Threch, Nov. 3: Nebraska republicans find nothing but gloom in the survey of the state field. For twenty-four hours after the closing of the poils yesterday evening retarns during the day and early evening simply confirmed what was evident at midnight last night, that the fusion state tlökef had been elected by a plurality fully as large as that given Bryan last year, if not larger.

Early in the afternoon it was generally admitted at republican headquarters that the state was lost, and Secretary Sizer of the state committee emphasized the common belief at 9 o'clock tonight when he authorized the following statement to be made:

The elections held in the year immed ately following a presidential contest are almost invariably marked by a fack of in-terest and the chief feature of the contests in the various States Tuesday was the apathy manifested by the electors. There is a falling off in the vote of both parties, and while the Democrats show relative and while the Democrats show relative nal presidential vote of last year, the stay at-home vote is made of nearly an equal percentage of both parties. Though the elections were for the most

part for offices of little national impor-tance, the result was awaited with con-siderable interest. In Ohio, Virginia, Iowa, Pennsylvania, Kentucky, New York, Nebraska and Massachusetts the fight waged fiercely. Ohio and Iowa elected Governors. In Maryland and Ohio a special national interest was involved or account of a United States Senator hav

In Ohio, the Democrats endorsed the Chicago platform, and the silver-forces contended for the establishment of their doctrine and the election of a Senator. The Republicans inade a fight for the present gold Democrats enuorset the Sessant Perform, and the silver forces contended for the establishment of their doctrine and the election of a Senator. The Republicans made a fight for the present gold standard, for Republican principles and for the oction of Mark Hanna to the Senate. In Maryland the important fight was over the senatorship. In New York, where interest centered almost solely in the Greater New York mayoraly fight, the situation was badly mixed. The Democrats were divided into silver and gold factions. Tammanyites and anti-Tammanyites. The Republicans had to contend with a division of their, proces on account of the independent nomination of the Oftizens' Union in New Xork City, and with a small fragment of the anti-Platt Republicans. Then the dramatic death and the fineral of Henry George, the nominee of the Democracy of Thomas Jefferson and author of "Progress and Poverty," on the eve of the election, an imprecedented event in the political history of the country, if not of the world, and the selection of his son Henry George as his political heir, brought about complications which had never before been encountered in a municipal campaign. In Iowa very important local considerations entered into the fight. The Democrats, in addition to making a fight on the other Bryan lines, attacked the record of the Republican State officers, accusing them of extravagance, etc, and a hard fight was made by both parties. In Nebansia, the Democrats, Popullists and silver Republicans were united. In Kentucky it was a struggle between Blackburn and the Carlisle-Lindsay gold Democrats. In Pennsylvania there was a fight between the Republican ranks. In Virginia the Republican had no Georgia at ticket, and Democrats will elect a Governor. In Colorado there was a great mix-up among the silver forces.

nd their estimates were in a measure surmises.

Newspaper returns up to 10 o'clock tonight comprised 31 counties complete and 4 incomplete. Every populous county but 2 of these 58 show a fusion gain, warranting the declaration that fusion has carried in the state by 12,000.

Omaha, Nov. 3: At midnight returns have been received from forty-six of the eighty-eight counties of Nebraska, casting more than half of the vote of the state. These give Post 53,748; Sullivan, 60,133.

Jeffersonian Democrat, follow in the order named.

