The parlor musical given at the College Monday evening by Miss Nellie Stewart's music class was very fine. The program consisted of piano solos, vocal solos, piano duets, trios, quartets, and a piano and organ duet. The students as well as their instructor, deserve much praise for the ease and grace with which they performed each part on the program. The piano duet by Miss Minnie Burson and Ross Cunningham was exceptionally fine. At the conclusion Miss Bessie Winterburn, in behalf of the music class presented Miss Stewart with a gold chain.

While on the way to town Monday Mr. and Mrs. True Prescott and baby met with a severe accident, and one which may prove expensive to the county. The bridge being out on the road about 1/4 mile south of the Ran Frazier place, they drove around and in crossing the ditch which is in bad condition, Mrs. Prescott and baby were thrown out of the buggy. The baby was not badly hurt but Mrs. Prescott sustained a broken wrist and the elbow of her other arm was dislocated. After reaching the city they went to Dr. Williams office where the fracture was reduced. The bridge has been out about six weeks, and just where the blame lies we are not prepared to say.

A large crowd of people were in the city on Saturday and many of them attended the Perry & Mathews circus which was, aside from the band, about all that it was not advertised to be, a fake. In the evening the crowd was very slim. During the day Sheriff Reynolds had issued an execution against the show and from that time until they departed for Pender Sunday afternoon they were in a turmoil, and for a while it looked as though the "big tent" was booked to remain in Wayne. Many bills were unpaid, the laborers struck, etc., and it was not until nearly noon Sunday that they got matters adjusted and left for Pender. The fakers that accompanied the show were not allowed to do business, and it might be well to announce here that much credit is due Mayor Ley, Sheriff Reynolds, Marshall Miner and assistants for the splendid manner in which they handled the matter. No thefts occurred, and we heard no complaints from any source.

MEMORIAL DAY SERVICES.

A Large Audience Listens to An Able Memorial Sermon Delivered at the Opera House by Rev. H. H. Millard.

On Sunday, Memorial services were held at the opera house under the auspices of the Grand Army, and more than seven hundred people were in attendance. The memorial sermon was preached by Rev. H. H. Millard who took for his text the words from the scripture "God Reigns." It was one of the most eloquent and interesting memorial sermons ever preached in Wayne, and was listened to with the closest attention throughout. The music by the choir was choice and Wayne has just cause for being proud of her singers. The old soldiers assembled at the court house and marched in a body to the opera house and it presented a stirring scene as they marched down the aisle to their seats. The stage was beautifully decorated with flags, bunting and flowers.

Monday, May 31st, will pass into history as a memorable event in the city of Wayne. It was the day when the people assembled from far and near to commemorate the death of the heroes of the late Civil War, and, although the day was cold a large crowd of people witnessed the Decoration Day exercises, which, owing to Sunday being the 30th, were arranged for on the above date. The business men and all citizens felt the inspiration which filled the old veterans on this day, set apart by the nation to pay tribute to those who fought for a just cause in behalf of our beloved country, and flags and bunting were visible everywhere. At the hour of 1:30 the procession began to form on Main street under the supervision of Commander Stringer of the Casey Post of this city, aided by Marshal A. W. Taylor, with the Wayne Corn Palace Band at the head. Next in line came the firing squad under command of Burr Cunningham. Following the firing squad was a large number of little girls, comprising the decorating committees led by Postmaster Childs. They were in five divisions under the supervision of Misses Matthews, Mary Mettlen, Carrie Stringer and Etta and Gertie Cullen. Some forty in number, under Captain Matthews and Assistant Bert Brown. Following the brigade came the civic societies, comprising the Modern Woodmen, Ancient Order of United Workmen, Masons and Odd Fellows, each division having a large number of men. Next came the Grand Army Drum Corps followed by the old veterans, about seventy in number, many of them though feeble, marching in a manner showing that they had not forgotten the march of long ago. Behind these came citizens in carriages and wheelman. The march to the cemetery began at 2:00 o'clock as the band played the funeral march "Clinging Memories." It was the largest procession ever witnessed in the city on Decoration Day.

