coal dealers and see if we are not correct. Then why should not state institutions do the same? If it is not the thing to do, then why did Mr. Britton purchase his supply of coal and have it delivered in the month of August of this year? Was it to keep him warm in that month? Again he goes on to say and repeatedly, "Now, I want to tell you this," "Now one thing more," "No sir! Now, I want to tell you this," and then he says with great gusto and exclamation points!!! that the state of Nebraska has \$700,000 in warrants, drawing 7 per cent. interest, outstanding and leaves it to appear that the republicans are to blame for it. The constitution of Nebraska provides that not to exceed five mills can be levied for state purposes. In 1889 the legislature was republican and 4 8/9 mills were levied. In no case to exceed 85 per cent. of the taxes are collected, and in that year \$18,000 more was appropriated than the amount collected. In '91 the populists gained complete control of the legislature, and a democratic governor, James E. Boyd, was elected. In that year the full five mills levy was made and in excess of that the populist legislature made appropriations exceeding \$480,000 of what the levy would bring if collected in full, some \$2,400,000, making the sum over \$2,800,000. Deducting the 15 per cent. never collected leaves the amount collected in round numbers \$2,086,000. Deducting therefrom the appropriation, \$2,800,000, leaves over \$700,000 in warrants, drawing 7 per cent., as Mr. Britton tells you. This occurred when the legislature was populist, and at the time a democratic governor was in the chair, and we have the documents to prove it. Then why should men attempt to mislead the people thus? Why not tell the entire story? What is best for Mr. Britton, barring office, is best for all. Yet we have the right to disagree with him in politics.

A meeting was held at the Frazier school house Saturday evening which was addressed by Prof. Pile, James Britton Elmer Lundberg, J. A. Berry and A. B. Chard. It is said that Elmer did splendidly in his first attempt to discuss political issues.

Neal Nye, of Wayne county, who had his leg broken in a runaway several weeks ago, went to Chicago Tuesday to be treated by the surgeons at the Rush Medical College. His leg has not been mending as it should, and he was persuaded to engage the best surgical talent accessible, with the hope that he may not be left a cripple for life.—Winsor Chronicle.

John T. Bressler, the republican candidate for state senator for this district was in town last week and made many friends. He is one of those common every day fellows that it is a real pleasure to meet, and while he has made a success of life has not forgotten to esteem the many qualities of the struggling man who has an honest desire to carve a place in life. A vote for Bressler is a vote for better laws and for the credit of the state.—Osmond Republican.

Friday afternoon was observed by the public schools, as Columbus day, and a very pleasant time was had by the children in singing patriotic songs and delivering and listening to essays, and declamations in memory of the discovery of America. One of the unique exercises of the afternoon was the debate of the 8th grade boys and girls. They took as their subject, Resolved that Columbus deserves more praise for the discovery of this country than Washington does for defending it, Otto Sebald and Maude Bressler affirming, and Jimmie Wright and Ethel Tucker denying. The judges awarded the decision to the negative. Thus is the father of our country vindicated.

Quite a number of the patrons of the school showed their interest in the school work by their presence. These visits are always appreciated by pupils and teachers and it is to be hoped that they will feel free to attend any of the future exercises of the school.

Union Synodical Society Resolutions.
Resolutions adopted by the Woman's Synodical society, which met at Wayne, Nebraska, Thursday, October 11.

RESOLVED, That we render unto God our heartfelt thanksgiving for His mercies so bountifully bestowed upon us, recognizing that the financial depression and consequent distresses are but His providences intended to draw us nearer to him.

RESOLVED, That we hear his voice and leave our burdens with him, praying that his work may be advanced in his own good time.

RESOLVED, That we ask of the pastors of this state their hearty cooperation in all our lines of work.

RESOLVED, That we extend to Mrs. Pierson, of New York, and Mrs. Wells, of Indiana, our earnest gratitude and appreciation for their valuable and loving assistance in our meetings.

RESOLVED, That we return to our to our homes and presbyteries determined to more fully enter into the work as our master, considering it a privilege to be co-laborers with him.

RESOLVED, That we thank the good people of Wayne for their cordial welcome and kind reception into their hearts and homes, praying that they may not be disappointed in their anticipations of showers of blessing upon their church and community, and that we also express our gratitude to the Young People's Society of Christian Endeavor for its care in so beautifully decorating the church, and to all who have so freely given their services in music and song.

Mrs. J. M. WILSON,
Mrs. C. POMEROY,
Mrs. C. A. RICE.

Com. on Resolutions.

The meeting closed with a very hopeful spirit and great thanksgiving for the pledges having all been met. The Presbyterian Bodies of Nebraska raised last year for home, foreign and freed men work \$4761.70, which left them a balance in their treasury of \$571.70. The young people of the state raised \$832 for Miss Hatch's "Love" society, and we left Wayne with a determination stronger than ever to bring the world to Christ.

Mrs. J. M. WILSON,
Recording Secretary.

County Sunday School Convention.
Have you received a program of the Sunday School convention to be held in Wayne November 3 and 4? Superintendents should have received them, and if you have not, send to W. W. Theobald, secretary.

Let every school in the county send delegates. The meeting will be in the opera house on Sunday and Presbyterian church Saturday evening. Please come and take part.

AUCTION.

Shane is still in the lead on all kinds of Fresh Fruits, notwithstanding the numerous reports that he has sold out.

Go to Brady's for your school shoes, and all other shoes. He can fit from the Infant to the Giant of Best Grade and Lowest Price.

Republican Meetings.

Interesting, enthusiastic and well attended republican meeting were held LaPorte Thursday evening, at the Worth school house in Leslie precinct Friday evening, and at Winside Saturday evening, of last week.

At LaPorte, Messrs. A. A. Welch, Geo. Lincoln and Frank M. Northrop delivered able addresses on the political issues which were well received by the audience. At the Worth school house Mr. Welch and Mr. Hood were the speakers, and at Winside Messrs. Northrop and Welch. Fifteen Wayneites attended the latter meeting, and it can fairly be said that it was the best meeting yet held in that town. At the close the Glee Club of Wayne rendered some campaign songs that pleased the audience and three ringing cheers were given for the republican ticket.

NORMAL COLLEGE NOTES.

Three new students from Madison county this week.

Mrs. Conn is teaching the arithmetic, algebra and grammar.

