HILL ON THE CUBAN WAR.

New York Senator Makes a Strong Speech in the Senate.

Senators Sherman and Hill were the conspicuous figures in the Cuban debate in the Senate Thursday, the New York Senator forcibly urging the mercenary character of the pending resolutions, while Mr. Sherman upheld them with another graphic arraignment of Spain and Gen. Weyler.

After an hour was consumed in clearing away routine matters, the Cuban resolutions were laid before the Senate, and Mr. Hill of New York was recognized.

He pointed out that this being a conference report the resolutions could not be amended. He would therefore, vote against the report in order that at subsequent time amendments might be made.

The Senator particularly objected to the third clause of the resolutions, stating that the United States has not intervened in the struggles between any European governments and their colonies, but that, owing to the proximity of Cuba, the United States should be prepared to intervene.

He had intervened in such controversies. We had intervened and recognized the countries which had been colonies of Spain.

What the resolution sought to convey was a threat to intervene. This extension of the resolution was unnecessary, and is a mischief breeder.

Mr. Hill asked what these "legitimate" interests referred to were. Were there any "illegitimate interests"? This was not a proposition to intervene in the cause of humanity or to aid in the cause of freedom or to stop bloodshed, but to "protect our legitimate interests."

NEW YORK'S LIQUOR LAW.

Puts the Entire Liquor Traffic Under State Control.

Behind locked doors the New York Assembly voted on the Raines excise bill Thursday, and before adjournment it passed by a vote of 84 yeas to 59 nays.

The Raines liquor bill is a measure to put the entire liquor traffic and interests under State control. It abolishes all local excise boards and creates a State commissioner at a salary of \$5,000, a deputy at \$4,000, three inspectors at \$4,000, \$3,000 and \$2,000, and sixty inspectors-at-large at \$1,200 each and expenses.

The commissioner's bureau is located at Albany. The bill raises the license rates in New York city to \$800, in Brooklyn to \$650, and in smaller cities to \$500.

Under the Raines bill all night licenses and the sale of liquor on Sundays are prohibited except in hotels with meals. This prohibition extends to clubs. It fixes a fine for a violation of the law at not less than twice the amount of the license.

The bill gives one-third of the net revenue collected to the State and two-thirds to the county. Under the present law the entire tax goes to the county or State.

E. H. Sellers, president of the National Council of Patriotic Associations of the United States, issued an address at Detroit protesting against the receiving by the Government of the statue of Pere Marquette, which has been unveiled in the national capitol.

The grand jury of Kay County, Ok., besides returning indictments against county commissioners, have now indicted Dan B. Lawhead, register of deeds, and Virgil H. Brown, probate judge, charging them with malfeasance in office and drunkenness.

MILITIA ON GUARD.

KENTUCKY'S CAPITOL SURROUNDED BY SOLDIERS.

Marital Law Declared in the Capital City of Kentucky-Riot Alarm Is Sound by the Ringing of Bells-Excitement Runs High.

To Protect Legislators. In Frankfort, Ky., the riot bell rang from the fire engine houses at 11 o'clock Sunday night, and at the same moment Gov. Bradley ordered out the militia.

Ten minutes later the McCree guard, fifty strong, Capt. Noel Gaines, were in possession of the State House, and martial law was proclaimed. Until that time Gov. Bradley had persistently refused to call out the militia, though urged to do so by the citizens irrespective of party.

The Blackburn leaders, he was informed, had been preparing all day to take forcible possession of the State House. Threats were made that the Senate would arrest the Governor for usurpation of authority in giving the instructions he gave to the sheriff of Franklin County to clear the corridors and cloak-rooms.

All trains brought reinforcements for the men bent on mischief. It was only SENATOR WALTON, at the last moment, [Expelled.] when the presence of these crowds presented serious danger, that the Governor yielded to repeated requests of orderly citizens of both parties and called out the militia.

Sergeant-at-Arms Somers had sworn in Jack Chinn, Jim Williams, Eph Lillard and other alleged desperate men as his deputies. It was also reported by numerous affidavits that armed men had been collected in the capitol for two or three days with a view of taking charge of the joint assembly Monday.

from Lexington and the Louisville Monday morning, Gen. Collier in command. State House Under Guard. Guards surround the State House and permit no one but State officers, Senators, Representatives and others having a constitutional right to pass.

