

DAILY REPORT OF WHAT IS BEING DONE.

Many Measures of More or Less Importance Being Introduced at the Present Session of the Sunflower Legislature.

Tuesday. The proposition to make a horizontal reduction of 20 per cent. in the salaries of all state and county officials and employees was quickly laid away by the senate on the 19th.

Wednesday. The house spent the greater portion of the morning of the 20th on the Omaha test cases. This was debated freely and a vote was taken at 11:30. The vote resulted in 57 to 28 against, and the speaker declared it carried.

Thursday. Not much business was transacted at the forenoon session of the house on the 21st but the afternoon session was quite interesting.

Friday. The following house bills were reported for passage by the standing committees: No. 31, to regulate mutual plate glass companies; No. 24, providing for the inspection of bridges; No. 37, imposing terms on which ditches or canals may be constructed.

the session since the opening week. After the journal had been read and approved, Mr. Beal, Populist of Custer, offered a resolution recommending the passage of a law authorizing the investment of county sinking funds in county warrants.

Friday. The following house bills were reported for passage by the standing committees: No. 31, to regulate mutual plate glass companies; No. 24, providing for the inspection of bridges; No. 37, imposing terms on which ditches or canals may be constructed.

Monday. It was considerably after the regular hour when Speaker Gaffin called the house to order Monday afternoon, and even then many members were not in their seats.

Tuesday. The proposition to make a horizontal reduction of 20 per cent. in the salaries of all state and county officials and employees was quickly laid away by the senate on the 19th.

WHY BUSINESS HALTS

IT IS NOT BECAUSE OF BANK FAILURES.

Distrust Is Bred in Other Quarters; Notably the Jingo Corner of the Senate—Kansas Makes a Move Against Wild-Cat Corporations.

Why Business Revival Is Retarded. The failure of the National Bank of Illinois, followed as it was by other suspensions, until twenty-eight banks had closed their doors, has caused considerable comment among those who supported Bryan in the last election.

The National Bank of Illinois was looked upon as one of the solid financial institutions of the country. So general was this confidence that the deposits amounted to nearly thirteen millions of dollars. The failure resulted wholly from mismanagement.

Such failures must occur so long as it is impossible to secure more effective supervision of the affairs of the national banks. The statements presented by the boards of directors must be accepted as correct, and any irregularities that do not appear in these statements cannot be discovered by the Government officials.

Monday. It was considerably after the regular hour when Speaker Gaffin called the house to order Monday afternoon, and even then many members were not in their seats.

Monday. It was considerably after the regular hour when Speaker Gaffin called the house to order Monday afternoon, and even then many members were not in their seats.

McKinley Over Bryan. The plurality for McKinley over Bryan's total on his two tickets is 618,742. In comparing the last election with previous ones, however, the fact should not be overlooked that women voted for President in November for the first time in both Colorado and Utah.

The Tribune Almanac makes McKinley's total 7,105,729, and the aggregate for Bryan and Sewall and Bryan and Watson 6,491,977.

John Sherman in the Cabinet. The selection of John Sherman to be the premier of the new administration is a gracious and fitting compliment from the President-elect to his faithful friend and counselor.

John Sherman in the Cabinet. The selection of John Sherman to be the premier of the new administration is a gracious and fitting compliment from the President-elect to his faithful friend and counselor.

Chunks of Sense. The hard-headed editor of the Emporia Gazette is giving the people of Kansas many good chunks of common sense, which, if they take them to heart, will do more for the State than all the oratory of Governor Leedy.

New Sectionalism in the West. The Western socialists, with Governor Waite of Colorado for a spokesman, threatened to slaughter the Shylocks and money-grabbers of the East.

Political Paragraphs. If Mr. Bryan's book ever is dramatized, will the play be a farce, a burlesque or a tragedy?

Ex-Governor Waite has retired to private life. How much better it would have been for him and for Colorado if he had never left it!

