BEET LAND FOR RENT!

I have 120 acres of land one mile north of town to let out in five or ten acre lots for the purpose of raising beets. R. PHILLO.

Onions Wanted at P. L. Miller's.

Mark Miller is in Sioux City today. Beet Land For Rent. R. Phillo. Fine apple cider from Glenwood at Brookings.

Clarence Shipley went to Iowa this morning. On the inside pages of the HERALD will be found the proceedings of the State Legislature.

Perry & Porterfield shipped a car load of cattle to Omaha Monday and two car loads Tuesday. Edwards & Bradford Lumber Co. have just been getting in a nice assortment of crib lumber.

At the annual election of officers of the Wayne National Bank yesterday, all the old officers and directors were re-elected.

A nice, almost new fire room house in College addition for sale cheap for cash, or will exchange for good horses. Inquire of Phillo & Son.

Mrs. Cunningham of the Wayne Republican, devoted a whole day, which was worth \$10 to the readers of his paper, to making 50c per day on county job work.—Emerson Times.

A branch society of the King's Daughters was organized at the home of Mrs. Smith last Saturday evening. The organization is composed of the Sunday school classes of Mrs. Welch and Mrs. Smith.

Harry Webbles was over to Wayne this week. He purchased the city laundry of that place and intends to leave for Wayne the middle of February. Pender people will regret to see Harry and his estimable wife leave town.—Pender Times.

The musical given at the College Saturday night under the direction of Miss Stewart was largely attended. A fine program was rendered and the members of the class show rapid advancement under the able instructions of Miss Stewart.

John Connor left for Ft. Scott, Kansas, Tuesday, but will return to Wayne in a short time with a proposition which will, with the good judgment of all of our citizens and a little hustling, result in the building of a beet sugar factory. All hail the day.

The HERALD reaches every portion of the county, enters more homes than any other paper in Northeast Nebraska and is read by more people. Place your advertisements where they will do the most good. Our columns are not devoted to personal abuse, hence you should be a subscriber.

Next Sabbath being the Day of Prayer for Schools and Colleges, appropriate services will be held at the Presbyterian church. The students of the College and High school whose membership does not call them elsewhere have been invited to attend. Subject, "The Armor for Life's Duties."

The members of the Mt. Pleasant literary society in district No. 9, Iowa in Plum Creek precinct have challenged the society at Plainview in Stanton county, to a joint debate to take place next Thursday evening at the Plainview school house. The question for debate is, "Resolved, That the Pulpit is a greater Moulder of Public Opinion than the Press." They will also debate with members of the Epworth society in district No. 5, on Friday evening, the subject being, "Resolved, That we as a Nation are not Retrograding." The Mt. Pleasant society takes the negative side of the question.

The installation of the officers of the Modern Woodmen and Royal Neighbors was held at Masonic hall Tuesday evening. The ladies had been requested to bring well filled lunch baskets which they did and after installation ceremonies a bountiful repast was served and the usual pleasant time for which the Lodge is noted, was had by the large number in attendance. The new officers installed for the ensuing year were: Frank Fetter, V. G. D. S. M. Vicker, Advisor; E. P. Olmsted, Banker; E. Hunter, Clerk; A. Jeff, Escort; M. P. Sawidge, J. W. M. P. Ahern, Managers; Drs. Williams and Blair, Physicians.

The Wayne church has enjoyed great prosperity under the pastorate of Rev. H. H. Millard, who is now serving for the fifth year. The congregation is one of unusual intelligence and the church is well-attended and engaged in every good work. The house is well filled at almost every service and there is a pressing demand for more room, which will result in enlargement of the auditorium in the not distant future. A spiritual tone pervades all the services. The Sunday school, under the supervision of Dr. W. A. Ivory is large and flourishing; the Epworth League, Bro. George C. Terwilliger, president, is a power for good. The Juniors are led by Mrs. Chas. Beebe, and are greatly benefited by their meetings on Sunday afternoon. The church membership of nearly 300 will be likely to grow rapidly, as the conditions of growth are excellent. Special meetings will begin about the middle of February. Pastor Millard will be assisted by Dr. Simpson of Fremont.—Omaha Christian Advocate.

Beet land for rent. R. Phillo.

Owing to ill health Jno. Harrington has decided to close out his business. See his ad elsewhere.

Mrs. Viges entertained the Ladies of the Guild and their husbands at cards Monday evening.

Mr. Glasson informs us that he has not sold the annuity; that no sale will be made until the money is forthcoming.

Mrs. H. Wheaton received a telegram yesterday morning calling her to Winthrop, Iowa, owing to the serious illness of her father.

A number of young people enjoyed a sleigh ride out to the home of C. A. Watson last Thursday evening. An elegant oyster supper was served and a pleasant time had by all.

Rev. W. R. McKim will hold Episcopal services at K. P. hall on Sunday next, both morning and evening. Celebration of the Holy Communion following morning services.

A few of our subscribers have responded to our notices to liquidate their account, but there are hundreds who have not. Each amount is small; please attend to it by February 1st.

W. J. Mettlen, assistant chief clerk of the railway mail service, has gone to St. Louis, accompanying Mrs. Mettlen that far on her journey to Texas in search of health.—Omaha Bee, Friday, January 15th.

If you purchase your groceries of the home merchants you will be better off. The grocery peddlers are poor people to deal with and the adulterated goods will probably cause you the inconvenience of paying a doctor bill. A word to the wise is sufficient.

A party of the older folks started out for a sleigh ride last Friday evening, but it was rather a short ride. Just as they had gotten nicely started the team became frightened and everyone rushed for the back end of the hayrack and the result was a break down. The party then spent the remainder of the evening with Dr. and Mrs. Williams.

The following K. of P. officers were installed for the ensuing year at the meeting at Pythian Hall Tuesday evening: Nathan Cnace, C. O.; Aug. Piepenstock, V. C.; E. B. Heckert, Preclear; W. H. McNeal, M. G. W.; H. D. Bimband, W. of K. S.; Davies, M. of G. P.; Armstrong, M. of A.; A. J. Tracy, I. G.; Chas. Dittl, O. G.

A special train of fourteen cars of cattle and horses was shipped to Chicago Saturday evening. The train was made up by Wm. Frazier, agent of the Chicago and North Western Company, commission merchants. Thos. Hill shipped 5 cars of cattle, Wm. Vincent 2 cars, Brown Palmer 2 cars, Owen Bros. 3 cars and S. B. Scace 2 cars of horses.

A bill has been introduced in the legislature providing that the state shall erect a beet sugar factory with a capacity of not less than 400 tons of beets per day. The Governor is to designate the location, and the factory to be erected within ninety days from the passage of the act. \$250,000 is to be appropriated for the purpose and all officers are to be appointed by the Governor. The price to be paid for the beets is \$1.50 per ton.

The HERALD does not propose to engage in any controversy over the question of the construction of the railroad crossing on the Bloomfield branch, but wish to state that neither the Republican or Democrat in their issues of last week, were correct in referring to said crossings. We have been informed by the County Attorney, that the railroad company have complied with the requests of the county in every particular in constructing them. The overhead crossing has been built, but the grading to the approaches has not been done by the county, hence the crossing is not in use.

Onions wanted at P. L. Miller's. The teachers and educational people of Wayne county will have a grand rally Friday 12th and 13th. Some of the able school men of the state will be present among whom will be Dr. F. M. Fling of the State University, Sup't. Dean of Norfolk, Sup't. J. A. Collins, Manager State Teachers' Reading Circle, and others. Prof. Fling will give an historical lecture Friday evening at one of the churches, that will be a treat to everybody. Saturday afternoon subjects of special interest to school boards and patrons will be discussed. Everyone is invited to bring their friends and take part in these meetings. Good music will be furnished for all the sessions. Admission free.

The Norfolk News says the beet sugar factory will close the last of this month, after the longest run in its history. The time of the run this year will be about 130 days, during which 36,374 tons and 520 pounds of beets will be cut and nearly 7,000,000 pound of sugar made. There were 3,188 wagon loads of beets raised in the vicinity of Norfolk and 1,445 cars were shipped in. The largest previous run was in 1894. The money put into circulation for labor and beets has found its way largely into the coffers of Norfolk merchants, and as a result this town has enjoyed a fairly good business while other Nebraska towns have been plunging through a slough of depression more terrible than anything ever before experienced. It is not meant to convey the impression that Norfolk has been having a boom in business, but it is a fact that the city has had a steady trade, and largely the money put into circulation in this community by the sugar industry.

SOME INTERESTING PARAGRAPHS

Items of Interest Taken from Exchanges Concerning the Beet Sugar Factory That May be Erected in Wayne.

Wayne is to have a beet sugar factory.—Bancroft Blade. Wayne is making strong efforts to get a beet sugar factory.—Wausa Enterprise-Herald.

Wayne feels reasonably sure of securing a beet sugar factory during the year 1897. May she not be disappointed.—Bloomfield Monitor.

Wayne is to have a beet sugar plant to cost \$150,000, and to have a capacity of about two hundred tons of beets per day. This will be a product of 37,000 pounds of sugar daily.—Tekamah Herald.

Citizens of Wayne are indulging in visions of a sugar factory, to cost from \$125,000 to \$150,000, and with a capacity of 200 tons per day. It is confidently claimed that the plant will be built the present year.—Harrington Herald.

Wayne is very apt to secure a sugar factory. A proposition has been submitted by parties who will furnish the money to erect such a factory, provided 100 farmers will furnish 1,000 tons of beets free the first year.—Newman Grove Herald.

It seems now that Wayne has some chance of getting a beet sugar factory. This would help out the farmers of Dixon county who live on sandy land and desire to raise beets.—They would not have far to haul them to market.—New Castle Times.

Wayne business men are talking up sugar factory pretty strong these dull winter days. As yet the project seems to be like Mahomet's coffin—suspended between heaven and earth. Yes sir, \$150,000 is a whole lot of money in these last days of Grover for a town of 2,000 people to raise for a sugar factory. But go in, Wayne, and win.—Wakefield Republican.