Senator Bronston came into the Governor's office and asked why he was debarred from the State House, who was the peace officer of the State, and why the militia had been ordered out. He then told the Governor he could see affidavits that would be filed in the Senate Monday.

The House passed the postoffice appropriation bill on the 11th which has been under consideration since last Friday. The feature of the debate was the attack on the "spy system" in connection with letter carriers.

The Cuban debate in the Senate has advanced to the stage of one of the greatest debates of the present session. The speech of Senator Hoar on the 11th was another eventful feature of the discussion.

In the House on the 12th on motion of Mr. Johnson of Indiana, a resolution was adopted by which the great statesman of the country, whose name would go down in history along with that of Lincoln, Grant, Seward, Fish and his illustrious brother, and he sought the Ohio Senator not to obliterate this brilliant record by hasty and unguarded action on the Cuban question.

Both Sides. Mrs. Savage was a woman greatly liked and respected in the neighborhood in which she lived, and her even disposition was often praised by her neighbors.

The excitement of the Cuban debate gave way in the Senate on the 13th to Senator Cockrell's elaborate speech occupying four hours on the financial question. Sharing a trouble doubles it. Conscience should lead, not drive. Time is money only when you spend it. Time is a healer that either cures or kills. A mistake avoided is better than two corrected.

Democracy Will Get There. The old legend, "Pike's Peak or bust," which used to adorn the canvas covers of emigrant wagons in the old days, has been succeeded by various signs appropriate to the changed and changing location of the boomers' paradise.

Reduce the tariff and labor is the first to suffer.—Hon. Wm. McKinley.

One Barrel of Onions

LABOR'S EARNEST LESSON.

Last year the Democratic gift of free raw material to woolen manufacturers more than doubled our imports of foreign woolen goods, as compared with the average value of similar imports during the four years of McKinley protection.

But the loss to our wage earners has been more than this, and for several reasons. In the first place the imports of last year's woolen goods, so called, very largely consisted of the cheapest quality of stuffs, in which rags, mungo and shoddy formed the bulk of the component parts.

As the value of labor is so much less in Europe than here, a better grade of goods than we imported so largely in 1895 could undersell American goods of similar quality if existing tariff conditions were continued.

As the value of labor in most American industries represents more than half the cost of the finished article, the estimated loss to labor is greater than we have stated in the case of last year's woolen imports.

The acknowledgment might it will be made that the real cause of business and industrial distress is in the absence of money among the people who consume the products of the farm and the factory.

Why Wool Won't Sell. Last year we bought nearly five times as much shoddy as in 1894. We paid for it more than five times as much money.

Chance for Reciprocity. Now that the people have come to the assistance of the Administration it would be well for the Administration to do what it can to help the people whose industries it has paralyzed by its incompetency.—The Press, New York.

At War. Reduce the tariff and labor is the first to suffer.—Hon. Wm. McKinley.

Senator Warren's Summary.

In 1894, under Republican policy, our sheep were 60,028,620 in numbers and of the value of \$119,902,706. Under influences of the threatened Mills bill they shrank to 42,599,079 in numbers and to the value of \$20,262,337.

From the lowest point recorded under the Mills bill freight up to 1893, under Republican guardianship, sheep increased to 47,273,353 in numbers and to the value of \$125,909,264.

But again upon Mr. Cleveland's second election we turn backward and downward as usual under the blighting, withering influence of a wrong policy, and in two years sheep decreased to 42,294,064 head, of the value of \$59,223,497.

A shrinkage in two short years of nearly one-half!—Speech of Hon. Francis E. Warren, U. S. S., of Wyoming.

Results of "Cheapness." How the poor man with his "cheap" overcoat must curse the shoddy Democratic tariff during these wintry days of snow and sleet, as he thinks of the good McKinley protection times when his labor was in demand and he could afford to buy a good warm overcoat that the wind didn't whistle through, and which didn't rot and tumble to pieces when exposed to a few blasts from the Arctic.

A Sugar Trust Prophecy. John E. Searies, Jr., Secretary of the American Sugar Refineries Company, said: "I do not think any party would dare to do anything that would materially disturb the prosperity of the country."

While Mr. Searies did not estimate the depth of degradation of the Democratic party, to those campaign funds

US-GOVERNMENT

his sugar trust contributed liberally in New York State, yet he was a true prophet. The party that did attempt to "disturb the prosperity of the country" has "come to grief."