On reaching the cemetery the graves of the old soldiers were decorated and the programme carried out according to the ritual of the Grand Army of the Republic. The veterans who are buried in the Wayne cemetery are: James Phalen, D. W. Britton, Lewis Grassett, C. C. Berliogmeyer, J. H. Brown, J. H. Hungerford, and W. A. Hunter, the latter being buried in the LaForte cemetery. At the conclusion of the exercises the procession again formed and marched to the opera house, where nearly a thousand people gathered. The stage had been handsomely and appropriately decorated with flags and bunting and the front of it was a mass of beautiful flowers and plants. Over the stage hung large pictures of Abraham Lincoln, and Generals Grant, Sherman, Thomas, Meade, McPherson, Logan, Sheridan, Rosecrans, Hancock and Farragut. After music by the choir, the Grand Army ritualistic services were carried out by Commander Stringer; J. D. King reading the order promulgating from Commander Clarkson, which included President Lincoln's Gettysburg address. Rev. Robt. Wheeler of Omaha, then delivered the address and it was one which was greatly appreciated by the audience, eloquent, learned, historical, and interspersed with just, enough wit, humor and sarcasm to make it of unusual interest, and especially so to the boys and young men who are to fill the places of the older generation. The speaker scored Spain in a manner she so richly

deserves and butcherer Weyler's ears must have burned. The committee was fortunate in securing Mr. Wheeler to deliver the address.

Post Commander Stringer, Mayor Ley, and Revs. Millard and Theobald occupied positions on the stage. The Philomathean literary society of the College gave a special program in commemoration of the old soldiers last Saturday. The program was an excellent one. J. D. King gave a pleasant talk on the "Citizen Soldier." The address by Geo. Wilbur is said by those who heard it to have been exceptionally fine. Miss Sharp spoke of "Our Heroes" and Miss Clara Burson rendered a very beautiful solo. A number of others spoke and the evening was a most delightful one for all present.

NOTES: The Boys' Brigade presented a neat appearance in their natty white pantaloons and marched like veterans. Capt. Matthews and Assistant Bert Brown have the boys well drilled.

Quite a number of Grand Army men were present from Wakefield, Winside and Carroll.

The weather was cold but it didn't cool the ardor of the citizens.

The exercises were without doubt the most successful ever held in Wayne.

Everywhere throughout the cemetery the graves were beautifully decorated by citizens who had loved ones buried there. It was much more noticeable this year than last.

In the month of roses,
The very first day,
My mamma proposes
We'll have a nice play,
For nine years ago
The life began,
Of a little maiden
Named Clara Moran.
And the young folks did have a "nice play" beginning at two o'clock and continuing until after a delightful supper had been served at five. The little hostess entertained her guests royally and she was the recipient of many little tokens of esteem. Sheriff Reynolds has quite a task traveling back and forth between Wayne and Lincoln and Wayne and Norfolk. Another in a no person by the name of Andrew Erickson who has been working for Mr. Nelson six miles east of Wayne, was taken to Norfolk Tuesday evening. The second one the same day.

GRADUATES OF 1897.

Tenth Annual Commencement of the Wayne High School.

THE GRADUATES:
Frank W. Hitchcock, Louise A. Sullivan,
Arthur L. Tucker, E. Grace Ludeke,
John L. Juhlin, Carrie V. Kortright,
Byron J. Holle, E. Maude Benschhof.

Everything has a beginning and an end. In the beginning the heavens and the earth were created and we are told that at some future time the world will come to an end. We know that there is a beginning and an end to this life. So it is with the school life; there must come a time when one's actual school life will close. A few short years ago these eight young people entered school, little knowing when or where their labors along that line would cease. We trust none of them have finished their education, still their school life so far as the Wayne High School is concerned, has come to an end.

The past year has been one of hard and persistent work for the class, but with the aid and support of their ever faithful teachers, Prof. Boser and W. E. Howard, they have surmounted all difficulties and passed through the trying ordeal of the graduating exercises and come out with flying colors. Each succeeding class has had the distinction and honor of being the best and brightest class ever graduated from our schools and this class is certainly entitled to the same honor.

Each year the exercises are pronounced by all to be the best ever listened to, but a year is a long time and we forget how well the program of the previous class was carried out. The orations this year were all good; they could not have been excellent. The opera house was beautifully decorated with flowers, the fond and loving parents, the interested friends and the bawling, squalling babies were all there. But if it were not for these yapping little fellows, we would have no graduates and we would certainly be lost without the graduates.