Prof. Conn speaks before the Stanton County Teachers' association Saturday.

The teachers are busy learning their orations to be delivered the first of the term.

The college literary society will render a fine program next Friday evening.

A new catalogue of the college will be ready soon. It promises to be quite a voluminous affair.

Mr. Holcomb, not the next governor, but a teacher from Cedar county, spent Tuesday visiting the college.

Mr. Derry Berry had a friend from Lincoln to tea at the college the other evening.

The most enjoyable entertainment of the season was the college social given last Saturday evening by Prof. Pile to the students. Each one represented some book, and it afforded no end of mirth and amusement to decipher the symbols.

Mrs. Pile expects her father and sister this week. Her father was Major of the 11th O. V. I. regiment. J. E. Hill, ex-state treasurer, was a captain of one of the companies of this regiment.

The following college notes were sent to us this week which seems very strange, especially as the hand writing looks very much like that of Mrs. Pile. There may have been some mistake, nevertheless we publish them:

Prof. and Mrs. Pile are spending their spare time arranging matter for a fine catalogue. Presume that Col. McNeal and General Cunningham would not bid on the printing, as they claim you know that Prof. Pile fought against them in the war of the rebellion.

Mrs. Conn is teaching arithmetic, grammar and one class in algebra.

The U. S. history class begin "Civil war next week. The editor of the HERALD better come up and mop the cobwebs off his nonconvoluted brain and possibly he would know when the war began anyway.

Prof. Pile's campaigning in Madison county brought us three new students this week from that part of the district. EVERY ONE OF THEM is a Baptist. It is perfectly certain that a fruit has been admitted, and then prelude it with joy, and lovingly.

Go to Brady's for a day without love words to think of during absence; it may be that that you will not get again in life.—The Baptist.

Trusts to Their Honesty.
A news agent on the Illinois Central Railroad is trying an experiment at shows a sublime confidence in honesty.

The college is not patriotic? Well, the way the college was decorated July 4th, and the speech Prof. Pile made in the opera house Decoration day gives the lie to that. Really, such stuff is about as thin as the slide that was perforated the other night.

The Teachers' class will be ready to operate in a few weeks.

Elmer Lundberg, one of our number is making himself famous by his speeches on the silver question. Elmer preaches sound doctrine and has a way of putting it so to win.

In a letter to E. M. Smith from his brother Will, of Spottiswood, California, dated October 6, we find the following, which will be interesting reading for our democratic friends. He says:

"The sheep industry has suffered more than any other. Thousands of sheep have died and many more will. Feed, that is wild feed, is very scarce and wool is so near worthless since the passage of the free wool bill that the sheep men can't buy feed. One man offered to let anyone have the fall clip of his 5,000 sheep who would shear and dip them. It is reported that some men have deserted their sheep in the mountains. Do not know it to be true."

Neckwear.

A Large Line of the Latest Novelties in Four-in-hand and Tecks, just in this week, at Harrington & Robbin's.

To Our Readers.

It will pay you to read the inside pages of the HERALD. Try it and see.

WANTED.
A man and wife with a small family to work on a ranch; steady work and good pay. No one need apply without the best of reference.

R. Wadsworth, Carroll, Neb.
Take advantage of our cloak sale this week.

Fall Style Hats.

We have just received a new invoice of all the latest blacks. Harrington & Robbin's.

ALBION, NEB., Oct. 21, 1894.

EDITOR HERALD:—We get the HERALD regularly and take great pleasure in reading the news from our old friends and neighbors. While I think that the dreadful drought was a little more severe here in Boone county than in Wayne, the people are in fair condition to stand the terrible disaster, and while the farmers have no crops to look after they are putting in their time discussing the political issues of the day, and are coming to the conclusion that the pops are nothing but a gang of political tricksters instead of a party of reform.

The old adage that politics make queer bed fellows is certainly demonstrated in your campaign; it surely must look interesting to see good old farmers J. A. Elliott and Uncle Henry Miller, in consultation with Shylock Jim, and carrying the banner of reform with him in the lead, when they should be working and voting for honest Charley Chace. It is wonderful what large doses of reform the populists can swallow at one gulp and never bat their eyes.

Tell Uncle Henry that it looks as though populism was degenerating and that he will soon be obliged to organize a new party to purify the old one.

I wish that I could be with you to vote for J. T. Bressler, A. A. Welch, and Chas. Chace, but I can't so will vote the G. O. P. ticket here.

Hon. Geo. D. Melkiejohn spoke to the largest audience last Friday evening, that has gathered here this fall; every body seemed to be highly pleased with him: He will go out of Boone county with 300 or 400 plurality.

Yours for the success of the G. O. P.
G. K. PRITCHARD.

Last Friday afternoon a short program was rendered by the Senior Class of the Wayne High School in celebration of Library and Columbus Day.

The program was as follows: Music by the High School Choir. Essay, Seven Wonders of the World, Bethiah Norton.

Recitation, Trouble in the "Amen Corner," Maude Reynolds.

Essay, Gold, Edger Perrin.

Recitation, Speech and Silence, Mary Mason.

Oration, War between China and Japan, Walden Tucker.

Recitation, Brier Rose, Jean Chard.

Debate, Resolved that Ambition is productive of more harm than good, A. I. affirmative, Edw. Lundberg and Harry Gambale.

Negative, Thomas Holtz and Earl Gibson.

We were very glad to welcome the many friends as their presence always encourages us in our endeavors. We hope to see many more at the exercises of the tenth grade which occur Nov. 2.

MAUDE REYNOLDS, Sec.

The HERALD office is rushed with job work and the paper crowded with advertising this week so that we are obliged to omit some news.

Week before last the HERALD said something about the two brick yards. Since then Mr. Lewis informed us that at the time spoken of in the HERALD the firm paid as much to their men as was paid to the men at the other yard. If that is correct then the HERALD had been wrongly informed and we do not wish to intentionally misrepresent anything.

Millinery.

At Miss H. Wilkinson's Millinery Parlors you will find a Grand Display of Winter Millinery.

All the Latest Novelties.
Have a very large stock and am giving a reduction in prices. Call before purchasing elsewhere and learn price. I am also doing dressmaking at reduced prices. Miss H. WILKINSON, up stairs over the Racket.

Assaulted by a Negro.

