## NEWS OF THE WEEK!

Local Items Gleaned By Our News Gatherers Throughout the City and County. Other Matters of Interest. Notes From the Business Men.

**7 lbs** of Bulk Coffee at P. L. MILLER'S for \$1. Get ready for the Fair. Frank Dearborn is quite ill. John Noir was up from Wakefield yesterday. Dr. Cherry was down from Winside this morning. Albert Berry is doing business in Winside today. J. Heikes of Wakefield, was in the city on Monday. W. L. Jones was in Randolph on business Monday. See our variety of pickles both sweet and sour at Brookings.

Dan Martin was down from Carroll Tuesday and yesterday. Wheat is 40 cents in Wayne today. One year ago it was 34 to 37 cents.

We can't mention the prices, haven't time; come in and see. The Racket. Mr. and Mrs. Millard returned from the Norfolk Camp meeting Tuesday. Ray and W. Smith of Craig are guests of Mr. and Mrs. John Harrington.

The ladies of the Baptist Church will serve a 10 cent supper tonight at Dr. Blairs. J. F. Alexander and Lulu and Fred Alexander were up from Wakefield yesterday.

Mrs. Henry Ley gave a surprise party at her home Monday evening in honor of Mrs. Tom White. The question of feeding wheat to the hogs is not confronting the Wayne county farmers today.

The ladies of the U. D. club gave a picnic and supper at the home of Mrs. W. E. Howard last evening. The families of H. F. Wilson and Rebt. Mellor returned Tuesday evening from their outing at Lake Crystal.

Miss H. Wilkinson departed for Chicago Monday where she expects to purchase a full line of fall millinery. The band boys expect to get sixteen bran new uniforms and hope to have them here by the time of the fair.

The races during the fair and the base ball tournament for the championship will be worth going miles to see. The new Bressler building will be ready for occupancy about the first of September. The brick work is now completed.

The picnic to be given by a number of ladies at the Moses ranch yesterday afternoon was postponed until this afternoon.

Some one attempted to steal some ducks from Homer Wheaton Monday evening but the noise made by the fowls attracted the attention of E. R. Pankratz and the thieves were scared away.

The Wayne people at Lake Okoboji are expected home about the middle of next week. A letter from one of them announces that Anson Welch is having such a fine time that he doesn't know whether he will come home at all or not.

With cattle \$4.25 to \$4.50, hogs \$3.25, wheat 70 cents, and corn at 16 cents with an upward tendency, on the Wayne market, the average "free silverite" must have a sort of a tired feeling if he can't see that "confidence is restored."

Misses Clara Philleo, Ioy Knowlton, Lulu Staun, Blanche Hamilton, Lottie Matthews, and Messrs. Gilbert French, Geo. Wilbur, Jas. Ahern, Ted Philleo and Thos. Holtz, comprised a merry crowd who went out to Bressler's grove Monday afternoon where they enjoyed a picnic supper in the evening. They returned by way of Wakefield.

Watch for the big event, the Wayne county Fair. It promises to surpass anything in the way of a fair that has ever been held in Northeast Nebraska. Wayne and Wayne county people mean business this fall and don't propose to do things by halves. Everybody is invited to come here to attend the fair and have as big a time as you wish, and there will be nothing lacking to assist you in having it.

Already considerable new grain of a good quality is coming in. On Tuesday the grain men were paying 65 cents for wheat and 16 cents for corn. The farmers are nearly through stacking and it is simply a question of threshing now. Accordingly, reports throughout the county about two-thirds of the wheat crop will turn out from 12 to 24 bushels per acre and the remaining one third from 7 to 11 bushels. The oat crop is turning out big and corn is in fine condition.

## Early Fall Millinery!

The Latest Styles in Street Hats, just in at AHERN'S.

W. S. Goldie was a Carroll visitor yesterday. Will Beebe, of Stanton, visited in the city this week.

Mrs. A. Jett returned last evening from her Iowa visit. Mark Stringer and Frank Gamble were at Dixon Saturday.

Henry Klopping went to Carroll, Ia. yesterday to attend the races. Ran Frazier went to South Dakota Tuesday evening to buy cattle.

Attorney Brown of Wakefield, was down on business in Wayne yesterday. Milligan of Wakefield expects to build a flouring mill at Pender this fall.

A. H. Hillis has purchase a new Hartford wheel through their agent Dr. Leaning.

Are you going to paint your house? Edwards & Bradford Lbr. Co. have a nice line of colors.

20 per cent discount on Children's Duck Suits during July and August. Harrington & Robbins.

An immense line of Fall and Winter Dress Goods, Silks and Velvets, now opening for inspection at Ahern's.

Irvin Slater came up from Omaha last evening and is the guest of Walla and Arthur Tucker and Rollie Ley.

Mrs. White and children of Omaha are visiting with her brother, Burr Craig, who resides northeast of the city.

Mat Coyle goes up to Magnet tonight to take the place of his brother Richard who relieves the agent at Bloomfield for a month.

Mrs. Guss, of Washington D. C., a sister-in-law of Mrs. J. T. Mettlen arrived Tuesday evening to attend the funeral of Mr. Mettlen.

Advertised letters for past week are: Martin Anderson, Harry G. Davis, L. W. McBride, N. T. Norman, Miss Mary O'Brien, P. T. Smith, W. S. Wilson.

Mr. and Mrs. H. E. Mason went to Emerson Monday afternoon. From there they go to Sioux City and then on to Lake Okoboji for a short stay.

In giving the names of those who took part in the Drama "Charity," an account of which appears in another place in this issue we omitted the name of Chauncey Childs.

Jake Roush and Burr Cunningham will attend the National G. A. R. Encampment at Buffalo, N. Y., and with many old soldiers will soon be singing "put me off—at But-ta-to."

An unprincipled whelp stole one of the tents the Woodmen had borrowed. It was the property of R. E. K. Mellor, if the foresters could get hold of him they would make him chop wood.

Mrs. R. J. Armstrong gave a tea party in honor of Mrs. Tom White and Mrs. J. W. Ingalls yesterday afternoon. There were about twelve ladies present. Mrs. Ingalls will leave for Tacoma, Washington, next Monday morning for a three months visit.

Stock shipments for the week: Saturday, Strahan, Grimsley & Co., three car loads of cattle; Sunday, Perry & Porterfield, two cars of cattle; Monday, Strahan, Grimsley & Co., one car hogs; F. M. Griffith, one car, and C. H. Wolf of Carroll, two cars.

Alfred Swanson, aged 22 years, who resided a mile east of Wakefield died Monday night, death resulting from inflammation of the bowels. The funeral occurred at Wakefield yesterday. Deceased had been a member of the Modern Woodmen about three months and had a \$2,000 policy taken out in behalf of his father.

Last Friday evening after the drama, the members of the company who presented "Charity" and the company of the members of the company who had company, and several numbers of the college faculty were invited by Mrs. Wallis to the ice cream parlors, but to the disappointment of all it was closed. The crowd was undaunted however and came to the HERALD office where they banqueted on cake and city water, as there was no "pie" in the office at that time to feed them.

During the afternoon of the Log-Rolling Association picnic burglars took charge of the business portion of the town and breaking into Roe & Fortner's meat market secured about \$3.00 but were unable to get into the safe. At Henry Goll's they secured about \$13.00 and slightly disfigured the interior of Henry's safe. They succeeded with the aid of a "jimmy" in unlocking the back door at the Racket, but as it was bolted on the inside they were unable to force it open, and the Racket is ahead about \$100 in cash. The culprits also broke into Brookings store and got a few pennies. It was a bold undertaking but the rascals escaped.

Ed Owen was at Norfolk on business Saturday. R. R. Smith was down from Winside Saturday.

W. C. Bonham went to West Point yesterday to do some painting. Mrs. Fletcher went to Fremont Sunday to attend the teachers institute.

Dan Weir has moved to town to reside, having recently leased his farms. J. T. Bressler will leave for New York September 2d on U. P. business.

Fred Ingalls of Long Pine, was in the city on business a few hours last Friday. Mat Coyle can make the other foot racers in these parts travel a warm "clip."

Surveyor Ziemer, of Hoskins, was in Wayne Saturday on business and pleasure combined.

Herb Worth has threshed a portion of his wheat and he informs us that it made just exactly 18 bushels to the acre.

Mrs. Norton, who has been visiting with her brothers Hans and John Hansen, returned to Wisconsin yesterday morning.

Mr. and Mrs. Christ Sodeman who have been visiting with their cousin Charley Miller, returned to Sarpy Co. this morning.

Mrs. J. F. Ingalls and mother, Mrs. Whipple, departed for Chicago Monday afternoon. Mrs. Ingalls will visit in Waukegon, Illinois.

The person taking a large glass pitcher by mistake from the large tent during the picnic last Thursday will please leave it at this office.

Read the new ads of D. Sullivan, R. P. Williams, and W. E. Brookings elsewhere. These are the times to keep your eyes on the HERALD'S ads.

It was almost cold enough Monday and Tuesday to make one think of Klondike and an overcoat would not have been uncomfortable, but it did not frost.

We know that Bro. Baid of the Harrington Leader has a great appetite for watermelons but it is unkind for him to work the farmers for his winter supply unless he divides.

The HERALD learns from Mr. Tower that Mrs. S. A. Deitz died at her home in North Ontario, California, July 24th, of dropsy. Deceased had many acquaintances in Wayne.

Lost: Between the northeast part of town and the residence of Henry Klopping, a black hand-bag containing a pair of spectacles and 50c. Finder please leave at this office.

L. M. Shaw of Dennison, was nominated on the third ballot for governor by the Iowa Republicans at Cedar Rapids yesterday. It was the largest convention ever held in the state.

On last Sunday the assembly at the Presbyterian church was treated to excellent solos by Prof. Davies in the morning and by Jno. E. Bennett of West Point, Mississippi, in the evening.

At a meeting of the populist central committee Saturday afternoon it was decided to hold the primaries on the 26th of August and the convention Saturday, August 28th, for the purpose of placing in nomination candidates for county offices.

Wheat went up 4 1/2 cents in the Chicago market yesterday, and silver declined 2 1/2 cents. That's the way wheat and silver "keep pace" with each other now. The way those big tables of Uncle Henry Miller and Col. Britton are being smashed is a caution.

Annual Encampment G. A. R. Buffalo, N. Y., August 23-28, 1897. For the above excursion tickets will be sold Aug. 21 & 22, good returning until September 20th. Tickets will be limited to continuous passage in each direction. One fare via Sioux City, \$25.40; via Blair, \$27.10. T. W. Moran, Agent.

If there is not a prospect of prosperity why is it that Wayne's merchants are purchasing such large inventories of fall and winter goods? They well know that the splendid crops backed by good prices means business, business that hasn't struck these parts since Grover struck Buzzards Bay, in the spring of '93. People must have goods, they have been getting along with any old thing, but they do not have to this fall.

Sheriff Reynolds received word Monday evening about seven o'clock to arrest Frank Wells for deserting the army at Ft. Niobrara. Young Wells attended College here for some time and is well known in the city. After leaving here he enlisted in army but becoming tired of that kind of a life deserted. He passed through Wayne Monday afternoon and shook hands and talked with the Sheriff at the depot, but Mr. Reynolds had not yet received the telegram to arrest him and did not know that he was wanted.

## DEMISE OF JOHN T. METTLEN.

An Honored and Highly Respected Citizen of Wayne Passes to the Great Beyond. Buried With Masonic and Grand Army Honors.

DECEASED—At his home in this city Monday evening, August 10th, 1897, after an illness of many weeks, John T. Mettlen, aged 67 year, passed into the great beyond, death resulting from cancer of the right kidney.

Deceased was born September 6th, 1831 in Juniata county, Pennsylvania. November 28th, 1861, he was united in marriage with Miss Salina Guss, and as a result of this union six children were born, four sons, Wm. J. P. L., A. G., and J. H., and two daughters, Mary A. and Jennie E., all born in Juniata county—Pennsylvania, and all of whom are still living. While a resident of Juniata county he served as register and recorder for the years 1875-76.

During the month of March 1865 he enlisted in Company A., 101 Penn. volunteers, and in a short time was promoted to the position of second Lieutenant of the company and served as such until the close of the war. In the spring of 1877 he moved to Dakota county, Nebraska, and from there to Wayne county in 1880 and settled on his farm south of Wakefield where he remained until five years ago when he removed to Wayne, and every citizen who knew him was his friend. He was a member of the Casey Post G. A. R. of this city, of the Masonic lodge of Wakefield, and also of the Odd Fellows.

During his early life he became an earnest and devout christian and for several years has been an elder in the Presbyterian church of this city.

In his death the family have lost a husband and father whose love was untold wealth and whose advice was always wise. At the church in this city his kindly countenance will long be missed. None will miss him more than the Grand Army boys when they assemble and find that the Great Commander has called another of their number to the heavenly home. No man ever led a nobler life, true to his God and fellowmen, and those who seek to follow his footsteps will meet him in the grand army above.

The funeral was held at the Presbyterian church at 2:30 yesterday afternoon, Rev. E. VanDyke Wight, of Hastings, deceased's former and beloved pastor, preaching the funeral sermon. The remains were escorted to the church by the Wakefield and Wayne Masonic Lodges and the Grand Army of the Republic, followed by a large concourse of citizens in carriages. The church was inadequate to hold the large crowd of people that assembled to do honor to Wayne county's honored and highly respected soldier and pioneer citizen. The procession from the church to the cemetery was blocks in length. The burial services were under the supervision of the Masonic order and the deceased was buried with the highest Masonic honors.

A PAINFUL ACCIDENT. Sim Richards met with a painful accident while driving some cattle last Thursday afternoon which will lay him up for some time. He, in company with others, had started with the cattle to drive them to Wm. Woehler's ranch when the stampede occurred and in trying to round them up one of the animals became infuriated and charged on Sim and his horse, the steer's horn catching Sim in the leg between the ankle and knee, making an ugly and painful wound. The flesh was torn open to the bone, requiring eight stitches to sew it up, which operation was performed by Dr. Wightman. At this writing Sim is getting along very nicely.

FOR SALE—An extraordinary fine lot of Poland China Boars. Inquire of Henry Goll.

Sioux City Journal 14:—Neil Sloan, who lives a short distance north of the city, is severely attacked by human anthrax. He has been ill for some time, and there is no question in the minds of his physicians that he is suffering with the dread disease. Mr. Sloan's grain was all ready to harvest but he was unable to work, so a number of former friends organized a harvest bee and did all his work for him on Thursday. It is also reported that other farmers in that vicinity are similarly afflicted, but Mr. Sloan seems to be the worst sufferer.

Mr. Sloan is a cousin of S. M. Sloan of this city.

John Griffin of Zanesville, O., says: "I never lived a day for thirty years without suffering agony, until a box of DeWitt's Witch Hazel Salve cured my piles." For piles and rectal troubles, cuts, bruises, sprains, eczema and all skin troubles DeWitt's Witch Hazel Salve is unequalled.—L. P. Orth.

Wanted—A good No. 1 blind horse. Peavey Elevator Co.

Lost—On last Saturday evening, a gold stick pin with small sq. flinder please leave at this office. Mothers, don't fail to ask for the Common Sense

Waist and Hose Supporter, Any size for girls or boys from two to ten years. For sale at AHERN'S.

Vim, vigor and victory—these are the characteristics of DeWitt's Little Early Risers, the famous little pills for constipation, biliousness and all stomach and liver troubles.—L. P. Orth.

Corn	15 1/2	Flax	70
Butter	.08	Eggs	.08
Cattle	4.25	Hogs	3.52

Born—To Rev. and Mrs. Fred Tower, Friday August 13th at Glidden, Iowa, a daughter.

Do you want as good a paint as there is on the market? The Edwards & Bradford Lbr. Co. will be glad to furnish you and at a reasonable price too.

They don't make much fuss about it. We are speaking of DeWitt's Little Early Risers, the famous little pills for constipation, biliousness and stomach and liver troubles. They never grip.