The exercises on Friday evening were opened by Rev. Theobald, who invoked the Divine blessing. Then came a song and a very pretty drill by a number of little girls, followed by a song by the class quartette. "Experience vs. Theory" was the subject of an oration by Arthur L. Tucker, the salutatorian of the class. The "Class History" was given by E. Maude Benschhof, John L. Juhlin impressed upon the minds of the audience the necessity of giving more attention to the "Little Things" of life and Carrie V. Kortright gave an excellent oration on "Books and Reading." Robert Goodyear and Lulu Cook then favored the audience with a very pretty violin duet. Byron J. Holle spoke of the "Historic Progress" of the world, Louise A. Sullivan recited "The Famine" and E. Grace Ludeke gave the "Class Poem." Frank W. Hitchcock, the valedictorian of the class, gave one of the best orations of the evening, taking for his subject "And all the World Wondered."

It is needless to dwell at length upon the merits of each individual oration. While some may have been delivered a little better than others, they all contained some valuable thoughts and every member of the class is entitled to a great deal of praise. When it comes to graduates the Wayne High School takes no back seat.

The diplomas were presented to the class by S. E. Russell in a short and appropriate speech. Next came the march by the little flower girls, who deposited at the feet of the graduates the beautiful bouquets and baskets of flowers brought by their parents and friends. The class quartette sang a farewell song and Rev. H. H. Millard pronounced the benediction.

Some of the members of the class expect to teach some will continue their education in the higher branches and some will seek other employment, but in whatever line of work they engage we trust they will push onward and upward, always keeping in mind the lessons learned while in school here, and success will surely crown their efforts.

BASE BALL.

Wayne and Laurel contested on the battle field last Friday for supremacy, and it was a regular slugging match, first in favor of one side and then the other, with a great deal of poor ball playing on each side. At the conclusion of the fifth inning the score stood 18 to 9 in favor of Laurel when Wayne stalwarts went to bat and pounded the ball all over the fair grounds for eleven runs. It then looked as if it was Wayne's game, but lo and behold, in the eighth inning the boys from the Short Line walked to the bat and the sphere was nearly knocked to pieces before the inning was concluded after scoring nine runs. The Wayne boys went to bat with a determination to win and when Tommy Cook, Wayne's efficient catcher, loaded one over in the track for a home run, the score was tied and the audience played to ra. But alas, it was of no avail and the game closed in favor of Laurel by a score of 25 to 24. While the score is very large the game was an interesting one throughout.

A TALLY-HO TRAGEDY

FIVE YOUNG PERSONS KILLED IN NEW YORK

Fifteen of the Party Are Injured - Hawaii Refuses Japan's Demands in Regard to the Immigrant Incident - Other Items.

Train Crashes Into a Tally-Ho

NEW YORK: Five young people were killed and fifteen others injured in an accident which occurred Monday afternoon at Valley Springs, Long Island. A tally-ho with a party of twenty-one excursionists from the Green Avenue Baptist Church, Brooklyn, which started for a day's outing through Long Island was struck by a train on the Long Island Railroad at the Merrick Boulevard crossing. The train that struck the tally-ho was bound east from Mineola. The double team of the tally-ho had crossed the track and had the front wheels of the coach upon the rails when the pilot of the engine was seen by the driver. He gave the horses a cut with the whip, but it was too late and a moment later the crash came. When the engine struck the coach the occupants were in positions, as they had started to jump to their feet, that they were dangerous. Some had gained their feet, while others had made an effort to reach the side steps. Others, too frightened to move, had clutched the seats or side rails and waited for the crash.

REFUSES JAPAN'S DEMAND.

Hawaii's Answer to the Mikado in Regard to Immigration Incident.

SAN FRANCISCO: The following Hawaiian advices were brought by the steamer Peru. The Hawaiian government, in its reply to Japan on May 24, refused to coincide with the views held by that country on the sending back of 523 Japanese immigrants brought by the Kinaiaia March 9. Official notification has been given Japan that the immigration laws of Hawaii are to be vigorously upheld. The answer to Japan as it was written, has been approved and will be delivered to Japan's Hawaiian representative.

From excellent authority it was learned that the view taken by Japan was that while the right of this government to pass reasonable laws respecting immigration is not denied, it was contended that if the contentment of the Hawaiian officials was correct, the immigration laws of this country are a violation of the treaty existing between these countries.