According to the Sioux City Journal, arrangements are about completed whereby Wayne is to have a beet sugar factory. Next to the establishment of such an industry at Randolph, this would be the best news in this line that we could hear, and we trust the rumor is true. With a factory so close, the raising of sugar beets ought to be considerably stimulated in this vicinity, and doubtless will be. It is near enough so that freight rates ought to be low, and if they were not, the distances are not too great to deliver the beets by team. With the establishment of a factory at Wayne, these ought to be lowered, if not thousands of acres of sugar beets raised in this locality the coming year.—Randolph Reporter.

Onions wanted at P. L. Miller's. Mac Miller and Ralph Randall were in Omaha Tuesday and Wednesday.

Judge McKenna of California, will be Secretary of the Interior in President McKinley's cabinet.

A large sleigh load of people went out to D. Cunningham's and spent a few pleasant hours last Thursday evening.

Last Friday afternoon Mrs. Conn and Miss Dickey engaged a couple of large bods and treated their pupils to a sleigh ride.

The college trustees and Jno. Connor formerly president of the institution, were entertained by Prof. and Mrs. Pile Saturday evening.

A great many people are complaining of a cold, but it isn't anything strange when the changeable weather this winter is considered.

The Christian Endeavor meeting at the Presbyterian church next Sunday evening will be led by Miss Dickey. Subject: "Our Failures and Successes."

The little daughter of Fred Krause, near Winside, had the middle finger of her right hand cut off by her sister last Friday, while cutting kindling wood with a hatchet.

Will Loeb went to Wayne yesterday to secure a house and make arrangements for the family to move to that city. Will attend college at Wayne.—Stanton Register.

Word was received in Wayne last Friday from Stronghurst, Ill., announcing the death of Mrs. D. Marshall, who has been in failing health for some time, at that place last Thursday, Jan. 14. Mr. and Mrs. Marshall were residents of Wayne county a number of years, and removed to Stronghurst some time ago, for the purpose of taking care of Mrs. Marshall's invalid sister.

DIED. GRACE—At the home of her parents in the west part of the city, Wednesday, January 20, 1897, Miss Emily Habel Grace, aged 22 years, three months and twenty-six days. The immediate cause of death was heart disease.

The funeral services were conducted at the home by Rev. Millard of the Methodist church at 10:30 this morning, and the remains were accompanied to their last resting place by sorrowing relatives and friends and a number of Woodmen, of which order the father of the deceased is a member.

CAMPBELL—At the home of his father, J. W. Campbell, who resides four miles northeast of the city, T. Milton Campbell, aged 25 years. His death was the result of lung trouble contracted last spring.

Deceased was a highly respected young man and will be greatly missed by his loving parents and brothers and sisters. The stricken family have the sympathy of the entire community in their sore affliction. The funeral was held at 1:00 o'clock today.

LIVE AND LET LIVE.

An order has been made by the Joint Traffic association, which controls the transportation on the seaboard lines, reducing the freight rate on corn on roads subject to its jurisdiction by 5 cents per hundredweight, to become effective January 20. This new order will make the rate on corn from Chicago 15 cents instead of 20 cents as now and from all the Mississippi river points 17 1/2 cents instead of 23 cents as now.

The action of the Joint Traffic association, however, does not effect the rate on corn from Nebraska and Iowa points to Chicago, where Nebraska and Iowa shippers sell their product. Unless the Western Traffic association, which controls the traffic on the railroads operating in Nebraska, follows the lead of the eastern roads by making similar reductions, the Nebraska corn rates must remain prohibitive and Nebraska farmers continue to burn corn rather than sell it at the ruinous prices offered. If there was any excuse for raising the rates, as was done two months ago, that excuse can no longer serve in view of the rate cutting on the eastern roads.

Let the Nebraska and Iowa roads meet the farmer with an immediate reduction of 4 or 5 cents on the corn rate to Chicago and the yellow ears now piled up in cribs and on the field will move quickly eastward. As far as the railroads are concerned they must carry the corn at reduced rates or not at all. Let them live and let live.—Bee.

The Royal Highlanders.

For the past three weeks O. B. Walters has been in Wayne working in the interests of the Royal Highlanders and last Saturday evening the Lodge was organized by E. L. Ross, the Most Illustrious Protector, and O. B. Walters, with nearly twenty-five members. The Royal Highlanders is a new organization but is fast working its way to the front and new chapters are being organized all over the state. The plan is an excellent one and the order is conducted upon the best business principles. The ritualistic work is very impressive being founded upon Scottish history. The order is different from others from the fact that a reserve fund is created for the purpose of paying the losses without additional or increased assessments and which in time will lessen the assessments of the faithful members of the fraternity. The following officers were elected by the Wayne castle: Illustrious Protector, U. S. Conr; Chief Counselor, E. D. Mitchell; Worthy Evangel, Rev. E. Van Dyke Wight; Secretary, H. L. Kimball; Treasurer, Harry Jones; Examining Physician, Dr. Leisenring; Warder, A. F. Brenner; Sentry, C. A. Watson; Prudential Chiefs, A. F. Brenner, Chas. S. Beebe and E. D. Mitchell. O. B. Walters went up to Randolph Monday where he will organize a Lodge of the Royal Highlanders.

CARROLL NEWS.

Thomas Spencer shipped a car load of cattle this week. The young people have had a great time here coasting.

The social held at the McVay home was a grand success. Mrs. Geo. Yaryan returned from her visit in Iowa this week.

There is a large quantity of corn coming into town at present. Charley Morris is expecting a visit from his mother of Illinois.

The protracted meeting at the Bush school house is progressing nicely. The literary held at the Wood school house was abandoned last week.

J. R. Morris shipped a car of cattle to Omaha this week. He went with the car. The lectures on phrenology that were delivered by Rev. Binks, created quite a sensation.

Born—To Mr. and Mrs. Ed. Moore on the 13th inst., a daughter of the average avoirdupois weight.

Born—To Mr. and Mrs. E. Strice, a daughter of average weight. Mother and child doing well.

A. J. Swartz is shipping two cars of potatoes to St. Louis, Mo. We all hope he may do well with them.

W. H. Hoguewood of Wayne, who has been in this vicinity working in the interest of the M. W. A. is meeting with very good success.

A protracted meeting will be commenced at the M. E. church next Monday night. Everyone is invited to come and take part in some manner.

Mr. Shafer, son-in-law of Geo. Shirts, has purchased the livery and feed barn of the Merrills and taken possession. Anyone wishing any draying or a drive should call on Mr. Shafer.

COLLEGE NOTES.

Miss Mae Bickley left school last Saturday. Miss Collins of Wakonda, S. D. entered College this week.

Messrs Foreman and Little of Pierce, are among the new arrivals. The students in the actual business class are highly elated over their work.

The Philos will give a literary program Friday evening at 7:30. All are invited. School began Tuesday with the Chapel crowded. The attendance this term is better than ever.

The students who have been on the sick list for the past few days were able to be present at their recitations today. Mrs. Texley of Newman Grove and Mr. Loebe of Stanton, two of our former students are back in College now.

The students of the Music department will give a social next Saturday evening. All students and ex-students are cordially invited.

Rev. Wight of the Presbyterian church, conducted Chapel exercises Tuesday morning, and invited the students to attend church next Sunday morning as they observe College Day.

The Musical given by Miss Stewart and her pupils Saturday evening was deserving of great praise. Miss Stewart may well be proud of her pupils and the College should be proud of our music teacher.

SHERMAN PRECINCT.

Mr. and Mrs. Everett Roberts spent Sunday at Wayne. David Davis was in Randolph on business Saturday.

J. A. has purchased a fine new outer and is enjoying it very much. Mr. and Mrs. J. A. Jones and son Elmer were Wayne visitors last Friday.

The members of the A. O. U. W. gave a supper at Carroll last Saturday night. Miss Carpenter who has charge of Brooks school was in Wayne last week.

T. E. Evans left for eastern Iowa to see his sister who is very ill at this writing. Prof. W. I. James organized a singing class at the Morris school house last Saturday evening.

D. M. Davis and daughter Grace, who have been visiting friends and relatives at Red Oak, Iowa, have returned home. A social was given at the home of Mr. and Mrs. Everett Roberts last Tuesday evening. After various games were played refreshments were served. A pleasant time was reported.

HUNTER PRECINCT.

Jim Fox sold a bunch of fat cattle on Monday of this week. Klok Lauman drove over to Iowa last week to see his mother who is seriously ill.

Mr. and Mrs. Henry Kellogg are visiting relatives in Iowa, and expect to be absent for several weeks. Miss Preston, the popular teacher in District 19, was sick last week and was obliged to close her school for several days, but was able to resume teaching this week.

What is the matter with Wayne having city scales and a city weigher, to weigh all grain and stock brought to town? We think if there was the farmers would be lots better satisfied and there would not be so much kicking about short weights. And while they are about it, we would like to have some of Wayne's grain buyers explain why ear corn is worth a cent a bushel more in Wakola than in Wayne.

REMARKABLE SEARCH FOR GOLD

A Missouri Man Keeps a Force of Men Digging for Bandits' Plunder.

As long as the earth revolves on its axis there will probably always be somebody digging for buried treasure. One of the most remarkably interesting instances of this kind is that of a wealthy St. Joseph (Mo.) grocer named John Krainbeuhl.

In the autumn of 1856, so the story runs, the old overland stage coach from the West was held up and robbed near Belmont Bend by a gang of bandits. A large amount of gold, estimated at from \$15,000 to \$30,000, was carried on the trip and it was all captured by the robbers.

At intervals ever since the stage robbery there has been digging in the bluffs at Belmont Bend, but never so thoroughly and to such an extent as is now being done by Krainbeuhl.

Phrenology of the Horse.