L. P. Orth. Mrs. Mueller whose husband is in the penitentiary, left for Lincoln last Friday and intends to camp on Governor Holcomb's trail until her husband is released.

Geo. Bailey passed through Wayne Tuesday on his way home to Carroll from Iowa. He says this country is just as good if not better than where he was. He reports a fine time during his vacation.

There is a time for everything, and the time to attend to a cold is when it starts. Don't wait till you have consumption but prevent it by using One Minute Cough Cure, the great remedy for coughs, colds, croup, bronchitis and all throat and lung troubles.—Orth.

## AUCTION SALE.

On Saturday August 21st 1897 beginning at 1:00 o'clock sharp, H. M. Henry will sell at auction sale at his place in the northeast part of the city, his entire herd of Jersey cows and heifers and one 4 year old Jersey bull, also eleven head of Holstein cows and heifers, one covered milk wagon, one farm wagon, set of double harness, two horses, hay rake and other articles. This herd of Jersey cattle is the finest in the county.

## A NICE LINE OF EARLY FALL GOODS

Large variety of Tans, Walking Hats and Suits, Lace, Feather Boas, etc.

Miss H. Wilkinson, Opposite Post Office.

## An Up to Date Housekeeper

says a broad understanding isn't necessary to an appreciation of the fact that we sell

## GOOD GROCERIES

cheaper than any other store in town. Nor is it difficult to find the reason. Close touch with the metropolitan markets and CASH to pay for what we get, make it possible for us to buy "mighty close" and we sell the same way. Our stock is complete.

## Fresh Berries and Vegetables.

Every evening while the Season lasts. You can get them cheaper here than elsewhere.

## Coffees and Teas, Whole Wheat Flour.

The best on the market. Remember we keep the best of everything you wish for the table. One trial will convince.

MINERS COMMENDED

JUDGE COLLIER'S TRIBUTE TO PENNSYLVANIA STRIKERS.

Court's Decision Reserved, but It Is Known the Order Will Be Much Less Sweeping Than the Temporary Injunction.

A Tribute to the Strikers.

PITTSBURG, Pa.: The hearing in the injunction case against the striking miners came up before Judges Stowe and Collier Monday, and is perhaps one of the most important and interesting ever held in a Pennsylvania court.

Judge Collier said in court that the strike would go down in history as remarkable for lack of disorder, for which the strikers are commended and have the sympathy of the court.

MILES' REPORT.

Observations of the General Abroad Sent to the President.

WASHINGTON: Gen. Miles has been heard from at the war department on the results of his observations with the Turkish forces during the late war.

STORMS IN COLORADO.

Phenomenal Fall of Hail and a Cloudburst Near Pueblo.

PUEBLO, Colo.: Storms around Pueblo Sunday afternoon damaged railroads northwest and south. Twenty miles north of Pueblo hail fell in great quantities and drifted to a depth of three feet.

MESSAGE FROM ANDREE.

Pigeon Shot Off Lapland Bearing a Note from the Aeronaut.

BERLIN: The Vossische Zeitung publishes a dispatch from Hammerfest, Norway, which says that one of the searchers for Herr Andree in a fast steamer met the sailing vessel Aiken about July 22 and learned from her captain that one of the crew had shot a pigeon between North Cape and Seven Islands, on the north coast of Lapland, bearing a message addressed to the Afton Bladet, Stockholm.

Great Suffering Predicted.

WASHINGTON: There are nearly 1,800 people, says Commissioner Jones of Alaska, on Dred and Skagway routes and both trails are blocked.

Steam Yacht Is Wrecked.

BAY CITY, Mich.: The steam yacht Fannie H. of Saginaw was wrecked at Point Lookout, Saginaw Bay, while trying to make a landing at the wharf in a heavy sea.

S. C. Reid's Remains Cremated.

WASHINGTON: The body of the late Samuel Chester Reid, son of the famous Captain Reid, who sailed the officer Armstrong, and himself a noted officer and writer, was cremated Tuesday.

He Knew Too Much to Live.

LONDON: According to a dispatch from Paris it is rumored that the death of Telenan, Paris, of Dr. Tholzon, the physician of the late shah, was caused by poison administered at the instigation of the reigning shah, because Tholzon knew too many state secrets.

To Hunt for the South Pole.

ANTWERP: The steamer Belgica, with an antarctic expedition on board, sailed Tuesday morning. Crowds assembled to bid the explorers farewell. The crew numbers twenty-one. The steamer is provisioned for two years.

High Court of Foresters.

LA SALLE, Ill.: The high court of the Independent order of Foresters elected the following officers: C. F. Johnson, Chicago, high chief; physician, Peter Weller, M. Zimmerman, A. W. McManis, P. Kiebler, Chicago; S. M. Dickson, Evanston; directors.

Threatening Placards Posted.

CONSTANTINOPLE: Placards have been posted on the walls of all ministries demanding a change in the system of government of the Turkish empire and declaring that other wise blood will flow as during the Armenian massacres.

SAYS WEYLER HAS RESIGNED

New York Paper Declares He Has Sent in His Resignation.

NEW YORK: A dispatch to the Herald from Key West says: Capt. Gen. Weyler's summer campaign came to an inglorious end last Wednesday when he returned to this city with rebels firing on his rear guard all the way from Aguacate to Havana. The captain general made a public entry into the capital, but his reception was chilly.

LYNCHED A BOY.

Kansas City Youth Hanged in Texas, Presumably by Mexicans.

EL PASO, Texas: Harold Mosler of Kansas City, Mo., the 15-year-old son of a division superintendent of the Kansas City, Pittsburg and Gulf Railroad, left his father's ranch near Chamberlain, in Dona Ana county, N. M., last Friday evening to visit neighbors. Sunday evening the boy's horse came in alone and search was made for the youth.

LIGHTNING'S DEADLY WORK.

Indian Girl and Ten Ponies She Was Herding Are Killed.

GREAT FALLS, Mont.: During an electric storm on the Blackfoot reservation Saturday a little Creek Indian girl, aged 12 years, was sent out to round up and bring in ten ponies. The storm increased during her absence and she failed to return.

SPANISH SPY HANGED.

Miguel Besta Executed by the Cuban Insurgents.

JACKSONVILLE, Fla.: A dispatch from Key West, with late Havana advices, states that a Spanish spy, Miguel Besta, was hanged without trial by Baldomero Acosta, a prominent Cuban leader.

Price of Beef Is Lowered.

KANSAS CITY: All the packers simultaneously raised the price of dressed beef to the local trade to 6 cents a pound recently. This action, being an advance of nearly a cent, caused protests from all sides.

Heirs to \$45,000,000.

SERLYKILL HAVEN, Pa.: The heirs of John Christian Webber have just made out papers to prove the claim of American citizens to an estate of \$45,000,000 in Holland.

Noted Italian Dead.

ROME: Count Morozzo Della Rocca, the distinguished Italian general and a premier aide-de-camp of the royal household, is dead.

Murder in Colorado.

DURANGO, Colo.: Will Arey, who has relatives in Chicago and New Jersey, was shot and almost instantly killed by Dr. W. H. Winters, one of the most prominent physicians in southwestern Colorado and a former member of the legislature.

Back to Montana by Rail.

ST. LOUIS: Lieut. James Moss and the members of the bicycle corps of the Twenty-fifth regiment, U. S. A., have left Jefferson barracks and will return by rail to their regiment at Fort Missoula, Mont.

Greece Getting Impatient.

ATHENS: The tactics of Germany in the peace negotiations and the continual delays of Twink Pasha are producing a good deal of agitation here in favor of an appeal by the government to the nation to continue the war with Turkey by means of an obligatory loan.

Oldest Priest in the Northwest.

MINNEAPOLIS: Rev. Father Keller, an aged Catholic priest, is dead at Oscoda, Wis., after a three weeks' illness. He was the oldest priest in the northwest, and was the first one stationed at St. Paul. At the time of his death he was over 90 years of age.

Italian Cabinet Minister Dead.

ROME: Signor G. Costa, minister of justice, is dead. Marquis Di Rudini, the premier, will temporarily assume the portfolio.

Shoots His Sweetheart's Father.

FLORENCE, Ala.: Eli Burney, forbidden to visit his sweetheart, shot and fatally wounded the girl's father, W. B. Green, at Whitehead.

TO BAR OUT ANARCHISTS.

Treasury Authorities to Close the Gates on Exiled Reds.

WASHINGTON: The treasury authorities are keeping a sharp lookout for the anarchists now being driven from France, Spain and Italy by the concerted action of the great continental powers. No pains will be spared to prevent the United States being made an asylum for these men.

CARNIVAL OF FIGHTS.

Brady's Agent in Nevada Planning for a Big Boxing Tourney.

CARSON, Nev.: Al Ellinghouse, representative of W. A. Brady's fall carnival to be held in Nevada about the first week in October, has arrived from Reno, where he has been looking over the grounds of the proposed carnival.

MAY CLEAR REV. HINSHAW.

Convict Baney Shows How the Clergyman's Wife was Killed.

INDIANAPOLIS, Ind.: Recent developments in the Hinshaw murder case, in which the Rev. E. W. Hinshaw of Belleville, was convicted two years ago for the murder of his wife, now strongly point to his innocence.

Woodmen at Wayne.

The second annual picnic of the North-east Nebraska Logrolling Association, Modern Woodmen of America, was held at Wayne last week, and it was the biggest event of the kind ever held in northern Nebraska.

Girl Bitten by a Rattlesnake.

A little girl of Henry Kiattlesnake of Juniata while playing around one of the large ribs of corn in that village, was severely bitten above the knee by a rattlesnake.

Robbed on a Freight Train.

ADOLF BERGER, a broom manufacturer of Columbus was slugged and robbed on a freight train between there and Schuyler by a gang of tramps.

Nemaha County Settlers' Picnic.

The annual picnic of the Nemaha County Old Settlers' Association was held at Nemaha the other day and was a grand success in every sense. The crowd was estimated at 6,000.

Stuck to Be in the Winter.

Many thousands of sheep are now on the way to Shelton for the winter's feeding, and many more will be shipped in by rail. Several thousand cattle will also be fed there.

Nebraska Short Notes.

There are 816 old soldiers living in York County.

A large number of land seekers are reported in the vicinity of Bayard, Cheyenne County.

The county of Holt, through the efforts of County Attorney Butler, has a first lien on all the property of ex-State Treasurer Bartley in that county, and the state, through its attorney, Mr. Smyth, has only a second lien, notwithstanding all reports to the contrary.

County Treasurer Johnson of York County has paid \$37,500 of the old railroad bond issued in 1877, which have been drawing 10 per cent interest. There is still \$6,000 more of the bonds out, but the money is on deposit at the fiscal agency in New York to redeem them.

The state of Nebraska has \$28,000 of these bonds which was redeemed on August 2. The bonds were payable on August 1, 1897.

A number of Bayard horsemen have just completed a fine half-mile track.

The wheat and oats crop in Webster County is the best quality as well as the best quantity ever raised.

The Grand Army reunion of the south-eastern district, which was to have been held this month at Table Rock, has been declared off.

Small grain is a heavy yield in Cuming County. The average on wheat is running all the way from ten to thirty bushels per acre, while the prospects are that the averages on oats will be at least forty-five bushels per acre.

Cure Him with Anti-Toxins.

Frank Vavra, a Bohemian farmer living about five miles from Crete, was caught on his farm by a wild pig, which attacked him and bit him terribly on the left thigh. Symptoms of tetanus or lockjaw appeared and the doctor telegraphed to Chicago for anti-toxins, which lately recoveries have been attributed. Meaning he tried to check and lessen the severity of the spasms, and the first injection of the anti-toxins was given in twenty-four hours over the original wound. Spasms stopped at once after the injection and the patient is doing very well, the recovery being sure.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Four Hundred Thousand Acres of School Lands on Which \$226,879 of Rent is Past Due Restored to State Control—Other State Items.

Reclaims School Domain.

The board of educational lands and funds have cancelled delinquent lease and sale contracts in thirty-three counties, involving 435,237 acres, and the amount of rental and interest which has not been paid is being necessary to make such cancellation is placed at \$226,879.

Offers to Pay Depositors in Full.

A meeting of the stockholders and directors of the defunct Nebraska National Bank of York will be held on August 21 to take action on the proposition made by the City National Bank to assume the liabilities of the former.

Ride all the Way on One Horse.

Chicago last week on their way to Chicago, where they are to finish a contract to ride 2,500 miles with one horse each. The object is to test the western range horses and to introduce them into the Russian cavalry.

Woodmen at Wayne.

The second annual picnic of the North-east Nebraska Logrolling Association, Modern Woodmen of America, was held at Wayne last week, and it was the biggest event of the kind ever held in northern Nebraska.

Wheat Nearly Pays for His Land.

John Stollary, a farmer living west of McCool Junction, bought on time an eighty-acre farm, on which he gave mortgages for nearly all of the purchase price, amounting to \$1,500.

Ewing Will Have a Flour Mill.

Ewing is to have a flour mill. Arrangements have been made by Saunders Brothers of Badger, Holt county, to erect and operate a four mill having a capacity of fifty barrels per day.

Caught Under a Clay Bank.

William Volk and Carl Schneiderberg were caught under a falling clay bank while at work in the brick yards of Herman Gericke at Norfolk. Schneiderberg, who is an old man, was buried beneath two feet of earth.

Robbed on a Freight Train.

ADOLF BERGER, a broom manufacturer of Columbus was slugged and robbed on a freight train between there and Schuyler by a gang of tramps.

Nemaha County Settlers' Picnic.

The annual picnic of the Nemaha County Old Settlers' Association was held at Nemaha the other day and was a grand success in every sense. The crowd was estimated at 6,000.

Stuck to Be in the Winter.

Many thousands of sheep are now on the way to Shelton for the winter's feeding, and many more will be shipped in by rail. Several thousand cattle will also be fed there.

Nebraska Short Notes.

There are 816 old soldiers living in York County.

A large number of land seekers are reported in the vicinity of Bayard, Cheyenne County.

The county of Holt, through the efforts of County Attorney Butler, has a first lien on all the property of ex-State Treasurer Bartley in that county, and the state, through its attorney, Mr. Smyth, has only a second lien, notwithstanding all reports to the contrary.

County Treasurer Johnson of York County has paid \$37,500 of the old railroad bond issued in 1877, which have been drawing 10 per cent interest. There is still \$6,000 more of the bonds out, but the money is on deposit at the fiscal agency in New York to redeem them.

The state of Nebraska has \$28,000 of these bonds which was redeemed on August 2. The bonds were payable on August 1, 1897.

A number of Bayard horsemen have just completed a fine half-mile track.

The wheat and oats crop in Webster County is the best quality as well as the best quantity ever raised.

The Grand Army reunion of the south-eastern district, which was to have been held this month at Table Rock, has been declared off.

Spasms stopped at once after the injection and the patient is doing very well, the recovery being sure.

Invents a Beet Harvester.

A. Philipp, a Stanton man, has brought out an invention which is likely to become a necessary factor in beet harvesting. The machine is so constructed that it tops and lifts the beet at the same time, carries the tops and all rubbish away from the row and leaves the beets exposed to view and ready to be picked up and loaded into wagons.

Beatrice Files an Answer.

City Attorney Prout on behalf of the city of Beatrice has filed an answer in the United States district court to the suit brought by the Northwestern Mutual Life Insurance Company, to recover \$50,000 bonds, issued by the city to the Kansas City & Beatrice Railway.

Only One Encampment.

Some official information has been exchanged within the month between Gov. Holcomb and Adjt. Gen. Barry on the subject of an encampment of the Nebraska National Guard. While no decision has been reached, it is probable that regimental encampments will be ordered for 1898.

Soldiers' Reunion.

The fourth annual reunion of the Douglas County Veterans' Association was held at Waterloo, and eclipsed in point of attendance any encampment heretofore held under the auspices of the association.

