THE SNOW.

Last Wednesday morning the people awoke to find it snowing and it continued to fall until Friday evening during which time snow to the depth of more than a foot fell. Fortunately during the entire time there was no wind and as a result, it lay almost on a level, drifting very little. Trains were delayed somewhat, and on Friday afternoon the Bloomfield train was abandoned, and did not make the run until Saturday afternoon. However, aside from this, no damage resulted, as the weather was not very cold. Some farmers have a few acres of corn still in the field, but for the most part the crop is husked and will work no hardships on anyone. Stock did not suffer at all, and Saturday night a warm wind came up blowing quite a gale, which rapidly melted the snow, causing it to settle and making a blizzard impossible. About three o'clock Sunday morning a light rain fell. The snow was the heaviest that has fallen since '88, and if it should remain on all winter, will be of incalculable value to the soil. It will fill it with amonia and insure abundant crops next year.

Since the above was in type much of the snow has disappeared.

Hunters have been having all kinds of sport hunting rabbits and quail since the snow and it is estimated that not less than 1,000 have been killed within a radius of five miles of the city. The snow was so deep that a gun was not necessary, simply a club would suffice, and as a result, rabbit meat has been at a discount.

The Kirke Comedy Company played to poor audiences every night last week, but it was not the fault of the company for their entertainments were good. The Company lost money and Wayne got another black eye as a show town and opera house stock fell a notch. However, we hope that a change will take place for the better in the future, as it no doubt will.

The wife of the President has given special permission to John Philip Sousa, "The March King," to dedicate to her his new composition, just finished, and which will be called "The Lady of the White House." Mrs. McKinley forwarded her permission last week to the editor of THE LADIES' HOME JOURNAL, which will publish the Sousa composition complete in its next issue. This magazine has also received for the same number a new and large portrait of Mrs. McKinley, taken a few days ago in the White House conservatory. This is the second photograph which the President's wife has allowed to be taken within ten years, the first portrait taken of her since 1887 having also gone to THE LADIES' HOME JOURNAL, which published it in its last October number causing the entire edition of that issue to be exhausted.

Mrs. Norris has been one of our people since the days of her girlhood and has endeared herself to all with whom she has been brought in contact, a self-denying worker in church and society, her going away fell heavily on the community. Ethel, too, will be mourned for by the little ones who have gathered around her during the Sabbath school hours, and her many girl friends of her own age. Many will be the hearts that will long remember the family, and wish them peace and prosperity in the new home they have gone to make.

THE WAYNE HERALD.

Entered at the Post Office at Wayne Nebraska as second class mail matter.

W. H. McNEAL, Editor.

Member of the Northeastern Nebraska Press Association

PUBLISHED EVERY THURSDAY.

The "free coinage of silver" bugaboo is as dead and dry as a dried herring but there still remain fish who can't see it that way.

The Lyons Sun issued a boom edition last week, and the write-up of Lyons and the famous Logan Valley was a creditable one. Nothing like newspaper enterprise.

Robt. Lynn has been appointed post master at Wausa to succeed L. E. Keeler. Bob is the right fellow for the place and we extend our hearty congratulations. Shake.

Another one of the boys has been named postmaster. This time it is W. A. Needham of the Bloomfield Monitor. The appointment is a merited one, and we extend congratulations to Bro. Needham.

The Madison Chronicle of last week was a handsome illustrated anniversary edition which was a mechanical beauty besides filling the bill in every other respect. Editor Seely is one of the progressive newspaper men.

Its real mean for the manufacturers, railroad corporations and others to raise the wages of their employees from ten to twenty per cent. It leaves the Bryanites without a footing upon which to stand, and it's terrible slippery for them just now.

With nineteen leading railroads of the country reporting an increase of 16 per cent. in the aggregate earnings for the month of November over the corresponding month last year the query "Have you met General Prosperity?" loses its sarcasm. Beec.

With the conviction of Gene Moore there no longer remains any grounds for charging republican judges with not doing their duty. Bartley, Bolln and Moore have received sentences at the hands of republican judges, for twenty, nineteen and eight years. Such a thing will probably never occur again in the history of the party in Nebraska.

The Kansas Packer, one of the leading stock journals of the country, says that "the first report of the state board of sheep commissioners of Montana, shows that that state during the year 1897 leads all states in wool production. Since March 1, last, 22,169,921 pounds of wool were sheared, which brought 11 1/2 cents, or 4 cents more than last year. The report also states that there are 3,670,855 sheep in Montana, or 500,000 more than last year. The value of sheep has nearly doubled since last year." Evidently there is a little prosperity in Montana.

The true objection against the greenback treasury note under existing conditions is not that it is a promise of the government to pay dollars, but that the law is such that this note can be used to drain the treasury of its dollars and even, in some emergencies, to endanger the parity of our currency and our whole financial system. The paper promise to pay dollars is often more convenient than the dollars themselves as everyone knows. But there is no reason why the treasury notes, while serving this convenience, should also cause the inconvenience and danger which we have experienced with the greenback. If the law were changed with respect to redemption, and so as to break the "endless chain," the treasury notes would be freed from the gravest objections to them. Journal.