Newark, Ohio, special: A negro came to the home of Mrs. Catherine Niebling, a widow aged 53, in the outskirts of the city, gaged her, outraged her person and threw her into the cellar and disappeared. Ben Ward has been arrested and is in jail, heavily guarded. He was identified by Mrs. Niebling as her assailant. Excitement is intense, but there are no immediate apprehensions of lynching.

Prosecuting Spanish Newspapers.

Madrid special: Queen Regent Christina has instructed the Government to prosecute the proprietors and managers of several Catholic papers which asserted she had caused the King to be enrolled as a Free Mason.

FIRE UPON THE MOB.

OHIO SOLDIERS SHOOT INTO WOULD-BE LYCHERS. Scenes of Bloodshed About Washington Court House, Ohio—Citizens, Eager to Wreak Vengeance on a Negro, Storm the Jail—Threaten to Use Dynamite.

Three Killed and Many Hurt. At Washington Court House, Ohio, three men were killed and about a dozen injured, some fatally, by the militia, in the endeavor to keep mobs from lynching William Dolby, colored. Dolby assaulted Mrs. Mary C. Foyd, aged 55, at Parrott's station a week ago, and was captured at Delaware, Ohio, and brought into court at Washington Court House. He pleaded guilty and was sentenced to twenty years in the penitentiary...

The mob surrounding the jail and court house attempted to take Dolby from the officers when removed from the jail to the court house for trial, but were kept at bay by the free use of revolvers and clubs. When brought to the court house, Dolby broke down. While bringing him from the jail the mob charged and almost succeeded in getting him. Henry Kirk, the brother-in-law of the assaulted woman, was knocked down the steps and badly bruised. Another man layonated through the finger, while a boyon was thrust through the clothes of another. Deputies and revolvers drawn, guarded the prisoner in the court room.

Dolby cried like a baby and kept looking around for help. Soldiers were marched in to keep the crowd quiet. After the sentence the prisoner was taken to the grand jury room. A mob gathered about the Court House, and it was impossible to get the prisoner through to take him to the train. The officers were powerless to get Dolby from the Court House to the jail or to the train, and Sheriff Cook wired the Governor to send more troops. The mob grew rapidly in numbers and desperation. Col. Coit, once at the head of the troops, tried to disperse, but it was received with jeers. The prisoner was prostrate from fear and lay crying and moaning all the time.

GUARDS FIRE UPON THE MOB.

The mob kept Dolby and his guards prisoner in the courthouse until 5 p. m. and then made an attack. The militia repelled them without firing a shot at 8:45 p. m. in the south door of the courthouse. The door opened on the street, which was filled with men, women, and children. The detachment of the guards finally fired on the attacking party. None of the latter was hurt, but a dozen or more persons in the street were struck, two fatally, and five more were fatally wounded, one of whom died. The wounded were all hurriedly removed from the scene by friends. The people were frenzied and threatened to dynamite the court house. Additional troops were ordered from Cincinnati, Columbus, Chillicothe, and other points.

BOMB AT AN IRISH MEETING.

Dastardly Attempt to Blow Up the Blake Reception in New York. The reception given by the Irish National Federation to Edward Blake, M. P., at the Lenox Lyceum, in New York, was productive of some results never dreamed of by its originators. In the midst of the meeting, and while all were seated upon the platform, a bomb exploded upon the platform, delivering one of his most impressive speeches, a stoutly built, frovly dressed man walked swiftly around the back of the front tier of boxes until he reached the last one nearest the platform and to the left of the proscenium arch. In his hand he carried an old, bulky, greeningham umbrella, which he seemed to hold with peculiar tenderness. Outside the box he stopped, hesitated a moment, and then entering, took a chair in a corner nearest the stage. The old man left in a minute.

WANT TO BE GOVERNORS.

Men Who Seek High Honors at the Hands of the People. Ernest Cady, who the Democrats of Connecticut have chosen as their leader in the gubernatorial contest, is the present Lieutenant Governor. He is a prominent Free Mason, a Grand Army man on the strength of service in the navy during the civil war, a very manly and energetic citizen and leading citizen of Hartford. He was born Sept. 6, 1822, at Stafford, Tolland County, lost his father when but nine years old, and thereafter supported himself by his own labor. His education he received at the winter term of the public schools. Since 1862 he has been in the firm of Pratt & Cady, manufacturers of steam-boiler appliances at Hartford. Mr. Cady has twice been elected Lieutenant Governor on the ticket with Wm. B. Morris for Governor. The Republican nominee for Governor of Massachusetts, Frederick D. Greenhalge, was born in England in 1821. Early in the '50s his family came to the United States, and settled in Lowell, Mass., where the subject of this sketch entered the public schools. In 1857 he entered Harvard College, but three years later was obliged to leave because of the death of his father, which left him the support of his mother and sister. He was admitted to the bar in 1865, held several city offices, and in 1885 entered the State House of Representatives. He also served in the Fifty-first Congress. He is a very popular man in his State.

MUST IMPROVE WHEAT.

European Crop 116,000,000 Bushels Short—Estimates by Countries. The condition of the crops of Europe for 1884 is given in the forthcoming report of the tallies of the Agricultural Department at Paris for October. The estimated wheat harvest is counted to 1,435,410,000 Winchester bushels, against a requirement of 1,551,530,000 bushels. The harvest by countries is as follows:

Table with 3 columns: Country, Production, Consumption. Includes United Kingdom, France, Germany, Austria-Hungary, Russia, etc.

BOLTERS' LAST HOPE GONE.

Bryan Ticket Declared Regular by Nebraska's Supreme Court. The last hope of the administration Democrats to secure recognition for the candidates nominated by the state convention which bolted the regular convention was destroyed by the supreme court deciding that the fusion, or Bryan ticket, shall be designated as the Democratic ticket on the official ballot. The question came up on a petition in that question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. The court was also asked to pass on the question, "Does the law authorize the printing more than once on the official ballot of names of candidates nominated by different parties, or by petition?" In answering the first question the court said the power of the secretary, when an objection was made to any certificate of nomination under the provisions of the ballot law. Palpitation of the Heart
Shortness of Breath, Swelling
of Legs and Feet.
 "For about four years I was troubled
 with palpitation of the heart,
 shortness of breath and swelling of
 the legs and feet. At times I would
 faint. I was treated by the best phy-
 sicians in Savannah, Ga., with no re-
 sult. I then tried various Springs
 without benefit. Finally, I tried
Dr. Miles' Heart Cure
 also his Nerve and Liver Pills. After
 beginning to take them I felt better! I
 continued taking them and I am now
 in better health than for many years.
 Since my recovery I have gained fifty
 pounds in weight. I hope this state-
 ment may be of value to some poor
 sufferer."