Mr. Watson has a streak of meanness in his make-up, because he is inclined to taunt Mr. Palmer because he got only 132,000 votes, while Mr. Watson got 152,000.

Mr. Bryan continues to make capital out of the recent bank failures, but an inspection of his lecture accounts will prove beyond any question that it is still much harder to get money into a bank than to get it out.

It is announced that "Ambassador Bayard on his return to this country will reform the politics of Delaware."

A man who was for some years in the log and lumber business on the shores of Lake Michigan tells a little incident illustrative of the Irishman's unwillingness to acknowledge his ignorance of any subject.

One day a young Irishman applied for work. "Can you raft and boom logs?" asked the lumber merchant.

"Ay course, sorr," returned the unemployed, with cheering promptness.

"Well, then," said the lumber merchant, "go up on the gap above the railroad bridge and boom all the logs you find with my mark. Any of the raftsmen will tell you about the mark, the locality of the gap, and so forth."

In India sugar sap is reduced by the use of eleven boilers, the juice being poured from one to another, until it has become a stiff molasses.

TOPICS OF THE TIMES

A radish eighteen inches in length has been grown near Wigan, Germany, which is said to be in the exact form of a baby, even to the fingers and toes.

The East-London Water Company has issued a notice forbidding the use of garden sprinklers and all similar apparatus. A drought in London is imminent.

In some parts of England when you haul a drowning man out of the water you get nothing, but if you let him drown and then haul him out you get 5 shillings.

More than 10,000 persons are engaged in the manufacture of explosives in England. Last year forty persons in the business were killed and 107 injured by accidents.

Lifecoats are now being made in some quarters out of pumice-stone. This is a material of great lightness and strength, and a boat made thereof will support a considerable load, even when full of water.

Madrid schools are so bad that German residents of the city have united to establish a school where their children may obtain as good an education as in more civilized parts of Europe for a reasonable outlay of money.

A feather bed on which they were sleeping, saved the lives of two women at Boone Grove, Md. Lightning struck the house, hit the bed, set the shuck mattress in a blaze, but the feathers diverted the electricity from the women.

According to a Swiss contemporary an engineer named Tanze has just invented a new process of tempering steel by electricity which not only makes the steel much harder but at the same time gives it the proper elasticity; that is, it is not brittle like steel made very hard by the usual process.

Librarians are at work cataloguing the Indian library of the British India office, and when finished the library will be the most complete for oriental scholars probably in the world.

A non-poisonous match has been devised by a French chemist, potassium permanganate and amyl acetate being among the inoffensive ingredients.

There are many authenticated examples of increased power of mind during sleep. One of the best known is that in which the great naturalist Agassiz successfully reconstructed from certain remains the skeleton of a fossil fish, at which he had been working unsuccessfully in his waking moments for several hours.

A recent issue of L'Energie Electrique gives the following mixture for cleaning the parts of machinery, which it states attacks the hardest crust of hardened oil: Boll the parts for three minutes in a solution of 150 parts of sodium carbonate and 15 parts of caustic in soda in 1,000 of water, after which rinse and dry the metal.

A statistician who has been interesting himself in the population of the earth says that 32,214,000 annually; that is, an average of 98,840 a day, 4,010 an hour and 67 a minute. The annual number of births, on the other hand, is estimated at 30,792,000; an average of 100,800 a day, 4,200 an hour and 70 a minute, so that the population is increasing at the rate of three to the minute.

A sensational discovery has been made by the appeals and transfers committee of the city council of Cumberland, Md., which involves the taxation of over \$70,000 worth of property in South Cumberland. It appears that a boundary stone had been moved in, and for some years property owners have been evading taxation.

Horseflesh as Food. Hippobaghy—or, to speak less euphemistically, the habit of eating horseflesh—is spreading on the continent.

A druggist of Winamac, Ind., received another order the other day from President Cleveland for three boxes of fish-hooks for bass fishing in the sea. With the order is a letter from the president stating that "the last ordered had been received and used by himself and Secretary Thurber with good results."