Wheat Nearly Pays for His Land.

John Stollary, a farmer living west of McCool Junction, bought on time an eighty-acre farm, on which he gave mortgages for nearly all of the purchase price, amounting to \$1,500.

country. Mrs. Langtry's prospective husband is 54 years old, but it is said that he does not look or feel his age by twenty years. His marriage may provoke no end of comment in continental journals, but it is little probable that Prince Paul will care little what the journals say about him. Mrs. Langtry's recent divorce leaves her free to wed.

OHIO POPULIST TICKET.

Middle of the Road Men Nominated Governor . . . . . Jacob Coxey Lieutenant Governor . . . . . Morris Whitcomb Supreme Judge . . . . . D. O. Pomeroy Attorney General . . . . . C. A. Reider State Treasurer . . . . . P. M. Morris

The above ticket was nominated by the Ohio Populists at Columbus in one of the most exciting conventions ever held in the State.

It was a turbulent assembly, and the efforts of the police were necessary to preserve a semblance of order. Charges were made that Senator Hanna and John R. McLean furnished money to aid the cause of anti-fusion and fusion, respectively, and several fights were indulged in on the floor. The middle of the road ticket, headed by

# WOODMEN IN A FIGHT

## RIOT FOLLOWS AN ATTEMPT TO MOVE RECORDS.

One Man Fatally Hurt and Several Injured—Rock Islanders Repelled by Citizens of Fulton—History of the Trouble in the Order.

**A Spirited Battle.**  
In an attempt by people of Rock Island, Friday afternoon to secure possession of the books and belongings at the headquarters of the Modern Woodmen of America in Fulton, Ill., a general riot ensued. The list of injured is: Ed. Bare, head and arms injured; Will Bennet, city marshal, head cut; would bleed to be fatal; James Carper, head cut; P. J. Casey, badly injured on head; W. H. Flanagan, head badly cut; Chris Miller, head cut; L. D. Plank, cut about the head; J. Slouger, cut about the head.

**Start from Rock Island.**  
Judge Gies of Rock Island had rendered his decision dissolving the injunction which restrained the officials of the Modern Woodmen of America from removing the books and other belongings of the head office from Fulton, Ill., to Rock Island. A special train was started from Rock Island over the Burlington road for Fulton, carrying about 600 men, well armed. They reached Fulton about 6 o'clock and marched up to the Woodman building in military style. The Fulton people had been apprised of the move by telephone and were ready to defend the books and papers of the head office. They were assisted by a large force from Clinton and Lyons, their neighboring cities, just west of the Mississippi.

**General Fight Enues.**  
A general fire alarm was sounded and house hold to repel the invaders. When the train arrived the track was torn up on both sides to prevent their escape. A Rock Island man cut the hose. This was the signal for hostilities. Many shots were fired and clubs, rocks and missiles of all kinds used. Quite a number of Rock Islanders are more or less hurt, none very severely. They secured a few books before they were stopped, but were penned in their train by armed deputies. Head Attorney Johnson of the Modern Woodmen, Engineer Mitchell of the special train and a number of others are under arrest.

**Another Injunction Secured.**  
J. D. Andrews of Chicago, attorney for the city of Fulton, went to Sterling on a special train and secured an injunction from J. E. McPherson, master in chancery, which was accompanied by a restraining order. It was served immediately and the records will now remain until it can be tried in the courts.

## HISTORY OF TROUBLE.

### Fight Centered Around J. C. Root, Founder of the Order.

The great fight, prolonged for so long, to remove the headquarters of the Modern Woodmen of America from Fulton, Ill., to other points, has a very intimate bearing on Omaha, since that city is now the home of one J. C. Root, who established that order and started the long fight, by making an effort to have the records of the organization removed to Omaha.

It was in 1879 that the Modern Woodmen of America was organized under the laws of Illinois. The charter expressly stipulated that the headquarters should be located in the State of Illinois. As Fulton was the home of Root, he selected that place as the headquarters of the organization.

It was in 1890, eleven years later, that the idea of a change entered Root's head. Omaha was on the boom and he selected that place as the future home of his company, when he suddenly discovered that the people of Fulton proposed to have a word to say about the matter. When Root attempted to remove the records from the town he was interrupted by an injunction.

The case was determined in favor of Fulton. Root appealed and the Supreme Court confirmed the decision. This fight had provoked much bitterness in the organization and there were many who were not satisfied to have Root at the head of the order, which was essentially an Illinois institution and which he was anxious to remove to some other State.

Then a personal fight was started on Root to oust him as sovereign commander or supreme head of the Modern Woodmen. The matter went through all the State courts and Root was finally defeated.

He at once went to Omaha and started a rival order known as the Woodmen of the World. In the past year he has had some trouble with the Omaha contingent of this order, and some of the members seceded and formed a new order, claiming that Root had perpetuated himself as sovereign commander and was degenerating it into a one-man affair.

The fight to keep the headquarters at Fulton was not repeated until two years ago, when, during the Mills strike convention, the city of Rock Island, Ill., offered to furnish the order a permanent building at that place if the headquarters were brought there. It was accepted and the records ordered removed.

### Told in a Few Lines.

While crossing the river at St. Louis Frank Collins and Joseph Kelly were drowned by the capsizing of their skiff.

George E. Stuard, property clerk in the department of charities of New York City, is short in his accounts \$6,000 and missing. He lost on the races.

John Gordon, alias Lewis Nelson, the negro who murdered William Allen at Brunswick, Miss., on July 15 by clubbing him with a gun barrel, and who was captured in Louisiana, was hanged by lynchers.

Michael Devine, fatally shot Alexander Gowry at Colon, an Oskaloosa, Ia., suburb. Devine's wife was also slightly wounded. Devine charged Gowry with breaking up his home. He surrendered to the sheriff.

All gambling resorts at Joplin, Mo., have been closed and Marshal Morgan says they shall not be opened during his term. He also proposes to strictly enforce the Sunday saloon law.

It is reported that the Japanese have decided to unite for the purpose of thrashing Uncle Sam the rest of creation will witness a performance which will beat "Don Quixote" and "The Mikado" combined.

# A FAMOUS BLUNDERER.

## The French Make a Funny Fellow Out of Their Jester.

Monsieur Calino, the popular French simpleton, who performs in the humorous literature of France much the same function that the traditional "Faddy" does in English literature, has been made the subject of a grave study, in which his innocent stumblings are carefully analyzed. He is nothing more or less than a convenient personification of a type of the harmless blunderer and complacent lack-wit found in all ages and countries. In France his sayings reflect, however, something of the picturesque which is characteristic of the nation.

Calino's blunderings, it seems, began at an early age. He had not craft enough to tell a lie that would hold water for a moment. One day at school he got into a fight with a companion and came home with a gash on his forehead.

"How did you get that cut?" asked his father.

"What cut, papa?"

"Why, that great gash on your forehead."

"I bit myself there, papa."

"Bit yourself! Why, you couldn't bite yourself on your forehead!"

"I got up on a chair to do it, papa!"

Later in life Calino delivered himself of the following bit of wisdom:

"As for me, I don't care so much for the sun as I do for the moon. You see, the sun only comes after it gets daylight, when we could see just as well without it; but the moon's some use-it shines at night!"

He had a magpie of which he was very fond. The magpie, by the way, is reputed to live a hundred years. One day Mrs. Calino called out to her husband:

"Look out for the magpie there's the cat!"

"Never mind the cat," answered Calino. "Don't you know that a magpie lives a hundred years?"

Early one morning Calino was out with his gun he saw a robin in the garden of his friend Camille. He aimed at it, but it dropped below the top of the wall. Then Calino went into the house, crept upstairs softly, stole into Camille's bedroom without waking Camille, who was in bed, pointed his gun out of the window at the robin and fired bang!

Camille leaped out of bed in wild confusion and alarm.

"W-w-why-w-w-what's the matter?"

"Oh, did I wake you up?" said Calino. "I pulled the trigger just as softly as I could."

Calino is generally very benevolent. He had been to see an artist one night, and as he started to go after the lights on the stairway were put out, his friend gave him a little stomp of a candle to light his way down the five flights.

At the bottom of the stairs Calino looked at the bit of candle.

"There's quite a piece of this left," he said, "and artists are so poor—and I'm down safely."

So he carried the candle back up the five flights, and walked down in the dark.

## American Wheels Gaining.

It is announced from abroad that English manufacturers of bicycles are about to hold a convention to do what they can toward stopping the "American invasion" as the great sale of American made wheels in Queen Victoria's little island is called. The English manufacturers have long recognized the danger of American competition, and now, it is said, they intend to do something to check it.

It is not to be wondered at that the English are becoming alarmed, for during the nine months of 1896-7 that ended in March the value of American bicycles exported was \$4,163,680, as compared with \$1,393,000 for the whole of the season of 1895-6. During the past two years the larger share of the exports has gone away in the last quarter. If this holds good this year, the total value of exports for 1896-7 will exceed \$6,000,000, which is almost exactly the value of the English exports in 1894. Last year England's exports were worth about \$9,300,000. In all probability America will beat that next year. It must be remembered, in gauging the significance of these figures, that the United States did not begin to export in any quantities until 1895. It was not many years ago when nearly all the bicycles used in this country came from England and still less when the fastidious rider thought his mount was not correct and in proper style unless it bore the name of an English maker. Now American manufacturers are not only cutting off England's trade on the continent and in her provinces, but are laying all the principal towns in England itself.

## Sell Stamps by Machinery.

The imperial German postoffice department has decided to use automatic stamp selling machines, which were exhibited at the Berlin industrial exposition last year. These machines will be placed at prominent street corners and wherever there is a large demand for postage stamps, and will, upon the deposit of the respective coin, furnish the would-be purchaser with the required 5 or 10 pfennig stamp. The authorities at present do not undertake the responsibility of the proper working of the rather complicated slot machine necessary for the delivery of a postage stamp, but have given permission to a company founded for the purpose of distributing the machines, who will be responsible for their proper functioning. The company will receive a certain percentage of the receipts as their commission for selling the stamps.—London Echo.

After a girl has spent the summer at the seashore, or ridden a bicycle, she feels no embarrassment on a windy day.

# WASHINGTON LETTER.

## GOLD MINES OF THE WORLD MAKING A RECORD.

New Discoveries Will Add Enormously to the Annual Production of the Yellow Metal—Recent Discoveries Reported in Siberia.

### New Mining Methods.

Special Washington correspondence: Considerable excitement has been caused by the report of large gold finds in Siberia. This announcement from London that Russian expeditions have discovered gold fields in the vicinity of the Sea of Okhotsk, and that the government is about to send to the peninsula of Kamchatka to develop the supposed gold region there, creates great interest here, especially among those who are following closely the enormous gold developments of the world which have recently occurred. An examination of the map of North America will show at a glance that the great gold field of Alaska, which is now being developed, is a part of the same general line of mountains which supplied the enormous gold production of California.

The Farmer—Well, looks to me like that young man didn't know what he was talking about.—Chicago Times-Herald.

Indeed of the same general line which produced the gold of Peru, of Central America, of the United States, and now of Alaska. Take your map of the world and follow this mountain range and you will find that it seems to cross from the North American continent to Asia at the Behring Straits, and that the extension of this general range across into Asia covers the very country into which the Russian Government is pressing gold developments and the general search for gold. The dispatch referred to above states that a Russian expedition has discovered twelve gold regions in the vicinity of the Sea of Okhotsk and it believes that the western peninsula of Kamchatka will develop gold fields which will, as the dispatch puts it, when opened, "be a second California."

"Whether the prediction of the Russians that they are to develop gold fields in Kamchatka which will rival the early history of our California gold fields is to be realized or not," said Mr. M. Baker, of the Geological Survey, talking on this matter, "certainly there can be no doubt that the gold of the world has enormously increased and is now increasing wonderfully. There are two distinct gold fields to-day which are producing gold in very great quantities—South Africa and North America. The Alaskan fields are, of course, a part of the same general line of mountains which developed such wonderful gold deposits in our own territory less than half a century ago, and whether the mountains of Kamchatka and Siberia are a part of the same general system or not, it would not be surprising if these reports of large gold deposits there should also be confirmed. The fact is, there is a greater incentive to the production of gold to-day than ever before. There are two or three reasons for this: First, that silver is so cheap that there is less incentive for its production, and the people who had formerly given their attention to the mining of silver are now looking for new gold fields; second, gold mining and gold production becomes easier every year as new methods develop and new discoveries are made. Take the great gold fields of California, which were supposed to be worked out years ago; the cyanide process now gives promise of making them again productive and it is quite probable that it will be profitable to work over all the rejected material which was thrown away by the men who covered that great gold field, and to produce from it by this cyanide process great quantities of gold. This is not unlikely to be the case further south, in Mexico, Central America and Peru, where such quantities of gold were mined many years ago. Add to this the gold developments of South Africa, Australia, North America and prospective Siberia, and it is not surprising that the gold productions of the world are more than keeping pace with the growth of business. As everybody knows the gold productions of the world have steadily increased during the past few years, those of last year having been greater than any in the history of the world; while all indications now point to a still greater increased production for 1897."

Mr. Baker's remarks that the gold production of the world has increased with such rapidity suggests some in-

quiry upon this subject. That inquiry shows that the gold of the world to-day is nearly, or quite, three times as much as it was fifty years ago. Mulhall, who has been widely quoted in the papers of the United States in the past few weeks, indicates in his latest dictionary of statistics that the amount of gold in the world, coined and uncoined, fifty years ago, amounted to less than two and a half billion of dollars. Taking his figures for 1890 and adding the production since that time, it would appear that the gold of the world to-day, coined and uncoined, is over seven billions of dollars, being nearly, or quite, three times as much as it was fifty years ago. Had there been no increase in the population meantime, there would be thus three times as much gold for each person now as there was half a century ago. But the population of the world has increased 50 per cent. in that time, so that the amount of gold for each individual is therefore about twice what it was at that time. This, however, relates to the gold in bulk, and not gold money. A further study of Mulhall and other statisticians shows that the increase in the production of the gold which is coined into money has been as great as the increase in the production of the metal itself. Fifty years ago only 33

Senate on February 20, 1894. It did not become law till August 23, 1894, and was then such a "ragtag production" of "perfidy and dishonor" that even the Democratic President refused to sign it.

The difference between the Republicans and Democrats in enacting tariff legislation in Congress is very marked. The Republicans passed the McKinley bill in 168 days, and the Dingley bill in 131 days, each bill receiving the signature of the Republican President.

The Democrats, on the other hand, wasted some 300 days over the Mills bill, which never became a law, and they wasted 252 days over the Gorman-Wilson bill, which proved to be such an abortion that even President Cleveland refused to sign it.

### Not a Sectional Tariff.

That the new Tariff is not perfect its authors admit. But it will produce adequate revenue and protect our industries under normal conditions. Among its chief glories—and one which was acknowledged even by some of those who did not favor it, and who doubt that it will meet the expectations of its friends—is that it is not a sectional bill. It protects the people in all parts of the country, and to the producers of materials which enter into the manu-

# REVIVED MEMORY.

## When We Grow Old We Recall the Things of Long Ago.

About seventy-five years ago, upon a rainy day, a small boy who had reached the mature age of 6 was sitting with his mamma and bemoaning the state of the weather and accompanying absence of novel entertainment. Mamma wore on her finger a beautiful ring that was a family heirloom, and as she bowed patiently the jewel glittered on her little white hand. The small boy regarded the bright bauble for some time in silence and then sweetly requested mamma to take it off and let him play with it. It was a weak thing to do, perhaps, but she complied. I dare say there are mothers at the present day who can sympathize with her, for human nature is the same, though fashions change, and when the "dear child" looked up in her face pleadingly he looked with papa's eyes, and papa was dead. So he got the ring and lost it, as might have been expected. He always insisted that he had "put it away to keep," but he could never remember where.