Cause and Effect. Mr. Cleveland is unable to judge between what is "cause" and what is "effect." The greenbacks are not the cause why our gold reserve is steadily falling. If they were all called in to-morrow, gold would continue to be exported, if the balance of trade continued to be against us.—John C. Freund.

Chance for Reciprocity. Now that the people have come to the assistance of the Administration it would be well for the Administration to do what it can to help the people whose industries it has paralyzed by its incompetency.—The Press, New York.

At War. Reduce the tariff and labor is the first to suffer.—Hon. Wm. McKinley.

Nearly three million dollars of gold sent abroad to pay for rags and shoddy picked up from God knows what European gutters and dumping grounds and sent here to clothe American workmen!—New York Commercial Advertiser.

But the loss to our wage earners has been more than this, and for several reasons. In the first place the imports of last year's woolen goods, so called, very largely consisted of the cheapest quality of stuffs, in which rags, mungo and shoddy formed the bulk of the component parts.

Hence the increase in value does not fairly represent the increased quantity of goods imported, which was greater than the value indicates. Another reason is that when the purchaser of these cheap goods begins to complain of their bad wearing qualities, he is informed that they were American goods, and that he had better buy foreign clothing hereafter.

This tends to check a subsequent demand for the produce of our own mills, and thus it checks their output and again the demand for American labor.

As the value of labor is so much less in Europe than here, a better grade of goods than we imported so largely in 1895 could undersell American goods of similar quality if existing tariff conditions were continued.

As the value of labor in most American industries represents more than half the cost of the finished article, the estimated loss to labor is greater than we have stated in the case of last year's woolen imports.

Labor in every industry would be affected, in precisely the same ratio as labor in the woolen mills, if the tariff in all industries were on the basis of the woolen schedule of the Wilson bill.

Hence it is the duty of labor to reflect, not only upon its actual position of today, but upon the possibilities of its future conditions, should the free raw material craze be, by any possibility, extended to every American industry.

Labor has had its lesson. Labor knows the remedy—to vote, at every opportunity, against every candidate for Congress who favors free trade.

No Power to Buy. The acknowledgment might it will be made that the real cause of business and industrial distress is in the absence of money among the people who consume the products of the farm and the factory.

Why Wool Won't Sell. Last year we bought nearly five times as much shoddy as in 1894. We paid for it more than five times as much money. The foreign rag merchant knew that English goods would swamp our markets and that our factories must use more shoddy or "shut up," yet they marked up the price of their rags and shoddy.

Chance for Reciprocity. Now that the people have come to the assistance of the Administration it would be well for the Administration to do what it can to help the people whose industries it has paralyzed by its incompetency.—The Press, New York.

At War. Reduce the tariff and labor is the first to suffer.—Hon. Wm. McKinley.

McKinley for President.
The Inter Ocean's portrait gallery of
presidential candidates is attracting
considerable attention.
Auditor Eugene Moore is gradually
forging to the front in the race for
Governor. Let the good work go on.
A large amount of Senator Thurston's
Americanism is on the way to Ohio from
this state and it will reach there about
April 15th.
The republican majority next fall will
be something to remember for the
next twenty years. It will take some
time to count it.
Ex-Senator Manderson says he is for
McKinley. Good! If McKinley don't
secure the nomination, the McKinley
delegates from Nebraska can throw
their votes to Mr. Manderson.
Frank M. Northrop is making friends
these days and the people will look
well over the district before they find
an abler man for the position. Frank
stands a good show of capturing the
prize.
A staunch democrat said to a HERALD
representative last Friday that if Mc-
Kinley was nominated the great Ohioan
would sweep the country, but that
democrats would endeavor to defeat
his nomination (or words to that effect).
The people will nominate the man this
time and his name is Wm. McKinley
Jr., of Ohio. To every man in Wayne
county who is tired of the present state
of things we urge you to work for Mc-
Kinley.
Hon. C. C. McNish, that true, tried
and staunch republican of Wisner, who
has been chairman of the congressional
committee of the third district during
the last two congressional campaigns,
and whose superb management resulted
in success, is a candidate before the re-
publicans of the state for the office of
State Treasurer. It is unnecessary to
speak of his qualifications for the po-
sition; they are well known. The race
between Mr. McNish and Geo. Brooks
of Knox county, will be interesting as
both are great workers.