Many acquired a taste for the meat, and the demand for it did not cease with the capitulation of the city. Horseflesh, too, is much cheaper than beef. Beef in Paris is worth about tenpence a pound, while horseflesh can be had for about fourpence a pound.

Once planted in Paris, the habit spread to other continental cities, especially Berlin, where horseflesh is now consumed in considerable quantities by the poorer classes, and the medical authorities and humanitarians are raising their voices against what they justly consider a somewhat barbarous and dangerous custom.

At a recent meeting of the Paris Academy of Medicine M. Guinkoff stated that he had successfully photographed the interior of the eye. The advantages of this method are important, since it enables actual pictures of the disease of the retina to be secured and compared from time to time to determine whether disease processes of the eye progress or not.

The Orange Free State is very nearly as large as England and just as large as the state of New York. It lies from 4,000 to 5,000 feet above the sea, and is mostly level, with some low ranges of hills. The surface is bare of wood, except in a few sheltered spots along the streams, but is well covered with herbage.

4,000 to 5,000 feet above the sea, and is mostly level, with some low ranges of hills. The surface is bare of wood, except in a few sheltered spots along the streams, but is well covered with herbage.

When one is lying down the heart makes about ten strokes less a minute than when one is upright. That means a saving of 800 strokes per hour, or about 5,000 heart beats during the eight hours spent in bed.

The statistics of crime in France are several years in arrears; those relating to 1893 were published about a month ago. They are complete and special attention has been paid to the offenses against the established rules of society by French women.

According to the statistics, 4,289 accused persons in 1893 in France, 3,673 were males and 596 were females, a proportion of six to one. In other words, women were responsible for 14 per cent of the crimes committed.

In pursuance of a traditional custom of the court of Spain, a magnificent royal coach, drawn by six horses, accompanied by grooms and outriders in full livery, was recently driven to the palace on the Castellana, occupied by the Duke of Hajar.

Librarians are at work cataloguing the Indian library of the British India office, and when finished the library will be the most complete for oriental scholars probably in the world.

There is a group of islands to the south of New Zealand called the Sisters, or Seven Sisters, which are reputed to be subject to a practically constant rainfall. The same may be said of the islands and mainland of Terra del Fuego, saying for the difference that the rain often takes the form of sleet and snow.

The Complaint of the People.
The complaint of the people is not against the Administration for borrowing money and issuing bonds to preserve the credit of the country, but against the tariff policy which has made this necessary.—William McKinley.

This is a fact which President Cleveland and his Secretary of the Treasury don't seem able to get into their heads, but it is a fact just the same. The issue of bonds have been condemned, not for themselves, but for what they represent—a national policy ruinous both financially and industrially. There is not a single person in the country who would not vote to issue bonds when necessary to uphold the credit of the Government. What they condemn is that system which does not, in time of peace, provide enough revenue to meet the current expenses of the Government. For nearly thirty years previous to 1892, ever since the close of the Civil War, a deficit in the public treasury was unknown; the national debt was reduced, not increased. We can do it again as we did it then, under a Protective Tariff, and the people know it. What they wanted was a change from the debt-producing system of partial Free-Trade to the debt-paying system of Protection.—American Economist.

Give us corn rates, or give us steer rates—that's what we are here for.

POISONING THE FOUNTAIN.
If the fountain of life is its very source, no health in the body. Woman has any weakness, a special organism of her sex, the fountain of her physical existence is her own health; she cannot in any respect be diseased until this vital trouble is cured.

The family physician may make the very error of ascribing all the trouble to superficial causes; he may prescribe for neuralgia, indigestion, or headache, when these are merely symptoms of some deep-seated malady of the distinctly feminine organs.

Any woman suffering from these delicate complaints may be completely cured right in the privacy of her own home (without recourse to mortifying examinations and "local treatment") by Dr. Pierce's Favorite Prescription.