We ask our readers to closely observe the following and then inform us if you do not believe prosperity is abounding in the land, and that the cry of the pops and free silverites that there is no prosperity and that wages have not been raised, etc., are the toothings of false prophets:

"Providence, R. I., Dec. 2.—The voluntary offer of Charles Fletcher to restore the schedule of 1893 to the operatives of the Providence and National worsted mills at Olneyville has been carried out, the operatives being notified of an increase of 20 per cent. Other mill owners have fallen into line and about 25,000 operatives will be drawing the new pay. The restoration of wages will also occur tomorrow in the Woonsocket and other factories about the state engaged in the woolen and worsted business.

Oh! that terrible tariff bill! According to the above 25,000 employees will be given 20 per cent. more wages with which to buy American products, and the same thing is occurring all over the country. Don't you think its prosperity? Don't you think the McKinley administration is all right, anyhow? Now, come, be honest. You know according to Bryan a year ago last fall this country was to be busted wide open if McKinley was elected. But alas, he was disappointed, it was a joke.

Gene Moore has been sentenced by a Lincoln judge to wear stripes for eight long years and to pay a fine of \$40,000, which is double the amount of his debt. There can be no doubt but that the sentence is a just one yet one aspect of the case makes it a very deplorable circumstance. Moore did not undertake to cover up his tracks. He kept the books of the state auditor's office in a proper manner and these showed his indebtedness to the state. He also freely admitted his debt, but he didn't have the money. Like Cheek-Toneray and many another poor devil, he thought he saw an opportunity to invest what money was in his custody in such a way as to make himself a stake and enable him to turn back to the state all that he had taken. But his gold mine was of the usual kind. The only dividend it paid was in assessments of the stockholders. The day of reckoning came, as they always will come, in some form. He must be banished from his loving wife and bright little daughter for eight long years. They will doubtless continue to love him, perhaps more than ever, because of their pity for his unhappy predicament. But he will always be a felon and they—well, it ought not to injure their innocent souls in the sight of men, as it will not in the sight of God. There are many men to whose custody other people's money is entrusted who use it for private purposes. Gene Moore is one of the comparatively few who have to suffer for it. His fate ought to be a warning, else his punishment is in vain. It ought to emphasize the necessity of a rigid adherence to the strict line of rectitude. No man has any right to use a single penny of other people's money for a single moment for his own purposes. The only true and safe way is to leave it utterly alone, and the world sadly needs to have this lesson impressed upon it. Fremont Tribune.

Mrs. M. B. Ford, Ruddell, Ill., suffered for eight years from dyspepsia and chronic constipation and was finally cured by using DeWitt's Little Early Risers, the famous little pills for all stomach and liver troubles.—Orth.

HUNTER.

Yes, we have a little snow. Miss Wilma Anderson began a winter term of school near Winside this week.

Three tramps broke into the school house in district 19 one night last week and proceeded to make themselves at home while they were residents there. Sloan Skiles and Charley Stiefken have gone into the business of catching jack rabbits. There is talk of organizing a spelling school in district 19. It will be a good thing. Someone start the ball rolling.

There was a very successful dance and oyster supper at Frank Carlson's on last Saturday evening, and also one at Herb Worth's the same evening.

Skating parties are all the go on the Logan at present.

What might have been a fatal accident occurred on Sunday. "Bud," son of O. P. Anderson, had been out hunting and on returning started to clean the snow off the rifle he had been using and while cleaning it, with his left hand over the muzzle, it was discharged the ball going through the fleshy part of his hand, but fortunately striking no bones. Dr. Williams was called and dressed the wound, and in a week or two "Bud" will be hunting rabbits again.

Sherman Baker, living about 4 miles southwest of Carroll, while driving in the cattle last Friday, the horse that he was riding slipped and fell on his leg breaking it in two places, below and above the knee. Drs. Webster and Love were called and reduced the fracture, and at last reports he was doing very nicely.

The President's message will be found on the inside pages of this week's HERALD. It is just such a document as the people like to read, a message for the whole people and not any "standard breeds." It is clear and concise and merits the commendation of every fair minded man. While perhaps that part of the message concerning Cuba will not meet with general approval, time will develop whether the course pursued is not the best. Especially is this true if one could see the events as presented in "Our Present War with Cuba" in the Cosmopolitan.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate, or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmner's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine, and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention THE WAYNE HERALD and send your address to Dr. Kilmner & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

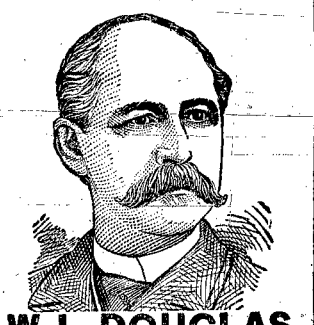

J. A. Perkins of Antiquity, O., was for thirty years needlessly tortured by physicians for the cure of eczema. He was quickly cured by using DeWitt's Witch Hazel Salve, the famous healing salve for piles and skin diseases.—Orth.