What Free-Traders Have Done.
We have nothing politically in com-
mon with men who support a party
whose imbecility has put the nation in
debt over \$170,000 every day since its
un-American policy was inaugurated;
we are truly the political enemy of all
men who believe in the policy of a party
that has filled the land with want
and destitution, established the soup
house as its only industry, and the
sound of the sheriff's hammer as its
greatest enterprise; we are unalterably
opposed to this party whose stupid
policy has caused the rejection of our
products in the South American mar-
kets, reducing the exportation of flour
two million barrels in a single year;
reducing the exportation of barley
three million bushels from 1894 to 1895;
reducing the exportation of corn nearly
forty million bushels in a year; reduc-
ing the exportation of butter six mil-
lion pounds from the end of the fiscal
year in 1894 to the end of the fiscal
year in 1895; reducing the exportation
of cheese, fourteen million pounds
from June, 1894, to June, 1895; increas-
ing the importation of eggs over a
million dozen in eight months; increas-
ing the importation of hay from 25,420
tons to 139,159 tons the first eight
months the amended Wilson "Tariff
Reform" bill was in operation. We
love our native land too dearly to
stand for such principles.—Lewisburg,
Pa., News, October 5th, 1895.

But what has to have been \$1.25,
but never came near it, has slipped a
peg and fell a notch or two the past
week. Such is life under Free-Trade.
Truly it has been said, "when merchan-
dise is the cheapest, men are the poor-
est, and the most distressing experi-
ences in human history have been
when everything was lowest and cheap-
est when measured by gold, for every-
thing was the highest and dearest when
measured by labor."
The President says when he gets
ready he will speak for himself, and so
as to be understood, on the Cuban
question. The President generally
"speaks for himself." He did that on
the Hawaiian question. As he is the
representative of the people, it is un-
fortunate that he does not oftener
speak for them instead of for "myself."
—Inter Ocean.
The state republican convention of
Wisconsin passed resolutions yester-
day endorsing Wm. McKinley. The
great Protectionist seems to be captur-
ing about everything in sight.
Weyler, the butcherer and govern-
mental of Cuba, may wake up some
fine morning this spring and find that
General Gomez has taken about every-
thing in sight.
The House of Commons in Great
Britain have adopted a resolution in
favor of an inter-national monetary
conference in the interest of bimetal-
lism.
McKinley already has over 150 dele-
gates instructed for him and the num-
ber steadily increases, in spite of the
effort of the bosses.

discovered by newspaper men is that

quent.

ST. PATRICK'S DAY.
Tuesday, March 17th, was St. Pat-
rick's day and the wearin' o' the green
was quite general in Wayne. "Every
boy and girl does not know who St.
Patrick was and why a festival is set
aside to his memory. He is the patron
saint of Ireland, but is widely credited
with being a Scotchman by birth. At
the age of 16, as the record is, he was
carried a captive to Ireland by a band
of marauders, but six months later he
escaped and returned to Scotland. He
was carried off a second time and again
escaped, when he resolved to become a
missionary to the Irish. He was or-
dained in Scotland and after a long
preparation he was consecrated bishop.
About the year 432, when he was 50 or
60 years of age, he passed over to his
chosen field of labor and began his
preaching, and with such extraordi-
nary effect that, although not absolute-
ly the first to introduce Christianity in-
to that country, he always has received
the credit of its general conversion.
According to the account of Irish bi-
ographers, he founded 365 churches,
and baptized with his own hand 12,000
persons. He is said to have ordained a
vast number of priests, and to have
blessed very many monks and nuns.
The dates of his birth and death are
most disputed. His birth is variously
assigned to the years 372, 377 and 387,
while one authority says that he died
in 464, and makes him 92 at the time of
his death, other authorities declare he
lived to be 120, or at least 116 years of
age. A familiar legend ascribes to St.
Patrick the banishment of all venom-
ous creatures from the island by
means of his crozier or staff, and it is
understood Ireland has been free of
snakes to this day. It is in commem-
oration of the religious service to Ire-
land of St. Patrick that the 17th of
March is annually celebrated, wherever
the Roman Catholic church is estab-
lished, the world over.

The Kentucky legislature adjourned
Tuesday without electing a United
States Senator. Perhaps 'tis better so,
but the conditions growing out of the
affair leads the general public to believe
that United States Senators should be
elected by a direct vote of the people.