It gives health to the special organism of womanhood. It purifies all diseased conditions; gives elastic strength to the ligaments, and vitality to the nerve-centres. It promotes good digestion, sound sleep, and freedom from pain.

It is the only medicine devised for this purpose by an educated, skilled specialist in this particular field of practice. It is the only medicine which insures prospective mothers against the dangers and sufferings of motherhood.

Dr. Pierce's thousand-page illustrated book, "The Peoples Common Sense Medical Adviser," contains several chapters devoted to the special physiology of woman, with advice and suggestions for self-treatment which every woman ought to read. A paper-bound copy sent absolutely free on receipt of an eight-cent stamp to pay for mailing only. C. C. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Five more weeks of "good old democratic times" and "clover" and nine cent corn.

The fall wheat crops in some of the states has been damaged by the severe cold wave of the past week.

The Indiana Legislature thirsts for the blood of corporations, and especially trusts. The trusts must go.

There is very little heard nowadays about the "gold reserve" since the election. There will be no more bond issues.

The Times Herald says: "No one in Nebraska or Iowa was lynched in 1896. Let us hope these two states will make a better record in the future."

Up to date Weyer doesn't seem to have driven the Cubans into the sea. On the other hand the butcherer is kept pretty busy keeping out of danger.

Corbett and Fitzsimmons are scheduled to fight, but with the present price of corn few people would care if both should get knocked out—so that they would never return.

The democratic free trade idea of capturing the markets of the world doesn't seem to have supplied the farmers with a market for their corn. In fact, it has ruined the home market.

Speaker Reed proposes to sit upon the appropriation bills providing for public buildings. Thus the prospects for public buildings in many of our enterprising cities has "gone glimmering."

The Nicaragua Canal bill is receiving more attention at the hands of Congress than most any other measure, and it is a question in which the people of the United States are greatly interested.

The government has begun proceedings to foreclose the mortgage on the Union Pacific railway. Thank the Lord, may this tiresome question finally come to an end. A tired people will rejoice when that glad day arrives.

Just why people should be starving to death in other countries when corn here will not sell at 10 cents per bushel is a mystery. Thousands and thousands of bushels of it lays on the ground rotting, while famine and black plague are destroying the people of India by the thousands.

Ross L. Hammond of the Fremont Tribune, is mentioned for the office of Public Printer at Washington. Ross is straight as an arrow, and is a daisy, but as he failed to sweep the state into the republican column last fall, it's doubtful if his pen is ever used in editing the famous Congressional Record, so well known for what it does not contain.

It is given out, apparently by authority, that Senator Thurston is to have charge of the legal phases of the new tariff bill which is now being framed and which will be passed at a special session of Congress called immediately after the 4th of March. This may be regarded as a high compliment to the legal and political standing of Nebraska's junior senator at Washington. Fremont Tribune.

Ex Governor Altgeld of Illinois, died hard, but he is dead. Prior to repairing to his last resting place, however, he fires one parting shot at the republican party and declares in weird tones that there were 213,000 fraudulent votes cast in Illinois, his own state, think of it! He also avers that the same thing occurred in Ohio and other states, that Bryan carried Ohio by not less than 40,000, and asserts that Bryan was elected. Oh dear! how sad. But how will the Governor account for the large gain in the vote in Nebraska? Did Bryan carry the state by fraudulent votes? We believe not, although there might have been a good many corn-bushers here from the silver mining states, who were not entitled to vote.

The quicker the trusts are smashed the quicker an enraged and abused people will recover from the depression that continues to exist.

That Senator Thurston will be one of the central figures in the McKinley administration, becomes more evident every day, but it will take a long time to overcome the damage done to the state because of the manner in which she cast her electoral vote.

A bill has been introduced in the legislature redistricting the state according to the populist idea. Wayne Cuming and Stanton will comprise the Ninth Senatorial district and will be entitled to one Senator. If the bill passes as introduced Wayne county will be entitled to one representative and will be known as the thirty-seventh district.