Every horse carries an index to his temper and intelligence in his face. The teachable, tractable animal is broad and flat between the eyes; the bony ridge of his face dishes slightly from the point where the face narrows toward the nostrils.

Rusting of Iron.

The so-called rusting of iron is simply its oxidation. The chemists state that iron is very freely acted upon, if at all, by dry oxygen, but most vigorously by moist air or oxygen and moisture.

HOUSEHOLD

Testing the Oven.

To judge of an oven's heat, there are no better rules than Gouffier's: 'Try the oven every ten minutes with a piece of white paper. If too hot, the paper will blaze up or blacken; when the paper becomes dark brown (i. e., rather darker than ordinary meat pie crust), the oven is fit for small pastry.'

Dried Lima Beans.

Perhaps you don't know that the dried Lima beans when well cooked are very nice, and a most acceptable vegetable for winter use. There is quite a difference in them, however, and one sometimes finds those that have been dried when too ripe and do not cook well.

Smothered Chicken.

Dress the fowl and prepare as for roasting, stuffing it if you desire. Sever the sinews of the legs at the joints so they will lie flat to the fowl, put a good-sized lump of butter and a cup of water in a kettle, lay the fowl in and cover with a basin that fits down close to it inside the kettle.

Don't Wash the Frying Pan.

It is a mistake to wash a frying pan. If any housewife doubts this, let her try it and prove the result. The pan should be placed over the fire, to melt thoroughly all the fat which has remained in it; and while this is hot the inside of the pan should be well rubbed with clean, soft paper until it is quite clean.

A Strengthening Diet.

It will be of interest to housewives to know that the celebrated foreign physicians are recommending the marrow bone for a strengthening diet and tonic. The marrow bone is served upon a piece of hot dry toast. When it is to be eaten, the marrow is taken out and spread upon the toast.

Delicious Orange Dessert.

Shred half a dozen juicy oranges, leaving all the pulp. Pile these small pieces up in a china bowl. Make a rich syrup by boiling a pound of cut sugar in water and a little lemon juice. Pour this syrup over the oranges and set away in a cool place.

Plain Plum Pudding.

One pound of crackers rolled; one pound (generous measure) of stoned raisins; three quarts of rich milk; four eggs; a half cup of butter; a dessert spoonful of cinnamon and half dessert spoonful, each, of cloves and allspice.

Helps for the Cook.

Fill pin cushions with well-dried coffee grounds, for mice and moths will never touch them, and the needles and pins will not rust.

When stoning raisins, rub a little butter on the fingers and knife. It will relieve the task of raisin-seeding of its stickiness and discomfort.

A heaped tablespoonful of jam of any kind to a quart of boiling water, covered and strained when cold, makes a wholesome drink for children.

Don't throw away the yeast when it begins to sour; instead, add two teaspoonfuls of sugar to each cup of the yeast, and let it stand awhile before using.

Don't throw away the small quantity of sweet potato or winter squash that is left from dinner, for a very little of either will make a nice pie, if prepared in the same manner as pumpkin.

Don't throw away grease of any sort, besides the drippings that can be used for frying purposes; put the seemingly useless grease into a pail, and when nearly full add some water and a pound of potash, and only a little boiling will be required to make it into nice soap.

'Music for the Deaf' was the subject of a very interesting paper in the physiological section by Prof. McKendrick of Glasgow. He found it possible to give some appreciation of rhythmical vibrations to deaf people by putting their hands in saline solution through which an electric current from the phonograph was passed. It gave a new sensation to the deaf person.

The science of physiognomy dates from the writings of Lavater, who was born in 1741 and died in 1801.

Congressmen on Wheels.

Since Jerry Simpson is going back to Congress, it is recalled that he was the very first Representative to throw dignity to the winds and to appear sailing down Pennsylvania avenue on a bicycle. The gay exhilaration which was apparent in his countenance every morning as he reined up his steel steed in front of the Capitol quickly made the example contagious, and Congressman Tom Johnson, single-taxer and free trader, was the next to brave public opinion.

'Walter Baker & Co., of Dorchester, Mass., U. S. A., have given years of study to the skillful preparation of cocoa and chocolate, and have devised machinery and systems peculiar to their methods of treatment, whereby the purity, palatability and highest nutrient characteristics are retained.

The People of the Rocks. In the northern part of Madagascar is the most remarkable natural fortress in the world. It is occupied by a wild tribe who call themselves the people of the rocks.

1667 BUS. POTATOES PER ACRE. Don't believe it, nor did the editor until he saw Salzer's great farm seed catalogue. It's wonderful what an array of facts and figures and new things and big yields and great testimonials it contains.

Oldest English Firm. One of the oldest, if not the oldest, English firms, is that of Richardson, leather manufacturers of Newcastle-on-Tyne. The predecessors of this firm were leather sellers to the monastery of St. Hilda, which was dis-established at the time of the reformation, and this can be proved from contemporary records.

Catarrh Can't Be Cured WITH LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you have to take internal remedies.

A young New Yorker, who, within the last few years, has almost entirely dissipated a large fortune left him by his father, has settled down and gone into business for himself.

Spring Planting. It is none too early to be planning for next spring's vegetable garden and flower beds. The first thing to do is to get a reliable catalogue of seeds and plants.

'Amiable' is the adjective which sticks to President Faure, every president save one having had his own peculiar epithet. Thiers was 'un grand homme politique,' McMahon 'un galleant-homme,' Grévy was 'habile,' Carnot 'un brave homme,' Cassimir Perier alone was not long enough in office to acquire his adjective, though he received abuse from the radical press.

No-to-Bac for Fifty Cents. Over 400,000 cured. Why not let No-to-Bac regulate or remove your bowels? It saves money, makes health and manhood. Cures guaranteed, 50c and \$1. All druggists.

Some excitement has been occasioned by the action of the trustees of the Boston Library in discharging ten of the oldest employees. One has been in the library thirty-seven years and the rest twenty or more.

The Dallas News says that 'the bride was arrayed in a beautiful costume of cream.' That was all right; she probably was a peach.

Eczema
All Her Life.

Mr. E. D. Jenkins, of Lithonia, Ga., says that his daughter, Ida, inherited a severe case of Eczema, which the usual mercury and potash remedies failed to relieve. Year by year she was treated with various medicines, external applications and internal remedies, without result. Her sufferings were intense, and her condition grew steadily worse. All the so-called blood remedies did not seem to reach the disease as all until S. S. S. was given, when an improvement was at once noticed. The medicine was continued with favorable results, and now she is cured sound and well, her skin is perfectly clear and pure and she has been saved from what threatened to blight her life forever.

S. S. S. (guaranteed purely vegetable) cures Eczema, Scrofula, Cancer, Rheumatism, or any other blood trouble. It is a real blood remedy and always cures even after all else fails.

\$1800.00
GIVEN AWAY TO INVENTORS.

\$50.00 every month given away to any one who applies through us for the most meritorious patent during the month preceding.

We secure the best patents for our clients, and the object of this offer is to encourage inventors to keep track of their bright ideas. At the same time we wish to impress on the public the fact that

IT'S THE SIMPLE, TRIVIAL INVENTIONS THAT YIELD FORTUNES.

such as the "car-window" which can be easily slid up and down without "locking," the passenger's "back-sauce pan," "collar-button," "push-lock," "push-stopper," and a thousand other little things that most any one can find a way of improving; and these simple inventions are the ones that yield the greatest returns to the inventor. Try to think of something to invent.

IT IS NOT SO HARD AS IT SEEMS.

Patents taken out through us receive special notice in the "National Recorder," published at Washington, D. C., which is the best newspaper published in America in the interests of inventors. Each year's subscription to this journal, free of cost, to all our clients. We also advertise, free of cost, the invention each month which wins our \$500 prize, and hundreds of thousands of copies of the "National Recorder," containing a sketch of the winner, and a description of his invention, will be scattered throughout the United States among capitalists and manufacturers, thus bringing to their attention the merits of the invention.

All communications regarded strictly confidential.

Of Interest to Farmers.

It is an old saying, nevertheless it is true: "Go slow on new things and yet prove all things and hold fast to that which is good."

Vegetables, when kept in cellars, should be kept cool, else they are liable to shrivel or start into growth; but be sure to guard against frost.

Every one who has an orchard should have a chart of the ground with each tree recorded. This winter would be a good time for doing such work.

More failures in the vegetable garden are caused by poor seed than any other causes. Let this be remembered in purchasing seed, that the cheapest is not always the best.

When receiving your trees next spring we should advise careful examination to see that the trees are all alive and have plenty of roots, free from borers and scales and not dried up, before accepting them.

Sample copies of Wallace's Farmer may be had by calling at The HERALD office. Also copies of many other papers containing interesting reading matter for farmers. A package of seeds will be given free to any subscriber who asks for it.

This is the season of the year for the horticultural meetings and farmer's institutes, and a favorable time for organizing clubs, reading circles, starting libraries, and making one another visits and talking about your work. Books and papers on horticultural subjects are cheap and easy to be obtained. By filling in the time in this way during the winter, you can get better informed in regard to your work and you will know better what is wanted.

Fat hens are not good layers. Milk is a very good substitute for meat. The chickens will appreciate a warm mess these cold mornings. Heavy feeding of the hens is likely to produce soft shelled eggs. Bank up the north and the west sides of the poultry house with straw. Two hours will do the work.

Comfort to California.

Every Thursday, at 4:35 p. m. a tourist sleeping car for Denver, Salt Lake City, San Francisco and Los Angeles leaves Omaha via the Burlington Route.

It is carpeted, upholstered in rattan, has spring seats and back-rests and is provided with curtains, bedding, towels, soap, etc. An experienced excursion conductor and a uniformed Pullman Porter accompany it through to the Pacific Coast.