Further, it was stated that Japan says the action of the Hawaiian executive in returning the Japanese immigrants was arbitrary and capriciously enforced and that the decision of the supreme court in the habeas corpus cases was a denial of justice, and for that reason the Hawaiian government is expected to recognize the principle of indemnity in the case of Kinaiaia. The Hawaiian government is expected to recognize the principle of indemnity in the case of Kinaiaia. The Hawaiian government is expected to recognize the principle of indemnity in the case of Kinaiaia.

WASHINGTON: From a large number of inquiries to the postoffice department there seems to be a general belief that congress has authorized the issue and use of private postal cards, mailable at 1 cent. This belief is unfounded. Private mailing cards bearing written messages when deposited in the mails are still subject to postage at letter rates.

Beeson is dead, another man is dying and several others are dangerously ill. Beeson was a day's outing through Long Island was struck by a train on the Long Island Railroad at the Merrick Boulevard crossing. The train that struck the tally-ho was bound east from Mineola. The double team of the tally-ho had crossed the track and had the front wheels of the coach upon the rails when the pilot of the engine was seen by the driver. DR. ANGELL AND THE PORTE.

Report that the New Minister Was Non Grata Denied.

NEW YORK: A Washington dispatch says: The Sultan of Turkey object to a certain Dr. Angell as envoy extraordinary and minister plenipotentiary of the United States in Constantinople. Though as a rule the government is not bound to state the reasons for considering a minister persona non grata, the objections to Angell are said to be based upon his connection with the missionary societies of this country. Indeed it is understood Mustafa Bey, Turkish minister here, formally lodged the protest of the sublime Porte against the resignation of Angell with Secretary Sherman. Presumably an attempt will be made to move the unfavorable impression created in the minds of the sultan and his advisers. The state department positively denies the Turkish government has made objection to Dr. Angell, successor to Minister Terrell, as intimated in certain quarters.

DIAMONDS IN AN ASH PILE.

Woman of Moline Ill., Recovers Jewels Lost Four Years Ago.

MOLINE, Ill.: Four years ago Mrs. Stuart Harper lost four diamond rings from her suburban home, Wickwood, two miles south of Moline. They were valued at \$2,000. Detectives were employed on the case for several months, but their efforts to find the gems were futile. Ashes had been placed about the windmill, and Monday, after four years, Alex. Trevor, Mr. Harper's coachman, found one of the rings embedded in the ashes. It was in good condition. A further search revealed a second ring, and also four diamonds from a third ring. In all, only about \$100 worth of the property is now missing. It is thought the jewels were accidentally thrown into a fireplace, as Mrs. Harper usually wrapped them in tissue paper when she took them from her fingers.

PORTLAND, Ore.: A plot to rob the postoffice in this city was disclosed Saturday afternoon. As a result Julian Epping, chief clerk of the registry department, City Jailor Watson, Detective Holzapple, Eugene Gaulier and a man by the name of Simpson are all under arrest for conspiracy. Steel Bridge at Niagara.

NIAGARA FALLS, N. Y.: Bids for the construction of a new steel arch bridge were opened Monday morning by the officers of the new suspension bridge company at a meeting held at the Canadian end of the bridge. The contract will probably be awarded in a few days. The specifications call for the completion of the bridge by April 1, 1908. The arches will be on the parabolic principle, and it is expected that the bridge will be one of the greatest engineering feats of the world.

BRADSTREET'S REVIEW.

Spring Trade in Staples Somewhat Disappointing.

NEW YORK: Bradstreet's Weekly Review says: Results of the spring trade in staples, which is now over, are disappointing. The volume of seasonal merchandise distributed is less than expected, without taking into account an improvement in business compared with a year ago. Nearly all the central western and southern trade centers report business very quiet. Dry goods continue depressed, cotton products selling with difficulty, some varieties only on concessions. Increased exports are reported from Pacific coast ports, but there is comparatively little gain in domestic trade. Among twenty of the more important staple products only two—hides and wheat—have advanced, while one-half the number—cotton, lumber, coal, Bessemer pig iron, steel mill, steel rails, print clothes, sugar, pork and coffee—are unchanged. Exports of wheat (floor included as wheat) from both coasts of the United States and from Montreal this week amount to 2,081,328 bushels, compared with 2,064,000 bushels in the week a year ago.

OVER 500 FAMILIES HOMELESS

The Rio Grande Continues to Rise at El Paso.