In the State the Republican landslides of the past two years have been reversed by the changing of something like 240,000 votes. Gov. Black's plurality last year was over 200,000. John Palmer, the Republican Secretary of State, won the year previous by over 100,000. The indications are that these enormous pluralities have been swept away, and a reverse plurality of between 30,000 and 50,000 is given. This greatest surprises of the returns are the great gains made in the Assembly by the Democrats, many of them being in counties and districts where there was no the Democrats, many of them being in counties and districts where there was no expectation on the part of the Democratic managers of winning. Republicans, exmanigers of winning. Republicans explain these gains by attributing them to the heated municipal campaigns and the trading of votes. Early returns indicated that the Republicans will still, control the Assembly by a largely decreased majority. More surprising, perhaps, than the returns on the State and Assembly district tickets were results of the municipal campaigns in the large cities. New York,

Buffalo, Rochester, Binghumton, Syra-cuse, Utica, Albany, Troy and Schenec-tady elected Democratic Mayors. In Al-bany the conditions were very similar to those in New York. Two Republican canlidates split up the vote of that party and allowed the Democrats to win. The comoined Republican vote was 2,000 in excess
of the Democratic vote.

11,452 behind that of 1896. Last year only 6.66 per cent failed to vote for President, and the estimated total vote this year of 528,000 shows that the falling off does not much exceed that of 1896. The vote for Tracy, the Republican mayoralty candidate, was divided by the candidacy of Seth Low upon a Citizens' union ticket. Low was second and Tracy third in the contest. The George, vote was inconsiderable. The death of its leader evidently distincerated his following, and thousands evidently voted for Tammany candidates. It is claimed that young George lost many votes through the failure of inspectors to all in his paster to mayoralty tickets. The finofficial vote for Mayor follows: Van Wyck, 235,800; Low, 140,873; Tracy, 101,833; George, 20,386; Gleasof, 521. The vote for Van Wyck is about 44.25 per cent of the total vote cast, or less than the 45.21 per cent cast for Bryan in 1896 in the same territory. The united vote for Low and Tracy shows 14,127 more than Van Wyck received. The metropolitan district is normally. Democratic and the plurality for Van Wyck is a return to not Van Wyck received. The metropolitan district is normally. Democratic and the plurality for Van Wyck is a return to nor-mal conditions in an election not influ-enced by national issues. Ohio.

Ohio.

In Ohio the official count will be necessary to satisfy the contestants. At the time this is written the more the respective parties figure on their returns the smaller their pluralities seem to become, while their claims increase in opposite directions. The closeness of the vote has smaller their pluralities seem to become, while their claims increase in opposite directions. The closeness of the vote has caused intense feeling and the usual cry of fraud. When the result was in doubt in 1885 it was discovered that the tally sheets were forged. Tuesday night the Republicans telegraphed to all their county committees to beware of the frauds of 1885. And when the Republicans were claiming the Legislature by only one or two majority on joint ballot the Democrats telegraphed their county committees to beware of all sorts of fraud and to remember that it was a majority of one by which the great crime of 1877 was committed that defeated Tilden. The State headquarters will be kept open until the official counts are made in all of the 85 counties of the State.

Meantime, the managers at both the Democratic and the Republican State headquarters claim the State. The Democrate and the Republican for Governor, and their State ticket on such a close margin that it will require the official figures to determine the plurality, Chairman McGonville, claims that the Democrats will have a majority of seven in the Legislature on joint ballot for Segator. He says the Republicans are claiming counties that are doubtful and others that the Democrats have carried by small pluralities. The Republican claim that Buehnell for Governor and the test of the Republicans will have a majority of two on the joint ballot of the Legislature for

57 members of the House are theirs, conceding 48 to the Democrats, with four doubtful.

Iowa elects L. M. Shaw and the Repub lican State ticket by about 25,000 plurality. The Republican State-committee claims 30,000 or more. The Legislature claims 30,000 or more. The Legislature is overwhelmingly Republican. It is figured that the Republican vote in the State fell off 25 per cent, while the fusion vote is only reduced about 10 per cent. The Instantist of 15,000. McKinley's plurality hast year was 03.532, but it included the votes of maby thousand sound money Democrats, who seattered this gear. Maryland returns up to midnight Tuesday leave it a matter of doubt whether the Legislature which will choose a successor to Senator Gorman will be Democratic or Republican. Both parties claim it. Gorman's friends claim that it is reasonably certain he will be returned.

Kentucky.