Not so expensively finished nor so fine to look at as a palace sleeper, but just as good to ride in. Second class tickets are honored, and the price of a berth, wide enough and big enough for two, is only \$5. For a folder giving full particulars write to

A Furnace

FOR \$30.00

Is something almost unheard of in the history of heating but we have been making a Splendid Economical Furnace for that money for three years with a steadily increasing business. Over thirty of them in use in the city of Norfolk and every one of them working satisfactorily. We make them in three sizes—small enough for a cottage or large enough for a church or store building. It does not make any difference whether your house was arranged for it when it was built or not. If you want to heat the second story of your house and do not want the large hot air pipes going to the upstairs through your rooms, we will heat the second story with one of our combination Hot Water and Hot Air Furnaces. We will give you net price on your heating plant complete. All you need to do is "touch the button." Correspondence solicited.

The Nebraska federation of republi-
can publishers held a meeting at Grand
Island Thursday night of last week
which is said to have been an unusually
interesting one.

Dr. D. G. Brinton of the Pennsylvania
University, says: "All savages are
insane." The Doctor is considered re-
liable authority. He hasn't as yet
made a diagnosis of the populist mind.

Thirty-three states had more busi-
ness failures last year than Nebraska.
Capitalists should bear this in mind
even if a combination of events did re-
sult in Nebraska registering in favor of
silver.

The mission of Senator Wolcott to
Europe in the interest of bimetalism
may prove much more successful than
was at first expected. It will no doubt
result in an international conference
and possibly a final agreement of the
use of gold and silver at a proper ratio.

A motor has been invented by which
bicycles will be run by gun powder,
doing away with the fatigue incurred
by peddling. It will be some time
however, before a machine is invented
to secure money without labor and a
great many people will be compelled to
do without the famous "bike."

According to a statement sent out
from the Agricultural Experiment
Station at Lincoln, it would not be as
cheap to burn corn as coal if coal was
\$6.50 per ton and corn 12 cents per
bushel, but coal would have to sell as
low as \$5.41 to be as cheap a fuel as
corn at 10 cents per bushel.

The Nebraska State Press Associa-
tion held its annual session at Grand
Island last Friday and it proved a great
success in every particular. As the
editor of THE HERALD desires to attend
the National Press Association at Gal-
veston the latter part of next month as
a delegate from the Northeast Nebrask-
a Press Association, we could not at-
tend the state meeting.

Just to keep in line with the wail go-
ing up from the popocrats about
national affairs, the Republican wants
to ask why times are not better in Ne-
braska. All the state affairs are now
in complete control of the populists;
and a popocratic legislature is in full
blast. Why in thunder don't you do
something for suffering humanity and
the common poor people?—Oakland
Republican.

Donald McLean, while in Omaha on
his way to Salt Lake City, in an inter-
view stated that the Sioux City and
Western railway would be built, that
work from O'Neill westward would be-
gin in the spring. As the road is no
doubt a continuation of the Illinois
Central railway, a special effort should
be made to get a branch line to Wayne.
It would mean much to this city and
surrounding country.

Up to date 155 car loads of sugar
beets have been shipped to the Norfolk
factory from Wayne, the product of
less than 150 acres, with a cash value of
over \$12,000. Doesn't it strike you as
a citizen of Wayne and surrounding
country that a beet sugar factory is a
necessity? Any man, or set of men,
who would, for personal reasons, an-
tagonize the prospects of such an in-
stitution, ought to be sent to Bombay.

The Survival of the Fittest.

The Free-Traders tell us that under
Free-Trade there would be the free
working of nature's law and that it would
be the "survival of the fittest." If they
knew a little more about what "survival
of the fittest" means, they would not
talk so much about it. It means the
survival of the one who best fits into
existing conditions, not the one fittest
to survive because of superior qualities.
The Chinaman who eats rats and mice
and lives in filth and squalor can sur-
vive under conditions which would kill
an American, who is the product of a
higher civilization and who requires
comfort and cleanliness for his body
and food for his mind as well. It is
evident that a Chinaman could live
more cheaply than an American. And
in the unrestricted competition for
cheap labor, the Chinaman would come
out ahead every time. He is one who
would survive. It would be the sur-
vival of the one fittest to endure the
most evil conditions. This is just what
Free-Trade means. It means literally
unrestricted competition between the
labor of American workmen and the
labor of the men who represent the
lowest civilization on earth. What the
result would be is obvious. The Ameri-
can people want none of it.—American
Economist.

A reduction has been made in freight
rates on export corn to Chicago, of five
cents per hundred. Whether this will
affect the market here or not is ques-
tionable. If it did it would increase
the price per bushel about three cents.
Notwithstanding the low price farmers
would be willing to dispose of the corn
at 12 cents per bushel as the high price
of feeders prevents them from feeding
cattle.

A Sound Liver Makes a Well Man.

Are you bilious, constipated, or
troubled with jaundice, sick headache,
bad taste in mouth, foul breath, coated
tongue, dyspepsia, indigestion, hot dry
skin, pain in back and between the
shoulders, chills, fever, &c? If you
have any of these symptoms, your liver
is out of order, and your blood is slow-
ly being poisoned, because your liver
does not act promptly. HERBINE will
cure any disorder of the Stomach, Liver
or Bowels. It has no equal as a liver

Comes now S. B. Russell, county
clerk, and files the following request:

Hon. Board of County Commission-
ers: Gentlemen—In as much as you
have now cut off extra allowance for
the making of the tax list and clerk of
the board of county commissioners and
now require the entering of both of
these items on fee book, out of which
sums I have heretofore paid for all as-
sistance needed to perform the work in
my office, I would now respectfully ask
that you grant me another deputy for
the year 1897 at such salary as the fees
of the office will allow.

Respectfully,
S. B. RUSSELL,
County Clerk.

Upon motion rejected.

A MONSTER CONFESSES

TELLS HOW HE CAUSED THE CAHABA DISASTER

The Deed Was Perpetrated for Money, but Was a Failure—Western Union Telegraph Company May Take Up Telephones

Train Wrecker Confesses. NEW ORLEANS: A special dispatch from Atlanta, Ga., says: Sam Palatka, cross eyed, a fiend in expression, revolting in countenance, has confessed to having perpetrated the great Cahaba bridge disaster which occurred three weeks ago in Alabama. Stolidly and with immovable lines of criminal hardness on his face he admits that single handed he sent thirty-five persons to a horrible death and wounded and maimed a score more. He spoke with no signs of emotion.

"I did it," said Palatka, "I wanted money. It's nobody's business what I wanted for. I did it. I found it very easy. I say this for the benefit of those who want to wreck trains. It is just as easy to wreck a passenger train as it is to wreck a freight train. There is no money in an freight. I did not get any out of the wreck. I wanted a rail, put it across the track, and waited for the train to come. There were several dead folks with money—one man had \$500—but before I could get at it the lives got up and the crowd came. I skipped out then."

MAY TAKE UP TELEPHONES

Russell Sage Talks of Rumors Concerning Western Union Plans

NEW YORK: Ever since the contract between the Western Union Telegraph Company and the American Bell Telephone Company expired last fall, reports have been current that the telegraph company was preparing to enter the telephone field. Russell Sage, a director of the Western Union said to a newspaper correspondent: "The Western Union will continue to improve its service and make its business as satisfactory as possible. No fixed plans for extension have been decided upon, but where the company sees it may be profitable to put in telephones it may quite likely do so. There is no monopoly in the telephone business, and the Western Union can take it up as well as anybody without starting a war."

TO KEEP OUT THE PLAGUE

Precautionary Measures Taken by Government Officials

WASHINGTON: The great epidemic of the bubonic plague in Bombay has impelled the authorities of the marine hospital service to take steps to secure the utmost possible vigilance by all officials of the United States to prevent its introduction into this country, although no fears are felt at present. Surgeon General Wyman, of the Marine Hospital Bureau, after consultation with Secretary Carlisle Monday, issued a circular calling the attention of the United States consular officers, masters and owners of vessels, collectors of customs, national, state and local quarantine officers and others to quarantine regulations to prevent the spread of epidemics.

Victory for Three Friends

JACKSONVILLE, Fla.: Judge Locke of the United States court, rendered his decision Monday morning in the Three Friends case. The point was raised by counsel for the defense that the three friends, surgeons had not been recognized by the United States government, they were neither a people nor a body politic, as defined by section 6283, under which the libel was drawn. This was sustained and the district attorney was given ten days in which to file an amended libel.

Supposed to Be "Bat" Sheedy

NEW YORK: The body of a man supposed to be "Bat" Sheedy, the Chicago pugilist, has been found in the mud on the shore of the Hudson River near the railroad tracks between Baychester and Bortow. It is supposed Sheedy was walking across the trestle on his way to New York when set upon by thieves, knocked senseless with a coupling pin, robbed of his valuables and thrown into the mud fifteen feet below.

Gov. Jones Inaugurated

LITTLE ROCK, Ark.: Daniel W. Jones was inaugurated governor of Arkansas Monday. The ceremonies were of the most simple character. The legislature convened in joint session and Gov. Jones took the oath of office and delivered his inaugural address.

Democrats Nominate Altgeld

SPRINGFIELD, Ill.: The Democratic county caucus on Monday nominated ex-Gov. John P. Altgeld for United States senator from Illinois. As the Republicans control both branches of the assembly the Democratic vote will be merely a complimentary one.

Goes Ashore Off New Jersey

BEACON HAVEN, N. J.: The steamer Badsworth, from Liverpool, with a cargo of sugar, is ashore near here. She is lying aground and will probably be floated at the next high tide.

Will Employ 350 Men

WOONSOCKET, R. I.: The Woonsocket Machine and Press Company, employing 350 hands, on the 18th commenced running thirty-two hours a week with 10 per cent cut in wages.

Countess Castellane a Mother

PARIS: Countess Castellane, formerly Miss Anna Gould, has given birth to a son. The mother and child are doing well.