EL PASO, Texas: Over 500 homeless families of El Paso Sunday searching for shelter. Their furniture, clothing, etc., were piled up all along the principal thoroughfare of the city. Saturday night the water continued to rise and before day had dawned it had reached that portion of the city in and around San Antonio Street, where prominent business and professional men reside. Citizens' committees are rendering aid to the homeless in every way possible. At least 400 out of the 500 families whose homes are under water are without the necessities of life. The city council authorized the mayor to wire Texas senators and representatives in congress to secure an appropriation of \$10,000 for the relief of flood victims. The river is now at a standstill but a rise of one foot is reported up the river in New Mexico. The flood waters in El Paso and East El Paso cover an area averaging four miles long and three quarters of a mile wide, flooding not less than 700 homes, most of which belonged to the poor laboring classes.

Havemeyer Discharged.

WASHINGTON: The trial of Henry O. Havemeyer, president of the sugar trust, was resumed Thursday morning with a motion of the defense to instruct the jury to acquit. The district attorney at once began an argument against the motion, and was followed by attorney Johnson for the defense. The court sustained the motion of the defense in dismissing the case against Havemeyer. The jury, in accordance with the instructions of the court, returned a verdict of not guilty.

For an Occupation Tax.

WASHINGTON: Representative Wheeler of Kentucky, introduced a bill in the House Friday for taxing certain occupations. The taxes proposed are based on the amounts of capital invested. Companies engaged in the petroleum business in any form are to be taxed from \$500 to \$100,000, and \$5,000,000. Other branches of business to be taxed are iron and steel railways and street railways, banks, stock exchanges and glass, wool, silk, paper, leather and sugar manufacturing.

Durfee was removed from office May 6. He has been rebuffed to the state about \$150,000, all of which has since been paid. Durfee was forced to dispose of all of his salable property at sacrificial prices in order to square his accounts with the state.

WINDS THAT HINDER.

REV. DR. TALMAGE, TO THE WEARY AND DISCOURAGED. He Gives Words of Comfort to All Who Labor Under Adverse Circumstances, Both Physical and Mental—The Overburdened and Overworked.

Our Washington Pulpit.

Dr. Talmage's sermon this week is one of good cheer. It will give encouragement to many struggling souls. The subject is "Contrary Winds," and the text Matthew xiv., 24. "The wind was contrary."

The Divine Physician.

A great multitude of people are under seeming disadvantage, and I will to-day, in the swarthest Anglo-Saxon that I can manage, treat their cases; not as a nurse counts out eight or ten drops of a prescription and stirs them in a half glass of water.

Our Flooded Markets.

The Bureau of Statistics has published the figures of our foreign trade for the months of April in 1896 and 1897, and the figures show how our markets are being flooded with foreign production.

Policy and Platform.

The following paragraphs from the Republican platform of 1896 are perfectly clear and indicate what may be expected of Congress in proposed tariff legislation.

Increased Gold Production.

The gold production continues to increase both in the regions where mines were in operation last year and through the development of new gold fields.

California Gold Production.

The marked increase of mining interest in California which has been noted during the past year had the practical result of adding \$1,847,245.01 to the output of gold.

What Labor Needs.

Labor is not worrying about averages and percentages. It is only a few cranky free trade editors that are fuzzing their brains over such stuff.

A Bad Cigar.

One million barrels of American flour went to Asia last year. This shows that a new field for American farm products is being opened.

"The most contemptible one of them all."—New York Herald, May 11, 1897.

Cancer
Of the Breast.

Mr. A. H. Cransby, of 158 Kerr St.,
Memphis, Tenn., says that his wife
paid no attention to a small lump which
appeared in her breast, but it soon de-
veloped into a cancer of the worst type,
and notwithstanding the treatment of
the best physicians, it continued to
spread and grow rapidly, eating two
holes in her breast. The doctors
soon pronounced her incurable. A
celebrated New York
specialist then treat-
ed her, but she con-
tinued to grow worse
and when informed
that both her aunt
and grandmother had
died from cancer he
gave the case up as
hopeless.
Someone then re-
commended S.S.S.
and though little hope remained, she
began it, and an improvement was
noticed. The cancer commenced to heal
and when she had taken several bottles it
disappeared entirely, and although sev-
eral years have elapsed, not a sign of
the disease has ever returned.

Quite a heavy fall of snow occurred
in Michigan and Wisconsin Sunday
which in a manner accounted for the
cold weather in this section Monday.