The years went on. The gentle young mother went out into the great unknown to find the light of her life that shone in "papa's eyes," and the century and the boy having been young together, grew old in company, too. Finally, age began to tell on them, the century got troubled with a complaint designated "fin de siecle," and the boy lost his memory for the things of to-day, but became abnormally reminiscent in regard to the past. His thoughts often turned back to the young mother—long dead—and in the decline of life he had as clear a mental picture of her as his boyish eyes had ever seen. One evening, having pushed his spectacles on top of his head and hunted everywhere for them vainly, he sat musing before the fire, when suddenly a flood of light illuminated that dark corner of his memory where hung the picture of that small edition of himself losing or "putting away" the ring. He sprang to his feet with an excited cry: "The ring! The ring! I slipped it down the crack in the window casing. The one that looks out on the orchard!"

Upon investigation the ring was brought from its long hiding place, which was the exact spot the old man had designated. Buffalo Express.

## Queer Prerogatives.

The Earl of Denbigh, who has just been appointed a lord-in-waiting to the Queen, has the hereditary right of carving all the roast joints of meat that appear upon the royal table, while another nobleman enjoys the queer prerogative of holding in his hand the sovereign's table napkin and of handing it to her whenever she wishes to wipe her lips. The Duke of Atholl and of Montrose actually have appealed to the law courts to determine which of the two possesses the hereditary right to the office of sergent of the scullery, whose duty at state banquets consists in seeing that the monarch never is without a clean knife and fork.

Both the Duke of Norfolk and the Duke of Rutland are associated with the peers above mentioned in attending to the sovereign's liquids at state banquets, the Duke of Norfolk bearing the title of Lord Chief Butler of England. Indeed, it is worthy of note that there are a far larger number of great nobles charged with duties connected with furnishing drink to the sovereign than are assigned to the serving of solid food. Under the circumstances it is not surprising that the Lord Bishops of Durham, Bath and Wells should be assigned to the not altogether ecclesiastical duty of "supporting" the sovereign on leaving the banqueting hall.

## Disciplined for Bravery.

Gen. Albertone, who has just returned to Italy from Abyssinia, where he has been a prisoner of war of the Negus for more than a year, is about to be brought before a court-martial at Rome for the part which he took in the battle of Aba-Gariana, where the Italians sustained so overwhelming a defeat. The General is accused of having advanced too rapidly toward the foe, and of having refused to wait for the support of the other column. Gen. Baratieri, the commander-in-chief, was recently court-martialed for the cowardice which he displayed on that occasion, in bolting from the battle-field in the early part of the engagement. He was acquitted. It would be thoroughly in accordance with the topsyturvy condition of affairs in Italy at the present moment, says the New York Tribune, if Gen. Albertone, a man noted for bravery, were to be convicted by the court-martial of having displayed too much courage and gallantry, and to be punished for it.

## Uncle Sam's Land Possessions.

"The area of the United States is 3,025,600 square miles; with Alaska it is 3,002,990 square miles, equal to the area of all Europe, with Italy and Turkey excepted," writes William George Jordan on "The Greatest Nation on Earth" in the Ladies' Home Journal. "Texas, its largest State, is 212 times the size of Rhode Island. Texas might invite every man, woman and child now living in the world to settle within its territory, offering each individual a plot of ground forty-nine and a half feet by one hundred feet. The State would not be really crowded, for each individual would have four times the space taken by each person in New York City. England, Ireland, Scotland, Wales, Italy and Portugal could be transplanted to Texas and there would still be room for a good-sized promenade where curious Americans could walk while studying this bit of Europe. Three of the cattle ranches of Texas cover as much territory as the Sandwich Islands."

Men's clothing is becoming so thin that they will soon be confronted with the necessity of wearing skirts.

## WE ARE MAKING OUR OWN GOODS NOW, JOHNNIE.

### For Mothers!

The discomforts and dangers of child-birth can be almost entirely avoided. Wine of Cardui relieves expectant mothers. It gives tone to the genital organs, and puts them in condition to do their work perfectly. That makes pregnancy less painful, shortens labor and hastens recovery after child-birth. It helps a woman bear strong healthy children.

## WINE OF CARDUI

has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. \$1.00 per bottle.

For advice in cases requiring special directions, address giving symptoms, The Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. LOUISA HALE, of Jefferson, Ga., says: "When I first took Wine of Cardui we had been married three years, but could not have any children. Nine months later I had a fine girl baby."

### LOCAL AND PERSONAL.

T. B. Heckert, Dentist, over Miller's. Get your fresh vegetables at Brookings.

J. O. Milligan was over from Wakefield Sunday.

Mrs. H. E. Mason came up from Sioux City Thursday morning.

Everything in the fruit and vegetable line fresh at Brookings.

Rev. E. A. Russell of Ord, preached at the Baptist church Sunday.

Vaughn Davis and John R. Morris of Sherman, were in Wayne Monday.

Every odd pair of shoes in the house at half price. The Racket.

Miss Mikessell of Dakota City, is the guest of Mrs. John T. Bressler.

State Supt. W. R. Jackson was a caller at the Herald office Friday morning.

Prof. and Mrs. F. M. Harding returned to their home at South Sioux City last Friday morning.

Mrs. Annie Mason went up to Norfolk to attend camp meeting.

Mr. and Mrs. S. R. Theobald are in Chicago this week purchasing their fall stock of dry goods.

Editor Knott of Wausa, was in Wayne Monday afternoon, on his way home from the Long Pine Chatauqua.

Miss Mary Nangle gives a picnic to her Sunday School class in the Nangle grove next Tuesday afternoon.

Rev. Bray of Ponca, occupied the pulpit at the Presbyterian church last Sunday morning and evening.

Mrs. Ran Frazier and son and Mrs. Phil Kohl and son went to Monticello, Iowa, Monday morning for a few weeks visit.

Prof. Clark, of the State Normal school at Peru, in company with Prof. Pile, was a pleasant caller at this office Saturday.

The next lawn tennis tournament for Northeast Nebraska, will be held during the month of September at Wakefield.

Mrs. P. L. Miller and Mrs. Armstrong gave a picnic to a number of their lady friends yesterday at the Moses place south west of Wayne.

Allen News: Chas. Fisher and lady, of Wayne, drove to Allen from their farm in Logan township and visited with his daughter, Mrs. Frank Taylor, Tuesday.

Charley Turner and Alex Williams were Wisner visitors on Sunday. Mr. Williams spoke of the corn crop looking very fine between this place and Wisner.

The Sheriff of Burt county passed through Wayne Monday evening en route for the Norfolk asylum with an insane man by the name of Thomas Gearing.

Don't nauseate your stomach with teas and bitter herbs, but regulate your liver and sick headache by using those famous little pills known as De Witt's Little Early Risers.—L. P. Orth.

Yes, Brookings is the place to purchase groceries. Fresh vegetables and fruit at all times and melons in season. The place is opposite the post office and you are invited to call and investigate for yourself.

It heats everything except a broken heart, may be said of De Witt's Witch Hazel Salve. Piles and rectal diseases, cuts, burns, bruises, tetter, eczema and all skin troubles may be cured by it quickly and permanently.—L. P. Orth.

Miss Edith Sharp and Geo. O. Reynolds, graduates from the teachers' department of the college, went to Hartington Friday morning to attend the teachers institute. Miss Sharp will teach the primary department in the Randolph school the coming year.

Last Thursday Perry & Porterfield who had sold to Wm. Woehler 154 of western cattle, started to drive them to Mr. Woehler's ranch. For some reason the cattle stampeded and ran in every direction and for the past week men have been busily engaged in hunting them. At this time nine of them are still missing. It was an unfortunate affair for Perry & Porterfield and Mr. Woehler. Messrs. Perry & Porterfield have worked industriously to get the cattle together.

Mat. Coyle went to Jackson Monday for a few days visit.

S. B. Russell and G. W. Crossland were in Bloomfield Monday.

Sunday was quite a cool day and one of the most pleasant of the year.

Mrs. Alern departed for Chicago on Monday to purchase fall millinery.

All Shirt Waists and Summer Wash Goods at cut prices.—The Racket.

Horace Theobald and father returned from Riverside Park Monday morning.

A. B. Slater has been in Wayne the past week looking after his interests here.

E. N. Pankratz, Wayne's efficient cigar maker, was in Wisnide on business Monday.

Miss Twobig and Miss Knott who have been attending College returned to Jackson Monday.

Miss Pauline Wachob went to Fort Scott Kansas, Friday morning, after an extended visit in Wayne.

Geo. Cook went to Craig Monday. From there he will go to Blair to attend the family reunion.

Prof. Pile went to Stanton Sunday where he will assist in the teachers institute for the next two weeks.

Jno. Bennett, formerly of this city, arrived from the south Saturday evening, and remained two or three days.

Prof. Keller left on his bicycle Monday for his home in Indiana. His friends here wish him a safe journey.

Mrs. Wallis went to Norfolk Sunday to attend the camp meeting. From there she will go to Madison for a short visit.

D. Briggs of Emerson, Iowa, arrived in Wayne Monday evening and has been shaking hands with his Wayne friends.

Having returned from my vacation, my patients will find me regularly in my office, over First National Bank, Mondays excepted. W. A. IVORY.

Miss Jennie Loomis, a cousin of the Chances of this city, who has been attending College here returned to her home at Stanton Sunday.

Will take two years subscription for the largest display of sugar beets at the wayne fair, and one year to the second best display.

Burning, itching skin diseases instantly relieved by DeWitt's Witch Hazel Salve, unequalled for cuts, burns, bruises. It heals without leaving a scar.—L. P. Orth.

Ponca Gazette—W. F. Norris departed for Spokane Wash., Monday morning. He expects to go into business there and if everything proves successful his family will join him in the near future.

Last Friday night some infernal rascal stole eleven fine tame ducks from August Schwaerzel, and it's to be hoped that if he eats any of them he will be choked until he becomes black in the face.

Wakefield Journal—C. W. Long is having the sign repainted in front of his place of business. W. C. Bonham of Wayne is responsible for the artistic workmanship. Bonham is pretty smooth when it comes to getting work.

"I crave but One Minute," said the public speaker in a husky voice; and then he took a dose of One Minute Cough Cure, and proceeded with his oratory. One Minute Cough Cure is unequalled for throat and lung troubles.—L. P. Orth.

Lyons Mirror—M. E. Ford is shipping tame plums to Wayne. There is no reason at all why this part of Nebraska is not now supplying the people between here and the Rocky mountains with hundreds of car loads of fruit of all kinds. This is bound to be a great fruit country some day.

Dr. J. L. Terry, of Trimble, Tenn., in speaking of Chamberlin's Colic Cholera and Diarrhoea Remedy, says: "It has almost become a necessity in this vicinity." This is the best remedy in the world for colic, cholera morbus, dysentery and diarrhoea, and is recognized as a necessity wherever its great worth and merit become known. No other remedy is so prompt or effectual, or so pleasant to take. Sold by L. P. Orth.

Wisner Chronicle—Wayne never does anything in a half-hearted way. This was demonstrated anew last Thursday on the occasion of the second annual meeting of the Log rolling association of the Modern Woodmen of America for Northeast Nebraska. The city was decorated in its holiday best, and Woodmen banners, flags, streamers and bunting fluttered and floated on all sides and overhead. It was grand day for Wayne and Wayne Woodmen, and one frequently overheard visitors and citizens remarking that "it beats the Fourth of July." \* \* \* The day seemed all too short, and as the sun descended and the full-orbed moon arose to light the visiting Woodmen and their attending friends on their homeward way, many took their departure, but many others remained to crown the day of enjoyment with a night of merry dancing. It is estimated that five thousand people honored Wayne and Woodcraft with their presence, and it safe to say that each and all felt that it was well to be there and every Neighbor was proud of his membership in the fraternity.

### COLLEGE COMMENCEMENT.

(Continued from last week.)

Thursday evening the two members of the Scientific department gave their orations. The motto of the class was "Amor, non Clamor," and the colors magenta and silver.

After the invocation by Rev. W. W. Theobald, Miss Lucy Bruner played a very pretty piano solo, "The Dance of the Demon," from Holst. "What is Man," was the subject of a very good oration by Miss Mary Soace, who has now graduated from three departments of the College. W. E. Miller took for subject of his oration "The Problems that the United States have Solved," and well did he handle the subject. Following this Misses Theo Soace, Pearl Reynolds, Maude Britton and Grace Ludeke sang "Within a Little Wood," one of the prettiest quartettes rendered during the entire week.

State Superintendent Jackson was present and made a short address, after which the audience gladly listened to a piano duet by Miss Mirnie Burson and Ross Cunningham.

The diplomas were then presented by President Pile to the thirty-three graduates who occupied positions on the stage. Prof. Pile's remarks to the class were full of good advice and we trust may long be remembered by each member of the class. A vocal trio by Misses Theo Soace, Pearl Reynolds and Maude Britton was next listened to, after which the benediction was pronounced by Rev. Theobald.

Friday evening the drama "Charity," was presented by the Elocution department under the direction of Mrs. Frances J. Wallis. The play was a four act drama of modern English life, and the different characters were exceptionally well sustained by the following parties: Frank Nangle, Geo. Beith, P. J. Van Hemet, Wm. Williamson, Tom Holtz, J. W. Shepherd, Mrs. Wallis, Emma Schwerin and Marie Marley. Mrs. Wallis acted the part of the tramp to perfection and Emma Schwerin as the charitable woman deserves especial mention. A large audience was present and all were well pleased with the manner in which the drama was presented.

Saturday evening occurred the alumni banquet. The members of the association gathered at the hotel where a short but excellent program was carried out, at the close of which a short time was given those present to become better acquainted.

At about ten o'clock all repaired to the hotel Boyd where the banquet was to be served, and Landlord Bean had prepared one of the finest banquets ever given in the city. A glance at the following menu will give one some idea of the many good things partaken of by those fortunate enough to be present:

- Consomme Royal.
- Celery.
- Raked Halibut.
- Crumbed Ham.
- Billot of Lamb—Mint Sauce.
- Spring Chicken on Diamond Toast.
- Giblet Patties.
- Escalloped Potatoes.
- Saratoga Chips.
- Vienna Rolls.
- Home Made Bread.
- Gold Cake.
- Fruit Cakes.
- Chocolate Layer.
- White Spang Cake.
- Fruit Ice Cream.
- Salted Almonds.
- New Port Flakes.
- Cream Cheese.
- Coffee.
- Tea.
- Iced Milk.
- Fruits.

In order take a much needed rest between the different courses the following toasts were responded to: "Our Grand Children," Prof. Pile; "Our Father and Mother" Miss White; "Help a Little" Fred French; "Nip" Lloyd Cunningham; "Why are we Here" Miss Ellen Cunningham; "A Night in the Upper Story," Clem. Theobald; "Milestones of Life" Norma Conner; "Potentiality of the Fad" James Abers; "The Grist the College Miller has Ground" by Nellie Miller. Short talks were also made by Rev. Theobald and A. L. Tucker. It was an evening of rare enjoyment from beginning to end and our advice to all young people is to go to the Nebraska Normal College and become a member of the alumni association, not simply for the pleasure of being a member of the alumni but for the benefit you will receive from attending the best institution in this part of the state.

Prof. Durin has in stock some beautiful little monuments for children which he is selling very cheap, call and see them. Don't buy cemetery work from agents as you can save 20 percent by buying at home and the work is first class.

Mr. A. C. Wolf, of Dundee, Mo., who travels for Manser and Tibbotts, Impliment Co., of St. Louis, gives traveling men and travelers in general, some good advice. "Being a Knight of the Grip," he says, "I have for the past three years, made it a rule to keep myself well supplied with Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveling man in U. S. will carry a bottle of this remedy in his grip." For sale by L. P. Orth.

## Blood Poison.

Contagious Blood Poison has been appropriately called the curse of mankind. It is the one disease that physicians cannot cure; their mercurial and potash remedies only bottle up the poison in the system, to surely break forth in a more virulent form, resulting in a total wreck of the system.