North Dakota Divorce Bill

BISMARCK, N. D.: A bill has been introduced in the legislature making one year the limit of residence in this state to obtain a divorce. This is intended to stop the wholesale divorce business engaged in for the benefit of eastern marital malcontents. There will be a big fight on the bill by lawyers and hotel keepers, who have reaped a harvest from the present law.

Dual Tennessee Tragedy

CHATTANOOGA, Tenn.: News from Ragby, Tenn., is that Benjamin L. Davis, of this city, had cut his wife's throat and killed himself. The cause is unknown.

RIOT IN AMERICUS, GA.

Serious Row as the Result of a Municipal Election

CINCINNATI: A dispatch of January 17 from Americus, Ga., says: For over twenty-four hours the village of Byron, in Houston County, has been a state of riot, in which four men, C. C. Richardson, C. L. Bateman, B. C. Bateman and R. H. Baskies were shot and others held in terror. The trouble grew out of a municipal election held two weeks ago, which resulted in a tie, the town dividing into two bitter factions, and charges of fraud being freely interchanged between the leaders. A second election was called to decide the contest, in which every voter was brought up to the polls, not a change taking place in the political alignment, thus causing fear of a second tie, which was actually the result. The leaders of the factions were Chas. L. Bateman and C. C. Richardson. Unfortunately they approached the polls at the same moment. A personal collision took place, in which shoguns were produced. Their followers made a rush home to secure arms, and in a few moments the village street presented a warlike scene. The telegraph operator, who was a lady, abandoned her key in terror, and thus for hours the outside world was cut off from communication with the town. After establishing his authority, but the feud, now started, especially since the election has to be held over again, is looked upon as likely to result in further bloodshed.

FIFTEEN ORPHANS PERISH

The Fire at Dallas Much Worse Than at First Reported

DALLAS, Texas: Fifteen little girls and boys are dead as a result of Friday night's fire at the Backner Orphan Home, and nine others are seriously burned and crushed. Three of the injured, it is thought, cannot recover. The extent of the holocaust was not discovered and fully realized until Saturday.

BOUGHT BY THE ROTHSCHILDS

Great Tom Boy Gold Mine Secured by the Syndicate

NEW YORK: An important deal has been arranged in this city whereby the great Tom Boy gold mine of San Miguel County, Colorado, has passed into the hands of an exploration company. This company is more widely known as the Rothschild syndicate, whose investment of \$25,000,000 in the Anaconda copper mines a year ago set the financial world talking. The Tom Boy is recognized as one of the richest gold mines in the United States. The present owners transferred their interest to the Rothschild syndicate for \$1,000,000.

RURAL FREE MAILS

Test of the System in Minnesota So Far Satisfactory

FARMINGTON, Minn.: It is less than two weeks since Farmington became the seat of the only free rural delivery system in Minnesota. Almost four months ago Deputy Inspector Walter Bird of Milwaukee came here and asked for bids for carriers to take the mails to those outside the corporation who take their mail at the Farmington office. The system is now in full play and is under close watch by all the smaller villages of the state. It is too early yet to say whether it is a success, but so far it has proved entirely satisfactory.

St. Louis Lexow Bill Shelved

ST. LOUIS, Mo.: The house has shelved the Pipher resolution asking for an investigation of the St. Louis police department by a decisive vote. Bills prohibiting the playing of football on Thanksgiving, and baseball on Sunday, were given the same treatment. A bill has been introduced in the house by request of the Missouri division of the Travelers' Protective Association reducing railroad passenger rates to 2 cents a mile.

Rumored Poisoning of the Czar

LONDON: A Daily Mail dispatch of Jan. 18, from Vienna says that startling rumors are current that the czar and zarina are suffering from indications of poisoning, but are without foundation in fact.

Triple West Virginia Murder

BELLAIRE, Ohio: A triple murder occurred at Flat Rock, W. Va., a few miles south here. Jesse Russell, Elmer Moore and John Greer went to the house of Lewy Grim, where a dance was in progress, and attempted to interrupt the festivities. Grim ordered them away and a fight ensued. Going into the house Grim secured a shotgun and fired at the men. Russell was shot in the breast, and the other two men in the back as they started to run away. All three died in a short time. Grim gave himself up.

Richard Flower Is Broke

BOSTON, Mass.: Dr. Richard C. Flower, a "Napoleon of finance," who a few months ago was arrested in Chicago on sensational charges bearing on alleged swindling operations, has filed for bankruptcy. He appeared in the Suffolk County insolvency court in the role of an insolvent debtor and filed a lengthy statement of his liabilities and assets. His liabilities amount to \$275,000, of which approximately \$173,000 are undisputed, whereas \$100,000 are in dispute.

HOMESTEAD BILL PASSED

Over Thirty-Three Million Acres Involved

WASHINGTON: The senate on the 14th passed the measure known as the "Homesestead Bill." It is a measure of far-reaching importance, particularly to the west and the interest in it was shown by the fact that a plank concerning it was a feature of the several national platforms. The effect of the bill will be to open to settlement all public lands acquired from Indians free of any payment to the government beyond the minor office fees and to release from payment those who have heretofore settled on these lands. The number of acres involved, according to an estimate made by the commissioner of the general land office, is \$2,252,541, which would have yielded the government at the prices heretofore established, \$35,843,006. To offset this settlement, it was brought out during the debate that the lands were mainly arid and those who had settled upon them were unable to make payments by reason of the scanty products of the soil. The western senator in the main favored the bill as an extension of the general homestead policy of the government. The opposition was directed mainly by Senator Platt of Connecticut, and Senator Vilas of Wisconsin. As the bill passed in the house it covered only the lands acquired from Indians in Oklahoma, but as passed by the senate the bill includes all Indian lands. The final vote showed a decisive majority in favor of the measure.

BETTER REPORTS FROM THE SOUTH THAN ELSEWHERE

NEW YORK: Bradstreet's says: Except at a few southern cities, as reported last week, wholesale prices throughout the country report a noticeable change for the better and few if any indications of improvement in the near future. Mercantile collections continue slow or moderate. Some jobbers at Chicago, St. Louis, Baltimore and other large cities report an increased demand for dry goods, hats, shoes, hardware and groceries for spring delivery.

Big Irrigation Project

The Lincoln and Dawson County Irrigation Company met at Goldenburg Saturday for the purpose of selling \$275,000 worth of district bonds as advertised, and to contract for the construction of the big ditch. A number of prominent contractors were present to bid on the work. The bonds were sold to L. E. Doty of David City, at 95. The work will begin as soon as arrangements can be made to get the machinery and material on the ground for its construction and will be pushed to completion as soon as possible. In sixty days men will be working all along the line. The main canal is to be fifty-six miles long, with about 115 miles of laterals, and its capacity is 450 cubic feet of water per second, which is calculated to irrigate 40,000 acres of land, the amount of land in the district.

Corn Crisis Are Overlooking

The awful condition of the weather was not bad enough to stop corn from coming to market for the farmers. For left days the average number of loads of corn marketed at this place each day exceeded 100. The Chicago Packing company already has five cribs, that average 150 feet long and ten feet wide and ten feet high, with the sixth in process of erection and lumber on the track for the seventh; another eastern firm has nearly the same amount of crib room in the eastern part of town. The estimate of the 1886 crop for Exeter township alone, is placed at around 60,000 bushels.

Killed by Burlington Flyer

W. E. Dougherty, 32 years old, was cut to pieces by the Omaha flyer in the B. & M. yards at Lincoln. Mr. Dougherty was foreman of the Burlington freight depot. While engaged in marking some six or eight cars on the foreign track he stepped over from between them directly in the way of No. 4, then approaching on the main track. The engineer blew three short, warning whistles, upon which Dougherty stepped promptly into the center of the main track. It is believed that this was an absent-minded act, and that he thought he was stepping on the sidetrack.

Sells Spectacles to Farmers

An agent who has made his headquarters at McCool Junction for a couple of months has succeeded in selling a large number of pairs of spectacles to the farmers, their wives, and even the children and the hired men. He has taken in the neighborhood of \$1,000. Men and women who have never thought of the necessity of wearing glasses have paid \$4 to \$12 for a pair, and many of them have invested in an extra pair as well.

Transfers His Stock and Is Sued

Joseph F. Welch of Nebraska City dispatched by his lumber yard, fixtures and machinery to W. P. Montgomery. On the same day suit in attachment was commenced against Mr. Welch by the Nebraska City National Bank to recover \$1,200 worth of the bank claims is due on a note. The bank alleges that the transfer was made with intent to defraud creditors.

Church Dedicated

Sunday occurred the dedicatory services of the new German Lutheran church, nine miles southeast of Tecumseh. Rev. Mr. Alal of Sterling, and Mr. Reidermer of Omaha City were the principal speakers. The new church is a handsome structure. Fire destroyed a similar building for this congregation last spring and hence the erection of this new building.

Express Companies Consolidate

The American and Adams Express companies at Hastings have consolidated, with Thomas A. McDonald as agent. This move was made for the convenience of the companies and also to save expense. All business will be transacted from the Adams Express Company's office and two large express wagons will be kept on the go right along.

Colonel Perry at His New Post

Colonel David Perry, Ninth cavalry, recently promoted from lieutenant colonel, Tenth cavalry, has arrived at Fort Robinson. Accompanying him were Mrs. Perry and daughter and Captain M. B. Hughes, Ninth cavalry, returning from a three months' leave of absence. The colonel assumed command of the regiment and will Wednesday.

One Year for Beating His Wife

Last week Anton Bernasch of Wahoo, was tried for assault upon his wife with intent to do great bodily harm. The jury returned a verdict of guilty, and Judge Bates sentenced Bernasch to one year in the penitentiary.

Evangelist Makes Many Converts

Evangelist J. B. Wolfe is creating a stir in church and religious circles by his recent services at York. Large crowds flock nightly to the Baptist Church to hear him, and a number of converts have been made.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Retiring State Treasurer Required to Furnish all the State Funds in Cash and Turn It Over to His Successor in Office.

Nebraska Finances.

