If any one desires to establish an electric light plant in the best city in Northeastern Nebraska, he should call on or address E. P. Olmsted or P. L. Miller, Wayne, Nebraska.

Oliver Burson has reached his fiftieth birthday and yesterday his partner, Mr. O'Hara, presented him with a gold watch chain, and last evening a number of friends presented him with a handsome Colts' gun. A few other friends presented him with a rocker.

Have you visited the Millinery establishment of Miss Jennie Anderson since her new fall millinery began to arrive? If not, you should at once. The new styles are beautiful and fascinating and the ladies of Wayne and vicinity will find it to their advantage to call early.

According to the Randolph Reporter's table of averages Wayne and Harting-ton bring up the rear at ball playing, so far as the per centage is concerned. However, they are the best two cities in northeastern Nebraska, if they can't play ball. Wayne may yet show the other fellows how to play ball.

The salary of the great artist, the Mallet Family, prominent feature of the World's Best Shows, distributed up would pay the entire salary list for a month of many of the smaller shows which have for attractions unusually commonplace artists. Remember the date of the Great Shows at Wayne Sept. 11.

Even if a beet sugar factory can not be secured in a day, or a few months or a year or longer, the question should be thoroughly discussed, the advantages, benefits and opportunities made known far and near and the factory will be established. The product is here and it will be raised hereafter. It is the most profitable crop that can be grown as will be demonstrated when it is marketed. There will be another factory established in this part of Nebraska within two years. Shall it be at Wayne?

The Norfolk News of August 26th, gives an extended account of the sad drowning of A. J. Cabler, of Wauco, Texas, and Mrs. Ada Vonum, of Blue Springs, Nebr., Sunday evening by the overturning of a boat in the North Fork river. It seems they were returning from the camp meeting in company with a brother of Mr. Cabler who with his wife was in another boat. The latter hollowed to his brother that he would row ahead and the accident was unknown to him until morning when the owner of the pleasure boats discovered the overturned boat. The bodies were found Monday morning about six feet apart in eight feet of water.

J. O. Milligan was down from Wakefield yesterday.

The first fall term at the College begins next Tuesday.

The HERALD is printing a brief for attorney Fuller this week.

You have heard about "Corn is King." Well, Nebraska is his domain.

The Baptist Sunday School picnic in Crawford's grove tomorrow.

The Monday club at the last meeting adjourned for a months vacation.

School begins Monday and the average youngster will then be happier.

The ground is pretty thoroughly soaked by the rain of Tuesday and Wednesday.

P. N. Nelson is building a large barn 44 x 64. Mr. Nelson is one of Wayne county's prosperous farmers.

The State G. A. R. reunion is in full blast at Hastings and the old veterans are enjoying camp life while telling the old war stories.

The Gospel Temperance meeting held at the Baptist church Sunday evening was well attended, and the exercises very entertaining.

Mrs. S. B. Russell received a message Thursday evening from New London, Iowa, bearing the sad intelligence of the death of her mother.

A few of Wayne's lady bicycle riders have the courage of their convictions and have provided themselves with bloomers for the evening ride.

G. W. Riley shipped his trotter, Nebraska Bourbon, to Bloomfield yesterday where he proposes to win the races in which his horse is entered.

C. W. King has decided to remain in Illinois during the winter. Mrs. King will move to Clark's and their residence here will be for rent until next May.

It is not improbable that the corn crop in Wayne county will turn out like the oat crop did, especially when many stalks contain two full grown ears.

Rev. McCool, of Ponca, was a Wayne visitor Monday. He was one of the speakers on the program for the Pennsylvania picnic, which was abandoned owing to the rain.

The Gem City Laundry, Mrs. A. Sherbahn, proprietor, is turning out first class laundry work. Special attention given to sewing on buttons and mending. A trial order is desired.

As has been said before one good rain follows another in this section of the state and that of Tuesday put on the finishing touches. It leaves the ground in first class condition for fall plowing.

Owing to the rain last Friday the Presbyterian Sunday school picnic was given up but notices were distributed for an ice cream social in the evening which took the place of it and it proved a very pleasant substitute for the picnic.

The young people of the Baptist church will give a Sunflower Social on Saturday, Aug. 31st, at the old College building, the fourth door north of Furchner & Duerig's store. Supper and cream will be served from five till ten. At nine o'clock the Sunflower Chorus will give a short program. Everybody come and get a good supper and have a nice time. Supper 25 cents, ice cream 10 cents.

Two picnic parties went to the Elkhorn this morning. One is being chaperoned by Mrs. Sullivan. They are Misses Maude and Pearl Reynolds, Theo Seace, Louise Sullivan, Lulu Thompson, Mary Mason, and Charley Reynolds and Floyd Jones. The other is being chaperoned by Mrs. Corbit and Mrs. J. J. Williams and those comprising the party are, Misses Leta Corbit, Gerlie Weber, Bertha Armstrong, and Messrs Harry Fisher and Robert Armstrong.

The September number of the Ladies' Home Journal is a beauty. "Compulsion in Child Training" is the subject which the Rev. Charles H. Parkhurst, D. D., discusses wisely and well. His article is ably supplemented by Edward W. Bok's excellent editorial on "Our Schools and Our Teachers." "The woman who Paints Cats" is the striking title of a full page devoted to Madame Henriette Ronger, the celebrated cat painter; several copies of her most celebrated pictures being given. All women who love fancy needle work will be delighted with Helen Mar Adams' "Greek Embroidery Designs" and Mrs. Barnes-Bruce's "A Bridal Table Set." A large number of other interesting subjects are discussed by prominent writers. Altogether this attractive issue, which goes out with a cover especially designed by Mr. C. D. Gibson, is worth ten times the price of ten cents. The Ladies' Home Journal is published by The Curtis Publishing Company, of Philadelphia, for ten cents per number or one dollar per year.

ANNOUNCEMENT.

L. L. Bean, left Tuesday for Wayne, where he assumed charge of the Boyd hotel. Mr. Bean is an excellent hotel man, and we bespeak for him unbounded success. Mark Boughn, left Wednesday morning to accept a position as clerk with Mr. Bean.—Randolph Reporter.

During the year 1894 when nearly all Nebraska was stricken with drought, there was shipped from Wayne 262,000 cars of wheat, 215 of corn, 89 of flax, 21 of oats, rye and barley, and 342 cars of cattle and hogs; while fully as much more was shipped from the other stations in this county, this year the above figures can be multiplied by four, and still they will be under, rather than over the amount.—Democrat.

In an article referring to the Cumulative County Teachers' Institute the West Point Republican says: "President J. M. Pile of the famous Wayne Normal College is the principal instructor and is well known as one of the best educators in the state. His recitation classes in grammar and arithmetic are well attended and full of meat for sound digestive organs, while his lectures on didactics bristle with bright practical ideas for school-room practice by the uninitiated, as well as experienced birch wielders.

Senator Quay was unanimously chosen chairman of the Pennsylvania Republican State Convention yesterday and the Keystone State will show democracy how it's done this fall.