Mr. Frank B. Martin, a prominent jeweler at 926 Pennsylvania Ave., Washington, D. C., says: "I was for a long time under treatment of two of the best physicians of this city, for a severe case of blood poison, but my condition grew worse all the while, notwithstanding the fact that they charged me three hundred dollars. My mouth was filled with eating sores, my tongue was almost eaten away, so that for three months I was unable to taste any solid food. My hair was coming out rapidly, and I was in a horrible fix. I had tried various treatments, and was nearly discouraged, when a friend recommended S.S.S. After I had taken four bottles, I began to get better, and when I had finished eighteen bottles, I was cured sound and well, my skin was without a blemish, and I have had no return of the disease. S.S.S. saved me from a life of misery." S.S.S. guaranteed purely vegetable will cure any case of blood poison. Books on the disease and its treatment, mailed free by Swift Specific Co., Atlanta, Ga.

NOTICE TO NON-RESIDENT DEFENDANT.—In the District Court of Wayne County, Nebraska. H. Lambert, plaintiff, vs. David Longnecker, defendant. To David Longnecker, non-resident defendant: You are hereby notified that on the 23rd day of July, 1897, H. Lambert, plaintiff herein, filed his petition in the above entitled cause, in the District Court of Wayne County, Nebraska, against you, the object and prayer of which was to recover judgment against you in the sum of \$788.67, with interest at the rate of 10 per cent. per annum on \$688.42 from July 24th, 1894, and at the rate of 7 per cent. per annum upon \$100.25 from July 24th, 1897, such claim being based upon (1) a promissory note for \$170.00, dated December 4th, 1894, made by B. F. Kito to defendant, and assigned to plaintiff by defendant; (2) a note for \$217.50, dated December 10th, 1894, made by the defendant to plaintiff, on which there is due the sum of \$25.25, dated December 10th, 1894, and assigned to plaintiff; (3) a note for \$170.00, dated March 18th, 1894, made by defendant and Fred Uecht to Geo. Childs, said note having been paid by Fred Uecht to plaintiff, and by plaintiff assigned to this plaintiff, on which there is due the sum of \$25.00; (4) on a promissory note for \$203.50, dated June 24th, 1895, made by defendant and J. W. Elchinton to J. O. Milligan, and by him assigned to this plaintiff, on which there is due the sum of \$25.00; (5) on a judgment for \$180.47, in favor of Marysville National Bank of Marysville, Mo., and against defendant and James Madsen, and assigned to this plaintiff, on which there is due the sum of \$20.07; (6) on an account for a carriage sold by Geo. Childs to defendant on January 1st, 1895, for \$50.00, said account having been assigned to this plaintiff, on which there is due the sum of \$8.40; (7) on an account for money paid by Geo. Childs to defendant, on which there is due the sum of \$11.85; (8) on a promissory note for \$17.00, dated March 18th, 1894, made by defendant and assigned to this plaintiff, on which there is due the sum of \$11.85; and for the costs of this action. That the plaintiff has caused to be issued a writ of attachment against your property in said county and state, and the Sheriff of Wayne County, in pursuance of said writ, has levied on you the following described real property: The Northeast Quarter (NE 1/4) of Section Thirty-two (32), Township Twenty-six (26), Range Five (5), East of the Sixth (6th) Principal Meridian, in Wayne County, Nebraska, which is sought to be taken and appropriated in this action, or so much thereof as may be required to satisfy the claim of the plaintiff; that there is now due and payable on said notes and accounts the sum of \$788.67, with interest as stated, for which sum with interest as stated, and the costs of this action, plaintiff prays judgment against you. You are required to answer the said petition on or before the 6th day of September, 1897. Dated at Wayne, Nebraska, this 23rd day of July, 1897. H. A. MERTZ, Plaintiff.

We hope the fusionists are proud of their State Superintendent. The Lord knows no one else is.

The middle of the road pops of Ohio have nominated Conroy for Governor. Even the pops are now spurning the free silver fusion democrats.

Trusts never flourished so largely as they did under the Wilson bill, but that bill has been laid away to rest, even if it did have the sig of Grover.

Up it goes! Nearly everything in the line of farm products, and according to the pop methods. In Ohio fusion is going up, too, while the "free silver heresy" has already gone up.

The working millions, and especially the farmers, were the men who gave the Republican party its start to power. No party ever organized has been truer to the interests of its founders. Inter Ocean

There are already 100,000 more men employed on the railroads than were employed at this time last fall, with an increase in the pay roll of \$5,000,000 per month. Doesn't it look just a little like "confidence had been restored?"

Picnics, reunions and camp meetings have been almost as numerous of late as "frys in molasses time," but they are a mighty good thing for recreation, preparatory to the big business revival which will strike this country September 15th, or thereabouts.

One traveling man sold \$900 worth of goods in Missouri in less than two hours time. In fact, you cannot meet a traveling man who will not say that times are getting much better. Apparently "confidence is restored" whether the fusionists foot their horn to the contrary or not.

The farmer's up at dawn of day, harvesting wheat or hauling hay; he knows Protection's here again, for money's waiting for his grain. The market's up, his crops are good, he'll buy new clothes have lots of food; he'll heed no more the Free-Trade "beat," who grieved him once with "dollar wheat."—American Economist.

The Woodmen at Fulton and Rock Island had a riot last week Friday, in which blood was shed and many persons seriously injured. It was the result of the Rock Islanders attempting to move the books and records of the Head Camp M. W. A. to Rock Island, the place designated by the last Head Camp meeting held in Dubuque. The attempt was unsuccessful. The feeling between the two cities has grown very bitter.

Mr. Bryan not only admits that he advised workmen to wear McKinley buttons and vote for Bryan, but admits it over his own signature. The paper is in the possession of General Thayer. It ought to be presented to the state historical society and kept for future generations to marvel over. The output of dishonesty in the last presidential campaign was something phenomenal and most of it is crystallized in this letter written by the silver candidate. State Journal.

When the soft money any-thing-for-office crowd over in Wayne county held their harmony pop-walk recently it was agreed that the free silver republicans, God pity them, should have the county judge. That wasn't considered much, (but neither were the fellows they were giving it to considered much) and all was harmony. But now the popocrats have a sly scheme on foot to steal even that "little sop" as Uncle Henry Miller would say, and harmony, pure, gentle, peaceful, dove-like harmony, is said to have lost itself in the shuffle and is journeying "down the toboggan slide."—Stanton Pickett.

The Democratic Free-Trader is a rampant believer in Free-Trade for somebody else. As for himself and his constituents there are exceptional circumstances which make limited Protection, the limits being wide enough to include him and his district, both proper and desirable. This Free-Trade in the abstract, and Protection in the concrete was what split into fragments the Democratic opposition to the tariff bill that has just become law. The Republican principle is Protection for everybody, and no selfishness that is narrower than national domain. And that is not selfishness at all, for there is high warrant for saying that "if any provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."—Troy, N. Y., Times.

STEWART SEES PROSPERITY, TOO

Says Silver May Go To A Quarter And Wheat To A Dollar.

Chicago Times-Herald, August 13th. Senator Stewart is one of the latest converts to commercial optimism. He is a bull on everything except silver. He is engaged in a vigorous campaign in Wall street, and said today he had heard so much about better times that he has determined to "gather in a part of the prosperity which is not only rampant in the street, but throughout the land."

When asked what had brought about the change in his views he said: "There is no room for pessimism in this country. No one can be a bear in the face of the wheat famine in Argentina, Hungary, Russia and India. In view of these conditions abroad I should not be surprised to see silver sell as low as 25 cents and wheat as high as \$1. There is nothing in talking silver at the present time, and my advice to my friends in the west is to fall into line with the forces of prosperity and progress and receive their due share of the reward." "The time has passed for the old issues. We must turn to face new issues and new conditions. I frequently hear it said that this security market is a duplicate of the market of 1893. It is not. It is more of a bull market. All a man has to do is to get into it, go to sleep and get rich. The wheat situation in the west will make every railway not only a dividend earner, but a dividend payer. Railroads that have been moribund for years are now taxed to their fullest capacity, and are still unable to accommodate their traffic. I am told that there is danger of a car famine on many of the most important lines traversing the country."

"Are the people in the west alive to this new situation?" "The people of the west," he replied, "are wide awake. They know a good thing when they see it. Most of them are hanging onto their cereals with confidence born of hope and actual knowledge of what is going on around them. With their immense crops they will be able not only to liquidate their indebtedness to the money sharks of the east, but will inaugurate a buying movement that will give our people or our part of the country. I think that by the late fall the truth of what I said and reiterated during the campaign will be generally recognized, and that is that there can be no general prosperity in the country that is not born and sustained in the west."

SHIPPING TIN PLATE TO EUROPE

The first shipment of American tin plate to Europe which was made from an Indiana mill on Wednesday, marks an epoch in the development of an industry which had its birth in the tariff law of 1890.

Ever since the McKinley act put a tariff on tin and terne plates the free trade orators have persistently challenged the existence of a tin plate industry in this country. They have ridiculed the notion that it was possible for this country to supply any considerable portion of the home demand for terne plate, although confronted with statistics of domestic production, the accuracy of which was beyond question. In the campaign of last fall the silence of free trade orators on the tin plate question was ominous and significant. It was no longer possible to talk against the towering smokestacks of thirty-four tin plate mills. The growth of the industry since the enactment of the McKinley law in 1890 has been phenomenal.

A recent report on the American tin plate industry by the second secretary of the British embassy at Washington is interesting as showing the foreign view of the question. The report says that during the three years following the passing of the McKinley tariff in 1890, the production of tin and terne plates in the United States expanded rapidly and was not checked by the reduction of the duty under the Wilson tariff in 1894. The production was only 13,000,000 pounds in the year ended June 30, 1892 and had risen to 307,000,000 pounds in the year ended June 30, 1896. The manufacture of block plates rose during the same period from 26,099,000 pounds to 334,000,000 pounds so that during the latter year practically the whole of the American tin and terne plates were made from American block plates.

It is evident that the Welsh and English manufacturers have recognized for some time the growing importance of the American tin plate industry. It has now assumed such proportions as to threaten a complete stoppage of the importation of Welsh plates to the Pacific coast. By the end of this administration we will not only have succeeded in keeping the \$30,000,000 formerly spent for foreign plates at home but we will have built up a great export trade. Indeed, it is confidently predicted that the time is not far distant when America will supply the world with tin plate.—Times-Herald.

Did you ever stop to think that the pop party and the fusion democratic party never thrive except during "hard times"? Why is it? Isn't it a good time for you to look this matter up and cast your vote this fall in the interest of the party under whose administration the best times always occur?

LOCAL NEWS ITEMS.

Bad Swartz was down from Carroll Tuesday.

Deputy Sheriff Gildersleeve was in Wakefield Friday.

Several Wayneites took in the Dixon picnic on Saturday.

Clinton Manning returned to South Sioux City last week.

Neal Nye, the jolly pop from Leslie, was in Wayne Saturday.

Mrs. A. P. Childs and Mrs. Lathrop were Norfolk visitors Sunday.

Mr. and Mrs. S. H. Alexander visited friends in Carroll over Sunday.

Wm. House was a passenger Tuesday morning enroute for Missouri Valley.

The democratic county central committee meet this afternoon at 3 o'clock.

Miss Ella Williams began a term of school in Garfield precinct on Monday.

August Loeba went to Hartington yesterday morning where he has accepted a position.

Mrs. H. Webbles went to Pender Saturday where she will visit for a few days with friends.

Rev. Bethell of Decatur, preached two very good sermons at the M. E. church last Sunday.

Peter Merton went to Minnesota Tuesday morning for a short visit with relatives and friends.

Miss Knicker of the College, is spending the two weeks vacation at her home in Grand Island.

John T. Bressler was in Omaha on business connected with the U. P. railway Monday and Tuesday.

A number of Wayne people attended a musical at the Kimball home in Wakefield last Monday evening.

As J. Weatherby who was arrested last week on the charge of bigamy, could not give bond in the sum of \$1,000, he will languish in jail until the next term of court.

The Philomathean Literary Society, of the College, presented Mrs. Wallis with a beautiful gold chain as a token of the appreciation of her efforts in their behalf while she was here.

We have been informed that M. N. Conover who went to Omaha several weeks ago for the purpose of having an operation performed, is improving splendidly and will return home in about two weeks.

Miss Blanche Hamilton, Miss Lulu Staum and Miss Icy Knowlton who have been attending college, returned to their homes Tuesday morning, the former to Dakota City and the two latter to South Sioux City.

Miss M. Katherine Williams and Miss Clara Philleo went to Winside Tuesday where they gave an elocutionary and musical entertainment. They gave an entertainment at Carroll last evening and are billed for Randolph tonight and Wausa tomorrow night.

Democrat: Alfred Haglund, near La Porte, accompanied by a number of town friends who are visiting him, were viewing the city yesterday. Mr. Seyl has the lumber hauled for a large barn 42x52 feet. Mr. Seyl is one of the oldest settlers in the neighborhood of the Taylor ranch.

Wisner Chronicle—While in Wayne last Thursday we were pleased to meet our old Coming county friend, Michael Healy. His many friends here will regret to learn that his mother is in very poor health, and her daughter, Miss Kate Healy, has just returned from Denver to be with her mother in her declining condition.

EVERY DOUBT REMOVED!

Some people still doubt the return of prosperity, but there is not a shadow of a doubt that our store is the best place in the city both for quality and price.

Full Line of Groceries.

Kept constantly on hand. Don't fail to call on us if you want anything in the Grocery line. We also sell Fresh Fruits and Vegetables.

W. E. Brookings, = Opposite Post Office.

Clara and Fred Philleo and Nellie Spears were picnic visitors at Dixon Saturday.

Jno. P. White, one of Carroll's leading citizens and business men, had business in Wayne Tuesday morning.

M. P. Abern, Frank Fidler and Robt. Utter went to Jackson on the morning train Tuesday to attend the Woodmen picnic.

Rev. E. Van Dyke Wight arrived from Hastings on yesterday morning's train to preach the funeral sermon of Hon. Jno. T. Mettlen.

Modern Woodmen Picnic.

From the Wakefield Republican. The Modern Woodmen picnic at the enterprising little city of Wayne today was a grand and glorious success long to be remembered by the thousands who enjoyed the festivities of this no-strings-and-all-of-the-business-houses-were-handsomely-decorated-and-gay-with-bunting. The city of Wayne never does anything by halves. Accordingly the Woodmen accompanied by their wives and best girls poured into the city on every train and took the town by storm. A delegation of about seventy-five accompanied by our band of sixteen pieces went over from Wakefield. There was an attendance of not less than 5,000. The meeting after parade of principal streets, was called to order by the president, Dr. R. Q. Rowse. After the invocation by Rev. H. H. Millard followed a fine address of welcome by Hon. Frank Fuller to which President Rowse very neatly and appropriately responded. The address of the day by Head Council Northcott was highly entertaining as well as eloquent, inspiring and instructive. The speaker stated that it was one of the best meetings of any kind he had ever attended in any state.

No matter how long a business woman a woman may be, when the little loved god makes up his mind to shoot, there is no protection against his arrow. Yet many a young woman whose affections are already engaged, hesitates to assume the obligations of wifehood and motherhood, because she feels unfitted for them by some physical weakness or disease. The special ailments to which the feminine organism is liable, not only unfit a woman for happy wifehood and motherhood, but incapacitate her for any sphere of action. No woman can discharge the daily duties of any position with comfort or satisfaction who is constantly weighed down by head-aching, backaches and dragging, weakening drains. Troubles of this nature are not by any means a necessity of womanhood. They are positively and completely cured by Dr. Riere's Favorite Prescription. It imparts genuine health and strength to the womanly organs. It was devised for this one purpose by an eminent specialist in this particular field of practice. "For several years I suffered with prolapsus of the uterus," writes Miss A. Leo Schuster, of Box 24, Rodney, Jefferson Co., Miss. "Our family physician treated me for kidney trouble, and everything else but the right thing. I grew worse and worse. My body was emaciated, hands and feet numb and cold, stomach weak, with great palpitation of the heart. I dreaded for night to come for I would suffer with nausea all night and so continued until some kind unknown friend sent me your book with a married page. I began taking your Favorite Prescription, contrary to my family's wishes, and I began to improve right away. I have taken three bottles and now I am very nearly well and am very happy, and thankful to you.