Kentucky has gone Democratic. The returns up to a late hour indicate that Sam J. Shackleford, the silver Democratic candidate for clerk of the Court of Appeals, has from 5,000 to 7,000 plurality. Louisville has elected a Democratic Mayor by at least 4,000.

Virginia. has elected the Democratic State ticket, headed by J. Hoge Tyler for Governor, by a majority exceeding 50,000, Returns indicate that not a Republican or Populist has been elected to the Legislature. There was a very small vote.

Pennsylvania.

Pennsylvania held its quietest election in many years. The feature was the ex-

A FLOWER WEDDING. The first large church wedding of

the fall was solemnized last evening at

Plymouth church at 8 o'clock, when Miss Rebecca Virginia Baker, daughter of the late Dr. Baker, and Mr. Charles Thomas Moffett, were married. All about the pulpit great palms were arranged, the wide leaves forming a canopy of green for the bridal party. In the midst of the palms were stationed potted white chrysauthemums, the feathery flowers gleaming against the background of green like great stars The guests began to gather early and when the great organ sounded its first triumphant strains of the Lohengrin bridal chorus, the church was filled with women in handsome gowns and mon in evening dress. As the familiar notes of the Lohengrin rang through be church the ushers stretched the through which the bridal party was to pass, and two tiny children, Eugene Moffett and Phillis Worth, carrying askets of roses, ushered the bride and her daintily-gowned maids to the altar The ting maid was gowned all in white and the little boy was costumed like a page, in white and pale blue satin. Theu came the six maids. Susanna Donaldson and Jane Redfield in white organdies over white silk, Mary Steel nd Grace Brooks in yellow organdie, Carrie Cragin and Mabel Hughes, flowered pink organdie, and Miss Grace Chapman, maid of honor. Each girl sarried a boquet of loosely arranged oses matching her gown in color. The were decolette and were trimmed

She carried a large boquet of lilies of the valley-tied with streamers of white satin ribbon.

If Billy Bryan will tour Nebraska in the next campaign the republican party will surely carry the state. His tour will surely carry the state. His tour in the recent campaign reduced the fusion majority to nearly half that of last fall.

If Wm. Jennings Bryan or Chairman Jones of the free silver democratic for ces, can get any comfort out of the re cent election they are welcome to it It's mighty cold comfort for the Chica go platform.

McKinley's administration has been vindicated, and Nebraska would have helped to do it had it not been for the men who betrayed the trust the repub lican party placed in them as state offi-cials. The wrong will eventually be righted.

Shaw's vote in lown was the largest ver cast for a republican candidate for Governor, being 16,000 higher than the highest. The democrats have only once polled a larger vote, and that when Boies was elected governor. The vote for Shaw was 224,555, while White the fusion nominee, received but 193, 567, a plurality for Shaw, of 30,988

REVOLT AGAINST THE BOSSES.

Platt, the New York boss, had the humiliation of seeing his candidate, Tracy, finish a bad third in the New York City election. He is hopelessly discredited. Respectable republicans will never again follow his lead and he must retire from the control of the faction now calling itself the republican party in New York State.

Quay, the Pennsylvania boss, carried John Koefoed the election, but his candidate was cut Claus Otte by republicans in a way that proved P H Hanson the intensity of feeling against his G L Miner, watchman

HOW THE PRESIDENT FEELS

A contemporary asks, "How does Mc inley like?" Pretty well, thank you President McKinley has been endorsed by his own state, and endorsed under circumstances that were strongly against him. Soft crowned hats of medium size are offered in many novel shapes, in many cases the crown-seeming to boonly, a fold of the scarfing that winds loosely over and about the brim. There is a fancy for wearing this sort of hat timed forward and to one side, as if to allow a thorough inspection of the windings of the trimming. Natural colored or undyed feathers Natural colored or undyed feathers of all kinds are greatly in vogue and many of the most stunning saflors bear this priming. An example of this sort appears in the first picture. It was embellished on one side by a wide bunch of quills, all in varying shades of natural color, the rest of the hat being in harmonious shades of brown. Sallors as well as walking hats are this eason furnished with elastics; indeed