Stockholder's Meeting.
The Stockholders of the Nebraska Normal College Association will meet at the office of J. D. King, Sept. 3rd, at 3:00 p. m. for the purpose of electing six trustees and transacting such other business as may come before the meeting.
Wm. MILLER, President.
S. B. ROSSELL, Secretary.

THE NEWS RECORD

GATHERED FROM ALL PARTS OF THE GLOBE.

Story of the Killing of Indians in Oregon Not Believed in Portland - Kentucky Murderer Taken from Jail and Hanged in the Court House Yard.

Fifteen Reported Dead. PORTLAND, Ore., special: Diamond Valley, the scene of the reported killing of fifteen Bannock Indians, is situated in the southeastern corner of Oregon. Burns is the county seat of Harney County and is 150 miles distant from Ontario, the nearest telegraph office. Ontario is a small town on the Oregon Short line, near the border between Oregon and Idaho. The news is not credited here, as it was not known that any Bannock Indians were in the vicinity. Diamond Valley is owned almost entirely by Peter French, the most extensive cattle raiser in Oregon. "Rye" Smith is one of French's foremen and when drinking is said to be very quarrelsome. Mr. Calvert, a well known attorney of this city, who is acquainted with Smith, said: "It is highly probable that the Indians and French's men drove them out. His men may have killed an Indian or two, but I think it highly improbable that fifteen Indians were killed."

Poisoned at a Picnic. LAPOKITE, Ind., special: Three hundred out of 1,000 people were poisoned at a German Lutheran mission picnic or picnic in a grove at Tracy. A picnic dinner was served the throng, and it is thought some miscreant poisoned the potatoes or drinking water. Victims were attacked with frightful pains, nausea, purging and vomiting, and rolled and tumbled on the ground in agony for hours until medical aid was secured. As yet none have died, but many are still very ill. Two hundred and fifty were present from this city, and among those most seriously affected were the families of Herman Raddatz, Chris Ebert, Ernest Frickweller and John Ball.

Has Cost \$2,000,000. CHICAGO special: In a short time Chicago will have possession of one of the finest libraries ever dedicated to the use of the people. The Public Library Board is now letting contracts for \$400,000 worth of decorating and interior finishing, and when the artists and workmen have completed their tasks the great building on Dearborn Park will be ready for Librarian Hill and his assistants. The new library will represent an expenditure of \$2,000,000. When completed the Chicago public library building will rank second in size and in cost to the magnificent Boston library.

Negro Lynch a Negro. SPRINGFIELD, Ky., special: A mob composed of a dozen men, supposed to be colored, appeared at the jail and demanded the surrender to them of Harrison Lewis, a negro who murdered Joe Brooks, also colored, in cold blood. The jailer's wife told them her husband was not at home and that he had the keys with him. The mob procured sledge hammers and after three hours succeeded in battering down the jail doors, took Lewis out and hanged him to a tree in the court house yard.

They Have Dr. Fraker. KANSAS CITY special: A dispatch to Times from Moberly, Mo., says: A man arrested here is claimed by the authorities to be Dr. George W. Fraker, who was supposed to have been drowned at Excelsior Springs in 1894, and to whose relatives several insurance companies recently paid in aggregate of \$80,000. The man's given name is C. T. Hall and it is known he has gone under the alias of Harry George.

Cheung Inquiry Very Slow. LONDON special: A dispatch to the Times from Shanghai says the Cheung inquiry has proceeded with all the momentum of the consular commission present, but the progress is slow. The dispatch adds that a Mahomedan rebellion has broken out in the province of Kansu and is spreading seriously.

Accumulation of Gold in Australia. WASHINGTON special: According to a report just received at the State Department from Consul General Marrett at Melbourne, Australia, the mint there received 577,945 ounces of gold during the first six months of 1898, as against 510,228 ounces for the same period last year.

Two People Killed. ELKHORN, Ill., special: By the explosion of the boiler of a threshing machine at Owassa, Monroe Babcock and Anna Hoffman were killed and several others injured. It is feared fatally. The engine was an old one and had been declared unsafe.

Cholera in Russia. ST. PETERSBURG special: Seven deaths from cholera have occurred on board the steamer Baik, which arrived at Vladivostok August 6 from Chefoo, China, since which time sixteen cases and twelve deaths have occurred at Vladivostok itself.

Warships Bound for Chefoo. WASHINGTON special: The warship Concord sailed from Yokohama, Corea, for Chefoo, China. The Yorktown is also on her way to the same place, so the United States will be well prepared for an emergency in Chinese waters.

Murdered in a Dive. PITTSBURGH special: An unknown man was enticed into a notorious resort, his throat cut and the body thrown into the street from a second story window. William Boyer and wife, who were detected wiping a bloody knife, were arrested.

Three Children Burned to Death. MEXIA, Tex., special: Three children of Henry Johnson, colored, living six miles from here, were burned to death in their home while the parents were at church.

EASTERN. WASHINGTON special: Postmaster General Wilson states the postal receipts of the large cities for July last showed an increase of about 17 per cent. over the receipts for July of last year. He thinks this is a good indication of the increasing prosperity of the country.

NEW YORK special: Advice to the Produce Exchange estimate the corn crop at 2,425,000,000 bushels, an increase of 312,800,000 bushels over the great crop of 1898.

Pacific coast is not larger in volume. In fact at several southern and eastern centers rather more of quiet is reported than a week ago. At western and central western points, with some exceptions, signs are conspicuous of the favorable influence on business of the prospectively enormous Indian corn crop and the very large harvest of spring wheat. At the east, stimulating influences are found in continued activity in the leading industrial lines, notably iron and steel, the recent marked advances in prices of which metals at eastern central centers is being echoed from Chicago and St. Louis. At the south grocery, hardware and dry goods jobbers are relatively most active. General trade is as favorable as anywhere else in the South and Georgia. The Louisiana rice crop, it is estimated, will amount to 1,500,000 bags. Needed rains have fallen in South Carolina. General trade at the south is practically waiting until the cotton begins to move. Exports of wheat from both coasts of the United States and from Montreal this week have increased again, for the fifth week in succession, amounting to 2,389,000 bushels, against 1,825,000 bushels last week, and 3,182,000 bushels in the week a year ago.

THE RUSSIAN THISTLE FOUND IN INDIANA. The bituminous coal miners have gained their point in a suspension of operations for more than a month. A number of operators have agreed to pay last year's price of 60 cents. A few days ago several operators said they would abandon the united effort to get a contract with the men at 50 cents. The other operators then tried to organize to fight it out, but the effort has failed. The operators have not made contracts with the men at 60 cents for any length of time, but say they will pay it only so long as they can sell coal on that basis. This is the first time in a half dozen years that a strike has been ended without the signing of contracts for all the state for the remainder of the year.

PITTSBURGH special: Pig iron has advanced \$1 in the last three days, and is now quoted at \$15.50 per ton, which is the highest point that it has reached since 1890, when it sold at \$24.50. As pig iron is the base of all grades of iron and steel, there will be a general rise in prices. Manufacturers say that the price of pig is so high that the danger line has been reached, and that if it goes higher the market will be flooded with the foreign product.