Sheriff's Sale. Aug. 29-30. By virtue of an order of sale issued by the Clerk of the District Court of Wayne County, Nebraska, upon a decree rendered in said Court at the October, 1896, term thereof, in favor of Charles F. Barr and against James M. Keating, Lillie B. Keating, Charles McKeen, Trustee, Loyd W. Prouty, Frank Hodges, and Levi Livestock, I will, on the 29th day of September, 1897, at ten o'clock A. M., at the door of the office of the Clerk of the District Court of said County, in Wayne, sell the following described real estate, to-wit: The northwest quarter (int. 1/4) of section thirty-five (35) township twenty-seven (27) range two (2) east of the sixth (6th) P. M. at public auction to the highest bidder for cash to satisfy said decree, the amount due thereon being \$238.56 with interest at ten per cent. per annum from October 19, 1896, and \$12.30 court and costs. Dated August 11th, 1897. Ed. Reynolds, Sheriff, Wayne County.

The First National Bank!

Wayne, Nebraska. CAPITAL AND SURPLUS \$90,000.00. J. M. STRAHAN, President, FRANK E. STRAHAN, Vice-President. H. P. WILSON, Cashier, NATHAN CHAOB, Assistant Cashier. DIRECTORS: J. M. Strahan, Frank E. Strahan, George Bogart, John T. Bressler, James Paul, Frank Fuller and H. P. Wilson.

BEEF, PORK, MUTTON, SMOKED BEEF. Hams, Shoulders and Bacon. Highest Market Price Paid for Hides, Pelts and Furs, also Poultry."

CHAPTER VII.  
From the very first step he made inside the outer hall, with its ornate hall-studded door, tessellated pavement and diamond-paned windows, Armathwaite felt that the atmosphere of this spick and span mansion was as different from that of the desolate-looking, rambling old house in which he had passed the previous night as light from darkness.

Lady Kildonan darted through the Marie Antoinette curtains with the graceful agility which recalled to Armathwaite the movements of a greyhound, and leading him along a passage which was evidently a reproduction of a convent cloister, opened the door of one of the rooms with an arch pout of pen-

"For what are you about to receive," she whispered, and sprang into the room like a ray of sunshine.

It was the morning room, entirely in the taste of a fashionable London room, with boot-wood furniture and plush-bedecked cushions, Japanese vases and Japanese screens, red curtains and dried brush, with an "antique" cabinet, and a lot of little tiresome tables, laden with objects of no value to the owner or to anybody else. Half a dozen figures sprang up like jacks in the box from different parts of the room as Lady Kildonan came in, and Armathwaite recognized each individual by a hasty sketch he had received from his hostess on their way hither. Lady Kildonan, after a few words to everybody, and a glance round the room in apparent search for some one who was not there, went to take her hat off, leaving Armathwaite to the tender mercies of a circle whose powers of entertainment his hostess had not maligned. He passed the time durably until Lady Kildonan entered the room and carried them off to tennis in a covered court at the end of the cloister. This was a spacious place, sufficiently warmed by hot pipes, with a high glass roof and a carpeted gallery at one end, from which the non-players could watch the players luxuriously in lounging chairs and low seats.

Lady Kildonan, who was a far better player than anybody present except Armathwaite, but a bad playmate for the poor girls, as they looked ill-shaped and clumsy beside her, ran up into the gallery to rest after half an hour's play, and calling the young doctor to her, was chatting merrily with him when they both caught sight of a man standing half-hidden by the plants in the conservatory.

"Nod!" cried Lady Kildonan, springing up with a flash of excitement. Edwin Crosmont came forward, sullen and silent. She stood looking at him for one moment; then, with a hasty apology to Armathwaite and an anxious expression in her eyes, she joined the agent, and they walked away together, affecting to stop from time to time to gather a leaf or smell a flower, but evidently intent on some exciting subject of talk. Armathwaite, who was sitting at one corner of the gallery where he could look both into the conservatory and into the court below, saw them disappear together behind the central grove of camellias and other tall plants, and tried to interest himself in the game going on below. Just as a little excitement was caused in the court below by the entrance of a tall man, very much wrapped up, and wearing blue spectacles, whom the rest greeted as "Lord Kildonan," he suddenly heard the voice of Lady Kildonan in tones of passionate excitement.

"I tell you you must insist upon her staying. Use any means you like, but make her stay. Am I anybody? Are my wishes in my life, nothing to you?" Into Armathwaite's mind rushed the remembrance of the poor lady who had saved his life, as it seemed miraculously, the previous night; and even before he could argue with himself whether or not he should listen to this talk, which might prove to throw some light on the mystery of the unhappy wife's position, he heard, after a whispered answer in the man's voice, the lady's clearer, shriller tones. "If you are tired of doing my pleasure, I can soon find somebody else to!" Another short, angry, inaudible speech. Then Lady Kildonan's voice again.

"Well, and haven't I made use of doctors before now? Answer me that!" Crosmont said something to which she replied in a whisper, having apparently been warned that she might be overheard; and Armathwaite caught no word more, though faint tones of their voices came to him from time to time for the next few minutes. Presently they both joined him where he still sat watching the game below, and Lady Kildonan, who seemed already to have recovered her usual manner, told the young doctor that he must come down and be introduced to her husband. He followed her down the narrow iron staircase into the tennis court, where breaking up the group which surrounded her husband, she tripped nimbly to him, and slipping her arm within his, told him she had brought a visitor to see him, who was almost as learned as himself, and introduced Armathwaite, who was stippled with surprise, both at the appearance of his best and the manner in which the latter received him.

Instead of the cross-grained, withered-looking person he had been led by description to expect, he saw a tall, broad-shouldered, fresh-colored man, with scant sandy hair and plain Scotch features that seemed to shine with an expression of mingled shrewdness and kindness which made the whole face irresistibly attractive. When luncheon was over, Lord Kildonan affectionately asked his wife how she was going to amuse herself during the afternoon; and whether she would drive him as far as Plasmore, where he had some business.

"Oh, Archibald, I simply can't," she answered at once. "I am expecting the Stan-

ford, and if I were to be out when they came, Mrs. Stanford would cut me forever. Take Lady Greydon or Aunt Theresa and Bertie South to talk to you," she added in a low voice.

"No; if you can't come with me, I'll put it off until to-morrow," replied her husband. "It's not a very urgent matter. And I will show Dr. Armathwaite my books," he added, evidently finding consolation in that prospect. He had led the way across the mediæval hall and up two steps into a narrow passage, at the end of which he opened a door on the right and invited Armathwaite into a large and lofty room. On every side plain shelves, filled with books, reached from the ceiling to the floor; the furniture was of the barest and simplest kind; a couple of tables piled with books and papers, two or three step ladders for reaching the books, and six library chairs.

"Here," said Lord Kildonan, locking round him in the gloom with a loving smile, "I spend nearly all my time now. Very often I sit in half the night, and bring a becoming flush." In spite of all these disadvantages, Armathwaite, who guessed she was the ugly daughter referred to, felt that he should like the girl. "Is Dr. Peete at home?" asked he, raising his hat.

"Yes, but he's ill, and can't see any one, I'm afraid. Isn't that Ned Crosmont out there?" she asked, in a louder voice, coming a step forward.

"Yes, how do, Nellie? How's the doctor?" Dr. Armathwaite has come all the way from London to see him.

"Really?" said she, looking up in surprise at the young fellow, who seemed a giant beside her. "Are you coming in, too, Ned?"

"Thanks, no; I can't leave the mare. Just give them both my kind regards and Alma's love, and tell the doctor I hope we shall see him again soon."

"But when is Alma coming to see us? Papa's always asking after her, and can't understand why she doesn't come."

"Oh, she's got a cold, and a bad sore throat, and I don't dare let her come so far this weather," said Crosmont, taking up the reins to start.

"Well, then, I suppose we shan't see each other again?" said Crosmont, turning to him. "You can join the main line from here as well as from Consimere, you know, if you're anxious to get on to Scotland without delay."

"Yes, that is what I had better do," said Armathwaite, as, after apologizing to Miss Peete, he ran back to shake hands with him. "Thank you again for your kind hospitality. I shall never forget the way in which I have been received here."

Miss Peete led the way into the house, and passing through a narrow little hall, ushered him into a small, simply furnished, but cosy looking sitting room, with closed folding doors at one end. A lamp stood on the table, and by its light the visitor saw a lady of fifty, of matronly figure, sitting by the fire engaged in needlework of the plain and domestic kind. She looked up and displayed a face which might have been handsome in the majestic style before long years of dictatorship had made eagle eyes, hooked nose and closely shut mouth so overpoweringly fierce that Armathwaite almost blinked, and glanced in a meek and childlike way at the Miss Peete for protection.

"Here is a gentleman, mamma, who wants to see papa. His name is Dr. Armathwaite, and he has come all the way from London," said Millicent, looking good-humoredly up at her big companion as if she understood his trepidation and enjoyed the joke of it.

"Dr. Peete is much too ill to see anybody at present," said Mrs. Peete, in the voice, with which she routed little boys like a clap of thunder.

"Well, mamma, let me go up and see what he says himself," suggested Millicent. (To be continued.)

### CHAPTER VIII.

The way to Branksome, when the dangerous junction of the higher and lower roads into Mereside was passed, was level and good, and they reached the little town before the last glow of the sunset had faded behind the hills. They took a turning to the left out of the town, and passed a number of pretty little villas, detached and semi-detached, on their way to the doctor's.

"We shall be there in two minutes now," said Crosmont, who had been morosely silent for some time. "I'll put you down just this side of the house, if you don't mind, for I don't want to see any of them. The doctor bores one with his physical research, his wife is too dictatorial to be borne, and his daughter is ugly enough to make one sick. On second thoughts, though," he went on, dubiously, "I suppose I'd better call and leave inquiries."

He drew up at the garden gate of a rather pretty little semi-detached house, the tessellated pathway of which had been carefully cleared of snow. On the gate was a brass plate with the name "Dr. Peete." There was a fernery in the lower window and a bird cage hanging above it. Crosmont remained with his horse as Armathwaite went up to the door, which was open in spite of the weather, and rang the bell. In a few moments the door of the inner hall was opened, and Armathwaite found himself confronted by the plainest feminine person he remembered to have seen. She was very short, and of what may be irreverently termed a "squab" figure, with a round back and a head held too far forward. She had a bluing forehead, small round eyes, a nose that turned up so much that it seemed to draw her upper lip with it, exposing to constant view a row of prominent and uneven teeth; and her complexion was of that yellowish tinge which no excessive blushing can become fresh.

In spite of all these disadvantages, Armathwaite, who guessed she was the ugly daughter referred to, felt that he should like the girl. "Is Dr. Peete at home?" asked he, raising his hat.

"Yes, but he's ill, and can't see any one, I'm afraid. Isn't that Ned Crosmont out there?" she asked, in a louder voice, coming a step forward.

"Yes, how do, Nellie? How's the doctor?" Dr. Armathwaite has come all the way from London to see him.

"Really?" said she, looking up in surprise at the young fellow, who seemed a giant beside her. "Are you coming in, too, Ned?"

"Thanks, no; I can't leave the mare. Just give them both my kind regards and Alma's love, and tell the doctor I hope we shall see him again soon."

"But when is Alma coming to see us? Papa's always asking after her, and can't understand why she doesn't come."

"Oh, she's got a cold, and a bad sore throat, and I don't dare let her come so far this weather," said Crosmont, taking up the reins to start.

"Well, then, I suppose we shan't see each other again?" said Crosmont, turning to him. "You can join the main line from here as well as from Consimere, you know, if you're anxious to get on to Scotland without delay."

"Yes, that is what I had better do," said Armathwaite, as, after apologizing to Miss Peete, he ran back to shake hands with him. "Thank you again for your kind hospitality. I shall never forget the way in which I have been received here."

Miss Peete led the way into the house, and passing through a narrow little hall, ushered him into a small, simply furnished, but cosy looking sitting room, with closed folding doors at one end. A lamp stood on the table, and by its light the visitor saw a lady of fifty, of matronly figure, sitting by the fire engaged in needlework of the plain and domestic kind. She looked up and displayed a face which might have been handsome in the majestic style before long years of dictatorship had made eagle eyes, hooked nose and closely shut mouth so overpoweringly fierce that Armathwaite almost blinked, and glanced in a meek and childlike way at the Miss Peete for protection.

"Here is a gentleman, mamma, who wants to see papa. His name is Dr. Armathwaite, and he has come all the way from London," said Millicent, looking good-humoredly up at her big companion as if she understood his trepidation and enjoyed the joke of it.

"Dr. Peete is much too ill to see anybody at present," said Mrs. Peete, in the voice, with which she routed little boys like a clap of thunder.

"Well, mamma, let me go up and see what he says himself," suggested Millicent. (To be continued.)

### MONKEY HAS THE MEASLES.

Attendant Peculiar to Humanity Attacks a Simian at Paris Museum.

So far as the members of the French Academy of Medicine have been able to ascertain, Cynocephalus is the first monkey that ever had the measles. Zanzibar was his birthplace. He was brought to Madagascar, where he was sold to a superior officer in the French army. As a companion for him, the officer brought another monkey, a vagabond, who had no name, and whose birthplace was unknown. The weather being cold, the pets were placed in a warm house. P., a private in the Zouaves, who was serving the officer, attended to their wants, and often frolicked with them. One day P. went to the doctor, complaining of an eruption on his body. The doctor saw at once that he had measles and hurried him off to bed.

X., another soldier was put in charge of the officer's garden and monkey. Four days later he noticed that Cynocephalus kept to the corner of his cage and refused to eat. The same doctor who treated the zouave was called in. An examination showed an eruption on Cynocephalus' body and all the other symptoms of measles. The same treatment was given to him as to the zouave.

The other monkey was in no wise afflicted. To begin with, it is reported, he was not so intelligent or so human as Cynocephalus, who seems to have lived up to his fine name and his place in the Zanzibar peacocks, and then the two were of different tribes. "That one contracted the disease, while the other didn't," say the academicians. "Is not all remarkable, for of two persons exposed in the same way it occurs many times you have not, my young friends." You shall have them if you have patience and honesty and industry. (C. York Press.)

### TALK TO YOUNG MEN.

DR. TALMAGE ON THE EVILS OF GOING IN DEBT.

Destructive Influences of Society—Keeping Up Appearances—Temptations of City Life—Dangers of the Wine Cup.

Our Weekly Sermon.  
Dr. Talmage in this sermon shows how running into hopeless debts and skepticism have undone young men in town and country. The text is Proverbs vi, 22, "As an ox to the slaughter." There is nothing in the voice or manner of the butcher to indicate to the ox that there is death ahead. The ox thinks he is going on to rich pasture field of clover where all day long he will revel in the herbaceous luxuriance, but after awhile the men and the boys close in upon him with sticks and stones and shouting and drive him through bars and into a doorway, where he is fastened, and with well-aimed stroke the ax falls him, and so the anticipation of the redolent pasture, field is completely disappointed. So many a young man has been driven on by temptation to what he thought would be parasitical enjoyment, but after awhile the influences with darker hue and swarther arm close in upon him, and he finds that instead of making an excursion into a garden he has been driven "as an ox to the slaughter."

Society to Blame.