Lincoln, Neb., Jan. 20.—In the senate today Mr. Canaday, of Kearney, introduced a concurrent resolution reciting that, whereas, great distress now exists in Chicago, that the people of Nebraska contribute of their surplus of the products of the state to the relief of the needy of the great city. The resolution names John P. Altgeld as the person to whom the supplies are to be sent. The railways are asked to carry the supplies free.

If the Cramps, who are famous as ship builders, establish two factories in the west to manufacture cornstalks into material for gun boats, etc., as they announce their intention of so doing, Wayne desires to extend them a warm invitation to establish one of the factories here. Wayne county is the greatest place on earth for cornstalks. They grow as high as eighteen feet or less, and many of them measure a foot thick. Oh, Wayne's a great place for a factory of the sort, do ye? mould that.

The sugar planters of Louisiana and the manufacturers of beet sugar from Nebraska have urged Protection for their industry. If one followed the tactics of the Free-Traders, one might ask what these men had done to deserve anything at the hands of the party of McKinley. But the system of Protection is not one which is regulated by the electoral votes of the several States. It is the "American system" in the fullest sense of the word. It is enough that an industry is an American industry and that it needs Protection for it to receive that Protection which it needs at the hands of the Republican party, however the electoral vote of the State in which it is situated may have been cast. The sugar raisers and sugar manufacturers of Louisiana and Nebraska may rest assured that they will receive from the Ways and Means Committee of the next Congress what Protection is needed by the sugar industry just as surely as if their States had cast their electoral votes for Protection and McKinley instead of for Free-Trader Bryan.—Economist.

Ballard's Snow Liniment.
This invaluable remedy is one that ought to be in every household. It will cure your rheumatism, neuralgia, cuts, sprains, bruises, burns, frost-bite and ears, sore throat and sore chest. If you have lame back it will cure it. It penetrates to the seat of the disease. It will cure stiff joints and contracted muscles after all other remedies have failed. Those who have been crippled for years have used Ballard's Snow Liniment and thrown away their crutches and been able to walk as well as ever. It will cure you. Price 50 cents. Sold by Wilkins & Co.

FOR SALE OR TRADE—A good corner business lot near the Rock Island Depot in South Omaha. Will trade for farm land. Inquire at this office.

A Sound Liver Makes a Well Man.
Are you bilious, constipated, or troubled with jaundice, sick headache, bad taste in mouth, foul breath, coated tongue, dyspepsia, indigestion, hot dry skin, pain in back and between the shoulders, chills, fever, &c. If you have any of these symptoms, your liver is out of order, and your blood is slowly being poisoned, because your liver does not act promptly. HERBINE will cure any disorder of the Stomach, Liver or Bowels. It has no equal as a liver medicine. Price 75 cents. Sold by Wilkins & Co.

Advertisement List.
The following is a list of letters etc., remaining in the Post Office at Wayne, for the week ending Jan. 26, 1897:

E. H. Crosby, Miss Emma Engel, A. E. Ingram, Jake Casper, Adolph Larsen John Pierce and Emma Soderburg.

Parties calling for above give date when advertised. A. P. Childs, P. M.

What is a Guarantee?
It is this. If you have a cough or cold, a tickling in the throat which keeps you constantly coughing, or if you are afflicted with any chest, throat or lung trouble, whooping cough, &c., and you use Ballard's Horehound Syrup as directed, giving it a fair trial, and no benefit is experienced, we authorize our advertised agent to refund your money on return of bottle. It never fails to give satisfaction. It promptly relieves bronchitis. Price 25 and 50 cents. Sold by Wilkins & Co.