PITTSBURGH special: Dr. C. C. Wylie, a well known physician of this city, proposes to destroy typhoid fever and other disease germs in water by electrocuting the water. His plan, as announced, is to turn a powerful electric current into the water, thereby killing all germs in it. Dr. Wylie says it can be done. Other physicians here are discussing the prospect favorably and experiments along the line of Dr. Wylie's ideas will be made.

NEW YORK special: Ex-Gov. L. B. Morrie was struck with vertigo in his office and remains unconscious. It is feared his condition is critical.

NEW YORK special: Thirteen hundred cloakmakers joined the garment workers' strike, making the total number 8,000. They demand increased wages.

NEW YORK special: The exports of gold the past week were \$5,077,000.

WESTERN. CHICAGO special: Gen. W. Howard, ex-vice president of the A. R. U., who was sent to jail by Judge Woods for three weeks, has been exempted of court, has been released. He came back to this city. Regarding the future of the A. R. U., he said: "The American Railway Union is a thing of the past. The effort to reorganize it, I am sure, will never succeed. Every railroad official has received notice from some of the other railway organizations that he allows the A. R. U. to raise its head with impunity. Only last week a railroad man at Joliet was discharged because it was rumored that he had been in the A. R. U. In regard to the order of Master Workman of the Knights of Labor, which requests laboring men to refuse bank notes in payment of obligations, I think it is the shrewdest nonsense—the worst kind of bombast, and 99 per cent. of the working people of America will look upon it in that light. The people need money in any shape and I predict that the order will be ignored."

CHICAGO special: Knights Templars' rates went to pieces here. Tickets were sold on the street for \$10 to \$15, and the difference, \$200, by which the regular agreed fare is \$10. There seems to be a regular scramble among the roads for the business and they appear willing to carry it for whatever is offered them. No explanation can be given for the demoralization. Some of the brokers explain it by saying that the brokers have formed a combination to break the rates of have got hold of a limited number of tickets at very low prices from agents who, after purchasing them, found that it would be impossible for them to make the trip to Boston and did not know that they could have their tickets redeemed by the railroads. The fact remains, however, that tickets can be had on the street at the prices named and that people are being pressed to purchase them at these figures.

TORONTO, Kan., special: "Gen. F. A. Fey, the man who led one division of Coxey's commonwealth army from California, according to the statement of a local barber, lies dead in the morgue here. Leon Bullock, who was a member of Fey's division, visited the morgue to see the body of an unknown man who had been killed by a Rock Island train. He at once pronounced the dead man to be Fey."

ANSTONTO, Colo., special: Elmer Loebacher, the engineer of the Gundry Hotel at Denver was arrested here. He says the explosion of the boiler was not due to his carelessness. He claims that before leaving the hotel he banked the fire and made sure the boiler was two-thirds full of water. He says he left Denver because he feared personal violence.

SAN FRANCISCO special: Charles H. Bishop, First Vice President of the Bank of California in this city, has contributed \$800,000 to schools and societies in the Hawaiian Islands. The money is to be used to promote the interests of a number of institutions sustained by the late Mrs. Bishop in her lifetime.

TACOMA, Wash., special: Vice President Stevenson and party have arrived from Alaska. They are the guests of John A. Parker, at whose residence an informal reception was held. The party starts east over the Canadian Pacific Railroad.

SEATTLE, Wash., special: As the outgrowth of a political feud near Avondale, Joseph Cleary fatally shot James McConn, and was instantly killed by McConn's brother.

LEWISTON, Idaho, special: Three Indians were held up by three masked men and robbed of \$2,300 paid them by the government for land.

FOREIGN. KEY WEST special: Passengers by the steamer Mascott, which has arrived from Cuba, report that it is rumored in Havana that Sadgully and Aguerre, the American citizens who had been confined in Monte Castillo, had been released by the Spaniards and would sail for New York on the steamer Yumuri. It is officially announced in Havana that Juan Alberto Gomez, Colonel Antula, La Sagua and fifty other Cubans, known to be sympathizers with the insurgents, have been deported to Spain. It is rumored in Havana that Serafin Sanchez, the insurgent chief, has been killed, but the report lacks confirmation. Letters have been received in Key West from Sanchez since the battle near Ploactos, on the 18th inst., in which he was engaged.

ST. JOHNS, N. F., special: The newspapers announce that the French admiral, commanding the French squadron for fishery protection along the Newfoundland coast, is waiting at Bay of Islands to protest against the new transatlantic railroad, now in course of construction, piercing the country and touching any part of the so-called French shore where French fishing claims exist. The British authorities apprehend decisive action on the part of the French. It is feared that the question will lead to very important international trouble. The British flagship Cleopatra is cruising in the same waters.

BUDAPEST special: The Minister of Agriculture announces as a result of data obtained from consuls and specialists that the world's crop for 1898 is as follows: The total production in countries which import wheat is estimated at 749,023,000 bushels. In countries which export wheat the total production is 1,651,701,000 bushels. The minister also amends the estimate of the crop of 1894 so as to make the total in that year 2,632,736,000 bushels, showing that the crop for 1895 is 221,000,000 bushels less than that of 1894.

GUAYAQUIL, Ecuador, special: News comes from Quito that those who still remain in power there have caused the arrest of many notable patriots, including women. The only offense which these unfortunate persons are supposed to have committed is that they have long and deeply sympathized with Gen. Alfaro in his struggle. It is reported from Quito that the prisoners in the city are subjected to indignities of all kinds, and, in some cases, to torture.

DENVER special: It is estimated that 17,000 mill workers are now out on strike. They have agreed to resume work if they are guaranteed an increase of 5 per cent. in their wages instead of 10 per cent., which they first demanded.

GUAYAQUIL, Ecuador, special: Gen. Alfaro's army is continuing its march toward Quito without meeting any resistance. A panic prevails in government and official circles in the capital. Gen. Alfaro is gaining in popularity.

MADEIRA special: Advice from Long King is that the province of Souyang is infested with pirates who harass the French troops. The situation is said to be grave.

GENOA special: The official statement of the assets of Baggio-Bros., bankers, who recently failed, shows them to be \$3,500,000. The liabilities are \$14,000,000.

SOUTHERN. VERNON, La., special: The district court has a damage suit on its docket which is attracting general attention throughout the parish. The suit is against the clerk of the court for issuing a marriage license to a young man named Lewis to wed a Miss Timney. Mr. Lewis' father objected to the marriage of his son, who was only 18, and he has instituted the suit for damages amounting to \$3,120. The question involved has never been passed upon by the supreme court of this state, and the lawyers are looking forward with much interest to its decision.

PAUL VALLEY, I. T., special: John Reeves, a member of the notorious Christian brothers' band of robbers, has been captured and is now being held in the local and has been taken back to the enterprise. The Southwestern Construction Company of Kansas City has the contract for building, and work will be pushed rapidly.