E. B. SUTTON, Ways Station, Ga.
 Dr. Miles Heart Cure is sold on a positive
 guarantee that the first bottle will benefit.
 All druggists sell it at 6 bottles for \$5, or
 it will be sent prepaid on receipt of price
 by the Dr. Miles Medical Co., Elkhart, Ind.

Publication Notice.
 Oct. 4-5v
 C. F. Thompson will take notice that on the
 27th day of August, 1894, E. Martin, County
 Judge of Wayne county, Nebraska, issued an
 order of attachment for the purpose of pend-
 ing in the county court of said county, wherein
 the Wayne National Bank is plaintiff, and said C.
 F. Thompson is defendant, that property con-
 sisting of moneys, notes, and credits in the
 hands of Lincoln & Hood, has been at-
 tached and said Lincoln & Hood garnished
 under said order. Said case was returned to
 the 20th day of October, 1894, at 9:00 o'clock
 a. m. WAYNE NATIONAL BANK.
 By A. A. WELCH, Its Attorney.

Notice of Election.
 Notice is hereby given that on Tuesday, the
 6th day of November, A. D. 1894, an election
 will be held for the purpose of voting on the
 following proposition: "Shall the county of
 Wayne, state of Nebraska, by its board of
 county commissioners, issue its county bonds
 in the amount of thirty thousand (\$30,000) dol-
 lars for the purpose of the construction, erec-
 tion and completion of a court house build-
 ing in the city of Wayne, Wayne county, Neb.,
 and on block two (2) Crawford & Brown's addi-
 tion to the city of Wayne, known as the Court
 House Block, for county purposes, and all
 the purposes for which said court house may
 be legally used and appropriate moneys be
 raised therefor by the construction and com-
 pletion of such building, all the cost thereof
 to be paid by the said sum of thirty thousand
 (\$30,000) dollars."
 Said bonds to be of the denomination of one
 thousand (\$1,000) dollars each, to be dated
 January 1, 1895, payable to the order of the
 county treasurer of Wayne county, Nebraska,
 and payable as follows:—Two thousand
 (\$2,000) dollars January 1, 1895; two
 thousand (\$2,000) dollars January 1, 1896;
 two thousand (\$2,000) dollars January 1, 1897;
 two thousand (\$2,000) dollars January 1, 1898;
 two thousand (\$2,000) dollars January 1, 1899;
 two thousand (\$2,000) dollars January 1, 1900;
 two thousand (\$2,000) dollars January 1, 1901;
 two thousand (\$2,000) dollars January 1, 1902;
 two thousand (\$2,000) dollars January 1, 1903;
 two thousand (\$2,000) dollars January 1, 1904;
 two thousand (\$2,000) dollars January 1, 1905. All
 of said bonds to draw interest not ex-
 ceeding five (5) per cent per annum, to be
 semi-annually on the first day of July and
 the first day of January of each year.
 And shall the board of county commis-
 sioners or other officers charged with the levying
 and collecting of taxes annually levy a tax as
 provided by law in addition to all other taxes
 sufficient to pay the interest on said bonds as
 it becomes due and payable, and shall an ad-
 ditional amount be levied and collected to
 pay the principal of such bonds at maturity.
 Work on said court house shall be com-
 menced as soon as practicable after the
 adoption of this proposition by the legal
 voters of said Wayne county, Nebraska.
 The form in which the above proposition
 shall be submitted shall be by ballot, upon
 which ballot shall be printed or written "For
 Court House Bonds and Tax" and "Against
 Court House Bonds and Tax" and all ballots
 cast at said election having thereon an X after
 the words "For the Court House Bonds and
 Tax" shall be deemed and taken in favor of
 said proposition, and all ballots cast at said
 election having thereon an X after the words
 "Against Court House Bonds and Tax" shall
 be deemed and taken against said proposition
 and if a majority of all the votes cast at said
 election on said proposition shall be in favor
 of said proposition, it shall be deemed and
 taken to be carried.

D. T. WORKING'S
TURF EXCHANGE.
 West side Main Street, Wayne, Neb.

 Embalming, thorough.
 Undertaking Goods and Hearses in connection.

The said proposition shall be voted upon at
 the general election to be held at the usual
 places of holding elections in the county of
 Wayne, and state of Nebraska, on the 6th day
 of November, 1894.
 The county clerk is hereby directed to
 cause this notice to be published for four con-
 secutive weeks immediately preceding said
 election in the WAYNE HERALD, a newspaper
 published and of general circulation in
 Wayne county, Nebraska.
 And he is further instructed to deliver to
 the sheriff of said county of Wayne a sufficient
 number of copies of this notice, designating
 thereon the time and place of holding the
 election in each election precinct in the
 county, and said sheriff shall post such notices
 in three of the most conspicuous places in
 each of the election precincts in said county
 as by law provided, and make due return
 thereon.
 And it is further ordered that a copy of this
 notice shall be posted in a conspicuous place
 at each place of holding such elections on the
 day of said election.
 By order of the Board of County Com-
 missioners, this 2nd day of October, 1894.
 Attest: J. W. O'BRIEN, Chairman.
 L. S. RUSSELL, County Clerk.

Vote for Bressler and elect a man sound on economic questions.

Vote for Bressler and Chace and if elected they will do their best to secure needed legislation.

Every day the republican party is gaining ground and if the rate is kept up until the day of election the republican majority will reach 25,000.

Mr. Brooks, the populist nominee for state senator, is making quite a canvass and promises to make it interesting for his opponents.

Judge Holcomb pretends to be in favor of the populists and also in favor of the democrats. How can any man consistently serve two masters?

Some of the populist speakers throughout the county denounce the two old parties, yet travel along side by side with their democratic allies.

Vote for Albert M. Jacobs, he will make as good a commissioner as Wayne county ever had, and no republican in the district should vote for any other man.