We are apt to blame young men for being destroyed when we ought to blame the influences that destroy them. Society slaughters a great many young men by the best: "You must keep up appearances. Whatever be your salary, you must dress as well as others, you must give wine and brandy to us many friends, you must smoke as costly cigars, you must give as expensive entertainments and you must live in as fashionable a boarding house. If you haven't the money, borrow. If you can't borrow, make a false entry or subtract here and there a bill from a bundle of bank-bills. You will only have to make the deception a little while. In a few months or in a year or two you can make all right. Nobody will be hurt by it, nobody will be the wiser. You yourself will not be damaged." By that awful process 100,000 men have been slaughtered for time and slaughtered for eternity.

Suppose you borrow. There is nothing wrong about borrowing money. There is hardly a man who has not sometimes borrowed money. Vast estates have been built on a borrowed dollar. But there are two kinds of borrowed money, money borrowed for the purpose of starting or keeping up legitimate enterprise and expense and money borrowed to get that which you can do without. The first is right, the other is wrong. If you have money enough of your own to buy a coat, however plain, and then you borrow money for a dandy's outfit, you have taken the first revolution of the wheel down grade. Borrow for the necessities; that may be well. Borrow for the luxuries; that tips your prospects over in the wrong direction.

The Bible distinctly says the borrower is servant of the lender. It is a bad state of things when you have to go down some other street to escape meeting some one whom you owe. If young men knew what is the despotism of being-in-debt, more of them would keep out of it. What did debt do for Lord Bacon, with a mind towering above the centuries? It induced him to take bribes and convict himself as a criminal before all ages. What did debt do for Walter Scott, broken hearted at Abbotsford? Kept him writing until his hand gave out in paralysis to keep the sheriff away from his pictures and statuary. Better for him if he had minded the maxim which he had chiseled over the fireplace at Abbotsford, "Waste not, want not."

Going in Debt.

The trouble is, my friends, that people do not understand the ethics of going in debt, and that if you purchase goods with no expectation of paying for them, or go into debts which you cannot meet, you steal just so much money. If I go into a grocer's store and I buy sugars and coffees and meats with no capacity to pay for them, and no intention of paying for them, I am more dishonest than if I go into the store, and when the grocer's face is turned the other way I fill my pockets with the articles of merchandise and carry off a hum. In the one case I take the merchant's time, and I take the time of his messenger to transfer the goods to my house, while in the other case I take none of the time of the merchant, and I wait upon myself, and I transfer the goods without any trouble to him. In other words, a sneak thief is not so bad as a man who contracts debts he never expects to pay.

Yet in all our cities there are families who move every May day to get into proximity to other grocers and meat shops and apothecaries. They owe every body within half a mile of where they now live, and next May they will move into a distant part of the city, finding a new lot of victims. Meanwhile you, the honest family in the new house, are both derided day by day by the knocking at the door of disappointed bakers and butchers and dry goods dealers and newspaper carriers, and you are asked where your predecessor is. You do not know. It was arranged you should not know. Meanwhile your predecessor has gone to some distant part of the city, and the people who have anything to sell have sent their wagons and stopped there to solicit the "valuable" custom of the new neighbors, and he, the new neighbor, with great complacency and an air of affluence, orders the finest steaks and the highest priced sugars and the best of the canned fruits and perhaps all the newspapers. And the debts will keep on accumulating until he gets his goods on the 30th of next April in the furniture cart.

No wonder that so many of our merchants fail in business. They are swindled into bankruptcy by these wandering Arabs, these nomads of city life. They cheat the grocer out of the green apples which make them sick, the physician who undertakes to cure their distress and the undertaker who fits them out for departure from the neighborhood where they owe everybody when they pay the debt of nature, the only debt they ever do pay.

Commercial Ethics.

Now our young men are coming up in this depraved state of commercial ethics, and I am solicitous about them. I want to warn them against being slaughtered on the sharp edges of debt. You was ever a young man, have an instrument of music—harp or lute or cornet or melodeon or violin or piano. Every morning before you leave that room pray. Every night

after you come home in that room pray. Make that room your Gibraltar, your Sevastopol, your Mount Zion. Let no bad book or newspaper come into that room any more than you would allow a cobra to coil on your table.

Take care of yourself. Nobody else will take care of you. Your help will not come up two or three or four flights of stairs; your help will come through the roof, down from heaven, from that God who in the 6,000 years of the world's history never betrayed a young man who tried to be good and a Christian. Let me say in regard to your adverse worldly circumstances, in passing, that you are on a level now with those who are finally to succeed. Mark my words, young man, and think of it thirty years from now. You will find that those who think they are now the millionaires of their country, who are the opators of the country, who are the poets of the country, who are the strong merchants of the country, who are the great philanthropists of the country—mightiest in church and state—are this morning on a level with you, not an inch above, and you in straitened circumstances now.

Young Men in Great Cities.  
There is no class of persons that so stir my sympathies as young men in great cities. Not quite enough salary to live on, and all the temptations that come from that deficit. Invited on all hands to drink and their exhausted nervous system seeming to demand stimulus. Their religion caricatured by the most of the clerks in the store and most of the operatives in the factory. The rapids of temptation and death rushing against that young man forty miles the hour, and he in a frail boat headed up stream, with nothing but a broken oar to work with. Unless a better God help them they will go under.

Ah, when I told you to take care of yourself you misunderstood me if you thought I meant you are to depend upon human resolution, which may be dissolved in the turn of the wine cup or may be blown out with the first gust of temptation. Here is the helmet, the sword of the Lord God Almighty. Clothe yourself in that panoply, and you shall not be put to confusion. Sin pays well neither in this world nor the next, but right thinking and right believing and right acting will take you in safety through this life and in transport through the next.

I never shall forget a prayer I heard a young man make some fifteen years ago. It was a very short prayer, but it was a tremendous prayer: "O Lord, help us! We find it so very easy to do wrong and so hard to do right!" Lord, help us! That prayer, I warrant you, reached the ear of God and reached his heart. And there are 100 men who have found out, 1,000 young men, perhaps, who have found out—that very thing. It is so very easy to do wrong and so hard to do right.

O friendless young man, O prodigal young man, O broken hearted young man, discouraged young man, wounded young man, I commend to you Christ this day, the best friend a man ever had!

Word in Season.

Many stories are told of the eccentric Parson Adams, minister in Lunenburg, Massachusetts, for over forty-five years. He was a man whose character won respect from laymen as well as from his brother clergymen, and whose influence was widely felt.

At one time he went to preach in a town some miles distant from Lunenburg, and stopped to pass the night at a friend's house. It was a cold winter night, and the clergyman was both tired and hungry. It was proposed to have prayers at once and then supper, after which the minister could go directly to his bed, and get a long night's rest. To this he agreed, and the family were called together.

The supper was to consist mainly of Indian cakes, which were set to bake on platters in front of the fire. The parson's seat was opposite the kitchen door.

The service began, but in a moment Parson Adams saw that one of the cakes had fallen down and was burning. He paused and looked toward his hostess, who seemed unconscious of any culinary crisis.

"Mrs. Blank," he said, gravely, "we are told to watch, as well as to pray. I cannot help seeing that one of those excellent cakes is burning. I will thank you to attend to it."

The cake was rescued, and Parson Adams resumed his Scripture reading with an easy mind.

The Real Work.

The real work before the Christian church to-day is to show that while the gospel of love has displaced the gospel of fear, it has done so in the interest of higher Christian living. In the past the gospel of fear restrained men and somehow at the same time produced men whose lives were filled with reverence and hope and holiness. The gospel of love, if rightly proclaimed, must lead to a profounder reverence, to fuller and purer hopes and to greater holiness. Otherwise it were better to return to the old gospel of fear.

The freedom of this new gospel is not a throwing off of the restraints of life, but a putting of impulses to right in their place; it is the freedom of the sons of God. The call is to a freedom in which we can honor God best by serving man most.

In the Hour of Temptation.

To realize that He, who is our creator, our daily guide and ruler, our tenderest friend, knows all things and means to use that knowledge for our good is full of comfort. It is a help in the hour of temptation. We are checked, when likely to yield, by the recollection that the Divine eye is upon us and that all the consequences of our sin are foreseen by Him. It is a help in the day of trouble. It is consoling, in some degree, to be sure that God knows why we have been afflicted and how good can be made to result from our bitterest trials. Whatever knits us closer to our Heavenly Father is of present, permanent and the utmost benefit, and our consciousness that He is all-knowing as truly as all-loving helps to bind us fast to Him.

Near Alachua, Fla., a man who had just put some tools into a chest at approach of a storm was struck by lightning and killed as he stood under an oak tree, which was photographed perfectly in his body by the fluid.

STORY OF THE SEA.

Tale Told by the Log of the Good Ship Topaz. Robert H. Folger, the oldest practicing lawyer in America, has, at his home in Massillon, Ohio, a treasure in the way of a ship's log kept by his father, Captain Mayhew Folger of the good ship Topaz.

ROBERT H. FOLGER.

tain Bligh in the long boat and sending her adrift, Christian, their chief, proceeded with the ship to Orotari. There all the mutineers chose to stop except Christian, himself and seven others, who took wives and also six men as servants, and immediately proceeded to Pitcairn Island, where they landed all the goods and chattels, ran the Bounty on shore and broke her up.

Diamonds in an Extinct Volcano. An interesting discovery from a geological point of view was recently made by an explorer in the mountains of Witzles Hook, Natal.

Doctors and Patients.

A physician with a large practice sees strange sights—some humorous, some pitiful, and some irritating. Sir Benjamin W. Richardson, commenting on the fact that these singular sights tend to produce in the doctor's mind the feeling "All things are alike to all," says he once surprised a bishop by saying that the writer of Ecclesiastes must have been a doctor.

Once a woman who kept a fuel store brought her husband to Doctor Richardson in a little cart with his body covered with small coal, under the idea that by this means she was keeping him warm. Another woman, to whom he prescribed an ether mixture, therefore volatile, first made it warm, in order that it might be agreeable to take.

He was called in the early days of his London practice to visit a servant in a large house, and overheard the mistress ask the housekeeper, "What sort of a man is he, and how did he come? Did he drive?"

"I think you'll like him ma'am," replied the housekeeper; "but, poor man! he is only a walking doctor yet."

People made a distinction between the walking and the driving doctor in former days. A physician with a large paying practice used to ride in a chariot which cost three hundred guineas. Now people do not care if a doctor comes in a hack, or a brougham, or a cab, provided he comes quickly.

The old physician was known by everybody as a doctor. He wore a long, broad-tailed coat, knee breeches, Hessian boots, a frilled shirt with ruffles at the wrists, and a large white cravat of the finest lawn. He carried a cane with a perforated box at the top, which held camphor or some other smelling substance. When he was called to a consultation, he expected to find a table spread with wine-glasses, a decanter of brandy and a bottle of wine.

Oldest College Men.

Samuel Ward Chandler of Philadelphia, and the class of 1822, now nearly ninety-four years of age, is Harvard's well-preserved oldest; he is the father of Francis W. Chandler, professor of architecture in the Massachusetts Institute of Technology. Dartmouth's oldest living graduate is Mark Wentworth Fletcher of Wayne, Ill., class of 1825, who is within a few months of being as old as Harvard's oldest, Emilius Mitchell Sayre of Monticello Mo., who is in feeble health in his eighty-eighth year. Is Amherst's oldest; he was in the class of 1828, of which he is the sole survivor. The oldest Williams graduates of the same class of 1828 are Joseph Lyman Partridge of Brooklyn, ninety-three years of age, and Rev. Ebenezer Harrison Stratton of Branchport, N. Y. The oldest for Bowdoin College is Frederick Wade Burke of New York City, ninety-one years old, of the class of 1824. Wesleyan's oldest, and indeed her very first graduate, is Daniel H. Chase, who lives at Middletown, and now and then attends the morning chapel service. Mellen Fitch of West Newton and the class of 1826, now ninety-two years of age, heads the list for the University of Vermont. Lawyer Albert Ware Paine of Bangor, Me., at Waterville, Me. Dr. Benjamin D. Sullivan of Brooklyn, N. Y., holds the seniority for Yale.—Boston Journal.

Played Marbles Long Ago.

Dean Farrar thus describes Oliver Wendell Holmes when he made his last visit to England in 1886: "He was an old man, and his diminutive figure, perhaps, showed that he could never have had great physical strength. It is a fatiguing thing to go over the abbey, and he undoubtedly felt tired, and was glad to get back to my house for a cup of tea. But he has recorded the intense pleasure the visit gave him, and he told me that he thought these two hours in the great Temple of Silence and Reconciliation, were among the most interesting he had ever spent. He mentions also the curious fact that we are often more struck by little things than by great. Amidst the imposing recollections of the ancient edifice," he writes, "one impressed me in the inverse ratio of its importance. The archdeacon pointed out the little holes on the stones (of the cloister benches) where the boys of the choir (he should have said of the Monastic school) used to play marbles before America was discovered—probably centuries before; it may be. It is a strangely impressive glimpse of a living past, like the graffiti of Pompeii."

The Pension Society of German Journalists reported at its recent meeting in Munich an increase in membership from 474 to 501, ninety-seven of whom received support last year.

Riding Hands Off the Bars.

There are various reasons why the reprehensible practice of riding with hands off the handle bars should be generally abandoned. Chief among these reasons, perhaps, is the fact that it is dangerous not only to the rider himself, but to others. To do the trick successfully, it is necessary to travel at a speed which is liable to be crossed off anywhere by pedestrians or other riders, and it is just such thoroughfares that the senseless hands-off rider selects to show himself off. With the hands off the bars the rider has no control of the wheel, and particularly at crossings, there is no telling at what instant it is necessary to make a detour or shakedown speed. Just the fraction of time necessary to regain control of the wheel is often enough to cause an accident. With no guiding power there is no telling what the front wheel is going to do. A small obstacle in the street which would ordinarily be passed over without notice is enough to deflect the front wheel and, if there are any riders close, send it crashing into their bicycles.

Noise Means Damage.

When your bicycle makes a noise it is a sure sign that something is wrong. The perfect running machine is noiseless. A jingling sound usually indicates that spokes have broken loose from their fastenings at crossing points; a distinct click indicates spokes loosened at the rim; what might be termed a joggling noise is usually caused by a loose crank; loud snapping almost invariably comes from a dry chain, and a loose sprocket will thump. No matter what the noise is, or from what part of the machine it comes, it indicates trouble that should be promptly attended to.

What a Collision Means.

A man of 150 pounds weight, and moving at the rate of ten feet per second (about seven miles an hour), has a momentum of 1,500 pounds, without counting the weight of his wheel. This is sufficient to have surprising effect on the ordinary pedestrian. A collision between two 150-pound riders wheeling at the moderate rate of seven miles an hour would result in a smash-up with a force of 3,000 pounds. No wonder bicycle accidents are often serious!

Depend on the Right Foot.

It is a singular fact, but true, that the majority of cyclists depend on the right foot to push the machine along. In proof of that, if the balls on a crank axle are examined, those on one side will be found more worn than on the other. That is accounted for by the fact that the greatest strain is on the right side.

Scorchers.

"How long did it take you to learn the bicycle?" "Me? It wasn't three days before I could be as fast as any of them."—Indianapolis Journal.

Tyres—Have you named your boy yet? Spokes—No; my wife wants to name him after her wheel and I want to name him after mine.—Judge.

Walker—They say that Napoleon was so self-possessed that not even the sound of a pistol fired close to his ear could make him start. Wheeler—He wouldn't have much show in a bicycle race.—Indianapolis Journal.

Some people have stopped eating grapes for fear of appendicitis, and it is now said that the bicycle is a prolific cause of that disease. Stop eating bicycles.—Louisville Courier-Journal.

Mrs. Vanwart (rising up in bed horrified)—Reginald, what made you swear so when you stepped on that tack? Vanwart (wildly)—For a moment I thought I was cycling and had punctured my tire.—Puck.

An Informal Meal.