A sick man is like a
man who goes up in a
balloon. He is blown
higher and higher by
the winds of disaster.
A traveler by rail or
steamer has a regular
track. He is reason-
ably certain of reaching
his destination.
but the balloonist is at
the mercy of totally
uncertain elements.—No track, no course,
no rudder, no certainty that any breeze may
not bring destruction.
So will the sick man. His disordered
constitution renders every natural operation
uncertain. No organ can be depended on
to do its normal work. The stomach will
not digest food; the liver will not filter bil-
ious poisons from the blood; the kidneys
and skin will not excrete the waste. No
regular nourishing or purifying process is
going on. There is no certainty except the
certainty of suffering.
In all desperate, bilious, debilitated con-
ditions, what is needed is to change the ab-
normal, erratic operations of the system
into a natural, regular, straightforward pro-
gress in the right direction.—Nothing in the
world can do this so rapidly and certainly
as Dr. Pierce's Golden Medical Discovery.
It directly regulates the vitalizing func-
tions. It sets the stomach and liver into
natural, healthy operation and gives the
blood-cleansing glands power to manufacture
an abundance of pure, rich blood.
It creates appetite; builds up muscular
strength, and banishes nervousness and
neuralgia. As it can be assimilated by the
weakest stomach, its nourishing properties
are far superior to nauseating cod liver oil
in severe coughs and all wasting diseases.
The druggist who recommends something
else as "just as good" is thinking more of
his extra profit on the "just as good" kind
than of your welfare.

Not only piles of the very worst kind
can be cured by DeWitt's Witch Hazel
Salve, but eczema, scalds, burns, boils,
bruises, ulcers and other skin troubles
can be instantly relieved by the same
remedy.—L. P. Orth.

Greece is in much the same position that France was when the German army entered Paris. At that time France cast off the monarchy and emerged as a republic.—Journal.

The Herald is in possession of the complete speech of Senator Jho. M. Thurston before the Senate on "Belligerent Rights for Cuba," which ought to be read by every loyal American citizen.

The Bee very properly remarks: "Don't kick! Do your grumbling to yourself! If you don't want to help pull on the rope, don't put stumbling blocks in the path of those who are doing the pulling."

"Every time a yard of cloth is measured off recognition is given the British monarchy. The arm of King Henry I. was 36 inches long and that is why the yard is just three feet," says the Sioux City Journal.

The pop congressmen, when they can't think of anything else to do, open up their batteries on Speaker Reed, but the shrapnel and grape-shot fired back demolishes their breast works and leaves gaping wounds.

The next President of the United States, whose other name is William J. Bryan, will be the orator of the day in the big Fourth of July celebration in New York city.—West Point Progress.

Who told you he would be the next President? Envoy Calhoun has been down to Cuba and strange 'tis, 'tis true, the Spaniards don't like him. It wasn't expected that they would, should the state of affairs exist as appears from all information that comes from that stricken country.

Under the fusion regime the old wheel-horses of populism in Nebraska will all be turned down before the next presidential campaign. This is an age of push and these old ducks are too slow to remain in the swim with the younger bloods who are in the political pond for the plunder at the bottom of it.—State Journal.

Chas. Cockerel, an Omaha grain expert, has made a tour of the state and says that the reports sent east to the effect that much of the corn in Nebraska was spoiling in the crib is a canard of the worst variety, concocted and compounded by quacks who are interested in creating such a belief throughout the country.—Fremont Tribune.

A careful reading between the lines on the Cuban question reveals the fact that Cuba will become a part of the United States, which means freedom for the gem of the Antilles. It may be that Gomez proposed visit to President McKinley is for the purpose of arranging for a satisfactory adjustment with the United States of the event of Cuba's purchase by the United States.

Rambling Thoughts

BY NEMO. (COPYRIGHTED.)

To the Boys About Battles:—I know just how you feel when you hear the boom—boom—boom—boom of a drum on the streets. Your lively feet, almost before you know it, move backward and forward in time with the sound and you are very glad indeed if you can run out of the house to join the marchers.

I know too how excited you feel when a good brass band strikes up a stirring tune. It makes a creepy feeling come over the top of your head, then a sudden little shiver goes down your backbone clear to your toes, a sort of a lump comes in your throat so that for a moment you feel as though you could scarcely breathe; and then off you go, feet hardly touching the ground, ready to march mile after mile if you may but stay near the music.