LITTLE ROCK special: Mrs. Noya, the first female bicyclist to appear on the streets of Little Rock and in Bloomers, was arrested by the police under an ordinance proscribing "indecent apparel." The bloomers were of the conventional pattern, such as are worn in other cities, and the case will be fought to the end.

LEXINGTON, Ky., special: To satisfy a judgment filed by John C. Mayo and M. H. Houston, local and master commissioner of Johnson County sold 60,000 acres of canal coal land, owned by the Merritt Bros. of Duluth, Minn. The land brought \$33,000, Mayo & Houston being the purchasers.

WEXFORD, S. C., special: The jury has returned a verdict against seventeen of the twenty-three rioters, who have been on trial here for several days. All were sentenced to the county roads, the three leaders for twelve months, eleven for four months, and three for three months.

WELDON, N. C., special: While conversing with a group of men in the Lumbago Tavern three attempted to escape. Two colored men were killed, but the third got away.

ALEXANDRIA, Va., special: Frank A. Reed, president of the Board of Trade and otherwise prominent killed himself.

THE MARKETS. ST. LOUIS special: Cattle, \$2.75 to \$4.50; hogs, \$3.20 to \$4.25; sheep, \$2.75 to \$5.50; wheat, new, \$2.20 to \$2.40; old, \$1.75 to \$2.00; corn, \$2.20 to \$2.40; oats, \$1.75 to \$2.00; hay, \$1.50 to \$2.50; potatoes, \$1.00 to \$1.25; peas, \$1.20 to \$1.50; butter, \$1.00 to \$1.25; lard, \$1.00 to \$1.25.

Some of the victims were instantly killed; others were buried in the ruins where they slowly perished after the explosion; others were rescued after suffering horrible tortures only to die in hospital or on the way to it, while others still suffered injuries that will seriously affect them during life.

less with sorrow and horror. Several persons were seen slowly burning to death, but they were so weighted down with debris and encompassed by flame that no aid could be given them. Some of them begged piteously to be killed that they might not be forced to endure the torture of fire, while others, needing only the chopping off of a limb to be free, implored the firemen to cut off a leg or an arm.

Most of the victims were persons prominent in the affairs of the State. The total loss caused by the explosion and fire is \$75,000. The Gundry Hotel was worth about \$25,000 and had \$8,000

worth of furniture. It is a total wreck, but was insured for \$25,000. The McMann Block, which stands next to the Gundry, was also heavily damaged. It is owned by Colonel E. A. Bishop and was built in 1890. It is a four-story pressed brick and is occupied throughout by the A. Lillibald Furniture Company. The whole rear end of this block was ruined. The loss on the building is about \$25,000, as the building will have to be torn down. This block is insured for \$15,000. The stock of A. Lillibald, valued at \$30,000, is only partly lost.

FIRE IN MILWAUKEE.

Valuable Railroad and Steamboat Property Swept Away. Fire burned over a dozen blocks in Milwaukee Thursday and destroyed property worth \$282,000. It started on the river front at the Water street bridge and before it was stopped it had burned a swath from one to three blocks wide to Sixth street. A stiff breeze served to fan the flames and sent them traveling west over the yards of the Chicago, Milwaukee and St. Paul Railroad Company with startling rapidity, destroying in their path the freight warehouses of railroad and steamship companies, valuable freight in storage and railway cars.

For four hours all the fire apparatus, firemen and employees of the railroad company in the city fought the progress of the flames before they were under control. When the fighters finished work two companies of firemen were left to guard the

THE CROOK OF THE CENTURY.

An Unsurpassed Counterfeiter Captured at Last. It was very efficient work on the part of the New York secret service men who succeeded in breaking up a gang of counterfeiters, seizing their plant at Hoboken, N. J., and capturing the head, William E. Brockway. It was long known that counterfeit gold certificates for \$500 and \$100 were being issued, but it was not until the criminals, valuable plates were taken and Canadian notes, half printed, for \$200,000, together with fifty paper and many United States notes. The plant of such magnitude and so complete in every feature has been secured in secret service men for years.

Besides Brockway, who is regarded as the most expert counterfeiter in the country, and who is 73 years old, O. E. Bradford, Libbio and Sidney Smith and William E. Wagner were also taken. The others are comparatively little known, but Brockway has lived a life filled with deed of crime and adventure. In many respects he is one of the most notorious criminals of this class this country has produced. Only one crook overshadowed him in point of skillful work as a counterfeiter, and he was Tom Ballard, who, it was said, possessed a better formula for making paper for greenbacks than the Government. Only one man may be said to have been his peer as a forger, and he also bore the name of Brockway.

Brockway started on his career in New Haven about 1845. He was a Connecticut boy, and found employment as a printer. Later he learned engraving and became an expert. He made good wages and saved sufficient money to pay for a special course in electro-chemistry at Yale. This technical knowledge he applied to the production of electrotypes. From almost the day he left Yale his career as a counterfeiter and forger dates his first trick, so far as any record goes, was to take an impression in soft metal of a plate which two directors of a bank had brought into the shop in which he worked to have certificates struck from. Really his first important crime was committed soon after the war broke out. When the Government began to issue bonds Brockway thought he saw his opportunity. On the 730 bond his work was of such exceptional cleverness that \$90,000 of the issue got into the Government vaults before any suspicion was aroused. Brockway was arrested, but was permitted to go on surrendering the

LIST OF THE MISSIONARIES. Names of the Men and Women Who Are in Danger at Foo Chow. The riots at Foo Chow, reported in the latest dispatches, are much more serious than those in the interior and give the friends of the missionaries and missionary work more concern. Foo Chow is near the coast, and is a city of importance. A dispatch to the London Times from Hong Kong confirms the dispatch announcing the attack upon the American mission near Foo Chow and a dangerous state of the populace of that city. Foo Chow is an important station of the Methodist Episcopal church's missionary work. The mission was begun in 1847, and is now under the general supervision of Bishop Goodsell, as follows: following missionaries and their wives: N. J. Plumb, G. B. Smyth, M. Wilcox, W. H. Lacy, J. J. Gregory, M. D. J. H. Worley, W. N. Brewster, G. S. Miner, and Miss Sarah M. B. Swarth. There are also a number of women missionaries sent out by the Women's Foreign Missionary Society of the Methodist Church, who work in conjunction with the bishop and his aids. These missionaries are located in various towns and villages near Foo Chow, and of course, in case of such an uprising as reported, might be murdered before assistance could be sent to them or they could assemble at the American school, near the gates of Foo Chow.

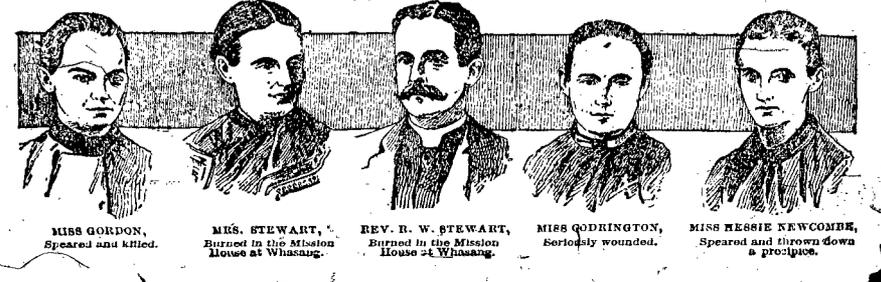

WILLIAM E. BROCKWAY.