The state treasurer of Nebraska is a very busy man at present. He is receiving the \$3,000,000 from the retiring treasurer. The larger part of this is in cash in the city of Lincoln, but several hundred thousand dollars is scattered around among the state banks. According to the state depository law, all the banks are required to receive the money of the state from the retiring official. In the past it has always been held sufficient to turn over evidences of cash, such as certificates of deposit. This year it seems that the treasurer thinks the letter of the law calls for the actual cash and it will be called in for settlement and then returned to the state banks. This innovation is not due to any unusual condition, but merely a different interpretation of the law. All the banks are ready to respond with the actual cash. No trouble ever grew out of the old rule except in the case of the Capital National Bank of Lincoln. Treasurer Hill received certificates of deposit from his predecessor amounting to \$200,000. This was in 1891. The bank failed. When retiring from office he insisted on his successor receiving the deposits and so much cash. Suit followed and neither Hill nor his bondsmen have ever been forced to pay the money, though the real issue was avoided by quibbling. Nebraska state finances are in excellent condition at present.

Will Levy Direct Taxation.

Mayor Evans of Hastings says there will not be another election for voting bonds for waterworks improvements and an electric light plant. But as it is necessary for improvements to be made on the water works before long a direct taxation will be made. Under this the amount will have to be paid in about three years; whereas, had the voting of the bonds been legal, they would have had ten years' time in which to have paid the amount.

Injured in a Runaway

H. L. Smith and wife of Tarkio, Mo., were with a serious accident at Franklin, this morning. They were coming to town to take the train for their home and in some way the team became frightened and ran away, throwing both Mr. Smith and his wife out on the frozen ground, injuring them severely. A man named Scott, who was driving them to town, fell on his face, which was badly bruised, and two of the wheels passed over him.

Resolve for a Stricter Sabbath

At a mass meeting held at the York Baptist church, 400 members of the various young people's societies in that city declared that the Sunday closing law must be enforced. Resolutions were passed requesting the city authorities to see that all places of business with the exception of the drug stores, hotels, meat markets and restaurants, be closed upon the Sabbath. The assemblage agreed to stand by the city in enforcing the law.

Passed Worthless Checks

A stranger has been passing worthless checks on Falls City business men. E. P. Eversole cashed one for \$6 and Paxton & Cairn one for \$9. They contained the forged signature of Hank Shaw, a prosperous farmer living north of that town.

Two Hundred Dollars for Slander

In the case of Case against Case at Wahoo for slander, the jury returned a verdict for \$200 damages. This was an action wherein Mrs. Ida Case sued her mother-in-law, Lucretia Case, for damages in the sum of \$10,000 for slander.

Nebraska News Notes.

Madison is agitating the project of erecting a chicory factory. William Shuey of Albion has been bound over on the charge of bootlegging. The railroad business out of Tecumseh was a later in 1896 than in 1895. Rising City people are holding public meetings to agitate the beet sugar question. Some of the Chappell sportsmen have organized a gun club and purchased an outfit of traps, etc. Wayne is now assured of a beet sugar factory. Pending negotiations are rapidly having completion. J. W. Moir of Wakefield had his foot crushed by the falling of a scaffold on which he was working. J. A. Harris of Ord proposes to start a paper devoted exclusively to Nebraska real estate interests. A company is being organized at DeWitt to lease the creamery building and put the machinery in operation. Gothenburg farmers who turned their horses into the stalk fields report numerous deaths among the animals. Mrs. S. S. Willis of Gothenburg, has turned her three children over to the Orphan Home of Omaha, being unable to support them. The teachers in the Aurora schools have consented to a cut in wages rather than have the schools closed before the end of the school year. Some parties without the fear of the school board in their hearts entered the Cortland school house and stole a quantity of pencils and other little things. Some one went into the barn of George Christianson of Kearney County and shot one of his horses. The animal was not killed, but was injured so the owner was compelled to finish the job. Frank Edwards and Charles Burns, two McCool boys, started to run away from home and shift for themselves, but were captured and brought back before they had proceeded further than the next station. Stromberg merchants have agreed to close at 7 p. m. The First National Bank of Pierce has been changed to a state bank. Burglars entered the store of Chase Bros. at Mason City and after ruing the safe gave up the attempt to open it. Saturday night J. H. Galliger of Wisner defeated J. T. Stokes of Elmwood in a wrestling match which took place at Elmwood. Burglars visited the saloon of H. C. Armstrong at Bertrand and secured \$5 cents in money and a small quantity of liquor. Wisner sportsmen made a raid on the wolves in that vicinity Saturday, but at last reports all of the pests had not been exterminated. While cutting wood near South Sioux City Ed Schouten was struck by a falling tree and seriously injured about the head and shoulders. The city council of Chadron cut down the amount paid per light from \$10 to \$7 per month and the electric light company shut off the lights.

State Historical Society.

The Nebraska State Historical Society held its annual session in the chapel of the university at Lincoln the fore part of the week.

The officers of the society were all re-elected. They are: J. Sterling Morton, president; R. W. Furnas, first vice president; W. S. Summers, second vice president; C. H. Gere, treasurer; and W. H. Caldwell, secretary. The report of treasurer Gere showed a balance on hand Jan. 14, 1896, of \$2,263.05; warrants drawn, \$1,567.72; balance in state treasury, \$695.94; total balance, \$1,146.14.

Young Girl Missing in Lincoln.

Ella Ross, a young girl lately residing in Fifth, about twenty miles from Lincoln, is mysteriously missing. Two weeks since she went to Lincoln and wrote to her mother that she had secured a room at 220 North Eleventh street. Letters from her mother began to arrive at this address, but Miss Ross has as yet been there. Mrs. Ross went to Lincoln in search of her daughter, and made a pretty thorough examination of the town, but without success. Miss Ross is about 18 years of age. Her father is divorced from her mother, and is now living in Beatrice.

Declares the Election Illegal.

At the last regular meeting of the Hastings city council the city attorney decided that the last election, held for the purpose of voting \$3,000,000 bonds for waterworks improvement, was illegal. His decision was made on the grounds that the legal publication notice had only been run ten days when it should have run thirty days prior to the election. This being the case, every citizen election ever held in Hastings has been illegal, and of course, this knocks the waterworks bonds out and also the bonds for putting in an electric light plant.

Major Evans of Hastings says there will not be another election for voting bonds for waterworks improvements and an electric light plant.

DAILY REPORT OF WHAT IS BEING DONE.

Many Measures of More or Less Importance Being Introduced at the Present Session of the Sunflower Legislature.

Tuesday.

The oratorical talent of the senate was given a chance to show itself on the 12th immediately following the reading of a resolution.

Judiciary committee, McGinnis, finance, ways and means, public buildings, Johnson, agriculture, Miller, accounts and expenditures, Gondering, military affairs, Weller, municipal affairs, Howell, internal improvements, Richie, school lands and funds, Farrell, public printing, Wagoner, relief bills, Metzger, county boundaries, Leach, educational, Canada, library, Canada, claims, Deering, banks and currency, Weller, railroads, Osborn, miscellaneous corporations, Fritz, state printing, and other bills, Beal, soldiers' homes, and constitutional amendments and federal relations, Hanson, public charities, Dundas, privileges and elections, Deering, live stock and grains, Heary, miscellaneous subjects, Johnson, and societies, Deering, military affairs, Weller, homes, reform schools, home for the friendless, institute for feeble minded youth, Grohan, immigration, Mullify, mines and mining, Talbot, manufacturers and commerce, Beal, Hanson, Hanson, Beal, rules, Beal, soldiers' homes, irrigation, Fritz, standing committees, Deering, highways, bridges and ferries, Schaal.

The regular order being disposed of, the senate adjourned until 10 o'clock Wednesday morning.

The house on the 12th reached bills on second reading, and thirty-eight measures were ground through the mill. Cronk's bill, house roll No. 25, incorporates the movement to prohibit Democrats from securing recognition on election ballots. Soderman of Phelps had a woman suffrage measure. Its provisions do not include the privilege to vote at general elections for the entire ticket, but only for certain officials. The Douglas County election contest was brought up by a communication from Secretary of State Piper. Jenkins of Jefferson will lead in the defense of the Republican contestees. Two bills were introduced by Edson Rich, one of which authorizes the county of Appleton to issue saloon licenses in any new part of general circulation. House roll No. 63, by Rich, relates to the construction of roads and bridges in Douglas County. Fout of Gage, moved that Colonel Hoagland be given ten minutes in which to address the house on the merits of the curfew law, as applied to cities in Nebraska. Wooster and Pollard opposed the motion on the ground that no bill covering the curfew law was yet before the house. When a vote was taken, however, it was found that the house was largely in favor of granting ten minutes' time to Colonel Hoagland. Jenkins, from the committee on rules, of which the speaker is chairman, reported that the rules of 1895 had been adopted, with several amendments and eliminations. Rule No. 19 gives the privilege to each member to refrain from voting. As changed it compels each member to vote on all bills and questions. Wooster and Loomis opposed the change, but it was the sense of the house that rule as changed should prevail. In the midst of the debate on house rules changes the secretary of the senate appeared and informed the speaker that the senate had appointed a committee to act with a life committee from the house to consider the question of printing 1,000, 2,000 or 5,000 copies of the governor's message. Adjourned.

Wednesday.

The reading of the journal in the house on the 13th was dispensed with without much friction. The first business taken up was the motion made Tuesday evening to indefinitely postpone action on the contest case against the four Republican members from Douglas County. This motion was carried. Clark of Richardson then moved to refer the question to the committee on privileges and elections; carried. Action taken Tuesday regarding the printing of the governor's message was reconsidered and a motion to print 5,000 copies was carried by a vote of 74 to 19. Straub of Otoe presented a joint resolution on the "Maximum Freight Rate Law," and the house concurred. This resolution had been previously offered in the Senate. The committee on supplies, reported to the house that they had found supplies sufficient to carry on the business of the house, with \$500 already expended. The report also stated that a large number of paper baskets, cupboards and other articles of furniture had been carried off by members of the last house. The report was accepted after considerable talk on the question of theft. The bill appropriating \$30,000 for expenses of the Twenty-fifth session of the legislature, was ordered engrossed for a third reading by suspension of the rules. The house then adjourned.