It will indeed be a happy day when Majors is in the Governor's chair and John M. Thurston occupies a seat in the United States senate. All Nebraska will be proud.

Thomas B. Reed announces that he never made the assertion that he was not in favor of the McKinley bill and Bryan's reference to it in the joint debate at Omaha will act as a boomerang.

Wm. Jennings Bryan discovered in the joint debates with Thurston at Lincoln and Omaha that he had met his peer in the discussion of national issues, but it was certainly a battle of giants.

Prof. Pile, the democratic nominee for state senator is campaigning throughout the county and it seems the attendance is good at most all of the meetings of the parties, which shows that the people are interested.

Are the populists telling you that a republican governor signed the maximum freight rate bill? No, they forget about that when they speak of Governor Crouse. Would it not be as well to tell the whole story as to endeavor to deceive?

Never has such a campaign waged all over the country as is in progress today. Political affiliations have been rent assunder, but the great American people can be trusted to properly settle the question, and it now looks as though the victory would be overwhelmingly republican.

All Mr. Welch has made has been made out of his profession and is invested in his home and \$100,000 in bank stock. He also has a family while his opponent is a single man. We only mention this, not to cast any reflection on Mr. Berry, but to do away with the story in circulation that "Mr. Welch is a rich man and his opponent a poor man." The statement is not true and should never have been made as it will prove more damaging to Mr. Berry than had it not.

W. J. Bryan evidently thinks he can hoodwink the populists by proclaiming that he favors the foreclosure of the mortgages covering the Pacific roads. In his public speeches he reads from the report made by Gov. Pattison, one of the government commissioners appointed to investigate the affairs of this road under the act of March 3rd, 1887. Pattison opposed extending the time of payment, but favored the forfeiting of the charters of the road. In his report page 152, he says; "The extension being unwise and wrong, there is only one course open to congress, and that is an immediate winding up of the affairs of all the companies, enabling the government to withdraw at once from all connection with the running of railroads or sharing the profits of their management. * * * In this way the government would cut loose from all participation in railroad management. This portion of the report Bryan purposely omits to read because the populists, whose aid he seeks in his attempt to secure a public office, have declared in favor of the government ownership and management of roads." When Bryan fails as an office seeker and an editor, some rendering establishment can make a fortune out of the oil he will produce.—State Journal.

In the joint debate at Omaha between Thurston and Bryan, the democrats did not act with the fairness that the republicans did at Lincoln, but when Bryan closed they began to leave the hall making all the noise imaginable so that Thurston could scarcely be heard. It evidently points to the fact that they didn't wish to have any one hear Mr. Thurston's closing remarks. Perhaps our friends will claim this is a lie, but county clerk Russell will bear us out in the above statement for he was there.

Cattle from Mexico are already on our market. A train load was sent to Chicago the other day. The Chicago Tribune says that 100,000 head are expected in the market from Northern Mexico within the next few months. This is the result of the new tariff which so greatly cuts the duties on live stock—and which, we have been told, was formulated in the interests of the farmers of the United States.—Sioux City Journal.

J. M. Pile is a smooth man. John T. Bressler is a business man of more than average ability, and in addition to this is an honest man. He has no hobbies to ride, liquor reform bills to introduce or theoretical ideas to advocate.—Norfolk News.

Republicans, do not cast your vote for Prof. Pile. If you do there is a possible chance for the election of James Brooks, the populist nominee for state senator.

Taking its cue from the democratic orators, the Omaha World-Herald announces a "great revival of prosperity during the past week or two all over the country," on account of the democratic sugar tariff act.

Well, here are the clearing house figures to show it, for corresponding weeks of 1892, 1893 and 1894, in Omaha and Lincoln to the last report:

	1892	1893	1894
Omaha	\$3,454,561	\$5,025,267	\$4,983,388
Lincoln	745,558	556,750	471,624

The revival in business in Nebraska is therefore not very apparent. Now take the whole country. According to the reports the increase last week over 1893 was 3 per cent. The decrease of 1893 from 1892 was 32 per cent. Now a recovery of 3 per cent after a loss 32 per cent is hardly such a revival of business as to make a favorable comparison with republican times in 1892. The least said about "business" during this campaign the better the demopopulations are going to sound to the common people. Twenty-nine per cent falling off from 1892 to 1894 isn't anything that should prompt the Omaha World-Herald to sing a te deum over a "democratic business revival."—State Journal.

ALWAYS A REASON WHY.

This has been a year of wonderful growth for the Lincoln State Journal. Its aggressive methods have pushed it to the front. One thing that accounts for this is The Journal's principles. It is republican, true and blue, but first of all it is a great newspaper and considers news the most essential feature. It prints more state telegraph news than either of the Omaha papers. The business interests of the state recognize in The Journal the only state paper which is standing up for Nebraska. You can see how the Journal is growing in your own town. It is gaining in every other town in the state just as much. The reduced price is only 50 cents per month without Sunday, or 55 cents per month with Sunday. This also accounts for the big growth. The Semi-Weekly Journal has the largest circulation of any Nebraska paper it has completely routed its old-fashioned once-a-week rivals. It is being sent from now until January 1st, 1895, for \$1.00. This carries readers through the coming legislature and through the next presidential campaign. It gives readers two complete papers each week for the price of one. Gov. Furnas is farm editor and L. L. Lyman, poultry editor. It is published at the state capital and is a paper for Nebraskans.

The closing of the Franklin sugar refinery at Philadelphia last week is not properly attributed to the democratic tariff law. It is only the sugar trust getting ready to raise prices as soon as the agreement with the democratic bossess expires.—Sioux City Journal.

Corn and Silver.
By way of showing the fallacy of the claim persistently urged by the advocates of the free coinage of silver, that prices of commodities have been unfavorably affected by the so-called demonetization of silver, nothing more conclusive can be cited than the course of the price of corn, the first of all our agricultural products in importance. If it does not appear that the price of this cereal has followed the fluctuations in the price of silver it must be conceded that the chief argument of free silver men, the one upon which they mainly rely for winning the agricultural producers to their cause, is unsound.