INSANE ASYLUM HORRORS. Patients Permitted to Mangle and Maim Each Other. The investigation of the Cook County (Ill.) Commissioners into the management of the Dunning Insane Asylum began Tuesday. Thirty thousand words of testimony were taken at the first sitting. Toward the end of the day's sitting came a horrible story, that in detail was more barbarous than the story of the Puck murder. It was told by Dr. McGrew, resident physician of Dunning Asylum. It concerned a battle between two mad men, who had fought in the corridor of ward 2 while Anderson, accessory to the murder of Puck, was on watch. These two patients quarreled over some silly, childish difference. They came to blows. They tore at each other's faces and rolled about the floor. One of them, in the frenzy of a raving maniac, set his teeth into the face of the other. He bit off his nose and spat it out on the stone floor of the corridor. The maniac with whom this patient was battling sprang away from the floor, saw the flesh torn from his own face, stuffed it into his mouth and swallowed it. He said that would make it grow again, and Anderson, the attendant

plates. Brockway was arrested in 1880 for counterfeiting and forging \$1,000, 6 per cent. United States coupon bonds. Two crooks, Smith and Doyle, were also arrested at the same time for complicity. The finished bonds and plates were all seized. Brockway was sentenced for thirty years and Doyle for twelve. Brockway did not serve a day of this sentence. He managed to arrange a compromise with the Government. By consent of Judge Benedict the sentence was suspended on condition that other plates be surrendered. It was said at the time that, if he were again caught tampering with the United States securities, the sentence would stand. He was caught again, but for some reason best known to the authorities the sentence of thirty years was not enforced. Brockway was arrested this time in New York, in November, 1883, for forging Morris & Essex Railroad bonds. Two others were taken into custody at the same time. He pleaded guilty, and was sentenced to Sing Sing for five years by Recorder Smyth. He was discharged on Aug. 4, 1887. Since then he has gone free until just now.

The Finance Committee of the New York Board of Aldermen has prepared the report on the tax rate for the year fixing it at 1.92, an increase of 13 points over the rate last year. The total amount of money to be raised is \$38,476,000.

BEATRICE EXCITED.

ARRESTED FOR SELLING DUPLICATED CITY WARRANTS.

City Clerk and Water Commissioner Prove to Be Big Forgers—Unknown Man Meets Death While Attempting to Rob a House at Murdock.

Wholesale Forger at Beatrice. Beatrice is in a state of great excitement occasioned by the arrest of City Clerk J. T. Phillips and Water Commissioner George Hawkins upon the charge of obtaining duplicate city warrants.

The worst fears of those engaged in unearthing the sensation were realized when Mayor Grable, after examining the duplicated warrants, pronounced his signature to them to be absolute forgeries. Two hours later the discovery was made that City Clerk Phillips had fled from the city. Hawkins, the water commissioner, was re-arrested at home and gave a new bond after considerable trouble and also gave a bond for being arrested on the additional charge of forgery.

At a meeting of the city council a report was read from the special committee appointed to investigate the records of the city clerk and water commissioner, recommending that in view of the confused condition of the records that an expert be employed to investigate them, going back over the books as far as 1894. Excitement over the arrest of the clerk and commissioner has abated somewhat, but there is an earnest demand on the part of all honest citizens that the affair be thoroughly investigated and that no guilty man be allowed to escape.

KILLS A BURGLAR.

Unknown Man Meets Death While Attempting to Rob a House.

At Murdock H. V. McDonald shot and killed a burglar at his residence in the northeast part of town. McDonald was aroused from his sleep about half past two in the morning by a man at the screen window, and asked him what he wanted, receiving no reply. Without getting out of bed McDonald reached for his revolver and fired, thinking he had frightened his intruder away. He lay in bed again and went to sleep. Mrs. McDonald discovered a man lying in the yard in the morning. She at once notified her husband who gave himself up to the authorities. The justice of the peace accompanied him back home and found a man lying on his face about thirty feet east of the window where he shot.

On examination it was found the bullet had entered the man's right side under the arm, cutting the flesh of the arm near the shoulder and passing through the chest.

A search of his clothing was made and \$35 in bills, some small change, a candle, box of matches, scissors, newspapers, pocket knife and a gold-tipped hair watch chain were found, but no trace from which to identify him. The coroner's jury held and inquest and brought in a verdict finding that the man was killed by a gun shot wound, supposed to have been fired by H. V. McDonald, while attempting to enter McDonald's house. They further found McDonald justified in shooting.

The man looked to be about 40 years old, five feet six inches tall and weighs about 150 pounds; dark hair streaked with gray, short, sandy moustache; wore a black coat, white and black striped pants and rubber-soled shoes. It is supposed that he is the ringleader of a gang of thieves that has been infesting the country for the past two months, taking in Ashland and Greenwood. Two men from Ashland claim that the hair chain found on the body belongs to a man in that town.

HALTED BY ROBBERS.

Union Pacific Atlantic Express Held Up Near North Platte.

About one o'clock a morning or two ago, the east-bound Atlantic express on the Union Pacific was held up at Butterfield Hill, about two miles east of Brady Island, where the sand hills terminate at the Union Pacific track. The express car was damaged by dynamite and \$100 taken from safe. Two men boarded the train at Brady, going forward on the tender after the train was in motion, and with revolvers drawn they held up the fireman and engineer, compelling the latter to go back to the baggage car and let them in. Upon getting into the car the expressman was compelled to open the smaller safe. He could not open the larger one, and the robbers proceeded to blow the top of it out with dynamite. In the meantime the fireman had uncoupled the engine from the train and made the run to Gothenburg to secure a posse of men. In short time twenty men were enroute to the scene of the robbery, but before they arrived the men had disappeared.

When the dynamite exploded the passengers were considerably excited, but were not molested.

The section foreman at Vroman has seen around the place of the robbery for several days and has a good description of them.

Superintendent W. L. Parke and Sheriff Miller of North Platte went to the scene of the robbery in a special car, with a posse of men. Early in the morning men were sent out from North Platte and Brady and every effort is being made to capture the robbers before they get out of the country.

SILVER DEMOCRATS.

Name a Ticket and Adopt a Platform at Omaha.

If any effort was made to conciliate any warring element in the ranks of Nebraska Democrats it was not in evidence in the State Democratic Convention at Omaha. Prior to the session there was some talk about the silver and gold wings of the party combining, but if such a plan was adopted it was not in evidence at the convention. From 2 o'clock, when Chairman Ath convened the body, until 11 o'clock the curtain went down in the hall, or was the only apparent financial item before the convention, but it was really a convention of the advocates of white metal in the party. The other will ignore this meeting and will meet at Lincoln September 5.