Thursday.

The house on the 14th decided to permit the state to buy postage stamps for the members, laid down on a proposition for free daily and weekly newspapers; had

photograph taken en group, and turned over to the committee on privileges and elections the papers in the Douglas County contest cases. The most important bills introduced are as follows: to prevent extortion and injustice in the collection of debts; providing for the establishment and maintenance of a county college of science, art and industry within the several counties of the state; vesting a right in the voters of the state of Nebraska to a law petition, refer any law enacted or proposed by the legislature to a vote of the voters of such state and to reject the same by the ballot; vesting a right in the voters of the state of Nebraska to propose laws and enact the same into full force and effect for the government of the state by direct vote of the people who are qualified to vote for state officials; to prescribe the manner of such legislation and provide punishment for all offenders against the provisions of this act; to provide for the temporary issue of non-interest-bearing warrants upon the state treasurer and to provide for the redemption and re-issue of same; to provide for a presentation of the products, resources and possibilities of the state of Nebraska at the Tennessee Centennial Exposition, to be held in Nashville, Tenn., May to November 1897; to provide for the redemption of all real estate sold on execution order of all real estate decrees of courts and for the repeal of the central law in the state of Nebraska relating to real estate sold on execution and order of sale.

A number of bills were introduced in the senate on the 14th and read for the first time. The bills offered on the 13th were read the second time and referred to committees. After the noon recess the senators sat in their places while a local photographer took a couple of views of the senate chamber. Motions were agreed to placing all employees under the direction of the central law, to the sergeant-at-arms, and to request the governor to request the governor to appoint the night watchmen of the senate members of the city police force without pay. Mr. Dundas of Nemaha offered a resolution, by request, making the salaries of state and county officials 80 per cent of what they now are. The senate then adjourned.

Friday.

The bill appropriating \$30,000 for salaries of members and employees, were distributed among the members of the house on the 15th. This was the first bill printed. It was put upon its passage and passed. Following are the most important bills offered in the house: Relating to school lands and funds; to prevent the further sale of school lands and to repeal said original chapter; to authorize the state of Nebraska to erect, maintain and manage a beet sugar factory; providing for the payment of taxes in installments of not less than 25 per cent of the amount due at time of payment and repealing all acts in conflict therewith; to punish hog stealing and to punish persons receiving or buying stolen hogs, and to punish all persons harboring or concealing hog thieves. A motion to adjourn on Monday was defeated, so adjournment was taken till Saturday at 10 a. m.

The senate was unable to take up legislative business for actual consideration on the 15th because of the lack of necessary facilities. The resolution offered by Senator Dundas, relative to a 20 per cent in state and county salaries, was made a special order for Tuesday morning at 10 o'clock. The consideration of the governor's message was made a special order for 2 o'clock Tuesday afternoon. The following bills were introduced: To amend the code of civil procedure so as to provide that the owner of any real estate against which a decree of foreclosure has been rendered, or of any real estate levied upon to satisfy a judgment or decree of any kind, may redeem the same at any time before the confirmation of such sale by paying in to the court the amount bid for said real estate by the purchaser thereof together with the interest accruing on such decree or judgment; to require owners or constructors of irrigation ditches to construct bridges over the same when such ditches or canals cross a public highway; to fix commissions for selling live stock in the state of Nebraska; to prevent cruelty to children in certain cases; to prohibit the employment of any child under the age of 12 years in any store, office, shop, factory, mine or other place to exceed three months in any one year; adjourned.

Saturday.

The attempt to shut off the reading of the house journal on the 16th was a pronounced failure. Consequently it was after 11 o'clock before Wooster of Merrick moved that at the hearing of the Trans-Mississippi Exposition matter the opponents of the bill be given equal time by the finance, ways and means committee with those who favored the measure. Hull and Harlan said that the hearing should be held for the benefit of those who favored the bill. Wimblerley of Lancaster was of the opinion, however, that Wooster's motion was all right, and when a vote was taken it was found that a large majority were with him. Preceding adjournment, until 2 o'clock p. m. Monday the following bills were introduced: To regulate the manufacture and sale of cider, to prevent adulteration, deception and fraud therein and to provide penalties for violations thereof; to increase the liability of railroad companies for damages sustained by employees by reason of the negligence of other employees; to provide for the destruction of noxious weeds and for the collection of expenses incurred thereby; to fix penalties for the violation of this act; defining what shall be legal tender in the payment of debt; proposing an amendment to section 1 of article VII of the constitution of the state of Nebraska, relating to woman suffrage; to amend section 1 of article VII of the constitution of the state of Nebraska, relating to the Criminal Code, entitled "Offenses against Election Laws," and to repeal said section; to assist and develop the Iowa, Lake Shore & Gulf railroad in the state of Nebraska; to collect a direct tax on dogs for the purpose of creating a fund for the payment of the bounty on wolves, coyotes and wild cats and the suppression of the dog nuisance; to prevent desecration of the American flag; to amend section 4, of chapter XXXIX of the Compiled Statutes of Nebraska of 1887, relating to the collection of taxes; to repeal said section; to amend section 168, to provide for improving and maintaining public roads.

According to Mulhall, the consumption of sugar per inhabitant in the various leading countries of the world is as follows: Sixty-nine pounds in Great Britain and Ireland, 30 pounds in Denmark, 29 in Holland, 23 in France and Switzerland, 18 in Sweden, 16 in Belgium, 15 in Germany, 13 in Austria, 11 in Norway, 8 in Russia, 7 in Italy, and 6 pounds in Spain and Portugal.

HORRORS OF FAMINE.

APPALLING CALAMITY THREATENS THE INDIAN EMPIRE.

Millions of Human Beings May Perish, as in 1877-78, of Hunger and Pestilence—The People's Miserable Condition—Measures of Relief Devised.

Ghastly Records of the Past.

The famine prevailing in the north and northwestern parts of India is, according to the best information available, one of the most appalling calamities which has ever visited the great peninsula. The district affected is many thousand square miles in extent and the failure of the crops has been almost complete. The millions of India live from hand to mouth, and when from any cause even a single crop fails the effect is at once apparent in widespread suffering. With 1,250,000 people on the verge of starvation in the Deccan alone and the gloomiest prospects in other great agricultural provinces, the civilized world may be shocked by a recurrence of the unspeakable horror of such famines as those of 1769 and 1874-75, when people died not by the thousand or the ten thousand, but by the thousand.

The population of British India is now estimated at 240,000,000 people—twice as many as the Roman empire had as its period of greatest strength. Nearly all these millions are laborers living from hand to mouth, and the giving such surplus as they produce to support the British imperial establishment and their own priests and hereditary rulers.

India's Pitiable Condition.

At best, their condition is utterly miserable from any standpoint an American can occupy in looking at them. These strange people living in the hotbed of nations, speak a language which in some of

ing, the great leveller, brushes away distinctions like cobwebs. In the agonies of hunger they forget the religion which made them apathetic and meek, and in great crowds they throng around the headquarters of the local governments, demanding bread with a fierceness which gnawing hunger can inspire even in a Hindoo—the mildest of all slaves.

During the famine period of 1877-78 the British Government spent \$40,000,000 in attempts at relief, but in spite of all that in relief work, there were 1,500,000 deaths in a single year in the single province of Madras.

Horror of Pestilence.

But famine is not the worst—or perhaps it is truer to say, the most formidable—to the spectator, for with it comes pestilence. At its best, the Hindoo is really half starved and in a famine year he is inevitably a victim of the horrible diseases of his condition and climate. The

DYING FROM HUNGER.

ground parches under a sun which bakes it until it is dust with no drop of moisture anywhere to make even a cooling dew. The brooks vanish. The rivers become mere threads or dry up altogether. The pools of water on which the villages chiefly rely are foul at best, but in a prolonged drought the water in them evaporates until it is of the consistency of slime.

And this slime, foul with animal and vegetable putrefaction, the people must drink as the horrors of thirst are added to those of hunger. Up from the dry jun-

Hordes of Starving People Swarm the Roads in India.

The jungles near which they make their villages are full of fierce quadrupeds and yet more deadly reptiles. The deadly miasma of the marsh and the jungle saps their vitality until they are

BLEACH THEIR OATS.

Considerable interest has been aroused over the discovery that oats bleached with sulphur have been handled in the Chicago market. It is against the law of the State to use such a process, but the poor quality of the present oats crop has proved too great a temptation to certain mixers, who have brightened up the oats with sulphur to help out poor lots. The fact became generally known when insurance inspectors made a complaint to two or three concerns, and raised the insurance on certain buildings. Later all the large concerns handling oats were questioned as to whether they were using sulphur. Most of them denied it emphatically. The innocent ones in the trade are highly incensed at the use of the process by others, as it is claimed it will hurt the reputation of Chicago oats.

The question of a century celebration of the death of Edmund Burke is being mooted in Ireland.

Because he was out of money and had nothing to live for, Henry Miller (also spelled Mueller), who was formerly a prosperous butcher in Chicago, shot himself in the left lung at San Francisco and is now dying.

The premises of the Russian Oil Company at Purfleet, Eng., have been burned, doing immense damage. Cataracts of burning oil were poured into the Thames, illuminating the river from Greenwich to Gravesend. The Purfleet powder magazine and the Anglo-American Oil Company's adjacent works saved by the efforts of the fire brigade.

NATIONAL SOLONS.

REVIEW OF THEIR WORK AT WASHINGTON.

Detailed Proceedings of Senate and House—Bills Passed or Introduced in Either Branch—Questions of Moment to the Country at Large.

The Legislative Grid.