In English country houses the hour of high tea is considered the pleasant one in the day, especially during the hunting season. Formality is cast aside. The men come in from the field with appetites sharpened by a long gallop in the fresh air. The women appear in their prettiest tea gowns, the conversation is usually interesting and spirited, and everything tends to make the participants linger long around the table. The meal partakes of the nature of breakfast, luncheon and dinner, without being too nearly like any of them. Tea, of course, is served, and is made at the table by the hostess, being kept warm under a dainty cosy. Claret and even beer, are allowable for the tired and thirsty sportsmen, though the latter is rarely asked for. The table is well furnished with substantial eatables for the men and with dainties for the women.

Tobacco Consumption in Austria. Austria, with a total population of about 43,500,000, consumed in 1896 1,244,000,000 cigars and 1,995,000,000 cigarettes, which is about thirty-eight cigars and forty-eight cigarettes to every man, woman and child in Europe per year. Since the manufacture of cigars, cigarettes and tobacco is a monopoly of the Austrian government the entire income of this industry reverts to public uses. The total receipts for the year amounted to more than 83,000,000 florins (\$37,000,000).

Most people not only grow older every day, but poorer.

GREENWOOD IS PRESIDENT.

New Head of the National Education Association. James Mickleborough Greenwood, the new president of the National Education Association, was born a few miles south of Springfield, Ill., in 1840. In 1852 his father moved to Adair County, Missouri. Mr. Greenwood in all his life received only forty-four weeks of schooling. This was supplemented with a year or so at Canton Seminary, but his studies there were a little more than a review of what he had learned at school and by private application. He first intended to be a lawyer, and read considerably, but was interrupted by the breaking out of the war and spent eighteen months in the army. When he came out he returned to his father's farm and devoted himself to breaking mules. While engaged in this way he was discovered by Joseph Baldwin, now a leading Texas educator, but

JAMES M. GREENWOOD.

then engaged in starting a private normal school. The result was that young Greenwood left the plow and mule and became for seven years professor of mathematics in Prof. Baldwin's private school, which soon became a flourishing State institution. In 1874 he was elected superintendent of public schools in Kansas City, which place he has filled ever since. He has frequently been solicited to accept the presidency of the association, but would never yield until now. Mr. Greenwood still retains the appearance of a farmer. He has a swarthy complexion, which contrasts both with a dark mustache and gray hair. He has the reputation of a tireless student and of special proficiency in mathematics. As a school superintendent he is remarkably popular and successful, and, it is said, successful because he is popular.

Women as School Teachers.

According to census figures and close estimates, based upon reliable information, there were in the United States in 1895 no less than 268,000 women engaged in teaching school. Twenty years ago England had 11,610 male and 14,901 female teachers. Last year there were 66,310 female and only 26,270 male teachers. The same change is to be found in other countries, particularly in those in which rudimentary education is generally diffused.

In Spain, where the standard of public education is low, there are few female and many male teachers, whereas in Denmark, where for many years the standard of education has been high, the number of male teachers is low compared with the number of female teachers, the total number of both being in excess of 9,000. There are about 400,000 teachers, male and female, in the United States, 350,000 in France, 70,000 in Germany, 92,000 in England, 100,000 in Italy, 100,000 in Russia, 25,000 in the Netherlands, 40,000 in Spain, 3,500 in Greece and 22,000 in Canada. The march of education in Europe has been remarkable, for, while the population has increased only 33 per cent since 1840, the average number of children attending school has risen 145 per cent, but this advance seems less important when compared with the gain made in the United States. In 1860 the total number of school children in the United States was 5,700,000, of which 720,000 were in New England, 1,700,000 in the Middle States, 1,000,000 in the Southern States and 2,280,000 in the Western States and territories. At present the number of school children enrolled is in excess of 14,000,000, of whom 4,600,000 are in what was formerly the South, 2,600,000 in the Middle States, 800,000 in New England and 6,000,000 in the Western States and territories. There has been a decisive gain everywhere in respect not only of the number of school teachers, but of their efficiency.

Cambridge and Women.

The report of the syndicate appointed by the University of Cambridge to consider the question of granting degrees to women, has been presented to the university authorities. Though the committee are not in favor of admitting women to membership in the university, they recommended that the degree of Bachelor of Arts be conferred by diploma upon women who have passed the final tripos, and that in due course such women may proceed to the degree of Master of Arts. The committee also decides that the university may grant honorary degrees in art, law, letters, science and music to women who have not complied with the usual conditions but who have been recommended for such degree by the Council of the Senate.

Summer Normal Work.

Arkansas has a law appropriating \$20,000 a year for a summer normal work, and making attendance obligatory upon pair of revoking certificates. State Superintendent Jordan deserves very large credit for this forward movement, illustrating the assertion which has often been made, that the highest qualification of a State superintendent is ability to secure helpful and prevent hurtful legislation.—Ex.

Australia's Universities.

Australia has five universities, Sidney, Melbourne, Adelaide, Dunedin and Orange, all but the last two empowered to confer degrees. Melbourne, the oldest, has an important technical school attached, a precedent which has been followed by Sidney. In addition to the university libraries, nearly every important town in the colonies has a public circulating library of its own.

The Schiller-Stiftung, in Germany, distributed last year more than 12,000 marks among the indigent families of authors.

No Royal Road.

Euclid, the famous Greek mathematician, was asked one day by King Ptolemy, whether there was not a shorter and easier way to the knowledge of geometry than that which he had laid down in his Elements. "No, indeed," said he, "there is no royal road to geometry." In the same spirit, when Alexander the Great wanted to learn geometry by some easier and shorter method, he was told by his teacher that "he must here be content to travel the same road with others, for the things of this nature are equally difficult to prince and people."

Manx Humor.

The Manx people are very plain spoken. Hall Caine, who is their acknowledged historian, tells a good story of a grumpy old Methodist woman in the Isle of Man who could never be satisfied with her preachers. One of them, being about to leave, called to say good-by. "Well, good-by," she said, "and God bless ye, and may the Lord send a better man in your place." Next day his successor came to see her. "Well, I hope the Lord has sent a good man," she said, "but there's none so good that comes as them that goes."

An Amiable Legacy.

A tendency to rheumatism is undoubtedly inherited. Unlike many other legacies, it remains in the family—the most effectual means of checking this tendency, or of removing incipient rheumatism, whether present in the blood or not, is to resort to Hostetter's Stomach Bitters as soon as the preliminary twinges are felt. Nullifying the influence of cold, exposure and fatigue, the Bitters not only fortifies the system against their harmful consequences, but subjugates neuralgia, liver and kidney complaint, dyspepsia and nerve disquietude.

Paris and Her Obelisk.

If the obelisk in Central Park were to be treated as Paris proposed to treat her Cleopatra's needle, there would be a great outcry. Paris is searching for sensations for her exposition of 1900. One of the propositions is to bore through the needle which stands in the Place de la Concorde, and install an electric light on the summit. The engineering features of the proposal are striking, for it will be necessary to dig under the shaft and work upward from the bottom.

Try Allen's Foot-Ease.

A powder to be shaken into the shoes. At this season your feet feel swollen and hot, and get tired easily. If you have smarting feet of tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures and prevents swollen and sweating feet, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it to-day. Sold by all druggists and shoe stores for 25c. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

A High Compliment.

No more elegant compliment was ever paid to a preacher than that of King Louis XIV. of France to Jean Baptiste Massillon, bishop of Clermont. Said he: "I have heard many great preachers, and the effect they produced on me was that I felt thoroughly satisfied with them. Every time I heard you, I have been dissatisfied with myself."

Hall's Catarrh Cure

Is a constitutional cure. Price 75 cents.

London "Bobbies."

The London policeman goes on the force at a salary of \$6 per week, with the assurance of a raise to \$8 at the end of eight years' service. He has, in addition, his uniform, boots, coat money and some other extras, as well as the promise of superannuation pay at the end of 23 years' service.

Last of Napoleon's Soldiers.

The last French survivor of Waterloo was banqueting last month at his home in France. His name is Baillot, and his age is 104. He was 22 at the time of the battle, and though many of the French troops were younger than himself, he alone is left of Napoleon's host of 61,000.

Piso's Cure for Consumption has saved me large doctor bills.—C. L. Baker, 4228 Regent St., Philadelphia, Pa., Dec. 8, '95.

A Computation.

"But, my dear, if you discharge the girl without notice, she may make it cost us a couple of pounds. You know there is an agreement about notice." "Yes, and if I give her a month's notice she will manage to break \$5 worth of china before she goes."—Spare Moments.

Mrs. Winslow's SOOTHING SYRUP for Children teething, cures the colic, reduces inflammation, allays pain, cures wind colic.—25 cents a bottle.

MRS. CURTIS, NEW YORK.

Tells Her Experience With Ovaritis.

A dull, throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with an occasional shooting pain, indicates inflammation. On examination it will be found that the region of pain shows some swelling. This is the first stage of ovaritis, inflammation of the ovary. If the roof of your house leaks, my sister, you have it fixed at once; why not pay the same respect to your own body?

Do you live miles away from a doctor? Then that is all the more reason why you should attend to yourself at once, or you will soon be on the flat of your back.

You need not, you ought not, to let yourself go, when one of your own

sex holds out the helping hand to you, and will advise you without money and without price. Write to Mrs. Pinkham, Lynn, Mass., and tell her all your symptoms. Her experience in treating female ills is greater than any other living person. Following is proof of what we say:

"For nine years I suffered with female weakness in its worst form. I was in bed nearly a year with congestion of the ovaries. I also suffered with falling of the womb, was very weak, tired all the time, had such headaches as to make me almost wild. Was also troubled with leucorrhoea, and was blotted so badly that some thought I had dropped. I have taken several bottles of Lydia E. Pinkham's Vegetable Compound, and several of her Blood Purifier, and am completely cured. It is a wonder to all that I got well. I shall always owe Mrs. Pinkham a debt of gratitude for her kindness. I would advise all who suffer to take her medicine."—Mrs. ANNIE CURTIS, Ticonderoga, N. Y.

### CORRESPONDENCE.

#### WINSIDE

Sheriff Reynolds transacted business in Winside Tuesday. There is a splendid opening in Winside for a first class milliner. W. M. Wright was in town Tuesday looking after his farming interests. Will Hart, Winside's hustling blacksmith, is enjoying a good business these days. Quite a heavy rain fell Tuesday forenoon. No more rain is needed in this neighborhood. The grain men were paying 69 cents for new wheat Tuesday and the grain is of an excellent quality. The band boys are rehearsing twice a week, and on Saturday evening play in Park band stand from 6:30 to 8 o'clock. Miss McCauley who has been engaged in the millinery business, departed for her home in Lemont, Ill., last Friday, owing to ill health. A. H. Carter and wife, L. Crosby and wife, Dr. Muirhead and wife, and Ora Miller and wife, leave for the east Saturday to attend the National G. A. R. reunion at Buffalo, N. Y. W. M. Gue has sold several thousand bushels of corn the past week for parties who are non-residents; and Mittlestadt & Co. and Edwards & Bradford have also sold several thousand bushels. Frank Lily who has been acting as depot agent during the absence of Jno. Bender who was out west for his health the past month, left for Jackson Tuesday morning. A number of the young people gave a very pleasant party in his honor at the Commercial House Monday night.

#### HUNTER

To much rain for the good of the small grain. The hum of the threshing machines are to be heard between showers. Miss Grace Davis visited over Sunday with her parents, west of Carroll. Some of our farmers have already threshed and the wheat is yielding from 10 to 15 bushels per acre. One of our popular young bachelors has rented a farm and rumor says he is soon to be married. Here is our congratulations in advance, Nick. Wm. King left last week for Sioux City. We are sorry to see you go "Bill" as there will not be half the fun on the Logan now that there was before. RESOLUTIONS OF RESPECT. At a special meeting of Casey Post No. 5, G. A. R., held on Tuesday evening, August 17th, 1897, the following resolutions were unanimously adopted: WHEREAS, It has pleased the Great Commander to muster out from the active duties of life our late Commander and Lieutenant, John T. Mettlen, and to muster him into the ranks of that great army above, where the clash of swords and din of battle is never heard, and into whose ranks no discord ever comes; and WHEREAS, Whether as a citizen of the country he served so faithfully, as a comrade of the Grand Army of the Republic, or as Commander of this Post, our late comrade was loved and respected by all who knew him, and in his death this Post has met with an irreparable loss; therefore RESOLVED, That in commemoration of his noble and patriotic life, the colors of the Post together with its charter, be draped in mourning for the space of ninety days. RESOLVED, That we commend his patriotism as a volunteer soldier, his sterling and upright worth as a citizen and his noble, Christian character, as an example to the youth of our country. RESOLVED, That to the family of the deceased we tender our heartfelt sympathy in this hour when they are compelled to "pass under the rod," and commend them for consolation to Him "who giveth His beloved sleep." RESOLVED, That these resolutions be spread in full upon the minutes of the Post, a copy of the same presented to the family of the deceased, and that they be published in the city papers. (ARTHUR P. CHILDS, Committee.) (ANDREW J. FERGUSON, JAMES W. BARTLETT.)

#### PLEASANT VALLEY.

Eleven of our folks attended camp meeting at Norfolk. Hattie Simmerman was quite badly burned last Saturday by starting a fire with kerosene. Mrs. McKay returned home last Saturday accompanied by her daughter who lives at Bloomfield with whom she had been visiting for a week. The horse that was killed by lightning about two weeks ago, lies within eight rods of a main traveled road and is becoming very obnoxious. The bridge west of the Hardy place has two awful washouts beside the track. It should have been repaired long ago. The excavations are eight or ten feet deep. James Jennings of La Porte, has been visiting his brothers and many old friends of this place the past week. On Tuesday he went up north of Carroll to see another brother. The angel of death has again visited our peaceful corner of God's kingdom, and taken from the home of Mr. and Mrs. S. G. Young their only child, Francis Marion, aged 2 yrs., 2 months. The funeral took place at home this morning at 9 o'clock, Rev. Millard rendering the discourse. The bereft have the deepest sympathy of all who know them. May God comfort them in their affliction.

#### CARROLL

Stacking and threshing is all the go here when it is not raining. Thorn & Claxton shipped in another car load of cattle the 18th inst. Mrs. Sherman Baker had the misfortune to lose a heifer by lightning. Thos. Shirts had the misfortune to lose one of his colts. The animal got its leg broken. Miss Mary Howarth is spending a few days at home during the college vacation at Wayne. A change has been made at the creamery, Mr. St. Clair, of Hartington, succeeding Mr. Neeland. George Bailey who has been visiting the past two weeks at Atlantic, Iowa, returned home Wednesday evening. There are three blacksmith shops in town and talk of another one being established. Surely we need one more? We have just been informed that E. Haines has traded his Wayne property to Sam Hurlburt and C. J. Beach for property in Carroll. A number of people have been in the village the past week looking up the hotel business. Carroll needs a good hotel very much, and the old one needs repairing badly. The Carroll ball club went to Norfolk Tuesday to play the club of that place Wednesday and Thursday. The game yesterday resulted in favor of Norfolk by a score of 26 to 6. The apple wagons have begun to make their appearance throughout the county. It will not be long, however, until this part of the state will have plenty of apples of its own production.

#### BUSH UNION

The hum of the threshing may now be heard. Wheat yields 8 to 15 bushels per acre and oats 30 to 40. With present prospects corn will yield equal to last year. Our people nearly all attended the Woodmen picnic last Thursday. Only a few farmers are going to thrash from the shock and stacking is almost done. The families of Chas. Martin and David Shay attended the Dixon picnic last Saturday. The 11th quarterly meeting of the Carroll M. E. church will be held next Sunday evening. Our people invited. The S. S. at the Flag school house meets at 10 o'clock; a good attendance so far, and everyone is invited every Sunday. Miss Mary Seace, the teacher of the Nairn school for the coming year, graduated from the Scientific course of the College last week. L. Simmerman and son, West Woods, and H. J. Robinson and daughter attended the meeting at Norfolk over Saturday and Sunday.