Howard was made permanent in, without opposition, and the following nominations were made by acclamation: Supreme Court Judge—E. J. Phelps. Regents of State University—Dr. H. S. Blackburn and J. K. Kettle.

TREAKS OFF FREE WOOL.

A MANUFACTURER PREDICTS THE CLOSING OF FACTORIES.

Report from England that Indicates His Astuteness—British Goods Sold Here Below the Cost of Stock—Large Increase in Foreign Exports.

Labor Bears the Loss. As an illustration of the manner in which American woolen manufacturers are faring with free wool, says the American Economist, we have been advised by a manufacturer at Franklin, Mass., that "had I thought Grover would have allowed such a bill (the Gorman tariff) to become a law, I would have stopped and retired. There is nothing in the business to-day for a worsted maker."

This manufacturer was in receipt, July 22, of a letter from Bradford, accompanied by samples of serge and fancy worsteds. The serge is sold in grease from the loom by the manufacturer at 28 cents per yard. It is woven, buried and sewn and ready to dye. It is 64 inches wide. The American manufacturer cannot buy yarn, or stock, necessary to make similar goods and place it in his loom at the same price, 28 cents per yard, at which the Bradford serge is sold, the stock alone costing here 35 cents; yet the Bradford manufacturer can buy his yarn, weave it, sell it at 28 cents per yard and figure out a profit. The same is the case with fancy worsteds, selling at 51 cents by the Bradford maker.

As we have free wool and the English manufacturers have free wool, the mills in both countries can start upon nearly the same footing as far as their raw material is concerned. What, then, is the difference? It is, as was clearly shown in the Economist of last week, in the labor of spinning and manufacturing, which in weaving is 112 per cent higher in the United States than in Bradford.

This simply confirms the argument of protectionists that the bulk of the cost, in this case, fully 90 per cent, of a manufactured article is the labor employed in making it. Free wool affords no protection to American labor in the woolen mills.

Our Franklin correspondent states that one importing house has sold for a Bradford firm, this season, to the extent of 10,000 pieces of fine worsted cloth at \$1 per yard, and he anticipates that "in less than eighteen months there will be more machinery stopped than in 1833, unless the tariff is advanced."

Confirming this opinion of the manufacturer at Franklin, we append, without any comment, a letter received from a correspondent at Bradford, England, dated Bradford, July 13, 1895.

The great manufacturing districts of Yorkshire, but more especially Bradford, are full steam ahead. Work is plentiful, competition is keen, wages low. That may seem to be a paradox to some readers of the Economist, but it nevertheless is so and must continue. On every hand our merchant princes and the press claim, as one of our leading daily papers said last week, that one manufacturer has taken your market by storm. Whether that be so or not I will leave your readers to settle, but it does appear to me that when I consider the amount of exports that are leaving these shores destined to your market, the English operators must be receiving a fair share of patronage, which patronage your own operators and employed have a just right to demand. The few returns which I have hurriedly gathered and put together, showing what we sent across to your side in June only, is indeed a splendid object lesson to all true-hearted Americans. It should promote thought and reflection in all those who have the power to think, and especially among your own responsible parties. The following are the increased shipments when compared with the corresponding month of June, 1894:

Table with 4 columns: Location, 1895, 1894, Increase. Locations include Glasgow, Sheffield, Leeds, Manchester, and a Total.

The exports from Bradford alone during the half year reached £2,169,245 12s. 3d. more than during the same period in 1894. Further remarks just now are needless. Consider these figures soberly and rationally. My sketch speaks loudly the fact that foreign imports are rapidly rising. How long is this to continue? YANKEE.

Failures and Liabilities.

With about \$55,000 manufacturing concern in the country, the failures for the first half of 1895 were 1,254, or 3.5 in every thousand. In 1894, or substantially the same number of concerns, the failures in the first half were 1,501, or about 4.2 in every thousand. But with about 838,000 traders the ratio of failures was 6.4 per thousand in both half years. The risk of failure, the death rate, so to speak, is nearly twice as great in trading as in manufacturing. But when magnitude of liabilities of firms failing as defaults,

It should promote thought and reflection in all those who have the power to think, and especially among your own responsible parties. The following are the increased shipments when compared with the corresponding month of June, 1894:

Table with 4 columns: Location, 1895, 1894, Increase. Locations include Glasgow, Sheffield, Leeds, Manchester, and a Total.

The exports from Bradford alone during the half year reached £2,169,245 12s. 3d. more than during the same period in 1894. Further remarks just now are needless. Consider these figures soberly and rationally. My sketch speaks loudly the fact that foreign imports are rapidly rising. How long is this to continue? YANKEE.

Failures and Liabilities.

With about \$55,000 manufacturing concern in the country, the failures for the first half of 1895 were 1,254, or 3.5 in every thousand. In 1894, or substantially the same number of concerns, the failures in the first half were 1,501, or about 4.2 in every thousand. But with about 838,000 traders the ratio of failures was 6.4 per thousand in both half years. The risk of failure, the death rate, so to speak, is nearly twice as great in trading as in manufacturing. But when magnitude of liabilities of firms failing as defaults,

AS SUMMER GOES.

Now summer all her golden treasures lays.

Before us, smiling that her work is done. And as we take the gift—Jo, she is gone! Withdrawing from us with her harvest days, Nor stops to hear our gratitude and praise. And when I see her go, then I entreat That it may be with me when I complete The task Life sets, and vanish in the haze. So; let there be no parting at the last, But take the harvest, be it large or small Assured, oh, friend, that it is my great all, And let me join the summers of the past As peacefully as drops the harvest moon Adown the sky lulled by the west wind's tone. —Womankind.

Where Labor Is Idle.

We have in our town a good large number of laboring people who are without employment fully one-half, and possibly two-thirds, the year. They are mostly women and children and quite a number of men. I employ 50 to 150 hands of the class in my fruit business for a few weeks or months each season. I am anxious to find employment for them for the most of the year. Can you suggest something that we can make that will use this labor? It is not skilled labor and can be obtained at low figures. I have means to engage in any work of moderate proportions, but do not care to engage in an extensive work or to use much, if any, machinery. I prefer to employ this labor at piece work, letting each earn in proportion to the work done. It is only raw labor, but willing and anxious to work. We are located on Mo. River and C. B. & Q. Railroad. WM. H. THOMAS. La Grange, Mo.

We gladly publish the foregoing letter and trust that some of our readers may be enabled to suggest to Mr. Thomas how the idle labor of which he speaks can be employed to the best advantage of all interested. There is a great deal of this class of labor throughout the country for which employment can only be found at certain periods of the year, such as at fruit picking time. If farmers were to grow sugar beets, and sugar factories were generally established throughout the country, this labor would, later in the season, find employment in thinning and weeding the young beet plants. We have been assured by a gentleman of experience that no State in the Union has soil, in one locality at least, that is better adapted for the successful cultivation of sugar beets than the State of Missouri.