A Furnace
FOR
\$30.00

Is something almost unheard of in the history of heating but we have been making a Splendid Economical Furnace for that money for three years with a steadily increasing business. Over thirty of them in use in the city of Norfolk and every one of them working satisfactorily. We make them in three sizes—small enough for a cottage or large enough for a church or store building. It does not make any difference whether your house was arranged for it when it was built or not. If you want to heat the second story of your house and do not want the large hot air pipes going to the upstairs through your rooms, we will heat the second story with one of our combination Hot Water and Hot Air Furnaces. We will give you net price on your heating plant complete. All you need to do is to "touch the button." Correspondence solicited.

Advertisement List.
The following is a list of letters etc., remaining in the Post Office at Wayne, for the week ending Jan. 26, 1897:

E. H. Crosby, Miss Emma Engel, A. E. Ingram, Jake Casper, Adolph Larsen John Pierce and Emma Soderburg.

Parties calling for above give date when advertised. A. P. Childs, P. M.

What is a Guarantee?
It is this. If you have a cough or cold, a tickling in the throat which keeps you constantly coughing, or if you are afflicted with any chest, throat or lung trouble, whooping cough, &c., and you use Ballard's Horehound Syrup as directed, giving it a fair trial, and no benefit is experienced, we authorize our advertised agent to refund your money on return of bottle. It never fails to give satisfaction. It promptly relieves bronchitis. Price 25 and 50 cents. Sold by Wilkins & Co.

A Furnace
FOR
\$30.00

Is something almost unheard of in the history of heating but we have been making a Splendid Economical Furnace for that money for three years with a steadily increasing business. Over thirty of them in use in the city of Norfolk and every one of them working satisfactorily. We make them in three sizes—small enough for a cottage or large enough for a church or store building. It does not make any difference whether your house was arranged for it when it was built or not. If you want to heat the second story of your house and do not want the large hot air pipes going to the upstairs through your rooms, we will heat the second story with one of our combination Hot Water and Hot Air Furnaces. We will give you net price on your heating plant complete. All you need to do is to "touch the button." Correspondence solicited.

LOST—A note for \$43.25, payable to
 Phil Sullivan, and dated Jan. 9, 1895.
 The finder will please leave at this
 office or return to Phil Sullivan.

Jens Anderson was initiated into the
 Woodmen order Saturday evening and
 is now a full-fledged member.
 A. C. Van Horn has treated himself
 to a new suit of clothes bought of H.
 Bassford, the enterprising merchant.
 Charley Cox, who has been visiting
 relatives for some time, returned to his
 home at Harlan, Iowa, last Monday.
 Rev. Berkley and estimable lady left
 for Craighton today where Mr. Berkley
 will take up his work as pastor of the
 Baptist church of that place.
 H. E. Evans of Wayne, came up to
 Carroll Saturday evening and visited
 the Woodmen Lodge which is enjoying
 a boom at present of fifty or sixty new
 members.

MT. HOPE.
 Mt. Hope lyceum is a success.
 Mrs. A. P. Sarber is on the sick list.
 Harvey Spahr and wife have moved
 to Wayne.
 Joe Atkins has purchased another
 car load of feeders.
 Silas Melick arrived home from Way-
 ner, Neb. Saturday.
 Mrs. Roy Huff visited at the home of
 her parents, Mr. and Mrs. Atkins, last
 week.
 Mr. and Mrs. Angle have decided to
 remain here the coming season instead
 of leaving for Missouri.
 Eli Laughlin and George Porter had
 a hog shipped from Russell, Iowa, and
 they think he can't be beat.
 Mrs. Doc Sarber received word from
 Carson, Iowa, that her father is very ill
 and there is no hope of his recovery.
 Mrs. Bert Brown visited at the home
 of C. C. Brown a few days last week
 and Bert was seen traveling homeward
 Saturday eve.
 Farmers are busy trying to solve the
 problem—how to live and pay debts
 with corn at present prices—problem
 still unsolved.