Another thing I know you like, and that is to get some old soldier to tell you war-stories. If his eyes grow bright in telling about brave little drummer boys, about bands playing as the men march into battle, about shrieking shells and ping-pong bullets, fierce charges and bursting mines, you are sorry when he stops. I know you; it is the battles you like best in history; and when you have heard them you sometimes get off by yourself to dream, with your eyes open, of what you would do with a repeating rifle and a trusty revolver against twenty foes creeping towards you to kill you.

I reckon it is quite easy to understand why you should feel this way; for wise men do say that children show forth in their little lives all the different stages of past human history. Let me tell you in part what I mean: When you were much smaller you used to love fairy stories, telling of the gentle deeds of the funny little creatures that were supposed to be inside flowers and under toad-stools. Just like you, ages ago, grown up people believed in fairies too; so that it is fair to say that the world has had a fairy-tale age.

Now that your strong little body holds a very fierce little heart within it that takes pleasure in struggles and revels in stories of great generals, you forget the harmless little fairies. So has it been with men. Not many ages ago great and good men spent all their time thinking about battles and training themselves to kill just as many as possible of their fellow creature.

But gentler times have come among men. When large numbers came to think it over they saw that war, like your new jacket, has two sides; one very nice to look at and the other full of seams. The seamy side of war was for the mothers who could never see their killed boys again, and whose hearts felt robbed of the precious dear one who lost his life because perhaps of a silly quarrel among big people like kings and generals. These thoughtful men gradually saw that a human life was a wonderful thing and that to cut it short was very serious. They saw too how seamy a side life always must bear to those who were wounded and lived for years in pain or maimed. So, though great armies still exist, you will find people growing more and more anxious to avoid war, because of the terrible side of it.

So if you want to have the history of the race completely sketched out in your little life, you will have to press back your fierce temper and your desire to be in a big army in a fight. Yet I am going to tell you there were fights in fairy times and there are fights now. People fight now with their heads instead of their arms, and you, if you expect to win the full power of manliness, must prepare to fight too. Wise men say that all the struggles of the past have helped to make men determined, and that if some form of fighting were not continued on the earth, we should drop back and become lazy, good-for-nothing people.

What is the fighting I am talking about? It can be easily told to you. Look around your school. There are twenty-five, fifty, perhaps a hundred boys there. They all will need to earn a living in some way or another. Your fight is to train your brain so that not one of them can get ahead of you, or cheat you, or laugh at you for being foolish. Surely you do not want to be without a good head and a good store in it. There are such; they are the sort that always have time to watch the train come in but never find time to work; the sort that rather than plow or chop wait around post-offices to look for letters when they know no one ever thinks of writing to them.

Brains tell, dear boys; and the more boys there are in the world, the sharper becomes the fighting for any positions that open. In the country the fight is on just as it is in the city. There the farmer with good brains beats the slovenly one whether the weather be fine or not; there the store-keeper with brains makes an honest profit and lives, while the foolish one is sold out by the Sheriff. Times are now so peaceful that you do not need to think of how to save

your own life by taking some one else's away. You have, therefore, much more time than the boys of long ago to prepare for the battles without blood. The schools too are training you to the struggle of brains are as much better than they used to be, that you have no excuse for being anything but a good soldier.

I hope I have not used any words too hard for you. Difficult words may sound well, but they sometimes fail to reach the brain. For two weeks more I shall write to you about "battles;" and in such a way, I hope, that the men in your family will not lose anything by reading the articles too.

Gue, G. F. Fox, and John E. Agler. The board after having examined the bids, considered that the bid of John E. Agler was the lowest and best bid filed. The contract was therefore awarded to said John E. Agler at 80 cents per linear foot and \$2.00 each for driving pile, he to sign contract. On motion the Treasurer was ordered to transfer \$2,000 from County Bridge to County General Fund. On motion board adjourned to June 15, 1897. S. B. Russel, Clerk.

CORRESPONDENCE.

HUNTER.

A good many of our farmers are having to replant their corn.

R. O. Stringer, our road overseer, is doing some excellent work on our roads this week.

Mr. and Mrs. Ben Hart of Belden, were visiting friends and relatives in this vicinity last week.

There was a pleasant surprise party at A. F. Chaon's last Friday evening, it being Mrs. Chaon's birthday. A large number of friends and neighbors were present and presented Mrs. Chaon with a nice rocking chair as a slight token of esteem in which she is held. A splendid supper was served at midnight and the young folks tripped the light fantastic toe until almost morning, when all departed, wishing her many birthdays.