Time to Begin Business.

Business men ought to take a greater interest in politics. The reason is obvious; political parties affect the business of the country—especially tariff and currency legislation. The experience of the past few years has certainly taught the country that its best interests are best served by serving ourselves. Tariff legislation that has contributed to the promotion of our own business interests, agricultural and manufacturing, has invariably advanced the welfare and prosperity of the American people as individuals and as a whole. On the other hand, tariff legislation that has been enacted with the direct purpose of promoting prosperity among manufacturing producing interests of other countries, has very naturally served to depress our American interests. This fact should urge business men to give more attention to legislation. The late Congress afforded a depressing example of detrimental legislation, and that Congress was sadly lacking in business experience. But a small number of its members were business men who understood business affairs or appreciated business methods. It is not wise to leave in the hands of such men the national legislation in which the prosperity of the people in America is at stake. Our experience has taught us that it is the business men of the country, as a rule, who are standing by its best interests; hence, a large number of business men should be in Congress to hold shape legislation.—Burlington Hawkeye.

Home Industries Protected.

The Manufacturers and Producers' Association secured two great victories that entitle them to the thanks of every loyal Californian. The committee on pigworks of the Fourth of July celebration were released from their contract with an agent of an Eastern firm, and the order given to the California Fireworks Company. The Police Commissioners, after examining the sample of cloth offered for their inspection by the Golden Gate Woolen Mill Company, gave an order for 100 police uniforms, and Police Commissioner Alvord, struck with the magnificent appearance and unobtrusive quality of the cloth, gave instructions to his tailor to make him an overcoat out of the material. This is a record for one day that the association may well feel proud of. The Golden Gate Woolen Mill Company are to furnish the cloth at \$5.50 per yard. The police have formerly been paying \$7.25 per yard for a foreign cloth of poorer quality than the home manufactured article. The Police Commissioners instructed the representatives of the mills to put on a large extra force of men if need be, to have the cloth ready in time.—Journal of Commerce, San Francisco, Cal.

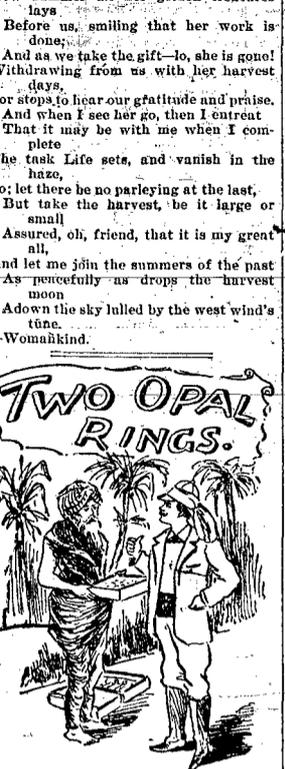

Free Trade in Eggs.

Free eggs are of great assistance to the British farmers. The imports of eggs into the United Kingdom during 1894 were worth \$18,426,118. With a protective tariff upon eggs most of this money would have been retained in the British Isles instead of being sent to France, Germany, Belgium, Denmark and Russia.

The Same Old Issue.

There will be no new issue until a Republican protective tariff has taken the place of this Democratic tariff of debt and destruction. There will be no new issue until American industry stands where it stood in 1892 and American wages have been restored to the high standard that then prevailed.—The Press, New York.

TWO OPAL RINGS.

CHARLIE CLIFTON, of the Panhandle Cavalry, had bought two opal rings of a wandering peddler.

What did he care about the superstition regarding the stones? His fellow-officer, Alonby, was only laughed at for warning him against the purchase. Clifton rode off with the rings, while his friend strolled over to where the peddler was tying up his pack. "See here," he said, "here's a rupee for you. Now tell me about those rings. The sahib has bought them, and you can tell me the truth now." "Master promise not to tell the other sahib, and I will tell him," replied the old man. Alonby gave the required promise. "Those jewels very unlucky jewels," began the ancient vender. "They making very bad luck to different peoples. First sahib who bought them was Maharajah of Karospor. The sahib knows what happened to him. Then Fortescue, sahib at Roitbad, bought them. That poor gentleman killed out riding very next day. After Roitbad merchant buying those jewels, and his house burnt down next week. Then all the people saying: 'These very bad jewels,' and all very much afraid to buy them. That merchant wanting to sell them to me; but I too much afraid to buy. Then another man told me—those jewels only bad for three people. You buy and then sell them, and next purchaser will have good luck. That's all, sahib. I tell sahib whole truth. The sahib who has bought those jewels will have good luck, if God wills." The old man took his departure and Alonby continued to muse over his queer story. After all he thought, it may simply have been a coincidence that those three people should have come to grief. Anyhow, I hope old Clifton won't have bad luck. Meanwhile the subject of Alonby's thoughts had reined in in front of a pretty little bungalow half way up the Kharpur Hill, where most of the residents of the station had their bungalows, and where what breeze there was in the place could be enjoyed by the jaded plain dwellers. At the sound of his horse's hoofs a young girl who had been reclining at ease on a deck chair in the veranda hastily rose. Nettie Vernon was a pretty sight that afternoon, with her golden hair and the English roses still in her cheeks. So thought Clifton, and he thought, too, what a lucky fellow he was to have won her. "Why, Sir Officer," said the young lady, with the light of laughter in her eyes and its dimples in her cheeks, "what brings you here so early this afternoon? Have you been promoted? Are you ordered to the frontier to fight the Russians, or what? Do tell he, and don't—oh! don't look so serious." The young officer looked down at the bewitching upturned face, and then— "Did you come all this way to do that?" asked Miss Vernon with mock reproach. "Oh, how foolish and hot-headed the young men of the present day are. Now, when I was young—oh! The sentence was not finished. "Look here, Nettie," said her lover, "what do you think of this ring? That's what brought me here. Isn't it a beautiful opal? And the most beautiful girl in Pangal shall wear it if she likes." "Oh, Charlie, what a dear you are!" cried the young lady, in delight, "but aren't opals dreadfully unlucky?" "There you go," said the discomfited lover, "you are as bad as Alonby, who has been cooing on the subject like Edgar Allen Poe's 'Raven.'"

When Irving Was Hissed.

Sir Henry Irving recently told the following story about his early experience: "In my early days I accepted a stock engagement at a provincial theater, and did not know until I got there that I had been put into the place of an actor who was really very popular. He had not left, I believe, on altogether good terms with the management; so the audience vented their spleen upon his successor. I was that unfortunate person, and for a whole week or more I was hissed every night; not for my bad acting, but out of love for my predecessor. I remember how every night I walked to my rooms, some two miles out of town, very wretched, and walked in again the next night no less miserable. To this day I never pass the place by railway without a shudder."

Cobwebs.

Since Annie has been big enough to take care of her own room, she has had a rage for neatness and orderliness very encouraging to see. Not long ago she said to her mother:

"May Bridget brush down that horrid cobweb in the corner over my bookcase?"

"Yes," said her mother. "But don't call it 'horrid.' It's only because it's in the wrong place. In itself, it's very beautiful."