The market value of silver has declined almost steadily for a number of years, due to increasing production, the exception to the rule being the speculative spurt upward immediately following the passage of the silver purchase law of 1890. The average value of the bullion in a silver 8 was 86 cents in 1884, in 1882 a little more than 82 cents, and in 1886 not quite 77 cents. It was under 76 cents in 1887 and below 73 cents in 1888. There was a slight decline of 1/4 of a cent in 1890, and in 1890 the passage of the act requiring the purchase of an amount of silver about equal to the annual production of American mines raised the price to 81 cents. The average of 1891 was about 70.4 cents and in 1892 the price fell almost to 67 cents. Last year the price was under 62 cents and this year it will be in the neighborhood of 50 cents. Now the price of corn has not followed these changes, so that so far as this cereal is concerned it is perfectly plain that its market value has not been influenced by the course of the market value. In New York the average price of corn was 80.8 cents a bushel in 1884, in 1885 only 63.1 cents, and in 1886 but 48.4 cents, yet it rose to 50.6 cents in 1887 and 57.3 cents in 1888 while silver was falling. In 1889 the price of corn dropped to 43 cents a bushel, silver remaining almost unchanged, and in 1890 when there was an advance in silver, which put it back about to the level of 1885, corn only advanced to 48.1. In 1891 silver went down more than 6 per cent, but corn averaged 70.4 cents, advancing 45 per cent. In 1892 the price of corn was 54 cents, or still above the figures for 1890, when silver was strong and over 20 per cent higher than in 1892. Last year the average price of corn in the New York market was 49.9 cents a bushel, which was higher than the price of 1886, 1889 and 1890, whereas silver was much lower than it had been at any previous time and about 25 per cent below the market for 1890. Everybody knows that there is not the slightest relation this year between the market value of silver and the price of corn. Remarking upon these facts, which are of official record a contemporary says: "Can any juggler with statistics in the employment of the mine owners make such figures fit the theory that farm crops must sell in harmony with the price of silver? Is not every honest student of the great question of money and prices driven to look elsewhere than to the fluctuations in silver for an explanation of the ups and downs of corn?" And what is true as to that cereal applies with equal force to wheat, oats and every other agricultural product. There never was a greater fiction than the claim of the free silver men that there is any relation between the prices of these commodities and silver. Bee.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Phil H. Kohl, Druggist.
There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Palm Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be used. A sprain may be promptly treated before inflammation sets in, which insures cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Palm Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved, or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by Phil H. Kohl, Druggist.

Hot Noons Chilly Nights

Of Fall present so many variations of temperature as to tax the strength and make a pathway for disease Hood's Sarsaparilla will fortify the system against these dangers by making pure, healthy blood.

Hood's Sarsaparilla Cures

"Sore came out on my limbs. I tried different medicines, but none helped me. At last my mother heard of Hood's Sarsaparilla. After taking part of a bottle the sores began to heal, and after a short time I was completely cured. We keep it in the house most of the time. As a blood purifier I know of nothing better." LEON S. JOHNS, Fairmont, Minn.

Hood's Pills are purely vegetable, harmless, perfect in proportion and approved.

The Greatest Medical Discovery of the Age. KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS., Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except two (both through humor). He has won in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them, the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach be foul or bilious it will cause queasiness feelings at first.

No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime. Sold by all Druggists.

HOME AND THE FARM.

A DEPARTMENT MADE UP FOR OUR RURAL FRIENDS.

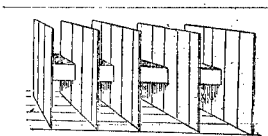

The Experience of Farmers with Home Mixed Commercial Fertilizers—Select Seed Corn While Husking—Drinking Trough for Calves—Agricultural Masters in General.

Commercial Fertilizers.
When it is realized that the farmers of the United States buy \$30,000,000 worth of commercial fertilizers every year, the need of analysis of fertilizing materials will be understood. The standards required by law in the different States vary, so that the valuations contained in bulletin No. 102 of the New Jersey station are only of use inside the limits of that State. In other respects the bulletin will prove an excellent guide to farmers in all sections. The fact that it pays quite as well, proportionately to the good business in the purchase of fertilizer supplies as in the sale of produce is not grasped by the general farmer who does not realize that those who carefully study the source of supply start to get better quotations than those who buy their order early, and purchase considerable quantities are able to get better quotations than those who buy at the busiest season of the year. In small lots at a time and of the nearest dealer.

Inquiries as to the advantages of home mixing brought replies from sixty farmers, fifty-three of whom find that it pays them well to buy raw materials and mix for themselves. But three farmers report any disadvantage. One states that there was considerable loss from handling; another that it is difficult to procure the materials in small quantities at a reasonable price, while a third considers it a disadvantage to pay cash. This summary of practical experience should be sufficient evidence of the value of home mixing and of the adoption of this method of purchasing supplies.

Drinking Trough for Calves.

The drawing represents a handy pen for feeding calves. It consists of a plank trough raised to a convenient drinking distance from the floor, with partitions in it. The stalls are made from each partition large enough to admit the calf without allowing it to turn around and are made high enough to prevent

stealing from or interfering in any way with its neighbor. The advantage of this arrangement is the calves do not have to be taught to drink. Take them from the cow, turn them into the stall, put in the milk and they will soon learn to drink without aid.—Farm and Home.

The Fodder Stocks.

Corn cut off at the ground and shocked after heavy rainstorms, is apt to become twisted, and some of the shocks will corkscrew and fall over. All such shocks should be broken down as soon as they have dried out, and the stalks set round the upright shocks. If left partly fallen down, they cannot dry out, the fodder will mold, and then the grain will become heated and will quickly spoil. This is a little matter where only a few shocks are lost, but it is a great loss when the shocks blown over are many. Each large corn shock will rust from a half to a barrel of corn. The fodder is also valuable. Corn, owing to the shortage in the West, will command better prices this winter, and clean, bright fodder is worth \$5 per ton; therefore, it is well worth saving in the best possible manner.

Feeding mouldy grain, or mouldy fodder, is dangerous; it is injurious to the stock. If fed to milk cows it injures the quality of the milk, and if the grain is fed to hogs it is apt to produce disease. Horses will not eat mouldy corn. Fodder shocked properly will shed water readily, and neither fodder nor grain will be damaged, even after several days' rain. Good twine tarred makes an excellent tying material. It is strong, easy to handle, and costs but a few cents per pound. It can be used for tying the shocks first, and then, after the corn is husked, it is useful for tying the fodder in bundles. If cared for, it will last two years.—Baltimore American.