CARROLL.
 Some of the Brown boys are visiting
 in this section at present.
 There will be a meeting of the M. W.
 A. on Thursday of next week.
 One of James Stephens' boys west of
 Carroll is very sick. Dr. Love is at-
 tending to him.
 Mr. Shafer, the dray and livery man
 of Carroll, is unloading lumber for the
 E. & B. Lumber Co.
 Protracted meetings this week at the
 M. E. church, conducted by Rev. Muel-
 ler and assisted by Rev. Schafer of
 Wakefield. Everyone come and help
 along the good work.

GARFIELD.
 Jake Knouse in visiting relatives in
 Harlan, Iowa this week.
 Tred Alsted and Will Roggon were
 hauling hogs to Hoskins Friday.
 Joe Dobbin added seventy-four head
 of stock cattle to his herd this week.
 Oscar Case gave a dancing party at
 his house on Tuesday evening.
 Joe and Chas Dobbin were at the
 county seat on Friday and Saturday.
 John Knouse and Cornelius Davis
 were doing business in Wayne Satur-
 day.
 Mr. and Mrs. S. C. Davis of Allen
 are down on a visit with her folks, the
 Knouse family.
 Mrs. Zieman left for Sioux City Sat-
 urday, where she will remain for some
 time with her sister.
 The festive rabbits are numerous
 hereabouts. G. W. Swagert killed
 twenty-one in one forenoon not long
 since.
 A spelling school has been organized
 by the people in the Center school
 district which meets on Saturday
 nights.
 Lizzie Kendrick is home from Beat-
 rice on a visit with her parents. She
 is an employe in the state asylum for
 the feeble minded.

Claud Stinson, of Wakefield, visited
 a few days last week with his sister
 Miss Francis who teaches in the Walk-
 er district.
 Joe Macauley of Chicago, is enjoying
 an extended visit with his sisters, Mrs.
 A. A. Bell of these parts, and Miss Alice
 Macauley of Winside.
 Ervin and Howard Farner left on
 Saturday by team for their home near
 Hastings. Ervin will return in a few
 weeks with his team and implements
 preparatory to farming land adjoining
 Lot J. Hughes.
 The Garfield literary society held a
 very successful meeting on Friday
 night. Their meetings are held alter-
 nately in the Maze and Walker school
 houses. At the next meeting for Maze
 an excellent program has been pre-
 pared, consisting of a debate, dialogue,
 recitations, songs and music galore.
 All are welcome.

SHERMAN.
 A dance was held at the home of J.
 Conn last Friday night.
 John and Bert Francis left for Box
 Butte county to buy some cattle.
 Dan Davis and George Edwards were
 in the city of Randolph Saturday.
 Miss Bessie Winterburn visited with
 her parents at Wayne Saturday.
 There will be a spelling school every
 Saturday night at the Davidson school
 house.
 A birthday party was given at the
 residence of T. J. Thomas last Thurs-
 day evening.
 Quite a number of our young folks
 attended the literary at Maze school
 house last Friday night.
 Will Ralston, the foreman of the
 Wadsworth ranch, and Guss Bonboure
 were in Wayne Monday.
 Evren Forner who has been in this
 vicinity for some time, has returned to
 his home in Hastings.
 Mr. Hoguewood who is working in
 the interests of the M. W. A. in this
 vicinity is meeting with good success.

Electricity in Dentistry!
 Having recently purchased an elec-
 tric apparatus by the use of which sen-
 sitive teeth can be filled without pain,
 I will be pleased to explain the method
 to any one suffering from decayed
 teeth. T. B. HECKERT, D. D. S.
 Notice to Teachers.
 I shall be in my office on Lincoln street
 every Monday and Saturday except when
 there are teachers' meetings, and all other
 days when not visiting schools or attending
 to other matters connected with them. On
 the third Saturday and preceding Friday of
 each month I will examine all applicants for
 certificates. Teachers, officers and patrons
 are cordially invited to call often at the su-
 perintendent's office or correspond with her.
 Directors should request needed supplies
 early, always stating the quantity wanted.
 Myra D. Fletcher, County Sup't.