A canvas among the druggists of this

lain's are the most popular proprietary
medicines sold. Chamberlain's Cough
Remedy, especially, is regarded as in
the lead of all throat trouble remedies,
and as such, is freely prescribed by
physicians. As a croup medicine, it is
also unexcelled, and most families with
young children keep a bottle always
handy for instant use. The editor of
the Graphic has repeatedly known
Chamberlain's Cough Remedy to do
the work after all other medicines had
failed. The Graphic, Kimball, S. D.

Will people never learn that a "cold"
is an accident to be dreaded, and that
when it occurs treatment should be
promptly applied? There is no know-
ing where the trouble will end; and
while complete recovery is the rule,
the exceptions are terribly frequent,
and thousands upon thousands of fatal
illnesses occur every year ushered in
by a little injudicious exposure and
seemingly trifling symptoms. Beyond
this, there are today, countless invalids
who can trace their complaints to
"colds," which at the time of occurrence
gave no concern, and were therefore
neglected.—Cincinnati Gazette.—When

It raised its head proving that it had only lately been asleep. The black raised the reptile higher, and Genie raised her hands and passed them beneath the curves formed by the creature's body as it hung from Jacaline's hands, supporting it altogether in a picturesque group, while additional effect was given to the strange scene by the serpent slowly raising its head between the pair, swaying it to and fro for a few moments, and then uttering a loud hiss, before lowering its crest and striving to reach the box, above which it was being held.

friends, there are hundreds of thousands of people who cannot stand before his cold? It is useless to preach to bare feet, and to empty stomachs, and to gait vans. Christ gave the world a lesson in common sense when, before preaching the gospel to the multitude in the wilderness, he gave them a good dinner.

RICHARD WEBBER,

SIOUX CITY, IOWA.

CARROLL NEWS.

March weather. Indications are for a late spring. Election is coming. Everybody vote. C. C. Kaufman was in Wausa the first of the week. Carroll was well represented at Ran Frazier's sale last week. Wm. Cox, of Harlan, Iowa, is visiting with Carter Cox and family. A. J. Honey shipped another car of corn Monday and a car of oats Tuesday. Mr. Andrew Brenner, of the firm of Turner & Brenner, was in town between trains Wednesday. The social given by the Baptist Ladies Aid Society was well attended and a financial success. Mr. Isaac, of Onio, has purchased a farm of Tom Morris, west of town, and took possession the first of the week. Farmers are bringing their machinery to the shops to be repaired, and the blacksmiths at this place are crowded with work. The dance given in the A O U Hall last Friday night, was a complete success and another one of those Carroll "gude times" was had by all in attendance. Mr. and Mrs. Hans Holmes, living six miles west of this place, lost a little boy aged 10 years by a gripple. They have the sympathy of the entire community in their present bereavement. Will Jastram sold his barber shop to a Mr. Beidon, of Dixon, Nebr. Mr. Beidon moved his family here Monday and took possession of the shop Tuesday morning. He comes to us highly recommended by his former patrons and we wish him success in his new location. We notice a great many farmers purchasing their seed wheat from the elevators at this place. This should not be in a wheat growing state. The sooner farmers learn to raise their own seed wheat the sooner will they better their condition. Buying seed for 70c per bu. and selling the same wheat in the fall for 35c and 40c doesn't pay when by a little care they could save their own seed, thus doing away with a needless expense. The republican voters of Deer Creek precinct are hereby notified that on Saturday evening, March 28, a caucus will be held at the usual voting place in Carroll to elect four delegates to the county convention which is to be held April 11th, 1896. By order of chairman, M. S. Merrill.

HOSKINS.

Stormy weather these days of March. Hoskins is to have a physician in the near future. Mr. Erickson and Chas. Green were at Norfolk, Sunday. Melvin Case is helping John Donner in the livery business. Mr. Sargent, of Acon, Iowa, was here the first of the week. J. L. Cline and Henry Case visited the county seat the first of the week. Miss Martha Zutz returned from her visit at Dakota City, March 15th. Leslie Baker was on the sick list last week but by the medical aid of Dr. Tjasgean, is fast recovering. A man from Kansas City, working for a wholesale liquor firm at that place, did quite a business around and about this place. L. P. Ridge is putting down a well for the Creamery company who commenced to build March 17th, bringing their carpenters with them, never giving the men of this place a chance to bid on the work. COLLEGE CHAFF. Mr. Galager, of Laurel, enrolled Saturday. Prof. File will lecture at Hartington, Friday evening. Oscar Miller spent Sunday at his home in Winside.