Select Seed Corn While Husking.

The progressive farmer always breeds from his choicest stock, and plants seeds selected from the best of the crop. By this means he overcomes the constant tendency to degeneration, and secures strains of varieties and breeds which are best adapted to the soil and climate of his farm. This is especially true of maize, of which only the best filled ears from vigorous stalks should be used for seed. At husking time, this selection can be made to the great advantage. Whenever a choice ear from a good stalk is found, the husker should throw it into a separate pile, or into the front part of the wagon. When unloading, these best ears may be thrown into barrels or boxes, and when re-sorted may be stored in a dry room for the winter. Such continuously selected seed corn will soon make a neighborhood reputation for improvement.

Milk Typhoid.

The recent enormous extension of the creamery business, involving, as it does, the mixture of the milk from

with its many dangers. Formerly, milk typhoid was characterized by sudden outbreaks, widely spread among the consumers of infected farms, but under the creamery system, by which each farmer receives back his proper proportion of skim milk from the general stock, enteric fever on any one farm tends to be rapidly distributed throughout the dairies served by the creamery, and it becomes quite obvious that, if the creamery system is to be safely worked, a very careful and thorough system of inspection of the farms must go along with it.

Country Roads.

Roads should be surfaced every time they become rutty and uneven, by cutting out and opening the waterways on the sides of the road, the first great thing in building or rebuilding a road is accomplished. After a roadway is put in proper shape, if it can be rolled over four or five times with a heavy roller of five or seven tons in weight, it will form a crust from four to six inches thick that is, so hard that the prints of a horse's foot or the wheels of a heavily loaded wagon will hardly make an impression and will prevent rutting for a long time to any great extent. Country roads should be gone over with these machines as early as possible in the spring after the frost is out, to prevent deep ruts from forming.

Sugar Beets.

The Nevada station has issued a bulletin containing its final report on the suitability of the soil of that State for the growing of sugar beets. This industry is exciting great attention all over the world. The English farmers were the last in Europe to interest themselves in the subject. But they are now aroused, and say that with proper government encouragement they could cultivate beet sugar to supply the country with sugar. This would enable them to give up raising grain to a considerable extent, and would furnish work to the large number of laborers now out of employment. It would also enable them to retain the \$70,000,000 now sent out of the country for the purchase of sugar, mostly in France and Germany.

Food for the Horse.

The horse's natural food is grass. There is nothing else upon which he will do so well or live so long. His internal economy can accommodate itself to the dried, seedless stalks of winter, the luxuriant foliage of spring or the highly nutritious seed pods of summer. The stalks preserve his health, the green foliage fattens him, and the seed pods invigorate and strengthen him. No horse, however lightly worked, should be fed on hay alone. The ration should include grass or roots, and when the work is hard enough a suitable quantity of grain. No horse that is lightly worked should be highly fed on grain. It is a common and costly practice which causes many a horse to be discarded long before his time.

Matter for the Business of Farmers.

Farmers' boys have, as a rule, succeeded in all occupations, but how much more able, influential and respected would the farming community be to-day if it were made up of those same talented and educated sons, asks the Farmer's Review. If my education will aid me in other vocations, while will it not serve me as well as a farmer? That is a fallacious doctrine which teaches otherwise. Is not the knowledge of agricultural chemistry, methods of plant growth, and the nutrition of fods of practical use? An educated mind—that is, an athletic mind—is trained to think. Does it not pay the farmer to think?

Polished Moldboards.

A plow that will not scour is a vexation of spirit, and the fault generally lies with the previous user, who did not wipe off the moist soil, or else left in the furrow, or with the polished surface up, was do to catch the rain. When stopping work, both at noon and night, the plow should be taken out of the furrow, wiped bright with a bunch of grass, and turned over on the edge of the share with the land-side up, to prevent injury to stray stock and to keep the moldboard dry. When the plow is to stand unused for a time, it is well to coat the polished surface with castor oil to prevent rust.

Beef for England.

The value of our English market for beef is shown by the fact that we exported to Great Britain 37,600 tons of dressed beef and 166,000 live cattle during the first five months of this year, valued at \$22,500,000, or \$15,000 for live cattle and \$7,500,000 for dressed beef, a considerable increase over the exports for the corresponding time last year. Added to this is 65,000 sheep, valued at \$600,000. The export of hog products for the month of May was 28,445,000 pounds. The total value of all provisions and live stock exports for May was \$15,045,000, or \$2,000,000 more than May, 1893.

Last Year's Wheat Crop.

According to the Agricultural Department at Washington the world's wheat crop of 1893 was 7,000,000 bushels less than in 1892 and more than the world's crop of 1891. But the crop of North America was last year only 347,000,000 bushels, as against 574,124,000 bushels in 1892 and 684,500,000 bushels in 1891. The greatest increase was in Europe from 1,208,680,000 bushels in 1891 to 1,438,660,000 bushels last year, and in South America, which increased from 50,040,000 bushels in 1891 to 81,640,000 bushels in 1893.

Did any person ever thoroughly understand another?

EXECUTING AN INJURED FLY.

How a Quartet of Insects Put a Battered Brother to Death.

Flies are not usually accredited with great intelligence, but an illustration observed last night goes far to disprove any idea that they are entirely bereft of thought. It was near midnight and a writer for the Philadelphia Call laid aside his pen for the day, but was constrained to remain at the desk by the strange actions of a quartet of flies. One unfortunate brazier had flown too near the gaslight and had been so badly singed that he could not fly. Quite helpless, he lay on his back struggling to overturn himself. He almost succeeded, but so painful were his efforts that mercy suggested the speedy killing of the insect. But the manifest agitation of four unusually large flies prevented a hasty execution. In great excitement the quartet circled around the unfortunate, remaining within a radius of twelve inches. One pair seemed to touch heads, and in an instant one of the two went savagely for the injured brother. After contending with him for a brief time the first helper left, when, without a moment's delay, the second and third pair went through the same performance. Here was a puzzle that required close study to solve. Were the flies striving to aid the sufferer, or did they want to kill him, either because of his uselessness or to relieve him from pain?