"Oh, I don't see how any one could think a cobweb beautiful!" said the fastidious maiden, with a shrug. "Except, perhaps, the cob.""

"And why not? If a spider's web is built by a spider, why shouldn't a cobweb have been spun by a cob?"

Bicycles as Revenue Producers.

An ingenious idea has been hit upon by the president of a Canadian railway for creating travel on the company's cars. Along the railroad, running some distance out of the city, the company has allowed bicyclists to construct a cinder path, for their own convenience, as well as giving the company better ballasting on the road. The only revenue the company expects to derive from the path is from the fares of the wives and families of the riders who take the cars to watch the wheelmen practice. As the riders of the wheel in Toronto number about 10,000, the enterprise of the railway company is likely to be well rewarded.

Magnificent.

I will be in my office at the court house every Monday and Saturday. Examinations this morning of every month and the Friday preceding. CHARLOTTE M. WATZ, County Superintendent.

ANNOUNCEMENTS.
I hereby announce myself as a candidate for County Judge, subject to the endorsement of the republican county convention. Very Respectfully, PETER MEARS.

The Omaha Bee is being dubbed No. 15.

Wayne county politics are slowly warming up.

Judge Norval will succeed himself to the Supreme bench.

Some people may think the tariff is a dead issue, but wait and see!

Get your candidate ready. Only about thirty days for preparation.

The Ohio campaign promises to be an unusually interesting one this fall.

The World's product of wheat for 1895 is 232,000,000 bushels less than in 1894.

How small and insignificant Bryan's democratic delegation from Nebraska will look in the next democratic national convention.

The "Syndicate" made a big contract when it agreed to keep the Cleveland administration gold reserve above the \$100,000,000 notch.

Uncle Sam informed France that she must come to time in the Waller matter and she came. The affair promises to be amicably adjusted.

The price of wheat and farm products does not go up—the Wilson-Gorman tariff bill and democracy to the contrary notwithstanding.

If Judge Maxwell is foolish enough to accept the pop nomination for Judge—well, he will be the worst defeated candidate the pops ever put up.

Wayne county's crops will take the lead of any county in the state this year, and if all reports are confirmed, that of any other state for that matter.

The Forum does not take kindly to the Herald's remarks concerning the late populist convention. Oh, well, we apologize for having referred to anything so dead.

The Nebraska Silver Democratic convention at Omaha Saturday nominated E. J. Phillips for Supreme Judge and Dr. H. S. Blackburn and J. J. Kittle for Regents of the University.

The Cotton States and Inter-National Exposition at Atlanta, Georgia, beginning September 18th, and continuing until December 31st, bids fair to almost equal the World's Fair.

The Ohio republicans have work on their hands this year. The democratic party will have charge of Calvin S. Brice's barrel, and "money makes the mare go" is a quotation applicable to the circumstances.

An attempt was made on the life of the great financier of France, Baron de Rothschild Saturday, at which time his confidential secretary was disfigured for life by an infernal machine in a large envelope which exploded while he was opening it.

Judge Norris secured the Dixon county judicial delegation at the county convention held at Emerson last Thursday. The judicial contest in the eighth district has narrowed down to Judge Norris and C. C. McNish, of Wisner, with the chances about equal for the nomination.

The best office from a judicial standpoint is Clerk of the District Court of Douglas county, and the leading democratic candidate for that office is David C. Patterson, who for nine years was a resident of Wayne county, as school teacher, county superintendent, lawyer and banker. He displayed more than usual ability. His integrity has always been of the highest order. He will if nominated poll a large vote, as he has been one of Omaha's most active citizens.

By hard work and clever bookkeeping the government folks hope to show for August a deficiency of not more than \$5,000,000. The deficit is more than that already, and it will be necessary to keep a whole army of employes and contractors out of their pay to hold the total down to \$5,000,000. The administration is pretty clever in juggling the books, however, and may be able to do it.—State Journal.

Free-Trade Financing.

There have been already three bond sales under the Cleveland Administration, amounting to over \$100,000,000, ranging from nine and a half years to thirty years in length of time, when they will fall due, and bearing interest at 4 and 5 per cent.

The charge thus saddled upon the country by taking away the duties on imports which would have made the bond sales unnecessary makes the following startling aggregate:

Principal.	Total Interest.
\$50,000,000 at 5 per cent, 10 years.	\$25,000,000
50,000,000 at 5 per cent, 20 years.	50,000,000
50,000,000 at 4 per cent, 30 years.	117,500,000
\$150,000,000	\$132,500,000

This makes a total of principal and interest of \$282,500,000, representing less than three years of democratic meddling with the finances of the country, and immediately following an administration under which the national debt was being steadily reduced, the national reserve fund augmented and unprecedented prosperity prevailing throughout the land.—The Irish World.

Ideas differ in writing of the coming woman. It is a thing every newspaperman has given considerable thought, especially the young journalist who has never had the blessings and impressive impulses of woman entwined about him. That the coming woman has arrived goes without saying. She is here. We met her on a recent trip through the territory, and we want to say the visions that some of the four-eyed dude writers of the eastern press have conjured up are wholly at variance with the woman in fact. She is one of the most many women we have ever met and is certainly a century ahead of time. Her adornments were simple yet striking, and consisted of two modest six-shooters of only 44-calibre. She had a manly frankness about her that was touching. We felt it—the frankness—and moved about three seats nearer the coach door. She believed that men ought to be colonized and sent to Liberia; that they were incapable of self government; that they were weak creatures and easily led astray; they were too immodest in their dress and in fact were too costly appendages to that greatest of all God's creations—the "coming woman." The costume worn by this interesting creature was a dream. Her trousers were very full in the region of the pistol pockets, bagged slightly at the knees and the upper portion of her attire was a cross between a base ball sweater and a Mother Hubbard on dress parade. This was cut decolette at the south end and adorned with a bunch of yellow and green ribbon at the eastern apex; the whole, that is, the costume, forming a perfect dream in dress for the coming woman.—Ex.

My little boy, when two years of age, was taken very sick with bloody flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and luckily procured part of a bottle. I carefully read the directions and gave it accordingly. He was very low but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the remedy half its worth. I am sorry every one in the world does not know how good it is. I do.—Mrs. Lina S. Now that we have a plenty on all our farms it is the part of prudence to hoard a greater portion than formerly. Hand to mouth living should have an end.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages, this remedy however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. What Women Should Know.

Every woman ought to know that there is an institution in this country where diseases peculiar to their sex have, for nearly thirty years, been made a specialty by several of the physicians connected therewith.

Dr. Pierce and his staff of skilled specialists, forming the faculty of the above institution, are at all times ready to reply to letters from women suffering from obstinate, complicated, or long neglected diseases and "weaknesses," and can be addressed, or consulted at the institution, free of charge.

When Dr. Pierce published the first edition of his work, The People's Common-Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS., Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it.

If the stomach is foul or bilious it will cause squameous feelings at first.

No change of diet is necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime. Sold by all Druggists.