FAIRVIEW.

O ye of little faith, where is your drouth?

John Sisk of Randolph, visited with many old friends here last Sunday.

We hear there is another corn sheller in this neighborhood. Always work for one more.

We hear a new bell tolling from the southeast. Hurrah for Carroll and the M. E. church.

Fairview was treated to a sermon by Rev. Binks of South Dakota last Sabbath. Our regular minister, Rev. Booth preaches the 13th.

Mr. Stephens' new house will be ready for occupancy in two weeks. There is talk of two other new houses here in the near future.

Mrs. Roy Huff is up again. She has had a terrible seige and Roy's farm would have suffered neglect but for the timely assistance of neighbors.

A family reunion occurred at the home of Mr. Haines last Sunday, twenty-nine being present. The ice cream was enjoyed by all in spite of the wintry weather.

COLLEGE.

Examination week! ! ! ?

O, what is so rare as a day in June? A real June day does seem rare.

Miss Grace Neihart, a former student and graduate, has been elected as intermediate teacher at Alliance, Neb.

The Philos rendered a memorial program last Saturday, the old soldiers attending in a body. J. D. King gave a well enjoyed address.

Prof. Pile gave the oration for the graduating class at Emerson last Friday. It was pronounced fine by all who were fortunate enough to be present.

A parlor musicale was given by the music class of Miss Stewart last Monday night. All in attendance speak very favorably of the musical talent displayed as well as of the proficiency of Miss Stewart's training.

We wish to make an apology for a mistake we made some time since. We affirmed in perfect innocence and bona fide faith that Mr. Goodsell had taken upon himself the awful trust of wedlock. Mr. Goodsell says he has been most ignorant of such a fact and he should know. We are sorry the case is not as aforesaid.

A half holiday was given to the students Monday on account of the memorial exercises. The absence of the college in the procession was conspicuous. Should we become so absorbed in our studies as to forget our patriotism and loyalty to the immortal dead? Would we not have seemed more in our place if we had borne the black and yellow 'neath the stars and stripes?

HIGH SCHOOL ALUMNI.

Annual Reception and Banquet a Delightful Affair.

SEVENTY-FOUR DIPLOMAS ISSUED

Interesting Statistics Up to Date.—The Graduates and Their Occupations.

The reception and banquet tendered by the Wayne High School Alumni to the Class of '97 last Saturday evening, was the most brilliant affair which the Alumni association has endeavored since its origin.

A private house not being offered to the association this year, the entertainment committee secured Mellor's hall for the evening, and a large number of the old graduates and their friends assembled at that place on the evening named and greeted each member of the new class as they arrived. A very pleasant time was spent at the hall before repairing to the Boyd where elegant refreshments were served. The address of welcome by Miss Hitchcock was heartily responded to on behalf of the Class of '97, by Miss Louie Sullivan. The toasts of Edw. Lundburg, Miss Mary Soace, and Joseph Cullen were pleasant and that of Prof. Boner was especially so, being highly complimentary to the classes of '95, '96 and '97. At the close of the banquet the members again assembled at the hall where the following officers were elected for the ensuing year: Pres. S. H. Alexander; Vice-Pres. Byron Hoile; Sec. Miss Theo Soace; Treas. Miss Pearl Reynolds. The association then adjourned feeling that it would spring into brighter and better life with the addition of the Class of '97.

John H. Cunningham aged 74 years, died at his home in Patterson on the 12th day of May. Interment in the Presbyterian cemetery on the 23rd day of May. He came from a stock of excellent people, whose progenitor, William Cunningham, came into this valley in 1762. John H. Cunningham lived all his days in Juniata, excepting the time he was in the Union army against rebellion. In his youth he married a Miss McCrum, sister of John Enoch McCrum, of Milford township. His three children who survive him were all present at the interment of the mortal remains of their father. Ephriam lives in Nebraska; James in Clearfield county, Pa., and Rebecca, who was the guardian angel of her father in the days of his long illness lived with him and no daughter ever cared for her father better than she. It is not many years since he was a county commissioner. He was a member of the G. A. R., a Presbyterian in religion and a republican in politics. Some years since he was caught under a wagon at his barn near Patterson and severely hurt, from which injury he never recovered, but gradually passed into a decline. The Post attended his funeral with a large multitude of people. —Juniata Sentinel and Republican.