Seventeen times were combated for such they soon appeared to be—had. The fly, lying on his back, fought and apparently sought to keep off the big insects. As near as the eye could determine, they seemed to strive to reach the neck of the sufferer. There was a short, sharp fight each time. A few grains of sugar were placed on the desk, but the fighters were too greatly absorbed to notice them. More powows ensued, and three attacks followed. Then the four were frightened by an attempt to catch them. One fly, not of the quartet, was captured and placed under a glass with the wingless member. Five minutes the stranger flew around wildly, not going near the burned fellow. The glass was removed, and in the course of ten minutes four flies were again on the scene, trying to kill the small insect. It was then nearly 1 o'clock a. m. and the observer, failing to inveigle any into a trap, retired. Early in the morning the fly that caused all the trouble was found dead, with the grains of sugar lying around him undisturbed.

Disrespectful Prince.

When Louis, Prince of Conde, who afterward became a great general of France and one of the most famous men of the seventeenth century, was a boy at school at the Academy Benjamin, he excelled in gymnastics and also in a certain kind of personal audacity. As the future head of one of the most powerful princely houses of France, he was much courted and "toadied to"—a circumstance which did not greatly please his boyish disposition. One day he was met on the road to school by the village justice, who made him an extremely low bow, and remaining in the bowing attitude, began a sort of oration to the young prince.

Louis did not care to go away and leave the functionary in this attitude, but he did worse. Placing both hands on the shoulders of the obsequious townsmen, he jumped clear over him, a la leap-frog, and brought up behind him.

Upon this the justice turned about, bowed again, but not so low as before, and recommenced his oration; whereupon the young prince once more put his hands on the great man's shoulders and leaped over his head.

This time the orator did not resume his discourse, but went down the street grumbling.

At this time Conde was 16 years old; and when we read, in connection with the incident, that in the very next year he was given an important military and political command in Burgundy, we are not surprised to learn that he became an arrogant and tyrannical man. All his circumstances, and education had tended to spoil him.

Sugar and Diamonds.

It can now be said with perfect truth that a lump of sugar may be turned into diamonds. Not all the substance of the sugar will enter into the composition of the gems, but only the carbon which it contains. Sugar consists of carbon united with oxygen and hydrogen in the proportion to form water.

The carbon can easily be separated out, and in some of the recent experiments or the production of diamonds this sugar carbon has been employed. The diamonds so far produced are very small and destitute of commercial value; but still they are real diamonds, and the chemical triumph achieved would be no greater intrinsic ally if they were as large as the Kohinoor.

Of course it is not meant by what has been said above, that carbon prepared from sugar is the only carbon used in the experiments. The graphite from which lead pencils are made serves the purpose just as well, and still other forms of carbon may be employed.

The hope is now held out that an improvement in the process of manufacturing diamonds may soon be effected whereby the necessity of dissolving the carbon in molten iron may be dispensed with, and the required combination of great pressure with great heat may be brought about by some such operation as squeezing the carbon between red-hot metal plates.

It is either a very great or a very good man that can command the praises of an enemy.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

The crown plate of England does not belong to the British treasury, but to the head of the reigning house for the time being. The nation has nothing to do with it. Much of it belonged to Queen Victoria's ancestors long before they ever came to England from Hanover and Brunswick and ascended the English throne. The crown plate includes a peacock of precious stones, valued at \$200,000; a dinner service of pure gold for 130 guests; a silver-gilt chalice and numerous other articles, one of them entirely consisting of jeweled saufs boxes, and valued at \$80,000.

Hall's Catarrh Cure is taken internally. Price 75 cents. COAL tar yields sixteen shades of blue, the same number of yellow tints, twelve of orange, nine of violet, and numerous other colors and shades.

Meat-Eating Spoils the Temper. Mrs. Ernest Hart, who recently made a trip around the world, appears to come to the conclusion that meat-eating is bad for the temper. She says that in no country is home rendered so unhappy as life made so miserable by the ill temper of those who are obliged to live together as in England. If we compare domestic life and manners in England with those of other countries where meat does not form such an integral article of diet, a notable improvement will be remarked. In 1888 the English physician who observed the rule of the home in fish and rice-eating Japan harsh words are unknown.

ROYALTY have, as a body, defective eyesight. Princess Maud of Wales is the only royal lady who wears a single eyeglass. LIKE a touch of nature, which makes the world akin, the use of Glouc's Sulphur Soap beautifies the complexion of young ladies to every part of the universe.

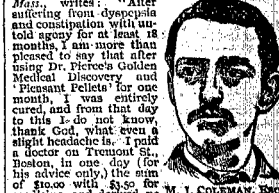

SEA bathing causes many diseases of the ear. Cotton should be put in the ear when it is the intention to submerge the head. Mrs. Winslow's Soothing Syrup for Children teething, soothes the pains, removes inflammation, cures colic, and costs a cent.

TO PUT ON needed flesh, no matter how you've lost it, take Dr. Pierce's Golden Medical Discovery. It works wonders. By restoring the normal action of the damaged organs and functions, it builds the flesh up to its natural standard—promptly, pleasantly and naturally. The weak, emaciated, thin, pale and nervous are made strong, plump, round and rosy. Nothing so effective as a strength restorer and flesh maker is known to medical science; this pure vegetable food and the fat of cod liver oil and its fatty compounds; it raises every organ of the body to activity, purifies, enriches and vitalizes the blood so that the body feels refreshed and invigorated. It cures indigestion, weak, too nervous, it may be that the food assimilation is at fault. A certain amount of bile is necessary for the reception of the fat foods in the blood. Too often the liver itself fails to do its duty, and the result is a clogged-up system which would hinder digestion. Dr. Pierce's Golden Medical Discovery stimulates, tones up and invigorates the liver, nourishes the blood, and the muscles contract and nerves get the rich blood they require.

Spent Hundreds of Dollars with no Benefit. J. J. COLEMAN of St. Argent St., Roxbury, Mass., writes: "After suffering from dyspepsia and constipation for nearly six months I am more than pleased to say that after using Dr. Pierce's Golden Medical Discovery and Pleasant Pellets for one month I was entirely cured, and from that day to this I do not know a single headache. I paid a doctor at least \$100 for his advice only to find that he was wrong. I was cured by the medicine, and derived no M. J. COLEMAN, Esq., benefit. I got more relief in one hour from your medicine, than I had from any other medicine I have used. If any person who reads this is suffering from dyspepsia or constipation, or both, try Dr. Pierce's medicine as I have done, he will never regret it."