The House witnessed a sensational episode Tuesday. Mr. Johnson (Cal.), who recently made a bitter attack on Editor Hearst of San Francisco and New York, was himself made the target of an unmerciful charge by Mr. McGuire (Cal.). The words due grew out of the publication in the Congressional Record, as a part of Mr. McGuire's remarks on Mr. Johnson's speech in which Mr. McGuire defended Mr. Hearst, and without the mention of Mr. Johnson's name, detailed some matters in Johnson's early life when he resided in Syracuse, N. Y. Mr. Johnson got the floor on a question of privilege. He was at times dramatic. He denounced Mr. McGuire's attack on him as wanton and cowardly and told the story of his indictment thirty-four years ago in New York for forgery and how he had gone out to California to rear a new home and make a new name. Then with a bitter invective he paid his respects to Mr. McGuire and Mr. Cooper of Wisconsin, who characterized his attack on Mr. Hearst as cowardly. In reply Mr. McGuire said: "He whines at this attack on himself. He thinks only of himself. He does not think of the grief and anguish until it strikes himself. Why did not he think of these things when he made the charge against other who was present and who was not a member of this body. Those charges are false, and it will become the author of those charges to whine because I reply." Futile effort was made to have the remarks of both stricken from the Record. The Senate passed the day in lively political debate, upon the free homestead and fourth-class postmaster-ships.

The Senate, in executive session Wednesday, had up for a time the nomination of David R. Francis to be Secretary of the Interior, but no action was taken. Senator Vest, of Missouri, was the principal opponent of confirmation, but he was seconded by Senator Pugh, of Alabama. Senator Gear introduced a novel bill for the settlement of the Pacific railroad indebtedness, constituting the Secretary of the Treasury, and the Secretary of the Interior and the Attorney General a committee, with full power to make a settlement of the indebtedness of all the bond-sided Pacific roads to the government, upon approval of the President. After a very dull day devoted to passing bills of minor importance the House plunged into a warm controversy over a bill to tax oleomargarine and other imitations of dairy products.

The Senate Thursday passed the free-homestead bill. It is a measure of far-reaching importance to the West. The effect of the bill is to open to settlement all public lands acquired from Indians, free of any payment to the Government beyond the minor office fees, and to release from payment those who have heretofore settled on these lands. The number of acres involved is 32,252,941, which would have yielded the Government, at the prices heretofore established, \$35,343,006. The lands are mainly arid and those who have settled upon them are unable to make payment by reason of the scanty product of the soil. The Senate adjourned until Monday.

The House almost the entire day, debating the Great bill, to subject oleomargarine and other imitation dairy products to the laws of the States into which they are transported. The bill was passed by a vote of 126 yeas to 96 nays. The advocates of the measure took the view that the States should be allowed to regulate the sale of a product selling under false colors, and the opponents that the bill would establish a dangerous precedent, and invade the power of Congress to regulate interstate commerce. In a speech in support of the bill Mr. Henderson of Iowa said with much emphasis: "The opposition to this bill comes from the capitalized institutions in Chicago and Kansas City. It comes from men like Armour and Swift, who are destroying the great cattle interests of my State and other States by keeping down the price of beefs and keeping up the price of beefsteak."

The proceedings in the House Friday were very tame. It was private bill day, but the whole time was consumed in printing House bills favorably acted upon in committee, and the whole before the holidays. The widow of the late Maj. Gen. John Gibbon was the beneficiary of one of the bills passed, carrying \$100 per month, and the widow of Brevet Gen. W. A. Nichols of another, carrying \$75 per month. The free homestead bill, which came back to the House with Senate amendments, was referred, under a ruling of the Chair, to the Committee on Public Lands. At the evening session fourteen private pension bills were reported with a favorable recommendation. Among them were bills granting a pension of \$60 per month to the widow of Gen. Henry Clay Smith and \$75 per month to the widow of Gen. Henry A. Morrow. The last mentioned bill was advocated by Representative Mercer, who had the amount increased from \$50 to the amount named. A bill has been reported to the House for a subsidy of \$100,000 a year to the Pacific Cable Company of New York, in which James Scrymser and J. Pierpont Morgan are interested.

Dr. Calot read before the Academy of Medicine at Paris a remarkable paper describing a decade's experiments in straightening the spines of hunchbacks by pressure. The novelty consists of the means adopted to keep the spine straight for ten months, by which time a cure is effected.

THE INCREASE OF DIVORCE.

Severing the Marriage Tie No Longer Shocks Any One.

Twenty-five or thirty years ago divorces were so rare as to be regarded in the light of very uncommon exceptions to the general rule. The divorce law itself is not yet forty years old in England, nor twenty years old in France. In Italy there is no civil divorce whatever at the present day, and the Catholic Church only grants what are not properly divorces, but annulations of marriage, in very rare cases, and with the greatest reluctance.

Even in America every one can remember how divorce was spoken of and thought of until very recently. Within a few years it was deemed to be something very like a disgrace, and certainly a profoundly cynical and immoral procedure. To-day we can meet of us count in our own acquaintance half a dozen persons who have been divorced and been married again. Whatever we may think of it in our hearts, or whatever our religious convictions may be on the subject, it has become so common that when we hear of a flagrant case of cruelty or unfaithfulness, by which a man or woman suffers, the question at once rises to our lips, "Why does she not divorce her husband?" or, "Why does he not divorce his wife?" We have grown used to the idea, and if it does not please us it certainly does not shock us. It shocked our fathers, but we are perfectly indifferent.

Of course there are many, perhaps a minority, who, though not Roman Catholics, would in their own lives put up with almost anything rather than go to the divorce court for peace. Some actually suffer much, and ask for no redress. But there are very many who have not suffered anything at all, excepting the favorite "incompatibility of temper," and who have taken advantage of the loose laws in certain States to try a second matrimonial experiment. In what calls itself society there seems still to be a prejudice against a third marriage for divorced persons, but at the present rate of advance in civilization this cannot last long, and the old significance of the word "marriage" will be quite lost before our youngest grandchildren are dead; in other words, by the end of the next century, at the furthest.

There are various forms of honorable, political dreaming and of dishonorable, political mischief-making nowadays, which we are accustomed to call collectively "socialism." Most of these rely for their hope of popular success upon their avowed intention of dividing property and preventing its subsequent accumulation. Marriage is an incentive of such accumulation, because it perpetuates families, and therefore keeps property together by inheritance. Therefore all forms of socialism are at present in favor of divorce, as a means of ultimately destroying marriage altogether. A proverb says that whose ever desires the end desires also the means. There is more truth in the saying than morality in the point of view it expresses. But there are those who desire neither the means nor the end to which they lead, and a struggle is coming the like of which has not been seen since the beginning of the world, and of which we who are now alive shall not see the termination. From "A Rose of Yesterday," by Marton Crawford, in the Century.

No Danger for Him. A certain doctor had occasion, when only a beginner in the medical profession, to attend a trial as a witness. Counsel, in cross-examining the young M. D., made several sarcastic remarks, doubting the ability of so young a man to understand his business. "Do you know the symptoms of concussion of the brain?" asked the learned counsel. "I do," replied the doctor. "Well," continued the attorney, "suppose my learned friend, Mr. Bagwig, and myself were to bang our heads together, should we get concussion of the brain?" "Oh," replied the learned friend, Mr. Bagwig, "I should," said the doctor, quietly.

Chapped Skin in Warm Countries. Travelers in Africa tell of a custom almost universal among the natives—that of anointing the body with oil. At first thought—especially to those who have never been in Africa—it seems a dirty habit. It seems, however, that the Africans use the oil to prevent chapping of the skin. The hot winds of the Nile region will chape badly as the "norther" of the colder climates and it is not an uncommon thing—if something is not done to prevent it—for the skin to crack open until the blood flows.

A Furniture Mystery. Mrs. Wiggy—That family which has moved in next door must be either rich or very poor.

Wiggy—Why? Mrs. Wiggy—Their furniture was all done up carefully in sheets and blankets and I don't know whether it was done to hide its shabbiness or to protect its beauty.—New York Tribune.

A Question for Prophets. Gazway—Speaking of the world being round, there's one thing that bothers me.

Jinzy—What's that? Gazway—If it's true that it's round, how is it possible for it to come to an end?—Roxbury Gazette.

The Trouble. She (delightedly)—Papa says if we want to get married he'll pay half the expenses of furnishing a house for us.

He (despondently)—But who the devil would pay the other half?—New York World.

Every citizen who is interested in the Y. M. C. A. of our town (and this ought to include every person in Wayne) should make it a point to attend the regular afternoon meeting at their new hall, next Sunday at 3:30 p. m. For the past two years, since an organization of the Y. M. C. A. was started in Wayne the meetings have been held in Mellor's hall and the court house and only an hour on Sabbath afternoon has been devoted to the interests of the association. We have had no home, only a temporary meeting place. With the beginning of a new year the members have determined, if possible, to carry into execution some plans and ideas which they have for sometime desired to realize but until now have not seen their way clear to carry out. We want a place that we can use as an association hall for our home; a place open to our young men not only for an hour of religious service on Sunday afternoon, but a place open every day in the week for social intercourse, instructive reading, physical development and general helpfulness. With these desires in view a committee of the association with our energetic president as leader has secured the building on Main street which served as republican drill room last fall and it is now being put in shape to meet the requirement of a first-class Y. M. C. A. headquarters. The main hall or audience room will seat probably 200. Back of this and separated by curtains will be a reading room. Here pictures, rugs, a few easy chairs and anything in the way of adornment or comfort will be gladly accepted. Books, magazines, papers, periodicals for the tables are expected to be supplied and any who feel so inclined are requested to contribute in this line. It is hoped also that some arrangements can be made to interest the young men in gymnastic exercises and if practicable a class will be formed and a start made in this direction. The meeting for next Sunday will be an open meeting and the ladies of Wayne and everybody interested are cordially invited to be present. An appropriate program will be prepared.