ly, either lying flat or arranged in waterfall fashion, to take the place of algrette or plumes. In this picture they trim an artistic hat whose brim was turned up in Spanish fashion at the edge and was filled out to this edge by loose folds of rich satin, laid one back of the other, each one a little higher than the other, and so mounting to the height of the hat. All the folds swept about an aigrette of cock's feathers set on the right side. The pretty feature of the hat was that each fold was a different shade of satin, the outer one nearest the edge of the brim being a coppery brown, the next a metallic green and the last a bronze blue that was almost black. These three colors gleamed in the surface of the feathers also. The hat itself was a smooth felt of a dull copper red, and tipped down to the left a little, to bring high the aigrette of feathers.

While as a rule the lift of trimining that is a usual feature of almost all hats is set at the right side, in many cases it is pushed well to the back. And often, that it may stand very high and often, that it may stand very high and firm, it is thrust through an opening in the top of the crown, near the edge. The rolls and folds of the hat's scarfing come as high as the top of the crown, so that unless the construction of the list is investigated this trick is at the back the felt stands up in a sort of frill higher than the crown, giving the effect of an upturned brim. Some-times such frill stands all around the crown, entirely concealing it unless you are tall enough to look down upon the top of the hat. This weighting by folds and disguise of the brim by mounting the trimming to the height of the crown from the very edge of the brim, while distinctly the style, are likely to create a heavy effect not al-ways becoming to a delicate face and small features. For such wearers come hats like that of the concluding picture. It was black velvet, the crown hidden with puffing of pale blue moire, in which wound a band of jet edged with narrow chiffon pleating. A single with narrow callon pleating. A single plume and feathery algrettes towered from the back. It will be seen that this brim was left clear and permitted to curve slightly in leghorn fashion. While the desirable height was gained by the plume and skeleton aigrettes, no sug-gestion of weight came in them, and twelver lightness was binted by a delifurther lightness was hinted by a deli cate flower against the hair beneath the brim. The chiffon pleating saved the puffing from all indication of weight, and the hat was made alto-gether suitable for a delicate face.

As a nerve tonic Ripans Tabules have no equal. They invigorate the mind and strengthen the nerves, and more, they keep the stomach in good condition. A student of the University of Pennsylvanis recently said: "Just prior to the closing examinations I was compelled to work exceedingly hard, as the course is an exceptional one. I was up entil two and three o'clock in the morning studying. This was something I was not used to, and as a result my system was upeet. It became exceedingly difficult for me to concentrate my mind upon the work, and as for remembering, why, my head at times seemed a vacuum. I consulted a physician but his prescription failed to bring relief. Then I was advised to try Ripans Tabules and did so, and to my great delight was benefited immediately. After only a second dose I was restored to my wonted condition of good health and vigor of mind and passed my examinations successfully. I even graduated with honors. I gladly add my testimonial to that of thousands of others who assert that for strengthening the nerves and toning the system Ripans Tabules HAVE NO PERR."

A Great Magazine Feature.

The Ladies' Home Journal has se cured what promises to be the great magazine feature of 1998. It is entitled "The Inner Experiences of a Cabinet Member's wife." In a series of letters written by the wife of a Cabinet member to her sister at home, are detailed her actual experiences in Washington, frankly and freely given. The letters were written without any intention of publication. They give intimate peeps behind the curtain of high official and social life. They are absolutely fear-less, they study Washington life under the searchlight as it has never been before presented. The President and the highest officials of the land, with the most brilliant men and women of the Capital, are seen in the <u>most familiar</u> way. As these are all actual experiences the name of the writer is withheld.

The letters will doubtless excite much nal evidence to discover the secret The "Experiences," which will be beau tifully illustrated, begin in the Decem ber number and will continue for several months.
